Catalog Home

Welcome to the Online Catalog

Whether you are a prospective student, current student, or faculty or staff member at Xavier University, this online catalog is a powerful tool to help you quickly locate information regarding Xavier's programs, courses, policies, and procedures.

Purpose of the Catalog

The *Xavier University Undergraduate and Graduate Catalog* is the official source of the university's academic programs, policies, and procedures. It is published annually by the Office of the Registrar. The 2017-2018 edition includes academic and programmatic requirements for students entering the university during the fall 2017, spring 2018, and summer 2018 semesters. Although every effort is made to ensure the accuracy and currency of its contents, this catalog is not intended to state contractual terms and should not be regarded as a contract between the student and the institution.

Accessing Current Course Information

To access course information, click on the Course Descriptions link in the left-hand navigation. Please be aware, though, that the course offerings at Xavier University are continually under examination and revision. To locate the most current course prerequisites, co-requisites, registration restrictions, as well as times and locations for courses offered, please visit one of the following:

- To Search the Course Catalog: please click [here](#)
- To Search the Class Schedule: please click [here](#)
- To Use the Streamlined Schedule of Classes: please click the Self-Service link within the [Xavier Student Hub](#) or the [Xavier Employee Hub](#)

Looking for a Different Catalog?

Choose the **Archived Catalogs** link in the navigation bar to access previous editions of the catalog.

My Folder

By clicking on the "Add to Folder" link on any program, course, or policy, you can store information that is important to you. Register your own password to save your info, then return later to the My Folder link in the navigation bar, and start where you left off.
A Message from the President

Welcome to Xavier University. We are a comprehensive university offering a wide range of undergraduate and graduate degree programs. As a Jesuit Catholic university rooted in the liberal arts tradition, our mission is to educate each student intellectually, morally and spiritually. We create learning opportunities through rigorous academic and professional programs integrated with co-curricular engagement.

We provide many opportunities for academic and community service learning. Our outreach programs enhance and complete the educational enterprise through an inclusive environment of open and free inquiry, used to prepare students for a world that is diverse, complex and increasingly interdependent. Driven by our commitment to the common good and to the education of the whole person, the Xavier community challenges and supports students as they cultivate lives of reflection, compassion and informed action.

At Xavier, students develop skills to become successful and achieve their goals. Students learn and alumni come to live the value of their education, which is ultimately service to those around them, especially to the poor. We are proud to serve as an educational and cultural resource for Cincinnati, our surrounding communities and, indeed, for the entire world into which our students will go and find their futures. Learn more about Xavier. I am confident you will like what you find.

Cordially,

Michael J. Graham, S.J.
President

The Seal of Xavier University

The seal of Xavier University reflects the Jesuit order and the life of St. Xavier. The five vertical stripes suggest the coat of arms of the Xavier family. A right arm wearing the Jesuit robe holds aloft a cross signifies Xavier's preaching and missionary works. The three seashells denote his three journeys into Asia. Above the shield is the Jesuit seal, IHS, the first three letters of the name Jesus in Greek. Below is the Jesuit motto, A.M.D.G. [Ad Majorem Dei Gloriam], which translates “to the Greater Glory of God,” and Vidi Mirabilia Magna, a phrase from the Roman Breviary applied to St. Francis Xavier which translates “He has seen great wonders.”
Vision Statement

Xavier men and women become people of learning and reflection, integrity and achievement, in solidarity for and with others.

The Xavier Student Commitment

We are Xavier Musketeers.

We are unique individuals who come together in the spirit of St. Ignatius, to learn together, to serve together and we will succeed in changing the world together.

We act with integrity, justice and generosity.

All for one and one for all.

Mission and History

University Mission Statement

Xavier is a Jesuit Catholic university rooted in the liberal arts tradition. Our mission is to educate each student intellectually, morally and spiritually. We create learning opportunities through rigorous academic and professional programs integrated with co-curricular engagement. In an inclusive environment of open and free inquiry, we prepare students for a world that is diverse, complex and interdependent. Driven by our commitment to the common good and to the education of the whole person, the Xavier community challenges and supports students as they cultivate lives of reflection, compassion and informed action.

History

Xavier University was established in 1831 when the first bishop of Cincinnati, Edward Fenwick, raised a two-story building near the cathedral in downtown Cincinnati and opened its doors to educate seminarians and other young men in the Ohio area. This institute of arts and sciences was the first Catholic institution of higher learning in the Northwest Territory. The original name of the college was The Athenaeum, but it was dedicated from the beginning to the patronage of St. Francis Xavier.

At first, the college was administered by the bishop and his diocesan priests, but as it grew, it began to require professional academic leadership. In 1840, John Roothaan, the Jesuit Superior General, responded to the request of Fenwick's successor, Bishop John Purcell, and appointed three Jesuit priests, two brothers and two scholastics, to assume leadership of the college. Its name was changed to St. Xavier College in honor of the Jesuit educator under whose patronage the college was originally placed.

It was during these first few years as a Jesuit institution that Xavier began to take on the unique character and special role that it fulfills today. For example, a mercantile program was added to the curriculum in 1840 because the Jesuit educators recognized the need to supplement the traditional humanities education with a sound business program. Today, the University is recognized for its development of the Williams College of Business, which together with the other academic colleges - the College of Arts and Sciences and the College of Professional Sciences - provide students with a broad-based learning experience.

In 1841, Xavier offered its first night courses, beginning a tradition of serving the unique needs and schedules of professionals in the Cincinnati community, a tradition it proudly continues today.

St. Xavier College moved to its present location in the geographic center of the city in 1919, when its growth and development called for new and larger facilities. To reflect that growth and development, the name was changed to Xavier University in 1930. Since that time, the University has become coeducational (1969) and has implemented a host of new academic programs, faculties, community projects and student services.

A historical development at Xavier was the addition on July 1, 1980, of a second campus and a fourth undergraduate college, Edgecliff College. Founded in 1935 by the Sisters of Mercy as a women's liberal arts college, Edgecliff brought with it 45 years of dedication and
academic excellence. In 1985, the Edgecliff campus was sold, and all programs were moved to the main campus. In 1999, Alumni Hall was renovated and renamed Edgecliff Hall to bring to campus a physical presence of the legacy of Edgecliff College.

The campus grew in the 1980s with donations of property by the U.S. Shoe Corporation in 1982 and the Rainbo Baking Company in 1986 (including an 84,000-square-foot building) that increased Xavier's total campus acreage to 80 acres.

Other expansions included Xavier Village, a 56-unit student apartment complex constructed on 5.6 acres of property purchased from Peggy Becker Jackson in May 1988, and the Link complex, three acres received through a charitable trust from Joseph Link Jr. on Jan. 2, 1989. These additions brought Xavier's total area to 89 acres.

On April 21, 1991, James E. Hoff, S.J., was inaugurated as Xavier's 33rd president. Under Hoff's leadership, the University experienced a remarkable growth spurt. The addition of the Lindner Family Physics Building (1991) and the closing of a portion of Ledgewood Avenue in 1993 were followed by the creation of the residential and academic malls in the mid-1990's. The restoration of Hinkle, Schmidt and Edgecliff (formerly Alumni) halls, Bellarmine Chapel, and the construction of the Cintas Center and student recreation park soon followed. Academically, Hoff brought about some substantial changes, including the creation of the academic service-learning semesters, the Brueggeman Center for Dialogue, the doctoral program in psychology - Xavier's first doctoral-level course of study and the second PsyD program in Ohio - and the Weekend Degree Program. He also created the National Alumni Association.

In the fall of 2001, Michael J. Graham, S.J., was inaugurated as Xavier's 34th president, continuing the pattern of growth and prosperity, with particular focus on academics. A new academic vision statement helped drive Xavier to a significant increase in national recognition for its academics. A third honors program was added. The Conaton Learning Commons was constructed with 21st-century teaching and learning styles in mind. The addition of Smith Hall helped make the Williams College of Business one of the nation's most dynamic business schools by any measure. And a new four-dorm residence hall and dining complex named Fenwick Place was built to accommodate the growing demand for enrollment in the University. In 2006, Xavier celebrated its 175th anniversary, and Xavier's growth since its founding reflects its origins as a teaching institution that soundly prepares students for careers, graduate study or both. A Xavier education, particularly at the undergraduate level, is marked by an emphasis on liberal arts learning contained in Xavier's core curriculum. Equally important in the Xavier tradition is the synthesis of human, cultural and ethical values, concern and respect for all people, and an appreciation of the worth and dignity of the self and others.

A continued emphasis was also placed on Xavier's Jesuit heritage with the creation of the Center for Mission and Identity, which includes the Conway Institute for Jesuit Education, Ignatian programs and an online Jesuit resource service. The Dorothy Day Center for Faith and Justice and the Center for Interfaith Community Engagement were created to challenge and support students as they deepen their spiritual lives.

**Jesuit Education**

Xavier University offers its students the advantages of a quality liberal education, which has always been the center of a Jesuit university. Such an education enables the student to put personal academic goals in the context of the diverse achievements of civilization and the vast potential of the human person. Jesuit and Catholic education presumes that the truth about the world and humankind, discovered through human reason, cannot ultimately conflict with the truth of faith, since the two have a common origin in God. Indeed, the continuing dialogue between religious tradition and developing human wisdom is of primary importance in the search for ultimate truth.

The goal of a Jesuit and Catholic education is integration of the intellectual dimension of learning and the spiritual experience of the student, along with the development of a strong system of personal moral values. Such an education strives for the formation of the student's mind and heart into a habit of reaching out to the needs of today's and tomorrow's global society and, in the process, of reaching out to God.

The institution is committed to making available a rigorous academic and pre-professional learning environment, which educates each student intellectually, morally and spiritually.

**Accreditation**

Xavier University is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools. Xavier has been continuously accredited by the Commission since 1935. The Commission may be contacted via their website at http://www.ncahlc.org/, by mail at 30 N. LaSalle Street, Suite 2400, Chicago, Illinois 60602-2504, or by phone 1-800-621-7440. Xavier University is also accredited by the Ohio Board of Regents as a degree-granting institution, and is approved by Department of Education of State of Ohio for teacher certification, and counseling. The Athletic Training Education program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The Sport Management program is accredited by the Commission on Sports Management Accreditation. The Chemistry program is recognized by the American Chemical Society (ACS) for its training in chemistry. The School of Nursing is approved by the Ohio Board of Nursing for its nursing programs, and accredited by the Commission on Collegiate Nursing Education (CCNE) for its MSN and BSN programs. The BSN program, RN to MSN and the
Honor Societies and Professional Fraternities

**Alpha Epsilon Delta** The Ohio Kappa Chapter of Alpha Epsilon Delta was installed at Xavier University in April of 2001. AED is the national honor society for students preparing for careers in health professions. The mission of the society is to encourage excellence in pre-health professions scholarship, and to benefit health organizations, charities and the community. Members are chosen in recognition of their commitment to health care professions, academic scholarship and service.

**Alpha Sigma Nu** A chapter of this national honor fraternity for students of Jesuit colleges and universities was established at Xavier in 1939. Candidates for membership, chosen during their junior or senior year or from the graduate programs, must be outstanding in scholarship, in loyalty, and in service to the university.

**Chi Sigma Iota** The Xavier University Sigma Seta Chi chapter of Chi Sigma Iota is an international honor society open to professional counselors and counselors in training. Its mission is to promote scholarship, research, professionalism and leadership in the counseling field.

**Beta Gamma Sigma** is the international honor society serving business programs accredited by AACSB International -The Association to Advance Collegiate Schools of Business. Membership in Beta Gamma Sigma is the highest recognition a business student anywhere in the world can receive in a business program accredited by AACSB International.

**Delta Sigma Pi** The Theta Lambda Chapter of the International Fraternity of Delta Sigma Pi, a professional business fraternity, promotes academic achievement, leadership, and a closer affiliation between the business world and business students.

**Mortar Board** The D'Artagnan Chapter of Mortar Board was installed at Xavier in the spring of 1994. Mortar Board, founded in 1918 as the first national honor society for senior college women, is now a coeducational senior honor society which promotes equal opportunities among all people and emphasizes the advancement of the status of women. Members are chosen in recognition of their leadership, scholarship, and service.

**Omicron Delta Epsilon** ODE is the international honors society in economics, with 535 chapters. The Xavier University chapter was founded in 1970. Among the objectives of ODE are recognition of scholastic attainment, the honoring of outstanding achievements in economics, and the establishment of closer ties between students and faculty in economics within the college and with other universities.

**Phi Alpha Theta** Kappa Nu Chapter of the international honor society of history is open to history students (whether majors or not) who have distinguished themselves academically.

**Phi Beta Kappa** celebrates and advocates excellence in the liberal arts and sciences. Founded in 1776, it is the nation's oldest academic honor society and has more than 500,000 members with 276 chapters nationwide. Its campus chapters invite for induction the most outstanding arts and sciences students at America's leading colleges and universities.

**Pi Delta Phi** The purpose of this society is to recognize outstanding scholarship in the French language and its literature. To increase the knowledge and appreciation of Americans for the cultural contributions of the French-speaking world.

**Psi Chi** is the national honorary society that recognizes academic achievement by psychology majors. The Psi Chi chapter at Xavier is a member of the national Psi Chi society. Membership in the society is recognized throughout the profession of psychology as a mark of distinction.

**Sigma Delta Pi**'s purpose is to honor those who attain excellence in the study of the Spanish language and in the study of the literature and culture of the Spanish-speaking peoples.
**Sigma Pi Sigma** The Xavier University chapter of Sigma Pi Sigma, national physics honor society, honors students having high scholarship and promise of achievement in physics, promotes their interest in research, encourages professional spirit and friendship among physics students, and popularizes interest in physics.

**Sigma Theta Tau** Sigma Theta Tau is an international honor society for nursing students.

### Institutional Memberships

The University maintains memberships in these educational and learned organizations: Academy of Criminal Justice Sciences; Academy of Management; Academy of Political Science; American Academy of Political and Social Science; American Academy of Religion; American Accounting Association; American Art Therapy Association; American Association for State and Local History; American Association of Colleges of Nursing; American Association of Collegiate Registrars and Admissions Officers; Society of Biblical Literature; Society of Christian Ethics; Speech Communication
Assessment

Xavier University has demonstrated its commitment to excellence by instituting an assessment program that includes all aspects of the University and is ongoing. The goal of this program is the continual improvement of the educational experience at Xavier. The involvement of every member of the Xavier community-faculty, staff and students-is necessary to ensure that the assessment program is a success.

Xavier at a Glance

Location: On 189 acres in a residential section of Cincinnati, Ohio, which was ranked by Money magazine as the fifth best place to live in the Midwest, and is home to 15 Fortune 1000 companies and two professional sports teams. The city is known for its neighborhoods, parks, cultural activities, zoo, amusement parks, and seasonal events and festivals along the Ohio River.

Affiliation: Founded in 1831, Xavier University is a private, coeducational university. It is third largest independent institution in Ohio. It is the fourth oldest of the 28 Jesuit institutions of higher education in the United States, the sixth oldest Catholic university in the nation, and the first Catholic institution of higher education in the Northwest Territory.

National Honors: Xavier has been ranked among the top 10 for 17 consecutive years by U.S. News & World Report. Xavier is ranked among the nation's best colleges and universities by The Princeton Review and is on Forbes.com's list of America's best colleges.

Curriculum: Xavier offers 83 undergraduate areas of study from which to choose in the College of Arts and Sciences, the College of Professional Sciences, and the Williams College of Business. Undergraduate minors are offered in 57 areas of study. In addition, Xavier offers comprehensive preparation for admission to professional schools in the areas of medicine, dentistry, veterinary, optometry, and pharmacy. Graduate programs are offered in 30 areas, including a doctorate in psychology and a doctorate of education in Leadership Studies. Xavier also offers several certificate programs.

Enrollment: Approximately 7,000 students with about 4,540 undergraduates, and 2,405 graduate students. More than 85 percent of the freshman and sophomore students live on campus. Of the full-time undergraduates, 47 percent are men and 53 percent are women. Students come here from more than 46 states and 43 countries.

Typical Freshman Profile: The middle 50 percent of new students at Xavier have High School GPAs between 3.2 and 3.9; ACT composites from 22 to 27; SAT composites from 990 to 1180. More than 85 percent rank in the top half of their high school class. Approximately 90 percent live on campus in our modern residential facilities. The average freshman retention rate is 85 percent.

Faculty: Xavier has 343 full-time faculty and 323 part-time faculty. The student-faculty ratio is 12:1.

Activities: Students choose from approximately 150 different academic clubs and social organizations. Some of those organizations include student government association, student activities council, jazz and pep bands, choir, campus ministry, academic clubs, and intramurals.

Athletics: Division I in all 18 varsity sports and a member of the prestigious Atlantic 10 Conference. Sports include men's and women's basketball, cross country, golf, soccer, swimming, tennis, track, baseball, and women's volleyball. Club sports include boxing, crew, cycling, field hockey, ice hockey, lacrosse, martial arts, ultimate Frisbee, rugby, soccer, volleyball, fencing, sailing, snow skiing, and wrestling. Intramural programs are available in more than 30 sports including basketball, racquetball, volleyball, floor hockey, golf, soccer, and softball.

Scholarship Opportunities: Academic scholarships, which are competitive and renewable for four years, are offered in five categories. Departmental, alumni, athletic, performing and visual arts, multicultural, and other scholarships are also available.

Services and Resources for Students

True to its Jesuit and Catholic identity, Xavier's mission is to promote the growth and development of the whole student in a social, cultural, spiritual, physical, and academic context. Toward this end, the University offers a wide range of services and resources for students.

Academic and Career Resources

Career Development

http://www.xavier.edu/career/
513.745.3141
Conaton Learning Commons, Room 530 & Smith Hall, Room 120A

Career Development provides opportunities for students to gain essential career development and lifelong learning skills through a variety of developmental programs, services, and practical experiences. Staff members assist students in identifying career interests and developing necessary experiential, job and graduate school search and application skills such as resume writing, interviewing, employer/school identification and research. The office also manages the on-campus employment of financial aid awarded students and graduate assistants as well as assist students with identifying off campus part-time summer work experiences related to their career interest area. Further services include a Mentor program, on-campus interviews, a web-based job posting and resume system, and three annual career fairs.

The structure and institutional design of the Xavier University Montessori Teacher Education Program, contained within a university setting, is a unique one, as students are made aware of the variety of available career related resources through channels within the University. Students have access to multiple sources of information regarding employment, salary, and occupational advancement via the Career Development Office and website. Owing to its status as a not for profit university, Xavier University does not guarantee employment, salary, and occupational advancement.

Center for International Education (CIE)

Education Abroad

http://www.xavier.edu/study-abroad/
studyabroad@xavier.edu
513.745-2864  513.745-2876
Center for International Education, Gallagher Student Center, Room 230
The Center for International Education provides opportunities for Xavier students to enhance their academic experience by studying abroad. Programs offered vary in length from one week to a semester or full academic year. Courses are available in a variety of academic disciplines, meaning students are easily able to study abroad and stay on track toward graduation. Some programs allow students to apply institutional scholarships toward the travel, and other programs offer additional funding as well. Students are advised to consult with the Center for International Education early in order to plan ahead and explore all the options.

Programs are offered in a multitude of locations around the world. Students can choose direct exchange programs, short-term faculty-led programs offered during winter, spring, and summer breaks, service or internship programs, or programs through Xavier's extensive partner network. Again, it is best to meet with an advisor in the Center for International Education as soon as possible to help find the best program fit and experience abroad.

Study Abroad Credit: Any student who is interested in registering for study abroad must complete an application first within StudioAbroad, which can be accessed through the website. Additionally, the student must complete the Study Abroad Approval form prior to their study abroad experience. Upon completion of the course(s), the student must have an official transcript of the credits sent directly from the institution to Xavier University. The credit received is dependent on the type of study abroad the student completes.

- **Xavier Faculty-led Programs, Solidary Semester**: The student receives the letter grade for the course and the grade is computed into the student's Xavier grade point average.
- **Xavier affiliated Study Abroad, Fredin Scholarship, Direct Exchanges, Non-Xavier affiliated programs**: The student receives transfer credit for courses in which a grade of C or better (or its equivalent) is earned. The transfer credit, but not the grade, is recorded on the student's transcript and the grades are not computed in the student's Xavier grade point average.

### International Student & Scholar Services (ISSS)

**http://www.xavier.edu/international-students/**

**international@xavier.edu**

Phone 513-745-2864  Fax 513-745-2876

Center for International Education, Gallagher Student Center, Room 230

International Student and Scholar Services (ISSS) is a unit within the Center for International Education (CIE) that directly serves international students, scholars, and their families. ISSS staff provides support and advising to international students and scholars to help maintain visa statuses and legal compliance. Additionally, ISSS offer orientation, mentoring, leadership opportunities, and additional support to assist students and scholars in their personal development and academic goals. The Center for International Education serves as the focal point on campus to deal with the unique needs, questions and concerns to those who come to Xavier University from abroad. The CIE staff works collaboratively with campus faculty/staff, student organizations, and community members to enrich the campus community with intercultural programs throughout the year.

### Solidarity Semester: Nicaragua

**http://www.xavier.edu/solidarity-semester/index.cfm**

Phones 513-745-2864  Fax 513-745-2876

Center for International Education, Gallagher Student Center, Room 230

A primary goal of the entire semester is integration of the academic study with the experience of service. The academic component provides students with knowledge of the culture, religion, history, government and economics of Nicaragua and Central America, with an emphasis on issues of social justice. The service component functions as the medium through which learning occurs by placing all study in the context of living and working with the economically poor.

During the first week of their semester, and prior to departing, there is an orientation as well as classes. For the next 12-13 weeks, the students have classes both with Xavier professors and professors on-site. Students participate in academic-related travel and engage in service activities. Finally, students spend the last two weeks of the semester completing assignments and concluding an overall reflection about their experience.

### The Connection Center

**http://www.xavier.edu/ts/about/Connection-Center.cfm**
Conaton Learning Commons

The Connection Center in the Conaton Learning Commons is an integrated collection of informational and technological resources that support the University's teaching and learning activities, including the Digital Media Lab (where students can check out digital cameras, video cameras, and audio recorders), the Technology Training room, a student computing lab, instructional design studios and private and public group study spaces. The Connection Center desk is the hub of the Center, blending the Library's research help and circulation with the technical help desk to provide informational and technological support for the Xavier community. The Connection Center is located in the main lobby of the Conaton Learning Commons.

Library

http://www.xavier.edu/library/
513.745.3881
askus@xavier.edu

The Xavier University Library is committed to providing ample and equitable resources and services for all members of the Xavier community, to promote research and pedagogy.

Professional librarians are available to teach information literacy concepts to students, provide in-depth reference and research assistance, help faculty develop course materials and assessments, orient students to the Library, help find resources available from the Library, help find information related to classroom assignments, and more. Librarians can be reached by phone, email, text, chat, or in person at the Connection Center.

The Library provides access to electronic and print resources through its web site: www.xavier.edu/library. More than 80,000 electronic journals, 120,000 electronic books, 350 subscription research databases, and 7,000 streaming videos and 60,000 streaming video segments are accessible online. The Library's print collections consist of more than 350,000 items, including books, print journals, and audiovisual materials.

Beyond Xavier's own library collections, additional library resources are accessible through the OhioLINK Library Catalog - nearly 50 million items from 88 colleges, universities, affiliated hospitals and public libraries throughout the state are available to the Xavier community through this resource. OhioLINK items may be requested online and will be delivered in about 3 days through a state-wide courier system at no cost to students or faculty. Journal articles from collections at other libraries may also be requested online and will be delivered in digital format through the Library's document delivery services at no cost to students or faculty. The web site also provides detailed subject guides to Library resources, as well as web-based education and tutorials relating to copyright, technology, research skills, and more.

The Library has areas for group and individual studying as well as carrels and lounge seating. The Library provides dozens of computer workstations (laptops can be checked out at the Connection Center as well), plus facilities for viewing and listening to audiovisual materials, and facilities for printing, scanning and copying. Two rooms are available for Library instruction with an instructor's podium and computer projection: one is equipped with 24-computer workstations and the other provides seating for 36 with room for laptops. Wireless access is provided throughout the building.

The Library is located on the Academic Mall, and opens onto the Conaton Learning Commons and the Connection Center, complementing the services offered there.

Mathematics Tutoring Lab

http://www.xavier.edu/mathematics/About-the-Department.cfm
513.745.3069

Conaton Learning Commons

The Mathematics Tutoring Lab provides mathematics assistance in both major and non-major courses through MATH 171 (Calculus II). No appointment is necessary, and the services are free to Xavier students. Visit the website for operating hours.
Office of Academic Support

http://www.xavier.edu/academic-support/

513.745.3280

5th Floor, Conaton Learning Commons

The Office of Academic Support provides support services to facilitate learning. We offer academic support, which include subject specific tutoring and study skills assistance by appointment, as well as drop-in sessions, study groups, and Supplemental Instruction (SI). The services are free to Xavier students. Additionally, the Office of Academic Support manages the Goa program (courses CORE 101, CORE 102, and CORE 103), the first year co-curricular program.

Office of Disability Services

http://www.xavier.edu/disability-services

513.745.3280

Conaton Learning Commons Room 514

Disability services provides accommodations to approximately 200 students with disabilities each semester, including but not limited to students with mental health/psychological diagnoses, learning disabilities, attention deficit disorders, low vision/blindness, hard of hearing/deafness and medical conditions to name a few. Examples of accommodations may include extended time on exams/quizzes, alternative testing site with reduced distractions, books in an alternate format, note taking assistance, assistive technology, housing accommodations, and numerous additional accommodations designed to provide access to the learning environment. To receive academic accommodations to ensure equal access to your educational opportunities, please contact Disability services to begin the process or to address any questions you may have regarding accommodations. Please note that IEP's, 504 Plans and Service Plans do not automatically transfer from high school to college. You must contact Disability Services to reestablish academic accommodations as a college student.

Registrar

http://www.xavier.edu/registrar/

513.745.3941 phone 513.745.2969 fax

Musketeer Mezzanine in Fenwick Place

The Office of the Registrar provides services to support the instructional mission of the University for students, faculty, staff, and alumni in the following areas: class registration, academic records maintenance, schedule of classes, degree audit, academic transcripts, consortium, grade processing, degree certification, diploma production, commencement, transfer credit evaluation, enrollment verification, and catalog.

Student Success and Parent/Family Outreach

http://www.xavier.edu/student-success

513.745.3036 phone 513.745.3403 fax

Conaton Learning Commons (CLC), 5th floor

sturet@xavier.edu

The Office of Student Success and Parent/Family Outreach facilitates student intervention efforts and works with the various campus Solution Centers to foster student persistence and success. The success coaches assist students and their families in the resolution of academic, financial, and adjustment concerns. The staff communicates with students and their parents/family through P.R.E.S.S. (Professor's Report to Engage Student Success - an early alert process), midterm grade mailers to the parents/family of first-year students, the Parent Family Advisory Board (P/FAB), and regular updates through the office website, the parent/family website, and Muskie Family News (an e-Newsletter). The staff is available to meet with all students by appointment or on a walk-in basis.
TRiO-Student Support Services

http://www.xavier.edu/sss/
513.745.3758
5th Floor, Conaton Learning Commons

TRiO, Student Support Services (SSS) is an educational program funded by the United States Department of Education, whose goal is to graduate eligible students and prepare them for a post-baccalaureate education or career. The staff, three full-time professionals and a secretary, is committed to providing an academic, professional, financial and personal support system that guides student participants to benefit from educational opportunities and achieve a greater quality of life. To qualify for the program the student must meet the following guidelines: U.S. citizen or permanent resident, be a first generation college student (neither parent nor guardian has a bachelor's degree) and/or, meet federal income guidelines as outlined by the U.S. Department of Education and/or, have a verifiable disability. The TRiO, SSS program collaborates with several offices on campus that provide academic support and tutoring. Retention of TRiO, SSS students exceeds that of our typical student as does their graduation rate.

Writing Center

http://www.xavier.edu/writing_center/
513.745.2875
Room 400, Conaton Learning Commons

The James A. Glenn Writing Center provides free assistance with all aspects of the writing process for both undergraduate and graduate students, for any level of writing ability or field of study. Although most tutorials focus on a particular assignment or writing project, our broader mission is to improve students' overall writing skills and their understanding of the writing process. The Center is staffed by nine undergraduate peer tutors, two graduate tutors and the Director. All the tutors have taken a seminar-long training course on how to work one-on-one with people about their writing. The Center has a library of writing-related references and provides computers and printing for those who need a quiet place to write. Staff and faculty are also welcome to use the Center's resources. The Writing Center is open approximately fifty-eight hours each week during the academic year.

Campus Events, Activities, and Involvement

Gallagher Student Center (GSC)

http://www.xavier.edu/gsc/
513.745.3201

The Gallagher Student Center provides two primary services to the Xavier community: the Welcome Desk, and facility reservations. The Welcome Desk is the customer service center for the Gallagher Student Center. The Welcome Desk student staff act as campus operator, assist with the identification of campus resources, maintain information on staff telephone numbers, and provide general referrals for the campus. In addition, the GSC provides a wireless environment for laptops and houses a 350+ seat theater, five retail outlets, the University Bookstore, lounges, meeting rooms, and designated space for student organizations and clubs. The GSC is open 24/7 during the academic year, excluding holidays.

Recreational Sports

http://www.xavier.edu/recsports/
513.745.3208

Xavier University Recreational Sports provides the Xavier community with a broad, diversified sports program and activities that meet the needs and interests of the entire campus. It provides an environment that focuses on the total development of all students and, during that process, maintaining an atmosphere of fun.
O'Connor Sports Center is a student/faculty/staff use facility that provides opportunities to participate in informal recreation and fitness, instructional programs and intramural competitions. Located within the facility is a 10,000 square foot gymnasium, a 6-lane meter pool, 2 racquetball/handball courts, a weight/cardiovascular room, and locker rooms.

In addition, there are several leadership opportunities for students, including student managers, club sport team officers, intramural officials, lifeguards, and customer service and weight room supervisors. Students learn and enhance their teamwork, communication, and customer service skills. Several of these positions are also available during the summer and school vacations. Contact the Recreational Sports Department for further information regarding any of these positions.

**Student Involvement**

http://www.xavier.edu/involvement

513.745.3004

2nd Floor, Gallagher Student Center

The Office of Student Involvement believes that, through involvement, individuals discover their passions and develop their strengths to lead a purposeful life. As such, Student Involvement facilitates learning and social integration by providing students with experiences in leadership development, student organizations, campus events, and orientation.

The Office of Student Involvement coordinates campus-wide events such as Manresa New Student Orientation, Week of Welcome, and Family Weekend. Student involvement provides oversight and support for student clubs and organizations and directly advises the Student Government Association, Student Activities Council, and Senior Week Planning Committee. A full listing of student clubs and organizations is available at www.xavier.edu/clubs

**The XU Bands**

**Symphonic Winds**

The Xavier University Symphonic Winds is an auditioned ensemble dedicated to the excellent performance of quality traditional and contemporary literature, including original works for wind band as well as outstanding orchestral transcriptions. This is the premiere wind ensemble at Xavier University. In rehearsal and performance, the aesthetic aspect of the music is stressed and special emphasis is placed on musical style. The group maintains an active performance schedule in the Cincinnati area, but the Symphonic Winds also represent the Department of Music throughout Ohio and the surrounding states. Membership is open to all university students; the ensemble represents virtually every department across campus.

**Jazz Ensemble**

The Xavier University Jazz Ensemble enables students to experience the jazz idiom in a jazz big band. Selected pieces by the jazz masters and standards of the jazz idiom constitute the majority of performance material, but student arrangements are also vital component to rehearsals and concerts. All chosen material is varied in style, tempo, and difficulty while keeping in mind the educational needs of the ensemble. The Jazz Ensemble provides students an opportunity to play both in a traditional big band and learn small group improvisation skills. Membership is open to all Xavier students by audition.

**Pep Band**

The Xavier University Pep Band is a performance ensemble, with its members serving as musical ambassadors for the University. This ensemble performs at home men's and women's basketball games, and also does special performances at several other on-campus University events. The band also travels to tournament games for men's and women's basketball. Students enrolled in this course will learn a repertoire of "audience-pleasing" (popular music) literature. Students are exposed to select, specially arranged music, designed for this particular idiom, drawn from various musical genres. Membership is open to all Xavier students by audition.
Chamber Orchestra

The main goal of this course is to explore and perform the finest and most appropriate literature available for Chamber Orchestra. The ensemble is designed to be a professionally nurturing and meaningful music experience for string players through engaging rehearsals and performances. The content of this course will expose participants to both basic and new repertoire for Chamber Orchestra; this includes music for all periods and will include contemporary music. Membership is open to all Xavier students, faculty and staff by audition.

Health, Wellness, and Safety Resources

Campus Dining

xavier.edu/dining
513.745.4874
dining@xavier.edu

The James E. Hoff, S.J. Dining Commons, affectionately known as "The Hoff," located in Fenwick Place, is open to all students, faculty, and staff for breakfast, lunch, and dinner seven days a week during the academic year. Five award-winning main food platforms were designed just for you. Students will find multiple entree options each day to meet their various needs. Our Queen City Market salad bar is always fresh and even offers daily specials for vegans and students with gluten intolerance. The seven foot Wood Stone pizza oven at the Fireside Cookery turns out almost 125 pizzas each day from fresh dough made by our Pastry Chef in the bakery.

The University also partners with local businesses to bring a variety of retail food venues to campus that are considered as Best in Cincinnati eateries. In total, students will find seven additional dining options on campus including Blue Gibson, Coffee Emporium, Ryan's Pub and Subway in Gallagher Student Center; Currito Burrito located in Fenwick Place; and Bull Market Cafe at Smith Hall. Daily menus and hours of operation can be found online at xavier.edu/dining.

The University also offers a variety of Meal Plan options to the Xavier University Community, usable during the academic semesters. While all residence hall students are required to purchase a meal plan, meal plans are also popular with students living in campus apartments and commuter students living off campus. Students with special dietary restrictions or food allergies should contact Xavier Dining to discuss their specific needs.

Campus Police

http://www.xavier.edu/police/
http://www.xavier.edu/safety/
513.745.1000 (Emergency)
513.745.2000 (Non-Emergency)
1648 Musketeer Drive (across from the Common's Apartment Complex).

The mission of the Xavier University Campus Police Department is to protect life and property, to understand and serve the needs of any and all persons within the university community, to actively seek to identify community problems and solutions to these problems, to identify and prevent any criminal activity which may occur, and to improve the quality of life in this community.

Campus Police is staffed by professional officers 24 hours a day year round and provides general assistance to the Xavier community. In addition to providing for a safe and secure environment, Campus Police is also responsible for parking enforcement, crime prevention, and criminal investigations. The officers are State Certified and provide a full range of law enforcement services.

Quick Facts About Us

- Officers within the Department are State Certified with police powers and authority as set forth under section 1713.50 of the Ohio Revised Code. All officers have obtained at least 600 hours of specialized training through the Ohio Peace Officer's Training Academy as mandated under section 109.78(D) of the Ohio Revised Code.
- The Xavier University Police Department has Mutual Aid and Concurrent Jurisdiction Agreements with the Cincinnati and Norwood Police Departments.
The Xavier University Police Department has direct radio communications with the surrounding police, fire and EMS agencies servicing the Xavier community.

The Xavier University Police Department is committed to Community Oriented Policing and provides on-campus vehicle jump-starts and lockouts. Officers are also available for campus escorts during the hours of darkness.

The Xavier University Police Department administers the university's compliance with the Clery Act.

**McGrath Health and Wellness Center**

http://www.xavier.edu/health-wellness/

513.745.3022

1714 Cleneay Avenue

The Health and Counseling Center offers primary medical care, mental and Behavioral health counseling, and other health services to Xavier students.

Medical services are provided by board certified physicians and licensed registered nurses. Services include primary care, allergy treatment, travel medicine, lab tests, immunizations, and pharmacy. Health Services can provide individualised care for students with special or ongoing medical needs. There is no charge to see a physician or nurse, but there may be charges for medications, lab tests, and other services.

Counseling services are provided by licensed psychologists and counselors. The counselors provide for a wide range of mental and behavioral health matters, including anxiety, depression, adjustment, relationships, eating disorders, alcohol and drug issues, family, and other problems. There are no charges for counseling services.

The services of the Health and Wellness Center are available to all Xavier students, full or part-time, graduate and undergraduate, commuter or resident.

**Psychological Services Center**

http://www.xavier.edu/psychologicalservices/

513.745.3531

Sycamore House, Winding Way Avenue

The Psychological Services Center provides a wide range of professional services to the Xavier community. The Center serves students, faculty, and staff who are seeking assistance for the many difficulties which can accompany college and/or family life. Individual, couple, and family therapy are available for concerns which may include depression, stress, eating disorders, difficulties in relationships, family issues, sexual concerns, or sports-related difficulties of student athletes and coaches.

Although most concerns are handled through short-term counseling, the staff is equipped to deal with more serious difficulties which may require longer term treatment.

**Title IX Office**

http://www.xavier.edu/titleix/

513-745-3046

Title IX is the federal civil rights law that prohibits discrimination based on sex in all federally funded education programs and activities. Sex discrimination includes sexual harassment, sexual assault, dating violence, domestic violence, stalking, and other forms of gender-based harassment or violence. Xavier University does not tolerate sex discrimination. If students believe they have experienced sex discrimination or have questions about Title IX, please contact Xavier's Chief Title IX Officer Kate Lawson at 513-745-3046, lawsonk1@xavier.edu or visit the Title IX Office website. For free, confidential advocacy and support, contact Xavier's Advocacy & Prevention Coordinator at 513-904-9013.
Spirituality and Jesuit Mission and Identity

Center for Mission and Identity

http://www.xavier.edu/jesuitresource/index.cfm

By supporting our faculty and staff in realizing the Academic Vision and affirming the Jesuit tradition of pedagogical excellence, the Center for Mission and Identity ensures that students gain an education at Xavier University as pledged by the Mission Statement, which prepares them to be people of outstanding competence and compassion.

Interfaith Community Engagement

http://www.xavier.edu/interfaith/

513.745.3780

The Office of Interfaith Community Engagement works to create and strengthen a sense of community among individuals of diverse faiths on campus, in Cincinnati, and on the regional and national levels.

Located in Gallagher Student Center, the office is a student-centered initiative that both allow individuals to deepen their personal faith and enhance their understanding of other traditions. Further, it serves the larger community in areas of social justice, shared religious teachings, and leadership development.

The Dorothy Day Center for Faith and Justice

http://www.xavier.edu/cfj/

513.745.3567

We challenge and support students as they deepen their spiritual lives, pursue justice and promote pluralism.

As a Jesuit Catholic University we are committed to deepen our recognition of the sacred and pursue the common good. In a community forged from diversity, the Dorothy Day Center for Faith and Justice challenges and supports Xavier's diverse constituents as they pursue these complimentary ends. Through faith formation, education for social change and dialogue, we seek to equip students to live in a diverse world where faith matters and justice is imperative. Inspired by Ignatian spirituality and Catholic Social Teaching, the Center is built on the invitation to find God in all things and the principles of solidarity and common good. The doors of the Dorothy Day Center for Faith and Justice are open to all.

In pursuit of our mission, we challenge and support students as they:

- Deepen their spiritual lives and create communities of practice
- Respond to today's complex social problems and to become agents of social transformation
- Build relationships, with diverse constituents, anchored in an appreciation of shared values, difference and common action

We do this by facilitating:

- Support and resources for faith development to students of diverse religious and philosophical traditions
- Education through community action and social analysis
- Liturgy, prayer services and faith sharing groups
- Exploration of the intersection of faith and justice
- Dialogue amongst diverse constituents about complex social issues
- Reflection and discernment
- Leadership development for ministry and the common good
Additional Resources for Students

Center For Diversity and Inclusion

513.745.3181
2nd Floor, Gallagher Student Center

Mission & Vision

The mission of the center is to serve as an educational resource, rooted in inclusive excellence, that invites the entire campus to engage academically and socially with identity development, intersectionality, intergroup relations and justice in order to achieve a unifying consciousness for the common good at Xavier and the world at large.

We envision Xavier students, staff and faculty taking advantage of the rich diverse fabric of the university by embracing and grappling with issues of diversity, inclusion and social justice.

Engagement & Learning Outcomes

- All students will practice critical reflection and develop an appreciation for cultural differences.
- All students will develop cross-cultural communication competencies to promote intergroup engagement and global citizenship.
- Underrepresented students will be able to identify campus resources (i.e. faculty, support staff and mentors) to help them transition into the university setting and gain a better sense of identity and self-confidence.
- Underrepresented students will demonstrate a development of professional skills as evidenced by the ability to clearly articulate professional goals and to name two strategies for successful networking.

Commuter Services

http://www.xavier.edu/commuter/
513.745.3824
Office of Residence Life, Musketeer Mezzanine/Fenwick Place

Commuter Services provides programs and services designed to meet the diverse needs of Xavier's commuter and nontraditional student populations. Commuter Services offers information about offcampus housing, transportation alternatives, and campus events. The office maintains evening hours to ensure accessibility for commuter students and adult learners. The commuter lounge is located on the third floor of the Gallagher Student Center.

Financial Aid

http://www.xavier.edu/financial-aid/
513.745.3142
1st Floor, Schott Hall

The Office of Financial Aid's purpose is to provide the best possible service and information to students seeking to finance a Xavier education. The Office of Financial Aid is responsible for the administration of federal, state, and institutional resources, including scholarships, grants, and loans. It also awards Federal Work Study and acts as the liaison office between many private sources of student aid and the University. Students seeking financial assistance should contact the Office for application materials and individual counseling.

Intensive English Program (ESL)

http://www.xavier.edu/esl
international@xavier.edu
The Intensive English program offers language instruction for international students who have the goal of entering American colleges and universities or improving their ability to use English for professional purposes. The program is accredited by the Commission for English Language Program Accreditation (CEA), and it holds membership in the American Association of Intensive English Programs (AAIEP). ESL students at Xavier University receive instruction in English language and academic skills, including grammar, reading, composition, listening and pronunciation. In addition, optional electives such as speaking, TOEFL preparation, and oral fluency are available on a rotating basis. Please note that admission to the ESL program does not guarantee admission to a degree program at Xavier University; a separate application must be made for a degree program.

For more information on the Intensive English Program, please see English as a Second Language (ESL) Program.

For information on the English as a Second Language Bridge Program, please see English as a Second Language (ESL) Bridge Program.

Mailing Services

http://www.xavier.edu/mailing-services
513.745.3558
mailingservices@xavier.edu

The Mailing Services Center is located in the Campus Services Building and is a full service U.S. Postal Contract Station offering a full range of mailing and packaging services, including first-class, standard, ground, and express services. The Xavier Mail Center also serves as the main pick-up and drop-off location for 3rd party shipping solution companies such as FedEx, UPS, as well as delivery of edible and floral arrangements to the campus community.

The Mailing Services Center has regular business hours Monday - Friday from 8:30 a.m. until 5:00 p.m., excluding university holidays and closings. The lobby is accessible to mail box holders Monday - Sunday until 8:00 p.m. via the University ALL Card to enter.

All students living in the Xavier University Campus residence halls and apartments are assigned a mail box located in the Mailing Services Center. Mailbox assignments and access combinations are listed online once a student is assigned housing for the academic semester. Student mail is received during normal business hours and sorted into the mail boxes on the same day. Mail for non-residential students is returned or forwarded according to the U.S. Postal Guidelines. Student packages are received during normal business hours and they are logged in a timely manner for accuracy and accountability. Student package recipients are sent an email notification for any incoming package that has arrived that day, as well as reminder emails for aging packages are sent weekly.

Parking Services

http://www.xavier.edu/parking
513.745.1050
parkingservices@xavier.edu

Parking Services at Xavier University is a collaborative service between the Office of Auxiliary Services which manages the permit distribution and the Xavier Police Department which manages the enforcement of parking rules and regulations and issuance of citations. Please visit xavier.edu/parking for all of your general parking information regarding parking areas, rules and regulations and much more.

This website is also your avenue for self service management of all your parking needs around the clock, including Personal and Vehicle information, Permit Ordering and review, as well as Citation payments and/or appeal processing.

Residence Life

http://www.xavier.edu/residence-life/
513.745.3203
Musketeer Mezzanine in Fenwick Place
The Office of Residence Life provides many learning opportunities in a unique living environment. A fulltime, Masters degree-level Hall Director lives and works in each of the residence halls. The student staff is comprised of Senior Resident Assistants and Resident Assistants (RAs) who serve as peer helpers to the residents. The Residence Life staff strive to create a community atmosphere through social and educational programming.

The Commons Apartments, Village Apartments, University Apartments, Manor Apartments, and 1019 Dana Apartments provide on-campus housing options for upper-division students. The apartments are managed by an Apartment Director who is a full-time Masters degree-level staff member.

Student Identification Card (ALL Card)

http://www.xavier.edu/allcard

513.745.3374

allcard@xavier.edu

The student identification card, ALL Card, is required for all full-time and part-time students. ALL Cards are provided through the Office of Auxiliary Services in the Musketeer Mezzanine at Fenwick Place. The card is the official University identification and must be in your possession while on campus. The ID services include access for the library, recreational sports center, athletic and special event ticketing, meal plans and door access. In addition to serving as your identification card for easy access to campus facilities and programs, the ALL Card is used through its X Cash program, as a prepaid cash card to pay for on-campus services such as: bookstore, food services, copying, library fees, and vending.

The ALL Card technology even includes the student's ability to integrate U.S. Bank's complete banking as well as Internet banking services with Xavier's financial services system.

The system eliminates issues related to multiple cards for campus access and funds management. Convenience, simplicity and security... one card does it all!

University Conduct

513.745.3202

Consisting of two hearing boards, the Conduct Review Board and the University Discipline Board, the judicial process considers cases that occur off-campus as well as on-campus. Both boards hold students responsible and accountable for behaviors which are alleged to be inappropriate as reported to the University or have violated the published code of student conduct or the standards for off-campus living. Typically, the University Discipline Board hears cases that are considered to have a profound impact on the University community and where suspension or expulsion may be an option. The Conduct Review Board hears cases that include sanctions up to an including probation. The membership of both boards is comprised of students, faculty, and staff.

Admission to the University

- Undergraduate Admission
- Graduate Admission

Undergraduate Admission
Xavier University seeks to enroll students who are prepared to be successful academically and to contribute positively to the Xavier community as a whole. With this general guideline in mind, the admitting offices individually evaluate each applicant and the complete set of credentials submitted for consideration.

Admission Process for Freshmen

Xavier has a rolling admission process. Students may submit applications beginning in late summer (before the senior year) for fall or spring semester admission. Decisions will be mailed beginning in November and will continue on a rolling basis within three to four weeks of receiving all required application materials. Decisions are typically made based upon grades earned through the junior year as well as other criteria including the essay, activities and community involvement, guidance counselor recommendation, and ACT or SAT scores.

For deadlines and up to date admission information, please visit the Undergraduate Admission Office website at http://www.xavier.edu/undergraduate-admission or contact the office toll free at 877.982.3648.

Application Procedures

Students who wish to apply for undergraduate admission must do the following (note specific sections below dedicated to adult, transfer, and international applicants):

1. Submit one of the following admission applications, including all required credentials and documentation:
   a. The Xavier University electronic application (no fee) at https://www.xavier.edu/apply/
   b. The Xavier University paper application, which may be printed at www.xavier.edu/apply
   c. The Common Application online (no fee) at www.commonapp.org
   d. The Common Application paper version available at your high school.
2. Request that the high school (and any post-secondary institutions attended) forward directly to the Office of Admission a complete, official transcript of the academic record.
3. Arrange for official results of the Scholastic Assessment Test (SAT: Xavier's CEEB Code is 1965) and/or the American College Test (ACT: Xavier's ACT Code is 003366) to be forwarded directly to the Office of Admission. Results from the SAT and/or ACT may also be submitted on an official high school transcript.
4. Submit an essay of no fewer than 250 and no more than 500 words. The essay can be any sample of your original writing (e.g. a high school paper).
5. Request that your high school counselor complete the Xavier Counselor Recommendation form and/or submit a letter of recommendation on your behalf. A teacher recommendation may be submitted with permission from the Office of Admission.

Once admitted, and deposited, students must:

1. Purchase the Xavier-sponsored student health insurance plan or provide proof of other current, comparable coverage. All full-time students, regardless of age, must follow this requirement each academic year.
2. Present proof of either two MMR immunizations or immunity via measles, mumps rubella titer. International students may be required to have a TB test as determined by recommendation of the Health Services staff physician and based on Center for Disease Control guidelines. Present proof of meningitis vaccination received on or after the sixteenth birthday.

Further information will be sent to admitted students. Credentials submitted for admission consideration become the property of the University. All credentials should be on file by the appropriate deadline or at least one month before the first day of classes for desired semester of entrance. Please contact the Office of Admission for deadline information.

Any falsification of information on the application, transcripts, recommendations (where required), or test scores will be sufficient cause for disqualification for admission and/or scholarships, or dismissal from the University if the individual has enrolled. All tuition and fees paid and credit earned are forfeited under such dismissal.
Freshman Class Admission

Factors considered in making admission decisions for the freshman class include, but are not limited to, the following: the candidate's previous academic performance at the secondary school level, including the rigor of the curriculum pursued and the overall grade-point average achieved; results from either the ACT or SAT I exams; the candidate's rank in class (when available); the candidate's application essay; letters of recommendation, particularly from the candidate's guidance/college counselor; the candidate's extracurricular profile; life or work experiences (adult students); and any other factors which help to determine the candidate's potential for academic success.

Students who are offered admission must graduate from high school or, in some cases, present minimum results from the G.E.D. Homeschooled and transfer students are also evaluated on an individual basis. Each candidate is given a thorough, individual evaluation. The following secondary school course of study is recommended:

<table>

Transfer Student Admission

http://www.xavier.edu/transfer-and-adult

Xavier University welcomes students who have earned college credits after graduating from high school.

Transfer students must forward to the Office of Admission complete and official transcripts from all post-secondary institutions attended and a listing of all courses which may in progress and their corresponding credit hours. Please note, however, students who transfer to Xavier with 12 or more credit hours are not required to submit results of the ACT or SAT tests. The high school transcript is required.

All unmarried traditional-aged freshman and sophomore students (including transfer students) not residing with their legal guardian, or whose home addresses are located beyond a 35 mile radius from Xavier, are expected to reside on campus. Requests for exceptions to this regulation must be submitted in writing to the Director of Residence Life.

For information on acceptance of transfer credit, see the section on "Transfer Credit Policies."

Transfer Students Who Have Been Dismissed from Another Institution

If you have been dismissed from your home institution, Xavier University will honor the sanction that is part of your dismissal. The duration of your dismissal holds true at Xavier University. If you are eligible to return to your home institution in one term or one year, we will review your application for the equivalent term following the completion of your sanction.

International Student Admission

http://www.xavier.edu/international-admission/

Email: xuadmit@xavier.edu

To be considered for admission to Xavier University, international students must submit the following documents:
1. The Xavier International Application for Admission in either the paper or online format at https://www.xavier.edu/apply/ or the Common Application online at www.commonapp.org.
2. An English translation of a current secondary school (high school) degree or the diploma/certificate of the highest academic degree earned.
3. Evidence of English language proficiency demonstrated by
   a. A TOEFL (Test of English as a Foreign Language) test score of 550 on the paper based test, or
   b. 79 on the IBT for undergraduates, or
   c. 6.5 on the IELTS test
   d. PTE: 55
   e. MELAB: 75
   f. Step-Eiken: Grade Pre-1 (Japanese Students Only)

Students who want to improve their English skills can enroll in Xavier's ESL (English as a Second Language) program. To enter degree programs, undergraduate ESL students at Xavier are required to obtain a TOEFL score of 550 (or equivalent) plus a "B" average in ESL courses.

4. For transfers, an official transcript from each college or university attended is required. All transcripts must contain an official signature and institutional seal. Credit is granted from international schools that are recognized by the Ministry of Education in that country.

Once a student has been admitted, they must submit the following financial documentation to be issued a Form I-20.

1. An affidavit of payment of all expenses, educational and personal, signed by the person (sponsor) who will be responsible for the expenses. The affidavit must be signed in the presence of an official or notary public and must be a raised seal.

2. Official supporting statement from a bank stating that the sponsor is able to meet the required expenses should be signed and certified with a raised seal.

3. The photo page of the student's passport.

All documents must be received by the Office of Admission before a Form I-20 will be issued. International students who have been admitted to the University must meet the University's campus housing requirement.

Prior to the start of classes, students must submit an immunization record and medical history. International students may be required to have a TB test or other medical testing as determined by the Medical Director. International students must also present proof of health insurance equivalent to what is offered through Xavier University. All students will be required to present proof of health insurance or purchase health insurance through Xavier University each academic year. Students with F1 or J1 visa types cannot waive the Xavier health insurance.

**High School Equivalence (G.E.D.) Admission**

The G.E.D. (General Educational Development) examination is recognized in certain individual cases as a replacement for the high school diploma. Applicants should have copies of their scores and of the certificate forwarded directly to the Office of Admission. Candidates for admission who have taken the G.E.D. must complete an application for admission.

**Home-Schooled Admission**

Home-schooled students are recognized by the Office of Admission as eligible candidates for admission. Students who are home-schooled must submit an application for admission, a letter of recommendation from an outside source (not your home schooled educator), the appropriate documentation from state and/or national home schooling accreditting agencies, official transcripts, and scores of the ACT or SAT. More information is available at http://www.xavier.edu/undergraduate-admission/admission-process/Homeschooled-Students.cfm
Provisional Admission

Provisional admission may be granted by the Dean of Admission to a student who has been unable to complete arrangements for admission before registration dates. If the student fails to complete arrangements for formal admission within one month of the first day of class, the student's admission and registration will be canceled. Tuition paid will be refunded, but no fees can be refunded. Room and board charges will be prorated.

Enrollment Options for Current High School Students

Xavier University offers academically talented high school students the opportunity to apply and enroll as non-degree students in undergraduate courses on a space available basis. The non-degree application can be found at xavier.edu/transfer-and-adult

Summer Junior Program

Offered to high school students who have completed their junior year and who have a gradepoint average of at least a "B." Accepted students may take one course from selected offerings during the regular summer sessions at a nominal tuition charge. See http://www.xavier.edu/summer/ for more information.

Jump Start

A special two-week, residential program for high-school sophomores and juniors who are interested in studying pre-medicine or forensic science and experiencing life on campus. See http://www.xavier.edu/summer/ for more information.

Admission Process for Adult Students

Adult students have been out of high school four or more years and have less than 12 credit hours of transfer courses. The following steps are required for admission:

1. Complete free on-line application at xavier.edu/transfer-and-adult
2. Essay 250 - 500 word essay included with application submission.
3. Request High school transcripts and/or G.E.D. test scores to be sent to admission office.
4. An official transcript for each previously attended college or university.

A credential submitted for admission consideration becomes the property of the University. All credentials should be on file by the appropriate deadline.

Any falsification of information on the application or transcripts will be sufficient cause for disqualification for admission or dismissal from the University if the individual has enrolled. All tuition and fees paid and credit earned are forfeited under such dismissal.

Freshman Admission for Non-Traditional Students

Factors considered in making admission decisions for non-traditional students (students who have not been out of high school more than four years) who have not previously attended a college or university include, but are not limited to, the following: the candidate's previous academic performance at the secondary school level, including the rigor of the curriculum pursued and the overall grade-point
average achieved; results from either the ACT or SAT I exams if available; the candidate's rank in class (when available); life or work
experiences; and any other factors which help to determine the candidate's potential for academic success.

Non-Degree Student Admission

Students who do not wish to pursue a degree but wish to take undergraduate courses at Xavier may be admitted through the Admissions
Office. The application for non-degree admission can be located at xavier.edu/transfer-and-adult. There is no application fee, and
transcripts do not have to be submitted. Non-degree students who wish to change to degree-seeking status at Xavier must follow the
appropriate admission process.

Any student who has successfully completed college-level course work at another institution of higher education must arrange to have
an official transcript sent directly from the each college/university attended to Xavier's Office of Admission.

Credit will be accepted for all college-level academic courses (except co-op and life experience) in which a grade of "C" or better has
been earned at institutions of higher education that are accredited by one of the regional accrediting associations listed below:

1. MSA - Middle States Association of Colleges and Schools Commission on Higher Education
2. NCA-North Central Association of Colleges and Schools Higher Learning Commission
3. NEASC-New England Association of Schools and Colleges
4. NWCCU-Northwest Commission on Colleges and Universities
5. SACS-Southern Association of Colleges and Schools Commission on Colleges
6. WASC-Western Association of Schools and Colleges

Xavier's undergraduate colleges will accept course work successfully completed within the last ten years; credit over ten years old will
not be accepted if the course in question belongs to the student's major, minor, or, in the case of business students, pertains to the
"business core." Credits over ten years old which pertain to the undergraduate core curriculum or are general electives will usually be
accepted.

The transfer credit, but not the grade, is recorded on the student's transcript. The grades are not computed in the student's Xavier grade-
point average.

Application of Credit to Xavier Degrees (Degree Residency
Requirement)

At least one-half of the course requirements of the major or minor and the last 30 semester hours must be completed at Xavier
University for all undergraduate degrees. At least 60 semester hours toward a bachelor's degree must be earned in accredited four-year
institutions.

Earning Credit for Military or Other Professional Training

Students who have completed training courses through the armed forces or other professional training
programs may be eligible to receive college credit for courses completed. The Guide to the Evaluation of
Educational Experience in the Armed Services, published by the American Council on Education, is used to
determine what credit might be granted for military training. For courses completed through business and
professional organizations, the National Guide to Educational Credit for Training Programs, published by the
American Council on Education, is used to determine what credit can be granted. To request credit for military
or other professional training, students must submit transcripts or certificates of completion to the Office of
Admission.
Earning Credit through Advanced Placement (AP) Examinations

Students who have successfully completed Advanced Placement courses and have taken the appropriate AP examinations may apply for college credit for this work. Xavier grants credit in a number of disciplines depending on the student's score on the appropriate AP examination. Ordinarily, a score of "4" or better in an Advanced Placement (AP) examination will earn the student an advanced placement with credit in that discipline. To see how AP exams equate to Xavier credit, see the AP chart at http://www.xavier.edu/undergraduate-admission/admission-process/ap-ib-credit.cfm. Students must arrange to have official test scores sent to Xavier's Office of Admission. Xavier's school code is 1965.

Earning Credit through the College Level Examination Program (CLEP)

Xavier University participates on a limited basis in the College Level Examination Program (CLEP) of The College Board. Students should contact the Office of Admission. To see how CLEP exams equate to Xavier credit, please see http://www.xavier.edu/undergraduate-admission/admission-process/ap-ib-credit.cfm.

Earning Credit through the International Baccalaureate (IB) Program

Students who have successfully completed International Baccalaureate (IB) courses and have taken the appropriate Higher Level examinations may apply for college credit for this work. Xavier grants credit in a number of disciplines on an individual basis for the grades of 5, 6 and 7 earned in the IB higher level examinations. Additional information is available on the web at http://www.xavier.edu/undergraduate-admission/admission-process/ap-ib-credit.cfm. Students must arrange to have official test scores sent to Xavier University. Xavier's school code is 1965.

Undergraduate Reactivation (Readmission)

An undergraduate student who previously attended Xavier and has not been registered for one year is required to complete a Reactivation Form before registering. The form is available on the Office of the Registrar website. Applicants who wish to receive credit for coursework taken at another university during their absence from Xavier must submit an official transcript to the Office of Credential Evaluation. See the section on "Transfer Credit Policies" for limitations on the acceptance of coursework. Students are reactivated under the current catalog year, unless an exception is made by the dean.

Students suspended from Xavier or from other institutions for poor academic performance will not be eligible for reactivation before the lapse of at least one fall or spring semester. In all cases, reactivation and the conditions for such will be determined by the dean of the appropriate college. All prior financial obligations must be settled with the Office of the Bursar prior to reactivation, and the student must be in good standing with the Division of Student Life and Leadership.

Veterans' Education

Xavier University is approved for the education and training of veterans and their eligible dependents under all existing public laws. Requests for information should be referred to the Director of Veterans' Educational Benefits (DVA), Xavier University. Xavier is a Servicemembers Opportunity College (SOC). The toll-free number for DVA and SOC information is 1.800.368.5622.

Graduate Admission

Web site address is www.xavier.edu/graduate-admission/
Admission Status

Graduate students who have been admitted to Xavier University are designated as:

1. Degree students - those students officially accepted into a graduate degree program.
2. Non-degree students - those students who have not been officially accepted into a graduate degree program. No more than six semester hours earned while classified as a non-degree student may be transferred to a degree program. Please note: some graduate programs require the director’s permission to enroll as a non-degree student. Not all programs permit non-degree studies. Check with the respective office for details.
3. Licensure/Endorsement seeking - those students officially accepted in a licensure/endorsement program.

Admission-Degree Students

Materials for admission to most graduate programs should be submitted to the Office of The Graduate School. Master of Business Administration (MBA) applicants should submit all materials to the Operations Center, ML 5131. Master of Health Services Administration (MHSA) applicants should submit all materials to the MHSA Office. Admission materials for graduate programs in psychology (MA, & PsyD) should be submitted to the Department of Psychology. Admission materials for graduate programs in nursing (MSN) should be sent to the School of Nursing. Non-degree admission is not available for the MBA program.

To be considered for admission, a student must do the following:

1. Submit a completed degree application form [http://www.xavier.edu/graduate-admission](http://www.xavier.edu/graduate-admission).
2. Send one official transcript from all colleges or universities previously attended. The bachelor's degree must have been earned from a regionally accredited institution. In some instances, three year bachelor degrees are not acceptable for admission consideration.
3. Arrange for applicable official test scores to be sent:
   a. Master of Business Administration applicants - Graduate Management Admission Test (GMAT) or the Graduate Record Exam (GRE);
   b. Master of Health Services Administration applicants - Graduate Management Admission Test (GMAT) or Graduate Record Exam (GRE);
   c. Master of Science in Nursing applicants - Graduate Record Exam (GRE) or Graduate Management Admission Test (GMAT) is accepted;
   d. Occupational Therapy - Graduate Record Exam (GRE);
   e. Doctor of Psychology and Master of Arts in Industrial/Organizational Psychology and General Experimental Psychology - Graduate Record Exam (GRE) general knowledge required and Psychology Subject Test recommended. Psychology Subject Test required for those without psychology as their major or minor;
   f. Other Graduate Programs: The Miller Analogies Test (MAT) or the Graduate Record Exam (GRE) is accepted for the following programs: The MA programs in counseling and theology; the MEd programs; and the MS in criminal justice or the MS in Human Resource Development. The MA program in English requires either the GRE or two academic letters of reference. In most cases, the test requirement is waived for students who currently hold a graduate degree.
4. A student for whom English is not the primary language may be asked to demonstrate proficiency in the English language by taking the Test of English as a Foreign Language (TOEFL) or similar English language proficiency exams.
5. Submit other required documents as specified for individual programs.
Credentials received become the property of the University. Notification of acceptance or denial is sent to each applicant as soon as possible after receipt of all required materials. Official acceptance for graduate study is valid for a one-year period from the date of acceptance. Failure to enroll within the one-year period invalidates the acceptance and the individual must be readmitted to the program. Contact the Office of The Graduate School to inquire about readmission.

**Admission-Non-degree Students**

*(does not include MBA)*

To apply for admission as a non-degree student, one must submit a completed non-degree application form and current application fee to the Office of The Graduate School. Credentials received for admission become the property of the University. Non-degree admission is not available for the MBA program. Non-degree students are subject to the following restrictions:

1. Some courses are not available to non-degree students. Contact the Office of The Graduate School 513 745-3360 for information about specific courses. MHSA courses may not be taken without permission of the director of the Graduate Program in Health Services Administration. Psychology courses may not be taken without permission of the chair of the Psychology Department. Doctoral courses in leadership studies may not be taken without permission of the Chair of the Department of Educational Leadership & Human Resource Development.

2. Although there is no limit to the number of courses that may be taken as a non-degree student, **no more than six hours taken in non-degree status may be applied toward a graduate degree.**

3. A non-degree student may apply to a degree program by completing the application process for degree status.

4. Non-degree students are subject to all University policies described in the catalog.

**Teacher Licensure/Endorsement Admissions**

The Licensure/Endorsement admission is used for the following programs: traditional Early Childhood, Middle Childhood, Secondary, Special Education, Montessori Early Childhood, School Counseling, Clinical Mental Health Counseling, Educational Administration, Reading and Teaching of English Speakers of Other Languages (TESOL). To be considered for admission in one of these licensure or endorsement programs, a student must do the following.

1. Submit a completed licensure/endorsement application form. Applications can be obtained from the Office of The Graduate School. The current application fee must accompany the application form.
2. Send one official transcript from all colleges and universities previously attended. The bachelor's degree must have been earned from a regionally accredited institution.
3. Before you may be considered for the traditional Early Childhood Licensure Cohort, you must be admitted into the Master of Education program. Meet with an advisor to determine any prerequisite courses that might need to be taken before consideration is made for the early childhood cohort group that is selected during the spring semester each year.
4. To be considered for the licensure programs in early childhood education, secondary education, Montessori, middle childhood or special education, you must first meet with an advisor in that program.
5. To be considered for the School Counseling or Clinical Mental Health Counseling licensure program, you must also submit a 500 word statement of purpose and a resume.
6. A student for whom English is not the primary language may be asked to demonstrate proficiency in the English language by taking the Test of English as a Foreign Language (TOEFL).
7. A statement of moral character must be signed and notarized.
8. Some programs also require three letters of recommendation.

Credentials received become the property of the University. Notification of acceptance or denial is sent to each applicant as soon as possible after receipt of all required materials. Official acceptance for a licensure program is valid for a one-year period from the date of acceptance. Failure to enroll within the one-year period invalidates the acceptance and the individual must be readmitted to the program. Contact the Office of The Graduate School to inquire about readmission.

**Admission-International Students**

international@xavier.edu

To apply for admission, the student must submit the following items to the appropriate graduate admission office. Credentials received for admission become the property of the University.

1. An international student application form.
2. Evidence of proficiency in the English language. A Test of English as a Foreign Language (TOEFL) score of 550, or a computer based test score of 213, for graduate students is required. Students who want to improve their English skills can enroll in Xavier's English as a Second Language (ESL) program. To enter graduate degree programs, graduate ESL students need to obtain a TOEFL score of 550 (or a computer based test score of 213) and an average of "B" in ESL courses; and meet all other admission requirements. Internet based score should be 80 or higher with sub-scores of 20 or higher in each of the four subsections.

3. Official transcripts of the total college or university academic record (not just a diploma) from all schools attended (mark sheets should be provided where pertinent). Transcripts must have original signature and institution seal. Attested or "true" copies are not acceptable unless certified by an authorized official. An official evaluation of undergraduate transcripts by the World Education Service or equivalent agency placing the foreign education into the American system.

4. Recommendation letters are required by some programs.

5. Graduate Management Admissions Test (GMAT), Graduate Record Exam (GRE), or other necessary test scores.

6. Certified English translation accompanying all documents not issued in English.

7. (a) All documents must be received by the appropriate admission office for an admission decision to be made and hence for an I-20 form to be issued. (b) a separate statement from an official source to show that the student or sponsor is able to meet the expenses.

All documents must be received by the appropriate admission office before a Form I-20 will be issued. International students who have been admitted to the University must meet the University's campus housing requirement (see Residence Life). Prior to the start of classes, students must submit immunization records and personal health history. International students must have health insurance equivalent to what is offered through Xavier University.

Graduate Reactivation

A degree-seeking graduate student who previously attended Xavier and has not been registered for one full academic year must complete a Reactivation Form before attempting to register for classes again and continuing in the course of study. Applicants who want credit for coursework taken at another university during their absence from Xavier must submit an official transcript to their respective program director for credit review. See the entry Transfer Students below for time limitations on the acceptance of coursework. Students are reactivated under the current catalog year, unless an exception is made by the dean.

Students suspended from Xavier or from other institutions for poor scholarship will not be eligible for reactivation before the lapse of at least one fall or spring semester. In all cases, reactivation and the conditions for such will be determined by the dean of the appropriate college. All prior financial obligations must be settled with the Office of the Bursar prior to reactivation.

Transfer Students

Master's Degree

A maximum of six semester hours (or the equivalent) of graduate work completed at another accredited graduate school prior to initial admission to Xavier University may be transferred with the permission of the program director, the chair and the dean. In some cases, exceptions are made to the maximum number of transfer hours. Coursework that is part of a previously earned graduate degree is not accepted for transfer credit. Courses in which grades of "A" or "B" (3.000 or higher) are transferable. Credit earned through correspondence or television courses is not accepted. Decisions regarding transfer credit are made at the time of admission to degree seeking status.

A consortium of AACSB accredited Jesuit business schools has a reciprocity agreement stating that the majority of MBA credits taken by a student may be transferred into or from one consortium member to another, up to half of the core curriculum of any program, dependent upon the rules of each university or college. Contact the MBA Office or visit www.JesuitMBA.org for details.

Doctor of Psychology

Students accepted into the doctoral program who already hold a master's degree in a field akin to clinical psychology, may expect a portion of the previous graduate work to be credited toward fulfillment of the doctoral degree requirements. The allowable number of transferable credit hours may vary. In all cases a minimum of 75 hours of the required 114 must be completed at Xavier University.
Petitions for transfer of credit will be granted with the recommendation of the Department Chair and approval of the Dean of the College of Professional Sciences. Courses taken more than six years prior to entering the doctoral program will normally not be accepted for transfer.

**Doctor of Education (Ed.D.) in Leadership Studies**

Students who have completed post-master's coursework equivalent to an Ed.D. program at accredited institutions may receive some credit toward a portion of the fulfillment of the Ed.D. leadership, research and cognate courses. In all cases, a minimum of 45 hours of the required 60 for the Ed.D. degree must be completed at Xavier University. Courses graded on a pass/fail basis, or the equivalent, will not be accepted as transfer credit. Petitions for transfer of credit will be evaluated individually and will only be granted with the recommendation of the Dean, Associate Dean or department/program chair.

**Courses Taken at Other Institutions**

Graduate credit for a degree completed at another university is not transferable toward a graduate degree at Xavier once the student has begun a graduate program at Xavier. Exceptions to this policy may be made when:

1. A student is permanently transferred to another city by family obligations.
2. A student is specifically directed by the program director, chair or dean to take a course not available at Xavier.
3. Up to six semester hours of graduate course work obtained in the Greater Cincinnati Consortium of Colleges and Universities may be applied to a master's degree taken at Xavier, with the advanced written permission of the program director or dean. As a matter of policy, the official academic record lists only those graduate courses from other universities which apply toward an advanced degree or pertain to certification.

**Undergraduate Enrollment in Graduate Courses**

A currently enrolled Xavier University undergraduate student may begin graduate course work in certain areas of study, excluding the MBA, the M.S. in Human Resource Development, the Ed.D. in Leadership Studies and psychology (M.A. and Psy.D.) programs, as a non-degree graduate student if the student is within 12 hours of completing the undergraduate degree. The student must be in good academic standing and must obtain written approval from the appropriate dean and program director. The student must complete the non-degree graduate application for admission and return it to the appropriate admission office with the written permission attached.

All graduate courses taken will be for graduate credit only; the credit hours completed for graduate credit may not count toward the student's undergraduate degree. No more than 6 credit hours taken as a non-degree graduate student may apply toward a graduate degree. Some courses are not available to non-degree graduate students.

**Veterans' Education**

Xavier University is approved for the education and training of veterans and their eligible dependents under all existing public laws. Requests for information should be referred to the Director of Veterans' Educational Benefits, Xavier University. Xavier is a Servicemembers Opportunity College (SOC). The toll free number for DVA and SOC information is 1-800-368-5622.

**Reservation of Rights**

Xavier reserves the right to modify its graduation and other requirements as deemed necessary from time to time. The University will attempt to comply with the requirements published in the catalog for the year a student initially registers, provided the student continues in attendance without interruption of more than a year. Students who interrupt their attendance by more than a year and who later return must meet curricular requirements as determined by their dean.
Financial Aid

The purpose of the Office for Student Financial Assistance is to provide the best possible service and information to students financing a Xavier education.

The office is located in Schott Hall, 1st floor. Office hours are Monday-Friday, 8:30 a.m.-5:00 p.m., and Saturdays by appointment, 513 745-3142. Email address is: xufinaid@xavier.edu

Standards of Academic Progress

The Higher Education Act of 1965, as amended, requires Xavier University to develop and enforce standards of satisfactory academic progress prior to awarding any federal financial aid funds to students. Standards of satisfactory academic progress were established to encourage students to successfully complete courses for which federal financial aid is received, and to progress satisfactorily toward degree completion. Successful completion of a course for undergraduates is defined as receiving one of the following grades: A, A-, B+, B, B-, C+, C, C-, D+, D, or S. Successful completion of a course for graduate students is defined as receiving one of the following grades: A, A-, B+, B or C.

The standards apply to Federal financial aid programs, including Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, Federal Work Study, Federal Perkins Loan, Federal Direct Stafford Loan, Federal Direct Parent Loan for Undergraduate Students (PLUS), Graduate Plus Loans, and Federal Teach Grant. These financial aid standards of academic progress are separate from, and in addition to, academic standards required by the University for continued enrollment. The criteria used to determine academic progress are cumulative grade point average, cumulative completion rate (or pace), and maximum time frame for completion of educational objective. At the end of spring semester, the Office of Student Financial Assistance reviews students' academic progress. All periods of enrollment are reviewed, including semesters during which no financial aid was received.

Qualitative Requirement - Cumulative Grade Point Average (CGPA)

- Undergraduates at the freshman level must achieve a minimum cumulative grade point average of 1.750.
- Undergraduates at the sophomore level and above must achieve a minimum cumulative grade point average of 2.000.
- Graduate students must achieve a minimum cumulative grade point average of 2.800.

Quantitative Requirement - Completion Rate (Pace)

Students must successfully complete a minimum of 67% (two-thirds) of cumulative credit hours attempted (attempted hours are hours for which a charge was incurred, excluding audited hours). This is measured annually and on a cumulative basis. Transfer hours are included.

Maximum Time Frame for Completion of Educational Objective

Students must complete their degree program within 150% of the published length of their degree program. For example, if a major requires 120 credit hours to graduate, a student could not receive financial aid beyond 180 credits attempted (including transfer hours) whether or not financial aid was received for those credits.

Incomplete Grades

Incomplete grades are calculated as an "F" until the incomplete grade is changed to a complete grade.
Multiple Retakes - Repeated courses affect academic progress as follows:

- Cumulative Grade Point Average - Only the most recent grade counts in the student's CGPA.
- Cumulative Completion Rate - When a course is repeated it will be counted as attempted hours.
- Maximum Time Frame - A course that is repeated is only counted once as attempted hours.

Remedial Coursework

Remedial courses and English as a Second Language (ESL) courses are treated the same as other courses for satisfactory academic progress purposes. If a student who was enrolled in remedial course work does not maintain the minimum academic standards and he or she requests an appeal, the financial aid appeal committee will take into consideration the courses in which the student was enrolled.

Transfer Hours

Transfer hours that are accepted toward the student's academic program count in the overall maximum time frame calculation and in the cumulative completion (pace) calculation. Transfer hours have no effect upon the cumulative grade point average.

Changes of Major/Degree Program

Students who change majors or change programs are still held to the 150% maximum time frame rule. All credits attempted from the first major/program will count as attempted hours for the new major/program. The 150% maximum limit will be measured based on the number of credits required for the new major/program.

Second Bachelor Degrees

Students who enroll in a second bachelor degree program are still held to the 150% maximum time frame rule. However, only the credit hours from the first degree which apply to the second degree will be counted as attempted hours.

Timing of Reviews

Current financial aid recipients will have their academic progress reviewed at the end of the academic year. New financial aid recipients (i.e., those students who had never previously applied for aid) will have their academic progress reviewed when the Office of Student Financial Assistance receives the results of the Free Application for Federal Student Aid (FAFSA).

At the time of the review students who are not meeting the minimum requirements will be placed on financial aid suspension.

Financial Aid Suspension

Students who are placed on financial aid suspension are ineligible for financial aid for subsequent enrollment periods. During suspension students may be permitted to attend Xavier at their own expense to demonstrate academic progress.
Appeals

Appeal is a process by which a student who is not meeting the institution's satisfactory academic progress standards petitions the institution for reconsideration of the student's eligibility for Title IV, HEA program assistance. Students on financial aid suspension may appeal the loss of aid if extenuating circumstances prevented the students from making satisfactory progress. Circumstances which are considered extenuating are those which are unusual and/or unforeseen at the beginning of the enrollment period, such as: injury or illness of the student, death of a close relative, or other situations which were unexpected and beyond the student's control. Allowances may also be made for students who have a documented disability. The appeal must include description of the circumstances and what has changed that will allow the student to make SAP at the next evaluation. Appeals must be made in writing to the Financial Aid Standards of Academic Progress Appeals Committee using the SAP Appeal Form available on the Xavier website. Students are notified in writing of the results of their appeal. The possible appeal results are listed below.

Approved Appeals - Probationary Status

Students who appeal may be granted a probationary period. At the end of a probationary period, students must be meeting the satisfactory academic progress requirements or must be successfully meeting requirements of an academic plan in order to continue to receive financial assistance.

Denied Appeals - Reinstatement of Eligibility

If an appeal is denied, students may choose to attend Xavier at their own expense while on financial aid suspension. They will not be automatically eligible for financial aid upon seeking reinstatement. Students must be meeting the academic progress standards in order to regain federal student aid eligibility for subsequent enrollment periods. A minimum of six credit hours earned at Xavier must be completed in order to be considered for reinstatement.

Information Sources

Information concerning university-sponsored scholarships and grants is available from the following sources:

1. Undergraduate degree programs: the Office of Student Financial Assistance.
2. Reserve Officers' Training Corps (ROTC) Scholarships: the Professor of Military Science.

Xavier Scholarships

Scholarships are funds awarded to students based on academic, athletic, artistic or other talents. Scholarships do not have to be repaid. All Xavier students are automatically considered for scholarships when they apply for admission.

Xavier offers scholarships in the following areas:

- Academic
- Service
- Performing & Visual Arts
- Alumni
- Multicultural
- Special
- Athletic
- ROTC
- Returning Students

For detailed information regarding each type of scholarship, visit http://www.xavier.edu/undergraduate-admission/Scholarships.cfm
Regulations Concerning Scholarships

1. With the exception of the Fredin Memorial Scholarships, all Xavier-sponsored scholarships are applicable to tuition only. They may not be applied to the cost of room, board, fees, or summer school courses, nor are they applicable to courses taken during the senior year in the programs of Medical Technology, Applied Biology, Applied Chemistry and Applied Physics.
2. Only full-time students are eligible for scholarships. Full-time enrollment is defined as students enrolled 12 or more credit hours per semester.
3. Scholarships must be accepted for the period of time indicated in the award notification from the Office of Student Financial Assistance, and they are forfeited in the event that the recipient does not enroll.
4. It is understood that the scholarship stipend will be divided evenly between the fall and spring semesters. Hence, recipients who attend only one semester will receive only one-half of their award.
5. Scholarships may be pro-rated in the final year if the recipient does not need to take a full course load to graduate.
6. Use of scholarships during the summer term will be considered on an individual basis.
7. All scholarships are awarded at the discretion of the Financial Aid and Scholarship Committee of Xavier University. The committee reserves the right to adjust the scholarship stipend if the holder receives financial aid from some other source.

Xavier Financial Aid

Xavier Grants

Xavier University awards grants to students who demonstrate financial need. Students must complete the Free Application for Federal Student Aid (FAFSA). Students whose FAFSA is received at the federal processor by February 15 will receive priority consideration.

Family Grants

Xavier University provides partial grants when there are two or more siblings enrolled full-time as undergraduates at Xavier during the same semester. Contact the Office of Student Financial Assistance for additional information.

Athletic Grants-in-Aid

These grants are available through the Office of Athletics. Contact the Office of Athletics for information and assistance 513 745-3413.

Grants - Adult, Evening, and Weekend Students

The Office of Student Financial Assistance awards grant funds for Adult and Part-time Students students including the Weekend Degree Program. Students are required to file the Free Application for Federal Student Aid (FAFSA) to be considered. The grants are based on GPA and financial need. For further information contact the Office of Student Financial Assistance 513 745-3142.

Tuition Payment Plans

A payment plan is available through the Office of the Bursar. For further information, contact the Office of the Bursar at (513) 745-3435 or visit www.xavier.edu/payment-plans.

Federal Grants

Students must complete the Free Application for Federal Student Aid (FAFSA) each year. In addition, students must meet the following requirements to apply for federal financial aid:
1. Be a U.S. citizen or an eligible non-citizen.
2. Maintain satisfactory academic progress.
3. Be enrolled as a student in a degree program.
4. Not be in default on any federal loan or owe a refund on a federal grant.
5. Have demonstrated financial need.
6. Not have been convicted of an offense involving either the possession or sale of illegal drugs.

Federal Pell Grant

The Pell Grant Program provides grants to students with exceptional financial need. In order to be eligible for the Pell Grant the student must file the FAFSA. The amount of the Pell grant varies based on the level of financial need and the number of credit hours in which the student enrolls.

Federal Supplemental Educational Opportunity Grant (SEOG)

The Supplemental Educational Opportunity Grant is also for students with exceptional financial need (with priority given to Pell Grant recipients). The amount of the award varies and is limited by federal funding.

Federal Work-Study Program (FWS)

The Federal Work-Study Program provides students who have financial need the opportunity to earn income from jobs. Earnings for this program are funded by both the federal government and the university. The student's total FWS award depends on the student's financial need, the amount of money the university has for the program and the aid the student has from other programs. Students who accept employment are paid bi-weekly by direct deposit.

Federal Perkins Loan

The Perkins Loan is a low-interest loan that may be offered to students with financial need. Recipients are selected by the University. The federal government pays the interest while the student is enrolled in college as at least a half-time student. Repayment begins on a monthly basis nine months after the borrower ceases to be enrolled at least half-time.

Federal Direct Stafford Loan (subsidized)

A subsidized Stafford Loan is a low-interest loan made to college students by the federal government. The student pays an origination fee and insurance premium, but the federal government pays the interest while the student is enrolled in college as at least a half-time student. Interest and principal repayment start six months after the borrower ceases to be at least half-time.

Federal Direct Stafford Loan (unsubsidized)

An unsubsidized Stafford Loan is similar to the subsidized Stafford, except the student is responsible for interest payments while enrolled. Eligibility is not based on financial need.

Federal Direct Parent Loan for Undergraduate Students (PLUS)

Parents may borrow up to the total cost of attendance (tuition, room, board, books, etc.), minus financial aid, for each of their dependents attending college. There is no limit on family earnings. The interest rate is variable. Interest begins accruing at disbursement of the funds. Parents start making interest repayments approximately 60 days after disbursement. The loan must be completely repaid within 10 years from the most recent loan.
State Scholarships and Grants

Ohio College Opportunity Grant (OCOG)

OCOG is a need based grant from the state of Ohio to assist resident undergraduate students from low and moderate income families. Awards are based on family income with consideration given to the number of dependents in the family. Application is made when residents complete the federal FAFSA form.

Other State Grants

Students who qualify for state grants from their home states of Connecticut, Massachusetts, New Jersey, Pennsylvania, Rhode Island, and Vermont may use those funds at Xavier. For information on grant programs available to residents of these states, contact the Board of Education in each state.

How Withdrawing from School Affects Financial Aid

Federal Aid

When a student completely withdraws (both officially and unofficially) from Xavier before completing the term, federal regulations require that the University determine whether any of the student's federal aid, other than Federal Work Study, has to be returned. Federal aid includes the Federal Direct Subsidized and Unsubsidized Stafford Loan, Federal Pell Grant, Federal Supplemental Opportunity Grant (FSEOG), Federal Perkins Loan, and the Federal Direct PLUS Loan. A student "earns" federal aid based upon the length of time he or she remained enrolled for the semester. The amount of federal aid earned is in direct proportion to the percentage of time the student completed. The percentage of time completed is calculated by dividing the number of days in the semester by the number of days completed. If a student completed more than 60% of the semester, all federal aid is considered earned.

To determine the number of days completed, Xavier identifies the date the student withdrew from the University. The date of withdrawal for students who officially withdraw is the date that the student begins the withdrawal process. To begin the withdrawal process, the student must notify the appropriate college dean in person or in writing. A student who "unofficially" withdraws (stops attending all classes without notifying the University) is considered to be withdrawn as of the midpoint of the semester.

In those cases where federal aid must be returned, the University and the student share the responsibility. Xavier will notify the student in writing of his or her responsibility to return any federal aid. Federal grant funds must be returned immediately after the student is notified by the University. Until the student returns the federal grant money, he or she is ineligible for further federal assistance should he or she return to Xavier or transfer to another school. Federal loan funds are returned under the terms of the student's promissory note.

Federal aid that is considered "unearned" is returned in the following order:

1. Unsubsidized Stafford Loan
2. Subsidized Stafford Loan
3. Federal Perkins Loan
4. Federal PLUS Loan
5. Federal Pell Grant
6. Federal Supplemental Opportunity Grant

In some cases, the return of federal aid may cause a balance due on the student's account. The student must contact Xavier University's Bursar's Office to arrange for payment of the amount due.

Xavier University Aid and State Aid

Students who withdraw prior to the end of Xavier University's published refund schedule, may receive a reduction in charges. If a reduction of charges occurs, the student's Xavier University funds and state funds may also be reduced. Xavier and state aid are reduced by the percentage at which the student's charges were reduced.

In some cases, the reduction of Xavier University funds and state funds may cause a balance due on the student's account. The student must contact Xavier University's Office of the Bursar to arrange payment of the amount due.
Graduate Study Grants and Assistantships

Xavier University offers a limited number of departmental scholarships, graduate study grants and graduate assistantships. Part-time or full-time graduate students may apply for graduate study grants, available for MA in Community and School Counseling, MEd, MS, and licensure programs. To apply, students should complete the Free Application for Federal Student Aid (FAFSA). Receipt of the FAFSA indicates your interest in being considered for grants. In some cases a separate application will need to be completed. Graduate assistantship positions, offering tuition remission and an hourly wage, are available in many departments. Graduate assistantship positions are posted each February and October. Other positions are posted as they become available. Contact the Office of Graduate Services for specific information and applications.

MBA, MHSA, and Psychology graduate students should contact their respective admission offices for information on graduate assistantships and scholarships within those departments or programs.

Financial Information

- Financial Aid
- Tuition and Fees

Tuition and Fees

The University reviews its financial policies and procedures on a continuing basis in order to operate in an efficient and effective manner. Policies contained in this section are those in effect as of publication and subject to change as deemed necessary by the University.

Fee Payment

The Office of the Bursar is responsible for the assessment and collection of tuition and fees payable to Xavier University. Inquiries should be directed to the Office of the Bursar, 3800 Victory Parkway, Cincinnati OH 45207-3361. You may contact the Bursar's Office staff at 513 745-3435, by email at xubursar@xavier.edu or through the Bursar's Office website at www.xavier.edu/bursar. All prior financial obligations to the University must be paid in full before registration will be permitted for any term. If payment or other arrangement is not made by the announced deadline for the upcoming term, the student's registration may be cancelled. University regulations prohibit class registration and the release of transcripts and diplomas for students whose accounts with the University are delinquent.

The Office of the Bursar accepts cash and checks over the counter, checks and money orders by U.S. Mail. Credit card (Discover Card, MasterCard, Visa, and American Express) and electronic check (eChecks) payments are only accepted online. Credit card payments have a convenience fee associated with each transaction. Students' bursar accounts are subject to late fees. More information can be obtained by visiting www.xavier.edu/bursar.

Payment Plan, Bill Dates and Due Dates

Xavier University does not mail paper bills. Electronic bills (eBills) are published on or about the 15th of each month. The due date for each eBill is the 1st of the next month. For example, the first eBill for the Fall semester is published on or about July 15th and the due date is August 1st. The next eBill is published on August 15th with a due date of September 1st and so on. For the Spring semester, the first eBill will be published on or about December 15th with a due date of January 1st. For the Summer semester, the first eBill is published on or about April 15th with a due date of May 1st.

Students who intend on paying their balance in full each month do not need to enroll in the payment plan, however, they must pay in full on or before the due date of the 1st of each month. If payment in full is not made on or before the 1st of each month, a late fee will be assessed. It is important for students and/or Authorized Users to view their monthly eBills on a monthly basis in the event additional charges have been assessed that need to be paid by the 1st of the month. For more information on late fees, visit www.xavier.edu/bursar.
Students who intend on paying their balance over time, in monthly installments, must enroll in the X-Flex Payment Plan (X-Flex) each semester. This is done by the student through their online access via the Student Hub or by an Authorized User using their own online access to their student's ePayment site. By enrolling in X-Flex, the student agrees to the Terms and Conditions associated with being a registered student at Xavier University.

Here are the features of the X-Flex:

- Students can spread their Total Balance for the Fall and Spring semester over 4 monthly installments (3 monthly installments for Summer semester) or pay their Total Balance in full each month. Students' bursar accounts are subject to late fees if payments are not made on or before the due date. Visit www.xavier.edu/payment-plans for more information.
- The minimum amount that must be paid each month is the amount shown on the student's X-Flex Payment Plan schedule. Review the Frequently asked Questions on the Bursar's web site, http://www.xavier.edu/bursar/Xavier-Pay-Frequently-Asked-Questions.cfm for information on where to view your payment schedule.
- Late fees are assessed on the last business day prior to the 15th of each month. If the 15th falls on a weekend or holiday, then the eBill will be published on the last business day prior to the 15th and any late fee will be assessed one business day prior to that.
- Installment payments are scheduled in this manner. For the Fall semester, payments are due in August, September, October, and November. For the Spring semester, payments are due in January, February, March, and April. For the Summer semester, payments are due in May, June, and July. The Due Date is the 1st of each month.
- An enrollment fee is due and payable when you enroll in the X-Flex Payment Plan. The X-Flex is term-based which means that the student has to enroll each semester and pay the enrollment fee each semester they are in the X-Flex. For more information on the enrollment fee, late fees, and payment plan, visit http://www.xavier.edu/payment-plans/.
- All charges and payments are shown on one monthly eBill statement.
- X-Flex is available to all students. If the student has financial aid and has completed all of the necessary paperwork, this payment plan will subtract the financial aid from the Total Balance and calculate the minimum installment payment.

For students who work for an employer that provides tuition reimbursement, it is recommended that the student pay for their first semester on their own by enrolling in the X-Flex Payment Plan, taking out a federal loan(s) (must complete the FAFSA), applying for scholarships/grants, using savings, etc., then get reimbursed at the end of the semester by their employer. They can use the reimbursement to help pay for the following semester and this will repeat until their final semester when they will receive one last reimbursement that can be used to pay off/reduce their first semester debt, if any was incurred. This process helps to safeguard against changes that may take place with employee benefits or employment status.

Executive and Off-Site MBA students will be advised on the payment plan by their respective program coordinator. Detailed information on the payment plan can be found on our website at http://www.xavier.edu/payment-plans/under Frequently Asked Questions.

Registration

Students who register during priority registration for the fall and spring semesters will receive an eBill detailing charges for tuition, fees, housing and board (if applicable), in addition to estimated financial aid arranged through the University's Office of Student Financial Assistance as of that date. Payment is due approximately three weeks before the beginning of the semester. Payment must be made by the due date, or the student's class registration may be canceled and the student would have to re-register during formal registration. If a student's class registration is cancelled for non-payment, there is no guarantee that the student will be able to obtain the same class schedule once they are able to re-register.

All students who register after priority registration are required to pay 100% of tuition and fees at the time of registration, mail-in registration or late registration. The only exception would be students using the approved payment plan who would then fall under the Terms and Conditions of their Plan.

Tuition and Fees

The tuition rates assessed to a student are based on the student's primary matriculation as a graduate or undergraduate student as determined by the academic policies of the University. Please visit our website at http://www.xavier.edu/bursar/Tuition-and-Fees.cfm to see the current rates.
Undergraduate Programs

Each academic year the University publishes the Schedule of Tuition and Fees which lists the charges for tuition, housing, board plans and other fees in effect for the current academic year. Specific course fees, lab fees and deposits are listed in the current Schedule of Classes. Please visit our website at http://www.xavier.edu/bursar/Tuition-and-Fees.cfm to see the current rates.

Deposits are required for:

1. New full-time students - This deposit is a nonrefundable tuition deposit. This deposit is credited to the student's bursar account when the term starts and will be deducted from the charges for that term.
2. Resident students - This deposit is a nonrefundable housing deposit paid by new, incoming students that is applied to housing charges. Room reservations will not be honored without payment of the deposit. Additionally, all residential students are required to maintain a damage deposit while in residence. Once a student moves off campus, the housing deposit will be credited to the student's bursar account.

Graduate Programs

Current tuition and fee rates, special course/lab fees, and other relevant information are on the Bursar's website http://www.xavier.edu/bursar/Tuition-and-Fees.cfm. All courses taken as a graduate student will be at the graduate rate, including audited courses. Applicable course fees are charged in all cases.

Refunds

Xavier University Institutional Policy

Students who officially withdraw from the University or withdraw from class(es) may be eligible for a credit of tuition dollars based upon the amount of tuition assessed and the date of official withdrawal. Fees, including lab and course fees are not refundable after classes begin. Students must officially withdraw through the Office of the Registrar to be eligible for any credit of tuition dollars. Upon withdrawal from a class(es) or from the University, all financial aid must be recalculated and adjusted, if necessary. If the adjustment(s) results in a credit balance on the student's bursar account, a refund would be issued.

Tuition credits for summer sessions are prorated based upon the official withdrawal date and the portion of the session elapsed. Contact the Office of the Bursar for specific refund amounts. If a credit of tuition dollars overpays/creates a credit balance on the student's bursar account, a refund will be generated. Refunds are issued each week to those individuals who had a credit balance/overpayment on their bursar account at the end of the previous week. Students who have a credit balance on their bursar account will receive a refund. To receive a refund, follow the directions on the Bursar's website at www.xavier.edu/bursar/about-refunds.cfm. If a refund preference is not selected, a paper check will be mailed to the student's address on file. Refund checks are not available for pick up.

This schedule is applicable to the Fall and Spring semesters:

Weekend Degree Weekend Degree MBA Credit/Refund

1st - 6th 1st - 7th calendar day of the term 100%
Refunds for students leaving on-campus housing are pro-rated on a daily basis. Additionally a cancellation fee as described in the housing agreement signed by each student will also be assessed. Board plan refunds are based on the tuition refund schedule. Board refunds issued in the first through seventh calendar day of the term will be based on actual usage.

Undergraduate students who reduce their course load from full-time (12 credit hours or more) to part-time (11 credit hours or less) will receive a tuition dollar credit based on the number of hours dropped and the Credit/Refund schedule percentage.

In extraordinary circumstances, such as serious illness or injury, when a student is forced to withdraw from classes after the refund period has ended, a written appeal may be made to the college dean requesting special consideration. Appropriate documentation is required with such an appeal.

On-Campus Living Requirement

All students must live on campus for their first and second year at Xavier unless living with parent or legal guardian within a 35 mile radius of the University. Students will be required to sign a two-year housing agreement upon moving onto campus. All students who live in a University residence hall are required to select one of the residential meal plan options offered by the Office of Auxiliary Services.

Federal Refund Policy

Students with federal financial aid must comply with federal refund policies. Contact the Office of Student Financial Assistance for further information.

Collection Policy

If a student's bursar account balance is delinquent to the point of being sent to a collection agency, the student will be responsible for continuing late fees as well as all collection fees incurred by the University. Once the account is paid through a collection agency, and the student wants to return to the University, they will be required to pay their tuition and fees, in full, upfront with certified funds (bank check or cash). After two consecutive semesters of paying upfront, the student will be cleared to enroll in our installment payment plan. Once the account is paid through a collection agency, and the student wants to return to the University, they will be required to pay their tuition and fees, in full, upfront with certified funds (bank check or cash). After two consecutive semesters of paying upfront, the student will be cleared to enroll in our installment payment plan.

Fees

See the published Schedule of Tuition and Fees that is available online each year on the Office of the Bursar's website at www.xavier.edu/bursar. The following is a description of fees charged by the University. If a student account is referred to a collection agency, the collection fee is automatically added to the balance and it is the student's responsibility to pay.

Application Fee - payable once and covers the costs of processing applications for enrollment and the setting up of student records.

WCB Cooperative Education Fee - payable for each co-op term in which a student participates; covers job assistance fee, application processing, and record-keeping.

Graduation Fee - covers the cost of administering the graduation process and is payable by all students who graduate, whether in person or in absentia. Late application results in an additional fee being charged. In the event that a student is deferred from graduating for any reason, it is the responsibility of the student to reapply for a degree. There is no additional fee when applying for the same degree.

Housing Damage Deposit - a refundable deposit for all students residing in University on-campus housing.
**Housing Reservation Deposit** - a non-refundable deposit which reserves a room in on-campus housing. Deposit is applied against subsequent room rent charges.

**Late Fee** - assessed to a student's Bursar account if payments are not made on or before the due date.

**Parking Permit Fee** - permits parking in University student parking lots. Permits valid on evenings and weekends only are available at a reduced rate.

**Special Course/Lab Fees** - covers extraordinary course costs or private music lessons. See the Schedule of Classes for course/lab fees.

**Student Orientation Fee** - covers the costs for the Manresa orientation program for freshmen and traditional undergraduate transfer students.

**Transcript Fee** - covers the costs of processing the transcript. There is an additional fee for rush processing.

**Graduate Student Association Fee** - used to fund all organizations under the Graduate Student Association (GSA).

**Student Activity Fee** - used to fund all organizations under the Student Government Association (SGA).

**Policies and Procedures**

- Undergraduate Academic Policies and Regulations
- Graduate Academic Policies and Regulations
- Registration Policies and Procedures
- Privacy Rights
- Title IX

**Registration Policies and Procedures**

**Student Self Service**

Student Services within the Self Service channel of the Xavier Student Hub ([www.xavier.edu/students](http://www.xavier.edu/students)) is a secure website that is available to all students to access their registration information. During designated times students may register for classes and make class schedule changes on-line. Other on-line services include viewing and printing class schedules, grades, and academic history.

**Schedule of Classes**

The Schedule of Classes is prepared by the Office of the Registrar and lists course offerings, assigned dates, times, and instructors. It is available on-line through either the Xavier Student Hub or at [www.xavier.edu/registrar](http://www.xavier.edu/registrar). The on-line version is updated in real time and provides the most current Schedule of Classes information.

**Selection of Courses and Course Loads**

The choice of courses and the total number of credit hours in a student's program of studies each term are subject to restrictions deemed necessary by the college dean or academic advisor. When selecting courses, students must adhere to required prerequisites and special course restrictions established by the colleges and academic departments. The following are the maximum full-time course loads for undergraduate and graduate students. Permission to exceed these maximums, even if the additional hours are to be taken for audit, must be obtained from the college dean.
Undergraduate Student Maximum

Fall or spring - 18 hours
Summer - 7 hours each session, not to exceed 14 hours for the entire summer.

Graduate Student Maximum

Fall, Spring, or Summer - 15 hours

Academic Advising

Undergraduate academic advising assists students in their pursuit of educational plans and programs which will aid them in fulfilling their major or degree requirements and/or prepare them for a career. Academic advising is available for students in all three colleges: College of Arts and Sciences, College of Professional Sciences, and the Williams College of Business. Undeclared students, Natural Sciences and Biology freshmen in the College of Arts and Sciences are advised by academic advisors in the Academic Advising Center located on the fifth floor of Conaton Learning Commons, 515 A-E. Undeclared students in the Williams College of Business are advised by designated academic advisors in that college. Students with declared majors in all colleges are advised by department chairs or designated faculty advisors in the departments of the college. Adult, weekend degree, and evening students are advised through the Office for Adult, Weekend & Evening Students (AWE) or through their departments.

Degree Evaluation Report

A Degree Evaluation report using the software called "Degree Works" shows a student's completed coursework and current registration matched with degree requirements of his/her declared major; it also identifies deficiencies and lists courses to satisfy requirements.

Students may access an evaluation report via Self Service of the Xavier Student Hub. The report also assists students' advisors and the University in determining progress toward completion of program requirements and as a graduation check.

Registration

Priority Registration

Priority registration for a semester occurs midway through the previous semester and gives currently enrolled students the opportunity to enroll early in desired classes. In order to participate in priority registration, undergraduate students must first meet with their advisor. No payment for tuition and fees is required during priority registration. Billing statements are mailed to students after priority registration ends. Payment due must be submitted approximately four weeks before the beginning of the next semester.

Open Registration

Open registration occurs after priority registration, and is open to any student.

Formal Registration

Formal registration occurs within the week preceding the beginning of a semester for students who did not participate in priority registration or open registration, or who did not complete payment obligations. Dates for formal registration can be found in the University calendar in this catalog or at www.xavier.edu/registrar.
Late Registration

Late registration begins the first calendar day of the semester and ends on the seventh calendar day of the semester for full-term classes. Registration is not permitted after the seventh calendar day of the semester. See [www.xavier.edu/registrar](http://www.xavier.edu/registrar) for late registration dates for other sessions.

Registration Methods

- Registration materials may be obtained in-person at the Office of the Registrar, can be mailed to the student upon request or can be obtained on-line at [www.xavier.edu/registrar](http://www.xavier.edu/registrar).
- In-person - Students present completed registration forms to the Office of the Registrar. In fall and spring, advisor signatures are required on undergraduate registration forms.
- Mail-in/Fax - see above.
- On-line - Students may register on-line via the Xavier Student Hub [www.xavier.edu/students](http://www.xavier.edu/students)

Schedule Adjustment (Class Adds-Drops, all students, Fall and Spring Term; for Summer, consult the Summer Session Bulletin)

Once a student has registered for a term, to add or drop classes he/she must process a drop/add request using a method described above as follows:

Full Term Classes:

Adding a Class

Classes can be added through the first seven calendar days of the term.

Dropping a Class

Classes can be dropped through the first seven calendar days of the term without a grade appearing on the student's academic record. Undergraduate students receive a grade of "W" for classes dropped from the eighth calendar day of the term through approximately 80% of the term. For graduate students, a "W" occurs if a class is dropped from the eighth calendar day of the term through the last day of classes. See the Academic Calendar or [www.xavier.edu/registrar](http://www.xavier.edu/registrar) for specific dates and policies.

Short Term Classes:

Adding a Class

Classes can be added through the first three days of the term.
Dropping a Class

Classes can be dropped through the first seven calendar days of the term without a grade appearing on the student's academic record. Students will receive a grade of "W" for classes dropped from the seventh calendar day through approximately 80% of the short term. See the Academic Calendar or www.xavier.edu/registrar for specific dates.

The Office of the Bursar adjusts the student's financial account based on the add-drop activity. Advisor's signatures are not required to change sections through the schedule adjustment period.

Special Registration Conditions

Students taking courses as audit or as repeated courses are responsible for obtaining and completing the proper forms to identify such courses at the time of registration, during schedule adjustment, or during late registration.

Auditing Courses

Anyone wishing to audit a course may do so. An audited course does not carry credit or earn a grade. No one may change from credit status to audit status or from audit status to credit status after the seventh calendar day of the term. Regular tuition rates apply. A grade of "W" may be awarded by the instructor if the student does not fulfill class obligations, or stops attending.

Repetition of Courses (Repeat Policy)

Students need to initiate this process. A course previously taken for credit may be repeated up to two additional times, including any withdrawals. The credit hours of the repeated course are counted only once. While all grades are entered on the student's official academic record, and appears on a student's transcript only the most recent grade counts in the student's grade point average, even if it is the lowest. Academic bankruptcy does not eliminate the term's courses from counting as repeated courses.

Undergraduate

Some courses may not be repeated:

1. MATH 105, MATH 120, and MATH 150 may not be repeated after successful completion of a more advanced math course.
2. An elementary or intermediate foreign language course may not be repeated after successful completion of a more advanced course in the same language.

Graduate

Courses completed in a student's undergraduate program or in another graduate program cannot be repeated for graduate credit. Courses applied to another degree, either at Xavier or another institution, may not be applied to any master's degree at Xavier.

Satisfactory/Unsatisfactory

Satisfactory/Unsatisfactory (S/U) grading is only available in certain courses. Letter grades cannot be given in these courses. The semester hours in courses taken on a S/U basis will count toward the University's minimum semester hour requirement of 120 for graduation if they are passed successfully. Neither the course hours nor any quality points are computed into the student's grade point average if the grade is "Satisfactory." However, if the grade is "Unsatisfactory," both the credit hours and the earned quality points are computed into the student's cumulative grade point average.
Withdrawal from the University during an Academic Term

A student who wishes to withdraw from all classes during a term (even if only registered for one course) must do the following:

1. Notify the appropriate college dean in person or in writing;
2. Obtain authorization from the dean by completing a withdrawal form;
3. Submit the form to the Office of the Registrar;
4. If a campus resident, notify the Office of Residence Life.

A student is considered to be enrolled until officially withdrawn. Failure to withdraw officially from the University will result in grades of "VF" for all courses. Once a semester begins, withdrawal from the University is recorded as an "Official Withdrawal" on the student's academic record.

A student who wishes to withdraw from the University between semesters is not required to withdraw formally but is encouraged to contact his/her academic advisor or dean about the decision.

Academic Record/Transcript

The transcript is the official academic record for all Xavier University students. Official copies must be obtained from the Office of the Registrar.

Transcript orders must be made in writing (in person or mail-in) or online through the National Student Clearinghouse and signed by the student. The request should include the student's current name, phone number, all previous names, ID number or Social Security Number, dates of attendance, major or concentration and any degrees received. The request should also include the student's current address, the number of copies needed and the complete address(es) to which the transcripts should be sent. The proper fee must be included with the request, and all obligations to the University must be met before transcripts may be issued.

Transcript information is available through the Xavier University transcript information telephone line, 513 745-2007, or on-line at www.xavier.edu/registrar.

National Student Clearinghouse (NSC)

Xavier University is in partnership with the National Student Clearinghouse (NSC). NSC is responsible for processing student loan deferment forms for the following programs: Subsidized Stafford Loan, Unsubsidized Stafford Loan and Parent Loan for Undergraduate Students (PLUS). More information on NSC can be found at www.studentclearinghouse.org. Since NSC is Xavier University's legally designated agent, primary responsibility for loan deferment processing is with NSC. Please contact the Office of the Registrar for additional assistance or information.

Student Identification Card (ALL CARD)

The student identification card, ALL CARD, is required for all full-time and part-time students. ALL CARDS are provided through the ALL Card Center, room 270 Gallagher Student Center. The card is the official University identification and must be in your possession while on campus. The ID services include access for the library, recreational sports center, athletic and special event ticketing and login access to the Xavier Student Hub.

In addition to serving as your identification card for easy access to campus facilities and programs, the ALL CARD is used as a prepaid cash card to pay for on-campus services such as: bookstore, food services, copying, library fees, and vending.

The ALL CARD technology even includes the student's ability to integrate U.S. Bank's complete banking as well as Internet banking services with Xavier's financial services system.

The system eliminates issues related to multiple cards for campus access and funds management. Convenience, simplicity and security... one card does it all! Questions regarding ALL CARD services and available to students should be referred to the ALL Card Center at 513 745-3374 or on-line at www.xavier.edu/allcard.
Undergraduate Academic Policies and Regulations

General Policies

The policies listed here affect all undergraduate students. Some degree programs have special policies which are specified within individual program descriptions. Refer to the "Registration" section of the catalog for general registration policies which affect both undergraduate and graduate students.

Classification of Undergraduate Students

1. Freshmen - students who have earned 0 through 23.99 credit hours
2. Sophomores - students who have earned 24 through 54.99 credit hours
3. Juniors - students who have earned 55 through 89.99 credit hours
4. Seniors - students who have earned a minimum of 90 credit hours
5. Non-degree - students who have not declared themselves candidates for a degree at Xavier
6. Visiting (transient) - students from another college or university taking courses as a non-degree student at Xavier for transfer back to their home institution
7. Auditors - students taking courses but not for college credit

Enrollment Status of Undergraduate Students

- Full-time: summer, fall or spring
  - Any student attempting 12 or more semester credit hours (enrollment in selected programs/courses have semesters designated full-time regardless of hours attempted)
- Part-time: summer, fall or spring
  - Any student attempting up to 11.99 semester credit hours
    - Three Quarters time: 9 - 11.99 semester credit hours
    - Half-time is 6 - 8.99
    - Less than Half time: 5.99 and below

Undergraduate Grading System

A = Exceptional
A- = Good
B+ = Satisfactory
B = Good
B- = Minimum passing
C+ = Satisfactory
C- = Minimum passing
D+ = Satisfactory
D = Minimum passing
F = Failure
VF = Failure to officially withdraw
W = Official withdrawal
I = Incomplete, changed when grade is assigned. (see Incomplete Work)
AU = Audit - no credit or grade earned (see Auditing Courses)
S = Passing/Satisfactory, credit earned
U = Not passing/Unsatisfactory, no credit earned
NC = No credit earned, non-graded course
NR = No grade reported

No grade change can be made later than the 15th calendar day after the beginning of the next academic semester (fall or spring) except in the case of a resolved Grade Grievance. "S/U" grades are given in certain pass/fail courses, in place of letter grades. The grade of "S" does not equate with letter grades and is transferable to other universities only upon their approval.
Quality Points

The quality point is the unit used to measure student achievement in a course. The number of quality points received for any course is equal to the number of points attached to the grade received, multiplied by the number of credit hours for the course. Quality points are calculated as follows:

- A = 4.00 quality points per credit hour
- A- = 3.67 quality points per credit hour
- B+ = 3.33 quality points per credit hour
- B = 3.00 quality points per credit hour
- B- = 2.67 quality points per credit hour
- C+ = 2.33 quality points per credit hour
- C = 2.00 quality points per credit hour
- C- = 1.67 quality points per credit hour
- D+ = 1.33 quality points per credit hour
- D = 1.00 quality point per credit hour
- F = 0.00 quality points per credit hour
- VF = 0.00 quality points per credit hour
- I = 0.00 quality points per credit hour
- U = 0.00 quality points per credit hour

Course Numbering

Courses are numbered in the following way:

- 100 to 199 - undergraduate lower division courses
- 200 to 499 - undergraduate upper division courses
- 500 and above - graduate level courses; open only to graduate students

Credit Hours, Semester

A semester credit hour is equivalent to fifteen class hours per term. A weekly two- or threehour period of laboratory work is considered equivalent to one credit hour. The credit hours for work in internships, practicums and student teaching vary.

The number of credit hours which each course carries is provided in the course description section of this catalog. The courses are listed in numerical order within the various departments.

Excess Credit Hour Courseload

The following maximum course loads may only be exceeded with permission from the student's dean, even if the additional hours are to be taken for audit. Excess hours carry additional fees, unless departmental policy requires the excess.

1. Fall or spring - 18 hours
2. Summer - 7 hours each session, not to exceed 14 hours for the entire summer.

Prerequisites

When selecting courses, students must adhere to required prerequisites and special course restrictions established by the colleges and academic departments. Prerequisites must be passed with the minimum acceptable grade before subsequent courses may be taken.

Repetition of Courses (Repeat Policy)

A course previously taken for credit may be repeated up to two additional times, including any withdrawals. The credit hours of the repeated course are counted only once. While all grades are entered on the student's official academic record, and appears on a student's transcript only the most recent grade counts in the student's grade point average, even if it is the lowest. Academic bankruptcy does not eliminate the term's courses from counting as repeated courses.
Undergraduate

Some courses may not be repeated:

1. MATH 105, MATH 120, and MATH 150 may not be repeated after successful completion of a more advanced math course.
2. An elementary or intermediate foreign language course may not be repeated after successful completion of a more advanced course in the same language.

Graduate

Courses completed in a student's undergraduate program or in another graduate program cannot be repeated for graduate credit. Courses applied to another degree, either at Xavier or another institution, may not be applied to any master's degree at Xavier.

Auditing Courses

Anyone wishing to audit a course may do so. An audited course does not carry credit or earn quality points or fulfill a requirement. The credit hours of an audited course do not count towards the student's enrollment status for financial aid purposes. Regular tuition rates apply. If audit requirements are not met a "W" grade may be assigned.

Dean's List

In any term, undergraduate students who complete at least six credit hours for grades that earn quality points (A, A-, B+, B, B-, C+, C, C-, D+, D, F, VF, I, U) with a grade point average of at least 3.500 are placed on the Dean's List for that term.

Incomplete Work

Course assignments are due at the time specified by the instructor. Extension of time beyond the termination of the course is rarely granted and only for a serious reason. If an extension of time is granted, the grade of "I" (Undergraduate Incomplete) will be assigned and calculated as an "F" in the grade point average. Unless the work is completed and submitted by the fifteenth calendar day of the academic semester following the course (Fall incompletes = 15 calendar days into Spring semester; Spring and Summer incompletes = 15 calendar days into Fall semester), the student will fail the course and the "I" will be permanently changed to an "F". Exceptions to this policy must be approved in writing by the appropriate dean prior to that date. The faculty member initiates the grade change process once the student has made up the incomplete work. Deadlines for short-term courses may vary; please refer to program handbook or director.

A student missing the final examination of a course receives an "F" or "VF" unless prior approval has been obtained from the dean, in which case the grade of "I" will be given. The same completion deadline applies as explained in the paragraph above. The final examination schedule is published in each semester's Schedule of Classes bulletin.

If the student is deferred for graduation due to a grade of "I" (Incomplete), he or she may be eligible for the original date of graduation. Work must be completed, graded and recorded within thirty calendar days of that term's graduation date.

Undergraduate Enrollment in Graduate Courses

A currently enrolled Xavier University undergraduate student may begin graduate course work as a non-degree graduate student if the student is within 12 hours of completing the undergraduate degree. The student must be in good academic standing and must obtain written approval from the appropriate dean and program director. The student must complete the nondegree graduate application for admission and return it to the Graduate Services Office or the MBA Office with the written permission attached.

All graduate courses taken will be for graduate credit only; the credit hours completed for graduate credit may not count towards the student's undergraduate degree. No more than 6 credit hours taken as a non-degree graduate student may apply toward a graduate degree. Some courses are not available to non-degree graduate students. Psychology graduate courses are not available.
NOTE: Students enrolled in the “Accounting 150 Credit Hour Program” or dual Bachelor/Master degree programs approved by the university should consult their department for exceptions to these policies.

NOTE: Students in the Masters of Occupational Therapy program may take eleven graduate hours after they have completed 114 undergraduate hours.

Class Attendance

In order to earn credit in any course for which he/she is registered, the student is required to attend classroom and laboratory exercises regularly and promptly. Unexcused absence from a previously announced test may incur the penalty of a failure in that particular test. Regular attendance and missed class and test procedures are determined by the individual faculty members. Students should consult the class syllabi for current policy regarding attendance, grading, procedures, etc., by individual faculty members.

Courses at Other Institutions

Consortium Courses

Courses not available at Xavier may be taken through the Greater Cincinnati Consortium of Colleges and Universities. For courses taken through the consortium, both the credit and the grade earned are recorded on the student's Xavier record and the quality points are computed into the student's Xavier grade point average. For a list of the consortium schools, see www.gcccu.org. The student must be at least half-time and must bring written approval for consortium enrollment from the dean of his/her college to the Office of the Registrar. Contact the Office of the Registrar for more information. Consortium courses may not be taken in the last 30 hours at Xavier unless approved by a college dean.

Non-Consortium Courses

Students desiring to take courses at an accredited non-consortium university must receive prior approval from their dean. Normally no more than 15 hours may be taken at another institution and applied toward a degree after a student has matriculated at Xavier. The student usually must present a catalog with a description of the desired course. Courses from these institutions are treated as transfer credit. Credit is granted provided a grade of "C" or better was earned. The grade is not placed on the student's Xavier record, nor is it computed into the student's Xavier grade point average.

General Electives

General electives are fulfilled by courses of the student's choice as long as appropriate prerequisites are completed. Students may not apply more than 12 hours of any business area or 30 hours of total business courses toward electives.

Changing, Adding, or Dropping a Major or Minor

A student wishing to change, add, or drop a major or minor must see the appropriate Dean. A student wishing to change majors from one undergraduate college (Arts& Sciences, Business, and Professional Sciences) must go the office of the Dean of the new program so that they may begin the major/minor change process. A student wishing to change majors within the same college must see the Dean of their current college so that they may being the change process.

Degree Residency Requirement

At least one-half of the course requirements of the major or minor and the last 30 semester hours must be completed at Xavier University for all undergraduate degrees. At least 60 semester hours toward a bachelor's degree must be earned in accredited four-year institutions.
Application for Degree and Graduation

Students initiate the process of graduation by completing a Graduation Application. The online graduation application is available through the Office of the Registrar website. It is recommended that the student meet with the academic advisor or program director before registering for the final term of work to ensure that all degree requirements will have been met by the end of that term. Utilize the Degree Works evaluation report available online to assist you with your graduation check out.

The student must submit a Graduation Application to the Office of the Registrar before the deadline published in the Academic Calendar. The graduation fee will be added to the student's Bursar account, and an additional fee will be incurred for applications received after the deadline. The graduation fee is a one-time, non-refundable charge, per each degree awarded. If the requirements for the degree are not completed at the time specified on the application, the student must submit a new Graduation Application by the application deadline in the next term in which he/she will complete the degree requirements. Although the student is not charged an additional graduation application fee when re-applying, the late fee will be assessed for applications received after the deadline.

Degrees are granted three times each year: in August for those completing programs during the summer, in December for those completing programs in the fall semester, and in May for those completing programs during the spring semester. Commencement exercises are held each May for graduates from the entire previous academic year.

Students whose degree requirements are completed, graded, and recorded within thirty calendar days of that term's graduation date may receive a diploma dated for that term. Students must have satisfied all financial obligations to the University before the diploma or academic transcript can be released.

Graduation Honors

Honors are awarded on the basis of outstanding achievement only at the undergraduate level. For a bachelor's degree, a student who has earned a quality point average of 3.900 to 4.000 in Xavier course work will be graduated summa cum laude; one who has earned 3.750 to 3.899, magna cum laude; one who has earned 3.500 to 3.749, cum laude. For an associate's degree, a student who has earned a quality point average of 3.900 to 4.000 in Xavier course work will be graduated "with highest honor;" one who has earned 3.750 to 3.899 "with high honor;" one who has earned 3.500 to 3.749, "with honor." These honors are inscribed on the student's diploma and recorded on the student's permanent academic record.

Transfer students with appropriate grade point averages are eligible for honors at graduation if they have completed at least 60 quality hours at Xavier University for a bachelor's degree or at least 30 quality hours at Xavier University for an associate's degree.

Honor cords may be worn by any student who graduates or participates in the May Commencement ceremony, if those honors were earned by the day of the ceremony.

Academic Standing

Actions regarding academic warning, probation, academic suspension, and academic dismissal will be noted on the student's permanent academic record.

Good Standing

A student in "good standing" is defined as a student who has earned a cumulative grade point average of 2.000 or better (a "C" average or better).

Academic Warning

Any freshman in a baccalaureate program whose cumulative average is 1.750 to 1.999 receives an academic warning. A warning may be issued for one semester only and may not follow a term on probation.
**Academic Probation**

Any student in an associate's degree program whose cumulative average falls below 2.000 is placed on academic probation.

A freshman in a baccalaureate program whose cumulative average falls below 1.750 is placed on academic probation.

Any upperclassman in a baccalaureate program whose cumulative average falls below 2.000 is placed on academic probation.

Academic probation can be imposed by a dean at the end of any term. While on probation a student may be restricted to a reduced course load, and/or receive other stipulations intended to improve the student's academic success. Academic probation is removed when the student's cumulative average rises to 2.000 or above.

**Academic Suspension**

Students on academic probation who fail to restore their cumulative grade point average to 2.000 within two semesters will be suspended. In addition, Freshmen and probationary students who receive more than one failing grade within a single term will be suspended. Suspension will be enforced unless in the judgment of the dean there are extenuating circumstances. One fall or spring term must elapse before a suspended student may reapply.

**Academic Dismissal**

A student who has been readmitted after a period of suspension and who fails to meet the terms of the readmission as stipulated by the appropriate college dean will be dismissed from Xavier and is not eligible to return.

**Academic Reactivation**

An undergraduate student who previously attended Xavier and has not been registered for one year is required to complete a Reactivation Form before registering. The form is available on the Office of the Registrar website. Applicants who wish to receive credit for coursework taken at another university during their absence from Xavier must submit an official transcript to the Office of Credential Evaluation. See the section on "Transfer Credit Policies" for limitations on the acceptance of coursework. Students are reactivated under the current catalog year, unless an exception is made by the dean.

**For Students Previously Suspended**

Students suspended from Xavier or from other institutions for poor academic performance will not be eligible for reactivation before the lapse of at least one fall or spring semester. In all cases, reactivation and the conditions for such will be determined by the dean of the appropriate college which issued the suspension. All prior financial obligations must be settled with the Office of the Bursar prior to reactivation, and the student must be in good standing with the Division of Student Life and Leadership.

**Writing Standards**

In written work for class assignments, the University requires a high quality of writing. Instruction is available, through course work and through the James E. Glenn Writing Center, to help students attain this high level of quality. Faculty members may refuse to accept an assignment that does not meet acceptable standards.

**Eligibility for Participation in Varsity Athletics**

In order to be eligible for participation in varsity athletics, a student must meet the following eligibility requirements:
a. Student-athletes in their first semester of eligibility, admitted on the standards specified by the University, are eligible for the entire year, provided they earn a minimum cumulative 1.75 grade point average after the first semester of eligibility.
b. Students with sophomore standing or higher must have a 2.0 or greater at the beginning of the academic year to be eligible for the fall semester.
c. Students who begin the fall semester below the eligibility standards will be eligible for the spring semester if they earn a cumulative 2.0 or greater after the fall semester.
d. Students who meet the eligibility standards in the fall will be eligible for the spring semester if they meet NCAA midyear eligibility requirements.
e. Additional eligibility requirements are governed by the Student Athlete Handbook.

**Academic Bankruptcy**

Academic bankruptcy allows an undergraduate to continue work toward a college degree without being severely burdened by a term with a high proportion of low or failing grades. Academic bankruptcy means that all credits and all grades for a given term are excluded from the computation of a student's grade point average, and the hours earned during the term will not be counted toward graduation. The courses and grades earned will remain on the student's permanent academic record, along with a notation of the Academic Bankruptcy. For this policy, the entire summer is considered one term.

A student may apply to the college dean for academic bankruptcy after the completion of a subsequent term of satisfactory performance. Satisfactory performance is defined as a grade point average of 2.000 in a term at Xavier that includes at least 6 credits of graded courses and no course withdrawals. The granting of academic bankruptcy may occur only once in a student's academic career at Xavier University and is irrevocable. Actions regarding course repetition, warning, probation, suspension, dismissal, and reactivation are not modified by this policy.

**Academic Honesty**

The pursuit of truth demands high standards of personal honesty. Academic and professional life requires a trust based upon integrity of the written and spoken word. Accordingly, violations of certain standards of ethical behavior will not be tolerated at Xavier University. These include theft, cheating, plagiarism, unauthorized assistance in assignments and tests, unauthorized copying of computer software, the falsification of results and material submitted in reports or admission and registration documents, and the falsification of any academic record including letters of recommendation.

All work submitted for academic evaluation must be the student's own. Certainly, the activities of other scholars will influence all students. However, the direct and unattributed use of another's efforts is prohibited as is the use of any work untruthfully submitted as one's own.

Penalties for violations of this policy may include one or more of the following: a zero for that assignment or test, an "F" in the course, and expulsion from the University. The dean of the college in which the student is enrolled is to be informed in writing of all such incidents, though the teacher has full authority to assign the grade for the assignment, test, or course. If disputes of interpretation arise, the student, faculty member, and chair should attempt to resolve the difficulty. If this is unsatisfactory, the dean will rule in the matter. As a final appeal, the academic vice president will call a committee of tenured faculty for the purpose of making a final determination.

**Grade Grievance Procedure**

This policy applies to both graduate and undergraduate students.

Students may appeal final grades if they believe that the grade was awarded unfairly. The student is responsible for the burden of proof, and must be able to provide some evidence of the lack of fair treatment in order to file a formal grievance. The following procedure must be followed when filing such an appeal.

The instructor is obligated to participate in the grade grievance process. If the instructor does not participate, the chair and/or dean will proceed without the instructor.

1. The student shall indicate in writing to the chair of the appropriate academic department that he/she is appealing the grade. This notification must be submitted in person or postmarked by February 1 for fall grades, June 15 for spring grades, and September 1 for summer grades.
2. The student shall meet with the instructor to try to resolve the grade dispute before February 15 for fall grades and before September 15 for spring and summer grades.
3. If a resolution is not reached and the student still believes that the grievance has merit, the student shall submit a request in writing to the department chair for a meeting with the chair and the instructor. This request should indicate when the meeting with the instructor was held and its outcome; explain exactly how the instructor's action was unfair; and be received by the department chair by March 1 for fall grades and October 1 for spring and summer grades. The student then meets with the department chair and instructor to try to resolve the dispute at this level.

4. If a resolution is not reached and the student wishes to pursue the grievance, he/she shall submit the statement from step #3, along with all evidence and documentation which supports the allegation, to the dean of the appropriate college. This should be done within five working days after meeting with the department chair and the instructor.

5. The dean shall convene a committee, composed of him/herself, three faculty members and two students, to conduct a hearing on the grievance. Two of the faculty members shall be from within the college and one from outside the college in which the instructor is located, and all shall be appointed by the dean. The two students shall have the same status as the grieving student (either graduate or undergraduate). If undergraduate, they shall come from a pool of 4-6 students appointed by the president of student government. One student shall be from within the college in which the grieving student is enrolled, and one shall be from outside the college. The dean shall choose the two students from the pool. If graduate, the dean shall meet with the appropriate graduate student organizations from the colleges to select the two students to sit on this committee. The committee shall hold a hearing chaired by the dean. The instructor and the student shall be present and each shall be allowed an advisor (from within the University community) and shall be permitted to present witnesses. The committee, advisors, instructor and student shall all have the right to question the witnesses. The committee shall deliberate in closed session, and must present its decision in writing to the student and the instructor within five working days after the decision is reached. If the committee's decision is that the grade given was inappropriate, the academic vice president shall authorize the registrar in writing to change the grade.

6. The decision of the committee is final unless new evidence or new witnesses not previously considered or heard at the hearing become available. The student must submit this new evidence to the academic vice president within ten working days following the receipt of the committee's decision and must indicate precisely how this evidence or testimony relates directly to the alleged unfair awarding of the disputed grade.

7. The decision of the academic vice president is final. There is no further appeal.

**Disciplinary Action**

Xavier University expects the conduct of its students on and off campus to be in accordance with the standards of society. All students are expected to abide by the rules of conduct specified in the Code of Student Conduct as well as the Residence Life Handbook and the Standards for Off-Campus Living. A student violating any University regulation will be subject to disciplinary action. In minor cases, the appropriate staff member (usually from the Office of Residence Life or Student Services) will take action after consultation with the student.

Serious cases of misconduct will be presented before the associate vice president for student development/dean of students or the University Disciplinary Board. The associate vice president for student development/dean of students or the Board, after hearing a case in accordance with established procedures, will determine the penalty, if any. The associate vice president for student development/dean of students and/or the Board have the power to suspend or expel any student found to be in serious violation of any University regulation. Academic credits for courses in which the student is currently enrolled may be lost by a student who is dismissed or expelled from the University before the end of the semester. Refer to the discipline hearing procedures section of this catalog for more specific information.

Disciplinary records are confidential and are maintained by the Office of the Vice President for Student Development for a period of three to five years. The University may choose to notify parents of disciplinary action taken against a student.

Academically related discipline problems will be addressed through the appropriate department chair, dean and academic vice president. Xavier University reserves the right to dismiss a student if, in the judgment of University officials, such action would be in the physical, mental, emotional or moral best interests of the student or is considered necessary for the welfare of the University. A student also may be required to withdraw for reasons of poor scholarship, failure to remove academic probation, or misconduct.

**Comprehensive Examinations**

Comprehensive examination requirements vary according to each program and are found in the program descriptions in this catalog. A student who fails the comprehensive examination may appeal to the program director to repeat the examination during a subsequent term (only one examination attempt is permitted during the summer). A second failure will result in dismissal from the program.
Xavier University Institutional Review Board (IRB)

Xavier has established an Institutional Review Board (IRB) for the protection of human subjects participating in research conducted by or on students, faculty or staff of the University. This includes research performed at Xavier under contractual arrangements with outside research organizations. In these cases, such contracts are subject to review and the research protocol portion of the contract is subject to Xavier IRB review.

The Xavier IRB is guided by the ethical principles set forth by the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research in Ethical Principles and Guidelines for the Protection of Human Subjects of Research: The Belmont Report.

In addition, the IRB attempts to insure compliance with the requirements set forth in Title 45, Part 46 of the Code of Federal Regulations.

Xavier University Professional Review Board (PRB)

A number of programs offered by the University qualify graduates to stand for certificates to practice professions involving vulnerable individuals (children, the ill, the mentally or physically challenged). Besides having academic knowledge and skills, they must also have the capacity to serve and help their future clients through intimate human contact.

When a student is found by their program or department to lack interpersonal skills necessary for activity as a professional, this Review Board, made up of certified, practicing professionals, serves as the student's appeal source. Instructors may also appeal to the Board if they are dissatisfied with their department's or program's lack of concern about an individual student's behavior.

Student Responsibility

It is the responsibility of the student to become informed about all regulations and procedures required by the program and by the University. In no case will a regulation be waived or an exception granted because a student pleads ignorance of the regulation or asserts that information was not given by an advisor or other authority. The advisor should be consulted concerning requirements, deficiencies, the planning of a program, and special regulations.

Study Abroad Credit: Any student who is interested in registering for study abroad must complete the Study Abroad Approval prior to their study abroad experience. Upon completion of the course(s), the student must have an official transcript of the credits sent directly from the institution to Xavier University. The credit received is dependent on the type of study abroad the student completes.

- **Xavier Study Abroad/Faculty Led Program:** The student receives the letter grade for the course and the grade is computed into the student's Xavier grade point average.
- **Xavier Affiliated Study Abroad, Fredin Scholarship, Direct Exchange, Non-Xavier Affiliated:** The student receives transfer credit for courses in which a grade of C or better (or its equivalent) is earned. The transfer credit, but not the grade, is recorded on the student's transcript and the grades are not computed in the student's Xavier grade point average.

Reservation of Rights

Xavier reserves the right to modify its graduation and other requirements as deemed necessary from time to time. The University will attempt to comply with the requirements published in the catalog for the year a student initially registers, provided the student continues in attendance without interruption of more than a year. Students who interrupt their attendance by more than a year and who later return must meet curricular requirements as determined by their dean.

Graduate Academic Policies and Regulations
General Policies

The policies listed here affect all graduate students. Some degree programs have special policies which are specified within individual program descriptions. Refer to the "registration" section of the catalog for general registration policies which affect both undergraduate students and graduate students.

Typically no more than six credit hours taken as a non-degree graduate student may apply toward a graduate degree. Exceptions may be granted at program director's discretion. Some courses and/or programs are not available to non-degree graduate students.

Classification and Enrollment Status of Graduate Students

- Full-time:
  - 9 hours or more
- Part-time:
  - Three Quarters time: 6 to 8.99
  - Half time: 4.5 to 5.99
  - Less than Half time: 4.49 and below

MSN and DNP

- Full-time:
  - 6 hours or more
- Part-time:
  - Three Quarters time: 4.5 to 5.99
  - Half time: 3.00 to 4.49
  - Less than Half time: 2.99 and below

Ed.D and Human Resource Development Master's program

- Full-time:
  - Current registration in program

Graduate Grading System

Plus/Minus grading is applicable to all courses numbered 500 or above unless a departmental policy dictates otherwise. The "+" (plus) increases a letter grade by .33, and "-" (minus) decreases a letter grade by .33.

A = Exceptional
A-
B+
B = Good*
B-
C+ C = Minimal**
C U = Not passing/Unsatisfactory, no credit earned
F = Failure VF = Failure to officially withdraw
W = Official withdrawal
M = Incomplete, changed when grade is assigned. (see "Incomplete Work")
AU = Audit - no credit or grade earned (see "Auditing Courses")
S = Passing/Satisfactory, credit earned
NC = No credit earned, non-graded course

* minimum grade for graduate credit in courses below 500 level
** minimum grade for credit in courses 500 level and above

No grade change can be made later than the 15th calendar day after the beginning of the next academic semester (fall or spring) except in the case of a resolved Grade Grievance. "S"/"U" grades are given in certain pass/fail courses, in place of letter grades. The grade of "S" does not equate with letter grades and is transferable to other universities only upon their approval.
Quality Points

The quality point is the unit used to measure student achievement in a course. The number of quality points received for any course is equal to the number of points attached to the grade received multiplied by the number of quality hours yielded by the course. Quality points are computed as follows:

- **A = 4.00 quality points per credit hour**
- **A- = 3.67 quality points per credit hour**
- **B+ = 3.33 quality points per credit hour**
- **B = 3.00 quality points per credit hour**
- **B- = 2.67 quality points per credit hour**
- **C+ = 2.33 quality points per credit hour**
- **C = 2.00 quality points per credit hour**
- **F = 0.00 quality points per credit hour**
- **VF = 0.00 quality points per credit hour**
- **U = 0.00 quality points per credit hour**

The student's term grade point average (GPA) is computed by dividing the total number of quality points by the total number of quality hours in that term. "W", "M", "AU", "S" and "NC" grades are not calculated into quality points, nor quality hours and therefore do not affect the GPA. The cumulative GPA is based on all terms at Xavier.

The semester hours in courses in which an "S" grade is earned will count toward the University's minimum requirement of 30 semester hours for graduation with a master's degree. However, if the grade earned is "U" (Unsatisfactory), both the credit hours and the quality points are computed into the student's cumulative grade point average.

Course Numbering

Courses are numbered in the following way:

- **100 to 199** - undergraduate lower division courses, for undergraduate credit only.
- **200 to 499** - undergraduate upper division courses; selected courses are open to graduate students for graduate credit. Some degree programs in the College of Arts and Sciences and the College of Professional Sciences accept none or a limited number of such courses. The graduate program in the Williams College of Business and the graduate MHSA program in Health Services Administration accept no undergraduate level courses for graduate credit.
- **500 and above** - graduate level courses for graduate credit only; open to graduate students only.

Credit Hours, Semester

A semester credit hour is equivalent to fifteen class hours per term. A weekly two- or three hour period of laboratory work is considered equivalent to one credit hour. The credit hours for work in internships, practicums and student teaching vary.

The number of credit hours which each course carries is provided in the course description section of this catalog. The courses are listed in numerical order within the various departments.

Excess Credit Hour Course Load

The following maximum course loads may only be exceeded with permission from the student's dean even if the additional hours are to be taken for audit. Excess hours carry additional fees, unless departmental policy requires the excess.

1. **Fall, Spring, or Summer - 15 hours**
   Special courses such as workshops, institutes, tutorials, independent study, and courses graded on a satisfactory/unsatisfactory basis are available and may be applied toward a graduate degree. However, a student's degree program may not include more than six semester hours of such special course work.

2. **Certain programs and degrees (Ex: The Doctor of Psychology and Master of Occupational Therapy) may apply more than six semester hours of courses graded on a satisfactory/unsatisfactory scale, based on program requirements and approval from the Department Chair.**
Prerequisites

When selecting courses, students must adhere to required prerequisites and special course restrictions established by the colleges and academic departments. Prerequisites must be passed with the minimum acceptable grade before subsequent courses may be taken.

Auditing Courses

Any graduate student wishing to audit a course may do so. An audited course does not carry credit or earn a grade. The credit hours of an audited course do not count towards the student's enrollment status for financial aid purposes. Regular tuition rates apply. If audit requirements are not met, a "W" grade may be assigned. Psychology courses, Doctoral courses in Leadership Studies, and MS in Human Resource Development courses may not be audited.

Incomplete Work

Grades of "M" (Graduate Incomplete) should be cleared within four weeks after the last day of the term in which the course was taken. This time limit may be extended upon administrative approval but generally may not exceed a period of one year from the end of the term.

If the student is deferred for graduation due to a grade of incomplete, he or she may be eligible for the original date of graduation. Work must be completed, graded, and recorded within thirty calendar days of that term's graduation date.

Class Attendance

Reasonable attendance at all class meetings of courses for which a student has registered is expected of students as a condition for the granting of academic credit. Lack of reasonable attendance as determined by the individual faculty member is reason for denial of credit for a course and possible course failure. Students should consult the class syllabi for current policy regarding attendance, grading procedures, etc., by individual faculty members.

Academic Standing

Actions regarding academic warning, academic dismissal, and academic reactivation will be noted on the student's permanent academic record.

Academic Warning

A student whose cumulative GPA falls below 2.800 in courses taken for graduate credit will be "WARNED." The dean will send this warning to the student and will also send a statement of dismissal policy. Such notification will be sent at the end of each semester so long as the student remains in this status. Some programs require a minimum of 3.000.

Academic Dismissal

Any student whose cumulative GPA is below 2.800 in courses taken for graduate credit and whose next semester graduate course GPA is also below 2.800 is subject to dismissal from that program. Some programs require a minimum of 3.000. Consult the program director for information.

Any student who earns two unsatisfactory grades ("C" or lower) in courses numbered below 500; or "F" in courses numbered 500 or above) is subject to dismissal from that program. Xavier University reserves the right to dismiss a student for reasons of poor scholarship, academic fraud, or misconduct. Actions regarding Academic Dismissal will be noted on the student's academic record.
Non-academic Dismissal

Xavier University reserves the right to dismiss a student if, in the judgment of University officials, such action would be in the physical, mental, emotional, or moral best interests of the student or is considered necessary for the welfare of the University.

Graduate Reactivation

A degree-seeking graduate student who previously attended Xavier and has not been registered for one full academic year must complete a Reactivation Form before attempting to register for classes again and continuing in the course of study. Applicants who want credit for coursework taken at another university during their absence from Xavier must submit an official transcript to their respective program director for credit review. See the entry Transfer Students below for time limitations on the acceptance of coursework. Students are reactivated under the current catalog year, unless an exception is made by the dean.

Students suspended from Xavier or from other institutions for poor scholarship will not be eligible for reactivation before the lapse of at least one fall or spring semester. In all cases, reactivation and the conditions for such will be determined by the dean of the appropriate college. All prior financial obligations must be settled with the Office of the Bursar prior to reactivation.

Academic Honesty

The pursuit of truth demands high standards of personal honesty. Academic and professional life requires a trust based upon integrity of the written and spoken word. Accordingly, violations of certain standards of ethical behavior will not be tolerated at Xavier University. These include theft, cheating, plagiarism, unauthorized assistance in assignments and tests, unauthorized copying of computer software, the falsification of results and material submitted in reports or admission documents, and the falsification of any academic record including letters of recommendation.

All work submitted for academic evaluation must be the student's own. Certainly, the activities of other scholars will influence all students. However, the direct and unattributed use of another's efforts is prohibited as is the use of any work untruthfully submitted as one's own.

Penalties for violations of this policy may include one or more of the following: a zero for that assignment or test, an "F" in the course, and expulsion from the University. The dean of the college in which the student is enrolled is to be informed in writing of all such incidents, though the teacher has full authority to assign the grade for the assignment, test, or course. If disputes of interpretation arise, the student, faculty member, and chair should attempt to resolve the difficulty. If this is unsatisfactory, the dean will rule in the matter. As a final appeal, the academic vice president will call a committee of tenured faculty for the purpose of making a final determination.

Grade Grievance Procedure

This policy applies to both graduate and undergraduate students.

Students may appeal final grades if they believe that the grade was awarded unfairly. The student is responsible for the burden of proof, and must be able to provide some evidence of the lack of fair treatment in order to file a formal grievance. The following procedure must be followed when filing such an appeal.

The instructor is obligated to participate in the grade grievance process. If the instructor does not participate, the chair and/or dean will proceed without the instructor.

1. The student shall indicate in writing to the chair of the appropriate academic department that he/she is appealing the grade. This notification must be submitted in person or postmarked by February 1 for fall grades, June 15 for spring grades, and September 1 for summer grades.
2. The student shall meet with the instructor to try to resolve the grade dispute before February 15 for fall grades and before September 15 for spring and summer grades.
3. If a resolution is not reached and the student still believes that the grievance has merit, the student shall submit a request in writing to the department chair for a meeting with the chair and the instructor. This request should indicate when the meeting with the instructor was held and its outcome; explain exactly how the instructor's action was unfair; and be received by the department chair by March 1 for fall grades and October 1 for spring and summer grades. The student then meets with the department chair and instructor to try to resolve the dispute at this level.
4. If a resolution is not reached and the student wishes to pursue the grievance, he/she shall submit the statement from step #3, along with all evidence and documentation which supports the allegation, to the dean of the appropriate college. This should be done within five working days after meeting with the department chair and the instructor.

5. The dean shall convene a committee, composed of him/herself, three faculty members and two students, to conduct a hearing on the grievance. Two of the faculty members shall be from within the college and one from outside the college in which the instructor is located, and all shall be appointed by the dean. The two students shall have the same status as the grieving student (either graduate or undergraduate). If undergraduate, they shall come from a pool of 4-6 students appointed by the president of student government. One student shall be from within the college in which the grieving student is enrolled, and one shall be from outside the college. The dean shall choose the two students from the pool. If graduate, the dean shall meet with the appropriate graduate student organizations from the colleges to select the two students to sit on this committee.

The committee shall hold a hearing chaired by the dean. The instructor and the student shall be present and each shall be allowed an advisor (from within the University community) and shall be permitted to present witnesses. The committee, advisors, instructor and student shall all have the right to question the witnesses. The committee shall deliberate in closed session, and must present its decision in writing to the student and the instructor within five working days after the decision is reached. If the committee's decision is that the grade given was inappropriate, the academic vice president shall authorize the registrar in writing to change the grade.

6. The decision of the committee is final unless new evidence or new witnesses not previously considered or heard at the hearing become available. The student must submit this new evidence to the academic vice president within ten working days following the receipt of the committee's decision and must indicate precisely how this evidence or testimony relates directly to the alleged unfair awarding of the disputed grade.

7. The decision of the academic vice president is final. There is no further appeal.

**Disciplinary Action**

Xavier University expects the conduct of its students on and off campus to be in accordance with the standards of society. All students are expected to abide by the rules of conduct specified in the Code of Student Conduct, and the Student Handbook. A student violating any University regulation will be subject to disciplinary action. In minor cases, the appropriate staff member (usually from the Office of Residence Life or Student Services) will take action after consultation with the student.

Serious cases of misconduct will be presented before the Associate Vice President for Student Development/Dean of Students (AVPSD/DS) or the University Disciplinary Board. The AVPSD/DS or the Board, after hearing a case in accordance with established procedures, will determine the penalty, if any. The AVPSD/DS and/or the Board have the power to suspend or expel any student found to be in serious violation of any University regulation. Academic credits for courses in which the student is currently enrolled may be lost by a student who is dismissed or expelled from the University before the end of the semester. Refer to the current Student Handbook for discipline procedures [http://www.xavier.edu/deanofstudents/documents/studenthandbook.pdf](http://www.xavier.edu/deanofstudents/documents/studenthandbook.pdf).

Disciplinary records are confidential and are maintained by the Office of the Vice President for Student Development for a period of three to five years. The University may choose to notify parents of disciplinary action taken against a student.

Academically related discipline problems will be addressed through the appropriate department chair, dean and academic vice president.

Xavier University reserves the right to dismiss a student if, in the judgment of University officials, such action would be in the physical, mental, emotional or moral best interests of the student or is considered necessary for the welfare of the University. A student also may be required to withdraw for reasons of poor scholarship, failure to remove academic probation, or misconduct.

**Program Requirements**

Specific requirements of the master's and doctoral programs are described in this catalog. Though advising services are available to assist all students, the student is responsible for following the procedures and completing the steps required for the program. Requirements of graduate programs, both procedural and substantive, may be waived only by written request of the student and/or program director concerned and must have the written approval of the dean of the appropriate college. Additional information may be found in the program fact sheets (available in the Office of The Graduate School).

At least sixty percent of course work toward a graduate degree must be courses offered for graduate credit only, i.e., numbered 500 or higher and not open to undergraduate students. The remainder must be in approved upper division courses numbered 200-499 taken for graduate credit. (Grade of "A" or "B" must be earned for credit in courses below 500 level.) All MBA coursework must be graduate level MBA courses; all MHSA, EdD and PsyD coursework must be graduate level.
Courses Taken at Other Institutions

Graduate credit for a degree completed at another university is not transferable toward a graduate degree at Xavier once the student has begun a graduate program at Xavier. Exceptions to this policy may be made when:

1. A student is permanently transferred to another city by family obligations.
2. A student is specifically directed by the program director, chair or dean to take a course not available at Xavier.
3. Up to six semester hours of graduate course work obtained in the Greater Cincinnati Consortium of Colleges and Universities may be applied to a master's degree taken at Xavier, with the advanced written permission of the program director or dean. As a matter of policy, the official academic record lists only those graduate courses from other universities which apply toward an advanced degree or pertain to certification.

Xavier University Institutional Review Board (IRB)

Xavier has established an Institutional Review Board (IRB) for the protection of human subjects participating in research conducted by or on students, faculty or staff of the University. This includes research performed at Xavier under contractual arrangements with outside research organizations. In these cases, such contracts are subject to review and the research protocol portion of the contract is subject to Xavier IRB review.

The Xavier IRB is guided by the ethical principles set forth by the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research in Ethical Principles and Guidelines for the Protection of Human Subjects of Research: The Belmont Report. In addition, the IRB attempts to insure compliance with the requirements set forth in Title 45, Part 46 of the Code of Federal Regulations.

The Xavier University Professional Review Board (PRB)

A number of programs offered by the University qualify graduates to stand for certificates to practice professions involving vulnerable individuals (children and persons who are mentally or physically ill or challenged). Besides having academic knowledge and skills, they must also have the capacity to serve and help their future clients through intimate human contact.

When a student is found by their program or department to lack interpersonal skills necessary for activity as a professional, this Review Board, made up of certified, practicing professionals, serves as the student's appeal source. Instructors may also appeal to the Board if they are dissatisfied with their department's or program's lack of concern about an individual student's behavior.

Minimum Grade Point Average to Graduate

The minimum grade point average required for graduation from all graduate degree programs is as follows:

<table>
<thead>
<tr>
<th>College of Arts &amp; Sciences</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>MA English</td>
<td>3.000</td>
</tr>
<tr>
<td>MA Health Care Mission Integration</td>
<td>3.000</td>
</tr>
<tr>
<td>MA Private Interest &amp; Public Good</td>
<td>3.000</td>

<tr>
<td>MS Customer Analytics</td>
<td>3.000</td>
</tr>
</tbody>
</table>

In addition, two unsatisfactory grades, as stated in the Academic Dismissal section, shall be grounds for dismissal.

**Student Progress**

Candidates for the master's degree who fail to complete all requirements within six years after enrolling must apply for reactivation. Candidates for the doctoral degree in psychology who fail to complete all requirements within eight years after enrolling must apply for reactivation. Students have nine years to complete the Doctor of Education (Ed.D.) in Leadership Studies program, with a possible one-year extension upon approval of the Dean of the College of Professional Sciences. Certain programs may impose shorter progress requirements. A petition must be submitted to the appropriate college dean before proceeding. Reactivated students are held to program requirements in place at the time of reactivation. The dean of the college may impose certain stipulations as a condition for reactivation.

**Application for Degree and Graduation**

Students initiate the process of graduation by completing a Graduation Application. The online graduation application is available through the Self Service link in the Xavier Student Hub. It is recommended that the student meet with the academic advisor or program director before registering for the final term of work to ensure that all degree requirements will have been met by the end of that term. Utilize the Degree Works evaluation available online to assist you with your graduation check out.

The student must submit a Graduation Application form to the Office of the Registrar before the deadline published in the Academic Calendar. The graduation fee will be added to the student's Bursar account, and an additional fee will be incurred for applications received after the deadline. If the requirements for the degree are not completed at the time specified on the application, the student must submit a new Graduation Application form. The graduation fee is a onetime, non-refundable charge, per each degree awarded.

Degrees are granted three times each year: in August for those completing programs during the summer, in December for those completing programs in the fall semester, and in May for those completing programs during the spring semester. Commencement exercises are held each May for graduates from the entire previous academic year.

Students whose degree requirements are completed, graded, and recorded within thirty calendar days of that term's graduation date may receive a diploma dated for that term.

Students must have satisfied all financial obligations to the University before the diploma or academic transcript can be released.

**Multiple Master's Degrees**

A student may earn from Xavier University only one graduate degree of the same type, e.g., MBA or MHSA, although more than one Master of Arts or Master of Science degree may be obtained in more than one subject or field. An additional MEd degree may be earned in addition to an already earned MEd in Sport Administration, Coaching Education and Athlete Development, Human Resource Development or Counseling. There may not be any overlap in courses used for multiple master's degrees. If two programs require a common course, a substitute must be approved for one of the degree programs. (Note that exceptions to this rule may be a part of the design of dual-degree programs.)

**Comprehensive Examinations**

Comprehensive examination requirements vary according to each program and are found in the program descriptions in this catalog. A student who fails the comprehensive examination may appeal to the program director to repeat the examination during a subsequent term (only one examination attempt is permitted during the summer). A second failure will result in dismissal from the program.

**Thesis/Dissertation**

Thesis/dissertation requirements vary according to program and are found in the program descriptions in this catalog. The thesis/dissertation required for a degree should embody the results of the applicant's research in some problem of the major subject, and must at each stage be under the direction of an appropriate faculty member appointed by the chair.
Student Responsibility

It is the responsibility of the graduate student to become informed about all regulations and procedures required by the program and by the University. **In no case will a regulation be waived or an exception granted because a student pleads ignorance of the regulation or asserts that information was not given by an advisor or other authority.** The program director should be consulted concerning requirements, deficiencies, the planning of a program, and special regulations.

Any falsification of information on the application, transcripts, recommendations (where required), or test scores will be sufficient cause for disqualification for admission or dismissal if the individual has been admitted. All tuition and fees paid and graduate credit earned are forfeited under such dismissal.

Reservation of Rights

Xavier reserves the right to modify its graduation and other requirements as deemed necessary from time to time. The University will attempt to comply with the requirements published in the catalog for the year a student initially registers, provided the student continues in attendance without interruption of more than a year. Students who interrupt their attendance by more than a year and who later return must meet curricular requirements as determined by their dean.

Privacy Rights

Return to Policies and Procedures

The Family Educational Rights and Privacy Act (FERPA) of 1974 as amended details the access of student records held and maintained by educational institutions. The law further requires that parents or eligible students be notified of the types of records held and officials responsible for such records.

Parents have the right of access, review and challenge for elementary and secondary students (under the age of 18). The student assumes the rights of the parents at age 18 or upon attendance at a post-secondary institution. However, if the student is considered dependent (according to the 1954 Internal Revenue Code), both the student and parents have access rights. A student's records will be released to parents only after receipt of reasonable proof of dependency.

Pursuant to Section 99.13, students have the right of access to all educational records except those specifically excluded under the amendments to the Privacy Act. The following materials are specifically exempted from access by students: (1) Personal notes of teachers and administrators, provided these notes are not available to a third party other than a teacher's substitute; (2) Law Enforcement Records, to include those of the campus police force; (3) Medical, psychological and counseling records. The privacy of student medical records is protected by Ohio law and they are not available to anyone except those providing the treatment. These records are excluded from FERPA as long as they are used only for treatment and are not used for educational purposes. Student medical and counseling records are also excluded from the provisions of the Health Insurance Portability and Accountability Act (HIPAA).

In addition to the above excepted information, students may not inspect financial information submitted by their parents, nor may they inspect confidential letters of reference placed in the file prior to January 1, 1975.

The student does have the right of access upon request to all other educational records and files which are directly related to the student with proper identification. This includes all admissions records, registration files, financial aid materials (excluding financial information submitted by their parents as mentioned above), housing files, discipline records and any athletic records.

University employees who have an "educational need to know" and others with the expressed consent of the student also have the right of access to a student's records. In compliance with Section 99.5 of the Family Educational Rights and Privacy Act of 1974, the following information is published for all students at Xavier University.

Types of Records and Officials Responsible for Maintenance of Records

Requests for the following records should be directed to the appropriate office at Xavier University, 3800 Victory Parkway, Cincinnati, Ohio 45207-1092.
Review and Expunging of Records

Each of the offices listed has review procedures and methods of expunging inaccurate data which are particular to the type of records kept and to the specific purpose for which they are maintained. Specific procedures can be determined by contacting the official of the office concerned.

Procedures for Challenging Content of Records

The procedures for challenging content of any specific record for reasons of inaccuracy of bias can be either informal or formal hearings. Student requests for a formal hearing must be made in writing to the appropriate vice president who, within a reasonable period of time after receiving such requests, will inform the student of the date, place and time of the hearing. The parents and/or student have the right to present evidence that the challenged material is inaccurate, misleading, or in any way inappropriate for the particular file. Correction of the material or deletion of the material should be requested. Decisions rendered at the hearing will be final, and will be based solely on the evidence presented at the hearing. The appropriate vice president will summarize the evidence, state the decision, and state the reasons for the decision. This written report will be delivered to all parties concerned.

Cost of Reproducing Files

Students have a right to request and receive copies of all accessible materials with certain exceptions, e.g., a copy of the official academic record for which a financial "hold" exists. The cost of reproduction shall be borne by the requesting party, and shall not exceed the cost to the institution. The current charge for photocopying must be paid per page, per copy. The current charge for transcripts must be paid for a complete copy of the academic record.

Directory Information

The Family Educational Rights and Privacy Act (FERPA) permits the public release of what is termed "directory information." For Xavier University's purposes, this information includes the following: the student's name, all addresses (including email) and telephone listings, date and place of birth, any photographs including All Card photo, major field of study, number of hours registered and full or part-time status, class standing (freshman, sophomore, junior, senior, graduate), participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees awarded and total hours earned, special honors and awards, and the most recent previous educational agency or institution attended by the student.

A request for nondisclosure of the "directory information" must be filed with the Office of the Registrar, and will be honored by the institution until the student asks to have it removed, whether or not the student is currently registered. Upon the death of a student, all privacy holds are removed.
Title IX

Title IX is the federal civil rights law that prohibits discrimination based on sex in all federally funded education programs and activities. Sex discrimination includes sexual harassment, sexual assault, dating violence, domestic violence, stalking, and other forms of gender-based harassment or violence. Xavier University does not tolerate sex discrimination. If a student believes she or he has experienced sex discrimination or has questions about Title IX, please contact Xavier's Chief Title IX Officer Kate Lawson at 513-745-3046, lawsonk1@xavier.edu or visit the Title IX Office website. For free, confidential advocacy and support, contact Xavier's Advocacy & Prevention Coordinator at 513-904-9013.

Requirements for Degrees, Majors, Minors, and Certificates

Requirements for Bachelor's Degrees

Meeting the degree requirements is the student's responsibility.

Candidates that will have a bachelor's degree awarded must have:

1. completed all the requirements listed under the "Core Curriculum;"
2. attained a 2.000 average in the course work of the major. BSBA students must also complete the business core with a 2.000 average; some programs have a higher GPA requirement;
3. attained a cumulative grade point average of 2.000 or better;
4. earned at least 120 semester credit hours;
5. completed the last 30 credit hours at Xavier, excluding consortium courses, unless waived by a college dean;
6. transferred, normally, no more than 15 credit hours from another college or university toward a degree after matriculation at Xavier;
7. filed a formal graduation application by the deadline published for each semester;
8. completed all departmental requirements in the major field and all requirements of their college;
9. cleared all financial obligations with the University before the diploma and transcripts can be released.

In addition to the above, transfer students must have:

1. completed at least 60 credit hours in accredited four-year schools;
2. completed at least one-half of the course requirements of the major at Xavier;
3. if applicable, completed at least one-half of the business core at Xavier.

These requirements are contained in the student's "Degree Evaluation", which is a degree progress tracking tool.

Requirements for a Second Bachelor's Degree

Students who have a bachelor's degree from Xavier University or another regionally accredited institution may earn a second bachelor's degree at Xavier. Xavier students may pursue a second Bachelor degree after the completion of their first degree or simultaneously with their first degree. When the first degree is from another regionally accredited institution, credits applied toward the first degree will be accepted as transfer credit toward the second degree.

Students pursuing two Bachelor degrees from Xavier University must complete a minimum of 30 additional hours beyond those required for the first degree, for a minimum total of 150 credit hours. In addition, at least 15 hours of the 30 additional hours must be in the second major.

If the second degree is a business degree, at least one-half of the business core must be completed at Xavier and present catalog requirements in business must be met.

Students must meet all current Xavier core, quality point and grade requirements set by the University, college(s) and major department(s).
Requirements for an Associate's Degree

Meeting degree requirements is the student's responsibility.

Candidates for associate degrees must have:

1. completed the appropriate requirements listed under the "Core Curriculum - Associate's Degree;"  
2. attained a 2.000 average in the course work of the concentration;  
3. attained a cumulative grade point average of 2.000;  
4. earned at least 60 hours;  
5. completed the last 30 hours at Xavier, excluding consortium courses, unless waived by college dean;  
6. transferred, normally, no more than 9 hours from another college or university toward a degree after matriculation at Xavier;  
7. filed a formal graduation application by the deadline published for each semester;  
8. completed all departmental requirements in the concentration field & all requirements of the college;  
9. cleared all financial obligations to the University before the diploma and transcripts can be released.

In addition to the above, transfer students must have:

• completed at least one-half of the course requirements of the major at Xavier.

Requirements for the Major

An undergraduate student must declare a major and complete all the requirements of the degree program, including the major. The requirements for each major are specifically defined, and a minimum 2.000 average in the course work of the major must be attained (some majors require a higher average). Each major is noted on the student's permanent academic record, but only one degree is conferred, namely the one that corresponds to the student's primary major. The student must complete the core curriculum requirements of the primary major. The core curriculum requirements of the secondary major need not be completed unless a business major is elected as the secondary major. In this case, the requirements of the "business core" must also be met. Regardless of hours counted for more than one major, associate degrees require a minimum of 60 semester credit hours and baccalaureate degrees require a minimum of 120 semester credit hours.

Requirements for a Minor

Undergraduate students may select a minor or minors in addition to a major.

Guidelines for minors are as follows:

• must contain a minimum of 15 credit hours (each minor is specifically defined);  
• at least half of the credit hours of a minor must come from upper division (200-499) courses;  
• at least half of the course requirements of a minor must be completed at Xavier;  
• a student must attain a 2.000 average (or higher for some minors) in the course work of the minor;  
• a student must declare a minor with the appropriate department and the student's college;  
• all requirements of the minor(s) must be completed at the time of conferral of the degree  
• successful completion of the minor will be noted on the student's academic transcript.

Requirements for Master's and Doctoral Degrees

Meeting the degree requirements is the student's responsibility.

Candidates that will have a Master's or Doctoral degree awarded must have:

1. Attained the minimum GPA for the specific graduate degree program. See "Minimum Grade Point Average to Graduate" in the Graduate Academic Policies and Regulations  
2. Completed all credit hours required for the program. The minimum number of credit hours for any Master's degree is 30 semester credit hours; Students should refer to their individual program requirements for the minimum number of hours required for their specific program  
3. Completed all requirements within the specified time allowed. See "Student Progress" in the Graduate Academic Policies and Regulations
4. A student's degree program may not include more than six semester hours of course work graded on a satisfactory/unsatisfactory basis for special coursework such as workshops, institutes, tutorials, and independent study. Certain programs and degrees may apply more than six semester hours of courses graded on a satisfactory/unsatisfactory scale, based on program requirements and approval from the Department Chair.

5. Typically no more than six credit hours taken as a non-degree graduate student may apply toward a graduate degree. Exceptions may be granted at program director's discretion. Some courses and/or programs are not available to non-degree graduate students.

6. At least sixty percent of course work toward a graduate degree must be courses offered for graduate credit only, i.e., numbered 500 or higher and not open to undergraduate students.

7. Filed a formal graduation application by the deadline published for each semester;

8. Completed all departmental requirements in the major field and all requirements of their college, including any Comprehensive Examination, Thesis/Dissertation, Practicum(s), and Internship requirements.

9. Cleared all financial obligations with the University before the diploma and transcripts can be released.

Requirements for Multiple Master's Degrees

A student may earn from Xavier University only one graduate degree of the same type, e.g., MBA or MHSA, although more than one Master of Arts or Master of Science degree may be obtained in more than one subject or field. An additional MEd degree may be earned in addition to an already earned MEd in Sport Administration, Coaching Education and Athlete Development, Human Resource Development or Counseling. There may not be any overlap in courses used for multiple master's degrees. If two programs require a common course, a substitute must be approved for one of the degree programs. (Note that exceptions to this rule may be a part of the design of dual-degree programs.)

Requirements for Certificate Programs

Xavier University offers several certificate programs. Students may complete certificate programs as part of an associate, bachelor's or master's degree or as a non-degree student. Some programs require that students have the minimum of an associate's or bachelor's degree prior to admission.

Candidates for certificates must have:

1. completed the requirements for the certificate with at least one-half of the hours completed at Xavier.
2. attained a cumulative grade point average of 2.000 or better (some certificates require a higher average).
3. satisfied all financial obligations to the University before the transcripts can be released.

Core Curriculum

Undergraduate Core Curriculum

Since 1599, Jesuit education has promoted a distinctive plan of studies (Ratio Studiorum in Latin) that adjusts to each generation, always maintaining a strong commitment to the Liberal Arts Catholic Jesuit tradition. At Xavier University this plan of studies begins with the Undergraduate Core Curriculum. In Fall 2015, Xavier launched a new Core that revolved around the Jesuit values of magis, reflection, discernment, cura personalis, solidarity and kinship, and service rooted in justice and love. The new Core significantly reduces the total credit hours required for most students, and thus allows for numerous possibilities for double majors, additional minors, immersion experiences, study abroad, and a wide range of electives that students can use to satisfy the overall number of credit hours required for graduation.
Bachelor Degrees (Requirements for all first-year students entering Fall 2015 or later):

Each line represents a three-credit hour course, unless otherwise noted.

First-Year Experience

Ethics/Religion and Society Focus

• THEO 111 - Theological Foundations
• PHIL 100 - Ethics as Intro to Philosophy
  ◦ Literature & Moral Imagination

Perspectives Courses

• Creative Perspectives
• Historical Perspectives
• Mathematical Perspectives
• Philosophical Perspectives (PHIL 200)
• Scientific Perspectives
• Theological Perspectives (THEO 200+)

Skills

• ENGL 101 Composition or ENGL 115 Rhetoric
• Language
  ◦ For students entering prior to Fall 2017: any two three-credit hour courses or 202 proficiency
  ◦ For students entering in Fall 2017 or later: 201 level proficiency

Electives

• Humanities Elective
• Natural Science Elective
• Social Science Elective
Five Flags

Students also must satisfy five flags in addition to the 48 credit hours listed in the chart above. A flag constitutes a significant portion of a course in any discipline that is devoted to one of the five topics. Flagged courses are approved by the committee or subcommittee devoted to each flag topic. No single course can be used to fulfill more than two flags. Flagged courses often double count for other courses in the core, for major requirements, and/or for minor requirements, and thus do not add to the total number of credit hours required in the Core Curriculum.

- Diversity (DCR)
- Ethics/Religion and Society (E/RS)
- Oral Communication
- Quantitative Reasoning
- Writing

CORE 499

- All Bachelor degree students must successfully complete CORE 499 during their anticipated final semester as a requirement of their Bachelor degree.

Notes

- Students who enrolled before Fall 2015 and graduate after Spring 2015 count as Transition Students who must satisfy the Transition Core (see Transition Core).
- The Ethics/Religion and Society Focus also includes an E/RS flagged course, one of the five flags at the bottom of the chart.
- Literature and Moral Imagination can be fulfilled with CLAS 205, ENGL 205, FREN 205, GERM 205, or SPAN 205.
- Humanities Elective can be satisfied by one course from any of the following categories: All Classics except 205, ENGL 121+ except 205, FREN 300+, GERM 300+, HIST 200+, PHIL 300+, SPAN 300+, or THEO 300+. The Humanities Elective may not double count as an E/RS flag (though may be an E/RS flagged course). While all Theology courses 200 and above count as Theological Perspectives, and all Theology courses 300 and above also count for Humanities Electives, no Theology course can double-count for both Theological Perspectives and Humanities Elective.

Bachelor Degrees (Requirements for students enrolled before Fall 2015 and graduating after Spring 2015):

Each line represents a three-credit hour course, unless otherwise noted

Ethics/Religion and Society Focus

- THEO 111 - Theological Foundations
- PHIL 100 - Ethics as Intro to Philosophy
  - Literature & the Moral Imagination
Perspectives Courses

- Creative Perspectives OR Old Core Fine Arts
- Historical Perspectives OR Old Core History 1 & 2 (Survey Courses)
- Mathematical Perspectives OR Two Old Core Math Courses above 105
- Philosophical Perspectives (PHIL 200) OR Old Core PHIL 290 Theory of Knowledge
- Scientific Perspectives OR Any Old Core Science course with lab
- Theological Perspectives (THEO 200+) OR Any Old Core THEO 200 or THEO 300s.

Skills

- ENGL 101 Composition or ENGL 115 Rhetoric
- Language (two courses or 201)

Electives

- Humanities Elective OR Any Old Core Literature Elective, THEO 300+, or PHIL 300+
- Natural Science Elective OR Any Old Core Natural Science course
- Social Science Elective OR Any Old Core Social Science Course

Two Flags

Students also must satisfy two flags in addition to the credit hours listed in the chart above. A flag constitutes a significant portion of a course in any discipline that is devoted to one of the two topics. Flagged courses are approved by the committee or subcommittee devoted to each flag topic. A single course can fulfill two flags. Flagged courses often double count for other courses in the core, for major requirements, and/or for minor requirements, and thus do not add to the total number of credit hours required in the Core Curriculum.

- Diversity (DCR)
- Ethics/Religion and Society (E/RS)

CORE 499

- All Bachelor degree students must successfully complete CORE 499 during their anticipated final semester as a requirement of their Bachelor degree.

Notes

- The Ethics/Religion and Society Focus also includes an E/RS flagged course.
- Literature and Moral Imagination can be fulfilled with CLAS 205, ENGL 205, FREN 205, GERM 205, or SPAN 205.
• Old Core Science course with lab must be in Biology, Chemistry, Physics, or Psychology for a total of 3 credits.
• Humanities Elective can be satisfied by one course from any of the following categories: All Classics except 205, ENGL 121+ except 205, FREN 300+, GERM 300+, HIST 200+, PHIL 300+, SPAN 300+, or THEO 300+. The Humanities Elective may not double count as an E/RS flag (though may be an E/RS flagged course). While all Theology courses 200 and above count as Theological Perspectives, and all Theology courses 300 and above also count for Humanities Electives, no Theology course can double-count for both Theological Perspectives and Humanities Elective.
• Old Core Natural Science course must be a minimum of 3 credits in Biology, Chemistry, or Physics. This requirement includes a lab.

Associate's Degrees

Requirements For Most Associate's Degree Programs

• Eng. Comp./Rhet. (3)
• Phil 100 (3)
• Theo 111 (3)
• Creative Perspectives
• Historical Perspectives OR Humanities elective
• Natural Science elective (3)
• Social Science elective (3)
• DCR elective (3)

Total: 24 hours

Requirements For Associate's Degree Program in Early Childhood Education

• Eng. Comp./Rhet. (3)
• Phil 100 (3)
• Theo 111 (3)
• Creative Perspectives
• Historical Perspective OR Humanities elective
• Natural Science elective (3)
• Social Science elective (3)
• DCR elective (3)

Total: 24 hours

Requirements For Associate's Degree Program in Business Administration

• Eng. Comp./Rhet. (3)
• Phil 100 (3)
• Theo 111 (3)
• Creative Perspectives
• Historical Perspectives OR Humanities elective
• Mathematical Perspectives
• Natural Science elective (3)
• Social Science elective (3)

Total: 24 hours

Requirements For Associate's Degree in Radiologic Technology

• Eng. Comp./Rhet. (3)
• Phil 100 (3)
• Theo 111 (3)
• Historical Perspectives OR Humanities elective
• Mathematical Perspectives
• Natural Science elective (3)
• Social Science elective (3)
• DCR elective (3)

Total: 24 hours

Transfer Students

Transfer Students In Transition Core

Transfer students who enter from Fall 2015 through Summer 2016 with 24 or more credits qualify as Transition Students and can complete the Transition Core. This requires no new skills flags (oral communication, quantitative reasoning, and writing).

Transfer Students/Work In New Core

All transfer students who start during or after Fall 2016 must complete the new Core. The rules governing Transfer students with the New Core are as follows:

1. Students can transfer to Xavier with a wide range of courses counting for core and/or major and minor requirements, as long as each transferred course can be assigned an equivalent Xavier course. If the Xavier course carries core attributes (for example, Humanities elective, Scientific Perspectives, Writing Flag, etc.), so too will the transferred course. Xavier's Office of Credit Evaluation (OCE), in consultation with department chairs, will help transfer students determine which Xavier course is equivalent to the transferred course. A not necessarily complete list of courses that currently count for core is at http://www.xavier.edu/core-transition/Core-Courses1.cfm.

2. The flag standards are set by the Core Curriculum Committee (CCC), via the relevant subcommittees who communicate the standards to the Associate Dean of the College of Arts and Sciences. If the OCE determines based on its description that a course may satisfy any flag (E/RS, DCR, writing, oral communication, or quantitative reasoning), it may request equivalence of the CCC chair or the Associate Dean of the College of Arts and Sciences. Public speaking or similar courses will satisfy the oral communication flag, and courses flagged as "writing-intensive" at other universities can satisfy the Xavier writing-intensive flag. However, if a student transfers in a course deemed equivalent to a Xavier course that has one or more flags, the flags are retained without independent evaluation by the flag subcommittee.

3. Some interdisciplinary courses to be transferred have no analogous Xavier departmental affiliation; these courses are identified, for example, as "Humanities" or "Engineering." The Associate Dean of the College of Arts and Sciences will approve these equivalences in consultation with whomever he/she deems appropriate.
Identifying Courses that Satisfy Core Requirements

To identify which courses satisfy a core requirement for a given term, use either the Streamlined Class Search or Search Class Schedule function available through the Self Service link of the Xavier Hub. First, choose the term in which you are interested. Next, in the Subject Area, choose "All" or use the shift key to highlight all subjects. Then, use the drop-down menu in the "Attribute Type" box to select the area of the core you would like to search for (e.g. Diversity Curriculum Requirement or ERS Focus Elective). This will return a list of courses that meet the area of the core you selected and are being offered that term.

List of Majors, Minors, Certificates and Special Programs

Core Curriculum

Undergraduate Core Curriculum

Since 1599, Jesuit education has promoted a distinctive plan of studies (Ratio Studiorum in Latin) that adjusts to each generation, always maintaining a strong commitment to the Liberal Arts Catholic Jesuit tradition. At Xavier University this plan of studies begins with the Undergraduate Core Curriculum. Public speaking or similar courses will satisfy the oral communication flag, and courses flagged as "writing-intensive" at other universities can satisfy the Xavier writing-intensive flag. However, if a student transfers in a course deemed equivalent to a Xavier course that has one or more flags, the flags are retained without independent evaluation by the flag subcommittee.

3. Some interdisciplinary courses to be transferred have no analogous Xavier departmental affiliation; these courses are identified, for example, as "Humanities" or "Engineering." The Associate Dean of the College of Arts and Sciences will approve these equivalences in consultation with whomever he/she deems appropriate.

Identifying Courses that Satisfy Core Requirements

To identify which courses satisfy a core requirement for a given term, use either the Streamlined Class Search or Search Class Schedule function available through the Self Service link of the Xavier Hub. First, choose the term in which you are interested. Next, in the Subject Area, choose "All" or use the shift key to highlight all subjects. Then, use the drop-down menu in the "Attribute Type" box to select the area of the core you would like to search for (e.g. Diversity Curriculum Requirement or ERS Focus Elective). This will return a list of courses that meet the area of the core you selected and are being offered that term.

Honors Curriculum

University Scholars Program

University Scholars is an honors curriculum that allows Xavier students from every college and major to be challenged with greater academic depth and rigor. The program brings Honors peers together in small classes, emphasizing learning across the university and engagement with the world.

Typically University Scholars are students with excellent high school records and SAT scores around 1300 and up or ACT scores around 29 and above. Admission to the program usually occurs by invitation prior to the freshman year, but students already enrolled at Xavier or transfer students may contact the Program Director to inquire about joining the program once they have matriculated.

Minimum requirements for USP students entering fall 2016 are as follows:

1. Scholars must complete any five courses with the Honors (HONR) attribute; these courses are expected to overlap largely with a student's core requirements and/or a student's major;

2. Scholars must complete HONR 300 (a multidisciplinary "Connections" course taught by two faculty from different departments) in their junior or senior year;

3. Scholars must maintain a cumulative 3.000 grade point average during their freshman year and a 3.200 cumulative grade point average thereafter. Note: only Honors courses with a C or above meet a Scholars requirement. Students whose grade point averages fall below these figures will be placed on probation within the Program and given a semester in which to bring up their grades.
University scholars who complete the program successfully and have a 3.200 overall GPA at graduation receive the appropriate Bachelor's Degree pertaining to their area of study with the notation "University Scholar."

**University Scholars and Business Scholars Program**

Business students in the University Scholars program may also elect to participate in the Business Scholars Program. The program provides advanced coursework in economics, finance, management and business law.

Like the University Scholars program, students take specific classes - designated as "honors" sections-in the business curriculum. The classes fulfill classes required of all business majors. Honors courses are smaller in size and focus more attention on in-depth analysis, critical thinking, discussion and writing. Business scholars follow the same curriculum guidelines as all other University Scholars.

Beyond that, business scholars must take four business courses at honors level. Many of the business honors sections will also serve as Honors Seminars, another requirement in the University Scholars program.

**Requirements for Business Scholars Program**

Students must complete all University Scholars requirements, plus:

1. Micro- or Macroeconomic Principles (ECON 200 and/or ECON 201) at honors level.
2. Managerial Behavior (MGMT 300) at honors level (seminar course).
3. Business Finance (FINC 300) at honors level (seminar course).
4. Legal Environment (BLAW 300) at honors level (seminar course and E/RS Focus Elective).

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog or website.
• * Scholars must take one history course at honors level. Scholars must also take either ECON 200 or ECON 201 at honors level.
  ◦ Beyond THEO 111 and PHIL 100, scholars must also take one course in either area at honors level.
  ◦ Student must take either STAT 210 or second science elective at honors or major level.
• ** Students must demonstrate intermediate foreign/second language proficiency (202 level or above).
• *** BLAW 300 at honors level also fulfills E/RS Focus Elective requirement.
• **** Students must complete a studio or performance course for the fine arts elective.
• EPU SHRM 200 fulfills the Cultural Diversity Elective. (Business scholars need not take an additional E Pluribus Unum course).
• SEM Possible Seminar Elective. Students must complete a minimum of three seminars.

Freshman Year  31 hours
Sophomore Year 30 hours
Junior Year      33 hours
Senior Year      30 hours
Total Hours      124 credit hours

Honors Bachelor of Arts

Honors Bachelor of Arts

Established in 1948, Honors A.B. (HAB) is the University's first and oldest honors program. True to Xavier's Jesuit heritage, the program emphasizes the interdisciplinary study of Classics (Latin and Greek) and Philosophy. Students study the classic texts of Western civilization while fostering deeper understanding of the values and ideals they embrace.

The HAB program prepares students for life in the modern world by developing depth and balance of intellect and an openness to new ideas by examining the roots from which our culture and traditions have sprung. Candidates for the program are expected to rank high in their high school classes; often they have Latin had high school, although special arrangements can be made for those with no experience in ancient languages, as long as students want to learn them. The program is designed challenge students as undergraduates and prepare them for lifelong learning. HAB graduates pursue careers in a variety of professional, business, and academic areas.

The main objectives of the HAB program are as follows:

1. To provide intense, upper-level Latin and Greek courses at the honors level in which substantial readings of significant Roman and Greek authors are engaged in the original;
2. To provide a range of courses in philosophy for an appreciation of the evolution of ideas about what it means to be human;
3. To provide students with an understanding of the development of ideas about human concerns (e.g. justice, freedom, virtue, faith, allegiance) as they were first expressed to foster a deeper understanding of the values and ideals they embrace.

Honors Bachelor of Arts Core Requirements

Honors students are expected to fulfill the regular Undergraduate Core Curriculum requirements, and whenever possible, special Honors sections or the more demanding sections of required courses should be taken:

Honors Bachelor of Arts Program Specific Requirements

Latin - 21 hours from the following:

LATN 211: Cicero *Orations*
LATN 212: Vergil, *Aeneid*
LATN 231: Horace, *Odes* and *Epodes*
LATN 232: Catullus
LATN 241: Latin Prose Composition
LATN 253: Livy
LATN 263: Caesar
LATN 273: Cicero, Letters
LATN 283: Cicero, Essays
LATN 293: Horace, Satires and Epistles
LATN 311: History of Ancient Rome
LATN 321: Roman Comedy
LATN 331: Lucretius
LATN 341: Tacitus
LATN 351: Roman Satire
LATN 361: History of Latin Literature
LATN 371: Medieval Latin
LATN 397: Special Study, Prose
LATN 398: Special Study Poetry

Greek - 21 hours from the following:

GREK 101: Elementary Greek I
GREK 102: Elementary Greek II
GREK 201: Attic Prose
GREK 202: Attic Tragedy
GREK 203: Plato, Selected Readings
GREK 241: Koine Greek I
GREK 242: Koine Greek II
GREK 311: History of Ancient Greece
GREK 321: Homer, Iliad
GREK 322: Homer, Odyssey
GREK 331: Plato, Republic
GREK 341: Thucydides
GREK 351: Aeschylus
GREK 361: History of Greek Literature
GREK 397: Special Study: Prose
GREK 398: Special Study: Poetry

Philosophy - 18 hours

Capstone Thesis Research Experience - 6 hours:

CLAS 398: Capstone Preparation-Honors
CLAS 399: Honors Bachelor of Art (HAB)

This year-long capstone course (6 credit hours) ensures that each HAB student writes a research paper utilizing the analytical, writing and linguistic skills he/she has developed during his/her four years in the HAB program and, to the extent possible, combining the interests of his/her second major or pre-med Natural Science minor. Course participants give in-class oral and written presentations and undertake a mock defense of their paper in preparation for the real oral defense. Cooperative learning is essential to success to the thesis process. Participants read and respond to one another's work.

Philosophy, Politics and the Public Honors Program

The Philosophy, Politics & the Public Program brings together many of Xavier's traditional curricular strengths in an innovative and rigorous undergraduate honors program of study focusing on the unifying concept of “the public sphere” in democratic societies. The program is inspired by the Philosophy, Politics & Economics programs commonly found in the British university system, but differs from them by placing greater emphasis upon philosophical conceptions and historical context. The approach taken by this honors program is expressed in the meanings of the several conceptions identified in its very name. In its original meaning, philosophy denotes “the love of wisdom.” Aristotle, one of the greatest and most influential philosophers of the western tradition, defined politics as “the master science of the good.” “The public” represents a multi-dimensional domain of shared consciousness, ideals and action. Through
course work that is both multi-disciplinary as well as centered in a particular disciplinary concentration, students are encouraged to follow their own interests in the theoretical engagement of the public in its many embodiments and meanings. In addition, the theoretical work in the program is complemented by engagement in the active world of politics through working on political campaigns, lobbying of behalf of legislation, internships in local and national government offices and summer study in Paris that includes a seminar in Brussels, the seat of the European Union. The program is highly selective, with 15 to 20 freshman students enrolling each fall.

The Philosophy, Politics & the Public Core Sequence

The program finds its center in two main areas. Students take the core interdisciplinary course sequence during sophomore and junior year. The sophomore year sequence brings together faculty from history and political science. Its focus is on America's civic culture in its growth and development, with special emphasis upon electoral and legislative politics. The junior year sequence is primarily philosophical and centers upon the philosophical ideas of the Enlightenment culminating in the French Revolution as a primary shaper of both modern democratic institutions as well as modern conceptions of “the public.” The course will culminate with the students traveling to Paris and Brussels to meet with French specialists and students who are likewise investigating the changing contours of the modern Western democracies that this revolution had so profoundly affected. Details of these sequences appear below.

The Philosophy, Politics & the Public Elective Concentration

Together with the Constructing the Public sequence, the Elective Concentration forms the heart of the individual student's PPP program. Students are encouraged to choose an Elective Concentration in a discipline that most closely fits their own academic interest in “the public.” In this way, the Elective Concentration provides the conceptual center of the PPP student's course of study, supplying the dominant framework from which he or she investigates the complex content of “the public.” There are a total of 18 hours of available electives in the PPP honors program. Students may choose an Interdisciplinary minor or one that is departmentally based. Some examples are:

A. Philosophy, Politics & the Public combined with an Interdisciplinary Minor
   1. Concentration in Gender & Diversity
   2. Concentration in International Studies
   3. Concentration in Latin American Studies
   4. Concentration in Peace Studies
   5. Concentration in Catholicism & Culture

B. Philosophy, Politics & the Public combined with a Discipline-based Minor
   1. Concentration in Business
   2. Concentration in Economics
   3. Concentration in History
   4. Concentration in International Studies
   5. Concentration in Philosophy
   6. Concentration in Political Science
   7. Concentration in Art

The Senior Capstone Research Thesis

In the senior year, all PPP students will submit a research thesis for public defense. This thesis will be multidisciplinary in content and will address issues concerning the public that flow from the student's own elective concentration.

Additional Course Requirements in the Program

In addition to these required core and elective courses, students in Philosophy, Politics and the Public must complete either a full minor in a foreign language or complete two languages through intermediate proficiency, one additional course from a history survey of the student's choice, and two courses in economics.
Graduation Requirement

The HAB in Philosophy, Politics and the Public requires a 3.2 GPA to graduate.

Philosophy, Politics and the Public Curriculum

57 Credit Hours

Course Requirements

39 Credit Hours

- HIST 408 - SEM: Constructing the Public
- HIST 300 - Writing in Public
- HIST 412 - SEM: The American Dream
- POLI 246 - Mass Media and Politics
- POLI 329 - Public Policy Practice
- POLI 415 - Paris Seminar Political Theory
  or
  - PHIL 415 - Paris Seminar Political Theory
- PHIL 338 - Enlightenment & Revolution
- PHIL 339 - Revolution & Its Aftermath
- PHIL 398 - Thesis Review I
- PHIL 399 - Thesis Review II
  - PHIL 406 - Topics in Political Philosophy
  - PPP Elective (Varies with semester/direcotr's approval)
  - PPP Elective (Varies with semester/direcotr's approval)

Elected Concentration

18 Credit Hours

Note: If the concentration chosen is a 15 credit hour concentration, the student must complete an additional 3 credit hour elective in consultation with their advisor.

The Undergraduate Track Concentrations

Economic Sustainability & the Public Sphere Concentration

15 Credit Hours
REQUIRED

- BIOL 120 Life, Ecology & People (core science requirement)
- BIOL 250 Ecology (core science requirement)
- ECON 305 Microeconomic Analysis

ELECTIVE (2)

- ECON 320 Ecological Economics I
- ECON XXX Ecological Economics II
- ECON 420 Urban & Regional Economics
- ECON 341 Economics of Developing Countries
- ECON XXX Sustainable Development
- ECON XXX Environmental Economics
- ECON XXX Environmental Policy Seminar

Media, Politics & the Public Sphere Concentration

15 hours chosen from the following; at least six hours in both COMM and POLI

- COMM 206 Writing for the Media
- COMM 211 Media Literacy
- COMM 270 Principles of Strategic Communication
- COMM 323 Race, Class, Gender and the Media
- COMM 426 Media Law and Policy
- COMM 477 Strategic Communication Ethics and Society
- POLI 120 Comparative Government and Politics
- POLI 140 American Government and Politics
- POLI 277 International Relations
- POLI 301 Political Philosophy
- SOCI 200 Foundational Social Thought
- SOCI 240 Population and Globalization
- SOCI 264 Social Change
- SOCI 271 New Social Movements
- SOCI 365 Class and Class Conflict

Global Cultures & Publics Concentration

15 Hours

REQUIRED

- ECON 316/HIST 350/POLI 316 Globalization

ELECTIVE (4 from more than one discipline)

- HIST 276 History of Nicaragua
- HIST 343 Religion & Empire in Latin America
- HIST 346 Modern Japan
- HIST 428 Latin America & the United States
- HIST 451 Seminar: France & West Africa
- HIST 463 Seminar: Cold War US Foreign Policy
- ECON 300 International Trade & Business
- ECON 341 Economy of Developing Countries
- POLI 224 Arab Spring & Middle East Politics
• POLI 277 International Relations
• POLI 320 Global Islamic Politics
• POLI 372 International Political Economy
• POLI 374 US Foreign Policy
• POLI 390 Seminar in International Relations
• SOCI 240 Population & Globalization

Political Science & the Public Sphere Concentration

15 Hours

REQUIRED

• POLI 120 Comparative Government & Politics
• PHIL 338 Enlightenment & Revolution
• PHIL 339 The Revolution & Its Aftermath

ELECTIVE (2)

• POLI 277 International Relations
• POLI 309 Montesquieu & Tocqueville
• POLI 412 Paris Seminar in Political Theory
• POLI 300 Level Elective
• POLI 300 Level Elective
• POLI 300 Level Elective

Specialized Concentration

15 Hours

• In instances when a student is interested in a specific area of study, they will work with their Academic Advisor to craft a specialized concentration.

Fifth Year Masters Transition Concentration

18 Hours

For students that opt for the 5th Year Master's program, the concentration courses will consist of:

• PHIL xxx - Private Interest & Public Good I (3 hours)
• PHIL xxx - Private Interest & Public Good II (3 hours)
• COMM xxx - Media, Democracy & Public Sphere (3 hours)
• POLI xxx - Advanced Political Analysis (3 hours)
• POLI xxx - Campaign Politics (3 hours)
• ECON xxx - Economics of Public Policy (3 hours)
Bachelor of Arts

Advertising, B.A.

Bachelor of Arts degree for Communication Arts majors

The Communication Arts Majors will help students understand many aspects of the human communication process, develop essential skills, and form positive attitudes toward the role that, as educated adults, they will play in society. Basic skills in written and spoken communication receive emphasis in all four communication majors: advertising, communication studies, electronic media, and public relations. In order to complete all requirements for the degree, students should formally declare one of the four departmental majors preferably by the end of their freshmen year. Departmental guidance is necessary to ensure proper sequencing of classes. Proficiency in writing skills is required in all majors, and continued improvement in writing and speaking skills is expected. Qualified communication arts students are encouraged to take advantage of internship opportunities in their respective majors to gain practical professional experience. Many students within the department work closely with the University's television production studio. The television studio is very active in program production for cable television and industrial usage and the production, post production, and editing facilities utilize students in a number of roles and encourage the development of high professional standards. The Xavier University Vonder Haar Chapter of the Public Relations Society of America (PRSSA) and many other organizations and clubs provide opportunities for students to network with area professionals and gain meaningful practical experience.

Advertising

The goal of the Advertising major is to prepare students for a career in the field of advertising. This program offers a comprehensive study of advertising, including the principles of advertising, creative concepts, media planning, research, and management.

Core Curriculum Requirements:

See Undergraduate Core Curriculum :

Major Requirements:

36 credit hours, as follows

30 hours from:

- COMM 101 - Oral Communication
- COMM 123 - Intro To Comm and Media
- COMM 206 - Writing for the Media
- COMM 237 - Elements of Copy & Design
- COMM 270 - Principles of Strategic Comm
• COMM 329 - Audience Survey & Research
• COMM 332 - Media Strategies in Advertising
• COMM 430 - Creative Strategies Advertising
• COMM 439 - Senior Sem-Adv: Campaigns
• COMM 477 - Strat Comm Ethics Society

3 hours of Elective A, select 1 course from:

• COMM 235 - Digital Design

3 hours of Elective B, select 1 course from:

• COMM 211 - Media Literacy
• COMM 247 - Understanding New Media
• COMM 264 - Persuasion
• COMM 323 - Race, Class, Gender & Media
• COMM 324 - Sex and Violence In Media
• COMM 385 - Media, Democracy & the Public
• COMM 426 - Media Law & Policy

Note(s):

• A 2.000 cumulative average must be attained in the communication arts courses of each major.
• Since each major recommends certain courses as COMM electives, it is important that students work closely with their academic advisors in the choice of these electives.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• A minimum of 120 credit hours is required for the degree.
Art, B.A.

The Department of Art fosters an integrated way of life in which the student, through art experiences, grows in awareness and response to both spiritual and material values. The potential artist has opportunity for studio practice in one of the following concentrations: art education, art history, ceramics, drawing, fibers, graphics, painting, photography, printmaking, and sculpture. Studies in art history are required of each major and may also be an area of concentration. Students who wish to be licensed as teachers follow a special program for pre K-12 licensure. Students interested in careers as art therapists are advised to follow a pre-art therapy program.

Requirements for the Art Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Major Requirements:

52 credit hours, as follows

• 10 credit hours in foundation requirements
• 9 credit hours in 100 level courses
• 3 elective credit hours
• 9 credit hours in Art History
• 3 credit hour exit seminar
• 12 credit hours (4 courses) in one area of study leading to the senior concentration
• 6 credit hour senior concentration and exhibition are required.

Concentrations:

Must be arranged with the approval of the concentration advisor.

Note(s):

• In the spring semester of the sophomore year the prospective art major will present a portfolio for evaluation. Acceptance or rejection from the Department of Art will be based upon this evaluation.
• A minimum grade of “C-” must be attained in all art courses to count toward an art major degree.
• A minimum grade of “B” must be attained in ARTS 221/ARTS 521 and ARTS 223/ARTS 523 for those pursuing art licensure.
• A recommended program sequence is available for each of the concentrations. Art licensure requires an additional 28 hours of education courses as well as 55 semester hours in art for a Pre-K to 12 license. Please direct requests and/or questions to the department chair.
Introductory courses (or equivalent with permission of the instructor) are prerequisites for all advanced courses. Courses numbered 500 or above are for graduate students only. All studio courses may be taken for graduate credit.

B.A. Art

- A minimum of 120 credit hours is required for this degree.

Classical Humanities, B.A.

This program is designed to offer a major for those students who have an interest in the ancient world but prefer breadth rather than specialization in their undergraduate education or seek to pursue the equivalent of a second major. This program combines the minimum number of course requirements with a maximum number of elective courses. The 24 hours of study of the ancient Greek and Roman world will give the student a somewhat intensive knowledge of the cultures, which in time and place are far removed from our own but which have exercised a very strong and continuing influence on modern civilization.

Requirements for the Classical Humanities Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum
Major Requirements:

36 credit hours, as follows

- 12 lower division hours in Latin or Greek 101-202 (Refer to Course Descriptions.) (waivers exist per prior achievement).
- 6 hours of Latin or Greek beyond the intermediate language level (210-399) (Refer to Course Descriptions.).
- 18 hours of classical culture offerings from CLAS 101-399 (Refer to Course Descriptions.).

Note(s):

- A 2.500 cumulative average must be attained in the above courses.
- In addition to the above requirements, the student has approximately 26 hours of non-designated electives which can be used to meet specific interests or needs.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Classics, B.A.

The Bachelor of Arts degree in Classics is designed to bring students into intimate contact with the world of the ancient Romans and Greeks through the study of their language, literature and culture. It introduces them to that era when Western society was for the first time in recorded history dealing with and recording many of the same problems and questions with which we are still grappling today.
Requirements for the Classics Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Major Requirements:

33 credit hours, as follows

• 0-12 lower division hours in Latin or Greek (the number depending on prior achievement).
• 21 hours in Latin or Greek beyond the intermediate language level.

Note(s):

• A 2.500 cumulative average must be attained in the above courses.
• Completion of a senior thesis.
• Pass a comprehensive examination upon completion of a senior thesis.
• In addition to the above requirements, the student has 18-24 hours of non-designated electives which can be used to meet specific interests or needs.

Communication Studies, B.A.

Bachelor of Arts degree for Communication Arts majors

The Communication Arts Majors will help students understand many aspects of the human communication process, develop essential skills, and form positive attitudes toward the role that, as educated adults, they will play in society. Basic skills in written and spoken communication receive emphasis in all four communication majors: advertising, communication studies, electronic media, and public relations. In order to complete all requirements for the degree, students should formally declare one of the four departmental majors preferably by the end of their freshmen year. Departmental guidance is necessary to ensure proper sequencing of classes. Proficiency in writing skills is required in all majors, and continued improvement in writing and speaking skills is expected. Qualified communication arts students are encouraged to take advantage of internship opportunities in their respective majors to gain practical professional experience. Many students within the department work closely with the University's television production studio. The television studio is very active in program production for cable television and industrial usage and the production, post production, and editing facilities utilize students in a number of roles and encourage the development of high professional standards. The Xavier University Vonder Haar Chapter of the Public Relations Society of America (PRSSA) and many other organizations and clubs provide opportunities for students to network with area professionals and gain meaningful practical experience.

Communication Studies

Communication Studies students have the opportunity to gain the knowledge and practical skills necessary to promote effective communication processes within public and private organizations. The program emphasizes both written and oral communication, and students are encouraged to prepare themselves for a broad range of employment possibilities in areas such as sales, special events planning, human resources, industrial relations, training, and management.

Computer Science, B.A.

The B.A. in Computer Science allows students room to pursue a second major combined with computer science. This encourages inter- and multi-disciplinary study, developing well-rounded students ready to contribute to an increasingly interdisciplinary world that utilizes computation.

The B.A. in Computer Science consists of 27 hours of computer science courses, MATH 225 and either a second major or a minor that is significantly distinct from the computer science degree.

Required CSCI Courses

27 credit hours
• CSCI 170 - Computer Science I
• CSCI 180 - Computer Science II
• CSCI 220 - Data Structures & Algorithms
• CSCI 250 - Languages & Automata
• CSCI 260 - Software Engineering
  ◦ Three additional CSCI courses numbered 200 or above
• CSCI 390 - Senior Seminar & Project  BA students are strongly encouraged to create a project that integrates computer science with their second major or minor.

Required MATH courses

3 credit hours

• MATH 225 - Foundations Of Higher Math

Note:

The Mathematics Perspectives Core requirement is fulfilled by CSCI 170. We also recommend MATH 156 General Statistics or MATH 280 Combinatorics if the student's schedule permits.

Required second area of concentration

• Students must complete a second major or minor, of which at least 15 hours must be distinct from the required courses in Computer Science.

Note(s):

• A 2.000 cumulative average must be attained in the computer science courses.
• Students are required to fulfill the current senior comprehensive requirements.

Digital Innovation, Film and Television, B.A.

The Digital Innovation, Film and Television program cultivates students to become responsible, adaptable, and innovative leaders in a complex and rapidly converging digital environment. With a concentration on digital media production and the art of visual storytelling, we endeavor to prepare students through hands-on learning, cross-disciplinary study, team building, and community engagement. Digital Innovation, Film and Television prepares graduates for careers in the creative and corporate digital environments of film, television, broadcasting, producing, multimedia, content creation and in technology areas that are emerging.
Requirements for the Digital Innovation, Film and Television major

Core Curriculum Requirements

See Undergraduate Core Curriculum, including:

- CSCI 170 (For SAI Students) (Math Core)

Major Requirements

36 credit hours, as follows

27 hours from:

- COMM 206 - Writing for the Media
- DIFT 210 - Art of Film
- DIFT 213 - Non-Fiction Film
- DIFT 215 - Aesthetics & Tech of Post Prod
- DIFT 250 - Screenwriting & Story Craft
- DIFT 254 - Intro to Video Production
- DIFT 354 - Field Prod and Story Telling
- DIFT 459 - Senior Sem in EMED Adv Prod I
- DIFT 460 - Senior Sem in DIFT Adv Prod II

6 hours of Elective A

Select 2 courses from:

- ARTS 215 - Web Design
- COMM 237 - Elements of Copy & Design
  - DIFT 355 - Documentary Field Production
- DIFT 340 - Audio Production
- DIFT 451 - Introduction to Video Graphics
- DIFT 454 - Advanced Video Editing
- ENGL 310 - Creative Writing: Fiction
- ENGL 318 - Creative Nonfiction
- MUSC 304 - Producing Electronic Music I
- THTR 120 - Acting I
  - THTR 331 - Lighting Design

3 hours of Elective B

Select 1 course from:

- COMM 209 - Group Dynamics
INTERNET

DIFT majors are strongly encouraged but not required to complete an internship in their Junior or Senior year.

- DIFT 348 - Internship in DIFT I
- DIFT 458 - Internship in DIFT II

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

NOTES

- A 2.000 cumulative average must be attained in the communication arts courses of each major.
- It is important that students work closely with their academic advisors in the choice of these electives.

B.A. Digital Innovation, Film and Television

This block serves as a guideline for progress toward a degree. See your academic advisor.

Economics, B.A.

A degree in Economics provides the student with an understanding of economic issues pertaining to individual firms, industries, the public sector, and the overall economy. The study of economics, supported by the knowledge of Mathematics and Statistics, emphasizes both analytic reasoning and a thorough knowledge of economic institutions. Economics majors analyze such topics as optimal decision-making, consumer welfare and distribution of income, market efficiency, inflation, unemployment, international trade, financial markets, forces of globalization, and governmental economic activity. The program has proven useful to people who have moved into positions in many of the functional areas of business and government. It is also excellent training for graduate study in business, in law, and in economics itself.

Requirements for the Economics Major

Core curriculum requirements:

48-63 Credit Hours dependent on courses taken, including

Mathematics:

- MATH 150 - Elements of Calculus I or
- MATH 170 - Calculus I
- STAT 210 - Statistics For Business I

Major Requirements:

33 credit hours, (36 credit hours starting Fall 2016)
18 hours from:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
- ECON 305 - Microeconomic Analysis
- ECON 306 - Macroeconomic Analysis
- ECON 307 - Empirical Analysis In Economic
- STAT 211 - Statistics For Business II

15 hours of economics electives:

- Must include 6 hours of ECON courses at the 400 level.

Required Capstone Project*

*All economics majors are required to take Capstone Project Each student must orally present a paper written in a 400-level economics course to a forum established by the department. Currently, Capstone Project is listed as ECON 491 which carries 0 credit. Starting Fall 2016, Capstone Project (ECON 492 and 493 combined) will be a 3 credit hour course split into ECON 492 and 493.

- ECON 492 - Capstone Experience in ECON I
- ECON 493 - Capstone Experience in ECON II

Note(s):

- A 2.000 cumulative average must be attained in the above courses.
- Computer competency required. Tutorials are available for students who are deficient in basic computing skills.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.

Economics, B.A. with a Concentration in Mathematics

Undergraduate majors in both Economics and Mathematics consider graduate programs in Economics or related fields. In order to be accepted into such graduate programs, an undergraduate degree in one of those disciplines is typically required, and extensive and specific training in the other is also needed. This program combines the requirements of a degree in Economics with specific coursework in Mathematics suited for a potential graduate student. Additionally, students who may not pursue a graduate degree program are likely to find the program more marketable for post-graduation.

Requirements for the Economics major with concentration in Mathematics

Core Curriculum Requirements:

Undergraduate Core Curriculum

Economics Major Requirements:

39 (40) credit hours if taking MATH 150 or MATH 170

• MATH 150 - Elements of Calculus I OR
• MATH 170 - Calculus I

• STAT 210 - Statistics For Business I
• STAT 211 - Statistics For Business II
• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles
• ECON 305 - Microeconomic Analysis
• ECON 306 - Macroeconomic Analysis
• ECON 307 - Empirical Analysis In Economic
  ◦ ECON electives (five courses, including two 400-level electives) (15 credit hours)

Mathematics Concentration Requirements:

15 credit hours

• MATH 170 - Calculus I
• MATH 171 - Calculus II
• MATH 220 - Calculus III
• MATH 225 - Foundations Of Higher Math

Three Electives from the following:

9 credit hours

• MATH 240 - Linear Algebra
• MATH 340 - Abstract Algebra I
• MATH 360 - Elementary Topology
• MATH 370 - Real Analysis
• MATH 230 - Intro to Ordinary Diff Equat
• MATH 311 - Probability Theory

TOTAL: 24 credit hours

NOTES:

* Students who enter the program early should take MATH 170 instead of MATH 150 to avoid duplication of coursework.

ECON 491 requires a sole-authored research project in Economics. This project should satisfy the department's ordinary requirements, while also demonstrating evidence of the student's Mathematics concentration.

Without MATH 150, this program requires 60 credit hours. With overlaps in the core, the degree requires a minimum of 111 credit hours.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours
Economics, Sustainability and Society, B.A.

The Bachelor of Arts in Economics, Sustainability and Society is focused on sustainable economies, and includes the study of natural resources, ecological and environmental problems, processes, and policies at local, national and global levels. Students will integrate economic analysis (encompassing attention to questions of efficient allocation, just distribution, and sustainable scale) with cultural studies, global economic development, policy studies, and management through a series of required and elective courses related to economic sustainability in society, organizations and the economy.

Requirements for the Economics, Sustainability and Society Major

• Diversity Curriculum Elective requirement may be used to satisfy other elements of the core or major.
• A minimum of 120 credit hours is required for the degree.

English, B.A.

The major in English is designed to develop writing skills, a critical and historical understanding of the English language and its literature, and a knowledge of current theories of literature, language, and humanistic interpretation. The English major is an excellent preparation for law school and for careers in education, journalism, editing, publishing, and other communications fields. It is also a fine preparation for a variety of business careers and for graduate school in business and, with appropriate science courses, for medical school.

Requirements for the English Major
Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including

Major Requirements:

36 credit hours, as follows

12 hours from:

- ENGL 115 - Rhetoric
- ENGL 210 - Methods Workshop
- ENGL 221 - Poetry
- ENGL 499 - Senior Seminar

6 hours from:

One course each from the following areas:

- Theory or Criticism
  - 302-History of Literary Criticism
  - 303-Modern Literary Theory
  - 366-Feminist Theory

- Language or Linguistics
  - 320-Topics in Linguistics
  - 321-History of English Language
  - 322-Ethnolinguistics
  - 323-Media and Its Discourse
  - 327-Language of Leadership
  - 328-Gender, Religion, and Violence
  - 369-Women and Sacred Language

9 hours from:

Take one course from THREE of the four areas:

- Pre-1800 British Lit
  - 361-16th/17th Cent Women's Literacy
  - 368-Brit Women Writers
  - 376-Lit & Arts in Britain
  - 410-Chaucer
• 411-Medieval Women's Writing
• 415-Early English Lit
• 425-Shakespeare
• 429-Renaissance Drama
• 430-17th Century Brit Lit
• 432-Spenser & Milton
• 435-Milton
• 441-18th Century Brit Lit
• 465-18th Century Novel: Behn-Austen

Post-1800 British Lit

• 364-Jane Austen
• 375-Lit & Arts in Ireland
• 414-Tolkien
• 450-Brit Romantic Lit
• 452-Romantic Autobiography
• 460-Love, Sex, Gender in Victorian Poetry
• 462-Victorian Writing
• 463-Victorian Poetry & Poetics
• 464-English Novel: Dickens-Conrad
• 470-Modern Brit Lit
• 475-Modern Irish Lit

Pre-1900 American Lit

• 358-Black America since 1865
• 373-War & Peace in Amer Lit
• 468-Transatlantic Lit
• 478-19th Century Amer Poetry
• 480-Amer Renaissance
• 481-Amer Realism
• 485-Amer Gothic Lit
• 488-Humor in Amer Lit
• 489-Amer Minority Lit

Post-1900 American Lit

• 351-Jewish-Amer Lit
• 479-Lit of Amer West
• 482-Mod Amer Fiction
• 483-Mod Amer Poetry
• 484-African-Amer Lit
• 486-Contemp Amer Lit
• 487-Contemp Amer Poetry

9 hours of:

• Take three other upper level English courses (ENGL 300-498) (Refer to Course Descriptions)

Note(s):

• A 2.000 cumulative average must be attained in these English courses.
• Undergraduates who wish to be certified as teachers of English on the secondary level are advised to consult with the Chair of the English Department and with the Office of Teacher Education and Placement regarding specific requirements for teacher certification.

French, B.A.

The program for a major in French offered by the Department of Modern Languages provides an opportunity for the development of proficiency in the spoken and written language, as well as a study of the literature and civilization in areas where the language is spoken.

Students are encouraged to combine a modern language major with a second major or a related minor.

Undergraduates who wish to be licensed as teachers of French are advised to consult with the department education coordinator and with the School of Education regarding specific requirements for language teacher licensure.

Requirements for the French Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum
Foreign Language:

• Complete intermediate level proficiency (202 level).

Major Requirements:

• Placement test to determine which lower division courses are required.
• Completion of 28 hours of upper division courses (300-499) taught in the foreign language.
• A 2.5 cumulative average must be attained in the major courses.

28 credit hours, as follows

*French:

9 hours of language/culture from:

• FREN 300-351 (Refer to Course Descriptions.)

9 hours of literature from:

• FREN 420-462 (Refer to Course Descriptions.)

9 hours of major electives selected from:

• FREN 300-498 (Refer to Course Descriptions.)

1 hour of senior project from:

• FREN 499 - Senior Research Project

Gender and Diversity Studies, B.A.

The Gender and Diversity Studies major develops students' critical thinking skills, knowledge base, and intellectual frameworks for analyzing and exploring the nature of diversity. The program focuses on the socioeconomic, political, psychological, and cultural experiences and positions between and among individuals and groups defined by gender, race, sexual orientation, ethnicity, socioeconomic class, age, religious beliefs, and physical/mental abilities.

Core Curriculum Requirements:

Consult the Undergraduate Core Curriculum of the catalog.

Required Courses for All Concentrations:

All undergraduate students are required to take thirty-six credit hours of approved courses to fulfill one of three tracks offered in the major;

1. A general major in Gender and Diversity Studies (36 credit hours distributed across the modules).
2. A major in Gender and Diversity Studies with a concentration (18 credit hours required) in Women and Gender.
3. A major in Gender and Diversity Studies with a concentration (18 credit hours required) in Race and Ethnicity.

Students seeking a Women & Gender concentration must choose courses designated (W) below where there is an option to do so.

Students seeking a Race and Ethnicity concentration must choose courses designated (R) below where there is an option to do so.

Introductory Course:

- SOCW 206 - Intro to Gender & Diversity St
Theory Course (choose one):

- ENGL 366 - Feminist Theory
- SOCI 365 - Contemporary Social Theory

Diversity in American Culture Course (choose one):

These courses focus on the impact that the social, economic and cultural struggles of gendered, racial and ethnic minorities and/or women have had on the history and culture of the United States of America.

- ENGL 484 - African-American Literature (R)
- ENGL 489 - American Minority Literature (R)
  - HIST 222 - The Harlem Renaissance (R)
- HIST 324 - African-Am Struggle for Equity (R)
  - POLI 367 - Gender & Politics: Women, Elections and Representation (W)
- SOCI 250 - Racial Ethnic Minorities (R)
- SOCI 262 - Gender and Society (W)
- SOCW 318 - Trends in Modern Soc: Race Rel (R)
- SOCW 325 - Women/Men: Myth & Reality (W)

Diversity in a Global Context (choose one):

These courses examine how racial, religious, and ethnic differences have shaped the history and culture of different regions across the globe.

- ENGL 344 - Major Black Writers of World (R)
- ENGL 352 - African Literature (R)
- HIST 395 - History of South Africa (R)
  - HIST 427 - Race and Nation in Modern Latin America (R)
- POLI 219 - Irish Government and Politics
- POLI 224 - Middle East Politics
- POLI 320 - Global Islamic Politics (R)
- SPAN 351 - Latin-American Civilization I (R)
- SPAN 352 - Latin Amer Trad & Pop Cult (R)

Intersectionality Course (3 credit hours):

A 300-level course that explores both the social construction of identity and multiple axes of identity and difference, taking into consideration the various ways they may interrelate or intersect.

- COMM 323 - Race, Class, Gender& Media
- COMM 324 - Sex and Violence In Media
- ENGL 359 - Gender & Diversity in Film
- HIST 324 - African-Am Struggle for Equity
- SOCW 315 - Values, Poverty and Society

- SPMG 410 - Sport Ethics
- THEO 322 - Black Theology
Capstone Experience (3 credit hours):

In the Spring of senior year, all GDST students will submit a thesis for public defense. Students are expected to independently design and complete a research-based project on a specific diversity studies topic that synthesizes the scholarly literature in at least two of the disciplines that inform diversity studies and presents a clear, arguable thesis supported by evidence drawn from appropriate sources. To this end, students will take a one credit hour thesis direction course in the Fall of senior year, GDST 498. Students will design their projects, identify two faculty readers from two different disciplines, work both independently and in groups, and complete a polished proposal by the end of the course. Students will then sign up for two credit hours of tutorials in the Spring, GDST 499, one with each of their thesis readers. All thesis readers must be GDST affiliated faculty and must be approved by the director of the program as well as the chairs of the faculty members' respective home departments. The focus of the thesis is multidisciplinary and addresses issues concerning gender and diversity studies that stem from the student's own elective concentration or interests. For example, projects may include an internship component or be limited to textual analysis depending on the primary methodologies of the disciplines with which students are working.

Elective Courses (18 credit hours):

The remaining 18 credit hours elective courses must come from three or more disciplines. Students choosing a Women & Gender or Race & Ethnicity concentration must complete at least nine of their elective credit hours with courses that have the appropriate (W) or (R) designation. Otherwise, students may choose any course approved as a Gender and Diversity Studies elective at the 200-level or above.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

German, B.A.

The program for majors in German offered by the Department of Modern Languages provides an opportunity for the development of proficiency in the spoken and written language, as well as a study of the literature and civilization in areas where the language is spoken.

Students are encouraged to combine a modern language major with a second major or a related minor.

Undergraduates who wish to be licensed as teachers of German are advised to consult with the department education coordinator and with the School of Education regarding specific requirements for language teacher licensure.

Requirements for the German Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum
Foreign Language:

- Complete intermediate level proficiency (202 level).

Major Requirements:

- Placement test to determine which lower division courses are required.
- Completion of 28 hours of upper division courses (300-499) taught in the foreign language.
- A 2.5 cumulative grade-point average must be attained in the major courses.

28 credit hours, as follows

German:

9 hours of language/culture from:

- GERM 300-351 (Refer to Course Descriptions ).

9 hours of literature from:

- GERM 420 - GERM 461 (Refer to Course Descriptions ).

9 hours of major electives selected from:

- GERM 300 - GERM 351 (Refer to Course Descriptions ).

1 hour of senior research project:

- GERM 499 - Senior Research Project
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Graphic Design. B.A.

Graphic Design is the process of visual problem-solving on a 2D surface. The field of Graphic Design continues to grow and become a powerful force in the creation of our contemporary society and culture. The Bachelor of Arts in Graphic Design provides students the techniques, processes, aesthetics, and creative approaches of Graphic Design, all from a fine arts perspective. Students are prepared with dynamic portfolios that show a range of innovative thinking, technical prowess, and aesthetics sensibility. Real-world experiences in the form of mentoring, portfolio reviews, and internships enable the students to be competitive designers.

Requirements for a Major in Graphic Design

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Major Requirements:

55 credit hours, as follows:

- 10 credit hours in foundation requirements
- 21 credit hours in BA specific areas
- 9 credit hours in Art History
- 9 credit hours senior seminar and concentration
- 3 elective credit hours
- 3 credit hours Internship

Note(s):

- In the spring semester of the sophomore year the prospective art major will present a portfolio for evaluation. Acceptance or rejection from the Department of Art will be based upon this evaluation.
- A minimum grade of "C-" must be attained in all art courses to count toward an art major degree.
- A recommended program sequence is available for each of the concentrations.
- Introductory courses (or equivalent with permission of the instructor) are prerequisites for all advanced courses.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- Consider a Applied Computation Certificate or Advertising Minor

History, B.A.

The History major provides an excellent foundation for careers in business, education, law, and public service. The study of history enables students to find and evaluate a wide variety of information and develops analytic and critical skills. The study of history also encourages students to examine closely the institutions, ideas, and systems that shape our world. Requirements for the history major broaden students' understanding of other cultures and their historical interconnections, and thereby sharpen the skills essential to all historical inquiry. History makes a unique contribution to a liberal education. It requires the attainment of a sympathetic appreciation of events and developments seen, not in isolation, but as part of a complex process. The study of history is compatible with any minor, including business, to prepare students for success in their career and professional choices.

Requirements for the History Major

Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including

History Requirement:

- Included within the major.

Major Requirements:

36 credit hours, as follows
3 hours of Historical Perspectives *

6 hours with completion of one of the following survey course sequences:

- HIST 105 and 106
- HIST 123 and 124
- HIST 133 and 134
- HIST 143 and 144
- HIST 151 and 152
- HIST 161 and 162
- HIST 200 and 201
- HIST 247 and 248

* Students can satisfy Historical Perspectives by taking 9 hours of survey courses.

21 hours of additional electives from HIST 200-399:

- HIST 200-399 (Refer to Course Descriptions.)

6 hours of two seminars from HIST 400-498:

- HIST 400-498 (Refer to Course Descriptions.)

Also included must be two courses each, at any level, in:

- (1) U.S., (2) European, (3) African, Asian, or Latin American history.

Note(s):

- A 2.000 cumulative average must be attained in these history courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

International Studies: Europe, B.A.

Bachelor of Arts Degree in International Studies

Fields of Concentration: Europe, International Business, Latin America, or Post-Colonial Studies

International Studies is an interdisciplinary program that is inspired by Xavier’s Jesuit tradition to prepare men and women for others as informed, ethically aware citizens who can thrive in today’s global society. By majoring in international studies, you will:

- Learn to assess international developments, trends, dilemmas and policy issues.
- Develop critical thinking skills and tools necessary for successful engagement with an increasingly interconnected world.
- Engage in interdisciplinary study in language, history, political science and economics to shape an informed and comprehensive world view.

Majors choose one of the following concentrations:

Europe, International Business, Latin America, or Post-Colonial Studies.

International studies majors take a variety of courses from many disciplines, including:

- Language courses that emphasize culture, history and literature
- Political science courses in comparative politics and international relations
- History courses that provide in-depth analysis of an area of the world
- Microeconomics and macroeconomics

Study abroad or an internship in an international business or non-governmental organization is a required component in the program. Students are encouraged to study abroad through one of Xavier’s many programs. They may also participate in Xavier’s academic service learning semesters.
Requirements for the International Studies Major

Requirements in the Core Curriculum:

Undergraduate Core Curriculum, including:

Economics:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

History

- Historical Perspectives in the area of concentration (Europe, Asia, Africa, Latin America). Students with a concentration in International Business may take any course in any area.

Language:

- For Spanish, French, or German - Intermediate Proficiency, plus 6 hours of 300-320.
- For other modern language, such as Arabic, Chinese, Italian, and Japanese: Intermediate Proficiency plus 6 hours when available either at Xavier or another institution, such as the University of Cincinnati.

Statistics:

- MATH 116 - Elementary Statistics or
- MATH 156 - General Statistics or
  ◦ Equivalent

Study Abroad:

- Required. Students may study in the country of their choice. Students may choose short Xavier faculty-led summer programs or full semester programs.

Required Courses for All Concentrations

18 credit hours, as follows
6 hours of specific courses from:

- POLI 120 - Comparative Govt and Politics
- POLI 277 - International Relations

3 hours from a choice of either:

- POLI 390 - Sem: International Relations
  - HIST 400 Level Seminar: International topic with approval of Director

3 hours from a choice of either:

- POLI 374 - U.S. Foreign Policy
- HIST 428 - SEM: Latin Amer Revolutions

3 hours from a choice of either:

- POLI 372 - International Political Econom
- ECON 300 - Int'l Trade & Bus Environment

3 hours from study abroad:

- You may study in the country of your choice. A minimum of three credit hours must be taken

15 hours of courses in a chosen concentration:

Europe:

Select 5 courses from an approved list, including

- ENGL 375 - Literature and the Arts in Ireland
- ENGL 470 - Modern British Literature
- ENGL 475 - Modern Irish Literature
- HIST 361 - Europe 1815-1945 (European Societies at War)
- HIST 370 - The British Empire
- HIST 476 - Britian and World War II
- HIST 378 - France: Revolution 1789-1815
- HIST 380 - Europe After Hitler
- HIST 381 - Modern Paris
- HIST 385 - The Cold War
- HIST 387 - USSR Since 1917
- HIST 465 - Seminar:Modern Russia
- HIST 466 - Seminar:The Stalin Era
- HIST 495 - Seminar: France 1870-1914
- PHIL 339 - Revolution and Its Aftermath
- POLI 219 - Irish Government and Politics
- SOCI 270 - Irish Historic Sociology
- GERM - Literature and Civilization Classes
- FREN - Literature and Civilization Classes
- SPAN - Literature and Civilization Classes related to Spain

Notes:

- A 2.000 cumulative average must be attained in these required and concentration courses.
- Concentration courses must come from two or more disciplines; no more than three courses in Modern Languages and English combined or three courses from History may count toward the Concentration.

Additional Major Requirements:

6 credit hours, as follows

- Advanced competency in at least one foreign language, as well as an academic study abroad experience or an international internship.
- Additional language courses required beyond the intermediate proficiency of the 202-level in French, German or Spanish (300-320) (Refer to Course Descriptions) is one way to meet this requirement.
- For other languages, a cultural immersion of at least 6 hours is required with approval of Director.

- The E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
- Diversity Curriculum Elective may be used to satisfy other elements of the core or major.

**International Studies: Post-Colonial, B.A.**

**Bachelor of Arts Degree in International Studies**

**Fields of Concentration: Europe, International Business, Latin America, or Post-Colonial Studies**

International Studies is an interdisciplinary program that is inspired by Xavier’s Jesuit tradition to prepare men and women for others as informed, ethically aware citizens who can thrive in today’s global society. By majoring in international studies, you will:

- Learn to assess international developments, trends, dilemmas and policy issues.
- Develop critical thinking skills and tools necessary for successful engagement with an increasingly interconnected world.
- Engage in interdisciplinary study in language, history, political science and economics to shape an informed and comprehensive world view.

Majors choose one of the following concentrations:

> Europe, International Business, Latin America, or Post-Colonial Studies.

International studies majors take a variety of courses from many disciplines, including:

- Language courses that emphasize culture, history and literature
- Political science courses in comparative politics and international relations
- History courses that provide in-depth analysis of an area of the world
- Microeconomics and macroeconomics

Study abroad or an internship in an international business or non-governmental organization is a required component in the program. Students are encouraged to study abroad through one of Xavier’s many programs. They may also participate in Xavier’s academic service learning semesters.

**Requirements for the International Studies Major**

**Requirements in the Core Curriculum:**

Undergraduate Core Curriculum, including:

**Economics:**

- ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles

History

• Historical Perspectives in the area of concentration (Europe, Asia, Africa, Latin America). Students with a concentration in International Business may take any course in any area.

Language:

• For Spanish, French, or German - Intermediate Proficiency, plus 6 hours of 300-320.
• For other modern language, such as Arabic, Chinese, Italian, and Japanese: Intermediate Proficiency plus 6 hours when available either at Xavier or another institution, such as the University of Cincinnati.

Statistics:

• MATH 116 - Elementary Statistics or
• MATH 156 - General Statistics or
  ◦ Equivalent

Study Abroad:

• Required. Students may study in the country of their choice. Students may choose short Xavier faculty-led summer programs or full semester programs.

Required Courses for All Concentrations

18 credit hours, as follows

6 hours of specific courses from:

• POLI 120 - Comparative Govt and Politics
• POLI 277 - International Relations

3 hours from a choice of either:

• POLI 390 - Sem: International Relations
  ◦ HIST 400 Level Seminar: International topic with approval of Director
3 hours from a choice of either:

- POLI 374 - U.S. Foreign Policy
- HIST 428 - SEM: Latin Amer Revolutions

3 hours from a choice of either:

- POLI 372 - International Political Econom
- ECON 300 - Int'l Trade & Bus Environment

3 hours from study abroad:

- You may study in the country of your choice. A minimum of three credit hours must be taken

15 hours of courses in a chosen concentration:

Post-Colonial:

- ECON 316 - Globalization
- ECON 341 - Economics of Developing Countries
- ENGL 344 - Major Black Writers of the World
- ENGL 352 - African Literature
- HIST 277 - History of the Caribbean
- HIST 340 - History of Mexico
- HIST 344 - Contemporary Latin America
- HIST 345 - History of Central America
- HIST 346 - Modern Japan
- HIST 350 - Globalization
- HIST 370 - The British Empire
- HIST 301 - Colonial America
- HIST 316 - West African History
- HIST 395 - History of South Africa
- HIST 467 - Soviet Russian Foreign Policy
- POLI 219 - Irish Government and Politics
- POLI 224 - Middle East Politics
- POLI 234 - Chinese Politics
- POLI 280 - Irish Political Culture
- POLI 316 - Globalization
- POLI 320 - Global Islamic Politics
- SOCI 270 - Irish Historical Sociology
- SPAN 351 - Latin American Civilization I
- SPAN 352 - Latin American Civilization II
- THEO 309 - West African Religions
- THEO 316 - Globalization
- THEO 335 - African Religions
- THEO 343 - Dialogue Among World Religions
- THEO 344 - Far Eastern Religions
- THEO 355 - Islam
- THEO 357 - Islamic Philosophy & Theology
- THEO 368 - Buddhism
- THEO 374 - Buddhist Christian Exploration
Note(s):

- A 2.000 cumulative average must be attained in these required and concentration courses.
- Concentration courses must come from two or more disciplines; no more than three courses in Modern Languages and English combined or three courses from History may count toward the Concentration.

Additional Major Requirements:

6 credit hours, as follows

- Advanced competency in at least one foreign language, as well as an academic study abroad experience or an international internship.
- Additional language courses required beyond the intermediate proficiency of the 202-level in French, German or Spanish (300-320) (Refer to Course Descriptions) is one way to meet this requirement.
- For other languages, a cultural immersion of at least 6 hours is required with approval of the Director.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.A. International Studies

- Diversity Curriculum Electives may be used to satisfy other elements of the core or major.

**Land, Farming and Community, B.A.**

Through a combination of classroom-based and experiential on-site learning; attention to the science and art of agriculture; and focus on both the necessity and benefits of small-scale, sustainable, and diversified food production in the context of a Jesuit education, Xavier's Land, Farming and Community degree (LAND) offers students the opportunity to become stewards of healthy, productive soils, communities, and regions through growing, processing and distributing food. The final three semesters of the degree program are spent largely in the field, either practicing agriculture or working in a related industry in a Land, Farming and Community practicum.

Requirements for the Land, Farming and Community Major
Core Curriculum Requirements

Consult the Undergraduate Core Curriculum requirements of the Catalog.

Scheduling Notes:

• Consult the Undergraduate Core Curriculum requirements of the Catalog.
• E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
• Diversity Curriculum Requirement electives may be used to satisfy other elements of the core or major.
• A minimum of 120 credit hours is required for the degree.

Modern Language and International Economics, B.A.

Anyone working in the international arena - whether in international relations, for an international organization, or in business - needs to work with people from around the world and have a deep understanding of the global economic environment. Students receive this mix with the interdisciplinary major that is offered jointly by the Departments of Modern Languages and Economics. The blended coursework provides students with:

• A solid foundation in French, German, or Spanish.
• The skills to address international economic issues and work in the global arena.
• A sound understanding of the cultures that exist across the global economy.

The B.A. in Modern Languages and International Economics requires students to select a modern language concentration from French, German or Spanish. The senior research and the directed study courses in each concentration are the capstone courses, and they are jointly directed by faculty members in Modern Languages and Economics. Students are prepared and encouraged to pursue internships and exchange programs abroad. To plan courses, study- or work-abroad, and your future career, please contact faculty advisors in the Modern Language Department or the Economics Department.

Requirements for the Major
Core curriculum requirements:

64 credit hours, including

Foreign Language:

• Complete intermediate level proficiency (202 level).

Literature:

• Can be fulfilled with a course in the concentration portion of the major.

Mathematics:

• MATH 150 - Elements of Calculus I
• STAT 210 - Statistics For Business I

Social Sciences:

• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles
  (included in the major)

Major Requirements:

50 credit hours, as follows

21 hours of specific courses from:

• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles
• ECON 300 - Int'l Trade & Bus Environment
• ECON 305 - Microeconomic Analysis
• ECON 306 - Macroeconomic Analysis
6 hours from:

• ECON 310-499 (Refer to Course Descriptions), which must include 3 hours of ECON courses at the 400 level.

23 hours of courses in a chosen concentration:

French:

• 21 hours from FREN 300-490 (Refer to Course Descriptions);
• 1 hour of senior research from FREN 499
• And 1 hour of directed study in culture & civilization from FREN 496.

German:

• 21 hours from GERM 300-490 (Refer to Course Descriptions.)
• 1 hour of senior research from GERM 499
• And 1 hour of directed study in culture & civilization from GERM 496.

Spanish:

• 21 hours from SPAN 300 or SPAN 301 with SPAN 302, SPAN 303, SPAN 306
• 9 hours of electives from SPAN 304-490 (Refer to Course Descriptions.)
• 1 hour of senior research from SPAN 499
• And 1 hour of directed study in culture & civilization from SPAN 496.

Note(s):

• A 2.000 cumulative average must be attained in these required and concentration courses.
• The senior research and the directed study courses are the capstone courses are jointly directed by faculty members in Modern Languages and Economics.
• Students are prepared and encouraged to pursue internships and exchange programs abroad. To plan courses, study- or work-abroad, and your future career, please contact faculty advisors in the Modern Language Department or the Economics Department.

Music, B.A.

Requirements for the Music Major

Core Curriculum Requirements:

42 credit hours in addition to the requirements for the major (see Undergraduate Core Curriculum in the Catalog).

Major Requirements:

42 credit hours, as follows
30 hours from:

- MUSC 200 - Music Theory I
- MUSC 201 - Aural Skills I
- MUSC 202 - Music Theory II
- MUSC 203 - Aural Skills II
  - MUSC 208 - Keyboard Skills I
  - MUSC 209 - Keyboard Skills II
- MUSC 210 - Music History I
- MUSC 211 - Music History II
  - MUSC 212 - World & Popular Music
- MUSC 300 - Music Theory III
- MUSC 301 - Aural Skills III
- MUSC 303 - Aural Skills IV
- MUSC 310 - Music History III: Seminar
- MUSC 400 - Form and Analysis
- MUSC 199 - Recital Attendance

6 hours of Private Lessons from:

- MUSC 278-299 (Refer to Course Descriptions.)

6 hours of participation in a large ensemble:

- MUSC 260 - Concert Choir
- MUSC 265 - Symphonic Wind Ensemble
- MUSC 270 - Chamber Orchestra

Additional Requirements:

- Pass applied music examination at the end of each semester of private lessons.
- Present a recital (MUSC 450) or write a thesis in major area of concentration during the final year.
- Recital attendance (minimum of 42 recitals, 7 each semester of MUSC 199).

Note(s):

- A 2.000 cumulative average must be attained in these music courses.
- Students are admitted to the degree programs based upon their musicality and musical literacy rather than on performance accomplishments. Musical background and proficiency in an applied instrument/voice will determine placement within the department.
- For a copy of Policies and Guidelines, contact the Department of Music Office.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

• Social Science Elective
• Free Elective
• Free Elective
• Free Elective

Scheduling Notes:

• The number of free electives will be reduced if the remaining "flag" requirements (ERS, Diversity, and Quantitative) are not fulfilled by courses in the core or major.

Philosophy, B.A.

The major in Philosophy is the appropriate course of study for a person intending to pursue graduate study in philosophy, and is an excellent preparation for entry into professional schools, law school and for graduate study in the humanities or social sciences.

Requirements for the Philosophy Major
Core Curriculum Requirements:

See Undergraduate Core Curriculum

Philosophy requirement:

• Included within the major.

Major Requirements:

39 credit hours, as follows

12 hours beyond PHIL 100 (which is not part of the major):

- PHIL 200 - Philosophical Perspectives
  - PHIL 311 - Logic
  - PHIL 340 - Metaphysics
  - PHIL 398 - Thesis Review I (minimum grade of C)
  - PHIL 399 - Thesis Review II (includes thesis and oral examination)

9 hours of History of Philosophy:

- PHIL 301 - Ancient Philosophy
- PHIL 302 - Medieval Christian Philosophy or
- PHIL 309 - Medieval Islamic Phil& Influe or
- PHIL 363 - Medieval Political Philosophy
- PHIL 304 - Early Modern Philosophy

15 hours of major electives chosen from:

- PHIL 300-397

3 hours of electives, other than any classes fulfilling core curriculum requirements, from one of the following departments:

- Classics and Modern Languages (other than language instruction)
- English
- History
Additional Requirements:

• At least one course numbered 300-397 must be a seminar, which may be restricted to students majoring or minoring in Philosophy.

Note(s):

• A 2.000 cumulative average must be attained for all PHIL courses.
• A minimum grade of C is required in PHIL 398.

Departmental Honors Track

Departmental honors enables students who are so inclined to prepare themselves better for graduate study in philosophy, or to pursue a more challenging undergraduate course of study in philosophy.

Candidates for departmental honors will have the following requirements, in addition to the standard requirements for the major:

Co-requirements: foreign language and mathematics

• Foreign language: by the conclusion of senior year, candidates for departmental honors will have to pass a translation exam in Latin, Greek, French, or German. The exam will allow students two hours to translate one page of a text with the use of a dictionary. The time of the exam and the passage translated will be determined by faculty from the department. This examination does not count for any credit hours.
• Mathematics: candidates for departmental honors will be required to complete at least 6 hours of mathematics; the courses will be determined by their math placement exam upon matriculation to the University. The courses may also fulfill core curriculum requirements.

Honors Thesis:

• To receive departmental honors, a student must receive a minimum grade of B+ on his or her senior thesis.
Written Comprehensive Exam:

- Candidates for departmental honors will take a written comprehensive exam consisting of four questions. One question will come from each course in the student's nine-hour history of philosophy sequence, and one will come from a course of the student's own choosing.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Political Science & the Public Sphere Concentration

15 Hours

REQUIRED

• POLI 120 Comparative Government & Politics
• PHIL 338 Enlightenment & Revolution
• PHIL 339 The Revolution & Its Aftermath

ELECTIVE (2)

• POLI 277 International Relations
• POLI 309 Montesquieu & Tocqueville
• POLI 412 Paris Seminar in Political Theory
• POLI 300 Level Elective
• POLI 300 Level Elective
• POLI 300 Level Elective
Specialized Concentration

15 Hours

- In instances when a student is interested in a specific area of study, they will work with their Academic Advisor to craft a specialized concentration.

Fifth Year Masters Transition Concentration

18 Hours

For students that opt for the 5th Year Master's program, the concentration courses will consist of:

- PHIL xxx - Private Interest & Public Good I (3 hours)
- PHIL xxx - Private Interest & Public Good II (3 hours)
- COMM xxx - Media, Democracy & Public Sphere (3 hours)
- POLI xxx - Advanced Political Analysis (3 hours)
- POLI xxx - Campaign Politics (3 hours)
- ECON xxx - Economics of Public Policy (3 hours)

Political Science, B.A.

Students in political science pursue answers to the vital questions of equity, justice, and peace in the modern world. Our challenging courses consider the best political and social science literature with a view to gaining a deeper understanding of contemporary domestic and foreign controversies, including those of human rights and democracy, equality and race, poverty and social class, terrorism and war. In this way, students confront the promise and limits of political and social solutions to humanity's gravest problems.

The department offers intellectually stimulating introductory courses in the following fields:

- American Government and Politics
- Comparative Government
- Political Philosophy
- International Relations

Courses go beyond the presentation of "nuts and bolts" to explore underlying issues of real significance. Upper level courses are limited in size and scope, allowing students to debate the political and social issues that are of greatest interest to them.

The department has internship programs in Washington, D.C., Columbus, and Cincinnati that allow students to earn course credit. Students may also earn credit for internship experiences closer to home, or by participating in the department's Summer State Politics Internship Program at the Ohio General Assembly. Students can apply what they learn in their courses to the political and social institutions and processes that they experience as interns.

Faculty in the Political Science department help lead study abroad programs in Ireland and Paris, France. Students are also encouraged to undertake a major undergraduate research project under the supervision of a faculty member and to present their research at an undergraduate research conference. In addition, the department's student-run undergraduate research journal, the Xavier Journal of Politics provides students with opportunities to participate in high-level research by participating in the editorial process or submitting their work for publication.
Requirements for the Political Science Major

Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including

Social Sciences:

• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles

Mathematics:

Take Statistics with either

• MATH 116 - Elementary Statistics or
• MATH 156 - General Statistics

◦ Plus 3 hours of MATH elective

Major Requirements:

33 credit hours, as follows

12 hours of political science courses from:

• POLI 120 - Comparative Govt and Politics
• POLI 140 - American Government and Politics
• POLI 277 - International Relations
• POLI 301 - Political Philosophy

3 hours from a choice of either:
18 hours of political science electives selected from:

• POLI 200-490 (Refer to Course Descriptions.)

Note(s):

• A 2.000 cumulative average must be attained in the political science courses.

• In addition to formal course work, students are encouraged to include experiential learning in their program if they feel it will contribute to their learning goals and objectives. To accomplish this, the department facilitates intern programs in Washington, D.C., Columbus, and Cincinnati, as well as a local internship program that allows students to engage politics close to home. The Political Science major provides breadth which ensures that the student is well grounded in the discipline and at the same time permits flexibility for concentration in a sub-field.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.A. Political Science

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

• CORE 100 - First Year Seminar or THEO 111 - Theological Foundations
• Second Language I

Second Semester

• Political Science Elective #3
• Political Science Elective #4
• DCR Elective
• Natural Sciences + Lab Elective
• General Elective

Senior Year

First Semester

• POLI 390 - Sem: International Relations or POLI 391 - Sem: American Government
• Political Science Elective #5
• Humanities Elective
• General Elective
• General Elective

Total (15)

Second Semester

• Political Science Elective #6
• Creative Perspectives Elective
• Oral Elective
• General Elective
• General Elective

Scheduling Notes:

• Total credit hours required is 120. Total Political Science Hours is 33.
• Political science major includes 5 required courses (120, 140, 277, 301, Senior Seminar) + 6 elective courses.
• Political Science majors are also required to complete Microeconomics, Macroeconomics courses and two Math courses, one of which must be a statistics course (Math 116 or Math 156), in addition to a Quantitative Reasoning flag.
• All students must elect one each of oral communications, quantitative reasoning and writing-intensive flagged courses; many of these are available within the core or major.
• Summer Study Abroad and Internship courses may reduce the number of POLI electives and credit hours needed during the Fall and Spring semesters.
Public Relations, B.A.

Bachelor of Arts degree for Communication Arts majors

The Communication Arts Majors will help students understand many aspects of the human communication process, develop essential skills, and form positive attitudes toward the role that, as educated adults, they will play in society. Basic skills in written and spoken communication receive emphasis in all four communication majors: advertising, communication studies, electronic media, and public relations. In order to complete all requirements for the degree, students should formally declare one of the four departmental majors preferably by the end of their freshmen year. Departmental guidance is necessary to ensure proper sequencing of classes. Proficiency in writing skills is required in all majors, and continued improvement in writing and speaking skills is expected. Qualified communication arts students are encouraged to take advantage of internship opportunities in their respective majors to gain practical professional experience. Many students within the department work closely with the University's television production studio. The television studio is very active in program production for cable television and industrial usage and the production, post production, and editing facilities utilize students in a number of roles and encourage the development of high professional standards. The Xavier University Vonder Haar Chapter of the Public Relations Society of America (PRSSA) and many other organizations and clubs provide opportunities for students to network with area professionals and gain meaningful practical experience.

Public Relations

The Public Relations major combines comprehensive theory and specific practical skills, in the context of a humanistic liberal education, to prepare students for public relations careers in the corporate, private nonprofit, and public sectors; or for a broad range of other careers that benefit from careful thinking and clear communication.

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Major Requirements:

36 credit hours, as follows

30 hours from:

- COMM 101 - Oral Communication
- COMM 123 - Intro To Comm and Media
- COMM 206 - Writing for the Media
- COMM 211 - Media Literacy
- COMM 270 - Principles of Strategic Comm
- COMM 329 - Audience Survey & Research
- COMM 371 - Public Relations Writing
- COMM 372 - Jr Sem:PR Cases and Planning
• COMM 477 - Strat Comm Ethics Society
• COMM 479 - SR Sem: PR Management

3 hours of Elective A, select 1 course from:

• COMM 207 - Interpersonal Communication
• COMM 209 - Group Dynamics

3 hours of Elective B, select 1 course from:

• COMM 247 - Understanding New Media
• COMM 264 - Persuasion
• COMM 301 - Presentational Speaking
• COMM 323 - Race, Class, Gender& Media
  • COMM 324 - Sex and Violence in Media
• COMM 385 - Media, Democracy & the Public
• COMM 426 - Media Law & Policy

Note(s):

• A 2.000 cumulative average must be attained in the communication arts courses of each major.
• Since each major recommends certain courses as COMM electives, it is important that students work closely with their academic advisors in the choice of these electives.

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- A minimum of 120 credit hours is required for the degree.

Sociology, B.A.

Sociology is the scientific study of the relationship between human behavior and the larger social and historical context. Sociologists seek to discover regularities and order in social behavior and to express these patterns as theoretical generalizations that apply to a wide range of behaviors and settings. General and specialized areas of study are covered. Specific areas of focus include cultural diversity, inequality, and social change. Requirements are designed to provide a strong foundation in social theory and research methods while allowing students flexibility in the design of their programs. The department encourages experiential learning, including internships and international study abroad. Along with the significant contribution sociology makes to a liberal arts education, the program prepares the Sociology major for graduate study in a variety of fields and a broad range of careers, including: (1) graduate study in sociology, counseling, business, or education, among others; (2) graduate study in the professions, such as law; (3) careers in research, in the
public or private arena; (4) careers in organizations, such as administration and consultant positions in business, government, and community agencies and organizations; (5) community change-oriented positions in such fields as nonprofit management, public health, or urban planning.

Requirements for the Sociology Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Mathematics:

Take Statistics with either

- MATH 116 - Elementary Statistics or
- MATH 156 - General Statistics

- Plus 3 hours of Mathematical Perspectives.

Social Sciences Requirement:

- Included within the major requirements.

Major Requirements:

30 credit hours, as follows

18 hours as follows:

- SOCI 101 - Introduction to Sociology
- SOCI 180 - Culture & Society
- SOCI 200 - Foundational Social Thought
- SOCI 352 - Investigating Social Life I
- SOCI 353 - Investigating Social Life II
- SOCI 365 - Contemporary Social Theory
12 hours of upper-division electives from:

- SOCI 200-499 (Refer to Course Descriptions )

Note(s):

- A 2.000 cumulative average must be attained in the sociology courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Spanish, B.A.

This list describes in general terms the proposed sequence of courses for the Xavier University Spanish major. Every student's path may be different, and all majors will consult with their Spanish advisor each semester to ensure that they are taking the right course at the right time for their individual needs and goals. The sequence may be adjusted when a student studies abroad.

Requirements for the Spanish Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum
Foreign Language:

• Complete intermediate level proficiency (202 level).

Major Requirements:

• Placement test to determine which lower division courses are required.
• A 2.5 cumulative grade-point average must be attained in the major courses.

31 credit hours, as follows:

• SPAN 202 - 3 hours (If a student tests into SPAN 300 and begins the major with SPAN 300 or SPAN 301, then the 9 hours of 400-498 applies)
• SPAN 300 or 301 - 3 hours
• SPAN 302-310 - 3 hours
• SPAN 311-349 - 6 hours
• SPAN 350-399 - 9 hours
• SPAN 400-498 - 6 hours (9 hours if the student begins with SPAN 300 or SPAN 301)
• SPAN 499 - 1 hour

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Theatre, B.A.

Xavier University's Theatre program combines practical experiences and professional collaborations with a rigorous and diverse curriculum. In addition to a strong foundation of theatre courses, the Bachelor of Arts Degree in Theatre offers students the opportunity to focus in either the area of performance or design and technology. The program prepares students for professional experience outside of Xavier by fostering a practical, cross-cultural and student-oriented curriculum.

Requirements for the Theatre Major

Core Curriculum Requirements:

See the Undergraduate Core Curriculum.
Major Requirements

- 48 credit hours, as follows:

Theatre Foundation Courses, 33 credits from:

- THTR 100 - Introduction to the Theatre
- THTR 110 - Survey of Dramatic Lit
- THTR 120 - Acting I
- THTR 150 - Stagecraft I
- THTR 198 - Theatre Technology Workshop *
- THTR 199 - Theatre Performance Workshop *
  - THTR 201 - Theatre History I
  - THTR 202 - Theatre History II
  - THTR 310 - Directing

* Students must take at least one each of 198 and 199

- THTR 210 - Acting I
- THTR 350 - Directing
- THTR 450 - Senior Thesis

Theatre Performance/Production Courses, 15 credits from:

- THTR 160 - Improvisation
  - THTR 220 - The Audition Process **
  - THTR 310 - Acting II
  - THTR 330 - Set Design
  - THTR 331 - Lighting Design
  - THTR 332 - Costume Design
  - THTR 340 - Stage Management
  - THTR 420 - Acting III
  - THTR 430 - Theatre Portfolio **
  - Other Classes as approved by the Chair of Theatre

** Students must take either THTR 220 or 430

Additional Requirements:

- Present justification for Senior Thesis – must be approved by department faculty,
- Pass a comprehensive theatre exam during the spring semester of senior year.
- Participation in at least one regional audition/interview event (SETC, UPTA, etc.). Event must be approved by faculty.
- Production attendance for all shows in which not cast or holding a technical position.
- Attendance at 20 professional productions.
- Audition or submit technical application for all departmental productions.
Note(s):

• A 3.000 cumulative average must be attained in the theatre major.
• Students are required to have regular advising meetings with their theatre department advisor.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Scheduling Notes:

- Consult the Undergraduate Core Curriculum requirements of the Catalog.
- A minimum of 120 credit hours is required for the degree.

Theology, B.A.

Theology is the study both of the human experience of God and of the transmission of that experience through religious traditions, doctrines, ethics, and rituals. It is essentially a dialogue between religious traditions and human experience. Such dialogue is critical for human understanding in a time of increased encounters among world religions. The theology faculty attempts to assist students in this critical dialogue through courses about religious traditions, especially the Jewish, Christian, and Muslim traditions, and by other courses that focus on contemporary issues from a theological perspective. The theology major prepares students for graduate studies in theology, law, history, journalism, and other forms of communication, as well as for directing religious education, teaching religious studies in secondary schools, and other forms of ministry. With appropriate counseling, a student can combine this major in the liberal arts with a major in another field (e.g. classics, business, biology, English, history, psychology, secondary education), both for the student's personal enrichment and in view of broader career opportunities.

Undergraduates who attend Xavier University have a unique opportunity to begin work towards their master's degree during their undergraduate programming. The 5-year path provides a focused, cost-effective way for our most qualified undergraduate students to prepare for a broad variety of professional careers in the service of faith and the promotion of justice in a diverse and pluralistic world.
Requirements for the Theology Major

Core Curriculum Requirements:

48 credit hours, including

Theology Requirement:

• Included within the major.

Major Requirements:

36 credit hours, as follows

24 hours from:

• THEO 111 - Theological Foundations
• THEO 209 - The Christian Tradition I
• THEO 210 - The Christian Tradition II
• THEO 290 - Christian Doctrine Today
• THEO 295 - Senior Seminar: Ideas & Method
• THEO 303 - Christian Ethics: Methods & Q
• THEO 328 - Intro to Christian Scriptures
• THEO 351 - Intro to Hebrew Scriptures

3 hours from:

• A non-Christian religious traditions elective.

9 hours from elective courses selected from:

• THEO 201-499 (Refer to Course Descriptions.)
Note(s):

• A 2.000 cumulative average must be attained in the theology courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

- ** The four flags (oral, writing, diversity, quantitative) can double-count liberally with major and core.
- ***Any course in the THEO 300s sequence may fulfill the Humanities Elective core requirement.

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- E/RS Focus Elective requirement may be used to satisfy another element of the core.

Bachelor of Fine Arts

Art, B.F.A.

The BFA degree in Art is distinguished from the BA degree in Art by its intensity and structure. Students seeking a BFA degree in Art usually have full determination to pursue their livelihood as professional artists or are thinking of acquiring an MFA degree for university/college teaching. It is a higher degree and immediately acknowledges the fact that its recipient has experienced a deeper involvement in, and commitment to, art.
Requirements for the Bachelor of Fine Arts Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Major Requirements:

73 credit hours, as follows

- 10 credit hours in foundation requirements
- 15 credit hours in 100 level courses
- 9 elective credit hours
- 12 credit hours in Art History
- 3 credit hour exit seminar
- 18 credit hours (6 courses) in one area of study leading to the senior concentration
- 6 credit hours in senior concentration and exhibition are required.

Note(s):

- Concentrations must be arranged with the approval of the concentration advisor.
- In the spring semester of the sophomore year, at the time of the sophomore portfolio evaluation, students will express their intention of pursuing a BFA degree by delivery of a signed declaration form to the department chair, endorsed by the proposed concentration instructor.
- A minimum grade of "C-" must be attained in all art courses to count toward an art major degree.
- It should be noted that in order to complete a degree in the regular four-year sequence, a student would need to carry approximately 18 credit hours per semester. Most students seeking this degree, however, are very competent and would probably have some advanced standing in regard to the core. It is also usual for these students to take courses during the summer sessions.
- A recommended program sequence is available. Please direct requests to the department chair.

B.F.A. Art

Suggested sequence of courses for a BFA degree in Art with a concentration in any area. This block serves as a guideline for progress toward a degree. See your academic advisor.

Bachelor of Liberal Arts

Bachelor of Liberal Arts with MRI Concentration

Magnetic Resonance Imaging (MRI) Program

The program provides comprehensive didactic and clinical education in Magnetic Resonance Imaging with graduates meeting the eligibility requirements for the ARRT's post-primary exam in MRI. **Candidates must be graduates or pending graduates from a JRCERT accredited program in Radiography.** In addition, candidates must be registered by the ARRT by the beginning of the Spring semester.

Students have two options to continue their studies in MRI:

1. **Bachelor of Liberal Arts with a MRI concentration** – Students would complete the required general core courses in addition to the required MRI didactic/clinical courses for a total of 120 credit hours. Depending on the amount of transfer credit hours and the additional core courses taken during each semester, this option may take longer than the traditional two years. At the completion of the course of studies, students will receive their bachelor's degree and be eligible to apply to sit for the ARRT advanced registry examination for MRI. **OR**

2. **MRI Certificate Program** – The applicant must be a graduate of an accredited radiologic technology program to be accepted into the MRI program. College credit hours will be awarded for the MRI didactic and clinical courses following successful completion of each course. At the completion of the program (17 credit hours), students will receive a certificate of completion and be eligible to apply to sit for the ARRT examination for MRI. Students would be able to apply these course credit hours towards the Bachelor Degree of Liberal Arts in the future.

Note(s):

- A grade of "C-" or better must be attained in all RADT courses.
- Courses with prerequisites cannot be taken until the prerequisite courses have been successfully completed with a grade of "C-" or better.
- All students must present evidence of the following **prior to entrance in all clinical courses:**
  1. Liability insurance ($2,000,000/$4,000,000), purchased through the University and billed to student’s account.
  2. Health history and required physical examination form
  3. MMR immunization
  4. Yearly tuberculosis skin test (two-step)
  5. Hepatitis B series
  6. Proof of current health care coverage
  7. Verification of history of varicella (chicken pox)
  8. Tetanus-Diphtheria-Acellular Pertussia (Tdap)
  9. CPR certification
- Students are responsible for these expenses as well as for uniforms, and transportation costs to the clinical sites. Students must provide their own transportation between campus and clinical sites.

August - Pre-Semester

- **RADT 300 - Introduction to MRI** (This course must be completed with a "C-" or better before entering the Fall Semester and the clinical aspects of the program.)
Total (1)

Fall Semester: Begins with the regular Fall Semester

- RADT 310 - MRI Imaging Procedures
- RADT 311 - MRI Practicum I
- RADT 320 - Physical Principles of MRI I
- RADT 330 - Advance Sectional Anatomy

Total (8)

Spring Semester

- RADT 313 - MRI Practicum II
- RADT 321 - Physical Principles of MRI II
- RADT 340 - MRI Pathology
- RADT 350 - Management of a MRI Center

Total (8)

Total of 17 credit hours

NOTE:

A grade of "C-" or higher must be attained in all MRI courses in order to advance to the next semester.

Bachelor of Liberal Arts, BLA

The Bachelor of Liberal Arts is designed for adult transfer students who are interested in taking courses in a broad range of disciplines. The general electives and upper division studies requirements allow for efficient transferability of credits and give students the opportunity to design degrees to meet their needs. This degree is offered by the College of Arts and Sciences. It is available to any student who has completed a minimum of 60 semester hours with approval of their Dean, the Dean of the College of Arts and Sciences and to all students who have graduated from high school not less than four years prior to the date of acceptance into the program.

The Liberal Arts degree is available through full or part-time study, days and/or evenings, or through the special accelerated Weekend Degree Program.
Requirements for the Bachelor of Liberal Arts

Core Curriculum Requirements:

Consult Undergraduate Core Curriculum for details.

Upper Division Studies Requirement: 35 Credit Hours, plus LART 495, BLA Capstone course, 3 credit hours

• Students may add a minor or a concentration to their liberal arts degree. See below for information on available concentrations in organizational leadership, and professional communication.
• 38 hours of upper division work, including LART 495, BLA Capstone course (courses numbered 200-499), with no more than 21 hours from one subject area.
• It is recommended that these 38 hours be distributed across two academic areas.
• No more than 30 hours in business courses and no more than 12 hours in any one business subject area may be applied to the degree.

Optional Concentrations for Upper Division Studies:

Organizational Leadership Concentration: 18 Credit Hours

This concentration will enhance and develop your communication, management, and leadership skills.

Required Courses: 9 Credit Hours

• MGMT 300 - Managerial Behavior
• MGMT 309 - Change Management
• MGMT 314 - Leadership

Electives: 9 Credit Hours (Select from the following list)

• MGMT 301 - Managerial Communications
Professional Communication Concentration: 21 Credit Hours

This concentration is designed for people interested in working in dynamic, people-oriented environments. This concentration exposes you to the entire communication network; written, oral, and electronic mediums.

Required Courses: 15 Credit Hours

- COMM 101 - Oral Communication
- COMM 207 - Interpersonal Communication
- COMM 209 - Group Dynamics
- COMM 260 - Organizational Communication
- COMM 301 - Presentational Speaking

Electives: 6 Credit Hours (Select from the following list)

- COMM 477 - Strat Comm Ethics Society
- MGMT 300 - Managerial Behavior
- MGMT 301 - Managerial Communications
- INFO 120 - Introduction to Business Tech
- INFO 220 - Mgmnt of Info Tech

Free Electives: 10 Credit Hours

TOTAL REQUIRED for BLA DEGREE: 120 Credit Hours

Note(s):

Two other Bachelor of Liberal Arts degree programs are available in the College of Social Sciences, Health and Education.
A.

See the Occupational Therapy Department for information about the Bachelor of Liberal Arts degree with a concentration in Human Occupation Studies.

B.

See the Radiologic Technology Department for information about the Bachelor of Liberal Arts degree with a concentration in Magnetic Resonance Imaging (MRI).

**Bachelor of Liberal Arts/Master of Occupational Therapy (BLA to MOT)**

To complete the MOT degree, students will initially obtain a BLA with a concentration in Human Occupation Studies and a University approved minor or second concentration. The BLA will be obtained upon completion of the first semester of the 4th year. Graduate coursework will begin second semester of the fourth year, and continue during the 5th year. It will culminate in a 6 month, post academic internship; the entire course of study spans 5 ½ years. Transfer students who are certified occupational therapy assistants may receive transfer credit for some of the BLA requirements depending on the articulation agreement worked out with the occupational therapy assistant program previously attended.

**Requirements for the BLA to MOT**

**Note(s):**

*Complete undergraduate prerequisite courses and earn no more than two "C" or lower letter grades in each course, as follows:*

**Undergraduate core curriculum requirements:**

See Undergraduate Core Curriculum

**Upper Division Studies Requirement:**

38 credit hours of upper division work, as follows:
Complete 23 hours from:

- HOCS 301 - Human Occupation Across Lifesp
- HOCS 303 - Technlgy for Life Participatn
- HOCS 321 - Analysis of Occupational Perfo
- HOCS 323 - Occupatnl Justice I:Foundations
- HOCS 401 - Transformative Nature of Occup
- HOCS 403 - Creative & Systematic Inquiry
- HOCS 405 - Occupatnl Justice II: Indp Stu
- HOCS 411 - Condns Influencing Participn

Note(s):

- These HOCS courses are required for the Concentration in Human Occupation Studies (HOCS).

Complete at least 15 hours in a required Minor or a 2nd concentration within the BLA.

Additional OT requirements:

6 hours of Neuroscience and Kinesiology from:

- BIOL 204 - Functional Neuroscience
  - HOCS 386 - Advanced Kinesiology
  - HOCS 387 - Advanced Kinesiology Lab

3 hours of Bioethics from:

- PHIL 329 - Bioethics (can be taken as the required Philosophy elective course in the undergraduate core)

Note(s):

- A minimum of 120 credit hours is required for the BLA degree; and an overall cumulative GPA of at least 3.00 must be attained.
MOCT Courses

- MOCT 501 - Creative & Sys Inquiry II
- MOCT 502 - Creative & Systematic Inquiry
- MOCT 503 - Tech for Life Participation II
- MOCT 505 - Techniques & Tools for OCTH Pr
- MOCT 507 - Professional Issues I
- MOCT 601 - Graduate Research Project I
- MOCT 603 - Domns&Proc I:Birth-Early Adult
- MOCT 605 - Adapt&Tech for Occ Partic I
- MOCT 607 - Level I Fieldwork:Domns&Proc
- MOCT 609 - Theoretical Found&Clin Reason
- MOCT 611 - Professional Issues II
- MOCT 631 - Graduate Research Project II
- MOCT 633 - Dom & Proc II: Ear Ad Through
- MOCT 635 - Adapt & Tech for Occ Part II
- MOCT 637 - Level I Fieldwork: Dom& Proc
- MOCT 641 - Professional Issues III
- MOCT 691 - Level II Fieldwork
- MOCT 692 - Level II Fieldwork
- MOCT 779 - Applied Interprofessional Coll

Bachelor of Liberal Arts (BLA) to Master of Occupational Therapy (MOT)

This block serves as a guideline for progress toward a degree. See your academic advisor.

First Year

First Semester

- BIOL 140 - Human A&P I for Allied Health
- BIOL 141 - Hum A&P I Lab Allied Health

BLA Degree: (121 hours)

MOCT Courses: (48 hours)

MOT Degree TOTAL: (169 hours)

Bachelor of Music

Performance, B.M. (Tentatively Admitting Beginning Spring 2018)

Although the Bachelor of Music is a "professional" degree centering on music performance, it remains rooted in the liberal arts. The Department of Music offers a broad-based education that is as well suited to preparing students for graduate work as to creating strong performers. The element of co-curricular engagement is especially prominent in this degree through participation in musical ensembles, and the internship further enhances this focus. By becoming leaders in vocal and instrumental ensembles that expose audiences on and off campus to sacred and secular music, Bachelor of Music students serve the entire community.

Requirements for the Performance Major

Core Curriculum Requirements:

42 credit hours in addition to the requirements for the major (see Undergraduate Core Curriculum in the Catalog).

Major Requirements:

79 credit hours, as follows
43 hours in music courses from:

- MUSC 199 - Recital Attendance (8 Semesters)
- MUSC 200 - Music Theory I
- MUSC 201 - Aural Skills I
- MUSC 202 - Music Theory II
- MUSC 203 - Aural Skills II
  - MUSC 208 - Keyboard Skills I
  - MUSC 209 - Keyboard Skills II
- MUSC 210 - Music History I
- MUSC 211 - Music History II
  - MUSC 212 - World & Popular Music
- MUSC 208 - Keyboard Skills I
- MUSC 209 - Keyboard Skills II
- MUSC 212 - World & Popular Music
- MUSC 300 - Music Theory III
- MUSC 301 - Aural Skills III
- MUSC 302 - Music Theory IV
- MUSC 303 - Aural Skills IV
- MUSC 304 - Producing Electronic Music I
  - MUSC 308 - Keyboard Skills III
  - MUSC 309 - Keyboard Skills IV
- MUSC 312 - Conducting I
- MUSC 400 - Form and Analysis
- MUSC 401 - Orchestration Arranging
  - MUSC 450 - Senior Recital

16 hours of Private Lessons from:

- MUSC 278-299 (Refer to Course Descriptions.)

8 hours of Large Ensemble from:

- MUSC 260 - Concert Choir
- MUSC 265 - Symphonic Wind Ensemble
- MUSC 270 - Chamber Orchestra

4 hours of Small Ensemble from:

- MUSC 263 - Edgecliff Vocal Ensemble
- MUSC 266 - Chamber Winds
- MUSC 267 - Percussion Ensemble
- MUSC 269 - String Quartet
- MUSC 271 - Jazz Orchestra
- MUSC 340 - Opera Workshop

2 hours of electives from:

- MUSC 223 - IPA / Lyric Diction (for vocalists)
  - MUSC 200-level or above (for instrumentalists)
6 hours (two semesters) of Internship:

- MUSC 405 - Internship

Additional Requirements:

- Pass applied music examination at the end of each semester of private lessons.
- Perform in a student recital each semester.
- Recital attendance (minimum of 56 recitals, 7 each semester of MUSC 199).

Note(s):

- A 2.000 cumulative average must be attained in music courses.

TOTAL Minimum Hours Required for Degree: 121 Credit Hours

Scheduling Notes:

- The number of required courses will increase if the 5 "flag" requirements (ERS, Diversity, Writing, Oral, and Quantitative) are not fulfilled by courses in the core or major.

Bachelor of Science

Actuarial Science, B.S.

Actuarial science applies quantitative methods to assess and manage risk. It is especially important in the insurance and finance industries, where understanding risk is essential to providing services that offer financial security and peace of mind, regardless of the uncertainties in daily life.

The B.S. in Actuarial Science is an interdisciplinary major consisting of coursework in mathematics, statistics, and business. Within the framework of a liberal arts tradition, the program emphasizes the development of critical thinking and problem solving skills by advancing the student's mathematical ability and statistical expertise. This serves as the basis upon which problems in various business contexts (such as insurance, finance, and investments) can be rigorously examined.

Actuarial Science majors are prepared to sit for the first two actuarial exams in Probability (P/1) and Financial Mathematics (FM/2). They also take courses that are approved for Validation by Educational Experience (VEE) credit. Although majors who successfully complete the program are ready to enter the actuarial profession, other careers that require strong quantitative skills and/or significant exposure to an undergraduate business curriculum are possible upon graduation

Requirements
Core Curriculum

48-63 Credit Hours dependent on courses taken, including mathematics and social science requirements included in major.

Major in Actuarial Science

Students majoring in Actuarial Science must complete core curriculum requirements plus an additional 57 hours of coursework specific to the major.

Required Courses (57 hours)

Mathematics (39 hours)

- MATH 170 - Calculus I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 225 - Foundations Of Higher Math
- MATH 230 - Intro to Ordinary Diff Equat
- MATH 240 - Linear Algebra
- MATH 256 - Intro to Probability& Stats
- MATH 311 - Probability Theory
- MATH 312 - Statistical Inference
- MATH 257 - Data Modeling or
- MACS 101 - Intro To Actuarial Science
-- MACS 201 - Actuarial Mathematics
- CSCI 170 - Computer Science I

Business (18 hours)

- FINC 300 - Business Finance
- FINC 365 - Investments
- FINC 465 - Options & Futures Markets
- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
- ACCT 200 - Introductory Financial Acct

Prior to the final semester in the program, a student must successfully pass at least one actuarial exam, or complete an appropriate project under the supervision of a faculty mentor, including an oral presentation in a public colloquium.
Notes:

• A 2.000 cumulative average must be attained in the student's mathematics and business courses.
• Students are prepared to take the first actuarial exam (Exam P/1), upon completion of MATH 311.
• Students are prepared to take the second actuarial exam (Exam FM/2), upon completion of the finance sequence: FINC 300, FINC 365, and FINC 465.
• Prior to the final semester in the program, a student must successfully pass at least one actuarial exam, or complete an appropriate project under the supervision of a faculty mentor, including an oral presentation in a public colloquium.
• Any student wishing to major in actuarial science should consult the chair of the department before registration.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Actuarial Science

These block schedules serves as a guideline for progress toward a degree. See your academic advisor. They assume the current bi-yearly frequency of certain required courses. Students will be prepared to take an actuarial exam no later than the summer following their third year.

Sequence for students beginning in the Fall of an odd-numbered year

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- Mathematical Perspectives, Quantitative Reasoning, and Social Science Elective requirements satisfied within the major.

Applied Biology, B.S.

Xavier University - Duke University Cooperative Forestry and Environmental Management Programs

This program is designed to coordinate the education of undergraduate students at Xavier with graduate programs in the Duke University School of the Environment. Participating students are accepted into either of two Duke University degree programs, the Master of Forestry (MF) or Master of Environmental Management (MEM). The MF emphasizes forest resources, and graduates are typically employed in administrative, managerial, or staff positions with forest industries and government agencies. The MEM program considers natural resources in a broader context. Students find employment in such areas as resource development, environmental protection, impact assessment, land use analysis, and coastal zone management.

The curriculum which leads to the above degrees consists of six semesters of undergraduate study at Xavier University (similar to the Environmental Science major) and four semesters of graduate study at Duke University School of the Environment. During the fall semester of the junior year at Xavier, the student applies for admission to the Duke University School of the Environment. The BS Applied Biology degree will be awarded by Xavier University upon satisfactory completion of one year of full-time study at Duke University. Upon satisfactory completion of the requirements for a master's degree, Duke University will award either the degree of MF or MEM, whichever is appropriate for the student's area of concentration at Duke University. If a student is unable to enter Duke University, courses necessary for completion of requirements leading to the BS in Environmental Science can be taken during the senior year.

Requirements for the Applied Biology Major

Core Curriculum Requirements:

- 48-63 Credit Hours dependent on courses taken, including

Mathematical Perspectives:

- MATH 140/150
Scientific Perspectives, Natural Science Elective, Oral Communication and Written Communication Flags:

- Included within the major

3 hours of Social Sciences, including:

- ECON 200 - Microeconomic Principles

Major Requirements:

45 credit hours, as follows

26 hours of required biology courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 210 - General Botany
- BIOL 211 - General Botany Lab
- BIOL 250 - Ecology
- BIOL 251 - Ecology Lab
- BIOL 260 - Intro to Environmental Science
- BIOL 261 - Intro to Environ Science Lab
- BIOL 398 - SEM: Environmental Studies
- BIOL 496 - Senior Capstone Seminar
- BIOL 497 - Experimental Biology Lab
- BIOL 498 - Methods of Biol Research I
- BIOL 499 - Methods of Biol Research II

19 hours of additional science coursework:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
- ECON 320 - Natural Resource Economics
Note(s):

- A 2.000 cumulative average must be attained in all biology courses.
- One year of full time study at the Duke University School of the Environment.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Applied Biology

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- CHEM 160 - General Chemistry I

- Philosophical Perspectives
- MATH 156 - General Statistics

Total (15-17)
Second Semester

- BIOL 496 - Senior Capstone Seminar or BIOL 499 - Methods of Biol Research II
- BIOL 398 - SEM: Environmental Studies
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
- Theological Perspectives Elective
- Elective
- Elective

Total (16-18)

Senior Year

During the junior year the student applies for admission to Duke University. The BS Applied Biology degree will be awarded by Xavier University upon satisfactory completion of one year of fulltime study (minimum of 24 credit hours) at Duke University.

If a student is unable to enter Duke University, arrangements should be made with the chair of the Biology Department to determine the senior year courses necessary for completion of requirements leading to the BS degree in Environmental Science.

A cumulative average of 2.0 is required in the major courses for graduation.

A minimum of 120 credit hours (96 hours at Xavier and 24 hours at Duke) is required for the degree.

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.

Applied Chemistry, B.S.

The Department of Chemistry offers a curriculum that leads to the BS degree in Applied Chemistry. This program is intended for those students interested in pursuing an undergraduate degree with emphasis on the liberal arts while preparing for graduate work in chemical engineering. Completion of the major requirements in chemistry, physics, and mathematics enable the student to apply to graduate programs in chemical engineering.

Requirements for the Applied Chemistry Major

Core Curriculum Requirements:

48 credit hours, including
Mathematics:

- MATH 170 - Calculus I
- MATH 171 - Calculus II

Science:

- Requirement included within the major

Major Requirements:

72 credit hours, as follows

38 hours of chemistry from:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 226 - Quantitative Analysis
- CHEM 227 - Quantitative Analysis Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- CHEM 300 - Intro to Chem Research
- CHEM 320 - Physical Chemistry I
- CHEM 322 - Physical Chemistry II
- CHEM 325 - Physical Chemistry Laboratory
- CHEM 330 - Quantum Chemistry
- CHEM 340 - Instrumental Analysis
- CHEM 341 - Instrumental Analysis Lab
- CHEM 400 - Research/Seminar
- CHEM 420 - Inorganic Chemistry

14 hours of physics from:

- PHYS 161 - Introductory Physics Lab I
- PHYS 163 - Introductory Physics Lab II
- PHYS 170 - University Physics I
- PHYS 172 - University Physics II
  - ENGR 370 - Fluid Mechanics
  - ENGR 384 - Heat Transfer
10 hours of additional mathematics from:

- MATH 220 - Calculus III
  - MATH 222 - Applied Linear Algebra
- MATH 230 - Intro to Ordinary Diff Equat

6 hours of computer science from:

- CSCI 170 - Computer Science I
- CSCI 180 - Computer Science II

Note(s):

- A 2.000 cumulative average must be attained in the chemistry courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Applied Chemistry

This block serves as a guideline for progress toward a degree. See your academic advisor.

- Creative Perspectives Elective

Total (13)

Second Semester

- CHEM 330 - Quantum Chemistry
- CHEM 400 - Research/Seminar
- CSCI 180 - Computer Science II
- Social Science Elective
- E/RS Elective *
- Diversity Curriculum Elective

Total (15)
Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- * May double count with other core courses
- Students must elect one each of oral communications, quantitative reasoning, and writing intensive flagged courses; many of these are available within the core or major.

Applied Physics, B.S., Option A: Alternate Concentration

Bachelor of Science Degree in Applied Physics

The applied physics program is designed to provide a broad education in the physical sciences, mathematics, and liberal arts, along with specialized training for students interested in engineering, medical school, health sciences, education, business, social sciences, or the humanities.

The Alternate Concentration option provides maximum flexibility to students who are interested in pursuing interdisciplinary programs. This program combines the study of physics with a concentrated study in another area or discipline. Concentrations must include at least 18 hours in one chosen area, and allows for almost all University minors to be included within the program electives. Areas of concentration may be chosen from the sciences, mathematics, the humanities, the social sciences, business, and education. If mathematics is selected as an area of concentration, the courses must be in addition to those required by the Applied Physics major.

Requirements for the Applied Physics Major with Alternate Concentration

Core Curriculum Requirements:

The general core curriculum requirements are 48-63 Credit Hours dependent on courses taken.

However, Natural Science Elective, Scientific Perspectives, Mathematical Perspectives, Oral Communication Flag, and Quantitative Reasoning Flag are satisfied by major courses, thereby leaving 39 - 48 Credit Hours outside of the major.

Mathematical Perspectives:

- MATH 170 - Calculus I
Scientific Perspectives, Natural Science Elective, Quantitative Reasoning and Oral Communication:

- Included within the major.

Major Requirements:

67 credit hours, including:

35 hours of physics courses:

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II
- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- PHYS 340 - Modern Physics II
- PHYS 341 - Modern Physics II Lab
- PHYS 350 - Theoretical Mechanics I
- PHYS 355 - Advanced Physics Lab
- PHYS 360 - Electromagnetism I
- PHYS 364 - Physical Optics
- PHYS 365 - Physical Optics Lab
- PHYS 395 - Physics Research
- PHYS 398 - Physics Thesis

Additional Major Requirements

- 32 credit hours, as follows

14 hours of Mathematics and Computer Science:

- CSCI 170 - Computer Science I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 230 - Intro to Ordinary Diff Equat
18 hours in an alternate concentration:

- At least 18 hours in one area determined in consultation with the chair. If the concentration is in mathematics, the courses must be in addition to those already required by the major.

Note(s):

- A 2.000 cumulative average must be attained within the major, as listed in Degree Works.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Applied Physics

Option A: Alternate Concentration

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- MATH 170 - Calculus I
- First Year Seminar
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (14)

Second Semester

- PHYS 172 - University Physics II
• PHYS 173 - Explorations in Physics II
• MATH 171 - Calculus II
• CSCI 170 - Computer Science I
• THEO 111 - Theological Foundations

Total (14)

Sophomore Year

First Semester

• PHYS 242 - Circuit Analysis
• PHYS 243 - Circuit Analysis Lab
• PHYS 330 - Modern Physics I
• PHYS 331 - Modern Physics I Lab
• MATH 220 - Calculus III
• Second Language I

Total (16)

Second Semester

• PHYS 340 - Modern Physics II
• PHYS 341 - Modern Physics II Lab
• MATH 230 - Intro to Ordinary Diff Equat
• PHIL 100 - Ethics as Intro to Philosophy
• Second Language II
• ENGR 180 - Intro to MATLAB (recommended)

Total (14)

Junior Year

First Semester

• PHYS 350 - Theoretical Mechanics I
• PHYS 360 - Electromagnetism I
• PHYS 355 - Advanced Physics Lab
• Program Electives * (4)
• Historical Perspectives Elective

Total (15)
Second Semester

- Program Electives* (4)
- Theological Perspectives Elective
- Lit. & Moral Imagination 205
- DCR or General Elective
- PHIL 200 - Philosophical Perspectives

Total (16)

Senior Year

First Semester

- PHYS 395 - Physics Research
- Program Electives* (6)
- Social Science Elective
- Writing Intensive or General Elective
- E/RS or General Elective

Total (16)

Second Semester

- PHYS 364 - Physical Optics
- PHYS 365 - Physical Optics Lab
- PHYS 398 - Physics Thesis
- Program Elective * (4)
- Creative Perspectives elective
- E/RS or General Elective

Total (15)

Scheduling Notes:

* Program electives will depend on the student's choice of concentration. Specific block schedules are determined in consultation with the chair. If the concentration is in mathematics, the courses must be in addition to those already required by the major.

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- The E/RS Focus Elective, Diversity Curriculum Elective, and Writing Intensive Elective requirements may be used to satisfy another element of the core or the major.
Applied Physics, B.S., Option B: Natural Sciences

Bachelor of Science Degree in Applied Physics

The applied physics program is designed to provide a broad education in the physical sciences, mathematics, and liberal arts, along with specialized training for students interested in engineering, medical school, health sciences, education, business, social sciences, or the humanities.

The Natural Sciences option offers an alternative to the Natural Sciences major that allows students to study physics while preparing for medical, dental, or veterinary school. This program may also be of interest to students who wish to pursue careers in medical physics, radiological physics, and other health physics programs. The Natural Sciences program combines courses in physics, mathematics, and computer science with the chemistry and biology courses needed to fulfill the requirements for the Natural Sciences minor.

It is recommended that students interested in the Applied Physics/Natural Sciences program also consider the Biophysics program as an alternative.

Requirements for the Applied Physics Major with a Natural Sciences concentration

Core Curriculum Requirements:

The general core curriculum requirements are 48-63 Credit Hours dependent on courses taken.

However, Natural Science Elective, Scientific Perspectives, Mathematical Perspectives, Oral Communication Flag, and Quantitative Reasoning Flag are satisfied by major courses, thereby leaving 39 - 48 Credit Hours outside of the major.

Mathematical Perspectives:

• MATH 170 - Calculus I

Scientific Perspectives, Natural Science Elective, Quantitative Reasoning and Oral Communication:

• Included within the major.
Social Sciences Elective:

- PSYC 101 - General Psychology
  or
- SOCI 101 - Introduction to Sociology
  Note - both courses are required for the MCAT

Major requirements:

76 credit hours, including:

33 hours of physics courses:

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II
- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- PHYS 340 - Modern Physics II
- PHYS 341 - Modern Physics II Lab
- PHYS 350 - Theoretical Mechanics I
- PHYS 360 - Electromagnetism I
- PHYS 364 - Physical Optics
- PHYS 365 - Physical Optics Lab
- PHYS 395 - Physics Research
- PHYS 398 - Physics Thesis

Additional Major Requirements

43 credit hours, as follows

14 hours of Mathematics and Computer Science from:

- CSCI 170 - Computer Science I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 230 - Intro to Ordinary Diff Equat
16 hours of Chemistry courses from:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab

13 hours of Biology courses from:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 440 - Biochemistry

Note(s):

- A 2.000 cumulative average must be attained within the major, as listed in Degree Works.
- In order to be on track to take the MCAT between the junior and senior year, pre-med students should take General Chemistry I and II (plus labs) during their first year. Pre-med students are strongly encouraged to speak to their advisor regarding their course schedule as soon as possible.
- BIOL 354 Human and Comparative Anat, is required for admission to some medical schools but is not required for MCAT performance. BIOL 230 Genetics and BIOL 231 Genetics Laboratory are listed in the minimum competences for first year medical students but are not required for MCAT performance.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

- This number assumes that the ER/S, DCR and Writing Intensive Electives are fulfilled with other core courses.

B.S. Applied Physics
Option B: Natural Sciences

This block serves as a guideline for progress toward a degree. See your academic advisor.

• The E/RS Focus Elective, Diversity Curriculum Elective, and Writing Intensive Elective requirements may be used to satisfy another element of the core or the major.

Biology, B.S.

The biology curriculum includes courses that present current concepts of the molecular, cellular, organismal, and population levels of biological organization. Basic biological principles are presented through the study of animals, plants, and microorganisms. Laboratory sessions provide experience in careful observation, controlled experimentation, and thoughtful analysis of scientific data. The biology program provides preparation for further study at the graduate level or in the health professions (medicine, dentistry, veterinary medicine, podiatry, or optometry), as well as preparation for a teaching career or other specialized employment.

Requirements for the Biology Major

Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including
Mathematical Perspectives:

- MATH 140/150 or
  - MATH 170 - Calculus I

and

- MATH 156 - General Statistics

Science requirement specified by the major as:

16 hours in chemistry courses:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab

8 hours in physics courses:

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II

Major Requirements:

36 credit hours, as follows

19 hours in required biology courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 230 - Genetics
- BIOL 231 - Genetics Laboratory
- BIOL 410 - Human Physiology
• BIOL 411 - Human Physiology Lab
• BIOL 496 - Senior Capstone Seminar
  or
• BIOL 497 - Experimental Biology Lab
  or
• BIOL 498 - Methods of Biol Research I
• BIOL 499 - Methods of Biol Research II

17 hours of biology electives must include

At least one course from:

• BIOL 222 - Immunology
• BIOL 360 - Cell Biology
• BIOL 364 - Virology
• BIOL 440 - Biochemistry
• BIOL 460 - Developmental Biology and
• BIOL 461 - Developmental Biology Lab

At least one course from:

• BIOL 240 - Evolution
• BIOL 244 - Animal Behavior
• BIOL 250 - Ecology and
• BIOL 251 - Ecology Lab
• BIOL 255 - Tropical Ecology
• BIOL 260 - Intro to Environmental Science and
• BIOL 261 - Intro to Environ Science Lab

And one of the three lecture/ lab combinations from:

• BIOL 210 - General Botany and
• BIOL 211 - General Botany Lab
  or
• BIOL 270 - Introduction To Entomology and
• BIOL 271 - Introduction To Entomology Lab
  or
• BIOL 450 - General Microbiology and
• BIOL 451 - General Microbiology Lab
Note(s):

- A 2.000 cumulative average must be attained in the 36 hours of biology courses.
- Up to 4 hours of independent study (either BIOL 290 or BIOL 495) may be used in this elective requirement.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

- E/RS Focus Elective**
- Humanities Elective
- General Elective

Total (15-16)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- FRESHMAN YEAR: ALTERNATIVE COURSES: CAN TAKE HISTORICAL PERSPECTIVES, CREATIVE PERSPECTIVES OR HUMANITIES ELECTIVE INSTEAD OF PHIL 100.
- * In addition to the other biology elective distribution requirements, Botany 210/211, Entomology 270/271, or General Microbiology 450/451 must be taken for the degree.
- ** DCR & E/RS may double count with other core courses. Use "Attribute Type" when searching for courses.
- *** For medical school/MCAT requirements, take PHYS 160 - 163 in the sophomore year and Biology electives in the junior year, including BIOL/CHEM 440 in the fall of the junior year, BIOL 354/355 in the spring of junior year. PSYC 101 and SOCI 101 must be taken before the MCAT.
• All students must elect one each of oral communications, quantitative reasoning and writing-intensive flagged courses; many of these are available within the core or major.
• A cumulative average of 2.0 is required in the major courses for graduation.
• A minimum of 120 credit hours is required for the degree.

Biomedical Sciences, B.S.

(Preparation for health professions, like medicine and dentistry)

The biomedical sciences curriculum presents a liberal arts program with emphasis on those sciences required for an excellent background for subsequent studies in medicine, dentistry, and similar health professions. Recurrent pronouncements by Committees on Admissions at professional schools leave no doubt that they regard an education in the liberal arts as one of the most important factors in forming a genuinely capable and effective health professional, but majoring in natural sciences is not a requirement for admission to a health profession. (See Certificate in Pre-Medical Studies.) The student should consult a current listing of professional school admission requirements* so that the selected course of study will assure the student of a degree and include all the minimum requirements for admission to those schools of medicine or dentistry to which he/she intends to apply.

"Medical School Admission Requirements," published by the Association of American Medical Colleges, or "Admission Requirements of U.S. and Canadian Dental Schools," published by the American Association of Dental Schools.

Requirements for the Biomedical Sciences Major

Core Curriculum Requirements:

48 - 63 credit hours dependent on courses taken, including

Mathematical Perspectives:

• MATH 156 - General Statistics *

and one of

• MATH 140 - Concepts of Calculus
• MATH 170 - Calculus I
• MATH 171 - Calculus II

Social Sciences:

• PSYC 101 - General Psychology *
• PSYC 261 - Social Psychology

Diversity Requirement:

• SOCI 101 - Introduction to Sociology *
Science:

- Requirement included within the major.

Major Requirements:

- BIOL 160 - General Biology I *
- BIOL 161 - General Biology I Lab *
- BIOL 162 - General Biology II *
- BIOL 163 - General Biology II Lab *
- BIOL 230 - Genetics *
- BIOL 231 - Genetics Laboratory *
- BIOL 354 - Human and Comparative Anat *
- BIOL 355 - Human and Comp Anat Lab *
- BIOL 410 - Human Physiology *
- BIOL 411 - Human Physiology Lab *
- BIOL 450 - General Microbiology
- BIOL 451 - General Microbiology Lab
- CHEM 160 - General Chemistry I *
- CHEM 161 - General Chemistry I Lab *
- CHEM 162 - General Chemistry II *
- CHEM 163 - General Chemistry II Lab *
- CHEM 220 - Principles of Physical Chem *
- CHEM 240 - Organic Chemistry I *
- CHEM 241 - Organic Chemistry I Lab *
- CHEM 242 - Organic Chemistry II *
- CHEM 243 - Organic Chemistry II Lab *
- CHEM 435 - Medicinal Chemistry
- CHEM 440 - Biochemistry *
- PHYS 160 - College Physics I *
- PHYS 161 - Introductory Physics Lab I *
- PHYS 162 - College Physics II *
- PHYS 163 - Introductory Physics Lab II *

2 additional hours in Senior Capstone: BIOL 496 or 497 or 498-499 or CHEM 400

Note(s):

- A 2.000 cumulative average must be attained in all biology, chemistry and physics courses.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Biomedical Sciences

This block serves as a guideline for progress toward a degree. See your academic advisor. Student is ready to apply to medical school during the summer after 3rd year, or within 2-5 years. MCAT scores last 2-3 years.

Freshman Year

First Semester

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CORE 100 - First Year Seminar or
- THEO 111 - Theology
- MATH 140/170 or MATH 156/171
- CORE 101 1st Year Co-Curricular Program I

Total (14)

Second Semester

- A minimum of 120 credit hours is required for the degree. 2nd BS degree requires 150 cred hours (30 additional credit hours).

Biophysics, B.S.

The biophysics program is highly interdisciplinary, providing students with the background and techniques of biology, chemistry and physics necessary to enter this rapidly growing field. A key component of the program is the hands on experience gained in numerous laboratory settings across the disciplines of biology, chemistry and physics, culminating in a senior capstone research experience in the
biophysics area. The program's flexibility is intended to allow students to tailor their experience toward their personal interests, be it in industrial research, engineering, teaching, or health-science. The program's structure is intended to prepare a student for the rigors of advanced degree programs in biophysics as well as a wide variety of other fields of physics, law, medicine, health sciences, and biotechnology.

Requirements for the Biophysics Major

Core Curriculum Requirements:

The general core curriculum requirements are 48-63 Credit Hours dependent on courses taken. However, Natural Science Elective, Scientific Perspectives, Mathematical Perspectives, Oral Communication Flag are satisfied by major courses, thereby leaving 42 - 51 Credit Hours outside of the major.

Mathematical Perspectives:

• MATH 170 - Calculus I

Scientific Perspectives, Natural Science Elective, and Oral Communication:

• Included within the major.

Major Requirements:

71 credit hours, including:

28 hours of physics courses:

• PHYS 170 - University Physics I
• PHYS 171 - Explorations in Physics I
• PHYS 172 - University Physics II
• PHYS 173 - Explorations in Physics II
• PHYS 330 - Modern Physics I
• PHYS 331 - Modern Physics I Lab
• PHYS 340 - Modern Physics II
• PHYS 341 - Modern Physics II Lab
• PHYS 355 - Advanced Physics Lab
• PHYS 382 - Thermodynamics
16 hours of chemistry courses:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab

8 hours of biology courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 440 - Biochemistry

7 hours of mathematics courses:

- MATH 171 - Calculus II
- MATH 230 - Intro to Ordinary Diff Equat

13 credit hours of natural sciences electives:

At least three hours of electives must be in physics.

- BIOL 222 - Immunology
- BIOL 230 - Genetics
- BIOL 231 - Genetics Laboratory
- BIOL 360 - Cell Biology
- BIOL 410 - Human Physiology
- BIOL 411 - Human Physiology Lab
- BIOL 450 - General Microbiology
- BIOL 451 - General Microbiology Lab
- CHEM 220 - Principles of Physical Chem
- CHEM 340 - Instrumental Analysis
- CHEM 341 - Instrumental Analysis Lab
- CHEM 435 - Medicinal Chemistry

- ENGR 180 - Intro to Eng. and Scientific Computation
Notes:

- Specific requirements are modifiable for the needs and interests of each individual student.
- A 2.000 cumulative average must be attained within the major, as listed in Degree Works.
- Pre-med students must take BIOL 162 and BIOL 163 in order to qualify for medical, dental, and veterinary schools. Additionally, General Psychology, Introduction to Sociology and Biochemistry, must be completed by the end of the junior year in order to take the MCAT between the junior and senior year. BIOL 354 Human and Comparative Anat is required for admission to some medical schools but is not required for MCAT performance. BIOL 230 Genetics and BIOL 231 Genetics Laboratory are listed in the minimal competences for first year medical students but are not required for MCAT performance. In order to be on track, pre-med students should take General Chemistry I and II (plus labs) during their first year, Organic Chemistry I and II (plus labs) and General Biology I and II (plus labs) during their second year, and Biochemistry during their third year.
- Pre-med students are strongly encouraged to speak to their advisor regarding their course schedule as soon as possible.
- Upper level biology courses may require BIOL 162 and BIOL 163
- Students interested in an advanced degree in biophysics are encouraged to take PHYS 382 Thermodynamics as one of their physics electives.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

- This number assumes that at least one of the ER/S, DCR or Writing Intensive Electives are fulfilled with other core courses.

B.S., Biophysics

This block serves as a guideline for progress towards a degree. See your academic advisor.

Freshman Year
First Semester

• PHYS 170 - University Physics I

Total (17)
Junior Year

First Semester

- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- PHYS/CHEM/BIOL Elective (4)
- Philosophy 200 - Philosophical Perspectives
- Lit. & Moral Imagination 205
- PHYS 355 - Advanced Physics Lab

Total (16)

Second Semester

- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- Theological Perspectives
- Historical Perspectives
- PHYS/CHEM/BIOL Elective (3)
- PHYS 382 - Thermodynamics

Total (16)

Senior Year

First Semester

- BIOL 440 - Biochemistry
- PHYS 395 - Physics Research
- Physics Elective (3)
- Social Sciences elective
- Humanities elective
- DCR or General elective

Total (16)

Second Semester

- PHYS 387 - Biophysics
• PHYS 398 - Physics Thesis
• PHYS/CHEM/BIOL Elective (3)
• Creative Perspectives elective
• E/RS or General Elective
• Writing Intensive or General elective

Total (16)

Scheduling Notes:

• Consult the Core Curriculum requirements in the Catalog.
• The E/RS Focus Elective, Diversity Curriculum Elective, and Writing Intensive Elective requirements may be used to satisfy another element of the core or the major.

Chemical Science, B.S.

The Department of Chemistry offers a program which leads to the BS degree in Chemical Science. This program is intended primarily for those students who wish to make use of chemical knowledge in connection with a career in the business world, e.g., in sales or marketing, or in secondary education. The course requirements in chemistry and mathematics are less than those of the BS in Chemistry program. The hours thus released are made available as free elective hours which can then be applied to courses in accounting, business administration, economics, education, etc.

Requirements for the Chemical Science Major

Core Curriculum Requirements:

59 credit hours, including

Mathematics:

• MATH 120 - Elementary Functions
• MATH 150 - Elements of Calculus I

Science:

• PHYS 160 - College Physics I
Major Requirements:

33 credit hours, as follows

28 hours from:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 220 - Principles of Physical Chem
- CHEM 226 - Quantitative Analysis
- CHEM 227 - Quantitative Analysis Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- CHEM 300 - Intro to Chem Research
- CHEM 340 - Instrumental Analysis
- CHEM 341 - Instrumental Analysis Lab

2 hours of research seminar from:

- CHEM 400 - Research/Seminar (to be taken 2 times)

3 hours of chemistry electives from:

- CHEM 411-495 (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative average must be attained in the chemistry courses.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Chemical Science

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• MATH 120 - Elementary Functions
• ENGL 101 - English Composition or ENGL 115 - Rhetoric
• Second Language I
• CORE 100 - First Year Seminar or THEO 111 - Theological Foundations

Total (16)

Second Semester

• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
• MATH 150 - Elements of Calculus I
• Second Language II
• Historical Perspectives
• CORE 100 - First Year Seminar or THEO 111 - Theological Foundations

Total (16)

Sophomore Year

First Semester

• CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I
• PHIL 100 - Ethics as Intro to Philosophy
• Social Science Elective

Total (14)

Second Semester

• CHEM 242 - Organic Chemistry II
• CHEM 243 - Organic Chemistry II Lab
• PHYS 162 - College Physics II
• PHYS 163 - Introductory Physics Lab II
• CHEM 226 - Quantitative Analysis
• CHEM 227 - Quantitative Analysis Lab
• PHIL 200 - Philosophical Perspectives

Total (15)

Junior Year

First Semester

• CHEM 220 - Principles of Physical Chem
• CHEM 340 - Instrumental Analysis
• CHEM 300 - Intro to Chem Research
• Theological Perspectives
• General Elective
• ENGL 205 - Literature & Moral Imagination

Total (16)

Second Semester

• CHEM 341 - Instrumental Analysis Lab
• Humanities Elective
• E/RS Elective*
• Creative Perspectives
• Diversity Curriculum Elective
• General Elective

Total (16)
Senior Year

First Semester

- CHEM 400 - Research/Seminar
- Chemistry Elective
- General Electives (10)

Total (14)

Second Semester

- CHEM 400 - Research/Seminar
- General Elective (12)

Total (13)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- * May double count with other core courses.
- Students must elect one each of oral communications, quantitative reasoning, and writing intensive flagged courses; many of these are available within the core or the major.

Chemistry, B.S.

The Department of Chemistry offers a curriculum that is approved by the American Chemical Society (ACS) and leads to the Bachelor of Science degree. Students completing the program graduate as "ACS certified" majors. The curriculum covers the five major fields (analytical, biochemistry, inorganic, organic, and physical chemistry), the preparation and identification of compounds, and the literature on the subject. CHEM 300 Intro to Research, fits the students to prepare his/her thesis and is a beginning course in research.

Requirements for the Chemistry Major
Core Curriculum Requirements:

53 credit hours, including

Mathematics:

• MATH 170 - Calculus I
• MATH 171 - Calculus II

Science:

• Requirement included within the major.

Major Requirements:

46 credit hours, as follows

43 hours of chemistry from:

• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
• CHEM 226 - Quantitative Analysis
• CHEM 227 - Quantitative Analysis Lab
• CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• CHEM 242 - Organic Chemistry II
• CHEM 243 - Organic Chemistry II Lab
• CHEM 300 - Intro to Chem Research
• CHEM 320 - Physical Chemistry I
• CHEM 322 - Physical Chemistry II
• CHEM 325 - Physical Chemistry Laboratory
• CHEM 330 - Quantum Chemistry
• CHEM 340 - Instrumental Analysis
• CHEM 341 - Instrumental Analysis Lab
• CHEM 420 - Inorganic Chemistry
• CHEM 421 - Inorganic Chemistry Lab
• CHEM 440 - Biochemistry
• CHEM 450 - Topics in Organic Chemistry
3 hours of research seminar from:

- CHEM 400 - Research/Seminar (to be taken 3 times)

Note(s):

- A 2.000 cumulative average must be attained in these chemistry courses.

Additional Major Requirements:

12 credit hours, as follows

8 hours of physics from:

- PHYS 161 - Introductory Physics Lab I
- PHYS 163 - Introductory Physics Lab II
- PHYS 170 - University Physics I
- PHYS 172 - University Physics II

4 hours of mathematics from:

- MATH 220 - Calculus III

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Chemistry

• PHYS 163 - Introductory Physics Lab II
• Second Language II

Total (17)

Junior Year

First Semester

• CHEM 320 - Physical Chemistry I
• CHEM 340 - Instrumental Analysis
• CHEM 300 - Intro to Chem Research
• Historical Perspectives
• Social Science Elective
• ENGL 205 - Literature & Moral Imagination

Total (16)

Second Semester

• CHEM 322 - Physical Chemistry II
• CHEM 341 - Instrumental Analysis Lab
• CHEM 325 - Physical Chemistry Laboratory
• CHEM 330 - Quantum Chemistry
• CHEM 400 - Research/Seminar
• PHIL 200 - Philosophical Perspectives
• Theological Perspectives
• Creative Perspectives

Total (16)

Senior Year

First Semester

• CHEM 450 - Topics in Organic Chemistry
• CHEM 420 - Inorganic Chemistry
• CHEM 400 - Research/Seminar
• E/RS Focus Elective
• Humanities Elective
• General Elective
Total (16)

Second Semester

• CHEM 400 - Research/Seminar
• CHEM 421 - Inorganic Chemistry Lab
• CHEM 440 - Biochemistry
• Diversity Curriculum Elective
Total (14)

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
• Students must elect one each of oral communications, quantitative reasoning and writing intensive flagged courses; many of these are available within the core or major.

Computer Science, B.S.

Computer technology has revolutionized society's methods for processing information and making decisions. The growth in the use of computers has increased the demand for professionals in computer science. Typical computer careers include programming and application in such areas as accounting, engineering, law, mathematics, medicine, and the sciences. Other positions include research in computer science, computer design, computer product marketing and sales, technical writing, and teaching.

Xavier's program is designed to develop, within the framework of a liberal education, the knowledge, skills, and creative analytical ability required for a productive career in computer-related fields and for graduate work in computer science or other areas. Computer science students may elect to participate in a cooperative education experience. The cooperative education program is designed to complement students' classroom training in theoretical computer science by providing actual work experience in a real software engineering environment. In addition to gaining a deeper appreciation of classroom theory, students also make valuable professional contacts and learn more about career options in computer science.

Requirements for the Computer Science Major, BS

Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including

Sciences:

At least 8 hours in one science, chosen from the following three options:
• BIOL 160 - General Biology I and BIOL 161, General Biology I Lab
   
   AND
   
   • BIOL 162 - General Biology II and BIOL 163, General Biology II Lab
   
   OR
   
   • CHEM 160 - General Chemistry I and CHEM 161, General Chemistry I Lab
   
   AND
   
   • CHEM 162 - General Chemistry II and CHEM 163, General Chemistry II Lab
   
   OR
   
   • PHYS 170 - University Physics I and PHYS 161, Introductory Physics I Lab
   
   AND
   
   • PHYS 172 - University Physics II and PHYS 163, Introductory Physics II Lab

Mathematics:

13 hours from:

• MATH 170 - Calculus I
• MATH 225 - Foundations Of Higher Math
• MATH 280 - Combinatorics

   and either

• MATH 156 - General Statistics or
• MATH 240 - Linear Algebra or
• MATH 256 - Intro to Probability& Stats

Major Requirements:

39 credit hours, as follows

33 hours of computer science courses:
• CSCI 170 - Computer Science I
• CSCI 180 - Computer Science II
• CSCI 210 - Machine Org & Assembly Lang
• CSCI 220 - Data Structures & Algorithms
• CSCI 250 - Languages & Automata
• CSCI 260 - Software Engineering
• CSCI 300 - Programming Languages
• CSCI 320 - Operating Systems
• CSCI 335 - Databases
• CSCI 340 - Networking
• CSCI 390 - Senior Seminar & Project

6 hours of computer science electives selected from:

• CSCI 200-397 (Refer to Course Descriptions) (includes co-op CSCI 395 Co-Op Education in Comp Sci)
• MATH 330 Graph Theory
• Three of the six hours of computer science electives must be from CSCI 250-390.

Note(s):

• A 2.000 cumulative average must be attained in the computer science courses.
• Fulfill the current senior comprehensive requirements.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Computer Science

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

• CSCI 170 - Computer Science I
• ENGL 101 - English Composition or ENGL 115 - Rhetoric
• MATH 225 - Foundations Of Higher Math
• Foreign Language Elective (3)
• THEO 111 - Theological Foundations or First Year Seminar

Total (15)
Second Semester

- CSCI 180 - Computer Science II
- MATH 280 - Combinatorics
- Foreign Language Elective (3)
- PHIL 100 - Ethics as Intro to Philosophy
- THEO 111 - Theological Foundations or First Year Seminar

Total (15)

Sophomore Year

First Semester

- CSCI 220 - Data Structures & Algorithms
- MATH 170 - Calculus I
- Scientific Perspectives
- Historical Perspectives
- ENGL 205 - Literature & Moral Imagination or CLAS 205 - Classical Lit & Moral Imagina or SPAN 205 - Hispanic Lit & Moral Imagin

Total (16)

Second Semester

- CSCI 260 - Software Engineering
- CSCI 250 - Languages & Automata
- Theological Perspectives
- Philosophical Perspectives
- Creative Perspectives

Total (15)

Junior Year

First Semester

- CSCI 210 - Machine Org & Assembly Lang
- CSCI 300 - Programming Languages
- Major level Science/Lab (4)
• Social Science Elective
• Humanities Elective

Total (16)

Second Semester

• CSCI 335 - Databases or CSCI 340 - Networking
• Major-level science/lab (4)
• General Elective (3)
• CSCI Elective (3)
• MATH 156 - General Statistics or MATH 240 - Linear Algebra or MATH 256 - Intro to Probability & Stats

Total (16)

Senior Year

First Semester

• CSCI 320 - Operating Systems
• Computer Science Elective (3)
• General Elective (3)*
• General Elective (3)*
• General Elective (3)*

Total (15)

Second Semester

• CSCI 390 - Senior Seminar & Project (3) **
• General Elective (3)*
• General Elective (3)*
• CSCI 335 - Databases or CSCI 340 - Networking

Total (12)

Note(s):

* Elective may need to be a flagged course fulfilling Diversity, E/RS requirement, Oral, Quantitative, or Writing requirement.

** Students taking Senior Seminar and Project should contact the chair of the Computer Science Department one semester before enrolling in this course.
Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
- ** Courses filling other core requirements may also fulfill the Diversity Curriculum Requirement.

Criminal Justice, B.S.

Criminal Justice investigates all aspects of crime and delinquency in our society from types, incidence, prevalence and distribution to causes and remedies. It further explores the philosophy and ideology, theory and practice, structure and process, policy and programs, and problems and issues of police, courts, and corrections. Students also examine the fundamental elements of criminal and constitutional law, and develop the skills to perform, analyze and evaluate social research.

The curriculum for Criminal Justice majors who are preparing for careers is designed to provide concepts, skills, and attitudes necessary for functioning with competence and conscience. For non-career students, a wider knowledge of important issues required for involved and informed citizen participation in the criminal justice system and its operations is acquired, along with ethical considerations related to concepts of justice in contemporary society.

Requirements for the Criminal Justice Major

Undergraduate Core Curriculum

See Undergraduate Core Curriculum for details.

Criminal Justice Core: 39 Credit Hours

Required Criminal Justice Courses: 30 Credit Hours

- CJUS 101 - Intro to Criminal Justice (Also fulfills a Social Science Core requirement.)
- CJUS 102 - Intro to Law Enforcement
- CJUS 103 - Intro to Corrections
- CJUS 206 - Criminology
- CJUS 210 - Basic Const Law & Amer Justice
- CJUS 240 - Criminal Law
- CJUS 381 - Methods of Research in CJUS (Also fulfills Scientific Perspectives requirement)
- CJUS 391 - Practicum / Ethics
- CJUS 482 - Planned Change in Crim Justice
• CJUS 489 - Senior Seminar

Criminal Justice Electives: 9 Credit Hours

• CJUS 103-499 (Refer to Course Descriptions.)

General Electives: 18 Credit Hours (minimum)

Electives can be chosen to meet each student's individual needs. The criminal justice advisor will be available to assist in this process.

Note(s):

• A 2.000 cumulative average must be attained in these criminal justice major courses.
• CJUS 391, Practicum in Criminal Justice, consists of supervised placement in criminal justice agencies, and CJUS 381, Methods of Criminal Justice Research, provides exposure to applied research in the subject area.
• Criminalistics Concentration is an optional addition to the major, and it must be declared by the student to the department. As part of major, these 15 hours of criminal justice courses must be completed: CJUS 101, CJUS 102, CJUS 239, CJUS 439 and CJUS 449.

TOTAL Minimum Hours Required for B.S. Degree: 120 Credit Hours

This number assumes that the ER/S and DCR requirements are fulfilled with other core or major courses, although this is not always possible.

B.S. Criminal Justice

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year
First Semester

• CJUS 101 - Intro to Criminal Justice (Social Science Elective)
• ENGL 101 - English Composition or
• ENGL 115 - Rhetoric
• CORE 100 - First Year Seminar
• Second Language I
• General Elective
• CORE 101 - Co-curricular Program I

Total (15)

Second Semester

• CJUS 102 - Intro to Law Enforcement
• Historical Perspectives
• THEO 111 - Theological Foundations
• Second Language II
• Oral Communication Elective
• CORE 102 - Co-Curricular Program II

Total (15)

Sophomore Year

• CJUS 103 - Intro to Corrections
• PHIL 100 - Ethics as Intro to Philosophy
• Theological Perspectives
• ENGL 205 - Literature & Moral Imagination
• General Elective

Total (15)

Second Semester

• CJUS 206 - Criminology
• CJUS 381 - Methods of Research in CJUS (Scientific Perspectives)
• PHIL 200 - Philosophical Perspectives
• Mathematics Perspectives
• General Elective

Total (15)
Junior Year

First Semester

- CJUS 210 - Basic Const Law & Amer Justice
- Humanities Elective
- Ethics, Religion & Society (ERS) Elective
- CJUS Elective
- Quantitative Elective

Total (15)

Second Semester

- CJUS 240 - Criminal Law
- Diversity Flag
- Natural Science Elective
- Creative Perspectives
- Writing Intensive Elective

Total (15)

Senior Year

First Semester

- CJUS 482 - Planned Change in Crim Justice
- General Electives (9 credit hours)
- CJUS Elective

Total (15)

Second Semester

- CJUS 391 - Practicum / Ethics
- CJUS 489 - Senior Seminar
- CJUS Elective
- General Electives (6 credit hours)

Total (15)
Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- * E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
- + Diversity Curriculum Requirement may be used to satisfy another element of the core or the major.
- CJUS 101 may be used to fulfill a science elective.
- CJUS 381 may be used to fulfill scientific perspectives requirement.
- A minimum of 120 credit hours is required for the degree.

Early Childhood Education (Pre-K To 3), B.S.

Early Childhood Education will prepare a candidate for an Ohio teaching license to work with children ages 3 through 8, or preschool through grade three. The course of study has child development at the core of pedagogical decisions. The approach is holistic, with a strong emphasis on an integrated learning approach. Practices based in child development and intense reading instruction are integral to the program. Field experience and student teaching occur at both the preschool and primary level.

Requirements for the Early Childhood Education Major

Undergraduate core curriculum requirements:

**Undergraduate Core Curriculum: 39 - 48 hours, including:**

- Science requirement must be met with one natural science (CHEM or PHYS or BIOL) and one scientific perspectives elective course.
- Humanities elective fulfilled in major with EDCH 324.
- Social Sciences requirement is included in the major requirements.
- E/RS Focus Elective that meets another core requirement can be chosen.
- A 2.5 cumulative overall GPA is required for admission to program and must be maintained for the Bachelor of Science degree. A 3.0 GPA must be maintained in major.

Major requirements:

See "Steps for Admission and Continual Progress for Licensure in Early Childhood." Also see "Student Handbook for Early and Middle Childhood."

A 3.0 GPA must be maintained in the major. Students must have "B" or higher in courses prefixed with EDEC, EDRE, or EDMC or retake in subsequent semesters.

72 hours of courses:

- EDFD 110 - Human Development & Learning
- EDEL 100 - Introduction To Education
B.S. Early Childhood Education

**This block serves as a guideline only, not a required sequence. See your academic advisor. Subject to change**

Freshman Year

First Semester

- CORE 101 GOA
- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- EDFD 110 - Human Development & Learning
- BIOL 130 - Intro to Life Sciences
- BIOL 131 - Intro to Life Sciences Lab
- Second Language I
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar

Total (15)

Second Semester

- CORE 102 GOA
- EDEL 100 - Introduction To Education
- PHYS 114 - Our Universe: Physical Science
- PHYS 115 - Our Universe: Physical Sci Lab
- Historical Perspectives Elective
- Second Language II
- General Elective
• THEO 111 - Theological Foundations or CORE 100 - First Year Seminar

Total (18)

Sophomore Year

First Semester

• EDEC 210 - Early Childhood Development
• EDEL 251 - Instructional Technology
• PHIL 100 - Ethics as Intro to Philosophy
• EDEL 260 - Cultural Diversity In Educ
• MATH 201 - Foundations of Arith. -ECED
• Theological Perspectives Elective

Total (18)

Second Semester

• EDCH 324 - Children's Lit for Early Child
• EDRE 269 - Phonics & Foundation of Litera
• EDRE 312 - Reading Methods for Early Child
• EDSP 205 - Foundations in ECSPED
• EDME 359 - Community & Advocacy in Educ
• MATH 202 - Geometry & Measurement -ECED

Total (18)

Junior Year

First Semester

• ENGL 205 - Literature & Moral Imagination
• EDEC 325 - Methods of Observation/Collabo
• EDEC 330 - Math/Science Block-Early Child
• EDEC 350 - Early Years Integrated Art

Total (15)
Second Semester

- EDEC 230 - Play in Early Childhood Educ
- EDRE 471 - Content Area Literacy
- EDEC 335 - Lang Arts/Social St-Early Chd
- EDEL 351 - Instruct Strat for Engl Lang L

Total (15)

Senior Year

First Semester

- EDEC 450 - Student Teaching:Early Childho
- EDEC 451 - Seminar: Current Issues/Early

Total (12)

Second Semester

- PHIL 200 - Philosophical Perspectives
- EDRE 478 - Diagnosis/Correct of Read Disa
- General Elective
- Creative Perspectives Elective
- E/RS Focus Elective (cross count when possible - see advisor)

Total (15)

Scheduling Notes:

- Course sequence shown above is realistic only for the student who declares the Early Childhood major as a freshman. It is not the only advisable sequence.
- A minimum of 120 credit hours is required for the degree.
- The sequence of courses in the program is subject to change.
- Addition of a minor is possible. Consult with advisor early in the program.
- Study Abroad is possible - consult with advisor early in program.
- Student teaching/internship may take place fall or spring semester.
- Students may add Grades 4-5 Endorsement courses when feasible during senior year.
- All students must elect one each of oral communication, quantitative reasoning and writing intensive flagged courses, many of these are available within the core or major.
Engineering Physics, B.S.

The Engineering Physics program combines courses in physics and mathematics with several diverse courses in engineering. Serving the foundation of the program is a set of courses that provides a fundamental understanding of traditional topics in physics including the motion of solid bodies, sound, fluids, electricity, magnetism, and the interaction between light and matter. These "foundational" courses describe how theories about natural phenomena are deduced from experiments and observations, develop the mathematical formalism through which these theories are expressed, and present techniques for using this formalism to describe and analyze systems. Overarching these "foundational" courses are a set of "engineering" courses that focus on the application of scientific principles toward the design and construction of structures, materials, devices and systems that serve an intended function. A senior capstone experience provided through a two-semester sequence teaches the product development process typically utilized in the engineering community and enables students to experience the process from idea conception through production. The program is intended for students who want a solid foundation in physics and a rigorous set of engineering courses that will allow them to pursue an engineering related career or an advanced degree in engineering.

Requirements for the Engineering Physics Major

Core Curriculum Requirement:

The general core curriculum requirements are 48-63 Credit Hours dependent on courses taken. However, Natural Science Elective, Scientific Perspectives, Mathematical Perspectives, Oral Communication Flag, and Quantitative Reasoning Flag are satisfied by major courses, thereby leaving 39 - 48 Credit Hours outside of the major.

Mathematical Perspectives:

- MATH 170 - Calculus I

Scientific Perspectives, Natural Science Elective, Quantitative Reasoning and Oral Communication:

Included within the major.

Major Requirements:

75 credit hours in physics, as follows:
23 hours of physics courses:

- PHYS 170 - University Physics I
- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II
- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- PHYS 350 - Theoretical Mechanics I
- PHYS 360 - Electromagnetism I
- PHYS 364 - Physical Optics
- PHYS 365 - Physical Optics Lab

32 hours of engineering courses:

- ENGR 173 - Explorations in Engineering
- ENGR 180 - Intro to MATLAB
- ENGR 244 - Electronics
- ENGR 245 - Electronics Lab
- ENGR 346 - Signals, Systems & Measurements
- ENGR 347 - Signals, Systems & Measurements Lab
- ENGR 350 - Digital Logic and Circuit Design
- ENGR 354 - Microprocessors
- ENGR 358 - Analog and Digital Communication
- ENGR 370 - Fluid Mechanics
- ENGR 380 - Control Systems
- ENGR 384 - Heat Transfer
- ENGR 395 - Senior Project I
- ENGR 396 - Engineering Physics Colloquium
- ENGR 398 - Senior Project II

Additional Major Requirements:

17 hours of mathematics and computer science from:

- CSCI 170 - Computer Science I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 230 - Intro to Ordinary Diff Equat

Note(s):

- Specific requirements are modifiable for the needs and interests of each individual student.
- A 2.000 cumulative average must be attained within the major, as listed in Degree Works.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

- This number assumes that at least two of the ER/S, DCR or Writing Intensive Electives are fulfilled with other core courses.

B.S. Engineering Physics

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- MATH 170 - Calculus I
- First Year Seminar
- Second Language I

Total (14)

Second Semester

- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II
- MATH 171 - Calculus II
- THEO 111 - Theological Foundations
- CSCI 170 - Computer Science I
- Second Language II

Total (17).

Sophomore Year
First Semester

- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- MATH 220 - Calculus III
- ENGL 101 - English Composition or ENGL 115 - Rhetoric.

Total (16)

Second Semester

- ENGR 180, Intro to MATLAB
- ENGR 244, Electronics
- ENGR 245, Electonics Lab
- MATH 230 - Intro to Ordinary Diff Equat
- PHIL 100 - Ethics as Intro to Philosophy
- Lit. & Moral Imagination 205.

Total (14)

Junior Year

First Semester

- ENGR 350, Digital Logic & Circuit Design
- ENGR 370, Fluid Mechanics
- PHYS 360 - Electromagnetism I
- Writing Intensive elective or General Elective.
- MATH 156 - General Statistics

Total (15)

Second Semester

- PHYS 364 - Physical Optics
- PHYS 365 - Physical Optics Lab
- ENGR 346, Signals, Systems & Measurements
- ENGR 347, Signals, Systems & Measurements Lab
- ENGR 354, Microprocessors
• PHIL 200 - Philosophical Perspectives
• Theological Perspectives elective

Total (17)

Senior Year

First Semester

• ENGR 380, Control Systems
• ENGR 384, Heat Transfer
• ENGR 395, Senior Project I
• PHYS 350 - Theoretical Mechanics I
• Humanities elective
• Historical Perspectives elective

Total (17)

Second Semester

• ENGR 358, Analog and Digital Communication
• ENGR 396 - Engineering Physics Colloquium.
• ENGR 398, Senior Project II
• Creative Perspectives elective
• Social Science Elective
• ER/S or General elective
• DCR or General Elective (If Needed).

Total (15).

Scheduling Notes:

• Consult the Core Curriculum requirements of the Catalog.
• The E/RS Focus Elective, Diversity Curriculum Elective, and Writing Intensive Elective requirements may be used to satisfy another element of the core or the major.
Environmental Science, B.S.

The environmental science major includes the interdisciplinary study of the impact of human systems on our natural environment and how in turn these natural systems affect the human environment.

Requirements for the Environmental Science Major

Core Curriculum:

• 48-63 Credit Hours dependent on courses taken, including

Mathematical Perspectives

• MATH 140/150

Biology: 21 Credit Hours

• BIOL 160 - General Biology I
• BIOL 161 - General Biology I Lab
• BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab
• BIOL 250 - Ecology
• BIOL 251 - Ecology Lab
• BIOL 260 - Intro to Environmental Science
• BIOL 261 - Intro to Environ Science Lab
• BIOL 398 - SEM: Environmental Studies
• BIOL 495 - Directed Study (Senior Internship) or
• BIOL 496 - Senior Capstone Seminar or
• BIOL 497 - Experimental Biology Lab or
• BIOL 498 - Methods of Biol Research I and
• BIOL 499 - Methods of Biol Research II

Chemistry: 8 Credit Hours

• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
Physics: 8 Credit Hours

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II

Economics: 6 Credit Hours

- ECON 200 - Microeconomic Principles
- ECON 320 - Natural Resource Economics

Mathematics: 6 Credit Hours

- MATH 140/150 - Elements of Calculus I
- or MATH 170 - Calculus I
- MATH 156 - General Statistics

Science and Math/Computer Science Electives: 9 Credit Hours Minimum

Students must select a minimum of nine credit hours from the following list of courses, including at least one science laboratory and no more than one mathematics/computer science course.

- BIOL 210 - General Botany
- BIOL 211 - General Botany Lab
- BIOL 227 - Parasitology
- BIOL 230 - Genetics
- BIOL 231 - Genetics Laboratory
- BIOL 240 - Evolution
- BIOL 244 - Animal Behavior
- BIOL 255 - Tropical Ecology
- BIOL 256 - Conservation Biology Ireland
- BIOL 270 - Introduction To Entomology
- BIOL 271 - Introduction To Entomology Lab
- BIOL 364 - Virology
- BIOL 450 - General Microbiology
- BIOL 451 - General Microbiology Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- CHEM 440 - Biochemistry
- CSCI 170 - Computer Science I
- MATH 325 - Mathematical Modeling
Non-Science Electives: 6 Credit Hours Minimum

Students must complete a minimum of six credit hours from the following list.

- POLI 316 - Globalization
- ENGL 205 - Literature & Moral Imagination
  - THEO 245 - God, Creation and Ecology
- THEO 388 - Theology & Ecology
  - HIST 403 - Ecology of the City
  - Other courses as approved by advisor

A 2.000 cumulative average must be attained in the major.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Environmental Science

Freshman Year

First Semester

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CORE 100 1st Year Seminar or THEO 111
- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- CORE 101 - GOA

Total (14)

Second Semester

- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CORE 100 1st Year Seminar or THEO 111
• PHIL 100 - Ethics as Intro to Philosophy
• CORE 102 - GOA

Total (14)

Sophomore Year

First Semester

• BIOL 250 - Ecology
• BIOL 251 - Ecology Lab
• ENGL 205 - Literature & Moral Imagination
• MATH 140/150 - Calculus or MATH 156
• Historical Perspectives Elective
• Second Language I

Total (16)

Second Semester

• BIOL 260 - Intro to Environmental Science
• BIOL 261 - Intro to Environ Science Lab
• ENVS - Non Science Elective
• Theological Perspectives
• Second Language II
• ECON 200 - Microeconomic Principles

Total (16)

Junior Year

First Semester

• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I
• ENVS Non-Science Elective
• MATH 140/150 - Calculus or
• MATH 156 - General Statistics
• PHIL 200 - Philosophical Perspectives Elective
• Math or Science Elective

Total (16)
Second Semester

- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
- Humanities Elective
- Social Science or General Elective
- Creative Perspectives Elective
- General Elective

Total (16)

Senior Year

First Semester

- ECON 320 - Natural Resource Economics
- BIOL 495, 497 or 498: Internship/Methods BR I
- Science or Math Elective (5 credit hours)
- General Elective (DCR)
- General Elective

Total (15-16)

Second Semester

- BIOL 398 - SEM: Environmental Studies
- BIOL 495, 496 or 499: Internship/Methods BR II
- Science or Math Elective
- E/RS Course
- General Elective

Total (13-14)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- All students must also satisfy five flags in addition to the 48 hours required by the core. No single course can count for more than two flags. Flagged courses often double-count for major and/or minor requirements. The five flagged courses are: the Diversity (DCR), Ethics/Religion and Society (E/RS) oral communications, quantitative reasoning and writing-intensive flagged courses. Many of these are available within the core or major; use "Attribute Type" when searching for courses.
- 2.00 cumulative average is required in the major courses.
- A minimum of 120 credit hours is required for the degree. 2.00 cumulative average is required in the major courses.
Exercise Science, B.S.

The BS in Exercise Science degree is a scientific program that focuses on the anatomy, physiology, biochemistry, and biophysics of human movement, and the application to exercise, physical activity, and therapeutic rehabilitation. Students will be taught to create and execute science-based exercise programs that are safe and effective for a variety of individuals. Students will learn to promote wellness for individuals of different ages, sexes, and fitness levels/abilities.

Students will be prepared to work in health promotion, fitness facilities, colleges and universities, clinical rehabilitation facilities, and in sport and athletic conditioning programs. This degree is also designed to help students prepare for graduate studies in athletic training, medicine, occupational therapy, physical therapy, and other health care related specialties.

Dependent upon the exercise science electives students select, at the end of this program students may be eligible for the following certifications; American College of Sports Medicine (ACSM) Certified Exercise Physiologist, ACSM Certified Personal Trainer, National Strength & Conditioning Specialists (CSCS), and American Council on Exercise (ACE) Personal Trainer Certification.

Program Admission Requirements

There are no separate admission criteria for the BS in Exercise Science major. All students that are admitted into XU are welcome to start the major.

Program Progression and Retention Requirements

Academic Progression

- Several Exercise Science courses have required pre-requisites. Students must pass each required pre-requisite with a grade of C or better to be permitted to register for the Exercise Science course. A grade of C- or less will not meet the requirement. This may impact progression in the major and possibly a student's date of graduation.
- Students must earn minimum grade of "C" in all Core Exercise Science courses. Students may repeat a course one time to improve their grade and meet graduation requirements. If a student does not meet the minimum grade requirement the second time a course is taken, they will not be permitted to retake the course, and will be dismissed from the major.

Academic Probation

- Any student whose cumulative average falls below 2.75 is placed on academic probation. Academic probation will be imposed by the program director at the end of any term. While on probation a student may be restricted to a reduced course load, and/or receive other stipulations intended to improve the student's academic success. Academic probation is removed when the student's cumulative average rises to 2.75 or above.

Academic Suspension

Students on academic probation who fail to restore their cumulative grade point average to 2.75 within two semesters will be suspended from the program. In addition, freshmen and probationary students who receive more than one failing grade within a single term will be suspended. Suspension will be enforced unless in the judgment of the program director there are extenuating circumstances. One fall or spring term must elapse before a suspended student may reapply.

Academic Reactivation

A suspended student who wishes to return is required to contact the program director in writing. Reactivation and the conditions for such will be determined by program director.

Academic Dismissal

A student who has been readmitted after a period of suspension and who fails to meet the terms of the readmission as stipulated by the program director will be dismissed from the program and is not eligible to return.
Program Graduation Requirements

- Completion of all Exercise Science and XU Core Requirements
- Completion of a minimum of 120 credits
- A minimum grade of "C" in all Core Exercise Science courses
- A minimum cumulative GPA of 3.0 in all Core Exercise Science courses
- A minimum grade of "C" in all Exercise Science Elective courses
- A minimum cumulative GPA of 3.0 in all Exercise Science Elective courses
- A minimum grade of "C" in all required Science courses
- A minimum cumulative GPA of 2.50 in all required Science courses
- Anatomy and Physiology must be completed at a four-year regionally accredited university

Requirements for the Exercise Science Major

Core Curriculum Requirements

See Undergraduate Core Curriculum

Exercise Science Curriculum

Credit Hour Total: 56-57 cred hours.

- Exercise Science Major Requirements - 26 credit hours
- Exercise Science Electives - 9 credit hours
- Math Requirements - 3 credit hours
- Science Requirements - 15-16 credit hours
- Social Science Requirements - 3 credit hours

Major Requirements

- EXSC 100: Introduction Exercise Science 3 CR
- EXSC 200: Kinesiology 3 CR
- EXSC 300: Exercise Physiology 3 CR
- EXSC 320: Fitness Training Principles 3 CR
- EXSC 325: Resistance Training 1 CR
- EXSC 360: Nutrition for Sport & Exercise 3 CR
- EXSC 380: Fitness Assessment & Design 3 CR
- EXSC 381: Fitness Assessment & Design Lab 1 CR
- EXSC 460: Exercise Science Practicum 6 CR

Exercise Science Electives - 9 hours from the following options:

- BIOL 204: Functional Neuroscience 3 CR
- BIOL 370: Endocrinology 3 CR
• EXSC 160: Group Fitness 1 CR
• EXSC 260: Sports Medicine 3 CR
• EXSC 261: Sports Medicine Lab 1 CR
• EXSC 340: International Exercise Science 3 CR
• EXSC 400: Biomechanics 3 CR
• EXSC 420: Cardiopulmonary Fitness 3 CR
• EXSC 440: Fitness in Special Populations 3 CR
• SPMG 322: Facility and Event Mgmt 3 CR
• SPMG 348: Legal and Ethical Issues in Sprt 3 CR
• SPMG 377/PSYC477: Sport Psychology 3 CR
• SPMG 410: Sport Ethics 3 CR

Mathematics Requirements:

• MATH 116 - Elementary Statistics
  or
• MATH 156 - General Statistics

Science Requirements:

• BIOL 140 - Human A&P I for Allied Health
• BIOL 141 - Hum A&P I Lab Allied Health
• BIOL 142 - Hum A&P II for Allied Health
• BIOL 143 - Hum A&P II Lab Allied Health
• CHEM 150 - Physiological Chemistry
• CHEM 151 - Physiological Chemistry Lab
  or
• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• PHYS 140 - Technical Physics
• PHYS 142 - Technical Physics Lab
  or
• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I

Social Science Requirement:

• PSYC 101 - General Psychology
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Exercise Science

4 Year Plan

First Year

Fall Semester

• BIOL 140 - Human A&P I for Allied Health
• BIOL 141 - Hum A&P I Lab Allied Health
• ENGL 101 - English Composition
• EXSC 100 - Intro to Exercise Science
• Second Language I
• CORE 101
• THEO 111 - Theological Foundations or CORE 100 - First Year Seminar

Spring Semester

• BIOL 142 - Hum A&P II for Allied Health
• BIOL 143 - Hum A&P II Lab Allied Health
• EXSC 200 - Kinesiology
• Historical Perspectives
• Second Language II
• CORE 102
• THEO 111 - Theological Foundations or CORE 100 - First Year Seminar

Second Year

Fall Semester

• CHEM 150 - Physiological Chemistry
• CHEM 151 - Physiological Chemistry Lab
• MATH 116 - Elementary Statistics or MATH 156 - General Statistics
• PSYC 101 - General Psychology
• EXSC 300 - Exercise Physiology
• Theological Perspectives Elective
Spring Semester

- PHIL 100 - Ethics as Intro to Philosophy
- EXSC 320 - Fitness Training Principles
- EXSC 325 - Resistance Training
- EXSC 360 - Nutrition for Sport and Exercise
- ENGL/CLAS/SPAN 205 - Lit & Moral Imag
- Core/General Electives (3)

Third Year

Fall Semester

- PHYS 140 - Technical Physics
- PHYS 142 - Technical Physics Lab
- EXSC 380 - Fitness Assessment and Design
- EXSC - Fitness Assess and Design Lab
- Ethics/Religion & Society Elective
- Humanities Elective
- Core/General Electives

Spring Semester

- Exercise Science Elective
- Exercise Science Elective
- PHIL 200 - Philosophical Perspectives
- Creative Perspectives
- Core/General Electives

Fourth Year

Fall Semester

- Exercise Science Elective
- Core/General Electives

Spring Semester

- EXSC 460 - Exercise Science Practicum
- Core/General Electives
B.S. Exercise Science + M.S. Athletic Training 3+2 Option

Program Requirements

Students are required to meet all Admission, Progression, Retention and Graduation requirements of the Exercise Science, B.S. and Athletic Training, M.S.

Curriculum Requirements

151 credit hours:

- Undergraduate Core Curriculum
- B.S. Exercise Science Requirements - 97 credit hours
- Dual B.S. Exercise Science / M.S. Athletic Training Requirements - 23 credit hours
- M.S. Athletic Training Requirements - 31 credit hours

Course Sequence

First Year

Fall Semester

- EXSC 100 - Intro to Exercise Science
- BIOL 140 - Human A&P I for Allied Health
- BIOL 141 - Hum A&P I Lab Allied Health
- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
- Second Language I
- CORE 101

Spring Semester

- EXSC 200 - Kinesiology
- BIOL 142 - Hum A&P II for Allied Health
- BIOL 143 - Hum A&P II Lab Allied Health
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
- Second Language II
- Historical Perspectives
- CORE 102
Second Year

Fall Semester

- CHEM 150 - Physiological Chemistry
- CHEM 151 - Physiological Chemistry Lab
- MATH 116 - Elementary Statistics or MATH 156 - General Statistics
- PSYC 101 - General Psychology
- EXSC 300 - Exercise Physiology
- Theological Perspectives Elective

Spring Semester

- PHIL 100 - Ethics as Intro to Philosophy
- EXSC 320 - Fitness Training Principles
- EXSC 325 - Resistance Training
- EXSC 360 - Nutrition for Sport & Exercise
- Exercise Science Elective
- ENGL/CLAS/SPAN 205 - Lit & Moral Imag

Third Year

Fall Semester

- PHYS 140 - Technical Physics
- PHYS 142 - Technical Physics Lab
- EXSC 380 - Fitness Assessment & Design
- EXSC 381 - Fitness Assess & Design Lab
- Exercise Science Elective
- Ethics/Religion & Society Elective
- Humanities Elective

Spring Semester

- Exercise Science Elective
- EXSC 460 - Exercise Science Practicum
- PHIL 200 - Philosophical Perspective
- Creative Perspectives Elective
- Core / General Electives

Summer Semester

- ATTR 500 - Care & Prevention
- ATTR 501 - Athletic Training Skills
- ATTR 510 - Anatomical Kinesiology
Fourth Year

Fall Semester

- ATTR 521 - Lower Extremity Injuries
- ATTR 531 - Therapeutic Interventions 1
- ATTR 540 - Evidence Based Practice
- ATTR 561 - Clinical Experience I

Spring Semester

- ATTR 522 - Upper Extremity Injuries
- ATTR 523 - Head, Spine & Thorax Injuries
- ATTR 532 - Therapeutic Interventions II
- ATTR 541 - Research I
- ATTR 550 - IP Collaboration
- ATTR 562 - Clinical Experience 2

Fifth Year

Fall Semester

- ATTR 600 - Medical Issues in AT
- ATTR 610 - Administrative Concepts
- ATTR 633 - Therapeutic Interventions III
- ATTR 642 - Research II
- ATTR 663 - Clinical Experience 3

Spring Semester

- ATTR 650 - Contemporary Issues in AT
- ATTR 664 - Clinical Experience 4

Note:

- Students will need to incorporate the 5 flags into their core courses.
Health Services Administration, B.S.

Bachelor of Science in Health Services Administration

The Bachelor of Science in Health Services Administration prepares the student, through academic work and practical internships, for a career in the growing and expanding fields of health services, including job opportunities in hospitals, systems, insurance companies, medical group practices, ambulatory centers, home care, medical devices companies, pharmaceutical companies, local, federal and state agencies, skilled nursing facilities, retirement communities, community agencies, and elder care organizations. The program also prepares students for graduate work in health services, law, medicine, allied health fields, health services research or policy and public health. All Health Services Administration students graduate with a minor in business.

For the Bachelor of Science in Health Services Administration degree, the faculty seeks to enhance students' values orientation and ethics, and to provide them with the liberal arts and technical knowledge, critical thinking and communication skills necessary to prepare graduates to perform proficiently in entry-level positions in health care organizations.

Students will experience:

- An interdisciplinary curriculum based in the liberal arts tradition
- Required field experiences (internships)
- Community service
- Undergraduate research and scholarship

The program's focus is on:

1. Traditional Jesuit liberal arts core with courses in language, theology, philosophy, history, math, sciences, English and communication;
2. Specialized courses in health care management, finance, ethics, economics, and statistics.
3. Field experiences (internships).

During the field internships, students will have the opportunity to:

- Apply knowledge and skills learned in the classroom
- Work with others and develop relationships beyond the classroom
- Discern their individual interests
- Experience growth and development in a practical setting
- Explore options for employment

GPA/Grade Policy

In order to remain in good standing with and graduate as an undergraduate major from the Department of Health Services Administration, student must meet the following criteria.

Overall GPA:

- Students must maintain an overall GPA of 2.0 or above, as per the general university requirements for undergraduate students.

Minor GPA:

- Students must meet criteria for minor courses as designated by the Williams College of Business.

Major and Concentration GPA:

- Students must maintain an overall combined major/concentration GPA of 2.67. This GPA is made up of all courses taken in the major and concentration, and equates to a B- average for all major courses. If the student is to change concentrations, grades from their first concentration still apply to the calculation of this GPA.
Introductory Course Grades:

- Students must achieve a grade of B- or higher in both HESA 101 and HESA 110. Grades lower than B- will result in a student not receiving credit for that course requirement towards their Health Services Administration degree.

Retaking Introductory Courses:

- If a student receives a grade of C+ or below in HESA 101 or HESA 110, they may retake that course two times as per the general university policy.
- The student will be considered on departmental probation until they achieve or surpass the required grade for the designated course.
- The course must be retaken at Xavier.
- Students may retake any and all HESA courses for which they fail to meet department requirements two times.
- If a student fails to meet department grade standards after retaking a course two times, they will be dismissed from the major.
- If being dismissed, students will meet with the BSHSA Program Director and determine into which major or program they would like to be placed.

Falling Below Major/Concentration GPA Standards:

- If a student falls below the major/concentration GPA standard of 2.67, they will have one semester to bring their major/concentration GPA back above the standard.
- The student will be considered on departmental probation until they have brought their major/concentration GPA back to or above the department standard.
- The summer semester is not applied. If a student falls below the major/concentration GPA standard after a spring semester, they will have until the end of the following fall semester to bring their major/concentration GPA back to or above the standard.
- If a student takes a semester off (i.e. they fail below the major/concentration standard after spring semester and take the following fall off), they will have until the end of their next enrolled semester to bring their major/concentration GPA back to or above the department standard.
- If a student fails to bring their major/concentration GPA back to or above the department standard at the end of the designated semester, they will be dismissed from the major.
- If being dismissed, students will meet with the BSHSA Program Director and determine into which major or program they would like to be placed.

HESA 371/372 Internship:

- If a student is on departmental probation, they may not enroll in or complete hours towards either the HESA 371 or HESA 372 internship courses.

Appealing Departmental Probation:

- Students may appeal department probation.
- If a student wishes to appeal, they should start by scheduling a meeting with the Program Director of the Undergraduate Program in Health Services Administration.
- If the Director is the professor for the course they wish to appeal, they should start with scheduling a meeting with the Health Services Administration Department Chair.
- The student should come to the meeting prepared with materials that support their appeal (i.e. tests, papers, etc.).
- The Director or Chair will meet with the student. The Director and Chair will make a decision about each student appeal.
- If a student is not satisfied with the outcome of the appeal process, they can bring the appeal to the Dean of the College of Social Science Health and Education, following their appeal process.

Curriculum

The Bachelor of Science in Health Services Administration degree requires at least 120 semester credit hours with a concentration in health services of 34 hours, plus nine credit hours in a specified concentration (information management or long-term care).

Students must choose two of the following biology courses:

- BIOL 140 - Human A&P I for Allied Health and BIOL 141 - Hum A&P I Lab Allied Health
- BIOL 142 - Hum A&P II for Allied Health and BIOL 143 - Hum A&P II Lab Allied Health
- BIOL 160 - General Biology I and BIOL 161 - General Biology I Lab
- BIOL 102 - Life: Human Biology and one of BIOL 125 or BIOL 127 - Life Lab: Investigation I or II
- BIOL 106 - Life: Biology of Aging and one of BIOL 125 or BIOL 127 - Life Lab Investigation I or II
B.S. in Health Services Administration, Minor in Business, Concentration in Long-Term Care OR Information Management

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

• Historical Perspectives Elective
• Second Language I
• ENGL 101 - English Composition or ENGL 115 - Rhetoric
• THEO 111 - Theological Foundations or First Year Seminar
• HESA 101 - Intro To American Health Care

Total (15)

Second Semester

• Second Language II
• Writing Flag Course
• ECON 200 - Microeconomic Principles
• HESA 110 - Medical Terminology
• THEO 111 - Theological Foundations or First Year Seminar

Total (15)

Sophomore Year

First Semester

• HESA 120 - Health Care Management
• PHIL 100 - Ethics as Intro to Philosophy
• Scientific Perspectives Elective
• Oral Communications Flag Course
• Mathematical Perspectives Elective

Total (15)

Second Semester

• HESA 451 - Aging In Society or HESA 341 - Health Informatics
• ACCT 200 - Introductory Financial Acct
• HESA 210 - HC Marketing & Strategic Mgmt
• General Elective
• Biology Elective

Total (15)

Junior Year

First Semester

• FINC 300 - Business Finance
• INFO 120 - Introduction to Business Tech
• HESA 351 - Electronic Health Records or HESA 455 - Administration of Agencies Serving the Aging
• HESA 370 - Internship Preparation
• MGMT 300 - Managerial Behavior
• PHIL 200 - Philosophical Perspectives

Total (14)

Second Semester

• ENGL 205 - Literature & Moral Imagination
• INFO 220 - Mgmt of Info Tech
• HESA 230 - Health Care Finance
• HESA 361 - Health Data Management or HESA 459 - Administration of Institutions Serving the Aging
• Theological Perspectives Elective
• General Elective

Total (15)

Summer

• HESA 371 - Internship I

Total (3)
Senior Year

First Semester

• HESA 410 - Public Health
• HESA 220 - HC Reimbursement Systems
• MKTG 300 - Principles of Marketing
• Quantitative Flag Course
• Humanities Elective

Total (15)

Second Semester

• HESA 390 - Foundation of HC Law & Ethics
• HESA 380 - Qual Mgmt & Performance Imp
• Business Elective (and DCR)
• Creative Perspectives Elective
• E/RS Focus Elective (or General Elective if E/RS Focus Elective has already been completed)

Total (15)

Scheduling Notes:

• Consult the Undergraduate Core Curriculum requirements of the Catalog.
• E/RS Focus Elective requirement may be used to satisfy another element of the core.
• Diversity Curriculum Electives may be used to satisfy other elements of the core or major. The Business Elective, or History Elective may be used to satisfy the DCR elective.

Human-Centered Making, B.S.

The B.S. in Human-Centered Making is for students whose desire to create spans the range from digital applications to digital and physical fabrication and particularly includes the mixture of physical and digital creation. Most importantly, Human-Centered Making is for students who want to put people at the center of what they create. The program develops student skills in design thinking applied to fabrication, computation and user experience. Human-Centered Making emphasizes the process of creating physical and software artifacts for and with a community by embedding community-engaged learning throughout the curriculum.

The major is embedded in the liberal arts by intentional analysis and reflection in the science, mathematics, philosophy, history, art, and theology courses taken by the students. The combination of community, creation, and critical thinking encourages Ignation values of service, discernment, and reflection.

In an era when mass production and technology threaten to disconnect us from each other and the natural world, the act of creating helps reconnect abstract notions with physical realities, whether those realities are about the sustainability of materials used or the meaning of the data being analyzed to understand a community.
Requirements for the Human-Centered Making Major

Core Curriculum Requirements

See Undergraduate Core Curriculum

Major Requirements

54 Hours, including

Required Human-Centered Making courses (27 Hours)

• MAKE 101 Introduction to Making
• MAKE 102 Making the User Experience
• MAKE 201 Objects of Digital Fabrication
• MAKE 202 Digital Object Modeling II
• MAKE 301 Human-Centered Project Development
• MAKE 302 Advanced Methods for Making
• MAKE 310 Materials and Processes
• MAKE 401 Formal Models and Metrics for Making
• MAKE 402 Thesis Project [Capstone]

Required ARTS courses (9 hours):

• ARTS 101 - Two-Dimensional Design
• ARTS 102 - Drawing I
• ARTS 105 - Three-Dimensional Design

Required MATH courses (6 hours):

• MATH 156 - General Statistics
• MATH 158 - General Statistics II

Major Elective courses (12 hours):

These courses are drawn from any elective course in Human-Centered Making, CSCI 220 Data Structures, MATH 225 , any 300-level elective in computer science, any approved ARTS course, INFO 328 Database Management, INFO 329 Data Mining, INFO 358 Data Modeling and Management, INFO 389 Business Intelligence, or other approved course. Students choose a focus area during their second year that directs their choice of electives and possibly particular core course choices.

Mathematics, B.S.

The Department of Mathematics offers a program intended to develop a student's capacity to undertake intellectually demanding mathematical tasks by emphasizing general mathematical reasoning through mastery of varied subject matter. Upon successful
Mathematicians continue to be in demand to fill both traditional and developing roles in society. Opportunities abound for researchers in all areas of mathematics. Engineering, computer science, and the physical sciences require individuals with mathematical training. The applications of statistics are increasingly widespread. Those in the economics as well as other social and health sciences, in the business community, and in the field of law are aware of the value of mathematics, not only as a tool for problem solving, but also for developing critical and analytical skills.

Requirements for the Mathematics Major

Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including:

Sciences:

To fulfill the Scientific Perspectives and Natural Sciences Elective requirements, select one of the following three combinations of lecture and lab courses:

- BIOL 160 - General Biology I with
  - BIOL 161 - General Biology I Lab

  and

- BIOL 162 - General Biology II with
  - BIOL 163 - General Biology II Lab

  or

- CHEM 160 - General Chemistry I with
  - CHEM 161 - General Chemistry I Lab

  and

- CHEM 162 - General Chemistry II with
  - CHEM 163 - General Chemistry II Lab

  or
• PHYS 170 - University Physics I with
• PHYS 161 - Introductory Physics Lab I

and

• PHYS 172 - University Physics II with
• PHYS 163 - Introductory Physics Lab II

Mathematics:

• Requirement included within the major.

Major Requirements:

45 credit hours, as follows

24 hours from:

• MATH 170 - Calculus I
• MATH 171 - Calculus II
• MATH 220 - Calculus III
• MATH 225 - Foundations Of Higher Math
• MATH 240 - Linear Algebra
• MATH 340 - Abstract Algebra I
• MATH 370 - Real Analysis

3 hours of seminar from:

• MATH 391 - Mathematics Seminar I
• MATH 392 - Mathematics Seminar 2
• MATH 393 - Mathematics Seminar 3

3 hours of computer sciences from:

• CSCI 170 - Computer Science I
9 hours of core electives from:

- MATH 230 - Intro to Ordinary Diff Equat
- MATH 256 - Intro to Probability & Stats
- MATH 280 - Combinatorics
- MATH 301 - Geometry
- MATH 302 - Number Theory
- MATH 311 - Probability Theory
- MATH 325 - Mathematical Modeling
- MATH 330 - Graph Theory
- MATH 341 - Abstract Algebra II
- MATH 360 - Elementary Topology
  - MATH 371 - Real Analysis II
- MATH 380 - Intro to Complex Variables

6 hours of additional electives from:

- MATH 230-397, CSCI 250 (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative average must be attained in these mathematics and computer science courses.
- Students are required to complete the MFT (Major Field Test) in Mathematics.
- Senior project requires a substantial paper on research under the guidance of a member of the principal faculty and an oral presentation to the department.
- The mathematics electives should be chosen under the guidance of the student's advisor. Any student wishing to major in mathematics should consult the chair of the department before registration.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Mathematics

This block schedule serves as a guideline for progress toward a degree. See your academic advisor.

Mathematics, B.S. with a Concentration in Economics

This interdisciplinary program provides students with the benefits of a degree in Mathematics enhanced by a strong Economics background. Combined skills in Mathematics and Economics are increasingly valuable in industry and government. This program expands opportunities for post-graduation employment as well as prepares students for graduate study in Economics and related fields.

Requirements for the Mathematics major with concentration in Economics

Core Curriculum Requirements:

Undergraduate Core Curriculum

Mathematics Major Requirements:

30 credit hours

- CSCI 170 - Computer Science I
- MATH 170 - Calculus I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 225 - Foundations Of Higher Math
- MATH 240 - Linear Algebra
- MATH 340 - Abstract Algebra I
- MATH 370 - Real Analysis
- MATH 391 - Mathematics Seminar I
- MATH 392 - Mathematics Seminar 2
- MATH 393 - Mathematics Seminar 3
Mathematics Elective Requirements

***The MATH Elective courses should be chosen under the guidance of the student's advisor

9 credit hours selected from the following:

- MATH 230 - Intro to Ordinary Diff Equat
- MATH 256 - Intro to Probability & Stats
- MATH 280 - Combinatorics
- MATH 301 - Geometry
- MATH 302 - Number Theory
- MATH 311 - Probability Theory
- MATH 325 - Mathematical Modeling
- MATH 330 - Graph Theory
- MATH 341 - Abstract Algebra II
- MATH 360 - Elementary Topology
  - MATH 371 - Real Analysis II
- MATH 380 - Intro to Complex Variables

Economics Concentration Requirements:

24 credit hours, as follows:

- STAT 210 - Statistics For Business I
- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
- ECON 305 - Microeconomic Analysis
- ECON 306 - Macroeconomic Analysis
- ECON 307 - Empirical Analysis In Economic
- ECON 350 - Business Cycles & Forecasting OR
- ECON 495 - Markets, Strategy & Rivalry
  - ECON additional elective (MUST be numbered above ECON 307) (3 credit hours)

NOTES:

- A 2.000 cumulative average must be attained in the student's mathematics, economics, and computer science courses.
- Students are required to complete the MFT (Major Field Test) in Mathematics.
- At the completion of MATH 393, students complete a Senior Project presented in a public colloquium. This project should demonstrate evidence of the student's Economic concentration.
- Any student wishing to major in Mathematics with Concentration in Economics should consult the chair of the Department of Mathematics before registration.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Mathematics with Concentration in Economics

This block schedule serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- MATH 170 - Calculus I
- CSCI 170 - Computer Science I
- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- Second Language I
- CORE 100 - First Year Seminar
- CORE 101 - First Year Co-Curricular Program I (GOA)

Total (16)

Second Semester

- MATH 171 - Calculus II
- MATH 225 - Foundations Of Higher Math
- PHIL 100 - Ethics as Intro to Philosophy
- STAT 210 - Statistics For Business I
- Second Language II
- CORE 102 - First Year Co-Curricular Program II (GOA)

Total (16)

Sophomore Year

First Semester

- MATH 220 - Calculus III
- ECON 200 - Microeconomic Principles
- Historical Perspectives
- Literature & Moral Imagination
- PHIL 200 - Philosophical Perspectives
- Writing Flag
- THEO 111 - Theological Foundations

Total (16)
Second Semester

- MATH 240 - Linear Algebra
- ECON 201 - Macroeconomic Principles
- Literature & Moral Imagination
- Creative Perspectives
- Theological Perspectives

Total (15)

Junior Year

First Semester

- MATH 340 - Abstract Algebra I
- ECON 305 - Microeconomic Analysis
- MATH Elective
- Scientific Perspectives, Lecture & Lab (4)
- Quantitative Reasoning Flag

Total (16)

Second Semester

- MATH 370 - Real Analysis
- MATH 391 - Mathematics Seminar I
- ECON 306 - Macroeconomic Analysis
- ECON 307 - Empirical Analysis In Economic
- MATH Elective
- Natural Sciences Elective, Lecture & Lab (4)

Total (17)

Senior Year

First Semester

- MATH 392 - Mathematics Seminar 2
- ECON 350 - Business Cycles & Forecasting or ECON 495 - Markets, Strategy & Rivalry
- ECON Elective
- E/RS Elective
- Oral Communication Flag
- Elective

Total (16)
Second Semester

- MATH 393 - Mathematics Seminar 3
- Humanities Elective
- DCR Elective
- MATH Elective
- Elective

Total (14)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum " requirements of the Catalog.

Middle Childhood Education (Grades 4 - 9), B.S.

Middle Childhood Education will prepare a candidate for an Ohio teaching license to work with children ages 9 through 14, or grades 4 through 9, for teaching in two fields of concentration. The teacher candidate will choose two fields from the areas of Social Studies, Mathematics, Science, and Reading/Language Arts.

Students choosing Middle Childhood will be required to take 21-24 hours in each of the two content areas that they choose for licensure. All students will have at least 12 hours in reading instruction. Students will experience interdisciplinary learning, a hallmark of middle childhood education, as part of their learning experience at Xavier. The middle school teaching concept is unique, and our students will be prepared for curriculum, pedagogy, philosophy and organization of the middle school. Field experience and internship/student teaching will occur in both subject areas and at two age levels.

Requirements for the Middle Childhood Education Major

Undergraduate core curriculum requirements:

39 - 48 hours, including

- Social Sciences requirement is included in the major requirements.
- Humanities elective area fulfilled in major with EDCH 326.
- E/RS Focus Elective that meets another core requirement should be chosen.
- A 2.5 cumulative overall GPA is required for admission to program and must be maintained for the Bachelor of Science degree. A 3.0 GPA must be maintained in the major.

Major requirements:

60 hours of education courses:
• EDFD 110 - Human Development & Learning
• EDEL 100 - Introduction To Education
• EDEL 251 - Instructional Technology
• EDEL 260 - Cultural Diversity In Educ
• EDSP 200 - Sp Ed: Identification& Issues
• EDMC 212 - Nature & Needs of Adolescents
• EDMC 325 - Arts in Ed: Middle Childhood
• EDMC 340 - Middle School Phil& School Or
• EDMC 345 - Middle Child Class Mgmt Assess
  ◦ Two courses from EDMC 351-354
• EDMC 455 - Student Teaching: Middle Sch
• EDMC 456 - Sem: Current Issues in EDMC
• EDRE 269 - Phonics & Foundation of Litera
• EDRE 314 - Reading Methods for Middle Chd
• EDRE 472 - Theories of Reading
• EDRE 478 - Diagnosis/Correct of Read Disa
• EDCH 326 - Children's Lit for Middle Chil

Note(s):

• See "Steps for Admission and Continual Progress for Licensure in Middle Childhood." Also see "Student Handbook for Early & Middle Child."
• A 3.0 GPA must be maintained in the major.
• Students must have "B" or higher in courses prefixed with EDEC, EDRE, or EDMC or retake in subsequent semesters.
• Students may elect two concentration areas: Math, Science, Social Studies, and/or Language Arts/Reading.

B.S. Middle Childhood Education

**This block serves as a guideline only, not a required sequence. Specific core and concentration courses are indicated below as a sample due to the nature of the middle childhood program. Concentration sets (i.e., math and science, language arts and social studies, etc.) will differ among students and therefore courses will vary. Students may elect their own two areas of concentration. See your academic advisor. Subject to Change.**

Math and Science Concentrations

Freshman Year

First Semester

• CORE 101 (GOA)
• EDFD 110 - Human Development & Learning
• BIOL 130 - Intro to Life Sciences
• BIOL 131 - Intro to Life Sciences Lab
• MATH 120 - Elementary Functions
• Second Language I
• THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
• ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (15)

Second Semester

• EDEL 100 - Introduction To Education
• Second Language II
• CORE 102 GOA
• EDFD 110 - Human Development & Learning
• MATH 150 - Elements of Calculus I
• PHYS 114 - Our Universe: Physical Science
• PHYS 115 - Our Universe: Physical Sci Lab
• THEO 111 - Theological Foundations or CORE 100 - First Year Seminar

Total (18)

Sophomore Year

First Semester

• EDMC 212 - Nature & Needs of Adolescents
• MATH 211 - Foundations of Arith. - MCED
• EDEL 251 - Instructional Technology
• EDCH 326 - Children's Lit for Middle Chil
• PHIL 100 - Ethics as Intro to Philosophy
• CHEM 102 - Chemistry: Environ & Energy
• CHEM 103 - Chemistry: Environ & Ener Lab

Total (18)

Second Semester

• MATH 212 - Geom & Measurement MCED
• EDSP 200 - Sp Ed: Identification & Issues
• CHEM 104 - Chemistry: Life and Health
• CHEM 105 - Chem: Life and Health Lab
• EDRE 269 - Phonics & Foundation of Literature
• Historical Perspectives Elective
• EDEL 260 - Cultural Diversity In Education

Total (18)

Junior Year
First Semester

- EDMC 340 - Middle School Phil & School Or
- Philosophical Perspectives Elective
- MATH 116 - Elementary Statistics
- MATH 213 - Algebra Concepts -MCED
- EDRE 314 - Reading Methods for Middle Chd
- EDMC 345 - Middle Child Class Mgmt Assess

Total (18)

Second Semester

- BIOL 120 - Life: Ecology & People
- BIOL 127 - Life Lab: Investigation II
- ENGL 205 - Literature & Moral Imagination
- MATH 214 - Math Problem Solving -MCED
- EDMC 325 - Arts in Ed: Middle Childhood

And choose two of the following:

- EDMC 351 - Middle Childhood Lang Art Meth
- EDMC 352 - Middle Childhood Math Methods
- EDMC 353 - Middle Childhood Science Meth
- EDMC 354 - Middle Childhood Soc Stud Meth

Total (18)

Senior Year

First Semester

- EDMC 455 - Student Teaching: Middle Sch
- EDMC 456 - Sem: Current Issues in EDMC
- EDRE 471 - Content Area Literacy

Total (15)

Second Semester

- Creative Perspectives Elective
- Science Elective
- Theological Perspective and ER/S Elective (cross count - see advisor)
- EDRE 478 - Diagnosis/Correct of Read Disa
- EDEL 351 - Instruct Strat for Engl Lang L
- PHYS 116 - Our Universe: The Earth
- PHYS 117 - Our Universe: The Earth Lab

Total (18)
Scheduling Notes:

- Course sequence is realistic only for the student who declares the Middle Childhood major as a freshman.
- Consult the Undergraduate Core Curriculum requirements of the catalog.
- A minimum of 120 credit hours is required for the degree.
- The sequence of courses in the program is subject to change.
- Advanced placement credit and summer course work may be applied to core or concentration requirements.
- Off Campus courses are approved by the college dean. See advisor for procedure.
- All students must elect one each of oral communications, quantitative reasoning and writing intensive flagged courses; many of these are available within the core or major.

Language Arts and Social Studies Concentrations

Freshman Year

First Semester

- CORE 101 GOA
- EDFD 110 - Human Development & Learning
- BIOL 130 - Intro to Life Sciences
- BIOL 131 - Intro to Life Sciences Lab
- PHIL 100 - Ethics as Intro to Philosophy
- Second Language I
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (18)

Second Semester

- CORE 102 - GOA
- EDEL 100 - Introduction To Education
- EDEL 260 - Cultural Diversity In Educ
- COMM 207 - Interpersonal Communication
- PHYS 114 - Our Universe: Physical Science
- PHYS 115 - Our Universe: Physical Sci Lab
- Second Language II
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar

Total (18)

Sophomore Year

First Semester

- EDMC 212 - Nature & Needs of Adolescents
- EDEL 251 - Instructional Technology
• EDCH 326 - Children's Lit for Middle Chil
• HIST 105 - World Civilizations I
• EDSP 200 - Sp Ed: Identification & Issues
• Math I

Total (18)

Second Semester

• HIST 106 - World Civilizations II
• EDRE 269 - Phonics & Foundation of Literature
• ECON 200 - Microeconomic Principles
• Writing Elective
• Math II
• PHIL 200 - Philosophical Perspectives

Total (18)

Junior Year

First Semester

• EDMC 340 - Middle School Phil & School Or
• HIST 143 - U.S. History I
• EDRE 314 - Reading Methods for Middle Chd
• EDMC 345 - Middle Child Class Mgmt Assess
• POLI 140 - American Government and Politi
• Theological Perspectives Elective

Total (18)

Second Semester

• ENGL 205 - Literature & Moral Imagination
• HIST 144 - U.S. History II
• SOCI 180 - Culture & Society
• EDMC 325 - Arts in Ed: Middle Childhood

And choose 2 of the following:

• EDMC 351 - Middle Childhood Lang Art Meth
• EDMC 352 - Middle Childhood Math Methods
• EDMC 353 - Middle Childhood Science Meth
• EDMC 354 - Middle Childhood Soc Stud Meth

Total (18)
Senior Year

First Semester

- EDMC 455 - Student Teaching: Middle Sch
- EDMC 456 - Sem: Current Issues in EDMC
- EDRE 471 - Content Area Literacy

Total (15)

Second Semester

- THTR 120 - Acting I
- EDRE 478 - Diagnosis/Correct of Read Disa
- EDEL 351 - Instruct Strat for Engl Lang
- EDMS 207 - World & Cultural Geography
- Literature Elective
- ENGL 320 - Topics in Linguistics or ENGL 321 - Hist of the English Language

Total (18)

Scheduling Notes:

- Course sequence is realistic only for the student who declares the Middle Childhood major as a freshman.
- Consult the Undergraduate Core Curriculum requirements of the catalog.
- A minimum of 120 credit hours is required for the degree.
- The sequence of courses in the program is subject to change.
- Advanced placement credit and summer course work may be applied to core or concentration requirements.
- Off Campus courses are approved by the college dean. See advisor for procedure.
- All students must elect one each of oral communications, quantitative reasoning and writing intensive flagged courses; many of these are available within the core or major.
- ER/S Focus elective should fulfill another core requirement.

Middle Childhood Generalist (4-6)

The Middle Childhood Generalist (MCG) Endorsement allows the teaching candidate with two licensure areas to add either one or two more content areas specifically for teaching in a self-contained 4th, 5th, or 6th grade classroom. This endorsement is not valid for holders of any license other than Ohio Middle Childhood Education. Updates and/or changes to licensure are dictated by the State of Ohio and may supersede the requirements listed for licensure in the catalog.

To have the MCG endorsement added to the MCE license:

1. The candidate must have previously completed a MC Education program in two content areas and hold a valid MCE license (we will assume that our initial licensure candidate will apply for the endorsement along with, or soon after application for the initial license in two areas); and
2. In addition to successfully completing the MCG Endorsement course work in either one or two additional areas, the candidate must also successfully complete the required test(s).

Either the candidate must pass:
• A.) OAE Education (Subtest I)/018 and OAE Elementary Education (Subtest II)/019

OR

• B.) Content area test for each content area added to MCE license:
  ◦ OAE MS English/Language Arts (028)
  ◦ OAE MS Mathematics (030)
  ◦ OAE MS Social Studies (031)
  ◦ OAE MS Science (029)

The candidate must complete the following courses in the chosen content area.

Language Arts

• ENGL 304 - Teaching & Research in Writing
• EDCH 326 - Children's Lit for Middle Chil

Mathematics

• MATH 213 - Algebra Concepts -MCED
• MATH 214 - Math Problem Solving -MCED

Science

• BIOL 130 - Intro to Life Sciences
• BIOL 131 - Intro to Life Sciences Lab
• PHYS 114 - Our Universe: Physical Science
• PHYS 115 - Our Universe: Physical Sci Lab

Social Studies

• EDMS 207 - World & Cultural Geography
• POLI 140 - American Government and Politi
Montessori Education (Early Childhood Program) for Ohio Four Year Resident Educator License (PreK-3) and American Montessori Society Credential Early Childhood Ages 2 1/2 To 6, B.S.

Undergraduate Programs in Montessori Education

The philosophy of education taught in the Montessori program was researched by Dr. Maria Montessori, one of the first Italian women to graduate from medical school in Rome in 1896. Dr. Montessori's philosophy supports the fundamental tenet that a child learns best within a social environment which supports each individual's unique development. Multi-age grouping in each class promotes peer group learning. The children work in a prepared learning environment that is child-centered and beautifully arranged with learning materials to aid the child in their exploration of new ideas. The Montessori teacher learns to be a scientific observer and facilitator, providing an environment for children that is developmentally appropriate to help the child grow in all areas: social, cognitive, emotional, and physical.

An undergraduate degree will prepare you to practice your profession in the following ways:

1. Public schools - Graduates are prepared to teach in Montessori public schools and traditional public schools pre-Kindergarten up to third grade.
2. Private schools - Graduates teach in private Montessori schools (ages 2.5 - 6) nationally and internationally as well as in traditional programs up to third grade.
3. Hospitals - Graduates are hired for special children's programs.
4. Child care centers - Graduates are hired as administrators of child care centers.
5. Non-profit organizations - Graduates work in the areas of child and family advocacy.

The Xavier University Montessori Teacher Education Program is accredited by the MACTE Commission and grants an American Montessori Society Credential for Early Childhood and Elementary I students who complete all requirements also receive an Ohio Four Year Resident Educator License PreK-3.

Bachelor of Science Degree in Montessori Education

Early Childhood Education
Ohio Four Year Resident Educator License for PreK-3
American Montessori Society Credential for Ages 2 1/2 to 6 Years

Requirements for the Early Childhood / Montessori Education Major

Undergraduate core curriculum, requirements:

48 Undergraduate Core Curriculum credit hours, include:

- Diversity Curriculum requirement: partially fulfilled in the major with EDEL 260 Cultural Diversity In Educ.
- English Composition/Rhetoric grade must be a "B" or above.
- Mathematics grade must be a "C" or above.
- Literature: fulfilled in the major with EDCH 324 Children's Lit for Early Child.
- CORE 100 - First Year Seminar
- CORE 101 - First Year Co-curricular program
• CORE 499
• Science: must be met with physical (CHEM or PHYS 114 and PHYS 115) and biological (BIOL 130 and BIOL 131) sciences.
• Social Sciences: included in the major requirements.
• The ER/S Focus Elective that meets another core requirement should be chosen.

Major requirements:

66 credit hours, as follows:

39 hours of education courses from:

• EDFD 110 - Human Development & Learning
• EDEL 100 - Introduction To Education
• EDEL 251 - Instructional Technology
• EDEL 260 - Cultural Diversity In Educ
• EDEC 210 - Early Childhood Development
• EDEC 230 - Play in Early Childhood Educ
• EDME 350 - Methods of Observation of Child
• EDME 351 - Montessori Ed: Phil Approach
• EDME 354 - Mont Language Arts& Read Meth
• EDME 359 - Community & Advocacy in Educ
• EDME 376 - Phonics Skills for Early Chldh
• EDRE 312 - Reading Methods for Early Chld
• EDSP 205 - Foundations in ECSPED

3 hours of literature from:

• EDCH 324 - Children's Lit for Early Child

24 hours of Ohio License requirements, as follows:

Early Childhood Credential (ages 2 1/2 to 6)

• EDME 364 - Early Childhood/Mont Meth
• EDME 366 - Mont Curr Des&Te Strat I:Ea Ch
• EDME 367 - Mont Curr Des&Te Strat II:Ea C
• EDME 377 - Early Childhood Math& Science
• EDME 473 - Mont Early Childhood Pract I
• EDME 474 - Mont Early Chilhood Pract II
Additional Requirements:

- A Montessori professional statement must be in the file by the end of freshman year.
- Three letters of recommendation must be on file by the start of the sophomore year.
- A moral character form must be on file by the start of the sophomore year.
- Application for student teaching must be turned in by spring of junior year.
- Application and fees for American Montessori Society Credentialing, MACTE and NAEYC must be turned in the summer before senior year.
- State licensing exams must be taken prior to the start of internship.

Note(s):

- A 2.700 grade point average must be achieved in all the education courses for the major.
- All Montessori education courses must have a grade of "B" or above.

B.S. Montessori Education (Early Childhood program) with Ohio Four year resident educator License (PreK-3) and American Montessori Society Credential Early Childhood Ages 2 1/2 to 6

First Semester

- E/RS Focus Elective (see advisor)
- EDME 352 - Mont Curr Des & Tch Strat I:Pr
- EDME 470 - Mont Primary Practicum I

Total (12)

Second Semester

- EDME 356 - Mont Integration of Curr: Prim
- EDME 471 - Mont Primary Practicum II
- Elective
- Core 499 (no credit) - Reflection on XU Core

Total (12)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
- A minimum of 130 credit hours is typically required for the degree, with 120 hours as absolute minimum.
- An overall cumulative GPA of 2.500 is required for graduation.
- The Diversity Curriculum requirement may be used to satisfy other elements of the core or major.
Adding Elementary II Ages 9-12 to an Elementary I Credential

Students may add A.M.S. Elementary II by completing the coursework listed below. Students may add an Ohio Generalist endorsement for grades 4-5 by completing the Elementary II coursework, additional licensing exam, and online Middle Childhood development course.

Montessori credentialing at the Elementary II level may be added along with the Generalist Endorsement 4-5 (See Program Advisor).

- EDME 370 - Mont 9-12 Math Curr
- EDME 371 - Mont 9-12 Geometry Curr
- EDME 372 - Mont 9-12 Geographyand Hist Curr
- EDME 373 - Mont 9-12 Botany and Zoology Curr
- EDME 374 - Mont 9-12 Physical Science Cur
- EDME 375 - Mont 9-12 Lang and Children's Li

No Additional Internship is Required

Generalist Endorsement Requirements:

- Current P-3 Ohio Resident Educator License
- One credit hour online course: Middle Childhood Transitions, Development, and Management
- Passing score on the Ohio Assessments for Educators Elementary Education/018 (Subtest I) and Ohio Assessments for Educators Elementary Education/019 (Subtest II)

Montessori Education (Early Childhood) for Ohio 4 yr Resident Educator License (preK-3), American Montessori Society Credential

Early Childhood Ages 2 1/2 To 6; Special Education, Early Childhood Intervention Specialist license (Double Major), B.S

Double Major of Montessori Education and Special Education.

Students who successfully complete the dual major program will receive a BS with majors in Special Education and Montessori Education. They will receive an American Montessori Society Early Childhood credential, an OH p-3 license, and an OH ECIS-Early Childhood Intervention Specialist license.

See Special Education with a Concentration in Early Childhood Intervention Specialist and Montessori Education with American Montessori Society Early Childhood Credential (Double Major), B.S.

Music Education, B.S.

Requirements for the Music Education Major (Pre-K to 12)
Core Curriculum Requirements:

39 credit hours in addition to the requirements for the major (see Undergraduate Core Curriculum in the Catalog).

Major Requirements:

95 credit hours, as follows

53 hours in music courses from:

- MUSC 199 - Recital Attendance (7 Semesters)
- MUSC 200 - Music Theory I
- MUSC 201 - Aural Skills I
- MUSC 202 - Music Theory II
- MUSC 203 - Aural Skills II
  - MUSC 208 - Keyboard Skills I
  - MUSC 209 - Keyboard Skills II
- MUSC 210 - Music History I
- MUSC 211 - Music History II
- MUSC 221 - Elementary Methods
- MUSC 300 - Music Theory III
- MUSC 301 - Aural Skills III
- MUSC 302 - Music Theory IV
- MUSC 303 - Aural Skills IV
- MUSC 304 - Producing Electronic Music I
  - MUSC 308 - Keyboard Skills III
  - MUSC 309 - Keyboard Skills IV
  - MUSC 313 - Conducting II
- MUSC 312 - Conducting I
- MUSC 320 - Instrumental Methods
- MUSC 321 - Choral Methods
- MUSC 351 - String Techniques
- MUSC 352 - Woodwind Techniques
- MUSC 353 - Brass Techniques
- MUSC 354 - Percussion Techniques
- MUSC 401 - Orchestration Arranging

1 hour from:

- MUSC 151 - Class Voice or
- MUSC 152 - Class Guitar or
- MUSC 268 - Guitar Ensemble

7 hours of Private Lessons from:

- MUSC 278-299 (Refer to Course Descriptions.)
7 hours of participation in a large ensemble from:

- MUSC 260 - Concert Choir
- MUSC 265 - Symphonic Wind Ensemble
- MUSC 270 - Chamber Orchestra

1 hour of participation in a small ensemble from:

- MUSC 263 - Edgecliff Vocal Ensemble
- MUSC 267 - Percussion Ensemble
- MUSC 266 - Chamber Winds
- MUSC 269 - String Quartet
- MUSC 271 - Jazz Orchestra
- MUSC 340 - Opera Workshop

19 hours of education courses required from:

- EDFD 110 - Human Development & Learning
- EDMS 131 - Professional Education
- EDSP 200 - Sp Ed: Identification & Issues
- EDMS 350 - Technology & Topics for Educat
- EDSP 380 - Classroom Management
- EDMS 411 - Clinical Experiences
- EDRE 471 - Content Area Literacy

9 hours of student teaching and seminar for certification from:

- EDMS 471 - Student Teaching: Multi-Age

Additional Requirements:

- Pass applied music examination at the end of each semester of private lessons.
- Present a recital or write a thesis in major area of concentration during the senior year.
- Recital attendance (minimum of 49 recitals, 7 each semester of MUSC 199).

Note(s):

- A 2.000 cumulative average must be attained in the music and education courses.
- Students are admitted to the degree programs based upon their musicality and musical literacy rather than on performance accomplishments. Musical background and proficiency in an applied instrument/voice will determine placement within the department.
• For a copy of Policies and Guidelines, contact the Department of Music.

TOTAL Minimum Hours Required for Degree: 134 Credit Hours

B.S. Music Education

This schedule serves as a guideline for progress toward a degree. See your academic advisor.

The downloadable engagement plan for this degree includes the schedule below in tabular form.

Freshman Year

First Semester

• MUSC 199 - Recital Attendance
• MUSC 200 - Music Theory I
• MUSC 201 - Aural Skills I
• EDMS 131 - Professional Education
• Private Lesson
• Large Ensemble
• CORE 100 - First-Year Seminar
• MUSC 208 - Keyboard Skills I
• ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (16)

Second Semester

• MUSC 199 - Recital Attendance
• MUSC 202 - Music Theory II
• MUSC 203 - Aural Skills II
• THEO 111 - Theological Foundations
• EDFD 110 - Human Development & Learning
• Private Lesson
• Large Ensemble
• MUSC 209 - Keyboard Skills II
• PHIL 100 - Ethics as Intro to Philosophy

Total (16)
Sophomore Year

First Semester

- MUSC 199 - Recital Attendance
- MUSC 210 - Music History I
- MUSC 300 - Music Theory III
- MUSC 301 - Aural Skills III
- EDSP 200 - Sp Ed: Identification & Issues
- MUSC 308 - Keyboard Skills III
- MUSC 312 - Conducting I
- Private Lesson
- Large Ensemble
- Small Ensemble
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (17)

Second Semester

- MUSC 199 - Recital Attendance
- MUSC 151 - Class Voice or MUSC 152 - Class Guitar or MUSC 268 - Guitar Ensemble
- MUSC 211 - Music History II
- MUSC 302 - Music Theory IV
- MUSC 303 - Aural Skills IV
- MUSC 309 - Keyboard Skills IV
- MUSC 313 - Conducting II
- MUSC 351 - String Techniques
- PHIL 100 - Ethics as Intro to Philosophy
- Private Lesson
- Large Ensemble

Total (18)

Junior Year

First Semester

- MUSC 199 - Recital Attendance
- MUSC 353 - Brass Techniques
- MUSC 320 - Instrumental Methods
- EDSP 380 - Classroom Management
- Foreign Language Elective I
- Historical Perspectives
• ENGL/CLAS/SPAN 205 - Literature & The Moral Imagination
• Private Lesson
• Large Ensemble

Total (18)

Second Semester

• MUSC 199 - Recital Attendance
• MUSC 221 - Elementary Methods
• MUSC 304 - Producing Electronic Music I
• Foreign Language Elective II
• Scientific Perspectives
• MUSC 352 - Woodwind Techniques
• EDMS 350 - Technology & Topics for Educat

Total (18)

Senior Year

First Semester

• MUSC 199 - Recital Attendance
• MUSC 401 - Orchestration Arranging
• MUSC 354 - Percussion Techniques
• EDMS 411 - Clinical Experiences
• MUSC 321 - Choral Methods
• Private Lesson
• Large Ensemble
• MUSC 450 - Senior Recital
• Theological Perspectives
• Natural Science Elective
• Philosophical Perspectives

Total (19)

Second Semester

• EDMS 471 - Student Teaching: Multi-Age
• EDRE 471 - Content Area Literacy

Total (12)
Scheduling Notes:

- EDMS 471, Student Teaching and Seminar (9 credit hours) is required for state licensure.
- The number of required courses will increase if the 5 "flag" requirements (ERS, Diversity, Writing, Oral, and Quantitative) are not fulfilled by courses in the core or major.

Natural Sciences, B.S.

This major is no longer admitting students as of Fall 2017. Students should consult the renamed and revised major Biomedical Sciences, B.S.

(Preparation for health professions, like medicine and dentistry)

The natural sciences curriculum presents a liberal arts program with emphasis on those sciences required for an excellent background for subsequent studies in medicine, dentistry, and similar health professions. Recurrent pronouncements by Committees on Admissions at professional schools leave no doubt that they regard an education in the liberal arts as one of the most important factors in forming a genuinely capable and effective health professional, but majoring in natural sciences is not a requirement for admission to a health profession. (See Certificate in Pre-Medical Studies.) The student should consult a current listing of professional school admission requirements* so that the selected course of study will assure the student of a degree and include all the minimum requirements for admission to those schools of medicine or dentistry to which he/she intends to apply.

* "Medical School Admission Requirements," published by the Association of American Medical Colleges, or "Admission Requirements of U.S. and Canadian Dental Schools," published by the American Association of Dental Schools.

Requirements for the Natural Sciences Major

Core Curriculum Requirements:

48 - 63 credit hours dependent on courses taken, including

Mathematics:

- MATH 140/150 Elements of Calculus I and MATH 156 - General Statistics
- or
- MATH 170/171 - Calculus I and MATH 156 - General Statistics
Social sciences:

- PSYC 101 - General Psychology

Science:

- Requirement included within the major.

Major Requirements:

58 credit hours, as follows

50 hours in specific science courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 230 - Genetics
- BIOL 231 - Genetics Laboratory
- BIOL 354 - Human and Comparative Anat
- BIOL 355 - Human and Comp Anat Lab
- BIOL 410 - Human Physiology
- BIOL 411 - Human Physiology Lab
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 220 - Principles of Physical Chem
- CHEM 221 - Analytical Chemistry
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II

8 additional hours in biology or 8 hours in chemistry:

- To include two hours of research along with the additional hours in BIOL or CHEM electives. (See academic advisor for specific course selection.)
Note(s):

- A 2.000 cumulative average must be attained in all biology, chemistry and physics courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Natural Sciences

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CORE 101 GOA
- CORE 100 - First Year Seminar or THEO 111 - Theological Foundations
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (14)

Second Semester

- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CORE 100 - First Year Seminar or THEO 111 - Theological Foundations
- CORE 102 - GOA
- PHIL 100 - Ethics as Intro to Philosophy

Total (14)
Sophomore Year

First Semester

- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- MATH 140/150
- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- Second Language I

Total (14)

Second Semester

- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
- Second Language II
- Social Science Elective (SOCI 101 Med School)
- BIOL Elective

Total (14)

Junior Year

First Semester

- BIOL 410 - Human Physiology
- BIOL 411 - Human Physiology Lab
- BIOL 440 - Biochemistry or CHEM 440 - Biochemistry
- MATH 156 - General Statistics or MATH 171 - Calculus II
- PSYC 101 - General Psychology
- PHIL 200 - Philosophical Perspectives Elective

Total (17)
Second Semester

- BIOL 230 - Genetics
- BIOL 231 - Genetics Laboratory
- BIOL 354 - Human and Comparative Anat
- BIOL 355 - Human and Comp Anat Lab
- Diversity Curriculum Elective (3) **
- ENGL 205 - Literature & Moral Imagination or CLAS 205 - Classical Lit & Moral Imagina or SPAN 205 - Hispanic Lit & Moral Imagin

Total (15)

Senior Year

First Semester

- BIOL 497 - Experimental Biology Lab or BIOL 498 - Methods of Biol Research I or CHEM 400 - Research/Seminar***
- BIOL Elective (4)
- CHEM 220 - Principles of Physical Chem
- CHEM 221 - Analytical Chemistry
- Creative Perspectives Elective
- Theological Perspectives Elective

Total (14-15)

Second Semester

- BIOL 496 - Senior Capstone Seminar or BIOL 499 - Methods of Biol Research II or CHEM 400 - Research/Seminar***
- Biology or Chemistry Elective
- E/RS Focus Elective **
- General Elective
- Humanities Elective
- Historical Perspectives Elective

Total (16-17)

Note(s):

- * For medical school/MCAT requirements, take PHYS 160 - 163 in the sophomore year and Biology electives in the junior year, including BIOL 440 in the fall of the junior year, BIOL 354/355 in the spring of junior year. PSYC 101 and SOCI 101 must be taken before the MCAT.
- ** DCR & E/RS may double count with other core courses. Use "Attribute Type" when searching for courses.
- *** Students select a concentration of elective courses plus research in either biology or chemistry. Elective courses vary from year to year, so contact your academic advisor for current selections. Students concentrating in chemistry should add Chemical Literature (CHEM 300), one hour, to junior year schedule. A minimum of 120 credit hours is required for the degree.
All students must elect one each of oral communications, quantitative reasoning and writing-intensive flagged courses; many of these are available within the core or major.

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.

Physics, B.S.

The program in physics is designed to familiarize students with the techniques of mathematical and experimental physics that would be useful to them in an industrial research or engineering position; in physics teaching; as a general preparation for more advanced graduate work in any of the varied fields of physics; or in such disciplines as astronomy, space science, biophysics, computer science, engineering, geophysics, medicine, law, and oceanography.

Requirements for the Physics Major

Core Curriculum Requirements:

The general core curriculum requirements are 48-63 Credit Hours dependent on courses taken.

However, Natural Science Elective, Scientific Perspectives, Mathematical Perspectives, Oral Communication Flag, and Quantitative Reasoning Flag are satisfied by major courses, thereby leaving 39 - 48 Credit Hours outside of the major.

Mathematical Perspectives:

- MATH 170 - Calculus I

Scientific Perspectives, Natural Science Elective, Quantitative Reasoning and Oral Communication:

- Included within the major.

Major Requirements:

68 - 69 credit hours in physics, as follows
44 hours of physics courses:

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II
- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- PHYS 340 - Modern Physics II
- PHYS 341 - Modern Physics II Lab
- PHYS 350 - Theoretical Mechanics I
- PHYS 355 - Advanced Physics Lab
- PHYS 360 - Electromagnetism I
- PHYS 364 - Physical Optics
- PHYS 365 - Physical Optics Lab
- PHYS 376 - Quantum Mechanics I
- PHYS 377 - Quantum Mechanics II
- PHYS 382 - Thermodynamics
- PHYS 395 - Physics Research
- PHYS 398 - Physics Thesis

3 hours of physics electives (capstone course), from:

- PHYS 387 - Biophysics
- PHYS 388 - Astrophysics
- PHYS 389 - Solid State Physics
- PHYS 390 - Special Studies  (area to be determined by department)

Additional Major Requirements:

21-22 credit hours, as follows

4-5 hours of additional science courses from either:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
  
or
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
17 hours of mathematics and computer science from:

- CSCI 170 - Computer Science I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 230 - Intro to Ordinary Diff Equat
  - MATH Elective. Students wishing to minor in Applied Mathematics should take MATH 222 as their math elective. Student wishing to major or minor in Mathematics should take MATH 225 as their math elective. One additional course above MATH 225 is then required for the Mathematics Minor.

Note(s):

- Specific requirements are modifiable for the needs and interests of each individual student.
- A 2.000 cumulative average must be attained within the major, as listed in Degree Works.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Physics

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- MATH 170 - Calculus I
- First Year Seminar
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (14)

Second Semester

- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II
- MATH 171 - Calculus II
- CSCI 170 - Computer Science I
- THEO 111 - Theological Foundations

Total (14)

Sophomore Year

First Semester

- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- MATH 220 - Calculus III
- Second Language I

Total (16)

Second Semester

- PHYS 340 - Modern Physics II
- PHYS 341 - Modern Physics II Lab
- MATH 230 - Intro to Ordinary Diff Equat
- PHIL 100 - Ethics as Intro to Philosophy
- Lit. & Moral Imagination 205
- Second Language II

Total (16)

Junior Year

First Semester

- PHYS 350 - Theoretical Mechanics I
- PHYS 360 - Electromagnetism I
- PHYS 355 - Advanced Physics Lab
- Mathematics Elective *
- CHEM/BIOL Elective + Lab

Total (15-16)
Second Semester

• PHYS 382 - Thermodynamics
• PHYS 364 - Physical Optics
• PHYS 365 - Physical Optics Lab
• PHIL 200 - Philosophical Perspectives
• Theological Perspectives elective
• Historical Perspectives Elective

Total (16)

Senior Year

First Semester

• PHYS 376 - Quantum Mechanics I
• PHYS 395 - Physics Research
• Physics, Engineering, Mathematics or Computer Science Elective **
• Humanities elective
• Social Sciences elective
• DCR or General elective

Total (16)

Second Semester

• PHYS 377 - Quantum Mechanics II
• PHYS 398 - Physics Thesis
• Physics Capstone elective
• Creative Perspectives elective
• Writing Intensive or General elective
• E/RS or General elective

Total (16)

Note(s):

*Students wishing to minor in Applied Mathematics should take MATH 222 as their math elective. Student wishing to major or minor in Mathematics should take MATH 225 as their math elective. One additional course above MATH 225 is then required for the Mathematics Minor.

**Not required, but strongly recommended for students interested in attending a graduate program.
Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- The E/RS Focus Elective, Diversity Curriculum Elective, and Writing Intensive Elective requirements may be used to satisfy another element of the core or the major.

Psychology, B.S.

The Department of Psychology endeavors to acquaint students thoroughly with the content and methods of scientific psychology. While emphasizing the scientific approach to the understanding of human behavior and human personality, the psychology courses aim to show the student that this branch of science is complementary to and compatible with a sound philosophy of human nature. In addition to the program leading to the Bachelor of Science, the department provides courses in the University Core Curriculum. The Bachelor of Science program in Psychology aims to provide a general background for career and/or advanced studies in fields which presuppose understanding of human behavior, such as clinical/counseling psychology, industrial-organizational psychology, medicine, education, social work, and law.

Requirements for the Psychology Major

Undergraduate core curriculum requirements:

48-63 Credit Hours dependent on courses taken, including:

Mathematics

- MATH 120 - Elementary Functions
- MATH 140 - Concepts of Calculus

Philosophy:

An additional Philosophy 300 level elective of 3 credit hours beyond core requirements.

Science:

- BIOL 144 A & P I for Social Sciences
- BIOL 145 A & P I for Social Sciences (lab)
- BIOL 146 A & P II for Social Sciences
• BIOL 147 A & P II lab for Social Sciences (lab)

Along with the following included in the major:

• PSYC 221 - Research Meth & Design I
• PSYC 222 - Research Meth & Design II
• PSYC 223 - Research Meth & Design I Lab
• PSYC 224 - Research Meth & Design II Lab

Major requirements:

38 credit hours, as follows

32 hours of required psychology courses from:

• PSYC 101 - General Psychology
• PSYC 200 - Orientation to the Major
• PSYC 210 - Statistical Techniques
• PSYC 212 - Computer Statistical Analysis
• PSYC 221 - Research Meth & Design I
• PSYC 223 - Research Meth & Design I Lab
• PSYC 222 - Research Meth & Design II
• PSYC 224 - Research Meth & Design II Lab
• PSYC 231 - Developmental Psychology
• PSYC 261 - Social Psychology
• PSYC 277 - Abnormal Psychology
• PSYC 301 - History & Systems of Psychology
• PSYC 427 - Cognitive Psychology
• PSYC 499 - Senior Comprehensive Review

6 hours of psychology electives selected from:

• PSYC 232-498 (Refer to Course Descriptions.)

Note(s):

• A 2.000 cumulative average must be attained in these psychology courses.
• Majors must attain a C- or above in Human Anatomy and Physiology I lecture and lab (BIOL/140/141), Statistical Techniques lecture and lab (PSYC 210/212), and Research Methods and Design I (PSYC 221/223). Students who fail to earn a C- will have to retake the course(s).
• Students should consult the department's "Careers in Psychology and Course Electives" for recommendations about which elective courses to consider for different career tracks (i.e., graduate school, social service employment, general business, etc.).
Students should also discuss their career aspirations and elective choices with their faculty advisor. Students must maintain contact with a departmental advisor each semester to aid in course selection, planning, and scheduling.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Psychology

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- MATH 105 - Fundamentals of Math or MATH 120 - Elementary Functions or MATH 140 (if one tests into 150 or 170)
- PSYC 101 - General Psychology
- Foreign Language Elective
- CORE 100 - First Year Seminar
- CORE 101 - First Year Co-Curricular
- BIOL 144 A & P I for Social Sciences
- BIOL 145 A & P I for Social Sciences (lab)

Total (16)

Second Semester

- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- PSYC 200 - Orientation to the Major
- MATH 140 - Concepts of Calculus or PSYC 231 - Developmental Psychology or PSYC 261 - Social Psychology or PSYC 277 - Abnormal Psychology
- Foreign Language Elective
- CORE 102 - First Year Co-Curricular
- BIOL 146 A & P II for Social Sciences
- BIOL 147 A & P II lab for Social Sciences (lab)

Total (17)

Sophomore Year
First Semester

- Historical Perspectives
- PHIL 100 - Ethics as Intro to Philosophy
- PSYC 210 - Statistical Techniques
- PSYC 212 - Computer Statistical Analysis
- PSYC 221 - Research Meth & Design I
- PSYC 223 - Research Meth & Design I Lab
- PSYC 231 - Developmental Psychology or PSYC 261 - Social Psychology or PSYC 277 - Abnormal Psychology

Total (16)

Second Semester

- ENGL 205 - Literature & Moral Imagination or CLAS 205 - Classical Lit & Moral Imagina
- THEO 111 - Theological Foundations
- PSYC 222 - Research Meth & Design II
- PSYC 224 - Research Meth & Design II Lab
- PSYC 231 - Developmental Psychology or PSYC 261 - Social Psychology or PSYC 277 - Abnormal Psychology or General University Elective (if tested into MATH 150 or 170)
- PHIL 200 - Philosophical Perspectives

Total (15)

Junior Year

First Semester

- PSYC 360 or PSYC 427 - Cognitive Psychology
- Creative Perspectives
- PSYC Elective
- Theology 200 Level Elective
- General University Elective

Total (15)

Second Semester

- PSYC Elective
- PHIL 300 Level Elective (also fulfills humanities elective)
- General University Elective
- General University Elective / Minor
- General University Elective / Minor

Total (15)
Senior Year

First Semester

- PSYC 301 - History & Systems of Psychology
- PSYC Elective
- PSYC 499 - Senior Comprehensive Review (if planning on grad school) or General University Elective
- General University Elective / Minor
- General University Elective / Minor

Total (15)

Second Semester

- General University Elective or PSYC 499 - Senior Comprehensive Review (if planning on job at graduation)
- E/RS Focus Elective
- CORE 499 - Reflection on XU Core
- General University Elective / Minor
- General University Elective / Minor

Total (12)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- The E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
- The University core Social Science electives are fulfilled within the major requirements.
- * See section "Requirements for the Psychology Major."

Special Education with a Concentration in Early Childhood Intervention Specialist and Montessori Education with American Montessori Society Early Childhood Credential (Double Major), B.S.

The Special Education undergraduate teacher preparation programs are theory based with continual field application experiences. Students complete the degree with a foundation in liberal arts and in child-centered learning/development intervention competencies.

Students who successfully complete the dual major program will receive a BS with majors in Special Education and Montessori Education. They will receive an American Montessori Society Early Childhood credential, an OH p-3 license, and an OH ECIS-Early Childhood Intervention Specialist license.
Major Requirements:

Undergraduate core curriculum, requirements:

48 Undergraduate Core Curriculum credit hours, include:

- Diversity Curriculum requirement: partially fulfilled in the major with
  - EDEL 260 Cultural Diversity In Educ
- English Composition/Rhetoric grade must be a "B" or above.
- Mathematics grade must be a "C" or above.
- Literature: fulfilled in the major with EDCH 324 Children's Literacy for Early Childhood
- CORE 100 - First Year Seminar
- CORE 101 - First Year Co-curricular program
- CORE 499
- Science: must be met with physical (CHEM or PHYS 114/PHYS 115 )and biological (BIOL 130/BIOL 131) sciences.
- Social Sciences: included in the major requirements.
- The ER/S Focus Elective that meets another core requirement should be chosen.

Specific education courses

39 hours of education courses from:

- EDFD 110 - Human Development & Learning
- EDEL 100 - Introduction To Education
- EDEL 251 - Instructional Technology
- EDEL 260 - Cultural Diversity In Educ
- EDEC 210 - Early Childhood Development
- EDEC 230 - Play in Early Childhood Educ
- EDME 350 - Methods of Observation of Child
- EDME 351 - Montessori Ed: Phil Approach
- EDME 354 - Mont Language Arts& Read Meth
- EDME 359 - Community & Advocacy in Educ
- EDME 376 - Phonics Skills for Early Chldh
- EDRE 312 - Reading Methods for Early Chld
- EDSP 205 - Foundations in ECSPED

Required 27 hours of EDSP course work

- EDSP 201 - Intro to Emotionally Dist Chld
- EDSP 203 - Sp Ed: Comm & Collaboration
- EDSP 364 - DAP Instructional Materials
- EDSP 367 - Sp Ed: Behav & Soc Skills Mgmt
- EDSP 372 - Communication Strategies & Tec
- EDSP 376 - M/I Support Services
- EDSP 391 - ECSPED Learning Theories
- EDSP 393 - ECSPED: Curriculum Practices
- EDRE 478 - Diagnosis/Correct of Read Disa
24 hours of Ohio License requirements, as follows:

Early Childhood Credential (ages 2 1/2 to 6)

- EDME 364 - Early Childhood/Mont Meth
- EDME 366 - Mont Curr Des&Te Strat I:Ea Ch
- EDME 367 - Mont Curr Des&Te Strat II:Ea C
- EDME 377 - Early Childhood Math & Science
- EDME 473 - Mont Early Childhood Pract I
- EDME 474 - Mont Early Childhood Pract II

Schedule

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- ENGL 101 - English Composition
- EDEL 110 - Human Development and Learning
- Foreign Language I Elective
- EDEL 260 Cultural Diversity
- BIOL 130 - Intro to Life Sciences
- BIOL 131 - Intro to Life Sciences Lab
- THEO 111 - Theological Foundations or CORE 100 - First year seminar
- CORE 101 - First Year Co-curricular

Second Semester

- EDEL 100 - Introduction To Education
- Foreign Language II Elective
- EDSP 201 Introduction to Emotionally Disturbed Child
- PHIL 100 Introduction to Philosophy
- PHYS 114 - Our Universe: Physical Science
- PHYS 115 - Our Universe: Physical Sci Lab
- THEO 111 - Theological Foundations or CORE 100 - First year seminar
Sophomore Year

First Semester

• EDEC 210 - Early Childhood Development
• EDME 351 - Montessori Ed: Phil Approach
• EDME 364 - Early Childhood/Mont Meth
• MATH 201 - Foundations of Arith. -ECED
• EDSP 205 Foundations in Early Childhood Special Education
• EDME 376 Phonics Skills for Early Childhood

Second Semester

• EDSP 372 Comm Strategies & Technology
• EDEL 251 - Instructional Technology
• EDME 377 EC Math & Science
• EDSP 376 Moderate/Intense Support Services
• EDSP 364 DAP Instruction Materials
• MATH 202 - Geometry & Measurement -ECED

Junior Year

First Semester

• EDME 354 - Mont Language Arts & Read Meth
• Historical Perspectives
• PHIL 200 Philosophical Perspectives
• EDSP 391 ECSPED Learning Theories
• EDSP 393 ECIS Curriculum Practices
• EDME 350 Methods of Observation

Second Semester

• EDCH 324 - Children's Lit for Early Child
• EDEC 230 - Play in Early Childhood Educ
• Theological Perspectives (3)
• EDSP 367 SPED Behavior & Social Skills Management
• EDRE 312- Reading Methods for Early Childhood
Senior Year

First Semester

- E/RS Focus Elective
- EDSP 203 SPED Comm & Collaboration
- ENGL 205 Lit and the Moral Imagination
- EDRE 478 Reading Diagnosis and Assessment
- EDME 366 - Mont Curr Des&Te Strat I:Ea Ch
- EDME 473 - Mont Early Childhood Pract I

Second Semester

- EDME 367 - Mont Curr Des&Te Strat II:Ea C
- Elective
- EDME 474 - Mont Early Childhood Pract II
- EDME 359 Community and Advocacy in Education
- Creative Perspectives
- CORE 499 - Reflection on XU Core

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- E/RS Focus Elective requirement may be used to satisfy another element of the Core or the major.
- A minimum of 140 credit hours is typically required for the degree, with 120 hours as absolute minimum.
- An overall cumulative GPA of 2.500 is required for graduation.
- The Diversity Curriculum Electives may be used to satisfy other elements of the core or major.
- Ohio Assessment for Educators required for licensure 001 PTL; 013 EC; 090 Reading

Special Education, B.S. with a Concentration In Early Childhood Intervention Specialist

Bachelor of Science Degree in Special Education

The Special Education undergraduate teacher preparation programs are theory based with continual field application experiences. Students complete the degree with a foundation in liberal arts and in child centered learning/development intervention competencies.
Requirements for the Special Education Major

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum, including:

- English composition grade must be "B-" or better.
- Humanities area fulfilled per the major, with EDCH 324.
- Mathematics grades must be "C-" or better.
- Science requirements must be met with physical (PHYS) and biological (BIOL) sciences:
- Social Sciences requirements is included in the major (licensure) requirements.

Note(s):

- A 2.700 cumulative average must be attained in the core curriculum for recommendation to teacher licensure program.

Major Requirements:

38 credit hours, as follows

Specific education courses, take

- EDFD 110 - Human Development & Learning
- EDEL 260 - Cultural Diversity In Educ
- EDME 376 - Phonics Skills for Early Chldh or
- EDME 362 - Phonics and Orton-Gillingham or
- EDRE 269 - Phonics & Foundation of Litera
- EDME 377 - Early Childhood Math & Science
- EDME 354 - Mont Language Arts & Read Meth or
- EDRE 312 - Reading Methods for Early Chld
- EDMS 350 - Technology & Topics for Educat
- EDRE 471 - Content Area Literacy
- EDSP 200 - Sp Ed: Identification & Issues
- EDSP 201 - Intro to Emotionally Dist Chld
- EDSP 203 - Sp Ed: Comm & Collaboration
- EDRE 478 - Diagnosis/Correct of Read Disa
- EDSP 205 - Foundations in ECSPED
- EDSP 380 - Classroom Management
- EDSP 401 - Teaching Seminar

Note(s):

- Grade of "B-" in curriculum courses.
Concentration requirements:

34-40 additional credit hours to fulfill a concentration area.

Early Childhood Intervention Specialist

(40 hours required) - take

- EDSP 364 - DAP Instructional Materials
- EDSP 365 - Curr Practices: Mild Disabilities
- EDSP 372 - Communication Strategies & Tech
- EDSP 376 - MI Support Services
- EDSP 381 - Play & Its Role in Dev & Learn

or

- EDEC 230 - Play in Early Childhood Educ
- EDSP 391 - ECSPED Learning Theories
- EDSP 392 - ECSPED: Observation & Asmt
- EDSP 393 - ECSPED: Curriculum Practices
- EDSP 403 - ECSPED Student Teaching
- EDCH 324 - Children’s Lit for Early Child

Note(s):

- A 2.750 cumulative average must be attained in all the education courses for recommendation for teacher licensure.

Scheduling Notes:

- The E/RS Focus & Diversity Focus Electives are required, must receive approval for this course requirement from academic advisor.
- A minimum of 132 credit hours is typically required for the degree, with 120 hours as the absolute minimum.
- The sequence of courses in the program is subject to change and must be approved by academic advisor.
- Hours in parenthesis are field hours.
- OAE Tests: 001, 013, 039, 090.
- TPA (Teacher Performance Assessment) during Student Teaching.
Special Education, B.S. with a Concentration in Mild/Moderate Intervention Specialist

Bachelor of Science Degree in Special Education

The Special Education undergraduate teacher preparation programs are theory based with continual field application experiences. Students complete the degree with a foundation in liberal arts and in child centered learning/development intervention competencies.

Requirements for the Special Education Major

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum, including

- English composition grade must be "B-" or better.
- Humanities area fulfilled per the major, with EDCH 324.
- Mathematics grades must be "C-" or better.
- Science requirements must be met with physical (PHYS) and biological (BIOL) sciences:
- Social Sciences requirements is included in the major (licensure) requirements.

Note(s):

- A 2.700 cumulative average must be attained in the core curriculum for recommendation to teacher licensure program.

Major Requirements:

38 credit hours, as follows

Specific education courses, take

- EDFD 110 - Human Development & Learning
- EDEL 260 - Cultural Diversity In Educ
- EDME 376 - Phonics Skills for Early Chldh or
- EDME 382 - Phonics and Orton-Gillingham or
- EDRE 269 - Phonics & Foundation of Litera
- EDRE 312 - Reading Methods for Early Chld
- EDME 354 - Mont Language Arts& Read Meth or
- EDME 350 - Technology & Topics for Educat
- EDRE 471 - Content Area Literacy
- EDSP 200 - Sp Ed: Identification & Issues
- EDSP 201 - Intro to Emotionally Dist Child
• EDSP 203 - Sp Ed: Comm & Collaboration
• EDRE 478 - Diagnosis/Correct of Read Disa
• EDSP 205 - Foundations in ECSPED
• EDSP 380 - Classroom Management
• EDSP 401 - Teaching Seminar

Note(s):

• Grade of "B-" in curriculum courses.

Concentration requirements:

34-40 additional credit hours to fulfill a concentration area.

Mild/Moderate Intervention Specialist

• EDSP 360 - M/M Characteristics& Strategi
• EDSP 362 - M/M Support Services
• EDSP 363 - Sp Ed: Assessment & Evaluation
• EDSP 364 - DAP Instructional Materials
• EDSP 365 - Curr Practices:Mild Disabiliti
• EDSP 367 - Sp Ed: Behav & Soc Skills Mgmt
• EDSP 372 - Communication Strategies & Tec
• EDSP 374 - Curr Prac:Moderate Disabilitie
• EDSP 402 - M/I Student Teaching

and 3 hours of a literature course

• EDCH 324 - Children's Lit for Early Child

Scheduling Notes:

• The E/RS Focus & Diversity Focus Electives are required, must receive approval for this course requirement from academic advisor.
• A minimum of 126 credit hours is typically required for the degree, with 120 hours as the absolute minimum.
• The sequence of courses in the program is subject to change and must be approved by academic advisor.
• Hours in parenthesis are field hours.
• OAE Tests: 004, 043, 038, 039, 030 (recommended)
• Teacher Performance Assessment (during Student Teaching)
Special Education, B.S. with a Concentration in Moderate/Intensive Intervention Specialist

Bachelor of Science Degree in Special Education

The Special Education undergraduate teacher preparation programs are theory based with continual field application experiences. Students complete the degree with a foundation in liberal arts and in child centered learning/development intervention competencies.

Requirements for the Special Education Major

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum, including

- English composition grade must be "B-" or better.
- Humanities area fulfilled per the major, with EDCH 324.
- Mathematics grades must be "C-" or better.
- Science requirements must be met with physical (PHYS) and biological (BIOL) sciences:
- Social Sciences requirements is included in the major (licensure) requirements.

Note(s):

- A 2.700 cumulative average must be attained in the core curriculum for recommendation to teacher licensure program.

Major Requirements:

38 credit hours, as follows

Specific education courses, take

- EDFD 110 - Human Development & Learning
- EDEL 260 - Cultural Diversity In Educ
- EDME 376 - Phonics Skills for Early Chldh or
- EDME 362 - Phonics and Orton-Gillingham or
- EDRE 269 - Phonics & Foundation of Litera
- EDME 377 - Early Childhood Math& Science
- EDME 354 - Mont Language Arts& Read Meth or
- EDRE 312 - Reading Methods for Early Child
- EDMS 350 - Technology & Topics for Educat
- EDRE 471 - Content Area Literacy
- EDSP 200 - Sp Ed: Identification& Issues
- EDSP 201 - Intro to Emotionally Dist Child
Note(s):

- Grade of "B-" in curriculum courses.

Concentration requirements:

34-40 additional credit hours to fulfill a concentration area.

Moderate/Intensive Intervention Specialist

(34 hours required) - take

- EDSP 367 - Sp Ed: Behav & Soc Skills Mgmt
- EDSP 370 - M/I Characteristics & Strateg
- EDSP 372 - Communication Strategies & Tec
- EDSP 373 - M/I Assessment & Evaluation
- EDSP 376 - M/I Support Services
- EDSP 389 - Prog Prac:Severe/Intensive Dis
- EDSP 402 - M/I Student Teaching

and 3 hours of a literature course

- EDCH 324 - Children's Lit for Early Child

Scheduling Notes:

- The E/RS Focus & Diversity Focus Electives are required, must receive approval for this course requirement from academic advisor.
- A minimum of 126 credit hours is typically required for the degree, with 120 hours as the absolute minimum.
- The sequence of courses in the program is subject to change and must be approved by academic advisor.
- Hours in parenthesis are field hours.
- OAE Tests: 004, 043, 038, 039, 030 (recommended)
Sport Management, B.S.

See Sport Management/Marketing, B.S.

Sports Management/Sports Marketing

Requirements for the Sport Management and Sport Marketing Majors

Undergraduate Core Curriculum Requirements:

Students take 48 hours of core classes exclusive of those core courses required for the Sport Management or Sport Marketing major. See Undergraduate Core Curriculum.

Mathematics Requirement:

- MATH 116 - Elementary Statistics
  or
- MATH 156 - General Statistics
  - One elective core mathematics course

Major Requirements:

73 / 79 credit hours, distributed as follows:

Area 1 Sport Management / Sport Marketing Courses

21 to 27 hours from sport management/sport marketing curriculum.

- SPMG 110 - Intro to Sports Management
- SPMG 132 - Sociology of Sport
- SPMG 195 - History of American Sport
- SPMG 310 - Intro to Sport Marketing
- SPMG 322 - Facility & Event Mgmt
- SPMG 348 - Legal & Ethical Issues in Sprt
- SPMG 410 - Sport Ethics
  - SPMK Elective
  - SPMK Elective
Area 2 Sport Management Electives

Sport Management and Sport Marketing students take 9 hours of sport management electives. Choose from the following or select other classes to count toward a minor or double major.

- SPMG 340 - International Sport
- SPMG 350 - Professional Devel. SPMG
- SPMG 360 - Sport Finance & Economics
- SPMG 377 - Sport Psychology
  ◦ SPMG 380 - Contemporary Coaching: Issues & Trends

Area 3 Business Courses

22 hours from business curriculum

- ACCT 200 - Introductory Financial Acct
- BLAW 300 - Legal Environment
- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
- INFO 120 - Introduction to Business Tech
- INFO 220 - Mgmnt of Info Tech
- MGMT 300 - Managerial Behavior
- MKTG 300 - Principles of Marketing

Area 4 Communication Courses

12 hours from communication arts curriculum

- COMM 101 - Oral Communication

Choose From:

- COMM 206 - Writing for the Media or
- COMM 207 - Interpersonal Communication or
- COMM 211 - Media Literacy
  ◦ Six elective hours (COMM 209-479)

Area 5 Sport Management Internship

9 hours of field experience required, including:

- SPMG 495 - Internship in Sport Mgmt
  ◦ Each three hour block in SPMG 495 equals 200 clock hours for a total of 400 clock hours
Note:

- A 2.000 cumulative GPA must be attained in these major courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Sport Management

Year 1

Fall Semester

- SPMG 110 Intro to Sport Management
- Mathematical Perspectives elective
- First Year Sem. (CORE100) OR Theology 111
- Introduction to Ethics (PHIL100)
- Second language I
- CORE 101

Total (15)

Spring Semester

- SPMG 195 History of American Sport
- COMM 101 Oral Communications
- First Year Sem. (CORE100) OR Theology 111
- Composition or Rhetoric (ENGL101/115)
- Second Language II
- CORE 102

Total (15)

Year 2

Fall Semester

- SPMG 132 Sociology of Sport
- ECON 200 (Soc. Sci elective)
- Historical Perspectives elective
- Scientific Perspectives elective
• Philosophical Perspectives (PHIL200)

Total (15)

Spring Semester

• ECON 201 Macroeconomic Principles
• Sport Management Elective
• Nat. Sci. elective
• Theological Perspectives elective
• Creative Perspectives elective

Total (15)

Year 3

Fall Semester

• SPMG 322 Facility and Event Management
• COMM 207 Interpersonal Communication
• SPMG 410 Sport Ethics (DCR elec)
• Literature and Moral Imagination 205
• MKTG 300 Principles of Marketing
• INFO 120 Intro to Business Tech

Total (16)

Spring Semester

• SPMG 310 Intro to Sport Marketing
• Communication Arts Elective
• INFO 220, Managing Info Technology
• Humanities elective
• ACCT 200 Intro Financial Accounting
• SPMK Elective

Total (18)
Year 4

Fall Semester

- SPMG 348 Legal & Ethical Issues in Sport
- BLAW 300 (E/RS elec.)
- Sport Management elective
- MGMT 300 Managerial Behavior
- General elective
- SPMK Elective

Total (18)

Spring Semester

- SPMG 495
- Sport Management Elective
- General Elective

Total (15)

Notes:

- Some of these electives may double count with other core or major courses
- All students must elect one each of oral communications, quantitative reasoning and writing-intensive flagged courses; many of these are available within the core or major.
- A minimum of 120 credit hours is required for the degree.

Teaching Life Sciences, B.S.

Requirements for the Teaching Life Sciences Major

Undergraduate core curriculum requirements*:

See Undergraduate Core Curriculum

Mathematics:

- MATH 150 - Elements of Calculus I
- MATH 156 - General Statistics

Social sciences requirement completed within the professional courses.

Science requirement included within the major.

Major Requirements:

31 hours of education courses:

- EDMS 131 - Professional Education
- EDMS 332 - Meth/Curr/Asmt in Science
- EDMS 350 - Technology & Topics for Educat
- EDMS 411 - Clinical Experiences
• EDMS 470 - Student Teaching AYA
• EDRE 471 - Content Area Literacy
• EDFD 110 - Human Development & Learning
• EDSP 200 - Sp Ed: Identification & Issues
• EDSP 380 - Classroom Management

32 hours of biology courses:

• BIOL 160 - General Biology I
• BIOL 161 - General Biology I Lab
• BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab
• BIOL 210 - General Botany
• BIOL 211 - General Botany Lab
• BIOL 230 - Genetics
• BIOL 250 - Ecology
• BIOL 251 - Ecology Lab
• BIOL 410 - Human Physiology
• BIOL 411 - Human Physiology Lab
• BIOL 450 - General Microbiology
• BIOL 451 - General Microbiology Lab

and four hours of biology electives:

• BIOL 222 - Immunology
• BIOL 240 - Evolution
• BIOL 244 - Animal Behavior
• BIOL 354 - Human and Comparative Anat
• BIOL 360 - Cell Biology
• BIOL 355 - Human and Comp Anat Lab
• BIOL 460 - Developmental Biology
• BIOL 461 - Developmental Biology Lab

8 hours of chemistry courses:

• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab

7 hours of physics courses:

• PHYS 116 - Our Universe: The Earth
Note(s):

• A 2.500 overall cumulative average must be attained; a 2.700 GPA must also be attained in education courses and in each area of certification.
• The program meets the State of Ohio licensure requirements for Grades 7-12.
• * The University core curriculum must be fulfilled to meet State of Ohio regulations in general education for teacher licensure.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
• Required: 2.500 overall GPA; 2.700 GPA in education courses; 2.500 GPA in sciences.
• This program meets the State of Ohio licensure requirements for grades 7 through 12.
• * Diversity Curriculum Elective Requirement (6 credit hours) may be used to satisfy other elements of the core or the major.
• Courses must be taken from two different departments.
• ** 4 hours from BIOL 222, BIOL 240, BIOL 244, BIOL 354, BIOL 355, BIOL 360, BIOL 460, BIOL 461

Teaching Life Sciences and Chemistry, B.S.

Requirements for the Teaching Life Sciences and Chemistry Major

Undergraduate core curriculum requirements*:

See Undergraduate Core Curriculum

Mathematics:

• MATH 170 - Calculus I
• MATH 171 - Calculus II
Social science requirement completed within the professional courses.

Sciences requirement included within the major.

Major Requirements:

31 hours of education courses:

- EDMS 131 - Professional Education
- EDMS 332 - Meth/Curr/Asmt in Science
- EDMS 350 - Technology & Topics for Educat
- EDMS 411 - Clinical Experiences
- EDMS 470 - Student Teaching AYA
- EDRE 471 - Content Area Literacy
- EDFD 110 - Human Development & Learning
- EDSP 200 - Sp Ed: Identification& Issues
- EDSP 380 - Classroom Management

24 hours of chemistry courses:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- CHEM 440 - Biochemistry

and five semester hours from:

- CHEM 220 - Principles of Physical Chem
• CHEM 221 - Analytical Chemistry
• CHEM 300 - Intro to Chem Research
• CHEM 340 - Instrumental Analysis
• CHEM 341 - Instrumental Analysis Lab
• CHEM 411 - Organic Synthesis & Analysis

24 hours of biology courses:

• BIOL 160 - General Biology I
• BIOL 161 - General Biology I Lab
• BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab
• BIOL 210 - General Botany
• BIOL 211 - General Botany Lab
• BIOL 230 - Genetics
• BIOL 250 - Ecology
• BIOL 251 - Ecology Lab

and four semester hours from:

• BIOL 410 - Human Physiology
• BIOL 411 - Human Physiology Lab
• BIOL 450 - General Microbiology
• BIOL 451 - General Microbiology Lab

10 hours of physics courses:

• PHYS 116 - Our Universe: The Earth
• PHYS 117 - Our Universe: The Earth Lab
• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I
• PHYS 162 - College Physics II
• PHYS 163 - Introductory Physics Lab II

Note(s):

• A 2.700 cumulative average must be attained; a 2.700 GPA must also be attained in education courses and in each area of licensure.
• This program meets the State of Ohio licensure requirements for Grades 7-12. Course listing is subject to change according to State of Ohio regulations. See your advisor for current course requirements.
• * The Undergraduate Core Curriculum must be fulfilled to meet State of Ohio regulations in general education for teacher licensure.
Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- The E/RS Focus Elective is required, but one of the other core requirements may be selected to fulfill the requirement.
- Required: 2.700 overall GPA; 2.700 GPA in education courses; 2.700 GPA in sciences.
- This program meets the State of Ohio licensure requirements for Grades 7 through 12. Course listing is subject to change according to State of Ohio regulations. See your advisor for current course requirements.

Teaching Life Sciences and Physics, B.S.

Requirements for the Teaching Life Sciences and Physics Major

Undergraduate core curriculum requirements*:

See Undergraduate Core Curriculum

Mathematics:

- MATH 170 - Calculus I
- MATH 171 - Calculus II

Social sciences requirement completed within the professional courses.

Science requirement included within the major.

Major Requirements:
31 hours of education courses:

- EDMS 131 - Professional Education
- EDMS 332 - Meth/Curr/Asmt in Science
- EDMS 350 - Technology & Topics for Educat
- EDMS 411 - Clinical Experiences
- EDMS 470 - Student Teaching AYA
- EDRE 471 - Content Area Literacy
- EDFD 110 - Human Development & Learning
- EDSP 200 - Sp Ed: Identification& Issues
- EDSP 380 - Classroom Management

24 hours of biology courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 210 - General Botany
- BIOL 211 - General Botany Lab
- BIOL 230 - Genetics
- BIOL 250 - Ecology
- BIOL 251 - Ecology Lab

and four hours of biology electives:

- BIOL 410 - Human Physiology
- BIOL 411 - Human Physiology Lab

or

- BIOL 450 - General Microbiology
- BIOL 451 - General Microbiology Lab

7 hours of chemistry courses:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
27 hours of physics courses:

- PHYS 116 - Our Universe: The Earth
- PHYS 117 - Our Universe: The Earth Lab
- PHYS 161 - Introductory Physics Lab I
- PHYS 163 - Introductory Physics Lab II
- PHYS 170 - University Physics I
- PHYS 172 - University Physics II
- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- PHYS 350 - Theoretical Mechanics I
  ◦ and six hours of physics electives (selected).

Note(s):

- A 2.700 overall cumulative average must be attained; a 2.500 GPA must also be attained in education courses and in each area of licensure.
- The program meets the State of Ohio licensure requirements for Grades 7-12.
- * The university core curriculum must be fulfilled to meet State of Ohio regulations in general education for teacher licensure.

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- The E/RS Focus Elective is required, but one of the other core requirements may be selected to fulfill the requirement.
- Required: 2.500 overall GPA; 2.700 GPA in education courses; 2.700 GPA in sciences.
- This program meets the State of Ohio licensure requirements for Grades 7 through 12.

Teaching Physical Sciences (Chemistry and Physics), B.S.

Requirements for the Teaching Physical Sciences Major

Undergraduate core curriculum requirements* :

See Undergraduate Core Curriculum
Mathematics:

- MATH 170 - Calculus I
- MATH 171 - Calculus II

Social sciences requirement completed within the professional courses.

Science requirement included within the major.

Major Requirements:

31 hours of education courses:

- EDMS 131 - Professional Education
- EDMS 332 - Meth/Curr/Asmt in Science
- EDMS 350 - Technology & Topics for Educat
- EDMS 411 - Clinical Experiences

- EDSP 200 - Sp Ed: Identification& Issues
- EDSP 380 - Classroom Management

24 hours of chemistry courses:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
• CHEM 320 - Physical Chemistry I
  ◦ and five elective chemistry hours (see advisor).

9 hours of biology courses:

• BIOL 160 - General Biology I
• BIOL 161 - General Biology I Lab
• BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab

24 hours of physics courses:

• PHYS 161 - Introductory Physics Lab I
• PHYS 163 - Introductory Physics Lab II
• PHYS 170 - University Physics I
• PHYS 172 - University Physics II
• PHYS 242 - Circuit Analysis
• PHYS 330 - Modern Physics I
• PHYS 331 - Modern Physics I Lab
• PHYS 350 - Theoretical Mechanics I
  ◦ and six selected physics electives (see advisor).

In addition, the following are required:

• PHYS 116 - Our Universe: The Earth
• PHYS 117 - Our Universe: The Earth Lab

Note(s):

• A 2.500 overall cumulative average must be attained; a 2.700 GPA must also be attained in education courses and in each area of licensure.
• The program meets the State of Ohio licensure requirements for Grades 7-12.
• * The University core curriculum must be fulfilled to meet State of Ohio regulations in general education for teacher licensure.

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• The E/R/S Focus Elective is required, but one of the other core requirements may be selected to fulfill the requirement.
• Required: 2.500 overall GPA; 2.700 GPA in education courses; 2.700 GPA in sciences.
This program meets the State of Ohio licensure requirements for Grades 7 through 12.

Theatre Education, B.S.

Xavier University's theatre education program combines a well-rounded theatre education with the necessary educational courses for students to receive their license to teach theatre to grades PK - 12 in Ohio's public schools. Practical experiences and professional collaborations in theatre help to prepare the next generation of theatre teachers the breadth of knowledge to face the challenges of teaching today's students.

Requirements for the Theatre Education Major

Core Curriculum Requirements:

- Undergraduate Core Curriculum

Major Requirements:

Theatre Foundation Courses

28 credit hours from:

- THTR 100 - Introduction to the Theatre
  - THTR 110 - Survey of Dramatic Literature
- THTR 120 - Acting I
- THTR 150 - Stagecraft I
  - THTR 198 - Theatre Technology *
  - THTR 199 - Performance Workshop *
  - THTR 201 - Theatre History I
  - THTR 202 - Theatre History II
  - THTR 210 - Script Analysis
  - THTR 310 - Directing

* Students must take at least one each of THTR 198 and THTR 199

Theatre Performance/Production Courses:

12 credits from:
• THTR 121 - Voice and Movement
• THTR 160 - Improvisation
• THTR 220 - Improvisation for the Actor  or
  • THTR 430 - Theatre Portfolio

• THTR 320 - Acting II
• THTR 330 - Set Design
• THTR 331 - Lighting Design
• THTR 332 - Costume Design
• THTR 340 - Stage Management
• THTR 420 - Acting III

Theatre Electives:

3 credits from:
• COMM 235 - Digital Design
• ENGL 425 - Shakespeare
• ENGL 472 - Modern Drama
• MUSC 100 - Basic Music Theory
• MUSC 282 - Private Lesson: Voice

Education Requirements:

31 credits:
• EDMS 131 - Professional Education
• EDSP 200 - Sp Ed: Identification& Issues
• EDFD 110 - Human Development & Learning
• EDRE 471 - Content Area Literacy
• EDMS 350 - Technology & Topics for Educat
  • EDMS 33X - Teaching Methods: Elementary Drama (3)
  • EDMS 33X - Teaching Methods: Secondary Drama (3)
• EDMS 411 - Clinical Experiences
  • EDMS 47X - Student Teaching (9)

Additional Requirements:

• Pass a comprehensive theatre exam during the spring semester of senior year.
• Participation in at least one regional audition/interview event (SETC, UPTA, etc.) Event must be approved by faculty.
• Production attendance for all shows in which not cast or holding a technical position.
• Attendance at 20 professional productions.
• Audition or submit technical application for all departmental productions, except during semester of study teaching.

Notes:

• A 3.000 cumulative average must be attained in the theatre major.
• Students are required to have regular advising meetings with their theatre department advisor.

TOTAL Minimum Hours Required for Degree: 133 Semester Hours

B.S. Theatre Education

Freshman Year

Fall Semester

• THEATRE 100 - Intro to Theatre
• THEATRE 120 - Acting I
• CORE 100 - First Year Seminar
• PHILOSOPHY 100 - Introduction to Ethics
• Foreign Language I
• MONTESSORI EDUCATION 131 - Professional Education

Spring Semester

• THEATRE 110 - Survey of Dramatic Literature
• THEATRE 150 - Stagecraft
• THEOLOGY 111
• Foreign Language II
• THEATRE 198/199 - Theatre Workshop
• EDUCATION 110 - Human Development and Learning

Sophomore Year

- Theatre Production/Performance Elective
- THEATRE 450 - Senior Thesis
- General Elective
Bachelor of Science in Business Administration

Accounting, B.S.B.A.

The Department of Accountancy offers the Bachelor of Science in Business Administration (BSBA) degree in Accounting. Also, it offers a Master of Science in Accounting (MS) and two combined undergraduate/graduate degree options leading to either a BSBA and an MS or a BSBA and an MBA. These combined programs are designed to provide the student with an undergraduate and graduate degree while meeting the law in effect in most states that requires 150 semester credit hours of education to become a licensed Certified Public Accountant (CPA). Eligible students are allowed to begin graduate coursework during their senior year.

The BSBA in Accounting is a four-year program that may be a terminal degree for students interested in careers in corporate, governmental and not-for-profit accounting. For CPA candidates the four year program can be combined with additional undergraduate coursework to fulfill the 150-hour requirement. Elective internship experiences are available to undergraduate and graduate students.

Requirements for the BSBA Accounting Major

Undergraduate core curriculum requirements:

48-63 Credit Hours dependent on courses taken, including

Mathematics:

- MATH 150 - Elements of Calculus I
- STAT 210 - Statistics For Business I

Business core requirements:

42 hours

A 2.00 grade point average must be attained in the business core. At least half of the 42 total credit hours must be taken at Xavier.

- ACCT 200 - Introductory Financial Acct
- ACCT 201 - Introductory Managerial Acct
- BLAW 300 - Legal Environment
- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
- ECON 300 - Int'l Trade & Bus Environment
- FINC 300 - Business Finance
- INFO 120 - Introduction to Business Tech
- INFO 220 - Mgmnt of Info Tech
- MGMT 300 - Managerial Behavior
Major Requirements:

25 hours of specific accounting courses above the business core:

- ACCT 304 - Acct Info Systems
- ACCT 307 - Fin Actg & Reporting I
  - ACCT 308 - Financial Actg & Reporting II
  - ACCT 309 - Financial Actg & Reporting III
- ACCT 311 - Introduction to Taxation
- ACCT 490 - Auditing

Choose 2 of the following:

- ACCT 412 - VITA II
- ACCT 415 - Nonprofit and Govt Acct
- ACCT 425 - Cost Accounting
- ACCT 485 - Financial Modeling

Electives:

- 3 hours of business electives.

Note(s):

- The BSBA degree program typically requires 121 total credit hours. A 2.000 grade point average (GPA) must be attained overall, in the business core and the accounting major.
- Ethical issues and professional responsibilities of accountants are integrated throughout these courses.
- Any course taken at another institution to fulfill an accounting major requirement must be from an AACSB accredited business school and approved by the department. Approval should be obtained in advance to insure transfer credit.
- The business elective can be fulfilled by taking ACCT 303 Internship / Accounting Junior, ACCT 312 Volunteer Income Tax Assistance I, or ACCT 403 Internship / Accounting Senior as well as the two accounting electives not chosen above or a non-business core course from another discipline.
B.S.B.A. Accounting

This block serves as a guideline for progress toward a degree. Note that the following schedule should only be followed by a student who does not plan to complete the requirements to be eligible to take the CPA exam. See your academic advisor.

Freshman Year

First Semester

- MATH 140 - Concepts of Calculus (3)
- ENGL 101 - English Composition or ENGL 150 - Rhetoric (3)
- PHIL 100 - Ethics as Intro. to Philosophy (3)
- Second Language I (3)
- CORE 100 - First year seminar (3)
- CORE 101 - First year Co-Curricular (0)
- BUAD 101 - The Business Professions I (0)

Total (15)

Second Semester

- INFO 120 - Introduction to Business Technology (1)
- ECON 200 - Microeconomic Principles (3)
- Historical Perspectives Elective (3)
- Second Language II (3)
- Scientific Perspectives or Natural Sciences Elective (3)
- THEO 111 - Theological Foundations (3)
- CORE 102 - First year Co-Curricular (0)
- BUAD 102 - The Business Profession I (0)

Total (16)

Sophomore Year
First Semester

- ACCT 200 - Introductory Financial Accounting (3)
- ECON 200 - Macroeconomic Principles (3)
- INFO 220 - Management of Information Technology (3)
- PHIL 200+ - Philosophical Perspectives (3)
- SHRM 200 - Human Resources in a Diverse Society (3)
- STAT 210 - Statistics for Business I (3)
- BUAD 201 - The Business Profession II (0)

Total (18)

Second Semester

- ACCT 201 - Introductory Managerial Accounting (3)
- ACCT 304 - Accounting Information Systems (3)
- STAT 211 - Statistics for Business II (3)
- Theological Perspectives Elective (3)
- Scientific Perspectives or Natural Science Elective (3)
- BUAD 202 - The Business Profession II (0)

Total (15)

Junior Year

First Semester

- ACCT 307 - Financial Accounting & Reporting I (3)
- ACCT 311 - Introduction to Taxation (4)
- FINC 300 - Business Finance (3)
- MGMT 300 - Managerial Behavior (3)
- MGMT 301 - Managerial Communications (2)
- BUAD 301 - The Business Profession III (0)

Total (15)

Second Semester

- ACCT 308 - Financial Acct. and Reporting II (3)
- ACCT - Accounting Required Elective or VITA I (3)
- ECON 300 - Int'l. Trade & Business Environment (3)
• ENGL 205 - Literature and Moral Imagination (3)
• MKTG 300 - Principles of Marketing (3)
• BUAD 302 - The Business Profession II (0)

Total (16)

Senior Year

First Semester

• ACCT 309 - Financial Acct. & Reporting III (3)
• ACCT - Accounting Elective or Auditing (3)
• BLAW 300 - Legal Environment (3)
• MGMT 302 - Quality and Productivity in Operations (3)
• Writing Intensive Elective (3)
• BUAD 401 - The Business Profession IV (0)

Total (15)

Second Semester

• Accounting Elective or Auditing (3)
• General Elective or VITA I or VITA II (3)
• Creative Perspectives Elective (3)
• Humanities Elective (3)
• BUAD 402 - The Business Profession IV (0)

Total (12)

Scheduling Notes:

• All students must complete an oral communication, writing-intensive and quantitative reasoning flagged course. Many are included within the business core or major.
• Approved study abroad courses may be substituted for 201-level language
• Take six hours of science - but must include at least 3 hours of Scientific Perspectives Electives and 3 hours of Natural Sciences Electives (such as BIOL, CHEM or PHYS)
• Business students must take ECON 200 as the Social Science Elective
• Humanities elective is fulfilled by any Literature (except 205), CLAS, HIST 200+, THEO 300+, PHIL 300+ (but cannot also double count as ERS).
Business Analytics, B.S.B.A.

The BSBA in Business Analytics program educates and develops future data analysts. Graduates will emerge with the necessary skills to immediately contribute to businesses in roles which require training in and an aptitude for data analysis. Through the utilization of real-world data sets, students will gain the skills, confidence and expertise required to succeed in today’s data-driven business world. This program will produce high-quality students who are not only analytically sound but also ethically responsible in their use of data. Ultimately, the outcome of the program will be students who are able to help businesses make better decision through data analysis and statistical modelling.

Requirements for the Business Analytics Major

University Core Curriculum

See Undergraduate Core Curriculum

BSBA Degree and Business Core Requirements

See Williams College of Business

Major Requirements:

21 credit hours, as follows

• INFO 358 - Data Modeling and Management
• INFO 365 - Business Analytics
• INFO 329 - Data Mining

or

• MKTG 329 - Data Mining
• MKTG 302 - Marketing Research
  ◦ MKTG 315 - Principles of Category Management

or

• MKTG 370 - Consumer Behavior
  ◦ BANL 495 - Business Analytics Capstone
  ◦ Any INFO 300-499 (excluding 403) or MKTG 300-499 course not used toward the completion of a separate degree. In addition, analytically focused courses in other disciplines will be considered at the discretion of the MIS Department Chair. At most, 3 double counts will be allowed in this major.

• Business Analytics Elective
• Business Elective or Internship for Credit

Total (15)

Spring Semester

• MGMT 302 - Quality & Product in Operation
• BUAD 402 - The Business Profession IV
• Creative Perspectives Elective
Scheduling Notes:

• Total for degree is 120-121 hours. Major is 21 hours plus business elective or internship for credit.
• Business majors must take ECON 200 as Social Science Elective
• Students can take any six hours of science but must include at least 3 hours of Natural Science, such as BIOL, CHEM or PHYS.

Economics, B.S.B.A.

The Department of Economics offers the Bachelor of Science in Business Administration degree in Economics. The Department also offers a Bachelor of Arts in Economics degree through the College of Arts & Sciences.

A degree in Economics provides the student with an understanding of economic issues pertaining to individual firms, industries, the public sector, and the overall economy. The study of economics, supported by the knowledge of Mathematics and Statistics, emphasizes both analytic reasoning and a thorough knowledge of economic institutions. Economics majors analyze such topics as optimal decision-making, market efficiency, profit maximization, cost-benefit analysis, inflation, unemployment, international trade, financial markets, forces of globalization, and governmental economic activity. The program has proven useful to people who have moved into positions in many of the functional areas of business and government. It is also excellent training for graduate study in business, in law, and in economics itself.

Requirements for the Economics Major

Mathematics:

• MATH 150 - Elements of Calculus I or
• MATH 170 - Calculus I
• STAT 210 - Statistics For Business I

Social science:

• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles
Undergraduate core curriculum requirements:

48-63 Credit Hours dependent on courses taken, See Undergraduate Core Curriculum

Business core requirements:

Including:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
- STAT 211 - Statistics For Business II
- ECON 300 - Int'l Trade & Bus Environment

Major Requirements:

18 total credit hours required, as follows:

21 hours of economics courses above the business core:

- ECON 305 - Microeconomic Analysis
- ECON 306 - Macroeconomic Analysis
- ECON 307 - Empirical Analysis In Economic
  - 12 hours of economics electives, at least 6 hours of which must be at the 400-level.

Electives:

- 3 hours of business electives.
- 3 hours of general electives.

Required Capstone Project

All economics majors are required to take Capstone Project Each student must orally present a paper written in a 400-level economics course to a forum established by the department. Currently, Capstone Project is listed as ECON 491 which carries 0 credit. Starting Fall 2016, Capstone Project (ECON 492 and 493 combined) will be a 3 credit hour course split into ECON 492 and 493.

Note(s):

- A 2.000 cumulative average must be attained in the economics courses.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S.B.A. Economics

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- ECON 200 fulfills the social science elective.
- BLAW 300 fulfills the E/RS elective.
- SHRM 200 fulfills the diversity flag.
- ECON 307 fulfills the quantitative flag.
- ECON 492 plus ECON 493 fulfills the oral communication flag
- E/RS Focus Elective requirement may be used to satisfy another element of the core or the major requirements.

Entrepreneurial Studies, B.S.B.A.

The Department of Management and Entrepreneurship offers the Bachelor of Science in Business Administration in Entrepreneurial Studies.

Xavier’s undergraduate major in Entrepreneurial Studies is designed to help prepare students to seek opportunities, act resourcefully, think creatively, and lead ethically to make a difference in their organizations and the world, our majors will learn to:

1. Provide progressive leadership for existing family businesses
2. Start their own businesses, and/or
3. Pursue careers in creating and managing innovation and leading entrepreneurship in non-profits and small to large organizations in this global market economy.
The strength of our free enterprise economy depends heavily on an entrepreneurial mindset in those individuals who identify new product or service opportunities, develop workable plans for capitalizing on those opportunities, and assume personal risk and take the initiative in creating and then managing the new or expanded enterprises which those plans make possible.

Requirements for a Major in Entrepreneurial Studies

Since successful entrepreneurs and those with an entrepreneurial mindset need to have an integrative and interdisciplinary set of skills, the Entrepreneurial Studies major is interdisciplinary in nature, providing advanced course work in all business functions, specialized course work in creativity and innovation, business planning and a field experience, and a required entrepreneurial work internship.

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum

Mathematics:

123 credit hours are typical, with 120 as the absolute minimum.

Finance, B.S.B.A.

The Department of Finance offers the Bachelor of Science in Business Administration in Finance.

This degree program develops an appreciation of financial management and financial operation. Everyone majoring in Finance must take courses designed to acquaint him or her with the various financial records of the firm, the character and appraisal of corporate securities, and the financial techniques applicable to the various phases of the discipline. In addition, the student may choose elective subjects.

Requirements for the Finance Major

Undergraduate core curriculum requirements:

See Core Curriculum
Business Core Requirements:

42 hours includes
- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Major Requirements:

21 total credit hours required, as follows:

15 hours of required finance courses:

- FINC 350 - Financial Statement Analysis or 
  ACCT 306 - Finan Reporting & Analysis II
- FINC 365 - Investments
- FINC 401 - Intermediate Financial Mgmt
- FINC 485 - Financial Modeling
- FINC 488 - Applied Financial Strategy or 
- FINC 492 - Portfolio Management II or 
- FINC 495 - Cases & Problems in Finance

6 hours from a finance major elective:

- FINC 306-499 (except 403) (refer to Course Descriptions.)

Electives:

- 3 hours of business electives.

Note(s):

- A 2.500 average must be attained in these courses of the major.

Scheduling Notes:

1. SHRM 200 counts as DCR elective
2. BLAW 300 counts as ERS elective (also DCR)
3. Take the First Year Seminar in one of the two semesters and THEO 111 in the other
4. Business students must take ECON 200 as Social Science Elective
5. Take INFO 120 in fall or spring semester
6. Humanities include any Literature (except 205), CLAS, HIST 200+, THEO 300+, PHIL 300+ (but cannot also double count as ERS)
7. Students complete required Financial Planning module
8. May double count with other courses

Information Systems, B.S.B.A.

The Department of Management Information Systems offers the Bachelor of Science in Business Administration degree in Information Systems.

The objectives of the Information Systems program are to facilitate good management by:

1. Providing specialized professional training in information systems principles and techniques.
2. Stimulating the application of sound information systems to the wide range of business activities.
3. Aiding in the development of the student’s intellect, communication skills, and analytic ability to prepare for the dynamic field of computer-information systems.
This degree is designed for individuals who aspire to a career as an analyst, or information systems manager or programmer. The major is conducive to a double major or as a minor to another major in the University since technology is critical to any profit or non-profit business.

Requirements for the Information Systems Major

Undergraduate core curriculum requirements:

48-63 Credit Hours dependent on courses taken, including

Mathematics:

- MATH 150 - Elements of Calculus I
- STAT 210 - Statistics For Business I

Social science:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Business Core Requirements:

42 hours includes

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Major Requirements:

18 total credit hours required, as follows:
9 hours of information systems courses:

- INFO 358 - Data Modeling and Management
- INFO 360 - Intro to Application Developmnt
- INFO 495 - System Development Project

9 hours of major elective:

Select from

- INFO 304-499 (excluding INFO 403). Students may also choose ACCT495 or FINC 495 at the discretion of course instructors. (Refer to Course Descriptions.)

Electives:

3 hours of business electives:

Preferably an Internship via

- ENTR 303 - Co-Op Education/Entrep St: JR or
- ENTR 403 - Co-Op Education/Entrep St: SR

Note(s):

- A 2.000 average must be attained in the information systems courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

International Business, B.S.B.A.

The Dept of Management and Entrepreneurship offers the degree of Bachelor of Science in Business Administration in International Business. The world is a global marketplace creating great opportunities for careers in business, trade, government and non-government organizations (NGOs) for people with good business and technical skills, as well as cross-cultural and foreign language abilities.

• Living and working in the U.S. for a company that sends you abroad for business travel, or
• Working for a company that sends you abroad to work for a number of years at a time.

The International Business major is an interdisciplinary program that provides you with skills and knowledge to pursue a long-term career in international business. Courses and faculty come from a number of disciplines across the Williams College of Business. Because companies often provide foreign assignments to employees who are trained in their domestic operations, we recommend considering a second major such as marketing, finance, information systems, or accounting; if you can't do that, take a few targeted courses in one discipline.

Requirements for the Major in International Business

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum

Mathematics:

• MATH 150 - Elements of Calculus I
• STAT 210 - Statistics For Business I
Social science:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Foreign/Second Language:

- Through the 202 course level (the Intermediate level).

Business core requirements:

42 hours includes

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Major Requirements:

21 total credit hours required, as follows:

12 hours of Global Business Skills:

- MKTG 320 - International Marketing
- MGMT 325 - International Management
- FINC 476 - International Finance

and one of the following:

- SHRM 325 - International Human Resources
- ECON 450 - International Economics
- ECON 341 - Econ of Developing Countries
- BUAD 303 - Co-op Education/Intl Bus:JR or
- BUAD 403 - Co-op Education/Intl Bus:SR
3 hours of International Business Capstone:

- BUAD 495

6 hours of Global Cultural Knowledge:

- A history course — not used to satisfy university core requirements — that addresses the history of a country or region of the world except the U.S.
- A modern language course at the 300-400 level in the language used to fulfill the modern language skill requirement of the major.
- A course in a modern language that is not being used to fulfill the modern language skill requirement in the major.

Electives:

- 3 hours of business electives.

Note(s):

- A 2.000 cumulative average must be attained in the economics courses.

International Experience

Students engage in a summer-long or semester-long study-abroad or work abroad in a country other than one's native country. (Two additional courses of foreign language generally at the 300-level or above, may be substituted for the international experience. To pursue this option, see the international business advisor; these cannot also be counted toward the International Cultural Elective.)

To help plan your courses, study- or work-abroad experience, and future career, be sure to meet with one of the international business advisors.

Management, B.S.B.A.

The Department of Management and Entrepreneurship offers the Bachelor of Science in Business Administration in Management.

The department offers a complete package of an integrated skill set for future managers and leaders to improve organizations and society. Our curricular objectives include: rapid, continual immersion into business practice; engaging rigorous and applied educational experience; transition into fulfilling careers; and lifelong learning and leadership. Our majors:

1. Learn the language of Management and Entrepreneurship used in the business world.
2. Are given an understanding for the significance of variation in human behavior in organizations.
3. Develop self-awareness, along with capabilities in problem solving, decision making, creativity, and communication.
4. Receive preparation for a variety of roles, including leader, entrepreneur, project or functional manager, and supply chair manager.
5. Are encouraged to approach business problems in an ethical, socially responsible manner.

This degree is designed for individuals who have career aspirations as management trainees, personnel trainees, in business education, who plan to attend law school, or graduate studies in business. Students interested in teaching certification in business should consult with the chair of the Education Department for certification requirements.

Marketing, B.S.B.A.

The Department of Marketing offers the degree of Bachelor of Science in Business Administration in Marketing.

Marketing is the activity, set of institutions and processes for creating, communicating, delivering and exchanging offerings that have value for customers, clients, partners and society at large. This is accomplished through marketing research, product planning and pricing, promotion, and distribution. The Marketing major develops an understanding of the concepts, functions and institutions of marketing, an appreciation of consumer orientation, and the ability to analyze marketing problems and formulate marketing policies.

This program is particularly relevant to the student planning a career in sales, advertising, consumer relations, merchandising, brand management, marketing management, marketing research, retailing, services, purchasing, business logistics, small business operations, executive management, consulting, business education, or work in certain government agencies.

Requirements for the Marketing Major

Undergraduate core curriculum requirements:

48-63 Credit Hours dependent on courses taken, including
Mathematics:

- MATH 150 - Elements of Calculus I
- STAT 210 - Statistics For Business I

Social science:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Business core requirements

42 hours includes

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Major Requirements:

21 total credit hours required (in addition to MKTG 300), as follows:

9 hours of foundations specifically required:

- MKTG 302 - Marketing Research
- MKTG 370 - Consumer Behavior
- MKTG 495 - Mktg Planning & Analysis

12 hours of electives required:

- Select from MKTG 306-494 (except MKTG 403) (Refer to Course Descriptions.)
- INFO 329 - Data Mining can be used.

Electives:

- 3 hours of business electives (business co-op can be included here via MKTG 303 or MKTG 403).
• 3 hours of general electives.

Note(s):

• A 2.000 cumulative average must be attained in these marketing courses.
• The student must earn a grade of "C" or better in MKTG 300 to advance to upper level marketing courses.
• For MKTG 495, a students must complete 9 hours of Marketing course work (above 300) before taking MKTG 495 and must be taken in their last semester. Also, MKTG 302, ACCT 200 and FINC 300 must be completed. MKTG 495 must be taken in the last semester at Xavier.
• STAT 211 must be completed before MKTG 302

• All students must complete an oral communication, writing-intensive and quantitative reasoning flagged course. Many are included within the business core or major.
• A minimum total hour for an undergraduate degree is 120 hours.
• Total credit hours needed for the business degree (BSBA) is 121-123 hours depending on your major.
• If students wish to complete two degrees 150 hours is required. A double major in business may be fewer hours.
• Students must take six hours of science - but must include 3 hours of Scientific Perspective electives and 3 hours of Natural Sciences such as BIOL, CHEM or PHYS
• Humanities include any Literature (except 205), CLAS, HIST 200+, THEO 300+, PHIL 300+ (but cannot also double count as ERS).

Strategic Human Resource Management, B.S.B.A.

The Department of Management. Entrepreneurship and Strategic Human Resources offers the degree of Bachelor of Science in Business Administration in Strategic Human Resource Management.

In today’s increasingly complex business world, there is a need for Human Resources Practitioners or Functional Specialists with well-rounded professional training to be leaders in the ethical and strategically effective employment of people in organizations. Although the primary goal of the program is to provide the professional training necessary for graduates to obtain human resources jobs, the major
should be especially appealing to students with broad interests. Reflecting this broad approach, the field of human resources is studied from a strategic approach encompassing a wide range of business areas as well as legal, economic, and political perspectives. The core program provides students the opportunity to take advanced courses that are both theoretical and practical in nature from the human resources functional areas, including staffing, compensation, training and development, change management, international human resources, and labor relations; additionally, students take the strategic HRM capstone course that emphasizes the strategic importance of HRM in organizational effectiveness and the internal assessment of HRM systems for alignment with organizational goals.

Outside of the classroom, students may expand their knowledge by participating in a part-time or full-time internship in human resources. Credit and non-credit opportunities are available.

Requirements for the Strategic Human Resource Management Major

Undergraduate core curriculum requirements:

See the Undergraduate Core Curriculum in the catalog.

Mathematics:

- MATH 150 - Elements of Calculus I

- SHRM 303 - Human Resources Internship I or
- SHRM 403 - Human Resources Internship II
- SHRM 302 - Labor Relations
- SHRM 309 - Change Management or
- MGMT 309 - Change Management
- SHRM 325 - International Human Resources
- SHRM 404 - Advanced Topics In SHRM
- MGMT 314 - Leadership
- MGMT 385 - Project Management
- SHRM 495 - SHRM Capstone

Electives:

- Three (3) hours of business electives.

Note(s):

- No more than six (6) hours may double count between MGMT major and SHRM major (excluding SHRM 200).
- A 2.000 cumulative average must be attained in these major courses.
B.S.B.A. Strategic Human Resource Management

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- Mathematical Perspective
- ENGLISH 101: English Composition
- Foreign Language I
- MARKETING 300: Principles of Marketing
- CORE 100: First Year Seminar
- BUSINESS ADMINISTRATION 101: The Business Profession I
- CORE 101

Second Semester

- Quantitative Reasoning Elective
- THEOLOGY 111: Theological Foundations
- Foreign Language II
- Historical Perspective
- ECONOMICS 200: Microeconomic Principles
- INFORMATION SYSTEMS 120: Intro to Business Tech
- BUSINESS ADMINISTRATION 102: The Business Profession I
- CORE 102

Sophomore Year

First Semester

- PHILOSOPHY 100: Ethics as Intro to Philosophy
- ECONOMICS 201: Macroeconomic Principles
- ACCOUNTING 200: Introductory Financial Accounting
- STATISTICS 211: Statistics For Business II

- STRATEGIC HR MANAGEMENT Elective
- Business Elective or Internship
- General Elective
- CORE 499
- BUSINESS ADMINISTRATION 402: The Business Profession IV

Sustainability: Economics and Management, B.S.B.A.

The Bachelor of Science in Business Administration, Sustainability: Economics and Management will be a 127 credit hour program, with a combination of classroom-based and experiential on-site learning, and key inter-disciplinary components, in the context of a Jesuit education. Sustainability is typically defined as "development that meets the needs of the present without compromising the ability of future generations to meet their own needs," and economic sustainability involves the integration of economic and organizational goals with environmental and social goals. This degree will allow student to holistically investigate the complex sustainability challenges of our era, where the economy and the organizations associated with it are seen as a component of the ecosystem, not vice versa. Students will be encouraged to imagine and assist in creating new ways of thinking about sustainability in our economies and organizations. Values-based and ethical issues will be regularly examined, including social justice questions related to distribution of economic products and resources, both within and across generations.

Requirements for the Sustainability: Economics and Management Major

Core Curriculum

Consult the Undergraduate Core Curriculum requirements of the Catalog.

Major Requirements:

- ECON 305 - Microeconomic Analysis
- ECON 320 - Natural Resource Economics
  - ECON - Environment, Economics and Policy
  - ECOS Capstone: Experiential Integrative Project
- MGMT 300 - Managerial Behavior
- MGMT 301 - Managerial Communications
- MGMT 302 - Quality & Product in Operation
- MGMT 309 - Change Management
  - MGMT 322 - Managing for Sustainability
- MGMT 333 - Global Supply Chain Mgmt
- SHRM 200 - Human Resources In a Diverse S
Recommended Business Elective:

Choose one of the following:

- BIOL 398 - SEM: Environmental Studies
- ECON 306 - Macroeconomic Analysis
- ECON 307 - Empirical Analysis In Economic
- ECON 315 - History of Economic Thought
- ECON 341 - Econ of Developing Countries
- ECON 420 - Urban and Regional Economics
- ECON 440 - Public Economics
- ECON 450 - International Economics
- ECON 460 - Labor Economics
- ECON 495 - Markets, Strategy & Rivalry
  - ECON - Sustainable Economic Development
- ENTR 305 - Creativity & Innovation
- ENTR 311 - New Venture Planning
  - ENTR - Entrepreneurial Cooperatives
- MGMT 314 - Leadership
- MGMT 325 - International Management
  - MGMT 385 - Project Management
  - Internship: Junior/Senior

TOTAL Minimum Hours Required for Degree: 120-121 Semester Hours

B.S.B.A. Sustainability: Economics and Management

Freshman Year

Fall Semester

- ECON 201 - Macroeconomic Principles
- THEO 111 - Theological Foundations or CORE 100
- BUAD 102 - The Business Profession I
- Scientific Perspectives
- Historical Perspectives
- Second Language II
- CORE 102

TOTAL (15)
Sophomore Year

Fall Semester

- ECON 320 - Natural Resource Economics
- STAT 210 - Statistics For Business I
- PHIL 100 - Ethics as Intro to Philosophy
- MKTG 300 - Principles of Marketing
- MGMT 300 - Managerial Behavior
- BUAD 201 - The Business Profession II

TOTAL (15)

Spring Semester

- ACCT 200 - Introductory Financial Acct
- INFO 220 - Mgmt of Info Tech
- BUAD 202 - The Business Profession II

• BLAW 300 - Legal Environment
• MGMT 333 - Global Supply Chain Mgmt
• BUAD 402 - The Business Profession IV
• Creative Perspectives Elective
• Business Elective (SUST Practicum or Internship)
• General Elective
• CORE 499

TOTAL (14-15)

Scheduling Notes:

• E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
• Diversity Curriculum Requirement electives may be used to satisfy other elements of the core or the major.
Bachelor of Science in Nursing

Nursing, B.S.N.

The Bachelor of Science in Nursing program is designed for the student who is interested in becoming a professional registered nurse. The graduate is prepared as a generalist to meet the health care needs of diverse populations across the lifespan in an ever-changing, highly technical health care environment. The program is focused on an holistic health and wellness model and educates nurses in the skills of communication, coordination and cooperation with an interprofessional team of health care providers in a variety of settings. Teaching is enhanced by state-of-the-art clinical simulation laboratories and interprofessional learning opportunities.

Students are able to complete a program of study leading to the degree of Bachelor of Science in Nursing (BSN) in one of two tracks: the traditional, four-year track for students with no previous baccalaureate degree or the Accelerated Bachelor of Science in Nursing (ABSN) which is designed for individuals with a baccalaureate degree in other disciplines. All students meet the four program outcomes of scholarship, leadership, service and professional and personal development.

BSN Traditional Track

The four-year pre-licensure program requires 126 credits for graduation. Xavier's core curriculum requirements complement the innovative nursing curriculum. This well-rounded approach to education enables students to develop critical thinking and communication skills - two qualities essential in today's unpredictable and increasingly complex health care environment.

The BSN traditional track is a selective admission program. Go to: http://www.xavier.edu/undergraduate-admission/Admission-Process.cfm to review admission requirements specific to nursing.

Hispanic Focus

Students enrolled in the BSN program have the opportunity to add the Hispanic Focus to their course of study. This focus is a selection of interdisciplinary courses and selected nursing assignments intended to enhance the student's understanding of, and nursing practice with, the ever-growing Hispanic population. Additional information about the Hispanic Focus is at http://www.xavier.edu/nursing-school/Hispanic-Focus.cfm.

BSN-MSN Honors Program

Students enrolled in the BSN program have the opportunity to complete a master's degree in Clinical Nurse Leader or General Studies within three to four semesters following graduation from the BSN program. Students may apply for this program during fall semester of junior year. Students should contact their faculty advisor for details and admission criteria.

Course Requirements

The BSN degree program requires undergraduate core curriculum courses, 62 credit hours of nursing courses, additional science courses, one additional math course and one additional social studies course. 120 credit hours are required for a bachelor's degree from Xavier University but due to the additional requirements for nursing major, 126 credit hours are required for the Bachelor of Science in Nursing.

B.S. in Nursing

This sample course sequence serves as a guideline for progress toward a degree. Seek guidance from your academic advisor.
Freshman Year

First Semester

- BIOL 140 - Human A&P I for Allied Health 1c
- BIOL 141 - Hum A&P I Lab Allied Health 1c
- Second Language I c
- SOCI 101 - Introduction to Sociology 1c or SOCW 167 - Survey of Society Social Work
- NURS 130 - Ways of Knowing
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar 2c
- CORE 101 - First Year Co-Curriculum Program I

Total (16)

Second Semester

- BIOL 142 - Hum A&P II for Allied Health 1c
- BIOL 143 - Hum A&P II Lab Allied Health 1c
- Second Language II c
- Mathematics Elective 2 (Required for Nursing)
- NURS 132 - Health and Culture I

- NURS 450 - Mental Health Nursing
- NURS 451 - Mental Health Nursing Pract
- NURS 470 - Community Health Nursing
- NURS 471 - Community Health Nursing Pract

Total (14)

Second Semester

- NURS 472 - Care of the Complex Client
- NURS 473 - Care of Complex Client Practic
- NURS 498 - Senior Seminar
- Nursing Elective

Total (14)

Scheduling Notes:

1. These courses must be taken in the semester indicated.
2. These core courses must be taken freshman year
3. Meets university core requirement
4. In addition to the University core curriculum requirements, all students must satisfy the 5 flags. The 5 flags include: Diversity (NURS 132 fulfills), E/RS*, Oral Communication (NURS 130 fulfills), Quantitative Reasoning (CHEM 150, 151 fulfills), Writing (NURS 370 fulfills). *Nursing students may be able to fulfill the remaining E/RS flag by selecting a Theological Perspectives courses that is also approved as E/RS flag.
5. Nursing students should choose a course that fulfills the E/RS elective.
6. Humanities elective may be satisfied by 1 course from the following: All Classics except 205: ENGL 121+ except 205; FREN 300+, GERM 300+, HIST 200+, PHIL 300+, THEO 300+. Note: Humanities Elective may not double-count as an E/RS flag (though may be E/RS flagged course).
7. No Theology course may double-count for both Theological Perspectives and Humanities Elective.
8. Each practicum credit is equal to three (3) clock hours per week.
9. The nursing elective may also be taken any time after the completion of all 200 level nursing courses.

Progression Notes:

- A minimum grade of "C" is required in all nursing courses and in science, math and social science courses.
- A cumulative GPA of 2.700 is required to progress to sophomore level and must be maintained throughout the program.

Nursing - Accelerated (ABSN), B.S.N.

The Accelerated Bachelor of Science in Nursing (ABSN) program is for individuals who have bachelor degrees in other fields and wish to become registered nurses. This program builds upon the current BSN degree program which is fully approved by the Commission Collegiate on Nursing Education (CCNE) and approved by the Ohio Board of Nursing. Admission to the ABSN program will follow the successful completion of a bachelor's degree from an accredited program.
The following four program objectives guide the ABSN program: 1. Demonstrate scholarship through critical thinking vital to professional judgement and ethical/moral decision making; 2. Exemplify service by valuing the dignity and worth of each person while providing thoughtful, compassionate and competent professional care with clients in transition; 3. Demonstrate leadership by coordinating, delegating, collaborating and maintaining collegial relationships with other members of the interdisciplinary health care team to promote the health and welfare of clients; and, 4. Value personal and professional growth through involvement in professional activities and by assuming responsibility for professional competence and continuing education.

The 63 credit hour curricula for the ABSN program is sequentially and logically structured to achieve expected individual and aggregate student outcomes related to program objectives. Didactic content is applied to health care delivery in eight (8) practicum courses over program. Practicums are started in the first semester. Content becomes more complex with each succeeding semester. Students are gradually placed in more complex health care environments within the community (i.e. schools, nursing homes, hospitals, rehabilitation centers and home health) and end their course of practicum study with an immersion experience. Successful completion of objectives for individual courses within the nursing major at each level provides the knowledge and skills necessary for a smooth transition to the next level. Upon completion of the program, students will have provided nursing care to individuals across the life span with diverse cultural backgrounds. The combined course work promotes student achievement of program objectives.

Admission Criteria

Applicants must have bachelor degrees from accredited programs with a GPA of 2.7 or better. Students must also complete Anatomy and Physiology and Microbiology pre-requisite courses.

Major Requirements

- NURS 100 - Survey of Professional Nursing
- NURS 110 - Health, Culture, and Diversity
- NURS 200 - Nursing Therapeutics I
- NURS 201 - Nursing Therapeutics I Practicum
- NURS 202 - Nursing Therapeutics II
- NURS 203 - Nursing Therapeutics II Practicum
- NURS 260 - Pathophysiology I
- NURS 261 - Pathophysiology II
- NURS 270 - Pharmacology I
- NURS 271 - Pharmacology II
- NURS 300 - Mental Health Nursing I
- NURS 301 - Mental Health Nursing I Practicum
- NURS 302 - Mental Health Nursing II
- NURS 303 - Mental Health Nursing II Practicum
- NURS 330 - Nursing Research
- NURS 340 - OB/Women's Health Nursing
- NURS 341 - OB/Women's Health Nursing Practicum
- NURS 342 - Pediatric Nursing
- NURS 343 - Pediatric Nursing Practicum
- NURS 350 - Nursing Care of the Adult I
- NURS 351 - Nursing Care of the Adult I Practicum
- NURS 352 - Nursing Care of the Adult II
- NURS 353 - Nursing Care of the Adult II Practicum
- NURS 354 - Nursing Care of the Adult III
- NURS 355 - Nursing Care of the Adult III Practicum
- NURS 430 - Community Health Nursing I
- NURS 431 - Community Health Nursing I Practicum
- NURS 432 - Community Health Nursing II
- NURS 433 - Community Health Nursing II Practicum
- NURS 480 - Nursing Care of Complex Clients I
- NURS 481 - Nursing Care of Complex Clients I Practicum
- NURS 482 - Nursing Care of Complex Clients II
- NURS 483 - Nursing Care of Complex Clients II Practicum
• NURS 499 - Transition to Professional Nursing

Course Sequence

Bachelor of Social Work

Social Work, B.S.W.

"I want to help people." This is the quest most commonly identified by students declaring social work as a major. For those with a strong desire to promote social justice and improve the collective well-being of individuals, families, groups, organizations, and communities, social work is a profession with both educational and licensure requirements. Social workers are licensed professionals helping both individual people and society with complex interpersonal and social problems.

Social Work at Xavier is a four-year undergraduate program grounded in the liberal arts which grants the student a bachelor of social work (BSW) degree and has been accredited continuously for over thirty five years by the Council on Social Work Education.

In order to graduate students who are prepared for beginning level social work generalist practice as well as for graduate school, the following five goals of the Social Work program are linked to the student learning outcomes of the University.

- Critical Thinking & Research: students will apply critical thinking skills in order to engage as a consumer and producer in research informed practice and practice informed research.
- Practice as a Professional: students will identify as professional generalist practitioner and become leaders engaging, assessing, intervening, and evaluating client systems at all levels, with an understanding of interprofessional practice.
- Ethics & Values: students will be able to engage in a decision making process based on the ethical principles of social work and identifying personal and professional values that play a role in that process.
- Policy & Social Justice: students will be able to engage in analysis and action regarding policy and practice standards that are informed by knowledge of institutional discrimination, oppression, and privilege and that advance social justice for all.
- Human Behavior & Diversity: students will be able to utilize social work cultural competency standards and theories of human behavior grounded in person-in-environment perspective, including bio-psycho-social-spiritual assessment.

Social work majors primarily complete their university core curriculum requirements during freshman and sophomore years, including four courses required by the major that are taught outside of the department. Most required social work courses are upper level courses taught inside the department during junior and senior years.

To be an effective beginning level generalist practitioner, social work majors must acquire knowledge of social work theory and develop skills as a practitioner under professional supervision. During both semesters of the senior year, students are engaged 16 hours per week in a supervised Field Placement agency setting. During spring semester of the junior year, the Director for Field Education guides students through an extensive matching process to choose their Field Placement site.

Social Work licensure requirements vary by state. To determine the licensure requirement for each state, see www.aswb.org. In many states, including Ohio, students graduating with a BSW can take the licensure exam to be a Licensed Social Worker. In Ohio, the licensure exam can be taken in spring of the senior year to prepare for employment upon graduation.

Social workers who have graduated from an accredited BSW program like Xavier's may be eligible for advanced standing admission to graduate-level MSW programs. Through advanced standing, social work graduate students can often complete their graduate degree in only one year.

Academic Performance Policy

Declaring the Major

Students may declare Social Work as a major as incoming freshmen or thereafter during their careers at Xavier as long as they are in good academic standing in the university (gpa 2.0 or higher).

- The first step is to meet with the chair of the department.
- After that, the official change of major through the registrar's office will be initiated by the department administrative assistant.
- Students will then be assigned an Academic Advisor within the Social Work Department, and are required to meet with their Academic Advisor each semester to ensure completion of the required curriculum.
- All students declaring social work as a major enter the major at provisional status.
- In the junior year, social work majors must have achieved a December 2.5 GPA to be eligible to complete the Field Placement Petition process in spring in order to enter field placement in fall of the senior year.
- Social work majors should begin their junior year with a minimum 2.5 GPA in the major as determined by the registrar (for a minimum of 3 SOCW courses taken at Xavier University).
- Those who have achieved a minimum August 2.5 GPA will be granted full acceptance into the major during fall semester of the junior year.
- Those who either have not yet achieved a minimum August 2.5 GPA or who have not yet completed 3 SOCW courses at Xavier University will be placed on provisional status as a major and have one semester, the fall semester of junior year, to meet this December GPA requirement.

**Admission & Academic Performance Policy**

1. Students must be in good academic standing (GPA of 2.0 or higher) at the university to be accepted as a social work major and an overall minimum grade point average (GPA) of 2.0 is required to graduate from Xavier University.
2. Social work course credit is not granted for life experiences or previous work experience.
3. A minimum GPA of 2.5 in the major is required to graduate with a BSW degree.
   1. This GPA is based on the 53 required social work credit hours plus the 9 credits of electives.
   2. It does not include the 12 CR of coursework required outside the department: intro to sociology, intro to psychology, human biology, and statistics.
4. All students declaring social work as a major enter the major at provisional status.
5. In the junior year, social work majors must have achieved a December 2.5 GPA to be eligible to complete the Field Placement Petition process in spring in order to enter field placement in fall of the senior year.
   1. Social work majors should begin their junior year with a minimum 2.5 GPA in the major as determined by the registrar (for a minimum of 3 SOCW courses taken at Xavier University).
   2. Those who have achieved a minimum August 2.5 GPA will be granted full acceptance into the major during fall semester of the junior year.
   3. Those who either have not yet achieved a minimum August 2.5 GPA or who have not yet completed 3 SOCW courses at Xavier University will be placed on provisional status as a major and have one semester, the fall semester of junior year, to meet this December GPA requirement.
   4. A student may appeal the 2.5 GPA policy by submitting the request in writing to the department. The department has the right to deny or grant any such request.
6. The social work department has a "C or better" grade policy for all courses required by the major. If a student receives a letter grade below a "C", meaning a "C-" or below, in a course required by the social work major, the student must repeat the course.
   1. This policy applies to all SOCW courses and those required courses taught outside the department. (listed in italics in the social work handbook/advising checklist)
   2. This policy DOES NOT apply to courses fulfilling the required 9 CR of social work electives.
   3. A student may appeal the "C or better" grade policy by submitting the request in writing to the department. The department has the right to deny or grant any such request.
7. Students fully accepted as a major with a minimum 2.5 GPA whose GPA in the major drops below 2.5 have one semester of probationary status and one semester only to return to a minimum 2.5. Students unable to do so will no longer be able to declare social work as a major.

**Termination from Social Work Major**

The Social Work Department at Xavier University is interested in promoting professionalism in social work. The termination process of the Department is designed to ensure that individuals who do not meet the expectations for entry level social work do not graduate with a social work degree.

- Prior to termination, the student will be provided with verbal and written notification of an impending action.
- An interview with the Chairperson and/or Director for Field Education will be scheduled with the student to discuss alternate options to termination.
- If an option other than termination is viable, a contract will be negotiated between the Chairperson and the student specifying steps to be taken toward resolution with a time limit for the accomplishment of the plan.
- A final interview with the Chairperson will be scheduled to determine if the steps in the contract have been successfully accomplished.
- The Chairperson may re-negotiate the contract as needed.
- Students who are terminated from the major are notified in writing of the decision.

Students may be terminated from the social work major for both academic and/or professional performance issues. Students may be terminated from the major any time after declaration of the major. To terminate a student from the major is a serious decision that is made collectively by the social work faculty. These reasons may include, but are not limited to:

**Reasons for Termination:**
1. Failure to meet or maintain academic grade point requirements as established by the University.
2. Academic plagiarism in any social work course.
3. Failure to meet academic requirements of the program.
4. Violation of the NASW Code of Ethics.

Requirements for the Social Work Major

Undergraduate Core Curriculum requirements:

48-63 Credit Hours dependent on courses taken. See Undergraduate Core Curriculum

Courses taught outside the department required by the major that also meet core curriculum requirements.

Mathematics:

- Take Statistics from either MATH 116 or MATH 156 and earn a grade of "C" or better; and take another math core class.

Science:

- BIOL 102 and BIOL 132 and earn a grade of "C" or better;

Social Sciences:

- PSYC 101 and SOCI 101 and earn a grade of "C" or better in each class.

Major requirements:

53 credit hours, as follows; and 9 credit hours of electives, as needed for a total of 62 credit hours.

Specific social work courses required, take:
• SOCW 167 - Survey of Society Social Work
• SOCW 206 - Intro to Gender & Diversity St
• SOCW 208 - Economics of Society
• SOCW 299 - Child Welfare and Development
• SOCW 300 - Adolescence - Older Adulthood
• SOCW 315 - Values, Poverty and Society
• SOCW 316 - Soc Policy & Contemporary Issu
• SOCW 320 - Communication Skills Seminar
• SOCW 352 - Research Methodology
  ◦ SOCW Upper Level Diversity Course (Choose either SOCW 318 Trends in Modern Soc: Race Rel, or SOCW 325 Women/Men: Myth & Reality )
• SOCW 392 - Practice I: Individuals
• SOCW 393 - Practice II: Groups & Families
• SOCW 394 - Practice III: Comm & Org
• SOCW 404 - Rel/Ethics & Profession Pract
• SOCW 417 - Social Work Field Instruction
• SOCW 418 - Social Work Field Instruction
• SOCW 419 - Social Work Seminar
• SOCW 420 - Social Work Seminar
• SOCW 424 - Research Paper

Social Work Electives

9 credit hours as follows:

• Minimum of nine hours in related divisional work as specified in the Support Core (or other courses approved by the department chair),

  • CJUS 101 - Intro to Criminal Justice
  • CJUS 260 - Current Issues in Crim Justice
  • CJUS 321 - Juvenile Justice
  • CJUS 335 - Inside-Out Prison Exchange
  • COMM 101 - Oral Communication
  • COMM 209 - Group Dynamics
  • POLI 140 - American Government and Politi
  • POLI 301 - Political Philosophy
  • PSYC 261 - Social Psychology

or

• SOCW 261 - Social Psychology
• PSYC 277 - Abnormal Psychology
• SOCW 318 - Trends in Modern Soc: Race Rel
• SOCW 325 - Women/Men: Myth & Reality
• SOCW 402 - Child Abuse & Family Violence
• SOCW 444 - Addictive Behaviors
• PSYC 367 - Psychology of Aging

Additional Major requirements:

• In order to enter field education courses, the student must complete the petition for acceptance into field education, and receive approval for entrance into field by the department.
• Other policies for Social Work majors are located in the departmental student handbook.
• A grade of "C" or better must be attained in each course required for the social work major, including the nine hours of social work electives.
• Exceptions to this requirement may be granted following petition to the department.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S.W. Social Work

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- PHIL 100 - Ethics as Intro to Philosophy
- Foreign Language Elective (3)
- CORE 100 - First Year Seminar
- CORE 101 - First Year Co-Curricular Program I
- SOCW 167 - Survey of Society Social Work (fulfills core Diversity Curriculum Requirement)

Total (15)

Second Semester

- THEO 111 - Theological Foundations
- Foreign Language Elective (3)
- SOCI 101 - Introduction to Sociology or PSYC 101 - General Psychology
- Creative Perspectives Elective
- Historical Perspectives
- CORE 102 - First Year Co-Curricular Program II

Total (15)

Sophomore Year

First Semester

- SOCW 299 - Child Welfare and Development (fulfills core curriculum Social Science Requirement)
- SOCW 206 - Intro to Gender & Diversity Studies
- PHIL 200 - Philosophical Perspectives
• Scientific Perspectives Elective
• CLAS 205 - Classical Lit & Moral Imagination or ENGL 205 - Literature & Moral Imagination or SPAN 205 - Hispanic Lit & Moral Imagination

Total (15)

Second Semester

• SOCW 300 - Adolescence - Older Adulthood
• BIOL 102 - Life: Human Biology
• BIOL 132 - Life: Human Biology Lab (fulfills core curriculum Natural Science Requirement)
• SOCW 208 - Economics of Society
• Humanities Elective
• Oral Communication Elective

Total (15)

Junior Year

First Semester

• SOCW 315 - Values, Poverty and Society
• SOCW 320 - Communication Skills Seminar
• SOCW 392 - Practice I: Individuals
• SOCW Elective #1
• MATH 116 - Elementary Statistics or MATH 157 - General Statistics (fulfills core curriculum Mathematical Perspectives Requirement)
• PSYC 101 - General Psychology or SOCI 101 - Introduction to Sociology

Total (16)

Second Semester

• SOCW 316 - Soc Policy & Contemporary Issu
• SOCW Upper Level Diversity Course (Choose from SOCW 318 Trends in Modern Soc: Race Rel,or SOCW 325 Women/Men: Myth & Reality
• SOCW Elective #2
• Quantitative Reasoning Elective
• SOCW 393 - Practice II: Groups & Families

Total (15)
Senior Year

First Semester

- SOCW 417 - Social Work Field Instruction
- SOCW 419 - Social Work Seminar
- SOCW 352 - Research Methodology
- SOCW 394 - Practice III: Comm & Org
- General Elective

Total (15)

Second Semester

- SOCW 418 - Social Work Field Instruction
- SOCW 420 - Social Work Seminar
- SOCW Elective #3
- Writing Intensive Elective
- SOCW 424 - Research Paper
- SOCW 404 - Rel/Ethics & Profession Pract

Total (16)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- + Several courses offered by the social work department fulfill the fourth societal focus course in the Core Curriculum's Ethics/Religion and Society (E/RS) Focus: SOCW 315 Values, Poverty and Society; SOCW 404 Rel/Ethics & Profession Pract; and SOCW 206 - Intro to Gender and Diversity Studies

Associate of Arts

English, A.A.

Core Curriculum Requirements:

See Undergraduate Core Curriculum
Concentration Requirements:

15 credit hours, as follows:

6 hours from:

- ENGL 115 - Rhetoric
- ENGL 221 - Poetry

9 hours of upper-level electives:

- ENGL 300-498 (Refer to Course Descriptions), including one course each in British literature and American literature.

Note(s):

- A 2.000 cumulative average must be attained in the English courses.

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates

French, A.A.

The Department of Classics and Modern Languages offers an Associate of Arts degree in French, German, and Spanish.

French/German/Spanish A.A. Requirements

The Department of Modern Languages offers the Associate of Arts degree in French, German, or Spanish.
Requirements for the Associate of Arts in French, German, or Spanish

The Associate of Arts degree requires a minimum of 60 credit hours including 31 credit hours of Core Curriculum Requirements and a minimum of 15 credit hours of Concentration Requirements.

Core Curriculum Requirements:

See Undergraduate Core Curriculum for details.

Concentration Requirements: 15 hours minimum from either French, German, or Spanish

- Up to twelve additional credit hours of lower division language courses may be required as determined by the placement test.
- All courses must be taught in the foreign language to count toward the concentration.
- A 2.5 cumulative grade-point average must be attained in all concentration courses.

French

6 hours of language/culture from:

- FREN 300-351 (Refer to Course Descriptions).

6 hours of literature from:

- FREN 420-462 (Refer to Course Descriptions).

3 hours of electives from:

- FREN 300-498 (Refer to Course Descriptions).

German

6 hours of language/culture from:

- GERM 300-351 (Refer to Course Descriptions).

6 hours of literature from:

GERM 410-470 (Refer to Course Descriptions).
3 hours of electives from:

- GERM 300-498 (Refer to Course Descriptions).

Spanish

6 hours of language from:

- SPAN 300 - Advanced Spanish I or
- SPAN 301 - Advanced Spanish II
  and
- SPAN 328 - Phonetics and Dialectology

3 hours of culture from:

- SPAN 350-352 (Refer to Course Descriptions).

6 hours of electives from:

- SPAN 302-498 (Refer to Course Descriptions).

TOTAL for A.A. DEGREE: 60 Credit Hours

Requirements for Associate Degrees in French/German/Spanish

Meeting degree requirements is the student's responsibility.

Candidates for associate degrees must have:

1. completed the appropriate requirements listed under the Core Curriculum - Associate's Degrees;
2. attained a 2.5 average in the course work of the concentration;
3. attained a cumulative grade point average of 2.000;
4. earned at least 60 hours;
5. completed the last 30 hours at Xavier, excluding consortium courses, unless waived by college dean;
6. transferred, normally, no more than 9 hours from another college or university toward a degree after matriculation at Xavier;
7. filed a formal graduation application by the deadline published for each semester;
8. completed all departmental requirements in the concentration field and all requirements of the college;
9. cleared all financial obligations to the University before the diploma and transcripts can be released.

In addition to the above, transfer students must have:

10. completed at least one-half of the course requirements of the concentration at Xavier.
German, A.A.

The Department of Classics and Modern Languages offers an Associate of Arts degree in French, German, and Spanish.

French/German/Spanish A.A. Requirements

The Department of Modern Languages offers the Associate of Arts degree in French, German, or Spanish.

Requirments for the Associate of Arts in French, German, or Spanish

The Associate of Arts degree requires a minimum of 60 credit hours including 31 credit hours of Core Curriculum Requirements and a minimum of 15 credit hours of Concentration Requirements.

Core Curriculum Requirements:

See Undergraduate Core Curriculum for details.

Concentration Requirements: 15 hours minimum from either French, German, or Spanish

- Up to twelve additional credit hours of lower division language courses may be required as determined by the placement test.
- All courses must be taught in the foreign language to count toward the concentration.
- A 2.5 cumulative grade-point average must be attained in all concentration courses.

French

6 hours of language/culture from:

- FREN 300-351 (Refer to Course Descriptions).

6 hours of literature from:

- FREN 420-462 (Refer to Course Descriptions).

3 hours of electives from:

- FREN 300-498 (Refer to Course Descriptions).
German

6 hours of language/culture from:

• GERM 300-351 (Refer to Course Descriptions).

6 hours of literature from:

GERM 410-470 (Refer to Course Descriptions).

3 hours of electives from:

• GERM 300-498 (Refer to Course Descriptions).

Spanish

6 hours of language from:

• SPAN 300 - Advanced Spanish I or
• SPAN 301 - Advanced Spanish II
  and
• SPAN 328 - Phonetics and Dialectology

3 hours of culture from:

• SPAN 350-352 (Refer to Course Descriptions).

6 hours of electives from:

• SPAN 302-498 (Refer to Course Descriptions).

TOTAL for A.A. DEGREE: 60 Credit Hours

Requirements for Associate Degrees in French/German/Spanish

Meeting degree requirements is the student's responsibility.

Candidates for associate degrees must have:
1. completed the appropriate requirements listed under the Core Curriculum - Associate's Degrees;
2. attained a 2.5 average in the course work of the concentration;
3. attained a cumulative grade point average of 2.000;
4. earned at least 60 hours;
5. completed the last 30 hours at Xavier, excluding consortium courses, unless waived by college dean;
6. transferred, normally, no more than 9 hours from another college or university toward a degree after matriculation at Xavier;

8. completed all departmental requirements in the concentration field and all requirements of the college;
9. cleared all financial obligations to the University before the diploma and transcripts can be released.

In addition to the above, transfer students must have:

10. completed at least one-half of the course requirements of the concentration at Xavier.

**History, A.A.**

**Core Curriculum Requirements:**

See Undergraduate Core Curriculum

**Concentration Requirements:**

15 credit hours, as follows:

3 hours of history courses from:

- HIST 134 - European History II or
- HIST 144 - U.S. History II continuation of core course.

12 hours of electives chosen from:

- HIST 200-399 (Refer to Course Descriptions.)

**Note(s):**

- A 2.000 cumulative average must be attained in these courses for the history concentration.
Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates

Liberal Arts, A.A.

This 60 hour program is designed for adult students who are interested in taking courses in several disciplines. The upper division studies requirement allows students to design their degrees through flexibility in course selection. This degree is offered by the College of Arts and Sciences and is available to students who have graduated from high school not less than four years prior to the date of acceptance into the program.

Requirements for the Associate of Arts in Liberal Arts:

Core Curriculum Requirements:

• See Undergraduate Core Curriculum

Upper Division Studies Requirement:

• 20 hours of upper division coursework

Note(s):

• A minimum of 60 credit hours is required for the degree.

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates
Political Science, A.A.

Core Curriculum Requirements:

Undergraduate Core Curriculum

Concentration Requirements:

15 credit hours, as follows

9 hours of political science courses from:

- POLI 120 - Comparative Govt and Politics
- POLI 140 - American Government and Politi
- POLI 277 - International Relations

3 hours from a choice of either:

- POLI 301 - Political Philosophy
- POLI 350 - Political Theory & Amer Regime

3 hours for an elective from:

- POLI 200-490 (Refer to Course Descriptions.)
Note(s):

- A 2.000 cumulative average must be attained in these political science courses.

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates

Sociology, A.A.

Core curriculum requirements:

Undergraduate Core Curriculum

Concentration Requirements:

15 credit hours, as follows

3 hours of elective course from:

- SOCI 200-499 (Refer to Course Descriptions.)

12 hours of sociology courses from:

- SOCI 101 - Introduction to Sociology
- SOCI 180 - Culture & Society
- SOCI 352 - Investigating Social Life I

Note(s):

- A 2.000 cumulative average must be attained in the sociology courses.
Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates

Spanish, A.A.

The Department of Classics and Modern Languages offers an Associate of Arts degree in French, German, and Spanish.

French/German/Spanish A.A. Requirements

The Department of Modern Languages offers the Associate of Arts degree in French, German, or Spanish.

Requirements for the Associate of Arts in French, German, or Spanish

The Associate of Arts degree requires a minimum of 60 credit hours including 31 credit hours of Core Curriculum Requirements and a minimum of 15 credit hours of Concentration Requirements.

Core Curriculum Requirements:

See Undergraduate Core Curriculum for details.

Concentration Requirements: 15 hours minimum from either French, German, or Spanish

- Up to twelve additional credit hours of lower division language courses may be required as determined by the placement test.
- All courses must be taught in the foreign language to count toward the concentration.
- A 2.5 cumulative grade-point average must be attained in all concentration courses.

French

6 hours of language/culture from:

- FREN 300-351 (Refer to Course Descriptions).

6 hours of literature from:

- FREN 420-462 (Refer to Course Descriptions).
3 hours of electives from:

- FREN 300-498 (Refer to Course Descriptions).

German

6 hours of language/culture from:

- GERM 300-351 (Refer to Course Descriptions).

6 hours of literature from:

GERM 410-470 (Refer to Course Descriptions).

3 hours of electives from:

- GERM 300-498 (Refer to Course Descriptions).

Spanish

6 hours of language from:

- SPAN 300 - Advanced Spanish I or
- SPAN 301 - Advanced Spanish II

and

- SPAN 328 - Phonetics and Dialectology

3 hours of culture from:

8. completed all departmental requirements in the concentration field and all requirements of the college;
9. cleared all financial obligations to the University before the diploma and transcripts can be released.

In addition to the above, transfer students must have:

10. completed at least one-half of the course requirements of the concentration at Xavier.

Theology, A.A.

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Concentration Requirements:

18 total credit hours, as follows:

6 hours of upper division electives from:

- THEO 201-499 (Refer to Course Descriptions.)
12 hours of required theology courses from:

- THEO 111 - Theological Foundations
- THEO 209 - The Christian Tradition I or
  THEO 210 - The Christian Tradition II
- THEO 303 - Christian Ethics: Methods & Q

Note(s):

- A 2.000 cumulative average must be attained in these theology courses.

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates

**Associate of Business Administration**

**General Business, A.B.A.**

The Associate of Business Administration Degree in General Business requires 65 semester hours. The student must complete at least 30 hours at Xavier University, including at least 15 hours of required business courses. The program is divided between general University core requirements and business courses. This associate degree is intended as a stepping stone toward the bachelor's degree.

Requirements for the Associate of Business Administration

**University Core Requirements:**

See Undergraduate Core Curriculum
Business Courses:

35 hours

- ACCT 200 - Introductory Financial Acct
- ACCT 201 - Introductory Managerial Acct
- BLAW 300 - Legal Environment
- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
- FINC 300 - Business Finance
- MKTG 300 - Principles of Marketing
- MGMT 300 - Managerial Behavior
- MGMT 301 - Managerial Communications
- MGMT 302 - Quality & Product in Operation
- SHRM 200 - Human Resources In a Diverse S (fulfills Cultural Diversity Elective)

Note(s):

- A 2.000 cumulative average must be attained in these business courses.

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates

Associate of Science

Corrections, A.S.

Undergraduate core curriculum requirements:

See Undergraduate Core Curriculum

Concentration requirements:

18 credit hours, as follows:
15 hours of corrections courses from:

- CJUS 101 - Intro to Criminal Justice
- CJUS 230 - Legal Aspects of Corrections
- CJUS 243 - Correctional Counseling & Comm
- CJUS 321 - Juvenile Justice
  - CJUS 336

3 additional hours must be selected from either:

- CJUS 103 - Intro to Corrections or
- CJUS 364 - Overview of Contemp Correction

Note(s):

- A 2.000 cumulative average must be attained in these corrections courses.

Requirements for all Associate's Degrees

Psychology, A.S.

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum

Concentration requirements:
15 credit hours, as follows:

3 hours required from:

• PSYC 101 - General Psychology

12 hours of electives from:

• PSYC 210 - Statistical Techniques
• PSYC 221 - Research Meth & Design I and
  PSYC 223 - Research Meth & Design I Lab
• PSYC 231 - Developmental Psychology
• PSYC 233 - Adolescent Psychology or
• PSYC 367 - Psychology of Aging
• PSYC 261 - Social Psychology
• PSYC 366 - Crime & Personality
• PSYC 277 - Abnormal Psychology
• PSYC 301 - History & Systems of Psychology
• PSYC 321 - Industrial-Organizational Psyc
• PSYC 379 - Psyc and Achievement Testing
  • Or other Psychology courses offered.

Note(s):

• A 2.000 cumulative average must be attained in theses psychology courses.
• For more information on the associate degree, contact Xavier’s Center for Adult and Part-time Students (CAPS).

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates
Radiologic Technology, A.S.

The Radiologic Technology Program offers a two year/full-time (21 months) classroom and clinical training leading to an Associate of Science degree. The hospital affiliates are Good Samaritan Hospital and Mercy Hospital-Western Hills. Education for the radiography student is an integrated plan of classroom, laboratory and clinical education. The Radiographic Practicum courses (12 credit hours and approximately 1750 clock hours) allow the students to practice the theories taught at Xavier and apply them in a clinical setting. Upon successful completion of the program, students receive an Associate Degree of Science and are eligible to apply to the American Registry of Radiologic Technology (ARRT) to take their certification examination.

Students interested in pursuing a career in Magnetic Resonance Imaging (MRI) can complete the MRI courses and clinical training after graduating from the radiologic technology program. These courses are designed to help MRI technologist working in the field prepare for the ARRT advanced examination or to help radiographers obtain their Bachelor's degree of Liberal Arts with a concentration in MRI.

Associate of Science Degree in Radiologic Technology

The program requires 73 semester hours which include courses in liberal arts and radiologic technology.

The graduates of this program are eligible to apply for the American Registry of Radiologic Technologists examination.

Requirements for the Associate Degree in Radiologic Technology:

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum

Major requirements:

37 credit hours, as follows

Specific courses are required, take:

- RADT 150 - Medical Terminology
- RADT 152 - Patient Care in Radiography
- RADT 154 - Ethics & Law in Radiography
- RADT 160 - Radiographic Procedures I
- RADT 161 - Radiographic Practicum I
- RADT 162 - Radiographic Procedures II
- RADT 163 - Radiographic Practicum II
- RADT 165 - Radiographic Practicum III
- RADT 170 - Prin of Radiographic Expos I
- RADT 172 - Prin of Radiographic Expos II
- RADT 180 - Radiation Protection and Biolo
- RADT 200 - Digital Imaging
- RADT 250 - General Radiography
- RADT 260 - Special Procedures
- RADT 261 - Radiographic Practicum IV
- RADT 262 - Pharmacology & Drug Admin
- RADT 263 - Radiographic Practicum V
- RADT 265 - Radiographic Practicum VI (optional)
- RADT 270 - Prin of Radiographic Expos III
- RADT 272 - Principles Computed Tomography
- RADT 280 - Pathology
- RADT 292 - Imaging Equipment & Film Proce
- RADT 294 - Radiographic Sectional Anatomy
- RADT 325 - Radiography Capstone

Additional Major requirements:

7 credit hours, as follows

3 Hours of PSYC 101 or SOCI 101

- PSYC 101 - General Psychology
  or
- SOCI 101 - Introduction to Sociology

3 hours of Interpersonal Communication from:

- COMM 101 - Oral Communication

Note(s):

- A grade of "C-" or better must be attained in all RADT courses.
- Courses with prerequisites cannot be taken until the prerequisite courses have been successfully completed with a grade of "C-" or better.
- All students must present evidence of the following prior to entrance in all clinical courses:
  1. Liability insurance ($2,000,000/$4,000,000), purchased through the University and billed to student's account.
  2. Health history and required physical examination form
  3. MMR immunization
  4. Yearly tuberculosis skin test (two-step)
  5. Hepatitis B series
  6. Proof of current health care coverage
  7. Verification of history of varicella (chicken pox)
  8. Tetanus-Diphtheria-Acellular Pertussia (Tdap)
  9. CPR certification
- Students are responsible for these expenses as well as for uniforms, radiographic markers, and transportation costs to the clinical sites. Students must provide their own transportation between campus and clinical sites.
Master of Arts

Clinical Mental Health Counseling, M.A.

The Master of Arts degree with a concentration in Clinical Mental Health Counseling is a professional degree designed to meet the academic requirements for the Ohio Professional Counselor (PC) license. The Program is also accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Accordingly, this degree is awarded to the candidate who has demonstrated a capacity for professional performance by satisfactorily completing the course of study. Students will learn the theory and practice of counseling and be able to apply counseling skills in a knowledgeable and skilled manner to areas such as appraisal, lifestyle and career development, counseling theory, group process, professional, and clinical issues.

Requirements for M.A. in Clinical Mental Health Counseling

60 total credit hours are required. The sequence of courses is arranged in four groups. Students should complete most of each group before proceeding to the next group.

Group I (16 credit hours):

- COUN 501 - Lifespan Development
- COUN 533 - Counseling Theories & Tech
- COUN 536 - Group Process
- COUN 579 - Psychological & Achieve Test
- COUN 630 - Intro To Mental Health Coun
- COUN 636 - Career Counseling

Group II (11 credit hours):

- COUN 509 - Counseling Research Methods
- COUN 631 - Counseling issues & Ethics
- COUN 638 - Cross Cultural Counseling
- COUN 640 - Family Relations
- COUN 669 - Pre Practicum/Coun Lab
Group III (14 credit hours):

- COUN 642 - Consultation and Supervision
- COUN 765 - Crisis Counseling
- COUN 767 - Treating Addictions Advanced
- COUN 773 - Counseling Practicum
  - Elective (3)

Group IV (19 credit hours):

- COUN 671 - Clinical Counseling Internship
- COUN 760 - Personality & Abnormal Behav
- COUN 762 - Clinical & Person Assessment
- COUN 763 - Diagnosis of Psychopath
- COUN 764 - Counseling & Psychother
- COUN 766 - Intervention Skills

TOTAL: 60 Semester Hours

Notes:

- COUN 760, 762, 763, 764, and 766 are part of Saturday clinical sequence that must be taken beginning in the Fall.

Counseling (School Counseling), M.A.

The Master of Arts degree with a concentration is School Counseling is a professional degree designed to meet the educational requirements for licensure as a school counselor. Accordingly, this degree is awarded to the candidate who has demonstrated a capacity for professional performance by satisfactorily completing the course of study. Students will learn the theory and practice of counseling in the school setting and be able to apply counseling skills in a knowledgeable and skilled manner to areas such as appraisal, lifestyle and career development, counseling theory, group process, and professional issues.

The program is designed to meet specifications of State of Ohio course requirements for school counselor in grades K-12 as well as the requirements for school counselor in the States of Kentucky and Indiana. Further, the M.A. in Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs. (CACREP).

Requirements for the M.A. in School Counseling

48 total credit hours are required. The sequence of courses is arranged in four groups.

Students should complete most of each group before proceeding to the next group.
Group I (17 credit hours):

- COUN 501 - Lifespan Development
- COUN 533 - Counseling Theories & Tech
- COUN 536 - Group Process
- COUN 537 - Intro To School Counseling
- COUN 579 - Psychological & Achieve Test
- COUN 636 - Career Counseling

Group II (14 credit hours):

- COUN 509 - Counseling Research Methods
- COUN 538 - Adv School Counseling Practice
- COUN 631 - Counseling Issues & Ethics
- COUN 638 - Cross Cultural Counseling
- COUN 640 - Family Relations
- COUN 669 - Pre Practicum/Coun Lab

Group III (7 credit hours):

- COUN 773 - Counseling Practicum
  - Electives (4)

Group IV (10 credit hours):

- COUN 642 - Consultation and Supervision
- COUN 670 - School Counseling Internship (600 clock hours)
- EDSP 500 - Sp Ed: Identification & Issue (Note: Students with training in Special Education should consult the department chair prior to enrolling in this course.)

TOTAL: 48 Semester Hours
English, M.A.

The program for the Master of Arts degree in English is designed to develop critical, expository, and research skills, a critical and historical understanding of literature and language, and a working knowledge of current theories of interpreting and evaluating literary texts.

The M.A. in English requires a completion of 30 semester hours of course work, or with the approval of your advisor, the degree can be completed with 24 semester hours of course work and completing a written thesis which earns 6 hours of credit.

The following 12 hours of courses are required of all students:

- ENGL 512 - Literary Theory
- ENGL 525 - Shakespeare
  - One 500-level graduate course on linguistics or language
  - One 500 or 600 level graduate course on women or minority authors

Language Requirement:

Students must demonstrate reading knowledge of a foreign language by attaining at least a B in an intermediate-level foreign language course (e.g., 200-level) while taken as an M.A. student.Alternately, students may pass a translation examination administered by the appropriate language department at Xavier. In addition to modern languages, ASL, Old English, Latin, and Greek will be accepted in fulfillment of the requirement. Middle English will not be accepted.

Additional Requirements:

- 18 hours of English electives are needed to complete the degree selected from ENGL 500-695 (Refer to Course Descriptions). Courses may be taken at the 300 or 400 level for graduate credit, with approval of the program director. The completion of the Master’s Thesis (ENGL 700 & ENGL 701) for 6 hours can be used in this elective area of the degree requirements.
- A 3.000 cumulative average must be attained in all the graduate credit courses.
- At the close of their studies, students must pass a written comprehensive examination based on eighteen works of literature, linguistics, composition and literary theory. Fifteen of these works are chosen by the department every two years; the remaining three are chosen by the individual student. The comprehensive examination is given in April and November.

Admission Requirements:

The Master of Arts program in English invites applications from students with a bachelor's degree and a solid academic record. Students seeking admission are expected to have a 3.200 average in their undergraduate English courses. Applicants should have excellent writing skills and a strong background in the humanities but need not be undergraduate English majors. Admission decisions are based on factors such as past academic performance, standardized test score, and other information submitted.
Note(s):

Further information and application materials may be obtained from the Office of Graduate Services, 100 Hailstones Hall, 513 745-3360. Most courses are offered in the evening for the convenience of part-time students.

**English Education, M.A.**

**Degree Requirements**

30 total credit hours, as follows:

**M.A. Core Requirements**

9 credit hours:

- EDFD 500 - History/Philosophy of Am Educ
- EDMS 506 - Statistics for Education Research
- EDMS 507 - Planning for Educational Research
- EDMS 508 - Research Paper

**Remaining Hours**

The remaining 21 hours consist of 18 hours taken from graduate level courses in English and 3 semester hours of electives that may be taken from any graduate level course in either Education or cognate concentration.

**Health Care Mission Integration, M.A.**

Xavier’s graduate program in health care mission integration combines the study of theology with the study of health services administration. This M.A. program is designed to provide preparation for Mission Directors and others who lead their colleagues in Catholic and other Christian health services to foster and enhance the spirit of love, compassion, and service within these institutions. The program focuses on understanding the Christian tradition and embodying it midst the challenges of institutional, technological, and cultural change.

Students will study in a challenging educational environment with experts in the fields of theology and health care service administration. An internship will provide field experience. Professional seminars(non-credit) are also required.
Curriculum

The Master of Arts in Health Care Mission Integration requires the satisfactory completion of 36 semester hours of course work at the graduate level and an internship, and earning an overall GPA of at least 3.000.

Theology courses:

- THEO 504 - Foundations of Scripture Study
- THEO 630 - Theology of Ministry
- THEO 540 - Modern Catholic Social Teaching

One course in faith and culture (3 cr): e.g.:

- THEO 551 - Faith, Culture & Ethnicity
- THEO 571 - Black Theology

One course in theological ethics (3 cr): e.g.:

- THEO 506 - Found Issues in Christian Ethics
- THEO 544 - Health Care Ethics
- THEO 548 - Bioethics
  - THEO 632 - Ethics in Ministry

One course in spirituality (3 cr): e.g.

- THEO 527 - Creating the Beloved
- THEO 528 - A Spirituality of Presence

Internship Requirements:

- THEO 636 - Internship in Health Care Mission

Internship of 100 clock hours with a Mission Director in a Catholic or other Christian Health Care Facility. Faculty direction will be provided for the required paper for this three credit course.
Theology credit total: 21 credit hours

Health Services Administration courses:

- HESA 682 - Hospitals:Struct/Function/Mgmt
- HESA 571 - Healthcare Services in the U.S
- HESA 511 - Managerial Concepts in H.C Org
- HESA 581 - Health Care Legal Aspects
- HESA 515 - Health Care Workforce Strategy
- HESA 583 - Ethical Issues in Health Care

HESA credit total: 15 credit hours

Total credit hours in the program: 36

Admission

To be considered for admission as a degree-seeking graduate student in the Health Care Mission Integration program you must submit the following:

- Completed application with application fee
- One official transcript of all undergraduate and graduate work from accredited colleges or universities
- Results of either the Miller Analogies Test (MAT) or Graduate Record Exam (GRE)
- Two completed recommendation forms--preferably one from someone who can address your academic or professional skills and abilities and one who can address your personal character and suitability for work in health care.
- A statement of reasons and goals for enrolling in this program (1,000-2,000 words)
- Current resume

Your application to the Xavier University graduate program in health care mission integration is carefully reviewed by our admissions committee. We consider each student's application on a case-by-case basis with personal attention given to all your application materials.

Admission criteria include, but are not limited to:

- Preferred undergraduate grade point average of 3.0 or higher on a 4.0 scale.
- Preferred GRE scores of 20th percentile or higher in quantitative section and 50th percentile or higher in the verbal section. Or preferred score of 400 or more on the Millers Analogy Test (MAT).
- Review of the completed file of the applicant.
• A personal interview with Admission Committee Members.

All entering students must have passed an accounting course in an accredited college or university.

For more information, call the Director of the M.A. in Theology, at 513 745-2894 or email issj@xavier.edu.

Admissions materials should be sent to the Health Services Administration Department, 3800 Victory Parkway, Cincinnati, OH 45207-7331. To contact that department, please call 513 745-3687 or email xumhsa@xavier.edu. The department's fax is 513 745-4301.

History Education, M.A.

Degree Requirements

30 total credit hours, as follows:

M.A. Core Requirements

9 credit hours:

• EDFD 500 - History/Philosophy of Am Educ
• EDMS 506 - Statistics for Education Research
• EDMS 507 - Planning for Educational Research
• EDMS 508 - Research Paper

Remaining Hours

The remaining 21 hours consist of 18 hours taken from graduate level courses in History and 3 semester hours of electives that may be taken from any graduate level course in either Education or cognate concentration.

Private Interests and Public Good, M.A.

Rooted in the Jesuit tradition of educating the whole person, the two-year master's cohort program is designed for community-engaged leaders and professionals working in such public arenas as non-profits, corporate social responsibility, media, public policy, health care and education. The graduate program reimagines the relationship between private interests and public good. The public-private framework emerges from the interactions among various stakeholders like businesses, non-profits, community organizations, think tanks, interest groups, and individual citizens. The resources, capabilities and efficiencies of these different stakeholders converge on social and economic issues that need our urgent attention.

The Master of Arts in Private Interests and Public Good (PIPG) takes a multi-disciplinary and experiential approach to train students to critically evaluate the impact of social problems on the public, and to situate themselves and their organizations as solutions. Graduates are able to articulate their vision, design and develop innovative systems, critically engage with and begin to solve complex problems, make decisions based on careful planning and evaluation of risk, and effectively communicate. Students are required to apply their knowledge and expertise to pressing and interesting problems through a chosen experiential project that includes a field experience and thesis.
Admission Criteria

To be considered for admission as a degree-seeking graduate student, students must first submit the following to the Office of the Graduate School:

- Completed application at www.xavier.edu/grad.
- Official transcript of all undergraduate and graduate work.
- Current and updated resume/CV.
- A 500-word minimum statement of purpose.
- Two letters of reference from individuals commenting on the applicant's academic/professional potential.
- Official test scores from the Graduate Record Exam (GRE).
- TOEFL (Test of English as a Foreign Language) or IELTS (International English Language Testing System) test scores for all sections are required of applicants whose native language is not English or whose four-year undergraduate degree program was not in English.

Applicants are encouraged to meet with the program director prior to completing the application process. Please contact the Office of the Graduate School to learn more and apply (513-745-3360).

Curriculum (36 Credit Hours)

Year One

Fall Semester

- Private Interests & Public Good I
- Media, Democracy, & Public Sphere
- Advanced Public Policy Practice

Spring Semester

- Private Interests & Public Good II
- Advanced Political Analysis
- Economics of Public Policy

Summer Semester

- Innovation
- Computers, Algorithms, and Security
Year Two

Fall Semester

• Field Experience

Spring Semester

• Thesis

Psychology, M.A.

The degree of Master of Arts in Psychology is designed to prepare students for employment in a related field and/or to continue their graduate studies at the doctoral level. The School of Psychology offers a terminal Master of Arts degree in psychology with students choosing one of two tracks: General Experimental Psychology or Industrial-Organizational Psychology. Students in both programs attend on a full-time basis.

Students admitted into either area of concentration must maintain a semester grade point average of 3.000 or higher to remain in good standing. The degree of Master of Arts in Psychology will be awarded only to candidates who have completed all coursework and attained a GPA of 3.000 or higher, and demonstrated a reading knowledge of a foreign language or demonstrated a proficiency in a computer language (PSYC 520 and PSYC 521) and, have both successfully defended their thesis and demonstrated their knowledge of the general field of psychology during their oral exam. The oral exam is to be administered in the spring semester of the second year. There is a 6-year time limit to complete all program requirements. If the thesis has not been defended after the second year of enrollment in the Master's program, the student is expected to be enrolled in PSYC 790, Continuous Major Research (3 credit hours) each Fall and Spring semester until the thesis is defended and deposited in the library or the student has reached the 6 year limit for the Master's program.

Admission Requirements

In order to have your application reviewed by the department you need to have the following materials sent to the Department of Psychology by the February 1st annual deadline date for submission.

Go to http://www.xavier.edu/psychology-grad/io-admission.cfm or http://www.xavier.edu/psychology-grad/experimental-admission.cfm to reference the specific admission requirements.

Summary List of Admission Requirements for MA in Psychology

To be eligible for admission, applicants should submit the following items to the Department of Psychology before the February 1st deadline:

1. A completed application form either by paper or on-line at https://www.xavier.edu/apply/grad/.
2. Non-refundable $35.00 application fee.
3. One copy of all official transcripts from all previous colleges and universities attended. A minimum 3.000 overall undergraduate grade point average (on a 4.0 scale) and a minimum 3.000 average in all Psychology courses.
4. Three letters of recommendation.
5. Resume or vita.
6. A written personal statement (2-3 pages) which gives you the opportunity to introduce yourself to the department and give reasons for pursuing a graduate degree, and plans after completion of studies.
7. GRE scores: General Knowledge (verbal, quantitative and analytical) area is required. Psychology Subject Test required for those without psychology as their undergraduate major or minor.
9. Any other information that might aid in the selection process.

A minimum of 18 semester undergraduate hours in psychology is required which must include general psychology, psychology statistics, psychology research methods class with laboratory component, and a psychology tests and measurements course. Courses in developmental psychology are helpful. Courses in biological science and college mathematics are also recommended as a preparation for graduate studies. An undergraduate course in industrial-organizational psychology is necessary for students pursuing the industrial/organizational concentration. Personality and character traits which are in agreement with ethical standards of psychology are necessary. At times, a personal interview may be required by the Admissions Committee of the Department of Psychology. The prospective student will be notified by the Department and arrangements will be made at that time. Any other questions regarding the program should be directed to the Department of Psychology Assistant Director for Enrollment and Student Services at 513 745-1053.

Grading Policy

Grades are based on a student's performance meeting the standards established and communicated in writing by the professor of the course. A semester grade point average of 3.000 or higher is required for a student to remain in good standing. Any student whose semester (Fall, Spring, Summer) GPA falls below 3.000 or who earns a grade of "C (includes C+ or C)" or "F" in any 2 credit hour course will be placed on "WARNING" by the Dean of the College of Social Sciences, Health, and Education and remains on WARNING throughout the remainder of the program. Once on warning, any student whose semester (Fall, Spring, Summer) GPA falls below a 3.000 may be dismissed. In addition, once on warning, any student who earns a grade of "C" or "F" in any course is subject to dismissal immediately. A student who earns a grade of "C" or lower in 4 hours or more of course credit in one semester may be subject to dismissal immediately. The following interpretation of letter grades is used by the department A=excellent, B=good, C=minimal, and F=failure. Faculty may use a +/- system in grading. Students receiving a "C" in a course may be required to retake the course or do additional work to satisfy specific deficiencies. This will be determined by the professor of the course and will be discussed with the student and his/her advisor. The student may be required to register for a one hour tutorial (PSYC 900) to complete the necessary remedial work, for which he/she must earn a grade of pass to fulfill the requirements for the additional work. The work must be completed by the student during the following academic semester. Students receiving an "F" in a course are required to retake the course. A cumulative GPA of 3.000 or higher is required for graduation. An A=4 points, a B=3 points and a C=2 points. Pluses and minuses alter the merit points by .3.

Requirements for M.A. in Psychology: General Experimental Psychology track

The general experimental track in Xavier's master's degree program embraces a 45-credit hour requirement extending over two full-time academic years.

Three themes run through the General Experimental program and are reflected below:

2. Research

Other core courses reflect the importance of a research foundation in psychology (15 credit hours).

• PSYC 511 - Advanced Statistics I
• PSYC 512 - Advanced Statistics II
1. General Psychology

Four core courses that help assure basic knowledge within the general field of psychology (12 credit hours).

- PSYC 504 - Theories of Personality
- PSYC 506 - Advanced Social Psychology
- PSYC 609 - Learning & Cognition or PSYC 509 - Cognitive Aspects of Behavior
- PSYC 502 - History & Philosophical Issues

3. General Experimental Concentration

(18 credit hours)

- PSYC 590 - Internship: Gen Exper Psycholo
- 12 credit hours of related elective courses to fit student's professional interests.

Internship

The six-credit hour required internship involves a minimum of 240 hours of supervised work experience in a setting appropriate to the student's interests. It is often completed over two semesters and may be performed either in a single location or at two different sites. The internship must be approved by the Department Chair and the student receives a grade for each of the two semesters of supervised work.

Thesis

The required thesis carries 6 credit hours and takes the form of an empirical research study. Under the supervision of an advisor, the student develops a thesis proposal and presents this to a three member committee made up of faculty members and/or interested psychologists from the Cincinnati community. Upon completion, the student presents the thesis to the same committee. A single final grade is assigned to the thesis.

Language Requirement

Students in both tracks of the master's degree program must demonstrate proficiency in a computer language, typically gained through the courses PSYC 520 and PSYC 521.
Requirements for M.A. in Psychology: Industrial-Organizational Psychology track

The industrial-organizational concentration requires 43 credit hours and a full-time commitment over two academic years.

Three themes run through the I-O psychology program and are reflected in the typical two-year schedule of classes in the program.

1. General Psychology (3 credit Hours)

Three areas of psychology, integrated into a proseminar course, help assure basic knowledge within the general field of psychology. These three areas are theories of personality, advanced social psychology and learning and cognition. This course is PSYC 579 - ProSem: Applied I/O Psychology.

2. Research (15 credit hours)

Other core courses reflect the importance of a research foundation in psychology. These courses are:

- PSYC 511 - Advanced Statistics I
- PSYC 512 - Advanced Statistics II
- PSYC 520 - Computer Statistics Language I
- PSYC 521 - Computer Stats Language II
- PSYC 621 - Adv Research Design & Analysis
- PSYC 699 - Master's Thesis (6 hours)

3. Industrial-Organizational Psychology (25 credit hours)

A larger group of courses directly serve student interests in I-O Psychology. For first year students, 10 hours of I-O psychology courses are incorporated. For second year students, these courses include 15 credit hours. Overall, these courses consist of:

- PSYC 522 - Personnel Psychology
- PSYC 593 - Internship in I-O Psychology
- PSYC 641 - Assess Tech in Indust-Org Psyc
- PSYC 643 - Sem: Industrial - Org Psyc
- PSYC 644 - Organizational Psychology
- PSYC 645 - Train & Devel in Organizations
- PSYC 660 - Performance Appraisal

Note(s):

The I-O psychology curriculum reflects the areas of competence to be developed in master's level I-O psychology courses, as identified in Guidelines for Education and Training at the Master's Level in Industrial-Organizational Psychology, 1994, Society for Industrial and Organizational Psychology, Inc. (Division 14 of the American Psychological Association). The curriculum is structured in such a way that later courses build on the content disseminated in earlier courses.
Internship

The three-credit hour internship comprises 120 clock hours of supervised work in an appropriate field setting. This work may take the form of a project arranged with an employer that allows the student full responsibility for designing and carrying out the project, or the practicum may bring the student into an ongoing activity within an organization, such as employment interviewing or testing. The student receives a final grade for the practicum.

Thesis

The thesis carries six credit hours and takes the form of an empirical research study. Under the supervision of an advisor, the student develops a thesis proposal and presents this to a three-member committee made up of faculty members and/or interested psychologists from the Cincinnati community. Upon completion, the student presents the thesis to the same committee. A single final grade is assigned to the thesis.

Language Requirement

Students in both tracks of the master's degree program must demonstrate proficiency in a computer language, typically gained through the courses PSYC 520 and PSYC 521, Computer Statistical Language I and II.

Theology, M.A.

The mission of Xavier's theology program is to provide a transformative theological education from a Catholic and ecumenical perspective inspired by the documents of the Second Vatican Council and the 35th General Congregation of the Society of Jesus. Accordingly, our mission empowers graduate students to: think theologically, analyze issues from a Catholic and interreligious perspective, and act responsibly in the world for the promotion of peace and justice.

Our graduate program in theology provides students with a firm foundation in Christian theology through the study of scripture, tradition and ethics. The program however, is flexible enough to accommodate a wide variety of interests while equipping students with the historical awareness and professional resources necessary to enter or advance in careers such as teaching, ministry or writing; to pursue doctoral work; or to promote their spiritual development.

Because no definite amount of previous study of theology is prerequisite for admission to the program, students may vary considerably in their preparation. Ordinarily, applicants should have a background in the humanities, but each applicant will be considered individually. Students without sufficient undergraduate background in theology or religious studies will normally be required to take THEO 501, Intro to the Study of Theology, as a prerequisite for admission to the M.A. program.

All applicants must have a bachelor's degree from a regionally accredited institution with an undergraduate GPA of 2.700 or better. In addition, all applicants must complete the Miller Analogies Test (MAT) prior to acceptance and obtain a score of 406 or higher. The MA in Theology will require satisfactory completion of 30 semester hours of graduate work (i.e. ordinarily ten courses), all of which must be at the graduate (500-800) level.

Undergraduates who attend Xavier University have a unique opportunity to begin work towards their master's degree during their undergraduate programming. The 5-year path provides a focused, cost-effective way for our most qualified undergraduate students to prepare for a broad variety of professional careers in the service of faith and the promotion of justice in a diverse and pluralistic world.
30 total credit hours are required, as follows:

- THEO 504 - Foundations of Scripture Study
- THEO 520 - Journey Through Christianity I
- THEO 524 - Journey Through Christianity II

One course in ethics, including:

- THEO 506 - Found Issues in Christian Ethic
- THEO 540 - Modern Catholic Social Teaching
  - THEO 542-545 (Refer to Course Descriptions.)
  - THEO 547 - Ethics For a Planetary Crisis
- THEO 548 - Bioethics
- THEO 572 - New Testament Ethics
- THEO 615 - Contemporary Ethical Issues

One course in systematics, including:

- THEO 595 - Christian Eschatology
  - THEO 530-695 (Refer to Course Descriptions.)
  - THEO 624 - Theological Imagination

Five graduate-level theology electives selected from:

- THEO 500-695 (Refer to Course Descriptions.)

Note(s):

- A 2.800 cumulative average must be attained in all the graduate credit courses.
- Some students may substitute a 6-hours thesis (THEO 699) for two of their elective courses. This must be discussed and agreed to with an advisor prior to completion of the first 12 hours of graduate work. The thesis will be read by its director and two additional readers, and it must be defended in a final oral examination. Students who do not write a thesis will be required to 1) submit a research paper demonstrating their mastery of research skills and their ability to synthesize key themes from their coursework into a coherent theological position, or 2) successfully pass a comprehensive examination covering the central subject matter of the graduate program. In both cases, a faculty committee will assess the quality of this final paper or exam.
Two optional concentrations are available, which can be added and incorporated into the program.

Concentration in Social and Pastoral Ministry:

Students engaged in or preparing for professional ministry in church and society may choose to complete this concentration.

Beyond the 30 hours required for the M.A. degree, the concentration requires six additional credit hours in ministry skills courses and a three credit ministerial internship (THEO 690). Two required courses, Theology of Ministry (THEO 630) and Ethics in Ministry (THEO 632), take the place of two M.A. electives.

Concentration in Religious Education:

This is designed to prepare theology students to meet the Archdiocese of Cincinnati's professional requirements for Catholic High School Religion Teacher Certification at the secondary level.

Beyond the 30 hours required for the M.A. degree, the concentration requires at least 15 additional credit hours. This includes Student Teaching for 9 hours from EDMS 470, along with THEO 538 and EDMS 550 as required courses. Also, a choice of either EDFD 503 or EDFD 510 is required. Note that THEO 538 can double count as an elective in the 30 hours required for the MA Theology degree.

Foundational Courses

- THEO 504 - Foundations of Scripture Study
- THEO 520 - Journey Through Christianity I
- THEO 524 - Journey Through Christianity II
  - THEO 624 - Theological Imagination: Approaches to the Sacred
  - One THEO course in ethics.
Concentration Courses

4 Elective Courses in Graduate-Level Theology (12 Hours)

Final Research Paper

Note(s):

The MA program in Theology invites applications from students with a bachelor's degree and a solid academic record. Admission decisions are based on factors such as past academic performance, standardized test score, interview, and other information submitted. Further information and application materials may be obtained from the Office of Graduate Services, 513 745-3360.

Institute for Spirituality and Social Justice

The ISSJ of Xavier's Theology Department empowers constructive theological reflection and responsible social action through three tracks, including (1) Professional Practice (Ethics, Spirituality, and Professional Practice, or ESSP), (2) Solidarity and Sustainability in a Global Context (SSGC), and (3) Pastoral Care (Applied Spirituality and Pastoral Care, or ASPC). Each track includes offerings in three areas, (1) Programs, Workshops, and Retreats, (2) Certificates, and (3) Graduate Degrees. Each of the three tracks in all three areas is designed to cultivate depth of thought, imagination, and critical skills in a world challenged by violence, social inequity, and environmental instability. Distinctive features of the Institute include experiential learning through spiritual formation, practicums/internships, and the program capstone. The Institute is rooted in a rich tradition of spiritual practices coupled with rigorous intellectual inquiry and social analysis which manifest the Jesuit commitment to work in the service of faith and the promotion of justice in a diverse and pluralistic world.

For more information, call the Director of the M.A. in Theology, at 513 745-2894 or email issj@xavier.edu.

MA in Theology ISSJ Tracks:

Ethics, Spirituality and Professional Practice (36 credit hours)

The Professional Practice track is designed for professionals in business and non-profit communities interested in developing deeper spiritual understanding as well as practical skills for competent, ethical and theologically informed professional practices. This track is also appropriate for students interested in careers in the management and administration of churches and church-related organizations and corporations such as dioceses and social ministries.

The Professional Practice track combines theory and practice, building on the traditions of spiritual discernment (Ignatian and others), theological reflection and purposeful action. It develops adult learners as knowledgeable, thoughtful and responsible professionals who improve their work environments and society as a whole. Students learn to respond to challenging situations presented in their professional environments in ethically and spiritually responsible ways.

The program presumes a pluralistic religious environment in the workplace, emphasizing ways to understand, recognize, negotiate and celebrate interfaith relationships. It also reflects Xavier's mission to educate students to serve with excellence and ethical integrity in professional fields and to work for social and economic justice.

The goals of the program are:
• To improve understanding of the Christian spiritual, theological and ethical tradition in dialogue with contemporary challenges of religious traditions.

• To prepare professionals with a sound knowledge of ethical traditions and a commitment to bringing social-ethical perspectives to business and service environments.

• To facilitate the spiritual and theological formation necessary for professionals to integrate professional expertise with competent, ethical, and spiritually informed management practices.

Foundational Courses

• THEO 503 - Liberating Bible
• THEO 520 - Journey Through Christianity I: Community, Authority and Expansion
• THEO 524 - Journey Through Christianity II: Reformations, Modernities and the Global Context
• THEO 624 - Theological Imagination: Approaches to the Sacred
• THEO 547 - Ethics in a Time of Planetary Crisis
• THEO 690 - Discernment and Integration: Capstone Course

ESPP Track Courses

• Ignatian Tradition Course
  ◦ The Ignatian Tradition course can be satisfied by any one of several different courses, such as THEO 513 Jesuit Theology & Spirituality or THEO 514 - Spiritual Exercises in the 21st Century.
• Scripture and Justice Course
  ◦ The Scripture and Justice Course requirement could be fulfilled by one of several possible courses, such as THEO 579 - The Bible and Economic Justice or THEO 580 - Power, Politics and Empire in the New Testament.
• World Spiritual Traditions Course
  ◦ The World Spiritual Traditions Course can be satisfied by one of several possible courses, such as Introduction to Buddhist Spirituality, or Sufism
• THEO 644 - Human Person: Spiritual and Psychological Development

Elective Courses or Research-Based Thesis Option

Solidarity and Sustainability in a Global Context (36 credit hours)

The Solidarity and Sustainability track revolves around the typical definition of sustainability as "development that meets the needs of the present without compromising the ability of future generations to meet their own needs."

This track integrates questions of economic, social and environmental sustainability with the spiritual traditions that engage human potential. Ethical issues are regularly examined, including social justice questions related to distribution of resources, and the need for communal and environmental stewardship in a variety of ways, including the kinds of personal and social transformation that stem from a "change of heart."

Goals of the program include:

• To form an awareness of the current issues of economic and environmental sustainability.

• To develop an appreciation of the complexity and interrelatedness of the global issues that impact economic and environmental sustainability.

• To develop an appreciation of the cultural and historical underpinnings of religious traditions and to learn from other religious traditions in order to deepen one's life and contribution to the world.
• To acquire an ability to discriminate between the peaceful practices and the violent habits within religious traditions and to strengthen the recognition of the diversity of the human drives, seeking meaning within and beyond established religion.

• To engender habits of responsible collaborative action grounded in critical theological reflection and ethical discernment, and to invite others to engage in similar reflection and action.

Foundational Courses

• THEO 503 - Liberating Bible
• THEO 520 - Journey Through Christianity I: Community, Authority and Expansion
• THEO 524 - Journey Through Christianity II: Reformations, Modernities and the Global Context
• THEO 624 - Theological Imagination: Approaches to the Sacred
• THEO 547 - Ethics in a Time of Planetary Crisis
• THEO 690 - Discernment and Integration: Capstone Course

SSGC Track Courses

• Ignatian Tradition Course
  ◦ The Ignatian Tradition course can be satisfied by any one of several different courses, such as THEO 513 Jesuit Theology & Spirituality or THEO 514 - Spiritual Exercises in the 21st Century.
• Scripture and Justice Course
  ◦ The Scripture and Justice Course requirement could be fulfilled by one of several possible courses, such as THEO 579 - The Bible and Economic Justice or THEO 580 - Power, Politics and Empire in the New Testament.
• World Spiritual Traditions Course
  ◦ The World Spiritual Traditions Course can be satisfied by one of several possible courses, such as Introduction to Buddhist Spirituality or Sufism
• Global Justice or Ethics Course
  ◦ The Global Justice or Ethics course can be satisfied by one of several different courses, such as THEO 607 - Theology of Immigration or THEO 610 - Christian Ethics and Globalization.

Elective Courses or Research-Based Thesis Option

Applied Spirituality and Pastoral Care (39 credit hours)

The Applied Spirituality and Pastoral Care track is oriented to human growth and is thus appropriate for all seekers, but it is also specifically helpful to those preparing for professional practice in varieties of pastoral care including chaplaincy, education, campus ministry, youth ministry and varieties of social ministries.

The track explores the richness of Christian spirituality as a way of life oriented to the intellectual, affective, humane and relational qualities of human existence that make life meaningful and worthwhile. It prepares students to engage pastoral work in pluralistic contexts, since their social and pastoral ministries require cultural sensitivities, practical skills and a capacity to connect across religious traditions, with openness and respect.

Through the track, students:

• Gain knowledge about the tradition of Christian spirituality as a resource for theological imagination, personal and communal identity, and personal development.

• Gain an understanding of spiritual practices that promote personal growth, health and well-being, and share those spiritual practices with others in ways that are sensitive to and respect our pluralistic cultural context.

• Gain the skills necessary to engage pastoral practice with clarity about how spiritual growth and spiritual practice enhances their effectiveness and their longevity as pastoral caregivers.
Foundational Courses

- THEO 503 - Liberating Bible
- THEO 520 - Journey Through Christianity I: Community, Authority and Expansion
- THEO 524 - Journey Through Christianity II: Reformations, Modernities and the Global Context
- THEO 624 - Theological Imagination: Approaches to the Sacred
- THEO 547 - Ethics in a Time of Planetary Crisis
- THEO 690 - Discernment and Integration: Capstone Course

ASPC Track Courses

- Global Justice or Ethics Course
  - The Global Justice or Ethics course can be satisfied by one of several different courses, such as THEO 607 - Theology of Immigration or THEO 610 - Christian Ethics and Globalization.
- THEO 630 - Theology of Ministry
- THEO 632 - Ethics in Ministry
- THEO 644 - Human Person: Spiritual and Psychological Development
- THEO 645 - Pastoral Care & Counseling
- THEO 635 - Ministerial Internship or THEO 738 - Youth & Campus Ministry or THEO 715 - Supervised Field Education

ASPC Practicum

- CPE (Clinical Pastoral Education) with Theological Reflection

Urban Sustainability, M.A.

Urban sustainability involves a reexamination of urban and regional development and an understanding of the role of cities in global environmental change. The challenge is to make cities centers of engaged citizenship and humane living rather than the source of continued environmental and resource degradation.

The challenges of urban sustainability demand of its professionals a broad, multi-faceted, interdisciplinary education, including work in the humanities that speak to the ultimate purposes of urban life. Xavier University's M.A. in urban sustainability provides the breadth of complementary approaches and interdisciplinary perspectives essential to understanding and tackling the complicated interrelationships and challenges of urban sustainability. In bringing together students and faculty from the fields of business, environmental science, public policy, and urban planning and design, the M.A. in urban sustainability produces graduates with the necessary analytical and decision-making skills for careers in the public and private sectors. The interdisciplinary mix of students and faculty provides a rich learning environment that will illuminate the critical connections at the intersection of the sciences, business, public policy, and the built environment.

Course Sequence (40 Hours)

Year One: Fall Semester

- HIST 536 - Urban Ecologies and Economies
- SOCI 554 - Introduction to Urban Systems
- POLI 554 - The Politics of Urban Sustainability
Year One: Spring Semester

- SOCI 555 - Urban Development and Space
- UNST 554 - Urban Geography and GIS
- SOCI 552 - Quantitative Analysis
- Field Placement Planning

Summer Semester

- Fieldwork and Fieldwork seminar I

Year Two: Fall Semester

- MGMT 621 - Corporate Sustainability
- ECON 520 - Urban and Regional Economics
- COMM 554 - Strategic Organizational Communication

Year Two: Spring Semester

- PHIL 554 - Eco-Systems Thinking
- PHIL 506 - Social Justice in the City
- HIST 554 - The City as Vocation (4 Tracks)
  - Urban Planning & Community Organizing
  - Politics and Urban Administration
  - Sustainability Initiatives in the Corporate and Non-Profit Sectors
  - Scientific-Technical Research in Sustainability

Master of Business Administration

Emerging Leaders MBA

The Emerging Leaders MBA (ELMBA) is designed to be a 1-year, full-time, Master of Business Administration program for undergraduates who have recently completed their undergraduate degrees, as well as those with early career experience. It is a cohort program designed for the academically talented individual with a keen interest in experiencing a rigorous MBA program that blends academic challenge, experiential learning, career development, and a team-based learning environment in the Jesuit tradition.
The 39-credit hour program includes nine 3-credit courses and nine hours of electives, which may be focused in a particular subject area or in the experiential learning realm. The program builds upon the academic talents & foundations of students and offers a myriad of "classroom to conference room" avenues such as: international study, internships, consulting projects, business plan development, company visits, and extensive networking.

Classes will be held during the day. The full-time course load, on average, will be between 4-5 classes. The two MBA foundation courses of ACCT 500: Financial Accounting and STAT 500: Business Statistics must be taken before the start of the program. Consult with a MBA advisor before registering for equivalents.

The ELMBA requires a mandatory professional development program that will run throughout the entire course of the program. Professional development programming will take place on Fridays. Participation in a global immersion experience, an internship, the Executive Mentor program, and other experiential opportunities is highly encouraged.

### Fall Semester

- BLAW 550 - Business Law and Ethics
- ECON 550 - Managerial Economics
- FINC 550 - Fundamentals of Finance
- MGMT 550 - Strategy and Organizations
- MKTG 550 - Marketing Strategy

### Spring Semester

- MGMT 551 - Operational Analysis
- INFO 550 - Business Information Systems
  - ACCT 550: Managerial Accounting
  - International Business: BUAD
  - Experience based Electives (choose one):
    - International Immersion trip over Spring Break OR
    - ENTR 668: Small Business Consulting OR
    - MGMT 654: Project Management

### Summer Semester

- Capstone
- Experience based Electives (choose one):
  - MBA Internship
    - ENTR 668: Small Business Consulting
  - Independent Study or Research
Evening MBA

The Master of Business Administration Program at Xavier University is designed to meet the educational needs of potential and practicing executives. Xavier’s MBA program offers an applied realistic approach to education, utilizing a balanced presentation of relevant theory combined with practical case study. The Xavier MBA is an experience in participative learning: case analyses, lectures, group projects, consulting experiences, technology inclusive assignments and simulations. Faculty expertise, numerous on-ground learning opportunities, and exemplary methods of instruction enable Xavier MBA students to acquire the disciplines and skills of business. Students develop problem-solving and decision-making abilities and the capacity for continued learning, strategic decision making, comprehensive corporate stewardship, and personal ethics & leadership. The Evening MBA program is offered on the main Xavier campus in Norwood, Ohio.

The MBA program is also offered in a 20 month evening cohort format in West Chester, Ohio.

The Xavier MBA program is accredited by The Association to Advance Collegiate Schools of Business (AACSB.edu), an accreditation held by only one-third of the existing MBA programs globally.

MBA program applicants are asked to take the Graduate Management Admission Test (GMAT) prior to admission. Test information may be obtained on-line at www.mba.com. The Graduate Record Exam (GRE) is also accepted for MBA admission consideration. Persons holding a doctoral level degree are waived from taking the GMAT or GRE. Information regarding the MBA program may be obtained from the MBA Office Coordinator at 513 745-4800 or email mbaadmit@xavier.edu. However, an MBA applicant may petition for waiver of the GMAT or GRE based upon undergraduate academics and significant work & management experience. This petition may be submitted during the application process.

It is the responsibility of the graduate student to become informed concerning all required regulations and procedures and to know all courses required for the MBA course of study. In no case will a regulation or course be waived or an exception granted because a student pleads ignorance of the regulation or asserts that information was not given by an advisor or other authority. MBA students must abide by all regulations contained in the MBA Academic Standards form and uphold the standards and expectations of the Ethics Policy.

Xavier MBA participates in a unique partnership with other AACSB accredited Jesuit universities' MBA programs, which are located in major American metropolitan areas. Under the terms of the partnership, each institution works to accept the majority of the coursework completed toward an MBA degree at another participating institution. However, the ultimate decision on course transfer lies with the degree granting institution. Each course transferring must carry a grade of "B" or higher. The MBA is awarded by the institution where more than half of the core degree requirements were completed. From all other AACSB institutions, a maximum of six semester hours of transfer credit for core level and elective courses may be accepted toward the MBA degree. All transferred coursework must be approved by the MBA office and carry a grade of "B" or better. Graduate courses already applied towards a degree may not be used again for credit toward another graduate degree. The grade and quality points for credits transferred from another institution are not included in a student's grade point average.

MBA degree requirements

The Master of Business Administration requires a minimum of 39 credit hours with a GPA of at least 3.000.

Foundation Skills (500-level) courses do not count toward the 39-hour minimum.

Foundation Courses

(5 semester hours)

These courses can be waived or tested out.

- ACCT 500 - Foundations of Financial Acct
- STAT 500 - Business Statistics
Note(s):

- One or both of these courses may be waived depending upon the student's previous academic credentials provided the prior academic coursework is less than five years old and has a grade of "B" or higher. The CLEP waiver exam meeting the minimum score is accepted for ACCT 500. A Xavier-based waiver exam is available for STAT 500. Either exam -may be taken once. If not passed, then the corresponding foundation course must be taken. These courses must be completed before those courses with the pre-requisite.

The MBA Core

(27 semester hours)

These specific topics emphasize the integration of skills applied to complex business decisions.

- ACCT 550 - Managerial Accounting (Pre-req: ACCT 500)
- BLAW 550 - Business Ethics & Law
- BUAD 550 - International Business or any other International Business Elective
- ECON 550 - Managerial Economics
- FINC 550 - Fundamentals of Finance (Pre-req: ACCT 500, STAT 500)
- INFO 550 - Business Information Systems
- MGMT 550 - Strategy and Organizations
- MGMT 551 - Operational Management (Pre-req: STAT 500)
- MKTG 550 - Marketing Strategy

Capstone:

(3 semester hours)

Pre-requisite: complete all the required M.B.A. courses.

Designed to draw on the cumulative knowledge and experience gained during the M.B.A. experience.

Choose one:

- BUAD 690 Corporate Governance  or
- BUAD 691 Global Strategic Thinking  or
- BUAD 694 Bond Portfolio Management

Elective Areas of Concentration and minimum 9 credit hours required

- Business Administration (9)
- Business Intelligence (9)
- Finance (12)
- Innovation, Change & Entrepreneurship (9)
- International Business (9)
- Marketing (9)
- Pricing Strategy (9)
- Values-Based Leadership (9)

Contact the M.B.A. office for further details and developments. Some concentrations have required courses. Consult with your academic advisor and the Degree Evaluation report that is available on the Xavier Student Hub.
Students may tailor electives in the area(s) of concentration of their choice to provide a broader understanding of the business world or to specialize their degree. All MBA electives, no matter the department, count toward the Business Administration (MBAN) concentration, which is the default concentration for all students. A declaration of concentration must be made to the MBA office. Opportunities for international study trips, independent study tutorials, and experimental courses are often available for students and do count toward the Business Administration (MBAN) concentration. Such opportunities must be discussed with an MBA advisor.

**MBA Plus Concentration**

A student with an MBA degree earned from any accredited school may participate in the MBA Plus concentration program earning a certificate in any of the above areas of concentration or take graduate level business courses in line with personal interests. The MBA Plus program is a non-degree program.

**Executive MBA Program**

The Executive MBA Program develops a student's executive presence so that upon graduation the student will be:

A strategic decision maker
Board member ready
A team player
Globally Focused & Ready
An Influential Communicator
A Developed Leader
Entrepreneurial & Innovative

The Xavier EMBA program will be ready to lead in a variety of business models & with an enterprise wide lens. As a result of their experience, students will identify the difference between creating & adding value, all the while successfully navigating a professional network.

This holistic development is created by immersion, foundation, advanced business focus, and a capstone.

Immersion will require a week long residency in which case study methodology, strategic planning, team building, and personal assessment & leadership are achieved.

Foundation will master executive competencies and focus on value creation and/or value capturing and on leadership within functional area, all the while honing executive competencies that span & engage culturally, ethically, entrepreneurially, innovatively, and organizationally in addition to in-depth exploration of accounting, economics, financial management, talent management, information systems, CSR, and marketing. These foundations can be applied in any sector and are not inclusive just to business. These include: manufacturing, business to business, business to consumer, service, public sector, non-profit, start-up, mid-size, and large corporations.

Advanced business focus will be multi-dimensional, cross-functional, and experiential. It will develop advanced leadership understanding as skills & knowledge are tested via case study and experiential learning. Consulting projects will vary in scope and size.

The Capstone experience is to design and execute a strategic business plan that creates and captures value. In it, all previous studies will be channeled into Local/National/International consultancy projects, Board membership projects, or other integrative projects.

The Executive MBA experience will be fast-paced and have a condensed-learning format, mandatory team projects and collaborative learning. Class size will be limited for maximum exposure & information absorption. There will be special events to promote deeper learning experiences. There will be networking opportunities. A global immersion, 12-14 days, experience is required for the program.

The EMBA is run separately from Xavier's traditional MBA Program and once a year in September and runs for 16 months. Classes are concentrated into a two day a week format (Friday and Saturday) twice a month. Class time is between 8:00 am till 5:00 pm mandatory international trip occurs in the program. Admission is based on significant managerial and corporate leadership and business experience in addition to undergraduate academic records, GMAT scores, essays, letters of recommendation, a personal interview and evidence of strong organizational support.
Online MBA

The On-Line MBA is designed to meet the needs of working professionals who cannot easily attend on-campus classes. Ideally, the program begins once a year in the fall semester. Classes are offered in an 8 week format, making it possible for students to take two classes separately, but sequentially in a semester - thus maintaining part-time student status. Students follow an established curriculum of 13 courses. The program format makes it possible for students to finish their on-line MBA in two years.

All Foundation Skill courses (ACCT 500 and STAT 500) must be completed to be eligible for admission.

On-line MBA students are required to work with a MBA advisor before beginning classes.

Master of Education

Coaching Education and Athlete Development, M.Ed.

The Master in Coaching Education and Athlete Development is a 33 hour cohort program. The students will complete 33 hours of coursework online and which will include two one-week summer residencies.

Contact the Department of Sport Studies for additional information 513 745-4291 or www.xavier.edu/coaching

Course Sequence

Year One

- SPMG 570 - Psycho-Social Aspects of Sport
- SPMG 610 - Sport Ethics
  - SPMG 620 - Sport Leadership and Team Building
- SPMG 625 - High School Athletic Admin
  - SPMG 640 - Sports Safety, Risk Management and Injury Prevention
  - SPMG 680 - Residency I: Special Topics (Summer, 4 weeks; 1 week in residence)

Year Two

- SPMG 630 - Sport Pedagogy and Coaching Analysis
- SPMG 650 - Long-term Athlete Development I: Youth and Novice Athletes
- SPMG 660 - Long-term Athlete Development II: Elite and Senior Athletes
- SPMG 670 - Research In Coaching
- SPMG 681 - Residency II
Educational Administration, M.Ed.

The Educational Administration Master of Education degree, a professional degree, is designed to provide the preparation required for principals, administrative specialists, superintendents, and other educational administration positions. Students are encouraged to select Master of Education courses which correspond with the educational administration/ supervision licensure they may seek. Licensure program courses and master's degree courses may be taken in unison or separately. However, a master's degree is required before the student is eligible to apply with their state for licensure or be accepted into a licensure only program. Educational Administration Licensure/Supervision programs include but are not limited to Principal, Specialists, Superintendents, Supervisor of Instruction, Director of Special Education, and Director of Pupil Personnel.

Xavier University also offers an innovative, integrated MSN/MEd program consisting of 47 semester credit hours. The student will receive two separate degrees, the Master of Science in Nursing and the Master of Science in Education. This program was developed in response to a community need for nurse educators. The MSN/MEd prepares the graduate to administer and teach in educational settings (i.e., CE providerships, in-service educators and nurse educators). Please contact the School of Nursing for additional details.

Go to [http://www.xavier.edu/administration-grad/admission.cfm](http://www.xavier.edu/administration-grad/admission.cfm) to reference admission requirements.

Requirements for the M.Ed. in Educational Administration

(30 total credit hours required)

The core education courses are required for the Masters of Education in Educational Administration. and all of the licensure options.

The following serves as a curriculum guide, please see an educational administration advisor.

Core courses: (9 credit hours)

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

Licensure courses: (21 credit hours)

The licensure courses are required for all licensure options. The appropriate internships will be added to the MEd program to complete the licensure requirements. Any combination of the courses that total 21 semester hours will, when combined with the 9 core hours, equal 30 semester hours and thus qualify the candidate for a MEd in Educational Administration. Note: Up to 6 semester hours may be elective credits at 500 Level or above. However elective credits are not applicable for Licensure.

Go to [http://www.xavier.edu/administration-grad/Licensure.cfm](http://www.xavier.edu/administration-grad/Licensure.cfm) to reference licensure requirements and details.

- EDAD 543 - Supervision of Inst/Staff Pers
- EDAD 548 - Principalship or
- EDAD 561 - Admin of Pupil Personnel Serv
- EDAD 562 - Political Structure& PR
- EDAD 563 - Sch Finance, Bus Aff / Phys
- EDAD 565 - School Law I
- EDAD 570 - Policy Planning & Evaluation
- EDAD 660 - Curr Design & Teach Strategies
Internship(s) are required to complete licensure for principals, specialists, or superintendents.

The required internship varies depending on specific licensure sought.

Consult with an educational administration advisor for specific licensure requirements.

**Principal Licensure Courses**

- EDAD 771 - Internship:Principal I
- EDAD 781 - Internship:Principal II

**Specialist Licensure Courses**

- EDAD 772 - Internship:Spec-Research I
- EDAD 773 - Internship:Spec-Staff Pers I
- EDAD 774 - Internship:Spec-Curr Inst I
- EDAD 775 - Internship:Spec-Pupil Svcs I
- EDAD 776 - Internship:Spec-Sch/Com Relat
- EDAD 777 - Internship:Spec-Vocational Ed
- EDAD 782 - Internship:Spec-Research II
- EDAD 783 - Internship:Spec-Staff Pers II
- EDAD 784 - Internship:Spec-Curr Inst II
- EDAD 785 - Internship:Spec-Pupil Svcs II
- EDAD 786 - Internship:Spec-Sch/Com Relat
- EDAD 787 - Internship:Spec-Vocational Ed

**Superintendent License Courses**

- EDAD 710 - Superintendent Seminar
- EDAD 779 - Internship:Superintendency I
- EDAD 789 - Internship:Superintendency II

**Note(s):**

- All educational administration students must successfully complete the Master of Education (MEd) Comprehensive Examination upon completion of required coursework to earn the MEd degree.
- Additionally, the University is not obliged to recommend licensure of any type on the basis of the completion of a Master of Education degree or specific coursework in education. Students must also meet leadership, communication, and character requirements and pass the required licensure tests of the State Department of Education for each specific license.
Summary of Steps for Admission and Continual Progress toward MEd Degree and Licensure

Step One:

Admission to M.Ed. graduate program. See http://www.xavier.edu/education/

• Apply online to the Office of the Graduate School
• Declare educational administration as major for MEd.

Step Two:

Complete Program for MEd

• Complete 30 semester credit hours, including all required courses
• Pass comprehensive exam (exam can be repeated once, if needed)
• Apply for Xavier graduation

Step Three:

Licensure for Ohio

For Principal or Specialist Licenses:

• Complete course requirements for MEd and/or principal or specialist license.
• For Xavier M.Ed. graduates, complete 6 semester credit hours of additional required coursework.
• Pass licensure exam OATE Exam #015 in educational leadership
• Apply for licensure online at the State Department of Education and follow university and state procedures for licensure.

For Superintendent Licenses:

• Complete course requirements for MEd and/or principal or specialist license.
• For Xavier M.Ed. graduates, complete an additional 12 credit hours approved by advisor, including EDAD 710 Superintendent Seminar and EDAD 779 & 789 Superintendent Internships I & II.
• Must pass licensure exam in educational leadership, if not already completed with Principal or Specialist license.
• Apply for licensure online at the State Department of Education and follow university and state procedures for licensure.

Note(s):

• Students may contact the Office of the Graduate School at xugrad@xavier.edu, http://www.xavier.edu/graduate-admission/, or 513-745-3360 for more information and the Department of Educational Administration at 513-745-4210 to schedule an appointment with an advisor.
Elementary Education, M.Ed.

The Master of Education in elementary education will provide the student with a strong foundation in professional knowledge, experience in combining theory with practice, and opportunities for curriculum development and application. The student may pursue an M.Ed. and a teaching license separately or concurrently.

Go to [http://www.xavier.edu/elementary-grad/Admission.cfm](http://www.xavier.edu/elementary-grad/Admission.cfm) to reference admission requirements.

Requirements for the M.Ed. in Elementary Education

(30 total credit hours required)

Core courses

(9 credit hours)

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

Note(s):

- The remaining 21 hours required are selected from programs such as elementary, Montessori, multi-cultural children's literature, and reading. The M.Ed. candidate is free to select courses that advance teaching in the elementary school.

Programs Requirements for Licensure:

Students seeking initial licensure in early or middle childhood education concurrently with the M.Ed. will declare their Master's concentration as Elementary. Students seeking teacher licensure in early or middle childhood must contact the department for a review of their transcripts. Students are expected to have a broad base of undergraduate coursework spread over the following areas: English, history, sciences, math, speech, and the fine arts. There is a specific sequence within both programs. Course requirements for early or middle childhood licensure extend beyond the 30 hours required for a Masters Degree.

Go to [http://www.xavier.edu/elementary-grad/index.cfm](http://www.xavier.edu/elementary-grad/index.cfm) to reference more information about Licensure options.
Master of Education in Elementary Education -- Cohort Program Ohio Early Childhood License Pre-K - Grade 3

Students seeking acceptance into the graduate early childhood cohort must first be accepted into the M.Ed program. Application for acceptance in the Master of Education Program is made through the Graduate Services Office. Call 745-3360 or visit the Xavier website, www.xu.edu. Upon acceptance in the M.Ed. program a candidate may begin courses listed below.

To begin the admission process for the early childhood cohort program, the student must meet with an academic advisor for transcript review and discussion of the program. Call (513)745-3701 for an appointment. Please bring an official copy of transcripts from all undergraduate and graduate work to this meeting.

Upon acceptance into the Master of Education program a candidate may begin the required courses listed below. Candidates are responsible for graduate information contained in the Xavier University Catalog, such as the comprehensive exam and other graduation requirements.

The candidate must meet with an academic advisor for a transcript review outlining general education requirements:

- English Composition (3)
- History (3)
- Mathematics (6)
- Literature (6)
- Natural Science (3)
- Physical Science (3)
- Fine Art (3)

Professional Foundation Courses

The following courses are taken during the academic year prior to the beginning of the Early Childhood Cohort Program.

- EDEL 500 - Classroom Culture (includes 50 hours of assigned field experience)
- EDEL 251 - Instructional Technology
- EDFD 500 - History/Philosophy of Am Educ
- EDFD 510 - Adv Human Develop & Learning
  - EDEL 260/EDEL 560 - Cultural Diversity in Education

Please Note:

- The licensure candidate may complete the M.Ed. Core courses: EDFD 505, Organization of Education Systems in the United States; EDFD 507/EDFD 508, Educational Research/Paper during the initial academic year, or elect to finish at a later date. "No more than six years may elapse between enrolling in a degree program and completion of work for the degree." A comprehensive exam is the final requirement for the degree program. The M.Ed candidate may sit for the exam after 27 hours for the degree have been successfully completed.

- Students who have completed (or will complete by May) general education requirements and professional foundation courses may apply to the Early Childhood Cohort. Application is made during the spring semester. Applications, available through the Department of Childhood Education and Literacy Office, 307 Hailstones Hall, are reviewed by a faculty team and evaluated on the basis of the following: EDEL 500 final grade, field work evaluation, grade point average, Miller Analogy or GRE scores, written and oral communication skills.
Early Childhood License Cohort Courses

Candidates must be accepted into the cohort program in order to enroll in the following courses.

*The schedule below is effective Summer Semester 2009.

First Summer Session

• EDRE 512 - Reading Methods for Early Child
• EDRE 569 - Phonics & Found of Literacy
• EDEC 558 - Play & Arts in Early Childhood

Total (9)

Second Summer Session

• EDCH 524 - Children's Lit for Early Child
• EDEC 555 - Early Childhood Care/Practices
  Includes field observation

Total (9)

Fall Semester

• EDEL 370 - Junior Field Experience /2 days per week
• EDEC 331 - Early Childhood Math/Sci Cohrt
• EDEC 336 - Early Childhood LA/Soc St Cohr
• EDRE 678 - Diagnosis/Correct of Read Disa

Total (16)
Spring Semester

- EDEC 454 - EC Cohort Student Teaching
- EDEC 455 - Cohort: Current Issues
- EDRE 671 - Content Area Literacy

Total (10)

Note(s):

Students must pass the Ohio Assessment for Educators (OAE) Early Childhood Education/012 in the fall semester and OAE Assessment of Professional Knowledge: Early Childhood/001 during the student teaching semester. Additional information on testing may be found at the Department of Childhood Education and Literacy website or www.oh.nesinc.com. See also for test information regarding the endorsements in reading and grades 4 and 5.

Application for the early childhood license is made online through the Ohio Department of Education upon completion of all requirements. The State of Ohio, Four Year Resident Educator License, Early Childhood P-3 from the ODE carries an effective date of July. Students seeking licensure in other states must first complete the Ohio license requirements. Information on licensure is covered in detail during the student teaching semester.

The early childhood license gives the candidate the opportunity to add endorsements for teaching grades 4 and 5 (additional 9 credit hours) or Reading (additional 9 hours), which may be added during the summer following student teaching, or during successive summers. Please consult an advisor before beginning the endorsement courses.

Ohio Licensure Generalist Endorsement Grades 4-5 Graduate Courses

This series of courses is offered for the candidate who holds the Ohio Early Childhood License/Grades P-3 and which will enable them to obtain the generalist endorsement for grades 4-5. The candidate for the endorsement must complete all 9 semester hours of coursework listed below and pass the Ohio Assessment for Educators (OAE): OAE Elementary Education (Subtest I)/018 and OAE Elementary Education (Subtest II)/019

Prerequisite: Holds an Ohio Early Childhood License/Grades P-3. For graduate students who wish to pursue a Masters in Elementary Education, the Generalist Endorsement courses can be applied towards the M.Ed. For more information on the Masters program, go to http://www.xavier.edu/elementary-grad/Admission.cfm.

Generalist Endorsement Grades 4-5 Courses

- EDEL 640 Middle Childhood Transitions: Development and Management (1)
- EDEL 641 Mathematics Content, Pedagogy, and Assessment Grades 4-5 (2)
- EDEL 642 Science Content, Pedagogy, and Assessment Grades 4-5 (2)
- EDEL 643 Language Arts Content, Pedagogy, and Assessment Grades 4-5 (2)
- EDEL 644 Social Studies Content, Pedagogy, and Assessment Grades 4-5 (2)
Master of Education in Elementary Education Ohio Middle Childhood License
Grades 4-9

Middle childhood licensure at the graduate level is designed for the student who did not receive a teaching license as an undergraduate; has strong undergraduate course work in two of the following: mathematics, science, social studies or English; is available to take pedagogy, methods, and field placement courses with both day and evening scheduling in order to meet the extensive requirements of the middle childhood license. The middle childhood license is for teaching grades 4 through 9 in two subject areas. Students will also study reading methods and children's literature along with their two chosen areas of concentration. The student with current (within the last 10 years) course work in the concentrations may have some concentration requirements waived.

- There is no cohort program (see early childhood licensure) for middle childhood candidates. Progression through the program is unique to the individual due to the various concentration combinations, i.e. one student may choose math and science while another opts for science and social studies. The content courses may not be offered as frequently as the foundation courses, often just one semester out of the academic year. The sequence of course completion is important to the success of the candidate.

Admission

To begin the admission process for the Middle Childhood License/Master of Education program, the candidate must meet with an academic advisor for a transcript review outlining general education requirements:

- English Composition (3)
- History (3)
- Mathematics (6)
- Literature (6)
- Science (6)
- Fine Art (3)

A minimum grade of C is required in all courses, except English composition, for which a B is required. An overall undergraduate grade point average must be a 2.70 or better.

Next the student must apply for the M.Ed. in Elementary Education.

Concentrations

The Middle Childhood Licensure candidate must choose two fields of concentration from the following: (see specific courses under B.S. in Middle School Education)

- Mathematics - 21 hours
- Science - 21 hours
- Social Studies - 24 hours
- Reading/ Language Arts - 24 hours

Students should take the five professional foundation courses before enrolling in the following courses specific to middle childhood licensure. See undergraduate Middle School Education section for list of concentration courses.

Professional Education Courses

- EDEL 500 - Classroom Culture
Note(s):

Concentration courses may be completed concurrent with methods/pedagogy courses listed below. Due to the complexity of the licensure requirements, middle school candidates must meet with an advisor each semester. Students should take the five professional foundation courses listed on the preceding page: EDEL 251, EDEL 500, EDFD 500, EDFD 510, and EDEL 260/560, before enrolling in the following courses specific to the Middle Childhood License.

Middle Childhood Courses

Scheduling of Middle Childhood courses are varied; courses may meet during the day, at 4:15 or 7:00PM, and often require field observation or experience. Be aware that EDMC courses are not offered every semester.

- EDMC 212 - Nature & Needs of Adolescents
- EDSP 500 - Sp Ed: Identification & Issue
- EDCH 526 - Children's Lit for Middle Chil
- EDMC 325 - Arts in Ed: Middle Childhood
- EDRE 569 - Phonics & Found of Literacy
- EDRE 514 - Reading Methods for Middle Chi
- EDMC 340 - Middle School Phil & School Or
- EDMC 345 - Middle Child Class Mgmt Assess

Two courses from

Students take two courses from 351, 352, 353, or 354 (total 6 hours, field experience T & R days) EDMC 351-354 are only offered during Spring semester. EDMC 212 and EDMC 340 prerequisites for EDMC 351-354.

- EDMC 351 - Middle Childhood Lang Art Meth
- EDMC 352 - Middle Childhood Math Methods
- EDMC 353 - Middle Childhood Science Meth
- EDMC 354 - Middle Childhood Soc Stud Meth
- EDMC 455 - Student Teaching: Middle Sch
- EDMC 456 - Sem: Current Issues in EDMC
- EDRE 671 - Content Area Literacy
- EDRE 678 - Diagnosis/Correct of Read Disa

Note(s):

- Praxis II Exams: You must pass two subject area concentration exams prior to student teaching. The "Principles of Learning and Teaching: 5-9" is taken during the student teaching semester. See Praxis link at www.xavier.edu.
- Grades 4-6 Middle Childhood Endorsements are an option for persons holding a Middle School license. See Requirements for generalist endorsement under B.S. for Middle School Education.
- The following core courses fulfill Master of Education requirements but are not required to complete the middle childhood license requirements. They can be taken at any time within the six year limit. Students take the Comprehensive Exam related to the three core courses during the last semester of graduate course work.
Master of Education

The Master of Education, a professional degree, is designed to meet the needs of professional educators. This degree is awarded to the candidate who has demonstrated a capacity for improving the quality of teaching within the particular sphere of his or her influence by satisfactorily completing a program of graduate work designed to give these characteristics:

1. Broad knowledge of the principles and techniques of education in modern society.
2. Specific knowledge of one major area of the field of education.
3. Essential understanding and skills necessary for intelligent consumption of educational research.

To ensure comprehensiveness in their programs for the Master of Education degree, candidates should include in their programs 9 hours of general survey courses (or alternate courses as indicated by specific program) designed to provide integrated coverage of the broad field of education. These courses (credit hours) are:

EDFD 500 History/Philosophy of Am Educ
EDFD 505 Org of Ed Systems in U.S.
EDFD 507 Educational Research and EDFD 508 Educational Research Paper

To ensure their mastery of a particular area of education, candidates must include a concentration of at least 12 semester credit hours in one of the following areas:

Students should consult with an advisor before beginning their concentration.

The Master of Education program invites applications from students with a bachelor's degree and a solid academic record. Admission decisions are based on factors such as past academic performance, standardized test score, and other information submitted.

Go to [http://www.xavier.edu/education/](http://www.xavier.edu/education/) to reference program information and admission requirements.

A minimum of thirty hours is normally required for the degree of Master of Education. These shall be distributed as follows:

1. General surveys in education, 9 credit hours.
2. Concentration, 12 credit hours. (Certain concentrations may require more than 12 semester hours, particularly where state certification requirements are involved. Consult with your academic advisor)
3. Pertinent electives, 9 credit hours.

A student's Master of Education program may not include more than 6 semester hours of workshops, unless by special arrangement with the program directors. The Master of Education degree will be awarded only to candidates who have passed an extensive written examination covering their particular field of concentration (e.g., administration) or covering the three general survey courses in education if they have concentrated in a subject matter field or in elementary or secondary education. The comprehensive exam is not required for the MEd in Sport Administration or MEd in Coaching Education and Athlete Development. Should the student fail the comprehensive examination, it may be repeated only once.

**Note:** The comprehensive exam is not required for the MEd in Sport Administration or MEd in Coaching Education and Athlete Development. For more information regarding specific requirements for these programs, please see Sports Studies.

**Note:** For information regarding the Master of Arts in English Education or History Education, please see Secondary Education. For information regarding the Master of Science in Special Education, please see Special Education.
Note: The University is not obliged to recommend licensure of any type on the basis of the completion of a Master of Education degree or specific course work in education. Students must also meet leadership, communication, and character requirements and pass the required tests of the State Department of Education for each specific license.

Xavier University also offers an innovative, integrated MSN/MEd program consisting of at least 54 semester credit hours. The student will receive two separate degrees, the Master of Science in Nursing and the Master of Science in Education. This program was developed in response to a community need for nurse educators. The MSN/MEd prepares the graduate to administer and teach in educational settings (i.e., CE providerships, in-service educators and nurse educators). See the School of Nursing section of this document for additional details.

Montessori Education (for No Ohio State License and No Montessori Credential), M.Ed.

Master of Education Degree in Montessori Education On Campus or Online

The Xavier University Montessori teacher education programs grant an American Montessori Credential and an Ohio Pre-Kindergarten to grade 3 licensure. The programs are affiliated with the American Montessori Society, and accredited by the Montessori Accreditation Council for Teacher Education.

The graduate program in Montessori education is based on a strong foundation in child development. This allows students the option of teaching in a public or private Montessori school, as well as in a traditional public or private school. The program prepares the student with an understanding of Dr. Montessori’s philosophy in light of the education of the past and present. The Montessori curriculum courses prepare the student to teach practical life, art, music, movement, sensorial, math, language, geography, science and history. Child development is emphasized in courses EDME 563, EDME 559, and EDME 550 and is a integral part of all of the courses. Those holding a master's degree may obtain certification by planning a post-master's program with the director of the Montessori teacher education program.

Go to [http://www.xavier.edu/montessori-grad/admission.cfm](http://www.xavier.edu/montessori-grad/admission.cfm) to reference admission requirements.

For online description, please see the fully online option description: Montessori Education (for No Ohio State License and No Montessori Credential), M.Ed.* *(fully online option)

Requirements for the M.Ed. in Montessori Education (with no Ohio State License and no Montessori Credential)

33 total credit hours are required, as follows

- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper *
- EDME 551 - Montessori Ed: Phil Approach
- EDME 563 - Early Cognitive Development
- EDME 550 - Methods of Observation of Chil
- EDSP 505 - Foundations in ECSPED
- EDFD 500 - History/Philosophy of Am Educ
The other twelve (12) hours can be taken from the following courses:

- EDME 553 - Mont Math & Geometry Methods
- EDME 554 - Mont Language Arts& Read Meth
- EDME 555 - Mont Cultural Subject Method
- EDME 559 - Community & Advocacy in Educ
- EDME 564 - Early Childhood/Montessori Met
- EDME 576 - Phonics Skills for Early Child
- EDME 577 - Early Childhood Math& Science
- EDME 570 - Mont 9-12 Math Curr
- EDME 571 - Mont 9-12 Geometry Curr
- EDME 572 - Mont 9-12 Geography& Hist Curr
- EDME 573 - Mont 9-12 Botany & Zoology Curr
- EDME 574 - Mont 9-12 Physical Science Curr
- EDME 575 - Mont 9-12 Lang & Children's Li

Other Requirements:

- Student must complete BCI/FBI background checks in the first semester and each subsequent academic year.

Note(s):

* The research paper should be completed in the area of early childhood education and an approved copy of the completed paper submitted to the director of the program for the departmental library.

Montessori Education (for No Ohio State License and No Montessori Credential), M.Ed. (Fully Online Option)

The graduate program in Montessori education is based on a strong foundation in child development. The program prepares the student with an understanding of Dr. Montessori's philosophy in light of the education of the past and present.

Admitted students earn a Master of Education with a Montessori focus while working with Montessori and education faculty who teach in Xavier's internationally known program.

Applicants who already have a MACTE-approved Montessori credential may be able to apply it toward 12 hours of the degree.

Students are uniquely enrolled with the online degree program and complete courses within this program solely.

Xavier University is not yet authorized to provide online education in all 50 states. Please consult the state authorization site via the Xavier University site for the listing of approved states.

This program will not provide licensure in any state.
Requirements for the M.Ed. in Montessori Education online program (with no Ohio State License and no Montessori Credential)

- Admitted students take a maximum of 33 credit hours over three semesters—or 18 months.
- Students with a MACTE-approved credential can spread their coursework over 12 months.
- Classes are entirely online and vary in format, including live lectures.
- As part of an online learning community, students collaborate and share ideas such as curriculum planning, assessment, classroom management and making teaching materials.
- Students interact closely with their professors and each other, communicating with other students from around the world.
- Professors hold weekly virtual office hours to maintain communication and an ongoing relationship with students.

Curriculum for the M.Ed. in Montessori Education online program (with no Ohio State License and no Montessori Credential)

Students take the following courses for a maximum of 33 credit hours. Students with a MACTE-approved credential may be able to apply it toward 12 hours of the degree.

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper
- EDME 550 - Methods of Observation of Chil
- EDME 551 - Montessori Ed: Phil Approach
- EDME 552 - Mont Curr Des & Te Strat: Pri
- EDME 557 - Montessori Language Enrichment
- EDME 558 - Math And Geometry Enrichment
- EDME 559 - Community & Advocacy in Educ
- EDME 563 - Early Cognitive Development
- EDSP 505 - Foundations in ECSPED

Notes:

Credentialed Montessori teachers may apply up to 12 hours of their MACTE-approved credential toward the following courses: EDME 552, 557, 558, 559.

Montessori Education (for Ohio Four year resident educator License PreK-3 and American Montessori Society Elementary I Credential - Ages 6-9 and Elementary II Credential - Ages 9-12) M.Ed.

Students can add the Elem. II credential and an OH Generalist Endorsement for Grades 4-5
Master of Education Degree in Montessori Education

The Xavier University Montessori teacher education programs grant an American Montessori Credential and an Ohio Pre-Kindergarten or Kindergarten to Grade 3 Resident Educator licensure. The programs are affiliated with the American Montessori Society, and accredited by the Montessori Accreditation Council for Teacher Education.

The graduate program in Montessori education is based on a strong foundation in child development. This allows students the option of teaching in a public or private Montessori school, as well as in a traditional public or private school. The program prepares the student with an understanding of Dr. Montessori’s philosophy in light of the education of the past and present. The Montessori curriculum courses prepare the student to teach practical life, art, music, movement, sensorial, math, language, geography, science and history. Child development is emphasized in courses EDME 563, 559, 550 and is an integral part of all of the courses. An Ohio four year resident educator licensure for Pre-K-3, and American Montessori Society Early Childhood and Elementary credentials are available within the master's degree. Those holding a master's degree may obtain certification by planning a post-master's program with the director of the Montessori teacher education program.

- EDME 576 - Phonics Skills for Early Child *
- EDME 670 - Mont Primary Practicum I **
- EDME 671 - Mont Primary Practicum II **
- EDSP 505 - Foundations in ECSPED

Reading Courses:
• EDRE 512 - Reading Methods for Early Chil
• EDRE 678 - Diagnosis/Correct of Read Disa

Adding Elementary II to an Elementary I Credential:

Students may add A.M.S. Elementary II by completing the coursework listed below. Students may add an Ohio Generalist endorsement for grades 4-5 by completing the Elementary II coursework, additional licensing exam, and online Middle Childhood development course.

• EDME 570 - Mont 9-12 Math Curr
• EDME 571 - Mont 9-12 Geometry Curr
• EDME 572 - Mont 9-12 Geography& Hist Curr
• EDME 573 - Mont 9-12 Botany & Zoology Curr
• EDME 574 - Mont 9-12 Physical Science Curr
• EDME 575 - Mont 9-12 Lang & Children's Li

Elementary II Coursework

• EDME 570 - Mont 9-12 Math Curr
• EDME 571 - Mont 9-12 Geometry Curr
• EDME 572 - Mont 9-12 Geography& Hist Curr
• EDME 573 - Mont 9-12 Botany & Zoology Curr
• EDME 574 - Mont 9-12 Physical Science Curr
• EDME 575 - Mont 9-12 Lang & Children's Li
  ◦ No Additional Internship is Required

Generalist Endorsement Requirements:

• Current P-3 Ohio License
• One credit hour online course: Middle Childhood Transitions, Development, and Management
• Passing score on the Ohio Assessments for Educators Elementary Education/018 (Subtest I) and Ohio Assessments for Educators Elementary Education/019 (Subtest II)

Additional Requirements:

• Student must complete BCI/FBI background checks in the first semester and each subsequent academic year.
• Application for student teaching must be turned in by the semester prior to internship.
• Application and fees for American Montessori Society Credentialing, MACTE and NAEYC must be turned in prior to the start of internship.
• State licensing exams must be taken the first semester of internship year.
Montessori Education (for Ohio four year resident educator License PreK-3 and With American Montessori Society Early Childhood Credential - Ages 2.5 To 6), M.Ed.

• Student must complete BCI/FBI background checks in first semester and each subsequent academic year.
• Application for student teaching must be turned in by the semester prior to internship.
• Application and fees for American Montessori Society Credentialing, MACTE and NAEYC must be turned in prior to the start of internship.
• State licensing exams must be taken the first semester of internship year.

Note(s):

• Students wishing Ohio four year resident educator license for PreK-3 must meet general education background requirements.

* Must be completed before beginning your practicum.
** Courses taken during practicum.
*** The educational research paper (EDFD 507/508) should be completed in the area of early childhood education and an approved copy of the completed paper submitted to the director of the program for the departmental library.

Multi-Cultural Literature For Children and Young Adults, M.Ed.

The degree of Master of Education with a concentration in multi-cultural literature for children is a professional degree designed to meet the needs of licensed teaching professionals desiring to enhance their knowledge of appropriate literature for children in the classroom. The degree consists of 30 hours of coursework. The concentration coursework (18 hours) includes diverse coursework in the area of children’s literature. The focus for the coursework is study in the diverse base of literature written for children reflecting but not limited to European Americans, Native Americans, African Americans, Asian Americans, Jewish Americans, Latino Americans and other world cultures, not based in the western world. The purpose of this degree is to provide information that will enable teachers to make
careful, informed and sensitive choices from among the increasing numbers of books being published as Multi-cultural literature as well as incorporating this knowledge into a holistic, global classroom. Multi-cultural literature is one of the most powerful components of a Multi-cultural education curriculum, the underlying purpose of which is to help to make our society a more equitable one.

Go to http://www.xavier.edu/multicultural-literature/admission.cfm to reference admission requirements.

Curriculum Prerequisites

These prerequisites are required if a candidate for the degree does not have a valid teaching certificate or current teaching license.

- EDEL 314 - Teaching Reading or
- EDRE 569 - Phonics & Found of Literacy

Note(s):

- In addition, the graduate candidate must have (or be in the process of completing) a valid teaching certificate or license.

Requirements for the M.Ed. in Multi-cultural Literature

The following coursework is required for the Master degree in Multi-cultural Literature for Children.

MEd Core Requirements

(12 credit hours)

- EDFD 503 - Advanced Educational Psych or
- EDFD 510 - Adv Human Develop & Learning
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

Concentration Requirements

(18 credit hours) selected from the following, with EDCH 501 required.

- EDCH 501 - Advanced Children's Literature
- EDCH 505 - Storytelling as a Cultural Cra
- EDCH 510 - Writing & Publishing for Child
- EDCH 515 - Adolescent Literature
- EDCH 520 - Multi-Cultural Lit for Child
- EDCH 524 - Children's Lit for Early Child
• EDCH 525 - Analysis Child Lit Global Soc
• EDCH 526 - Children's Lit for Middle Chil
  ◦ EDCH 528 ** (3)

Note(s):

• Students completing their studies for the M.Ed. in Multicultural Literature for Children must pass a comprehensive examination and must be able to write knowledgeably on the following areas: children's literature (in general), multicultural literature for children, storytelling as both a genre and a craft, the impact of multicultural literature on the elementary curriculum, adolescent literature as it impacts a global society, and analysis of appropriate literature for children. The M.Ed. candidate may sit for the exam after 27 hours for the degree have been successfully completed.

Reading Education, M.Ed.

The degree of Master of Education with a concentration in Reading is a professional degree designed to meet the needs of licensed teaching professionals desiring to enhance their knowledge of the reading process with current theory and research and classroom application. This course of study is designed to prepare teacher candidates and classroom teachers to help students from preschool through high school to become effective, strategic readers who read and write enthusiastically and purposefully. It provides education and training for classroom teachers, media specialists, district literacy coaches, reading consultants, and reading supervisors.

Accordingly this degree is awarded to the candidate who has demonstrated a capacity for professional performance by satisfactorily completing the course of study designed to develop the following characteristics:

1. The ability to articulate and translate the interrelationship of reading, writing, speaking, listening, viewing and visually representing to classroom teaching and curriculum development.
2. The ability to work directly or indirectly with students of all grade levels who could benefit from advanced training in reading skills.
3. The ability to work with teachers, administrators, parents, and other professionals to improve and coordinate a school wide holistic reading program.

This program is also designed to meet the specifications of the International Reading Association, the National Council of Teachers of English, and State of Ohio course requirements for the Reading Endorsement. It also meets reading specialist licensure requirements in many states.

Go to http://www.xavier.edu/reading/admission.cfm to reference the admission requirements.

Curriculum Prerequisites

These prerequisites are required if a candidate for the degree does not have a valid teaching certificate or current teaching license.

• EDRE 312 - Reading Methods for Early Chld  or
• EDRE 512 - Reading Methods for Early Chil

or

• EDRE 314 - Reading Methods for Middle Chd  or
• EDRE 514 - Reading Methods for Middle Chi
and

- EDRE 471 - Content Area Literacy or
- EDRE 671 - Content Area Literacy

Note(s):

- The candidate should take an undergraduate course in children's literature or adolescent literature.
- In addition, the graduate candidate must have (or be in the process of completing) a valid Ohio teaching certificate or license.

Requirements for the M.Ed. in Reading

The following coursework is required for the Master degree in Reading and meets the State of Ohio standards for the Reading Endorsement.

MEd Core Requirements

(9 credit hours)

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

Concentration Requirements

(21 credit hours)

15 hours required specifically with

- EDRE 569 - Phonics & Found of Literacy
- EDRE 671 - Content Area Literacy
- EDRE 672 - Theories of Reading
- EDRE 678 - Diagnosis/Correct of Read Disa
- EDRE 679 - Practicum in Reading
3 to 6 hours selected from the following Literature Elective List

- EDCH 501 - Advanced Children's Literature
- EDCH 505 - Storytelling as a Cultural Cra
- EDCH 515 - Adolescent Literature
- EDCH 520 - Multi-Cultural Lit for Childrn
- EDCH 524 - Children's Lit for Early Child
- EDCH 526 - Children's Lit for Middle Chil
- EDRE 676 - Teaching Writing Process

0 to 6 more hours selected, if needed, from

- EDEL 651 - Instr Strat For Engl Lang Lear
- EDRE 675 - Current Research in Reading
- EDRE 685 - Teach Read Children w/Spc Need
  - EDME 562 - Phonics and Orton Gillingham
  - (Please check current advising sheet for additional courses.)

Note(s):

- Students completing their studies for the M.Ed. in Reading must pass a comprehensive examination writing knowledgeably on the following areas of literacy: phonics, reading strategies, literacy development, reading theories, content area literacy, vocabulary acquisition, the reading process, and diagnosis and remediation of reading. The M.Ed. candidate may sit for the exam after earning 27 credit hours. Successful completion of the degree is contingent on passing the exam.

Reading Endorsement Requirements

Those completing the M.Ed. in Reading Education with a valid Ohio teaching license may also want to add the Reading Endorsement to their teaching license. The endorsement has a 21 hour. course requirement: 15 hours of coursework in reading and 6 hours in reading electives (see list above); and **100 hours of documented field hours** in the area of reading. Master degree candidates may work on their degree and the endorsement simultaneously. After completion of the course requirements for the endorsement, the State of Ohio requires that the candidate take the Ohio Assessment for Education in Reading O38 (Subtest 1) and Reading O39 (Subtest II) and receive a passing score to have the endorsement added to a valid license. Information regarding testing dates, location sites, and sample questions for OAE may be found on the Ohio Assessment for Educators website. http://www.oh.nesinc.com

The following courses are currently required by the State of Ohio for the Reading Endorsement: *

- EDRE 269 - Phonics & Foundation of Litera or
- EDRE 569 - Phonics & Found of Literacy
- EDRE 471 - Content Area Literacy or
- EDRE 671 - Content Area Literacy
- EDRE 672 - Theories of Reading
• EDRE 478 - Diagnosis/Correct of Read Disa or
• EDRE 678 - Diagnosis/Correct of Read Disa
• EDRE 679 - Practicum in Reading

And, choose two classes from the list below.

• EDCH 305 - Storytelling - Cultural Craft or
• EDCH 505 - Storytelling as a Cultural Cra
• EDCH 324 - Children’s Lit for Early Child or
• EDCH 326 - Children’s Lit for Middle Chil
• EDCH 315 - Adolescent Literature
• EDCH 515 - Adolescent Literature
• EDCH 320 - Multi-Cultural Lit for Childrn or
• EDCH 520 - Multi-Cultural Lit for Children
• EDME 562 - Phonics and Orton-Gillingham
• EDEL 651 - Instr Strat For Engl Lang Lear
• EDRE 676 - Teaching Writing Process

Note(s):

• Ohio Assessments for Educators (OAE): You must pass two subject area concentration exams prior to student teaching. The “Principles of Learning and Teaching: 5-9” is taken during the student teaching semester. See OAE link at www.xavier.edu.
• Grades 4-6 Middle Childhood Endorsements are an option for persons holding a Middle School license. See Requirements for generalist endorsement under B.S. for Middle School Education.
• The following core courses fulfill Master of Education requirements but are not required to complete the middle childhood license requirements. They can be taken at any time within the six year limit. Students take the Comprehensive Exam related to the three core courses during the last semester of graduate course work.
  ◦ EDFD 500
  ◦ EDFD 505
  ◦ EDFD 507
  ◦ EDFD 508

Secondary Education, M.Ed.

Xavier University's secondary/K-12 teacher education program provides a strong foundation in liberal arts education and emphasizes the importance of individual, educational growth, and professional development. A student is prepared to become competent, professional secondary/K-12 educators through thorough classroom instruction and in-depth experience with practicing secondary/K-12 teachers.

A student may pursue a Master of Education degree alone, or a Master of Education degree with licensure or only licensure alone.

The M.Ed. program is intended for those who wish to obtain an advanced degree with general emphasis in course work connected to secondary education. Although a degree program can be arranged to support teacher licensure, this degree does not provide all the preparation needed to achieve teacher licensure. Please contact the Department of Secondary and Special Education for guidance.
Requirements for the M.Ed. in Secondary Education

30 total credit hours, as follows

MEd Core Requirements (9 credit hours)

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

Remaining 21 hours

consist of 12 hours taken from graduate level professional education or subject content courses (e.g. art, biology, business, chemistry, classics, computer science, English, French, German, Spanish, history, math, music, political science or theology). The remaining 9 semester hours may be taken from any graduate level course, as elective courses. The M.Ed. candidate is free to select courses that advance teaching in the secondary school.

Comprehensive Exam Requirement

Finally, a student’s Master Of Education degree will be awarded only to candidates who have passed an extensive written examination covering the four general survey courses. Should the student fail the comprehensive exam, it may be repeated only once.

Course Sequence for Graduate Student Licensure

- EDFD 503 - Advanced Educational Psych
- EDSP 500 - Sp Ed: Identification& Issue
- EDRE 671 - Content Area Literacy
- EDMS 550 - Technology & Topics for Teach
  - Methods / Curriculum for content area (3-6)
- EDSP 580 - Classroom Management
- EDMS 100 - Field Experience *
- EDMS 411 - Clinical Experiences *
- EDMS 470 - Student Teaching AYA *
Note(s):

- *Taken for undergraduate credit only.
- Student must complete all coursework, field/clinical hours and pass all Praxis tests to apply for license.
- Student must complete 12 hours MasterCore requirements; 18 hours from Special Education coursework and pass Comprehensive exam for completion of degree.

Special Education, M.Ed.

Master of Education Degree with a concentration in Special Education

The M.Ed. program in Special Education is intended for those who wish to obtain an advanced degree with general emphasis in coursework connected to special education. Although a degree program can be arranged to support teacher licensure, this degree does not provide all the preparation needed to achieve teacher licensure. Please contact the Special Education Program for guidance.

Requirement for the M.Ed. with a concentration in Special Education

The Master Degree in Education that has a concentration in Special Education allows a student to advance their professional development with a focus on specific areas of special education. With the assistance of a special education advisor, a student will plan a 30 hour degree program that consists of the 9 hour Education M.Ed. core and 21 hour concentration of special education courses. These courses will be planned from special education licensure areas, special education independent study and research areas, and/or limited courses that are required for licensure in the area of special education (for example: required reading courses for licensure). These courses could meet the requirements for the State of Ohio standards for licensure as an Intervention Specialist.

M.Ed. Special Education 9 hour core requirements

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

M.Ed. 21 hour concentration in Special Education

Students with an advisor from the Special Education Programs will plan a 21 hour concentration of special education courses for the Master in Education Degree. These courses may come from the following special education licensure programs.

Licensure/Endorsement Areas in Special Education

- Intervention Specialist License: Mild/Moderate, Moderate/Intensive, Early Childhood, Gifted/Talented
- Endorsements: Pre-Kindergarten Special Needs, Gifted Talented, Transition to Work
Comprehensive Exam Requirement

Finally, a student's Master of Education degree will be awarded only to candidates who have passed an extensive comprehensive examination of the education core and concentration courses. Students may schedule this exam during their last semester of course work. Should the student fail the comprehensive exam, it may be repeated only once.

Graduate Level Licensure Areas for Special Education

The Special Education graduate teacher preparation programs are theory based with continual field application experiences. Students complete the licensure program with competencies in student centered learning/development interventions. Students must possess a bachelor's degree and must meet the Special Education Program requirements for admission. Student must consult with the Program Director of Special Education for program advising. Each licensure and endorsement area has its own unique requirements as indicated by the State of Ohio guidelines. It is recommended that those interested in a licensure or endorsement to contact the Special Education Programs for licensure and endorsement advising.

Notes:

The University is not obliged to recommend licensure of any type on the basis of the completion of a Master of Education degree or specific course work in education, Students must also meet leadership, communication, and character requirements and pass the required Ohio Assessment for Education and Teacher Performance Assessment tests of the State of Ohio Department of Higher Education for each specific license.

Sport Administration, M.Ed.

The degree of Master of Education with a concentration in Sport Administration is designed to prepare an individual for a career within the expanding sport industry. The program was designed utilizing the guidelines recommended by the North American Society for Sport Management (NASSM).

A three semester hour internship, six semester hour internship, or a research project is required, depending on each student's individual background and career goals. The internship may be taken after a student has successfully completed 15 semester hours. Internships are planned and supervised learning activities which take place in a sport administration related environment. The student will be supervised by a sport management practitioner. There is no comprehensive exam.

Admission Requirements

For admission information for the graduate level programs, go to http://www.xavier.edu/sport-administration/ on the Xavier University website. The program is designed to be accessible to full-time or part-time students. Classes are held in the evenings. Students may be admitted to the program in any semester.
Requirements for the M.Ed. in Sport Administration:

This M.Ed. degree requires a minimum of 30 credit hours with a minimum overall GPA of 2.800.

Core Requirements (15 semester hours)

- SPMG 521 - Intro to Sport Administration
- SPMG 522 - Sport Research & Statistics
- SPMG 595 - Sports Administration: Mktg
- SPMG 596 - Sports Administration: Finance
- SPMG 598 - Legal & Ethical ISS Sport & PE

Research and Field Experience (3-6 semester hours), select one option

- SPMG 692 - Sport Admin Research Project or
- SPMG 695 - Internship in Sport Admin

Elective Courses (6-9 semester hours)

- SPMG 523 - Sports Administration Seminar
- SPMG 570 - Psycho-Social Aspects of Sport
- SPMG 610 - Sport Ethics
- SPMG 622 - Personnel Issues in Sport Mgmt
- SPMG 625 - High School Athletic Admin
- SPMG 632 - Sport Event Mgmt & Promotion
- SPMG 642 - Sport Fund-Raising
- SPMG 652 - NCAA: Rules Regulations Policy
- SPMG 654 - Women in Sport
- SPMG 662 - PR & Communication in Sport
- SPMG 664 - Facility Design & Planning
- SPMG 666 - Fitness Management
- SPMG 668 - Admin of Fitness & Wellness Pr

Teaching English to Speakers of Other Languages, M.Ed.

The degree of Master of Education with a concentration in The Teaching of English to Speakers of Other Languages (TESOL) is a professional degree designed to meet the needs of licensed teaching professionals and other professionals desiring to enhance their knowledge of teaching English Learners with current theory and research as well as classroom application. This course of study is designed to prepare teacher candidates, classroom teachers, and other professionals to help students of all levels to become effective, strategic language learners who can speak, listen, read, and write effectively and purposefully in English. It provides training for classroom teachers, non-profit workers, English language tutors, and district TESOL coaches.
• Teachers with a valid Ohio teaching license can add this endorsement in order to teach in K-12 schools. In other words, the graduate candidate for the endorsement must have (or be in the process of completing) a valid teaching certificate or license.
• Professionals without a valid Ohio teaching license can earn a certificate, allowing them to teach in non-school settings and/or tutor.

Accordingly, this degree is awarded to the candidate who has demonstrated a capacity for professional performance by satisfactorily completing the course of study designed to develop the following characteristics:

1. The ability to articulate and translate the interrelationship of language skills in reading, writing, speaking, and listening to classroom teaching and curriculum development.
2. The ability to work directly or indirectly with English learners of all ages who could benefit from furthering their English language skills.
3. The ability to work with teachers, family members, administrators, and other professionals to improve and coordinate the total TESOL program of a school or organization.

This program is also designed to meet the specifications of the TESOL International Organization and State of Ohio course requirements for the TESOL Endorsement. It also meets TESOL licensure requirements in many states.

Go to http://www.xavier.edu/reading/admission.cfm

Requirements for the M.Ed. in TESOL

The following coursework is required for the Master degree in TESOL and meets the State of Ohio standards for the TESOL Endorsement and the Xavier University TESOL certificate.

MEd Core Requirements

9 credit hours

• EDFD 500 - History/Philosophy of Am Educ
• EDFD 505 - Org of Ed Systems in U.S.
• EDFD 507 - Educational Research
• EDFD 508 - Educational Research Paper

Concentration Requirements

18 hours required specifically

• EDRE 569 - Phonics & Found of Literacy
• EDEL 650 - Foundations of TESOL
• EDEL 651 - Instr Strat For Engl Lang Lear
• EDEL 652 - Culturally Responsive Teaching
• EDEL 653 - Effective Assessment Pract
• EDEL 654 - Aspects of Language and Socio
3 hours selected as a Graduate Level Elective Course (500-level or higher)

Note(s):

- Students completing their studies for the M.Ed. in TESOL must pass a comprehensive examination and must be able to write knowledgeably on the following areas of TESOL: phonics and phonemic awareness, the core foundations of second language acquisition, cultural transmissions and legal requirements, cultural competence and teaching strategies, assessments, and language transfer. The M.Ed. candidate may sit for the exam after completing 27 hours. Successful completion of the degree is contingent on passing the exam.

Master of Health Services Administration

Health Services Administration, M.H.S.A.

Master of Health Services Administration Degree

The Graduate Program in Health Services Administration is committed to meeting the need for effective leadership of the rapidly changing health care system. Academic work and field experiences are designed to provide students with the necessary cutting-edge conceptual, analytical, and interpersonal skills, particularly in the areas of team development, systems improvement, quantitative analysis, information systems, strategic planning, financial strategization, and ethical decision-making. The Graduate Program is accredited by the Commission on Accreditation for Health Management Education (CAHME). Upon graduation, students obtain managerial leadership positions in a variety of health care organizations, including health systems, academic medical centers, community hospitals, managed care organizations, medical group practices, insurance companies, long-term care facilities, public health agencies, consulting firms, and governmental policy-making and regulatory agencies. The 1,500+ members of the Graduate Program's Alumni Association are located throughout the United States and in several foreign countries and provide a broad range of services to graduates throughout their careers.

Admission Requirements

A bachelor's degree from an accredited school is required of all applicants. Students are admitted to the Graduate Program if they are considered academically qualified and are able to demonstrate potential in the development of analytical, creative problem solving, communication, interpersonal, and leadership skills. Students come from a variety of academic backgrounds including health services, psychology, business, natural sciences and general studies.

Go to http://www.xavier.edu/master-of-health-services-administration/#process to reference the specific admission requirements.

Prerequisites

Prior to matriculation into the Program, incoming students are required to have completed a basic undergraduate or graduate accounting course and a statistic course with a passing grade, no lower than "C." Students are strongly encouraged to have a basic understanding of microeconomics and to be competent with Microsoft Word and Excel.
Program Options

The curriculum provides a student with a strong foundation of management, financial and quantitative skills, and enhances the ability to succeed in health care management through course work in areas such as epidemiology, clinical management, ethics, health policy analysis, physician relations, managed care and integrated health delivery systems, population-based planning and provider payment strategies.

The graduate program offers you two options of study:

Full-time:

The full-time option consists of four semesters of classroom study on campus followed by a paid 8-12 month administrative residency experience in a health services facility under the guidance of a preceptor.

Part-Time:

The part-time option is designed to accommodate the needs of working professionals. This program consists of nine consecutive semesters of part-time study on campus and an administrative practicum experience conducted concurrently. The practicum is generally a guided field experience conducted within your place of work. Part-time students typically take classes in the evening and must be currently employed in a health care setting in order to be accepted into the program.

Curriculum

A total of 64 credit hours must be completed to fulfill the requirements of the MHSA degree: 54 credit hours of didactic coursework and 10 credit hours of administrative residency/ practicum and master's project. For the part-time program, a total of 60 credit hours must be completed to fulfill the requirements of the MHSA degree: 50 credit hours of didactic coursework and 10 credit hours of administrative residency/ practicum and master's project.

Graduate Program in Health Services Administration

MHSA Degree Option Full-Time Program

Sample Schedule

Year 1

Fall Year 1 (14 credit hours)

- HESA 511 - Managerial Concepts in H.C Org
- HESA 521 - Quant Methods for H.C. Mgmt
- HESA 551 - Financial Mgmt of HC Orgs
- HESA 561 - Clinical Proc for H.C. Adm
- HESA 571 - Healthcare Services in the U.S
- HESA 601 - Professional Development I

**Spring Year 1 (16 credit hours)**

- HESA 519 - Strategic Mgmt & Marketing
- HESA 523 - Qual Improve Tech in H.C. Mgmt
- HESA 555 - Capital Acquisition in HC Orgs
- HESA 567 - Applied Epi in H. C.
- HESA 575 - Health Economics
- HESA 602 - Professional Development II

**Summer Year 1 (0 credit hours)**

- Internship for 2-3 months in a healthcare organization, paid or unpaid, not for credit

**Year 2**

**Fall Year 2 (12 credit hours)**

- HESA 529 - Info Systems for Health Servs
- HESA 559 - Project Devt & Mgmt of HC Org
- HESA 579 - Health Policy & Policy Analyssi
- HESA 581 - Health Care Legal Aspects
- HESA 603 - Professional Development III

**Spring Year 2 (12 credit hours)**

- HESA 515 - Health Care Workforce Strategy
- HESA 539 - Informatics for Hlth Industr
- HESA 583 - Ethical Issues in Health Care
- HESA 599 - Integ Sem in Hlth Svcs Admin.
  - HESA 604 - Professional Development IV
  - HESA 6xx - Elective *

**Summer Year 2 (2 credit hours)**

- HESA 720 - Institutn & Community Analysis

**Year 3**

**Fall Year 3 (5 credit hours)**

- HESA 730 - Practicum in Executive Devel I
- HESA 750 - Master's Project I
Spring Year 3 (3 credit hours)

- HESA 751 - Residency & Master Project II

Note(s):

* Elective coursework is generally taken within the MHSA Graduate Program. With the chair's permission, graduate-level electives may be taken in other departments within Xavier University or through the Greater Cincinnati Consortium of Colleges and Universities.

MHSA Degree Option Part-Time Program

Sample Schedule

Year 1

Fall Year 1 (6 credit hours)

- HESA 511 - Managerial Concepts in H.C Org
- HESA 521 - Quant Methods for H.C. Mgmt

Spring Year 1 (8 credit hours)

- HESA 519 - Strategic Mgmt & Marketing
- HESA 523 - Qual Improve Tech in H.C. Mgmt
- HESA 571 - Healthcare Services in the U.S (Online)

Summer Year 1 (5 credit hours)

- HESA 529 - Info Systems for Health Servs
- HESA 575 - Health Economics (Odd years)
- HESA 583 - Ethical Issues in Health Care
  
  (Even years)

Year 2

Fall Year 2 (6 credit hours)

- HESA 551 - Financial Mgmnt of HC Orgs
- HESA 561 - Clinical Proc for H.C. Adm

Spring Year 2 (7 credit hours)

- HESA 539 - Informatics for Hlth Industr
• HESA 555 - Capital Acquisition in HC Orgs
  ◦ HESA 6xx - Elective *

Summer Year 2 (5 credit hours)

• HESA 575 - Health Economics (Odd years)
• HESA 583 - Ethical Issues in Health Care (Even years)
• HESA 720 - Institun & Community Analysis

Year 3

Fall Year 3 (8 credit hours)

• HESA 559 - Project Devt & Mgmnt of HC Org
• HESA 581 - Health Care Legal Aspects
• HESA 730 - Practicum in Executive Devel I

Summer Year 3 (7 credit hours)

• HESA 515 - Health Care Workforce Strategy
• HESA 599 - Integ Sem in Hlth Svcs Admin.
• HESA 751 - Residency & Master Project II

Spring Year 3 (9 credit hours)

• HESA 567 - Applied Epi in H. C.
• HESA 579 - Health Policy & Policy Analysi
• HESA 750 - Master's Project I

Note(s) *

Elective coursework is generally taken within the MHSA Graduate Program. With the chair's permission, graduate-level electives may be taken in other departments within Xavier University or through the Greater Cincinnati Consortium of Colleges and Universities.

HESA 601, HESA 602, HESA 603, and HESA 604 are waived for part-time students.

Administrative Residency

The administrative residency is part of the full time curriculum; no didactic courses are taken during this time. It provides an eight to twelve month "real world" experience in an organizational setting under the preceptorship of senior management. During the residency, students apply the knowledge and skills mastered in the classroom to an administrative work environment. The administrative residency serves as an opportunity not only to learn the actual practice of management, but also for creating mentor relationships.
Administrative Practicum

An administrative practicum is a required part of the master's degree in health services administration (MHSA) from Xavier University for part-time students. The practicum is intended to allow students to apply the knowledge gained from the classroom and to demonstrate competence in the field of healthcare management. It is expected that by the end of the practicum that the students will have demonstrated competence, at the level of a graduate of master's graduate in health administration program.

Master's Project

Each student is required to complete a master's project as a condition for graduation. The project must demonstrate competencies listed in the Guidelines for the Administrative Residency or Guidelines for the Administrative Practicum and reflect an aspect of health systems management of interest to both the student and preceptor, with a final approval from the faculty advisor.

Academic Standing

MHSA students are held to high academic and personal standards. Health services administration is a profession that requires dedication, leadership, punctuality, follow-through, cooperation, and accountability. A cumulative grade point average of 3.0 is required for residency and graduation. No credit is granted for courses in which a student receives a grade of "F". If the course in question is a required MHSA course, it must be repeated.

Academic Warning

Students who have a cumulative graduate grade point average less than 3.0 at the end of any semester will be placed on academic warning. Students on academic warning must present a corrective action plan to the Chair of the Department. Academic warning is noted in a student's permanent record.

Dismissal from the Program:

1. MHSA students receiving two failing grades ("F") at any time in the academic work will be dismissed from the program.
2. MHSA students receiving two course grades of "B-" or below at any time in the academic work may be dismissed from the program based on faculty decision.

There is no formal appeal mechanism within the Graduate Program in Health Services Administration for academic dismissal.

Concurrent Degrees Program

Students have the option of obtaining concurrent master's degrees in Health Services Administration and Business Administration (MHSA/MBA). Normally, one additional semester of study is required provided the student has the appropriate undergraduate business administration coursework. The program of study requires 93 graduate credit hours: 54 credit hours of Health Services Administration coursework, 33 credit hours of MBA coursework, plus necessary prerequisites, and 10 credit hours of administrative residency/practicum. Candidates must apply and be accepted to both programs. Upon completion, the student receives two separate degrees.
Master of Occupational Therapy

Pre-Occupational Therapy (PMOT) To Master of Occupational Therapy, M.O.T.

This program option is designed to obtain the MOT degree in combination with a previously earned bachelor's degree in a related area. In process of earning the MOT degree, students will obtain a required concentration in Human Occupation Studies (HOCS) in preparation for graduate coursework in occupational therapy. Prior to admission into the MOT degree program, prerequisite courses must be completed or in process. Transfer students who have a bachelor's degree in a related field generally have 6 semesters of academic coursework and one summer course plus a post-academic fieldwork internship to complete to meet Xavier University's requirements for the MOT degree. Xavier accepts equivalent transfer credit work from other regionally accredited institutions of higher education for prerequisite coursework.

Requirements for the Pre-MOT to MOT

Complete undergraduate prerequisite courses and earn no more than two “C” or lower letter grades in each course, as follows:

- ENGL 115 - Rhetoric
- BIOL 140 - Human A&P I for Allied Health
- BIOL 141 - Hum A&P I Lab Allied Health
- BIOL 142 - Hum A&P II for Allied Health
- BIOL 143 - Hum A&P II Lab Allied Health
- PHYS 140 - Technical Physics
- PHYS 142 - Technical Physics Lab
  - HOCS 386 Advanced Kinesiology
  - HOCS 387 Advanced Kinesiology Lab
- MATH 156 - General Statistics
- MATH 158 - General Statistics II
- BIOL 204 - Functional Neuroscience
- PSYC 231 - Developmental Psychology
- PHIL 329 - Bioethics

Concentration in Human Occupation Studies (HOCS):

Complete 23 hours from

- HOCS 301 - Human Occupation Across Lifesp
- HOCS 303 - Techngy for Life Participatn
- HOCS 321 - Analysis of Occupational Perfo
- HOCS 323 - Occupat Justice I:Foundations
- HOCS 401 - Transformative Nature of Occup
- HOCS 403 - Creative & Systematic Inquiry
- HOCS 405 - Occupat Justice II: Indp Stu
Note(s):

- Earn no more than two “C” or lower letter grades in each course.

Pre-Occupational Therapy (PMOT) to Master of Occupational Therapy (MOT)

This block serves as a guideline for progress toward a degree. See your academic advisor.

Master of Science

Accountancy, M.S.

The Master of Science in Accountancy is designed to provide students with the competencies necessary to begin careers as outstanding professional accountants. Graduates of the program will demonstrate competency in the primary functional areas of accountancy: financial accounting, managerial accounting, audit, taxation, and commercial law. Students will complete intensive and challenging coursework to prepare them for careers in assurance, tax, financial accounting, managerial tax accounting, and advisory services. They will have a solid understanding of the impact of complex accounting issues on the organizations they serve as well as the impact to both internal and external stakeholders.
Curriculum

Students must have completed the following: ACCT 300 Intermediate Financial Acct I and ACCT 301 Intermediate Financial Acct II or their equivalent, prior to admission to the program. In addition, students admitted to the program must have completed a course in the areas listed below prior to graduation from the MACC program.

- ACCT 311 Introduction to Taxation (cross-listed as MACC 511)
- ACCT 321 Cost Accounting or ACCT 550 Managerial Accounting
- ACCT 421 Auditing (cross-listed as MACC 542)
- ACCT 495 Analysis of Accounting Systems (cross-listed as MACC 595)

Students may take up to three of the four courses listed above in the free elective component of the MACC curriculum. More curriculum details that depend on the undergraduate degree of the applicant are described below.

Students with an **undergraduate degree in accounting** will be required to complete 30 credit hours from the three primary program components:

- Six required MACC courses (two may be cross-listed).
- One MACC elective course.
- Three other graduate course electives as listed in a later section.

Students with an **undergraduate degree in business (other than accounting)** will be required to complete about 42 credit hours:

- Two courses in Intermediate Financial Accounting (pre-requisite for conditional admission, undergraduate credit)
- Six required MACC courses (two may be cross-listed).
- One MACC elective course.
- Three other graduate course electives as listed in a later section. Students may use up to three of these electives to fulfill the four cross-listed undergraduate accounting course requirements.
- One graduate-only course (ACCT 550) to complete the four cross-listed undergraduate accounting course requirements.
- One additional course to complete the graduate-only seven course requirement.

Students with a **non-business undergraduate degree** will be required to complete about 48 credit hours:

- Two courses in Intermediate Financial Accounting (pre-requisite for conditional admission, undergraduate credit).
- Six required MACC courses (two may be cross-listed).
- One MACC elective course.
- Three other graduate course electives as listed in a later section. Students may use up to three of these electives to fulfill the four cross-listed undergraduate accounting course requirements.
- One additional course to satisfy the four cross-listed undergraduate accounting course requirements.
- Three specific graduate-only business courses:
  - Economics (ECON 550)
  - Finance (FINC 550)
  - Statistics (STAT 500)

CPA Exam Eligibility Considerations

Students without a business undergraduate degree may need additional courses to meet the criteria to be eligible to take the CPA exam in Ohio. In general 150 semester credit hours are required to take the CPA exam. For CPA exam candidates with an undergraduate degree only, 30 semester hours of accounting are required in addition to 24 hours of general business courses. Alternatively, CPA exam eligibility can be met by completing 150 semester hours of coursework including a master's degree in accounting. It is important to note that CPA exam eligibility criteria vary on a state by state basis. Eligibility criteria for each state can be found at [www.nasba.org](http://www.nasba.org). Ohio requirements can be found at [http://acc.ohio.gov/CPAExam.aspx](http://acc.ohio.gov/CPAExam.aspx).
Core Accounting Requirements

Students are required to complete the six accounting courses listed below. Students who have previously completed an equivalent course may be required to waive the course and replace it with a MACC elective. Students may not take courses marked with an * for credit if they have an undergraduate equivalent.

- MACC 515*- Nonprofit and Governmental Accounting (cross-listed with ACCT 315)
- MACC 531*- Advanced Financial Accounting (cross-listed with ACCT 431)
- MACC 611 - Corporate Income Tax Reporting and Compliance
- BLAW 620 - Commercial Law and Professional Ethics
- MACC 622 - Fraud Examination
- MACC 625 - Current Topics in Accounting Practice

MACC Accounting Electives

Students are required to complete one of the following accounting electives:

- MACC 603 - Accounting Internship (subject to approval)
- MACC 616 - Taxation of Flow-Through Entities
- MACC 632 - Advanced Managerial Accounting
- MACC 690 - Corporate Governance (cross-listed with BUAD 690)
- MACC 696 - Special Topics in Accounting I
- MACC 697 - Special Topics in Accounting II
- MACC 695 - Individual Reading and Research

Free Electives

Students must complete nine hours of free electives from the courses listed below or remaining courses net yet taken in the MACC course electives section above. Students may not take courses marked with an * for credit if they have an undergraduate equivalent.

- MACC 511*- Auditing Concepts and Practices (cross-listed with ACCT 311 and taken for three graduate credit hours)
- MACC 542*- Auditing Concepts and Practices (cross-listed with ACCT 421)
- MACC 595*- Analysis of Accounting Systems (cross-listed with ACCT 495)
- ACCT 550 - Managerial Accounting
- ECON 550 - Managerial Economics
- FINC 550 - Fundamentals of Finance (test waiver option available)
- FINC 600 - Managerial Finance
- FINC 602 - Investment Management
- FINC 607 - Portfolio and Hedge Fund Construction
- FINC 621 - Options and Futures Markets
- FINC 632 - Multinational Financial Management
- FINC 640 - Purchase, Sale and Valuation of Closely-Held Entities
- FINC 645 - Mergers and Acquisitions
- FINC 651 - Money and Capital Markets
- FINC 663 - Fixed Income and Debt Management
- FINC 664 - Bond Fund
- FINC 675 - Real Estate Finance
- FINC 684 - Financial Modeling
- INFO 550 - Business Information Systems
- INFO 626 - Knowledge Management
- INFO 655 - Business Intelligence
- INFO 672 - Computer and Network Security
- INFO 674 - Database Management
- INFO 680 - Introduction to Data Mining for Managers
• STAT 500 - Business Statistics

NOTE: Students who do not have an undergraduate degree in accounting will need to complete courses in introductory taxation, cost accounting, auditing, and accounting information systems. The following courses fulfill these requirements: MACC 511, ACCT 550, MACC 542, and MACC 595.

NOTE: Student who do not have an undergraduate degree in business will need to enroll in ECON 550, FINC 550, and STAT 500 as part of their degree. Additional courses will need to be selected as electives.

Schedule (Accounting Undergraduate Students)

Fall Semester

• MACC 515 Nonprofit and Governmental Accounting
• MACC 622 Fraud Examination
• MACC 625 Current Topics in Accounting Practice
• Free Elective

Spring Semester

• MACC 611 Corporate Income Tax Reporting and Compliance
• MACC 631 Advanced Financial Accounting
• MACC Elective
• Free Elective

Summer Semester

• BLAW 620 Commercial Law and Professional Ethics
• Free Elective

Athletic Training, M.S.

Athletic training is an allied health profession within the American Medical Association. The Xavier University Athletic Training Program (XU-ATP) functions to prepare students, in the Jesuit tradition, to serve others through competent and compassionate healthcare. The XU-ATP provides a positive learning environment that fosters ethical decision-making, and collaboration with emphasis on instilling the values of continuous improvement and life-long learning. The XU-ATP merges rigorous course work with a variety of applied clinical experiences to build a strong foundation for a career in the field of athletic training.

The Xavier University Athletic Training Program fulfills the curricular guidelines established by the Commission on Accreditation of Athletic Training Education (CAATE) and the National Athletic Trainers' Association (NATA). Completing a degree in our Master of Science in Athletic Training program fulfills the eligibility requirements of the BOC certification exam. Graduates of Xavier University's Athletic Training Program receive a Master of Science (M.S.) degree in Athletic Training and are eligible to sit for the BOC exam.

Go to http://www.xavier.edu/master-of-athletic-training-program/Admission.cfm for current information pertaining to accreditation, program admission, technical standards, graduation requirements and the curriculum.
The Masters in Athletic Training program operates on a rolling admissions basis. We welcome complete applications as early as August; however, the deadline is February 15th. Students may apply after the deadline, and we will review applications on a rolling basis as space permits in the cohort.

Students with incomplete prerequisites may apply; however, they must state how they will satisfy the prerequisites prior to the start of the program. A student with deficiencies may be considered for conditional admission to the program if he or she fails to meet any of the requirements, however, all requirements must be met prior to the start of the program.

Students may enter the M.S. in Athletic Training degree through one of two options (see below).

**Option 1: 2-year program for students with a bachelor's degree**

Students who have demonstrated excellent academic achievement in completion of a bachelor's degree and have completed all prerequisites may complete the 2-year / 5-semester MS in AT degree.

**Option 2: 5-year program for students without a bachelors degree (3+2 design)**

In the first three years of this program students will complete courses to fulfill all XU core requirements, Exercise Science major requirements, and prerequisites for the MS in AT program. Once accepted into the MS in AT degree program, students complete the 2-year / 5-semester MS in AT degree. After the fourth year at XU, students will earn an undergraduate degree in Exercise Science and after the fifth year, students will earn a Master of Science in Athletic Training.

**Program Admission Requirements**

**MS in AT (5 year option): Conditional Graduate Program**

**Admission Requirements**

Prospective students in the XU-Exercise Science major, interested in pursuing the Masters of Science in Athletic Training degree program must meet the pre-requisites listed below.

**Pre-requisites:**

- Completion of Xavier University's core and Exercise Science degree requirements
- Completion of a minimum of 97 credits
- Overall 3.0 GPA
- Minimum grade of "C" in each pre-requisite course (C- is not acceptable)
- Minimum cumulative GPA of 3.0 in all pre-requisite courses

Pre-requisite Courses:

- Anatomy & Physiology (BIOL 140-143)
- Students changing their major from Biology can petition to use BIOL 160-163
- Exercise Physiology (EXSC 225)
- Chemistry + Lab (CHEM 150 & 151)
- Physics + Lab (PHYS 140 & 141)
- Nutrition (EXSC 330)
- Statistics (MATH 116 or 156)
- English Composition (ENGL 101) or Rhetoric (ENGL 115)

- Completion of 40 hours of Professional exploration: a minimum of two athletic training practice settings addressing the needs of distinct patient populations
- CPR Certification (AHA ACLS, AHA BLS Healthcare Provider, or ARC CPR/AED for the Professional Rescuer.
- First Aid Certification (ARC)
Prospective students will be asked to submit the following along with an online application form by the Admission Deadline (February 15th for the following summer semester).

- One official transcript sent directly from the college/university to the Office of the Graduate School, of all previous undergraduate and graduate course work. Transcripts must demonstrate that the GPA, and pre-requisite course requirements have been met.
- Documentation of 40 hours of Professional exploration: a minimum of two athletic training practice settings addressing the needs of distinct patient populations
- Proof of current CPR Certification (AHA ACLS, AHA BLS Healthcare Provider, or ARC CPR/AED for the Professional Rescuer)
- Proof of current First Aid Certification (ARC)
- Read the Technical Standards and submit the signed Technical Standards Verification Form.
- A one-page statement of your career goals and how Xavier's Athletic Training Program fits with your goals.
- Two letters from professional and/or academic references who are able to assess your potential for success in this program

** Once all pre-requisites have been meet, qualified students will complete an Interview with an Athletic Training Faculty member (in person or over the phone).

**MS in AT (2 year option): Admission Requirements**

Prospective students with a bachelors degree interested in pursuing the Masters of Science in Athletic Training degree program must meet the pre-requisites listed below.

**Pre-requisites:**

- A bachelors degree from a regionally accredited college or university.
- Overall 3.0 Undergraduate GPA
- Minimum grade of "C" in each pre-requisite courses (C- is not acceptable)
- Minimum cumulative GPA of 3.0 in all pre-requisite courses

Pre-requisite Courses:

- Human Anatomy & Physiology
- Human Anatomy & Physiology Lab
- Anatomy & Physiology can be combined or separate
- Exercise Physiology
- Chemistry + Lab
- Physics + Lab
- Nutrition
- Statistics
- English Composition (Writing course)

- Completion of 40 hours of Professional exploration: a minimum of two athletic training practice settings addressing the needs of distinct patient populations
- CPR Certification (AHA ACLS, AHA BLS Healthcare Provider, or ARC CPR/AED for the Professional Rescuer)
- First Aid Certification (ARC)

**Prospective students will be asked to submit the following along with an online application form by the Admission Deadline (February 15th for the following summer semester).**

- One official transcript sent directly from the college/university to the Office of the Graduate School, of all previous undergraduate and graduate course work. Transcripts must demonstrate that the GPA, and pre-requisite course requirements have been met.
- Documentation of 40 hours of Professional exploration: a minimum of two athletic training practice settings addressing the needs of distinct patient populations
- Proof of current CPR Certification (AHA ACLS, AHA BLS Healthcare Provider, or ARC CPR/AED for the Professional Rescuer)
• Proof of current First Aid Certification (ARC)
• Read the Technical Standards and submit the signed Technical Standards Verification Form.
• A one-page statement of your career goals and how Xavier's Athletic Training Program fits with your goals.
• Two letters from professional and/or academic references who are able to assess your potential for success in this program

** Once all pre-requisites have been meet, qualified students will complete an Interview with an Athletic Training Faculty member (in person or over the phone).

Progression & Retention Requirements

• Students must earn a minimum grade of "B-" in all graduate athletic training courses. Students may repeat a course one time to improve their grade and meet graduation requirements. If a student does not meet the minimum grade requirement the second time a course is taken, they will not be permitted to retake the course, and will be dismissed from the program.
• Students must maintain current First Aid and CPR certification. Students are not allowed to participate in clinical experiences without current CPR & First Aid credentials. Students without current credentials will be suspended from all clinical experiences until this requirement is met.
• Students must follow all program policies & procedures and adhere to the National Athletic Trainers' Association's Code of Ethics. Violations will be dealt with on an individual basis, but could result in probation, suspension, or expulsion of the program depending on the severity.
• A code of ethical behavior and conduct has been developed to ensure professional behavior of all students enrolled in the Master's in Athletic Training. The Program Director will review cumulative code infractions at the end of each academic semester. A student who exceeds the maximum cumulative infraction points as outlined in the student handbook will be deemed unprofessional and will not be permitted to continue in the program.
• Students must receive satisfactory clinical evaluations from their assigned preceptors. Students receiving unsatisfactory evaluations will be required to meet with the Program Director and Clinical Education Coordinator to devise a plan intended to improve the student's clinical success. The student has one semester to improve their clinical evaluation ratings. Failure to follow the agreed upon plan may result in probation, suspension, or expulsion of the program depending on the case.

Graduation Requirements

• Students must have a minimum cumulative GPA of 3.0.
• Students must have a minimum grade of "B-" in each required course.
• Students must pass each of the required Clinical Integration Proficiencies.
• Students must pass a Xavier University Athletic Training comprehensive exam.

Required Courses

• ATTR 500 - Care & Prevention
• ATTR 501 - Athletic Training Skills
• ATTR 510 - Anatomical Kinesiology
• ATTR 521 - Lower Extremity Injuries
• ATTR 522 - Upper Extremity Injuries
• ATTR 523 - Head, Spine & Thorax Injuries
• ATTR 531 - Therapeutic Interventions 1
• ATTR 532 - Therapeutic Interventions II
• ATTR 540 - Evidence Based Practice
• ATTR 541 - Research I
• ATTR 550 - IP Collaboration
• ATTR 561 - Clinical Experience I
• ATTR 562 - Clinical Experience 2
• ATTR 600 - Medical Issues in AT

Criminal Justice, M.S.

The mission of the Department of Criminal Justice is to equip Master of Science students with the competence and conscience needed to: (a) function and/or advance professionally in criminal justice agencies or (b) pursue further graduate work in criminal justice or related fields.

The Master of Science in criminal justice program is designed for those persons who are interested in studying the theory and practice of criminal justice in law enforcement, courts, corrections, and the private sector.

The Master of Science in Criminal Justice program places an emphasis on criminal justice administration. Today, there is an ever increasing demand for highly qualified criminal justice administrators in public and private sector organizations to keep them running efficiently and effectively. The primary job of a criminal justice administrator is to provide oversight and supervision in matters related to crime and justice.

The program is geared toward students whose goal is to become criminal justice administrators at the middle and upper management level. Accordingly, an emphasis is placed on students learning management skills such as public relations, accounting and finance, human resources, policy formulation, budgeting, human interaction, crisis strategies, organizational behavior, and writing skills.

The program is designed for working professionals seeking career advancement, those preparing entrance into the field, and those interested in acquiring management skills and knowledge about the problems and practices within the criminal justice system.

The degree is designed for the busy working professional. Thus, courses are offered in an online or an online blended format where students will have face-to-face time with the instructor on certain selected weekends (Friday evenings and Saturday) during the semester. Full-time students can complete the degree in one year. Part-time students can complete the degree in two years.

The degree of Master of Science in Criminal Justice will be conferred only to candidates who have successfully completed 30 credit hours -- this includes research requirements. A comprehensive written exam on the general field of criminal justice, based on the required courses, is required at the conclusion of the program. Also, an overall graduate level grade point average of 2.800 must be attained.
The 30 credit hours are distributed as follows:

Basic required courses:

Students are required to take ten core courses (30 semester hours) designed to provide comprehensive coverage of the field of criminal justice with an administration concentration. They are:

30 Hours

- CJUS 611 - Law & Justice in America
- CJUS 620 - Socio of Crime & Delinquency
  - CJUS 623 - Perspectives in Law Enforcement Management
  - CJUS 633 - Forensics & White Collar Crime
- CJUS 642 - Criminal Justice Administratio
- CJUS 643 - Correctional Counseling
  - CJUS 644 - Government & Non-Profit Accounting
  - CJUS 647 - Human Resources for Criminal Justice Administrators
- CJUS 683 - Research & Planning in CJUS
- CJUS 784 - Research Essay: Seminar

Comprehensive Exam

At the close of their studies for the MS, students must pass a comprehensive examination.

Note(s):

- The MS program in Criminal Justice invites applications from students with a bachelor's degree and a solid academic record. Admission decisions are based on factors such as past academic performance, standardized test score, and other information submitted. Applications for this program are accepted throughout the year. A student may begin the program in the summer, fall, or spring term.

Customer Analytics, M.S.

The Master of Science in Customer Analytics trains and develops future problem-solving leaders. Through the utilization of real-world data sets, students will gain the skills, confidence and expertise required to succeed in today's information sensitive environment. Students are sought who are analytically curious. Graduates will harness and communicate the full value of large data sets prevalent in today's "big data" business environment. Graduates will review data sets, identify potential problems, and will have awareness of and can identify the correct analytic techniques. They will then effectively communicate results to others with the goal of improving management decision making.
Prerequisites

- INFO 550: Information Technology Management
- STAT 500: Business Statistics
- TUTORIAL: Excel Tutorial - Pearson Higher Education
- TUTORIAL: R-Programming or SAS Programming 1 - completion by 1st semester
- TUTORIAL: Statistics 1 © SAS Institute Inc - completion by Week #12, 2nd semester
- TUTORIAL: Qlik® or Tableau® Data Visualization Workshop - completion by end of 1st year

Course Sequence

30 credit hours are required

Year One

Fall Semester

- MKTG 550 - Marketing Strategy
- INFO 674 - Database Management

Spring Semester

- MKTG 640 - Consumer-Centric Category Mgmt
- INFO 680 - Intro Data Mining for Managers

Summer Semester

- MKTG 664 - Consumer Behavior Theory

Year Two

Fall Semester

- INFO 689 - Data Visualization
- MKTG 602 - Marketing Research
Spring Semester

- MKTG 605 - Applied Multivariate Analysis
- INFO 665 - Spreadsheets Apps Decision Making

Summer Semester

- BUAD 605 - Analytics Practicum

Notes

- 30 Credit Hours in the CORE are required for the degree. Select classes may be substituted if another Graduate Business Degree is present (i.e., MBA may substitute another Marketing elective for MKTG 550-Marketing Strategy, etc.)

Health Economic and Clinical Outcomes Research (HECOR), M.S.

The Master of Science in Health Economics and Clinical Outcomes Research [HECOR] is a 40 credit hour professional program offering students a foundation in health economics and health services research. Health outcomes research and economic evaluation is a growing field in which researchers examine the risks and benefits of drugs, medical devices, biotechnology and comparative interventions. Study results and conclusions are used by medical professionals, payers, self-insuring employers and government agencies to make better informed healthcare decisions and thereby improve patient care. The program is designed to train students to conduct both clinical and economic evaluations that inform health-care decisions. Students will learn how to conduct research that generates evidence on the effectiveness, benefits, and harms of different treatment options to include but not limited to: drugs, medical devices, tests, surgeries, or ways to deliver health care.

Students enrolled in this program will take courses spanning health economics and econometrics, data mining large with operational databases (e.g., payer, electronic medical records, and hospitals), statistical modeling and epidemiology in domestic and international settings. Graduates of this program will be well positioned to pursue careers as analysts, managers and directors in the fields of health outcomes research, policy, economics and reimbursement.

The program is designed as an aggressive, part-time program of two courses and a seminar for each semester - fall, spring, and summer - for two years, amounting to 20 credit hours per year.

Curriculum

First Year

Fall Semester

7 Credit Hours

- Statistics: STAT510 Introduction to Statistics (3) or HESA521 Quantitative Methods for Health Care Management (3)
- Economics: HESA471/571: Introduction to HECOR (3)
- Seminar: HECO601: Professional Development 1 (1)
Spring Semester

7 Credit Hours

- **Statistics**: HECO522 Applied Analysis 1 (3)
- **Clinical**: HESA567 Applied Epidemiology (3)
- **Seminar**: HECO602: Professional Development 2 (1)

Summer Semester

7 credit hours

- **Statistics**: HECO523 Applied Analysis 2 (3)
- **Economics**: HESA575 Health Economics (3)
- **Seminar**: HECO603: Professional Development 3 (1)

Second Year

Fall Semester

7 credit hours

- **Economics**: HESA579 Healthcare Policy & Policy Analysis (3)
- **Population Health**: HECO5xx: Comparative Health Systems (3)
- **Seminar**: HECO604: Professional Development 4 (1)

Spring Semester

7 credit hours

- **Statistics**: HECO624 Advanced Research Methods (3)
- **Economics**: HECO67x Cost Benefit and Effectiveness (3)
- **Seminar**: HECO605: Professional Development 5 (1)

Summer Semester

5 credit hours

- **Ethics**: THEO544: Health Ethics (3)
- **Seminar**: HECO699: Mentored Capstone Practicum (2)

- **Choose practice focus area:**
  1. OUTCOMES ANALYSIS FOR POPULATION HEALTH MGMT [BURDEN OF ILLNESS]
  2. OUTCOMES ANALYSIS FOR HOSPITALS, PAYERS OR SELF INSURING EMPLOYERS [COMPARATIVE EFFECTIVENESS RESEARCH]
  3. OUTCOMES ANALYSIS FOR GOVERNING BODIES [HEALTH TECHNOLOGY ASSESSMENTS]
Human Resource Development (Executive Program), M.S.

Human Resource Development (HRD) is the integrated use of training, organizational development, and career development efforts to improve individual, group, and organizational effectiveness. Xavier's executive human resource development program is designed to develop ethical, competent, and professional leaders who can perform effectively in critical HRD roles, such as director of HRD programs, training manager or director, instructor, facilitator, trainer, management/leadership development specialist, organization change agent, chief learning officer, program designer, or individual career development advisor.

Designed with working adults in mind, this program can offer you the chance to:

- Enhance your skills and knowledge as an HRD practitioner and obtain a graduate degree.
- Begin a new career in training, organization or career development.
- Work in business, industry, private, non-profit or public organizations as an internal or external HRD consultant.

The Xavier HRD program is offered in an executive format as a 21-month program. Students attend classes on the Xavier campus 1 weekend per month for 21 weekends (Friday night, all day Saturday, and Sunday mornings). A unique feature of this program is that it employs an executive approach to graduate study: Students enter with a group of students with whom they remain throughout their program of study. Due to the comprehensive and consecutive sequence of courses, no transfer credits will be accepted from other programs. There is no final thesis or comprehensive exam required for the program. Students will be admitted only once per year in the fall. Early application to the program is recommended.

Go to [http://www.xavier.edu/human-resource-development/#process](http://www.xavier.edu/human-resource-development/#process) to reference the admission requirements.

Requirements for the M.S. in HRD

The degree requires 30 semester hours. The 21-month program begins in August of each year. The courses are sequential and held on the weekends. There is no final thesis or final comprehensive exam required, and there are no course prerequisites.

The course sequence per each semester is as follows:

**Fall #1 (7 credit hours)**

- HRDE 650 - Intro Adult Org Learn
- HRDE 651 - Org Effectiveness & Change

**Spring #1 (7 credit hours)**

- HRDE 652 - Applied Adult & Org Learn
- HRDE 653 - Career Develp In HRD
- HRDE 654 - Needs Assess & Eval In HRD
Summer #1 (3 credit hours)

- HRDE 660 - Designing HRD Programs

Fall #2 (6 credit hours)

- HRDE 670 - Technology In HRD
- HRDE 671 - Applied HRD Research Pt 1
- HRDE 672 - Facilitating Learning In HRD

Spring #2 (7 credit hours)

- HRDE 673 - Applied HRD Research Pt 2
- HRDE 674 - Trends & Issues In HRD
- HRDE 675 - Strategic Lead & Ethics In HRD

May of year #2 is graduation.

Special Education, M.S.

The MS in Special Education is more widely sought program by people seeking information regarding disabilities without intent for licensure which might include other related health service providers and is an additional means for someone who already has a MEd to obtain an additional degree which we do not currently offer outside of the doctoral degree. The MS also provides students with an avenue to seek additional financial aid as they pursue additional State of Ohio licensure or endorsements past the MEd. The MS also offers us a new clientele-people outside of the field of education. The MS in Special Education would have a scientific view of education and could act as a stepping stone for a future doctoral candidate.

Program Description

This new program largely repackages the existing Special Education program, using existing series of courses and one additional new course to create a Master of Science degree. The degree consists of 30 semester hours of coursework. All of the degree courses are currently being offered online and face to face at Xavier and which have capacity to add additional students. We are also collaborating with a variety of outside programs to maximize the potential of existing courses. This is an opportunity for students to help shape their own program.
Outcomes

1. Candidates demonstrate challenging expectations for individuals with exceptionalities to develop the highest possible learning outcomes and quality of life potential in ways that respect their dignity, culture, language, and background.
2. Candidates demonstrate a high level of professional competence and integrity and exercising professional judgment to benefit individuals with exceptionalities and their families.
3. Candidates will promote meaningful and inclusive participation of individuals with exceptionalities in their schools and communities.
4. Candidates will develop relationships with families based on mutual respect and actively involving families and individuals with exceptionalities in decision making.
5. Candidates will use evidence, instructional data, research, and professional knowledge to inform practice.
6. Candidates will practice within the professional ethics, standards, and policies of CEC; upholding laws, regulations, and policies that influence professional practice; and advocating improvements in laws, regulations, and policies.

Curriculum

30 Credit Hours, including

Special Education Core

• MATH 516 Introduction to Statistical Methods
• EDSP 617 Administrative Partnerships in Special Education
• EDSP 618 Special Education: Qualitative & Quantitative Research
• EDSP 619 Special Education: Research Paper

Master of Science in Nursing

Nursing, M.S.N.

The Master of Science in Nursing is available for pre- and post-licensure students.

The second degree pre-licensure MSN (MIDAS program) is designed for the individual with a bachelor degree in another discipline who wishes to be a registered nurse. See MIDAS information and curriculum at www.xavier.edu/msn/midas. See admission for MSN MIDAS at www.xavier.edu/msn/msn-midas-admission.cfm.

The Master of Science in Nursing (MSN) for registered nurses provides the opportunity to obtain advanced level preparation in nursing science. Graduates of the program are prepared to assume professional leadership roles that encompass educational, consultative, and managerial functions. They are prepared to design and establish delivery services and practice in response to current health care policy changes.

The MSN for registered nurses requires a minimum of 36 semester hours of which ten are elective credits. Students may customize their course of study or select their electives from a focused track of study.
Objectives of the MSN Program

Core nursing and graduate support courses provide a foundation and with the opportunity to obtain advanced level preparation in nursing science.

Graduates of the MSN program are prepared to assume professional leadership roles that encompass educational, consultative, and managerial functions. They are also prepared to design and establish delivery services in response to current health care policy changes.

The graduate of the program of study leading to the Master of Science in Nursing degree will:

1. Synthesize theoretical and empirical knowledge from the humanities and the sciences, including nursing, and evaluate it for its use in guiding nursing research and practice.
2. Exhibit competence and confidence when assuming role responsibilities as a graduate with advanced level preparation.
3. Exemplify moral and ethical leadership through a concern for others, the management of nursing care, and a commitment to professional excellence in the delivery of health care and the profession.
4. Evaluate issues and opportunities in health care delivery from ethical, sociopolitical, technological, and historical frameworks while providing leadership for change.
5. Validate and extend nursing knowledge through interpretation of and collaboration in nursing research.
6. Communicate orally and in writing in a scholarly manner.
7. Develop in-depth knowledge in a concentrated area of study.

Admission

The point of entry into the MSN for registered nurses is determined by educational background:

1. Direct entry for RNs with a BSN
2. Direct entry for associate degree or diploma prepared registered nurses with a bachelor's degree in another field via the Educational Mobility Option, or
3. Entry via the RN to MSN program for associate or diploma prepared registered nurses without a bachelor's degree. This entry point requires the completion of bridge courses prior to matriculation to the MSN program.

Admission Requirements: [www.xavier.edu/msn/Admission.cfm](http://www.xavier.edu/msn/Admission.cfm)

Requirements for the MSN degree

Nursing Core (20 semester hours, 17 semester hours FNP, MIDAS)

- NURS 500 - Health Care Ethics-Nurse Leadrs
- NURS 501 - Theoretical Bases for Nurs Pra
- NURS 502 - Nursing Research
- NURS 505 - Health Care Informatics OR
- NURS 854 - Advanced Informatics (CNL, FNP, MIDAS)
- NURS 864 - Epidemiologic Methods
• NURS 690 - Healthcare Policy-Nurse Leader (not required for MIDAS)
• NURS 754 - Ldrshp/Management Concepts (not required for FNP)

Synthesis & Application for Registered Nurses (6 semester hours)

• NURS 703 - Graduate Nursing Practicum I *
• NURS 705 - Graduate Nursing Practicum II *
• NURS 779 - Applied Interprofession Collab *
• NURS 797 - Scholarly Project

* CNL track requires NURS 853 & NURS 855 instead of NURS 703, 705, 779 & 797

* FNP requires NURS 777 & NURS 778 instead of NURS 703 & 705

* MIDAS is a pre-licensure program not requiring NURS 703, 705, 779 & 797. See curriculum.

Track (Minimum of 10 semester hours)

Administration Track:

• NURS 634 - Nurs Admin In Complex Health
• NURS 636 - Financial Mgmt for Nursing Adm
• NURS 764 - Administrative Informatics
  ° A guided elective course.

Clinical Nurse Leader Track:

• NURS 556 - Introduction to CNL for RNs
• NURS 602 - Applying CNL Concepts to RNs
• NURS 658 - Advanced Clinical Pharmacology
• NURS 680 - Adv Pathophysiology for RN
• NURS 756 - Advanced Health Assess RN
• NURS 853 - Ldrshp Practicum For RNs *
• NURS 855 - CNL Leadership Scholarly Proj *

* NURS 853 & NURS 855 instead of NURS 703, 705, 779 & 797
Education Track:

- NURS 580 - PathoPharm and Assessment for the Nurse Educator
- NURS 660 - Adult Learner in Healthcare Or
- NURS 662 - Adv Technology & Simulation (Optional Elective Course)
- NURS 664 - Teaching Strategies
- NURS 670 - Roles of the Nurse Educator

Family Nurse Practitioner Track:

Courses restricted to FNP students.

- NURS 658 - Advanced Clinical Pharmacology
- NURS 680 - Adv Pathophysiology for RN
- NURS 756 - Advanced Health Assess RN
- NURS 770 - Primary Care Fam Pract Role
  - NURS 771 - Childbearing Family Care Practicum
- NURS 772 - Childbearing Family Care
  - NURS 773 - Pediatric and Adolescent Family Care Practicum
  - NURS 774 - Pediatric and Adolescent Family Care
- NURS 775 - Adult & Geriatric Fam Care Pra
- NURS 776 - Adult & Geriatric Family Care
- NURS 777 - FNP In Practice
- NURS 778 - FNP Integration Seminar
- NURS 779 - Applied Interprofession Collab

FNP Track Notes:

- Each practicum credit hour is eight clinical hours: 1:8.
- The total number of practicum hours required for the FNP is 600.
- A total of 47 hours is required - with a minimum overall cumulative GPA of 3.000.
- NURS 777 & NURS 778 are required instead of NURS 703 & NURS 705 (See MSN General Curriculum)

Forensics Track:

- NURS 642 - Psycho/Social/Legal Forensics
- NURS 648 - Found of Forensic Nursing
- CJUS 620 - Socio of Crime & Deliquency
- NURS 779 - Applied Interprofession Collab

General Studies Track:

Customize course of study. Choose courses from any of these tracks: Administration, Education, Clinical Nurse Leader, Forensics, Health Care Law, or Informatics. May serve as a path to a future goal.
Health Care Law Track:

- NURS 610 - Liability Health Care Org/Prof
- NURS 611 - Med-Lgl Rsrch, Writing & Presn
- NURS 642 - Psycho/Social/Legal Forensics
- HESA 581 - Health Care Legal Aspects

Informatics Track:

- NURS 634 - Nurs Admin In Complex Health
- NURS 764 - Administrative Informatics
- NURS 779 - Applied Interprofession Collab
- NURS 854 - Advanced Informatics

General Note:

- A minimum of 36 credit hours is required, with a minimum overall cumulative GPA of 3.000.

MSN MIDAS Program (Pre-licensure)

The Master of Science in Nursing: Direct Entry as Second Degree, the (MIDAS) program is designed for mature, goal-directed individuals who have a bachelor degree in a discipline other than nursing who desire to be a licensed registered nurse (RN). The twenty month MIDAS program is a five-semester (including one summer), fulltime program of study. Upon successful completion of the program, the student is eligible to sit for the National Council Licensure Exam-Registered Nurse (NCLEX-RN). The student will graduate with a Master of Science in Nursing (MSN).

The MIDAS program includes the clinical nurse leader (CNL) role within this generic master's program. The clinical nurse leader is an innovative nursing model developed by the American Association of Colleges of Nursing to prepare graduate nurse leaders for reforming the health care delivery system and putting best practice into action. All MIDAS graduates who have become registered nurses are eligible to sit for the Clinical Nurse Leader Certification Examination and are also eligible to sit for the American Holistic Nurses' Certification examination.

Admission Requirements: www.xavier.edu/msn/MSN-MIDAS-Admission.cfm

Curriculum

The MSN MIDAS program requires five semesters (fall/spring/summer/fall/spring) of full-time study.
Nursing Core (20 semester hours, 17 semestyer hours FNP, MIDAS)

- NURS 500 - Health Care Ethics-Nurse Leaders
- NURS 501 - Theoretical Bases for Nurs Pra
- NURS 502 - Nursing Research
- NURS 754 - Ldrshp/Management Concepts (not required for FNP)
- NURS 854 - Advanced Informatics (CNL, FNP, MIDAS instead of NURS 505)
- NURS 864 - Epidemiologic Methods

MIDAS Courses

- NURS 550 - Nursing Perspectives I
- NURS 552 - Art & Science of Nursing
- NURS 553 - Art & Science of Nursing Pract
- NURS 554 - Essentials of Pathophysiology
- NURS 560 - Nursing Perspectives II
- NURS 562 - Art & Sci of Family Nursing
- NURS 563 - Art & Sci Fam Nurs Practicum
- NURS 564 - Art & Science & Adult Nursing
- NURS 565 - Art & Sci & Adult Nurs Pract
- NURS 650 - Art & Sci of Adv Nursing
- NURS 651 - Art & Sci Adv Nurs Practicum
- NURS 652 - Art & Sci of Psych Nursing
- NURS 653 - Art & Sci of Psych Nurs Pract
- NURS 654 - Advanced Pharmacology
- NURS 656 - Advanced Pathophysiology
- NURS 750 - Nursing Perspectives III
- NURS 752 - Com Nurs/Pub Hlth Policy
- NURS 753 - Com/Pub Hlth Nurses Practicum
- NURS 850 - Nursing Perspectives IV
- NURS 851 - Leadership Practicum
- NURS 852 - Leadership for Quality

Note(s):

- Each practicum credit hour is equal to 4 clock hours per week.
- Total credit hours required for the MIDAS program is 79 semester credit hours

RN to MSN Program

The RN to MSN curriculum is designed for experienced registered nurses who are goal directed leaders and seek a high quality program that efficiently meets their need to obtain a MSN degree in a timely manner. Students in this program are registered nurses without a baccalaureate degree in any field, but have a minimum of two years of full-time nursing practice as registered nurses. Applicants must demonstrate leadership potential, motivation, specific career goals and an excellent academic record. It is expected applicants will already have completed foundational courses in their basic training prior to entering the program. These courses would include content in the following areas: anatomy and physiology, microbiology, chemistry, sociology, general psychology, developmental psychology, English composition and health assessment skills. Foundational content will be validated through the essay and resume.

Registered nurses applying to the MSN or RN to MSN program must be graduates of a nursing program accredited by the Accrediting Commission for Education in Nursing (ACEN), formerly NLNAC or the Commission on Collegiate Nursing Education.
(CCNE). Graduates of an associate degree academic program must have obtained a degree from a college or university accredited by the Commission on Institutions of Higher Education from one of the six regional accrediting bodies (MSA, NASC, NCA, NEASC, SACS, or WASC).

Students enrolled in the RN to MSN program complete 18 semester hours of prerequisite courses. These prerequisite courses build upon previous education and are required as preparation for the graduate program. Once prerequisites are met, students may matriculate into the graduate program. Admission to the graduate courses is contingent upon completion of all prerequisite courses and a minimum 3.000 cumulative grade point average in courses completed at Xavier.

Admission Requirements: www.xavier.edu/msn/Admission.cfm

RN to MSN Program Pre-requisite Courses:

- ENGL 101 - English Composition
- NURS 490 - Analysis of Healthcare Info *
- PHIL 100 - Ethics as Intro to Philosophy
- THEO 111 - Theological Foundations
- NURS 442 - The Community as Partner
- NURS 496 - Professional Development Grad Stud

Note(s):

* NURS 490 meets the statistics requirement. Alternately, this requirement may be met by a previously completed statistics course or XU's MATH 116 or MATH 156.

The MSN program consists of a minimum of 36 semester hours.

Doctor of Education

Leadership Studies, Ed.D

Drawing on Xavier University's Jesuit Catholic tradition, the Leadership Studies Doctoral Program is designed to develop authentic leaders who use their expertise and skills to promote ethical leadership, social justice and organizational change. The program emphasizes cultivating the whole person and his/her role in facilitating change and building leadership capacity within individuals, organizations and communities.

Graduates of this program will be transformative leaders in all types of profit and non-profit organizations, including educational and health care institutions, corporate and community service settings, and governmental agencies.

Accordingly, this degree is awarded to the candidate who has demonstrated a capacity for:

- Leadership and Change that is ethical, reflective, scholarly and effective in a variety of organizational arenas
- Designing and conducting scholarly Research
- The application of content knowledge in Specialized Cognate areas relating to Human & Organizational Development, Community & Non-profit Leadership, K-12 Education, Higher Education and Health Services Administration.
Program of Studies

The Ed.D. in Leadership Studies is a 60-semester hour program. It includes:

- 15 semester hours from the Leadership Core
- 15 semester hours from the Research Core
- 15 semester hours of Dissertation
- 15 semester hours Cognate

Leadership Core

- LEAD 880 - Comparative Leadership Theory
- LEAD 881 - Leading Organizational Culture & Change
- LEAD 882 - Psychosocial Dimensions of Leadership
- LEAD 883 - Ethical, Spiritual & Character-Based Leadership
- LEAD 884 - Developing Leadership Capacity

Research Core

- LEAD 870 - Fundamentals of Doctoral Research Methods in Leadership Studies
- LEAD 871 - Doctoral Statistics I
- LEAD 872 - Qualitative & Quantitative Research Methodology
- LEAD 873 - Doctoral Statistics II
- LEAD 874 - Developing Effective Research Proposals

Dissertation Advisement

A dissertation is required consisting of 15 semester hours.

- LEAD 890 - Dissertation Design

Cognate

Multiple cognates available; choose 15 semester hours from a growing list of courses and internship experiences in multiple content areas: Contact the Program Director for latest information.

Note:

Students who have completed post-master's coursework equivalent to a doctoral program at accredited institutions may receive some credit toward fulfillment of a portion of the cognate credits required for the Leadership Studies Ed.D. Courses graded on a pass/fail basis or the equivalent will not be accepted as transfer credit. Petitions for transfer of credit will be evaluated individually and will only be granted with the recommendation of the Program Director and approval of the Department Chair and Dean or Associate Dean.
At the appropriate time in the program, student performance will be evaluated according to standards established for qualifying to commence Dissertation Advisement. Those students not automatically qualifying on the basis of academic performance alone may be required to take one or more qualifying exams before beginning work on their dissertation.

**Suggested Course Sequence:**

Students may take up to 6 credits each semester, consisting of a combination of leadership, research and cognate courses until they have met the core and cognate requirements. After that, students are required to enroll in at least 1 credit of dissertation advisement per semester in order to maintain continuous enrollment in the program until their dissertation is completed and they have met the 15 credit hour requirement for dissertation advisement. Students who have not completed their dissertation must continue to enroll in dissertation advisement each semester until they graduate, even if they have already completed the 15 credits required.

**Admission Requirements:**

To be considered for admission as a degree-seeking Leadership Studies Ed.D. student, you must first submit the following to the Office of the Graduate School:

- Completed application. Apply online at [https://admit.xavier.edu/apply](https://admit.xavier.edu/apply) where you can register for an account. Start your application by selecting "Leadership Studies Doctorate Program (Ed.D.)."
- One official transcript of all undergraduate and graduate work from accredited colleges or universities
- Graduate Record Examination (GRE), GMAT, LSAT or Miller Analogies Test (MAT) score. (You do not have to re-take an admissions test if you have a copy of your previous test score.)
- A 1,000-word minimum statement of how you believe the Leadership Studies Ed.D. program will help you reach your short- and long-term professional goals
- Resume of work and volunteer experience
- Three letters of reference from individuals addressing your academic/professional potential for doctoral study

Applicants must have an advanced degree (i.e., Master's degree, J.D., or Ph.D.) with an overall minimum GPA of 3.0 from an accredited institution, without exception. Applicants whose prior study was outside the United States must have completed the equivalent of a U.S. bachelor's degree and a Master's degree. **International students must submit additional documentation attesting to degree equivalency and/or language proficiency facilitated through the Office of International Students.**

There are no set prerequisite courses or majors, and prior coursework in leadership is not required for admission to the program. The committee reviews performance in all prior post-secondary coursework.

Applications are accepted each academic year for matriculation in either Summer (May) or Fall (August) semesters. Admission for matriculation in Spring (January) semesters is offered in some academic years as posted on the University website. To ensure consideration, applications should be submitted by:

- Summer semester: April 1
- Fall semester: April 1
- Spring semester: October 1 (when offered)

A committee of faculty reviews the pool of applications after each of those dates and invites selected candidates to an on-campus interview to continue the application process. Applicants are encouraged to contact the Program Director prior to completing the application process at [http://www.xavier.edu/doctor-of-leadership-studies-program/Ask-the-Director.cfm](http://www.xavier.edu/doctor-of-leadership-studies-program/Ask-the-Director.cfm). Information sessions are occasionally offered by the Graduate School for prospective students. Dates and times for information sessions are available on the Graduate Admissions website, [http://www.xavier.edu/graduate-admission/](http://www.xavier.edu/graduate-admission/).

**Required coursework for the Leadership Studies doctoral program can be completed in as little as 2.5 years.** Students have 9 years from matriculation to complete the entire doctoral degree program, including dissertation, with a possible 1-year extension upon approval of the Dean of the College of Professional Sciences.
Financial Aid

The Office of Student Financial Assistance serves as a central clearinghouse for all funding programs available to assist graduate students with financing their doctoral education. The office helps graduate students determine their eligibility for various funding opportunities including Federal loans, grants and assistantships. Prospective students are encouraged to contact the office to discuss their particular circumstances and submit required applications for assistance:  [www.xavier.edu/financial-aid](http://www.xavier.edu/financial-aid). Deadlines may apply to specific funding programs, so it is best to contact the office even before being accepted into the program.

Please contact the program at [www.xavier.edu/leadership-studies](http://www.xavier.edu/leadership-studies) for current admission and program information.

Doctor of Nursing

Population Health Leadership, DNP

The Doctor of Nursing Practice (DNP) degree program is a population health-focused post-master's degree program for nurses from a variety of practice settings to become leaders in addressing the complexity of health care and health care outcomes in the 21st century. Through the lens of the Jesuit tradition, the student builds on a previously earned master's degree to achieve the highest level of academic preparation that incorporates scientific, philosophical, ethical, and historical perspectives of nursing practice along with a perspective of the complexities of present and future global and holistic health care. Additionally, organizational and systems leadership, population-focused healthcare, health policy that includes advocacy in health care, and inter-professional collaboration to address health care outcomes will be considered. The design, implementation, and evaluation of delivery methods that address outcomes to improve the health of the nation is the capstone focus. Xavier DNP graduates will be well positioned for translating the science of population health nursing as nurse leaders in an ever-changing global health care environment.

Intense immersion experiences in a variety of environments occur throughout the curriculum and focus on integration and application of credible research findings within the evidence base. Innovation to support management of care for individuals and populations, administration of nursing and health care organizations, and development and implementation of health policy that will ultimately influence health care outcomes for populations is also a part of the immersion experience. Using conceptual and analytical skills, students provide leadership in clinical scholarship and synthesize relationships among practice, organizations, diverse populations, fiscal resources, and policy concerns to advance the delivery of quality, safe, efficient and effective health care for diverse populations.

The 40-43 variable credit hour program is a 100% on line educational offering with a campus-based orientation prior to the beginning of the first fall semester. Students move through the 8 semester program taking 3 to 7 credits per semester. Variable credits are due to an epidemiology course that is required of all AACN Master of Science in Nursing (MSN) graduates and Doctor of Nursing Practice (DNP) graduates. MSN graduates who have approved credit for an equivalent epidemiology course from their master's curriculum are not required to repeat the course. Up to 500 hours of clinical immersion from a master's program and/or advanced certification may be accepted toward the 1,000 clinical immersion hours required for the DNP.

Application requirements and how to apply: [http://www.xavier.edu/nursing-graduate-programs/DNP-Admission.cfm](http://www.xavier.edu/nursing-graduate-programs/DNP-Admission.cfm)

Program Objectives

1. Integrate the scientific, philosophical, ethical, and historical underpinnings of professional nursing practice from a global and holistic perspective.
2. Provide organizational and systems leadership for quality improvements and systems thinking.
3. Provide leadership in clinical scholarship and analytical methods for evidence-based practice.
4. Utilize information systems/technology and patient care technology for the holistic improvement and transformation of health care.
5. Influence health care policy for advocacy in health care.
6. Establish interprofessional collaboration for holistically improving patient and population health outcomes.
8. Utilize conceptual and analytical skills to synthesize relationships among practice, organizations, diverse populations, fiscal resources, and policy concerns and to advance nursing practice.

Curriculum

Course scheduling is designed to enable students to take two courses in one late afternoon/evening per week for the first five semesters followed by one course per semester for the final three courses. Scheduling is subject to change.

- **NURS 864 Epidemiologic Methods**
- NURS 900 DNP Foundations (3)
- NURS 902 Advanced Evidence Based Practice (3)
- NURS 903 Nursing Leadership in Complex Population-Based Healthcare Systems (4)
- NURS 904 Application of Advanced Research Methodologies (3)
- NURS 905 Healthcare Finance and Economics for Nurse Leaders (4)
- NURS 906 Informatics for Advanced Nursing Practice in Complex Health Systems (3)
- NURS 907 Evaluation and Analysis of Outcomes in Health Care (4)
- NURS 908 Health Care Policy (3)
- NURS 910 Scholarship of Advanced Application and Innovation (3)
- NURS 911 Advanced Practice Application (4)
- NURS 915 Immersion and DNP Project I (3)
- NURS 917 Immersion and DNP Project II (3)

**Doctor of Psychology**

**Clinical Psychology, Psy.D.**

The Doctor of Clinical Psychology (PsyD) program builds upon Xavier's strong commitment to the Jesuit tradition of "service within the context of scholarship." The program provides students with the knowledge and range of skills necessary to provide psychological services in today's changing professional climate. The full time, five-year program includes four academic years and one internship year. The practitioner-scientist orientation emphasizes the importance of a scientific foundation in psychology. Although the PsyD program is designed to prepare students for the general practice of clinical psychology, it also addresses the service of specific groups of under-served individuals in today's society- children and adolescents, older adults, and individuals with severe mental disability. Within the curriculum, students have the opportunity to pursue these areas of interest by taking specialized courses, gaining experience in practicum placements, and conducting applied research.
Program of Studies

Students are accepted into the program on a full-time basis and are required to complete a minimum 114 credit hours to graduate. The curriculum of the first four years is divided into two major types of learning experiences: 1) knowledge/academic based, and 2) skills/clinical based. Ninety credit hours consist of courses that are primarily "academic" in nature. These courses are designed to develop content and methodologies in specific areas identified by the American Psychological Association as essential for clinical training—biological, cognitive and affective, social and cultural aspects of behavior, individual differences in behavior, history and systems in psychology, psychological measurement and assessment, human development, psychopathology, professional standards of ethics, research and evaluation, and professional interpersonal conduct. Twenty-four credit hours include courses such as professional development and practicum, clinical practicum, and internship that provide supervised experience and training in a range of clinical areas.

A unique feature of the program is the opportunity for students to develop an "Area of Interest" in clinical child psychology, applied geropsychology, or the psychology of severe mental disability. Prior to applying for internship in the fall of the fourth year, students must successfully complete the Clinical Competency Examination, patterned after the examination given by the American Board of Professional Psychology, and propose their dissertation.

Students who are accepted into the doctoral program who already hold a master's degree in a field akin to clinical psychology may expect a portion of the previous graduate work to be credited toward the fulfillment of the doctoral degree requirements. The allowable number of transferable hours may vary. In all cases a minimum of 75 hours of the required 114 must be completed at Xavier.

Petitions for transfer of credit will be granted with the recommendation of the Department Chair and approval of the Dean of the College of Social Sciences, Health, and Education. Courses will be considered for transfer at a grade of B or higher. Courses taken more than six years prior to entering the doctoral program will normally not be accepted for transfer.

Requirements for the PsyD degree

1. 

To ensure comprehensiveness in the program, all students must include each of the following courses designed to provide integrative education in the graduate field of psychology. Although the curriculum may change to match advancement of the field of professional psychology, the current curricular requirements are listed below in the present order of completion.

Year One

- PSYC 506 - Advanced Social Psychology
- PSYC 580 - Clinical Psychopathology
- PSYC 511 - Advanced Statistics I
- PSYC 520 - Computer Statistics Language I
- PSYC 585 - Assessment II: Personality
- PSYC 508 - Diversity
- PSYC 512 - Advanced Statistics II
- PSYC 521 - Computer Stats Language II
  - PSYC 584 - Assessment I: Psychometrics and Intelligence Testing
  - PSYC 509 - Cognitive Aspects of Behavior
  - PSYC 549 - Introduction to Clinical Interactions
Summer

- PSYC 502 - History & Philosophical Issues
- PSYC 505 - Prof Problems & Ethics in Psyc

Year Two

- PSYC 621 - Adv Research Design & Analysis
- PSYC 629 - Intervention Tech: Behav Thera
- PSYC 650 - Professional Devl & Pract I
- PSYC 651 - Professional Devl & Pract II
  - PSYC 586 - Assessment III: Cognitive Functioning
  - PSYC 510: Biological and Affective Aspects of Behavior
  - PSYC 608 - Integrative Life Span Psychology I
  - PSYC 622 - Advanced Research Design & Analysis II
  - PSYC 609 - Integrative Life Span Psychology II

**Earn M.A. in Psychology

Summer

- PSYC 607 - Advanced Developmental Psych
  - Elective Course

Year Three

- PSYC 730 - Intervention Tech: Consulting
- PSYC 731 - Intervention Tech: Psychodynam
- PSYC 760 - Clinical Practicum III
- PSYC 761 - Clinical Practicum IV
- PSYC 787 - Research I
- PSYC 788 - Research II
  - Elective courses (2)

Note(s):

- Clinical Competency Examination or Dissertation proposal must be successfully completed by the end of the spring semester prior to applying for internship.
Year Four

- Internship applications are completed during the fall semester of the fourth year.
- Clinical Competency Examination and the Dissertation proposal must be successfully completed prior to applying for the internship in the Fall.
- PSYC 789 - Research III
- PSYC 850 - Clinical Practicum V
- PSYC 851 - Clinical Practicum VI
  - Elective courses (5)

Year Five

- PSYC 999 - Internship (one year)

2.

All students are required to take eight elective courses, four of which are specified as the student's "Area of Interest"—clinical child psychology, applied geropsychology, or the psychology of severe mental disabilities. The other four electives are chosen by students in consultation with their advisor. A unique feature of the program is that students may opt to use their additional electives to work toward a "Certificate in Organizational Concepts and Management" or a "Certificate in the Foundations of Health Services Administration." In cooperation with the Williams College of Business and the Health Services Administration Department, doctoral students may elect to take courses which offer a foundation in business or in the health services discipline which provide a basis for understanding the dynamics involved in the delivery of health care services in today's changing professional climate.

3.

The PsyD degree will be awarded upon successful completion of required coursework, Clinical Competency Examination, Doctoral Dissertation and an internship. After the fourth year of enrollment in the doctoral program (or its equivalent for students admitted with advanced standing) the student is expected to be enrolled in either PSYC 999, Internship, or PSYC 790, Continuous Major Research, until the dissertation is defended and deposited in the library or the student has reached the 8-year limit for the PsyD program.

This policy remains in effect after the completion of the internship, until the dissertation is defended and deposited in the library. There is an eight year time limit to complete all program requirements. A minimum of 75 of the 114 hours required coursework for the PsyD. Degree must be completed at Xavier.

Grading Policy:

Grades are based on a student's performance meeting the standards established and communicated in writing by the professor of the course. A semester grade point average of 3.000 or higher is required for a student to remain in good standing. Any student whose semester (Fall, Spring, Summer) GPA falls below 3.000 or who earns a grade of "C (includes C+ or C)" or "F" in any 2 credit hour course will be placed on "WARNING" by the Dean of the College of Social Sciences, Health, and Education and remains on WARNING throughout the remainder of the program. Once on warning, any student whose semester (Fall, Spring, Summer) GPA falls
below a 3.00 may be dismissed. In addition, once on warning, any student who earns a grade of "C" or "F" in any course is subject to dismissal. A student who earns a grade of C or lower in 4 hours or more of course credit in one semester may be subject to dismissal immediately. The following interpretation of letter grades is used by the department A= excellent, B=good, C=minimal, and F=failure. Faculty may use a +/- system in grading. Students receiving a "C" in a course may be required to retake the course or do additional work to satisfy specific deficiencies. This will be determined by the professor of the course and will be discussed with the student and his/her advisor. The student may be required to register for a one hour tutorial (PSYC 900) to complete the necessary remedial work, for which he/she must earn a grade of pass to fulfill the requirements for the additional work. The work must be completed by the student during the following academic semester. Students receiving an "F" in a course are required to retake the course. A cumulative GPA of 3.000 or higher is required for graduation.

Admission Requirements for the PsyD degree

To be eligible for admission, applicants should submit materials before the annual deadline date of December 1st.

Go to http://www.xavier.edu/psychology-doctorate/admission.cfm on the Xavier website to reference the full details and the admission process.

Summary List of Admission Requirements

To be eligible for admission, applicants should submit the following items to the Department of Psychology before December 1st:

1. A completed application form.
2. Non-refundable $35 application fee.
3. One official transcript from each college or university attended. A minimum 3.000 overall undergraduate grade point average (on a 4.00 scale), and a minimum 3.000 average in all psychology courses.
4. Three letters of recommendation.
5. A written personal statement of reasons for pursuing a graduate degree in the psychology department at Xavier University, and plans after completion of studies.
6. GRE scores: General Knowledge (verbal, quantitative and analytical) area is required. Psychology Subject Test is required for those without psychology as their undergraduate major or minor.
8. Any other information that might aid in the selection process.

Students must have a minimum of 18 undergraduate hours in psychology, including general psychology, psychology statistics, research methods course with lab, and tests and measurements. Courses in developmental and abnormal psychology are helpful. Courses in biological science and college mathematics are also recommended as a preparation for graduate studies. Students with graduate training in clinical psychology or a related field who are accepted with advanced standing may expect a portion of their previous graduate work (if the student has earned a grade of "B" or higher) to be credited toward the fulfillment of the requirements for the doctoral degree. All decisions regarding acceptance of graduate credit will be made by the Department Chair in conjunction with the student's advisor by the end of the first year.

In all cases, a minimum of 75 of the 114 hours required coursework for the PsyD. degree must be completed at Xavier.

Dual Degree

Accountancy Combined Undergraduate and Graduate Program, B.S.B.A./M.S. or B.S.B.A/M.B.A.

These are five year programs that allow students to enroll in graduate studies during their senior year of undergraduate coursework. Many students with advanced placement credit or that enroll in summer courses or take 18-hour course loads complete these programs in less than five years. Completion of a combined program enables a student to earn a BSBA in Accounting and either an M.S. in
Accountancy (MSA) or an MBA while satisfying the 150-hour requirement to be eligible to take the CPA exam. Students are allowed to seek admission to the MSA or the MBA program when they have one year remaining to complete their BSBA in Accounting. Those accepted may begin taking a limited number of graduate courses while completing their undergraduate degree. (Note: either of these programs will allow students to meet the requirements to sit for the CPA exam in the state of Ohio. Students planning to practice in other states should become familiar with the requirements in that state)

Requirements:

- Same as the requirements for Accounting, B.S.B.A. except that six hours of MS or MBA credit may be taken in the senior year under the undergraduate tuition which covers up to 18 credit hours of classes in an academic term.
- Same as requirements for all MS and MBA students.
- The Nine credit hours of graduate electives required in the MBA program may include one or more courses in Accounting/Taxation, beyond ACCT 550.

B.S.B.A. Accounting and MS or MBA

This block serves as a guideline for progress toward a degree. Through a combination of advanced placement credit, summer work and/or taking 18 hours per semester, many students complete their program in four or four and one-half years. See your academic advisor.

Freshman Year

First Semester

- MATH 140 - Concepts of Calculus (3)
- ENGL 101 - English Composition or ENGL 150 - Rhetoric (3)
- PHIL 100 - Ethics as Intro. to Philosophy (3)
- Second Language I (3)
- CORE 100 - First year seminar (3)
- CORE 101 - First year Co-Curricular (0)
- BUAD 101 - The Business Professions I (0)

Total (15)

Second Semester

- INFO 120 - Introduction to Business Technology (1)
- ECON 200 - Microeconomic Principles (3)
- Historical Perspectives Elective (3)
- Second Language II (3)
- Scientific Perspectives or Natural Sciences Elective (3)
- THEO 111 - Theological Foundations (3)
- CORE 102 - First year Co-Curricular (0)
- BUAD 102 - The Business Profession I (0)
Sophomore Year

First Semester

- ACCT 200 - Introductory Financial Accounting (3)
- ECON 200 - Macroeconomic Principles (3)
- INFO 220 - Management of Information Technology (3)
- PHIL 200+ - Philosophical Perspectives (3)
- SHRM 200 - Human Resources in a Diverse Society (3)

- Writing Intensive Elective (3)
- BUAD 401 - The Business Profession IV (0)

Total (15)

Second Semester

- Accounting Elective or Auditing (3)
- General Elective or VITA I or VITA II (3)
- Creative Perspectives Elective (3)
- Humanities Elective (3)
- MSA Free Elective or MBA elective (3)
- BUAD 402 - The Business Profession IV (0)
Total (15)

MS Post Senior Year

Summer Semester

- BLAW 620 - Law and Professional Ethics (3)
- General Elective (3)

Total (6)

First Semester

- MACC 515 - Nonprofit and Governmental Accounting (3)
- MACC 622 - Fraud Examination (3)
- MACC 625 - Current Topics in Acct Practice (3)
- Free Elective (3)

Total (12)

Second Semester

- MACC 531 - Advanced Financial Reporting (3)
- MACC 611 - Corp Income Tax Rep & Compl (3)
- MACC Elective (3)

Total (9)

MBA Post Senior Year

Summer Semester

- ACCT 550 - Managerial Accounting (3)
- MKTG 550 - Marketing Strategy (3)
- Free Elective (3)
First Semester

- BLAW 550 - Business Ethics and Law (3)
- MGMT 550 - Strategy and Organizations (3)
- ECON 550 - Managerial Economics (3)
- INFO 550 - Business Information Systems (3)
- FINC 550 - Business Finance (3)

Total (15)

Second Semester

- BUAD 550 - International Business or any other international business elective (3)
- Elective (3)
- Elective (3)
- MBA Capstone Requirement (3)

Total (12)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum " requirements of the Catalog or website.
- * SHRM 200 fulfills the Core Curriculum Diversity Requirement Elective.
- * BLAW 300 fulfills the Ethics, Religion and Society (E/RS) focus.
- * MGMT 301 fulfills the Oral Communication Flag
- * FINC 300 fulfills the Quantitative Flag
- The BSBA degree program typically requires 121 total credit hours. A 2.000 grade point average (GPA) must be attained overall, in the business core and the accounting major.

Exercise Science & Athletic Training, B.S. / M.S.

B.S. Exercise Science + M.S. Athletic Training 3+2 Option

Program Requirements

Students are required to meet all Admission, Progression, Retention and Graduation requirements of the Exercise Science, B.S. and Athletic Training, M.S. .
Curriculum Requirements

151 credit hours:

- Undergraduate Core Curriculum
- B.S. Exercise Science Requirements - 97 credit hours
- Dual B.S. Exercise Science / M.S. Athletic Training Requirements - 23 credit hours
- M.S. Athletic Training Requirements - 31 credit hours

Course Sequence

First Year

Fall Semester

- EXSC 100 - Intro to Exercise Science
- BIOL 140 - Human A&P I for Allied Health
- BIOL 141 - Hum A&P I Lab Allied Health
- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
- Second Language I
- CORE 101

Spring Semester

- EXSC 200 - Kinesiology
- BIOL 142 - Hum A&P II for Allied Health
- BIOL 143 - Hum A&P II Lab Allied Health
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
- Second Language II
- Historical Perspectives
- CORE 102

Second Year

Fall Semester

- CHEM 150 - Physiological Chemistry
- CHEM 151 - Physiological Chemistry Lab
- MATH 116 - Elementary Statistics or MATH 156 - General Statistics
- PSYC 101 - General Psychology
- EXSC 300 - Exercise Physiology
- Theological Perspectives Elective
Spring Semester

- PHIL 100 - Ethics as Intro to Philosophy
- EXSC 320 - Fitness Training Principles
- EXSC 325 - Resistance Training
- EXSC 360 - Nutrition for Sport & Exercise
- Exercise Science Elective
- ENGL/CLAS/SPAN 205 - Lit & Moral Imag

Third Year

Fall Semester

- PHYS 140 - Technical Physics
- PHYS 142 - Technical Physics Lab
- EXSC 380 - Fitness Assessment & Design
- EXSC 381 - Fitness Assess & Design Lab
- Exercise Science Elective
- Ethics/Religion & Society Elective
- Humanities Elective

Spring Semester

- Exercise Science Elective
- EXSC 460 - Exercise Science Practicum
- PHIL 200 - Philosophical Perspective
- Creative Perspectives Elective
- Core / General Electives

Summer Semester

- ATTR 500 - Care & Prevention
- ATTR 501 - Athletic Training Skills
- ATTR 510 - Anatomical Kinesiology

Fourth Year

Fall Semester

- ATTR 521 - Lower Extremity Injuries
- ATTR 531 - Therapeutic Interventions 1
- ATTR 540 - Evidence Based Practice
- ATTR 561 - Clinical Experience I
Spring Semester

• ATTR 522 - Upper Extremity Injuries
• ATTR 523 - Head, Spine & Thorax Injuries
• ATTR 532 - Therapeutic Interventions II
• ATTR 541 - Research I
•ATTR 550 - IP Collaboration
• ATTR 562 - Clinical Experience 2

Fifth Year

Fall Semester

• ATTR 600 - Medical Issues in AT
• ATTR 610 - Administrative Concepts
• ATTR 633 - Therapeutic Interventions III
• ATTR 642 - Research II
• ATTR 663 - Clinical Experience 3

Spring Semester

• ATTR 650 - Contemporary Issues in AT
• ATTR 664 - Clinical Experience 4

Life Sciences for Business, B.S./M.B.A.

The Life Sciences for Business program is a dual-degree program in which students earn a Bachelor of Science in the first four years and enter the Master of Business Administration program in the fifth year. It is designed to prepare students for leadership in the Biotech industry.

Requirements for the BS in Life Sciences for Business:

Core Curriculum Requirements

Students must complete the Undergraduate Core Curriculum requirements. Specific courses that must be taken to satisfy the core curriculum requirements include the following:
Social Science

- Social Science Elective

Mathematics

- MATH 140/150
- MATH 156 - General Statistics

Science requirement specified by the major as:

16 hours in Chemistry:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab

8 hours of Physics:

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II

Biology Requirements:

8 hours of General Biology

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
15 hours of Biology electives

- At least 15 credit hours from biology electives (BIOL 210 General Botany or above) including at least one lecture/laboratory combination from: BIOL 230/231 Genetics (4) or BIOL 410/411 Human Physiology (5) or BIOL 450/451 General Microbiology (5, S)

28 hours in Business courses:

- ACCT 200 - Introductory Financial Acct
- ECON 200 - Microeconomic Principles
- STAT 211 - Statistics For Business II
- INFO 120 - Introduction to Business Tech
- INFO 220 - Mgmnt of Info Tech
- MGMT 300 - Managerial Behavior
- MKTG 300 - Principles of Marketing
- FINC 300 - Business Finance
  - BLAW 300 for BS OR BLAW 550 for MBA
  - Business elective for BS OR MGMT 550 Strategy and Organization for MBA

Note:

A 2.0 cumulative grade-point average must be attained in all hours of the major.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Life Sciences for Business, B.S./M.B.A. Suggested Block Schedule

First Year

First Semester

- BIOL 160 - General Biology I
• BIOL 161 - General Biology I Lab
• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• Social Science Elective
• CORE 101 - GOA
• CORE 100 - First Year Seminar or THEO 111 - Theological Foundations

Total (14)

Second Semester

• BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
• INFO 120 - Introduction to Business Tech
• ENGL 101 - English Composition or ENGL 115 - Rhetoric
• CORE 100 - First Year Seminar or THEO 111 - Theological Foundations
• CORE 102 - GOA

Total (15)

Second Year

First Semester

• CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• INFO 220 - Mgmt of Info Tech
• MATH 140/150 or MATH 156 or STAT 210
• Historical Perspectives
• Second Language I

Total (16)

Second Semester

• CHEM 242 - Organic Chemistry II
• CHEM 243 - Organic Chemistry II Lab
• MATH 140/150 or MATH 156 or STAT 210
• MKTG 300 - Principles of Marketing
• Second Language II
• ECON 200

Total (16)
Third Year

First Semester

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- STAT 211 - Statistics For Business II $^{1,3}$
- PHIL 100 - Ethics as Intro to Philosophy
- BIOL Electives (6)

Total (16)

Second Semester

- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
- MGMT 300 - Managerial Behavior $^1$
- Humanities Elective
- BIOL Elective (3-6)

Total (13-16)

Summer

- Take GMAT Exam
- Apply to MBA Program

Fourth Year

First Semester

- ENGL 205 - Literature & Moral Imagination or CLAS 205 - Classical Lit & Moral Imagina or SPAN 205 - Hispanic Lit & Moral Imagin
- Theological Perspectives
- Philosophical Perspectives
- ACCT 200 - Introductory Financial Acct $^{1,3}$
- BLAW 300 OR BLAW 550 (MBA) - Business Law and Ethics

Total (15)
Second Semester

- FINC 300 - Business Finance
- Business Elective (BS) or MGMT 550 (MAB) - Strategy and Organizations
- Creative Perspectives
- BIOL Electives (6)

Total (15)

MBA Year

First Semester

- ACCT 550 - Managerial Accounting
- FINC 550 - Fundamentals of Finance
- INFO 550 - Business Information Systems
- MKTG 550 - Marketing Strategy
- MBA Elective

Second Semester

- BUAD 550 - International Business
- ECON 550 - Managerial Economics
- MGMT 551 - Operational Analysis
- International Business Elective
- MBA Elective
- MBA Elective

Summer

- MBA Capstone Course (3)

Notes:

1. Students intending to apply for and complete the LSFB & MBA program must notify their advisor and take the GMAT in their Junior Year. ACCT 200 and STAT 211 are pre-MBA foundation requirements for MBA candidates. Calculation of the undergraduate GPA for the LSFB Major will be based on the grades from both the Biology and Business courses taken during the student's first 4 years at Xavier. The graduate GPA for the LSFB Major will be based on the grades from the graduate business courses taken by the student during the 5th year at Xavier.

2. Students who do not wish to complete the LSFB & MBA program must notify their advisor no later than Fall of their Junior Year and can choose option A or B:
A) This route leads to a BS in LSFB and a Business minor (assuming students have taken the required business courses and applied for the minor)**. These students must take BLAW 550 and MGMT 500 for this undergraduate degree.

B) This route requires a change of major to BIOL and student would receive a BS in BIOL with a Business minor (assuming students have taken the required business courses and applied for the minor)**. These students must fulfill additional Biology requirements (i.e., Genetics, Human Physiology and either Botany, Entomology or General Microbiology), as well as the senior capstone course (see block schedule and checklist for the Biology major).

ERS Elective (can double count w/PHIL 300s, THEO 300s, LIT, etc.) and 3 hours of DCR

**Business Minor = ACCT 200, ECON 200, FINC 300, INFO 120/220, MGMT 300, MKTG 300 and STAT 211 (2.000 GPA overall required).

### MHSA / MBA

This concurrent degree option provides an opportunity for students to pursue an MBA degree in addition to a MHSA degree. The degree may be earned by pursuing additional hours of MBA graduate level course work through the Xavier Williams College of Business. Candidates for both degrees should declare their intentions when applying and submit one application to the graduate program in health services administration AND one application to the Williams College of Business. Concurrent degree candidates must be accepted to both the GPHSA and MBA programs. For further information about the MBA prerequisites and requirements, call 800-344-4698.

### MSN / MBA

Xavier University's College of Social Science, Health, and Education and Williams College of Business offer an outstanding opportunity for nursing leaders to receive a dual degree in a creative, integrated program that unites these two nationally recognized colleges. More and more nurse administrators are finding the health care industry has become a business that requires both the application of professional nursing and business theories. The joint MSN/MBA program uses a cohort approach, which enhances networking and collegiality among students. Flexible scheduling is an opportunity provided with MBA courses.

This degree requires 59 credits or more depending on the student's choice of courses. Students may be required to take foundational business courses or demonstrate knowledge of the following courses by previous academics, professional credentials or through examination. Two capstone courses measure the accomplishment of each program's objective.

**Admission Requirements: [www.xavier.edu/msn/Admission.cfm](http://www.xavier.edu/msn/Admission.cfm)**

### Requirements for the Dual Degree MSN/MBA

#### Nursing Core/Graduate Support (17 semester hours):

- NURS 500 - Health Care Ethics-Nurse Leaders
- NURS 501 - Theoretical Bases for Nurs Pra
- NURS 502 - Nursing Research
- NURS 505 - Health Care Informatics
- NURS 690 - Healthcare Policy-Nurse Leader
- NURS 864 - Epidemiologic Methods
Concentration (12 semester hours)

- NURS 634 - Nurs Admin In Complex Health
  or
- MGMT 550 - Strategy and Organizations
- NURS 764 - Administrative Informatics
  or
- INFO 550 - Business Information Systems
  - MBA Elective
  - MBA Elective

MBA Foundational Skills (2 semester hours)

- ACCT 500 - Foundations of Financial Acct

MBA Core (21 semester hours):

- ACCT 550 - Managerial Accounting
- BLAW 550 - Business Law and Ethics
- BUAD 550 - International Business
- ECON 550 - Managerial Economics
- FINC 550 - Fundamentals of Finance
- MKTG 550 - Marketing Strategy
- MGMT 551 - Operational Analysis

Synthesis & Application (4 semester hours):

- NURS 703 - Graduate Nursing Practicum I
- NURS 705 - Graduate Nursing Practicum II
- NURS 779 - Applied Interprofesion Collab

Capstone Courses (5 semester hours):

- BUAD 690 - Corporate Governance or
- BUAD 691 - Global Strategic Thinking or
- BUAD 694 - Bond Portfolio Management
The MSN/MEd program at Xavier University is an innovative, integrated program whereby the student will receive two separate degrees -- the Master of Science in Nursing (education track) and the Master of Science in Education. This program was developed in response to a community need for nurse educators. The MSN/MEd prepares the graduate to administer and teach in educational settings (e.g., CE providerships, in-service educators and nurse educators).

The curriculum consists of a minimum of 61 semester credit hours. The core courses include theoretical and practical knowledge, which serve as the foundation for advanced nursing education in a variety of roles. Core courses focus on three major themes which are consistent with the philosophy for the graduate program: critical systematic inquiry, professional and personal development, and management of information and resources in a rapidly changing health care environment. The courses in the education track emphasize education principles and skills that enhance adult education management and practices.

Admission Requirements: [www.xavier.edu/msn/Admission.cfm](http://www.xavier.edu/msn/Admission.cfm)

Requirements for the Dual Degree MSN/MEd

Nursing Core required courses (20 semester hours):

- NURS 500 - Health Care Ethics-Nurse Leader
- NURS 501 - Theoretical Bases for Nurs Pra
- NURS 502 - Nursing Research
- NURS 505 - Health Care Informatics
- NURS 690 - Healthcare Policy-Nurse Leader
- NURS 754 - Leadership/Management Concepts
- NURS 864 - Epidemiologic Methods

Required Nursing courses for Education track (11 hours)

- NURS 660 - Adult Learner in Healthcare Or
- NURS 664 - Teaching Strategies
- NURS 670 - Roles of the Nurse Educator
  - Nurs 580 - Patho, Pharm & Assessment Nurse Education

MEd Courses required (9 semester hours):

- EDAD 660 - Curr Design & Teach Strategies
Elective Courses (Total of 12 hours required)

Select 9 credits from the following education courses. *NURS 660 counts for 3 of the total of 12 elective hours required.

- EDAD 543 - Supervision of Inst/Staff Pers
- EDAD 562 - Political Structure& PR
- EDAD 563 - Sch Finance, Bus Aff / Phys
- EDAD 565 - School Law I
- EDAD 570 - Policy Planning & Evaluation
- EDSP 500 - Sp Ed: Identification& Issue
- EDFD 510 - Adv Human Develop & Learning

Synthesis & Application (6 semester hours):

- NURS 703 - Graduate Nursing Practicum I
- NURS 705 - Graduate Nursing Practicum II
- NURS 797 - Scholarly Project
- NURS 779 - Applied Interprofession Collab

**MSN / MSCJ**

The MSN/MSCJ program at Xavier University is an integrated program, whereby the student will receive two separate degrees -- the Master of Science in Nursing (forensic concentration) and the Master of Science in Criminal Justice. The Master of Science in Nursing (MSN) program at Xavier University provides nurses with the opportunity to obtain advanced level preparation in nursing science. Graduates of the program are prepared to assume professional leadership roles that encompass educational, consultative, and managerial functions. They are prepared to design and establish delivery services in response to current health care policy changes. This integrated MSN/MSCJ program was developed to compliment the forensics track of the MSN program. Graduates are prepared to function in non-traditional roles within the criminal justice system and address the changing needs of the nation to prepare nurses in bioterrorism and disaster planning.

The curriculum consists of a minimum of 46 semester credit hours. The core courses include theoretical and practical knowledge, which serve as the foundation for advanced nursing practice. Core courses focus on three major themes which are consistent with the philosophy for the graduate programs: critical systematic inquiry, professional and personal development, and management of information and resources in a rapidly changing health care environment. Additional courses in the MSN/MSCJ dual degree emphasize forensic and criminal justice principles and skills that enhance the variety roles in nursing forensics and criminal justice in which graduates may be employed.

**Admission Requirements:** [www.xavier.edu/msn/Admission.cfm](http://www.xavier.edu/msn/Admission.cfm)
Requirements for the Dual Degree MSN / MSCJ

Nursing/Graduate required courses (21 semester hours):

- NURS 500 - Health Care Ethcs-Nurse Leadrs
- NURS 501 - Theoretical Bases for Nurs Pra
- NURS 502 - Nursing Research
- NURS 505 - Health Care Informatics
- NURS 754 - Ldrshp/Management Concepts
- NURS 864 - Epidemiologic Methods
- CJUS 643 - Correctional Counseling

Track (18 semester hours):

- CJUS 439 - Criminalistics II or
- CJUS 449 - Criminalistics III
- CJUS 610 - Basic Const Law & Amer Justice
- CJUS 620 - Socio of Crime & Deliquency
- CJUS 642 - Criminal Justice Administratio
- NURS 642 - Psycho/Social/Legal Forensics
- NURS 648 - Found of Forensic Nursing

Synthesis & Application (7 semester hours):

- CJUS 792 - Internship
- NURS 705 - Graduate Nursing Practicum II
- NURS 779 - Applied Interprofession Collab
- NURS 797 - Scholarly Project

Minors

Advanced Technology Minor

The Department of Management Information Systems offers the minor in Advanced Technology. This minor is available to business and non-business undergraduate students.
18 total credit hours are required, as follows:

15 hours from specific required courses:

- CSCI 170 - Computer Science I
  - INFO 200 - Managing Information Technology
  - INFO 250
- INFO 362 - Adv Application Development
- INFO 368 - Intro to Enterprise Systems

3 hours from elective courses:

- Select from upper division courses in INFO and CSCI.

Note(s):

- A 2.000 cumulative average must be attained in these courses.
- At least half of these credit hours must be taken at Xavier.

Advertising Minor

The advertising minor offers an understanding of the principles of advertising, creative concepts, and research.

18 total credit hours are required, as follows

12 hours from:

- COMM 206 - Writing for the Media
- COMM 270 - Principles of Strategic Comm
- COMM 329 - Audience Survey & Research
• COMM 430 - Creative Strategies Advertising

6 hours of electives (2 courses) selected from:

• COMM 211 - Media Literacy
• COMM 235 - Digital Design
• COMM 237 - Elements of Copy & Design
• COMM 264 - Persuasion
• COMM 332 - Media Strategies in Advertising
• COMM 477 - Strat Comm Ethics Society

Note(s):

• A 2.000 cumulative average must be attained in these courses.

Africana Studies Minor

The Africana Studies minor serves as an introduction to the historical, political, cultural and social traditions of the African continent and the African Diaspora within disciplinary and interdisciplinary contexts. Elective courses which satisfy the intellectual requirements of the minor trace the customs, mores and histories of African nations or countries with significant African Diaspora populations, perform comparative analysis between African or African Diaspora populations, or focus on individual spheres – cultural, economic, political, social, etc. – within specific African/African Diaspora populations.

Requirements:

Students completing the 15-credit hour minor must fulfill the following minimal requirements:

1 three credit hour introductory course on African cultures:

• HIST 123 - African History I or
• HIST 124 - African History II

1 three credit hour elective intermediate course on African cultures:
• ENGL 352 - African Literature
• THEO 309 - West African Religions
  ◦ or other qualifying courses

1 three credit hour introductory course on African Diaspora populations:

• THEO 322 - Black Theology
• PSYC 330 - Intro to African/Black Psych

1 three credit hour elective intermediate course on African Diaspora populations:

• COMM 323 - Race, Class, Gender& Media
• ENGL 484 - African-American Literature
  ◦ or other qualifying electives

1 three credit hour exit seminar:

• One three credit-hour exit seminar housed in the department of the professor teaching it that particular semester.

Applied Mathematics Minor

The minor in Applied Mathematics provides students with a solid foundation for using and understanding the tools of mathematics that are particularly applicable to other disciplines. Mathematical and quantitative competence are increasingly valued in an ever-increasing number of fields, including the physical sciences, business and finance, medicine, any many of the social sciences. The minor in Applied Mathematics broadens the analytical and problem-solving skills of students in virtually any field of study, and it increases their attractiveness to potential employers.

Applied Mathematics Minor

20 credit hours

11 credit hours

• CSCI 170 - Computer Science I
• MATH 170 - Calculus I
• MATH 171 - Calculus II

9 hours of electives from the following:

• MATH 220 Calculus III
• MATH 225-399 (Refer to Course Descriptions)

Note(s):

• A 2.000 cumulative average must be attained in these mathematics courses.
• The Mathematics minor is open to all undergraduates except students majoring in Mathematics or Actuarial Science.
• Students can receive no more than one of these three minors: Mathematics, Applied Mathematics, Statistics.

Art History Minor

18 total credit hours are required, as follows

15 hours required in art courses:

• ARTS 270 - History of Art I
• ARTS 271 - History of Art II
• ARTS 272 - Art of the 20th Century
• ARTS 273 - History of American Art
• ARTS 274 - Women, Art & Society
• ARTS 275 - Sacred Art-Christian Perspect
• ARTS 276 - Art of the Enlightenment

3 hours of art electives (either studio or more art history)
Note(s):

- A minimum grade of "C" must be attained in all art courses to count toward the minor.
- Further information concerning art minors can be obtained from the Department of Art.

Asian Studies Minor

The Asian Studies Minor is designed to build a deep knowledge of and appreciation for the peoples and cultures of Asia. Students will gain intermediate competency in an Asian language and learn about Asia from a variety of perspectives (e.g. historical, cultural, religious) and broaden their global perspective with insight into the diverse world of Asia.

24 total credit hours are required, as follows

Four language courses in the same language

12 credits

- CHIN 101 - Elementary Chinese I
  - CHIN 102 - Elementary Chinese II
- CHIN 201 - Intermediate Chinese I
  - CHIN 202 - Intermediate Chinese II
  
  or

- JAPN 101 - Elementary Japanese I
- JAPN 102 - Elementary Japanese II
- JAPN 201 - Intermediate Japanese I
- JAPN 202 - Intermediate Japanese II

One from

3 credits

- HIST 161 - Asian History I
- HIST 162 - Asian History II

One other 200, 300, or 400 level HIST course

3 credits
One from

3 credits

- THEO 342 - World Religions
- THEO 343 - Dialogue Among World Religions
- THEO 368 - Buddhism
  - THEO 371 - Buddhism and Ecology
- THEO 374 - Buddhist Christian Exploration

One elective from HIST, THEO or other approved course

3 credits

Notes

The minimum credit hours for the Asian Studies minor is 18.

If a student transfers in credit for a course or courses an Asian language, the language requirement for the minor will be adjusted based on the student's level of proficiency, which will be determined by the language instructor. Students whose first language is an Asian language and students with intermediate Asian language proficiency (202) transfer credit will take an additional 6 hours of approved coursework for a total of 18 hours in the minor. Students who transfer proficiency through 201 will take the 202 language course and an additional three hours of approved coursework for a total of 18 hours in the minor.

Biochemistry Minor

The Biochemistry minor is intended to enhance students' understanding and competency in the area of Biochemistry.

21 total credit hours are required, as follows

17 hours from:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 230 - Genetics
- BIOL 231 - Genetics Laboratory
- CHEM 440 - Biochemistry
4 hours of electives selected from:

- CHEM 320 - CHEM 450

Biology Minor

At least 16 total credit hours are required, as follows

8 hours from:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab

Additional 2 lecture lab combinations from:

- Microbiology & Lab BIOL 200/201 (3 & 1)
- Botany & Lab BIOL 210/211 (3 & 2)
- Genetics & Lab BIOL 230/231 (3 & 1)
- Ecology & Lab BIOL 250/251 (3 & 1)
- Environ Science & Lab BIOL 260/261 (3 & 1)
- Entomology & Lab BIOL 270/271 (3 & 2)
- Human & Comp Anat & Lab BIOL 354/355 (3 & 2)
- Human Physiology & Lab BIOL 410/411 (3 & 2)
- General Microbiology & Lab BIOL 450/451 (3 & 2)
- Developmental Bio & Lab BIOL 460/461 (3 & 1)

Note(s):

- A 2.000 cumulative average must be attained in all these courses.

Business Minor

This minor is available to all undergraduate non-business majors as it provides students with an introduction to business. Students gain exposure to a variety of business disciplines and topics.
20-21 total credit hours are required, as follows:

18 hours of specific business courses:

- ACCT 200 - Introductory Financial Acct
- ECON 200 - Microeconomic Principles
- FINC 300 - Business Finance
  - INFO 200 - Managing Information Technology
- MKTG 300 - Principles of Marketing
- MGMT 300 - Managerial Behavior

2-3 hours of a business elective course are also required for the minor:

(All prerequisites for elective courses must be met)

Courses typically chosen as an elective are:

- ACCT 201 - Introductory Managerial Acct
- BLAW 300 - Legal Environment
- ECON 201 - Macroeconomic Principles
- ECON 300 - Intl Trade & Bus Environment
- MGMT 301 - Managerial Communications
- SHRM 200 - Human Resources In a Diverse S

Note(s):

- A 2.000 cumulative average must be attained in these courses.
- At least half of these credit hours must be taken at Xavier.

Business Analytics Minor

The Minor in Business Analytics is intended to educate and develop future data analysts. Those that complete the minor will emerge with the necessary skills to immediately contribute to businesses in roles which require training in and an aptitude for data analysis. Through the utilization of real-world data sets, students will gain the skills, confidence and expertise required to succeed in today’s data-driven business world. It is the intention of this minor to produce high-quality students who are not only analytically sound but also ethically responsible in their use of data. Ultimately, the outcome of the minor will be students who are able to help businesses make better decision through data analysis and statistical modelling.

24 credit hours
9 credit hours of required prerequisites

- INFO 220 - Mgmt of Info Tech
- STAT 211 - Statistics For Business II
- MKTG 300 - Principles of Marketing

15 credit hours from:

- INFO 358 - Data Modeling and Management
- INFO 365 - Business Analytics
- INFO 329 - Data Mining or
- MKTG 329 - Data Mining
- MKTG 302 - Marketing Research
  - MKTG 315 - Consumer Centric Category Management or
  - MKTG 370 - Consumer Behavior

**Catholicism and Culture Minor**

In the late second and early third centuries Christian theologians debated the relationship of religious belief and contemporary culture. Many Christians sided with Origen who believed that Christians could use contemporary culture both to understand and defend their belief. Since then Christianity in its Roman Catholic and Eastern Orthodox branches has had a symbiotic relationship with the cultures in which they exist. Changes in culture have resulted in changes in church organization and development of Christian dogma. Developments in dogma and church organization have affected the development of culture. The result of these interactions is that the various manifestations of Catholicism as they appear in different places, times, and cultures are shaped by those very intersections.

The subject of the minor is, therefore, Catholicism and its various cultural embodiments across time and across the entire world. Students in this minor will examine the intersection of theological ideas and human culture.

18 credit hours

**Introductory Course**

- HIST 398 - History of Agriculture

**Elective Courses**

12 credit hours
Capstone Course

3 credit hours

Chemistry Minor

19 total credit hours are required, as follows

16 hours from:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab

3 additional hours of coursework must be selected from:

- CHEM 300-495 (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative average must be attained in the chemistry courses.

Classical Humanities Minor

18 total credit hours are required, as follows:
Select hours in classical culture courses offerings, from:

- CLAS/GREK/LATN 101-399 (Refer to Course Descriptions.)

Note(s):

- A 2.500 cumulative average must be attained in the classical culture courses.
- Courses with the CLAS designation require no knowledge of an ancient language.
- Courses with the LATN and GREK designations can apply to the Classical Humanities Minor.

**Communication Arts Minor**

18 total credit hours are required, as follows

6 hours from:

- COMM 101 - Oral Communication
- COMM 211 - Media Literacy

12 hours of COMM electives (4 courses) selected from:

- COMM 123 - 499 (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative grade point average must be attained in all courses taken in the minor.

**Communication Studies Minor**

The communication studies minor focuses on communication processes within public and private organizations.
18 total credit hours are required, as follows:

9 hours from:

- COMM 101 - Oral Communication
- COMM 209 - Group Dynamics
- COMM 260 - Organizational Communication

9 hours of electives (3 courses) selected from:

- COMM 123 - Intro To Comm and Media
- COMM 207 - Interpersonal Communication
- COMM 264 - Persuasion
- COMM 301 - Presentational Speaking
- COMM 327 - Interpersonal Conflict Mgmt

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Computer Science Minor

15 total credit hours are required, as follows:

9 hours from:

- CSCI 170 - Computer Science I
- CSCI 180 - Computer Science II
- CSCI 220 - Data Structures & Algorithms
6 hours of electives selected from:

- CSCI 210-397 (Refer to Course Descriptions) (CSCI 260 is strongly encouraged)

Note(s):

- A 2.000 cumulative average must be attained in all these computer science courses.

**Corrections Minor**

18 total credit hours are required, as follows:

15 hours from:

- CJUS 101 - Intro to Criminal Justice
- CJUS 230 - Legal Aspects of Corrections
- CJUS 243 - Correctional Counseling & Comm
- CJUS 321 - Juvenile Justice
  - CJUS 336

3 additional hours must be selected from either:

- CJUS 103 - Intro to Corrections or
- CJUS 364 - Overview of Contemp Correction

Note(s):

- A 2.000 cumulative average must be attained in these criminal justice courses.
Criminal Justice Minor

15 total credit hours are required, as follows:

12 hours from:

• CJUS 101 - Intro to Criminal Justice
• CJUS 210 - Basic Const Law & Amer Justice
• CJUS 321 - Juvenile Justice
• CJUS 381 - Methods of Research in CJUS

3 additional hours must be selected from either:

• CJUS 102 - Intro to Law Enforcement or
• CJUS 103 - Intro to Corrections

Note(s):

• A 2.000 cumulative average must be attained in these courses.

Deaf Studies Minor

The Deaf Studies minor provides students with a strong foundation in American Sign Language (ASL) skills, a broad understanding of the history, literature and culture of the Deaf community, and knowledge of issues in areas such as education, the legal system, and medical care that affect Deaf individuals. The minor involves direct engagement with members of the Deaf community both on and off campus, and adds value to a student's major and career options by demonstrating an ability to work and interact with members of the Deaf community in professional and social contexts.

Deaf Studies Minor

The Deaf Studies minor will consist of 19 hours, 18 credit hours of on-campus courses and one credit hour in a Community Based Learning Cooperative:
Digital Innovation, Film and Television Minor

The Digital Innovation, Film and Television cultivate students to become responsible, adaptable, and innovative leaders in a complex and rapidly converging digital environment.

18 total credit hours are required, as follows:

12 hours from:

- COMM 206 - Writing for the Media
- DIFT 250 - Screenwriting and Story Craft
- DIFT 254 - Intro To Video Production
- DIFT 215 - Aesthetics and Tech Post-Prod

6 hours of electives (2 courses) selected from:

- COMM 209 - Group Dynamics
- COMM 211 - Media Literacy
- COMM 426 - Media Law and Policy
- DIFT 210 - Art of Film
- DIFT 214 - Film Criticism
- DIFT Non-Fiction Film
- DIFT - The Horror Film
- DIFT - 354 - Field Prod and Story Telling
- DIFT - 451 - Introduction to Video Graphics
- MUSIC - 106 Music in Film

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Digital Media Minor

The Digital Media Minor requires 18 hours of coursework that augments existing majors and minors in the Department of Communication Arts as well as students from outside the department. Students who complete the Digital Media minor will be able
to define and apply theories of digital media, locate and assess arguments in digital media, interrogate the implications of digital media on communication, plan and produce digital content to serve a client's needs, and assess the effectiveness of digital content within strategic communication.

Curriculum

18 credit hours, including:

- COMM 211 - Media Literacy
  - COMM 221 - Intro to Digital Media
- COMM 235 - Digital Design
- COMM 247 - Understanding New Media
  - COMM 321 Advanced Digital Media
  - COMM 433 Social Media Strategy

Economics Minor

The Department of Economics and Human Resources offers the minor in Economics. This minor is available to business and non-business undergraduate students.

15 total credit hours are required, as follows:

6 hours of economics:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

3 hours:

- ECON 305 - Microeconomic Analysis
- ECON 306 - Macroeconomic Analysis
6 hours of upper division electives, select from:

- ECON 300-499 (Refer to Course Descriptions.)
  (except WCB students may not count ECON 300 in the minor).

Note(s):

- A 2.000 cumulative average must be attained in the courses of the minor.
- At least half of these credit hours must be taken at Xavier.

Electronics Engineering Minor

The Minor in Electronics Engineering aims at teaching students the fundamentals of electronics engineering and introducing them to the exciting applications of modern electronics. The minor is designed to provide students a foundation to explore specialized topics in electronics engineering such as Electrical Circuit Analysis, Semi-conductor Electronics, Digital Logic Circuits, Microprocessors, Communication Theory, and Control Systems.

Requirements:

19 hours of physics and engineering courses:

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- PHYS 172 - University Physics II
  - ENGR 173 - Explorations in Eng. I
- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
  - ENGR 244 - Electronics
  - ENGR 245 - Electronics Lab
  - ENGR 350 - Digital Logic & Circuit Design

A minimum of 3 hours of electives from:

- ENGR 354 - Microprocessors
- ENGR 346 & 347 - Signals and Systems & Lab
- ENGR 348 - Heat Transfer
- ENGR 372 - Wireless Systems
8 hours of math pre-requisites:

- MATH 171 - Calculus II
  - MATH 172 - Calculus II

**English Minor**

18 total credit hours are required, as follows:

6 hours from:

- ENGL 115 - Rhetoric
- ENGL 221 - Poetry

3 hours from a specific major’s section of:

- ENGL 205 - Literature & Moral Imagination

9 hours of upper-level electives:

- ENGL 300-498 (Refer to Course Descriptions), including one course each in British literature and American literature.

**Note(s):**

- A 2.000 cumulative average must be attained in the English courses.

**Entrepreneurship Minor**

The Department of Management and Entrepreneurship offers the minor in Entrepreneurship.
This minor is available to business and non-business undergraduate students.

18 total credit hours are required, as follows:

9 hours of required entrepreneurial studies courses:

- ENTR 305 - Creativity & Innovation
- ENTR 311 - New Venture Planning
- MGMT 495 - Strategic Management

6 hours of required business courses:

- ACCT 200 - Introductory Financial Acct
- MKTG 300 - Principles of Marketing (included in the Business Core for WCB students).

3 hours of business:

- BLAW 300 - Legal Environment
- SHRM 200 - Human Resources In a Diverse S or
- ECON 200 - Microeconomic Principles (included in the Business Core for WCB students).

Note(s):

- A 2.000 cumulative average must be attained in the courses of the minor.
- At least half of these credit hours must be taken at Xavier.

Environmental Studies Minor

The Environmental Studies Minor is a 16-hour interdisciplinary program compatible with any major. It offers students an integrated overview of environmental and natural resource fields.
Required Courses:

- ECON 200 - Microeconomic Principles
- ECON 320 - Natural Resource Economics
- BIOL 250 - Ecology and
- BIOL 251 - Ecology Lab (prerequisite: one semester of biology)
- BIOL 398 - SEM: Environmental Studies
  - One approved non science elective

Approved Non-Science Electives

(The below list is a sample of offerings. Please use the "Attribute Type" when searching the Schedule of Classes to find other approved courses).

- ENGL 205 - Lit. & Moral Imagination: Literature & the Environment
- ENGL 348 - Literature & the Environment
- HIST 123 - African History I
- HIST 171 - US Environmental History
- HIST 399 - Green Urbanism
- HIST 400 - History of Agriculture
- HIST 436 - Urban Ecologies and Economics
- POLIT/HIST 316 - Globalization
- THEO 245 - God Creation and Ecology
- THEO 360 - Consumption as a Problem
- THEO 388 - Theology and Ecology

Note(s):

- A 2.000 cumulative average must be attained in all these courses.
- Information regarding the minor can be obtained from the co-directors, whose names are noted in each semester’s schedule of classes.

Finance Minor

The Minor in Finance is designed to give students exposure to additional finance coursework and allows them to pursue the credential signifying successful completion of this coursework.

15 credit hours are required:

6 hours from:

- ACCT 200 - Introductory Financial Acct
- FINC 300 - Business Finance
3 hours from:

- FINC 365 - Investments
- FINC 401 - Intermediate Financial Mgmt

6 hours of upper division electives from:

- FINC 306 - 499 (except FINC 403 )

Notes:

- A minimum cumulative grade point average of 2.50 must be attained in the courses of the minor.
- At least half of these credit hours must be taken at Xavier.

**Forensic Science Minor**

The Forensic Science minor is intended to enhance students' understanding and competency in the area of Forensic Science.

23 total credit hours are required, as follows

17 hours from:

- CHEM 226 - Quantitative Analysis
- CHEM 227 - Quantitative Analysis Lab
- CHEM 340 - Instrumental Analysis
- CHEM 341 - Instrumental Analysis Lab
- CHEM 440 - Biochemistry
- **OR** BIOL 440 - Biochemistry
- CJUS 101 - Intro to Criminal Justice
- CJUS 239 - Criminalistics I

6 hours of Criminal Justice (CJUS) electives
Note(s):

• Natural Sciences majors (as an interdisciplinary major) are not eligible to receive a minor in Biology, Chemistry, or Biochemistry. However, Natural Sciences majors may double count their major requirements toward a minor in Forensic Science.

French Minor

15 credit hours of upper-division French are required:

6 hours of language/culture from:

• FREN 300 - Advanced French I
• FREN 301 - Advanced French II
• FREN 302 - French Conversation
• FREN 303 - French Composition
• FREN 315 - Business French I
• FREN 330 - Methods Curr Assess In For Lan
• FREN 350 - French Culture/Civilization I
• FREN 351 - French Culture/Civilization II

6 hours of literature from:

• FREN 420–462 (Refer to Course Descriptions.)

3 hours of electives from:

• FREN 300–400 (Refer to Course Descriptions.)

Note(s):

• All courses must be taught in French to count toward the minor.
• A 2.5 cumulative average must be attained in all these French courses.
Gender and Diversity Studies Minor

The Gender and Diversity Studies (GDST) Minor is an 18-hour interdisciplinary minor open to all Xavier undergraduates and compatible with any major. The minor acquaints students with scholarship on gender and diversity in their broadest, most inclusive sense. Courses in the minor facilitate the development of students' critical thinking skills, knowledge base, and intellectual frameworks for analyzing and exploring the nature of diversity including socioeconomic, political, psychological, and cultural experiences and positions between and among individuals and groups defined by gender, race, sexual orientation, ethnicity, socioeconomic class, age, religious beliefs, and physical/mental abilities. Students in the minor examine the individual and collective experiences of traditionally disenfranchised as well as privileged social groups, investigating the conceptual roots of identity as well as similarities and differences among them.

18 Credit Hours

Students are required to take the following course:

• SOCW 206 - Intro to Gender & Diversity St

One Upper-Level Course from the following:

These classes explore both the social construction of identity and multiple axes of identity and difference, taking into consideration the various ways they may interrelate or intersect:

• COMM 323 - Race, Class, Gender & Media
• COMM 324 - Sex and Violence in Media
• ENGL 359 - Gender & Diversity in Film
• HIST 324 - African-Am Struggle for Equality
• PSYC 385 - Proc of Intergroup Dialogue
• SOCW 315 - Values, Poverty and Society
• SOCW 318 - Trends in Modern Soc: Race Rel
• SOCW 338 - Lesbian Gay BTQ Studies
• SOCW 404 - Rel/Ethics & Profession Pract
• SPMG 410 - Sport Ethics
• THEO 322 - Black Theology
• THEO 358 - Immigration Theology & Ethics
• THEO 372 - Disability, Ethics & Theology
  • HIST 350, POLI 316 & THEO 316 - Globalization (departmental designations may change yearly)

12 Credit Hours of Approved GDST Electives
Notes:

• Students must take courses in at least three different disciplines.
• Students must maintain at least a 2.000 GPA in courses for the minor.
• Half of the credit hours must be in courses at the 200-level or above.
• For information regarding the minor, contact the director.

German Minor

15 credit hours of upper-division German are required:

6 hours of language/culture from:

• GERM 300-351 (Refer to Course Descriptions.)

6 hours of literature from:

• GERM 410-497 (Refer to Course Descriptions.)

3 hours of electives from:

• GERM 300-400 (Refer to Course Descriptions.)

Note(s):

• All courses must be taught in German to count toward the minor.
• A 2.5 cumulative average must be attained in all these German courses.
Greek Minor

15 total credit hours are required, as follows

Select Greek courses beyond the Elementary II level:

• GREK 201-399 (Refer to Course Descriptions.)

Note(s):

• A 2.500 cumulative average is required in all Greek courses.

History Minor

18 total credit hours are required, as follows:

3 hours of Historical Perspectives

12 hours of electives from:

• HIST 105 - World Civilizations I
• HIST 106 - World Civilizations II
• HIST 133 - European History I
• HIST 134 - European History II
• HIST 143 - U.S. History I
• HIST 144 - U.S. History II
  • HIST 200-399
3 hours of seminar from:

- HIST 400-498 (Refer to Course Descriptions.)

Note(s):

- Students must include at least one course, at any level, from any two of the following areas:
  - (1) U.S., (2) European, (3) African, Asian, or Latin American history
- A 2.000 cumulative average must be attained in these courses for the minor.

Information Technology Minor

The Department of Management Information Systems offers the minor in Information Technology.

This minor is available to business and non-business undergraduate students.

15 total credit hours are required, as follows:

6 hours from two required courses:

- INFO 220 - Mgmnt of Info Tech
- INFO 358 - Data Modeling and Management

9 hours from elective courses:

- INFO 303 - Internship / Info Syst Jr
- INFO 328 - Database Management
- INFO 329 - Data Mining
- INFO 357 - Telecommunications& Networkin
- INFO 358 - Data Modeling and Management
- INFO 359 - Hardware & Software Overview
- INFO 360 - Intro to Application Developmt
- INFO 362 - Adv Application Development
- INFO 368 - Intro to Enterprise Systems
- INFO 374 - Intro to Web Site Development
- INFO 378 - E-Business
• INFO 403 - Internship / Info Syst Sr  
• INFO 450 - Systems Analysis and Design  
• INFO 490 - Contemp Issues in Info Systems  
• INFO 495 - System Development Project  
• INFO 499 - Tutorial Course  
• FINC 485 - Financial Modeling  
• MKTG 329 - Data Mining  

Note(s):

• A 2.000 cumulative average must be attained in these courses.  
• At least half of these credit hours must be taken at Xavier.

Innovation Minor

The minor in Innovation teaches students from any major to create, communicate, and commercialize or otherwise realize meaningfully unique ideas in any field. Innovation is a university-wide program combining courses from the School of Arts and Innovation and the Department of Management and Entrepreneurship. The minor in Innovation gives students the tools and confidence to create their own opportunities, and to realize a prosperous and sustaining future within or outside organizations, businesses, or institutions. Students completing this minor will be able to lead change within their education, their careers, their affiliations, their communities and their personal lives.

Students will choose from one of two tracks. These tracks allow two ways to earn the minor in a field of study in which multiple disciplines intersect. The MAKE track provides students the opportunity to complete independent Innovation projects in collaboration with external partners. The Business track allows students to focus more on innovation within an entrepreneurial context. Innovation minors in the second track seeking to start their own businesses will also be advised to take an additional three courses to complete the Entrepreneurship Minor.

The Minor in Innovation consists of 18 credit hours, including:

MAKE Track (18 hours):

• MAKE 101 - Introduction to Making  
• INNV 103 - Design Thinking  
• MGMT 300 - Managerial Behavior  
• MGMT 385 - Project Management or MAKE 301 - Human-Centered Project Development  
• INNV 400 - Internship  
• INNV 403 - Project Development  
• INNV 404 - Capstone Project

Business Track (18 hours):

• MAKE 101 - Introduction to Making
Addition of Entrepreneurship minor

Innovation minors in the Business track may take 3 additional courses to complete an Entrepreneurship Minor.

- MKTG 300 - Principles of Marketing
- MGMT 495 - Strategic Management
- BLAW 300 - Legal Environment or SHRM 200 - Human Resources in a Diverse Society or ECON 200 - Microeconomic Principles

International Business Minor

The Department of Management and Entrepreneurship offers the minor in International Business.

This minor is available to undergraduate business students, since all the prerequisites must be met. This includes the entire Business Core, including ECON 200 and ECON 201

15 total credit hours are required, as follows:

6 hours from two required courses:

- MKTG 320 - International Marketing
- FINC 476 - International Finance

6 additional hours of upper division business courses:

- ECON 341 - Econ of Developing Countries
- ECON 450 - International Economics
- MGMT 325 - International Management
- SHRM 325 - International Human Resources
3 hours of approved electives, including:

- COMM 224 (3)
- FREN 315 - Business French I
- GERM 315 - Business German
- SPAN 306 - Business Spanish
  - Or courses from HIST & POLI.

Note(s):

- A 2.000 cumulative average must be attained in the courses of the minor.
- At least half of these credit hours must be taken at Xavier.

International Studies Minor

15 credit hours are required, as follows:

9 hours from:

- POLI 120 - Comparative Govt and Politics
- POLI 277 - International Relations
- POLI 390 - Sem: International Relations

3 hours from either

- ECON 300 - Int'l Trade & Bus Environment
- POLI 372 - International Political Econom
3 hours from 1 elective course of:

- HIST 401 (3)
- HIST 417 (3)
- HIST 428 - SEM: Latin Amer Revolutions
- POLI 374 - U.S. Foreign Policy

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Italian Studies Minor

The Italian Studies minor will offer students an interdisciplinary approach to the study of Italian language and culture. Students will achieve intermediate proficiency in the Italian language while pursuing electives on Italian cultural topics in fine art, philosophy, Classics, history, theology, and/or other disciplines. A study abroad experience in Italy is highly encouraged in order to perfect students' language skills, and courses taken while abroad will count towards the minor.

Curriculum

21 credit hours

Language Courses

12 credit hours

- ITAL 101 Elementary Italian I
- ITAL 102 Elementary Italian II
- ITAL 201 Intermediate Italian I
- ITAL 202 Intermediate Italian II

Electives

9 credit hours

- ARTS 271 History of Art II: Renaissance - Present
- CLAS 102 Ancient Mediterranean Civilization: Rome
- CLAS 160 From Romulus to Octavian
- CLAS 161 From Augustus to Attila
- CLAS 262 Roman Archaeology
Courses taught during Xavier's Summer Program in Rome:

• ARTS 112 The Aesthetic Experience: Rome in Film
• ARTS 113 Art in Rome
• EDEC 300 Studies in Early Childhood
• ITAL 258 Language and Culture in Italy
• PHYS 124/125 Our Universe: In the Beginning
• PHYS 126/127 Science in Art and Architecture
• THEO 244/344 Early Christianity in Rome

Note(s):

• If students place into a higher level of Italian language coursework, they may complete the Italian Studies minor by pursuing courses counting for no fewer than 15 total credit hours.
• The electives for the minor will be approved by the Italian Language Section Coordinator and by the Chair of the Department of Classics and Modern Languages.

Jewish Studies Minor

The 15 credit hour Jewish Studies minor is earned by completing courses within four learning goals:

1. a multi-faceted understanding of Jewish civilization, history, culture, and religion (C)
2. the experience of deep engagement with secular and religious Jewish texts (T)
3. an understanding of historical and contemporary relations between Jews and Christians and the effects of this history on Jewish and Christian memory and identity (R)
4. an experience of the Jewish world from multiple disciplinary perspectives

To achieve these ends, students will take at least one course serving each of the first three learning goals (designated by the abbreviations C, T, and/or R). To achieve learning goal number four, students are strongly encouraged to take courses from three or four different academic disciplines, although the minimum requirement is two. The curriculum is intended to offer students both breadth of knowledge and flexibility so that the minor can be tailored to each person's unique academic program.

Courses serving the minor include:

• CLAS 171 - Ancient Iraq and Bible Lands (C)
• CLAS 173 - Introduction to Biblical Hebrew (C or T)
• CLAS 211 - The Dead Sea Scrolls (C or T)
• CLAS 251 - Near Eastern Mythology: Art (C)
• CLAS 252 - Near Eastern Mythology: Literature (C or T)
• CLAS 307 - Biblical Archaeology (C)
• ENGL 336 - Israeli Literature (C or T)
• ENGL 350 - Modern Jewish Fiction (C or T)
• ENGL 351 - Jewish American Literature (C or T)
• HIST 264 - Hellenism, Judaism, Christianity (C or T or R)
• HIST 351 - Zionism and Modern Israel (offered as a tutorial on demand) (C)
• HIST 464 - Russian Jewish History (offered as a tutorial on demand) (C)
• PHIL 200 - Judaism and the Enlightenment (C or T)
• PHIL 309 - Medieval Islamic Philosophy (C or T)
• PHIL 383 - Spinoza (C or T)
• PHIL 396 - Travel Seminar in Israel (C or R)
• THEO 211 - The Dead Sea Scrolls (C or T)
• THEO 273 - Introduction to Biblical Hebrew (C or T)
• THEO 280 - Readings in Biblical Hebrew (C or T)
• THEO 281 - Readings in Biblical Hebrew II (C, T)
• THEO 283 - Jewish/Christian Dialogue (R)
• THEO 284 - Jews and the Gospels (C or T or R)
• THEO 296 - Jewish Interpretations of Job (C or T)
• THEO 319 - Anti-Semitism: The Great Hatred (R)
• THEO 329 - Judaism and Ritual (C)
• THEO 346 - Hellenism, Judaism, Christianity (C or R)
• THEO 351 - Introduction to Hebrew Scriptures (C or T)
• THEO 352 - Judaism: Customs, Practice and Belief (C)
• THEO 353 - The Holocaust (C, R)
• THEO 382 - Interfaith Relations in Israel (R)
• THEO 394 - Hebrew Bible: Ethical Living (C or T)
• THEO 477 - Jewish and Christian Bioethics (C or R)
• THEO 491 - Healing Deadly Memories (R)

Latin Minor

15 total credit hours are required, as follows:

Select Latin courses beyond the Elementary II level:

• LATN 201-399 (Refer to Course Descriptions.)

Note(s):

• A 2.500 cumulative average is required in all Latin courses.

Latin American Studies Minor

The Latin American Studies Minor is an interdisciplinary program housed in the department of modern languages. It is available to all Xavier undergraduates and enhances any major. It is designed to help students achieve an advanced level of ability in the Spanish
language and cultural competency in Latin America. Many employers look for evidence that candidates for employment are prepared to deal with the realities of a global society.

18 total credit hours are required, as follows

3 hours of the entry core course taught in English from:

- SPAN 353 - Intro Latin American Studies

3 hours of language development selected from:

- SPAN 300 - Advanced Spanish I
- SPAN 301 - Advanced Spanish II
- SPAN 302 - Spanish Conversation
- SPAN 303 - Spanish Composition
- SPAN 304 - Spanish Vocabulary in Context
- SPAN 305 - Readings in Spanish
- SPAN 325 - History of the Spanish Language
- SPAN 326 - Spanish: Applied Linguistics
- SPAN 328 - Phonetics and Dialectology
- SPAN 351 - Latin-American Civilization I

3 hours of Latin American literature selected from:

- SPAN 427 - Spanish-American Lit & Civ I
- SPAN 428 - Spanish-American Lit & Civ II
- SPAN 429 - Spanish-American Lit & Civ III

or

- SPAN 440 - Hispanic Poetry
- SPAN 444 - 19th Century Spanish-Amer Lit
- SPAN 445 - 20th Century Spanish-Amer Lit
  - SPAN 446
3 hours of Latin American history or political science selected from:

- HIST 151 - Latin American History I
- HIST 152 - Latin American History II
  - HIST 327
- HIST 340 - History of Mexico
  - HIST 341
  - HIST 342
  - HIST 343
  - HIST 344

or

- An approved POLI course

3 hours of an approved Theology course.

3 hours of an approved elective from above listed courses or as approved by program director.

Note(s):

- A 2.5 cumulative average must be attained in all these courses.

Mathematics Minor

20 total credit hours are required, as follows:

11 hours of mathematics courses:
9 additional hours of mathematics electives selected from:

- MATH 220 Calculus III
- MATH 225-399 (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative average must be attained in these mathematics courses.
- The Mathematics minor is open to all undergraduates except students majoring in Mathematics or Actuarial Science.
- Students can receive no more than one of these three minors: Mathematics, Applied Mathematics, Statistics.

Media Studies Minor

The media studies minor explores the nature, purpose, and techniques of communication media.

18 total credit hours are required, as follows:

9 hours from:

- COMM 123 - Intro To Comm and Media
- COMM 206 - Writing for the Media
- COMM 211 - Media Literacy

6 hours of specific electives (2 courses) selected from:

- COMM 247 - Understanding New Media
- COMM 329 - Audience Survey & Research
- COMM 385 - Media, Democracy & the Public
- COMM 426 - Media Law & Policy
3 hours of electives (1 course) selected from:

- COMM 199-499 (Refer to Course Descriptions).

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Montessori Education Minor

This 15 hour minor is an introduction to Montessori Education and does not grant an American Montessori Society Credential. This minor can be completed alongside any major.

Courses

- EDME 350 - Methods of Observation of Child
- EDME 351 - Montessori Ed: Phil Approach
- EDME 364 - Early Childhood/Mont Meth
  or
- EDME 355 - Mont Cultural Subjects Method
- EDME 377 - Early Childhood Math & Science
  or
- EDME 353 - Mont Math & Geometry Methods
- EDME 376 - Phonics Skills for Early Child
  or
- EDME 354 - Mont Language Arts & Read Meth
Music Performance Minor

23 total credit hours are required, as follows:

11 hours of music courses from:

- MUSC 111 - Music: The Art of Listening
- MUSC 200 - Music Theory I
- MUSC 201 - Aural Skills I
- MUSC 202 - Music Theory II
- MUSC 203 - Aural Skills II

3 semesters in Recital Attendance:

- MUSC 199 - Recital Attendance (0 credit hours)

6 hours in an Private Lessons from:

- MUSC 278-299 (6 semesters at 1 credit each) (Refer to Course Descriptions)

6 hours in an Ensemble from:

- MUSC 259 - XU Men's Chorus
- MUSC 260 - Concert Choir
- MUSC 261 - XU Women's Chorus
- MUSC 265 - Symphonic Wind Ensemble
- MUSC 266 - Chamber Winds
- MUSC 270 - Chamber Orchestra
- MUSC 271 - Jazz Orchestra

Note(s):

- Additional Requirements:
- Enroll in MUSC 199 - Recital Attendance for 3 semesters (7 recitals or other approved events per semester for a minimum total of 21).
- Pass applied music exam at the end of each semester of private lessons.
- Perform in a minimum of 4 department recitals.
- Optional: Present a recital (MUSC 450 - Senior Recital) during the final semester of lessons.
- Maintain a 2.0 cumulative average in these courses.
Music Studies Minor

23 total credit hours are required, as follows:

11 hours of music courses from:

• MUSC 111 - Music: The Art of Listening
• MUSC 200 - Music Theory I
• MUSC 201 - Aural Skills I
• MUSC 202 - Music Theory II
• MUSC 203 - Aural Skills II

3 semesters in Recital Attendance:

• MUSC 199 - Recital Attendance (0 credit hours)

12 hours of Music electives:

• MUSC 200 and above (Refer to Course Descriptions)

Note(s):

• Attendance at a minimum of 21 recitals (7 each semester of MUSC 199).
• A 2.000 cumulative average must be attained in these courses.

Musical Theatre Minor

The Musical Theatre Minor is an interdisciplinary minor with the Department of Music. This minor brings together courses involving singing, dancing, and stage performance to provide a unique opportunity for students interested in music and theatre to concentrate on both areas while earning one minor. These are students who, due to constraints of time and credit hours, must currently choose between either a Music or a Theatre Minor.
21 total credits are required, as follows:

**Music Courses:**

- MUSC 100 - Basic Music Theory
- MUSC 282 - Private Lesson: Voice

**Dance Courses:**

- Four Classes, at least two in the same area

**Music/Theatre Classes:**

- MUSC/THTR 219 - American Musical Theater

**Theatre Classes:**

- THTR 100 - Introduction to the Theatre
- THTR 120 - Acting I

**Performance Classes:**

- Cast in a Musical Production from:
  - THTR 199 - Theatre Performance Workshop
  - MUSC 340 - Opera Workshop

**Natural Sciences (Pre-Medical) Minor**

The Natural Sciences minor is designed for undergraduate students who wish to complete science courses generally required of applicants to medical school while completing a bachelor's degree in a non-science major.
35 total credit hours are required, as follows

8 hours of biology from:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab

19 hours of chemistry from:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- CHEM 440 - Biochemistry

8 hours of physics from:

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II

(or 170 series)

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Peace and Justice Studies Minor

Peace and Justice Studies is a rapidly developing, interdisciplinary area of academic study which examines:

- issues of peace/war, social justice, and ecological sustainability
- strategies for conflict resolution/conflict transformation
- the history of nonviolent direct action
Xavier's Peace and Justice Studies Minor is a fifteen hour interdisciplinary program compatible with any undergraduate major. Peace and Justice Studies draws on a wide range of academic subjects including history, political science, theology, literature, economics, social work, gender and diversity studies, the natural sciences, and others. The minor requires the Challenge of Peace seminar (THEO 345/POLI 344) and four approved electives. No more than two of the electives can be in the same department. A 2.000 cumulative average must be attained in all courses for the minor.

15 credit hours

3 credit hours in

• THEO 345 - The Challenge of Peace
  or
• POLI 344 - The Challenge of Peace

12 credit hours in approved electives

Notes:

• No more than two of the electives can be in the same department.
• A 2.000 cumulative average must be attained in all courses for the minor

Philosophy Minor

18 total credit hours are required, as follows:

6 hours of philosophy courses from:

• PHIL 200 - Philosophical Perspectives
• PHIL 340 - Metaphysics
3 hours of a “history of philosophy” elective selected from:

- PHIL 300-309 (Refer to Course Descriptions.)
- PHIL 354 - Classical American Philosophy
- PHIL 362 - Ancient Political Philosophy
- PHIL 363 - Medieval Political Philosophy
- PHIL 364 - Modern Political Philosophy

(or otherwise, as approved by the chair)

6 hours of two philosophy electives selected from:

- PHIL 300 and higher (Refer to Course Descriptions.)

3 hours of a philosophy seminar course section from:

- PHIL 300 and higher (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Physics Minor

18 total credit hours are required, as follows:

8 hours of introductory physics courses:

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
• PHYS 170 - University Physics I
• PHYS 171 - Explorations in Physics I
• PHYS 172 - University Physics II
• PHYS 173 - Explorations in Physics II

Or any appropriate combination of the above classes.

10 hours of electives:

• PHYS 206-398 (Refer to Course Descriptions.)

Note(s):

• A 2.000 cumulative average must be attained in these courses.

**Political Communication Minor**

The minor in political communication enables students to explore the process through which citizens learn about the political process and the institutions, people and decisions that impact the world around us. The minor also provides students with an opportunity to develop oral and writing skills that are central to the students' academic and social development, while enhancing their ability to understand the political process and contribute effectively to civic life.

**18 total credit hours required**

• POLI 140 - American Government and Politics
• POLI 359 - Campaigns, Elections & Parties
• COMM 206 - Writing for the Media
• COMM 221 - Introduction to Digital Media

• COMM 385 - Media, Democracy & the Public

or

• POLI 246 - Mass Media and Politics
• POLI 399 - Political Comm Internship

or

• COMM 398 - Communication Internship I
Political Science Minor

15 total credit hours are required, as follows:

9 hours of political science courses from:

- POLI 120 - Comparative Govt and Politics
- POLI 140 - American Government and Politics
- POLI 277 - International Relations

3 hours from a choice of either:

- POLI 301 - Political Philosophy
- POLI 350 - Political Theory & Amer Regime

3 hours for an elective from:

- POLI 200-490 (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative average must be attained in these political science courses.

Political Thought Minor

The minor in Political Thought is an opportunity for students to pursue an interest in researching major issues and texts in political theory. The minor builds on students' exposure to the question of justice and the best regime in Plato's *Republic*, a text studied by all undergraduates in Philosophy 100 as part of the core. In the spirit of that course (which is not included in the minor), the Political Thought minor emphasizes landmark texts that raise fundamental questions about the nature and purpose of politics. Such questions may include: What is a political community? What is the best form of government? What is the philosophical basis of the American political system? What legitimates a regime or a body of law? What is the essence of justice? What are the rights and responsibilities of a citizen? What is a revolution and when is it justified? What are the proper relations between politics and ethics, and between politics and religion?
18 hours of coursework to be selected from the courses below. A 2.000 cumulative average must be attained in these courses.

18 credit hours from:

Philosophy courses:

• PHIL 338 - Enlightenment & Revolution
• PHIL 339 - Revolution & Its Aftermath
• PHIL 359 - Philosophy & Slavery
• PHIL 360 - Social Contract Theory
• PHIL 362 - Ancient Political Philosophy
• PHIL 363 - Medieval Political Philosophy
• PHIL 364 - Modern Political Philosophy
• PHIL 372 - John Locke
• PHIL 374 - Hobbes
• PHIL 382 - John Stuart Mill

Political Science courses:

• POLI 301 - Political Philosophy
• POLI 302 - Liberalism and Its Critics
• POLI 307 - Pol of Commerce & Character
• POLI 308 - Rousseau's Human Poli Vision
• POLI 347 - Supreme Ct on Civil Liberties
• POLI 350 - Political Theory & Amer Regime
• POLI 363 - Lincoln & Conditions of Freedo
• POLI 415 - Paris Seminar Political Theory

Notes:

• A 2.000 cumulative average must be attained in these courses.
• Other courses may count toward the minor if the student gains approval from the chairs of both the Philosophy Department and the Political Science Department. Ordinarily such courses will be offered by these two departments, but courses offered by other departments will be considered on a case-by-case basis.
• If a Philosophy or Political Science major wishes to obtain a minor in Political Thought, that student must take at least one of the courses for the minor from the other department, i.e., the department in which he or she is not a major.
Pre-Physical Therapy Minor

44 total credit hours are required, as follows

Biology:

16/18 hours of lecture & lab from

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab

Option 1:

- BIOL 140 - Human A&P I for Allied Health
- BIOL 141 - Hum A&P I Lab Allied Health
- BIOL 142 - Hum A&P II for Allied Health
- BIOL 143 - Hum A&P II Lab Allied Health

Option 2:

- BIOL 354 - Human and Comparative Anat
- BIOL 355 - Human and Comp Anat Lab
- BIOL 410 - Human Physiology
- BIOL 411 - Human Physiology Lab

Chemistry:

8 hours of lecture & lab from

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
Physics:

8 hours of lecture & lab from

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II

Additional Courses

- EXSC 300 - Exercise Physiology
- PSYC 101 - General Psychology
- SOCI 101 - Introduction to Sociology
- MATH 116 or MATH 156 - Statistics

Note(s):

- A 2.000 cumulative average must be attained in all these courses.

Professional Education Minor

In adolescent to young adult or secondary (grades 7-12) and pre-K-12 multi-age programs, students have a major in their area reaching field and complete licensure requirements in professional education courses. Exceptions to this are the Music and Theater pre-K-12 programs where students major in Music Education and Theater Education, respectively.

A Professional Education minor is normally declared by an undergraduate who intends to achieve state licensure to teach at the pre-K-12 or 7-12 grade levels. The student must meet with a secondary education advisor for licensure requirements. The student retains his/her major area advisor for guidance in the major, University core and for all other purposes.

This minor requires the completion of 31 to 36 semester hours of education course work, including internship/student teaching, and a minimum GPA of 2.700 must be achieved. State licensure also requires the completion of prescribed courses in the teaching subject area, as well as all required state-mandated tests for teacher licensure. In order to complete the licensure sequence at the end of his/her bachelor's program, the undergraduate should begin the licensure sequence no later than the first semester of the sophomore year.

Contact the Department of Secondary and Special Education for further information (513 745-3485).

All areas of concentration must take these foundation courses:
16 hours required from:

- EDFD 110 - Human Development & Learning
- EDMS 131 - Professional Education
- EDMS 411 - Clinical Experiences
- EDRE 471 - Content Area Literacy
- EDSP 200 - Sp Ed: Identification& Issues
- EDSP 380 - Classroom Management

Concentration areas:

15-20 hours required (complete 1 of the following 4 options)

1. Secondary Ed (7-12):

15 hours required, take one course from:

- EDMS 325 - Meth/Curr/Asmt in Foreign Lang
- EDMS 330 - Meth/Curr/Asmt in Mathematics
- EDMS 331 - Meth/Curr/Asmt in English Lang
- EDMS 332 - Meth/Curr/Asmt in Science
- EDMS 333 - Meth/Curr/Asmt in Social St
- EDMS 335 - Meth/Curr/Asmt in Ancient Lang

and take

- EDMS 350 - Technology & Topics for Educat
- EDMS 470 - Student Teaching AYA

2. Languages (pre-K - 12):

15 hours required, take:

- EDMS 325 - Meth/Curr/Asmt in Foreign Lang or
- EDMS 335 - Meth/Curr/Asmt in Ancient Lang

- EDMS 350 - Technology & Topics for Educat
- EDMS 471 - Student Teaching: Multi-Age
3. Music (pre-K - 12):

18-20 hours required, take:

- MUSC 221 - Elementary Methods
- MUSC 320 - Instrumental Methods
- MUSC 321 - Choral Methods
- EDMS 350 - Technology & Topics for Educations
- EDMS 471 - Student Teaching: Multi-Age

4. Theater (pre K-12):

- THTR 301: Teaching Methods Elementary
- THTR 302: Teaching Methods Secondary

5. Visual Art (pre-K - 12):

18 hours required, take:

- ARTS 221 - Early & Middle Childhood Art
- ARTS 223 - Secondary School Art
- EDMS 350 - Technology & Topics for Educations
- EDMS 471 - Student Teaching: Multi-Age

Note(s):

- Caution: Please consult with the Director of Secondary Education for exact program details and specific State of Ohio teaching licensure requirements.

Psychology Minor

19 total credit hours, as follows:

12 hours of required courses from:

- PSYC 101 - General Psychology
- PSYC 210 - Statistical Techniques
- PSYC 221 - Research Meth & Design I
- PSYC 223 - Research Meth & Design I Lab
- PSYC 261 - Social Psychology

3 hours from either:

- PSYC 231 - Developmental Psychology
- PSYC 277 - Abnormal Psychology

1 hour from:

- PSYC 212 - Introduction to Computer Statistical Analysis

3 hours of approved electives including, but not limited to:

- PSYC 222 - Research Meth & Design II and
- PSYC 224 - Research Meth & Design II Lab
- PSYC 231 - Developmental Psychology or
- PSYC 277 - Abnormal Psychology
- PSYC 233 - Adolescent Psychology
- PSYC 245 - Psyc of Cultural Differences
- PSYC 301 - History&Systems of Psychology
- PSYC 310 - Marriage and the Family
- PSYC 321 - Industrial-Organizational Psyc
- PSYC 353 - Violence Against Women& Girls
- PSYC 365 - Psychology of Women
- PSYC 366 - Crime & Personality
- PSYC 367 - Psychology of Aging
- PSYC 370 - Human Sexuality
- PSYC 375 - Drugs in Society
- PSYC 379 - Psyc and Achievement Testing
- PSYC 426 - Physiological Psychology
- PSYC 427 - Cognitive Psychology
- PSYC 477 - Sports Psychology

Consult with advisor for guidance.

Note(s):

- A 2.000 cumulative average must be attained in these psychology courses.
- The University core Social Science elective is included in the minor requirements.
Public History Minor

Public History is the research and presentation of history specifically for popular consumption. Public historians are found in museums, historical sites, archives, non-profits, and digital ventures. While public historians utilize the skills of the historical discipline, they apply them directly to public ends, including education, policymaking, and preservation. A minor in Public History helps students succeed in mastering research, analysis, and presentation skills and better understand how those skills can be translated into satisfying employment and lifelong learning.

20 credit hours, as follows:

- HIST 290 - Introduction to Public History
- DIFT 104 - Video Production Non-Electronic Media or ARTS 215 - Web Design
- HIST 415 - Practicum in Public History
- HIST 416 - Public History & Communities
- HIST 448 - Internship in Public History I
- HIST 449 - Internship in Public History II
- 6 hours of HIST electives selected in consultation with advisor

Public Relations Minor

The public relations minor includes the study of the principles, audiences, ethics, and skills of public relations.

18 total credit hours are required, as follows:

15 hours from:

- COMM 101 - Oral Communication
- COMM 206 - Writing for the Media
- COMM 270 - Principles of Strategic Comm
- COMM 372 - Jr Sem:PR Cases and Planning
- COMM 477 - Strat Comm Ethics Society

3 hours of electives (1 course) selected from:

- COMM 301 - Presentational Speaking
- COMM 371 - Public Relations Writing
- COMM 426 - Media Law & Policy
Note(s):

- A 2.000 cumulative average must be attained in these courses.

**Religious Education Minor**

The Religious Education Minor is designed to prepare theology majors to meet the Archdiocese of Cincinnati's professional requirements for Catholic High School Religion Teacher Certification. The Religious Education Minor alone does not suffice to meet those professional requirements. Rather, the theology major must be completed in addition to this minor in order to satisfy the necessary educational requirements for archdiocesan certification. The certification standards of other Catholic dioceses are similar to Cincinnati's, but students are strongly encouraged to check with the diocese where they plan to teach religion.

18 total credit hours are required, as follows:

9 hours of required courses from:

- EDFD 110 - Human Development & Learning or
- PSYC 231 - Developmental Psychology
- THEO 338 - Religious Ed & Youth Ministry
- EDMS 350 - Technology & Topics for Educat

9 hours of student teaching from:

- EDMS 470 - Student Teaching AYA

Note(s):

- A 2.70 minimum cumulative average must be attained in all Theology courses and the courses for the minor. The Theology Department will also assess a student's readiness to teach in January of their junior year.
**Social Work Minor**

The social work minor provides students with:

- An understanding of the profession of social work and the central role of advocacy
- An understanding of social work values and ethical practices
- An examination of contemporary social issues affecting individuals, families, groups, organizations, and communities integrating diversity and social justice perspectives
- An understanding of social policies and social institutions that impact citizens and society
- An understanding of knowledge and skills necessary to engage in empowerment and advocacy for the collective well-being of all and developing solutions to many contemporary social problems

**18 credit hours**

**6 credit hours:**

- SOCW 167 - Survey of Society Social Work
- SOCW 316 - Soc Policy & Contemporary Issu

**9 credit hours**

Choose 3 of the following 5:

- SOCW 206 - Intro to Gender & Diversity St
- SOCW 208 - Economics of Society
- SOCW 299 - Child Welfare and Development
- SOCW 300 - Adolescence - Older Adulthood
- SOCW 315 - Values, Poverty and Society

**3 credit hours:**

Choose one of the following:

- SOCW 392 - Practice I: Individuals
- SOCW 404 - Rel/Ethics & Profession Pract

**Note(s):**

- A grade of C or better is required for all coursework in the minor.
**Sociology Minor**

15 credit hours are required, as follows:

9 hours from:

- SOCI 101 - Introduction to Sociology
- SOCI 200 - Foundational Social Thought
- SOCI 352 - Investigating Social Life I

6 hours of elective courses selected from:

- SOCI 200-499 (Refer to Course Descriptions.)

**Note(s):**

- A 2.000 cumulative average must be attained in these courses.

**Spanish Minor**

This list describes in general terms the proposed sequence of courses for the Xavier University Spanish minor. Every student's path may be different, and all minors will consult with their Spanish advisor each semester to ensure that they are taking the right course at the right time for their individual needs and goals. The sequence may be adjusted when a student studies abroad.

18 credit hours are required (a minimum of 8 credit hours must be taken on campus):

- SPAN 202 - 3 hours (If a student tests into SPAN 300 and begins the minor with SPAN 300 or SPAN 301, then 6 hours of 350-498 are required)
- SPAN 300 or 301 - 3 hours
- SPAN 302-310 - 3 hours
- SPAN 311-349 - 6 hours
- SPAN 350-498 - 3 hours (6 hours if they student begins with SPAN300 or SPAN301)
Note(s):

- All courses must be taught in Spanish to count toward the minor.
- A 2.5 cumulative average must be attained in all these Spanish courses.

Special Education Minor

The Special Education program is offering a minor for students who are not training to be Special Education Interventionists but want the information regarding disabilities to better perform their duties as nurses, social workers, psychologists, teachers, etc will welcome the opportunity to gather additional skills that will support their future careers. The Special Education Minor-Education track is for educators who want to learn more about servicing students with special needs but do not intend to become intervention specialists who are responsible for the education of students with disabilities. If this student later determines that they do wish to pursue a license or endorsement in special education, then these courses would lend themselves to that opportunity as well. The Special Education licensure in the State of Ohio is a teaching license, requires a state licensing exams and student teaching, whereby the minor does not. The Special Education Minor-Disability track is for professionals outside of education who intend to service populations that may include individuals with special needs such as social workers, medical professionals, criminal justice majors, etc. To formalize the minor, individuals need to have it noted on their academic transcripts.

The courses described below offer the necessary knowledge needed to work with individuals with special needs. Eligibility for the Special Education Minor requires an undergraduate acceptance into the university and acceptance into the Xavier Special Education Minor program. Xavier University's Special Education Minor includes 18 undergraduate credit hours and requires documented field hours.

The following courses are required for the minor and students be invited to choose which track that would like to participate in-Special Education Minor--teaching track or the disability awareness track.

Special Education Minor - Education Track

- EDFD 110 - Human Development & Learning
- EDSP 200 - Sp Ed: Identification& Issues
- EDSP 203 - Sp Ed: Comm & Collaboration
- EDSP 205 - Foundations in ECSPED
- EDSP 360 - M/M Characteristics& Strategi
- EDSP 380 - Classroom Management

Special Education Minor - Disability Track

- EDFD 110 - Human Development & Learning
- EDSP 200 - Sp Ed: Identification& Issues
- EDSP 201 - Intro to Emotionally Dist Child
- EDSP 367 - Sp Ed: Behav & Soc Skills Mgmt
- EDSP 372 - Communication Strategies & Tec
  ◦ *Special Education Elective
Special Education Electives available for the Disability Track include the following courses:

- EDSP 203 - Sp Ed: Comm & Collaboration
- EDSP 362 - M/M Support Services

Statistics Minor

The Department of Mathematics offers the minor in Statistics.

This minor is intended to enhance student's understanding of data, uncertainty, and estimation. Students completing the minor will acquire a mastery of fundamental theory in probability and statistics, as well as a working knowledge of advanced data analysis methodology that have found applications in a broad range of areas (e.g., biology, medicine, computer science, economics, finance, psychology, marketing, manufacturing, and engineering).

20 total credit hours are required, as follows:

17 hours of mathematics courses:

- MATH 170 - Calculus I
- MATH 171 - Calculus II
- MATH 256 - Intro to Probability & Stats
- MATH 311 - Probability Theory
- MATH 312 - Statistical Inference

3 additional hours selected from one of the following:

- MATH 257 - Data Modeling
  - MACS 201 - Actuarial Mathematics
- ECON 350 - Business Cycles & Forecasting
- INFO 329 - Data Mining
  - A course approved by the department and selected under the guidance of a faculty advisor.

Note(s):

- A 2.000 cumulative average must be attained in these courses for the minor.
• The Statistics minor is available to all undergraduates. For statistic minors also majoring in Mathematics, at most two of the Statistics minor courses numbered 220 or higher may count towards the requirements of the Mathematics major.
• Students can receive no more than one of these three minors: Mathematics, Statistics, Applied Mathematics,

Strategic Human Resource Management Minor

The Department of Management, Entrepreneurship and Strategic Human Resources offers the minor in Strategic Human Resources Management.

This minor is available to any undergraduate student. It is designed to give business and non-business majors skills that will enhance their attractiveness to employers upon graduation. Since all managers are people managers, the Strategic HRM minor benefits all future managers. It also provides an opportunity to pursue a business specialty in HR. Strategic HRM concerns the total activity of an organization, business, or firm as these activities relate to the work force. Such activities include employment law, recruiting and selection, training and development, performance management, compensation and benefits, workplace diversity, and labor relations.

Outside of the classroom, students expand their knowledge by participating in a part-time or full-time internship in human resources. Credit and non-credit opportunities are available.

Requirements for the Strategic Human Resource Management Minor

15 total credit hours are required, as follows:

12 hours specifically required:

• SHRM 200 - Human Resources In a Diverse S
• SHRM 345 - Compensation
• SHRM 360 - Staffing
• SHRM 370 - Training and Development

3 hours from electives:

• SHRM 303 - Human Resources Internship I or
• SHRM 403 - Human Resources Internship II
• SHRM 302 - Labor Relations
• SHRM 309 - Change Management
• SHRM 325 - International Human Resources
• SHRM 404 - Advanced Topics In SHRM
• SHRM 495 - SHRM Capstone

Note(s):

• No more than three (3) hours may double count between MGMT major and SHRM minor (excluding SHRM 200, which is fulfilled in the business core; this is not considered double counting).
• A 2.000 cumulative average must be attained in the courses of the minor.

**Studio Art Minor**

18 total credit hours are required, as follows

6 hours required in art courses:

• ARTS 101 - Two-Dimensional Design and
• ARTS 105 - Three-Dimensional Design

3 hours of Studio elective, selected from:

• ARTS 102 - Drawing I
• ARTS 103 - Painting I
• ARTS 104 - Printmaking I
• ARTS 105 - Three-Dimensional Design
• ARTS 106 - Fiber Arts I
• ARTS 107 - Sculpture I
• ARTS 108 - Photography I
• ARTS 109 - Ceramics I
• ARTS 142 - Graphic Design I

3 hours of Advanced Studio elective, selected from:

• ARTS 202 - Drawing II
• ARTS 203 - Painting II
• ARTS 204 - Printmaking II
• ARTS 205 - Figure Modeling
• ARTS 206 - Fiber Arts II
• ARTS 207 - Sculpture II
• ARTS 208 - Photography II
• ARTS 209 - Ceramics II
• ARTS 242 - Graphic Design II

6 hours of art elective courses providing a thorough investigation of any studio art discipline, or art history.

Note(s):

• A minimum grade of "C" must be attained in all art courses to count toward the minor.
• Further information concerning art minors can be obtained from the Department of Art.

Theatre Minor

19 total credit hours are required, as follows:

12 hours of theatre credits:

• THTR 100 - Intro to Theatre
• THTR 120 - Acting I
• THTR 150 - Stagecraft
• THTR 210 - Script Analysis

At least 1 credit must be a 198 or 199 up to 4 (1/4)

• Or Another Theatre Course (3)
3 credits from another 200 or above level theatre course

**Theology Minor**

18 total credit hours are required, as follows:

12 hours of theology courses from:

- THEO 111 - Theological Foundations
- THEO 209 - The Christian Tradition I or
  THEO 210 - The Christian Tradition II
- THEO 351 - Intro to Hebrew Scriptures or
  THEO 328 - Intro to Christian Scriptures
- THEO 303 - Christian Ethics: Methods & Q

6 hours of electives from:

- THEO 201-499 (Refer to Course Descriptions.)

**Note(s):**

- The core curriculum theology requirement is included within the minor.
- A 2.000 cumulative average must be attained in these courses.

**Writing Minor**

The Writing Minor is an 18 credit curriculum requiring two introductory courses and four electives drawn from Communication Arts and English Department courses. See the English Department Chair for more information.

18 total credit hours are required, as follows
6 hours from:

- ENGL 101 - English Composition  OR
- ENGL 115 - Rhetoric
- COMM 206 - Writing for the Media

12 hours of upper-level electives from:

- COMM 237 - Elements of Copy & Design
- COMM 371 - Public Relations Writing
- COMM 398 - Communication Internship I (with a writing emphasis, as approved by the Communication Arts internship director)
  - ENGL 305 - Professional Writing
  - ENGL 307 - Writing Internship
  - ENGL 309 - Creative Writing: Poetry
  - ENGL 310 - Creative Writing: Fiction
  - ENGL 314 - Writing Journals & Autobiography
  - ENGL 315 - Composition Tutoring
  - ENGL 318 - Creative Nonfiction

Note(s):

- A 2.000 cumulative average must be attained in English/Communication Arts courses.

Certificate

Applied Computation Certificate

The Department of Computer Science offers the Certificate in Applied Computation. This certificate program is designed for students who are pursuing an undergraduate degree in a program other than computer science who wish to demonstrate proficiency in computational methods and problem solving.

Requirements:

10 total credit hours, as follows:

- CSCI 170 - Computer Science I
- CSCI 180 - Computer Science II
- CSCI 220 - Data Structures & Algorithms
  - CSCI 290 - Project in Applied Computation
Note(s):

- A 2.000 cumulative average must be attained in these courses.
- At least half of these credit hours must be taken at Xavier. CSCI 290 must have been completed at Xavier.

**Criminal Justice Administration Certificate**

The Department of Criminal Justice offers a Certificate in Criminal Justice Administration at the Master's level. The certificate is intended toward two groups of students: 1) professionals who have a graduate degree, but see courses in administration as a way to advance in the field, and 2) those with an undergraduate degree who, for whatever reason, are not ready to apply to the criminal justice graduation program. The particulars of the Criminal Justice Administration Certificate are as follows:

The Certificate will consist of nine (9) credit hours that include the following courses:

- CJUS 642 Criminal Justice Administration (3 credits)
- CJUS 644 Government & Non-profit Accounting (3 credits)
- CJUS 647 Human Resources for CJ Administrators (3 credits)

Admission requirements in to the certificate program:

- Minimum of a Bachelor's Degree
- Personal Statement/Essay
- 3 years of experience in the field

Candidates for certificates must:

- Complete the nine (9) credit hour requirements at Xavier.
- Earn a minimum of "C" or better in each course.
- Satisfy all financial obligations to the University.

Students who complete the certificate may apply for the criminal justice graduate program. Students must obtain a minimum of "B" in each certificate course for acceptance into the M.S. CJUS degree program.

**MRI Certificate**

**Magnetic Resonance Imaging (MRI) Program**

The program provides comprehensive didactic and clinical education in Magnetic Resonance Imaging with graduates meeting the eligibility requirements for the ARRT's post-primary exam in MRI. **Candidates must be graduates or pending graduates from a JRCERT accredited program in Radiography.** In addition, candidates must be registered by the ARRT by the beginning of the Spring semester.

Students have two options to continue their studies in MRI:

1. **Bachelor of Liberal Arts with a MRI concentration** – Students would complete the required general core courses in addition to the required MRI didactic/clinical courses for a total of 120 credit hours. Depending on the amount of transfer credit hours and the additional core courses taken during each semester, this option may take longer than the traditional two years. At the completion of the course of studies, students will receive their bachelor's degree and be eligible to apply to sit for the ARRT advanced registry examination for MRI. **OR**
2. **MRI Certificate Program** – The applicant must be a graduate of an accredited radiologic technology program to be accepted into the MRI program. College credit hours will be awarded for the MRI didactic and clinical courses following successful completion of each course. At the completion of the program (17 credit hours), students will receive a certificate of completion and be eligible to apply to sit for the ARRT examination for MRI. Students would be able to apply these course credit hours towards the Bachelor Degree of Liberal Arts in the future.

**Note(s):**

- A grade of "C-" or better must be attained in all RADT courses.
- Courses with prerequisites cannot be taken until the prerequisite courses have been successfully completed with a grade of "C-" or better.
- All students must present evidence of the following **prior to entrance in all clinical courses:**
  1. Liability insurance ($2,000,000/$4,000,000), purchased through the University and billed to student’s account.
  2. Health history and required physical examination form
  3. MMR immunization
  4. Yearly tuberculosis skin test (two-step)
  5. Hepatitis B series
  6. Proof of current health care coverage
  7. Verification of history of varicella (chicken pox)
  8. Tetanus-Diphtheria-Acellular Pertussis (Tdap)
  9. CPR certification
- Students are responsible for these expenses as well as for uniforms, and transportation costs to the clinical sites. Students must provide their own transportation between campus and clinical sites.

**August - Pre-Semester**

- RADT 300 - Introduction to MRI  (This course must be completed with a "C-" or better before entering the Fall Semester and the clinical aspects of the program.)

**Total (1)**

**Fall Semester: Begins with the regular Fall Semester**

- RADT 310 - MRI Imaging Procedures
- RADT 311 - MRI Practicum I
- RADT 320 - Physical Principles of MRI I
- RADT 330 - Advance Sectional Anatomy
Total (8)

Spring Semester

• RADT 313 - MRI Practicum II
• RADT 321 - Physical Principles of MRI II
• RADT 340 - MRI Pathology
• RADT 350 - Management of a MRI Center

Total (8)

Total of 17 credit hours

NOTE:

A grade of "C-" or higher must be attained in all MRI courses in order to advance to the next semester.

Pre-Medical Studies Certificate

This certificate program is designed for students who are not seeking a degree, but who want to prepare for admission to medical school. Medical schools generally expect their applicants to have the equivalent of a bachelor's degree along with the four years of science courses required for this certificate. They are:

They are:

• BIOL 160 - General Biology I
• BIOL 161 - General Biology I Lab
• BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab
• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I
• PHYS 162 - College Physics II
• PHYS 163 - Introductory Physics Lab II
• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
• CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• CHEM 242 - Organic Chemistry II
• CHEM 243 - Organic Chemistry II Lab
• CHEM 440 - Biochemistry
A student is eligible for a certificate if at least one half (17 credit hours) of the courses are completed at Xavier University with a minimum grade point average of 3.000. Interested students should consult with the chair of the Health Sciences Committee or the Coordinator of Pre-Professional Health Advising.

**Teaching English to Speakers of Other Languages Certificate**

As populations in the United States become more diverse both linguistically and culturally, the need for individuals working with non-English speaking people who are knowledgeable and skilled in serving these populations is essential. This program offers the necessary knowledge needed to work with English Language Learners and obtain a TESOL certificate. Eligibility for the TESOL certificate requires an undergraduate degree and acceptance into the Xavier graduate certificate program. Xavier University's TESOL certificate includes 18 graduate credit hours and requires 45 documented field hours.

**Curriculum**

The following courses are required for the certificate.

- EDRE 569 - Phonics & Found of Literacy
- EDEL 650 - Foundations of TESOL
- EDEL 651 - Instr Strat For Engl Lang Lear
- EDEL 652 - Culturally Responsive Teaching
- EDEL 653 - Effective Assessment Pract
- EDEL 654 - Aspects of Language and Socio

**Post Master's Certificate**

**Clinical Nurse Leader Post-Master's Certificate**

This certificate program is designed for the registered nurse with an earned master's degree in nursing who wants to add the certification as a Clinical Nurse Leader (CNL). This program will prepare registered nurses to assume roles as advanced generalists who deliver nursing care at the point of care. This role, the Clinical Nurse Leader, is a national initiative developed by the American Association of Colleges of Nursing (AACN) in 2004 to address fragmentation in health care delivery. The CNL role is a proactive, integrative and comprehensive role that assists direct care providers in bringing the best of health care science and practice to the point of care.

Specifically this program will allow those nurses with an earned master's degree:

- To complete coursework required for the CNL
- To take the CNL certification exam
- To receive documentation of the work on an official Xavier University academic transcript.

**Clinical Nurse Leader Track Objectives**

- Apply the art and science of nursing to the role of the clinical nurse leader at the point of care;
- Communicate effectively across health care disciplines;
- Ensure quality and safety in health care delivery;
- Implement and coordinate the best practice at the point of care and across settings;
- Integrate knowledge of nursing theory, research, epidemiology, informatics, ethics, health care policy, economics, healthcare finances and leadership into the management of healthcare delivery.
Requirements for Post Master's Certificate in Clinical Nurse Leader:

- NURS 556 - Introduction to CNL for RNs
- NURS 602 - Applying CNL Concepts to RNs
- NURS 658 - Advanced Clinical Pharmacology
- NURS 680 - Adv Pathophysiology for RN
- NURS 756 - Advanced Health Assess RN
- NURS 853 - Ldrshp Practicum For RNs

Note(s):

- A total of 21 credit hours is required, with a minimum overall cumulative GPA of 3.000.

Family Nurse Practitioner Post-Master's Certificate

Family Nurse Practitioners are prepared to care for individuals and families across the life span. FNPs have specialized advanced education and clinical competencies, FNPs use scientific principles, competencies and national standards of care as they diagnose, manage and treat healthcare concerns of individuals and families. Practice settings needing FNPs include primary care practices, nurse-managed health centers, and emerging ambulatory delivery models.

Registered nurses with a Master of Science in Nursing (MSN) from a regionally accredited college or university and CCNE accreditation are eligible to apply for the post-master's certificate program.

The post-master's certificate program requires between 19 to 28 semester hours, depending upon the applicant's previous completed course work.

Family Nurse Practitioner Objectives

1. Applies advanced practice skills, abilities and knowledge to provide holistic family centered primary health care to populations across the lifespan in a variety of ambulatory care settings as an advanced practice nurse specializing in family nursing

2. Provides culturally competent, population-based preventive, management, and maintenance care for acute and chronic conditions for the family unit, however the family chooses to define itself

3. Demonstrate knowledge, skills, and abilities to sit for the FNP Certification Examination in order to apply for a state certificate of authority in advanced practice, as well as authority to prescribe as an FNP-BC (board certified)
Pre-requisite courses for FNP core courses:

Nurse Practitioner Core

(9 semester hours)

• NURS 658 - Advanced Clinical Pharmacology
• NURS 680 - Adv Pathophysiology for RN
• NURS 756 - Advanced Health Assess RN

Individuals who have completed the required nurse practitioner core courses are eligible to enroll in the family nurse practitioner core courses.

Family Nurse Practitioner Core

(19 semester hours)

• NURS 770 - Primary Care Fam Pract Role
  ◦ NURS 771 - Childbearing Family Care Practicum
• NURS 772 - Childbearing Family Care
  ◦ NURS 773 - Pediatric and Adolescent Family Care Practicum
  ◦ NURS 774 - Pediatric and Adolescent Family Care
• NURS 775 - Adult & Geriatric Fam Care Pra
• NURS 776 - Adult & Geriatric Family Care
• NURS 777 - FNP In Practice
  ◦ NURS 778 - FNP Integration Synthesis Seminar

Note(s):

Each practicum credit hour is eight clinical hours: 1:8. The total number of practicum hours required for the FNP is 600.

Endorsement

Computer Endorsement

Xavier University offers a Computer Endorsement which consists of 18 semester hours which may be added to an existing teaching license. Knowledge gained in each 100% paperless course can be immediately applied professionally. Tools used are cloud-based and free.

Required courses are as follows
• EDMS 570: Bring Your Own Device: 3 Semester Hours
• EDMS 572: Cloud Computing: 3 Semester Hours
• EDMS 574: Current Topics in Technology & Education: 3 Semester Hours
• EDMS 576: Gamification, Virtual Worlds & Alternate Reality in the Classroom: 3 Semester Hours
• EDMS 578: Instruction & Technology: Rigor, Relevance, Relationships & Accessibility: 3 Semester Hours
• EDMS 580 Online and Hybrid instruction and learning: 3 Semester Hours

Early Childhood (4-5) Generalist.

Early Childhood (4-5) Generalist.

A series of courses offered for the undergraduate student who is a candidate for the Ohio Early Childhood License/Grades P-3. To receive the endorsement the candidate must qualify for the Ohio Early Childhood license, complete the 9 credit hours described below, and pass the Ohio Assessment for Educators (OAE): OAE Elementary Education (Subtest I)/018 and OAE Elementary Education (Subtest II)/019. Undergraduates must complete the following prerequisites PRIOR to enrolling in the EDEL/Endorsement series of courses: EDEC 330 and EDEC 335.

• EDEL 440 or EDEL 640 Middle Childhood Transitions: Development and Management (1)
• EDEL 441 or EDEL 641 Mathematics Content, Pedagogy, and Assessment Grades 4-5 (2)
• EDEL 442 or EDEL 642 Science Content, Pedagogy, and Assessment Grades 4-5 (2)
• EDEL 443 or EDEL 643 Language Arts Content, Pedagogy, and Assessment Grades 4-5 (2)
• EDEL 444 or EDEL 644 Social Studies Content, Pedagogy, and Assessment Grades 4-5 (2)

Elementary Mathematics Specialist Endorsement

The program of study for the Elementary Mathematics Specialist Endorsement (K-6) includes 24 semester hours of coursework. Each course links the course content to the Ohio Common Core Mathematics curriculum and effective classroom practice. The courses are designed to prepare specialists capable of providing coaching and professional development in mathematics education for classroom teachers of mathematics in grades pre-kindergarten through grade six. Teacher candidates will be involved in 90 hours of field experiences where they will use the knowledge and skills gained in the courses. This endorsement may only be added to a valid teaching license in one of the following areas: Kindergarten - primary, elementary or early childhood license, or middle childhood, high school, or adolescence to young adult mathematics teaching license. Candidates must have a least three years of successful experience teaching mathematics under a standard teaching certificate or license. Please note that to make the endorsement valid you must take the Ohio licensing exam for Middle Childhood Mathematics Content Knowledge.

The Mathematics Specialist Endorsement at Xavier is a 24 credit hour endorsement. All courses requirements must be taken at the Graduate level. The program requires 90 hours of documented field hours. Graduate level coursework taken as part of the Mathematics Specialist Endorsement may be used towards the M.Ed. in Elementary Education. Please refer to the counseling sheet for Masters in Elementary Education.

Entrance Requirements: Admission into Xavier University Graduate Program, Valid Ohio Teaching License, Documented Three Year Mathematics Teaching Experience.

Required Mathematics Specialist Courses for the Endorsement

Successful completion requires a B- or above and meets or exceeds expectations on key assessments. (All courses are three (3) semester hours.)

• EDEL 550 - Mathematics as Second Lang
• EDEL 551 - Algebra and Functions
EDEL 550 and EDEL 551 are prerequisites for the subsequent classes.

- EDEL 552 - Trigonometry, Algebra and Geometry II (15 field hours)
- EDEL 553 - Geometry, Measurement and Probability (15 field hours)
- EDEL 554 - Number Theory for Teachers (15 field hours)
- EDEL 555 - Mathematics Specialist Practicum (15 field hours)
- EDEL 556 - Algebra and Geometry for Teachers III (15 field hours)
- EDEL 557 - Statistics, Action Research & Inquiry into Effective Practices (15 field hours)

Gifted and Talented Endorsement

Xavier University Special Education Programs offers a Gifted and Talented Endorsement which consists of 18 semester hours which may be added to an existing teaching license. Knowledge gained in each course can be immediately applied professionally.

Required courses are as follows

- EDSP 582 - Gifted/Talented Chara& Strat
- EDSP 583 - Res Mat & Tech: Gift/Talent
- EDSP 584 - G/T Assessment & Instruction
- EDSP 585 - G/T Program Design& Practices
- EDSP 586 - G/T Program Design& Pract II
- EDSP 605 - G/T Teaching Practicum

Middle Childhood (4-6) Generalist

Middle Childhood Generalist (4-6)

The Middle Childhood Generalist (MCG) Endorsement allows the teaching candidate with two licensure areas to add either one or two more content areas specifically for teaching in a self-contained 4th, 5th, or 6th grade classroom. This endorsement is not valid for holders of any license other than Ohio Middle Childhood Education. Updates and/or changes to licensure are dictated by the State of Ohio and may supersede the requirements listed for licensure in the catalog.

To have the MCG endorsement added to the MCE license:

1. The candidate must have previously completed a MC Education program in two content areas and hold a valid MCE license (we will assume that our initial licensure candidate will apply for the endorsement along with, or soon after application for the initial license in two areas); and
2. In addition to successfully completing the MCG Endorsement course work in either one or two additional areas, the candidate must also successfully complete the required test(s).

Either the candidate must pass:

- A.) OAE Education (Subtest I)/018 and OAE Elementary Education (Subtest II)/019

OR

- B.) Content area test for each content area added to MCE license:
  - OAE MS English/Language Arts (028)
  - OAE MS Mathematics (030)
  - OAE MS Social Studies (031)
The candidate must complete the following courses in the chosen content area.

**Language Arts**

- ENGL 304 - Teaching & Research in Writing
- EDCH 326 - Children's Lit for Middle Chil

**Mathematics**

- MATH 213 - Algebra Concepts -MCED
- MATH 214 - Math Problem Solving -MCED

**Science**

- BIOL 130 - Intro to Life Sciences
- BIOL 131 - Intro to Life Sciences Lab
- PHYS 114 - Our Universe: Physical Science
- PHYS 115 - Our Universe: Physical Sci Lab

**Social Studies**

- EDMS 207 - World & Cultural Geography
- POLI 140 - American Government and Politi

**Pre-K Special Needs Endorsement**

Xavier University Special Education Programs offers a PreK Special Needs Endorsement which consists of 18 semester hours which may be added to an existing teaching license. Knowledge gained in each course can be immediately applied professionally.

**Required courses are as follows**

- EDSP 503 - Sp Ed: Comm & Collaboration
- EDSP 505 - Foundations in ECSPED
- EDSP 581 - Play & Its Role in Dev & Learn
- EDSP 591 - ECSPED Learning Theories
- EDSP 592 - ECSPED: Observation& Asmt
- EDSP 593 - ECSPED: Curriculum Practices
- EDSP 607 - GT Endorsement Practicum
Reading (K-12) Endorsement

The Reading Endorsement coursework at Xavier is a 21 credit hour endorsement program. Only six hours of undergraduate credit can be applied toward the endorsement. All other course requirements must be taken at the graduate level. The State of Ohio requires 100 hours of documented field hours. Graduate level coursework taken as part of the Reading Endorsement may be used toward the M.Ed. in Reading. Please refer to the counseling sheet for Master's in Reading Education.

**Required Reading Courses for the Endorsement:**

- EDRE 269/EDRE 569 Phonics & Found of Literacy (3 credit hours)
- EDRE 471/EDRE 671 Content Area Literacy (3 credit hours)
- EDRE 672 Theories of Reading (3 credit hours)
- EDRE 478/EDRE 678 Diagnosis/Correct of Read Disa (3 credit hours)
- EDRE 679 Practicum in Reading (3 credit hours) (Prerequisite for EDRE 679: EDRE 269/569, EDRE 471/671, EDRE 672, EDRE 478/678)

Choose 21 Credit Hours Required from below:

- EDCH 324/EDCH 524 Children's Lit for Early Child (3 credit hours) (or it's equivalent)
- EDCH 326/EDCH 526 Children's Lit for Middle Chil (3 credit hours) (Fall & Summer only) (or it's equivalent)
- EDCH 501 Advanced Children's Literature (3 credit hours)
- EDCH 305/EDCH 505 Storytelling as a Cultural Cra (3 credit hours)
- EDCH 315/EDCH 515 Adolescent Literature (3 credit hours)
- EDCH 528 Topics in Children's Literature (3 credit hours)
- EDME 362 /EDME 562 Phonics and Orton-Gillingham (3 credit hours)
- EDRE 675 Current Research in Reading (3 credit hours) (Fall only)
- EDRE 376/EDRE 676 Teaching Writing Process (3 credit hours) (Grade 4-14) (Spring only)
- EDRE 685 Teach Read Children w/Spec Need (3 credit hours)

**Assessment Requirement for the Reading Endorsement:**

Ohio Assessments for Educators (OAE) Reading (Subtest I)/038 and OAE Reading (Subtest II)/039 are required for the reading endorsement. For additional information please visit [http://www.oh.nesinc.com](http://www.oh.nesinc.com).

Individuals who successfully complete a Praxis Series Test required for licensure prior to September 1, 2013, may use the test results to satisfy the licensure testing requirements at the time license is sought.

**Application Process:**

If you are pursuing a reading endorsement only, the following documents are required:

- Xavier graduate application
- Official copy of college transcript
- A copy of your valid Ohio teaching license

If you are pursing a M.Ed. Degree, the following is required:

- MAT or GRE test is required

All materials are sent to the Xavier University Graduate Services office. Please refer to the advising sheet for the Reading Endorsement.
Teaching English to Speakers of Other Languages (TESOL) (K-12) Endorsement

TESOL Endorsement Requirements

Those completing the M.Ed. in TESOL and hold a valid teaching license for Ohio may also want to add the TESOL endorsement to their teaching license. The endorsement has an 18-hour course requirement and 50 hours of documented field hours in the area of English Language Learning. Master degree candidates may work on their degree and the endorsement simultaneously. After completion of the course requirements for the endorsement, the State of Ohio requires that the candidate take the Ohio Assessment for Education English to Speakers of Other Languages /021 and receive a passing score to have the endorsement added to a valid license. Information regarding testing dates, location sites, and sample questions for the OAE may be found on the Ohio Assessment for Educators website. http://www.oh.nesinc.com

The following courses are currently required by the State of Ohio for the TESOL Endorsement:

- EDRE 569 - Phonics & Found of Literacy
- EDEL 650 - Foundations of TESOL
- EDEL 651 - Instr Strat For Engl Lang Lear
- EDEL 652 - Culturally Responsive Teaching
- EDEL 653 - Effective Assessment Pract
- EDEL 654 - Aspects of Language and Socio

Note(s):

- The following core courses fulfill Master of Education requirements but are not required to complete TESOL endorsement. They can be taken at any time within the six-year limit. Students take the Comprehensive Exam related to the three core courses during the last semester of graduate course work.

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

Transition to Work Endorsement

Xavier University Special Education Programs offers a Transition to Work Endorsement which consists of 18 semester hours which may be added to an existing teaching license. Knowledge gained in each course can be immediately applied professionally.

Required courses are as follows

- EDSP 551 - Hist, Theory & Prac Transition
License

Early Childhood Education Licensure

Teacher Licensure

The School of Education offers teacher licensure programs, approved by the State of Ohio Board of Regents, for early childhood, middle childhood, secondary education, which includes multi-age, adolescent to young adult, intervention specialist (mild/moderate, moderate/intensive, gifted/talented [graduate program only], and early childhood intervention specialist) teaching, as well as American Montessori Society certification in Montessori preprimary and primary teaching. In addition, students can acquire a license at the graduate level for all secondary licensure areas, reading, counseling, administration and special education.

The following pages outline the requirements for these licenses. Specific brochures on these programs are available and give suggested sequences of courses and rules for admission to the program. Please note that courses required for licensure which are more than 10 years old may need to be repeated. In adolescent to young adult (grades 7 - 12) and pre-K - 12 teaching, undergraduate students take a major in their area field and complete licensure requirements in professional education courses. Adolescent to young adults (grades 7 - 12) teaching licenses can be attained in the following subject fields: Integrated Language Arts, Integrated Mathematics, Integrated Social Sciences, Life Sciences, Life/Chemistry, Life/Physics and Physical Sciences (Chemistry/Physics). Multi-age (grades Pre-K - 12) teaching licenses can be attained in the following subject fields: Foreign Language (French, German, Greek, Latin or Spanish), Music, Theater and Visual Arts. Intervention Specialist for grades K - 12 are available in mild/moderate educational needs and moderate/intensive educational needs. These are undergraduate or graduate programs. A licensure program (K - 12) at the graduate level only is also offered. Intervention Specialist (Early Childhood) licensure can be fulfilled at the undergraduate and graduate levels. Endorsements (Pre-Kindergarten Special Needs, Transition To Work, Gifted/Talented) may be added to an existing specific license on the graduate level. Need to consult Special Education Programs for specific details.

Teacher Education Program

Steps for Admission and Continual Progress for Licensure in the Following Programs:

- Early Childhood
- Early Childhood/Montessori
- Middle Childhood
- Professional Education
- Special Education
- School Nurse Licensure

Step One:

- Student is accepted into the University based on high school grade point average and SAT or ACT scores.
- Nontraditional student with no college admission scores will substitute PRAXIS 1 as entry test in order to declare major or minor.
- Potential candidate declares major.
Step Two:

- Potential candidate completes first year at Xavier with a grade point average of 2.500 or higher.
- Required grades in following courses:
  - ENGL 101 "B" or higher.
  - Mathematics (as placement dictates) "C" or higher.
  - Introductory Education course (program dictates) "B" or higher.
- Following items completed and filed with Education Office:
  - Notarized "Statement of Moral Character".
  - "Application for Admission" form.
  - "Reflection Question" form.
- Student is notified of acceptance into chosen program.

Step Three:

- Required grades for continuation through major/minor: detailed information.
  - Grade of "C" or higher in second mathematics course.
  - Overall grade point average of 2.500
  - Grade of "B" or higher in required curriculum courses
  - Candidate's portfolio reflects key assignments from educational foundations and curriculum courses.
  - Evaluation forms completed by University personnel and field work cooperating teachers indicate progress in development of knowledge, performance skills, and dispositions for teaching.

Step Four:

- Application for internship/student teaching is approved. All foundation, methods, block courses, and majority of subject concentration courses must be completed for commencement of internship semester/s.
- Prior to internship, one of two/three or more required Ohio Assessment for Educators must be passed and results on file in Certification Office of Education Department (see handbooks or Education Office for specific test titles and codes). For Foreign Language, students must pass all applicable tests of the ACTFL test series with a rating of 'Intermediate-High' score.

Step Five:

- Successful completion of internship/student teaching in Early, Middle, Professional or Special Education:
  - Record of on-site visits by University supervisor.
  - Midterm and final evaluations from cooperating teacher and field supervisor.
  - Two conferences with University supervisor and cooperating teacher.
- Successful completion of exit portfolio.
- Ohio Assessment for Educators and ACTFL, if applicable, results on file in Certification Office.
- Licensure application materials complete and on file in Certification Office.
Early Childhood/Montessori, ages 2.5 to 6, or ages 6 to 9, or ages 6 to 12
Licensure

Teacher Licensure

The School of Education offers teacher licensure programs, approved by the State of Ohio Board of Regents, for early childhood, middle childhood, secondary education, which includes multi-age, adolescent to young adult, intervention specialist (mild/moderate, moderate/intensive, gifted/talented [graduate program only], and early childhood intervention specialist) teaching, as well as American Montessori Society certification in Montessori preprimary and primary teaching. In addition, students can acquire a license at the graduate level for all secondary licensure areas, reading, counseling, administration and special education.

The following pages outline the requirements for these licenses. Specific brochures on these programs are available and give suggested sequences of courses and rules for admission to the program. Please note that courses required for licensure which are more than 10 years old may need to be repeated. In adolescent to young adult (grades 7 - 12) and pre-K - 12 teaching, undergraduate students take a major in their area field and complete licensure requirements in professional education courses. Adolescent to young adults (grades 7 - 12) teaching licenses can be attained in the following subject fields: Integrated Language Arts, Integrated Mathematics, Integrated Social Sciences, Life Sciences, Life/Chemistry, Life/Physics and Physical Sciences (Chemistry/Physics). Multi-age (grades Pre-K - 12) teaching licenses can be attained in the following subject fields: Foreign Language (French, German, Greek, Latin or Spanish), Music, Theater and Visual Arts. Intervention Specialist for grades K - 12 are available in mild/moderate educational needs and moderate/intensive educational needs. These are undergraduate or graduate programs. A licensure program (K - 12) at the graduate level only is also offered. Intervention Specialist (Early Childhood) licensure can be fulfilled at the undergraduate and graduate levels. Endorsements (Pre-Kindergarten Special Needs, Transition To Work, Gifted/Talented) may be added to an existing specific license on the graduate level. Need to consult Special Education Programs for specific details.

Teacher Education Program

Steps for Admission and Continual Progress for Licensure in the Following Programs:

- Early Childhood
- Early Childhood/Montessori
- Middle Childhood
- Professional Education
- Special Education
- School Nurse Licensure

Step One:

- Student is accepted into the University based on high school grade point average and SAT or ACT scores.
- Nontraditional student with no college admission scores will substitute PRAXIS 1 as entry test in order to declare major or minor.
- Potential candidate declares major.

Step Two:

- Potential candidate completes first year at Xavier with a grade point average of 2.500 or higher.
- Required grades in following courses:
  - ENGL 101 "B" or higher.
  - Mathematics (as placement dictates) "C" or higher.
Introductory Education course (program dictates) "B" or higher.

Following items completed and filed with Education Office:
- Notarized "Statement of Moral Character".
- "Application for Admission" form.
- "Reflection Question" form.
- Student is notified of acceptance into chosen program.

Step Three:

- Required grades for continuation through major/minor: detailed information.
  - Grade of "C" or higher in second mathematics course.
  - Overall grade point average of 2.500
  - Grade of "B" or higher in required curriculum courses
  - Candidate's portfolio reflects key assignments from educational foundations and curriculum courses.
  - Evaluation forms completed by University personnel and field work cooperating teachers indicate progress in development of knowledge, performance skills, and dispositions for teaching.

Step Four:

- Application for internship/student teaching is approved. All foundation, methods, block courses, and majority of subject concentration courses must be completed for commencement of internship semester/s.
- Prior to internship, one of two/three or more required Ohio Assessment for Educators must be passed and results on file in Certification Office of Education Department (see handbooks or Education Office for specific test titles and codes). For Foreign Language, students must pass all applicable tests of the ACTFL test series with a rating of 'Intermediate-High' score.

Step Five:

- Successful completion of internship/student teaching in Early, Middle, Professional or Special Education:
  - Record of on-site visits by University supervisor.
  - Midterm and final evaluations from cooperating teacher and field supervisor.
  - Two conferences with University supervisor and cooperating teacher.
- Successful completion of exit portfolio.
- Ohio Assessment for Educators and ACTFL, if applicable, results on file in Certification Office.
- Licensure application materials complete and on file in Certification Office.

Middle Childhood Education Licensure

Teacher Licensure

The School of Education offers teacher licensure programs, approved by the State of Ohio Board of Regents, for early childhood, middle childhood, secondary education, which includes multi-age, adolescent to young adult, intervention specialist (mild/moderate, moderate/intensive, gifted/talented [graduate program only], and early childhood intervention specialist) teaching, as well as American Montessori Society certification in Montessori preprimary and primary teaching. In addition, students can acquire a license at the graduate level for all secondary licensure areas, reading, counseling, administration and special education.

• Licensure application materials complete and on file in Certification Office.
• Successful FBI/BCI checks on file.

Other Programs

Academic Service Learning Semester

Please see Center for International Education under
Services and Resources for Students

Air Force Reserve Officers' Training Corps (ROTC)

Air Force ROTC Aerospace Studies is offered through a cooperative agreement with the University of Cincinnati. Qualified freshmen
and sophomore students may participate in the program and may compete for scholarship opportunities through the United States Air
Force ROTC.

Air Force ROTC prepares students to assume positions as commissioned officers in the U.S. Air Force, through a combination of
classroom and practical leadership experiences, and esprit-de-corps activities with others in the cadet wing. Graduates are
commissioned as second lieutenants trained to begin careers as pilots, navigators, engineers, program managers, scientists, space and
missile operators, air battle managers, nurses, security forces or maintenance officers, as well as any of the more than 150 officer career
fields offered.

The Air Force ROTC program begins with a general military course. Freshmen and sophomore level students participate in classroom
work, a one credit hour aerospace studies course, and a hands-on leadership skills laboratory course. The program consists of 12 credit
hours in aerospace studies courses that count toward your degree requirements. (Students must consult their academic advisor for
details.)
Army Reserve Officers' Training Corps (ROTC)

The Department of Military Science offers a commission as a Second Lieutenant and provides an opportunity for men and women to study subjects of recognized military and educational value which assist them in gaining the foundations of leadership. The primary purpose of this program is to produce quality leaders to serve as commissioned officers in the United States Army, the Army National Guard, and the Army Reserves.

A commission is earned through a two or a four year Reserve Officers' Training Corps (ROTC) program. The four-year program is completed at the University and consists of lower division courses in the freshman and sophomore years, followed by upper division courses in the junior and senior years. The two-year program begins with a four week paid summer camp at Fort Knox, Kentucky, between the sophomore and junior years which teaches the student all subjects covered in the lower division courses. The student then completes the upper division courses during the junior and senior years. Lower division courses are taken on a voluntary basis. There is no military obligation incurred for taking lower division courses. The upper division courses qualify the student for a commission as an officer in the United States Army. A military obligation is incurred for taking upper division courses. Admission to upper division courses must be approved by the chair of the Military Science department.

Requirements for admission to upper division courses are:

1. Voluntary application by the student.
2. Completion of MILS 101, MILS 102, MILS 103, MILS 104, MILS 201, MILS 202, MILS 203 and MILS 204; or completion of ROTC Leaders Training Course; or prior military service; or completion of Air Force, Navy, or Army ROTC lower division courses at other institutions; or completion of JROTC.
3. Demonstrated potential for leadership.
4. Successful completion of a US Army administered physical examination.
5. A GPA of at least 2.000.
6. Signing the ROTC Advanced Course Student Contract.
7. Junior academic standing.

Credit for military science courses is granted by the University. The credit hours for these courses may satisfy free elective requirements. To receive a commission, students must complete a baccalaureate or masters degree. For additional information, telephone 513 745-1062.

Freshman Year

- MILS 101 - Leadership & Personal Dev
- MILS 102 - Freshman Leadership Lab I *
- MILS 103 - Intro to Tactical Leadership

• MILS 404 - Senior Leadership Lab II *

Note(s):

* Each leadership laboratory is a co-requisite.

**English as a Second Language (ESL) Program**

The Intensive English program offers language instruction for international students who have the goal of entering American colleges and universities or improving their ability to use English for professional purposes. The program is accredited by the Commission for English Language Program Accreditation (CEA), and it holds membership in the American Association of Intensive English Programs (AAIEP). ESL students at Xavier University receive instruction in English language and academic skills, including grammar, reading, composition, listening and pronunciation. In addition, optional electives such as speaking, TOEFL preparation, and oral fluency are available on a rotating basis. Please note that admission to the ESL program does not guarantee admission to a degree program at Xavier University; a separate application must be made for a degree program.

**Levels of Instruction**

The program offers four levels of instruction: beginning, intermediate, high intermediate and advanced. The instructional methodology at each level is geared toward preparing students for academic study through an integrated, content-based approach. Courses (except at the beginning level) are given some academic credit toward an undergraduate degree.

**Calendar**

The program is offered three semesters each year: Fall (late August to mid-December - 16 weeks), Spring (mid-January to early May -16 weeks), and Summer (mid-May to early August - 12 weeks). To provide flexibility in student placement and instruction, the Fall and Spring semesters are divided into two half-terms. If space is available, students may enter the program at mid-term.
Admission

Admission to the intensive English program is not based on usual University requirements, although students must have completed high school before entering the program. Applicants who want to pursue a Xavier academic degree must make a separate application as an undergraduate or graduate student. Enrolled ESL students who are qualified to be admitted but lack the necessary English proficiency may enroll in a special conditional “bridge” level, which is a combination of advanced ESL courses and selected undergraduate courses. A brochure is available upon request.

English as a Second Language (ESL) Bridge Program

The English Language Bridge Program

The English Language Bridge program at Xavier University is a full-time program for international students that combines Intensive English (ESL) classes with carefully selected undergraduate classes that develop academic skills in the future field of study. The purpose of the program is to help international students successfully transition between fulltime English language study and an academic degree program, either at the undergraduate or master's level. The Bridge program follows the regular university calendar, and may be one semester or two semesters in length, depending upon student achievement in meeting requirements to matriculate.

English Language Bridge Program Eligibility

1. Students enrolling in the program must demonstrate the ability to use English in academic settings, either through previous English language coursework at Xavier University, or through scores on standardized English exams.
2. Students must have successfully completed high school (or previous university-level courses). Conditionally admitted students may apply for the Bridge program.
   Contact the Office of Admission or the Intensive English Program for specific criteria for these two components.

Matriculation

Students enrolled in the English Language Bridge program who successfully complete ESLG 130 and ESLG 133 (with a grade of B or higher) and who successfully complete the academic courses from the Bridge Program are eligible for final admission to a full-time degree program.

Institute for Spirituality and Social Justice

Institute for Spirituality and Social Justice

The ISSJ of Xavier's Theology Department empowers constructive theological reflection and responsible social action through three tracks, including (1) Professional Practice (Ethics, Spirituality, and Professional Practice, or ESSP), (2) Solidarity and Sustainability in a Global Context (SSGC), and (3) Pastoral Care (Applied Spirituality and Pastoral Care, of ASPC). Each track includes offerings in three areas, (1) Programs, Workshops, and Retreats, (2) Certificates, and (3) Graduate Degrees. Each of the three tracks in all three areas is designed to cultivate depth of thought, imagination, and critical skills in a world challenged by violence, social inequity, and environmental instability. Distinctive features of the Institute include experiential learning through spiritual formation, practicums/internships, and the program capstone. The Institute is rooted in a rich tradition of spiritual practices coupled with rigorous intellectual inquiry and social analysis which manifest the Jesuit commitment to work in the service of faith and the promotion of justice in a diverse and pluralistic world.

For more information, call the Director of the M.A. in Theology, at 513 745-2894 or email issj@xavier.edu.
MA in Theology ISSJ Tracks:

Ethics, Spirituality and Professional Practice (36 credit hours)

The Professional Practice track is designed for professionals in business and non-profit communities interested in developing deeper spiritual understanding as well as practical skills for competent, ethical and theologically informed professional practices. This track is also appropriate for students interested in careers in the management and administration of churches and church-related organizations and corporations such as dioceses and social ministries.

The Professional Practice track combines theory and practice, building on the traditions of spiritual discernment (Ignatian and others), theological reflection and purposeful action. It develops adult learners as knowledgeable, thoughtful and responsible professionals who improve their work environments and society as a whole. Students learn to respond to challenging situations presented in their professional environments in ethically and spiritually responsible ways.

The program presumes a pluralistic religious environment in the workplace, emphasizing ways to understand, recognize, negotiate and celebrate interfaith relationships. It also reflects Xavier's mission to educate students to serve with excellence and ethical integrity in professional fields and to work for social and economic justice.

The goals of the program are:

- To improve understanding of the Christian spiritual, theological and ethical tradition in dialogue with contemporary challenges of religious traditions.
- To prepare professionals with a sound knowledge of ethical traditions and a commitment to bringing social-ethical perspectives to business and service environments.
- To facilitate the spiritual and theological formation necessary for professionals to integrate professional expertise with competent, ethical, and spiritually informed management practices.

Foundational Courses

- THEO 503 - Liberating Bible
- THEO 520 - Journey Through Christianity I: Community, Authority and Expansion
- THEO 524 - Journey Through Christianity II: Reformations, Modernities and the Global Context
- THEO 624 - Theological Imagination: Approaches to the Sacred
- THEO 547 - Ethics in a Time of Planetary Crisis
- THEO 690 - Discernment and Integration: Capstone Course

ESPP Track Courses

- Ignatian Tradition Course
  - The Ignatian Tradition course can be satisfied by any one of several different courses, such as THEO 513 Jesuit Theology & Spirituality or THEO 514 - Spiritual Exercises in the 21st Century.
- Scripture and Justice Course
  - The Scripture and Justice Course requirement could be fulfilled by one of several possible courses, such as THEO 579 - The Bible and Economic Justice or THEO 580 - Power, Politics and Empire in the New Testament.
- World Spiritual Traditions Course
  - The World Spiritual Traditions Course can be satisfied by one of several possible courses, such as Introduction to Buddhist Spirituality, or Sufism
- THEO 644 - Human Person: Spiritual and Psychological Development
Elective Courses or Research-Based Thesis Option

Solidarity and Sustainability in a Global Context (36 credit hours)

The Solidarity and Sustainability track revolves around the typical definition of sustainability as "development that meets the needs of the present without compromising the ability of future generations to meet their own needs."

This track integrates questions of economic, social and environmental sustainability with the spiritual traditions that engage human potential. Ethical issues are regularly examined, including social justice questions related to distribution of resources, and the need for communal and environmental stewardship in a variety of ways, including the kinds of personal and social transformation that stem from a "change of heart."

Goals of the program include:

• To form an awareness of the current issues of economic and environmental sustainability.

• To develop an appreciation of the complexity and interrelatedness of the global issues that impact economic and environmental sustainability.

• To develop an appreciation of the cultural and historical underpinnings of religious traditions and to learn from other religious traditions in order to deepen one's life and contribution to the world.

• To acquire an ability to discriminate between the peaceful practices and the violent habits within religious traditions and to strengthen the recognition of the diversity of the human drives, seeking meaning within and beyond established religion.

• To engender habits of responsible collaborative action grounded in critical theological reflection and ethical discernment, and to invite others to engage in similar reflection and action.

Foundational Courses

• THEO 503 - Liberating Bible
• THEO 520 - Journey Through Christianity I: Community, Authority and Expansion
• THEO 524 - Journey Through Christianity II: Reformations, Modernities and the Global Context
• THEO 624 - Theological Imagination: Approaches to the Sacred
• THEO 547 - Ethics in a Time of Planetary Crisis
• THEO 690 - Discernment and Integration: Capstone Course

SSGC Track Courses

• Ignatian Tradition Course
  ◦ The Ignatian Tradition course can be satisfied by any one of several different courses, such as THEO 513 Jesuit Theology & Spirituality or THEO 514 - Spiritual Exercises in the 21st Century.
• Scripture and Justice Course
  ◦ The Scripture and Justice Course requirement could be fulfilled by one of several possible courses, such as THEO 579 - The Bible and Economic Justice or THEO 580 - Power, Politics and Empire in the New Testament.
• World Spiritual Traditions Course
  ◦ The World Spiritual Traditions Course can be satisfied by one of several possible courses, such as Introduction to Buddhist Spirituality or Sufism
• Global Justice or Ethics Course
  ◦ The Global Justice or Ethics course can be satisfied by one of several different courses, such as THEO 607 - Theology of Immigration or THEO 610 - Christian Ethics and Globalization.
Elective Courses or Research-Based Thesis Option

Applied Spirituality and Pastoral Care (39 credit hours)

The Applied Spirituality and Pastoral Care track is oriented to human growth and is thus appropriate for all seekers, but it is also specifically helpful to those preparing for professional practice in varieties of pastoral care including chaplaincy, education, campus ministry, youth ministry and varieties of social ministries.

The track explores the richness of Christian spirituality as a way of life oriented to the intellectual, affective, humane and relational qualities of human existence that make life meaningful and worthwhile. It prepares students to engage pastoral work in pluralistic contexts, since their social and pastoral ministries require cultural sensitivities, practical skills and a capacity to connect across religious traditions, with openness and respect.

Through the track, students:

• Gain knowledge about the tradition of Christian spirituality as a resource for theological imagination, personal and communal identity, and personal development.

• Gain an understanding of spiritual practices that promote personal growth, health and well-being, and share those spiritual practices with others in ways that are sensitive to and respect our pluralistic cultural context.

• Gain the skills necessary to engage pastoral practice with clarity about how spiritual growth and spiritual practice enhances their effectiveness and their longevity as pastoral caregivers.

Foundational Courses

• THEO 503 - Liberating Bible
• THEO 520 - Journey Through Christianity I: Community, Authority and Expansion
• THEO 524 - Journey Through Christianity II: Reformations, Modernities and the Global Context
• THEO 624 - Theological Imagination: Approaches to the Sacred
• THEO 547 - Ethics in a Time of Planetary Crisis
• THEO 690 - Discernment and Integration: Capstone Course

ASPC Track Courses

• Global Justice or Ethics Course
  ◦ The Global Justice or Ethics course can be satisfied by one of several different courses, such as THEO 607 - Theology of Immigration or THEO 610 - Christian Ethics and Globalization.
• THEO 630 - Theology of Ministry
• THEO 632 - Ethics in Ministry
• THEO 644 - Human Person: Spiritual and Psychological Development
• THEO 645 - Pastoral Care & Counseling
• THEO 635 - Ministerial Internship or THEO 738 - Youth & Campus Ministry or THEO 715 - Supervised Field Education

ASPC Practicum

• CPE (Clinical Pastoral Education) with Theological Reflection
**Pre-Legal Study**

The basic criteria for acceptance into law school are the grade point average acquired during undergraduate studies and performance on the Law School Admission Test (LSAT). Application forms and information regarding the dates of this test can be obtained from the prelaw advisor, Timothy J. White, 811 Schott Hall or 513 745-2997. Some importance is also attached to letters of recommendation, job experience, and extracurricular or community activities.

American law schools prescribe neither specific courses nor a specific major for prelaw study. They pay particular attention to students engaged in a broad program of high quality in liberal arts. The degree program should educate the students to assimilate difficult documents and to interpret factual data, to think logically and creatively, to express themselves well orally and in writing, and to acquire a critical understanding of the human institutions and values with which the law deals. While there is no such thing as a prelaw program, it does not follow that all courses or majors are of equal value for the study of law. Some subjects (not necessarily majors) to which law schools attach special importance are accounting, economics, English, history, philosophy and political science.

Students considering law as a career are urged to consult with both their departmental chair and the prelaw advisor. They are also encouraged to join the St. Thomas More Prelaw Society. This organization provides activities that inform pre-law students of current and future trends related to law school admissions and careers in the law.

**Pre-MBA Studies Plan**

This plan satisfies the foundation courses required for the Xavier MBA programs. It is designed for the non-business student or for the returning student who already has completed a bachelor's degree. Upon admission to the MBA program, the pre-MBA will count for the waiver of the 500 level foundation courses provided the courses were completed within the previous five years and a grade of "B" or above was attained in each course.

**Requirements for Pre-MBA Studies Plan:**

- Plan is 9 hours.

**Required courses include:**

- ACCT 200 - Introductory Financial Acct
- STAT 210 - Statistics For Business I
- STAT 211 - Statistics For Business II

**Note(s):**

- A grade of "B" must be attained in these courses and they must be less than five years old for M.B.A. foundation course waiver.
- At least half of the credit hours must be taken at Xavier.
Pre-Pharmacy Program

The Pre-Pharmacy Program at Xavier University is a program of advisement where the minimum requirements for entry to most pharmacy schools are placed early in the students program of study and university general core-curricular course work is placed later in the curriculum. Most pharmacy schools do not require an undergraduate bachelor’s degree for acceptance. The minimum requirements for application to pharmacy school can, in most cases, be completed in two years. If a student successful completes these courses, he or she may apply for admission to pharmacy schools at the end of two years of study. If the student is unsuccessful at gaining admission at that time they can continue in their studies, and apply in their third year or after completing their undergraduate bachelor’s degree. Regardless of whether one enters pharmacy school at the end of two years of study or earns a bachelors degree, the pharmacy school degree necessary to become a licensed registered pharmacist (Pharm.D.) normally still requires an additional four years of study to complete. For the specific requirements and recommended courses at each pharmacy school in which you are interested, you should consult the “Pharmacy School Admission Requirements”, published by the American Association of Colleges of Pharmacy. There is a copy available to browse in the office of the Director of Pre-professional Health Advising in Albers Hall 105B.

The Pre-Pharmacy Program is administered by the Department of Chemistry. Colleges of pharmacy require a minimum of two years of undergraduate study and include certain required courses for admission. If the required courses have been completed, students may apply to a college of pharmacy after two years of study or after earning a baccalaureate degree.

The pre-pharmacy curriculum satisfies the minimum preparation for admission to most colleges of pharmacy. It may be modified to meet other specific requirements of a particular college of pharmacy. A current listing of such requirements* should be consulted by the student in order to plan a satisfactory program. The student is advised to meet regularly with a member of the Committee on Health Sciences so as to be well-informed about all current prerequisites and the procedures to be followed in applying for admission to a college of pharmacy. If the student plans to continue undergraduate education at Xavier University and to obtain a BS degree, this can be done easily within the BS in Biology, BS in Chemical Science, or BS in Natural Sciences programs. The student then should meet with the chair of the appropriate science department for guidance in the choice of courses necessary for the desired degree.

* “Pharmacy School Admission Requirements,” published by the American Association of Colleges of Pharmacy.

Pre-Pharmacy

This block serves as a guideline for progress in the program. See your academic advisor.

Freshman Year

First Semester

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- MATH 150 - Elements of Calculus I or
- MATH 170 - Calculus I
- PSYC 101 - General Psychology
- THEO 111 - Theological Foundations
or
  • CORE 100 - First Year Seminar

Total (17/18)

Second Semester

• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
• BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab

• MATH 151 - Elements of Calculus II or
• MATH 171 - Calculus II

• ENGL 101 - English Composition or
• ENGL 115 - Rhetoric

• THEO 111 - Theological Foundations

or
  • CORE 100 - First Year Seminar

Total (17/18)

Sophomore Year

First Semester

• CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I

• MATH 156 - General Statistics or
• MATH 116 - Elementary Statistics

• PHIL 100 - Ethics as Intro to Philosophy
  ▪ Historical Perspectives
Total (17)

Second Semester

- CHEM 242 - Organic Chemistry II *
- CHEM 243 - Organic Chemistry II Lab *
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
- BIOL 200 - Microbiology
- ECON 200 - Microeconomic Principles
  * Creative Perspectives

Total (17)

Note:

* If a Pharmacy School requires Biochemistry, the organic chemistry sequence should be completed in the summer before the sophomore year.

Study Abroad

Please see Center for International Education under Services and Resources for Students

College of Arts and Sciences

College of Arts and Sciences

The College of Arts and Sciences is the oldest and largest college at Xavier University. The goal is to provide an excellent liberal arts education in the Jesuit tradition that prepares students for careers, professional or graduate school, and life in a global society.

Degrees, Programs and Block Schedules

The College of Arts and Sciences offers undergraduate degrees and programs in the departments of Art, Arts & Innovation, Biology, Chemistry, Classics & Modern Languages, Communication Arts, Computer Science, English, History, Mathematics, Music and Theatre, Philosophy, Physics, Political Science, Sociology, and Theology.

Graduate degrees are offered in the departments of English and Theology.
Art

The Department of Art offers two degrees and three majors: the Bachelor of Arts in Art, the Bachelor of Arts in Graphic Design and the Bachelor of Fine Arts, as well as minors in Studio Art and Art History.

Bachelor of Arts

Art, B.A.

The Department of Art fosters an integrated way of life in which the student, through art experiences, grows in awareness and response to both spiritual and material values. The potential artist has opportunity for studio practice in one of the following concentrations: art education, art history, ceramics, drawing, fibers, graphics, painting, photography, printmaking, and sculpture. Studies in art history are required of each major and may also be an area of concentration. Students who wish to be licensed as teachers follow a special program for pre K-12 licensure. Students interested in careers as art therapists are advised to follow a pre-art therapy program.

Requirements for the Art Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Major Requirements:

52 credit hours, as follows

- 10 credit hours in foundation requirements
- 9 credit hours in 100 level courses
- 3 elective credit hours
- 9 credit hours in Art History
- 3 credit hour exit seminar
- 12 credit hours (4 courses) in one area of study leading to the senior concentration
- 6 credit hour senior concentration and exhibition are required.

Concentrations:

Must be arranged with the approval of the concentration advisor.
Note(s):

• In the spring semester of the sophomore year the prospective art major will present a portfolio for evaluation. Acceptance or rejection from the Department of Art will be based upon this evaluation.
• A minimum grade of “C-” must be attained in all art courses to count toward an art major degree.
• A minimum grade of “B” must be attained in ARTS 221/ARTS 521 and ARTS 223/ARTS 523 for those pursuing art licensure.
• A recommended program sequence is available for each of the concentrations. Art licensure requires an additional 28 hours of education courses as well as 55 semester hours in art for a Pre-K to 12 license. Please direct requests and/or questions to the department chair.
• Introductory courses (or equivalent with permission of the instructor) are prerequisites for all advanced courses. Courses numbered 500 or above are for graduate students only. All studio courses may be taken for graduate credit.

B.A. Art

This is a sample course sequence to illustrate class offerings for this major. See your academic advisor.

Total (15)

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• A minimum of 120 credit hours is required for this degree.

Graphic Design. B.A.

Graphic Design is the process of visual problem-solving on a 2D surface. The field of Graphic Design continues to grow and become a powerful force in the creation of our contemporary society and culture. The Bachelor of Arts in Graphic Design provides students the techniques, processes, aesthetics, and creative approaches of Graphic Design, all from a fine arts perspective. Students are prepared with dynamic portfolios that show a range of innovative thinking, technical prowess, and aesthetics sensibility. Real-world experiences in the form of mentoring, portfolio reviews, and internships enable the students to be competitive designers.
Requirements for a Major in Graphic Design

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Major Requirements:

55 credit hours, as follows:

- 10 credit hours in foundation requirements
- 21 credit hours in BA specific areas
- 9 credit hours in Art History
- 9 credit hours senior seminar and concentration
- 3 elective credit hours
- 3 credit hours Internship

Note(s):

- In the spring semester of the sophomore year the prospective art major will present a portfolio for evaluation. Acceptance or rejection from the Department of Art will be based upon this evaluation.
- A minimum grade of "C-" must be attained in all art courses to count toward an art major degree.
- A recommended program sequence is available for each of the concentrations.
- Introductory courses (or equivalent with permission of the instructor) are prerequisites for all advanced courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.A., Graphic Design

Freshman Year
First Semester

- Art 100: Seminar
- Art 101: 2D Design
- Art 102: Drawing
- Core 100 or Theology 111
- Second Language I
- Computer Science 170: Computer Science
- Core 101

• Arts Elective (204 or 208)
• Art 493: Internship
• E/RS Flag
• Quantitative Reasoning Flag
• Writing Intensive Flag

Second Semester

• Art 490: Senior Concentration
• Historical Perspectives Elective
• Scientific Perspectives Elective
• General Elective
• Core 499
Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• Consider a Applied Computation Certificate or Advertising Minor

Bachelor of Fine Arts

Art, B.F.A.

The BFA degree in Art is distinguished from the BA degree in Art by its intensity and structure. Students seeking a BFA degree in Art usually have full determination to pursue their livelihood as professional artists or are thinking of acquiring an MFA degree for university/college teaching. It is a higher degree and immediately acknowledges the fact that its recipient has experienced a deeper involvement in, and commitment to, art.

Requirements for the Bachelor of Fine Arts Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Major Requirements:

73 credit hours, as follows

• 10 credit hours in foundation requirements
• 15 credit hours in 100 level courses
• 9 elective credit hours
• 12 credit hours in Art History
• 3 credit hour exit seminar
• 18 credit hours (6 courses) in one area of study leading to the senior concentration
• 6 credit hours in senior concentration and exhibition are required.

Note(s):

• Concentrations must be arranged with the approval of the concentration advisor.
• In the spring semester of the sophomore year, at the time of the sophomore portfolio evaluation, students will express their intention of pursuing a BFA degree by delivery of a signed declaration form to the department chair, endorsed by the proposed concentration instructor.
• a minimum grade of "C-" must be attained in all art courses to count toward an art major degree.
• It should be noted that in order to complete a degree in the regular four-year sequence, a student would need to carry approximately 18 credit hours per semester. Most students seeking this degree, however, are very competent and would probably have some advanced standing in regard to the core. It is also usual for these students to take courses during the summer sessions.
• A recommended program sequence is available. Please direct requests to the department chair.

B.F.A. Art

Suggested sequence of courses for a BFA degree in Art with a concentration in any area. This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

• Art 100: Seminar
• Art 101: 2D Design
• Art 102: DRAWING
• Core 100 or Theology 111
• Core 101
• Second Language I
• English 101 or English 115

Second Semester

• Art 105: 3D Design
• Art Studio elective (100 level)
• Historical Perspective
• Core 100 or Theology 111
• Core 102
• Second Language II

Sophomore Year
First Semester

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.

Minors

Art History Minor

18 total credit hours are required, as follows

15 hours required in art courses:

- ARTS 270 - History of Art I
- ARTS 271 - History of Art II
- ARTS 272 - Art of the 20th Century
- ARTS 273 - History of American Art
- ARTS 274 - Women, Art & Society
- ARTS 275 - Sacred Art-Christian Perspect
- ARTS 276 - Art of the Enlightenment
3 hours of art electives (either studio or more art history)

Note(s):

• A minimum grade of "C" must be attained in all art courses to count toward the minor.
• Further information concerning art minors can be obtained from the Department of Art.

Studio Art Minor

18 total credit hours are required, as follows

6 hours required in art courses:

• ARTS 101 - Two-Dimensional Design
• ARTS 105 - Three-Dimensional Design

3 hours of Studio elective, selected from:

• ARTS 102 - Drawing I
• ARTS 103 - Painting I
• ARTS 104 - Printmaking I
• ARTS 105 - Three-Dimensional Design
• ARTS 106 - Fiber Arts I
• ARTS 107 - Sculpture I
• ARTS 108 - Photography I
• ARTS 109 - Ceramics I
• ARTS 142 - Graphic Design I
3 hours of Advanced Studio elective, selected from:

- ARTS 202 - Drawing II
- ARTS 203 - Painting II
- ARTS 204 - Printmaking II
- ARTS 205 - Figure Modeling
- ARTS 206 - Fiber Arts II
- ARTS 207 - Sculpture II
- ARTS 208 - Photography II
- ARTS 209 - Ceramics II
- ARTS 242 - Graphic Design II

6 hours of art elective courses providing a thorough investigation of any studio art discipline, or art history.

Note(s):

- A minimum grade of "C" must be attained in all art courses to count toward the minor.
- Further information concerning art minors can be obtained from the Department of Art.

School of Arts and Innovation

The School of Arts and Innovation (SAI) is housed within the College of Arts and Sciences. The school includes the departments and faculties of Art, Digital Innovation, Film and Television (DIFT), Human Centered Making, the Innovation Minor, Music, and Theatre.

One of the main purposes of the school is to teach students to solve problems using creative and innovative processes and techniques. Students will synthesize what they learn in this flexible program into a unique hybrid of abilities. Programs in the School will target existing careers in innovation and develop new skill sets that will have unique value. Students will learn to apply their knowledge to community-based projects. Both logic and creative processes will be taught as means to innovate and collaborate among students, faculty, and colleges. Entities outside Xavier provide a key partnership role.

Bachelor of Arts

Digital Innovation, Film and Television, B.A.

The Digital Innovation, Film and Television program cultivates students to become responsible, adaptable, and innovative leaders in a complex and rapidly converging digital environment. With a concentration on digital media production and the art of visual storytelling, we endeavor to prepare students through hands-on learning, cross-disciplinary study, team building, and community engagement. Digital Innovation, Film and Television prepares graduates for careers in the creative and corporate digital environments of film, television, broadcasting, producing, multimedia, content creation and in technology areas that are emerging.
Requirements for the Digital Innovation, Film and Television major

Core Curriculum Requirements

See Undergraduate Core Curriculum, including:

- CSCI 170 (For SAI Students)(Math Core)

Major Requirements

36 credit hours, as follows

27 hours from:

- COMM 206 - Writing for the Media
- DIFT 210 - Art of Film
- DIFT 213 - Non-Fiction Film
- DIFT 215 - Aesthetics & Tech of Post Prod
- DIFT 250 - Screenwriting & Story Craft
- DIFT 254 - Intro to Video Production
- DIFT 354 - Field Prod and Story Telling
- DIFT 459 - Senior Sem in EMED Adv Prod I
- DIFT 460 - Senior Sem in DIFT Adv Prod II

6 hours of Elective A

Select 2 courses from:

- ARTS 215 - Web Design
- COMM 237 - Elements of Copy & Design
  - DIFT 355 - Documentary Field Production
- DIFT 340 - Audio Production
- DIFT 451 - Introduction to Video Graphics
- DIFT 454 - Advanced Video Editing
- ENGL 310 - Creative Writing: Fiction
- ENGL 318 - Creative Nonfiction
- MUSC 304 - Producing Electronic Music I
- THTR 120 - Acting I
  - THTR 331 - Lighting Design
3 hours of Elective B

Select 1 course from:

- COMM 209 - Group Dynamics
- COMM 211 - Media Literacy
- COMM 247 - Understanding New Media
- COMM 323 - Race, Class, Gender & Media
- COMM 324 - Sex and Violence In Media
- COMM 329 - Audience Survey & Research
- COMM 385 - Media, Democracy & the Public
- COMM 426 - Media Law & Policy
- DIFT 214 - Film Criticism
- DIFT 310 - The Horror Film
  - DIFT 455 - Special Projects in DIFT
- MUSC 106 - Music In Film
- THTR 210 - Acting I

Internship

DIFT majors are strongly encouraged but not required to complete an internship in their Junior or Senior year.

- DIFT 348 - Internship in DIFT I
- DIFT 458 - Internship in DIFT II

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Notes

- A 2.000 cumulative average must be attained in the communication arts courses of each major.
- It is important that students work closely with their academic advisors in the choice of these electives.

B.A. Digital Innovation, Film and Television

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

Fall Semester

- PHIL 100 - Ethics as Intro to Philosophy
• General Elective
• DIFT 210 - Art of Film
• Second Language I

- Major DIFT elective
- Major DIFT elective
- General elective
- General elective

Notes

- All students must elect one each of oral communications, quantitative reasoning and writing-intensive flagged courses; many of these are available within the core or major.

Bachelor of Science

Human-Centered Making, B.S.

The B.S. in Human-Centered Making is for students whose desire to create spans the range from digital applications to digital and physical fabrication and particularly includes the mixture of physical and digital creation. Most importantly, Human-Centered Making is for students who want to put people at the center of what they create. The program develops student skills in design thinking applied to fabrication, computation and user experience. Human-Centered Making emphasizes the process of creating physical and software artifacts for and with a community by embedding community-engaged learning throughout the curriculum.
The major is embedded in the liberal arts by intentional analysis and reflection in the science, mathematics, philosophy, history, art, and theology courses taken by the students. The combination of community, creation, and critical thinking encourages Ignation values of service, discernment, and reflection.

In an era when mass production and technology threaten to disconnect us from each other and the natural world, the act of creating helps reconnect abstract notions with physical realities, whether those realities are about the sustainability of materials used or the meaning of the data being analyzed to understand a community.

Requirements for the Human-Centered Making Major

Core Curriculum Requirements

See Undergraduate Core Curriculum

Major Requirements

54 Hours, including

Required Human-Centered Making courses (27 Hours)

- MAKE 101 Introduction to Making
- MAKE 102 Making the User Experience
- MAKE 201 Objects of Digital Fabrication
- MAKE 202 Digital Object Modeling II
- MAKE 301 Human-Centered Project Development
- MAKE 302 Advanced Methods for Making
- MAKE 310 Materials and Processes
- MAKE 401 Formal Models and Metrics for Making
- MAKE 402 Thesis Project [Capstone]

Required ARTS courses (9 hours):

- ARTS 101 - Two-Dimensional Design
- ARTS 102 - Drawing I
- ARTS 105 - Three-Dimensional Design

Required MATH courses (6 hours):

- MATH 156 - General Statistics
- MATH 158 - General Statistics II
Major Elective courses (12 hours):

These courses are drawn from any elective course in Human-Centered Making, CSCI 220 Data Structures, MATH 225, any 300-level elective in computer science, any approved ARTS course, INFO 328 Database Management, INFO 329 Data Mining, INFO 358 Data Modeling and Management, INFO 389 Business Intelligence, or other approved course. Students choose a focus area during their second year that directs their choice of electives and possibly particular core course choices.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Human-Centered Making

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- PHIL 100 - Ethics as Intro to Philosophy
- ARTS 102 - Drawing I
- MAKE 101 - Introduction to Making
- Foreign Language I
- CORE 100 - First Year Seminar

Second Semester

- CSCI 170 - Computer Science I
- ENGL 101 - English Composition
- THEO 111 - Theological Foundations
- MAKE 102 - Making the User Experience
- Foreign Language II

Sophomore Year

First Semester

- ARTS 101 - Two-Dimensional Design
- MATH 156 - General Statistics
- MAKE 201 - Objects of Digital Fabrication
- Historical Perspectives
- Scientific Perspectives
Second Semester

- ENGL 205 - Literature & Moral Imagination
- ARTS 105 - Three-Dimensional Design
- MATH 158 - General Statistics II
- MAKE 202 - Digital Object Modeling II
- Theological Perspectives

Junior Year

First Semester

- MAKE 301 - Human-Centered Project Development
- Philosophical Perspectives
- Human-Centered Making Elective
- General Elective
- Natural Science Elective

Second Semester

- MAKE 302 - Junior Project
- Humanities Elective
- Ethics/Religion & Society
- General Elective
- General Elective
- General Elective

Senior Year

First Semester

- MAKE 401 - Formal Models & Metrics for Making
- Human-Centered Making Elective
- Social Science Elective
- General Elective
- General Elective

Second Semester

- MAKE 402 - Thesis Project
- General Elective
- General Elective
- General Elective
Minors

Digital Innovation, Film and Television Minor

The Digital Innovation, Film and Television cultivate students to become responsible, adaptable, and innovative leaders in a complex and rapidly converging digital environment.

18 total credit hours are required, as follows:

12 hours from:

- COMM 206 - Writing for the Media
- DIFT 250 - Screenwriting and Story Craft
- DIFT 254 - Intro To Video Production
- DIFT 215 - Aesthetics and Tech Post-Prod

6 hours of electives (2 courses) selected from:

- COMM 209 - Group Dynamics
- COMM 211 - Media Literacy
- COMM 426 - Media Law and Policy
- DIFT 210 - Art of Film
- DIFT 214 - Film Criticism
- DIFT Non-Fiction Film
- DIFT - The Horror Film
- DIFT - 354 - Field Prod and Story Telling
- DIFT - 451 - Introduction to Video Graphics
- MUSIC - 106 Music in Film

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Innovation Minor

The minor in Innovation teaches students from any major to create, communicate, and commercialize or otherwise realize meaningfully unique ideas in any field. Innovation is a university-wide program combining courses from the School of Arts and Innovation and the Department of Management and Entrepreneurship. The minor in Innovation gives students the tools and confidence to create their own
opportunities, and to realize a prosperous and sustaining future within or outside organizations, businesses, or institutions. Students completing this minor will be able to lead change within their education, their careers, their affiliations, their communities and their personal lives.

Students will choose from one of two tracks. These tracks allow two ways to earn the minor in a field of study in which multiple disciplines intersect. The MAKE track provides students the opportunity to complete independent Innovation projects in collaboration with external partners. The Business track allows students to focus more on innovation within an entrepreneurial context. Innovation minors in the second track seeking to start their own businesses will also be advised to take an additional three courses to complete the Entrepreneurship Minor.

The Minor in Innovation consists of 18 credit hours, including:

**MAKE Track (18 hours):**

- MAKE 101 - Introduction to Making
- INNV 103 - Design Thinking
- MGMT 300 - Managerial Behavior
- MGMT 385 - Project Management or MAKE 301 - Human-Centered Project Development
- INNV 400 - Internship
- INNV 403 - Project Development
- INNV 404 - Capstone Project

**Business Track (18 hours):**

- MAKE 101 - Introduction to Making
- INNV 103 - Design Thinking
- MGMT 300 - Managerial Behavior
- ENTR 305 - Creativity and Innovation
- ACCT 200 - Introductory Financial Accounting
- ENTR 311 - New Venture Planning

**Addition of Entrepreneurship minor**

Innovation minors in the Business track may take 3 additional courses to complete an Entrepreneurship Minor.

- MKTG 300 - Principles of Marketing
- MGMT 495 - Strategic Management
- BLAW 300 - Legal Environment or SHRM 200 - Human Resources in a Diverse Society or ECON 200 - Microeconomic Principles

**Biology**

The Department of Biology, in cooperation with the Departments of Chemistry and Physics, offers these degrees and programs:
Bachelor of Science

Applied Biology, B.S.

Xavier University - Duke University Cooperative Forestry and Environmental Management Programs

This program is designed to coordinate the education of undergraduate students at Xavier with graduate programs in the Duke University School of the Environment. Participating students are accepted into either of two Duke University degree programs, the Master of Forestry (MF) or Master of Environmental Management (MEM). The MF emphasizes forest resources, and graduates are typically employed in administrative, managerial, or staff positions with forest industries and government agencies. The MEM program considers natural resources in a broader context. Students find employment in such areas as resource development, environmental protection, impact assessment, land use analysis, and coastal zone management.

The curriculum which leads to the above degrees consists of six semesters of undergraduate study at Xavier University (similar to the Environmental Science major) and four semesters of graduate study at Duke University School of the Environment. During the fall semester of the junior year at Xavier, the student applies for admission to the Duke University School of the Environment. The BS Applied Biology degree will be awarded by Xavier University upon satisfactory completion of one year of full-time study at Duke University. Upon satisfactory completion of the requirements for a master's degree, Duke University will award either the degree of MF or MEM, whichever is appropriate for the student's area of concentration at Duke University. If a student is unable to enter Duke University, courses necessary for completion of requirements leading to the BS in Environmental Science can be taken during the senior year.

Requirements for the Applied Biology Major

Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including

Mathematical Perspectives:

• MATH 140/150
Scientific Perspectives, Natural Science Elective, Oral Communication and Written Communication Flags:

- Included within the major

3 hours of Social Sciences, including:

- ECON 200 - Microeconomic Principles

Major Requirements:

45 credit hours, as follows

26 hours of required biology courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 210 - General Botany
- BIOL 211 - General Botany Lab
- BIOL 250 - Ecology
- BIOL 251 - Ecology Lab
- BIOL 260 - Intro to Environmental Science
- BIOL 261 - Intro to Environ Science Lab
- BIOL 398 - SEM: Environmental Studies
- BIOL 496 - Senior Capstone Seminar
- BIOL 497 - Experimental Biology Lab
- BIOL 498 - Methods of Biol Research I
- BIOL 499 - Methods of Biol Research II

19 hours of additional science coursework:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
- ECON 320 - Natural Resource Economics
Note(s):

- A 2.000 cumulative average must be attained in all biology courses.
- One year of full time study at the Duke University School of the Environment.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Applied Biology

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
- CORE 101 - GOA

Total (14)

Second Semester

- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- ECON 200 - Microeconomic Principles
- PHIL 100 - Ethics as Intro to Philosophy
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
- CORE 102 - GOA

Total (17)
Sophomore Year

First Semester

• BIOL 250 - Ecology
• BIOL 251 - Ecology Lab
• MATH 140/150
• Second Language I
• Historical Perspectives
• Creative Perspectives

Total (16)

Second Semester

• BIOL 260 - Intro to Environmental Science
• BIOL 261 - Intro to Environ Science Lab
• Humanities Elective
• ECON 320 - Natural Resource Economics
• ENGL 205 - Literature & Moral Imagination
• Second Language II

Total (16)

Junior Year

First Semester

• BIOL 210 - General Botany
• BIOL 211 - General Botany Lab
• BIOL 497 - Experimental Biology Lab or BIOL 498 - Methods of Biol Research I
• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I
• Philosophical Perspectives
• MATH 156 - General Statistics

Total (15-17)
Second Semester

- BIOL 496 - Senior Capstone Seminar or BIOL 499 - Methods of Biol Research II
- BIOL 398 - SEM: Environmental Studies
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
- Theological Perspectives Elective
- Elective
- Elective

Total (16-18)

Senior Year

During the junior year the student applies for admission to Duke University. The BS Applied Biology degree will be awarded by Xavier University upon satisfactory completion of one year of fulltime study (minimum of 24 credit hours) at Duke University.

If a student is unable to enter Duke University, arrangements should be made with the chair of the Biology Department to determine the senior year courses necessary for completion of requirements leading to the BS degree in Environmental Science.

A cumulative average of 2.0 is required in the major courses for graduation.

A minimum of 120 credit hours (96 hours at Xavier and 24 hours at Duke) is required for the degree.

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.

Biology, B.S.

The biology curriculum includes courses that present current concepts of the molecular, cellular, organismal, and population levels of biological organization. Basic biological principles are presented through the study of animals, plants, and microorganisms. Laboratory sessions provide experience in careful observation, controlled experimentation, and thoughtful analysis of scientific data. The biology program provides preparation for further study at the graduate level or in the health professions (medicine, dentistry, veterinary medicine, podiatry, or optometry), as well as preparation for a teaching career or other specialized employment.

Requirements for the Biology Major
Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including

Mathematical Perspectives:

- MATH 140/150 or
  - MATH 170 - Calculus I

  and

  - MATH 156 - General Statistics

Science requirement specified by the major as:

16 hours in chemistry courses:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab

8 hours in physics courses:

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II

Major Requirements:

36 credit hours, as follows
19 hours in required biology courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 230 - Genetics
- BIOL 231 - Genetics Laboratory
- BIOL 410 - Human Physiology
- BIOL 411 - Human Physiology Lab
- BIOL 496 - Senior Capstone Seminar

or

- BIOL 497 - Experimental Biology Lab

or

- BIOL 498 - Methods of Biol Research I
- BIOL 499 - Methods of Biol Research II

17 hours of biology electives must include

At least one course from:

- BIOL 222 - Immunology
- BIOL 360 - Cell Biology
- BIOL 364 - Virology
- BIOL 440 - Biochemistry
- BIOL 460 - Developmental Biology and
- BIOL 461 - Developmental Biology Lab

At least one course from:

- BIOL 240 - Evolution
- BIOL 244 - Animal Behavior
- BIOL 250 - Ecology and
- BIOL 251 - Ecology Lab
- BIOL 255 - Tropical Ecology
- BIOL 260 - Intro to Environmental Science and
- BIOL 261 - Intro to Environ Science Lab

And one of the three lecture/ lab combinations from:

- BIOL 210 - General Botany and
- BIOL 211 - General Botany Lab

or
• BIOL 270 - Introduction To Entomology and
• BIOL 271 - Introduction To Entomology Lab

or

• BIOL 450 - General Microbiology and
• BIOL 451 - General Microbiology Lab

Note(s):

• A 2.000 cumulative average must be attained in the 36 hours of biology courses.
• Up to 4 hours of independent study (either BIOL 290 or BIOL 495) may be used in this elective requirement.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Biology

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

• BIOL 160 - General Biology I
• BIOL 161 - General Biology I Lab
• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• CORE 100 1st Year Seminar or Theology 111
• ENGL 101 - English Composition or ENGL 115 - Rhetoric
• CORE 101 GOA

Total (14)

Second Semester

• BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
• CORE 100 1st Year Seminar or Theology 111
• CORE 102 - GOA
• PHIL 100 - Ethics as Intro to Philosophy

Total (14)

Sophomore Year

First Semester

• PHIL 200 - Philosophical Perspectives Elective
• Second Language I
• Social Science Elective ***
• CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• MATH 140/150 - Elements of Calculus I
• Social Science Elective***

Total (16)

Second Semester

• BIOL Elective (3-4)
• CHEM 242 - Organic Chemistry II
• CHEM 243 - Organic Chemistry II Lab
• Second Language II
• Theological Perspectives Elective
• Historical Perspectives

Total (16-17)

Junior Year

First Semester

• BIOL Elective * (3-5)
• BIOL 410 - Human Physiology
• BIOL 411 - Human Physiology Lab
• PHYS 160 - College Physics I ***
• PHYS 161 - Introductory Physics Lab I
• MATH 156 - General Statistics

Total (15-17)
Second Semester

- BIOL 230 - Genetics
- BIOL 231 - Genetics Laboratory
- PHYS 162 - College Physics II ***
- PHYS 163 - Introductory Physics Lab II
- Creative Perspectives Elective
- General Elective

Total (14)

Senior Year

First Semester

- BIOL 497 - Experimental Biology Lab or BIOL 498 - Methods of Biol Research I
- BIOL Elective * (6)
- ENGL 205 - Literature & Moral Imagination
- Diversity Curriculum Requirement **
- General Electives

Total (16 - 17)

Second Semester

- BIOL 496 - Senior Capstone Seminar or BIOL 499 - Methods of Biol Research II
- BIOL Electives * (5)
- E/RS Focus Elective**
- Humanities Elective
- General Elective

Total (15-16)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- FRESHMAN YEAR: ALTERNATIVE COURSES: CAN TAKE HISTORICAL PERSPECTIVES, CREATIVE PERSPECTIVES OR HUMANITIES ELECTIVE INSTEAD OF PHIL 100.
- * In addition to the other biology elective distribution requirements, Botany 210/211, Entomology 270/271, or General Microbiology 450/451 must be taken for the degree.
- ** DCR & E/RS may double count with other core courses. Use "Attribute Type" when searching for courses.
- *** For medical school/MCAT requirements, take PHYS 160 - 163 in the sophomore year and Biology electives in the junior year, including BIOL/CHEM 440 in the fall of the junior year, BIOL 354/355 in the spring of junior year. PSYC 101 and SOCI 101 must be taken before the MCAT.
• All students must elect one each of oral communications, quantitative reasoning and writing-intensive flagged courses; many of these are available within the core or major.
• A cumulative average of 2.0 is required in the major courses for graduation.
• A minimum of 120 credit hours is required for the degree.

Biomedical Sciences, B.S.

(Preparation for health professions, like medicine and dentistry)

The biomedical sciences curriculum presents a liberal arts program with emphasis on those sciences required for an excellent background for subsequent studies in medicine, dentistry, and similar health professions. Recurrent pronouncements by Committees on Admissions at professional schools leave no doubt that they regard an education in the liberal arts as one of the most important factors in forming a genuinely capable and effective health professional, but majoring in natural sciences is not a requirement for admission to a health profession. (See Certificate in Pre-Medical Studies.) The student should consult a current listing of professional school admission requirements* so that the selected course of study will assure the student of a degree and include all the minimum requirements for admission to those schools of medicine or dentistry to which he/she intends to apply.

"Medical School Admission Requirements," published by the Association of American Medical Colleges, or "Admission Requirements of U.S. and Canadian Dental Schools," published by the American Association of Dental Schools.

Requirements for the Biomedical Sciences Major

Core Curriculum Requirements:

48 - 63 credit hours dependent on courses taken, including

Mathematical Perspectives:

• MATH 156 - General Statistics *

and one of

• MATH 140 - Concepts of Calculus
• MATH 170 - Calculus I
• MATH 171 - Calculus II

Social Sciences:

• PSYC 101 - General Psychology *
• PSYC 261 - Social Psychology

Diversity Requirement:

• SOCI 101 - Introduction to Sociology *
Science:

• Requirement included within the major.

Major Requirements:

• BIOL 160 - General Biology I *
• BIOL 161 - General Biology I Lab *
• BIOL 162 - General Biology II *
• BIOL 163 - General Biology II Lab *
• BIOL 230 - Genetics *
• BIOL 231 - Genetics Laboratory *
• BIOL 354 - Human and Comparative Anat *
• BIOL 355 - Human and Comp Anat Lab *
• BIOL 410 - Human Physiology *
• BIOL 411 - Human Physiology Lab *
• BIOL 450 - General Microbiology
• BIOL 451 - General Microbiology Lab
• CHEM 160 - General Chemistry I *
• CHEM 161 - General Chemistry I Lab *
• CHEM 162 - General Chemistry II *
• CHEM 163 - General Chemistry II Lab *
• CHEM 220 - Principles of Physical Chem *
• CHEM 240 - Organic Chemistry I *
• CHEM 241 - Organic Chemistry I Lab *
• CHEM 242 - Organic Chemistry II *
• CHEM 243 - Organic Chemistry II Lab *
• CHEM 435 - Medicinal Chemistry
• CHEM 440 - Biochemistry *
• PHYS 160 - College Physics I *
• PHYS 161 - Introductory Physics Lab I *
• PHYS 162 - College Physics II *
• PHYS 163 - Introductory Physics Lab II *

2 additional hours in Senior Capstone: BIOL 496 or 497 or 498-499 or CHEM 400

Note(s):

• A 2.000 cumulative average must be attained in all biology, chemistry and physics courses.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Biomedical Sciences

This block serves as a guideline for progress toward a degree. See your academic advisor. Student is ready to apply to medical school during the summer after 3rd year, or within 2-5 years. MCAT scores last 2-3 years.

- PHIL 200 Philosophical Perspectives Elective

Total (14)

Junior Year

First Semester

- BIOL 410 - Human Physiology
- BIOL 411 - Human Physiology Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- PSYC 261 - Social Psychology
- SOCI 101 Intro to Sociology (DCR)**

Total (15)

Second Semester

- BIOL 354 - Human and Comparative Anatomy
- BIOL 355 - Human and Comparative Anatomy
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- ENGL 205 Literature and the Moral Imagination
- Creative Perspectives

Total (15)

Senior Year

First Semester

- BIOL or CHEM - Senior Capstone***
- BIOL 230 - Genetics
- BIOL 231 - Genetics Lab
- BIOL or CHEM 440 - Biochemistry
- CHEM 220 - Principles of Physical Chemistry
- Humanities Elective
- Theological Perspectives Elective
Second Semester

- BIOL or CHEM Senior Capstone***
- BIOL 450 - General Microbiology
- BIOL 451 - General Microbiology Lab
- CHEM 435 - Medicinal Chemistry
- E/RS Focus Elective**
- General Elective (1-3 credit hours)
- MCAT prep class (optional)

Total (13-16)

Note(s):

- ** DCR and E/RS may double count with other core courses. Use "Attribute Type" when searching for courses.
- *** A total of 2 credit hours of Senior Capstone. May be fulfilled in one semester or two.
- A minimum of 120 credit hours is required for the degree. 2nd BS degree requires 150 cred hours (30 additional credit hours).

B.S. Biomedical Sciences - Alternative Pathway III

Alternative pathway III for students with MATH 105. This block serves as a guideline for progress toward a degree. See your academic advisor. Student is ready to apply to medical school during the summer after graduation, or within 2 - 5 years. MCAT scores last 2-3 years.

Freshman Year

First Semester

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- CORE 100 - First Year Seminar or
- THEO 111 - Theology
- CORE 101 1st Year Co-Curricular Program I
- ENGL 101 Engl Comp or ENGL 115 Rhetoric
- MATH 105

Total (13)

Second Semester

- BIOL 162 - General Biology II
Sophomore Year

First Semester

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics I Lab
- MATH 140 or MATH 156
- PHIL 100 - Ethics as Intro to Philosophy
- Second Language II

Total (17)

Second Semester

- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics II Lab
- MATH 140 or MATH 156
- PHIL 200 Philosophical Perspectives Elective

Total (14)

Junior Year

First Semester

- BIOL 410 - Human Physiology
- BIOL 411 - Human Physiology Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- Historical Perspectives
- PSYC 261 - Social Psychology
- SOCI 101 Intro to Sociology (DCR)**

Total (18)
Second Semester

- BIOL 354 - Human and Comparative Anatomy
- BIOL 355 - Human and Comparative Anatomy
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- ENGL 205 Literature and the Moral Imagination
- Creative Perspectives

Total (15)

Senior Year

First Semester

- BIOL or CHEM - Senior Capstone**
- BIOL 230 - Genetics
- BIOL 231 - Genetics Lab
- BIOL or CHEM 440 - Biochemistry
- CHEM 220 - Principles of Physical Chemistry
- Humanities Elective
- Theological Perspectives Elective

Total (17-18)

Second Semester

- BIOL or CHEM Senor Capstone**
- BIOL 450 - General Microbiology
- BIOL 451 - General Microbiology Lab
- CHEM 435 - Medicinal Chemistry
- E/RS Focus Elective*
- MCAT prep class (optional)

Total (12-13)

Note(s):

- * DCR and E/RS may double count with other core courses. Use "Attribute Type" when searching for courses.
- ** A total of 2 credit hours of Senior Capstone. May be fulfilled in one semester or two.
- A minimum of 120 credit hours is required for the degree. 2nd BS degree requires 150 cred hours (30 additional credit hours).

Environmental Science, B.S.

The environmental science major includes the interdisciplinary study of the impact of human systems on our natural environment and how in turn these natural systems affect the human environment.
Requirements for the Environmental Science Major

Core Curriculum:

• 48-63 Credit Hours dependent on courses taken, including

Mathematical Perspectives

• MATH 140/150

Biology: 21 Credit Hours

• BIOL 160 - General Biology I
• BIOL 161 - General Biology I Lab
• BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab
• BIOL 250 - Ecology
• BIOL 251 - Ecology Lab
• BIOL 260 - Intro to Environmental Science
• BIOL 261 - Intro to Environ Science Lab
• BIOL 398 - SEM: Environmental Studies
• BIOL 495 - Directed Study (Senior Internship) or
• BIOL 496 - Senior Capstone Seminar or
• BIOL 497 - Experimental Biology Lab or
• BIOL 498 - Methods of Biol Research I and
• BIOL 499 - Methods of Biol Research II

Chemistry: 8 Credit Hours

• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab

Physics: 8 Credit Hours

• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I
• PHYS 162 - College Physics II
• PHYS 163 - Introductory Physics Lab II

Economics: 6 Credit Hours

• ECON 200 - Microeconomic Principles
• ECON 320 - Natural Resource Economics

Mathematics: 6 Credit Hours

• Math 140/150 - Elements of Calculus I
• or MATH 170 - Calculus I
• MATH 156 - General Statistics

Science and Math/Computer Science Electives: 9 Credit Hours Minimum

Students must select a minimum of nine credit hours from the following list of courses, including at least one science laboratory and no more than one mathematics/computer science course.

• BIOL 210 - General Botany
• BIOL 211 - General Botany Lab
• BIOL 227 - Parasitology
• BIOL 230 - Genetics
• BIOL 231 - Genetics Laboratory
• BIOL 240 - Evolution
• BIOL 244 - Animal Behavior
• BIOL 255 - Tropical Ecology
• BIOL 256 - Conservation Biology Ireland
• BIOL 270 - Introduction To Entomology
• BIOL 271 - Introduction To Entomology Lab
• BIOL 364 - Virology
• BIOL 450 - General Microbiology
• BIOL 451 - General Microbiology Lab
• CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• CHEM 242 - Organic Chemistry II
• CHEM 243 - Organic Chemistry II Lab
• CHEM 440 - Biochemistry
• CSCI 170 - Computer Science I
• MATH 325 - Mathematical Modeling

Non-Science Electives: 6 Credit Hours Minimum

Students must complete a minimum of six credit hours from the following list.
POLI 316 - Globalization
ENGL 205 - Literature & Moral Imagination
  THEO 245 - God, Creation and Ecology
THEO 388 - Theology & Ecology
  HIST 403 - Ecology of the City
  Other courses as approved by advisor

A 2.000 cumulative average must be attained in the major.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Environmental Science

Freshman Year

First Semester

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CORE 100 1st Year Seminar or THEO 111
- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- CORE 101 - GOA

Total (14)

Second Semester

- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CORE 100 1st Year Seminar or THEO 111
- PHIL 100 - Ethics as Intro to Philosophy
- CORE 102 - GOA

Total (14)
Sophomore Year

First Semester

• BIOL 250 - Ecology
• BIOL 251 - Ecology Lab
• ENGL 205 - Literature & Moral Imagination
• MATH 140/150 - Calculus or MATH 156
• Historical Perspectives Elective
• Second Language I

Total (16)

Second Semester

• BIOL 260 - Intro to Environmental Science
• BIOL 261 - Intro to Environ Science Lab
• ENVS - Non Science Elective
• Theological Perspectives
• Second Language II
• ECON 200 - Microeconomic Principles

Total (16)

Junior Year

First Semester

• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I
• ENVS Non-Science Elective
• MATH 140/150 - Calculus or
• MATH 156 - General Statistics
• PHIL 200 - Philosophical Perspectives Elective
• Math or Science Elective

Total (16)
Second Semester

- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
- Humanities Elective
- Social Science or General Elective
- Creative Perspectives Elective
- General Elective

Total (16)

Senior Year

First Semester

- ECON 320 - Natural Resource Economics
- BIOL 495, 497 or 498: Internship/Methods BR I
- Science or Math Elective (5 credit hours)
- General Elective (DCR)
- General Elective

Total (15-16)

Second Semester

- BIOL 398 - SEM: Environmental Studies
- BIOL 495, 496 or 499: Internship/Methods BR II
- Science or Math Elective
- E/RS Course
- General Elective

Total (13-14)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- All students must also satisfy five flags in addition to the 48 hours required by the core. No single course can count for more than two flags. Flagged courses often double-count for major and/or minor requirements. The five flagged courses are: the Diversity (DCR), Ethics/Religion and Society (E/RS) oral communications, quantitative reasoning and writing-intensive flagged courses. Many of these are available within the core or major; use "Attribute Type" when searching for courses.
- 2.00 cumulative average is required in the major courses.
- A minimum of 120 credit hours is required for the degree. 2.00 cumulative average is required in the major courses.
Natural Sciences, B.S.

This major is no longer admitting students as of Fall 2017. Students should consult the renamed and revised major Biomedical Sciences, B.S.

(Preparation for health professions, like medicine and dentistry)

The natural sciences curriculum presents a liberal arts program with emphasis on those sciences required for an excellent background for subsequent studies in medicine, dentistry, and similar health professions. Recurrent pronouncements by Committees on Admissions at professional schools leave no doubt that they regard an education in the liberal arts as one of the most important factors in forming a genuinely capable and effective health professional, but majoring in natural sciences is not a requirement for admission to a health profession. (See Certificate in Pre-Medical Studies.) The student should consult a current listing of professional school admission requirements so that the selected course of study will assure the student of a degree and include all the minimum requirements for admission to those schools of medicine or dentistry to which he/she intends to apply.

* "Medical School Admission Requirements," published by the Association of American Medical Colleges, or "Admission Requirements of U.S. and Canadian Dental Schools," published by the American Association of Dental Schools.

Requirements for the Natural Sciences Major

Core Curriculum Requirements:

48 - 63 credit hours dependent on courses taken, including

Mathematics:

- MATH 140/150 Elements of Calculus I and MATH 156 - General Statistics
  or
- MATH 170/171 - Calculus I and MATH 156 - General Statistics

Social sciences:

- PSYC 101 - General Psychology
Science:

- Requirement included within the major.

Major Requirements:

58 credit hours, as follows

50 hours in specific science courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 230 - Genetics
- BIOL 231 - Genetics Laboratory
- BIOL 354 - Human and Comparative Anat
- BIOL 355 - Human and Comp Anat Lab
- BIOL 410 - Human Physiology
- BIOL 411 - Human Physiology Lab
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 220 - Principles of Physical Chem
- CHEM 221 - Analytical Chemistry
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II

8 additional hours in biology or 8 hours in chemistry:

- To include two hours of research along with the additional hours in BIOL or CHEM electives. (See academic advisor for specific course selection.)

Note(s):

- A 2.000 cumulative average must be attained in all biology, chemistry and physics courses.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Natural Sciences

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CORE 101 GOA
- CORE 100 - First Year Seminar or THEO 111 - Theological Foundations
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (14)

Second Semester

- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CORE 100 - First Year Seminar or THEO 111 - Theological Foundations
- CORE 102 - GOA
- PHIL 100 - Ethics as Intro to Philosophy

Total (14)

Sophomore Year

First Semester

- CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• MATH 140/150
• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I
• Second Language I

Total (14)

Second Semester

• CHEM 242 - Organic Chemistry II
• CHEM 243 - Organic Chemistry II Lab
• PHYS 162 - College Physics II
• PHYS 163 - Introductory Physics Lab II
• Second Language II
• Social Science Elective (SOCI 101 Med School)
• BIOL Elective

Total (14)

Junior Year

First Semester

• BIOL 410 - Human Physiology
• BIOL 411 - Human Physiology Lab
• BIOL 440 - Biochemistry or CHEM 440 - Biochemistry
• MATH 156 - General Statistics or MATH 171 - Calculus II
• PSYC 101 - General Psychology
• PHIL 200 - Philosophical Perspectives Elective

Total (17)

Second Semester

• BIOL 230 - Genetics
• BIOL 231 - Genetics Laboratory
• BIOL 354 - Human and Comparative Anat
• BIOL 355 - Human and Comp Anat Lab
• Diversity Curriculum Elective (3) **
• ENGL 205 - Literature & Moral Imagination or CLAS 205 - Classical Lit & Moral Imagina or SPAN 205 - Hispanic Lit & Moral Imagin

Total (15)
Senior Year

First Semester

• BIOL 497 - Experimental Biology Lab or BIOL 498 - Methods of Biol Research I or CHEM 400 - Research/Seminar***
• BIOL Elective (4)
• CHEM 220 - Principles of Physical Chem
• CHEM 221 - Analytical Chemistry
• Creative Perspectives Elective
• Theological Perspectives Elective

Total (14-15)

Second Semester

• BIOL 496 - Senior Capstone Seminar or BIOL 499 - Methods of Biol Research II or CHEM 400 - Research/Seminar***
• Biology or Chemistry Elective
• E/RS Focus Elective **
• General Elective
• Humanities Elective
• Historical Perspectives Elective

Total (16-17)

Note(s):

• * For medical school/MCAT requirements, take PHYS 160 - 163 in the sophomore year and Biology electives in the junior year, including BIOL 440 in the fall of the junior year, BIOL 354/355 in the spring of junior year. PSYC 101 and SOCI 101 must be taken before the MCAT.
• ** DCR & E/RS may double count with other core courses. Use "Attribute Type" when searching for courses.
• *** Students select a concentration of elective courses plus research in either biology or chemistry. Elective courses vary from year to year, so contact your academic advisor for current selections. Students concentrating in chemistry should add Chemical Literature (CHEM 300), one hour, to junior year schedule. A minimum of 120 credit hours is required for the degree.
• All students must elect one each of oral communications, quantitative reasoning and writing-intensive flagged courses; many of these are available within the core or major.

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
Dual Degree

Life Sciences for Business, B.S./M.B.A.

The Life Sciences for Business program is a dual-degree program in which students earn a Bachelor of Science in the first four years and enter the Master of Business Administration program in the fifth year. It is designed to prepare students for leadership in the Biotech industry.

Requirements for the BS in Life Sciences for Business:

Core Curriculum Requirements

Students must complete the Undergraduate Core Curriculum requirements. Specific courses that must be taken to satisfy the core curriculum requirements include the following:

Social Science

- Social Science Elective

Mathematics

- MATH 140/150
- MATH 156 - General Statistics

Science requirement specified by the major as:

16 hours in Chemistry:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
• CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• CHEM 242 - Organic Chemistry II
• CHEM 243 - Organic Chemistry II Lab

8 hours of Physics:

• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I
• PHYS 162 - College Physics II
• PHYS 163 - Introductory Physics Lab II

Biology Requirements:

8 hours of General Biology

• BIOL 160 - General Biology I
• BIOL 161 - General Biology I Lab
• BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab

15 hours of Biology electives

• At least 15 credit hours from biology electives (BIOL 210 General Botany or above) including at least one lecture/laboratory combination from: BIOL 230/231 Genetics (4) or BIOL 410/411 Human Physiology (5) or BIOL 450/451 General Microbiology (5, S)

28 hours in Business courses:

• ACCT 200 - Introductory Financial Acct
• ECON 200 - Microeconomic Principles
• STAT 211 - Statistics For Business II
• INFO 120 - Introduction to Business Tech
• INFO 220 - Mgmt of Info Tech
• MGMT 300 - Managerial Behavior
• MKTG 300 - Principles of Marketing
• FINC 300 - Business Finance
  ◦ BLAW 300 for BS OR BLAW 550 for MBA
  ◦ Business elective for BS OR MGMT 550 Strategy and Organization for MBA
Note:

A 2.0 cumulative grade-point average must be attained in all hours of the major.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Life Sciences for Business, B.S./M.B.A. Suggested Block Schedule

First Year

First Semester

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- Social Science Elective
- CORE 101 - GOA
- CORE 100 - First Year Seminar or THEO 111 - Theological Foundations

Total (14)

Second Semester

- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- INFO 120 - Introduction to Business Tech
- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- CORE 100 - First Year Seminar or THEO 111 - Theological Foundations
- CORE 102 - GOA

Total (15)
Second Year

First Semester

- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- INFO 220 - Mgmt of Info Tech
- MATH 140/150 or MATH 156 or STAT 210
- Historical Perspectives
- Second Language I

Total (16)

Second Semester

- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- MATH 140/150 or MATH 156 or STAT 210
- MKTG 300 - Principles of Marketing
- Second Language II
- ECON 200

Total (16)

Third Year

First Semester

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- STAT 211 - Statistics For Business II
- PHIIL 100 - Ethics as Intro to Philosophy
- BIOL Electives (6)

Total (16)

Second Semester

- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
• MGMT 300 - Managerial Behavior
• Humanities Elective
• BIOL Elective (3-6)

Total (13-16)

Summer

• Take GMAT Exam
• Apply to MBA Program

Fourth Year

First Semester

• ENGL 205 - Literature & Moral Imagination or CLAS 205 - Classical Lit & Moral Imagina or SPAN 205 - Hispanic Lit & Moral Imagin
• Theological Perspectives
• Philosophical Perspectives
• ACCT 200 - Introductory Financial Acct
• BLAW 300 OR BLAW 550 (MBA) - Business Law and Ethics

Total (15)

Second Semester

• FINC 300 - Business Finance
• Business Elective (BS) or MGMT 550 (MAB) - Strategy and Organizations
• Creative Perspectives
• BIOL Electives (6)

Total (15)

MBA Year

First Semester

• ACCT 550 - Managerial Accounting
• FINC 550 - Fundamentals of Finance
• INFO 550 - Business Information Systems
• MKTG 550 - Marketing Strategy
• MBA Elective

Second Semester

• BUAD 550 - International Business
• ECON 550 - Managerial Economics
• MGMT 551 - Operational Analysis
• International Business Elective
• MBA Elective
• MBA Elective

Summer

• MBA Capstone Course (3)

Notes:

1. Students intending to apply for and complete the LSFB & MBA program must notify their advisor and take the GMAT in their Junior Year. ACCT 200 and STAT 211 are pre-MBA foundation requirements for MBA candidates. Calculation of the undergraduate GPA for the LSFB Major will be based on the grades from both the Biology and Business courses taken during the student's first 4 years at Xavier. The graduate GPA for the LSFB Major will be based on the grades from the graduate business courses taken by the student during the 5th year at Xavier.
2. Students who do not wish to complete the LSFB & MBA program must notify their advisor no later than Fall of their Junior Year and can choose option A or B:

   A) This route leads to a BS in LSFB and a Business minor (assuming students have taken the required business courses and applied for the minor)**. These students must take BLAW 550 and MGMT 500 for this undergraduate degree.

   B) This route requires a change of major to BIOL and student would receive a BS in BIOL with a Business minor (assuming students have taken the required business courses and applied for the minor)**. These students must fulfill additional Biology requirements (i.e., Genetics, Human Physiology and either Botany, Entomology or General Microbiology), as well as the senior capstone course (see block schedule and checklist for the Biology major).

ERS Elective (can double count w/PHIL 300s, THEO 300s, LIT, etc.) and 3 hours of DCR

**Business Minor = ACCT 200, ECON 200, FINC 300, INFO 120/220, MGMT 300, MKTG 300 and STAT 211 (2.000 GPA overall required).
Minors

Biology Minor

At least 16 total credit hours are required, as follows

8 hours from:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab

Additional 2 lecture lab combinations from:

- Microbiology & Lab BIOL 200/201 (3 & 1)
- Botany & Lab BIOL 210/211 (3 & 2)
- Genetics & Lab BIOL 230/231 (3 & 1)
- Ecology & Lab BIOL 250/251 (3 & 1)
- Environ Science & Lab BIOL 260/261 (3 & 1)
- Entomology & Lab BIOL 270/271 (3 & 2)
- Human & Comp Anat & Lab BIOL 354/355 (3 & 2)
- Human Physiology & Lab BIOL 410/411 (3 & 2)
- General Microbiology & Lab BIOL 450/451 (3 & 2)
- Developmental Bio & Lab BIOL 460/461 (3 & 1)

Note(s):

- A 2.000 cumulative average must be attained in all these courses.

Environmental Studies Minor

The Environmental Studies Minor is a 16-hour interdisciplinary program compatible with any major. It offers students an integrated overview of environmental and natural resource fields.
Required Courses:

- ECON 200 - Microeconomic Principles
- ECON 320 - Natural Resource Economics
- BIOL 250 - Ecology and
- BIOL 251 - Ecology Lab (prerequisite: one semester of biology)
- BIOL 398 - SEM: Environmental Studies
  - One approved non science elective

Approved Non-Science Electives

(The below list is a sample of offerings. Please use the "Attribute Type" when searching the Schedule of Classes to find other approved courses).

- ENGL 205 - Lit. & Moral Imagination: Literature & the Environment
- ENGL 348 - Literature & the Environment
- HIST 123 - African History I
- HIST 171 - US Environmental History
- HIST 399 - Green Urbanism
- HIST 400 - History of Agriculture
- HIST 436 - Urban Ecologies and Economics
- POLI/HIST 316 - Globalization
- THEO 245 - God Creation and Ecology
- THEO 360 - Consumption as a Problem
- THEO 388 - Theology and Ecology

Note(s):

- A 2.000 cumulative average must be attained in all these courses.
- Information regarding the minor can be obtained from the co-directors, whose names are noted in each semester’s schedule of classes.

Natural Sciences (Pre-Medical) Minor

The Natural Sciences minor is designed for undergraduate students who wish to complete science courses generally required of applicants to medical school while completing a bachelor's degree in a non-science major.

35 total credit hours are required, as follows

8 hours of biology from:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
19 hours of chemistry from:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- CHEM 440 - Biochemistry

8 hours of physics from:

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II

(or 170 series)

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Pre-Physical Therapy Minor

44 total credit hours are required, as follows

Biology:

16/18 hours of lecture & lab from

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab

Option 1:

• BIOL 140 - Human A&P I for Allied Health
• BIOL 141 - Hum A&P I Lab Allied Health
• BIOL 142 - Hum A&P II for Allied Health
• BIOL 143 - Hum A&P II Lab Allied Health

Option 2:

• BIOL 354 - Human and Comparative Anat
• BIOL 355 - Human and Comp Anat Lab
• BIOL 410 - Human Physiology
• BIOL 411 - Human Physiology Lab

Chemistry:

8 hours of lecture & lab from

• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab

Physics:

8 hours of lecture & lab from

• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I
• PHYS 162 - College Physics II
• PHYS 163 - Introductory Physics Lab II

Additional Courses

• EXSC 300 - Exercise Physiology
• PSYC 101 - General Psychology
• SOCI 101 - Introduction to Sociology
• MATH 116 or MATH 156 - Statistics
Certificate

Pre-Medical Studies Certificate

This certificate program is designed for students who are not seeking a degree, but who want to prepare for admission to medical school. Medical schools generally expect their applicants to have the equivalent of a bachelor's degree along with the four years of science courses required for this certificate. They are:

They are:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- CHEM 440 - Biochemistry

Note(s):

- A 2.000 cumulative average must be attained in all these courses.

A student is eligible for a certificate if at least one half (17 credit hours) of the courses are completed at Xavier University with a minimum grade point average of 3.000. Interested students should consult with the chair of the Health Sciences Committee or the Coordinator of Pre-Professional Health Advising.

Chemistry

The Department of Chemistry, in cooperation with the Departments of Biology and Physics, offers these bachelor's degrees and programs:
The Bachelor of Science in Chemistry
The Minor in Chemistry
The Bachelor of Science in Chemical Science
The Bachelor of Science in Applied Chemistry, Science - Engineering Program
The Bachelor of Science in Natural Sciences (for premedical and pre-dental students)
The Minor in Natural Sciences
The Minor in Biochemistry
The Minor in Forensic Science
Pre-Pharmacy Program
The Bachelor of Science in Teaching Life Sciences and Chemistry (in cooperation with the School of Education)

**Bachelor of Science**

**Applied Chemistry, B.S.**

The Department of Chemistry offers a curriculum that leads to the BS degree in Applied Chemistry. This program is intended for those students interested in pursuing an undergraduate degree with emphasis on the liberal arts while preparing for graduate work in chemical engineering. Completion of the major requirements in chemistry, physics, and mathematics enable the student to apply to graduate programs in chemical engineering.

**Requirements for the Applied Chemistry Major**

**Core Curriculum Requirements:**

48 credit hours, including

**Mathematics:**

- MATH 170 - Calculus I
- MATH 171 - Calculus II

**Science:**

- Requirement included within the major
Major Requirements:

72 credit hours, as follows

38 hours of chemistry from:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 226 - Quantitative Analysis
- CHEM 227 - Quantitative Analysis Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- CHEM 300 - Intro to Chem Research
- CHEM 320 - Physical Chemistry I
- CHEM 322 - Physical Chemistry II
- CHEM 325 - Physical Chemistry Laboratory
- CHEM 330 - Quantum Chemistry
- CHEM 340 - Instrumental Analysis
- CHEM 341 - Instrumental Analysis Lab
- CHEM 400 - Research/Seminar
- CHEM 420 - Inorganic Chemistry

14 hours of physics from:

- PHYS 161 - Introductory Physics Lab I
- PHYS 163 - Introductory Physics Lab II
- PHYS 170 - University Physics I
- PHYS 172 - University Physics II
  - ENGR 370 - Fluid Mechanics
  - ENGR 384 - Heat Transfer

10 hours of additional mathematics from:

- MATH 220 - Calculus III
  - MATH 222 - Applied Linear Algebra
- MATH 230 - Intro to Ordinary Diff Equat

6 hours of computer science from:

- CSCI 170 - Computer Science I
- CSCI 180 - Computer Science II
Note(s):

• A 2.000 cumulative average must be attained in the chemistry courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Applied Chemistry

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• MATH 170 - Calculus I
• PHYS 170 - University Physics I
• PHYS 161 - Introductory Physics Lab I
• CORE 100 - First Year Seminar or THEO 111 - Theological Foundations
• CORE 101 - GOA

Total (15)

Second Semester

• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
• MATH 171 - Calculus II
• PHYS 172 - University Physics II
• PHYS 163 - Introductory Physics Lab II
• CORE 100 - First Year Seminar or THEO 111 - Theological Foundations
• CORE 102 - GOA

Total (15)
Sophomore Year

First Semester

- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- MATH 220 - Calculus III
- PHIL 100 - Ethics as Intro to Philosophy
- Second Language II
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (17)

Second Semester

- CHEM 226 - Quantitative Analysis
- CHEM 227 - Quantitative Analysis Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- MATH 230 - Intro to Ordinary Diff Equat
- Second Language II

Total (14)

Junior Year

First Semester

- CHEM 300 - Intro to Chem Research
- CHEM 320 - Physical Chemistry I
- CHEM 340 - Instrumental Analysis
- MATH 222 - Applied Linear Algebra
- Historical Perspectives
- Humanities Elective

Total (16)

Second Semester

- CHEM 322 - Physical Chemistry II
• CHEM 341 - Instrumental Analysis Lab
• ENGL 205 - Literature & Moral Imagination
• ENGR 370 - Fluid Mechanics
• PHIL 200 - Philosophical Perspectives
• Theological Perspectives Elective

Total (15)

Senior Year

First Semester

• CHEM 400 - Research/Seminar
• CHEM 420 - Inorganic Chemistry
• CSCI 170 - Computer Science I
• ENGR 384 - Heat Transfer
• Creative Perspectives Elective

Total (13)

Second Semester

• CHEM 330 - Quantum Chemistry
• CHEM 400 - Research/Seminar
• CSCI 180 - Computer Science II
• Social Science Elective
• E/RS Elective *
• Diversity Curriculum Elective

Total (15)

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• * May double count with other core courses
• Students must elect one each of oral communications, quantitative reasoning, and writing intensive flagged courses; many of these are available within the core or major.

Chemical Science, B.S.

The Department of Chemistry offers a program which leads to the BS degree in Chemical Science. This program is intended primarily for those students who wish to make use of chemical knowledge in connection with a career in the business world, e.g., in sales or marketing, or in secondary education. The course requirements in chemistry and mathematics are less than those of the BS in Chemistry program. The hours thus released are made available as free elective hours which can then be applied to courses in accounting, business administration, economics, education, etc.
Requirements for the Chemical Science Major

Core Curriculum Requirements:

59 credit hours, including

Mathematics:

- MATH 120 - Elementary Functions
- MATH 150 - Elements of Calculus I

Science:

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II

Major Requirements:

33 credit hours, as follows

28 hours from:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 220 - Principles of Physical Chem
- CHEM 226 - Quantitative Analysis
- CHEM 227 - Quantitative Analysis Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
• CHEM 300 - Intro to Chem Research
• CHEM 340 - Instrumental Analysis
• CHEM 341 - Instrumental Analysis Lab

2 hours of research seminar from:

• CHEM 400 - Research/Seminar (to be taken 2 times)

3 hours of chemistry electives from:

• CHEM 411-495 (Refer to Course Descriptions.)

Note(s):

• A 2.000 cumulative average must be attained in the chemistry courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Chemical Science

This block serves as a guideline for progress toward a degree. See your academic advisor.

Chemistry, B.S.

The Department of Chemistry offers a curriculum that is approved by the American Chemical Society (ACS) and leads to the Bachelor of Science degree. Students completing the program graduate as "ACS certified" majors. The curriculum covers the five major fields (analytical, biochemistry, inorganic, organic, and physical chemistry), the preparation and identification of compounds, and the literature on the subject. CHEM 300 Intro to Research, fits the students to prepare his/her thesis and is a beginning course in research.

Requirements for the Chemistry Major

Core Curriculum Requirements:

53 credit hours, including

Mathematics:

- MATH 170 - Calculus I
- MATH 171 - Calculus II

Science:

- Requirement included within the major.

Major Requirements:

46 credit hours, as follows
43 hours of chemistry from:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 226 - Quantitative Analysis
- CHEM 227 - Quantitative Analysis Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- CHEM 300 - Intro to Chem Research
- CHEM 320 - Physical Chemistry I
- CHEM 322 - Physical Chemistry II
- CHEM 325 - Physical Chemistry Laboratory
- CHEM 330 - Quantum Chemistry
- CHEM 340 - Instrumental Analysis
- CHEM 341 - Instrumental Analysis Lab
- CHEM 420 - Inorganic Chemistry
- CHEM 421 - Inorganic Chemistry Lab
- CHEM 440 - Biochemistry
- CHEM 450 - Topics in Organic Chemistry

3 hours of research seminar from:

- CHEM 400 - Research/Seminar (to be taken 3 times)

Note(s):

- A 2.000 cumulative average must be attained in these chemistry courses.

Additional Major Requirements:

12 credit hours, as follows

8 hours of physics from:

- PHYS 161 - Introductory Physics Lab I
- PHYS 163 - Introductory Physics Lab II
- PHYS 170 - University Physics I
- PHYS 172 - University Physics II
4 hours of mathematics from:

- MATH 220 - Calculus III

**TOTAL Minimum Hours Required for Degree: 120 Semester Hours**

**B.S. Chemistry**

This block serves as a guideline for progress toward a degree. See your academic advisor.

**Freshman Year**

- General Elective

Total (16)

Second Semester

- CHEM 400 - Research/Seminar
- CHEM 421 - Inorganic Chemistry Lab
- CHEM 440 - Biochemistry
- Diversity Curriculum Elective

Total (14)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
- Students must elect one each of oral communications, quantitative reasoning and writing intensive flagged courses; many of these are available within the core or major.

Minors

Biochemistry Minor

The Biochemistry minor is intended to enhance students' understanding and competency in the area of Biochemistry.
21 total credit hours are required, as follows

17 hours from:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 230 - Genetics
- BIOL 231 - Genetics Laboratory
- CHEM 440 - Biochemistry

4 hours of electives selected from:

- CHEM 320 - CHEM 450

Chemistry Minor

19 total credit hours are required, as follows

16 hours from:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
3 additional hours of coursework must be selected from:

- CHEM 300-495 (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative average must be attained in the chemistry courses.

**Forensic Science Minor**

The Forensic Science minor is intended to enhance students' understanding and competency in the area of Forensic Science.

**23 total credit hours are required, as follows**

**17 hours from:**

- CHEM 226 - Quantitative Analysis
- CHEM 227 - Quantitative Analysis Lab
- CHEM 340 - Instrumental Analysis
- CHEM 341 - Instrumental Analysis Lab
- CHEM 440 - Biochemistry
- **OR** BIOL 440 - Biochemistry
- CJUS 101 - Intro to Criminal Justice
- CJUS 239 - Criminalistics I

**6 hours of Criminal Justice (CJUS) electives**
Natural Sciences majors (as an interdisciplinary major) are not eligible to receive a minor in Biology, Chemistry, or Biochemistry. However, Natural Sciences majors may double count their major requirements toward a minor in Forensic Science.

Other Programs

Pre-Pharmacy Program

The Pre-Pharmacy Program at Xavier University is a program of advisement where the minimum requirements for entry to most pharmacy schools are placed early in the students program of study and university general core-curricular course work is placed later in the curriculum. Most pharmacy schools do not require an undergraduate bachelor’s degree for acceptance. The minimum requirements for application to pharmacy school can, in most cases, be completed in two years. If a student successful completes these courses, he or she may apply for admission to pharmacy schools at the end of two years of study. If the student is unsuccessful at gaining admission at that time they can continue in their studies, and apply in their third year or after completing their undergraduate bachelor’s degree. Regardless of whether one enters pharmacy school at the end of two years of study or earns a bachelors degree, the pharmacy school degree necessary to become a licensed registered pharmacist (Pharm.D.) normally still requires an additional four years of study to complete. For the specific requirements and recommended courses at each pharmacy school in which you are interested, you should consult the “Pharmacy School Admission Requirements”, published by the American Association of Colleges of Pharmacy. There is a copy available to browse in the office of the Director of Pre-professional Health Advising in Albers Hall 105B.

The Pre-Pharmacy Program is administered by the Department of Chemistry. Colleges of pharmacy require a minimum of two years of undergraduate study and include certain required courses for admission. If the required courses have been completed, students may apply to a college of pharmacy after two years of study or after earning a baccalaureate degree.

The pre-pharmacy curriculum satisfies the minimum preparation for admission to most colleges of pharmacy. It may be modified to meet other specific requirements of a particular college of pharmacy. A current listing of such requirements* should be consulted by the student in order to plan a satisfactory program. The student is advised to meet regularly with a member of the Committee on Health Sciences so as to be well-informed about all current prerequisites and the procedures to be followed in applying for admission to a college of pharmacy. If the student plans to continue undergraduate education at Xavier University and to obtain a BS degree, this can be done easily within the BS in Biology, BS in Chemical Science, or BS in Natural Sciences programs. The student then should meet with the chair of the appropriate science department for guidance in the choice of courses necessary for the desired degree.

* “Pharmacy School Admission Requirements,” published by the American Association of Colleges of Pharmacy.

Pre-Pharmacy

This block serves as a guideline for progress in the program. See your academic advisor.

Freshman Year
First Semester

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- BIOL 160 - General Biology I

• PHYS 161 - Introductory Physics Lab I

• MATH 156 - General Statistics or
• MATH 116 - Elementary Statistics

• PHIL 100 - Ethics as Intro to Philosophy
  ◦ Historical Perspectives

Total (17)

Second Semester

• CHEM 242 - Organic Chemistry II *
• CHEM 243 - Organic Chemistry II Lab *
• PHYS 162 - College Physics II
• PHYS 163 - Introductory Physics Lab II
• BIOL 200 - Microbiology
• ECON 200 - Microeconomic Principles
  ◦ Creative Perspectives

Total (17)

Note:

* If a Pharmacy School requires Biochemistry, the organic chemistry sequence should be completed in the summer before the sophomore year.

Classics and Modern Languages

The Department of Classics and Modern Languages offers two bachelor's degrees in the areas of Classics, as well as minors in Greek, Latin, Classical Humanities, and Theatre. In addition, the department plays a major role in the Honors Bachelor of Arts degree. For this degree, see Special University Programs.

The Department of Classics and Modern Languages offers the Bachelor of Arts and Associate of Arts degrees in the following Modern Languages: French, German, and Spanish. Also offered are minors in Deaf Studies, French, German, Spanish and Latin American
Studies. Also offered, in conjunction with the Economics Department, is a Bachelor of Arts degree in Modern Languages &
International Economics.

A placement test is administered to those students who took French, German, or Spanish in high school. The result determines the
number of courses needed in order to fulfill the foreign language requirement. All French/German/Spanish majors must complete a one-
credit senior research project (FREN 499/GERM 499/SPAN 499). All courses must be in the appropriate language
(French/German/Spanish) to count towards the major.

Bachelor of Arts

Classical Humanities, B.A.

This program is designed to offer a major for those students who have an interest in the ancient world but prefer breadth rather than
specialization in their undergraduate education or seek to pursue the equivalent of a second major. This program combines the minimum
number of course requirements with a maximum number of elective courses. The 24 hours of study of the ancient Greek and Roman
world will give the student a somewhat intensive knowledge of the cultures, which in time and place are far removed from our own but
which have exercised a very strong and continuing influence on modern civilization.

Requirements for the Classical Humanities Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Major Requirements:

36 credit hours, as follows

- 12 lower division hours in Latin or Greek 101-202 (Refer to Course Descriptions.) (waivers exist per prior achievement).
- 6 hours of Latin or Greek beyond the intermediate language level (210-399) (Refer to Course Descriptions.)
- 18 hours of classical culture offerings from CLAS 101-399 (Refer to Course Descriptions.)

Note(s):

- A 2.500 cumulative average must be attained in the above courses.
- In addition to the above requirements, the student has approximately 26 hours of non-designated electives which can be used to
  meet specific interests or needs.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.A. Classical Humanities

This is a sample course sequence to illustrate class offerings for this major. See your academic advisor.

Freshman Year

First Semester

- LATIN 101 or GREEK 101

- E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.

Classics, B.A.

The Bachelor of Arts degree in Classics is designed to bring students into intimate contact with the world of the ancient Romans and Greeks through the study of their language, literature and culture. It introduces them to that era when Western society was for the first time in recorded history dealing with and recording many of the same problems and questions with which we are still grappling today.

Requirements for the Classics Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum
Major Requirements:

33 credit hours, as follows

- 0-12 lower division hours in Latin or Greek (the number depending on prior achievement).
- 21 hours in Latin or Greek beyond the intermediate language level.

Note(s):

- A 2.500 cumulative average must be attained in the above courses.
- Completion of a senior thesis.
- Pass a comprehensive examination upon completion of a senior thesis.
- In addition to the above requirements, the student has 18-24 hours of non-designated electives which can be used to meet specific interests or needs.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

French, B.A.

The program for a major in French offered by the Department of Modern Languages provides an opportunity for the development of proficiency in the spoken and written language, as well as a study of the literature and civilization in areas where the language is spoken.

Students are encouraged to combine a modern language major with a second major or a related minor.

Undergraduates who wish to be licensed as teachers of French are advised to consult with the department education coordinator and with the School of Education regarding specific requirements for language teacher licensure.
Requirements for the French Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Foreign Language:

- Complete intermediate level proficiency (202 level).

Major Requirements:

- Placement test to determine which lower division courses are required.
- Completion of 28 hours of upper division courses (300-499) taught in the foreign language.
- A 2.5 cumulative average must be attained in the major courses.

28 credit hours, as follows

*French:

9 hours of language/culture from:

- FREN 300-351 (Refer to Course Descriptions.)

9 hours of literature from:

- FREN 420-462 (Refer to Course Descriptions.)
9 hours of major electives selected from:

- FREN 300-498 (Refer to Course Descriptions.)

1 hour of senior project from:

- FREN 499 - Senior Research Project

German, B.A.

The program for majors in German offered by the Department of Modern Languages provides an opportunity for the development of proficiency in the spoken and written language, as well as a study of the literature and civilization in areas where the language is spoken.

Students are encouraged to combine a modern language major with a second major or a related minor.

Undergraduates who wish to be licensed as teachers of German are advised to consult with the department education coordinator and with the School of Education regarding specific requirements for language teacher licensure.

Requirements for the German Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum
Foreign Language:

- Complete intermediate level proficiency (202 level).

Major Requirements:

- Placement test to determine which lower division courses are required.
- Completion of 28 hours of upper division courses (300-499) taught in the foreign language.
- A 2.5 cumulative grade-point average must be attained in the major courses.

28 credit hours, as follows

German:

9 hours of language/culture from:

- GERM 300-351 (Refer to Course Descriptions).

9 hours of literature from:

- GERM 420 - GERM 461 (Refer to Course Descriptions).

9 hours of major electives selected from:

- GERM 300 - GERM 351 (Refer to Course Descriptions).

1 hour of senior research project:

- GERM 499 - Senior Research Project

Modern Language and International Economics, B.A.

Anyone working in the international arena - whether in international relations, for an international organization, or in business - needs to work with people from around the world and have a deep understanding of the global economic environment. Students receive this mix with the interdisciplinary major that is offered jointly by the Departments of Modern Languages and Economics. The blended coursework provides students with:

- A solid foundation in French, German, or Spanish.
- The skills to address international economic issues and work in the global arena.
- A sound understanding of the cultures that exist across the global economy.

The B.A. in Modern Languages and International Economics requires students to select a modern language concentration from French, German or Spanish. The senior research and the directed study courses in each concentration are the capstone courses, and they are jointly directed by faculty members in Modern Languages and Economics. Students are prepared and encouraged to pursue internships and exchange programs abroad. To plan courses, study- or work-abroad, and your future career, please contact faculty advisors in the Modern Language Department or the Economics Department.

Requirements for the Major

Core curriculum requirements:

64 credit hours, including

Foreign Language:

- Complete intermediate level proficiency (202 level).

Literature:

- Can be fulfilled with a course in the concentration portion of the major.

Mathematics:

- MATH 150 - Elements of Calculus I
- STAT 210 - Statistics For Business I
Social Sciences:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

(included in the major)

Major Requirements:

50 credit hours, as follows

21 hours of specific courses from:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
- ECON 300 - Int'l Trade & Bus Environment
- ECON 305 - Microeconomic Analysis
- ECON 306 - Macroeconomic Analysis
- ECON 450 - International Economics
- STAT 211 - Statistics For Business II

6 hours from:

- ECON 310-499 (Refer to Course Descriptions), which must include 3 hours of ECON courses at the 400 level.

23 hours of courses in a chosen concentration:

French:

- 21 hours from FREN 300-490 (Refer to Course Descriptions);
- 1 hour of senior research from FREN 499
- And 1 hour of directed study in culture & civilization from FREN 496.

German:

- 21 hours from GERM 300-490 (Refer to Course Descriptions.)
• 1 hour of senior research from GERM 499
• And 1 hour of directed study in culture & civilization from GERM 496.

Spanish:

• 21 hours from SPAN 300 or SPAN 301 with SPAN 302, SPAN 303, SPAN 306
• 9 hours of electives from SPAN 304-490 (Refer to Course Descriptions.)
• 1 hour of senior research from SPAN 499
• And 1 hour of directed study in culture & civilization from SPAN 496.

Note(s):

• A 2.000 cumulative average must be attained in these required and concentration courses.
• The senior research and the directed study courses are the capstone courses are jointly directed by faculty members in Modern Languages and Economics.
• Students are prepared and encouraged to pursue internships and exchange programs abroad. To plan courses, study- or work-abroad, and your future career, please contact faculty advisors in the Modern Language Department or the Economics Department.

**Spanish, B.A.**

This list describes in general terms the proposed sequence of courses for the Xavier University Spanish major. Every student's path may be different, and all majors will consult with their Spanish advisor each semester to ensure that they are taking the right course at the right time for their individual needs and goals. The sequence may be adjusted when a student studies abroad.

**Requirements for the Spanish Major**

**Core Curriculum Requirements:**

See Undergraduate Core Curriculum

**Foreign Language:**

- Complete intermediate level proficiency (202 level).

**Major Requirements:**

- Placement test to determine which lower division courses are required.
- A 2.5 cumulative grade-point average must be attained in the major courses.

**31 credit hours, as follows:**

- SPAN 202 - 3 hours (If a student tests into SPAN 300 and begins the major with SPAN 300 or SPAN 301, then the 9 hours of 400-498 applies)
- SPAN 300 or 301 - 3 hours
- SPAN 302-310 - 3 hours
- SPAN 311-349 - 6 hours
- SPAN 350-399 - 9 hours
- SPAN 400-498 - 6 hours (9 hours if the student begins with SPAN 300 or SPAN 301)
- SPAN 499 - 1 hour

Associate of Arts

French, A.A.

The Department of Classics and Modern Languages offers an Associate of Arts degree in French, German, and Spanish.

French/German/Spanish A.A. Requirements

The Department of Modern Languages offers the Associate of Arts degree in French, German, or Spanish.

Requirements for the Associate of Arts in French, German, or Spanish

The Associate of Arts degree requires a minimum of 60 credit hours including 31 credit hours of Core Curriculum Requirements and a minimum of 15 credit hours of Concentration Requirements.

Core Curriculum Requirements:

See Undergraduate Core Curriculum for details.

Concentration Requirements: 15 hours minimum from either French, German, or Spanish

- Up to twelve additional credit hours of lower division language courses may be required as determined by the placement test.
- All courses must be taught in the foreign language to count toward the concentration.
- A 2.5 cumulative grade-point average must be attained in all concentration courses.

French

6 hours of language/culture from:

- FREN 300-351 (Refer to Course Descriptions).

6 hours of literature from:

- FREN 420-462 (Refer to Course Descriptions).
3 hours of electives from:

- FREN 300-498 (Refer to Course Descriptions).

German

6 hours of language/culture from:

- GERM 300-351 (Refer to Course Descriptions).

6 hours of literature from:

GERM 410-470 (Refer to Course Descriptions).

3 hours of electives from:

- GERM 300-498 (Refer to Course Descriptions).

Spanish

6 hours of language from:

- SPAN 300 - Advanced Spanish I or
- SPAN 301 - Advanced Spanish II
  and
- SPAN 328 - Phonetics and Dialectology

3 hours of culture from:

- SPAN 350-352 (Refer to Course Descriptions).

6 hours of electives from:

- SPAN 302-498 (Refer to Course Descriptions).
Meeting degree requirements is the student's responsibility.

Candidates for associate degrees must have:

1. completed the appropriate requirements listed under the Core Curriculum - Associate's Degrees;
2. attained a 2.5 average in the course work of the concentration;
3. attained a cumulative grade point average of 2.000;
4. earned at least 60 hours;
5. completed the last 30 hours at Xavier, excluding consortium courses, unless waived by college dean;
6. transferred, normally, no more than 9 hours from another college or university toward a degree after matriculation at Xavier;
7. filed a formal graduation application by the deadline published for each semester;
8. completed all departmental requirements in the concentration field and all requirements of the college;
9. cleared all financial obligations to the University before the diploma and transcripts can be released.

In addition to the above, transfer students must have:

10. completed at least one-half of the course requirements of the concentration at Xavier.

German, A.A.

The Department of Classics and Modern Languages offers an Associate of Arts degree in French, German, and Spanish.

French/German/Spanish A.A. Requirements

The Department of Modern Languages offers the Associate of Arts degree in French, German, or Spanish.

Requirements for the Associate of Arts in French, German, or Spanish

This Associate of Arts degree requires a minimum of 60 credit hours including 31 credit hours of Core Curriculum Requirements and a minimum of 15 credit hours of Concentration Requirements.

Core Curriculum Requirements:

See Undergraduate Core Curriculum for details.
Concentration Requirements: 15 hours minimum from either French, German, or Spanish

- Up to twelve additional credit hours of lower division language courses may be required as determined by the placement test.
- All courses must be taught in the foreign language to count toward the concentration.
- A 2.5 cumulative grade-point average must be attained in all concentration courses.

TOTAL for A.A. DEGREE: 60 Credit Hours

Requirements for Associate Degrees in French/German/Spanish

Meeting degree requirements is the student's responsibility.

Candidates for associate degrees must have:

1. completed the appropriate requirements listed under the Core Curriculum - Associate's Degrees;
2. attained a 2.5 average in the course work of the concentration;
3. attained a cumulative grade point average of 2.000;
4. earned at least 60 hours;
5. completed the last 30 hours at Xavier, excluding consortium courses, unless waived by college dean;
6. transferred, normally, no more than 9 hours from another college or university toward a degree after matriculation at Xavier;
7. filed a formal graduation application by the deadline published for each semester;
8. completed all departmental requirements in the concentration field and all requirements of the college;
9. cleared all financial obligations to the University before the diploma and transcripts can be released.

In addition to the above, transfer students must have:

10. completed at least one-half of the course requirements of the concentration at Xavier.
Minors

Classical Humanities Minor

18 total credit hours are required, as follows:

Select hours in classical culture courses offerings, from:

- CLAS/GREK/LATN 101-399 (Refer to Course Descriptions.)

Note(s):

- A 2.500 cumulative average must be attained in the classical culture courses.
- Courses with the CLAS designation require no knowledge of an ancient language.
- Courses with the LATN and GREK designations can apply to the Classical Humanities Minor.

Deaf Studies Minor

The Deaf Studies minor provides students with a strong foundation in American Sign Language (ASL) skills, a broad understanding of the history, literature and culture of the Deaf community, and knowledge of issues in areas such as education, the legal system, and medical care that affect Deaf individuals. The minor involves direct engagement with members of the Deaf community both on and off campus, and adds value to a student's major and career options by demonstrating an ability to work and interact with members of the Deaf community in professional and social contexts.

Deaf Studies Minor

The Deaf Studies minor will consist of 19 hours, 18 credit hours of on-campus courses and one credit hour in a Community Based Learning Cooperative:

- ASLN 101 - Elem American Sign Language I
- ASLN 102 - Elem American Sign Language II
- ASLN 201 - Interm American Sign Lang I
- ASLN 202 - Interm American Sign Lang II
  - ASLN 280 - Deafness I: Origins and Orientation (3 credit hours)
  - ASLN 291 - Deafness II: Present Culture and Community (3 credit hours)
  - ASLN 295 - Community Based Learning Cooperative (1 credit hour)
French Minor

15 credit hours of upper-division French are required:

6 hours of language/culture from:

- FREN 300 - Advanced French I
- FREN 301 - Advanced French II
- FREN 302 - French Conversation
- FREN 303 - French Composition
- FREN 315 - Business French I
- FREN 330 - Methods Curr Assess In For Lan
- FREN 350 - French Culture/Civilization I
- FREN 351 - French Culture/Civilization II

6 hours of literature from:

- FREN 420-462 (Refer to Course Descriptions.)

3 hours of electives from:

- FREN 300-400 (Refer to Course Descriptions.)

Note(s):

- All courses must be taught in French to count toward the minor.
- A 2.5 cumulative average must be attained in all these French courses.
German Minor

15 credit hours of upper-division German are required:

6 hours of language/culture from:

- GERM 300-351 (Refer to Course Descriptions.)

6 hours of literature from:

- GERM 410-497 (Refer to Course Descriptions.)

3 hours of electives from:

- GERM 300-400 (Refer to Course Descriptions.)

Note(s):

- All courses must be taught in German to count toward the minor.
- A 2.5 cumulative average must be attained in all these German courses.

Greek Minor

15 total credit hours are required, as follows
Select Greek courses beyond the Elementary II level:

- GREK 201-399 (Refer to Course Descriptions.)

Note(s):

- A 2.500 cumulative average is required in all Greek courses.

Italian Studies Minor

The Italian Studies minor will offer students an interdisciplinary approach to the study of Italian language and culture. Students will achieve intermediate proficiency in the Italian language while pursuing electives on Italian cultural topics in fine art, philosophy, Classics, history, theology, and/or other disciplines. A study abroad experience in Italy is highly encouraged in order to perfect students' language skills, and courses taken while abroad will count towards the minor.

Curriculum

21 credit hours

Language Courses

12 credit hours

- ITAL 101 Elementary Italian I
- ITAL 102 Elementary Italian II
- ITAL 201 Intermediate Italian I
- ITAL 202 Intermediate Italian II

Electives

9 credit hours

- ARTS 271 History of Art II: Renaissance - Present
- CLAS 102 Ancient Mediterranean Civilization: Rome
- CLAS 160 From Romulus to Octavian
- CLAS 161 From Augustus to Attila
- CLAS 262 Roman Archaeology
- HIST 138 Francis: The Making of a Saint
- PHIL 351 Italian Philosophy
- PHIL 352 Bacon and Machiavelli
- PHIL 378 Vico
• THEO 257 Franciscan Spirituality
• THEO 270 New Testament and Politics
• THEO 318 Women and Early Christianity

Courses taught during Xavier's Summer Program in Rome:

• ARTS 112 The Aesthetic Experience: Rome in Film
• ARTS 113 Art in Rome
• EDEC 300 Studies in Early Childhood
• ITAL 258 Language and Culture in Italy
• PHIL 200/351 Italian Philosophy
• PHYS 124/125 Our Universe: In the Beginning
• PHYS 126/127 Science in Art and Architecture
• THEO 244/344 Early Christianity in Rome

Note(s):

• If students place into a higher level of Italian language coursework, they may complete the Italian Studies minor by pursuing courses counting for no fewer than 15 total credit hours.
• The electives for the minor will be approved by the Italian Language Section Coordinator and by the Chair of the Department of Classics and Modern Languages.

Latin American Studies Minor

The Latin American Studies Minor is an interdisciplinary program housed in the department of modern languages. It is available to all Xavier undergraduates and enhances any major. It is designed to help students achieve an advanced level of ability in the Spanish language and cultural competency in Latin America. Many employers look for evidence that candidates for employment are prepared to deal with the realities of a global society.

18 total credit hours are required, as follows

3 hours of the entry core course taught in English from:

• SPAN 353 - Intro Latin American Studies
3 hours of language development selected from:

- SPAN 300 - Advanced Spanish I
- SPAN 301 - Advanced Spanish II
- SPAN 302 - Spanish Conversation
- SPAN 303 - Spanish Composition
- SPAN 304 - Spanish Vocabulary in Context
- SPAN 305 - Readings in Spanish
- SPAN 325 - History of the Spanish Language
- SPAN 326 - Spanish: Applied Linguistics
- SPAN 328 - Phonetics and Dialectology
- SPAN 351 - Latin-American Civilization I

3 hours of Latin American literature selected from:

- SPAN 427 - Spanish-American Lit & Civ I
- SPAN 428 - Spanish-American Lit & Civ II
- SPAN 429 - Spanish-American Lit & Civ III

or

- SPAN 440 - Hispanic Poetry
- SPAN 444 - 19th Century Spanish-Amer Lit
- SPAN 445 - 20th Century Spanish-Amer Lit
  - SPAN 446

3 hours of Latin American history or political science selected from:

- HIST 151 - Latin American History I
- HIST 152 - Latin American History II
  - HIST 327
- HIST 340 - History of Mexico
  - HIST 341
  - HIST 342
  - HIST 343
  - HIST 344

or

- An approved POLI course

3 hours of an approved Theology course.
3 hours of an approved elective from above listed courses or as approved by program director.

Note(s):

• A 2.5 cumulative average must be attained in all these courses.

Latin Minor

15 total credit hours are required, as follows:

Select Latin courses beyond the Elementary II level:

• LATN 201-399 (Refer to Course Descriptions.)

Note(s):

• A 2.500 cumulative average is required in all Latin courses.

Spanish Minor

This list describes in general terms the proposed sequence of courses for the Xavier University Spanish minor. Every student's path may be different, and all minors will consult with their Spanish advisor each semester to ensure that they are taking the right course at the right time for their individual needs and goals. The sequence may be adjusted when a student studies abroad.
18 credit hours are required (a minimum of 8 credit hours must be taken on campus):

- SPAN 202 - 3 hours (If a student tests into SPAN 300 and begins the minor with SPAN 300 or SPAN 301, then 6 hours of 350-498 are required)
- SPAN 300 or 301 - 3 hours
- SPAN 302-310 - 3 hours
- SPAN 311-349 - 6 hours
- SPAN 350-498 - 3 hours (6 hours if they student begins with SPAN300 or SPAN301)

Note(s):

- All courses must be taught in Spanish to count toward the minor.
- A 2.5 cumulative average must be attained in all these Spanish courses.

Communication Arts

The Department of Communication Arts offers a Bachelor of Arts degree in four major areas: Advertising, Communication Studies, Digital Media, and Public Relations. The CA department also offers six minors in Communication Arts: Advertising, Communication Arts, Communication Studies, Digital Media, Media Studies, and Public Relations.

Bachelor of Arts

Advertising, B.A.

Bachelor of Arts degree for Communication Arts majors

The Communication Arts Majors will help students understand many aspects of the human communication process, develop essential skills, and form positive attitudes toward the role that, as educated adults, they will play in society. Basic skills in written and spoken communication receive emphasis in all four communication majors: advertising, communication studies, electronic media, and public relations. In order to complete all requirements for the degree, students should formally declare one of the four departmental majors preferably by the end of their freshmen year. Departmental guidance is necessary to ensure proper sequencing of classes. Proficiency in writing skills is required in all majors, and continued improvement in writing and speaking skills is expected. Qualified communication arts students are encouraged to take advantage of internship opportunities in their respective majors to gain practical professional experience. Many students within the department work closely with the University's television production studio. The television studio is very active in program production for cable television and industrial usage and the production, post production, and editing facilities utilize students in a number of roles and encourage the development of high professional standards. The Xavier University Vonder Haar Chapter of the Public Relations Society of America (PRSSA) and many other organizations and clubs provide opportunities for students to network with area professionals and gain meaningful practical experience.
Advertising

The goal of the Advertising major is to prepare students for a career in the field of advertising. This program offers a comprehensive study of advertising, including the principles of advertising, creative concepts, media planning, research, and management.

Core Curriculum Requirements:

See Undergraduate Core Curriculum:

Major Requirements:

36 credit hours, as follows

30 hours from:

- COMM 101 - Oral Communication
- COMM 123 - Intro To Comm and Media
- COMM 206 - Writing for the Media
- COMM 237 - Elements of Copy & Design
- COMM 270 - Principles of Strategic Comm
- COMM 329 - Audience Survey & Research
- COMM 332 - Media Strategies in Advertising
- COMM 430 - Creative Strategies Advertising
- COMM 439 - Senior Sem-Adv: Campaigns
- COMM 477 - Strat Comm Ethics Society

3 hours of Elective A, select 1 course from:

- COMM 235 - Digital Design

3 hours of Elective B, select 1 course from:

- COMM 211 - Media Literacy
- COMM 247 - Understanding New Media
- COMM 264 - Persuasion
- COMM 323 - Race, Class, Gender & Media
- COMM 324 - Sex and Violence In Media
Note(s):

- A 2.000 cumulative average must be attained in the communication arts courses of each major.
- Since each major recommends certain courses as COMM electives, it is important that students work closely with their academic advisors in the choice of these electives.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Communication Studies, B.A.

Bachelor of Arts degree for Communication Arts majors

The Communication Arts Majors will help students understand many aspects of the human communication process, develop essential skills, and form positive attitudes toward the role that, as educated adults, they will play in society. Basic skills in written and spoken communication receive emphasis in all four communication majors: advertising, communication studies, electronic media, and public relations. In order to complete all requirements for the degree, students should formally declare one of the four departmental majors preferably by the end of their freshmen year. Departmental guidance is necessary to ensure proper sequencing of classes. Proficiency in writing skills is required in all majors, and continued improvement in writing and speaking skills is expected. Qualified communication arts students are encouraged to take advantage of internship opportunities in their respective majors to gain practical professional experience. Many students within the department work closely with the University's television production studio. The television studio is very active in program production for cable television and industrial usage and the production, post production, and editing facilities utilize students in a number of roles and encourage the development of high professional standards. The Xavier University Vonder Haar Chapter of the Public Relations Society of America (PRSSA) and many other organizations and clubs provide opportunities for students to network with area professionals and gain meaningful practical experience.
Communication Studies

Communication Studies students have the opportunity to gain the knowledge and practical skills necessary to promote effective communication processes within public and private organizations. The program emphasizes both written and oral communication, and students are encouraged to prepare themselves for a broad range of employment possibilities in areas such as sales, special events planning, human resources, industrial relations, training, and management.

Public Relations, B.A.

Bachelor of Arts degree for Communication Arts majors

The Communication Arts Majors will help students understand many aspects of the human communication process, develop essential skills, and form positive attitudes toward the role that, as educated adults, they will play in society. Basic skills in written and spoken communication receive emphasis in all four communication majors: advertising, communication studies, electronic media, and public relations. In order to complete all requirements for the degree, students should formally declare one of the four departmental majors preferably by the end of their freshmen year. Departmental guidance is necessary to ensure proper sequencing of classes. Proficiency in writing skills is required in all majors, and continued improvement in writing and speaking skills is expected. Qualified communication arts students are encouraged to take advantage of internship opportunities in their respective majors to gain practical professional experience. Many students within the department work closely with the University's television production studio. The television studio is very active in program production for cable television and industrial usage and the production, post production, and editing facilities utilize students in a number of roles and encourage the development of high professional standards. The Xavier University Vonder Haar Chapter of the Public Relations Society of America (PRSSA) and many other organizations and clubs provide opportunities for students to network with area professionals and gain meaningful practical experience.

Public Relations

The Public Relations major combines comprehensive theory and specific practical skills, in the context of a humanistic liberal education, to prepare students for public relations careers in the corporate, private nonprofit, and public sectors; or for a broad range of other careers that benefit from careful thinking and clear communication.

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Major Requirements:

36 credit hours, as follows

30 hours from:

- COMM 101 - Oral Communication
- COMM 123 - Intro To Comm and Media
- COMM 206 - Writing for the Media
- COMM 211 - Media Literacy
- COMM 270 - Principles of Strategic Comm
- COMM 329 - Audience Survey & Research
- COMM 371 - Public Relations Writing
- COMM 372 - Jr Sem:PR Cases and Planning
• COMM 477 - Strat Comm Ethics Society
• COMM 479 - SR Sem: PR Management

3 hours of Elective A, select 1 course from:

• COMM 207 - Interpersonal Communication
• COMM 209 - Group Dynamics

3 hours of Elective B, select 1 course from:

• COMM 247 - Understanding New Media
• COMM 264 - Persuasion
• COMM 301 - Presentational Speaking
• COMM 323 - Race, Class, Gender & Media
  • COMM 324 - Sex and Violence in Media
• COMM 385 - Media, Democracy & the Public
• COMM 426 - Media Law & Policy

Note(s):

• A 2.000 cumulative average must be attained in the communication arts courses of each major.
• Since each major recommends certain courses as COMM electives, it is important that students work closely with their academic advisors in the choice of these electives.

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- A minimum of 120 credit hours is required for the degree.

Minors

Advertising Minor

The advertising minor offers an understanding of the principles of advertising, creative concepts, and research.
18 total credit hours are required, as follows

12 hours from:

- COMM 206 - Writing for the Media
- COMM 270 - Principles of Strategic Comm
- COMM 329 - Audience Survey & Research
- COMM 430 - Creative Strategies Advertsing

6 hours of electives (2 courses) selected from:

- COMM 211 - Media Literacy
- COMM 235 - Digital Design
- COMM 237 - Elements of Copy & Design
- COMM 264 - Persuasion
- COMM 332 - Media Strategies in Advtising
- COMM 477 - Strat Comm Ethics Society

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Communication Arts Minor

18 total credit hours are required, as follows

6 hours from:
Communication Studies Minor

The communication studies minor focuses on communication processes within public and private organizations.

18 total credit hours are required, as follows:

9 hours from:

- COMM 101 - Oral Communication
- COMM 209 - Group Dynamics
- COMM 260 - Organizational Communication

9 hours of electives (3 courses) selected from:

- COMM 123 - Intro To Comm and Media
- COMM 207 - Interpersonal Communication
- COMM 264 - Persuasion
- COMM 301 - Presentational Speaking
- COMM 327 - Interpersonal Conflict Mgmt

Note(s):

- A 2.000 cumulative grade point average must be attained in all courses taken in the minor.
Note(s):

- A 2.000 cumulative average must be attained in these courses.

**Digital Media Minor**

The Digital Media Minor requires 18 hours of coursework that augments existing majors and minors in the Department of Communication Arts as well as students from outside the department. Students who complete the Digital Media minor will be able to define and apply theories of digital media, locate and assess arguments in digital media, interrogate the implications of digital media on communication, plan and produce digital content to serve a client's needs, and assess the effectiveness of digital content within strategic communication.

**Curriculum**

18 credit hours, including:

- COMM 211 - Media Literacy
  - COMM 221 - Intro to Digital Media
- COMM 235 - Digital Design
- COMM 247 - Understanding New Media
  - COMM 321 Advanced Digital Media
  - COMM 433 Social Media Strategy

**Media Studies Minor**

The media studies minor explores the nature, purpose, and techniques of communication media.

18 total credit hours are required, as follows:

9 hours from:

- COMM 123 - Intro To Comm and Media
- COMM 206 - Writing for the Media
- COMM 211 - Media Literacy
6 hours of specific electives (2 courses) selected from:

- COMM 247 - Understanding New Media
- COMM 329 - Audience Survey & Research
- COMM 385 - Media, Democracy & the Public
- COMM 426 - Media Law & Policy

3 hours of electives (1 course) selected from:

- COMM 199-499 (Refer to Course Descriptions).

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Public Relations Minor

The public relations minor includes the study of the principles, audiences, ethics, and skills of public relations.

18 total credit hours are required, as follows:

15 hours from:

- COMM 101 - Oral Communication
- COMM 206 - Writing for the Media
- COMM 270 - Principles of Strategic Comm
- COMM 372 - Jr Sem:PR Cases and Planning
- COMM 477 - Strat Comm Ethics Society
3 hours of electives (1 course) selected from:

- COMM 301 - Presentational Speaking
- COMM 371 - Public Relations Writing
- COMM 426 - Media Law & Policy

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Computer Science

The Department of Computer Science offers two degrees, the Bachelor of Science in Computer Science and the Bachelor of Arts in Computer Science, as well as a minor in Computer Science. In addition, the department offers a certificate in Applied Computation.

Bachelor of Arts

Computer Science, B.A.

The B.A. in Computer Science allows students room to pursue a second major combined with computer science. This encourages interdisciplinary and multi-disciplinary study, developing well-rounded students ready to contribute to an increasingly interdisciplinary world that utilizes computation.

The B.A. in Computer Science consists of 27 hours of computer science courses, MATH 225 and either a second major or a minor that is significantly distinct from the computer science degree.

Required CSCI Courses

27 credit hours

- CSCI 170 - Computer Science I
- CSCI 180 - Computer Science II
- CSCI 220 - Data Structures & Algorithms
- CSCI 250 - Languages & Automata
- CSCI 260 - Software Engineering
- Three additional CSCI courses numbered 200 or above
- CSCI 390 - Senior Seminar & Project  BA students are strongly encouraged to create a project that integrates computer science with their second major or minor.
Required MATH courses

3 credit hours

- MATH 225 - Foundations Of Higher Math

Note:

The Mathematics Perspectives Core requirement is fulfilled by CSCI 170. We also recommend MATH 156 General Statistics or MATH 280 Combinatorics if the student's schedule permits.

Required second area of concentration

- Students must complete a second major or minor, of which at least 15 hours must be distinct from the required courses in Computer Science.

Note(s):

- A 2.000 cumulative average must be attained in the computer science courses.
- Students are required to fulfill the current senior comprehensive requirements.

Bachelor of Science

Computer Science, B.S.

Computer technology has revolutionized society's methods for processing information and making decisions. The growth in the use of computers has increased the demand for professionals in computer science. Typical computer careers include programming and application in such areas as accounting, engineering, law, mathematics, medicine, and the sciences. Other positions include research in computer science, computer design, computer product marketing and sales, technical writing, and teaching.

Xavier's program is designed to develop, within the framework of a liberal education, the knowledge, skills, and creative analytical ability required for a productive career in computer-related fields and for graduate work in computer science or other areas. Computer science students may elect to participate in a cooperative education experience. The cooperative education program is designed to complement students' classroom training in theoretical computer science by providing actual work experience in a real software engineering environment. In addition to gaining a deeper appreciation of classroom theory, students also make valuable professional contacts and learn more about career options in computer science.
Requirements for the Computer Science Major, BS

Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including

Sciences:

At least 8 hours in one science, chosen from the following three options:

- BIOL 160 - General Biology I and BIOL 161, General Biology I Lab
  AND
- BIOL 162 - General Biology II and BIOL 163, General Biology II Lab

OR

- CHEM 160 - General Chemistry I and CHEM 161, General Chemistry I Lab
  AND
- CHEM 162 - General Chemistry II and CHEM 163, General Chemistry II Lab

OR

- PHYS 170 - University Physics I and PHYS 161, Introductory Physics I Lab
  AND
- PHYS 172 - University Physics II and PHYS 163, Introductory Physics II Lab

Mathematics:

13 hours from:

- MATH 170 - Calculus I
- MATH 225 - Foundations Of Higher Math
- MATH 280 - Combinatorics

and either

- MATH 156 - General Statistics or
- MATH 240 - Linear Algebra or
Major Requirements:

39 credit hours, as follows

33 hours of computer science courses:

- CSCI 170 - Computer Science I
- CSCI 180 - Computer Science II
- CSCI 210 - Machine Org & Assembly Lang
- CSCI 220 - Data Structures & Algorithms
- CSCI 250 - Languages & Automata
- CSCI 260 - Software Engineering
- CSCI 300 - Programming Languages
- CSCI 320 - Operating Systems
- CSCI 335 - Databases
- CSCI 340 - Networking
- CSCI 390 - Senior Seminar & Project

6 hours of computer science electives selected from:

- CSCI 200-397 (Refer to Course Descriptions) (includes co-op CSCI 395 Co-Op Education in Comp Sci)
- MATH 330 Graph Theory
- Three of the six hours of computer science electives must be from CSCI 250-390.

Note(s):

- A 2.000 cumulative average must be attained in the computer science courses.
- Fulfill the current senior comprehensive requirements.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Total (12)

Note(s):

* Elective may need to be a flagged course fulfilling Diversity, E/RS requirement, Oral, Quantitative, or Writing requirement.

** Students taking Senior Seminar and Project should contact the chair of the Computer Science Department one semester before enrolling in this course.

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
- ** Courses filling other core requirements may also fulfill the Diversity Curriculum Requirement.

Minors

Computer Science Minor

15 total credit hours are required, as follows:

9 hours from:

- CSCI 170 - Computer Science I
- CSCI 180 - Computer Science II
- CSCI 220 - Data Structures & Algorithms

6 hours of electives selected from:

- CSCI 210-397 (Refer to Course Descriptions) (CSCI 260 is strongly encouraged)
Note(s):

- A 2.000 cumulative average must be attained in all these computer science courses.

Certificate

Applied Computation Certificate

The Department of Computer Science offers the Certificate in Applied Computation. This certificate program is designed for students who are pursuing an undergraduate degree in a program other than computer science who wish to demonstrate proficiency in computational methods and problem solving.

Requirements:

10 total credit hours, as follows:

- CSCI 170 - Computer Science I
- CSCI 180 - Computer Science II
- CSCI 220 - Data Structures & Algorithms
  - CSCI 290 - Project in Applied Computation

Note(s):

- A 2.000 cumulative average must be attained in these courses.
- At least half of these credit hours must be taken at Xavier. CSCI 290 must have been completed at Xavier.

Economics

The Department of Economics offers the Bachelor of Arts degree in Economics and a minor in Economics. Also offered, in conjunction with the Modern Languages Department, is a Bachelor of Arts degree in Modern Languages & International Economics - see Classics and Modern Languages for details. Note: Economics is also available as a major and minor in the Williams College of Business.

Bachelor of Arts

Economics, B.A.

A degree in Economics provides the student with an understanding of economic issues pertaining to individual firms, industries, the public sector, and the overall economy. The study of economics, supported by the knowledge of Mathematics and Statistics, emphasizes both analytic reasoning and a thorough knowledge of economic institutions. Economics majors analyze such topics as optimal decision-
making, consumer welfare and distribution of income, market efficiency, inflation, unemployment, international trade, financial markets, forces of globalization, and governmental economic activity. The program has proven useful to people who have moved into positions in many of the functional areas of business and government. It is also excellent training for graduate study in business, in law, and in economics itself.

Requirements for the Economics Major

Core curriculum requirements:

48-63 Credit Hours dependent on courses taken, including

Mathematics:

• MATH 150 - Elements of Calculus I or
• MATH 170 - Calculus I
• STAT 210 - Statistics For Business I

Major Requirements:

33 credit hours, (36 credit hours starting Fall 2016)

18 hours from:

• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles
• ECON 305 - Microeconomic Analysis
• ECON 306 - Macroeconomic Analysis
• ECON 307 - Empirical Analysis In Economic
• STAT 211 - Statistics For Business II

15 hours of economics electives:

• Must include 6 hours of ECON courses at the 400 level.
Required Capstone Project*

*All economics majors are required to take Capstone Project Each student must orally present a paper written in a 400-level economics course to a forum established by the department. Currently, Capstone Project is listed as ECON 491 which carries 0 credit. Starting Fall 2016, Capstone Project (ECON 492 and 493 combined) will be a 3 credit hour course split into ECON 492 and 493.

  • ECON 492 - Capstone Experience in ECON I
  • ECON 493 - Capstone Experience in ECON II

Note(s):

  • A 2.000 cumulative average must be attained in the above courses.
  • Computer competency required. Tutorials are available for students who are deficient in basic computing skills.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.A. Economics

Total (15)

Senior Year

First Semester

- ECON 492 - Capstone Experience in Economics I
- Economics Elective
- Economics Elective
- General Elective
- General Elective
- General Elective

Second Semester

- ECON 493 - Capstone Experience in Economics II
- Economics Elective
- Economics Elective
- General Elective
- General Elective
- General Elective

Note(s):

* At least six hours of economics electives must be in the 400- level courses.

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
Economics, B.A. with a Concentration in Mathematics

Undergraduate majors in both Economics and Mathematics consider graduate programs in Economics or related fields. In order to be accepted into such graduate programs, an undergraduate degree in one of those disciplines is typically required, and extensive and specific training in the other is also needed. This program combines the requirements of a degree in Economics with specific coursework in Mathematics suited for a potential graduate student. Additionally, students who may not pursue a graduate degree program are likely to find the program more marketable for post-graduation.

Requirements for the Economics major with concentration in Mathematics

Core Curriculum Requirements:

Undergraduate Core Curriculum

Economics Major Requirements:

39 (40) credit hours if taking MATH 150 or MATH 170

- MATH 150 - Elements of Calculus I OR
- MATH 170 - Calculus I
- STAT 210 - Statistics For Business I
- STAT 211 - Statistics For Business II
- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
- ECON 305 - Microeconomic Analysis
- ECON 306 - Macroeconomic Analysis
- ECON 307 - Empirical Analysis In Economic
  - ECON electives (five courses, including two 400-level electives) (15 credit hours)

Mathematics Concentration Requirements:

15 credit hours

- MATH 170 - Calculus I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 225 - Foundations Of Higher Math
Three Electives from the following:

9 credit hours

- MATH 240 - Linear Algebra
- MATH 340 - Abstract Algebra I
- MATH 360 - Elementary Topology
- MATH 370 - Real Analysis
- MATH 230 - Intro to Ordinary Diff Equat
- MATH 311 - Probability Theory

TOTAL: 24 credit hours

NOTES:

* Students who enter the program early should take MATH 170 instead of MATH 150 to avoid duplication of coursework.

ECON 491 requires a sole-authored research project in Economics. This project should satisfy the department's ordinary requirements, while also demonstrating evidence of the student's Mathematics concentration.

Without MATH 150, this program requires 60 credit hours. With overlaps in the core, the degree requires a minimum of 111 credit hours.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Minors

Economics Minor

The Department of Economics and Human Resources offers the minor in Economics.

This minor is available to business and non-business undergraduate students.

15 total credit hours are required, as follows:
6 hours of economics:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

3 hours:

- ECON 305 - Microeconomic Analysis
- ECON 306 - Macroeconomic Analysis

6 hours of upper division electives, select from:

- ECON 300-499 (Refer to Course Descriptions.)
  (except WCB students may not count ECON 300 in the minor).

Note(s):

- A 2.000 cumulative average must be attained in the courses of the minor.
- At least half of these credit hours must be taken at Xavier.

**English**

The Department of English offers the Bachelor of Arts, the Associate of Arts, and the Master of Arts in English degrees. Also offered is a minor in English and Writing.

**Bachelor of Arts**

**English, B.A, with a Writing Concentration**

Student who pursue the English B.A. with Writing Concentration will have the ability to focus more deeply on studying, practicing, and researching writing through specialized courses. Students with the Writing Concentration will have significantly more experience with a broad writing curriculum by the time they complete the program.
Requirements for the English Major with a Writing Concentration

Core Curriculum Requirements

48-63 Credit Hours dependent on courses taken. See Undergraduate Core Curriculum

Major Requirements:

36 credit hours

Required Courses (27 credit hours)

- ENGL 115 - Rhetoric
  - ENGL 210 - Methods Workshop
- ENGL 305 - Professional Writing (Writing Flag/Oral Flag)
  - ENGL 337 - Theories and Research in Writing (Writing Flag/QR Flag)
- ENGL 499 - Senior Seminar
  - 3 Electives in Literature in English department
  - 1 Elective in Language Linguistics

Electives (9 credit hours)

- ENGL 301 - Expos/Research Writing
- ENGL 309 - Creative Writing: Poetry
- ENGL 310 - Creative Writing: Fiction
- ENGL 314 - Writing Journals & Autobiography
- ENGL 315 - Composition Tutoring (Writing Flag/Diversity Flag)
- ENGL 318 - Creative Nonfiction
  - ENGL 319 - Writing as Social Action (ER/S Flag)
  - ENGL 339 - Digital Writing (Writing Flag)
- COMM 206 - Writing for the Media
- COMM 237 - Elements of Copy & Design
  - COMM 250 - Screenwriting and Story Craft
- COMM 371 - Public Relations Writing
  - Can also take up to 2 Writing Flag courses in any department (including English)

English, B.A.

The major in English is designed to develop writing skills, a critical and historical understanding of the English language and its literature, and a knowledge of current theories of literature, language, and humanistic interpretation. The English major is an excellent preparation for law school and for careers in education, journalism, editing, publishing, and other communications fields. It is also a fine preparation for a variety of business careers and for graduate school in business and, with appropriate science courses, for medical school.
Requirements for the English Major

Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including

Major Requirements:

36 credit hours, as follows

12 hours from:

- ENGL 115 - Rhetoric
- ENGL 210 - Methods Workshop
- ENGL 221 - Poetry
- ENGL 499 - Senior Seminar

6 hours from:

One course each from the following areas:

**Theory or Criticism**
- 302-History of Literary Criticism
- 303-Modern Literary Theory
- 366-Feminist Theory

**Language or Linguistics**
- 320-Topics in Linguistics
- 321-History of English Language
- 322-Ethnolinguistics
- 323-Media and Its Discourse
- 327-Language of Leadership
- 328-Gender, Religion, and Violence
- 369-Women and Sacred Language
Take one course from THREE of the four areas:

**Pre-1800 British Lit**
- 361-16th/17th Cent Women's Literacy
- 368-Brit Women Writers
- 376-Lit & Arts in Britain
- 410-Chaucer
- 411-Medieval Women's Writing
- 415-Early English Lit
- 425-Shakespeare
- 429-Renaissance Drama
- 430-17th Century Brit Lit
- 432-Spenser & Milton
- 435-Milton
- 441-18th Century Brit Lit
- 465-18th Century Novel: Behn-Austen

**Post-1800 British Lit**
- 364-Jane Austen
- 375-Lit & Arts in Ireland
- 414-Tolkien
- 450-Brit Romantic Lit
- 452-Romantic Autobiography
- 460-Love, Sex, Gender in Victorian Poetry
- 462-Victorian Writing
- 463-Victorian Poetry & Poetics
- 464-English Novel: Dickens-Conrad
- 470-Modern Brit Lit
- 475-Modern Irish Lit

**Pre-1900 American Lit**
- 358-Black America since 1865
- 373-War & Peace in Amer Lit
- 468-Transatlantic Lit
- 478-19th Century Amer Poetry
- 480-Amer Renaissance
- 481-Amer Realism
- 485-Amer Gothic Lit
- 488-Humor in Amer Lit
- 489-Amer Minority Lit

**Post-1900 American Lit**
- 351-Jewish-Amer Lit
- 479-Lit of Amer West
- 482-Mod Amer Fiction
- 483-Mod Amer Poetry
- 484-African-Amer Lit
- 486-Contemp Amer Lit
- 487-Contemp Amer Poetry

9 hours of:

- Take three other upper level English courses (ENGL 300-498) (Refer to Course Descriptions)
Note(s):

- A 2.000 cumulative average must be attained in these English courses.
- Undergraduates who wish to be certified as teachers of English on the secondary level are advised to consult with the Chair of the English Department and with the Office of Teacher Education and Placement regarding specific requirements for teacher certification.

Associate of Arts

English, A.A.

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Concentration Requirements:

15 credit hours, as follows:

6 hours from:

- ENGL 115 - Rhetoric
- ENGL 221 - Poetry

9 hours of upper-level electives:

- ENGL 300-498 (Refer to Course Descriptions), including one course each in British literature and American literature.

Note(s):

- A 2.000 cumulative average must be attained in the English courses.
Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates

Master of Arts

English, M.A.

The program for the Master of Arts degree in English is designed to develop critical, expository, and research skills, a critical and historical understanding of literature and language, and a working knowledge of current theories of interpreting and evaluating literary texts.

The M.A. in English requires a completion of 30 semester hours of course work, or with the approval of your advisor, the degree can be completed with 24 semester hours of course work and completing a written thesis which earns 6 hours of credit.

The following 12 hours of courses are required of all students:

- ENGL 512 - Literary Theory
- ENGL 525 - Shakespeare
  - One 500-level graduate course on linguistics or language
  - One 500 or 600 level graduate course on women or minority authors

Language Requirement:

Students must demonstrate reading knowledge of a foreign language by attaining at least a B in an intermediate-level foreign language course (e.g., 200-level) while taken as an M.A. student. Alternately, students may pass a translation examination administered by the appropriate language department at Xavier. In addition to modern languages, ASL, Old English, Latin, and Greek will be accepted in fulfillment of the requirement. Middle English will not be accepted.

Additional Requirements:

- 18 hours of English electives are needed to complete the degree selected from ENGL 500-695 (Refer to Course Descriptions). Courses may be taken at the 300 or 400 level for graduate credit, with approval of the program director. The completion of the Master’s Thesis (ENGL 700 & ENGL 701) for 6 hours can be used in this elective area of the degree requirements.
- A 3.000 cumulative average must be attained in all the graduate credit courses.
- At the close of their studies, students must pass a written comprehensive examination based on eighteen works of literature, linguistics, composition and literary theory. Fifteen of these works are chosen by the department every two years; the remaining three are chosen by the individual student. The comprehensive examination is given in April and November.
Admission Requirements:

The Master of Arts program in English invites applications from students with a bachelor's degree and a solid academic record. Students seeking admission are expected to have a 3.200 average in their undergraduate English courses. Applicants should have excellent writing skills and a strong background in the humanities but need not be undergraduate English majors. Admission decisions are based on factors such as past academic performance, standardized test score, and other information submitted.

Note(s):

Further information and application materials may be obtained from the Office of Graduate Services, 100 Hailstones Hall, 513 745-3360. Most courses are offered in the evening for the convenience of part-time students.

Minors

English Minor

18 total credit hours are required, as follows:

6 hours from:

- ENGL 115 - Rhetoric
- ENGL 221 - Poetry

3 hours from a specific major’s section of:

- ENGL 205 - Literature & Moral Imagination

9 hours of upper-level electives:

- ENGL 300-498 (Refer to Course Descriptions), including one course each in British literature and American literature.
Note(s):

- A 2.000 cumulative average must be attained in the English courses.

Writing Minor

The Writing Minor is an 18 credit curriculum requiring two introductory courses and four electives drawn from Communication Arts and English Department courses. See the English Department Chair for more information.

18 total credit hours are required, as follows

6 hours from:

- ENGL 101 - English Composition OR
- ENGL 115 - Rhetoric
- COMM 206 - Writing for the Media

12 hours of upper-level electives from:

- COMM 237 - Elements of Copy & Design
- COMM 371 - Public Relations Writing
- COMM 398 - Communication Internship I (with a writing emphasis, as approved by the Communication Arts internship director)
- ENGL 305 - Professional Writing
- ENGL 307 - Writing Internship
- ENGL 309 - Creative Writing: Poetry
- ENGL 310 - Creative Writing: Fiction
- ENGL 314 - Writing Journals & Autobiography
- ENGL 315 - Composition Tutoring
- ENGL 318 - Creative Nonfiction

Note(s):

- A 2.000 cumulative average must be attained in English/Communication Arts courses.
History

The Department of History offers the Bachelor of Arts and the Associate of Arts degrees in History. Also offered is a minor in History.

Bachelor of Arts

History, B.A.

The History major provides an excellent foundation for careers in business, education, law, and public service. The study of history enables students to find and evaluate a wide variety of information and develops analytic and critical skills. The study of history also encourages students to examine closely the institutions, ideas, and systems that shape our world. Requirements for the history major broaden students' understanding of other cultures and their historical interconnections, and thereby sharpen the skills essential to all historical inquiry. History makes a unique contribution to a liberal education. It requires the attainment of a sympathetic appreciation of events and developments seen, not in isolation, but as part of a complex process. The study of history is compatible with any minor, including business, to prepare students for success in their career and professional choices.

Requirements for the History Major

Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including

History Requirement:

• Included within the major.

Major Requirements:

36 credit hours, as follows
3 hours of Historical Perspectives *

6 hours with completion of one of the following survey course sequences:

- HIST 105 and 106
- HIST 123 and 124
- HIST 133 and 134
- HIST 143 and 144
- HIST 151 and 152
- HIST 161 and 162
- HIST 200 and 201
- HIST 247 and 248

* Students can satisfy Historical Perspectives by taking 9 hours of survey courses.

21 hours of additional electives from HIST 200-399:

- HIST 200-399 (Refer to Course Descriptions.)

6 hours of two seminars from HIST 400-498:

- HIST 400-498 (Refer to Course Descriptions.)

Also included must be two courses each, at any level, in:

- (1) U.S., (2) European, (3) African, Asian, or Latin American history.

Note(s):

- A 2.000 cumulative average must be attained in these history courses.

Minors

Asian Studies Minor

The Asian Studies Minor is designed to build a deep knowledge of and appreciation for the peoples and cultures of Asia. Students will gain intermediate competency in an Asian language and learn about Asia from a variety of perspectives (e.g. historical, cultural, religious) and broaden their global perspective with insight into the diverse world of Asia.

24 total credit hours are required, as follows

Four language courses in the same language

12 credits

- CHIN 101 - Elementary Chinese I
  - CHIN 102 - Elementary Chinese II
- CHIN 201 - Intermediate Chinese I
  - CHIN 202 - Intermediate Chinese II

or

- JAPN 101 - Elementary Japanese I
- JAPN 102 - Elementary Japanese II
- JAPN 201 - Intermediate Japanese I
- JAPN 202 - Intermediate Japanese II
One from

3 credits

• HIST 161 - Asian History I
• HIST 162 - Asian History II

One other 200, 300, or 400 level HIST course

3 credits

One from

3 credits

• THEO 342 - World Religions
• THEO 343 - Dialogue Among World Religions
• THEO 368 - Buddhism
  ◦ THEO 371 - Buddhism and Ecology
• THEO 374 - Buddhist Christian Exploration

One elective from HIST, THEO or other approved course

3 credits

Notes

The minimum credit hours for the Asian Studies minor is 18.

If a student transfers in credit for a course or courses an Asian language, the language requirement for the minor will be adjusted based on the student's level of proficiency, which will be determined by the language instructor. Students whose first language is an Asian language and students with intermediate Asian language proficiency (202) transfer credit will take an additional 6 hours of approved coursework for a total of 18 hours in the minor. Students who transfer proficiency through 201 will take the 202 language course and an additional three hours of approved coursework for a total of 18 hours in the minor.
History Minor

18 total credit hours are required, as follows:

3 hours of Historical Perspectives

12 hours of electives from:

- HIST 105 - World Civilizations I
- HIST 106 - World Civilizations II
- HIST 133 - European History I
- HIST 134 - European History II
- HIST 143 - U.S. History I
- HIST 144 - U.S. History II
  - HIST 200-399

3 hours of seminar from:

- HIST 400-498 (Refer to Course Descriptions.)

Note(s):

- Students must include at least one course, at any level, from any two of the following areas:
  - (1) U.S., (2) European, (3) African, Asian, or Latin American history
- A 2.000 cumulative average must be attained in these courses for the minor.

Public History Minor

Public History is the research and presentation of history specifically for popular consumption. Public historians are found in museums, historical sites, archives, non-profits, and digital ventures. While public historians utilize the skills of the historical discipline, they apply them directly to public ends, including education, policymaking, and preservation. A minor in Public History helps students succeed in mastering research, analysis, and presentation skills and better understand how those skills can be translated into satisfying employment and lifelong learning.
20 credit hours, as follows:

- HIST 290 - Introduction to Public History
- DIFT 104 - Video Production Non-Electronic Media or ARTS 215 - Web Design
- HIST 415 - Practicum in Public History
- HIST 416 - Public History & Communities
- HIST 448 - Internship in Public History I
- HIST 449 - Internship in Public History II
- 6 hours of HIST electives selected in consultation with advisor

Honors

The tradition of honors studies at Xavier dates back more than 50 years.

Small class sizes, interdisciplinary coursework, foreign study and a community of fellow students and teachers characterize the programs. Though each has a unique focus and emphasis, honors programs allow students to pursue a traditional liberal arts curriculum embracing the humanities, the natural sciences and the social sciences. Infused throughout is the centuries-old Jesuit emphasis on intellectual values and ethics.

Admission is competitive. Students who are accepted take the same core curriculum expected of all Xavier students, though at an honors level and with additional requirements.

Honors Bachelor of Arts

Honors Bachelor of Arts

Established in 1948, Honors A.B. (HAB) is the University's first and oldest honors program. True to Xavier's Jesuit heritage, the program emphasizes the interdisciplinary study of Classics (Latin and Greek) and Philosophy. Students study the classic texts of Western civilization while fostering deeper understanding of the values and ideals they embrace.

The HAB program prepares students for life in the modern world by developing depth and balance of intellect and an openness to new ideas by examining the roots from which our culture and traditions have sprung. Candidates for the program are expected to rank high in their high school classes; often they have Latin had high school, although special arrangements can be made for those with no experience in ancient languages, as long as students want to learn them. The program is designed challenge students as undergraduates and prepare them for lifelong learning. HAB graduates pursue careers in a variety of professional, business, and academic areas.

The main objectives of the HAB program are as follows:

1. To provide intense, upper-level Latin and Greek courses at the honors level in which substantial readings of significant Roman and Greek authors are engaged in the original;
2. To provide a range of courses in philosophy for an appreciation of the evolution of ideas about what it means to be human;
3. To provide students with an understanding of the development of ideas about human concerns (e.g. justice, freedom, virtue, faith, allegiance) as they were first expressed to foster a deeper understanding of the values and ideals they embrace.

Honors Bachelor of Arts Core Requirements

Honors students are expected to fulfill the regular Undergraduate Core Curriculum requirements, and whenever possible, special Honors sections or the more demanding sections of required courses should be taken:
Honors Bachelor of Arts Program Specific Requirements

Latin - 21 hours from the following:

LATN 211: Cicero *Orations*
LATN 212: Vergil, *Aeneid*
LATN 231: Horace, *Odes and Epodes*
LATN 232: Catullus
LATN 241: Latin Prose Composition
LATN 253: Livy
LATN 263: Caesar

GREK 397: Special Study: Prose
GREK 398: Speical Study: Poetry

Philosophy - 18 hours

Capstone Thesis Research Experience - 6 hours:

CLAS 398: Capstone Preparation-Honors
CLAS 399: Honors Bachelor of Art (HAB)

This year-long capstone course (6 credit hours) ensures that each HAB student writes a research paper utilizing the analytical, writing and linguistic skills he/she has developed during his/her four years in the HAB program and, to the extent possible, combining the interests of his/her second major or pre-med Natural Science minor. Course participants give in-class oral and written presentations and undertake a mock defense of their paper in preparation for the real oral defense. Cooperative learning is essential to success to the thesis process. Participants read and respond to one another's work.
Philosophy, Politics and the Public Honors Program

The Philosophy, Politics & the Public Program brings together many of Xavier's traditional curricular strengths in an innovative and rigorous undergraduate honors program of study focusing on the unifying concept of “the public sphere” in democratic societies. The program is inspired by the Philosophy, Politics & Economics programs commonly found in the British university system, but differs from them by placing greater emphasis upon philosophical conceptions and historical context. The approach taken by this honors program is expressed in the meanings of the several conceptions identified in its very name. In its original meaning, philosophy denotes “the love of wisdom.” Aristotle, one of the greatest and most influential philosophers of the western tradition, defined politics as “the master science of the good.” “The public” represents a multi-dimensional domain of shared consciousness, ideals and action. Through course work that is both multi-disciplinary as well as centered in a particular disciplinary concentration, students are encouraged to follow their own interests in the theoretical engagement of the public in its many embodiments and meanings. In addition, the theoretical work in the program is complemented by engagement in the active world of politics through working on political campaigns, lobbying of behalf of legislation, internships in local and national government offices and summer study in Paris that includes a seminar in Brussels, the seat of the European Union. The program is highly selective, with 15 to 20 freshman students enrolling each fall.

The Philosophy, Politics & the Public Core Sequence

The program finds its center in two main areas. Students take the core interdisciplinary course sequence during sophomore and junior year. The sophomore year sequence brings together faculty from history and political science. Its focus is on America's civic culture in its growth and development, with special emphasis upon electoral and legislative politics. The junior year sequence is primarily philosophical and centers upon the philosophical ideas of the Enlightenment culminating in the French Revolution as a primary shaper of both modern democratic institutions as well as modern conceptions of “the public.” The course will culminate with the students traveling to Paris and Brussels to meet with French specialists and students who are likewise investigating the changing contours of the modern Western democracies that this revolution had so profoundly affected. Details of these sequences appear below.

The Philosophy, Politics & the Public Elective Concentration

Together with the Constructing the Public sequence, the Elective Concentration forms the heart of the individual student's PPP program. Students are encouraged to choose an Elective Concentration in a discipline that most closely fits their own academic interest in “the public.” In this way, the Elective Concentration provides the conceptual center of the PPP student's course of study, supplying the dominant framework from which he or she investigates the complex content of “the public.” There are a total of 18 hours of available electives in the PPP honors program. Students may choose an Interdisciplinary minor or one that is departmentally based. Some examples are:

A. Philosophy, Politics & the Public combined with an Interdisciplinary Minor
   1. Concentration in Gender & Diversity
   2. Concentration in International Studies
   3. Concentration in Latin American Studies
   4. Concentration in Peace Studies
   5. Concentration in Catholicism & Culture

B. Philosophy, Politics & the Public combined with a Discipline-based Minor
   1. Concentration in Business
   2. Concentration in Economics
   3. Concentration in History
   4. Concentration in International Studies
   5. Concentration in Philosophy
   6. Concentration in Political Science
   7. Concentration in Art

The Senior Capstone Research Thesis

In the senior year, all PPP students will submit a research thesis for public defense. This thesis will be multidisciplinary in content and will address issues concerning the public that flow from the student's own elective concentration.
Additional Course Requirements in the Program

In addition to these required core and elective courses, students in Philosophy, Politics and the Public must complete either a full minor in a foreign language or complete two languages through intermediate proficiency, one additional course from a history survey of the student's choice, and two courses in economics.

Graduation Requirement

The HAB in Philosophy, Politics and the Public requires a 3.2 GPA to graduate.

Philosophy, Politics and the Public Curriculum

57 Credit Hours

Course Requirements

39 Credit Hours

- HIST 408 - SEM: Constructing the Public
- HIST 300 - Writing in Public
- HIST 412 - SEM: The American Dream
- POLI 246 - Mass Media and Politics
- POLI 329 - Public Policy Practice
- POLI 415 - Paris Seminar Political Theory

or

- PHIL 415 - Paris Seminar Political Theory
- PHIL 338 - Enlightenment & Revolution
- PHIL 339 - Revolution & Its Aftermath
- PHIL 398 - Thesis Review I
- PHIL 399 - Thesis Review II
  - PHIL 406 - Topics in Political Philosophy
  - PPP Elective (Varies with semester/direcotr's approval)
  - PPP Elective (Varies with semester/direcotr's approval)

Elected Concentration

18 Credit Hours

Note: If the concentration chosen is a 15 credit hour concentration, the student must complete an additional 3 credit hour elective in consultation with their advisor.
The Undergraduate Track Concentrations

Economic Sustainability & the Public Sphere Concentration

15 Credit Hours

REQUIRED

• BIOL 120 Life, Ecology & People (core science requirement)
• BIOL 250 Ecology (core science requirement)
• ECON 305 Microeconomic Analysis

ELECTIVE (2)

• ECON 320 Ecological Economics I
• ECON XXX Ecological Economics II
• ECON 420 Urban & Regional Economics
• ECON 341 Economics of Developing Countries
• ECON XXX Sustainable Development
• ECON XXX Environmental Economics
• ECON XXX Environmental Policy Seminar

Media, Politics & the Public Sphere Concentration

15 hours chosen from the following; at least six hours in both COMM and POLI

• COMM 206 Writing for the Media
• COMM 211 Media Literacy
• COMM 270 Principles of Strategic Communication
• COMM 323 Race, Class, Gender and the Media
• COMM 426 Media Law and Policy
• COMM 477 Strategic Communication Ethics and Society
• POLI 120 Comparative Government and Politics
• POLI 140 American Government and Politics
• POLI 277 International Relations
• POLI 301 Political Philosophy
• SOCI 200 Foundational Social Thought
• SOCI 240 Population and Globalization
• SOCI 264 Social Change
• SOCI 271 New Social Movements
• SOCI 365 Class and Class Conflict

Global Cultures & Publics Concentration

15 Hours

REQUIRED

• ECON 316/HIST 350/POLI 316 Globalization
ELECTIVE (4 from more than one discipline)

- HIST 276 History of Nicaragua
- HIST 343 Religion & Empire in Latin America
- HIST 346 Modern Japan
- HIST 428 Latin America & the United States
- HIST 451 Seminar: France & West Africa
- HIST 463 Seminar: Cold War US Foreign Policy
- ECON 300 International Trade & Business
- ECON 341 Economy of Developing Countries
- POLI 224 Arab Spring & Middle East Politics
- POLI 277 International Relations
- POLI 320 Global Islamic Politics
- POLI 372 International Political Economy
- POLI 374 US Foreign Policy
- POLI 390 Seminar in International Relations
- SOCI 240 Population & Globalization

Political Science & the Public Sphere Concentration

15 Hours

REQUIRED

- POLI 120 Comparative Government & Politics
- PHIL 338 Enlightenment & Revolution
- PHIL 339 The Revolution & Its Aftermath

ELECTIVE (2)

- POLI 277 International Relations
- POLI 309 Montesquieu & Tocqueville
- POLI 412 Paris Seminar in Political Theory
- POLI 300 Level Elective
- POLI 300 Level Elective
- POLI 300 Level Elective

Specialized Concentration

15 Hours

- In instances when a student is interested in a specific area of study, they will work with their Academic Advisor to craft a specialized concentration.

Fifth Year Masters Transition Concentration

18 Hours

For students that opt for the 5th Year Master's program, the concentration courses will consist of:
• PHIL xxx - Private Interest & Public Good I (3 hours)
• PHIL xxx - Private Interest & Public Good II (3 hours)
• COMM xxx - Media, Democracy & Public Sphere (3 hours)
• POLI xxx - Advanced Political Analysis (3 hours)
• POLI xxx - Campaign Politics (3 hours)
• ECON xxx - Economics of Public Policy (3 hours)

Interdisciplinary Programs

Xavier University offers a number of programs which are interdisciplinary in nature, with curriculums which cross academic departments and colleges.

Sustainability

Xavier offers four interdisciplinary majors specifically focused on the subject of sustainability. These include the Bachelor of Arts in Land, Farming and Community; the Bachelor of Arts in Economics, Sustainability and Society; the Master of Arts in Urban Sustainability, all offered through the College of Arts and Sciences and the BSBA in Sustainability: Economics and Management, B.S.B.A. offered through the Williams College of Business.

Both political and religious leaders recognize the importance of promoting sustainability as part of policy, law, business practice, and daily life if we are to protect our planetary home and the welfare of future generations. Students in the Sustainability programs will be prepared to develop sustainable practices and policies in business, non-profits, and government agencies by integrating the study of business and economic principles with ecological and environmental processes. Land students will focus on the science and art of agriculture including food production and distribution within the context of a Jesuit education. All programs involve experiential educational experiences including field trips, practicums, internships, and capstone projects with organizations in the community. The Master of Arts prepares graduates to tackle issues in urban sustainability by bringing together students and faculty from the fields of business, environmental science, public policy, and urban planning and design.

Bachelor of Arts

Economics, Sustainability and Society, B.A.

The Bachelor of Arts in Economics, Sustainability and Society is focused on sustainable economies, and includes the study of natural resources, ecological and environmental problems, processes, and policies at local, national and global levels. Students will integrate economic analysis (encompassing attention to questions of efficient allocation, just distribution, and sustainable scale) with cultural studies, global economic development, policy studies, and management through a series of required and elective courses related to economic sustainability in society, organizations and the economy.

Requirements for the Economics, Sustainability and Society Major
Core Curriculum

- Consult the Undergraduate Core Curriculum requirements of the Catalog.

Major Requirements

- 42 hours, including:
  - ECON 305 - Microeconomic Analysis
  - ECON 320 - Natural Resource Economics
  - ECON 341 - Econ of Developing Countries
  - STAT 211 - Statistics For Business II

Recommended ECOS Electives I, II & III

- BIOL 398 - SEM: Environmental Studies
- ECON 306 - Macroeconomic Analysis
- ECON 307 - Empirical Analysis In Economic
- ECON 315 - History of Economic Thought
- ECON 420 - Urban and Regional Economics
- ECON 440 - Public Economics
- ECON 450 - International Economics
- ECON 460 - Labor Economics
- ECON 495 - Markets, Strategy & Rivalry
- MGMT 385 - Project Management
- MGMT 333 - Global Supply Chain Mgmt

- General Elective
Scheduling Notes:

- Consult the Undergraduate Core Curriculum requirements of the Catalog.
- E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
- Diversity Curriculum Elective requirement may be used to satisfy other elements of the core or major.
- A minimum of 120 credit hours is required for the degree.

Gender and Diversity Studies, B.A.

The Gender and Diversity Studies major develops students' critical thinking skills, knowledge base, and intellectual frameworks for analyzing and exploring the nature of diversity. The program focuses on the socioeconomic, political, psychological, and cultural experiences and positions between and among individuals and groups defined by gender, race, sexual orientation, ethnicity, socioeconomic class, age, religious beliefs, and physical/mental abilities.

Core Curriculum Requirements:

Consult the Undergraduate Core Curriculum of the catalog.

Required Courses for All Concentrations:

All undergraduate students are required to take thirty-six credit hours of approved courses to fulfill one of three tracks offered in the major;

1. A general major in Gender and Diversity Studies (36 credit hours distributed across the modules).
2. A major in Gender and Diversity Studies with a concentration (18 credit hours required) in Women and Gender.
3. A major in Gender and Diversity Studies with a concentration (18 credit hours required) in Race and Ethnicity.

Students seeking a Women & Gender concentration must choose courses designated (W) below where there is an option to do so.

Students seeking a Race and Ethnicity concentration must choose courses designated (R) below where there is an option to do so.

Introductory Course:

- SOCW 206 - Intro to Gender & Diversity St
Theory Course (choose one):

- ENGL 366 - Feminist Theory
- SOCI 365 - Contemporary Social Theory

Diversity in American Culture Course (choose one):

These courses focus on the impact that the social, economic and cultural struggles of gendered, racial and ethnic minorities and/or women have had on the history and culture of the United States of America.

- ENGL 484 - African-American Literature (R)
- ENGL 489 - American Minority Literature (R)
  - HIST 222 - The Harlem Renaissance (R)
- HIST 324 - African-Am Struggle for Equity (R)
  - POLI 367 - Gender & Politics: Women, Elections and Representation (W)
- SOCI 250 - Racial Ethnic Minorities (R)
- SOCI 262 - Gender and Society (W)
- SOCI 318 - Trends in Modern Soc: Race Rel (R)
- SOCI 325 - Women/Men: Myth & Reality (W)

Diversity in a Global Context (choose one):

These courses examine how racial, religious, and ethnic differences have shaped the history and culture of different regions across the globe.

- ENGL 344 - Major Black Writers of World (R)
- ENGL 352 - African Literature (R)
- HIST 395 - History of South Africa (R)
  - HIST 427 - Race and Nation in Modern Latin America (R)
- POLI 219 - Irish Government and Politics
- POLI 224 - Middle East Politics
- POLI 320 - Global Islamic Politics (R)
- SPAN 351 - Latin-American Civilization I (R)
- SPAN 352 - Latin Amer Trad & Pop Cult (R)

Intersectionality Course (3 credit hours):

A 300-level course that explores both the social construction of identity and multiple axes of identity and difference, taking into consideration the various ways they may interrelate or intersect.

- COMM 323 - Race, Class, Gender & Media
- COMM 324 - Sex and Violence In Media
- ENGL 359 - Gender & Diversity in Film
- HIST 324 - African-Am Struggle for Equity
- SOCW 315 - Values, Poverty and Society
- SOCW 318 - Trends in Modern Soc: Race Rel
- SOCW 404 - Rel/Ethics & Profession Pract
- SPMG 410 - Sport Ethics
- THEO 322 - Black Theology
Capstone Experience (3 credit hours):

In the Spring of senior year, all GDST students will submit a thesis for public defense. Students are expected to independently design and complete a research-based project on a specific diversity studies topic that synthesizes the scholarly literature in at least two of the disciplines that inform diversity studies and presents a clear, arguable thesis supported by evidence drawn from appropriate sources. To this end, students will take a one credit hour thesis direction course in the Fall of senior year, GDST 498. Students will design their projects, identify two faculty readers from two different disciplines, work both independently and in groups, and complete a polished proposal by the end of the course. Students will then sign up for two credit hours of tutorials in the Spring, GDST 499, one with each of their thesis readers. All thesis readers must be GDST affiliated faculty and must be approved by the director of the program as well as the chairs of the faculty members’ respective home departments. The focus of the thesis is multidisciplinary and addresses issues concerning gender and diversity studies that stem from the student’s own elective concentration or interests. For example, projects may include an internship component or be limited to textual analysis depending on the primary methodologies of the disciplines with which students are working.

Elective Courses (18 credit hours):

The remaining 18 credit hours elective courses must come from three or more disciplines. Students choosing a Women & Gender or Race & Ethnicity concentration must complete at least nine of their elective credit hours with courses that have the appropriate (W) or (R) designation. Otherwise, students may choose any course approved as a Gender and Diversity Studies elective at the 200-level or above.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Land, Farming and Community, B.A.

Through a combination of classroom-based and experiential on-site learning; attention to the science and art of agriculture; and focus on both the necessity and benefits of small-scale, sustainable, and diversified food production in the context of a Jesuit education, Xavier's Land, Farming and Community degree (LAND) offers students the opportunity to become stewards of healthy, productive soils, communities, and regions through growing, processing and distributing food. The final three semesters of the degree program are spent largely in the field, either practicing agriculture or working in a related industry in a Land, Farming and Community practicum.

Bachelor of Liberal Arts

Bachelor of Liberal Arts, BLA

The Bachelor of Liberal Arts is designed for adult transfer students who are interested in taking courses in a broad range of disciplines. The general electives and upper division studies requirements allow for efficient transferability of credits and give students the opportunity to design degrees to meet their needs. This degree is offered by the College of Arts and Sciences. It is available to any student who has completed a minimum of 60 semester hours with approval of their Dean, the Dean of the College of Arts and Sciences and to all students who have graduated from high school not less than four years prior to the date of acceptance into the program.

The Liberal Arts degree is available through full or part-time study, days and/or evenings, or through the special accelerated Weekend Degree Program.

Requirements for the Bachelor of Liberal Arts

Core Curriculum Requirements:

Consult Undergraduate Core Curriculum for details.
Upper Division Studies Requirement: 35 Credit Hours, plus LART 495, BLA Capstone course, 3 credit hours

- Students may add a minor or a concentration to their liberal arts degree. See below for information on available concentrations in organizational leadership, and professional communication.
- 38 hours of upper division work, including LART 495, BLA Capstone course (courses numbered 200-499), with no more than 21 hours from one subject area.
- It is recommended that these 38 hours be distributed across two academic areas.
- No more than 30 hours in business courses and no more than 12 hours in any one business subject area may be applied to the degree.

Optional Concentrations for Upper Division Studies:

Organizational Leadership Concentration: 18 Credit Hours

This concentration will enhance and develop your communication, management, and leadership skills.

Required Courses: 9 Credit Hours

- MGMT 300 - Managerial Behavior
- MGMT 309 - Change Management
- MGMT 314 - Leadership

Electives: 9 Credit Hours (Select from the following list)

- MGMT 301 - Managerial Communications
- MGMT 325 - International Management
- MGMT 385 - Project Management
- COMM 207 - Interpersonal Communication
- COMM 209 - Group Dynamics
- SHRM 200 - Human Resources In a Diverse S

Professional Communication Concentration: 21 Credit Hours

This concentration is designed for people interested in working in dynamic, people-oriented environments. This concentration exposes you to the entire communication network; written, oral, and electronic mediums.
Required Courses: 15 Credit Hours

• COMM 101 - Oral Communication
• COMM 207 - Interpersonal Communication
• COMM 209 - Group Dynamics
• COMM 260 - Organizational Communication
• COMM 301 - Presentational Speaking

Electives: 6 Credit Hours (Select from the following list)

• COMM 477 - Strat Comm Ethics Society
• MGMT 300 - Managerial Behavior
• MGMT 301 - Managerial Communications
• INFO 120 - Introduction to Business Tech
• INFO 220 - Mgmnt of Info Tech

Free Electives: 10 Credit Hours

TOTAL REQUIRED for BLA DEGREE: 120 Credit Hours

Note(s):

Two other Bachelor of Liberal Arts degree programs are available in the College of Social Sciences, Health and Education.

A.

See the Occupational Therapy Department for information about the Bachelor of Liberal Arts degree with a concentration in Human Occupation Studies.
See the Radiologic Technology Department for information about the Bachelor of Liberal Arts degree with a concentration in Magnetic Resonance Imaging (MRI).

**Associate of Arts**

**Liberal Arts, A.A.**

This 60 hour program is designed for adult students who are interested in taking courses in several disciplines. The upper division studies requirement allows students to design their degrees through flexibility in course selection. This degree is offered by the College of Arts and Sciences and is available to students who have graduated from high school not less than four years prior to the date of acceptance into the program.

Requirements for the Associate of Arts in Liberal Arts:

**Core Curriculum Requirements:**

- See Undergraduate Core Curriculum

**Upper Division Studies Requirement:**

- 20 hours of upper division coursework

**Note(s):**

- A minimum of 60 credit hours is required for the degree.

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates
Urban Sustainability, M.A.

Urban sustainability involves a reexamination of urban and regional development and an understanding of the role of cities in global environmental change. The challenge is to make cities centers of engaged citizenship and humane living rather than the source of continued environmental and resource degradation.

The challenges of urban sustainability demand of its professionals a broad, multi-faceted, interdisciplinary education, including work in the humanities that speak to the ultimate purposes of urban life. Xavier University's M.A. in urban sustainability provides the breadth of complementary approaches and interdisciplinary perspectives essential to understanding and tackling the complicated interrelationships and challenges of urban sustainability. In bringing together students and faculty from the fields of business, environmental science, public policy, and urban planning and design, the M.A. in urban sustainability produces graduates with the necessary analytical and decision-making skills for careers in the public and private sectors. The interdisciplinary mix of students and faculty provides a rich learning environment that will illuminate the critical connections at the intersection of the sciences, business, public policy, and the built environment.

Course Sequence (40 Hours)

Year One: Fall Semester

- HIST 536 - Urban Ecologies and Economies
- SOCI 554 - Introduction to Urban Systems
- POLI 554 - The Politics of Urban Sustainability

Year One: Spring Semester

- SOCI 555 - Urban Development and Space
- UNST 554 - Urban Geography and GIS
- SOCI 552 - Quantitative Analysis
- Field Placement Planning

Summer Semester

- Fieldwork and Fieldwork seminar I
Year Two: Fall Semester

- MGMT 621 - Corporate Sustainability
- ECON 520 - Urban and Regional Economics
- COMM 554 - Strategic Organizational Communication

Year Two: Spring Semester

- PHIL 554 - Eco-Systems Thinking
- PHIL 506 - Social Justice in the City
- HIST 554 - The City as Vocation (4 Tracks)
  - Urban Planning & Community Organizing
  - Politics and Urban Administration
  - Sustainability Initiatives in the Corporate and Non-Profit Sectors
  - Scientific-Technical Research in Sustainability

Mathematics

The Department of Mathematics offers three degrees, the Bachelor of Science in Mathematics, the Bachelor of Science in Mathematics with Concentration in Economics, and the Bachelor of Science in Actuarial Science, as well as minors in Mathematics, Applied Mathematics, and Statistics.

Bachelor of Science

Actuarial Science, B.S.

Actuarial science applies quantitative methods to assess and manage risk. It is especially important in the insurance and finance industries, where understanding risk is essential to providing services that offer financial security and peace of mind, regardless of the uncertainties in daily life.

The B.S. in Actuarial Science is an interdisciplinary major consisting of coursework in mathematics, statistics, and business. Within the framework of a liberal arts tradition, the program emphasizes the development of critical thinking and problem solving skills by advancing the student's mathematical ability and statistical expertise. This serves as the basis upon which problems in various business contexts (such as insurance, finance, and investments) can be rigorously examined.

Actuarial Science majors are prepared to sit for the first two actuarial exams in Probability (P/1) and Financial Mathematics (FM/2). They also take courses that are approved for Validation by Educational Experience (VEE) credit. Although majors who successfully complete the program are ready to enter the actuarial profession, other careers that require strong quantitative skills and/or significant exposure to an undergraduate business curriculum are possible upon graduation.
Requirements

Core Curriculum

48-63 Credit Hours dependent on courses taken, including mathematics and social science requirements included in major.

Major in Actuarial Science

Students majoring in Actuarial Science must complete core curriculum requirements plus an additional 57 hours of coursework specific to the major.

Required Courses (57 hours)

Mathematics (39 hours)

- MATH 170 - Calculus I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 225 - Foundations Of Higher Math
- MATH 230 - Intro to Ordinary Diff Equat
- MATH 240 - Linear Algebra
- MATH 256 - Intro to Probability& Stats
- MATH 311 - Probability Theory
- MATH 312 - Statistical Inference

- MATH 257 - Data Modeling or
- MACS 101 - Intro To Actuarial Science
  - MACS 201 - Actuarial Mathematics
- CSCI 170 - Computer Science I

Business (18 hours)

- FINC 300 - Business Finance
- FINC 365 - Investments
Prior to the final semester in the program, a student must successfully pass at least one actuarial exam, or complete an appropriate project under the supervision of a faculty mentor, including an oral presentation in a public colloquium.

Notes:

• A 2.000 cumulative average must be attained in the student's mathematics and business courses.
• Students are prepared to take the first actuarial exam (Exam P/1), upon completion of MATH 311.
• Students are prepared to take the second actuarial exam (Exam FM/2), upon completion of the finance sequence: FINC 300, FINC 365, and FINC 465.
• Prior to the final semester in the program, a student must successfully pass at least one actuarial exam, or complete an appropriate project under the supervision of a faculty mentor, including an oral presentation in a public colloquium.
• Any student wishing to major in actuarial science should consult the chair of the department before registration.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Actuarial Science

These block schedules serves as a guideline for progress toward a degree. See your academic advisor. They assume the current bi-yearly frequency of certain required courses. Students will be prepared to take an actuarial exam no later than the summer following their third year.

Sequence for students beginning in the Fall of an odd-numbered year

Freshman Year

First Semester (Fall)

• MATH 170 - Calculus I
• MATH 225 - Foundations Of Higher Math
• Historical Perspectives
• CORE 100 - First Year Seminar
• CORE 101 - First Year Co-Curricular Program I (GOA)
• ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (16)
Second Semester (Spring)

- MATH 171 - Calculus II
- ECON 200 - Microeconomic Principles
- MACS 101 - Intro To Actuarial Science
- PHIL 100 - Ethics as Intro to Philosophy
- THEO 111 - Theological Foundations
- CORE 102 - First Year Co-Curricular Program II (GOA)

Total (16)

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- Mathematical Perspectives, Quantitative Reasoning, and Social Science Elective requirements satisfied within the major.

Mathematics, B.S.

The Department of Mathematics offers a program intended to develop a student's capacity to undertake intellectually demanding mathematical tasks by emphasizing general mathematical reasoning through mastery of varied subject matter. Upon successful completion of the program, the student should be well prepared for graduate studies in mathematics and related disciplines, for teaching at the secondary level and for immediate employment by industry in a position which makes use of the talents and abilities of one trained in the mathematical sciences.

Mathematicians continue to be in demand to fill both traditional and developing roles in society. Opportunities abound for researchers in all areas of mathematics. Engineering, computer science, and the physical sciences require individuals with mathematical training. The applications of statistics are increasingly widespread. Those in the economics as well as other social and health sciences, in the business community, and in the field of law are aware of the value of mathematics, not only as a tool for problem solving, but also for developing critical and analytical skills.

Requirements for the Mathematics Major

Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including:
Sciences:

To fulfill the Scientific Perspectives and Natural Sciences Elective requirements, select one of the following three combinations of lecture and lab courses:

- BIOL 160 - General Biology I with
  - BIOL 161 - General Biology I Lab

  and

- BIOL 162 - General Biology II with
  - BIOL 163 - General Biology II Lab

or

- CHEM 160 - General Chemistry I with
  - CHEM 161 - General Chemistry I Lab

  and

- CHEM 162 - General Chemistry II with
  - CHEM 163 - General Chemistry II Lab

or

- PHYS 170 - University Physics I with
  - PHYS 161 - Introductory Physics Lab I

  and

- PHYS 172 - University Physics II with
  - PHYS 163 - Introductory Physics Lab II

Mathematics:

- Requirement included within the major.

Major Requirements:

45 credit hours, as follows
24 hours from:

- MATH 170 - Calculus I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 225 - Foundations Of Higher Math
- MATH 240 - Linear Algebra
- MATH 340 - Abstract Algebra I
- MATH 370 - Real Analysis

3 hours of seminar from:

- MATH 391 - Mathematics Seminar I
- MATH 392 - Mathematics Seminar 2
- MATH 393 - Mathematics Seminar 3

3 hours of computer sciences from:

- CSCI 170 - Computer Science I

9 hours of core electives from:

- MATH 230 - Intro to Ordinary Diff Equat
- MATH 256 - Intro to Probability & Stats
- MATH 280 - Combinatorics
- MATH 301 - Geometry
- MATH 302 - Number Theory
- MATH 311 - Probability Theory
- MATH 325 - Mathematical Modeling
- MATH 330 - Graph Theory
- MATH 341 - Abstract Algebra II
- MATH 360 - Elementary Topology
  - MATH 371 - Real Analysis II
- MATH 380 - Intro to Complex Variables

6 hours of additional electives from:

- MATH 230-397, CSCI 250 (Refer to Course Descriptions.)
Note(s):

- A 2.000 cumulative average must be attained in these mathematics and computer science courses.
- Students are required to complete the MFT (Major Field Test) in Mathematics.
- Senior project requires a substantial paper on research under the guidance of a member of the principal faculty and an oral presentation to the department.
- The mathematics electives should be chosen under the guidance of the student's advisor. Any student wishing to major in mathematics should consult the chair of the department before registration.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Mathematics, B.S. with a Concentration in Economics

This interdisciplinary program provides students with the benefits of a degree in Mathematics enhanced by a strong Economics background. Combined skills in Mathematics and Economics are increasingly valuable in industry and government. This program expands opportunities for post-graduation employment as well as prepares students for graduate study in Economics and related fields.
Requirements for the Mathematics major with concentration in Economics

Core Curriculum Requirements:

Undergraduate Core Curriculum

Mathematics Major Requirements:

30 credit hours

- CSCI 170 - Computer Science I
- MATH 170 - Calculus I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 225 - Foundations Of Higher Math
- MATH 240 - Linear Algebra
- MATH 340 - Abstract Algebra I
- MATH 370 - Real Analysis
- MATH 391 - Mathematics Seminar I
- MATH 392 - Mathematics Seminar 2
- MATH 393 - Mathematics Seminar 3

Mathematics Elective Requirements

***The MATH Elective courses should be chosen under the guidance of the student's advisor

9 credit hours selected from the following:

- MATH 230 - Intro to Ordinary Diff Equat
- MATH 256 - Intro to Probability& Stats
- MATH 280 - Combinatorics
- MATH 301 - Geometry
- MATH 302 - Number Theory
- MATH 311 - Probability Theory
- MATH 325 - Mathematical Modeling
- MATH 330 - Graph Theory
- MATH 341 - Abstract Algebra II
- MATH 360 - Elementary Topology
  - MATH 371 - Real Analysis II
- MATH 380 - Intro to Complex Variables

Economics Concentration Requirements:

24 credit hours, as follows:
• STAT 210 - Statistics For Business I
• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles
• ECON 305 - Microeconomic Analysis
• ECON 306 - Macroeconomic Analysis
• ECON 307 - Empirical Analysis In Economic
• ECON 350 - Business Cycles & Forecasting OR
• ECON 495 - Markets, Strategy & Rivalry
  ◦ ECON additional elective (MUST be numbered above ECON 307) (3 credit hours)

NOTES:

• A 2.000 cumulative average must be attained in the student's mathematics, economics, and computer science courses.
• Students are required to complete the MFT (Major Field Test) in Mathematics.
• At the completion of MATH 393, students complete a Senior Project presented in a public colloquium. This project should demonstrate evidence of the student's Economic concentration.
• Any student wishing to major in Mathematics with Concentration in Economics should consult the chair of the Department of Mathematics before registration.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Minors

Applied Mathematics Minor

The minor in Applied Mathematics provides students with a solid foundation for using and understanding the tools of mathematics that are particularly applicable to other disciplines. Mathematical and quantitative competence are increasingly valued in an ever-increasing
number of fields, including the physical sciences, business and finance, medicine, any many of the social sciences. The minor in Applied Mathematics broadens the analytical and problem-solving skills of students in virtually any field of study, and it increases their attractiveness to potential employers.

Applied Mathematics Minor

20 credit hours

11 credit hours

• CSCI 170 - Computer Science I
• MATH 170 - Calculus I
• MATH 171 - Calculus II

9 hours of electives from the following:

• MATH 220 Calculus III
• MATH 225-399 (Refer to Course Descriptions )

Note(s):

• A 2.000 cumulative average must be attained in these mathematics courses.
• The Mathematics minor is open to all undergraduates except students majoring in Mathematics or Actuarial Science.
• Students can receive no more than one of these three minors: Mathematics, Applied Mathematics, Statistics.

Mathematics Minor

20 total credit hours are required, as follows:

11 hours of mathematics courses:

• MATH 170 - Calculus I
• MATH 171 - Calculus II
• MATH 225 - Foundations Of Higher Math

9 additional hours of mathematics electives selected from:

• MATH 220 Calculus III
• MATH 225-399 (Refer to Course Descriptions.)

Note(s):

• A 2.000 cumulative average must be attained in these mathematics courses.
• The Mathematics minor is open to all undergraduates except students majoring in Mathematics or Actuarial Science.
• Students can receive no more than one of these three minors: Mathematics, Applied Mathematics, Statistics.

Statistics Minor

The Department of Mathematics offers the minor in Statistics.

This minor is intended to enhance student's understanding of data, uncertainty, and estimation. Students completing the minor will acquire a mastery of fundamental theory in probability and statistics, as well as a working knowledge of advanced data analysis methodology that have found applications in a broad range of areas (e.g., biology, medicine, computer science, economics, finance, psychology, marketing, manufacturing, and engineering).

20 total credit hours are required, as follows:

17 hours of mathematics courses:

• MATH 170 - Calculus I
• MATH 171 - Calculus II
• MATH 256 - Intro to Probability & Stats
• MATH 311 - Probability Theory
• MATH 312 - Statistical Inference
3 additional hours selected from one of the following:

- MATH 257 - Data Modeling
  - MACS 201 - Actuarial Mathematics
- ECON 350 - Business Cycles & Forecasting
- INFO 329 - Data Mining
  - A course approved by the department and selected under the guidance of a faculty advisor.

Note(s):

- A 2.000 cumulative average must be attained in these courses for the minor.
- The Statistics minor is available to all undergraduates. For statistic minors also majoring in Mathematics, at most two of the Statistics minor courses numbered 220 or higher may count towards the requirements of the Mathematics major.
- Students can receive no more than one of these three minors: Mathematics, Statistics, Applied Mathematics,

Music

The Department of Music offers a Bachelor of Arts degree in Music, Bachelor of Science degree in Music Education (the latter in conjunction with the Department of Education), the upcoming Bachelor of Music in Performance (pending NASM accreditation) and minors in Music Performance and Music Studies.

The department also offers a broad, general exposure to the fields of music and theatre through a variety of courses for students as they pursue a liberal arts education. In addition, opportunity for instruction in an applied instrument/voice is available, as is the opportunity for participation in vocal and instrumental ensembles.

Xavier University is an accredited member of the National Association of Schools of Music (NASM).

Bachelor of Arts

Music, B.A.

Requirements for the Music Major

Core Curriculum Requirements:

42 credit hours in addition to the requirements for the major (see Undergraduate Core Curriculum in the Catalog).
Major Requirements:

42 credit hours, as follows

30 hours from:

- MUSC 200 - Music Theory I
- MUSC 201 - Aural Skills I
- MUSC 202 - Music Theory II
- MUSC 203 - Aural Skills II
  - MUSC 208 - Keyboard Skills I
  - MUSC 209 - Keyboard Skills II
- MUSC 210 - Music History I
- MUSC 211 - Music History II
  - MUSC 212 - World & Popular Music
- MUSC 300 - Music Theory III
- MUSC 301 - Aural Skills III
- MUSC 303 - Aural Skills IV
- MUSC 310 - Music History III: Seminar
- MUSC 400 - Form and Analysis
- MUSC 199 - Recital Attendance

6 hours of Private Lessons from:

- MUSC 278-299 (Refer to Course Descriptions.)

6 hours of participation in a large ensemble:

- MUSC 260 - Concert Choir
- MUSC 265 - Symphonic Wind Ensemble
- MUSC 270 - Chamber Orchestra

Additional Requirements:

- Pass applied music examination at the end of each semester of private lessons.
- Present a recital (MUSC 450) or write a thesis in major area of concentration during the final year.
- Recital attendance (minimum of 42 recitals, 7 each semester of MUSC 199).

Note(s):

- A 2.000 cumulative average must be attained in these music courses.
- Students are admitted to the degree programs based upon their musicality and musical literacy rather than on performance accomplishments. Musical background and proficiency in an applied instrument/voice will determine placement within the department.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.A. Music

This block serves as a guideline for progress toward a degree. See your academic advisor.

The downloadable engagement plan for this degree includes the schedule below in tabular form.

Freshman Year

First Semester

- MUSC 199 - Recital Attendance
- MUSC 200 - Music Theory I
- MUSC 201 - Aural Skills I
- MUSC 208 - Keyboard Skills I
- Private Lesson
- Large Ensemble
- CORE 100 - First-Year Seminar
- Foreign Language Elective 1

Total (16)

Second Semester

- MUSC 199 - Recital Attendance
- MUSC 202 - Music Theory II
- MUSC 203 - Aural Skills II
- Private lesson
- Large Ensemble
- Foreign Language Elective 2
- MUSC 209 - Keyboard Skills II
- THEO 111 - Theological Foundations
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (14)

Senior Year

First Semester

- Philosophical Perspectives
- Free Elective
- Free Elective
- Free Elective
- Free Elective

Second Semester

- Historical Perspectives
- Social Science Elective
- Free Elective
- Free Elective
- Free Elective

Scheduling Notes:

- The number of free electives will be reduced if the remaining "flag" requirements (ERS, Diversity, and Quantitative) are not fulfilled by courses in the core or major.
Bachelor of Music

Performance, B.M. (Tentatively Admitting Beginning Spring 2018)

Although the Bachelor of Music is a "professional" degree centering on music performance, it remains rooted in the liberal arts. The Department of Music offers a broad-based education that is as well suited to preparing students for graduate work as to creating strong performers. The element of co-curricular engagement is especially prominent in this degree through participation in musical ensembles, and the internship further enhances this focus. By becoming leaders in vocal and instrumental ensembles that expose audiences on and off campus to sacred and secular music, Bachelor of Music students serve the entire community.

Requirements for the Performance Major

Core Curriculum Requirements:

42 credit hours in addition to the requirements for the major (see Undergraduate Core Curriculum in the Catalog).

Major Requirements:

79 credit hours, as follows

43 hours in music courses from:

- MUSC 199 - Recital Attendance (8 Semesters)
- MUSC 200 - Music Theory I
- MUSC 201 - Aural Skills I
- MUSC 202 - Music Theory II
- MUSC 203 - Aural Skills II
  - MUSC 208 - Keyboard Skills I
  - MUSC 209 - Keyboard Skills II
- MUSC 210 - Music History I
- MUSC 211 - Music History II
  - MUSC 212 - World & Popular Music
- MUSC 300 - Music Theory III
- MUSC 301 - Aural Skills III
- MUSC 302 - Music Theory IV
- MUSC 303 - Aural Skills IV
- MUSC 304 - Producing Electronic Music I
  - MUSC 308 - Keyboard Skills III
  - MUSC 309 - Keyboard Skills IV
- MUSC 312 - Conducting I
- MUSC 400 - Form and Analysis
- MUSC 401 - Orchestration Arranging
  - MUSC 450 - Senior Recital
16 hours of Private Lessons from:

• MUSC 278-299 (Refer to Course Descriptions.)

8 hours of Large Ensemble from:

• MUSC 260 - Concert Choir
• MUSC 265 - Symphonic Wind Ensemble
• MUSC 270 - Chamber Orchestra

4 hours of Small Ensemble from:

• MUSC 263 - Edgecliff Vocal Ensemble
• MUSC 266 - Chamber Winds
• MUSC 267 - Percussion Ensemble
• MUSC 269 - String Quartet
• MUSC 271 - Jazz Orchestra
• MUSC 340 - Opera Workshop

2 hours of electives from:

• MUSC 223 - IPA / Lyric Diction (for vocalists)
  ◦ MUSC 200-level or above (for instrumentalists)

6 hours (two semesters) of Internship:

• MUSC 405 - Internship

Additional Requirements:

• Pass applied music examination at the end of each semester of private lessons.
• Perform in a student recital each semester.
• Recital attendance (minimum of 56 recitals, 7 each semester of MUSC 199).

Note(s):

• A 2.000 cumulative average must be attained in music courses.
TOTAL Minimum Hours Required for Degree: 121 Credit Hours

B.M. Performance

This schedule serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- MUSC 199 - Recital Attendance
- MUSC 200 - Music Theory I
- MUSC 201 - Aural Skills I
- MUSC 208 - Keyboard Skills I
- Private Lesson
- Large Ensemble
- Small Ensemble
- CORE 100 - First-Year Seminar
- PHIL 100 - Ethics as Intro to Philosophy

Total (15)

Second Semester

- MUSC 199 - Recital Attendance
- MUSC 202 - Music Theory II
- MUSC 203 - Aural Skills II
- MUSC 209 - Keyboard Skills II
- Private Lesson
- Large Ensemble
- Small Ensemble

- MUSC 199 - Recital Attendance
- MUSC 304 - Producing Electronic Music I
- MUSC 401 - Orchestration & Arranging
- Private Lesson
- Large Ensemble
- Music Elective
- Foreign Language Elective I
- ENGL/CLAS/SPAN 205 - Literature & The Moral Imagination
Total (17)

Second Semester

• MUSC 199 - Recital Attendance
• MUSC 212 - World & Popular Music
• MUSC 400 - Form & Analysis
• Private Lesson
• Large Ensemble
• Foreign Language Elective II
• Historical Perspectives

Total (15)

Senior Year

First Semester

• MUSC 199 - Recital Attendance
• MUSC 405 - Internship
• Private Lesson
• Large Ensemble
• Theological Perspectives
• Philosophical Perspectives
• Scientific Perspectives

Total (15)

Second Semester

• MUSC 199 - Recital Attendance
• MUSC 405 - Internship
• MUSC 450 - Senior Recital
• Private Lesson
• Large Ensemble
• Social Science Elective
• Natural Science Elective
Scheduling Notes:

- The number of required courses will increase if the 5 "flag" requirements (ERS, Diversity, Writing, Oral, and Quantitative) are not fulfilled by courses in the core or major.

Bachelor of Science

Music Education, B.S.

Requirements for the Music Education Major (Pre-K to 12)

Core Curriculum Requirements:

39 credit hours in addition to the requirements for the major (see Undergraduate Core Curriculum in the Catalog).

Major Requirements:

95 credit hours, as follows

53 hours in music courses from:

- MUSC 199 - Recital Attendance (7 Semesters)
- MUSC 200 - Music Theory I
- MUSC 201 - Aural Skills I
- MUSC 202 - Music Theory II
- MUSC 203 - Aural Skills II
  - MUSC 208 - Keyboard Skills I
  - MUSC 209 - Keyboard Skills II
- MUSC 210 - Music History I
- MUSC 211 - Music History II
- MUSC 221 - Elementary Methods
- MUSC 300 - Music Theory III
- MUSC 301 - Aural Skills III
- MUSC 302 - Music Theory IV
- MUSC 303 - Aural Skills IV
- MUSC 304 - Producing Electronic Music I
1 hour from:

- MUSC 151 - Class Voice or
- MUSC 152 - Class Guitar or
- MUSC 268 - Guitar Ensemble

7 hours of Private Lessons from:

- MUSC 278-299 (Refer to Course Descriptions.)

7 hours of participation in a large ensemble from:

- MUSC 260 - Concert Choir
- MUSC 265 - Symphonic Wind Ensemble
- MUSC 270 - Chamber Orchestra

1 hour of participation in a small ensemble from:

- MUSC 263 - Edgecliff Vocal Ensemble
- MUSC 267 - Percussion Ensemble
- MUSC 266 - Chamber Winds
- MUSC 269 - String Quartet
- MUSC 271 - Jazz Orchestra
- MUSC 340 - Opera Workshop

19 hours of education courses required from:

- EDFD 110 - Human Development & Learning
- EDMS 131 - Professional Education
- EDSP 200 - Sp Ed: Identification & Issues
- EDMS 350 - Technology & Topics for Educat
- EDSP 380 - Classroom Management
- EDMS 411 - Clinical Experiences
• EDRE 471 - Content Area Literacy

9 hours of student teaching and seminar for certification from:

• EDMS 471 - Student Teaching: Multi-Age

Additional Requirements:

• Pass applied music examination at the end of each semester of private lessons.
• Present a recital or write a thesis in major area of concentration during the senior year.
• Recital attendance (minimum of 49 recitals, 7 each semester of MUSC 199).

Note(s):

• A 2.000 cumulative average must be attained in the music and education courses.
• Students are admitted to the degree programs based upon their musicality and musical literacy rather than on performance accomplishments. Musical background and proficiency in an applied instrument/voice will determine placement within the department.
• For a copy of Policies and Guidelines, contact the Department of Music.

TOTAL Minimum Hours Required for Degree: 134 Credit Hours

B.S. Music Education

This schedule serves as a guideline for progress toward a degree. See your academic advisor.

The downloadable engagement plan for this degree includes the schedule below in tabular form.

Freshman Year

First Semester

• MUSC 199 - Recital Attendance
• MUSC 200 - Music Theory I
• MUSC 201 - Aural Skills I
- EDMS 131 - Professional Education
- Private Lesson
- Large Ensemble
- CORE 100 - First-Year Seminar
- MUSC 208 - Keyboard Skills I
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (16)

Second Semester

- MUSC 199 - Recital Attendance
- MUSC 202 - Music Theory II
- MUSC 203 - Aural Skills II
- THEO 111 - Theological Foundations
- EDFD 110 - Human Development & Learning
- Private Lesson
- Large Ensemble
- MUSC 209 - Keyboard Skills II
- PHIL 100 - Ethics as Intro to Philosophy

Total (16)

Sophomore Year

First Semester

- MUSC 199 - Recital Attendance
- MUSC 210 - Music History I
- MUSC 300 - Music Theory III
- MUSC 301 - Aural Skills III
- EDSP 200 - Sp Ed: Identification & Issues
- MUSC 308 - Keyboard Skills III
- MUSC 312 - Conducting I
- Private Lesson
- Large Ensemble
- Small Ensemble
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (17)

Second Semester

- MUSC 199 - Recital Attendance
- MUSC 151 - Class Voice or MUSC 152 - Class Guitar or MUSC 268 - Guitar Ensemble
- MUSC 211 - Music History II
- MUSC 302 - Music Theory IV
- MUSC 303 - Aural Skills IV
• MUSC 309 - Keyboard Skills IV
• MUSC 313 - Conducting II
• MUSC 351 - String Techniques
• PHIL 100 - Ethics as Intro to Philosophy
• Private Lesson
• Large Ensemble

Total (18)

Junior Year

First Semester

• MUSC 199 - Recital Attendance
• MUSC 353 - Brass Techniques
• MUSC 320 - Instrumental Methods
• EDSP 380 - Classroom Management
• Foreign Language Elective I
• Historical Perspectives
• ENGL/CLAS/SPAN 205 - Literature & The Moral Imagination
• Private Lesson
• Large Ensemble

Total (18)

Second Semester

• MUSC 199 - Recital Attendance
• MUSC 221 - Elementary Methods
• MUSC 304 - Producing Electronic Music I
• Foreign Language Elective II
• Scientific Perspectives
• MUSC 352 - Woodwind Techniques
• EDMS 350 - Technology & Topics for Educat

Total (18)

Senior Year

First Semester

• MUSC 199 - Recital Attendance
• MUSC 401 - Orchestration Arranging
• MUSC 354 - Percussion Techniques
• EDMS 411 - Clinical Experiences
• MUSC 321 - Choral Methods
• Private Lesson
• Large Ensemble
• MUSC 450 - Senior Recital
• Theological Perspectives
• Natural Science Elective
• Philosophical Perspectives

Total (19)

Second Semester

• EDMS 471 - Student Teaching: Multi-Age
• EDRE 471 - Content Area Literacy

Total (12)

Scheduling Notes:

• EDMS 471, Student Teaching and Seminar (9 credit hours) is required for state licensure.
• The number of required courses will increase if the 5 "flag" requirements (ERS, Diversity, Writing, Oral, and Quantitative) are not fulfilled by courses in the core or major.

Minors

Music Performance Minor

23 total credit hours are required, as follows:

11 hours of music courses from:

• MUSC 111 - Music: The Art of Listening
• MUSC 200 - Music Theory I
• MUSC 201 - Aural Skills I
• MUSC 202 - Music Theory II
• MUSC 203 - Aural Skills II
3 semesters in Recital Attendance:

- MUSC 199 - Recital Attendance (0 credit hours)

6 hours in an Private Lessons from:

- MUSC 278-299 (6 semesters at 1 credit each) (Refer to Course Descriptions)

6 hours in an Ensemble from:

- MUSC 259 - XU Men's Chorus
- MUSC 260 - Concert Choir
- MUSC 261 - XU Women's Chorus
- MUSC 265 - Symphonic Wind Ensemble
- MUSC 266 - Chamber Winds
- MUSC 270 - Chamber Orchestra
- MUSC 271 - Jazz Orchestra

Note(s):

- Additional Requirements:
  - Enroll in MUSC 199 - Recital Attendance for 3 semesters (7 recitals or other approved events per semester for a minimum total of 21).
  - Pass applied music exam at the end of each semester of private lessons.
  - Perform in a minimum of 4 department recitals.
  - Optional: Present a recital (MUSC 450 - Senior Recital) during the final semester of lessons.
  - Maintain a 2.0 cumulative average in these courses.

Music Studies Minor

23 total credit hours are required, as follows:

11 hours of music courses from:

- MUSC 111 - Music: The Art of Listening
- MUSC 200 - Music Theory I
- MUSC 201 - Aural Skills I
- MUSC 202 - Music Theory II
- MUSC 203 - Aural Skills II
3 semesters in Recital Attendance:

- MUSC 199 - Recital Attendance (0 credit hours)

12 hours of Music electives:

- MUSC 200 and above (Refer to Course Descriptions)

Note(s):

- Attendance at a minimum of 21 recitals (7 each semester of MUSC 199).
- A 2.000 cumulative average must be attained in these courses.

**Philosophy**

The Department of Philosophy offers the Bachelor of Arts degree, and minors in Philosophy and Political Thought.

**Bachelor of Arts**

**Philosophy, B.A.**

The major in Philosophy is the appropriate course of study for a person intending to pursue graduate study in philosophy, and is an excellent preparation for entry into professional schools, law school and for graduate study in the humanities or social sciences.

**Requirements for the Philosophy Major**

**Core Curriculum Requirements:**

See Undergraduate Core Curriculum
Philosophy requirement:

• Included within the major.

Major Requirements:

39 credit hours, as follows

12 hours beyond PHIL 100 (which is not part of the major):

• PHIL 200 - Philosophical Perspectives
• PHIL 311 - Logic
• PHIL 340 - Metaphysics
• PHIL 398 - Thesis Review I (minimum grade of C)
• PHIL 399 - Thesis Review II (includes thesis and oral examination)

9 hours of History of Philosophy:

• PHIL 301 - Ancient Philosophy
• PHIL 302 - Medieval Christian Philosophy or
• PHIL 309 - Medieval Islamic Phil& Influe or
• PHIL 363 - Medieval Political Philosophy
• PHIL 304 - Early Modern Philosophy

15 hours of major electives chosen from:

• PHIL 300-397

3 hours of electives, other than any classes fulfilling core curriculum requirements, from one of the following departments:

• Classics and Modern Languages (other than language instruction)
• English
• History
• Theology
Additional Requirements:

- At least one course numbered 300-397 must be a seminar, which may be restricted to students majoring or minoring in Philosophy.

Note(s):

- A 2.000 cumulative average must be attained for all PHIL courses.
- A minimum grade of C is required in PHIL 398.

Departmental Honors Track

Departmental honors enables students who are so inclined to prepare themselves better for graduate study in philosophy, or to pursue a more challenging undergraduate course of study in philosophy.

Candidates for departmental honors will have the following requirements, in addition to the standard requirements for the major:

Co-requirements: foreign language and mathematics

- Foreign language: by the conclusion of senior year, candidates for departmental honors will have to pass a translation exam in Latin, Greek, French, or German. The exam will allow students two hours to translate one page of a text with the use of a dictionary. The time of the exam and the passage translated will be determined by faculty from the department. This examination does not count for any credit hours.
- Mathematics: candidates for departmental honors will be required to complete at least 6 hours of mathematics; the courses will be determined by their math placement exam upon matriculation to the University. The courses may also fulfill core curriculum requirements.

Honors Thesis:

- To receive departmental honors, a student must receive a minimum grade of B+ on his or her senior thesis.

Written Comprehensive Exam:

- Candidates for departmental honors will take a written comprehensive exam consisting of four questions. One question will come from each course in the student's nine-hour history of philosophy sequence, and one will come from a course of the student's own choosing.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B. A. Philosophy

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- PHILOSOPHY 100 Intro to Ethics
- ENGLISH 101/115 Composition/Rhetoric
- Foreign Language I
- Creative Perspectives
- CORE 100 First-Year Seminar
- CORE 101

Second Semester

- Scientific Perspectives
- Literature & Moral Imagination
- Foreign Language II
- THEOLOGY 11 Theological Foundations
- Oral Communications Elective
- CORE 102

Sophomore Year

First Semester

- PHILOSOPHY 200 Philosophical Perspectives
- Mathematical Perspectives
- Historical Perspectives
- Natural Science Elective
- General Elective
Second Semester

- General Elective
- General Elective

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- The E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.

Master of Arts

Private Interests and Public Good, M.A.

Rooted in the Jesuit tradition of educating the whole person, the two-year master's cohort program is designed for community-engaged leaders and professionals working in such public arenas as non-profits, corporate social responsibility, media, public policy, health care and education. The graduate program reimagines the relationship between private interests and public good. The public-private framework emerges from the interactions among various stakeholders like businesses, non-profits, community organizations, think tanks, interest groups, and individual citizens. The resources, capabilities and efficiencies of these different stakeholders converge on social and economic issues that need our urgent attention.

The Master of Arts in Private Interests and Public Good (PIPG) takes a multi-disciplinary and experiential approach to train students to critically evaluate the impact of social problems on the public, and to situate themselves and their organizations as solutions. Graduates are able to articulate their vision, design and develop innovative systems, critically engage with and begin to solve complex problems, make decisions based on careful planning and evaluation of risk, and effectively communicate. Students are required to apply their knowledge and expertise to pressing and interesting problems through a chosen experiential project that includes a field experience and thesis.

Admission Criteria

To be considered for admission as a degree-seeking graduate student, students must first submit the following to the Office of the Graduate School:

- Completed application at www.xavier.edu/grad.
- Official transcript of all undergraduate and graduate work.
- Current and updated résumé/CV.
- A 500-word minimum statement of purpose.
- Two letters of reference from individuals commenting on the applicant's academic/professional potential.
- Official test scores from the Graduate Record Exam (GRE).
- TOEFL (Test of English as a Foreign Language) or IELTS (International English Language Testing System) test scores for all sections are required of applicants whose native language is not English or whose four-year undergraduate degree program was not in English.

Applicants are encouraged to meet with the program director prior to completing the application process. Please contact the Office of the Graduate School to learn more and apply (513-745-3360).
Curriculum (36 Credit Hours)

Year One

Fall Semester

- Private Interests & Public Good I
- Media, Democracy, & Public Sphere
- Advanced Public Policy Practice

Spring Semester

- Private Interests & Public Good II
- Advanced Political Analysis
- Economics of Public Policy

Summer Semester

- Innovation
- Computers, Algorithms, and Security

Year Two

Fall Semester

- Field Experience

Spring Semester

- Thesis
Minors

Philosophy Minor

18 total credit hours are required, as follows:

6 hours of philosophy courses from:

- PHIL 200 - Philosophical Perspectives
- PHIL 340 - Metaphysics

3 hours of a “history of philosophy” elective selected from:

- PHIL 300-309 (Refer to Course Descriptions.)
- PHIL 354 - Classical American Philosophy
- PHIL 362 - Ancient Political Philosophy
- PHIL 363 - Medieval Political Philosophy
- PHIL 364 - Modern Political Philosophy
  (or otherwise, as approved by the chair)

6 hours of two philosophy electives selected from:

- PHIL 300 and higher (Refer to Course Descriptions.)

3 hours of a philosophy seminar course section from:

- PHIL 300 and higher (Refer to Course Descriptions.)
Note(s):

- A 2.000 cumulative average must be attained in these courses.

**Physics**

The Department of Physics offers two degrees: the Bachelor of Science in Physics and the Bachelor of Science in Applied Physics, as well as a minor in Physics. Also, the Bachelor of Science in Teaching Life Sciences and Physics is offered in cooperation with the Department of Education.

**Bachelor of Science**

**Applied Physics, B.S., Option A: Alternate Concentration**

**Bachelor of Science Degree in Applied Physics**

The applied physics program is designed to provide a broad education in the physical sciences, mathematics, and liberal arts, along with specialized training for students interested in engineering, medical school, health sciences, education, business, social sciences, or the humanities.

The Alternate Concentration option provides maximum flexibility to students who are interested in pursuing interdisciplinary programs. This program combines the study of physics with a concentrated study in another area or discipline. Concentrations must include at least 18 hours in one chosen area, and allows for almost all University minors to be included within the program electives. Areas of concentration may be chosen from the sciences, mathematics, the humanities, the social sciences, business, and education. If mathematics is selected as an area of concentration, the courses must be in addition to those required by the Applied Physics major.

**Requirements for the Applied Physics Major with Alternate Concentration**

**Core Curriculum Requirements:**

The general core curriculum requirements are 48-63 Credit Hours dependent on courses taken.

However, Natural Science Elective, Scientific Perspectives, Mathematical Perspectives, Oral Communication Flag, and Quantitative Reasoning Flag are satisfied by major courses, thereby leaving 39 - 48 Credit Hours outside of the major.
Mathematical Perspectives:

- MATH 170 - Calculus I

Scientific Perspectives, Natural Science Elective, Quantitative Reasoning and Oral Communication:

- Included within the major.

Major Requirements:

67 credit hours, including:

35 hours of physics courses:

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II
- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- PHYS 340 - Modern Physics II
- PHYS 341 - Modern Physics II Lab
- PHYS 350 - Theoretical Mechanics I
- PHYS 355 - Advanced Physics Lab
- PHYS 360 - Electromagnetism I
- PHYS 364 - Physical Optics
- PHYS 365 - Physical Optics Lab
- PHYS 395 - Physics Research
- PHYS 398 - Physics Thesis

Additional Major Requirements

- 32 credit hours, as follows

14 hours of Mathematics and Computer Science:

- CSCI 170 - Computer Science I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 230 - Intro to Ordinary Diff Equat
18 hours in an alternate concentration:

- At least 18 hours in one area determined in consultation with the chair. If the concentration is in mathematics, the courses must be in addition to those already required by the major.

Note(s):

- A 2.000 cumulative average must be attained within the major, as listed in Degree Works.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Applied Physics

Option A: Alternate Concentration

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- MATH 170 - Calculus I
- First Year Seminar
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (14)

Second Semester

- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II
- MATH 171 - Calculus II
- CSCI 170 - Computer Science I
- THEO 111 - Theological Foundations

Total (14)

Sophomore Year

First Semester

- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- MATH 220 - Calculus III
- Second Language I

Total (16)

Second Semester

- PHYS 340 - Modern Physics II
- PHYS 341 - Modern Physics II Lab
- MATH 230 - Intro to Ordinary Diff Equat
- PHIL 100 - Ethics as Intro to Philosophy
- Second Language II
- ENGR 180 - Intro to MATLAB (recommended)

Total (14)

Junior Year

First Semester

- PHYS 350 - Theoretical Mechanics I
- PHYS 360 - Electromagnetism I
- PHYS 355 - Advanced Physics Lab
- Program Electives * (4)
- Historical Perspectives Elective

Total (15)
Second Semester

- Program Electives* (4)
- Theological Perspectives Elective
- Lit. & Moral Imagination 205
- DCR or General Elective
- PHIL 200 - Philosophical Perspectives

Total (16)

Senior Year

First Semester

- PHYS 395 - Physics Research
- Program Electives* (6)
- Social Science Elective
- Writing Intensive or General Elective
- E/RS or General Elective

Total (16)

Second Semester

- PHYS 364 - Physical Optics
- PHYS 365 - Physical Optics Lab
- PHYS 398 - Physics Thesis
- Program Elective * (4)
- Creative Perspectives elective
- E/RS or General Elective

Total (15)

Scheduling Notes:

* Program electives will depend on the student's choice of concentration. Specific block schedules are determined in consultation with the chair. If the concentration is in mathematics, the courses must be in addition to those already required by the major.

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- The E/RS Focus Elective, Diversity Curriculum Elective, and Writing Intensive Elective requirements may be used to satisfy another element of the core or the major.
Applied Physics, B.S., Option B: Natural Sciences

Bachelor of Science Degree in Applied Physics

The applied physics program is designed to provide a broad education in the physical sciences, mathematics, and liberal arts, along with specialized training for students interested in engineering, medical school, health sciences, education, business, social sciences, or the humanities.

The Natural Sciences option offers an alternative to the Natural Sciences major that allows students to study physics while preparing for medical, dental, or veterinary school. This program may also be of interest to students who wish to pursue careers in medical physics, radiological physics, and other health physics programs. The Natural Sciences program combines courses in physics, mathematics, and computer science with the chemistry and biology courses needed to fulfill the requirements for the Natural Sciences minor.

It is recommended that students interested in the Applied Physics/Natural Sciences program also consider the Biophysics program as an alternative.

Requirements for the Applied Physics Major with a Natural Sciences concentration

Core Curriculum Requirements:

The general core curriculum requirements are 48-63 Credit Hours dependent on courses taken.

However, Natural Science Elective, Scientific Perspectives, Mathematical Perspectives, Oral Communication Flag, and Quantitative Reasoning Flag are satisfied by major courses, thereby leaving 39 - 48 Credit Hours outside of the major.

Mathematical Perspectives:

- MATH 170 - Calculus I

Scientific Perspectives, Natural Science Elective, Quantitative Reasoning and Oral Communication:

- Included within the major.
Social Sciences Elective:

- PSYC 101 - General Psychology
  or
- SOCI 101 - Introduction to Sociology

Note - both courses are required for the MCAT

Major requirements:

76 credit hours, including:

33 hours of physics courses:

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II
- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- PHYS 340 - Modern Physics II
- PHYS 341 - Modern Physics II Lab
- PHYS 350 - Theoretical Mechanics I
- PHYS 360 - Electromagnetism I
- PHYS 364 - Physical Optics
- PHYS 365 - Physical Optics Lab
- PHYS 395 - Physics Research
- PHYS 398 - Physics Thesis

Additional Major Requirements

43 credit hours, as follows

14 hours of Mathematics and Computer Science from:

- CSCI 170 - Computer Science I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 230 - Intro to Ordinary Diff Equat
16 hours of Chemistry courses from:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab

13 hours of Biology courses from:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 440 - Biochemistry

Note(s):

- A 2.000 cumulative average must be attained within the major, as listed in Degree Works.
- In order to be on track to take the MCAT between the junior and senior year, pre-med students should take General Chemistry I and II (plus labs) during their first year. Pre-med students are strongly encouraged to speak to their advisor regarding their course schedule as soon as possible.
- BIOL 354 Human and Comparative Anat, is required for admission to some medical schools but is not required for MCAT performance. BIOL 230 Genetics and BIOL 231 Genetics Laboratory are listed in the minimum competences for first year medical students but are not required for MCAT performance.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

- This number assumes that the ER/S, DCR and Writing Intensive Electives are fulfilled with other core courses.

B.S. Applied Physics
Option B: Natural Sciences

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- MATH 170 - Calculus I
- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- First Year Seminar

Total (15)

Second Semester

- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab
- MATH 171 - Calculus II
- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II
- THEO 111 - Theological Foundations

Total (15)

Sophomore Year

First Semester

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- MATH 220 - Calculus III
- CHEM 240 - Organic Chemistry I
- CHEM 241 - Organic Chemistry I Lab
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (16)
Second Semester

- MATH 230 - Intro to Ordinary Diff Equat
- CHEM 242 - Organic Chemistry II
- CHEM 243 - Organic Chemistry II Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- PHIL 100 - Ethics as Intro to Philosophy

Total (15)

Junior Year

First Semester

- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- BIOL 440 - Biochemistry
- PSYC 101 - General Psychology
- Second Language I

Total (18)

Second Semester

- PHYS 340 - Modern Physics II
- PHYS 341 - Modern Physics II Lab
- CSCI 170 - Computer Science I
- SOCI 101 - Introduction to Sociology
- Lit. & Moral Imagination 205
- Second Language II
- Writing Intensive elective

Total (16)

Senior Year

First Semester

- PHYS 350 - Theoretical Mechanics I
- PHYS 360 - Electromagnetism I
• PHYS 395 - Physics Research
• Historical Perspectives elective
• PHIL 200 - Philosophical Perspectives
• Humanities elective

Total (16)

Second Semester

• PHYS 364 - Physical Optics
• PHYS 365 - Physical Optics Lab
• PHYS 398 - Physics Thesis
• Creative Perspectives elective
• Theological Perspectives elective
• E/RS Focus Elective
• DCR elective

Total (17)

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" description of the Catalog.
• The E/RS Focus Elective, Diversity Curriculum Elective, and Writing Intensive Elective requirements may be used to satisfy another element of the core or the major.

Biophysics, B.S.

The biophysics program is highly interdisciplinary, providing students with the background and techniques of biology, chemistry and physics necessary to enter this rapidly growing field. A key component of the program is the hands on experience gained in numerous laboratory settings across the disciplines of biology, chemistry and physics, culminating in a senior capstone research experience in the biophysics area. The program's flexibility is intended to allow students to tailor their experience toward their personal interests, be it in industrial research, engineering, teaching, or health-science. The program's structure is intended to prepare a student for the rigors of advanced degree programs in biophysics as well as a wide variety of other fields of physics, law, medicine, health sciences, and biotechnology.

Requirements for the Biophysics Major

Core Curriculum Requirements:

The general core curriculum requirements are 48-63 Credit Hours dependent on courses taken.

However, Natural Science Elective, Scientific Perspectives, Mathematical Perspectives, Oral Communication Flag are satisfied by major courses, thereby leaving 42 - 51 Credit Hours outside of the major.
Mathematical Perspectives:

• MATH 170 - Calculus I

Scientific Perspectives, Natural Science Elective, and Oral Communication:

• Included within the major.

Major Requirements:

71 credit hours, including:

28 hours of physics courses:

• PHYS 170 - University Physics I
• PHYS 171 - Explorations in Physics I
• PHYS 172 - University Physics II
• PHYS 173 - Explorations in Physics II
• PHYS 330 - Modern Physics I
• PHYS 331 - Modern Physics I Lab
• PHYS 340 - Modern Physics II
• PHYS 341 - Modern Physics II Lab
• PHYS 355 - Advanced Physics Lab
• PHYS 382 - Thermodynamics
• PHYS 387 - Biophysics
• PHYS 395 - Physics Research
• PHYS 398 - Physics Thesis

16 hours of chemistry courses:

• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
• CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• CHEM 242 - Organic Chemistry II
• CHEM 243 - Organic Chemistry II Lab
8 hours of biology courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 440 - Biochemistry

7 hours of mathematics courses:

- MATH 171 - Calculus II
- MATH 230 - Intro to Ordinary Diff Equat

13 credit hours of natural sciences electives:

At least three hours of electives must be in physics.

- BIOL 222 - Immunology
- BIOL 230 - Genetics
- BIOL 231 - Genetics Laboratory
- BIOL 360 - Cell Biology
- BIOL 410 - Human Physiology
- BIOL 411 - Human Physiology Lab
- BIOL 450 - General Microbiology
- BIOL 451 - General Microbiology Lab
- CHEM 220 - Principles of Physical Chem
- CHEM 340 - Instrumental Analysis
- CHEM 341 - Instrumental Analysis Lab
- CHEM 435 - Medicinal Chemistry
  - ENGR 180 - Intro to Eng. and Scientific Computation
  - ENGR 346 - Signals and Systems
  - ENGR 347 - Signals and Systems Lab
  - ENGR 370 - Fluid Mechanics
- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 350 - Theoretical Mechanics I
- PHYS 355 - Advanced Physics Lab
- PHYS 360 - Electromagnetism I
- PHYS 364 - Physical Optics
- PHYS 365 - Physical Optics Lab
- PHYS 376 - Quantum Mechanics I
- PHYS 377 - Quantum Mechanics II
- PHYS 382 - Thermodynamics

Notes:

- Specific requirements are modifiable for the needs and interests of each individual student.
• A 2.000 cumulative average must be attained within the major, as listed in Degree Works.
• Pre-med students must take BIOL 162 and BIOL 163 in order to qualify for medical, dental, and veterinary schools. Additionally, General Psychology, Introduction to Sociology and Biochemistry, must be completed by the end of the junior year in order to take the MCAT between the junior and senior year. BIOL 354 Human and Comparative Anat is required for admission to some medical schools but is not required for MCAT performance. BIOL 230 Genetics and BIOL 231 Genetics Laboratory are listed in the minimal competences for first year medical students but are not required for MCAT performance. In order to be on track, pre-med students should take General Chemistry I and II (plus labs) during their first year, Organic Chemistry I and II (plus labs) and General Biology I and II (plus labs) during their second year, and Biochemistry during their third year.
• Pre-med students are strongly encouraged to speak to their advisor regarding their course schedule as soon as possible.
• Upper level biology courses may require BIOL 162 and BIOL 163
• Students interested in an advanced degree in biophysics are encouraged to take PHYS 382 Thermodynamics as one of their physics electives.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

• This number assumes that at least one of the ER/S, DCR or Writing Intensive Electives are fulfilled with other core courses.

B.S., Biophysics

This block serves as a guideline for progress towards a degree. See your academic advisor.

Scheduling Notes:

- Consult the Core Curriculum requirements in the Catalog.
- The E/RS Focus Elective, Diversity Curriculum Elective, and Writing Intensive Elective requirements may be used to satisfy another element of the core or the major.
Engineering Physics, B.S.

The Engineering Physics program combines courses in physics and mathematics with several diverse courses in engineering. Serving the foundation of the program is a set of courses that provides a fundamental understanding of traditional topics in physics including the motion of solid bodies, sound, fluids, electricity, magnetism, and the interaction between light and matter. These "foundational" courses describe how theories about natural phenomena are deduced from experiments and observations, develop the mathematical formalism through which these theories are expressed, and present techniques for using this formalism to describe and analyze systems. Overarching these "foundational" courses are a set of "engineering" courses that focus on the application of scientific principles toward the design and construction of structures, materials, devices and systems that serve an intended function. A senior capstone experience provided through a two-semester sequence teaches the product development process typically utilized in the engineering community and enables students to experience the process from idea conception through production. The program is intended for students who want a solid foundation in physics and a rigorous set of engineering courses that will allow them to pursue an engineering related career or an advanced degree in engineering.

Requirements for the Engineering Physics Major

Core Curriculum Requirement:

The general core curriculum requirements are 48-63 Credit Hours dependent on courses taken.

However, Natural Science Elective, Scientific Perspectives, Mathematical Perspectives, Oral Communication Flag, and Quantitative Reasoning Flag are satisfied by major courses, thereby leaving 39 - 48 Credit Hours outside of the major.

Mathematical Perspectives:

- MATH 170 - Calculus I

Scientific Perspectives, Natural Science Elective, Quantitative Reasoning and Oral Communication:

Included within the major.

Major Requirements:

75 credit hours in physics, as follows:
23 hours of physics courses:

- PHYS 170 - University Physics I
- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II
- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- PHYS 350 - Theoretical Mechanics I
- PHYS 360 - Electromagnetism I
- PHYS 364 - Physical Optics
- PHYS 365 - Physical Optics Lab

32 hours of engineering courses:

- ENGR 173 - Explorations in Engineering
- ENGR 180 - Intro to MATLAB
- ENGR 244 - Electronics
- ENGR 245 - Electronics Lab
- ENGR 346 - Signals, Systems & Measurements
- ENGR 347 - Signals, Systems & Measurements Lab
- ENGR 350 - Digital Logic and Circuit Design
- ENGR 354 - Microprocessors
- ENGR 358 - Analog and Digital Communication
- ENGR 370 - Fluid Mechanics
- ENGR 380 - Control Systems
- ENGR 384 - Heat Transfer
- ENGR 395 - Senior Project I
- ENGR 396 - Engineering Physics Colloquium
- ENGR 398 - Senior Project II

Additional Major Requirements:

17 hours of mathematics and computer science from:

- CSCI 170 - Computer Science I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 230 - Intro to Ordinary Diff Equat

Note(s):

- Specific requirements are modifiable for the needs and interests of each individual student.
- A 2.000 cumulative average must be attained within the major, as listed in Degree Works.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

- This number assumes that at least two of the ER/S, DCR or Writing Intensive Electives are fulfilled with other core courses.

• DCR or General Elective (If Needed).

Total (15).

Scheduling Notes:

• Consult the Core Curriculum requirements of the Catalog.
• The E/RS Focus Elective, Diversity Curriculum Elective, and Writing Intensive Elective requirements may be used to satisfy another element of the core or the major.
Physics, B.S.

The program in physics is designed to familiarize students with the techniques of mathematical and experimental physics that would be useful to them in an industrial research or engineering position; in physics teaching; as a general preparation for more advanced graduate work in any of the varied fields of physics; or in such disciplines as astronomy, space science, biophysics, computer science, engineering, geophysics, medicine, law, and oceanography.

Requirements for the Physics Major

Core Curriculum Requirements:

The general core curriculum requirements are 48-63 Credit Hours dependent on courses taken.

However, Natural Science Elective, Scientific Perspectives, Mathematical Perspectives, Oral Communication Flag, and Quantitative Reasoning Flag are satisfied by major courses, thereby leaving 39 - 48 Credit Hours outside of the major.

Mathematical Perspectives:

• MATH 170 - Calculus I

Scientific Perspectives, Natural Science Elective, Quantitative Reasoning and Oral Communication:

• Included within the major.

Major Requirements:

68 - 69 credit hours in physics, as follows

44 hours of physics courses:

• PHYS 170 - University Physics I
• PHYS 171 - Explorations in Physics I
• PHYS 172 - University Physics II
• PHYS 173 - Explorations in Physics II
• PHYS 242 - Circuit Analysis
• PHYS 243 - Circuit Analysis Lab
• PHYS 330 - Modern Physics I
• PHYS 331 - Modern Physics I Lab
• PHYS 340 - Modern Physics II
• PHYS 341 - Modern Physics II Lab
• PHYS 350 - Theoretical Mechanics I
• PHYS 355 - Advanced Physics Lab
• PHYS 360 - Electromagnetism I
• PHYS 364 - Physical Optics
• PHYS 365 - Physical Optics Lab
• PHYS 376 - Quantum Mechanics I
• PHYS 377 - Quantum Mechanics II
• PHYS 382 - Thermodynamics
• PHYS 395 - Physics Research
• PHYS 398 - Physics Thesis

3 hours of physics electives (capstone course), from:

- PHYS 387 - Biophysics
- PHYS 388 - Astrophysics
- PHYS 389 - Solid State Physics
- PHYS 390 - Special Studies (area to be determined by department)

Additional Major Requirements:

21-22 credit hours, as follows

4-5 hours of additional science courses from either:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab

or

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab

17 hours of mathematics and computer science from:

- CSCI 170 - Computer Science I
- MATH 171 - Calculus II
- MATH 220 - Calculus III
- MATH 230 - Intro to Ordinary Diff Equat
  - MATH Elective. Students wishing to minor in Applied Mathematics should take MATH 222 as their math elective. Student wishing to major or minor in Mathematics should take MATH 225 as their math elective. One additional course above MATH 225 is then required for the Mathematics Minor.
Note(s):

- Specific requirements are modifiable for the needs and interests of each individual student.
- A 2.000 cumulative average must be attained within the major, as listed in Degree Works.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Note(s):

*Students wishing to minor in Applied Mathematics should take MATH 222 as their math elective. Student wishing to major or minor in Mathematics should take MATH 225 as their math elective. One additional course above MATH 225 is then required for the Mathematics Minor.

**Not required, but strongly recommended for students interested in attending a graduate program.

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- The E/RS Focus Elective, Diversity Curriculum Elective, and Writing Intensive Elective requirements may be used to satisfy another element of the core or the major.
Minors

Electronics Engineering Minor

The Minor in Electronics Engineering aims at teaching students the fundamentals of electronics engineering and introducing them to the exciting applications of modern electronics. The minor is designed to provide students a foundation to explore specialized topics in electronics engineering such as Electrical Circuit Analysis, Semi-conductor Electronics, Digital Logic Circuits, Microprocessors, Communication Theory, and Control Systems.

Requirements:

19 hours of physics and engineering courses:

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- PHYS 172 - University Physics II
  - ENGR 173 - Explorations in Eng. I
- PHYS 242 - Circuit Analysis
- PHYS 243 - Circuit Analysis Lab
  - ENGR 244 - Electronics
  - ENGR 245 - Electronics Lab
  - ENGR 350 - Digital Logic & Circuit Design

A minimum of 3 hours of electives from:

- ENGR 354 - Microprocessors
- ENGR 346 & 347 - Signals and Systems & Lab
- ENGR 348 - Heat Transfer
- ENGR 372 - Wireless Systems

8 hours of math pre-requisites:

- MATH 171 - Calculus II
  - MATH 172 - Calculus II
Physics Minor

18 total credit hours are required, as follows:

8 hours of introductory physics courses:

- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I
- PHYS 162 - College Physics II
- PHYS 163 - Introductory Physics Lab II

or

- PHYS 170 - University Physics I
- PHYS 171 - Explorations in Physics I
- PHYS 172 - University Physics II
- PHYS 173 - Explorations in Physics II

Or any appropriate combination of the above classes.

10 hours of electives:

- PHYS 206-398 (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Political Science

The Department of Political Science offers these degrees and programs:

- The Bachelor of Arts in Political Science
- The Bachelor of Arts in International Studies
- The Minor in Political Communication
- The Minor in Political Science
- The Minor in Political Thought
- The Minor in International Studies
- The Associate degree in Political Science
Bachelor of Arts

International Studies: Europe, B.A.

Bachelor of Arts Degree in International Studies

Fields of Concentration: Europe, International Business, Latin America, or Post-Colonial Studies

International Studies is an interdisciplinary program that is inspired by Xavier’s Jesuit tradition to prepare men and women for others as informed, ethically aware citizens who can thrive in today’s global society. By majoring in international studies, you will:

- Learn to assess international developments, trends, dilemmas and policy issues.
- Develop critical thinking skills and tools necessary for successful engagement with an increasingly interconnected world.
- Engage in interdisciplinary study in language, history, political science and economics to shape an informed and comprehensive world view.

Majors choose one of the following concentrations:

- Europe, International Business, Latin America, or Post-Colonial Studies.

International studies majors take a variety of courses from many disciplines, including:

- Language courses that emphasize culture, history and literature
- Political science courses in comparative politics and international relations
- History courses that provide in-depth analysis of an area of the world
- Microeconomics and macroeconomics

Study abroad or an internship in an international business or non-governmental organization is a required component in the program. Students are encouraged to study abroad through one of Xavier’s many programs. They may also participate in Xavier’s academic service learning semesters.

Requirements for the International Studies Major

Requirements in the Core Curriculum:

Undergraduate Core Curriculum, including:

Economics:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
History

• Historical Perspectives in the area of concentration (Europe, Asia, Africa, Latin America). Students with a concentration in International Business may take any course in any area.

Language:

• For Spanish, French, or German - Intermediate Proficiency, plus 6 hours of 300-320.
• For other modern language, such as Arabic, Chinese, Italian, and Japanese: Intermediate Proficiency plus 6 hours when available either at Xavier or another institution, such as the University of Cincinnati.

Statistics:

• MATH 116 - Elementary Statistics or
• MATH 156 - General Statistics or
  ◦ Equivalent

Study Abroad:

• Required. Students may study in the country of their choice. Students may choose short Xavier faculty-led summer programs or full semester programs.

Required Courses for All Concentrations

18 credit hours, as follows

6 hours of specific courses from:

• POLI 120 - Comparative Govt and Politics
• POLI 277 - International Relations

3 hours from a choice of either:

• POLI 390 - Sem: International Relations
  ◦ HIST 400 Level Seminar: International topic with approval of Director

3 hours from a choice of either:

• POLI 374 - U.S. Foreign Policy
• HIST 428 - SEM: Latin Amer Revolutions
3 hours from a choice of either:

- POLI 372 - International Political Economy
- ECON 300 - Int'l Trade & Bus Environment

3 hours from study abroad:

- You may study in the country of your choice. A minimum of three credit hours must be taken

15 hours of courses in a chosen concentration:

Europe:

Select 5 courses from an approved list, including

- ENGL 375 - Literature and the Arts in Ireland
- ENGL 470 - Modern British Literature
- ENGL 475 - Modern Irish Literature
- HIST 361 - Europe 1815-1945 (European Societies at War)

International Studies: International Business, B.A.

Bachelor of Arts Degree in International Studies

Fields of Concentration: Europe, International Business, Latin America, or Post-Colonial Studies

International Studies is an interdisciplinary program that is inspired by Xavier’s Jesuit tradition to prepare men and women for others as informed, ethically aware citizens who can thrive in today’s global society. By majoring in international studies, you will:

• Learn to assess international developments, trends, dilemmas and policy issues.
• Develop critical thinking skills and tools necessary for successful engagement with an increasingly interconnected world.
• Engage in interdisciplinary study in language, history, political science and economics to shape an informed and comprehensive world view.

Majors choose one of the following concentrations:

Europe, International Business, Latin America, or Post-Colonial Studies.

International studies majors take a variety of courses from many disciplines, including:

• Language courses that emphasize culture, history and literature
• Political science courses in comparative politics and international relations
History courses that provide in-depth analysis of an area of the world
Microeconomics and macroeconomics

Study abroad or an internship in an international business or non-governmental organization is a required component in the program. Students are encouraged to study abroad through one of Xavier’s many programs. They may also participate in Xavier’s academic service learning semesters.

Requirements for the International Studies Major

Requirements in the Core Curriculum:

Undergraduate Core Curriculum, including:

Economics:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

History

- Historical Perspectives in the area of concentration (Europe, Asia, Africa, Latin America). Students with a concentration in International Business may take any course in any area.

Language:

- For Spanish, French, or German - Intermediate Proficiency, plus 6 hours of 300-320.
- For other modern language, such as Arabic, Chinese, Italian, and Japanese: Intermediate Proficiency plus 6 hours when available either at Xavier or another institution, such as the University of Cincinnati.

Statistics:

- MATH 116 - Elementary Statistics or
- MATH 156 - General Statistics or
  - Equivalent

Study Abroad:

- Required. Students may study in the country of their choice. Students may choose short Xavier faculty-led summer programs or full semester programs.
Required Courses for All Concentrations

18 credit hours, as follows

6 hours of specific courses from:

• POLI 120 - Comparative Govt and Politics
• POLI 277 - International Relations

3 hours from a choice of either:

• POLI 390 - Sem: International Relations
  ◦ HIST 400 Level Seminar: International topic with approval of Director

3 hours from a choice of either:

• POLI 374 - U.S. Foreign Policy
• HIST 428 - SEM: Latin Amer Revolutions

3 hours from a choice of either:

• POLI 372 - International Political Econom
• ECON 300 - Int'l Trade & Bus Environment

3 hours from study abroad:

• You may study in the country of your choice. A minimum of three credit hours must be taken

15 hours of courses in a chosen concentration:

International Business:

• ECON 300 - Int'l Trade & Bus Environment
• POLI 372 - International Political Econom
  ◦ Whichever was not taken as a core requirement for the Major
Complete 2 of 3 sequences from:

International Finance:

- ACCT 200 - Introductory Financial Acct
- FINC 300 - Business Finance
- FINC 476 - International Finance

Marketing:

- MKTG 300 - Principles of Marketing
- MKTG 320 - International Marketing

Management:

- ECON 300 - Int'l Trade & Bus Environment
- MGMT 300 - Managerial Behavior
- MGMT 325 - International Management

Notes:

- A 2.000 cumulative average must be attained in these required and concentration courses.
- Concentration courses must come from two or more disciplines; no more than three courses in Modern Languages and English combined or three courses from History may count toward the Concentration.

Additional Major Requirements:

Political Science, B.A.

Students in political science pursue answers to the vital questions of equity, justice, and peace in the modern world. Our challenging courses consider the best political and social science literature with a view to gaining a deeper understanding of contemporary domestic and foreign controversies, including those of human rights and democracy, equality and race, poverty and social class, terrorism and war. In this way, students confront the promise and limits of political and social solutions to humanity's gravest problems.

The department offers intellectually stimulating introductory courses in the following fields:

- American Government and Politics
- Comparative Government
- Political Philosophy
- International Relations

Courses go beyond the presentation of "nuts and bolts" to explore underlying issues of real significance. Upper level courses are limited in size and scope, allowing students to debate the political and social issues that are of greatest interest to them.

The department has internship programs in Washington, D.C., Columbus, and Cincinnati that allow students to earn course credit. Students may also earn credit for internship experiences closer to home, or by participating in the department's Summer State Politics Internship Program at the Ohio General Assembly. Students can apply what they learn in their courses to the political and social institutions and processes that they experience as interns.

Faculty in the Political Science department help lead study abroad programs in Ireland and Paris, France. Students are also encouraged to undertake a major undergraduate research project under the supervision of a faculty member and to present their research at an undergraduate research conference. In addition, the department's student-run undergraduate research journal, the Xavier Journal of Politics provides students with opportunities to participate in high-level research by participating in the editorial process or submitting their work for publication.
Requirements for the Political Science Major

Core Curriculum Requirements:

48-63 Credit Hours dependent on courses taken, including

Social Sciences:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Mathematics:

Take Statistics with either

- MATH 116 - Elementary Statistics or
- MATH 156 - General Statistics

  ◦ Plus 3 hours of MATH elective

Major Requirements:

33 credit hours, as follows

12 hours of political science courses from:

- POLI 120 - Comparative Govt and Politics
- POLI 140 - American Government and Politics
- POLI 277 - International Relations
- POLI 301 - Political Philosophy

3 hours from a choice of either:
18 hours of political science electives selected from:

• POLI 200-490 (Refer to Course Descriptions.)

Note(s):

• A 2.000 cumulative average must be attained in the political science courses.

• In addition to formal course work, students are encouraged to include experiential learning in their program if they feel it will contribute to their learning goals and objectives. To accomplish this, the department facilitates intern programs in Washington, D.C., Columbus, and Cincinnati, as well as a local internship program that allows students to engage politics close to home. The Political Science major provides breadth which ensures that the student is well grounded in the discipline and at the same time permits flexibility for concentration in a sub-field.

• Political Science majors are also required to complete Microeconomics, Macroeconomics courses and two Math courses, one of which must be a statistics course (Math 116 or Math 156), in addition to a Quantitative Reasoning flag.
• All students must elect one each of oral communications, quantitative reasoning and writing-intensive flagged courses; many of these are available within the core or major.
• Summer Study Abroad and Internship courses may reduce the number of POLI electives and credit hours needed during the Fall and Spring semesters.
Associate of Arts

Political Science, A.A.

Core Curriculum Requirements:

Undergraduate Core Curriculum

Concentration Requirements:

15 credit hours, as follows

9 hours of political science courses from:

• POLI 120 - Comparative Govt and Politics
• POLI 140 - American Government and Politi
• POLI 277 - International Relations

3 hours from a choice of either:

• POLI 301 - Political Philosophy
• POLI 350 - Political Theory & Amer Regime

3 hours for an elective from:

• POLI 200-490 (Refer to Course Descriptions.)
Note(s):

- A 2.000 cumulative average must be attained in these political science courses.

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates

Minors

International Studies Minor

15 credit hours are required, as follows:

9 hours from:

- POLI 120 - Comparative Govt and Politics
- POLI 277 - International Relations
- POLI 390 - Sem: International Relations

3 hours from either

- ECON 300 - Int'l Trade & Bus Environment
- POLI 372 - International Political Econom

3 hours from 1 elective course of:

- HIST 401 (3)
- HIST 417 (3)
Political Communication Minor

The minor in political communication enables students to explore the process through which citizens learn about the political process and the institutions, people and decisions that impact the world around us. The minor also provides students with an opportunity to develop oral and writing skills that are central to the students' academic and social development, while enhancing their ability to understand the political process and contribute effectively to civic life.

18 total credit hours required

- POLI 140 - American Government and Politics

3 hours from a choice of either:

- POLI 301 - Political Philosophy
- POLI 350 - Political Theory & Amer Regime

3 hours for an elective from:

- POLI 200-490 (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative average must be attained in these political science courses.

**Sociology**

The Department of Sociology offers these degrees and programs:

- The Bachelor of Arts in Sociology
- The Minor in Sociology
- The Associate in Sociology
Bachelor of Arts

Sociology, B.A.

Sociology is the scientific study of the relationship between human behavior and the larger social and historical context. Sociologists seek to discover regularities and order in social behavior and to express these patterns as theoretical generalizations that apply to a wide range of behaviors and settings. General and specialized areas of study are covered. Specific areas of focus include cultural diversity, inequality, and social change. Requirements are designed to provide a strong foundation in social theory and research methods while allowing students flexibility in the design of their programs. The department encourages experiential learning, including internships and international study abroad. Along with the significant contribution sociology makes to a liberal arts education, the program prepares the Sociology major for graduate study in a variety of fields and a broad range of careers, including: (1) graduate study in sociology, counseling, business, or education, among others; (2) graduate study in the professions, such as law; (3) careers in research, in the public or private arena; (4) careers in organizations, such as administration and consultant positions in business, government, and community agencies and organizations; (5) community change-oriented positions in such fields as nonprofit management, public health, or urban planning.

Requirements for the Sociology Major

Core Curriculum Requirements:

See Undergraduate Core Curriculum

Mathematics:

Take Statistics with either

- MATH 116 - Elementary Statistics or
- MATH 156 - General Statistics

  - Plus 3 hours of Mathematical Perspectives.

Social Sciences Requirement:

- Included within the major requirements.

Major Requirements:

30 credit hours, as follows
18 hours as follows:

- SOCI 101 - Introduction to Sociology
- SOCI 180 - Culture & Society
- SOCI 200 - Foundational Social Thought
- SOCI 352 - Investigating Social Life I
- SOCI 353 - Investigating Social Life II
- SOCI 365 - Contemporary Social Theory

12 hours of upper-division electives from:

- SOCI 200-499 (Refer to Course Descriptions)

Note(s):

- A 2.000 cumulative average must be attained in the sociology courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Associate of Arts

Sociology, A.A.

Core curriculum requirements:

Undergraduate Core Curriculum

Concentration Requirements:

15 credit hours, as follows

3 hours of elective course from:

- SOCI 200-499 (Refer to Course Descriptions.)

12 hours of sociology courses from:

- SOCI 101 - Introduction to Sociology
- SOCI 180 - Culture & Society
- SOCI 352 - Investigating Social Life I

Note(s):

- A 2.000 cumulative average must be attained in the sociology courses.

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates
Minors

Sociology Minor

15 credit hours are required, as follows:

9 hours from:

- SOCI 101 - Introduction to Sociology
- SOCI 200 - Foundational Social Thought
- SOCI 352 - Investigating Social Life I

6 hours of elective courses selected from:

- SOCI 200-499 (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative average must be attained in these courses.

Theater

Bachelor of Arts

Theatre, B.A.

Xavier University's Theatre program combines practical experiences and professional collaborations with a rigorous and diverse curriculum. In addition to a strong foundation of theatre courses, the Bachelor of Arts Degree in Theatre offers students the opportunity to focus in either the area of performance or design and technology. The program prepares students for professional experience outside of Xavier by fostering a practical, cross-cultural and student-oriented curriculum.
Requirements for the Theatre Major

Core Curriculum Requirements:

See the Undergraduate Core Curriculum.

Major Requirements

• 48 credit hours, as follows:

Theatre Foundation Courses, 33 credits from:

• THTR 100 - Introduction to the Theatre
• THTR 110 - Survey of Dramatic Lit
• THTR 120 - Acting I
• THTR 150 - Stagecraft I
• THTR 198 - Theatre Technology Workshop *
• THTR 199 - Theatre Performance Workshop *
  ◦ THTR 201 - Theatre History I
  ◦ THTR 202 - Theatre History II
  ◦ THTR 310 - Directing

* Students must take at least one each of 198 and 199

• THTR 210 - Acting I
• THTR 350 - Directing
• THTR 450 - Senior Thesis

Theatre Performance/Production Courses, 15 credits from:

• THTR 160 - Improvisation
  ◦ THTR 220 - The Audition Process **
  ◦ THTR 310 - Acting II
  ◦ THTR 330 - Set Design
  ◦ THTR 331 - Lighting Design
  ◦ THTR 332 - Costume Design
  ◦ THTR 340 - Stage Management
  ◦ THTR 420 - Acting III
  ◦ THTR 430 - Theatre Portfolio **
  ◦ Other Classes as approved by the Chair of Theatre

** Students must take either THTR 220 or 430
Additional Requirements:

- Present justification for Senior Thesis – must be approved by department faculty,
- Pass a comprehensive theatre exam during the spring semester of senior year.
- Participation in at least one regional audition/interview event (SETC, UPTA, etc.). Event must be approved by faculty.
- Production attendance for all shows in which not cast or holding a technical position.
- Attendance at 20 professional productions.
- Audition or submit technical application for all departmental productions.

Note(s):

- A 3.000 cumulative average must be attained in the theatre major.
- Students are required to have regular advising meetings with their theatre department advisor.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Bachelor of Science

Theatre Education, B.S.

Xavier University's theatre education program combines a well-rounded theatre education with the necessary educational courses for students to receive their license to teach theatre to grades PK - 12 in Ohio's public schools. Practical experiences and professional
collaborations in theatre help to prepare the next generation of theatre teachers the breadth of knowledge to face the challenges of teaching today's students.

Requirements for the Theatre Education Major

Core Curriculum Requirements:

• Undergraduate Core Curriculum

Major Requirements:

Theatre Foundation Courses

28 credit hours from:

• THTR 100 - Introduction to the Theatre
  ◦ THTR 110 - Survey of Dramatic Literature
• THTR 120 - Acting I
• THTR 150 - Stagecraft I
  ◦ THTR 198 - Theatre Technology *
  ◦ THTR 199 - Performance Workshop *
  ◦ THTR 201 - Theatre History I
  ◦ THTR 202 - Theatre History II
  ◦ THTR 210 - Script Analysis
  ◦ THTR 310 - Directing

* Students must take at least one each of THTR 198 and THTR 199

Theatre Performance/Production Courses:

12 credits from:

• THTR 121 - Voice and Movement
• THTR 160 - Improvisation
• THTR 220 - Improvisation for the Actor or
  ◦ THTR 430 - Theatre Portfolio

• THTR 320 - Acting II
Theatre Electives:

3 credits from:

- COMM 235 - Digital Design
- ENGL 425 - Shakespeare
- ENGL 472 - Modern Drama
- MUSC 100 - Basic Music Theory
- MUSC 282 - Private Lesson: Voice

Education Requirements:

31 credits:

- EDMS 131 - Professional Education
- EDSP 200 - Sp Ed: Identification& Issues

Minors

Musical Theatre Minor

The Musical Theatre Minor is an interdisciplinary minor with the Department of Music. This minor brings together courses involving singing, dancing, and stage performance to provide a unique opportunity for students interested in music and theatre to concentrate on both areas while earning one minor. These are students who, due to constraints of time and credit hours, must currently choose between either a Music or a Theatre Minor.

21 total credits are required, as follows:

Music Courses:

- MUSC 100 - Basic Music Theory
- MUSC 282 - Private Lesson: Voice

Dance Courses:

- Four Classes, at least two in the same area

Music/Theatre Classes:

- MUSC/THTR 219 - American Musical Theater

Theatre Classes:

- THTR 100 - Introduction to the Theatre
- THTR 120 - Acting I

Performance Classes:

- Cast in a Musical Production from:
  - THTR 199 - Theatre Performance Workshop
  - MUSC 340 - Opera Workshop
Theatre Minor

19 total credit hours are required, as follows:

12 hours of theatre credits:

- THTR 100 - Intro to Theatre
- THTR 120 - Acting I
- THTR 150 - Stagecraft
- THTR 210 - Script Analysis

At least 1 credit must be a 198 or 199 up to 4 (1/4)

- Or Another Theatre Course (3)

3 credits from another 200 or above level theatre course

Theology

The Department of Theology offers the Bachelor of Arts, the Associate of Arts and the Master of Arts in Theology degrees. And, in conjunction with the Health Services Department in the College of Social Sciences, Health and Education, a Master of Arts degree in Health Care Mission Integration is offered.

Also offered is a minor in Theology and a minor in Religious Education.

Bachelor of Arts

Theology, B.A.

Theology is the study both of the human experience of God and of the transmission of that experience through religious traditions, doctrines, ethics, and rituals. It is essentially a dialogue between religious traditions and human experience. Such dialogue is critical for human understanding in a time of increased encounters among world religions. The theology faculty attempts to assist students in this critical dialogue through courses about religious traditions, especially the Jewish, Christian, and Muslim traditions, and by other courses that focus on contemporary issues from a theological perspective. The theology major prepares students for graduate studies in theology, law, history, journalism, and other forms of communication, as well as for directing religious education, teaching religious studies in secondary schools, and other forms of ministry. With appropriate counseling, a student can combine this major in the liberal arts with a major in another field (e.g. classics, business, biology, English, history, psychology, secondary education), both for the student's personal enrichment and in view of broader career opportunities.

Undergraduates who attend Xavier University have a unique opportunity to begin work towards their master's degree during their undergraduate programming. The 5-year path provides a focused, cost-effective way for our most qualified undergraduate students to prepare for a broad variety of professional careers in the service of faith and the promotion of justice in a diverse and pluralistic world.
Requirements for the Theology Major

Core Curriculum Requirements:

48 credit hours, including

Theology Requirement:

• Included within the major.

Major Requirements:

36 credit hours, as follows

24 hours from:

• THEO 111 - Theological Foundations
• THEO 209 - The Christian Tradition I
• THEO 210 - The Christian Tradition II
• THEO 290 - Christian Doctrine Today
• THEO 295 - Senior Seminar: Ideas & Method
• THEO 303 - Christian Ethics: Methods & Q
• THEO 328 - Intro to Christian Scriptures
• THEO 351 - Intro to Hebrew Scriptures

3 hours from:

• A non-Christian religious traditions elective.

9 hours from elective courses selected from:

• THEO 201-499 (Refer to Course Descriptions.)
Note(s):

- A 2.000 cumulative average must be attained in the theology courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

See Undergraduate Core Curriculum

Concentration Requirements:

18 total credit hours, as follows:

6 hours of upper division electives from:

• THEO 201-499 (Refer to Course Descriptions.)

12 hours of required theology courses from:

• THEO 111 - Theological Foundations
• THEO 209 - The Christian Tradition I or 
  THEO 210 - The Christian Tradition II
• THEO 303 - Christian Ethics: Methods & Q

Note(s):

• A 2.000 cumulative average must be attained in these theology courses.
Master of Arts

Health Care Mission Integration, M.A.

Xavier’s graduate program in health care mission integration combines the study of theology with the study of health services administration. This M.A. program is designed to provide preparation for Mission Directors and others who lead their colleagues in Catholic and other Christian health services to foster and enhance the spirit of love, compassion, and service within these institutions. The program focuses on understanding the Christian tradition and embodying it midst the challenges of institutional, technological, and cultural change.

Students will study in a challenging educational environment with experts in the fields of theology and health care service administration. An internship will provide field experience. Professional seminars (non-credit) are also required.

Curriculum

The Master of Arts in Health Care Mission Integration requires the satisfactory completion of 36 semester hours of course work at the graduate level and an internship, and earning an overall GPA of at least 3.000.

Theology courses:

- THEO 504 - Foundations of Scripture Study
- THEO 630 - Theology of Ministry
- THEO 540 - Modern Catholic Social Teachin

One course in faith and culture (3 cr): e.g.:

- THEO 551 - Faith, Culture & Ethnicity
- THEO 571 - Black Theology

One course in theological ethics (3 cr): e.g.:
One course in spirituality (3 cr): e.g.

- THEO 527 - Creating the Beloved
- THEO 528 - A Spirituality of Presence

Internship Requirements:

- THEO 636 - Internship in Health Care Mission

Internship of 100 clock hours with a Mission Director in a Catholic or other Christian Health Care Facility. Faculty direction will be provided for the required paper for this three credit course.

Theology credit total: 21 credit hours

Health Services Administration courses:

- HESA 682 - Hospitals:Struct/Function/Mgmt
- HESA 571 - Healthcare Services in the U.S
- HESA 511 - Managerial Concepts in H.C Org
- HESA 581 - Health Care Legal Aspects
- HESA 515 - Health Care Workforce Strategy
- HESA 583 - Ethical Issues in Health Care

HESA credit total: 15 credit hours

Total credit hours in the program: 36
Admission

To be considered for admission as a degree-seeking graduate student in the Health Care Mission Integration program you must submit the following:

- Completed application with application fee
- One official transcript of all undergraduate and graduate work from accredited colleges or universities
- Results of either the Miller Analogies Test (MAT) or Graduate Record Exam (GRE)
- Two completed recommendation forms--preferably one from someone who can address your academic or professional skills and abilities and one who can address your personal character and suitability for work in health care.
- A statement of reasons and goals for enrolling in this program (1,000-2,000 words)
- Current resume

Your application to the Xavier University graduate program in health care mission integration is carefully reviewed by our admissions committee. We consider each student's application on a case-by-case basis with personal attention given to all your application materials.

Admission criteria include, but are not limited to:

- Preferred undergraduate grade point average of 3.0 or higher on a 4.0 scale.
- Preferred GRE scores of 20th percentile or higher in quantitative section and 50th percentile or higher in the verbal section. Or preferred score of 400 or more on the Millers Analogy Test (MAT).
- Review of the completed file of the applicant.
- A personal interview with Admission Committee Members.

All entering students must have passed an accounting course in an accredited college or university.

For more information, call the Director of the M.A. in Theology, at 513 745-2894 or email issj@xavier.edu.

Admissions materials should be sent to the Health Services Administration Department, 3800 Victory Parkway, Cincinnati, OH 45207-7331. To contact that department, please call 513 745-3687 or email xumhsa@xavier.edu. The department's fax is 513 745-4301.

Theology, M.A.

The mission of Xavier's theology program is to provide a transformative theological education from a Catholic and ecumenical perspective inspired by the documents of the Second Vatican Council and the 35th General Congregation of the Society of Jesus. Accordingly, our mission empowers graduate students to: think theologically, analyze issues from a Catholic and interreligious perspective, and act responsibly in the world for the promotion of peace and justice.

Our graduate program in theology provides students with a firm foundation in Christian theology through the study of scripture, tradition and ethics. The program however, is flexible enough to accommodate a wide variety of interests while equipping students with the historical awareness and professional resources necessary to enter or advance in careers such as teaching, ministry or writing; to pursue doctoral work; or to promote their spiritual development.

Because no definite amount of previous study of theology is prerequisite for admission to the program, students may vary considerably in their preparation. Ordinarily, applicants should have a background in the humanities, but each applicant will be considered individually. Students without sufficient undergraduate background in theology or religious studies will normally be required to take THEO 501, Intro to the Study of Theology, as a prerequisite for admission to the M.A. program.

All applicants must have a bachelor's degree from a regionally accredited institution with an undergraduate GPA of 2.700 or better. In addition, all applicants must complete the Miller Analogies Test (MAT) prior to acceptance and obtain a score of 406 or higher. The MA in Theology will require satisfactory completion of 30 semester hours of graduate work (i.e. ordinarily ten courses), all of which must be at the graduate (500-800) level.

Undergraduates who attend Xavier University have a unique opportunity to begin work towards their master's degree during their undergraduate programming. The 5-year path provides a focused, cost-effective way for our most qualified undergraduate students to prepare for a broad variety of professional careers in the service of faith and the promotion of justice in a diverse and pluralistic world.
30 total credit hours are required, as follows:

- THEO 504 - Foundations of Scripture Study
- THEO 520 - Journey Through Christianity I
- THEO 524 - Journ Through Christianity II

One course in ethics, including:

- THEO 506 - Found Issues in Christian Ethi
- THEO 540 - Modern Catholic Social Teachin
  - THEO 542-545 (Refer to Course Descriptions.)
  - THEO 547 - Ethics For a Planetary Crisis
- THEO 548 - Bioethics
- THEO 572 - New Testament Ethics
- THEO 615 - Contemporary Ethical Issues

One course in systematics, including:

- THEO 624 - Theological Imagination
- THEO 595 - Christian Eschatology
  - THEO 530-695 (Refer to Course Descriptions.)

Five graduate-level theology electives selected from:

- THEO 500-695 (Refer to Course Descriptions.)

Note(s):

- A 2.800 cumulative average must be attained in all the graduate credit courses.
- Some students may substitute a 6-hours thesis (THEO 699) for two of their elective courses. This must be discussed and agreed to with an advisor prior to completion of the first 12 hours of graduate work. The thesis will be read by its director and two additional readers, and it must be defended in a final oral examination. Students who do not write a thesis will be required to 1) submit a research paper demonstrating their mastery of research skills and their ability to synthesize key themes from their coursework into a coherent theological position, or 2) successfully pass a comprehensive examination covering the central subject matter of the graduate program. In both cases, a faculty committee will assess the quality of this final paper or exam.
Two optional concentrations are available, which can be added and incorporated into the program.

Concentration in Social and Pastoral Ministry:

Students engaged in or preparing for professional ministry in church and society may choose to complete this concentration.

Beyond the 30 hours required for the M.A. degree, the concentration requires six additional credit hours in ministry skills courses and a three credit ministerial internship (THEO 690). Two required courses, Theology of Ministry (THEO 630) and Ethics in Ministry (THEO 632), take the place of two M.A. electives.

Concentration in Religious Education:

This is designed to prepare theology students to meet the Archdiocese of Cincinnati's professional requirements for Catholic High School Religion Teacher Certification at the secondary level.

Beyond the 30 hours required for the M.A. degree, the concentration requires at least 15 additional credit hours. This includes Student Teaching for 9 hours from EDMS 470, along with THEO 538 and EDMS 550 as required courses. Also, a choice of either EDFD 503 or EDFD 510 is required. Note that THEO 538 can double count as an elective in the 30 hours required for the MA Theology degree.

Foundational Courses

- THEO 504 - Foundations of Scripture Study
- THEO 520 - Journey Through Christianity I
- THEO 524 - Journey Through Christianity II
  - THEO 624 - Theological Imagination: Approaches to the Sacred
  - One THEO course in ethics.
Concentration Courses

4 Elective Courses in Graduate-Level Theology (12 Hours)

Final Research Paper

Note(s):

The MA program in Theology invites applications from students with a bachelor's degree and a solid academic record. Admission decisions are based on factors such as past academic performance, standardized test score, interview, and other information submitted.

Further information and application materials may be obtained from the Office of Graduate Services, 513 745-3360.

Institute for Spirituality and Social Justice

The ISSJ of Xavier's Theology Department empowers constructive theological reflection and responsible social action through three tracks, including (1) Professional Practice (Ethics, Spirituality, and Professional Practice, or ESSP), (2) Solidarity and Sustainability in a Global Context (SSGC), and (3) Pastoral Care (Applied Spirituality and Pastoral Care, of ASPC). Each track includes offerings in three areas, (1) Programs, Workshops, and Retreats, (2) Certificates, and (3) Graduate Degrees. Each of the three tracks in all three areas is designed to cultivate depth of thought, imagination, and critical skills in a world challenged by violence, social inequity, and environmental instability. Distinctive features of the Institute include experiential learning through spiritual formation, practicums/internships, and the program capstone. The Institute is rooted in a rich tradition of spiritual practices coupled with rigorous intellectual inquiry and social analysis which manifest the Jesuit commitment to work in the service of faith and the promotion of justice in a diverse and pluralistic world.

For more information, call the Director of the M.A. in Theology, at 513 745-2894 or email issj@xavier.edu.

MA in Theology ISSJ Tracks:

Ethics, Spirituality and Professional Practice (36 credit hours)

The Professional Practice track is designed for professionals in business and non-profit communities interested in developing deeper spiritual understanding as well as practical skills for competent, ethical and theologically informed professional practices. This track is also appropriate for students interested in careers in the management and administration of churches and church-related organizations and corporations such as dioceses and social ministries.

The Professional Practice track combines theory and practice, building on the traditions of spiritual discernment (Ignatian and others), theological reflection and purposeful action. It develops adult learners as knowledgeable, thoughtful and responsible professionals who improve their work environments and society as a whole. Students learn to respond to challenging situations presented in their professional environments in ethically and spiritually responsible ways.

The program presumes a pluralistic religious environment in the workplace, emphasizing ways to understand, recognize, negotiate and celebrate interfaith relationships. It also reflects Xavier's mission to educate students to serve with excellence and ethical integrity in professional fields and to work for social and economic justice.

The goals of the program are:
• To improve understanding of the Christian spiritual, theological and ethical tradition in dialogue with contemporary challenges of religious traditions.

• To prepare professionals with a sound knowledge of ethical traditions and a commitment to bringing social-ethical perspectives to business and service environments.

• To facilitate the spiritual and theological formation necessary for professionals to integrate professional expertise with competent, ethical, and spiritually informed management practices.

Foundational Courses

• THEO 503 - Liberating Bible
• THEO 520 - Journey Through Christianity I: Community, Authority and Expansion
• THEO 524 - Journey Through Christianity II: Reformations, Modernities and the Global Context
• THEO 624 - Theological Imagination: Approaches to the Sacred
• THEO 547 - Ethics in a Time of Planetary Crisis
• THEO 690 - Discernment and Integration: Capstone Course

ESPP Track Courses

• Ignatian Tradition Course
  ◦ The Ignatian Tradition course can be satisfied by any one of several different courses, such as THEO 513 Jesuit Theology & Spirituality or THEO 514 - Spiritual Exercises in the 21st Century.

• Scripture and Justice Course
  ◦ The Scripture and Justice Course requirement could be fulfilled by one of several possible courses, such as THEO 579 - The Bible and Economic Justice or THEO 580 - Power, Politics and Empire in the New Testament.

• World Spiritual Traditions Course
  ◦ The World Spiritual Traditions Course can be satisfied by one of several possible courses, such as Introduction to Buddhist Spirituality, or Sufism

• THEO 644 - Human Person: Spiritual and Psychological Development

Elective Courses or Research-Based Thesis Option

Solidarity and Sustainability in a Global Context (36 credit hours)

The Solidarity and Sustainability track revolves around the typical definition of sustainability as "development that meets the needs of the present without compromising the ability of future generations to meet their own needs."

This track integrates questions of economic, social and environmental sustainability with the spiritual traditions that engage human potential. Ethical issues are regularly examined, including social justice questions related to distribution of resources, and the need for communal and environmental stewardship in a variety of ways, including the kinds of personal and social transformation that stem from a "change of heart."

Goals of the program include:

• To form an awareness of the current issues of economic and environmental sustainability.

• To develop an appreciation of the complexity and interrelatedness of the global issues that impact economic and environmental sustainability.

• To develop an appreciation of the cultural and historical underpinnings of religious traditions and to learn from other religious traditions in order to deepen one's life and contribution to the world.
• To acquire an ability to discriminate between the peaceful practices and the violent habits within religious traditions and to strengthen the recognition of the diversity of the human drives, seeking meaning within and beyond established religion.

• To engender habits of responsible collaborative action grounded in critical theological reflection and ethical discernment, and to invite others to engage in similar reflection and action.

Foundational Courses

• THEO 503 - Liberating Bible
• THEO 520 - Journey Through Christianity I: Community, Authority and Expansion
• THEO 524 - Journey Through Christianity II: Reformations, Modernities and the Global Context
• THEO 624 - Theological Imagination: Approaches to the Sacred
• THEO 547 - Ethics in a Time of Planetary Crisis
• THEO 690 - Discernment and Integration: Capstone Course

SSGC Track Courses

• Ignatian Tradition Course
  ◦ The Ignatian Tradition course can be satisfied by any one of several different courses, such as THEO 513 Jesuit Theology & Spirituality or THEO 514 - Spiritual Exercises in the 21st Century.
• Scripture and Justice Course
  ◦ The Scripture and Justice Course requirement could be fulfilled by one of several possible courses, such as THEO 579 - The Bible and Economic Justice or THEO 580 - Power, Politics and Empire in the New Testament.
• World Spiritual Traditions Course
  ◦ The World Spiritual Traditions Course can be satisfied by one of several possible courses, such as Introduction to Buddhist Spirituality or Sufism
• Global Justice or Ethics Course
  ◦ The Global Justice or Ethics course can be satisfied by one of several different courses, such as THEO 607 - Theology of Immigration or THEO 610 - Christian Ethics and Globalization.

Elective Courses or Research-Based Thesis Option

Applied Spirituality and Pastoral Care (39 credit hours)

The Applied Spirituality and Pastoral Care track is oriented to human growth and is thus appropriate for all seekers, but it is also specifically helpful to those preparing for professional practice in varieties of pastoral care including chaplaincy, education, campus ministry, youth ministry and varieties of social ministries.

The track explores the richness of Christian spirituality as a way of life oriented to the intellectual, affective, humane and relational qualities of human existence that make life meaningful and worthwhile. It prepares students to engage pastoral work in pluralistic contexts, since their social and pastoral ministries require cultural sensitivities, practical skills and a capacity to connect across religious traditions, with openness and respect.

Through the track, students:

• Gain knowledge about the tradition of Christian spirituality as a resource for theological imagination, personal and communal identity, and personal development.

• Gain an understanding of spiritual practices that promote personal growth, health and well-being, and share those spiritual practices with others in ways that are sensitive to and respect our pluralistic cultural context.

• Gain the skills necessary to engage pastoral practice with clarity about how spiritual growth and spiritual practice enhances their effectiveness and their longevity as pastoral caregivers.
Foundational Courses

- THEO 503 - Liberating Bible
- THEO 520 - Journey Through Christianity I: Community, Authority and Expansion
- THEO 524 - Journey Through Christianity II: Reformations, Modernities and the Global Context
- THEO 624 - Theological Imagination: Approaches to the Sacred
- THEO 547 - Ethics in a Time of Planetary Crisis
- THEO 690 - Discernment and Integration: Capstone Course

ASPC Track Courses

- Global Justice or Ethics Course
  - The Global Justice or Ethics course can be satisfied by one of several different courses, such as THEO 607 - Theology of Immigration or THEO 610 - Christian Ethics and Globalization.
- THEO 630 - Theology of Ministry
- THEO 632 - Ethics in Ministry
- THEO 644 - Human Person: Spiritual and Psychological Development
- THEO 645 - Pastoral Care & Counseling
- THEO 635 - Ministerial Internship or THEO 738 - Youth & Campus Ministry or THEO 715 - Supervised Field Education

ASPC Practicum

- CPE (Clinical Pastoral Education) with Theological Reflection

Minors

Religious Education Minor

The Religious Education Minor is designed to prepare theology majors to meet the Archdiocese of Cincinnati's professional requirements for Catholic High School Religion Teacher Certification. The Religious Education Minor alone does not suffice to meet those professional requirements. Rather, the theology major must be completed in addition to this minor in order to satisfy the necessary educational requirements for archdiocesan certification. The certification standards of other Catholic dioceses are similar to Cincinnati's, but students are strongly encouraged to check with the diocese where they plan to teach religion.

18 total credit hours are required, as follows:

9 hours of required courses from:

- EDFD 110 - Human Development & Learning or
• PSYC 231 - Developmental Psychology
• THEO 338 - Religious Ed & Youth Ministry
• EDMS 350 - Technology & Topics for Educat

9 hours of student teaching from:

• EDMS 470 - Student Teaching AYA

Note(s):

• A 2.70 minimum cumulative average must be attained in all Theology courses and the courses for the minor. The Theology Department will also assess a student's readiness to teach in January of their junior year.

Theology Minor

18 total credit hours are required, as follows:

12 hours of theology courses from:

• THEO 111 - Theological Foundations
• THEO 209 - The Christian Tradition I or
• THEO 210 - The Christian Tradition II
• THEO 351 - Intro to Hebrew Scriptures or
• THEO 328 - Intro to Christian Scriptures
• THEO 303 - Christian Ethics: Methods & Q

6 hours of electives from:

• THEO 201-499 (Refer to Course Descriptions.)
Note(s):

- The core curriculum theology requirement is included within the minor.
- A 2.000 cumulative average must be attained in these courses.

Other Programs

Institute for Spirituality and Social Justice

The ISSJ of Xavier's Theology Department empowers constructive theological reflection and responsible social action through three tracks, including (1) Professional Practice (Ethics, Spirituality, and Professional Practice, or ESSP), (2) Solidarity and Sustainability in a Global Context (SSGC), and (3) Pastoral Care (Applied Spirituality and Pastoral Care, of ASPC). Each track includes offerings in three areas, (1) Programs, Workshops, and Retreats, (2) Certificates, and (3) Graduate Degrees. Each of the three tracks in all three areas is designed to cultivate depth of thought, imagination, and critical skills in a world challenged by violence, social inequity, and environmental instability. Distinctive features of the Institute include experiential learning through spiritual formation, practicums/internships, and the program capstone. The Institute is rooted in a rich tradition of spiritual practices coupled with rigorous intellectual inquiry and social analysis which manifest the Jesuit commitment to work in the service of faith and the promotion of justice in a diverse and pluralistic world.

For more information, call the Director of the M.A. in Theology, at 513 745-2894 or email issj@xavier.edu.

College of Professional Sciences

The College of Professional Sciences prepares undergraduate and graduate students in the Catholic Jesuit tradition intellectually, morally, and spiritually for careers and professions of service by: Challenging students to strive for academic excellence and life-long learning. Providing applied experiences grounded in theoretical foundations. Promoting collaboration and community partnerships. Incorporating research, scholarship, and innovation. Integrating ethical behavior and a respect for individual differences and diversity.

Degrees, Programs and Block Schedules

The College of Professional Sciences has degree programs in three schools with additional distinct departments and programs. The departments in the college include: Counseling, Criminal Justice, Health Services Administration, Leadership Studies & Human Resource Development, Military Science, Occupational Therapy, Psychology, Radiologic Technology (program), Social Work, and Sport Studies. The School of Education includes: Childhood Education (Early, Middle, and Montessori), Reading and Teaching of English to Speakers of Other Languages (TESOL), Secondary Education, Special Education, and Educational Administration. Also, there is the School of Nursing and the School of Psychology.

Many of the programs within the College of Professional Sciences are accredited by professional societies and organizations including: CAATE (Commission on Accreditation of Athletic Training Education), CAHME (Commission on Accreditation of Healthcare Management Education), CCNE (Commission on Collegiate Nursing Education), CSWE (Council on Social Work Education), JRCERT (Joint Review Committee on Education in Radiologic Technology), ACOTE (Accreditation Council for Occupational Therapy Education), AMS (American Montessori Society), MACTE (Montessori Accreditation Council for Teacher Education), CACREP (Council for Accreditation of Counseling and Related Educational Programs), and TEAC (Teacher Education Accreditation Council), CAEP (Council for the Accreditation of Educator Preparation), and NASSM-NASPE (North American Society for Sport Management - National Association of Sport & Physical Education). The doctoral program in clinical psychology is accredited by the APA Office of Program Consultation and Accreditation, 750 First Street, NE, Washington DC 20002-4242, Phone 202-336-5500. The School of Nursing is endorsed by the American Holistic Nurses’ Certification Corporation and approved by the Ohio Board of Nursing and Commission of Nurse Certification (CNC).
Xavier University Center for Catholic Education

Xavier University is committed to engaging students intellectually, morally, and spiritually - with rigor and compassion - toward lives of solidarity, service, and success. This is Xavier's Catholic and Jesuit identity and heritage. The Xavier University Center for Catholic Education (XUCCE) is one way that Xavier specifically promotes its identity and heritage by assisting Catholic schools in the transmission of the faith and the development of Catholic education.

The Xavier University Center for Catholic Education aims to strengthen Catholic education through diocesan and school partnerships designed to transform Catholic schools. As such, XUCCE is a resource for Catholic educators providing opportunities that include professional development and networking. In short, XUCCE utilizes the resources of the University to offer a broad range of programs and services to advance Catholic education in our region.

The Center's Goals

- To promote academic achievement and faith formation and to support research and assessment of the effectiveness of Catholic Schools.
- To provide professional development for Catholic Schools by collaborating at the school and diocesan levels.
- To assist Catholic Schools in meeting and exceeding licensure requirements for teachers and administrators.
- To provide resources and support in the areas of teacher development, strategic planning, marketing and public relations, financial management, enrollment management, buildings and grounds management, and leadership.

Xavier Center for Excellence in Education

The mission of the Xavier Center for Excellence in Education (XCEED) is to prepare educators who are qualified and committed to providing an outstanding education for their students. XCEED aims to strengthen education through school and district partnerships. Consequently, XCEED is a resource for schools and districts providing opportunities that include professional development and networking. XCEED utilizes contractual work with schools and districts to offer a broad range of programs and services meeting the unique needs of schools in our region.

Thus, XCEED works collaboratively with local school districts in Southwest Ohio and Northern Kentucky to meet the needs of administrators, school boards, teachers, and students.

The Center's Goals

- To provide professional development for schools by collaborating at the school and district levels.
- To assist schools in meeting and exceeding licensure requirements for teachers and administrators.
- To provide resources and support in the areas of teacher development, strategic planning, marketing and public relations, financial management, enrollment management, buildings and grounds management, and leadership.

Criminal Justice

The Department of Criminal Justice offers these degrees and programs:

- The Bachelor of Science in Criminal Justice (with option of Criminalistics concentration)
- The Criminal Justice minor
- The Corrections minor
- The Associate degree in Criminal Justice
- The Associate degree in Corrections
- The Master of Science in Criminal Justice
Bachelor of Science

Criminal Justice, B.S.

Criminal Justice investigates all aspects of crime and delinquency in our society from types, incidence, prevalence and distribution to causes and remedies. It further explores the philosophy and ideology, theory and practice, structure and process, policy and programs, and problems and issues of police, courts, and corrections. Students also examine the fundamental elements of criminal and constitutional law, and develop the skills to perform, analyze and evaluate social research.

The curriculum for Criminal Justice majors who are preparing for careers is designed to provide concepts, skills, and attitudes necessary for functioning with competence and conscience. For non-career students, a wider knowledge of important issues required for involved and informed citizen participation in the criminal justice system and its operations is acquired, along with ethical considerations related to concepts of justice in contemporary society.

Requirements for the Criminal Justice Major

Undergraduate Core Curriculum

See Undergraduate Core Curriculum for details.

Criminal Justice Core: 39 Credit Hours

Required Criminal Justice Courses: 30 Credit Hours

- CJUS 101 - Intro to Criminal Justice (Also fulfills a Social Science Core requirement.)
- CJUS 102 - Intro to Law Enforcement
- CJUS 103 - Intro to Corrections
- CJUS 206 - Criminology
- CJUS 210 - Basic Const Law & Amer Justice
- CJUS 240 - Criminal Law
- CJUS 381 - Methods of Research in CJUS (Also fulfills Scientific Perspectives requirement)
- CJUS 391 - Practicum / Ethics
- CJUS 482 - Planned Change in Crim Justice
- CJUS 489 - Senior Seminar
Criminal Justice Electives: 9 Credit Hours

• CJUS 103-499 (Refer to Course Descriptions.)

General Electives: 18 Credit Hours (minimum)

Electives can be chosen to meet each student's individual needs. The criminal justice advisor will be available to assist in this process.

Note(s):

• A 2.000 cumulative average must be attained in these criminal justice major courses.
• CJUS 391, Practicum in Criminal Justice, consists of supervised placement in criminal justice agencies, and CJUS 381, Methods of Criminal Justice Research, provides exposure to applied research in the subject area.
• Criminalistics Concentration is an optional addition to the major, and it must be declared by the student to the department. As part of major, these 15 hours of criminal justice courses must be completed: CJUS 101, CJUS 102, CJUS 239, CJUS 439 and CJUS 449.

TOTAL Minimum Hours Required for B.S. Degree: 120 Credit Hours

This number assumes that the ER/S and DCR requirements are fulfilled with other core or major courses, although this is not always possible.

B.S. Criminal Justice

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

• CJUS 101 - Intro to Criminal Justice (Social Science Elective)
• ENGL 101 - English Composition or
• ENGL 115 - Rhetoric
• CORE 100 - First Year Seminar

- CJUS 391 - Practicum / Ethics
- CJUS 489 - Senior Seminar
- CJUS Elective
- General Electives (6 credit hours)

Total (15)
Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- * E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
- + Diversity Curriculum Requirement may be used to satisfy another element of the core or the major.
- CJUS 101 may be used to fulfill a social science elective.
- CJUS 381 may be used to fulfill scientific perspectives requirement.
- A minimum of 120 credit hours is required for the degree.

**Associate of Science**

**Corrections, A.S.**

**Undergraduate core curriculum requirements:**

See Undergraduate Core Curriculum

**Concentration requirements:**

18 credit hours, as follows:

**15 hours of corrections courses from:**

- CJUS 101 - Intro to Criminal Justice
- CJUS 230 - Legal Aspects of Corrections
- CJUS 243 - Correctional Counseling & Comm
- CJUS 321 - Juvenile Justice
  - CJUS 336

3 additional hours must be selected from either:

- CJUS 103 - Intro to Corrections or
- CJUS 364 - Overview of Contemp Correction
Note(s):

- A 2.000 cumulative average must be attained in these corrections courses.

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates

Criminal Justice, A.S.

Undergraduate Core Curriculum Requirements:

See Undergraduate Core Curriculum

Concentration requirements:

15 credit hours, as follows:

12 hours of criminal justice courses from:

- CJUS 101 - Intro to Criminal Justice
- CJUS 210 - Basic Const Law & Amer Justice
- CJUS 260 - Current Issues in Crim Justice
- CJUS 321 - Juvenile Justice

3 hours of electives chosen from:

- CJUS 102 - Intro to Law Enforcement
- CJUS 243 - Correctional Counseling & Comm
  - CJUS 332
- CJUS 364 - Overview of Contemp Correction
Note(s):

- A 2.000 cumulative average must be attained in these criminal justice courses.

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates

Master of Science

Criminal Justice, M.S.

The mission of the Department of Criminal Justice is to equip Master of Science students with the competence and conscience needed to: (a) function and/or advance professionally in criminal justice agencies or (b) pursue further graduate work in criminal justice or related fields.

The Master of Science in criminal justice program is designed for those persons who are interested in studying the theory and practice of criminal justice in law enforcement, courts, corrections, and the private sector.

The Master of Science in Criminal Justice program places an emphasis on criminal justice administration. Today, there is an ever increasing demand for highly qualified criminal justice administrators in public and private sector organizations to keep them running efficiently and effectively. The primary job of a criminal justice administrator is to provide oversight and supervision in matters related to crime and justice.

The program is geared toward students whose goal is to become criminal justice administrators at the middle and upper management level. Accordingly, an emphasis is placed on students learning management skills such as public relations, accounting and finance, human resources, policy formulation, budgeting, human interaction, crisis strategies, organizational behavior, and writing skills.

The program is designed for working professionals seeking career advancement, those preparing entrance into the field, and those interested in acquiring management skills and knowledge about the problems and practices within the criminal justice system.

The degree is designed for the busy working professional. Thus, courses are offered in an online or an online blended format where students will have face-to-face time with the instructor on certain selected weekends (Friday evenings and Saturday) during the semester. Full-time students can complete the degree in one year. Part-time students can complete the degree in two years.

The degree of Master of Science in Criminal Justice will be conferred only to candidates who have successfully completed 30 credit hours -- this includes research requirements. A comprehensive written exam on the general field of criminal justice, based on the required courses, is required at the conclusion of the program. Also, an overall graduate level grade point average of 2.800 must be attained.

The 30 credit hours are distributed as follows:
Basic required courses:

Students are required to take ten core courses (30 semester hours) designed to provide comprehensive coverage of the field of criminal justice with an administration concentration. They are:

30 Hours

- CJUS 611 - Law & Justice in America
- CJUS 620 - Socio of Crime & Delinquency
  - CJUS 623 - Perspectives in Law Enforcement Management
  - CJUS 633 - Forensics & White Collar Crime
- CJUS 642 - Criminal Justice Administratio
- CJUS 643 - Correctional Counseling
  - CJUS 644 - Government & Non-Profit Accounting
  - CJUS 647 - Human Resources for Criminal Justice Administrators
- CJUS 683 - Research & Planning in CJUS
- CJUS 784 - Research Essay: Seminar

Comprehensive Exam

At the close of their studies for the MS, students must pass a comprehensive examination.

Note(s):

- The MS program in Criminal Justice invites applications from students with a bachelor's degree and a solid academic record. Admission decisions are based on factors such as past academic performance, standardized test score, and other information submitted. Applications for this program are accepted throughout the year. A student may begin the program in the summer, fall, or spring term.

Minors

Corrections Minor

18 total credit hours are required, as follows:
15 hours from:

- CJUS 101 - Intro to Criminal Justice
- CJUS 230 - Legal Aspects of Corrections
- CJUS 243 - Correctional Counseling & Comm
- CJUS 321 - Juvenile Justice
  - CJUS 336

3 additional hours must be selected from either:

- CJUS 103 - Intro to Corrections or
- CJUS 364 - Overview of Contemporary Corrections

Note(s):

- A 2.000 cumulative average must be attained in these criminal justice courses.

Criminal Justice Minor

15 total credit hours are required, as follows:

12 hours from:

- CJUS 101 - Intro to Criminal Justice
- CJUS 210 - Basic Const Law & Amer Justice
- CJUS 321 - Juvenile Justice
- CJUS 381 - Methods of Research in CJUS

3 additional hours must be selected from either:
Note(s):

- A 2.000 cumulative average must be attained in these courses.

Certificate

Criminal Justice Administration Certificate

The Department of Criminal Justice offers a Certificate in Criminal Justice Administration at the Master's level. The certificate is intended toward two groups of students: 1) professionals who have a graduate degree, but see courses in administration as a way to advance in the field, and 2) those with an undergraduate degree who, for whatever reason, are not ready to apply to the criminal justice graduation program. The particulars of the Criminal Justice Administration Certificate are as follows:

The Certificate will consist of nine (9) credit hours that include the following courses:

- CJUS 642 Criminal Justice Administration (3 credits)
- CJUS 644 Government & Non-profit Accounting (3 credits)
- CJUS 647 Human Resources for CJ Administrators (3 credits)

Admission requirements in to the certificate program:

- Minimum of a Bachelor's Degree
- Personal Statement/Essay
- 3 years of experience in the field

Candidates for certificates must:

- Complete the nine (9) credit hour requirements at Xavier.
- Earn a minimum of "C" or better in each course.
- Satisfy all financial obligations to the University.

Students who complete the certificate may apply for the criminal justice graduate program. Students must obtain a minimum of "B" in each certificate course for acceptance into the M.S. CJUS degree program.

Counseling

The Department of Counseling offers the Master of Arts in Clinical Mental Health Counseling and the Master of Arts in School Counseling. Clinical Mental Health Counseling meets the educational requirements for licensure as a professional clinical counselor, while School Counseling is a professional degree designed to meet the educational requirements for licensure as a school counselor. Degree and licensure offerings are designed to meet the academic preparation standards required by the Ohio Department of Education or the Ohio Counselor, Social Worker, and Marriage and Family Therapist Board. Both programs are fully accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Go to [http://www.xavier.edu/education/counseling.cfm](http://www.xavier.edu/education/counseling.cfm) to reference more information and admission requirements.
Master of Arts

Clinical Mental Health Counseling, M.A.

The Master of Arts degree with a concentration in Clinical Mental Health Counseling is a professional degree designed to meet the academic requirements for the Ohio Professional Counselor (PC) license. The Program is also accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Accordingly, this degree is awarded to the candidate who has demonstrated a capacity for professional performance by satisfactorily completing the course of study. Students will learn the theory and practice of counseling and be able to apply counseling skills in a knowledgeable and skilled manner to areas such as appraisal, lifestyle and career development, counseling theory, group process, professional, and clinical issues.

Requirements for M.A. in Clinical Mental Health Counseling

60 total credit hours are required. The sequence of courses is arranged in four groups.

Students should complete most of each group before proceeding to the next group.

Group I (16 credit hours):

- COUN 501 - Lifespan Development
- COUN 533 - Counseling Theories & Tech
- COUN 536 - Group Process
- COUN 579 - Psychological & Achieve Test
- COUN 630 - Intro To Mental Health Coun
- COUN 636 - Career Counseling

Group II (11 credit hours):

- COUN 509 - Counseling Research Methods
- COUN 631 - Counseling Issues & Ethics
- COUN 638 - Cross Cultural Counseling
- COUN 640 - Family Relations
- COUN 669 - Pre Practicum/Coun Lab

Group III (14 credit hours):

- COUN 642 - Consultation and Supervision
- COUN 765 - Crisis Counseling
- COUN 767 - Treating Addictions Advanced
- COUN 773 - Counseling Practicum
  ◦ Elective (3)
Group IV (19 credit hours):

- COUN 671 - Clinical Counseling Internship
- COUN 760 - Personality & Abnormal Behav
- COUN 762 - Clinical & Person Assessment
- COUN 763 - Diagnosis of Psychopath
- COUN 764 - Counseling & Psychother
- COUN 766 - Intervention Skills

TOTAL: 60 Semester Hours

Notes:

- COUN 760, 762, 763, 764, and 766 are part of Saturday clinical sequence that must be taken beginning in the Fall.

Counseling (School Counseling), M.A.

The Master of Arts degree with a concentration is School Counseling is a professional degree designed to meet the educational requirements for licensure as a school counselor. Accordingly, this degree is awarded to the candidate who has demonstrated a capacity for professional performance by satisfactorily completing the course of study. Students will learn the theory and practice of counseling in the school setting and be able to apply counseling skills in a knowledgeable and skilled manner to areas such as appraisal, lifestyle and career development, counseling theory, group process, and professional issues.

The program is designed to meet specifications of State of Ohio course requirements for school counselor in grades K-12 as well as the requirements for school counselor in the States of Kentucky and Indiana. Further, the M.A. in Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs. (CACREP).

Requirements for the M.A. in School Counseling

48 total credit hours are required. The sequence of courses is arranged in four groups.

Students should complete most of each group before proceeding to the next group.

Group I (17 credit hours):

- COUN 501 - Lifespan Development
- COUN 533 - Counseling Theories & Tech
• COUN 536 - Group Process
• COUN 537 - Intro To School Counseling
• COUN 579 - Psychological & Achieve Test
• COUN 636 - Career Counseling

Group II (14 credit hours):

• COUN 509 - Counseling Research Methods
• COUN 538 - Adv School Counseling Practice
• COUN 631 - Counseling issues & Ethics
• COUN 638 - Cross Cultural Counseling
• COUN 640 - Family Relations
• COUN 669 - Pre Practicum/Coun Lab

Group III (7 credit hours):

• COUN 773 - Counseling Practicum
  ◦ Electives (4)

Group IV (10 credit hours):

• COUN 642 - Consultation and Supervision
• COUN 670 - School Counseling Internship (600 clock hours)
• EDSP 500 - Sp Ed: Identification& Issue (Note: Students with training in Special Education should consult the department chair prior to enrolling in this course.)

TOTAL: 48 Semester Hours

Health Services Administration

The Department of Health Services Administration offers a Master of Health Services Administration (MHSA) degree. And, in conjunction with the Theology Department, a Master of Arts degree in Health Care Mission Integration is offered.
MA Degree in Health Care Mission Integration

Xavier’s graduate program in health care mission integration combines the study of theology with the study of health services administration. This 36 semester hour M.A. program is designed to provide preparation for Mission Directors and others who lead their colleagues in Catholic and other Christian health services to foster and enhance the spirit of love, compassion, and service within these institutions. The program focuses on understanding the Christian tradition and embodying it midst the challenges of institutional, technological, and cultural change. For program curriculum details, go to the Theology Department pages in the College of Arts and Sciences.

Bachelor of Science

Health Services Administration, B.S.

Bachelor of Science in Health Services Administration

The Bachelor of Science in Health Services Administration prepares the student, through academic work and practical internships, for a career in the growing and expanding fields of health services, including job opportunities in hospitals, systems, insurance companies, medical group practices, ambulatory centers, home care, medical devices companies, pharmaceutical companies, local, federal and state agencies, skilled nursing facilities, retirement communities, community agencies, and elder care organizations. The program also prepares students for graduate work in health services, law, medicine, allied health fields, health services research or policy and public health. All Health Services Administration students graduate with a minor in business.

For the Bachelor of Science in Health Services Administration degree, the faculty seeks to enhance students' values orientation and ethics, and to provide them with the liberal arts and technical knowledge, critical thinking and communication skills necessary to prepare graduates to perform proficiently in entry-level positions in health care organizations.

Students will experience:

• An interdisciplinary curriculum based in the liberal arts tradition
• Required field experiences (internships)
• Community service
• Undergraduate research and scholarship

The program's focus is on:

1. Traditional Jesuit liberal arts core with courses in language, theology, philosophy, history, math, sciences, English and communication;
2. Specialized courses in health care management, finance, ethics, economics, and statistics.
3. Field experiences (internships).

During the field internships, students will have the opportunity to:

• Apply knowledge and skills learned in the classroom
• Work with others and develop relationships beyond the classroom
• Discern their individual interests
• Experience growth and development in a practical setting
• Explore options for employment
In order to remain in good standing with and graduate as an undergraduate major from the Department of Health Services Administration, student must meet the following criteria.

**Overall GPA:**

- Students must maintain an overall GPA of 2.0 or above, as per the general university requirements for undergraduate students.

**Minor GPA:**

- Students must meet criteria for minor courses as designated by the Williams College of Business.

**Major and Concentration GPA:**

- Students must maintain on overall combined major/concentration GPA of 2.67. This GPA is made up of all courses taken in the major and concentration, and equates to a B- average for all major courses. If the student is to change concentrations, grades from their first concentration still apply to the calculation of this GPA.

**Introductory Course Grades:**

- Students must achieve a grade of B- or higher in both HESA 101 and HESA 110. Grades lower than B- will result in a student not receiving credit for that course requirement towards their Health Services Administration degree.

**Retaking Introductory Courses:**

- If a student receives a grade of C+ or below in HESA 101 or HESA 110, they may retake that course two times as per the general university policy.
- The student will be considered on departmental probation until they achieve or surpass the required grade for the designated course.
- The course must be retaken at Xavier.
- Students may retake any and all HESA courses for which they fail to meet department requirements two times.
- If a student fails to meet department grade standards after retaking a course two times, they will be dismissed from the major.
- If being dismissed, students will meet with the BSHSA Program Director and determine into which major or program they would like to be placed.

**Falling Below Major/Concentration GPA Standards:**

- If a student falls below the major/concentration GPA standard of 2.67, they will have one semester to bring their major/concentration GPA back above the standard.
- The student will be considered on departmental probation until they have brought their major/concentration GPA back to or above the department standard.
- The summer semester is not applied. If a student falls below the major/concentration GPA standard after a spring semester, they will have until the end of the following fall semester to bring their major/concentration GPA back to or above the standard.
- If a student takes a semester off (i.e. they fall below the major/concentration standard after spring semester and take the following fall off), they will have until the end of their next enrolled semester to bring their major/concentration GPA back to or above the department standard.
- If a student fails to bring their major/concentration GPA back to or above the department standard at the end of the designated semester, they will be dismissed from the major.
- If being dismissed, students will meet with the BSHSA Program Director and determine into which major or program they would like to be placed.

**HESA 371/372 Internship:**

- If a student is on departmental probation, they may not enroll in or complete hours towards either the HESA 371 or HESA 372 internship courses.

**Appealing Departmental Probation:**

- Students may appeal department probation.
- If a student wishes to appeal, they should start by scheduling a meeting with the Program Director of the Undergraduate Program in Health Services Administration.
- If the Director is the professor for the course they wish to appeal, they should start with scheduling a meeting with the Health Services Administration Department Chair.
- The student should come to the meeting prepared with materials that support their appeal (i.e. tests, papers, etc.).
• The Director or Chair will meet with the student. The Director and Chair will make a decision about each student appeal.
• If a student is not satisfied with the outcome of the appeal process, they can bring the appeal to the Dean of the College of Social Science Health and Education, following their appeal process.

Curriculum

The Bachelor of Science in Health Services Administration degree requires at least 120 semester credit hours with a concentration in health services of 34 hours, plus nine credit hours in a specified concentration (information management or long-term care).

Students must choose two of the following biology courses:

- BIOL 140 - Human A&P I for Allied Health and BIOL 141 - Hum A&P I Lab Allied Health
- BIOL 142 - Hum A&P II for Allied Health and BIOL 143 - Hum A&P II Lab Allied Health
- BIOL 160 - General Biology I and BIOL 161 - General Biology I Lab
- BIOL 102 - Life: Human Biology and one of BIOL 125 or BIOL 127 - Life Lab: Investigation I or II
- BIOL 106 - Life: Biology of Aging and one of BIOL 125 or BIOL 127 - Life Lab Investigation I or II
- BIOL 120 - Life: Ecology & People and one of BIOL 125 or 127 - Life Lab Investigation I or II

B.S. in Health Services Administration, Minor in Business, Concentration in Long-Term Care OR Information Management

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- Historical Perspectives Elective
- Second Language I
- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- THEO 111 - Theological Foundations or First Year Seminar
- HESA 101 - Intro To American Health Care

Total (15)

Second Semester

- Second Language II
- Writing Flag Course
- ECON 200 - Microeconomic Principles
- HESA 110 - Medical Terminology
- THEO 111 - Theological Foundations or First Year Seminar
Sophomore Year

First Semester

- HESA 120 - Health Care Management
- PHIL 100 - Ethics as Intro to Philosophy
- Scientific Perspectives Elective
- Oral Communications Flag Course
- Mathematical Perspectives Elective

Total (15)

Second Semester

- HESA 451 - Aging In Society or HESA 341 - Health Informatics
- ACCT 200 - Introductory Financial Acct
- HESA 210 - HC Marketing & Strategic Mgmt
- General Elective
- Biology Elective

Total (15)

Junior Year

First Semester

- FINC 300 - Business Finance
- INFO 120 - Introduction to Business Tech
- HESA 351 - Electronic Health Records or HESA 455 - Administration of Agencies Serving the Aging
- HESA 370 - Internship Preparation
- MGMT 300 - Managerial Behavior
- PHIL 200 - Philosophical Perspectives

Total (14)
Second Semester

- ENGL 205 - Literature & Moral Imagination
- INFO 220 - Mgmt of Info Tech
- HESA 230 - Health Care Finance
- HESA 361 - Health Data Management or HESA 459 - Administration of Institutions Serving the Aging
- Theological Perspectives Elective
- General Elective

Total (15)

Summer

- HESA 371 - Internship I

Total (3)

Senior Year

First Semester

- HESA 410 - Public Health
- HESA 220 - HC Reimbursement Systems
- MKTG 300 - Principles of Marketing
- Quantitative Flag Course
- Humanities Elective

Total (15)

Second Semester

- HESA 390 - Foundation of HC Law & Ethics
- HESA 380 - Qual Mgmt & Performance Imp
- Business Elective (and DCR)
- Creative Perspectives Elective
- E/RS Focus Elective (or General Elective if E/RS Focus Elective has already been completed)

Total (15)

Scheduling Notes:

- Consult the Undergraduate Core Curriculum requirements of the Catalog.
• E/RS Focus Elective requirement may be used to satisfy another element of the core.
• Diversity Curriculum Electives may be used to satisfy other elements of the core or major. The Business Elective, or History Elective may be used to satisfy the DCR elective.

Master of Health Services Administration

Health Services Administration, M.H.S.A.

Master of Health Services Administration Degree

The Graduate Program in Health Services Administration is committed to meeting the need for effective leadership of the rapidly changing health care system. Academic work and field experiences are designed to provide students with the necessary cutting-edge conceptual, analytical, and interpersonal skills, particularly in the areas of team development, systems improvement, quantitative analysis, information systems, strategic planning, financial strategization, and ethical decision-making. The Graduate Program is accredited by the Commission on Accreditation for Health Management Education (CAHME). Upon graduation, students obtain managerial leadership positions in a variety of health care organizations, including health systems, academic medical centers, community hospitals, managed care organizations, medical group practices, insurance companies, long-term care facilities, public health agencies, consulting firms, and governmental policy-making and regulatory agencies. The 1,500+ members of the Graduate Program's Alumni Association are located throughout the United States and in several foreign countries and provide a broad range of services to graduates throughout their careers.

Admission Requirements

A bachelor's degree from an accredited school is required of all applicants. Students are admitted to the Graduate Program if they are considered academically qualified and are able to demonstrate potential in the development of analytical, creative problem solving, communication, interpersonal, and leadership skills. Students come from a variety of academic backgrounds including health services, psychology, business, natural sciences and general studies.

Go to http://www.xavier.edu/master-of-health-services-administration/#process to reference the specific admission requirements.

Prerequisites

Prior to matriculation into the Program, incoming students are required to have completed a basic undergraduate or graduate accounting course and a statistic course with a passing grade, no lower than "C." Students are strongly encouraged to have a basic understanding of microeconomics and to be competent with Microsoft Word and Excel.

Program Options

The curriculum provides a student with a strong foundation of management, financial and quantitative skills, and enhances the ability to succeed in health care management through course work in areas such as epidemiology, clinical management, ethics, health policy analysis, physician relations, managed care and integrated health delivery systems, population-based planning and provider payment strategies.
The graduate program offers you two options of study:

Full-time:

The full-time option consists of four semesters of classroom study on campus followed by a paid 8-12 month administrative residency experience in a health services facility under the guidance of a preceptor.

Part-Time:

The part-time option is designed to accommodate the needs of working professionals. This program consists of nine consecutive semesters of part-time study on campus and an administrative practicum experience conducted concurrently. The practicum is generally a guided field experience conducted within your place of work. Part-time students typically take classes in the evening and must be currently employed in a health care setting in order to be accepted into the program.

Curriculum

A total of 64 credit hours must be completed to fulfill the requirements of the MHSA degree: 54 credit hours of didactic coursework and 10 credit hours of administrative residency/practicum and master's project. For the part-time program, a total of 60 credit hours must be completed to fulfill the requirements of the MHSA degree: 50 credit hours of didactic coursework and 10 credit hours of administrative residency/practicum and master's project.

Graduate Program in Health Services Administration

MHSA Degree Option Full-Time Program

Sample Schedule

Year 1

Fall Year 1 (14 credit hours)

- HESA 511 - Managerial Concpts in H.C Org
- HESA 521 - Quant Methods for H.C. Mgmt
- HESA 551 - Financial Mgmnt of HC Orgs
- HESA 561 - Clinical Proc for H.C. Adm
- HESA 571 - Healthcare Services in the U.S
- HESA 601 - Professional Development I

Spring Year 1 (16 credit hours)

- HESA 519 - Strategic Mgmt & Marketing
- HESA 523 - Qual Improve Tech in H.C. Mgmt
• HESA 555 - Capital Acquisition in HC Orgs
• HESA 567 - Applied Epi in H. C.
• HESA 575 - Health Economics
• HESA 602 - Professional Development II

Summer Year 1 (0 credit hours)

• Internship for 2-3 months in a healthcare organization, paid or unpaid, not for credit

Year 2

Fall Year 2 (12 credit hours)

• HESA 529 - Info Systems for Health Servs
• HESA 559 - Project Devt & Mgmnt of HC Org
• HESA 579 - Health Policy & Policy Analysis
• HESA 581 - Health Care Legal Aspects
• HESA 603 - Professional Development III

Spring Year 2 (12 credit hours)

• HESA 515 - Health Care Workforce Strategy
• HESA 539 - Informatics for Hlth Industr
• HESA 583 - Ethical Issues in Health Care
• HESA 599 - Integ Sem in Hlth Svcs Admin.
  ◦ HESA 604 - Professional Development IV
  ◦ HESA 6xx - Elective *

Summer Year 2 (2 credit hours)

• HESA 720 - Institutn & Community Analysis

Year 3

Fall Year 3 (5 credit hours)

• HESA 730 - Practicum in Executive Devel I
• HESA 750 - Master's Project I

Spring Year 3 (3 credit hours)

• HESA 751 - Residency & Master Project II

Note(s):

* Elective coursework is generally taken within the MIHS Graduate Program. With the chair's permission, graduate-level electives may be taken in other departments within Xavier University or through the Greater Cincinnati Consortium of Colleges and Universities.
MHSA Degree Option Part-Time Program

Sample Schedule

Year 1

Fall Year 1 (6 credit hours)

- HESA 511 - Managerial Concpts in H.C Org
- HESA 521 - Quant Methods for H.C. Mgmt

Spring Year 1 (8 credit hours)

- HESA 519 - Strategic Mgmt & Marketing
- HESA 523 - Qual Improve Tech in H.C. Mgmt
- HESA 571 - Healthcare Services in the U.S (Online)

Summer Year 1 (5 credit hours)

- HESA 529 - Info Systems for Health Servs
- HESA 575 - Health Economics (Odd years)
- HESA 583 - Ethical Issues in Health Care (Even years)

Year 2

Fall Year 2 (6 credit hours)

- HESA 551 - Financial Mgmnt of HC Orgs
- HESA 561 - Clinical Proc for H.C. Adm

Spring Year 2 (7 credit hours)

- HESA 539 - Informatics for Hlth Industr
- HESA 555 - Capital Acquisition in HC Orgs
  - HESA 6xx - Elective *

Summer Year 2 (5 credit hours)

- HESA 575 - Health Economics (Odd years)
- HESA 583 - Ethical Issues in Health Care (Even years)
- HESA 720 - Institutn & Community Analysis
Year 3

Fall Year 3 (8 credit hours)

- HESA 559 - Project Devt & Mgmnt of HC Org
- HESA 581 - Health Care Legal Aspects
- HESA 730 - Practicum in Executive Devel I

Summer Year 3 (7 credit hours)

- HESA 515 - Health Care Workforce Strategy
- HESA 599 - Integ Sem in Hlth Svcs Admin.
- HESA 751 - Residency & Master Project II

Spring Year 3 (9 credit hours)

- HESA 567 - Applied Epi in H. C.
- HESA 579 - Health Policy & Policy Analysis
- HESA 750 - Master's Project I

Note(s) *

Elective coursework is generally taken within the MHSA Graduate Program. With the chair's permission, graduate-level electives may be taken in other departments within Xavier University or through the Greater Cincinnati Consortium of Colleges and Universities. HESA 601, HESA 602, HESA 603, and HESA 604 are waived for part-time students.

Administrative Residency

The administrative residency is part of the full time curriculum; no didactic courses are taken during this time. It provides an eight to twelve month "real world" experience in an organizational setting under the preceptorship of senior management. During the residency, students apply the knowledge and skills mastered in the classroom to an administrative work environment. The administrative residency serves as an opportunity not only to learn the actual practice of management, but also for creating mentor relationships.

Administrative Practicum

An administrative practicum is a required part of the master's degree in health services administration (MHSA) from Xavier University for part-time students. The practicum is intended to allow students to apply the knowledge gained from the classroom and to demonstrate competence in the field of healthcare management. It is expected that by the end of the practicum that the students will have demonstrated competence, at the level of a graduate of master's graduate in health administration program.
Master's Project

Each student is required to complete a master's project as a condition for graduation. The project must demonstrate competencies listed in the Guidelines for the Administrative Residency or Guidelines for the Administrative Practicum and reflect an aspect of health systems management of interest to both the student and preceptor, with a final approval from the faculty advisor.

Academic Standing

MHSA students are held to high academic and personal standards. Health services administration is a profession that requires dedication, leadership, punctuality, follow-through, cooperation, and accountability. A cumulative grade point average of 3.0 is required for residency and graduation. No credit is granted for courses in which a student receives a grade of "F". If the course in question is a required MHSA course, it must be repeated.

Academic Warning

Students who have a cumulative graduate grade point average less than 3.0 at the end of any semester will be placed on academic warning. Students on academic warning must present a corrective action plan to the Chair of the Department. Academic warning is noted in a student's permanent record.

Dismissal from the Program:

1. MHSA students receiving two failing grades ("F") at any time in the academic work will be dismissed from the program.
2. MHSA students receiving two course grades of "B-" or below at any time in the academic work may be dismissed from the program based on faculty decision.

There is no formal appeal mechanism within the Graduate Program in Health Services Administration for academic dismissal.

Concurrent Degrees Program

Students have the option of obtaining concurrent master's degrees in Health Services Administration and Business Administration (MHSA/MBA). Normally, one additional semester of study is required provided the student has the appropriate undergraduate business administration coursework. The program of study requires 93 graduate credit hours: 54 credit hours of Health Services Administration coursework, 33 credit hours of MBA coursework, plus necessary prerequisites, and 10 credit hours of administrative residency/practicum. Candidates must apply and be accepted to both programs. Upon completion, the student receives two separate degrees.

Master of Science

Health Economic and Clinical Outcomes Research (HECOR), M.S.

The Master of Science in Health Economics and Clinical Outcomes Research [HECOR] is a 40 credit hour professional program offering students a foundation in health economics and health services research. Health outcomes research and economic evaluation is a
growing field in which researchers examine the risks and benefits of drugs, medical devices, biotechnology and comparative interventions. Study results and conclusions are used by medical professionals, payers, self-insuring employers and government agencies to make better informed healthcare decisions and thereby improve patient care. The program is designed to train students to conduct both clinical and economic evaluations that inform health-care decisions. Students will learn how to conduct research that generates evidence on the effectiveness, benefits, and harms of different treatment options to include but not limited to: drugs, medical devices, tests, surgeries, or ways to deliver health care.

Students enrolled in this program will take courses spanning health economics and econometrics, data mining large with operational databases (e.g., payer, electronic medical records, and hospitals), statistical modeling and epidemiology in domestic and international settings. Graduates of this program will be well positioned to pursue careers as analysts, managers and directors in the fields of health outcomes research, policy, economics and reimbursement.

The program is designed as an aggressive, part-time program of two courses and a seminar for each semester - fall, spring, and summer - for two years, amounting to 20 credit hours per year.

Curriculum

First Year

Fall Semester

7 Credit Hours

- **Statistics**: STAT510 Introduction to Statistics (3) or HESA521 Quantitative Methods for Health Care Management (3)
- **Economics**: HESA471/571: Introduction to HECOR (3)
- **Seminar**: HECO601: Professional Development 1 (1)

Spring Semester

7 Credit Hours

- **Statistics**: HECO522 Applied Analysis 1 (3)
- **Clinical**: HESA567 Applied Epidemiology (3)
- **Seminar**: HECO602: Professional Development 2 (1)

Summer Semester

7 credit hours

- **Statistics**: HECO523 Applied Analysis 2 (3)
- **Economics**: HESA575 Health Economics (3)
- **Seminar**: HECO603: professional Development 3 (1)
Second Year

Fall Semester

7 credit hours

- **Economics**: HESA579 Healthcare Policy & Policy Analysis (3)
- **Population Health**: HECO5xx: Comparative Health Systems (3)
- **Seminar**: HECO604: Professional Development  4 (1)

Spring Semester

7 credit hours

- **Statistics**: HECO624 Advanced Research Methods (3)
- **Economics**: HECO67x Cost Benefit and Effectiveness (3)
- **Seminar**: HECO605: Professional Development  5 (1)

Summer Semester

5 credit hours

- **Ethics**: THEO544: Health Ethics (3)
- **Seminar**: HECO699: Mentored Capstone Practicum (2)

- **Choose practice focus area**:
  1. OUTCOMES ANALYSIS FOR POPULATION HEALTH MGMT [BURDEN OF ILLNESS]
  2. OUTCOMES ANALYSIS FOR HOSPITALS, PAYERS OR SELF INSURING EMPLOYERS [COMPARATIVE EFFECTIVENESS RESEARCH]
  3. OUTCOMES ANALYSIS FOR GOVERNING BODIES [HEALTH TECHNOLOGY ASSESSMENTS]

Dual Degree

**MHSA / MBA**

This concurrent degree option provides an opportunity for students to pursue an MBA degree in addition to a MHSA degree. The degree may be earned by pursuing additional hours of MBA graduate level course work through the Xavier Williams College of Business. Candidates for both degrees should declare their intentions when applying and submit one application to the graduate program in health services administration AND one application to the Williams College of Business. Concurrent degree candidates must be accepted to both the GPHSA and MBA programs. For further information about the MBA prerequisites and requirements, call 800-344-4698.
Leadership Studies & Human Resource Development

Master of Science

Human Resource Development (Executive Program), M.S.

Human Resource Development (HRD) is the integrated use of training, organizational development, and career development efforts to improve individual, group, and organizational effectiveness. Xavier’s executive human resource development program is designed to develop ethical, competent, and professional leaders who can perform effectively in critical HRD roles, such as director of HRD programs, training manager or director, instructor, facilitator, trainer, management/leadership development specialist, organization change agent, chief learning officer, program designer, or individual career development advisor.

Designed with working adults in mind, this program can offer you the chance to:

- Enhance your skills and knowledge as an HRD practitioner and obtain a graduate degree.
- Begin a new career in training, organization or career development.
- Work in business, industry, private, non-profit or public organizations as an internal or external HRD consultant.

The Xavier HRD program is offered in an executive format as a 21-month program. Students attend classes on the Xavier campus 1 weekend per month for 21 weekends (Friday night, all day Saturday, and Sunday mornings). A unique feature of this program is that it employs an executive approach to graduate study: Students enter with a group of students with whom they remain throughout their program of study. Due to the comprehensive and consecutive sequence of courses, no transfer credits will be accepted from other programs. There is no final thesis or comprehensive exam required for the program. Students will be admitted only once per year in the fall. Early application to the program is recommended.

Go to [http://www.xavier.edu/human-resource-development/#process](http://www.xavier.edu/human-resource-development/#process) to reference the admission requirements.

Requirements for the M.S. in HRD

The degree requires 30 semester hours. The 21-month program begins in August of each year. The courses are sequential and held on the weekends. There is no final thesis or final comprehensive exam required, and there are no course prerequisites.

The course sequence per each semester is as follows:

**Fall #1 (7 credit hours)**

- HRDE 650 - Intro Adult Org Learn
- HRDE 651 - Org Effectiveness & Change

**Spring #1 (7 credit hours)**

- HRDE 652 - Applied Adult & Org Learn
HRDE 653 - Career Develp In HRD
HRDE 654 - Needs Assess & Eval In HRD

Summer #1 (3 credit hours)

• HRDE 660 - Designing HRD Programs

Fall #2 (6 credit hours)

• HRDE 670 - Technology In HRD
• HRDE 671 - Applied HRD Research Pt 1
• HRDE 672 - Facilitating Learning In HRD

Spring #2 (7 credit hours)

• HRDE 673 - Applied HRD Research Pt 2
• HRDE 674 - Trends & Issues In HRD
• HRDE 675 - Strategic Lead & Ethics In HRD

May of year #2 is graduation.

Doctor of Education

Leadership Studies, Ed.D

Drawing on Xavier University's Jesuit Catholic tradition, the Leadership Studies Doctoral Program is designed to develop authentic leaders who use their expertise and skills to promote ethical leadership, social justice and organizational change. The program emphasizes cultivating the whole person and his/her role in facilitating change and building leadership capacity within individuals, organizations and communities.

Graduates of this program will be transformative leaders in all types of profit and non-profit organizations, including educational and health care institutions, corporate and community service settings, and governmental agencies.

Accordingly, this degree is awarded to the candidate who has demonstrated a capacity for:

• Leadership and Change that is ethical, reflective, scholarly and effective in a variety of organizational arenas
• Designing and conducting scholarly Research
• The application of content knowledge in Specialized Cognate areas relating to Human & Organizational Development, Community & Non-profit Leadership, K-12 Education, Higher Education and Health Services Administration.

Program of Studies

The Ed.D. in Leadership Studies is a 60-semester hour program. It includes;
• 15 semester hours from the Leadership Core
• 15 semester hours from the Research Core
• 15 semester hours of Dissertation
• 15 semester hours Cognate

Leadership Core

• LEAD 880 - Comparative Leadership Theory
• LEAD 881 - Leading Organizational Culture & Change
• LEAD 882 - Psychosocial Dimensions of Leadership
• LEAD 883 - Ethical, Spiritual & Character-Based Leadership
• LEAD 884 - Developing Leadership Capacity

Research Core

• LEAD 870 - Fundamentals of Doctoral Research Methods in Leadership Studies
• LEAD 871 - Doctoral Statistics I
• LEAD 872 - Qualitative & Quantitative Research Methodology
• LEAD 873 - Doctoral Statistics II
• LEAD 874 - Developing Effective Research Proposals

Dissertation Advisement

A dissertation is required consisting of 15 semester hours.
• LEAD 890 - Dissertation Design

Cognate

Multiple cognates available; choose 15 semester hours from a growing list of courses and internship experiences in multiple content areas: Contact the Program Director for latest information.
Note:

Students who have completed post-master's coursework equivalent to a doctoral program at accredited institutions may receive some credit toward fulfillment of a portion of the cognate credits required for the Leadership Studies Ed.D. Courses graded on a pass/fail basis or the equivalent will not be accepted as transfer credit. Petitions for transfer of credit will be evaluated individually and will only be granted with the recommendation of the Program Director and approval of the Department Chair and Dean or Associate Dean.

At the appropriate time in the program, student performance will be evaluated according to standards established for qualifying to commence Dissertation Advisement. Those students not automatically qualifying on the basis of academic performance alone may be required to take one or more qualifying exams before beginning work on their dissertation.

Suggested Course Sequence:

Students may take up to 6 credits each semester, consisting of a combination of leadership, research and cognate courses until they have met the core and cognate requirements. After that, students are required to enroll in at least 1 credit of dissertation advisement per semester in order to maintain continuous enrollment in the program until their dissertation is completed and they have met the 15 credit hour requirement for dissertation advisement. Students who have not completed their dissertation must continue to enroll in dissertation advisement each semester until they graduate, even if they have already completed the 15 credits required.

Admission Requirements:

To be considered for admission as a degree-seeking Leadership Studies Ed.D. student, you must first submit the following to the Office of the Graduate School:

- Completed application. Apply online at https://admit.xavier.edu/apply where you can register for an account. Start your application by selecting "Leadership Studies Doctorate Program (Ed.D.)."
- One official transcript of all undergraduate and graduate work from accredited colleges or universities
- Graduate Record Examination (GRE), GMAT, LSAT or Miller Analogies Test (MAT) score. (You do not have to re-take an admissions test if you have a copy of your previous test score.)
- A 1,000-word minimum statement of how you believe the Leadership Studies Ed.D. program will help you reach your short- and long-term professional goals
- Resume of work and volunteer experience
- Three letters of reference from individuals addressing your academic/professional potential for doctoral study

Applicants must have an advanced degree (i.e., Master's degree, J.D., or Ph.D.) with an overall minimum GPA of 3.0 from an accredited institution, without exception. Applicants whose prior study was outside the United States must have completed the equivalent of a U.S. bachelor's degree and a Master's degree. International students must submit additional documentation attesting to degree equivalency and/or language proficiency facilitated through the Office of International Students.

There are no set prerequisite courses or majors, and prior coursework in leadership is not required for admission to the program. The committee reviews performance in all prior post-secondary coursework.

Applications are accepted each academic year for matriculation in either Summer (May) or Fall (August) semesters. Admission for matriculation in Spring (January) semesters is offered in some academic years as posted on the University website. To ensure consideration, applications should be submitted by:

- Summer semester: April 1
- Fall semester: April 1
- Spring semester: October 1 (when offered)

A committee of faculty reviews the pool of applications after each of those dates and invites selected candidates to an on-campus interview to continue the application process. Applicants are encouraged to contact the Program Director prior to completing the application process http://www.xavier.edu/doctor-of-leadership-studies-program/Ask-the-Director.cfm. Information
sessions are occasionally offered by the Graduate School for prospective students. Dates and times for information sessions are available on the Graduate Admissions website, [http://www.xavier.edu/graduate-admission/](http://www.xavier.edu/graduate-admission/).

Required coursework for the Leadership Studies doctoral program can be completed in as little as 2.5 years. Students have 9 years from matriculation to complete the entire doctoral degree program, including dissertation, with a possible 1-year extension upon approval of the Dean of the College of Professional Sciences.

Financial Aid

The Office of Student Financial Assistance serves as a central clearinghouse for all funding programs available to assist graduate students with financing their doctoral education. The office helps graduate students determine their eligibility for various funding opportunities including Federal loans, grants and assistantships. Prospective students are encouraged to contact the office to discuss their particular circumstances and submit required applications for assistance: [www.xavier.edu/financial-aid](http://www.xavier.edu/financial-aid). Deadlines may apply to specific funding programs, so it is best to contact the office even before being accepted into the program.

Please contact the program at [www.xavier.edu/leadership-studies](http://www.xavier.edu/leadership-studies) for current admission and program information.

Occupational Therapy

The Department of Occupational Therapy offers an entry-level Master of Occupational Therapy (MOT) degree. The Occupational Therapy Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, Suite 200, c/o Accreditation Department, Bethesda, MD 20814-3449, [www.acoteonline.org](http://www.acoteonline.org), phone 301 652-AOTA, www.aota.org. Graduates of the program will be eligible to take the national certification examination for the occupational therapist administered by the National Board for the Certification in Occupational Therapy (NBCOT) located at 12 South Summit Avenue, Suite 100, Gaithersburg, MD 20877-4150, phone 301 990-7979, [www.nbcot.org](http://www.nbcot.org). Upon successful completion of this exam (and meeting all other NBCOT application requirements), the individual is able to hold the title of occupational therapist, registered (OTR). Most states have specific additional credentialing requirements (e.g., licensure, registration) in order to legally practice in that state. All state credentialing bodies require a passing score on the NBCOT certification examination. A felony conviction may affect a graduate's ability to sit for the certification examination or attain state licensure.

Occupational Therapy

Occupational therapy (OT) is a health-care profession that uses occupation, or meaningful activity, to help people lead productive and satisfying lives. Occupational therapists form a dynamic and collaborative partnership with service recipients in order to support their maximal participation in societal roles. The uniqueness of occupational therapy lies in the recognition and appreciation of the importance of day-to-day occupations that are used to positively influence ones health and well-being. People of all ages who have difficulty performing daily activities due to physical, psychological, emotional, or developmental problems can benefit from occupational therapy services on an individual basis or as members of a group or community.

Occupational therapy practitioners are skilled professionals whose education includes the study of human growth and development with specific emphasis on the social, emotional, and physiological effects of illness and injury and the concomitant benefits of engagement in occupation. Occupational therapists need to be people-focused as well as art- and science-oriented. They must be well-educated in the functions of mind, body, and spirit.

Departmental Admission Requirements

To apply to the MOT program, a student must first obtain a bachelor's degree. A bachelor's degree may be obtained from Xavier in which case a Bachelor of Liberal Arts (BLA) with Human Occupation Studies (HOCS) concentration is offered. A bachelor's degree may be obtained from another accredited university in which case entry to the MOT program requires completion of all pre-MOT requirements. Admission to the HOCS courses is open to all Xavier students who meet enrollment criteria and enrollment is limited. Admission to the MOT program occurs only when all admission criteria are met.
See BLA-to-MOT Admission Information to reference all the admission requirements for students obtaining a BLA degree from Xavier.

See PRe-MOT-to-MOT Admission Information to reference all the admission requirements for students who have a bachelor's degree from another accredited university.

**BLA to MOT Admission Information**

Occupational therapy is a rewarding and satisfying career that requires a high level of skills and expertise. See the list of Essential Functions for Coursework & Fieldwork on the department's website that details the performance abilities and characteristics necessary to successfully complete the requirements of the MOT program.

**Bachelor of Liberal Arts Admission**

Students may apply online or contact the Office of Undergraduate Admission

  Phone: 513-745-3301  
  E-mail: xuadmit@xavier.edu

**Freshman Admission**

For Fall Semester

Due to limited space, admission to the Occupational Therapy (OT) Program is competitive. Students may receive two admission decisions; one for undergraduate admission to Xavier and one for the OT major. Selected students will be directly admitted to the OT Program, but some applicants will be wait listed. Wait listed students will be admitted to Xavier University but not the Occupational Therapy Program. Wait listed students will be notified no later than July 1, if they are admitted to the program. Applicants admitted to Occupational Therapy and depositing on or before May 1, will have secured a spot in occupational therapy as a major.

Any student wishing to be considered for admission to the occupational therapy program must indicate occupational therapy as their major of choice on their application for admission and apply by February 1.

Strong candidates for acceptance to the major will typically meet and/or exceed the criteria below. Please note that meeting the following criteria will make a student a strong candidate, but does not guarantee admission to the program.

- 3.00 or higher GPA and
- 1100 or higher SAT score or 24 or higher ACT score
- Completion of 40 required hours of volunteer/work experience documented on approved form (20 hours prior to acceptance; additional 20 hours prior to first day of classes.)
- Contact with Department Occupational Therapy representative. The Department of Occupational Therapy will hold informational meetings each semester, see website for specific dates.

Students wishing to have their major changed to Occupational Therapy after being admitted to another major at Xavier my be considered for admission separately to the program and will be admitted to the program on a space available basis.

**Volunteer/Work Experience**

Documented exposure to the field of occupational therapy is accomplished through volunteer or paid work experience in an occupational therapy practice setting. Completion of 20 hours at one site with one practitioner prior to acceptance to Xavier and an additional 20 hours at a different site with a different practitioner prior to beginning of classes on first day of freshman year is required for a total of 40 hours. Documentation must be on the Recommendation and Verification of Volunteer/Work Experience in Occupational Therapy Clinic or Work Setting forms. Only two forms will be accepted; additional forms will not be considered. The forms must be completed by a fully credentialed occupational therapy practitioner who supervised the student and must be submitted on
the original forms. The supervisor may not be a relative, personal friend or acquaintance. Photocopies of completed forms will not be accepted. Forms must be sent directly to the Department of Occupational Therapy.

Human Occupational Studies Concentration (HOCS) Admission

Registration for the HOCS courses is approved by the department of occupational therapy and is normally determined by the following criteria:

- Evidence of completion or in progress of all semester hours for BLA degree or a non-OT Bachelor's degree and a minimum cumulative grade point average of 3.0 (on a 4.0 scale).
- Completion of criminal background check by end of first HOCS semester.

Notice: Typically all slots become filled and a wait list is activated by ranked GPA. Any student who begins the HOCS and/or MOCT courses and does not continue sequentially will be placed at the bottom of a wait list should one occur at time of placement. If slots are limited, ranked GPA will determine continuation. Students are allowed only one such instance of "dropping back" one cohort year.

Master in Occupational Therapy Admission

Applicant eligibility is normally determined by the following minimum criteria. Given program caps, meeting the following criteria offers admission into the MOT program. All criteria must be submitted to the Office of Graduate Services (513-745-3360; xugrad@xavier.edu). Applications are due June 1 following completion of the first year of HOCS courses.

- Graduate program admission form.
- Official transcripts of all previous college or university work.
- Evidence of completion or in progress of all semester hours for the BLA degree and a minimum cumulative grade point average of 3.0 (on a 4.0 scale).
- Evidence of successful completion (grade of "C" or higher) or in progress of all prerequisite courses with no more than two "C's" (Anatomy and Physiology I and II, Rhetoric, Statistics I and II, Physics, Developmental Psychology, Bioethics, Kinesiology, Neuroscience, and all HOCS courses).
- Official test scores on the Graduate Record Exam (GRE), with a minimum average of 33 percent across all GRE sections (verbal reasoning, quantitative reasoning and analytical writing).
- Reflective analysis essay related to the 40 hours of volunteer experience.
- Personal interview, evaluation and completion of on-site writing sample may be required.

Other Requirements

Upon acceptance into the MOT program, students are required to complete all graduate courses (MOCT courses) with a minimum cumulative grade point average of 3.0 (on a 4.0 scale). Student membership into the American Occupation Therapy Association (AOTA) is also required. The mission of the AOTA "advances the quality, availability, use, and support of occupational therapy through standard-setting, advocacy, education and research on behalf of its members and the public" (American Occupational Therapy Association, 2000).

Prior to beginning Level I and Level II Fieldwork, students must show evidence of malpractice liability insurance ($2,000,000/ $4,000,000). Liability insurance is mandatory and provided through the University, and the University has negotiated a favorable group rate for occupational therapy students. Students are billed through the University when they register for courses that include a fieldwork or community experience. All students must also complete an annual Criminal Background Check. All students also must have current CPR certification; hepatitis B immunization; measles, mumps, and rubella immunizations; an annual tuberculosis test; annual history and physical exam; annual Universal Precautions and HIPPA training; and criminal background check in order to participate in all fieldwork experiences. Level II Fieldwork courses must be completed within 12 months of the academic coursework on campus. Additionally, students may be required to obtain a seasonal influenza immunization and/or drug screen prior to participation in a specific fieldwork site.

Note: A felony conviction may affect a graduate's ability to sit for the certification examination or attain state licensure. Additionally, a felony conviction may limit or preclude participation in certain Level I and Level II fieldwork sites, or required community-based activities for HOCS and MOCT courses.
Pre-MOT to MOT Admission Information

NOTE: Currently there is a three year wait for this PMOT to MOT admissions point of entry.

Occupational therapy is a rewarding and satisfying career that required a high level of skill and expertise. See the list of Essential Functions for Coursework & Fieldwork on the department's website that details the performance abilities and characteristics necessary to successfully complete the requirements of the MOT program.

Pre-Master in Occupational Therapy Admission

Pre-MOT students apply through the Undergraduate Admissions Office, but should contact the Occupational Therapy department prior to applying.

Phone: 513-745-3150

The following must be submitted for admission:

- A completed pre-MOT application.
- Official copies of all college transcripts.

Human Occupation Studies Concentration (HOCS)

Admission to the HOCS courses is open to all Xavier students who meet program criteria and enrollment is limited. Registration for the HOCS courses is approved by the Department of Occupational Therapy and is normally determined by the following criteria:

Volunteer/Work Experience

- Evidence of completion or in progress of all semester hours for BLA degree or a non-OT Bachelor's degree and a minimum cumulative grade point average of 3.0 (on a 4.0 scale).
- Completion of all 40 of the 40 HOCS required hours of volunteer/work experience prior to the first day of classes (hours must be documented on approved form as described below).
- Evidence of meeting with representative of occupational therapy department.
- Completion of criminal background check by end of first HOCS semester.

Documented exposure to the field of occupational therapy is accomplished through volunteer or paid work experience in an occupational therapy practice setting. Completion of 20 hours at one site and an additional 20 hours at a different site for a total of 40 hours is required prior to entrance to HOCS courses. Documentation must be on the Recommendation and Verification of Volunteer/Work Experience in Occupational Therapy Clinic or Work Setting forms. Only two forms will be accepted, additional forms will not be considered. These forms must be completed by a fully credentialed occupational therapy practitioner who supervised the student and must be submitted on the original forms. The supervisor may not be a relative, personal friend or acquaintance of the student. Photocopies of completed forms will not be accepted. Original forms must be sent directly to the Department of Occupational Therapy.

Notice: Typically all slots become filled and a wait list is activated by ranked GPA. Any students who begins the HOCS and/or MOT courses and does not continue sequentially will be placed at the bottom of a wait list should one occur at time of placement. If slots are limited, ranked GPA will determine continuation. Students are allowed only one such instance of "dropping back" one cohort year.

Master of Occupational Therapy Admission

Applicant eligibility is normally determined by the following minimum criteria. Meeting the following criteria offers admission into the MOT program. All criteria must be submitted to the Office of Graduate Services (513-745-3360; xugrad@xavier.edu). Applications are due June 1 following completion of the first year of HOCS courses.

- Graduate program admission form.
• Official transcripts of all previous college or university work.
• Evidence of completion or in progress of all semester hours for the BLA degree and a minimum cumulative grade point average of 3.0 (on a 4.0 scale).
• Evidence of successful completion (grade of "C" or higher) or in progress of all prerequisite courses with no more than two "C's" (Anatomy and Physiology I and II, Rhetoric, Statistics I and II, Physics, Developmental Psychology, Bioethics, Kinesiology, Neuroscience, and all HOCS courses).
• Official test scores on the Graduate Record Exam (GRE), with a minimum average of 33 percent across all GRE sections (verbal reasoning, quantitative reasoning, and analytical writing).
• Reflective analysis essay related to the 40 hours of volunteer experience.
• Personal interview, evaluation and completion of on-site writing sample may be required.

Other Requirements

Upon acceptance into the MOT program, students are required to complete all graduate courses (MOCT courses) with a minimum cumulative grade point average of 3.0 (on a 4.0 scale). Student membership into the American Occupation Therapy Association (AOTA) is also required. The mission of the AOTA "advances the quality, availability, use, and support of occupational therapy through standard-setting, advocacy, education and research on behalf of its members and the public" (American Occupational Therapy Association, 2000).

Prior to beginning Level I and Level II Fieldwork, students must show evidence of malpractice liability insurance ($2,000,000/ $4,000,000). Liability insurance is mandatory and provided through the University, and the University has negotiated a favorable group rate for occupational therapy students. Students are billed through the University when they register for courses that include a fieldwork or community experience. All students must also complete an annual Criminal Background Check. All students also must have current CPR certification; hepatitis B immunization; measles, mumps, and rubella immunizations; an annual tuberculosis test; annual history and physical exam; annual Universal Precautions and HIPPA training; and annual police check in order to participate in all fieldwork experiences. Level II Fieldwork courses must be completed within 12 months of the academic coursework on campus. Additionally, students may be required to obtain a seasonal influenza immunization and/or drug screen prior to participation in a specific fieldwork site.

Note: A felony conviction may affect a graduate's ability to sit for the certification examination or attain state licensure. Additionally, a felony conviction may limit or preclude participation in certain Level I and Level II fieldwork sites, or required community-based activities for HOCS and MOCT courses.

Bachelor of Liberal Arts

Bachelor of Liberal Arts/Master of Occupational Therapy (BLA to MOT)

To complete the MOT degree, students will initially obtain a BLA with a concentration in Human Occupation Studies and a University approved minor or second concentration. The BLA will be obtained upon completion of the first semester of the 4th year. Graduate coursework will begin second semester of the fourth year, and continue during the 5th year. It will culminate in a 6 month, post academic internship; the entire course of study spans 5 ½ years. Transfer students who are certified occupational therapy assistants may receive transfer credit for some of the BLA requirements depending on the articulation agreement worked out with the occupational therapy assistant program previously attended.

Requirements for the BLA to MOT
Note(s):

Complete undergraduate prerequisite courses and earn no more than two "C" or lower letter grades in each course, as follows:

Undergraduate core curriculum requirements:

See Undergraduate Core Curriculum

Upper Division Studies Requirement:

38 credit hours of upper division work, as follows:

Complete 23 hours from:

- HOCS 301 - Human Occupation Across Lifesp
- HOCS 303 - Technlgy for Life Participatn
- HOCS 321 - Analysis of Occupational Perfo
- HOCS 323 - Occupati Justice I:Foundations
- HOCS 401 - Transformative Nature of Occup
- HOCS 403 - Creative & Systematic Inquiry
- HOCS 405 - Occupatnl Justice II: Indp Stu
- HOCS 411 - Condns Influencing Participn

Note(s):

- These HOCS courses are required for the Concentration in Human Occupation Studies (HOCS).

Complete at least 15 hours in a required Minor or a 2nd concentration within the BLA.

Additional OT requirements:
6 hours of Neuroscience and Kinesiology from:

- BIOL 204 - Functional Neuroscience
  - HOCS 386 - Advanced Kinesiology
  - HOCS 387 - Advanced Kinesiology Lab

3 hours of Bioethics from:

- PHIL 329 - Bioethics (can be taken as the required Philosophy elective course in the undergraduate core)

Note(s):

- A minimum of 120 credit hours is required for the BLA degree; and an overall cumulative GPA of at least 3.000 must be attained.

MOCT Courses

- MOCT 501 - Creative & Sys Inquiry II
- MOCT 502 - Creative & Systematic Inquiry
- MOCT 503 - Tech for Life Participation II
- MOCT 505 - Techniques & Tools for OCTH Pr
- MOCT 507 - Professional Issues I
- MOCT 601 - Graduate Research Project I
- MOCT 603 - Domns&Proc I:Birth-Early Adult
- MOCT 605 - Adapt&Tech for Occ Partic I
- MOCT 607 - Level I Fieldwork:Domns&Proc
- MOCT 609 - Theoretical Found&Clin Reason
- MOCT 611 - Professional Issues II
- MOCT 631 - Graduate Research Project II
- MOCT 633 - Dom & Proc II: Ear Ad Through
- MOCT 635 - Adapt & Tech for Occ Part II
- MOCT 637 - Level I Fieldwork: Dom& Proc
- MOCT 641 - Professional Issues III
- MOCT 691 - Level II Fieldwork
- MOCT 692 - Level II Fieldwork
- MOCT 779 - Applied Interprofessional Coll

Master of Occupational Therapy

Pre-Occupational Therapy (PMOT) To Master of Occupational Therapy, M.O.T.

This program option is designed to obtain the MOT degree in combination with a previously earned bachelor's degree in a related area. In process of earning the MOT degree, students will obtain a required concentration in Human Occupation Studies (HOCS) in preparation for graduate coursework in occupational therapy. Prior to admission into the MOT degree program, prerequisite courses must be completed or in process. Transfer students who have a bachelor's degree in a related field generally have 6 semesters of
academic coursework and one summer course plus a post-academic fieldwork internship to complete to meet Xavier University's requirements for the MOT degree. Xavier accepts equivalent transfer credit work from other regionally accredited institutions of higher education for prerequisite coursework.

Requirements for the Pre-MOT to MOT

Complete undergraduate prerequisite courses and earn no more than two “C” or lower letter grades in each course, as follows:

- ENGL 115 - Rhetoric
- BIOL 140 - Human A&P I for Allied Health
- BIOL 141 - Hum A&P I Lab Allied Health
- BIOL 142 - Hum A&P II for Allied Health
- BIOL 143 - Hum A&P II Lab Allied Health
- PHYS 140 - Technical Physics
- PHYS 142 - Technical Physics Lab
  - HOCS 386 Advanced Kinesiology
  - HOCS 387 Advanced Kinesiology Lab
- MATH 156 - General Statistics
- MATH 158 - General Statistics II
- BIOL 204 - Functional Neuroscience
- PSYC 231 - Developmental Psychology
- PHIL 329 - Bioethics

Concentration in Human Occupation Studies (HOCS):

Complete 23 hours from

- HOCS 301 - Human Occupation Across Lifesp
- HOCS 303 - Technlgy for Life Participatn
- HOCS 321 - Analysis of Occupational Perfo
- HOCS 323 - Occupat Justice I:Foundations
- HOCS 401 - Transformative Nature of Occup
- HOCS 403 - Creative & Systematic Inquiry
- HOCS 405 - Occupatnl Justice II: Indp Stu
- HOCS 411 - Condns Influencing Participn

Note(s):

- Earn no more than two “C” or lower letter grades in each course.

Radiologic Technology

The Radiologic Technology Program offers a two year/full-time (23 months) classroom and clinical training leading to an Associate of Science degree. The hospital affiliates are Good Samaritan Hospital and Mercy Hospital-Western Hills. Education for the radiography student is an integrated plan of classroom, laboratory and clinical education. The Radiographic Practicum courses (12 credit hours and approximately 1900 clock hours) allow the students to practice the theories taught at Xavier and apply them in a clinical setting. Upon successful completion of the program, students receive an Associate Degree in Science and are eligible to apply to the American Registry of Radiologic Technology (ARRT) to take their certification examination.

Also offered is a Magnetic Resonance Imaging (MRI) program. The program is designed to help MRI technologist working in the field prepare for the ARRT advanced examination or to help radiographers expand their career in MRI imaging.
Bachelor of Liberal Arts

Bachelor of Liberal Arts with MRI Concentration

Magnetic Resonance Imaging (MRI) Program

The program provides comprehensive didactic and clinical education in Magnetic Resonance Imaging with graduates meeting the eligibility requirements for the ARRT's post-primary exam in MRI. Candidates must be graduates or pending graduates from a JRCERT accredited program in Radiography. In addition, candidates must be registered by the ARRT by the beginning of the Spring semester.

Students have two options to continue their studies in MRI:

1. **Bachelor of Liberal Arts with a MRI concentration** – Students would complete the required general core courses in addition to the required MRI didactic/clinical courses for a total of 120 credit hours. Depending on the amount of transfer credit hours and the additional core courses taken during each semester, this option may take longer than the traditional two years. At the completion of the course of studies, students will receive their bachelor's degree and be eligible to apply to sit for the ARRT advanced registry examination for MRI.  
2. **MRI Certificate Program** – The applicant must be a graduate of an accredited radiologic technology program to be accepted into the MRI program. College credit hours will be awarded for the MRI didactic and clinical courses following successful completion of each course. At the completion of the program (17 credit hours), students will receive a certificate of completion and be eligible to apply to sit for the ARRT examination for MRI. Students would be able to apply these course credit hours towards the Bachelor Degree of Liberal Arts in the future.

Note(s):

- A grade of "C-" or better must be attained in all RADT courses.
- Courses with prerequisites cannot be taken until the prerequisite courses have been successfully completed with a grade of "C-" or better.
- All students must present evidence of the following prior to entrance in all clinical courses:
  1. Liability insurance ($2,000,000/$4,000,000), purchased through the University and billed to student’s account.
  2. Health history and required physical examination form
  3. MMR immunization
  4. Yearly tuberculosis skin test (two-step)
  5. Hepatitis B series
  6. Proof of current health care coverage
  7. Verification of history of varicella (chicken pox)
  8. Tetanus-Diphtheria-Acellular Pertussia (Tdap)
  9. CPR certification
- Students are responsible for these expenses as well as for uniforms, and transportation costs to the clinical sites. Students must provide their own transportation between campus and clinical sites.

August - Pre-Semester

- **RADT 300 - Introduction to MRI**  (This course must be completed with a "C-" or better before entering the Fall Semester and the clinical aspects of the program.)
Total (1)

Fall Semester: Begins with the regular Fall Semester

- RADT 310 - MRI Imaging Procedures
- RADT 311 - MRI Practicum I
- RADT 320 - Physical Principles of MRI I
- RADT 330 - Advance Sectional Anatomy

Total (8)

Spring Semester

- RADT 313 - MRI Practicum II
- RADT 321 - Physical Principles of MRI II
- RADT 340 - MRI Pathology
- RADT 350 - Management of a MRI Center

Total (8)

Total of 17 credit hours

NOTE:

A grade of "C-" or higher must be attained in all MRI courses in order to advance to the next semester.

Associate of Science

Radiologic Technology, A.S.

The Radiologic Technology Program offers a two year/full-time (21 months) classroom and clinical training leading to an Associate of Science degree. The hospital affiliates are Good Samaritan Hospital and Mercy Hospital-Western Hills. Education for the radiography student is an integrated plan of classroom, laboratory and clinical education. The Radiographic Practicum courses (12 credit hours and approximately 1750 clock hours) allow the students to practice the theories taught at Xavier and apply them in a clinical setting. Upon successful completion of the program, students receive an Associate Degree of Science and are eligible to apply to the American Registry of Radiologic Technology (ARRT) to take their certification examination.

Students interested in pursuing a career in Magnetic Resonance Imaging (MRI) can complete the MRI courses and clinical training after graduating from the radiologic technology program. These courses are designed to help MRI technologist working in the field prepare for the ARRT advanced examination or to help radiographers obtain their Bachelor's degree of Liberal Arts with a concentration in MRI.
Associate of Science Degree in Radiologic Technology

The program requires 73 semester hours which include courses in liberal arts and radiologic technology.

The graduates of this program are eligible to apply for the American Registry of Radiologic Technologists examination.

Requirements for the Associate Degree in Radiologic Technology:

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum

Major requirements:

37 credit hours, as follows

Specific courses are required, take:

- RADT 150 - Medical Terminology
- RADT 152 - Patient Care in Radiography
- RADT 154 - Ethics & Law in Radiography
- RADT 160 - Radiographic Procedures I
- RADT 161 - Radiographic Practicum I
- RADT 162 - Radiographic Procedures II
- RADT 163 - Radiographic Practicum II
- RADT 165 - Radiographic Practicum III
- RADT 170 - Prin of Radiographic Expos I
- RADT 172 - Prin of Radiographic Expos II
- RADT 180 - Radiation Protection and Biology
- RADT 200 - Digital Imaging
- RADT 250 - General Radiography
- RADT 260 - Special Procedures
- RADT 261 - Radiographic Practicum IV
- RADT 262 - Pharmacology & Drug Admin
- RADT 263 - Radiographic Practicum V
- RADT 265 - Radiographic Practicum VI (optional)
- RADT 270 - Prin of Radiographic Expos III
- RADT 272 - Principles Computed Tomography
- RADT 280 - Pathology
- RADT 292 - Imaging Equipment & Film Proc
- RADT 294 - Radiographic Sectional Anatomy
- RADT 325 - Radiography Capstone
Additional Major requirements:

7 credit hours, as follows

3 Hours of PSYC 101 or SOCI 101

- PSYC 101 - General Psychology
  or
- SOCI 101 - Introduction to Sociology

3 hours of Interpersonal Communication from:

- COMM 101 - Oral Communication

Note(s):

- A grade of "C-" or better must be attained in all RADT courses.
- Courses with prerequisites cannot be taken until the prerequisite courses have been successfully completed with a grade of "C-" or better.
- All students must present evidence of the following prior to entrance in all clinical courses:
  1. Liability insurance ($2,000,000/$4,000,000), purchased through the University and billed to student's account.
  2. Health history and required physical examination form
  3. MMR immunization
  4. Yearly tuberculosis skin test (two-step)
  5. Hepatitis B series
  6. Proof of current health care coverage
  7. Verification of history of varicella (chicken pox)
  8. Tetanus-Diphtheria-Acellular Pertussis (Tdap)
  9. CPR certification
- Students are responsible for these expenses as well as for uniforms, radiographic markers, and transportation costs to the clinical sites. Students must provide their own transportation between campus and clinical sites.

Total Number of Credits: 66 Hours

Total of 17 credit hours

NOTE:

A grade of "C-" or higher must be attained in all MRI courses in order to advance to the next semester.

Social Work

The Department of Social Work offers the Bachelor of Science in Social Work.

Bachelor of Social Work

Social Work, B.S.W.

"I want to help people." This is the quest most commonly identified by students declaring social work as a major. For those with a strong desire to promote social justice and improve the collective well-being of individuals, families, groups, organizations, and
communities, social work is a profession with both educational and licensure requirements. Social workers are licensed professionals helping both individual people and society with complex interpersonal and social problems.

Social Work at Xavier is a four-year undergraduate program grounded in the liberal arts which grants the student a bachelor of social work (BSW) degree and has been accredited continuously for over thirty five years by the Council on Social Work Education.

In order to graduate students who are prepared for beginning level social work generalist practice as well as for graduate school, the following five goals of the Social Work program are linked to the student learning outcomes of the University.

• Critical Thinking & Research: students will apply critical thinking skills in order to engage as a consumer and producer in research informed practice and practice informed research.
• Practice as a Professional: students will identify as professional generalist practitioner and become leaders engaging, assessing, intervening, and evaluating client systems at all levels, with an understanding of interprofessional practice.
• Ethics & Values: students will be able to engage in a decision making process based on the ethical principles of social work and identifying personal and professional values that play a role in that process.
• Policy & Social Justice: students will be able to engage in analysis and action regarding policy and practice standards that are informed by knowledge of institutional discrimination, oppression, and privilege and that advance social justice for all
• Human Behavior & Diversity: students will be able to utilize social work cultural competency standards and theories of human behavior grounded in person-in-environment perspective, including bio-psycho-social-spiritual assessment.

Social work majors primarily complete their university core curriculum requirements during freshman and sophomore years, including four courses required by the major that are taught outside of the department. Most required social work courses are upper level courses taught inside the department during junior and senior years.

To be an effective beginning level generalist practitioner, social work majors must acquire knowledge of social work theory and develop skills as a practitioner under professional supervision. During both semesters of the senior year, students are engaged 16 hours per week in a supervised Field Placement agency setting. During spring semester of the junior year, the Director for Field Education guides students through an extensive matching process to choose their Field Placement site.

Social Work licensure requirements vary by state. To determine the licensure requirement for each state, see www.aswb.org. In many states, including Ohio, students graduating with a BSW can take the licensure exam to be a Licensed Social Worker. In Ohio, the licensure exam can be taken in spring of the senior year to prepare for employment upon graduation.

Social workers who have graduated from an accredited BSW program like Xavier's may be eligible for advanced standing admission to graduate-level MSW programs. Through advanced standing, social work graduate students can often complete their graduate degree in only one year.

Academic Performance Policy

Declaring the Major

Students may declare Social Work as a major as incoming freshmen or thereafter during their careers at Xavier as long as they are in good academic standing in the university (gpa 2.0 or higher).

• The first step is to meet with the chair of the department.
• After that, the official change of major through the registrar’s office will be initiated by the department administrative assistant.
• Students will then be assigned an Academic Advisor within the Social Work Department, and are required to meet with their Academic Advisor each semester to ensure completion of the required curriculum.
• All students declaring social work as a major enter the major at provisional status.
• In the junior year, social work majors must have achieved a December 2.5 GPA to be eligible to complete the Field Placement Petition process in spring in order to enter field placement in fall of the senior year.
  ◦ Social work majors should begin their junior year with a minimum 2.5 GPA in the major as determined by the registrar (for a minimum of 3 SOCW courses taken at Xavier University).
  ◦ Those who have achieved a minimum August 2.5 GPA will be granted full acceptance into the major during fall semester of the junior year.
  ◦ Those who either have not yet achieved a minimum August 2.5 GPA or who have not yet completed 3 SOCW courses at Xavier University will be placed on provisional status as a major and have one semester, the fall semester of junior year, to meet this December GPA requirement.
Admission & Academic Performance Policy

1. Students must be in good academic standing (GPA of 2.0 or higher) at the university to be accepted as a social work major and an overall minimum grade point average (GPA) of 2.0 is required to graduate from Xavier University.
2. Social work course credit is not granted for life experiences or previous work experience.
3. A minimum GPA of 2.5 in the major is required to graduate with a BSW degree.
   1. This GPA is based on the 53 required social work credit hours plus the 9 credits of electives.
   2. It does not include the 12 CR of coursework required outside the department: intro to sociology, intro to psychology, human biology, and statistics.
4. All students declaring social work as a major enter the major at provisional status.
5. In the junior year, social work majors must have achieved a December 2.5 GPA to be eligible to complete the Field Placement Petition process in spring in order to enter field placement in fall of the senior year.
   1. Social work majors should begin their junior year with a minimum 2.5 GPA in the major as determined by the registrar (for a minimum of 3 SOCW courses taken at Xavier University).
   2. Those who have achieved a minimum August 2.5 GPA will be granted full acceptance into the major during fall semester of the junior year.
   3. Those who either have not yet achieved a minimum August 2.5 GPA or who have not yet completed 3 SOCW courses at Xavier University will be placed on provisional status as a major and have one semester, the fall semester of junior year, to meet this December GPA requirement.
   4. A student may appeal the 2.5 GPA policy by submitting the request in writing to the department. The department has the right to deny or grant any such request.
6. The social work department has a "C or better" grade policy for all courses required by the major. If a student receives a letter grade below a "C", meaning a "C-" or below, in a course required by the social work major, the student must repeat the course.
   1. This policy applies to all SOCW courses and those required courses taught outside the department. (listed in italics in the social work handbook/advising checklist)
   2. This policy DOES NOT apply to courses fulfilling the required 9 CR of social work electives.
   3. A student may appeal the "C or better" grade policy by submitting the request in writing to the department. The department has the right to deny or grant any such request.
7. Students fully accepted as a major with a minimum 2.5 GPA whose GPA in the major drops below 2.5 have one semester of probationary status and one semester only to return to a minimum 2.5. Students unable to do so will no longer be able to declare social work as a major.

Termination from Social Work Major

The Social Work Department at Xavier University is interested in promoting professionalism in social work. The termination process of the Department is designed to ensure that individuals who do not meet the expectations for entry level social work do not graduate with a social work degree.

- Prior to termination, the student will be provided with verbal and written notification of an impending action.
- An interview with the Chairperson and/or Director for Field Education will be scheduled with the student to discuss alternate options to termination.
- If an option other than termination is viable, a contract will be negotiated between the Chairperson and the student specifying steps to be taken toward resolution with a time limit for the accomplishment of the plan.
- A final interview with the Chairperson will be scheduled to determine if the steps in the contract have been successfully accomplished.
- The Chairperson may re-negotiate the contract as needed.
- Students who are terminated from the major are notified in writing of the decision.

Students may be terminated from the social work major for both academic and/or professional performance issues. Students may be terminated from the major any time after declaration of the major. To terminate a student from the major is a serious decision that is made collectively by the social work faculty. These reasons may include, but are not limited to:

Reasons for Termination:

1. Failure to meet or maintain academic grade point requirements as established by the University.
2. Academic plagiarism in any social work course.
3. Failure to meet academic requirements of the program.
4. Violation of the NASW Code of Ethics.
Requirements for the Social Work Major

Undergraduate Core Curriculum requirements:

48-63 Credit Hours dependent on courses taken. See Undergraduate Core Curriculum

Courses taught outside the department required by the major that also meet core curriculum requirements.

Mathematics:

• Take Statistics from either MATH 116 or MATH 156 and earn a grade of "C" or better; and take another math core class.

Science:

• BIOL 102 and BIOL 132 and earn a grade of "C" or better;

Social Sciences:

• PSYC 101 and SOCI 101 and earn a grade of "C" or better in each class.

Major requirements:

53 credit hours, as follows; and 9 credit hours of electives, as needed for a total of 62 credit hours.

Specific social work courses required, take:

• SOCW 167 - Survey of Society Social Work
• SOCW 206 - Intro to Gender & Diversity St
• SOCW 208 - Economics of Society
• SOCW 299 - Child Welfare and Development
• SOCW 300 - Adolescence - Older Adulthood
• SOCW 315 - Values, Poverty and Society
• SOCW 316 - Soc Policy & Contemporary Issu
• SOCW 320 - Communication Skills Seminar
• SOCW 352 - Research Methodology
  ◦ SOCW Upper Level Diversity Course (Choose either SOCW 318 Trends in Modern Soc: Race Rel, or SOCW 325 Women/Men: Myth & Reality)
• SOCW 392 - Practice I: Individuals
• SOCW 393 - Practice II: Groups & Families
• SOCW 394 - Practice III: Comm & Org
• SOCW 404 - Rel/Ethics & Profession Pract
• SOCW 417 - Social Work Field Instruction
• SOCW 418 - Social Work Field Instruction
• SOCW 419 - Social Work Seminar
• SOCW 420 - Social Work Seminar
• SOCW 424 - Research Paper

Social Work Electives

9 credit hours as follows:

• Minimum of nine hours in related divisional work as specified in the Support Core (or other courses approved by the department chair),
  • CJUS 101 - Intro to Criminal Justice
  • CJUS 260 - Current Issues in Crim Justice
  • CJUS 321 - Juvenile Justice
  • CJUS 335 - Inside-Out Prison Exchange
  • COMM 101 - Oral Communication
  • COMM 209 - Group Dynamics
  • POLI 140 - American Government and Politi
  • POLI 301 - Political Philosophy
  • PSYC 261 - Social Psychology

  or

• SOCW 261 - Social Psychology
• PSYC 277 - Abnormal Psychology
• SOCW 318 - Trends in Modern Soc: Race Rel
• SOCW 325 - Women/Men: Myth & Reality
• SOCW 402 - Child Abuse & Family Violence
• SOCW 444 - Addictive Behaviors
• PSYC 367 - Psychology of Aging

Additional Major requirements:

• In order to enter field education courses, the student must complete the petition for acceptance into field education, and receive approval for entrance into field by the department.
• Other policies for Social Work majors are located in the departmental student handbook.
• A grade of "C" or better must be attained in each course required for the social work major, including the nine hours of social work electives.
• Exceptions to this requirement may be granted following petition to the department.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S.W. Social Work

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- PHIL 100 - Ethics as Intro to Philosophy
- Foreign Language Elective (3)
- CORE 100 - First Year Seminar
- CORE 101 - First Year Co-Curricular Program I
- SOCW 167 - Survey of Society Social Work   (fulfills core Diversity Curriculum Requirement)

Total (15)

Second Semester

- THEO 111 - Theological Foundations
- Foreign Language Elective (3)
- SOCI 101 - Introduction to Sociology or PSYC 101 - General Psychology
- Creative Perspectives Elective
- Historical Perspectives
- CORE 102 - First Year Co-Curricular Program II

Total (15)

Sophomore Year

First Semester

- SOCW 299 - Child Welfare and Development (fulfills core curriculum Social Science Requirement)
- SOCW 206 - Intro to Gender & Diversity Studies
- PHIL 200 - Philosophical Perspectives
• Scientific Perspectives Elective
• CLAS 205 - Classical Lit & Moral Imagination or ENGL 205 - Literature & Moral Imagination or SPAN 205 - Hispanic Lit & Moral Imagination

Total (15)

Second Semester

• SOCW 300 - Adolescence - Older Adulthood
• BIOL 102 - Life: Human Biology
• BIOL 132 - Life: Human Biology Lab (fulfills core curriculum Natural Science Requirement)
• SOCW 208 - Economics of Society
• Humanities Elective
• Oral Communication Elective

Total (15)

Junior Year

First Semester

• SOCW 315 - Values, Poverty and Society 
• SOCW 320 - Communication Skills Seminar
• SOCW 392 - Practice I: Individuals
• SOCW Elective #1
• MATH 116 - Elementary Statistics or MATH 157 - General Statistics (fulfills core curriculum Mathematical Perspectives Requirement)
• PSYC 101 - General Psychology or SOCI 101 - Introduction to Sociology

Total (16)

Second Semester

• SOCW 316 - Soc Policy & Contemporary Issu
• SOCW Upper Level Diversity Course (Choose from SOCW 318 Trends in Modern Soc: Race Rel, or SOCW 325 Women/Men: Myth & Reality)
• SOCW Elective #2
• Quantitative Reasoning Elective
• SOCW 393 - Practice II: Groups & Families

Total (15)
Senior Year

First Semester

- SOCW 417 - Social Work Field Instruction
- SOCW 419 - Social Work Seminar
- SOCW 352 - Research Methodology
- SOCW 394 - Practice III: Comm & Org
- General Elective

Total (15)

Second Semester

- SOCW 418 - Social Work Field Instruction
- SOCW 420 - Social Work Seminar
- SOCW Elective #3
- Writing Intensive Elective
- SOCW 424 - Research Paper
- SOCW 404 - Rel/Ethics & Profession Pract

Total (16)

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- + Several courses offered by the social work department fulfill the fourth societal focus course in the Core Curriculum's Ethics/Religion and Society (E/RS) Focus: SOCW 315 Values, Poverty and Society; SOCW 404 Rel/Ethics & Profession Pract; and SOCW 206 - Intro to Gender and Diversity Studies

Minors

Social Work Minor

The social work minor provides students with:

- An understanding of the profession of social work and the central role of advocacy
- An understanding of social work values and ethical practices
- An examination of contemporary social issues affecting individuals, families, groups, organizations, and communities integrating diversity and social justice perspectives
- An understanding of social policies and social institutions that impact citizens and society
• An understanding of knowledge and skills necessary to engage in empowerment and advocacy for the collective well-being of all and developing solutions to many contemporary social problems

18 credit hours

6 credit hours:

• SOCW 167 - Survey of Society Social Work
• SOCW 316 - Soc Policy & Contemporary Issu

9 credit hours

Choose 3 of the following 5:

• SOCW 206 - Intro to Gender & Diversity St
• SOCW 208 - Economics of Society
• SOCW 299 - Child Welfare and Development
• SOCW 300 - Adolescence - Older Adulthood
• SOCW 315 - Values, Poverty and Society

3 credit hours:

Choose one of the following:

• SOCW 392 - Practice I: Individuals
• SOCW 404 - Rel/Ethics & Profession Pract

Note(s):

• A grade of C or better is required for all coursework in the minor.

**Sport Studies**

The sport studies department offers undergraduate degrees in sport management, sport marketing, and exercise science, as well as master's degrees in sport administration, athletic training and coaching education and athlete development.

The sport management and marketing programs prepare students to work in the sport industry. This industry is competitive, and for students to succeed, it is necessary to network and build relationships in the industry while pursuing undergraduate education. To this end, the program seeks to maximize student contact with industry professionals and enhance understanding of the business of sport through rigorous academic preparation.
Bachelor of Science

Exercise Science, B.S.

The BS in Exercise Science degree is a scientific program that focuses on the anatomy, physiology, biochemistry, and biophysics of human movement, and the application to exercise, physical activity, and therapeutic rehabilitation. Students will be taught to create and execute science-based exercise programs that are safe and effective for a variety of individuals. Students will learn to promote wellness for individuals of different ages, sexes, and fitness levels/abilities.

Students will be prepared to work in health promotion, fitness facilities, colleges and universities, clinical rehabilitation facilities, and in sport and athletic conditioning programs. This degree is also designed to help students prepare for graduate studies in athletic training, medicine, occupational therapy, physical therapy, and other health care related specialties.

Dependent upon the exercise science electives students select, at the end of this program students may be eligible for the following certifications: American College of Sports Medicine (ACSM) Certified Exercise Physiologist, ACSM Certified Personal Trainer, National Strength & Conditioning Specialists (CSCS), and American Council on Exercise (ACE) Personal Trainer Certification.

Program Admission Requirements

There are no separate admission criteria for the BS in Exercise Science major. All students that are admitted into XU are welcome to start the major.

Program Progression and Retention Requirements

Academic Progression

• Several Exercise Science courses have required pre-requisites. Students must pass each required pre-requisite with a grade of C or better to be permitted to register for the Exercise Science course. A grade of C- or less will not meet the requirement. This may impact progression in the major and possibly a student's date of graduation.

• Students must earn minimum grade of "C" in all Core Exercise Science courses. Students may repeat a course one time to improve their grade and meet graduation requirements. If a student does not meet the minimum grade requirement the second time a course is taken, they will not be permitted to retake the course, and will be dismissed from the major.

Academic Probation

• Any student whose cumulative average falls below 2.75 is placed on academic probation. Academic probation will be imposed by the program director at the end of any term. While on probation a student may be restricted to a reduced course load, and/or receive other stipulations intended to improve the student's academic success. Academic probation is removed when the student's cumulative average rises to 2.75 or above.

Academic Suspension

Students on academic probation who fail to restore their cumulative grade point average to 2.75 within two semesters will be suspended from the program. In addition, freshmen and probationary students who receive more than one failing grade within a single term will be suspended. Suspension will be enforced unless in the judgment of the program director there are extenuating circumstances. One fall or spring term must elapse before a suspended student may reapply.

Academic Reactivation

A suspended student who wishes to return is required to contact the program director in writing. Reactivation and the conditions for such will be determined by program director.

Academic Dismissal
A student who has been readmitted after a period of suspension and who fails to meet the terms of the readmission as stipulated by the program director will be dismissed from the program and is not eligible to return.

Program Graduation Requirements

- Completion of all Exercise Science and XU Core Requirements
- Completion of a minimum of 120 credits
- A minimum grade of "C" in all Core Exercise Science courses
- A minimum cumulative GPA of 3.0 in all Core Exercise Science courses
- A minimum grade of "C" in all Exercise Science Elective courses
- A minimum cumulative GPA of 3.0 in all Exercise Science Elective courses
- A minimum grade of "C" in all required Science courses
- A minimum cumulative GPA of 2.50 in all required Science courses
- Anatomy and Physiology must be completed at a four-year regionally accredited university

Requirements for the Exercise Science Major

Core Curriculum Requirements

See Undergraduate Core Curriculum

Exercise Science Curriculum

Credit Hour Total: 56-57 cred hours.

- Exercise Science Major Requirements - 26 credit hours
- Exercise Science Electives - 9 credit hours
- Math Requirements - 3 credit hours
- Science Requirements - 15-16 credit hours
- Social Science Requirements - 3 credit hours

Major Requirements

- EXSC 100: Introduction Exercise Science 3 CR
- EXSC 200: Kinesiology 3 CR
- EXSC 300: Exercise Physiology 3 CR
- EXSC 320: Fitness Training Principles 3 CR
- EXSC 325: Resistance Training 1 CR
- EXSC 360: Nutrition for Sport & Exercise 3 CR
- EXSC 380: Fitness Assessment & Design 3 CR
- EXSC 381: Fitness Assessment & Design Lab 1 CR
- EXSC 460: Exercise Science Practicum 6 CR
Exercise Science Electives - 9 hours from the following options:

- BIOL 204: Functional Neuroscience 3 CR
- BIOL 370: Endocrinology 3 CR
- EXSC 160: Group Fitness 1 CR
- EXSC 260: Sports Medicine 3 CR
- EXSC 261: Sports Medicine Lab 1 CR
- EXSC 340: International Exercise Science 3 CR
- EXSC 400: Biomechanics 3 CR
- EXSC 420: Cardiopulmonary Fitness 3 CR
- EXSC 440: Fitness in Special Populations 3 CR
- SPMG 322: Facility and Event Mgmt 3 CR
- SPMG 348: Legal and Ethical Issues in Sport 3 CR
- SPMG 377/PSYC477: Sport Psychology 3 CR
- SPMG 410: Sport Ethics 3 CR

Mathematics Requirements:

- MATH 116 - Elementary Statistics
  or
- MATH 156 - General Statistics

Science Requirements:

- BIOL 140 - Human A&P I for Allied Health
- BIOL 141 - Hum A&P I Lab Allied Health
- BIOL 142 - Hum A&P II for Allied Health
- BIOL 143 - Hum A&P II Lab Allied Health
- CHEM 150 - Physiological Chemistry
- CHEM 151 - Physiological Chemistry Lab
  or
- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- PHYS 140 - Technical Physics
- PHYS 142 - Technical Physics Lab
  or
- PHYS 160 - College Physics I
- PHYS 161 - Introductory Physics Lab I

Social Science Requirement:

- PSYC 101 - General Psychology
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Exercise Science

4 Year Plan

First Year

Fall Semester

- BIOL 140 - Human A&P I for Allied Health
- BIOL 141 - Hum A&P I Lab Allied Health
- ENGL 101 - English Composition
- EXSC 100 - Intro to Exercise Science
- Second Language I
- CORE 101
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar

Spring Semester

- BIOL 142 - Hum A&P II for Allied Health
- BIOL 143 - Hum A&P II Lab Allied Health
- EXSC 200 - Kinesiology
- Historical Perspectives
- Second Language II
- CORE 102
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar

Second Year

Fall Semester

- CHEM 150 - Physiological Chemistry
- CHEM 151 - Physiological Chemistry Lab
- MATH 116 - Elementary Statistics or MATH 156 - General Statistics
- PSYC 101 - General Psychology
- EXSC 300 - Exercise Physiology
- Theological Perspectives Elective
Spring Semester

- PHIL 100 - Ethics as Intro to Philosophy
- EXSC 320 - Fitness Training Principles
- EXSC 325 - Resistance Training
- EXSC 360 - Nutrition for Sport and Exercise
- ENGL/CLAS/SPAN 205 - Lit & Moral Imag
- Core/General Electives (3)

Third Year

Fall Semester

- PHYS 140 - Technical Physics
- PHYS 142 - Technical Physics Lab
- EXSC 380 - Fitness Assessment and Design
- EXSC - Fitness Assess and Design Lab
- Ethics/Religion & Society Elective
- Humanities Elective
- Core/General Electives

Spring Semester

- Exercise Science Elective
- Exercise Science Elective
- PHIL 200 - Philosophical Perspectives
- Creative Perspectives
- Core/General Electives

Fourth Year

Fall Semester

- Exercise Science Elective
- Core/General Electives

Spring Semester

- EXSC 460 - Exercise Science Practicum
- Core/General Electives
B.S. Exercise Science + M.S. Athletic Training 3+2 Option

Program Requirements

Students are required to meet all Admission, Progression, Retention and Graduation requirements of the Exercise Science, B.S. and Athletic Training, M.S.

Curriculum Requirements

151 credit hours:

- Undergraduate Core Curriculum
- B.S. Exercise Science Requirements - 97 credit hours
- Dual B.S. Exercise Science / M.S. Athletic Training Requirements - 23 credit hours
- M.S. Athletic Training Requirements - 31 credit hours

Course Sequence

First Year

Fall Semester

- EXSC 100 - Intro to Exercise Science
- BIOL 140 - Human A&P I for Allied Health
- BIOL 141 - Hum A&P I Lab Allied Health
- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
- Second Language I
- CORE 101

Spring Semester

- EXSC 200 - Kinesiology
- BIOL 142 - Hum A&P II for Allied Health
- BIOL 143 - Hum A&P II Lab Allied Health
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
- Second Language II
- Historical Perspectives
- CORE 102
Second Year

Fall Semester

• CHEM 150 - Physiological Chemistry
• CHEM 151 - Physiological Chemistry Lab
• MATH 116 - Elementary Statistics or MATH 156 - General Statistics
• PSYC 101 - General Psychology
• EXSC 300 - Exercise Physiology
• Theological Perspectives Elective

Spring Semester

• PHIL 100 - Ethics as Intro to Philosophy
• EXSC 320 - Fitness Training Principles
• EXSC 325 - Resistance Training
• EXSC 360 - Nutrition for Sport & Exercise
• Exercise Science Elective
• ENGL/CLAS/SPAN 205 - Lit & Moral Imag

Third Year

Fall Semester

• PHYS 140 - Technical Physics
• PHYS 142 - Technical Physics Lab
• EXSC 380 - Fitness Assessment & Design
• EXSC 381 - Fitness Assess & Design Lab
• Exercise Science Elective
• Ethics/Religion & Society Elective
• Humanities Elective

Spring Semester

• Exercise Science Elective
• EXSC 460 - Exercise Science Practicum
• PHIL 200 - Philosophical Perspective
• Creative Perspectives Elective
• Core / General Electives

Summer Semester

• ATTR 500 - Care & Prevention
• ATTR 501 - Athletic Training Skills
• ATTR 510 - Anatomical Kinesiology
Fourth Year

Fall Semester

• ATTR 521 - Lower Extremity Injuries
• ATTR 531 - Therapeutic Interventions 1
• ATTR 540 - Evidence Based Practice
• ATTR 561 - Clinical Experience I

Spring Semester

• ATTR 522 - Upper Extremity Injuries
• ATTR 523 - Head, Spine & Thorax Injuries
• ATTR 532 - Therapeutic Interventions II
• ATTR 541 - Research I
• ATTR 550 - IP Collaboration
• ATTR 562 - Clinical Experience 2

Fifth Year

Fall Semester

• ATTR 600 - Medical Issues in AT
• ATTR 610 - Administrative Concepts
• ATTR 633 - Therapeutic Interventions III
• ATTR 642 - Research II
• ATTR 663 - Clinical Experience 3

Spring Semester

• ATTR 650 - Contemporary Issues in AT
• ATTR 664 - Clinical Experience 4

Note:

• Students will need to incorporate the 5 flags into their core courses.

Sport Management, B.S.

See Sport Management/Marketing, B.S.
Sports Management/Sports Marketing

Requirements for the Sport Management and Sport Marketing Majors

Undergraduate Core Curriculum Requirements:

Students take 48 hours of core classes exclusive of those core courses required for the Sport Management or Sport Marketing major. See Undergraduate Core Curriculum.

Mathematics Requirement:

- MATH 116 - Elementary Statistics
- or
- MATH 156 - General Statistics
  - One elective core mathematics course

Major Requirements:

73 / 79 credit hours, distributed as follows:

Area 1 Sport Management / Sport Marketing Courses

21 to 27 hours from sport management/sport marketing curriculum.

- SPMG 110 - Intro to Sports Management
- SPMG 132 - Sociology of Sport
- SPMG 195 - History of American Sport
- SPMG 310 - Intro to Sport Marketing
- SPMG 322 - Facility & Event Mgmt
- SPMG 348 - Legal & Ethical Issues in Sprt
- SPMG 410 - Sport Ethics
  - SPMK Elective
  - SPMK Elective

Area 2 Sport Management Electives

Sport Management and Sport Marketing students take 9 hours of sport management electives. Choose from the following or select other classes to count toward a minor or double major.

- SPMG 340 - International Sport
- SPMG 350 - Professional Devel. SPMG
• SPMG 360 - Sport Finance & Economics
• SPMG 377 - Sport Psychology
  ◦ SPMG 380 - Contemporary Coaching: Issues & Trend

Area 3 Business Courses

22 hours from business curriculum

• ACCT 200 - Introductory Financial Acct
• BLAW 300 - Legal Environment
• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles
• INFO 120 - Introduction to Business Tech
• INFO 220 - Mgmnt of Info Tech
• MGMT 300 - Managerial Behavior
• MKTG 300 - Principles of Marketing

Area 4 Communication Courses

12 hours from communication arts curriculum

• COMM 101 - Oral Communication

Choose From:

• COMM 206 - Writing for the Media or
• COMM 207 - Interpersonal Communication or
• COMM 211 - Media Literacy
  ◦ Six elective hours (COMM 209-479)

Area 5 Sport Management Internship

9 hours of field experience required, including:

• SPMG 495 - Internship in Sport Mgmt
  ◦ Each three hour block in SPMG 495 equals 200 clock hours for a total of 400 clock hours

Note:

• A 2.000 cumulative GPA must be attained in these major courses.
TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Sport Management

Year 1

Fall Semester

- SPMG 110 Intro to Sport Management
- Mathematical Perspectives elective
- First Year Sem. (CORE100) OR Theology 111
- Introduction to Ethics (PHIL100)
- Second language I
- CORE 101

Total (15)

Spring Semester

- SPMG 195 History of American Sport
- COMM 101 Oral Communications
- First Year Sem. (CORE100) OR Theology 111
- Composition or Rhetoric (ENGL101/115)
- Second Language II
- CORE 102

Total (15)

Year 2

Fall Semester

- SPMG 132 Sociology of Sport
- ECON 200 (Soc. Sci elective)
- Historical Perspectives elective
- Scientific Perspectives elective
- Philosophical Perspectives (PHIL200)

Total (15)
Spring Semester

- ECON 201 Macroeconomic Principles
- Sport Management Elective
- Nat. Sci. elective
- Theological Perspectives elective
- Creative Perspectives elective

Total (15)

Year 3

Fall Semester

- SPMG 322 Facility and Event Management
- COMM 207 Interpersonal Communication
- SPMG 410 Sport Ethics (DCR elec)
- Literature and Moral Imagination 205
- MKTG 300 Principles of Marketing
- INFO 120 Intro to Business Tech

Total (16)

Spring Semester

- SPMG 310 Intro to Sport Marketing
- Communication Arts Elective
- INFO 220, Managing Info Technology
- Humanities elective
- ACCT 200 Intro Financial Accounting
- SPMK Elective

Total (18)

Year 4

Fall Semester

- SPMG 348 Legal & Ethical Issues in Sport
- BLAW 300 (E/RS elec.)
- Sport Management elective
- MGMT 300 Managerial Behavior
• General elective
  • SPMK Elective

Total (18)

Spring Semester

• SPMG 495
• Sport Management Elective
• General Elective

Total (15)

Notes:

• Some of these electives may double count with other core or major courses
• All students must elect one each of oral communications, quantitative reasoning and writing-intensive flagged courses; many of these are available within the core or major.
• A minimum of 120 credit hours is required for the degree.

Master of Education

Coaching Education and Athlete Development, M.Ed.

The Master in Coaching Education and Athlete Development is a 33 hour cohort program. The students will complete 33 hours of coursework online and which will include two one-week summer residencies.

Contact the Department of Sport Studies for additional information 513 745-4291 or www.xavier.edu/coaching
Course Sequence

Year One

• SPMG 570 - Psycho-Social Aspects of Sport
• SPMG 610 - Sport Ethics
  ◦ SPMG 620 - Sport Leadership and Team Building
• SPMG 625 - High School Athletic Admin
  ◦ SPMG 640 - Sports Safety, Risk Management and Injury Prevention
  ◦ SPMG 680 - Residency I: Special Topics (Summer, 4 weeks; 1 week in residence)

Year Two

• SPMG 630 - Sport Pedagogy and Coaching Analysis
• SPMG 650 - Long-term Athlete Development I: Youth and Novice Athletes
• SPMG 660 - Long-term Athlete Development II: Elite and Senior Athletes
• SPMG 670 - Research In Coaching
• SPMG 681 - Residency II

Sport Administration, M.Ed.

The degree of Master of Education with a concentration in Sport Administration is designed to prepare an individual for a career within the expanding sport industry. The program was designed utilizing the guidelines recommended by the North American Society for Sport Management (NASSM).

A three semester hour internship, six semester hour internship, or a research project is required, depending on each student's individual background and career goals. The internship may be taken after a student has successfully completed 15 semester hours. Internships are planned and supervised learning activities which take place in a sport administration related environment. The student will be supervised by a sport management practitioner. There is no comprehensive exam.

Admission Requirements

For admission information for the graduate level programs, go to http://www.xavier.edu/sport-administration/ on the Xavier University website. The program is designed to be accessible to full-time or part-time students. Classes are held in the evenings. Students may be admitted to the program in any semester.

Requirements for the M.Ed. in Sport Administration:

This M.Ed. degree requires a minimum of 30 credit hours with a minimum overall GPA of 2.800.
Core Requirements (15 semester hours)

- SPMG 521 - Intro to Sport Administration
- SPMG 522 - Sport Research & Statistics
- SPMG 595 - Sports Administration: Mktg
- SPMG 596 - Sports Administration: Finance
- SPMG 598 - Legal & Ethical ISS Sport & PE

Research and Field Experience (3-6 semester hours), select one option

- SPMG 692 - Sport Admin Research Project
- SPMG 695 - Internship in Sport Admin

Elective Courses (6-9 semester hours)

- SPMG 523 - Sports Administration Seminar
- SPMG 570 - Psycho-Social Aspects of Sport
- SPMG 610 - Sport Ethics
- SPMG 622 - Personnel Issues in Sport Mgmt
- SPMG 625 - High School Athletic Admin
- SPMG 632 - Sport Event Mgmt & Promotion
- SPMG 642 - Sport Fund-Raising
- SPMG 652 - NCAA:Rules Regulations Policy
- SPMG 654 - Women in Sport
- SPMG 662 - PR & Communication in Sport
- SPMG 664 - Facility Design & Planning
- SPMG 666 - Fitness Management
- SPMG 668 - Admin of Fitness & Wellness Pr

Master of Science

Athletic Training, M.S.

Athletic training is an allied health profession within the American Medical Association. The Xavier University Athletic Training Program (XU-ATP) functions to prepare students, in the Jesuit tradition, to serve others through competent and compassionate healthcare. The XU-ATP provides a positive learning environment that fosters ethical decision-making, and collaboration with emphasis on instilling the values of continuous improvement and life-long learning. The XU-ATP merges rigorous course work with a variety of applied clinical experiences to build a strong foundation for a career in the field of athletic training.

The Xavier University Athletic Training Program fulfills the curricular guidelines established by the Commission on Accreditation of Athletic Training Education (CAATE) and the National Athletic Trainers' Association (NATA). Completing a degree in our Master of Science in Athletic Training program fulfills the eligibility requirements of the BOC certification exam. Graduates of Xavier University's Athletic Training Program receive a Master of Science (M.S.) degree in Athletic Training and are eligible to sit for the BOC exam.
Go to http://www.xavier.edu/master-of-athletic-training-program/Admission.cfm for current information pertaining to accreditation, program admission, technical standards, graduation requirements and the curriculum.

The Masters in Athletic Training program operates on a rolling admissions basis. We welcome complete applications as early as August; however, the deadline is February 15th. Students may apply after the deadline, and we will review applications on a rolling basis as space permits in the cohort.

Students with incomplete prerequisites may apply; however, they must state how they will satisfy the prerequisites prior to the start of the program. A student with deficiencies may be considered for conditional admission to the program if he or she fails to meet any of the requirements, however, all requirements must be met prior to the start of the program.

Students may enter the M.S. in Athletic Training degree through one of two options (see below).

**Option 1: 2-year program for students with a bachelor's degree**

Students who have demonstrated excellent academic achievement in completion of a bachelor's degree and have completed all prerequisites may complete the 2-year / 5-semester MS in AT degree.

**Option 2: 5-year program for students without a bachelor's degree (3+2 design)**

In the first three years of this program students will complete courses to fulfill all XU core requirements, Exercise Science major requirements, and prerequisites for the MS in AT program. Once accepted into the MS in AT degree program, students complete the 2-year / 5-semester MS in AT degree. After the fourth year at XU, students will earn an undergraduate degree in Exercise Science and after the fifth year, students will earn a Master of Science in Athletic Training.

Program Admission Requirements

**MS in AT (5 year option): Conditional Graduate Program Admission Requirements**

Prospective students in the XU-Exercise Science major, interested in pursuing the Masters of Science in Athletic Training degree program must meet the pre-requisites listed below.

**Pre-requisites:**

- Completion of Xavier University's core and Exercise Science degree requirements
- Completion of a minimum of 97 credits
- Overall 3.0 GPA
- Minimum grade of "C" in each pre-requisite course (C- is not acceptable)
- Minimum cumulative GPA of 3.0 in all pre-requisite courses

Pre-requisite Courses:

- Anatomy & Physiology (BIOL 140-143)
- Students changing their major from Biology can petition to use BIOL 160-163
- Exercise Physiology (EXSC 225)
- Chemistry + Lab (CHEM 150 & 151)
- Physics + Lab (PHYS 140 & 141)
- Nutrition (EXSC 330)
- Statistics (MATH 116 or 156)
- English Composition (ENGL 101) or Rhetoric (ENGL 115)

- Completion of 40 hours of Professional exploration: a minimum of two athletic training practice settings addressing the needs of distinct patient populations
- CPR Certification (AHA ACLS, AHA BLS Healthcare Provider, or ARC CPR/AED for the Professional Rescuer.)
Prospective students will be asked to submit the following along with an online application form by the Admission Deadline (February 15th for the following summer semester).

- One official transcript sent directly from the college/university to the Office of the Graduate School, of all previous undergraduate and graduate course work. Transcripts must demonstrate that the GPA, and pre-requisite course requirements have been met.
- Documentation of 40 hours of Professional exploration: a minimum of two athletic training practice settings addressing the needs of distinct patient populations
- Proof of current CPR Certification (AHA ACLS, AHA BLS Healthcare Provider, or ARC CPR/AED for the Professional Rescuer)
- Proof of current First Aid Certification (ARC)
- Read the Technical Standards and submit the signed Technical Standards Verification Form.
- A one-page statement of your career goals and how Xavier's Athletic Training Program fits with your goals.
- Two letters from professional and/or academic references who are able to assess your potential for success in this program

** Once all pre-requisites have been meet, qualified students will complete an Interview with an Athletic Training Faculty member (in person or over the phone).

**MS in AT (2 year option): Admission Requirements**

Prospective students with a bachelors degree interested in pursuing the Masters of Science in Athletic Training degree program must meet the pre-requisites listed below.

**Pre-requisites:**

- A bachelors degree from a regionally accredited college or university.
- Overall 3.0 Undergraduate GPA
- Minimum grade of "C" in each pre-requisite courses (C- is not acceptable)
- Minimum cumulative GPA of 3.0 in all pre-requisite courses

Pre-requisite Courses:

- Human Anatomy & Physiology
- Human Anatomy & Physiology Lab
- Anatomy & Physiology can be combined or separate
- Exercise Physiology
- Chemistry + Lab
- Physics + Lab
- Nutrition
- Statistics
- English Composition (Writing course)

- Completion of 40 hours of Professional exploration: a minimum of two athletic training practice settings addressing the needs of distinct patient populations
- CPR Certification (AHA ACLS, AHA BLS Healthcare Provider, or ARC CPR/AED for the Professional Rescuer)
- First Aid Certification (ARC)

Prospective students will be asked to submit the following along with an online application form by the Admission Deadline (February 15th for the following summer semester).

- One official transcript sent directly from the college/university to the Office of the Graduate School, of all previous undergraduate and graduate course work. Transcripts must demonstrate that the GPA, and pre-requisite course requirements have been met.
• Documentation of 40 hours of Professional exploration: a minimum of two athletic training practice settings addressing the needs of distinct patient populations
• Proof of current CPR Certification (AHA ACLS, AHA BLS Healthcare Provider, or ARC CPR/AED for the Professional Rescuer)
• Proof of current First Aid Certification (ARC)
• Read the Technical Standards and submit the signed Technical Standards Verification Form.
• A one-page statement of your career goals and how Xavier's Athletic Training Program fits with your goals.
• Two letters from professional and/or academic references who are able to assess your potential for success in this program

** Once all pre-requisites have been meet, qualified students will complete an Interview with an Athletic Training Faculty member (in person or over the phone).

Progression & Retention Requirements

• Students must earn a minimum grade of "B-" in all graduate athletic training courses. Students may repeat a course one time to improve their grade and meet graduation requirements. If a student does not meet the minimum grade requirement the second time a course is taken, they will not be permitted to retake the course, and will be dismissed from the program.
• Students must maintain current First Aid and CPR certification. Students are not allowed to participate in clinical experiences without current CPR & First Aid credentials. Students without current credentials will be suspended from all clinical experiences until this requirement is met.
• Students must follow all program policies & procedures and adhere to the National Athletic Trainers' Association's Code of Ethics. Violations will be dealt with on an individual basis, but could result in probation, suspension, or expulsion of the program depending on the severity.
• A code of ethical behavior and conduct has been developed to ensure professional behavior of all students enrolled in the Master's in Athletic Training. The Program Director will review cumulative code infractions at the end of each academic semester. A student who exceeds the maximum cumulative infraction points as outlined in the student handbook will be deemed unprofessional and will not be permitted to continue in the program.
• Students must receive satisfactory clinical evaluations from their assigned preceptors. Students receiving unsatisfactory evaluations will be required to meet with the Program Director and Clinical Education Coordinator to devise a plan intended to improve the student's clinical success. The student has one semester to improve their clinical evaluation ratings. Failure to follow the agreed upon plan may result in probation, suspension, or expulsion of the program depending on the case.

Graduation Requirements

• Students must have a minimum cumulative GPA of 3.0.
• Students must have a minimum grade of "B-" in each required course.
• Students must pass each of the required Clinical Integration Proficiencies.
• Students must pass a Xavier University Athletic Training comprehensive exam.

Required Courses

• ATTR 500 - Care & Prevention
• ATTR 501 - Athletic Training Skills
• ATTR 510 - Anatomical Kinesiology
• ATTR 521 - Lower Extremity Injuries
• ATTR 522 - Upper Extremity Injuries
• ATTR 523 - Head, Spine & Thorax Injuries
• ATTR 531 - Therapeutic Interventions I
• ATTR 532 - Therapeutic Interventions II
• ATTR 540 - Evidence Based Practice
• ATTR 541 - Research I
• ATTR 550 - IP Collaboration
• ATTR 561 - Clinical Experience I
• ATTR 562 - Clinical Experience 2
• ATTR 600 - Medical Issues in AT
• ATTR 610 - Administrative Concepts
• ATTR 633 - Therapeutic Interventions III
• ATTR 642 - Research II
• ATTR 650 - Contemporary Issues in AT
• ATTR 663 - Clinical Experience 3
• ATTR 664 - Clinical Experience 4

Dual Degree

Exercise Science & Athletic Training, B.S. / M.S.

B.S. Exercise Science + M.S. Athletic Training 3+2 Option

Program Requirements

Students are required to meet all Admission, Progression, Retention and Graduation requirements of the Exercise Science, B.S. and Athletic Training, M.S.

Curriculum Requirements

151 credit hours:

• Undergraduate Core Curriculum
• B.S. Exercise Science Requirements - 97 credit hours
• Dual B.S. Exercise Science / M.S. Athletic Training Requirements - 23 credit hours
• M.S. Athletic Training Requirements - 31 credit hours
Course Sequence

First Year

Fall Semester

- EXSC 100 - Intro to Exercise Science
- BIOL 140 - Human A&P I for Allied Health
- BIOL 141 - Hum A&P I Lab Allied Health
- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
- Second Language I
- CORE 101

Spring Semester

- EXSC 200 - Kinesiology
- BIOL 142 - Hum A&P II for Allied Health
- BIOL 143 - Hum A&P II Lab Allied Health
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
- Second Language II
- Historical Perspectives
- CORE 102

Second Year

Fall Semester

- CHEM 150 - Physiological Chemistry
- CHEM 151 - Physiological Chemistry Lab
- MATH 116 - Elementary Statistics or MATH 156 - General Statistics
- PSYC 101 - General Psychology
- EXSC 300 - Exercise Physiology
- Theological Perspectives Elective

Spring Semester

- PHIL 100 - Ethics as Intro to Philosophy
- EXSC 320 - Fitness Training Principles
- EXSC 325 - Resistance Training
- EXSC 360 - Nutrition for Sport & Exercise
- Exercise Science Elective
- ENGL/CLAS/SPAN 205 - Lit & Moral Imag
Third Year

Fall Semester

- PHYS 140 - Technical Physics
- PHYS 142 - Technical Physics Lab
- EXSC 380 - Fitness Assessment & Design
- EXSC 381 - Fitness Assess & Design Lab
- Exercise Science Elective
- Ethics/Religion & Society Elective
- Humanities Elective

Spring Semester

- Exercise Science Elective
- EXSC 460 - Exercise Science Practicum
- PHIL 200 - Philosophical Perspective
- Creative Perspectives Elective
- Core / General Electives

Summer Semester

- ATTR 500 - Care & Prevention
- ATTR 501 - Athletic Training Skills
- ATTR 510 - Anatomical Kinesiology

Fourth Year

Fall Semester

- ATTR 521 - Lower Extremity Injuries
- ATTR 531 - Therapeutic Interventions I
- ATTR 540 - Evidence Based Practice
- ATTR 561 - Clinical Experience I

Spring Semester

- ATTR 522 - Upper Extremity Injuries
- ATTR 523 - Head, Spine & Thorax Injuries
- ATTR 532 - Therapeutic Interventions II
- ATTR 541 - Research I
- ATTR 550 - IP Collaboration
- ATTR 562 - Clinical Experience 2
School of Education

The School of Education offers teacher licensure programs approved by the Ohio Department of Education as listed under Teacher Licensure below, and awards the Bachelor of Science degree in the following areas: Early Childhood Education, Middle Childhood Education, Montessori Education, and Special Education. Minors are offered in Professional Education for those seeking high school licensure and Montessori Education. An Associate of Science degree in Early Childhood Education is also offered.

At the graduate level, the Master of Education degree is available in many concentrations (for example, Educational Administration, Reading, TESOL, Special Education, Elementary Education, and Secondary Education. A Master of Arts in English Education or History Education and a Master of Science in Special Education are also available. See the "Master of Education" section for the list of options and for more detail about each program.

Master of Education

The Master of Education, a professional degree, is designed to meet the needs of professional educators. This degree is awarded to the candidate who has demonstrated a capacity for improving the quality of teaching within the particular sphere of his or her influence by satisfactorily completing a program of graduate work designed to give these characteristics:

1. Broad knowledge of the principles and techniques of education in modern society.
2. Specific knowledge of one major area of the field of education.
3. Essential understanding and skills necessary for intelligent consumption of educational research.

To ensure comprehensiveness in their programs for the Master of Education degree, candidates should include in their programs 9 hours of general survey courses (or alternate courses as indicated by specific program) designed to provide integrated coverage of the broad field of education. These courses (credit hours) are:

- EDFD 500 History/Philosophy of Am Educ
- EDFD 505 Org of Ed Systems in U.S.
- EDFD 507 Educational Research and EDFD 508 Educational Research Paper

To ensure their mastery of a particular area of education, candidates must include a concentration of at least 12 semester credit hours in one of the following areas:

Students should consult with an advisor before beginning their concentration.

The Master of Education program invites applications from students with a bachelor's degree and a solid academic record. Admission decisions are based on factors such as past academic performance, standardized test score, and other information submitted. Go to [http://www.xavier.edu/education/](http://www.xavier.edu/education/) to reference program information and admission requirements.

A minimum of thirty hours is normally required for the degree of Master of Education. These shall be distributed as follows:

1. General surveys in education, 9 credit hours.
2. Concentration, 12 credit hours. (Certain concentrations may require more than 12 semester hours, particularly where state certification requirements are involved. Consult with your academic advisor)
3. Pertinent electives, 9 credit hours.

A student's Master of Education program may not include more than 6 semester hours of workshops, unless by special arrangement with the program directors. The Master of Education degree will be awarded only to candidates who have passed an extensive written examination covering their particular field of concentration (e.g., administration) or covering the three general survey courses in education if they have concentrated in a subject matter field or in elementary or secondary education. The comprehensive exam is not required for the MEd in Sport Administration or MEd in Coaching Education and Athlete Development. Should the student fail the comprehensive examination, it may be repeated only once.

Note: The comprehensive exam is not required for the MEd in Sport Administration or MEd in Coaching Education and Athlete Development. For more information regarding specific requirements for these programs, please see Sports Studies.

Note: For information regarding the Master of Arts in English Education or History Education, please see Secondary Education. For information regarding the Master of Science in Special Education, please see Special Education.

Note: The University is not obliged to recommend licensure of any type on the basis of the completion of a Master of Education degree or specific course work in education. Students must also meet leadership, communication, and character requirements and pass the required tests of the State Department of Education for each specific license.

Xavier University also offers an innovative, integrated MSN/MEd program consisting of at least 54 semester credit hours. The student will receive two separate degrees, the Master of Science in Nursing and the Master of Science in Education. This program was developed in response to a community need for nurse educators. The MSN/MEd prepares the graduate to administer and teach in educational settings (i.e., CE providerships, in-service educators and nurse educators). See the School of Nursing section of this document for additional details.

**School of Education: Childhood Education**

Xavier University's Childhood Education Programs are dedicated to the pursuit of knowledge and to the orderly discussion of critical issues confronting educators in a free, inquiry-based environment committed to current and relevant scholarship and research related to our profession. Xavier University seeks to create awareness of social justice in all disciplines through its emphasis on living the Jesuit tradition of intellectual, moral, and spiritual preparation. The candidates in the Early Childhood and Middle Childhood programs, through their academic and professional training, are prepared to value the lives of children regardless of racial, linguistic, socioeconomic, religious, or ethnic background and to work with and value family and school structures in both urban, rural, and suburban settings. Special attention is given to developmentally effective practices and advocacy for all children, with ethical issues and values as expressed through the Jesuit tradition. Thus, the Childhood Education Programs at Xavier University strives to send out into the education community candidates who are morally sensitive to the academic and social needs of our time, foster an appreciation for human diversity, reason critically, and think creatively. Candidates in Childhood Education are encouraged to develop and maintain a disposition toward lifelong learning in the profession of education and to the service of their students and their students' families and communities.

Childhood Education offers teacher licensure programs approved by the Ohio Department of Education as listed under Teacher Licensure below, and awards the Bachelor of Science degree Early Childhood and Middle Childhood. Students in Montessori Education may also receive the early childhood license from the Ohio Department of Education. Updates and/or changes to licensure are dictated by the State of Ohio and may supersede the requirements listed for licensure in this catalog.
The Master of Education degree is available in many concentrations. See the "Master of Education " section for the list of options. Students who do not meet acceptable performance standards in coursework or field experiences may be excluded from specific programs. See School of Education: Reading and School of Education: Teaching of English to Speakers of Other Languages (TESOL)

The following pages outline the requirement for these licenses. Specific brochures on these programs are available and give suggested sequences of courses and rules for admission to the program. Please note that courses required for licensure which are more than 10 years old may need to be repeated.

Note: The University is not obliged to recommend licensure of any type on the basis of the completion of a Master of Education degree or specific course work in education. Students must also meet leadership, communication, and character requirements and pass the required Ohio Assessments for Educators (OAE) tests of the State Department of Education for each specific license.

**Teacher Education Program Steps for Admission and Continual Progress for Licensure in the Following Programs: Early Childhood, Early Childhood/Montessori, Middle Childhood***

Xavier University candidates for initial licensure in early childhood and middle childhood education must meet specific standards for entrance into the University, the major, student teaching, and the provisional license for the teaching profession. Steps must be successfully completed sequentially for licensure recommendation by the School of Education.

**Step One: Admission to Xavier University**
- Student is accepted into the University: Grade point average and ACT or SAT scores considered.
- Student declares major as early childhood education or middle childhood education.
- When field experience placements begin and annually thereafter, a BCI/FBI background check and TB (Tuberculosis Skin Test) test are required.

**Step Two: Admission to Program**
- Completion of Step One.
- Student completes EDEL 100, Introduction to Education, with grade of B or higher.
- ENGL 101, English Composition, completed with grade of B or higher.
- Overall grade point average of 2.5.
- Statement of Moral Character Notarized and on file in School of Education.
- Completed "Application for Admission" form on file in Department of Childhood Education and Literacy office. (Both forms noted are received and returned during semester of EDEL 100.) Student receives acceptance letter from the department chair confirming acceptance or rejection for chosen major.
- One of two required mathematics courses completed with grade of C or higher.
- Annual BCI/FBI background check on file in Department of Childhood Education and Literacy.
- TB (Tuberculosis Skin Test) test results available.

**Step Three: Pre-Student Teaching Requirements**
- Completion of Step Two.
- Student maintains grade point average of 2.5 overall, 3.0 in major.
- Student must receive "B" or higher in courses prefixed EDEC, EDMC, EDRE, or retake in subsequent semester.
- Second mathematics course complete with C or higher.
- Early childhood candidates complete either EDEC 330 or EDEC 335 with EDEC 325.
- Middle childhood candidates complete EDMC 340, EDMC 345, and two of the following courses: EDMC 351, EDMC 352, EDMC 353, or EDMC 354.
- Annual BCI/FBI background check on file in Department of Childhood Education and Literacy.
- TB (Tuberculosis Skin Test) test results available.
- Evaluation forms completed by University personnel and field work cooperating teachers indicating progress in knowledge, performance, and necessary dispositions on file in the program office. To complete this phase, student registers for an advisory day at the end of the appropriate semester; meets with a faculty team to present evidence of knowledge, dispositions and performance via discussion and portfolio content. Faculty team indicates to student, and in writing, that all requirements for progression in program have been met.
Step Four: Admission to Student Teaching

- Completion of Step Three.
- Application for student teaching approved.
- All foundation, methods, content area courses, and majority of concentration courses must be complete for commencement of student teaching semester.
- One of two required Ohio Assessments for Educators (OAE) exams for Early Childhood Education must be passed prior to student teaching. "Early Childhood Education" Two additional exams are required for licensure and may be completed during the student teaching: "Foundations of Reading" and "Assessment of Professional Knowledge."
- Two middle school subject area Ohio Assessments for Educators exams, as indicated by chosen concentrations, must be passed by middle childhood candidates prior to internship. Two additional exams are required for licensure and may be completed during student teaching: "Foundations of Reading" and "Assessment of Professional Knowledge."
- Annual BCI/FBI background check on file in Department of Childhood Education and Literacy.
- TB (Tuberculosis Skin Test) test results available.

Step Five: Resident License Approval

- Completion of Step Four.
- Successful completion of internship in early or middle childhood classroom, with goals, midterm appraisal and final letters of evaluation on file in Department of Childhood Education and Literacy office.
- Presentation and submission of exit portfolio.
- All Ohio Assessments for Educators exams passed and official results on file in Xavier University Certification Office.
- Online application process completed and all license application materials on file with Xavier University Certification Office.

*See "Handbook for Early and Middle Childhood Education" for further information. Available on the program website.

Bachelor of Science

Early Childhood Education (Pre-K To 3), B.S.

Early Childhood Education will prepare a candidate for an Ohio teaching license to work with children ages 3 through 8, or preschool through grade three. The course of study has child development at the core of pedagogical decisions. The approach is holistic, with a strong emphasis on an integrated learning approach. Practices based in child development and intense reading instruction are integral to the program. Field experience and student teaching occur at both the preschool and primary level.

Requirements for the Early Childhood Education Major

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum: 39 - 48 hours, including:

- Science requirement must be met with one natural science (CHEM or PHYS or BIOL) and one scientific perspectives elective course.
- Humanities elective fulfilled in major with EDCH 324.
- Social Sciences requirement is included in the major requirements.
• E/RS Focus Elective that meets another core requirement can be chosen.

• A 2.5 cumulative overall GPA is required for admission to program and must be maintained for the Bachelor of Science degree. A 3.0 GPA must be maintained in major.

Major requirements:

See "Steps for Admission and Continual Progress for Licensure in Early Childhood." Also see "Student Handbook for Early and Middle Childhood."

A 3.0 GPA must be maintained in the major. Students must have "B" or higher in courses prefixed with EDEC, EDRE, or EDMC or retake in subsequent semesters.

72 hours of courses:

- EDFD 110 - Human Development & Learning
- EDEL 100 - Introduction To Education
- EDEL 251 - Instructional Technology
- EDEL 260 - Cultural Diversity In Educ
- EDEL 351 - Instruct Strat for Engl Lang L
- EDSP 205 - Foundations in ECSPED
- EDEC 210 - Early Childhood Development
- EDEC 230 - Play in Early Childhood Educ
- EDEC 325 - Methods of Observation/Collabo
- EDEC 330 - Math/Science Block-Early Chld
- EDEC 335 - Lang Arts/Social St-Early Chd
- EDEC 350 - Early Years Integrated Art
- EDEC 450 - Student Teaching:Early Childho
- EDEC 451 - Seminar: Current Issues/Early
- EDME 359 - Community & Advocacy in Educ
- ARTS 222 - Art in Early Childhood Educ
- EDRE 269 - Phonics & Foundation of Litera
- EDRE 312 - Reading Methods for Early Chld
- EDRE 471 - Content Area Literacy
- EDRE 478 - Diagnosis/Correct of Read Disa
- EDCH 324 - Children's Lit for Early Child

B.S. Early Childhood Education

**This block serves as a guideline only, not a required sequence. See your academic advisor. Subject to change **

Freshman Year

First Semester

- CORE 101 GOA

• PHIL 200 - Philosophical Perspectives
• EDRE 478 - Diagnosis/Correct of Read Disa
• General Elective
• Creative Perspectives Elective
• E/RS Focus Elective (cross count when possible - see advisor)

Total (15)
Scheduling Notes:

- Course sequence shown above is realistic only for the student who declares the Early Childhood major as a freshman. It is not the only advisable sequence.
- A minimum of 120 credit hours is required for the degree.
- The sequence of courses in the program is subject to change.
- Addition of a minor is possible. Consult with advisor early in the program.
- Study Abroad is possible - consult with advisor early in program.
- Student teaching/internship may take place fall or spring semester.
- Students may add Grades 4-5 Endorsement courses when feasible during senior year.
- All students must elect one each of oral communication, quantitative reasoning and writing intensive flagged courses, many of these are available within the core or major.

Middle Childhood Education (Grades 4 - 9), B.S.

Middle Childhood Education will prepare a candidate for an Ohio teaching license to work with children ages 9 through 14, or grades 4 through 9, for teaching in two fields of concentration. The teacher candidate will choose two fields from the areas of Social Studies, Mathematics, Science, and Reading/Language Arts.

Students choosing Middle Childhood will be required to take 21-24 hours in each of the two content areas that they choose for licensure. All students will have at least 12 hours in reading instruction. Students will experience interdisciplinary learning, a hallmark of middle childhood education, as part of their learning experience at Xavier. The middle school teaching concept is unique, and our students will be prepared for curriculum, pedagogy, philosophy and organization of the middle school. Field experience and internship/student teaching will occur in both subject areas and at two age levels.

Requirements for the Middle Childhood Education Major

Undergraduate core curriculum requirements:

39 - 48 hours, including

- Social Sciences requirement is included in the major requirements.
- Humanities elective area fulfilled in major with EDCH 326.
- E/RS Focus Elective that meets another core requirement should be chosen.
- A 2.5 cumulative overall GPA is required for admission to program and must be maintained for the Bachelor of Science degree. A 3.0 GPA must be maintained in the major.

Major requirements:

60 hours of education courses:

- EDFD 110 - Human Development & Learning
- EDEL 100 - Introduction To Education
- EDEL 251 - Instructional Technology
• EDEL 260 - Cultural Diversity In Educ
• EDSP 200 - Sp Ed: Identification& Issues
• EDMC 212 - Nature & Needs of Adolescents
• EDMC 325 - Arts in Ed: Middle Childhood
• EDMC 340 - Middle School Phil& School Or
• EDMC 345 - Middle Child Class Mgmt Assess
  ◦ Two courses from EDMC 351-354
• EDMC 455 - Student Teaching: Middle Sch
• EDMC 456 - Sem: Current Issues in EDMC
• EDRE 269 - Phonics & Foundation of Litera
• EDRE 314 - Reading Methods for Middle Chd
• EDRE 472 - Theories of Reading
• EDRE 478 - Diagnosis/Correct of Read Disa
• EDCH 326 - Children's Lit for Middle Chil

Note(s):

• See "Steps for Admission and Continual Progress for Licensure in Middle Childhood." Also see "Student Handbook for Early & Middle Child."
• A 3.0 GPA must be maintained in the major.
• Students must have "B" or higher in courses prefixed with EDEC, EDRE, or EDMC or retake in subsequent semesters.
• Students may elect two concentration areas: Math, Science, Social Studies, and/or Language Arts/Reading.

B.S. Middle Childhood Education

**This block serves as a guideline only, not a required sequence. Specific core and concentration courses are indicated below as a sample due to the nature of the middle childhood program. Concentration sets (i.e., math and science, language arts and social studies, etc.) will differ among students and therefore courses will vary. Students may elect their own two areas of concentration. See your academic advisor. Subject to Change.**

Junior Year

First Semester

• EDMC 340 - Middle School Phil & School Or
• HIST 143 - U.S. History I
• EDRE 314 - Reading Methods for Middle Chd
• EDMC 345 - Middle Child Class Mgmt Assess
• POLI 140 - American Government and Politi
• Theological Perspectives Elective
Total (18)

Second Semester

• ENGL 205 - Literature & Moral Imagination
• HIST 144 - U.S. History II
• SOCI 180 - Culture & Society
• EDMC 325 - Arts in Ed: Middle Childhood

And choose 2 of the following:

• EDMC 351 - Middle Childhood Lang Art Meth
• EDMC 352 - Middle Childhood Math Methods
• EDMC 353 - Middle Childhood Science Meth
• EDMC 354 - Middle Childhood Soc Stud Meth

Total (18)
Senior Year

First Semester

- EDMC 455 - Student Teaching: Middle Sch
- EDMC 456 - Sem: Current Issues in EDMC
- EDRE 471 - Content Area Literacy

Total (15)

Second Semester

- THTR 120 - Acting I
- EDRE 478 - Diagnosis/Correct of Read Disa
- EDEL 351 - Instruct Strat for Engl Lang
- EDMS 207 - World & Cultural Geography
- Literature Elective
- ENGL 320 - Topics in Linguistics or ENGL 321 - Hist of the English Language

Total (18)

Scheduling Notes:

- Course sequence is realistic only for the student who declares the Middle Childhood major as a freshman.
- Consult the Undergraduate Core Curriculum requirements of the catalog.
- A minimum of 120 credit hours is required for the degree.
- The sequence of courses in the program is subject to change.
- Advanced placement credit and summer course work may be applied to core or concentration requirements.
- Off Campus courses are approved by the college dean. See advisor for procedure.
- All students must elect one each of oral communications, quantitative reasoning and writing intensive flagged courses; many of these are available within the core or major.
- ER/S Focus elective should fulfill another core requirement.

Middle Childhood Generalist (4-6)

The Middle Childhood Generalist (MCG) Endorsement allows the teaching candidate with two licensure areas to add either one or two more content areas specifically for teaching in a self-contained 4th, 5th, or 6th grade classroom. This endorsement is not valid for holders of any license other than Ohio Middle Childhood Education. Updates and/or changes to licensure are dictated by the State of Ohio and may supersede the requirements listed for licensure in the catalog.

To have the MCG endorsement added to the MCE license:

1. The candidate must have previously completed a MC Education program in two content areas and hold a valid MCE license (we will assume that our initial licensure candidate will apply for the endorsement along with, or soon after application for the initial license in two areas); and
2. In addition to successfully completing the MCG Endorsement course work in either one or two additional areas, the candidate must also successfully complete the required test(s).

Either the candidate must pass:
• A.) OAE Education (Subtest I)/018 and OAE Elementary Education (Subtest II)/019

OR

• B.) Content area test for each content area added to MCE license:
  ◦ OAE MS English/Language Arts (028)
  ◦ OAE MS Mathematics (030)
  ◦ OAE MS Social Studies (031)
  ◦ OAE MS Science (029)

The candidate must complete the following courses in the chosen content area.

Language Arts

• ENGL 304 - Teaching & Research in Writing
• EDCH 326 - Children's Lit for Middle Chil

Mathematics

• MATH 213 - Algebra Concepts -MCED
• MATH 214 - Math Problem Solving -MCED

Science

• BIOL 130 - Intro to Life Sciences
• BIOL 131 - Intro to Life Sciences Lab
• PHYS 114 - Our Universe: Physical Science
• PHYS 115 - Our Universe: Physical Sci Lab

Social Studies

• EDMS 207 - World & Cultural Geography
• POLI 140 - American Government and Politi

Associate of Science

Early Childhood Education, A.S.

Candidate can receive an American Montessori Society Associate Early Childhood Credential
American Montessori Credential for Early Childhood Requirements for the Associate Degree in Early Childhood Education

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum

Courses

• EDSP 205 - Foundations in ECSPED
• EDME 350 - Methods of Observation of Child
• EDME 351 - Montessori Ed: Phil Approach
• EDME 359 - Community & Advocacy in Educ
• EDME 364 - Early Childhood/Mont Meth
• EDME 366 - Mont Curr Des&Te Strat I:Ea Ch
• EDME 367 - Mont Curr Des&Te Strat II:Ea C
• EDME 376 - Phonics Skills for Early Chldh
• EDME 377 - Early Childhood Math& Science
• EDME 473 - Mont Early Childhood Pract I
• EDME 474 - Mont Early Chilhood Pract II
• EDME 363 - Early Cognitive Development or
• EDFD 110 - Human Development & Learning

Student Teaching Year

Note(s):

• This program may be applied to a four year degree program.

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates
Master of Education

Elementary Education, M.Ed.

The Master of Education in elementary education will provide the student with a strong foundation in professional knowledge, experience in combining theory with practice, and opportunities for curriculum development and application. The student may pursue an M.Ed. and a teaching license separately or concurrently.

Go to http://www.xavier.edu/elementary-grad/Admission.cfm to reference admission requirements.

Requirements for the M.Ed. in Elementary Education

(30 total credit hours required)

Core courses

(9 credit hours)

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

Note(s):

- The remaining 21 hours required are selected from programs such as elementary, Montessori, multi-cultural children's literature, and reading. The M.Ed. candidate is free to select courses that advance teaching in the elementary school.

Programs Requirements for Licensure:

Students seeking initial licensure in early or middle childhood education concurrently with the M.Ed. will declare their Master's concentration as Elementary. Students seeking teacher licensure in early or middle childhood must contact the department for a review of their transcripts. Students are expected to have a broad base of undergraduate coursework spread over the following areas: English, history, sciences, math, speech, and the fine arts. There is a specific sequence within both programs. Course requirements for early or middle childhood licensure extend beyond the 30 hours required for a Masters Degree.

Go to http://www.xavier.edu/elementary-grad/index.cfm to reference more information about Licensure options.
Students seeking acceptance into the graduate early childhood cohort must first be accepted into the M.Ed program. Application for acceptance in the Master of Education Program is made through the Graduate Services Office. Call 745-3360 or visit the Xavier website, www.xu.edu. Upon acceptance in the M.Ed. program a candidate may begin courses listed below.

To begin the admission process for the early childhood cohort program, the student must meet with an academic advisor for transcript review and discussion of the program. Call (513)745-3701 for an appointment. Please bring an official copy of transcripts from all undergraduate and graduate work to this meeting.

Upon acceptance into the Master of Education program a candidate may begin the required courses listed below. Candidates are responsible for graduate information contained in the Xavier University Catalog, such as the comprehensive exam and other graduation requirements.

The candidate must meet with an academic advisor for a transcript review outlining general education requirements:

- English Composition (3)
- History (3)
- Mathematics (6)
- Literature (6)
- Natural Science (3)
- Physical Science (3)
- Fine Art (3)

Professional Foundation Courses

The following courses are taken during the academic year prior to the beginning of the Early Childhood Cohort Program.

- EDEL 500 - Classroom Culture (includes 50 hours of assigned field experience)
- EDEL 251 - Instructional Technology
- EDFD 500 - History/Philosophy of Am Educ
- EDFD 510 - Adv Human Develop & Learning
  - EDEL 260/EDEL 560 - Cultural Diversity in Education

Please Note:

- The licensure candidate may complete the M.Ed Core courses: EDFD 505, Organization of Education Systems in the United States; EDFD 507/EDFD 508, Educational Research/Paper during the initial academic year, or elect to finish at a later date. "No more than six years may elapse between enrolling in a degree program and completion of work for the degree." A comprehensive exam is the final requirement for the degree program. The M.Ed candidate may sit for the exam after 27 hours for the degree have been successfully completed.

- Students who have completed (or will complete by May) general education requirements and professional foundation courses may apply to the Early Childhood Cohort. Application is made during the spring semester. Applications, available through the Department of Childhood Education and Literacy Office, 307 Hailstones Hall, are reviewed by a faculty team and evaluated on the basis of the following: EDEL 500 final grade, field work evaluation, grade point average, Miller Analogy or GRE scores, written and oral communication skills.
Early Childhood License Cohort Courses

Candidates must be accepted into the cohort program in order to enroll in the following courses.

*The schedule below is effective Summer Semester 2009.

First Summer Session

- EDRE 512 - Reading Methods for Early Child
- EDRE 569 - Phonics & Found of Literacy
- EDEC 558 - Play & Arts in Early Childhood

Total (9)

Second Summer Session

- EDCH 524 - Children's Lit for Early Child
- EDEC 555 - Early Childhood Care/Practices
  Includes field observation

Total (9)

Fall Semester

- EDEL 370 - Junior Field Experience /2 days per week
- EDEC 331 - Early Childhood Math/Sci Cohrt
- EDEC 336 - Early Childhood LA/Soc St Cohr
- EDRE 678 - Diagnosis/Correct of Read Disa

Total (16)
Spring Semester

- EDEC 454 - EC Cohort Student Teaching
- EDEC 455 - Cohort: Current Issues
- EDRE 671 - Content Area Literacy

Total (10)

Note(s):

Students must pass the Ohio Assessment for Educators (OAE) Early Childhood Education/012 in the fall semester and OAE Assessment of Professional Knowledge: Early Childhood/001 during the student teaching semester. Additional information on testing may be found at the Department of Childhood Education and Literacy website or www.oh.nesinc.com. See also for test information regarding the endorsements in reading and grades 4 and 5.

Application for the early childhood license is made online through the Ohio Department of Education upon completion of all requirements. The State of Ohio, Four Year Resident Educator License, Early Childhood P-3 from the ODE carries an effective date of July. Students seeking licensure in other states must first complete the Ohio license requirements. Information on licensure is covered in detail during the student teaching semester.

The early childhood license gives the candidate the opportunity to add endorsements for teaching grades 4 and 5 (additional 9 credit hours) or Reading (additional 9 hours), which may be added during the summer following student teaching, or during successive summers. Please consult an advisor before beginning the endorsement courses.

Ohio Licensure Generalist Endorsement Grades 4-5 Graduate Courses

This series of courses is offered for the candidate who holds the Ohio Early Childhood License/Grades P-3 and which will enable them to obtain the generalist endorsement for grades 4-5. The candidate for the endorsement must complete all 9 semester hours of coursework listed below and pass the Ohio Assessment for Educators (OAE): OAE Elementary Education (Subtest I)/018 and OAE Elementary Education (Subtest II)/019

Prerequisite: Holds an Ohio Early Childhood License/Grades P-3. For graduate students who wish to pursue a Masters in Elementary Education, the Generalist Endorsement courses can be applied towards the M.Ed. For more information on the Masters program, go to http://www.xavier.edu/elementary-grad/Admission.cfm.

Generalist Endorsement Grades 4-5 Courses

- EDEL 640 Middle Childhood Transitions: Development and Management (1)
- EDEL 641 Mathematics Content, Pedagogy, and Assessment Grades 4-5 (2)
- EDEL 642 Science Content, Pedagogy, and Assessment Grades 4-5 (2)
- EDEL 643 Language Arts Content, Pedagogy, and Assessment Grades 4-5 (2)
- EDEL 644 Social Studies Content, Pedagogy, and Assessment Grades 4-5 (2)
Master of Education in Elementary Education Ohio Middle Childhood License
Grades 4-9

Middle childhood licensure at the graduate level is designed for the student who did not receive a teaching license as an undergraduate; has strong undergraduate course work in two of the following: mathematics, science, social studies or English; is available to take pedagogy, methods, and field placement courses with both day and evening scheduling in order to meet the extensive requirements of the middle childhood license. The middle childhood license is for teaching grades 4 through 9 in two subject areas. Students will also study reading methods and children's literature along with their two chosen areas of concentration. The student with current (within the last 10 years) course work in the concentrations may have some concentration requirements waived.

- There is no cohort program (see early childhood licensure) for middle childhood candidates. Progression through the program is unique to the individual due to the various concentration combinations, i.e. one student may choose math and science while another opts for science and social studies. The content courses may not be offered as frequently as the foundation courses, often just one semester out of the academic year. The sequence of course completion is important to the success of the candidate.

Admission

To begin the admission process for the Middle Childhood License/Master of Education program, the candidate must meet with an academic advisor for a transcript review outlining general education requirements:

- English Composition (3)
- History (3)
- Mathematics (6)
- Literature (6)
- Science (6)
- Fine Art (3)

A minimum grade of C is required in all courses, except English composition, for which a B is required. An overall undergraduate grade point average must be a 2.70 or better.

Next the student must apply for the M.Ed. in Elementary Education.

Concentrations

The Middle Childhood Licensure candidate must choose two fields of concentration from the following: (see specific courses under B.S. in Middle School Education)

- Mathematics - 21 hours
- Science - 21 hours
- Social Studies - 24 hours
- Reading/ Language Arts - 24 hours

Students should take the five professional foundation courses before enrolling in the following courses specific to middle childhood licensure. See undergraduate Middle School Education section for list of concentration courses.

Professional Education Courses

- EDEL 500 - Classroom Culture
Concentration courses may be completed concurrent with methods/pedagogy courses listed below. Due to the complexity of the licensure requirements, middle school candidates must meet with an advisor each semester. Students should take the five professional foundation courses listed on the preceding page: EDEL 251, EDEL 500, EDFD 500, EDFD 510, and EDEL 260/560, before enrolling in the following courses specific to the Middle Childhood License.

**Middle Childhood Courses**

Scheduling of Middle Childhood courses are varied; courses may meet during the day, at 4:15 or 7:00PM, and often require field observation or experience. Be aware that EDMC courses are not offered every semester.

- EDMC 212 - Nature & Needs of Adolescents
- EDSP 500 - Sp Ed: Identification& Issue
- EDCH 526 - Children's Lit for Middle Chil
- EDMC 325 - Arts in Ed: Middle Childhood
- EDRE 569 - Phonics & Found of Literacy
- EDRE 514 - Reading Methods for Middle Chi
- EDMC 340 - Middle School Phil& School Or
- EDMC 345 - Middle Child Class Mgmt Assess

**Two courses from**

Students take two courses from 351, 352, 353, or 354 (total 6 hours, field experience T & R days) EDMC 351-354 are only offered during Spring semester. EDMC 212 and EDMC 340 prerequisites for EDMC 351-354.

- EDMC 351 - Middle Childhood Lang Art Meth
- EDMC 352 - Middle Childhood Math Methods
- EDMC 353 - Middle Childhood Science Meth
- EDMC 354 - Middle Childhood Soc Stud Meth
- EDMC 455 - Student Teaching: Middle Sch
- EDMC 456 - Sem: Current Issues in EDMC
- EDRE 671 - Content Area Literacy
- EDRE 678 - Diagnosis/Correct of Read Disa

**Note(s):**

- Praxis II Exams: **You must pass two subject area concentration exams prior to student teaching.** The "Principles of Learning and Teaching: 5-9" is taken during the student teaching semester. See Praxis link at [www.xavier.edu](http://www.xavier.edu).
- Grades 4-6 Middle Childhood Endorsements are an option for persons holding a Middle School license. See Requirements for generalist endorsement under B.S. for Middle School Education.
- The following core courses fulfill Master of Education requirements but are not required to complete the middle childhood license requirements. They can be taken at any time within the six year limit. Students take the Comprehensive Exam related to the three core courses during the last semester of graduate course work.
Multi-Cultural Literature For Children and Young Adults, M.Ed.

The degree of Master of Education with a concentration in multi-cultural literature for children is a professional degree designed to meet the needs of licensed teaching professionals desiring to enhance their knowledge of appropriate literature for children in the classroom. The degree consists of 30 hours of coursework. The concentration coursework (18 hours) includes diverse coursework in the area of children's literature. The focus for the coursework is study in the diverse base of literature written for children reflecting but not limited to European Americans, Native Americans, African Americans, Asian Americans, Jewish Americans, Latino Americans and other world cultures, not based in the western world. The purpose of this degree is to provide information that will enable teachers to make careful, informed and sensitive choices from among the increasing numbers of books being published as Multi-cultural literature as well as incorporating this knowledge into a holistic, global classroom. Multi-cultural literature is one of the most powerful components of a Multi-cultural education curriculum, the underlying purpose of which is to help to make our society a more equitable one.

Go to [http://www.xavier.edu/multicultural-literature/admission.cfm](http://www.xavier.edu/multicultural-literature/admission.cfm) to reference admission requirements.

Curriculum Prerequisites

These prerequisites are required if a candidate for the degree does not have a valid teaching certificate or current teaching license.

- EDEL 314 - Teaching Reading or
- EDRE 569 - Phonics & Found of Literacy

Note(s):

- In addition, the graduate candidate must have (or be in the process of completing) a valid teaching certificate or license.

Requirements for the M.Ed. in Multi-cultural Literature

The following coursework is required for the Master degree in Multi-cultural Literature for Children.

MEd Core Requirements

(12 credit hours)

- EDFD 503 - Advanced Educational Psych
- EDFD 510 - Adv Human Develop & Learning
Concentration Requirements

(18 credit hours) selected from the following, with EDCH 501 required.

- EDCH 501 - Advanced Children's Literature
- EDCH 505 - Storytelling as a Cultural Cra
- EDCH 510 - Writing & Publishing for Child
- EDCH 515 - Adolescent Literature
- EDCH 520 - Multi-Cultural Lit for Children
- EDCH 524 - Children's Lit for Early Child
- EDCH 525 - Analysis Child Lit Global Soc
- EDCH 526 - Children's Lit for Middle Chil
  - EDCH 528 ** (3)

Note(s):

- Students completing their studies for the M.Ed. in Multicultural Literature for Children must pass a comprehensive examination and must be able to write knowledgeably on the following areas: children's literature (in general), multicultural literature for children, storytelling as both a genre and a craft, the impact of multicultural literature on the elementary curriculum, adolescent literature as it impacts a global society, and analysis of appropriate literature for children. The M.Ed. candidate may sit for the exam after 27 hours for the degree have been successfully completed.

Endorsement

Early Childhood (4-5) Generalist.

Early Childhood (4-5) Generalist.

A series of courses offered for the undergraduate student who is a candidate for the Ohio Early Childhood License/Grades P-3. To receive the endorsement the candidate must qualify for the Ohio Early Childhood license, complete the 9 credit hours described below, and pass the Ohio Assessment for Educators (OAE): OAE Elementary Education (Subtest I)/018 and OAE Elementary Education (Subtest II)/019. Undergraduates must complete the following prerequisites PRIOR to enrolling in the EDEL/Endorsement series of courses: EDEC 330 and EDEC 335.

- EDEL 440 or EDEL 640 Middle Childhood Transitions: Development and Management (1)
- EDEL 441 or EDEL 641 Mathematics Content, Pedagogy, and Assessment Grades 4-5 (2)
- EDEL 442 or EDEL 642 Science Content, Pedagogy, and Assessment Grades 4-5 (2)
- EDEL 443 or EDEL 643 Language Arts Content, Pedagogy, and Assessment Grades 4-5 (2)
- EDEL 444 or EDEL 644 Social Studies Content, Pedagogy, and Assessment Grades 4-5 (2)
**Elementary Mathematics Specialist Endorsement**

The program of study for the Elementary Mathematics Specialist Endorsement (K-6) includes 24 semester hours of coursework. Each course links the course content to the Ohio Common Core Mathematics curriculum and effective classroom practice. The courses are designed to prepare specialists capable of providing coaching and professional development in mathematics education for classroom teachers of mathematics in grades pre-kindergarten through grade six. Teacher candidates will be involved in 90 hours of field experiences where they will use the knowledge and skills gained in the courses. This endorsement may only be added to a valid teaching license in one of the following areas: Kindergarten - primary, elementary or early childhood license, or middle childhood, high school, or adolescence to young adult mathematics teaching license. Candidates must have at least three years of successful experience teaching mathematics under a standard teaching certificate or license. Please note that to make the endorsement valid you must take the Ohio licensing exam for Middle Childhood Mathematics Content Knowledge.

The Mathematics Specialist Endorsement at Xavier is a 24 credit hour endorsement. All courses requirements must be taken at the Graduate level. The program requires 90 hours of documented field hours. Graduate level coursework taken as part of the Mathematics Specialist Endorsement may be used towards the M.Ed. in Elementary Education. Please refer to the counseling sheet for Masters in Elementary Education.

**Entrance Requirements:** Admission into Xavier University Graduate Program, Valid Ohio Teaching License, Documented Three Year Mathematics Teaching Experience.

**Required Mathematics Specialist Courses for the Endorsement**

Successful completion requires a B- or above and meets or exceeds expectations on key assessments. (All courses are three (3) semester hours.)

- EDEL 550 - Mathematics as Second Lang
- EDEL 551 - Algebra and Functions

EDEL 550 and EDEL 551 are prerequisites for the subsequent classes.

- EDEL 552 - Trigonometry, Algebra and Geometry II (15 field hours)
- EDEL 553 - Geometry, Measurement and Probability (15 field hours)
- EDEL 554 - Number Theory for Teachers (15 field hours)
- EDEL 555 - Mathematics Specialist Practicum (15 field hours)
- EDEL 556 - Algebra and Geometry for Teachers III (15 field hours)
- EDEL 557 - Statistics, Action Research & Inquiry into Effective Practices (15 field hours)

**Middle Childhood (4-6) Generalist**

**Middle Childhood Generalist (4-6)**

The Middle Childhood Generalist (MCG) Endorsement allows the teaching candidate with two licensure areas to add either one or two more content areas specifically for teaching in a self-contained 4th, 5th, or 6th grade classroom. This endorsement is not valid for holders of any license other than Ohio Middle Childhood Education. Updates and/or changes to licensure are dictated by the State of Ohio and may supersede the requirements listed for licensure in the catalog.

To have the MCG endorsement added to the MCE license:
1. The candidate must have previously completed a MC Education program in two content areas and hold a valid MCE license (we will assume that our initial licensure candidate will apply for the endorsement along with, or soon after application for the initial license in two areas); and
2. In addition to successfully completing the MCG Endorsement course work in either one or two additional areas, the candidate must also successfully complete the required test(s).

Either the candidate must pass:

- A.) OAE Education (Subtest I)/018 and OAE Elementary Education (Subtest II)/019

OR

- B.) Content area test for each content area added to MCE license:
  - OAE MS English/Language Arts (028)
  - OAE MS Mathematics (030)
  - OAE MS Social Studies (031)
  - OAE MS Science (029)

The candidate must complete the following courses in the chosen content area.

**Language Arts**

- ENGL 304 - Teaching & Research in Writing
- EDCH 326 - Children's Lit for Middle Chil

**Mathematics**

- MATH 213 - Algebra Concepts -MCED
- MATH 214 - Math Problem Solving -MCED

**Science**

- BIOL 130 - Intro to Life Sciences
- BIOL 131 - Intro to Life Sciences Lab
- PHYS 114 - Our Universe: Physical Science
- PHYS 115 - Our Universe: Physical Sci Lab

**Social Studies**

- EDMS 207 - World & Cultural Geography
- POLI 140 - American Government and Politi
Reading (K-12) Endorsement

The Reading Endorsement coursework at Xavier is a 21 credit hour endorsement program. Only six hours of undergraduate credit can be applied toward the endorsement. All other course requirements must be taken at the graduate level. The State of Ohio requires 100 hours of documented field hours. Graduate level coursework taken as part of the Reading Endorsement may be used toward the M.Ed. in Reading. Please refer to the counseling sheet for Master's in Reading Education.

Required Reading Courses for the Endorsement:

- EDRE 269/EDRE 569 Phonics & Found of Literacy (3 credit hours)
- EDRE 471/EDRE 671 Content Area Literacy (3 credit hours)
- EDRE 672 Theories of Reading (3 credit hours)
- EDRE 478/EDRE 678 Diagnosis/Correct of Read Disa (3 credit hours)
- EDRE 679 Practicum in Reading (3 credit hours) (Prerequisite for EDRE 679: EDRE 269/569, EDRE 471/671, EDRE 672, EDRE 478/678)

Choose 21 Credit Hours Required from below:

- EDCH 324/EDCH 524 Children's Lit for Early Child (3 credit hours) (or it's equivalent)
- EDCH 326/EDCH 526 Children's Lit for Middle Chil (3 credit hours) (Fall & Summer only) (or it's equivalent)
- EDCH 501 Advanced Children's Literature (3 credit hours)
- EDCH 305/EDCH 515 Ado Lit as a Cultural Cra (3 credit hours)
- EDCH 315/EDCH 515 Adolescent Literature (3 credit hours)
- EDCH 320/EDCH 520 Multi-Cultural Lit for Childrn (3 credit hours)
- EDCH 528 Topics in Children's Literature (3 credit hours)
- EDME 362 /EDME 562 Phonics and Orton-Gillingham (3 credit hours)
- EDRE 675 Current Research in Reading (3 credit hours) (Fall only)
- EDRE 376/EDRE 676 Teaching Writing Process (3 credit hours) (Grade 4-14) (Spring only)
- EDRE 685 Teach Read Children w/Spc Need (3 credit hours)

Assessment Requirement for the Reading Endorsement:

Ohio Assessments for Educators (OAE) Reading (Subtest I)/038 and OAE Reading (Subtest II)/039 are required for the reading endorsement. For additional information please visit [http://www.oh.nesinc.com](http://www.oh.nesinc.com).

Individuals who successfully complete a Praxis Series Test required for licensure prior to September 1, 2013, may use the test results to satisfy the licensure testing requirements at the time license is sought.

Application Process:

If you are pursuing a reading endorsement only, the following documents are required:

- Xavier graduate application
- Official copy of college transcript
- A copy of your valid Ohio teaching license

If you are pursing a M.Ed. Degree, the following is required:

- MAT or GRE test is required

All materials are sent to the Xavier University Graduate Services office. Please refer to the advising sheet for the Reading Endorsement.
License

Early Childhood Education Licensure

Teacher Licensure

The School of Education offers teacher licensure programs, approved by the State of Ohio Board of Regents, for early childhood, middle childhood, secondary education, which includes multi-age, adolescent to young adult, intervention specialist (mild/moderate, moderate/intensive, gifted/talented [graduate program only], and early childhood intervention specialist) teaching, as well as American Montessori Society certification in Montessori preprimary and primary teaching. In addition, students can acquire a license at the graduate level for all secondary licensure areas, reading, counseling, administration and special education.

The following pages outline the requirements for these licenses. Specific brochures on these programs are available and give suggested sequences of courses and rules for admission to the program. Please note that courses required for licensure which are more than 10 years old may need to be repeated. In adolescent to young adult (grades 7 - 12) and pre-K - 12 teaching, undergraduate students take a major in their area field and complete licensure requirements in professional education courses. Adolescent to young adults (grades 7 - 12) teaching licenses can be attained in the following subject fields: Integrated Language Arts, Integrated Mathematics, Integrated Social Sciences, Life Sciences, Life/Chemistry, Life/Physics and Physical Sciences (Chemistry/Physics). Multi-age (grades Pre-K - 12) teaching licenses can be attained in the following subject fields: Foreign Language (French, German, Greek, Latin or Spanish), Music, Theater and Visual Arts. Intervention Specialist for grades K - 12 are available in mild/moderate educational needs and moderate/intensive educational needs. These are undergraduate or graduate programs. A licensure program (K - 12) at the graduate level only is also offered. Intervention Specialist (Early Childhood) licensure can be fulfilled at the undergraduate and graduate levels. Endorsements (Pre-Kindergarten Special Needs, Transition To Work, Gifted/Talented) may be added to an existing specific license on the graduate level. Need to consult Special Education Programs for specific details.

Teacher Education Program

Steps for Admission and Continual Progress for Licensure in the Following Programs:

- Early Childhood
- Early Childhood/Montessori
- Middle Childhood
- Professional Education
- Special Education
- School Nurse Licensure

Step One:

- Student is accepted into the University based on high school grade point average and SAT or ACT scores.
- Nontraditional student with no college admission scores will substitute PRAXIS 1 as entry test in order to declare major or minor.
- Potential candidate declares major.

Step Two:

- Potential candidate completes first year at Xavier with a grade point average of 2.500 or higher.
• Required grades in following courses:
  ◦ ENGL 101 "B" or higher.
  ◦ Mathematics (as placement dictates) "C" or higher.
  ◦ Introductory Education course (program dictates) "B" or higher.
• Following items completed and filed with Education Office:
  ◦ Notarized "Statement of Moral Character".
  ◦ "Application for Admission" form.
  ◦ "Reflection Question" form.
• Student is notified of acceptance into chosen program.

Step Three:

• Required grades for continuation through major/minor: detailed information.
  ◦ Grade of "C" or higher in second mathematics course.
  ◦ Overall grade point average of 2.500
  ◦ Grade of "B" or higher in required curriculum courses
  ◦ Candidate's portfolio reflects key assignments from educational foundations and curriculum courses.
  ◦ Evaluation forms completed by University personnel and field work cooperating teachers indicate progress in development of knowledge, performance skills, and dispositions for teaching.

Step Four:

• Application for internship/student teaching is approved. All foundation, methods, block courses, and majority of subject concentration courses must be completed for commencement of internship semester/s.
• Prior to internship, one of two/three or more required Ohio Assessment for Educators must be passed and results on file in Certification Office of Education Department (see handbooks or Education Office for specific test titles and codes). For Foreign Language, students must pass all applicable tests of the ACTFL test series with a rating of 'Intermediate-High' score.

Step Five:

• Successful completion of internship/student teaching in Early, Middle, Professional or Special Education:
  ◦ Record of on-site visits by University supervisor.
  ◦ Midterm and final evaluations from cooperating teacher and field supervisor.
  ◦ Two conferences with University supervisor and cooperating teacher.
• Successful completion of exit portfolio.
• Ohio Assessment for Educators and ACTFL, if applicable, results on file in Certification Office.
• Licensure application materials complete and on file in Certification Office.

Early Childhood/Montessori, ages 2.5 to 6, or ages 6 to 9, or ages 6 to 12 Licensure

Teacher Licensure

The School of Education offers teacher licensure programs, approved by the State of Ohio Board of Regents, for early childhood, middle childhood, secondary education, which includes multi-age, adolescent to young adult, intervention specialist (mild/moderate,
moderate/intensive, gifted/talented [graduate program only], and early childhood intervention specialist) teaching, as well as American Montessori Society certification in Montessori preprimary and primary teaching. In addition, students can acquire a license at the graduate level for all secondary licensure areas, reading, counseling, administration and special education.

The following pages outline the requirements for these licenses. Specific brochures on these programs are available and give suggested sequences of courses and rules for admission to the program. Please note that courses required for licensure which are more than 10 years old may need to be repeated. In adolescent to young adult (grades 7 - 12) and pre-K - 12 teaching, undergraduate students take a major in their area field and complete licensure requirements in professional education courses. Adolescent to young adults (grades 7 - 12) teaching licenses can be attained in the following subject fields: Integrated Language Arts, Integrated Mathematics, Integrated Social Sciences, Life Sciences, Life/Chemistry, Life/Physics and Physical Sciences (Chemistry/Physics). Multi-age (grades Pre-K - 12) teaching licenses can be attained in the following subject fields: Foreign Language (French, German, Greek, Latin or Spanish), Music, Theater and Visual Arts. Intervention Specialist for grades K - 12 are available in mild/moderate educational needs and moderate/intensive educational needs. These are undergraduate or graduate programs. A licensure program (K - 12) at the graduate level only is also offered. Intervention Specialist (Early Childhood) licensure can be fulfilled at the undergraduate and graduate levels. Endorsements (Pre-Kindergarten Special Needs, Transition To Work, Gifted/Talented) may be added to an existing specific license on the graduate level. Need to consult Special Education Programs for specific details.

Teacher Education Program

Steps for Admission and Continual Progress for Licensure in the Following Programs:

- Early Childhood
- Early Childhood/Montessori
- Middle Childhood
- Professional Education
- Special Education
- School Nurse Licensure

Step One:

- Student is accepted into the University based on high school grade point average and SAT or ACT scores.
- Nontraditional student with no college admission scores will substitute PRAXIS 1 as entry test in order to declare major or minor.
- Potential candidate declares major.

Step Two:

- Potential candidate completes first year at Xavier with a grade point average of 2.500 or higher.
- Required grades in following courses:
  - ENGL 101 "B" or higher.
  - Mathematics (as placement dictates) "C" or higher.
  - Introductory Education course (program dictates) "B" or higher.
- Following items completed and filed with Education Office:
  - Notarized "Statement of Moral Character".
  - "Application for Admission" form.
  - "Reflection Question" form.
- Student is notified of acceptance into chosen program.
Step Three:

• Required grades for continuation through major/minor: detailed information.
  ◦ Grade of "C" or higher in second mathematics course.
  ◦ Overall grade point average of 2.500
  ◦ Grade of "B" or higher in required curriculum courses
  ◦ Candidate's portfolio reflects key assignments from educational foundations and curriculum courses.
  ◦ Evaluation forms completed by University personnel and field work cooperating teachers indicate progress in development of knowledge, performance skills, and dispositions for teaching.

Step Four:

• Application for internship/student teaching is approved. All foundation, methods, block courses, and majority of subject concentration courses must be completed for commencement of internship semester/s.
• Prior to internship, one of two/three or more required Ohio Assessment for Educators must be passed and results on file in Certification Office of Education Department (see handbooks or Education Office for specific test titles and codes). For Foreign Language, students must pass all applicable tests of the ACTFL test series with a rating of 'Intermediate-High' score.

Step Five:

• Successful completion of internship/student teaching in Early, Middle, Professional or Special Education:
  ◦ Record of on-site visits by University supervisor.
  ◦ Midterm and final evaluations from cooperating teacher and field supervisor.
  ◦ Two conferences with University supervisor and cooperating teacher.
• Successful completion of exit portfolio.
• Ohio Assessment for Educators and ACTFL, if applicable, results on file in Certification Office.
• Licensure application materials complete and on file in Certification Office.

Middle Childhood Education Licensure

Teacher Licensure

The School of Education offers teacher licensure programs, approved by the State of Ohio Board of Regents, for early childhood, middle childhood, secondary education, which includes multi-age, adolescent to young adult, intervention specialist (mild/moderate, moderate/intensive, gifted/talented [graduate program only], and early childhood intervention specialist) teaching, as well as American Montessori Society certification in Montessori preprimary and primary teaching. In addition, students can acquire a license at the graduate level for all secondary licensure areas, reading, counseling, administration and special education.

The following pages outline the requirements for these licenses. Specific brochures on these programs are available and give suggested sequences of courses and rules for admission to the program. Please note that courses required for licensure which are more than 10 years old may need to be repeated. In adolescent to young adult (grades 7 - 12) and pre-K - 12 teaching, undergraduate students take a major in their area field and complete licensure requirements in professional education courses. Adolescent to young adults (grades 7 - 12) teaching licenses can be attained in the following subject fields: Integrated Language Arts, Integrated Mathematics, Integrated Social Sciences, Life Sciences, Life/Chemistry, Life/Physics and Physical Sciences (Chemistry/Physics). Multi-age (grades Pre-K - 12) teaching licenses can be attained in the following subject fields: Foreign Language (French, German, Greek, Latin or Spanish), Music, Theater and Visual Arts. Intervention Specialist for grades K - 12 are available in mild/moderate educational needs and moderate/intensive educational needs. These are undergraduate or graduate programs. A licensure program (K - 12) at the graduate level
only is also offered. Intervention Specialist (Early Childhood) licensure can be fulfilled at the undergraduate and graduate levels. Endorsements (Pre-Kindergarten Special Needs, Transition To Work, Gifted/Talented) may be added to an existing specific license on the graduate level. Need to consult Special Education Programs for specific details.

Teacher Education Program

Steps for Admission and Continual Progress for Licensure in the Following Programs:

- Early Childhood
- Early Childhood/Montessori
- Middle Childhood
- Professional Education
- Special Education
- School Nurse Licensure

Step One:

- Student is accepted into the University based on high school grade point average and SAT or ACT scores.
- Nontraditional student with no college admission scores will substitute PRAXIS 1 as entry test in order to declare major or minor.
- Potential candidate declares major.

Step Two:

- Potential candidate completes first year at Xavier with a grade point average of 2.500 or higher.
- Required grades in following courses:
  - ENGL 101 "B" or higher.
  - Mathematics (as placement dictates) "C" or higher.
  - Introductory Education course (program dictates) "B" or higher.
- Following items completed and filed with Education Office:
  - Notarized "Statement of Moral Character".

  ◦ Two conferences with University supervisor and cooperating teacher.
- Successful completion of exit portfolio.
- Ohio Assessment for Educators and ACTFL, if applicable, results on file in Certification Office.
- Licensure application materials complete and on file in Certification Office.

School of Education: Educational Administration

The mission of the Department of Educational Administration is the preparation and training of professionals in education and allied fields.

The Department of Educational Administration offers the Master of Education in Educational Administration, and administration/supervision licensure programs for Ohio, Kentucky and other states. It also offers a cognate (specialization) in the Leadership Studies Doctoral Program (Ed.D).

Master of Education

Educational Administration, M.Ed.

The Educational Administration Master of Education degree, a professional degree, is designed to provide the preparation required for principals, administrative specialists, superintendents, and other educational administration positions. Students are encouraged to select Master of Education courses which correspond with the educational administration/supervision licensure they may seek. Licensure program courses and master's degree courses may be taken in unison or separately. However, a master's degree is required before the student is eligible to apply with their state for licensure or be accepted into a licensure only program. Educational Administration Licensure/Supervision programs include but are not limited to Principal, Specialists, Superintendents, Supervisor of Instruction, Director of Special Education, and Director of Pupil Personnel.

Xavier University also offers an innovative, integrated MSN/MEd program consisting of 47 semester credit hours. The student will receive two separate degrees, the Master of Science in Nursing and the Master of Science in Education. This program was developed in response to a community need for nurse educators. The MSN/MEd prepares the graduate to administer and teach in educational settings (i.e., CE providerships, in-service educators and nurse educators). Please contact the School of Nursing for additional details.

Go to http://www.xavier.edu/administration-grad/admission.cfm to reference admission requirements.
Requirements for the M.Ed. in Educational Administration

(30 total credit hours required)

The core education courses are required for the Masters of Education in Educational Administration and all of the licensure options.

The following serves as a curriculum guide, please see an educational administration advisor.

Core courses: (9 credit hours)

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

Licensure courses: (21 credit hours)

The licensure courses are required for all licensure options. The appropriate internships will be added to the MEd program to complete the licensure requirements. Any combination of the courses that total 21 semester hours will, when combined with the 9 core hours, equal 30 semester hours and thus qualify the candidate for a MEd in Educational Administration. Note: Up to 6 semester hours may be elective credits at 500 Level or above. However elective credits are not applicable for Licensure.

Go to [http://www.xavier.edu/administration-grad/Licensure.cfm](http://www.xavier.edu/administration-grad/Licensure.cfm) to reference licensure requirements and details.

- EDAD 543 - Supervision of Inst/Staff Pers
- EDAD 548 - Principalship or
- EDAD 561 - Admin of Pupil Personnel Serv
- EDAD 562 - Political Structure & PR
- EDAD 563 - Sch Finance, Bus Aff / Phys
- EDAD 565 - School Law I
- EDAD 570 - Policy Planning & Evaluation
- EDAD 660 - Curr Design & Teach Strategies

Internship(s) are required to complete licensure for principals, specialists, or superintendents.

The required internship varies depending on specific licensure sought.

Consult with an educational administration advisor for specific licensure requirements.

Principal Licensure Courses

- EDAD 771 - Internship:Principal I
- EDAD 781 - Internship:Principal II
Specialist Licensure Courses

- EDAD 772 - Internship: Spec-Research I
- EDAD 773 - Internship: Spec-Staff Pers I
- EDAD 774 - Internship: Spec-Curr Inst I
- EDAD 775 - Internship: Spec-Pupil Svcs I
- EDAD 776 - Internship: Spec-Sch/Com Relat
- EDAD 777 - Internship: Spec-Vocational Ed
- EDAD 782 - Internship: Spec-Research II
- EDAD 783 - Internship: Spec-Staff Pers II
- EDAD 784 - Internship: Spec-Curr Inst II
- EDAD 785 - Internship: Spec-Pupil Svcs II
- EDAD 786 - Internship: Spec-Sch/Com Relat
- EDAD 787 - Internship: Spec-Vocational Ed

Superintendent License Courses

- EDAD 710 - Superintendent Seminar
- EDAD 779 - Internship: Superintendency I
- EDAD 789 - Internship: Superintendency II

Note(s):

- All educational administration students must successfully complete the Master of Education (MEd) Comprehensive Examination upon completion of required coursework to earn the MEd degree.
- Additionally, the University is not obliged to recommend licensure of any type on the basis of the completion of a Master of Education degree or specific coursework in education. Students must also meet leadership, communication, and character requirements and pass the required licensure tests of the State Department of Education for each specific license.

Summary of Steps for Admission and Continual Progress toward MEd Degree and Licensure

Step One:

Admission to M.Ed. graduate program. See http://www.xavier.edu/education/

- Apply online to the Office of the Graduate School
- Declare educational administration as major for MEd.
Step Two:

Complete Program for MEd

- Complete 30 semester credit hours, including all required courses
- Pass comprehensive exam (exam can be repeated once, if needed)
- Apply for Xavier graduation

Step Three:

Licensure for Ohio

For Principal or Specialist Licenses:

- Complete course requirements for MEd and/or principal or specialist license.
- For Xavier M.Ed. graduates, complete 6 semester credit hours of additional required coursework.
- Pass licensure exam OATE Exam #015 in educational leadership
- Apply for licensure online at the State Department of Education and follow university and state procedures for licensure.

For Superintendent Licenses:

- Complete course requirements for MEd and/or principal or specialist license.
- For Xavier M.Ed. graduates, complete an additional 12 credit hours approved by advisor, including EDAD 710 Superintendent Seminar and EDAD 779 & 789 Superintendent Internships I & II.
- Must pass licensure exam in educational leadership, if not already completed with Principal or Specialist license.
- Apply for licensure online at the State Department of Education and follow university and state procedures for licensure.

Note(s):

- Students may contact the Office of the Graduate School at xugrad@xavier.edu, http://www.xavier.edu/graduate-admission, or 513-745-3360 for more information and the Department of Educational Administration at 513-745-4210 to schedule an appointment with an advisor.

School of Education: Montessori

The Montessori program supports the fundamental tenet that a child learns best within a social environment that supports each individual's unique development. At Xavier, the Montessori teacher learns to be a scientific observer and facilitator. The educator provides an environment for children that is developmentally appropriate and supports the areas of social, cognitive, emotional, spiritual, and physical domains.

The philosophy of education taught in the Montessori program was researched by Dr. Maria Montessori, the first Italian woman to graduate from medical school in Rome in 1896. It is a philosophy and pedagogy in practice for over a century. The Montessori philosophy and its method of educating children is based on the premises of respect for the child and for one another, freedom within limits, order, nature and reality, the sensitive periods, movement, and peace.

Multi-age groupings in each class promotes peer learning and a sense of community. The children work in a prepared learning environment that is child centered and beautifully arranged with learning materials to aid the child in exploring and discovering through multi-sensory activities.

The Montessori teacher learns to be a scientific observer and facilitator. The educator provides an environment for children that is developmentally appropriate and philosophically rooted.
The Montessori teacher education undergraduate program is based on a strong foundation in liberal arts and child development. The Montessori program prepares the student with an understanding of Dr. Montessori's philosophy in light of the education of the past and present. The Montessori curriculum prepares the students to teach practical life, art, music, movement, sensorial, math, language, geography, science and history.

Students who major in Montessori education can be certified according to the American Montessori Society to teach children either two and a half to six years old or six to nine years old using the Montessori philosophy.

To major in Montessori education, Xavier University requires 64 hours of core curriculum, including natural sciences, English, mathematics, communications, a cultural diversity elective, theology, business, philosophy and fine arts.

In addition, the Montessori major requires 66 hours of education courses. See the recommended course sequences for detailed information.

Please contact the director of the Montessori program for more information at montessori@xavier.edu

The Xavier University Montessori teacher education programs grant certification in the following areas:

1. American Montessori Credential for Early Childhood or Elementary I or Elementary I & II
2. Ohio State Early Childhood Licensure for Pre-K to 3rd Grade.

Graduates will be certified to teach in public or private Montessori schools. Graduates will also be certified to teach in public or private traditional schools from Pre-K to 3rd Grade. The program is MACTE accredited and American Montessori affiliated.

The Master of Education degree is available in many concentrations. See the “Master of Education” section for the list of options. Students who do not meet acceptable performance standards in coursework or field experiences may be excluded from specific programs.

The following pages outline the requirement for these licenses. Specific brochures on these programs are available and give suggested sequences of courses and rules for admission to the program. Please note that courses required for licensure which are more than 10 years old may need to be repeated.

Note: The University is not obliged to recommend licensure of any type on the basis of the completion of a Master of Education degree or specific course work in education. Students must also meet leadership, communication, and character requirements and pass the required Ohio Assessments for Educators (OAE) tests of the State Department of Education for each specific license.

Teacher Education Program Steps for Admission and Continual Progress for Licensure for candidates in the Montessori Program

Xavier University candidates for initial licensure in early childhood and Montessori education must meet specific standards for entrance into the University, the major, student teaching, and the provisional license for the teaching profession. Steps must be successfully completed sequentially for licensure recommendation by the School of Education.

Step One: Admission to Xavier University

- Student is accepted into the University: Grade point average and ACT or SAT scores considered.
- Student declares major as early childhood education or middle childhood education.
- When field experience placements begin and annually thereafter, a BCI/FBI background check and TB (Tuberculosis Skin Test) test are required.

Step Two: Admission to Program

- Completion of Step One.
- Student completes EDEL 100, Introduction to Education, with grade of B or higher.
Step Three: Pre-Internship Requirements

- Completion of Step Two.
- Student maintains grade point average of 2.5 overall, 3.0 in major.
- Student must receive "B" or higher in courses prefixed EDEC, EDMC, EDRE, or retake in subsequent semester. Students must receive B or higher in courses prefixed EDME, EDEC, EDRE, EDSP or retake in subsequent semesters.
- Second mathematics course complete with C or higher.
- Early childhood candidates complete either EDEC 330 or EDEC 335 with EDEC 325
- Middle childhood candidates complete EDMC 340, EDMC 345, and two of the following courses: EDMC 351, EDMC 352, EDMC 353, or EDMC 354.
- Annual BCI/FBI background check on file in Montessori Program offices.
- TB (Tuberculosis Skin Test) test results available.
- Evaluation forms completed by University personnel and field work cooperating teachers indicating progress in knowledge, performance, and necessary dispositions on file in the Department of Childhood Education and Literacy office. To complete this phase, student registers for an advisory day at the end of the appropriate semester; meet with a faculty team to present evidence of knowledge, dispositions and performance via discussion and portfolio content. Faculty team indicates to student, and in writing, that all requirements for progression in program have been met.

Step Four: Admission to Internship

- Completion of Step Three.
- Application for internship approved.
- All foundation, methods, content area courses, and majority of concentration courses must be complete for commencement of internship semester.
- One of two required Ohio Assessments for Educators (OAE) exams for Early Childhood Education must be passed prior to internship. "Early Childhood Education" must be passed prior to internship. Another OAE exam is required for licensure and may be completed during the internship.
- Annual BCI/FBI background check on file in Montessori Program office.
- TB (Tuberculosis Skin Test) test results available.

Step Five: Resident License Approval

- Completion of Step Four.
- Successful completion of internship in early or middle childhood classroom, with goals, midterm appraisal and final letters of evaluation on file in Montessori Program office.
- Presentation and submission of exit portfolio.
- All Ohio Assessments for Educators exams passed and official results on file in Xavier University Certification Office.
- Online application process completed and all license application materials on file with Xavier University Certification Office.

*See "Handbook for Early and Middle Childhood Education" for further information. Available on the program website.
Bachelor of Science

Montessori Education (Early Childhood Program) for Ohio Four Year Resident Educator License (PreK-3) and American Montessori Society Credential Early Childhood Ages 2 1/2 To 6, B.S.

Undergraduate Programs in Montessori Education

The philosophy of education taught in the Montessori program was researched by Dr. Maria Montessori, one of the first Italian women to graduate from medical school in Rome in 1896. Dr. Montessori's philosophy supports the fundamental tenet that a child learns best within a social environment which supports each individual's unique development. Multi-age grouping in each class promotes peer group learning. The children work in a prepared learning environment that is child-centered and beautifully arranged with learning materials to aid the child in their exploration of new ideas. The Montessori teacher learns to be a scientific observer and facilitator, providing an environment for children that is developmentally appropriate to help the child grow in all areas: social, cognitive, emotional, and physical.

An undergraduate degree will prepare you to practice your profession in the following ways:

1. Public schools - Graduates are prepared to teach in Montessori public schools and traditional public schools pre-Kindergarten up to third grade.
2. Private schools - Graduates teach in private Montessori schools (ages 2.5 - 6) nationally and internationally as well as in traditional programs up to third grade.
3. Hospitals - Graduates are hired for special children's programs.
4. Child care centers - Graduates are hired as administrators of child care centers.
5. Non-profit organizations - Graduates work in the areas of child and family advocacy.

The Xavier University Montessori Teacher Education Program is accredited by the MACTE Commission and grants an American Montessori Society Credential for Early Childhood and Elementary I students who complete all requirements also receive an Ohio Four Year Resident Educator License PreK-3.

Bachelor of Science Degree in Montessori Education

Early Childhood Education
Ohio Four Year Resident Educator License for PreK-3
American Montessori Society Credential for Ages 2 1/2 to 6 Years

Requirements for the Early Childhood / Montessori Education Major
Undergraduate core curriculum, requirements:

48 Undergraduate Core Curriculum credit hours, include:

- Diversity Curriculum requirement: partially fulfilled in the major with EDEL 260 Cultural Diversity In Educ.
- English Composition/Rhetoric grade must be a "B" or above.
- Mathematics grade must be a "C" or above.
- Literature: fulfilled in the major with EDCH 324 Children's Lit for Early Child.
- CORE 100 - First Year Seminar
- CORE 101 - First Year Co-curricular program
- CORE 499
- Science: must be met with physical (CHEM or PHYS 114 and PHYS 115) and biological (BIOL 130 and BIOL 131) sciences.
- Social Sciences: included in the major requirements.
- The ER/S Focus Elective that meets another core requirement should be chosen.

Major requirements:

66 credit hours, as follows:

39 hours of education courses from:

- EDFD 110 - Human Development & Learning
- EDEL 100 - Introduction To Education
- EDEL 251 - Instructional Technology
- EDEL 260 - Cultural Diversity In Educ
- EDEC 210 - Early Childhood Development
- EDEC 230 - Play in Early Childhood Educ
- EDME 350 - Methods of Observation of Chld
- EDME 351 - Montessori Ed: Phil Approach
- EDME 354 - Mont Language Arts& Read Meth
- EDME 359 - Community & Advocacy in Educ
- EDME 376 - Phonics Skills for Early Chldh
- EDRE 312 - Reading Methods for Early Chld
- EDSP 205 - Foundations in ECSPED

3 hours of literature from:

- EDCH 324 - Children's Lit for Early Child

24 hours of Ohio License requirements, as follows:
Early Childhood Credential (ages 2 1/2 to 6)

- EDME 364 - Early Childhood/Mont Meth
- EDME 366 - Mont Curr Des&Te Strat I:Ea Ch
- EDME 367 - Mont Curr Des&Te Strat II:Ea C
- EDME 377 - Early Childhood Math& Science
- EDME 473 - Mont Early Childhood Pract I
- EDME 474 - Mont Early Childhood Pract II

Additional Requirements:

- A Montessori professional statement must be in the file by the end of freshman year.
- Three letters of recommendation must be on file by the start of the sophomore year.
- A moral character form must be on file by the start of the sophomore year.
- Application for student teaching must be turned in by spring of junior year.
- Application and fees for American Montessori Society Credentialing, MACTE and NAEYC must be turned in the summer before senior year.
- State licensing exams must be taken prior to the start of internship.

Note(s):

- A 2.700 grade point average must be achieved in all the education courses for the major.
- All Montessori education courses must have a grade of "B" or above.

B.S. Montessori Education (Early Childhood program) with Ohio Four year resident educator License (PreK-3) and American Montessori Society Credential Early Childhood Ages 2 1/2 to 6

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

- ENGL 101 - English Composition
- EDFD 110 - Human Development and Learning
- Foreign Language I Elective
- BIOL 130 - Intro to Life Sciences
- BIOL 131 - Intro to Life Sciences Lab
- THEO 111 - Theological Foundations or CORE 100 - First year seminar
CORE 101 - First Year Co-curricular

Total (15)

Second Semester

- EDEL 100 - Introduction To Education
- Foreign Language II Elective
- Historical perspective
- PHYS 114 - Our Universe: Physical Science
- PHYS 115 - Our Universe: Physical Sci Lab
- THEO 111 - Theological Foundations or CORE 100 - First year seminar

Total (15)

Sophomore Year

First Semester

- EDEC 210 - Early Childhood Development
- EDME 351 - Montessori Ed: Phil Approach
- EDME 364 - Early Childhood/Mont Meth
- MATH 201 - Foundations of Arith. -ECED
- PHIL 100 - Ethics as Intro to Philosophy
- Creative Perspectives

Total (18)

Second Semester

- EDME 376 - Phonics Skills for Early Chldh
- EDEL 251 - Instructional Technology
- EDSP 205 - Foundations in ECSPED
- MATH 202 - Geometry & Measurement -ECED
- Theological Perspective elective

Total (15)

Junior Year
First Semester

- EDME 354 - Mont Language Arts & Read Meth
- EDME 359 - Community & Advocacy in Educ
- EDCH 324 - Children's Lit for Early Child
- EDRE 312 - Reading Methods for Early Child
- EDEL 260 - Cultural Diversity In Educ
- CLAS 205 - Classical Lit & Moral Imagination or ENGL 205 - Literature & Moral Imagination or SPAN 205 - Hispanic Lit & Moral Imagination

Total (18)

Second Semester

- EDME 350 - Methods of Observation of Child
- EDME 377 - Early Childhood Math & Science
- EDEC 230 - Play in Early Childhood Educ
- Philosophy Elective (3)
- EDEL 260 - Cultural Diversity in Education
- EDRE 478 - Diagnosis/Correct of Read Disa

Total (15)

Senior Year

First Semester

- E/RS Focus Elective
- EDME 366 - Mont Curr Des&Te Strat I: Ea Ch
- EDME 473 - Mont Early Childhood Pract I

Total (12)

Second Semester

- EDME 367 - Mont Curr Des&Te Strat II: Ea C
- Elective
- EDME 474 - Mont Early Childhood Pract II
- CORE 499 (no credit) - Reflection on XU Core

Total (12)
Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- E/RS Focus Elective requirement may be used to satisfy another element of the Core or the major.
- A minimum of 130 credit hours is typically required for the degree, with 120 hours as absolute minimum.
- An overall cumulative GPA of 2.500 is required for graduation.
- The Diversity Curriculum Electives may be used to satisfy other elements of the core or major.

Montessori Education (Early Childhood Program) for Ohio Four Year Resident Educator License (PreK-3) and American Montessori Society Credential Elementary I, Ages 6-9, B.S.

(Students can add on the Elem. II and an OH Generalist Endorsement for Grades 4-5)

Undergraduate Programs in Montessori Education

The philosophy of education taught in the Montessori program was researched by Dr. Maria Montessori, one of the first Italian women to graduate from medical school in Rome in 1896. Dr. Montessori's philosophy supports the fundamental tenet that a child learns best within a social environment which supports each individual's unique development. Multi-age grouping in each class promotes peer group learning. The children work in a prepared learning environment that is child-centered and beautifully arranged with learning materials to aid the child in exploration of new ideas. The Montessori teacher learns to be a scientific observer and facilitator, providing an environment for children that is developmentally appropriate to help the child grow in all areas: social, cognitive, emotional, and physical.

An undergraduate degree will prepare you to practice your profession in the following ways:

1. Public schools: You will be prepared to teach in Montessori public schools and traditional public and private schools for pre-Kindergarten through third grade.
2. Private schools: Our graduates teach in private Montessori schools all over the world. They are also teachers in traditional private schools.
3. Hospitals: Hospitals hire our graduates for special children's programs.
4. Child care centers: Our graduates are hired as administrators of child care centers.
5. Non-profit organizations hire graduates to work in the areas of child and family advocacy.

The Xavier University Montessori Teacher Education Program is accredited by the MACTE Commission and grants an American Montessori Society Credential for Early Childhood and Elementary I students who complete all requirements also receive an Ohio Four Year Resident Educator License PreK-3.

Bachelor of Science Degree in Montessori Education

- Early Childhood Education
- Ohio Four Year Resident Educator License for PreK-3
- American Montessori Society Credential for Ages 2 1/2 to 6 Years
- American Montessori Credential for Elementary I
Requirements for the Early Childhood / Montessori Education Major

Undergraduate core curriculum requirements:

48 credit hours, including:

- Diversity Curriculum requirement: partially fulfilled in the major with EDEL 260 (Cultural Diversity in Education).
- English Composition/Rhetoric grade must be a "B" or above.
- Mathematics grade must be a "C" or above.
- Literature: fulfilled in the major with EDCH 324.
- Science: must be met with physical (CHEM or PHYS 114 and PHYS 115) and biological (BIOL 130 and BIOL 131) sciences.
- Core 100 First Year Seminar
- Core 101 First year co-curricular program
- Core 499
- Social Sciences: included in the major requirements.
- The E/RS Focus Elective that meets another core requirement should be chosen.

Major requirements:

66 credit hours, as follows:

39 hours of education courses from:

- EDEL 100 - Introduction To Education
- EDFD 110 - Human Development & Learning
- EDEL 251 - Instructional Technology
- EDEL 260 - Cultural Diversity In Educ
- EDEC 210 - Early Childhood Development
- EDEC 230 - Play in Early Childhood Educ
- EDME 350 - Methods of Observation of Chld
- EDME 351 - Montessori Ed: Phil Approach
- EDME 354 - Mont Language Arts& Read Meth
- EDME 359 - Community & Advocacy in Educ
- EDME 376 - Phonics Skills for Early Chldh
- EDRE 312 - Reading Methods for Early Chld
- EDSP 205 - Foundations in ECSPED

3 hours of literature from

- EDCH 324 - Children's Lit for Early Child

24 hours of Ohio License requirements, as follows:

Elementary I Credential (ages 6-9):

- EDME 352 - Mont Curr Des & Tch Strat I:Pr
- EDME 353 - Mont Math & Geometry Methods
- EDME 355 - Mont Cultural Subjects Method
- EDME 356 - Mont Integration of Curr: Prim
- EDME 470 - Mont Primary Practicum I
• EDME 471 - Mont Primary Practicum II

Additional Requirements:

• A Montessori professional statement must be in the file by the end of freshman year.
• Three letters of recommendation must be on file by the start of the sophomore year.
• A moral character form must be on file by the start of the sophomore year.
• Application for student teaching must be turned in by spring of junior year.
• Application and fees for American Montessori Society Credentialing, MACTE and NAEYC must be turned in the summer before senior year.
• State licensing exams must be taken the first semester of senior year.
• Students may add A.M.S. Elementary II by completing the EII required coursework.
• Students may add an Ohio Generalist endorsement for grades 4-5 by completing the Elementary II coursework, additional licensing exam, and online Middle Childhood development course.
• Students are able to pursue a Reading Endorsement

Note(s):

• A 2.700 grade point average must be achieved in all the education courses for the major.
• All Montessori education courses must have a grade of "B" or above.

B.S. Montessori Education (Early Childhood program) with Ohio Four Year Resident Educator License for PreK-3 and American Montessori Society Credential Elementary I, ages 6-9

This block serves as a guideline for progress toward a degree. See your academic advisor.

Freshman Year

First Semester

• ENGL 101 - English Composition
• EDFD 110 - Human Development and Learning
• BIOL 130 - Intro to Life Sciences
• BIOL 131 - Intro to Life Sciences Lab
• Foreign Language I Elective
• THEO 111 - Theological Foundations or CORE 100 - First Year Seminar
• Core 101 First Year Co-curricular Program

Total (15)
Second Semester

- EDEL 100 - Introduction To Education
- Foreign Language Elective II
- Historical Perspective Elective
- PHYS 114 - Our Universe: Physical Science
- PHYS 115 - Our Universe: Physical Sci Lab
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar

Total (15)

Sophomore Year

First Semester

- EDME 351 - Montessori Ed: Phil Approach
- EDME 376 - Phonics Skills for Early Chldh
- Science Elective
- MATH 201 - Foundations of Arith. -ECED
- PHIL 100 - Ethics as Intro to Philosophy
- EDEL 210 - Early Childhood development
- Creative perspectives

Total (18)

Second Semester

- EDEL 251 - Instructional Technology
- EDSP 205 - Foundations in ECSPED
- MATH 202 - Geometry & Measurement -ECED
- EDME 353 - Mont Math & Geometry Methods
- Theology Perspective elective

Total (15)

Junior Year

First Semester

- EDME 354 - Mont Language Arts & Read Meth
• EDME 359 - Community & Advocacy in Educ
• EDRE 312 - Reading Methods for Early Child
• EDEL 260 - Cultural Diversity In Educ
• EDCH 324 - Children's Lit for Early Child
• ENGL 205 - Literature & Moral Imagination or CLAS 205 - Classical Lit & Moral Imagination or SPAN 205 - Hispanic Lit & Moral Imagination

Total (18)

Second Semester

• EDME 350 - Methods of Observation of Child
• EDME 355 - Mont Cultural Subjects Method
• EDRE 478 - Diagnosis/Correct of Read Disa
• EDEC 230 - Play in Early Childhood Educ
• Philosophy Elective (3)

Total (15)

Senior Year

First Semester

• E/RS Focus Elective (see advisor)
• EDME 352 - Mont Curr Des & Tch Strat I:Pr
• EDME 470 - Mont Primary Practicum I

Total (12)

Second Semester

• EDME 356 - Mont Integration of Curr: Prim
• EDME 471 - Mont Primary Practicum II
• Elective
• Core 499 (no credit) - Reflection on XU Core

Total (12)

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
• A minimum of 130 credit hours is typically required for the degree, with 120 hours as absolute minimum.
• An overall cumulative GPA of 2.500 is required for graduation.
• The Diversity Curriculum requirement may be used to satisfy other elements of the core or major.

Adding Elementary II Ages 9-12 to an Elementary I Credential

Students may add A.M.S. Elementary II by completing the coursework listed below. Students may add an Ohio Generalist endorsement for grades 4-5 by completing the Elementary II coursework, additional licensing exam, and online Middle Childhood development course.

Montessori credentialing at the Elementary II level may be added along with the Generalist Endorsement 4-5 (See Program Advisor).

- EDME 370 - Mont 9-12 Math Curr
- EDME 371 - Mont 9-12 Geometry Curr
- EDME 372 - Mont 9-12 Geography and Hist Curr
- EDME 373 - Mont 9-12 Botany and Zoology Curr
- EDME 374 - Mont 9-12 Physical Science Curr
- EDME 375 - Mont 9-12 Lang and Children's Li

No Additional Internship is Required

Generalist Endorsement Requirements:

- Current P-3 Ohio Resident Educator License
- One credit hour online course: Middle Childhood Transitions, Development, and Management
- Passing score on the Ohio Assessments for Educators Elementary Education/018 (Subtest I) and Ohio Assessments for Educators Elementary Education/019 (Subtest II)

Montessori Education (Early Childhood) for Ohio 4 yr Resident Educator License (preK-3), American Montessori Society Credential

Early Childhood Ages 2 1/2 To 6; Special Education, Early Childhood Intervention Specialist license (Double Major), B.S

Double Major of Montessori Education and Special Education.

Students who successfully complete the dual major program will receive a BS with majors in Special Education and Montessori Education. They will receive an American Montessori Society Early Childhood credential, an OH p-3 license, and an OH ECIS-Early Childhood Intervention Specialist license.

See Special Education with a Concentration in Early Childhood Intervention Specialist and Montessori Education with American Montessori Society Early Childhood Credential (Double Major), B.S.
Master of Education

Montessori Education (for No Ohio State License and No Montessori Credential), M.Ed.

Master of Education Degree in Montessori Education On Campus or Online

The Xavier University Montessori teacher education programs grant an American Montessori Credential and an Ohio Pre-Kindergarten to grade 3 licensure. The programs are affiliated with the American Montessori Society, and accredited by the Montessori Accreditation Council for Teacher Education.

The graduate program in Montessori education is based on a strong foundation in child development. This allows students the option of teaching in a public or private Montessori school, as well as in a traditional public or private school. The program prepares the student with an understanding of Dr. Montessori's philosophy in light of the education of the past and present. The Montessori curriculum courses prepare the student to teach practical life, art, music, movement, sensorial, math, language, geography, science and history.

Child development is emphasized in courses EDME 563, EDME 559, and EDME 550 and is an integral part of all of the courses. Those holding a master's degree may obtain certification by planning a post-master's program with the director of the Montessori teacher education program.

Go to http://www.xavier.edu/montessori-grad/admission.cfm to reference admission requirements.

For online description, please see the fully online option description: Montessori Education (for No Ohio State License and No Montessori Credential), M.Ed.* *(fully online option)

Requirements for the M.Ed. in Montessori Education (with no Ohio State License and no Montessori Credential)

33 total credit hours are required, as follows

- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper *
- EDME 551 - Montessori Ed: Phil Approach
- EDME 563 - Early Cognitive Development
- EDME 550 - Methods of Observation of Chil
- EDSP 505 - Foundations in ECSPED
- EDFD 500 - History/Philosophy of Am Educ
The other twelve (12) hours can be taken from the following courses:

- EDME 553 - Mont Math & Geometry Methods
- EDME 554 - Mont Language Arts & Read Meth
- EDME 555 - Mont Cultural Subject Method
- EDME 559 - Community & Advocacy in Educ
- EDME 564 - Early Childhood/Montessori Met
- EDME 576 - Phonics Skills for Early Child
- EDME 577 - Early Childhood Math & Science
- EDME 570 - Mont 9-12 Math Curr
- EDME 571 - Mont 9-12 Geometry Curr
- EDME 572 - Mont 9-12 Geography & Hist Curr
- EDME 573 - Mont 9-12 Botany & Zoology Curr
- EDME 574 - Mont 9-12 Physical Science Curr
- EDME 575 - Mont 9-12 Lang & Children's Li

Other Requirements:

- Student must complete BCI/FBI background checks in the first semester and each subsequent academic year.

Note(s):

* The research paper should be completed in the area of early childhood education and an approved copy of the completed paper submitted to the director of the program for the departmental library.

**Montessori Education (for No Ohio State License and No Montessori Credential), M.Ed. (Fully Online Option)**

The graduate program in Montessori education is based on a strong foundation in child development. The program prepares the student with an understanding of Dr. Montessori's philosophy in light of the education of the past and present.

Admitted students earn a Master of Education with a Montessori focus while working with Montessori and education faculty who teach in Xavier's internationally known program.

Applicants who already have a MACTE-approved Montessori credential may be able to apply it toward 12 hours of the degree.

Students are uniquely enrolled with the online degree program and complete courses within this program solely.

Xavier University is not yet authorized to provide online education in all 50 states. Please consult the state authorization site via the Xavier University site for the listing of approved states.

This program will not provide licensure in any state.
Requirements for the M.Ed. in Montessori Education online program (with no Ohio State License and no Montessori Credential)

- Admitted students take a maximum of 33 credit hours over three semesters—or 18 months.
- Students with a MACTE-approved credential can spread their coursework over 12 months.
- Classes are entirely online and vary in format, including live lectures.
- As part of an online learning community, students collaborate and share ideas such as curriculum planning, assessment, classroom management and making teaching materials.
- Students interact closely with their professors and each other, communicating with other students from around the world.
- Professors hold weekly virtual office hours to maintain communication and an ongoing relationship with students.

Curriculum for the M.Ed. in Montessori Education online program (with no Ohio State License and no Montessori Credential)

Students take the following courses for a maximum of 33 credit hours. Students with a MACTE-approved credential may be able to apply it toward 12 hours of the degree.

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper
- EDME 550 - Methods of Observation of Chil
- EDME 551 - Montessori Ed: Phil Approach
- EDME 552 - Mont Curr Des & Te Strat: Pri
- EDME 557 - Montessori Language Enrichment
- EDME 558 - Math And Geometry Enrichment
- EDME 559 - Community & Advocacy in Educ
- EDME 563 - Early Cognitive Development
- EDSP 505 - Foundations in ECSPED

Notes:

Credentialed Montessori teachers may apply up to 12 hours of their MACTE-approved credential toward the following courses: EDME 552, 557, 558, 559.

Montessori Education (for Ohio Four year resident educator License PreK-3 and American Montessori Society Elementary I Credential - Ages 6-9 and Elementary II Credential - Ages 9-12) M.Ed.

Students can add the Elem. II credential and an OH Generalist Endorsement for Grades 4-5
Master of Education Degree in Montessori Education

The Xavier University Montessori teacher education programs grant an American Montessori Credential and an Ohio Pre-Kindergarten or Kindergarten to Grade 3 Resident Educator licensure. The programs are affiliated with the American Montessori Society, and accredited by the Montessori Accreditation Council for Teacher Education.

• EDME 673 - Mont Early Childhood Pract I **
• EDME 674 - Mont Early Childhood Pract II **

Reading Courses:

• EDRE 512 - Reading Methods for Early Child
• EDRE 678 - Diagnosis/Correct of Read Disa

Additional Requirements:

• Student must complete BCI/FBI background checks in first semester and each subsequent academic year.
• Application for student teaching must be turned in by the semester prior to internship.
• Application and fees for American Montessori Society Credentialing, MACTE and NAEYC must be turned in prior to the start of internship.
• State licensing exams must be taken the first semester of internship year.

Note(s):

• Students wishing Ohio four year resident educator license for PreK-3 must meet general education background requirements.

*   Must be completed before beginning your practicum.
**  Courses taken during practicum.
*** The educational research paper (EDFD 507/508) should be completed in the area of early childhood education and an approved copy of the completed paper submitted to the director of the program for the departmental library.
Minors

Montessori Education Minor

This 15 hour minor is an introduction to Montessori Education and does not grant an American Montessori Society Credential. This minor can be completed alongside any major.

Courses

- EDME 350 - Methods of Observation of Child
- EDME 351 - Montessori Ed: Phil Approach
- EDME 364 - Early Childhood/Mont Meth
  or
- EDME 355 - Mont Cultural Subjects Method
- EDME 377 - Early Childhood Math & Science
  or
- EDME 353 - Mont Math & Geometry Methods
- EDME 376 - Phonics Skills for Early Chldh
  or
- EDME 354 - Mont Language Arts & Read Meth

School of Education: Reading

Master of Education

Reading Education, M.Ed.

The degree of Master of Education with a concentration in Reading is a professional degree designed to meet the needs of licensed teaching professionals desiring to enhance their knowledge of the reading process with current theory and research and classroom application. This course of study is designed to prepare teacher candidates and classroom teachers to help students from preschool through high school to become effective, strategic readers who read and write enthusiastically and purposefully. It provides education and training for classroom teachers, media specialists, district literacy coaches, reading consultants, and reading supervisors.

Accordingly this degree is awarded to the candidate who has demonstrated a capacity for professional performance by satisfactorily completing the course of study designed to develop the following characteristics:

1. The ability to articulate and translate the interrelationship of reading, writing, speaking, listening, viewing and visually representing to classroom teaching and curriculum development.
2. The ability to work directly or indirectly with students of all grade levels who could benefit from advanced training in reading skills.
3. The ability to work with teachers, administrators, parents, and other professionals to improve and coordinate a school wide holistic reading program.

This program is also designed to meet the specifications of the International Reading Association, the National Council of Teachers of English, and State of Ohio course requirements for the Reading Endorsement. It also meets reading specialist licensure requirements in many states.

Go to http://www.xavier.edu/reading/admission.cfm to reference the admission requirements.

Curriculum Prerequisites

These prerequisites are required if a candidate for the degree does not have a valid teaching certificate or current teaching license.

• EDRE 312 - Reading Methods for Early Child or
• EDRE 512 - Reading Methods for Early Child

or

• EDRE 314 - Reading Methods for Middle Child or
• EDRE 514 - Reading Methods for Middle Child

and

• EDRE 471 - Content Area Literacy or
• EDRE 671 - Content Area Literacy

Note(s):

• The candidate should take an undergraduate course in children's literature or adolescent literature.
• In addition, the graduate candidate must have (or be in the process of completing) a valid Ohio teaching certificate or license.

Requirements for the M.Ed. in Reading

The following coursework is required for the Master degree in Reading and meets the State of Ohio standards for the Reading Endorsement.
MEd Core Requirements

(9 credit hours)

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

Concentration Requirements

(21 credit hours)

15 hours required specifically with

- EDRE 569 - Phonics & Found of Literacy
- EDRE 671 - Content Area Literacy
- EDRE 672 - Theories of Reading
- EDRE 678 - Diagnosis/Correct of Read Disa
- EDRE 679 - Practicum in Reading

3 to 6 hours selected from the following Literature Elective List

- EDCH 501 - Advanced Children's Literature
- EDCH 505 - Storytelling as a Cultural Cra
- EDCH 515 - Adolescent Literature
- EDCH 520 - Multi-Cultural Lit for Childrn
- EDCH 524 - Children's Lit for Early Child
- EDCH 526 - Children's Lit for Middle Chil
- EDRE 676 - Teaching Writing Process

0 to 6 more hours selected, if needed, from

- EDEL 651 - Instr Strat For Engl Lang Lear
- EDRE 675 - Current Research in Reading
- EDRE 685 - Teach Read Children w/Spc Need
  - EDME 562 - Phonics and Orton Gillingham
  - (Please check current advising sheet for additional courses.)
Note(s):

- Students completing their studies for the M.Ed. in Reading must pass a comprehensive examination writing knowledgeably on the following areas of literacy: phonics, reading strategies, literacy development, reading theories, content area literacy, vocabulary acquisition, the reading process, and diagnosis and remediation of reading. The M.Ed. candidate may sit for the exam after earning 27 credit hours. Successful completion of the degree is contingent on passing the exam.

Reading Endorsement Requirements

Those completing the M.Ed. in Reading Education with a valid Ohio teaching license may also want to add the Reading Endorsement to their teaching license. The endorsement has a 21 hour. course requirement: 15 hours of coursework in reading and 6 hours in reading electives (see list above); and 100 hours of documented field hours in the area of reading. Master degree candidates may work on their degree and the endorsement simultaneously. After completion of the course requirements for the endorsement, the State of Ohio requires that the candidate take the Ohio Assessment for Education in Reading O38 (Subtest 1) and Reading O39 (Subtest II) and receive a passing score to have the endorsement added to a valid license. Information regarding testing dates, location sites, and sample questions for OAE may be found on the Ohio Assessment for Educators website.  http://www.oh.nesinc.com

The following courses are currently required by the State of Ohio for the Reading Endorsement: *

- EDRE 269 - Phonics & Foundation of Literacy or
- EDRE 569 - Phonics & Found of Literacy
- EDRE 471 - Content Area Literacy or
- EDRE 671 - Content Area Literacy
- EDRE 672 - Theories of Reading
- EDRE 478 - Diagnosis/Correct of Read Disa or
- EDRE 678 - Diagnosis/Correct of Read Disa
- EDRE 679 - Practicum in Reading

And, choose two classes from the list below.

- EDCH 305 - Storytelling - Cultural Craft or
- EDCH 505 - Storytelling as a Cultural Cra
- EDCH 324 - Children's Lit for Early Child or
- EDCH 326 - Children's Lit for Middle Chil
- EDCH 315 - Adolescent Literature
- EDCH 515 - Adolescent Literature
- EDCH 320 - Multi-Cultural Lit for Childrn or
- EDCH 520 - Multi-Cultural Lit for Childrn
- EDME 562 - Phonics and Orton-Gillingham
- EDEL 651 - Instr Strat For Engl Lang Lear
- EDRE 676 - Teaching Writing Process
Note(s):

- Ohio Assessments for Educators (OAE): You must pass two subject area concentration exams prior to student teaching. The "Principles of Learning and Teaching: 5-9" is taken during the student teaching semester. See OAE link at [www.xavier.edu](http://www.xavier.edu).

- Grades 4-6 Middle Childhood Endorsements are an option for persons holding a Middle School license. See Requirements for generalist endorsement under B.S. for Middle School Education.

- The following core courses fulfill Master of Education requirements but are not required to complete the middle childhood license requirements. They can be taken at any time within the six year limit. Students take the Comprehensive Exam related to the three core courses during the last semester of graduate course work.
  - EDFD 500
  - EDFD 505
  - EDFD 507
  - EDFD 508

**School of Education: Secondary Education**

The Secondary Education Program offers degree and teacher licensure programs approved by the Ohio Department of Education. All programs are accredited by the Council for the Accreditation of Educator Preparation.

At the undergraduate level the program offers a minor in Professional Education that combines with an appropriate Arts and Science Major leading to a teaching field and licensure.

At the graduate level the Master of Education degree in Secondary Education and the Master of Arts degree in English Education or History Education are awarded. Concentrations are available in these programs that include Secondary Education (with concentrations available in art, biology, business, chemistry, classics, computer science, English, French, German, Spanish, history, mathematics, music, political science, theology, and health/physical education) and the Master of Arts degree in English Education or History Education.

Teacher licensure programs are offered at the undergraduate and graduate levels leading to licensure in Integrated Language Arts, Integrated Mathematics, Integrated Social Studies, Music, Physics, Chemistry, Life Sciences, Life/Physics, Life/Chemistry, Visual Art, Modern Languages, Classical Languages, and Theatre. The Computer Technology endorsement is also available.

The pages that follow outline the basic requirements for licensure. Specific brochures and rules for program admission on these programs are available. Please note that courses required for licensure that are more than 10 years old my need to be repeated. Students who do not meet acceptable performance standards (including field experiences) may be excluded from specific programs.

**Summary of Steps for Admission and Continual Progress in Initial Licensure Programs**

**Step One:**

- Undergraduate student is accepted into the University based on high school grade point average and SAT or ACT scores.
- Graduate student is accepted based on undergraduate GPA and either GRE or MAT scores. See test waiver policy of the Graduate School.
- Student declares major or concentration.

**Step Two:**

- Completion of Step One.
- Student completes first year at Xavier with a grade point average of 2.700 or higher.
• Required grades in following courses:
  ◦ English 101 "B" or higher.
  ◦ Mathematics (as placement dictates) "C" or higher.
  ◦ Professional Education course (in licensure area) "B" or higher.
• Following items completed and filed with Education Office:
  ◦ Character form.
  ◦ "Application for Admission" form.
  ◦ "Reflection Question" form.
• Student is notified of acceptance into chosen program.

Step Three:

• Completion of Step Two.
• Required grades for continuation through major/minor:
  ◦ Overall grade point average of 2.700.
  ◦ GPA of 2.700 in required major/minor courses (see program handbook for detailed information).
  ◦ Candidate's portfolio reflects key assignments from educational foundations and curriculum courses.
  ◦ Evaluation forms completed by University personnel and field work cooperating teachers indicate progress in development of knowledge, performance skills, and dispositions for teaching (see program requirements).

Step Four:

• Completion of Step Three.
• Application for internship/student teaching is approved. All professional education and concentration courses must be completed for commencement of internship/student teaching semesters.
• Prior to internship, the Ohio Assessment for Educators (OAE) test must be passed and results on file in Licensure/Certification Office of Education Department (see handbooks or Xavier website for specific test titles and codes).

Step Five:

• Successful completion of internship/student teaching including required program documentation.
• Successful completion and submission of teacher program portfolio.
• Licensure application materials complete and on file in Licensure/Certification Office.
• Successful completion of any Ohio examination(s) that is/are required to be completed during the student teaching semester.

Bachelor of Science

Teaching Life Sciences and Chemistry, B.S.

Requirements for the Teaching Life Sciences and Chemistry Major
Undergraduate core curriculum requirements*:

See Undergraduate Core Curriculum

Mathematics:

- MATH 170 - Calculus I
- MATH 171 - Calculus II

Social science requirement completed within the professional courses.

Sciences requirement included within the major.

Major Requirements:

31 hours of education courses:

- EDMS 131 - Professional Education
- EDMS 332 - Meth/Curr/Asmt in Science
- EDMS 350 - Technology & Topics for Educat
- EDMS 411 - Clinical Experiences
- EDMS 470 - Student Teaching AYA
- EDRE 471 - Content Area Literacy
- EDFD 110 - Human Development & Learning
- EDSP 200 - Sp Ed: Identification& Issues
- EDSP 380 - Classroom Management

24 hours of chemistry courses:
• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
• CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• CHEM 242 - Organic Chemistry II
• CHEM 243 - Organic Chemistry II Lab
• CHEM 440 - Biochemistry

and five semester hours from:

• CHEM 220 - Principles of Physical Chem
• CHEM 221 - Analytical Chemistry
• CHEM 300 - Intro to Chem Research
• CHEM 340 - Instrumental Analysis
• CHEM 341 - Instrumental Analysis Lab
• CHEM 411 - Organic Synthesis & Analysis

24 hours of biology courses:

• BIOL 160 - General Biology I
• BIOL 161 - General Biology I Lab
• BIOL 162 - General Biology II
• BIOL 163 - General Biology II Lab
• BIOL 210 - General Botany
• BIOL 211 - General Botany Lab
• BIOL 230 - Genetics
• BIOL 250 - Ecology
• BIOL 251 - Ecology Lab

and four semester hours from:

• BIOL 410 - Human Physiology
• BIOL 411 - Human Physiology Lab
• BIOL 450 - General Microbiology
• BIOL 451 - General Microbiology Lab

10 hours of physics courses:

• PHYS 116 - Our Universe: The Earth
• PHYS 117 - Our Universe: The Earth Lab
• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I
• PHYS 162 - College Physics II
• PHYS 163 - Introductory Physics Lab II

Note(s):

• A 2.700 cumulative average must be attained; a 2.700 GPA must also be attained in education courses and in each area of licensure.
• This program meets the State of Ohio licensure requirements for Grades 7-12. Course listing is subject to change according to State of Ohio regulations. See your advisor for current course requirements.
• * The Undergraduate Core Curriculum must be fulfilled to meet State of Ohio regulations in general education for teacher licensure.

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• The E/RS Focus Elective is required, but one of the other core requirements may be selected to fulfill the requirement.
• Required: 2.700 overall GPA; 2.700 GPA in education courses; 2.700 GPA in sciences.
• This program meets the State of Ohio licensure requirements for Grades 7 through 12. Course listing is subject to change according to State of Ohio regulations. See your advisor for current course requirements.

Teaching Life Sciences and Physics, B.S.

Requirements for the Teaching Life Sciences and Physics Major

Undergraduate core curriculum requirements*:

See Undergraduate Core Curriculum

Mathematics:

• MATH 170 - Calculus I
• MATH 171 - Calculus II
Social sciences requirement completed within the professional courses.

Science requirement included within the major.

Major Requirements:

31 hours of education courses:

- EDMS 131 - Professional Education
- EDMS 332 - Meth/Curr/Asmt in Science
- EDMS 350 - Technology & Topics for Educat
- EDMS 411 - Clinical Experiences
- EDMS 470 - Student Teaching AYA
- EDRE 471 - Content Area Literacy
- EDFD 110 - Human Development & Learning
- EDSP 200 - Sp Ed: Identification& Issues
- EDSP 380 - Classroom Management

24 hours of biology courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 210 - General Botany
- BIOL 211 - General Botany Lab
- BIOL 230 - Genetics
- BIOL 250 - Ecology
- BIOL 251 - Ecology Lab

and four hours of biology electives:

- BIOL 410 - Human Physiology
• BIOL 411 - Human Physiology Lab
  
or
• BIOL 450 - General Microbiology
• BIOL 451 - General Microbiology Lab

7 hours of chemistry courses:

• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• CHEM 162 - General Chemistry II

27 hours of physics courses:

• PHYS 116 - Our Universe: The Earth
• PHYS 117 - Our Universe: The Earth Lab
• PHYS 161 - Introductory Physics Lab I
• PHYS 163 - Introductory Physics Lab II
• PHYS 170 - University Physics I
• PHYS 172 - University Physics II
• PHYS 242 - Circuit Analysis
• PHYS 243 - Circuit Analysis Lab
• PHYS 330 - Modern Physics I
• PHYS 331 - Modern Physics I Lab
• PHYS 350 - Theoretical Mechanics I
  ◦ and six hours of physics electives (selected).

Note(s):

• A 2.700 overall cumulative average must be attained; a 2.500 GPA must also be attained in education courses and in each area of licensure.
• The program meets the State of Ohio licensure requirements for Grades 7-12.
• * The university core curriculum must be fulfilled to meet State of Ohio regulations in general education for teacher licensure.

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• The E/RS Focus Elective is required, but one of the other core requirements may be selected to fulfill the requirement.
• Required: 2.500 overall GPA; 2.700 GPA in education courses; 2.700 GPA in sciences.
• This program meets the State of Ohio licensure requirements for Grades 7 through 12.
Teaching Life Sciences, B.S.

Requirements for the Teaching Life Sciences Major

Undergraduate core curriculum requirements*: 

See Undergraduate Core Curriculum

Mathematics:

- MATH 150 - Elements of Calculus I
- MATH 156 - General Statistics

Social sciences requirement completed within the professional courses.

Science requirement included within the major.

Major Requirements:

31 hours of education courses:

- EDMS 131 - Professional Education
- EDMS 332 - Meth/Curr/Asmt in Science
- EDMS 350 - Technology & Topics for Educat
- EDMS 411 - Clinical Experiences
32 hours of biology courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab
- BIOL 210 - General Botany
- BIOL 211 - General Botany Lab
- BIOL 230 - Genetics
- BIOL 250 - Ecology
- BIOL 251 - Ecology Lab
- BIOL 410 - Human Physiology
- BIOL 411 - Human Physiology Lab
- BIOL 450 - General Microbiology
- BIOL 451 - General Microbiology Lab

and four hours of biology electives:

- BIOL 222 - Immunology
- BIOL 240 - Evolution
- BIOL 244 - Animal Behavior
- BIOL 354 - Human and Comparative Anat
- BIOL 360 - Cell Biology
- BIOL 355 - Human and Comp Anat Lab
- BIOL 460 - Developmental Biology
- BIOL 461 - Developmental Biology Lab

8 hours of chemistry courses:

- CHEM 160 - General Chemistry I
- CHEM 161 - General Chemistry I Lab
- CHEM 162 - General Chemistry II
- CHEM 163 - General Chemistry II Lab

7 hours of physics courses:

- PHYS 116 - Our Universe: The Earth
• PHYS 117 - Our Universe: The Earth Lab
• PHYS 160 - College Physics I
• PHYS 161 - Introductory Physics Lab I

Note(s):

• A 2.500 overall cumulative average must be attained; a 2.700 GPA must also be attained in education courses and in each area of certification.
• The program meets the State of Ohio licensure requirements for Grades 7-12.
• * The University core curriculum must be fulfilled to meet State of Ohio regulations in general education for teacher licensure.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
• Required: 2.500 overall GPA; 2.700 GPA in education courses; 2.500 GPA in sciences.
• This program meets the State of Ohio licensure requirements for grades 7 through 12.
• * Diversity Curriculum Elective Requirement (6 credit hours) may be used to satisfy other elements of the core or the major. Courses must be taken from two different departments.
• ** 4 hours from BIOL 222, BIOL 240, BIOL 244, BIOL 354, BIOL 355, BIOL 360, BIOL 460, BIOL 461

Teaching Physical Sciences (Chemistry and Physics), B.S.

Requirements for the Teaching Physical Sciences Major

Undergraduate core curriculum requirements* :

See Undergraduate Core Curriculum

Mathematics:

• MATH 170 - Calculus I
• MATH 171 - Calculus II

Social sciences requirement completed within the professional courses.

Science requirement included within the major.

Major Requirements:

31 hours of education courses:

• EDMS 131 - Professional Education
• EDMS 332 - Meth/Curr/Asmt in Science
• EDMS 350 - Technology & Topics for Educat
• EDMS 411 - Clinical Experiences
• EDMS 470 - Student Teaching AYA
• EDRE 471 - Content Area Literacy
• EDFD 110 - Human Development & Learning
• EDSP 200 - Sp Ed: Identification& Issues
• EDSP 380 - Classroom Management

24 hours of chemistry courses:

• CHEM 160 - General Chemistry I
• CHEM 161 - General Chemistry I Lab
• CHEM 162 - General Chemistry II
• CHEM 163 - General Chemistry II Lab
• CHEM 240 - Organic Chemistry I
• CHEM 241 - Organic Chemistry I Lab
• CHEM 242 - Organic Chemistry II
• CHEM 243 - Organic Chemistry II Lab
• CHEM 320 - Physical Chemistry I
  ° and five elective chemistry hours (see advisor).
9 hours of biology courses:

- BIOL 160 - General Biology I
- BIOL 161 - General Biology I Lab
- BIOL 162 - General Biology II
- BIOL 163 - General Biology II Lab

24 hours of physics courses:

- PHYS 161 - Introductory Physics Lab I
- PHYS 163 - Introductory Physics Lab II
- PHYS 170 - University Physics I
- PHYS 172 - University Physics II
- PHYS 242 - Circuit Analysis
- PHYS 330 - Modern Physics I
- PHYS 331 - Modern Physics I Lab
- PHYS 350 - Theoretical Mechanics I
  ◦ and six selected physics electives (see advisor).

In addition, the following are required:

- PHYS 116 - Our Universe: The Earth
- PHYS 117 - Our Universe: The Earth Lab

Note(s):

- A 2.500 overall cumulative average must be attained; a 2.700 GPA must also be attained in education courses and in each area of licensure.
- The program meets the State of Ohio licensure requirements for Grades 7-12.
- * The University core curriculum must be fulfilled to meet State of Ohio regulations in general education for teacher licensure.

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- The E/RS Focus Elective is required, but one of the other core requirements may be selected to fulfill the requirement.
- Required: 2.500 overall GPA; 2.700 GPA in education courses; 2.700 GPA in sciences.
- This program meets the State of Ohio licensure requirements for Grades 7 through 12.
Master of Arts

English Education, M.A.

Degree Requirements

30 total credit hours, as follows:

M.A. Core Requirements

9 credit hours:
- EDFD 500 - History/Philosophy of Am Educ
- EDMS 506 - Statistics for Education Research
- EDMS 507 - Planning for Educational Research
- EDMS 508 - Research Paper

Remaining Hours

The remaining 21 hours consist of 18 hours taken from graduate level courses in English and 3 semester hours of electives that may be taken from any graduate level course in either Education or cognate concentration.

History Education, M.A.

Degree Requirements

30 total credit hours, as follows:

M.A. Core Requirements

9 credit hours:
- EDFD 500 - History/Philosophy of Am Educ
- EDMS 506 - Statistics for Education Research
Remaining Hours

The remaining 21 hours consist of 18 hours taken from graduate level courses in History and 3 semester hours of electives that may be taken from any graduate level course in either Education or cognate concentration.

Master of Education

Secondary Education, M.Ed.

Xavier University's secondary/K-12 teacher education program provides a strong foundation in liberal arts education and emphasizes the importance of individual, educational growth, and professional development. A student is prepared to become competent professional secondary/K-12 educators through thorough classroom instruction and in-depth experience with practicing secondary/K-12 teachers.

A student may pursue a Master of Education degree alone, or a Master of Education degree with licensure or only licensure alone.

The M.Ed. program is intended for those who wish to obtain an advanced degree with general emphasis in course work connected to secondary education. Although a degree program can be arranged to support teacher licensure, this degree does not provide all the preparation needed to achieve teacher licensure. Please contact the Department of Secondary and Special Education for guidance.

Requirements for the M.Ed. in Secondary Education

30 total credit hours, as follows

MEd Core Requirements (9 credit hours)

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

Remaining 21 hours

consist of 12 hours taken from graduate level professional education or subject content courses (e.g. art, biology, business, chemistry, classics, computer science, English, French, German, Spanish, history, math, music, political science or theology). The remaining 9 semester hours may be taken from any graduate level course, as elective courses. The M.Ed. candidate is free to select courses that advance teaching in the secondary school.
Comprehensive Exam Requirement

Finally, a student’s Master Of Education degree will be awarded only to candidates who have passed an extensive written examination covering the four general survey courses. Should the student fail the comprehensive exam, it may be repeated only once.

Course Sequence for Graduate Student Licensure

- EDFD 503 - Advanced Educational Psych
- EDSP 500 - Sp Ed: Identification & Issue
- EDRE 671 - Content Area Literacy
- EDMS 550 - Technology & Topics for Teacher
  - Methods / Curriculum for content area (3-6)
- EDSP 580 - Classroom Management
- EDMS 100 - Field Experience *
- EDMS 411 - Clinical Experiences *
- EDMS 470 - Student Teaching AYA *

Note(s):

- *Taken for undergraduate credit only.
- Student must complete all coursework, field/clinical hours and pass all Praxis tests to apply for license.
- Student must complete 12 hours MasterCore requirements; 18 hours from Special Education coursework and pass
  Comprehensive exam for completion of degree.

Minors

Professional Education Minor

In adolescent to young adult or secondary (grades 7-12) and pre-K-12 multi-age programs, students have a major in their area reaching field and complete licensure requirements in professional education courses. Exceptions to this are the Music and Theater pre-K-12 programs where students major in Music Education and Theater Education, respectively.

A Professional Education minor is normally declared by an undergraduate who intends to achieve state licensure to teach at the pre-K-12 or 7-12 grade levels. The student must meet with a secondary education advisor for licensure requirements. The student retains his/her major area advisor for guidance in the major, University core and for all other purposes.

This minor requires the completion of 31 to 36 semester hours of education coursework, including internship/student teaching, and a minimum GPA of 2.700 must be achieved. State licensure also requires the completion of prescribed courses in the teaching subject area, as well as all required state-mandated tests for teacher licensure. In order to complete the licensure sequence at the end of his/her bachelor's program, the undergraduate should begin the licensure sequence no later than the first semester of the sophomore year. Contact the Department of Secondary and Special Education for further information (513 745-3485).
All areas of concentration must take these foundation courses:

16 hours required from:

- EDFD 110 - Human Development & Learning
- EDMS 131 - Professional Education
- EDMS 411 - Clinical Experiences
- EDRE 471 - Content Area Literacy
- EDSP 200 - Sp Ed: Identification & Issues
- EDSP 380 - Classroom Management

Concentration areas:

15-20 hours required (complete 1 of the following 4 options)

1. Secondary Ed (7-12):

15 hours required, take one course from:

- EDMS 325 - Meth/Curr/Asmt in Foreign Lang
- EDMS 330 - Meth/Curr/Asmt in Mathematics
- EDMS 331 - Meth/Curr/Asmt in English Lang
- EDMS 332 - Meth/Curr/Asmt in Science
- EDMS 333 - Meth/Curr/Asmt in Social St
- EDMS 335 - Meth/Curr/Asmt in Ancient Lang

and take

- EDMS 350 - Technology & Topics for Educat
- EDMS 470 - Student Teaching AYA
2. Languages (pre-K - 12):

15 hours required, take:

- EDMS 325 - Meth/Curr/Asmt in Foreign Lang or
- EDMS 335 - Meth/Curr/Asmt in Ancient Lang

- EDMS 350 - Technology & Topics for Educat
- EDMS 471 - Student Teaching: Multi-Age

3. Music (pre-K - 12):

18-20 hours required, take:

- MUSC 221 - Elementary Methods
- MUSC 320 - Instrumental Methods
- MUSC 321 - Choral Methods
- EDMS 350 - Technology & Topics for Educat
- EDMS 471 - Student Teaching: Multi-Age

4. Theater (pre K-12):

- THTR 301: Teaching Methods Elementary
- THTR 302: Teaching Methods Secondary

5. Visual Art (pre-K - 12):

18 hours required, take:

- ARTS 221 - Early & Middle Childhood Art
- ARTS 223 - Secondary School Art
- EDMS 350 - Technology & Topics for Educat
- EDMS 471 - Student Teaching: Multi-Age

Note(s):

- Caution: Please consult with the Director of Secondary Education for exact program details and specific State of Ohio teaching licensure requirements.
Endorsement

Computer Endorsement

Xavier University offers a Computer Endorsement which consists of 18 semester hours which may be added to an existing teaching license. Knowledge gained in each 100% paperless course can be immediately applied professionally. Tools used are cloud-based and free.

Required courses are as follows

- EDMS 570: Bring Your Own Device: 3 Semester Hours
- EDMS 572: Cloud Computing: 3 Semester Hours
- EDMS 574: Current Topics in Technology & Education: 3 Semester Hours
- EDMS 576: Gamification, Virtual Worlds & Alternate Reality in the Classroom: 3 Semester Hours
- EDMS 578: Instruction & Technology: Rigor, Relevance, Relationships & Accessibility: 3 Semester Hours
- EDMS 580 Online and Hybrid instruction and learning: 3 Semester Hours

License

Professional Education Licensure

Teacher Licensure

The School of Education offers teacher licensure programs, approved by the State of Ohio Board of Regents, for early childhood, middle childhood, secondary education, which includes multi-age, adolescent to young adult, intervention specialist (mild/moderate, moderate/intensive, gifted/talented [graduate program only], and early childhood intervention specialist) teaching, as well as American Montessori Society certification in Montessori preprimary and primary teaching. In addition, students can acquire a license at the graduate level for all secondary licensure areas, reading, counseling, administration and special education.

The following pages outline the requirements for these licenses. Specific brochures on these programs are available and give suggested sequences of courses and rules for admission to the program. Please note that courses required for licensure which are more than 10 years old may need to be repeated. In adolescent to young adult (grades 7 - 12) and pre-K - 12 teaching, undergraduate students take a major in their area field and complete licensure requirements in professional education courses. Adolescent to young adults (grades 7 - 12) teaching licenses can be attained in the following subject fields: Foreign Language (French, German, Greek, Latin or Spanish), Music, Theater and Visual Arts. Intervention Specialist for grades K - 12 are available in mild/moderate educational needs and moderate/intensive educational needs. These are undergraduate or graduate programs. A licensure program (K - 12) at the graduate level only is also offered. Intervention Specialist (Early Childhood) licensure can be fulfilled at the undergraduate and graduate levels. Endorsements (Pre-Kindergarten Special Needs, Transition To Work, Gifted/Talented) may be added to an existing specific license on the graduate level. Need to consult Special Education Programs for specific details.

Teacher Education Program

Steps for Admission and Continual Progress for Licensure in the Following Programs:

- Early Childhood
- Early Childhood/Montessori
- Middle Childhood
• Professional Education
• Special Education
• School Nurse Licensure

Step One:

• Student is accepted into the University based on high school grade point average and SAT or ACT scores.
• Nontraditional student with no college admission scores will substitute PRAXIS 1 as entry test in order to declare major or minor.
• Potential candidate declares major.

Step Two:

• Potential candidate completes first year at Xavier with a grade point average of 2.500 or higher.
• Required grades in following courses:
  ◦ ENGL 101 "B" or higher.
  ◦ Mathematics (as placement dictates) "C" or higher.
  ◦ Introductory Education course (program dictates) "B" or higher.
• Following items completed and filed with Education Office:
  ◦ Notarized "Statement of Moral Character".
  ◦ "Application for Admission" form.
  ◦ "Reflection Question" form.
• Student is notified of acceptance into chosen program.

Step Three:

• Required grades for continuation through major/minor: detailed information.
  ◦ Grade of "C" or higher in second mathematics course.
  ◦ Overall grade point average of 2.500
  ◦ Grade of "B" or higher in required curriculum courses
  ◦ Candidate's portfolio reflects key assignments from educational foundations and curriculum courses.
  ◦ Evaluation forms completed by University personnel and field work cooperating teachers indicate progress in development of knowledge, performance skills, and dispositions for teaching.

Step Four:

• Application for internship/student teaching is approved. All foundation, methods, block courses, and majority of subject concentration courses must be completed for commencement of internship semester/s.
• Prior to internship, one of two/three or more required Ohio Assessment for Educators must be passed and results on file in Certification Office of Education Department (see handbooks or Education Office for specific test titles and codes). For Foreign Language, students must pass all applicable tests of the ACTFL test series with a rating of 'Intermediate-High' score.

Step Five:

• Successful completion of internship/student teaching in Early, Middle, Professional or Special Education:
  ◦ Record of on-site visits by University supervisor.
  ◦ Midterm and final evaluations from cooperating teacher and field supervisor.
Secondary Education Licensure

Teacher Licensure

The School of Education offers teacher licensure programs, approved by the State of Ohio Board of Regents, for early childhood, middle childhood, secondary education, which includes multi-age, adolescent to young adult, intervention specialist (mild/moderate, moderate/intensive, gifted/talented [graduate program only], and early childhood intervention specialist) teaching, as well as American Montessori Society certification in Montessori preprimary and primary teaching. In addition, students can acquire a license at the graduate level for all secondary licensure areas, reading, counseling, administration and special education.

The following pages outline the requirements for these licenses. Specific brochures on these programs are available and give suggested sequences of courses and rules for admission to the program. Please note that courses required for licensure which are more than 10 years old may need to be repeated. In adolescent to young adult (grades 7 - 12) and pre-K - 12 teaching, undergraduate students take a major in their area field and complete licensure requirements in professional education courses. Adolescent to young adults (grades 7 - 12) teaching licenses can be attained in the following subject fields: Integrated Language Arts, Integrated Mathematics, Integrated Social Sciences, Life Sciences, Life/Chemistry, Life/Physics and Physical Sciences (Chemistry/Physics). Multi-age (grades Pre-K - 12) teaching licenses can be attained in the following subject fields: Foreign Language (French, German, Greek, Latin or Spanish), Music, Theater and Visual Arts. Intervention Specialist for grades K - 12 are available in mild/moderate educational needs and moderate/intensive educational needs. These are undergraduate or graduate programs. A licensure program (K - 12) at the graduate level only is also offered. Intervention Specialist (Early Childhood) licensure can be fulfilled at the undergraduate and graduate levels. Endorsements (Pre-Kindergarten Special Needs, Transition To Work, Gifted/Talented) may be added to an existing specific license on the graduate level. Need to consult Special Education Programs for specific details.

Teacher Education Program

Steps for Admission and Continual Progress for Licensure in the Following Programs:

- Early Childhood
- Early Childhood/Montessori
- Middle Childhood
- Professional Education
- Special Education
- School Nurse Licensure

Step One:

- Student is accepted into the University based on high school grade point average and SAT or ACT scores.
- Nontraditional student with no college admission scores will substitute PRAXIS 1 as entry test in order to declare major or minor.
- Potential candidate declares major.
Step Two:

  - ENGL 101 "B" or higher.
  - Mathematics (as placement dictates) "C" or higher.
  - Introductory Education course (program dictates) "B" or higher.
- Following items completed and filed with Education Office:
  - Notarized “Statement of Moral Character”.
  - “Application for Admission” form.
  - “Reflection Question” form.
- Student is notified of acceptance into chosen program.

Step Three:

- Required grades for continuation through major/minor: detailed information.
  - Grade of "C" or higher in second mathematics course.
  - Overall grade point average of 2.500
  - Grade of "B" or higher in required curriculum courses
  - Candidate's portfolio reflects key assignments from educational foundations and curriculum courses.
  - Evaluation forms completed by University personnel and field work cooperating teachers indicate progress in development of knowledge, performance skills, and dispositions for teaching.

Step Four:

- Application for internship/student teaching is approved. All foundation, methods, block courses, and majority of subject concentration courses must be completed for commencement of internship semester's.
- Prior to internship, one of two/three or more required Ohio Assessment for Educators must be passed and results on file in Certification Office of Education Department (see handbooks or Education Office for specific test titles and codes). For Foreign Language, students must pass all applicable tests of the ACTFL test series with a rating of 'Intermediate-High' score.

Step Five:

- Successful completion of internship/student teaching in Early, Middle, Professional or Special Education:
  - Record of on-site visits by University supervisor.
  - Midterm and final evaluations from cooperating teacher and field supervisor.
  - Two conferences with University supervisor and cooperating teacher.
- Successful completion of exit portfolio.
- Ohio Assessment for Educators and ACTFL, if applicable, results on file in Certification Office.
- Licensure application materials complete and on file in Certification Office.

School of Education: Special Education

The Special Education programs offers degrees and teacher licensure programs approved by the Ohio Department of Education. All programs are accredited by the Teacher Education Accreditation Council.

At the undergraduate level the department awards the Bachelor of Science degree in Special Education.
At the graduate level the Master of Education degree in Special Education and Master of Science in Special Education are awarded. Concentrations are available in these programs that include Mild/Moderate Intervention Specialist, Moderate/Intensive Intervention Specialist, Early Childhood Intervention Specialist, Gifted/Talented Intervention Specialist and endorsements in Early Education of the Handicapped, Gifted/Talented, Transition to Work and two minors in Special Education which include a teacher track and a disability track.

Teacher licensure programs are offered at the undergraduate and graduate levels leading to licensure in Mild/Moderate Intervention Specialist, Moderate/Intensive Intervention Specialist, Early Childhood Intervention Specialist, Gifted/Talented Intervention Specialist. The pages that follow outline the basic requirements for licensure. Specific brochures and rules for program admission on these programs are available. Please note that courses required for licensure that are more than 10 years old my need to be repeated. Students who do not meet acceptable performance standards (including field experiences) may be excluded from specific programs.

**Summary of Steps for Admission and Continual Progress in Initial Licensure Programs**

**Step One:**

- Undergraduate student is accepted into the University based on high school grade point average and SAT or ACT scores.
- Graduate student is accepted base on undergraduate GPA and either GRE or MAT scores.
- Student declares major or concentration.
- If you are a licensed teacher, your GRE/MAT testing is waived.

**Step Two:**

- Completion of Step One.
- Student completes first year at Xavier with a grade point average of 2.700 or higher.
- Required grades in following courses:
  - English 101 "B" or higher.
  - Mathematics (as placement dictates) "C" or higher.
  - Professional Education course (in licensure area) "B-" or higher.
- Following items completed and filed with Education Office:
  - "Statement of Moral Character".
  - "Application for Admission" form.
  - "Reflection Question" form.
- Student is notified of acceptance into chosen program.

**Step Three:**

- Completion of Step Two.
- Required grades for continuation through major/minor:
  - Overall grade point average of 2.700.
  - GPA of 2.700 in required major/minor courses (see program handbook for detailed information).
  - Candidate's portfolio reflects key assignments from educational foundations and curriculum courses.
  - Evaluation forms completed by University personnel and field work cooperating teachers indicate progress in development of knowledge, performance skills, and dispositions for teaching (see program requirements).
  - Student maintains FBI/BCI fingerprint checks with approval to work with children.

**Step Four:**

- Completion of Step Three.
Application for internship/student teaching is approved. All professional education and concentration courses must be completed for commencement of internship/student teaching semesters.

Prior to internship, the Ohio Assessment for Educators (OAE) test must be passed and results on file in Licensure/Office of Education Department (see handbooks or Xavier website for specific test titles and codes).

**Step Five:**

- Successful completion of internship/student teaching including required program documentation.
- Successful completion and submission of teacher program portfolio.
- Licensure application materials complete and on file in Licensure Office.
- Successful completion of any Ohio examination(s) that is/are required by the program or license sought by the student.

**Bachelor of Science**

**Special Education with a Concentration in Early Childhood Intervention Specialist and Montessori Education with American Montessori Society Early Childhood Credential (Double Major), B.S.**

The Special Education undergraduate teacher preparation programs are theory based with continual field application experiences. Students complete the degree with a foundation in liberal arts and in child-centered learning/development intervention competencies.

Students who successfully complete the dual major program will receive a BS with majors in Special Education and Montessori Education. They will receive an American Montessori Society Early Childhood credential, an OH p-3 license, and an OH ECIS-Early Childhood Intervention Specialist license.

**Major Requirements:**

**Undergraduate core curriculum, requirements:**

48 Undergraduate Core Curriculum credit hours, include:

- Diversity Curriculum requirement: partially fulfilled in the major with EDEL 260 Cultural Diversity In Educ
- English Composition/Rhetoric grade must be a "B" or above.
- Mathematics grade must be a "C" or above.
- Literature: fulfilled in the major with EDCH 324 Children's Literacy for Early Childhood
- CORE 100 - First Year Seminar
- CORE 101 - First Year Co-curricular program
- CORE 499
- Science: must be met with physical (CHEM or PHYS 114/PHYS 115) and biological (BIOL 130/BIOL 131) sciences.
- Social Sciences: included in the major requirements.
- The ER/S Focus Elective that meets another core requirement should be chosen.
Specific education courses

39 hours of education courses from:

- EDFD 110 - Human Development & Learning
- EDEL 100 - Introduction To Education
- EDEL 251 - Instructional Technology
- EDEL 260 - Cultural Diversity In Educ
- EDEC 210 - Early Childhood Development
- EDEC 230 - Play in Early Childhood Educ
- EDME 350 - Methods of Observation of Child
- EDME 351 - Montessori Ed: Phil Approach
- EDME 354 - Mont Language Arts& Read Meth
- EDME 359 - Community & Advocacy in Educ
- EDME 376 - Phonics Skills for Early Chldh
- EDRE 312 - Reading Methods for Early Chld
- EDSP 205 - Foundations in ECSPED

Required 27 hours of EDSP course work

- EDSP 201 - Intro to Emotionally Dist Chld
- EDSP 203 - Sp Ed: Comm & Collaboration
- EDSP 364 - DAP Instructional Materials
- EDSP 367 - Sp Ed: Behav & Soc Skills Mgmt
- EDSP 372 - Communication Strategies & Tec
- EDSP 376 - M/I Support Services
- EDSP 391 - ECSPED Learning Theories
- EDSP 393 - ECSPED: Curriculum Practices
- EDRE 478 - Diagnosis/Correct of Read Disa

24 hours of Ohio License requirements, as follows:

Early Childhood Credential (ages 2 1/2 to 6)

- EDME 364 - Early Childhood/Mont Meth
- EDME 366 - Mont Curr Des&Te Strat I:Ea Ch
- EDME 367 - Mont Curr Des&Te Strat II:Ea C
- EDME 377 - Early Childhood Math & Science
- EDME 473 - Mont Early Childhood Pract I
- EDME 474 - Mont Early Chilhood Pract II

Schedule

This block serves as a guideline for progress toward a degree. See your academic advisor.
Freshman Year

First Semester

- ENGL 101 - English Composition
- EDEL 110 - Human Development and Learning
- Foreign Language I Elective
- EDEL 260 Cultural Diversity
- BIOL 130 - Intro to Life Sciences
- BIOL 131 - Intro to Life Sciences Lab
- THEO 111 - Theological Foundations or CORE 100 - First year seminar
- CORE 101 - First Year Co-curricular

Second Semester

- EDEL 100 - Introduction To Education
- Foreign Language II Elective
- EDSP 201 Introduction to Emotionally Disturbed Child
- PHIL 100 Introduction to Philosophy
- PHYS 114 - Our Universe: Physical Science
- PHYS 115 - Our Universe: Physical Sci Lab
- THEO 111 - Theological Foundations or CORE 100 - First year seminar

Sophomore Year

First Semester

- EDEC 210 - Early Childhood Development
- EDME 351 - Montessori Ed: Phil Approach
- EDME 364 - Early Childhood/Mont Meth
- MATH 201 - Foundations of Arith. -ECED
- EDSP 205 Foundations in Early Childhood Special Education
- EDME 376 Phonics Skills for Early Childhood

Second Semester

- EDSP 372 Comm Strategies & Technology
- EDEL 251 - Instructional Technology
- EDME 377 EC Math & Science
- EDSP 376 Moderate/Intense Support Services
- EDSP 364 DAP Instruction Materials
- MATH 202 - Geometry & Measurement -ECED
Junior Year

First Semester

- EDME 354 - Mont Language Arts & Read Meth
- Historical Perspectives
- PHIL 200 Philosophical Perspectives
- EDSP 391 ECSPED Learning Theories
- EDSP 393 ECIS Curriculum Practices
- EDME 350 Methods of Observation

Second Semester

- EDCH 324 - Children's Lit for Early Child
- EDEC 230 - Play in Early Childhood Educ
- Theological Perspectives (3)
- EDSP 367 SPED Behavior & Social Skills Management
- EDRE 312- Reading Methods for Early Childhood

Senior Year

First Semester

- E/RS Focus Elective
- EDSP 203 SPED Comm & Collaboration
- ENGL 205 Lit and the Moral Imagination
- EDRE 478 Reading Diagnosis and Assessment
- EDME 366 - Mont Curr Des&Te Strat I:Ea Ch
- EDME 473 - Mont Early Childhood Pract I

Second Semester

- EDME 367 - Mont Curr Des&Te Strat II:Ea C
- Elective
- EDME 474 - Mont Early Chilhood Pract II
- EDME 359 Community and Advocacy in Education
- Creative Perspectives
- CORE 499 - Reflection on XU Core

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
- E/RS Focus Elective requirement may be used to satisfy another element of the Core or the major.
• A minimum of 140 credit hours is typically required for the degree, with 120 hours as absolute minimum.
• An overall cumulative GPA of 2.500 is required for graduation.
• The Diversity Curriculum Electives may be used to satisfy other elements of the core or major.
• Ohio Assessment for Educators required for licensure 001 PTL; 013 EC; 090 Reading

Special Education, B.S. with a Concentration In Early Childhood Intervention Specialist

Bachelor of Science Degree in Special Education

The Special Education undergraduate teacher preparation programs are theory based with continual field application experiences. Students complete the degree with a foundation in liberal arts and in child centered learning/development intervention competencies.

Requirements for the Special Education Major

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum , including

• English composition grade must be "B-" or better.
• Humanities area fulfilled per the major, with EDCH 324.
• Mathematics grades must be "C-" or better.
• Science requirements must be met with physical (PHYS) and biological (BIOL) sciences:
• Social Sciences requirements is included in the major (licensure) requirements.

Note(s):

• A 2.700 cumulative average must be attained in the core curriculum for recommendation to teacher licensure program.

Major Requirements:

38 credit hours, as follows

Specific education courses, take

• EDFD 110 - Human Development & Learning
• EDEL 260 - Cultural Diversity In Educ
• EDME 376 - Phonics Skills for Early Chldh or
• EDME 362 - Phonics and Orton-Gillingham or
• EDRE 269 - Phonics & Foundation of Litera
• EDME 377 - Early Childhood Math& Science
• EDME 354 - Mont Language Arts & Read Meth or
• EDRE 312 - Reading Methods for Early Child
• EDMS 350 - Technology & Topics for Educat
• EDRE 471 - Content Area Literacy
• EDSP 200 - Sp Ed: Identification & Issues
• EDSP 201 - Intro to Emotionally Dist Child
• EDSP 203 - Sp Ed: Comm & Collaboration
• EDRE 478 - Diagnosis/Correct of Read Disa
• EDSP 205 - Foundations in ECSPED
• EDSP 380 - Classroom Management
• EDSP 401 - Teaching Seminar

Note(s):

• Grade of "B-" in curriculum courses.

Concentration requirements:

34-40 additional credit hours to fulfill a concentration area.

Early Childhood Intervention Specialist

(40 hours required) - take

• EDSP 364 - DAP Instructional Materials
• EDSP 365 - Curr Practices: Mild Disabilities
• EDSP 372 - Communication Strategies & Tec
• EDSP 376 - M/I Support Services
• EDSP 381 - Play & Its Role in Dev & Learn

or

• EDEC 230 - Play in Early Childhood Educ
• EDSP 391 - ECSPED Learning Theories
• EDSP 392 - ECSPED: Observation & Asmt
• EDSP 393 - ECSPED: Curriculum Practices
• EDSP 403 - ECSPED Student Teaching
• EDCH 324 - Children’s Lit for Early Child

Note(s):

• A 2.750 cumulative average must be attained in all the education courses for recommendation for teacher licensure.
Scheduling Notes:

- The E/RS Focus & Diversity Focus Electives are required, must receive approval for this course requirement from academic advisor.
- A minimum of 132 credit hours is typically required for the degree, with 120 hours as the absolute minimum.
- The sequence of courses in the program is subject to change and must be approved by academic advisor.
- Hours in parenthesis are field hours.
- OAE Tests: 001, 013, 039, 090.
- TPA (Teacher Performance Assessment) during Student Teaching.

Special Education, B.S. with a Concentration in Mild/Moderate Intervention Specialist

Bachelor of Science Degree in Special Education

The Special Education undergraduate teacher preparation programs are theory based with continual field application experiences. Students complete the degree with a foundation in liberal arts and in child centered learning/development intervention competencies.

Requirements for the Special Education Major

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum, including

- English composition grade must be "B-" or better.
- Humanities area fulfilled per the major, with EDCH 324.
- Mathematics grades must be "C-" or better.
- Science requirements must be met with physical (PHYS) and biological (BIOL) sciences:
- Social Sciences requirements is included in the major (licensure) requirements.

Note(s):

- A 2.700 cumulative average must be attained in the core curriculum for recommendation to teacher licensure program.

Major Requirements:

38 credit hours, as follows
Specific education courses, take

- EDFD 110 - Human Development & Learning
- EDEL 260 - Cultural Diversity In Educ
- EDME 376 - Phonics Skills for Early Chldh or
- EDME 362 - Phonics and Orton-Gillingham or
- EDRE 269 - Phonics & Foundation of Litera
- EDME 377 - Early Childhood Math & Science
- EDME 354 - Mont Language Arts & Read Meth or
- EDRE 312 - Reading Methods for Early Child
- EDMS 350 - Technology & Topics for Educat
- EDRE 471 - Content Area Literacy
- EDSP 200 - Sp Ed: Identification & Issues
- EDSP 201 - Intro to Emotionally Dist Chld
- EDSP 203 - Sp Ed: Comm & Collaboration
- EDRE 478 - Diagnosis/Correct of Read Disa
- EDSP 205 - Foundations in ECSPED
- EDSP 380 - Classroom Management
- EDSP 401 - Teaching Seminar

Note(s):

- Grade of "B-" in curriculum courses.

Concentration requirements:

34-40 additional credit hours to fulfill a concentration area.

Mild/Moderate Intervention Specialist

- EDSP 360 - M/M Characteristics & Strategi
- EDSP 362 - M/M Support Services
- EDSP 363 - Sp Ed: Assessment & Evaluation
- EDSP 364 - DAP Instructional Materials
- EDSP 365 - Curr Practices: Mild Disabiliti
- EDSP 367 - Sp Ed: Behav & Soc Skills Mgmt
- EDSP 372 - Communication Strategies & Tec
- EDSP 374 - Curr Prac: Moderate Disabilitie
- EDSP 402 - M/I Student Teaching

and 3 hours of a literature course

- EDCH 324 - Children's Lit for Early Child
Scheduling Notes:

- The E/RS Focus & Diversity Focus Electives are required, must receive approval for this course requirement from academic advisor.
- A minimum of 126 credit hours is typically required for the degree, with 120 hours as the absolute minimum.
- The sequence of courses in the program is subject to change and must be approved by academic advisor.
- Hours in parenthesis are field hours.
- OAE Tests: 004, 043, 038, 039, 030 (recommended)
- Teacher Performance Assessment (during Student Teaching)

Special Education, B.S. with a Concentration in Moderate/Intensive Intervention Specialist

Bachelor of Science Degree in Special Education

The Special Education undergraduate teacher preparation programs are theory based with continual field application experiences. Students complete the degree with a foundation in liberal arts and in child centered learning/development intervention competencies.

Requirements for the Special Education Major

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum, including

- English composition grade must be "B-" or better.
- Humanities area fulfilled per the major, with EDCH 324.
- Mathematics grades must be "C-" or better.
- Science requirements must be met with physical (PHYS) and biological (BIOL) sciences:
- Social Sciences requirements is included in the major (licensure) requirements.

Note(s):

- A 2.700 cumulative average must be attained in the core curriculum for recommendation to teacher licensure program.

Major Requirements:

38 credit hours, as follows
Specific education courses, take

- EDFD 110 - Human Development & Learning
- EDEL 260 - Cultural Diversity In Educ
- EDME 376 - Phonics Skills for Early Chldh or
- EDME 362 - Phonics and Orton-Gillingham or
- EDRE 269 - Phonics & Foundation of Litera
- EDME 377 - Early Childhood Math & Science
- EDME 354 - Mont Language Arts & Read Meth or
- EDRE 312 - Reading Methods for Early Child
- EDMS 350 - Technology & Topics for Educat
- EDRE 471 - Content Area Literacy
- EDSP 200 - Sp Ed: Identification & Issues
- EDSP 201 - Intro to Emotionally Dist Chld
- EDSP 203 - Sp Ed: Comm & Collaboration
- EDRE 478 - Diagnosis/Correct of Read Disa
- EDSP 205 - Foundations in ECSPED
- EDSP 380 - Classroom Management
- EDSP 401 - Teaching Seminar

Note(s):

- Grade of "B-" in curriculum courses.

Concentration requirements:

34-40 additional credit hours to fulfill a concentration area.

Moderate/Intensive Intervention Specialist

(34 hours required) - take

- EDSP 367 - Sp Ed: Behav & Soc Skills Mgmt
- EDSP 370 - M/I Characteristics & Strateg
- EDSP 372 - Communication Strategies & Tec
- EDSP 373 - M/I Assessment & Evaluation
- EDSP 376 - M/I Support Services
- EDSP 389 - Prog Prac: Severe/Intensive Dis
- EDSP 402 - M/I Student Teaching

and 3 hours of a literature course

- EDCH 324 - Children's Lit for Early Child
Scheduling Notes:

• The E/RS Focus & Diversity Focus Electives are required, must receive approval for this course requirement from academic advisor.
• A minimum of 126 credit hours is typically required for the degree, with 120 hours as the absolute minimum.
• The sequence of courses in the program is subject to change and must be approved by academic advisor.
• Hours in parenthesis are field hours.
• OAE Tests: 004, 043, 038, 039, 030 (recommended)

Master of Education

Special Education, M.Ed.

Master of Education Degree with a concentration in Special Education

The M.Ed. program in Special Education is intended for those who wish to obtain an advanced degree with general emphasis in course work connected to special education. Although a degree program can be arranged to support teacher licensure, this degree does not provide all the preparation needed to achieve teacher licensure. Please contact the Special Education Program for guidance.

Requirement for the M.Ed. with a concentration in Special Education

The Master Degree in Education that has a concentration in Special Education allows a student to advance their professional development with a focus on specific areas of special education. With the assistance of a special education advisor, a student will plan a 30 hour degree program that consists of the 9 hour Education M.Ed. core and 21 hour concentration of special education courses. These courses will be planned from special education licensure areas, special education independent study and research areas, and/or limited courses that are required for licensure in the area of special education (for example: required reading courses for licensure). These courses could meet the requirements for the State of Ohio standards for licensure as an Intervention Specialist.

M.Ed. Special Education 9 hour core requirements

• EDFD 500 - History/Philosophy of Am Educ
• EDFD 505 - Org of Ed Systems in U.S.
• EDFD 507 - Educational Research
• EDFD 508 - Educational Research Paper

M.Ed. 21 hour concentration in Special Education

Students with an advisor from the Special Education Programs will plan an 21 hour concentration of special education courses for the Master in Education Degree. These courses may come from the following special education licensure programs.
Licensure/Endorsement Areas in Special Education

- Intervention Specialist License: Mild/Moderate, Moderate/Intensive, Early Childhood, Gifted/Talented
- Endorsements: Pre-Kindergarten Special Needs, Gifted Talented, Transition to Work

Comprehensive Exam Requirement

Finally, a student's Master of Education degree will be awarded only to candidates who have passed an extensive comprehensive examination of the education core and concentration courses. Students may schedule this exam during their last semester of course work. Should the student fail the comprehensive exam, it may be repeated only once.

Graduate Level Licensure Areas for Special Education

The Special Education graduate teacher preparation programs are theory based with continual field application experiences. Students complete the licensure program with competencies in student centered learning/development interventions. Students must possess a bachelor's degree and must meet the Special Education Program requirements for admission. Student must consult with the Program Director of Special Education for program advising. Each licensure and endorsement area has its own unique requirements as indicated by the State of Ohio guidelines. It is recommended that those interested in a licensure or endorsement to contact the Special Education Programs for licensure and endorsement advising.

Notes:

The University is not obliged to recommend licensure of any type on the basis of the completion of a Master of Education degree or specific course work in education. Students must also meet leadership, communication, and character requirements and pass the required Ohio Assessment for Education and Teacher Performance Assessment tests of the State of Ohio Department of Higher Education for each specific license.

Master of Science

Special Education, M.S.

The MS in Special Education is more widely sought program by people seeking information regarding disabilities without intent for licensure which might include other related health service providers and is an additional means for someone who already has a MEd to obtain an additional degree which we do not currently offer outside of the doctoral degree. The MS also provides students with an avenue to seek additional financial aid as they pursue additional State of Ohio licensure or endorsements past the MEd. The MS also offers us a new clientele-people outside of the field of education. The MS in Special Education would have a scientific view of education and could act as a stepping stone for a future doctoral candidate.
Program Description

This new program largely repackages the existing Special Education program, using existing series of courses and one additional new course to create a Master of Science degree. The degree consists of 30 semester hours of coursework. All of the degree courses are currently being offered online and face to face at Xavier and which have capacity to add additional students. We are also collaborating with a variety of outside programs to maximize the potential of existing courses. This is an opportunity for students to help shape their own program.

Outcomes

1. Candidates demonstrate challenging expectations for individuals with exceptionalities to develop the highest possible learning outcomes and quality of life potential in ways that respect their dignity, culture, language, and background.
2. Candidates demonstrate a high level of professional competence and integrity and exercising professional judgment to benefit individuals with exceptionalities and their families.
3. Candidates will promote meaningful and inclusive participation of individuals with exceptionalities in their schools and communities.
4. Candidates will develop relationships with families based on mutual respect and actively involving families and individuals with exceptionalities in decision making.
5. Candidates will use evidence, instructional data, research, and professional knowledge to inform practice.
6. Candidates will practice within the professional ethics, standards, and policies of CEC; upholding laws, regulations, and policies that influence professional practice; and advocating improvements in laws, regulations, and policies.

Curriculum

30 Credit Hours, including

Special Education Core

- MATH 516 Introduction to Statistical Methods
- EDSP 617 Administrative Partnerships in Special Education
- EDSP 618 Special Education: Qualitative & Quantitative Research
- EDSP 619 Special Education: Research Paper

Minors

Special Education Minor

The Special Education program is offering a minor for students who are not training to be Special Education Interventionists but want the information regarding disabilities to better perform their duties as nurses, social workers, psychologists, teachers, etc will welcome the opportunity to gather additional skills that will support their future careers. The Special Education Minor-Education track is for educators who want to learn more about servicing students with special needs but do not intend to become intervention specialists who are responsible for the education of students with disabilities. If this student later determines that they do wish to pursue a license or endorsement in special education, then these courses would lend themselves to that opportunity as well. The Special Education licensure in the State of Ohio is a teaching license, requires a state licensing exams and student teaching, whereby the minor does not. The
Special Education Minor-Disability track is for professionals outside of education who intend to service populations that may include individuals with special needs such as social workers, medical professionals, criminal justice majors, etc. To formalize the minor, individuals need to have it noted on their academic transcripts.

The courses described below offer the necessary knowledge needed to work with individuals with special needs. Eligibility for the Special Education Minor requires an undergraduate acceptance into the university and acceptance into the Xavier Special Education Minor program. Xavier University’s Special Education Minor includes 18 undergraduate credit hours and requires documented field hours.

The following courses are required for the minor and students be invited to choose which track that would like to participate in—Special Education Minor—teaching track or the disability awareness track.

**Special Education Minor - Education Track**

- EDFD 110 - Human Development & Learning
- EDSP 200 - Sp Ed: Identification & Issues
- EDSP 203 - Sp Ed: Comm & Collaboration
- EDSP 205 - Foundations in ECSPED
- EDSP 360 - M/M Characteristics & Strategies
- EDSP 380 - Classroom Management

**Special Education Minor - Disability Track**

- EDFD 110 - Human Development & Learning
- EDSP 200 - Sp Ed: Identification & Issues
- EDSP 201 - Intro to Emotionally Dist Child
- EDSP 367 - Sp Ed: Behav & Soc Skills Mgmt
- EDSP 372 - Communication Strategies & Tec
  - *Special Education Elective

**Special Education Electives available for the Disability Track include the following courses:**

- EDSP 203 - Sp Ed: Comm & Collaboration
- EDSP 362 - M/M Support Services

**Endorsement**

**Gifted and Talented Endorsement**

Xavier University Special Education Programs offers a Gifted and Talented Endorsement which consists of 18 semester hours which may be added to an existing teaching license. Knowledge gained in each course can be immediately applied professionally.
Required courses are as follows

• EDSP 582 - Gifted/Talented Chara& Strat
• EDSP 583 - Res Mat & Tech: Gift/Talent
• EDSP 584 - G/T Assessment & Instruction
• EDSP 585 - G/T Program Design& Practices
• EDSP 586 - G/T Program Design& Pract II
• EDSP 605 - G/T Teaching Practicum

Pre-K Special Needs Endorsement

Xavier University Special Education Programs offers a PreK Special Needs Endorsement which consists of 18 semester hours which may be added to an existing teaching license. Knowledge gained in each course can be immediately applied professionally.

Required courses are as follows

• EDSP 503 - Sp Ed: Comm & Collaboration
• EDSP 505 - Foundations in ECSPED
• EDSP 581 - Play & Its Role in Dev & Learn
• EDSP 591 - ECSPED Learning Theories
• EDSP 592 - ECSPED: Observation& Asmt
• EDSP 593 - ECSPED: Curriculum Practices
• EDSP 607 - GT Endorsement Practicum

Transition to Work Endorsement

Xavier University Special Education Programs offers a Transition to Work Endorsement which consists of 18 semester hours which may be added to an existing teaching license. Knowledge gained in each course can be immediately applied professionally.

Required courses are as follows

• EDSP 551 - Hist, Theory & Prac Transition
• EDSP 553 - Asmt&Prog Plan Transition Ed
• EDSP 554 - Cog & Soc Skills - Transition
• EDSP 555 - Com/Coll Partship Trans Ed&Ser
• EDSP 556 - Resources in Trans. Ed& Serv
• EDSP 557 - Transitions: Field Practicum
License

Special Education Licensure

Teacher Licensure

The School of Education offers teacher licensure programs, approved by the State of Ohio Department of Higher Education, for early childhood, middle childhood, multi-age, adolescent to young adult (secondary), intervention specialist (mild/moderate, moderate/intensive, gifted/talented [program only], and early childhood intervention specialist) teaching, as well as American Montessori Society certification in Montessori preprimary and primary teaching. In addition, students can acquire a license at the graduate level for reading, counseling, administration and special education.

The following pages outline the requirements for these licenses. Specific brochures on these programs are available and give suggested sequences of courses and rules for admission to the program. Please note that courses required for licensure which are more than 10 years old may need to be repeated. In adolescent to young adult (grades 7 - 12) and pre-K - 12 teaching, students take a major in their area field and complete licensure requirements in professional education courses. Adolescent to young adults (grades 7 - 12) teaching licenses can be attained in the following subject fields: Integrated Language Arts, Integrated Mathematics, Integrated Social Sciences, Life Sciences, Life/Chemistry, Life/Physics and Physical Sciences (Chemistry/Physics). Multi-age (grades Pre-K - 12) teaching licenses can be attained in the following subject fields: Foreign Language (French, German, Greek, Latin or Spanish), Music, and Visual Arts. Intervention Specialist for grades K - 12 are available in mild/moderate educational needs and moderate/intensive educational needs. These are undergraduate or graduate programs. A licensure program (Pre-K - 12) at the graduate level only is also offered. Intervention Specialist (Early Childhood) licensure can be fulfilled at the undergraduate and graduate levels. Endorsements (Pre-Kindergarten Special Needs, Transition To Work, Gifted/Talented) may be added to an existing specific license on the graduate level. Need to consult Special Education Programs for specific details.

Teacher Education Program

Steps for Admission and Continual Progress for Licensure in the Following Programs:

- Early Childhood
- Early Childhood/Montessori
- Middle Childhood
- Professional Education
- Special Education
- School Nurse Licensure

Step One:

- Student is accepted into the University based on high school grade point average and SAT or ACT scores.
- Nontraditional student with no college admission scores will substitute PRAXIS 1 as entry test in order to declare major or minor.
- Potential candidate declares major.

Step Two:

- Potential candidate completes first year at Xavier with a grade point average of 2.7 or higher.
- Required grades in following courses:
  - ENGL 101 "B-" or higher.
  - Mathematics (as placement dictates) "C" or higher.
  - Introductory Education course (program dictates) "B" or higher.
• Following items completed and filed with Education Office:
  ◦ Notarized "Statement of Moral Character".
  ◦ "Application for Admission" form.
  ◦ "Reflection Question" form.
• Student is notified of acceptance into chosen program.

Step Three:

• Required grades for continuation through major/minor: detailed information.
  ◦ Grade of "C" or higher in second mathematics course.
  ◦ Overall grade point average of 2.7
  ◦ Grade of "B" or higher in required curriculum courses
  ◦ Candidate's portfolio reflects key assignments from educational foundations and curriculum courses.
  ◦ Evaluation forms completed by University personnel and field work cooperating teachers indicate progress in
development of knowledge, performance skills, and dispositions for teaching.

Step Four:

• Application for internship/student teaching is approved. All foundation, methods, block courses, and majority of subject
concentration courses must be completed for commencement of internship semester/s.
• Prior to internship, one of two/three or more required Ohio Assessment for Educators must be passed and results on file in
Certification Office of Education Department (see handbooks or Education Office for specific test titles and codes).

Step Five:

• Successful completion of internship/student teaching in Early, Middle, Professional or Special Education:
  ◦ Record of on-site visits by University supervisor.
  ◦ Midterm and final evaluations from cooperating teacher and field supervisor.
  ◦ Two conferences with University supervisor and cooperating teacher.
• Successful completion of exit portfolio.
• Ohio Assessment for Educators results on file in Certification Office.
• Licensure application materials complete and on file in Certification Office.
• Successful FBI/BCI checks on file.

School of Education: Teaching of English to Speakers of Other Languages (TESOL)

Master of Education

Teaching English to Speakers of Other Languages, M.Ed.

The degree of Master of Education with a concentration in The Teaching of English to Speakers of Other Languages (TESOL) is a
professional degree designed to meet the needs of licensed teaching professionals and other professionals desiring to enhance their
knowledge of teaching English Learners with current theory and research as well as classroom application. This course of study is
designed to prepare teacher candidates, classroom teachers, and other professionals to help students of all levels to become effective,
strategic language learners who can speak, listen, read, and write effectively and purposefully in English. It provides training for
classroom teachers, non-profit workers, English language tutors, and district TESOL coaches.

• Teachers with a valid Ohio teaching license can add this endorsement in order to teach in K-12 schools. In other words, the
  graduate candidate for the endorsement must have (or be in the process of completing) a valid teaching certificate or license.
• Professionals without a valid Ohio teaching license can earn a certificate, allowing them to teach in non-school settings and/or
tutor.
Accordingly, this degree is awarded to the candidate who has demonstrated a capacity for professional performance by satisfactorily completing the course of study designed to develop the following characteristics:

1. The ability to articulate and translate the interrelationship of language skills in reading, writing, speaking, and listening to classroom teaching and curriculum development.
2. The ability to work directly or indirectly with English learners of all ages who could benefit from furthering their English language skills.
3. The ability to work with teachers, family members, administrators, and other professionals to improve and coordinate the total TESOL program of a school or organization.

This program is also designed to meet the specifications of the TESOL International Organization and State of Ohio course requirements for the TESOL Endorsement. It also meets TESOL licensure requirements in many states.

Go to http://www.xavier.edu/reading/admission.cfm

Requirements for the M.Ed. in TESOL

The following coursework is required for the Master degree in TESOL and meets the State of Ohio standards for the TESOL Endorsement and the Xavier University TESOL certificate.

MEd Core Requirements

9 credit hours

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

Concentration Requirements

18 hours required specifically

- EDRE 569 - Phonics & Found of Literacy
- EDEL 650 - Foundations of TESOL
- EDEL 651 - Instr Strat For Engl Lang Lear
- EDEL 652 - Culturally Responsive Teaching
- EDEL 653 - Effective Assessment Pract
- EDEL 654 - Aspects of Language and Socio

3 hours selected as a Graduate Level Elective Course (500-level or higher)

Note(s):

- Students completing their studies for the M.Ed. in TESOL must pass a comprehensive examination and must be able to write knowledgeably on the following areas of TESOL: phonics and phonemic awareness, the core foundations of second language
acquisition, cultural transmissions and legal requirements, cultural competence and teaching strategies, assessments, and language transfer. The M.Ed. candidate may sit for the exam after completing 27 hours. Successful completion of the degree is contingent on passing the exam.

Certificate

Teaching English to Speakers of Other Languages Certificate

As populations in the United States become more diverse both linguistically and culturally, the need for individuals working with non-English speaking people who are knowledgeable and skilled in serving these populations is essential. This program offers the necessary knowledge needed to work with English Language Learners and obtain a TESOL certificate. Eligibility for the TESOL certificate requires an undergraduate degree and acceptance into the Xavier graduate certificate program. Xavier University's TESOL certificate includes 18 graduate credit hours and requires 45 documented field hours.

Curriculum

The following courses are required for the certificate.

- EDRE 569 - Phonics & Found of Literacy
- EDEL 650 - Foundations of TESOL
- EDEL 651 - Instr Strat For Engl Lang Lear
- EDEL 652 - Culturally Responsive Teaching
- EDEL 653 - Effective Assessment Pract
- EDEL 654 - Aspects of Language and Socio

Endorsement

Teaching English to Speakers of Other Languages (TESOL) (K-12) Endorsement

TESOL Endorsement Requirements

Those completing the M.Ed. in TESOL and hold a valid teaching license for Ohio may also want to add the TESOL endorsement to their teaching license. The endorsement has an 18-hour course requirement and 50 hours of documented field hours in the area of English Language Learning. Master degree candidates may work on their degree and the endorsement simultaneously. After completion of the course requirements for the endorsement, the State of Ohio requires that the candidate take the Ohio Assessment for Education English to Speakers of Other Languages /021 and receive a passing score to have the endorsement added to a valid license. Information regarding testing dates, location sites, and sample questions for the OAE may be found on the Ohio Assessment for Educators website.  
http://www.oh.nesinc.com
The following courses are currently required by the State of Ohio for the TESOL Endorsement:

- EDRE 569 - Phonics & Found of Literacy
- EDEL 650 - Foundations of TESOL
- EDEL 651 - Instr Strat For Engl Lang Lear
- EDEL 652 - Culturally Responsive Teaching
- EDEL 653 - Effective Assessment Pract
- EDEL 654 - Aspects of Language and Socio

Note(s):

- The following core courses fulfill Master of Education requirements but are not required to complete TESOL endorsement. They can be taken at any time within the six-year limit. Students take the Comprehensive Exam related to the three core courses during the last semester of graduate course work.

- EDFD 500 - History/Philosophy of Am Educ
- EDFD 505 - Org of Ed Systems in U.S.
- EDFD 507 - Educational Research
- EDFD 508 - Educational Research Paper

School of Nursing

Following the precepts put forth in Xavier University's mission statement and Jesuit tradition, the faculty of the School of Nursing affirms its mission to education undergraduate and graduate students with emphasis on preparing them to be nursing leaders and scholars in the delivery of interprofessional, collaborative, holistic care in a complex, population-based, dynamic healthcare environment and diverse socio-political global community. Faculty and students' personal and professional development, their scholarship, leadership and service are directed to enhance the mission of the School of Nursing.

The School of Nursing's mission statement and philosophical underpinnings is accessible to current and prospective students, faculty and other constituents and can be found at: [http://www.xavier.edu/nursing-graduate-programs/mission.cfm](http://www.xavier.edu/nursing-graduate-programs/mission.cfm) Faculty eagerly embrace the challenge to prepare the next generation of nurse professionals to work and lead in the nation's evolving health care system.

The School of Nursing offers three pre-licensure degrees: the BSN, the Accelerated BSN and the accelerated Master of Science in Nursing: Direct Entry as Second Degree (MIDAS program). The accelerated programs are designed for individuals with baccalaureate degrees in other disciplines.

In addition to the pre-licensure BSN and MSN, a Master of Science in Nursing (MSN) is available for registered nurses with a choice of tracks. The tracks offered for RNs are administration, Clinical Nurse Leader, education, family nurse practitioner, forensics, general studies, health care law and informatics. Also offered are three dual degrees: MSN/MBA, MSN/MEd, and MSN/MSCJ.

Two post-master's certificate options are available to registered nurses with a Master of Science in Nursing: 1) Clinical Nurse Leader or 2) family nurse practitioner. Students completing the program are eligible to sit for the Clinical Nurse Leader or family nurse practitioner certification exam.

The Doctor of Nursing Practice (DNP) in Population Health Leadership program is a population health focused post-master's program for nurses from a variety of practice settings to become leaders in addressing the complexity of health care outcomes in the 21st century.

The baccalaureate degree in nursing and master's degree in nursing at Xavier University's School of Nursing are accredited by the Commission on Collegiate Nursing Education (CCNE). [http://www.aacn.nche.edu/ccne-accreditation](http://www.aacn.nche.edu/ccne-accreditation)

Once admitted to one of the School of Nursing's programs, all students must present evidence of the following prior to entrance in all clinical/practicum courses or as required:

1. Liability insurance ($2,000,000/$4,000,000), purchased through the University and billed to student's account.
2. Completed HIPAA Requirements
3. MMR immunization
4. Proof of varicella (chicken pox) immunization/immunity
5. Completed Hepatitis B series
6. Annual tuberculosis screening
7. Tdap (Adacel)
8. Annual physical examination by health care provider
9. Current CPR certification for healthcare providers
10. Proof of current health care coverage
11. Influenza vaccine by required date
12. RN licensure in the United States and in the state in which the student will participate in clinical rotations (required for individuals enrolled in graduate nursing for registered nurses programs only). This requirement does not apply to students in the BSN, ABSN or MSN MIDAS program.
13. Background check
14. Federally regulated drug test may be required

In addition to costs associated with the above listed requirements, students are responsible for costs related to providing their own transportation to and from clinical sites, clinical supplies and required uniforms.

Go to [http://www.xavier.edu/msn/Admission.cfm](http://www.xavier.edu/msn/Admission.cfm) to reference graduate admission requirements for registered nurses.

Go to [http://www.xavier.edu/msn/midas.cfm](http://www.xavier.edu/msn/midas.cfm) to reference MSN MIDAS graduate admission requirements.

**Bachelor of Science in Nursing**

**Nursing - Accelerated (ABSN), B.S.N.**

The Accelerated Bachelor of Science in Nursing (ABSN) program is for individuals who have bachelor degrees in other fields and wish to become registered nurses. This program builds upon the current BSN degree program which is fully approved by the Commission Collegiate on Nursing Education (CCNE) and approved by the Ohio Board of Nursing. Admission to the ABSN program will follow the successful completion of a bachelor's degree from an accredited program.

The following four program objectives guide the ABSN program: 1. Demonstrate scholarship through critical thinking vital to professional judgement and ethical/moral decision making; 2. Exemplify service by valuing the dignity and worth of each person while providing thoughtful, compassionate and competent professional care with clients in transition; 3. Demonstrate leadership by coordinating, delegating, collaborating and maintaining collegial relationships with other members of the interdisciplinary health care team to promote the health and welfare of clients; and, 4. Value personal and professional growth through involvement in professional activities and by assuming responsibility for professional competence and continuing education.

The 63 credit hour curricula for the ABSN program is sequentially and logically structured to achieve expected individual and aggregate student outcomes related to program objectives. Didactic content is applied to health care delivery in eight (8) practicum courses over program. Practicums are started in the first semester. Content becomes more complex with each succeeding semester. Students are gradually placed in more complex health care environments within the community (i.e. schools, nursing homes, hospitals, rehabilitation centers and home health) and end their course of practicum study with an immersion experience. Successful completion of objectives for individual courses within the nursing major at each level provides the knowledge and skills necessary for a smooth transition to the next level. Upon completion of the program, students will have provided nursing care to individuals across the life span with diverse cultural backgrounds. The combined course work promotes student achievement of program objectives.

**Admission Criteria**

Applicants must have bachelor degrees from accredited programs with a GPA of 2.7 or better. Students must also complete Anatomy and Physiology and Microbiology pre-requisite courses.
Major Requirements

- NURS 100 - Survey of Professional Nursing
- NURS 110 - Health, Culture, and Diversity
- NURS 200 - Nursing Therapeutics I
- NURS 201 - Nursing Therapeutics I Practicum
- NURS 202 - Nursing Therapeutics II
- NURS 203 - Nursing Therapeutics II Practicum
- NURS 260 - Pathophysiology I
- NURS 261 - Pathophysiology II
- NURS 270 - Pharmacology I
- NURS 271 - Pharmacology II
- NURS 300 - Mental Health Nursing I
- NURS 301 - Mental Health Nursing I Practicum
- NURS 302 - Mental Health Nursing II
- NURS 303 - Mental Health Nursing II Practicum
- NURS 330 - Nursing Research
- NURS 340 - OB/Women's Health Nursing
- NURS 341 - OB/Women's Health Nursing Practicum
- NURS 342 - Pediatric Nursing
- NURS 343 - Pediatric Nursing Practicum
- NURS 350 - Nursing Care of the Adult I
- NURS 351 - Nursing Care of the Adult I Practicum
- NURS 352 - Nursing Care of the Adult II
- NURS 353 - Nursing Care of the Adult II Practicum
- NURS 354 - Nursing Care of the Adult III
- NURS 355 - Nursing Care of the Adult III Practicum
- NURS 430 - Community Health Nursing I
- NURS 431 - Community Health Nursing I Practicum
- NURS 432 - Community Health Nursing II
- NURS 433 - Community Health Nursing II Practicum
- NURS 480 - Nursing Care of Complex Clients I
- NURS 481 - Nursing Care of Complex Clients I Practicum
- NURS 482 - Nursing Care of Complex Clients II
- NURS 483 - Nursing Care of Complex Clients II Practicum
- NURS 499 - Transition to Professional Nursing

Course Sequence

Summary: Each term is 8 weeks in length, the entire course of study is 63 credits taught over four semesters.

Nursing, B.S.N.

The Bachelor of Science in Nursing program is designed for the student who is interested in becoming a professional registered nurse. The graduate is prepared as a generalist to meet the health care needs of diverse populations across the lifespan in an ever-changing, highly technical health care environment. The program is focused on an holistic health and wellness model and educates nurses in the skills of communication, coordination and cooperation with an interprofessional team of health care providers in a variety of settings. Teaching is enhanced by state-of-the-art clinical simulation laboratories and interprofessional learning opportunities.

Students are able to complete a program of study leading to the degree of Bachelor of Science in Nursing (BSN) in one of two tracks: the traditional, four-year track for students with no previous baccalaureate degree or the Accelerated Bachelor of Science in Nursing (ABSN) which is designed for individuals with a baccalaureate degree in other disciplines. All students meet the four program outcomes of scholarship, leadership, service and professional and personal development.

BSN Traditional Track

The four-year pre-licensure program requires 126 credits for graduation. Xavier's core curriculum requirements complement the innovative nursing curriculum. This well-rounded approach to education enables students to develop critical thinking and communication skills - two qualities essential in today's unpredictable and increasingly complex health care environment.

The BSN traditional track is a selective admission program. Go to: http://www.xavier.edu/undergraduate-admission/Admission-Process.cfm to review admission requirements specific to nursing.

Hispanic Focus

Students enrolled in the BSN program have the opportunity to add the Hispanic Focus to their course of study. This focus is a selection of interdisciplinary courses and selected nursing assignments intended to enhance the student's understanding of, and nursing practice with, the ever-growing Hispanic population. Additional information about the Hispanic Focus is at http://www.xavier.edu/nursing-school/Hispanic-Focus.cfm.

BSN-MSN Honors Program
Students enrolled in the BSN program have the opportunity to complete a master's degree in Clinical Nurse Leader or General Studies within three to four semesters following graduation from the BSN program. Students may apply for this program during fall semester of junior year. Students should contact their faculty advisor for details and admission criteria.

Course Requirements

The BSN degree program requires undergraduate core curriculum courses, 62 credit hours of nursing courses, additional science courses, one additional math course and one additional social studies course. 120 credit hours are required for a bachelor's degree from Xavier University but due to the additional requirements for nursing major, 126 credit hours are required for the Bachelor of Science in Nursing.

B.S. in Nursing

This sample course sequence serves as a guideline for progress toward a degree. Seek guidance from your academic advisor.

Freshman Year

First Semester

- BIOL 140 - Human A&P I for Allied Health $^{1c}$
- BIOL 141 - Hum A&P I Lab Allied Health $^{1c}$
- Second Language I $^c$
- SOCI 101 - Introduction to Sociology $^{1c}$ or SOCW 167 - Survey of Society Social Work
- NURS 130 - Ways of Knowing
- THEO 111 - Theological Foundations or CORE 100 - First Year Seminar $^{2c}$
- CORE 101 - First Year Co-Curriculum Program I

Total (16)

Second Semester

- BIOL 142 - Hum A&P II for Allied Health $^{1c}$
- BIOL 143 - Hum A&P II Lab Allied Health $^{1c}$
- Second Language II $^c$
- Mathematics Elective $^2$ (Required for Nursing)
- NURS 132 - Health and Culture I $^c$
- THEO 111 - Theological Foundations $^{2c}$ or CORE 100 - First Year Seminar
- CORE 102 - First Year Co-Curricular Program II
Sophomore Year

First Semester

- CHEM 150 - Physiological Chemistry
- CHEM 151 - Physiological Chemistry Lab
- NURS 224 - Nurs Therapeutics I: Asmt
- NURS 225 - Nurs Therapeutics I: Practicum
- PHIL 100 - Ethics as Intro to Philosophy
- ENGL 101 - English Composition or ENGL 115 - Rhetoric

Total (16)

Second Semester

- NURS 364 - Pathophysiology
- BIOL 200 - Microbiology
- BIOL 201 - Microbiology Lab
- NURS 230 - Nurs Therapeutics II
- NURS 231 - Nurs Therapeutics II Practicum
- Historical Perspectives Elective

Total (16)

Junior Year

First Semester

- Theological Perspectives Elective
- MATH 116 - Elementary Statistics or MATH 156 - General Statistics (Mathematical Perspectives Electives)
- ENGL 205 - Literature & Moral Imagination or CLAS 205 - Classical Lit & Moral Imagina or SPAN 205 - Hispanic Lit & Moral Imagin
- NURS 360 - Adults in Transitions
- NURS 361 - Adult in Transitions Practicum

Total (17)
Second Semester

- Philosophical Perspectives Elective \(^c\)
- PSYC 277 - Abnormal Psychology \(^c\)
- NURS 370 - Intro to Nursing Research (prereq Statistics)
- NURS 372 - Families in Transitions
- NURS 373 - Families Transitions Practicum

Total (17)

Senior Year

First Semester

- Humanities Elective \(^c\)
- Creative Perspectives Elective \(^c\)
- NURS 450 - Mental Health Nursing
- NURS 451 - Mental Health Nursing Pract
- NURS 470 - Community Health Nursing
- NURS 471 - Community Health Nursing Pract

Total (14)

Second Semester

- NURS 472 - Care of the Complex Client
- NURS 473 - Care of Complex Client Practic
- NURS 498 - Senior Seminar
- Nursing Elective

Total (14)

Scheduling Notes:

1. These courses must be taken in the semester indicated.
2. These core courses must be taken freshman year
3. Meets university core requirement

In addition to the University core curriculum requirements, all students must satisfy the 5 flags. The 5 flags include: Diversity (NURS 132 fulfills), E/RS*, Oral Communication (NURS 130 fulfills), Quantitative Reasoning (CHEM 150, 151 fulfills), Writing (NURS 370 fulfills). *Nursing students may be able to fulfill the remaining E/RS flag by selecting a Theological Perspectives courses that is also approved as E/RS flag.
4. Nursing students should choose a course that fulfills the E/RS elective.
Progression Notes:

- A minimum grade of "C" is required in all nursing courses and in science, math and social science courses.
- A cumulative GPA of 2.700 is required to progress to sophomore level and must be maintained throughout the program.

Master of Science in Nursing

MSN MIDAS Program (Pre-licensure)

The Master of Science in Nursing: Direct Entry as Second Degree, the (MIDAS) program is designed for mature, goal-directed individuals who have a bachelor degree in a discipline other than nursing who desire to be a licensed registered nurse (RN). The twenty month MIDAS program is a five-semester (including one summer), fulltime program of study. Upon successful completion of the program, the student is eligible to sit for the National Council Licensure Exam-Registered Nurse (NCLEX-RN). The student will graduate with a Master of Science in Nursing (MSN).

The MIDAS program includes the clinical nurse leader (CNL) role within this generic master's program. The clinical nurse leader is an innovative nursing model developed by the American Association of Colleges of Nursing to prepare graduate nurse leaders for reforming the health care delivery system and putting best practice into action. All MIDAS graduates who have become registered nurses are eligible to sit for the Clinical Nurse Leader Certification Examination and are also eligible tow sit for the American Holistic Nurses' Certification examination.

Admission Requirements: [www.xavier.edu/msn/MSN-MIDAS-Admission.cfm](http://www.xavier.edu/msn/MSN-MIDAS-Admission.cfm)

Curriculum

The MSN MIDAS program requires five semesters (fall/spring/summer/fall/spring) of full-time study.

Nursing Core (20 semester hours, 17 semester hours FNP, MIDAS)

- NURS 500 - Health Care Ethcs-Nurse Leadrs
- NURS 501 - Theoretical Bases for Nurs Pra
- NURS 502 - Nursing Research
- NURS 754 - Ldrshp/Management Concepts (not required for FNP)
- NURS 854 - Advanced Informatics (CNL, FNP, MIDAS instead of NURS 505)
- NURS 864 - Epidemiologic Methods
MIDAS Courses

- NURS 550 - Nursing Perspectives I
- NURS 552 - Art & Science of Nursing
- NURS 553 - Art & Science of Nursing Pract
- NURS 554 - Essentials of Pathophysiology
- NURS 560 - Nursing Perspectives II
- NURS 562 - Art & Sci of Family Nursing
- NURS 563 - Art & Sci Fam Nurs Practicum
- NURS 564 - Art & Science & Adult Nursing
- NURS 565 - Art & Sci & Adult Nurs Pract
- NURS 650 - Art & Sci of Adv Nursing
- NURS 651 - Art & Sci Adv Nurs Practicum
- NURS 652 - Art & Sci of Psych Nursing
- NURS 653 - Art & Sci of Psych Nurs Pract
- NURS 654 - Advanced Pharmacology
- NURS 656 - Advanced Pathophysiology
- NURS 750 - Nursing Perspectives III
- NURS 752 - Com Nurs/Pub Hlth Policy
- NURS 753 - Com/Pub Hlth Nurs Practicum
- NURS 850 - Nursing Perspectives IV
- NURS 851 - Leadership Practicum
- NURS 852 - Leadership for Quality

Note(s):

- Each practicum credit hour is equal to 4 clock hours per week.
- Total credit hours required for the MIDAS program is 79 semester credit hours

Nursing, M.S.N.

The Master of Science in Nursing is available for pre- and post-licensure students.

The second degree pre-licensure MSN (MIDAS program) is designed for the individual with a bachelor degree in another discipline who wishes to be a registered nurse. See MIDAS information and curriculum at www.xavier.edu/msn/midas. See admission for MSN MIDAS at www.xavier.edu/msn/msn-midas-admission.cfm.

The Master of Science in Nursing (MSN) for registered nurses provides the opportunity to obtain advanced level preparation in nursing science. Graduates of the program are prepared to assume professional leadership roles that encompass educational, consultative, and managerial functions. They are prepared to design and establish delivery services and practice in response to current health care policy changes.

The MSN for registered nurses requires a minimum of 36 semester hours of which ten are elective credits. Students may customize their course of study or select their electives from a focused track of study.

Objectives of the MSN Program

Core nursing and graduate support courses provide a foundation and with the opportunity to obtain advanced level preparation in nursing science.
Graduates of the MSN program are prepared to assume professional leadership roles that encompass educational, consultative, and managerial functions. They are also prepared to design and establish delivery services in response to current health care policy changes.

The graduate of the program of study leading to the Master of Science in Nursing degree will:

1. Synthesize theoretical and empirical knowledge from the humanities and the sciences, including nursing, and evaluate it for its use in guiding nursing research and practice.
2. Exhibit competence and confidence when assuming role responsibilities as a graduate with advanced level preparation.
3. Exemplify moral and ethical leadership through a concern for others, the management of nursing care, and a commitment to professional excellence in the delivery of health care and the profession.
4. Evaluate issues and opportunities in health care delivery from ethical, sociopolitical, technological, and historical frameworks while providing leadership for change.
5. Validate and extend nursing knowledge through interpretation of and collaboration in nursing research.
6. Communicate orally and in writing in a scholarly manner.
7. Develop in-depth knowledge in a concentrated area of study.

**Admission**

The point of entry into the MSN for registered nurses is determined by educational background:

1. Direct entry for RNs with a BSN
2. Direct entry for associate degree or diploma prepared registered nurses with a bachelor's degree in another field via the Educational Mobility Option, or
3. Entry via the RN to MSN program for associate or diploma prepared registered nurses without a bachelor's degree. This entry point requires the completion of bridge courses prior to matriculation to the MSN program.

Admission Requirements: [www.xavier.edu/msn/Admission.cfm](http://www.xavier.edu/msn/Admission.cfm)

**Requirements for the MSN degree**

**Nursing Core (20 semester hours, 17 semester hours FNP, MIDAS)**

- NURS 500 - Health Care Ethics-Nurse Leaders
- NURS 501 - Theoretical Bases for Nurs Pra
- NURS 502 - Nursing Research
- NURS 505 - Health Care Informatics  OR
- NURS 854 - Advanced Informatics  (CNL, FNP, MIDAS)
- NURS 864 - Epidemiologic Methods
- NURS 690 - Healthcare Policy-Nurse Leader  (not required for MIDAS)
- NURS 754 - Ldrshp/Management Concepts  (not required for FNP)
Synthesis & Application for Registered Nurses (6 semester hours)

• NURS 703 - Graduate Nursing Practicum I *
• NURS 705 - Graduate Nursing Practicum II *
• NURS 779 - Applied Interprofession Collab *
• NURS 797 - Scholarly Project

* CNL track requires NURS 853 & NURS 855 instead of NURS 703, 705, 779 & 797

* FNP requires NURS 777 & NURS 778 instead of NURS 703 & 705

* MIDAS is a pre-licensure program not requiring NURS 703, 705, 779 & 797. See curriculum.

Track (Minimum of 10 semester hours)

Administration Track:

• NURS 634 - Nurs Admin In Complex Health
• NURS 636 - Financial Mgmt for Nursing Adm
• NURS 764 - Administrative Informatics
  ◦ A guided elective course.

Clinical Nurse Leader Track:

• NURS 556 - Introduction to CNL for RNs
• NURS 602 - Applying CNL Concepts to RNs
• NURS 658 - Advanced Clinical Pharmacology
• NURS 680 - Adv Pathophysiology for RN
• NURS 756 - Advanced Health Assess RN
• NURS 853 - Ldrshp Practicum For RNs *
• NURS 855 - CNL Leadership Scholarly Proj *

  * NURS 853 & NURS 855 instead of NURS 703, 705, 779 & 797

Education Track:

  * NURS 580 - PathoPharm and Assessment for the Nurse Educator
• NURS 660 - Adult Learner in Healthcare Or
• NURS 662 - Adv Technology & Simulation (Optional Elective Course)
• NURS 664 - Teaching Strategies
• NURS 670 - Roles of the Nurse Educator

Family Nurse Practitioner Track:

Courses restricted to FNP students.

• NURS 658 - Advanced Clinical Pharmacology
• NURS 680 - Adv Pathophysiology for RN
• NURS 756 - Advanced Health Assess RN
• NURS 770 - Primary Care Fam Pract Role
  ◦ NURS 771 - Childbearing Family Care Practicum
• NURS 772 - Childbearing Family Care
  ◦ NURS 773 - Pediatric and Adolescent Family Care Practicum
  ◦ NURS 774 - Pediatric and Adolescent Family Care
• NURS 775 - Adult & Geriatric Fam Care Pra
• NURS 776 - Adult & Geriatric Family Care
• NURS 777 - FNP In Practice
• NURS 778 - FNP Integration Seminar
• NURS 779 - Applied Interprofession Collab

FNP Track Notes:

- Each practicum credit hour is eight clinical hours: 1:8.
- The total number of practicum hours required for the FNP is 600.
- A total of 47 hours is required - with a minimum overall cumulative GPA of 3.000.
- NURS 777 & NURS 778 are required instead of NURS 703 & NURS 705 (See MSN General Curriculum)

Forensics Track:

• NURS 642 - Psycho/Social/Legal Forensics
• NURS 648 - Found of Forensic Nursing
• CJUS 620 - Socio of Crime & Deliquency
• NURS 779 - Applied Interprofession Collab

General Studies Track:

Customize course of study. Choose courses from any of these tracks Administration, Education, Clinical Nurse Leader, Forensics, Health Care Law, or Informatics. May serve as a path to a future goal.

Health Care Law Track:
• NURS 610 - Liability Health Care Org/Prof
• NURS 611 - Med-Lgl Rsrch, Writing& Presn
• NURS 642 - Psycho/Social/Legal Forensics
• HESA 581 - Health Care Legal Aspects

Informatics Track:

• NURS 634 - Nurs Admin In Complex Health
• NURS 764 - Administrative Informatics
• NURS 779 - Applied Interprofession Collab
• NURS 854 - Advanced Informatics

General Note:

• A minimum of 36 credit hours is required, with a minimum overall cumulative GPA of 3.000.

RN to MSN Program

The RN to MSN curriculum is designed for experienced registered nurses who are goal directed leaders and seek a high quality program that efficiently meets their need to obtain a MSN degree in a timely manner. Students in this program are registered nurses without a baccalaureate degree in any field, but have a minimum of two years of full-time nursing practice as registered nurses. Applicants must demonstrate leadership potential, motivation, specific career goals and an excellent academic record. It is expected applicants will already have completed foundational courses in their basic training prior to entering the program. These courses would include content in the following areas: anatomy and physiology, microbiology, chemistry, sociology, general psychology, developmental psychology, English composition and health assessment skills. Foundational content will be validated through the essay and resume.

Registered nurses applying to the MSN or RN to MSN program must be graduates of a nursing program accredited by the Accrediting Commission for Education in Nursing (ACEN), formerly NLNAC or the Commission on Collegiate Nursing Education (CCNE). Graduates of an associate degree academic program must have obtained a degree from a college or university accredited by the Commission on Institutions of Higher Education from one of the six regional accrediting bodies (MSA, NASC, NCA, NEASC, SACS, or WASC).

Students enrolled in the RN to MSN program complete 18 semester hours of prerequisite courses. These prerequisite courses build upon previous education and are required as preparation for the graduate program. Once prerequisites are met, students may matriculate into the graduate program. Admission to the graduate courses is contingent upon completion of all prerequisite courses and a minimum 3.000 cumulative grade point average in courses completed at Xavier.

Admission Requirements: www.xavier.edu/msn/Admission.cfm

RN to MSN Program Pre-requisite Courses:

• ENGL 101 - English Composition
• NURS 490 - Analysis of Healthcare Info *
• PHIL 100 - Ethics as Intro to Philosophy
THEO 111 - Theological Foundations
NURS 442 - The Community as Partner
NURS 496 - Professional Development Grad Stud

Note(s):

* NURS 490 meets the statistics requirement. Alternately, this requirement may be met by a previously completed statistics course or XU's MATH 116 or MATH 156.

The MSN program consists of a minimum of 36 semester hours.

**Doctor of Nursing**

**Population Health Leadership, DNP**

The Doctor of Nursing Practice (DNP) degree program is a population health-focused post-master's degree program for nurses from a variety of practice settings to become leaders in addressing the complexity of health care and health care outcomes in the 21st century. Through the lens of the Jesuit tradition, the student builds on a previously earned master's degree to achieve the highest level of academic preparation that incorporates scientific, philosophical, ethical, and historical perspectives of nursing practice along with a perspective of the complexities of present and future global and holistic health care. Additionally, organizational and systems leadership, population-focused healthcare, health policy that includes advocacy in health care, and inter-professional collaboration to address health care outcomes will be considered. The design, implementation, and evaluation of delivery methods that address outcomes to improve the health of the nation is the capstone focus. Xavier DNP graduates will be well positioned for translating the science of population health nursing as nurse leaders in an ever-changing global health care environment.

Intense immersion experiences in a variety of environments occur throughout the curriculum and focus on integration and application of credible research findings within the evidence base. Innovation to support management of care for individuals and populations, administration of nursing and health care organizations, and development and implementation of health policy that will ultimately influence health care outcomes for populations is also a part of the immersion experience. Using conceptual and analytical skills, students provide leadership in clinical scholarship and synthesize relationships among practice, organizations, diverse populations, fiscal resources, and policy concerns to advance the delivery of quality, safe, efficient and effective health care for diverse populations.

The 40-43 variable credit hour program is a 100% online educational offering with a campus-based orientation prior to the beginning of the first fall semester. Students move through the 8 semester program taking 3 to 7 credits per semester. Variable credits are due to an epidemiology course that is required of all AACN Master of Science in Nursing (MSN) graduates and Doctor of Nursing Practice (DNP) graduates. MSN graduates who have approved credit for an equivalent epidemiology course from their master's curriculum are not required to repeat the course. Up to 500 hours of clinical immersion from a master's program and/or advanced certification may be accepted toward the 1,000 clinical immersion hours required for the DNP.

Application requirements and how to apply: [http://www.xavier.edu/nursing-graduate-programs/DNP-Admission.cfm](http://www.xavier.edu/nursing-graduate-programs/DNP-Admission.cfm)

**Program Objectives**

1. Integrate the scientific, philosophical, ethical, and historical underpinnings of professional nursing practice from a global and holistic perspective.
2. Provide organizational and systems leadership for quality improvements and systems thinking.
3. Provide leadership in clinical scholarship and analytical methods for evidence-based practice.
4. Utilize information systems/technology and patient care technology for the holistic improvement and transformation of health care.
5. Influence health care policy for advocacy in health care.
6. Establish interprofessional collaboration for holistically improving patient and population health outcomes.
8. Utilize conceptual and analytical skills to synthesize relationships among practice, organizations, diverse populations, fiscal resources, and policy concerns and to advance nursing practice.

Curriculum

Course scheduling is designed to enable students to take two courses in one late afternoon/evening per week for the first five semesters followed by one course per semester for the final three courses. Scheduling is subject to change.

• NURS 864 Epidemiologic Methods
• NURS 900 DNP Foundations (3)
• NURS 902 Advanced Evidence Based Practice (3)
• NURS 903 Nursing Leadership in Complex Population-Based Healthcare Systems (4)
• NURS 904 Application of Advanced Research Methodologies (3)
• NURS 905 Healthcare Finance and Economics for Nurse Leaders (4)
• NURS 906 Informatics for Advanced Nursing Practice in Complex Health Systems (3)
• NURS 907 Evaluation and Analysis of Outcomes in Health Care (4)
• NURS 908 Health Care Policy (3)
• NURS 910 Scholarship of Advanced Application and Innovation (3)
• NURS 911 Advanced Practice Application (4)
• NURS 915 Immersion and DNP Project I (3)
• NURS 917 Immersion and DNP Project II (3)

Dual Degree

MSN / MBA

Xavier University's College of Social Science, Health, and Education and Williams College of Business offer an outstanding opportunity for nursing leaders to receive a dual degree in a creative, integrated program that unites these two nationally recognized colleges. More and more nurse administrators are finding the health care industry has become a business that requires both the application of professional nursing and business theories. The joint MSN/MBA program uses a cohort approach, which enhances networking and collegiality among students. Flexible scheduling is an opportunity provided with MBA courses.

This degree requires 59 credits or more depending on the student's choice of courses. Students may be required to take foundational business courses or demonstrate knowledge of the following courses by previous academics, professional credentials or through examination. Two capstone courses measure the accomplishment of each program's objective.

Admission Requirements: [www.xavier.edu/msn/Admission.cfm](http://www.xavier.edu/msn/Admission.cfm)
Requirements for the Dual Degree MSN/MBA

Nursing Core/Graduate Support (17 semester hours):

- NURS 500 - Health Care Ethics-Nurse Leaders
- NURS 501 - Theoretical Bases for Nurs Pra
- NURS 502 - Nursing Research
- NURS 505 - Health Care Informatics
- NURS 690 - Healthcare Policy-Nurse Leader
- NURS 864 - Epidemiologic Methods

Concentration (12 semester hours)

- NURS 634 - Nurs Admin In Complex Health
  or
- MGMT 550 - Strategy and Organizations
- NURS 764 - Administrative Informatics
  or
- INFO 550 - Business Information Systems
  ◦ MBA Elective
  ◦ MBA Elective

MBA Foundational Skills (2 semester hours)

- ACCT 500 - Foundations of Financial Acct

MBA Core (21 semester hours):

- ACCT 550 - Managerial Accounting
- BLAW 550 - Business Law and Ethics
- BUAD 550 - International Business
- ECON 550 - Managerial Economics
- FINC 550 - Fundamentals of Finance
- MKTG 550 - Marketing Strategy
- MGMT 551 - Operational Analysis
Synthesis & Application (4 semester hours):

- NURS 703 - Graduate Nursing Practicum I
- NURS 705 - Graduate Nursing Practicum II
- NURS 779 - Applied Interprofession Collab

Capstone Courses (5 semester hours):

- BUAD 690 - Corporate Governance or
- BUAD 691 - Global Strategic Thinking or
- BUAD 694 - Bond Portfolio Management
- NURS 797 - Scholarly Project

MSN / MEd

The MSN/MEd program at Xavier University is an innovative, integrated program whereby the student will receive two separate degrees -- the Master of Science in Nursing (education track) and the Master of Science in Education. This program was developed in response to a community need for nurse educators. The MSN/MEd prepares the graduate to administer and teach in educational settings (e.g., CE providerships, in-service educators and nurse educators).

The curriculum consists of a minimum of 61 semester credit hours. The core courses include theoretical and practical knowledge, which serve as the foundation for advanced nursing education in a variety of roles. Core courses focus on three major themes which are consistent with the philosophy for the graduate program: critical systematic inquiry, professional and personal development, and management of information and resources in a rapidly changing health care environment. The courses in the education track emphasize education principles and skills that enhance adult education management and practices.

Admission Requirements: [www.xavier.edu/msn/Admission.cfm](http://www.xavier.edu/msn/Admission.cfm)

Requirements for the Dual Degree MSN/MEd

Nursing Core required courses (20 semester hours):

- NURS 500 - Health Care Ethcs-Nurse Leadrs
- NURS 501 - Theoretical Bases for Nurs Pra
- NURS 502 - Nursing Research
- NURS 505 - Health Care Informatics
- NURS 690 - Healthcare Policy-Nurse Leader
• NURS 754 - Ldrshp/Management Concepts
• NURS 864 - Epidemiologic Methods

Required Nursing courses for Education track (11 hours)

• NURS 660 - Adult Learner in Healthcare Or
• NURS 664 - Teaching Strategies
• NURS 670 - Roles of the Nurse Educator
  ◦ Nurs 580 - Patho, Pharm & Assessment Nurse Education

MEd Courses required (9 semester hours):

• EDAD 660 - Curr Design & Teach Strategies
• EDFD 500 - History/Philosophy of Am Educ
• EDFD 505 - Org of Ed Systems in U.S.

Elective Courses (Total of 12 hours required)

Select 9 credits from the following education courses. *NURS 660 counts for 3 of the total of 12 elective hours required.

• EDAD 543 - Supervision of Inst/Staff Pers
• EDAD 562 - Political Structure & PR
• EDAD 563 - Sch Finance, Bus Aff / Phys
• EDAD 565 - School Law I
• EDAD 570 - Policy Planning & Evaluation
• EDSP 500 - Sp Ed: Identification & Issue
• EDFD 510 - Adv Human Develop & Learning

Synthesis & Application (6 semester hours):

• NURS 703 - Graduate Nursing Practicum I
• NURS 705 - Graduate Nursing Practicum II
• NURS 797 - Scholarly Project
• NURS 779 - Applied Interprofession Collab
MSN / MSCJ

The MSN/MSCJ program at Xavier University is an integrated program, whereby the student will receive two separate degrees -- the Master of Science in Nursing (forensic concentration) and the Master of Science in Criminal Justice. The Master of Science in Nursing (MSN) program at Xavier University provides nurses with the opportunity to obtain advanced level preparation in nursing science. Graduates of the program are prepared to assume professional leadership roles that encompass educational, consultative, and managerial functions. They are prepared to design and establish delivery services in response to current health care policy changes. This integrated MSN/MSCJ program was developed to compliment the forensics track of the MSN program. Graduates are prepared to function in non-traditional roles within the criminal justice system and address the changing needs of the nation to prepare nurses in bioterrorism and disaster planning.

The curriculum consists of a minimum of 46 semester credit hours. The core courses include theoretical and practical knowledge, which serve as the foundation for advanced nursing practice. Core courses focus on three major themes which are consistent with the philosophy for the graduate programs: critical systematic inquiry, professional and personal development, and management of information and resources in a rapidly changing health care environment. Additional courses in the MSN/MSCJ dual degree emphasize forensic and criminal justice principles and skills that enhance the variety roles in nursing forensics and criminal justice in which graduates may be employed.

Admission Requirements: [www.xavier.edu/msn/Admission.cfm](http://www.xavier.edu/msn/Admission.cfm)

Requirements for the Dual Degree MSN / MSCJ

Nursing/Graduate required courses (21 semester hours):

- NURS 500 - Health Care Ethcs-Nurse Leadrs
- NURS 501 - Theoretical Bases for Nurs Pra
- NURS 502 - Nursing Research
- NURS 505 - Health Care Informatics
- NURS 754 - Ldrshp/Management Concepts
- NURS 864 - Epidemiologic Methods
- CJUS 643 - Correctional Counseling

Track (18 semester hours):

- CJUS 439 - Criminalistics II or
- CJUS 449 - Criminalistics III
- CJUS 610 - Basic Const Law & Amer Justice
- CJUS 620 - Socio of Crime & Deliquency
- CJUS 642 - Criminal Justice Administratio
- NURS 642 - Psycho/Social/Legal Forensics
- NURS 648 - Found of Forensic Nursing
Synthesis & Application (7 semester hours):

- CJUS 792 - Internship
- NURS 705 - Graduate Nursing Practicum II
- NURS 779 - Applied Interprofession Collab
- NURS 797 - Scholarly Project

Post Master’s Certificate

Clinical Nurse Leader Post-Master's Certificate

This certificate program is designed for the registered nurse with an earned master's degree in nursing who wants to add the certification as a Clinical Nurse Leader (CNL). This program will prepare registered nurses to assume roles as advanced generalists who deliver nursing care at the point of care. This role, the Clinical Nurse Leader, is a national initiative developed by the American Association of Colleges of Nursing (AACN) in 2004 to address fragmentation in health care delivery. The CNL role is a proactive, integrative and comprehensive role that assists direct care providers in bringing the best of health care science and practice to the point of care.

Specifically this program will allow those nurses with an earned master's degree:

- To complete coursework required for the CNL
- To take the CNL certification exam
- To receive documentation of the work on an official Xavier University academic transcript.

Clinical Nurse Leader Track Objectives

- Apply the art and science of nursing to the role of the clinical nurse leader at the point of care;
- Communicate effectively across health care disciplines;
- Ensure quality and safety in health care delivery;
- Implement and coordinate the best practice at the point of care and across settings;
- Integrate knowledge of nursing theory, research, epidemiology, informatics, ethics, health care policy, economics, healthcare finances and leadership into the management of healthcare delivery.

Admission Requirements: [www.xavier.edu/msn/Admission-Post-Masters.cfm](http://www.xavier.edu/msn/Admission-Post-Masters.cfm)

Requirements for Post Master's Certificate in Clinical Nurse Leader:

- NURS 556 - Introduction to CNL for RNs
- NURS 602 - Applying CNL Concepts to RNs
- NURS 658 - Advanced Clinical Pharmacology
Family Nurse Practitioner Post-Master's Certificate

Family Nurse Practitioners are prepared to care for individuals and families across the life span. FNPs have specialized advanced education and clinical competencies, FNPs use scientific principles, competencies and national standards of care as they diagnose, manage and treat healthcare concerns of individuals and families. Practice settings needing FNPs include primary care practices, nurse-managed health centers, and emerging ambulatory delivery models.

Registered nurses with a Master of Science in Nursing (MSN) from a regionally accredited college or university and CCNE accreditation are eligible to apply for the post-master's certificate program.

The post-master's certificate program requires between 19 to 28 semester hours, depending upon the applicant's previous completed course work.

Family Nurse Practitioner Objectives

1. Applies advanced practice skills, abilities and knowledge to provide holistic family centered primary health care to populations across the lifespan in a variety of ambulatory care settings as an advanced practice nurse specializing in family nursing

2. Provides culturally competent, population-based preventive, management, and maintenance care for acute and chronic conditions for the family unit, however the family chooses to define itself

3. Demonstrate knowledge, skills, and abilities to sit for the FNP Certification Examination in order to apply for a state certificate of authority in advanced practice, as well as authority to prescribe as an FNP-BC (board certified)

Admission Requirements: [www.xavier.edu/Admission-Post-Masters.cfm](http://www.xavier.edu/Admission-Post-Masters.cfm)

Pre-requisite courses for FNP core courses:

Nurse Practitioner Core

(9 semester hours)

- NURS 658 - Advanced Clinical Pharmacology
- NURS 680 - Adv Pathophysiology for RN
- NURS 756 - Advanced Health Assess RN
Individuals who have completed the required nurse practitioner core courses are eligible to enroll in the family nurse practitioner core courses.

Family Nurse Practitioner Core

(19 semester hours)

• NURS 770 - Primary Care Fam Pract Role
  ◦ NURS 771 - Childbearing Family Care Practicum
• NURS 772 - Childbearing Family Care
  ◦ NURS 773 - Pediatric and Adolescent Family Care Practicum
  ◦ NURS 774 - Pediatric and Adolescent Family Care
• NURS 775 - Adult & Geriatric Fam Care Pra
• NURS 776 - Adult & Geriatric Family Care
• NURS 777 - FNP In Practice
  ◦ NURS 778 - FNP Integration Synthesis Seminar

Note(s):

Each practicum credit hour is eight clinical hours: 1:8. The total number of practicum hours required for the FNP is 600.

School of Psychology

The School of Psychology offers the Bachelor of Science and the Associate of Science degrees at the undergraduate level. Also offered is an undergraduate minor in Psychology. At the graduate level, the Master of Arts in Industrial-Organizational Psychology, the Master of Arts in General Experimental Psychology as well as the Doctor of Psychology in Clinical Psychology degrees are offered.

The School's Mission Statement: In keeping with the Jesuit, Catholic, liberal arts tradition, the School of Psychology educates students in the science of behavior and mental processes with sensitivity toward the diversity of all people so students may use psychological knowledge and insight to address human concerns.

For admission information for the graduate level programs, go to http://www.xavier.edu/graduate-admission/admission/index.cfm on the Xavier University website.

The doctoral program in clinical psychology is accredited by the APA Office of Program Consultation and Accreditation, 750 First Street, NE, Washington DC 20002-4242, Phone 202-336-5500

Bachelor of Science

Psychology, B.S.

The Department of Psychology endeavors to acquaint students thoroughly with the content and methods of scientific psychology. While emphasizing the scientific approach to the understanding of human behavior and human personality, the psychology courses aim to show the student that this branch of science is complementary to and compatible with a sound philosophy of human nature. In addition to the program leading to the Bachelor of Science, the department provides courses in the University Core Curriculum. The Bachelor of Science program in Psychology aims to provide a general background for career and/or advanced studies in fields which presuppose
understanding of human behavior, such as clinical/counseling psychology, industrial-organizational psychology, medicine, education, social work, and law.

Requirements for the Psychology Major

Undergraduate core curriculum requirements:

48-63 Credit Hours dependent on courses taken, including:

Mathematics

- MATH 120 - Elementary Functions
- MATH 140 - Concepts of Calculus

Philosophy:

An additional Philosophy 300 level elective of 3 credit hours beyond core requirements.

Science:

- BIOL 144 A & P I for Social Sciences
- BIOL 145 A & P I for Social Sciences (lab)
- BIOL 146 A & P II for Social Sciences
- BIOL 147 A & P II lab for Social Sciences (lab)

Along with the following included in the major:

- PSYC 221 - Research Meth & Design I
- PSYC 222 - Research Meth & Design II
- PSYC 223 - Research Meth & Design I Lab
- PSYC 224 - Research Meth & Design II Lab
Major requirements:

38 credit hours, as follows

32 hours of required psychology courses from:

- PSYC 101 - General Psychology
- PSYC 200 - Orientation to the Major
- PSYC 210 - Statistical Techniques
- PSYC 212 - Computer Statistical Analysis
- PSYC 221 - Research Meth & Design I
- PSYC 223 - Research Meth & Design I Lab
- PSYC 222 - Research Meth & Design II
- PSYC 224 - Research Meth & Design II Lab
- PSYC 231 - Developmental Psychology
- PSYC 261 - Social Psychology
- PSYC 277 - Abnormal Psychology
- PSYC 301 - History & Systems of Psychology
- PSYC 427 - Cognitive Psychology
- PSYC 499 - Senior Comprehensive Review

6 hours of psychology electives selected from:

- PSYC 232-498 (Refer to Course Descriptions.)

Note(s):

- A 2.000 cumulative average must be attained in these psychology courses.
- Majors must attain a C- or above in Human Anatomy and Physiology I lecture and lab (BIOL/140/141), Statistical Techniques lecture and lab (PSYC 210/212), and Research Methods and Design I (PSYC 221/223). Students who fail to earn a C- will have to retake the course(s).
- Students should consult the department's "Careers in Psychology and Course Electives" for recommendations about which elective courses to consider for different career tracks (i.e., graduate school, social service employment, general business, etc.). Students should also discuss their career aspirations and elective choices with their faculty advisor. Students must maintain contact with a departmental advisor each semester to aid in course selection, planning, and scheduling.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S. Psychology

This block serves as a guideline for progress toward a degree. See your academic advisor.
Freshman Year

First Semester

- MATH 105 - Fundamentals of Math or MATH 120 - Elementary Functions or MATH 140 (if one tests into 150 or 170)
- PSYC 101 - General Psychology
- Foreign Language Elective
- CORE 100 - First Year Seminar
- CORE 101 - First Year Co-Curricular
- BIOL 144 A & P I for Social Sciences
- BIOL 145 A & P I for Social Sciences (lab)

Total (16)

Second Semester

- ENGL 101 - English Composition or ENGL 115 - Rhetoric
- PSYC 200 - Orientation to the Major
- MATH 140 - Concepts of Calculus or PSYC 231 - Developmental Psychology or PSYC 261 - Social Psychology or PSYC 277 - Abnormal Psychology
- Foreign Language Elective
- CORE 102 - First Year Co-Curricular
- BIOL 146 A & P II for Social Sciences
- BIOL 147 A & P II lab for Social Sciences (lab)

Total (17)

Sophomore Year

First Semester

- Historical Perspectives
- PHIL 100 - Ethics as Intro to Philosophy
- PSYC 210 - Statistical Techniques
- PSYC 212 - Computer Statistical Analysis
- PSYC 221 - Research Meth & Design I
- PSYC 223 - Research Meth & Design I Lab
- PSYC 231 - Developmental Psychology or PSYC 261 - Social Psychology or PSYC 277 - Abnormal Psychology

Total (16)
Second Semester

- ENGL 205 - Literature & Moral Imagination or CLAS 205 - Classical Lit & Moral Imagina
- THEO 111 - Theological Foundations
- PSYC 222 - Research Meth & Design II
- PSYC 224 - Research Meth & Design II Lab
- PSYC 231 - Developmental Psychology or PSYC 261 - Social Psychology or PSYC 277 - Abnormal Psychology or General University Elective (if tested into MATH 150 or 170)
- PHIL 200 - Philosophical Perspectives

Total (15)

Junior Year

First Semester

- PSYC 360 or PSYC 427 - Cognitive Psychology
- Creative Perspectives
- PSYC Elective
- Theology 200 Level Elective
- General University Elective

Total (15)

Second Semester

- PSYC Elective
- PHIL 300 Level Elective (also fulfills humanities elective)
- General University Elective
- General University Elective / Minor
- General University Elective / Minor

Total (15)

Senior Year

First Semester

- PSYC 301 - History & Systems of Psychology
- PSYC Elective
• PSYC 499 - Senior Comprehensive Review (if planning on grad school) or General University Elective
• General University Elective / Minor
• General University Elective / Minor

Total (15)

Second Semester

• General University Elective or PSYC 499 - Senior Comprehensive Review (if planning on job at graduation)
• E/RS Focus Elective
• CORE 499 - Reflection on XU Core
• General University Elective / Minor
• General University Elective / Minor

Total (12)

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog.
• The E/RS Focus Elective requirement may be used to satisfy another element of the core or the major.
• The University core Social Science electives are fulfilled within the major requirements.
• * See section "Requirements for the Psychology Major."

Associate of Science

Psychology, A.S.

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum

Concentration requirements:

15 credit hours, as follows:
3 hours required from:

- PSYC 101 - General Psychology

12 hours of electives from:

- PSYC 210 - Statistical Techniques
- PSYC 221 - Research Meth & Design I and
  PSYC 223 - Research Meth & Design I Lab
- PSYC 231 - Developmental Psychology
- PSYC 233 - Adolescent Psychology or
- PSYC 367 - Psychology of Aging
- PSYC 261 - Social Psychology
- PSYC 366 - Crime & Personality
- PSYC 277 - Abnormal Psychology
- PSYC 301 - History & Systems of Psychology
- PSYC 321 - Industrial-Organizational Psych
- PSYC 379 - Psych and Achievement Testing
  - Or other Psychology courses offered.

Note(s):

- A 2.000 cumulative average must be attained in theses psychology courses.
- For more information on the associate degree, contact Xavier’s Center for Adult and Part-time Students (CAPS).

Requirements for all Associate's Degrees

See Requirements for Degrees, Majors, Minors, and Certificates

Master of Arts

Psychology, M.A.

The degree of Master of Arts in Psychology is designed to prepare students for employment in a related field and/or to continue their graduate studies at the doctoral level. The School of Psychology offers a terminal Master of Arts degree in psychology with students choosing one of two tracks: General Experimental Psychology or Industrial-Organizational Psychology. Students in both programs attend on a full-time basis.
Students admitted into either area of concentration must maintain a semester grade point average of 3.000 or higher to remain in good standing. The degree of Master of Arts in Psychology will be awarded only to candidates who have completed all coursework and attained a GPA of 3.000 or higher, and demonstrated a reading knowledge of a foreign language or demonstrated a proficiency in a computer language (PSYC 520 and PSYC 521) and, have both successfully defended their thesis and demonstrated their knowledge of the general field of psychology during their oral exam. The oral exam is to be administered in the spring semester of the second year. There is a 6-year time limit to complete all program requirements. If the thesis has not been defended after the second year of enrollment in the Master's program, the student is expected to be enrolled in PSYC 790, Continuous Major Research (3 credit hours) each Fall and Spring semester until the thesis is defended and deposited in the library or the student has reached the 6 year limit for the Master's program.

**Admission Requirements**

In order to have your application reviewed by the department you need to have the following materials sent to the Department of Psychology by the February 1st annual deadline date for submission.

Go to [http://www.xavier.edu/psychology-grad/io-admission.cfm](http://www.xavier.edu/psychology-grad/io-admission.cfm) or [http://www.xavier.edu/psychology-grad/experimental-admission.cfm](http://www.xavier.edu/psychology-grad/experimental-admission.cfm) to reference the specific admission requirements.

**Summary List of Admission Requirements for MA in Psychology**

To be eligible for admission, applicants should submit the following items to the Department of Psychology before the February 1st deadline:

1. A completed application form either by paper or on-line at [https://www.xavier.edu/apply/grad/](https://www.xavier.edu/apply/grad/).
2. Non-refundable $35.00 application fee.
3. One copy of all official transcripts from all previous colleges and universities attended. A minimum 3.000 overall undergraduate grade point average (on a 4.0 scale) and a minimum 3.000 average in all Psychology courses.
4. Three letters of recommendation.
5. Resume or vita.
6. A written personal statement (2-3 pages) which gives you the opportunity to introduce yourself to the department and give reasons for pursuing a graduate degree, and plans after completion of studies.
7. GRE scores: General Knowledge (verbal, quantitative and analytical) area is required. Psychology Subject Test required for those without psychology as their undergraduate major or minor.
9. Any other information that might aid in the selection process.

A minimum of 18 semester undergraduate hours in psychology is required which must include general psychology, psychology statistics, psychology research methods class with laboratory component, and a psychology tests and measurements course. Courses in developmental psychology are helpful. Courses in biological science and college mathematics are also recommended as a preparation for graduate studies. An undergraduate course in industrial-organizational psychology is necessary for students pursuing the industrial-/organizational concentration. Personality and character traits which are in agreement with ethical standards of psychology are necessary. At times, a personal interview may be required by the Admissions Committee of the Department of Psychology. The prospective student will be notified by the Department and arrangements will be made at that time. Any other questions regarding the program should be directed to the Department of Psychology Assistant Director for Enrollment and Student Services at 513 745-1053.

**Grading Policy**

Grades are based on a student's performance meeting the standards established and communicated in writing by the professor of the course. A semester grade point average of 3.000 or higher is required for a student to remain in good standing. Any student whose semester (Fall, Spring, Summer) GPA falls below 3.000 or who earns a grade of "C (includes C+ or C)" or "F" in any 2 credit hour course will be placed on "WARNING" by the Dean of the College of Social Sciences, Health, and Education and remains on WARNING throughout the remainder of the program. Once on warning, any student whose semester (Fall, Spring, Summer) GPA
falls below a 3.000 may be dismissed. In addition, once on warning, any student who earns a grade of "C" or "F" in any course is subject to dismissal. A student who earns a grade of "C" or lower in 4 hours or more of course credit in one semester may be subject to dismissal immediately. The following interpretation of letter grades is used by the department: A=excellent, B=good, C=minimal, and F=failure. Faculty may use a +/- system in grading. Students receiving a "C" in a course may be required to retake the course or do additional work to satisfy specific deficiencies. This will be determined by the professor of the course and will be discussed with the student and his/her advisor. The student may be required to register for a one hour tutorial (PSYC 900) to complete the necessary remedial work, for which he/she must earn a grade of pass to fulfill the requirements for the additional work. The work must be completed by the student during the following academic semester. Students receiving an "F" in a course are required to retake the course. A cumulative GPA of 3.000 or higher is required for graduation. An A=4 points, a B=3 points and a C=2 points. Pluses and minuses alter the merit points by .3.

Requirements for M.A. in Psychology: General Experimental Psychology track

The general experimental track in Xavier's master's degree program embraces a 45-credit hour requirement extending over two full-time academic years.

Three themes run through the General Experimental program and are reflected below:

2. Research

Other core courses reflect the importance of a research foundation in psychology (15 credit hours).

- PSYC 511 - Advanced Statistics I
- PSYC 512 - Advanced Statistics II
- PSYC 520 - Computer Statistics Language I
- PSYC 521 - Computer Stats Language II
- PSYC 621 - Adv Research Design & Analysis
- PSYC 699 - Master's Thesis (6 credit hours)

1. General Psychology

Four core courses that help assure basic knowledge within the general field of psychology (12 credit hours).

- PSYC 504 - Theories of Personality
- PSYC 506 - Advanced Social Psychology
- PSYC 609 - Learning & Cognition or PSYC 509 - Cognitive Aspects of Behavior
- PSYC 502 - History & Philosophical Issues

3. General Experimental Concentration

(18 credit hours)

- PSYC 590 - Internship: Gen Exper Psycholo
- 12 credit hours of related elective courses to fit student's professional interests.
Internship

The six-credit hour required internship involves a minimum of 240 hours of supervised work experience in a setting appropriate to the student's interests. It is often completed over two semesters and may be performed either in a single location or at two different sites. The internship must be approved by the Department Chair and the student receives a grade for each of the two semesters of supervised work.

Thesis

The required thesis carries 6 credit hours and takes the form of an empirical research study. Under the supervision of an advisor, the student develops a thesis proposal and presents this to a three member committee made up of faculty members and/or interested psychologists from the Cincinnati community. Upon completion, the student presents the thesis to the same committee. A single final grade is assigned to the thesis.

Language Requirement

Students in both tracks of the master's degree program must demonstrate proficiency in a computer language, typically gained through the courses PSYC 520 and PSYC 521.

Requirements for M.A. in Psychology: Industrial-Organizational Psychology track

The industrial-organizational concentration requires 43 credit hours and a full-time commitment over two academic years.

Three themes run through the I-O psychology program and are reflected in the typical two-year schedule of classes in the program.

1. General Psychology (3 credit Hours)

Three areas of psychology, integrated into a proseminar course, help assure basic knowledge within the general field of psychology. These three areas are theories of personality, advanced social psychology and learning and cognition. This course is PSYC 579 - ProSem: Applied I/O Psychology.

2. Research (15 credit hours)

Other core courses reflect the importance of a research foundation in psychology. These courses are:

- PSYC 511 - Advanced Statistics I
- PSYC 512 - Advanced Statistics II
3. Industrial-Organizational Psychology (25 credit hours)

A larger group of courses directly serve student interests in I-O Psychology. For first year students, 10 hours of I-O psychology courses are incorporated. For second year students, these courses include 15 credit hours. Overall, these courses consist of:

- PSYC 522 - Personnel Psychology
- PSYC 593 - Internship in I-O Psychology
- PSYC 641 - Assess Tech in Indust-Org Psyc
- PSYC 643 - Sem: Industrial - Org Psyc
- PSYC 644 - Organizational Psychology
- PSYC 645 - Train & Devel in Organizations
- PSYC 660 - Performance Appraisal

Note(s):

The I-O psychology curriculum reflects the areas of competence to be developed in master's level I-O psychology courses, as identified in Guidelines for Education and Training at the Master's Level in Industrial-Organizational Psychology, 1994, Society for Industrial and Organizational Psychology, Inc. (Division 14 of the American Psychological Association). The curriculum is structured in such a way that later courses build on the content disseminated in earlier courses.

Internship

The three-credit hour internship comprises 120 clock hours of supervised work in an appropriate field setting. This work may take the form of a project arranged with an employer that allows the student full responsibility for designing and carrying out the project, or the practicum may bring the student into an ongoing activity within an organization, such as employment interviewing or testing. The student receives a final grade for the practicum.

Thesis

The thesis carries six credit hours and takes the form of an empirical research study. Under the supervision of an advisor, the student develops a thesis proposal and presents this to a three-member committee made up of faculty members and/or interested psychologists from the Cincinnati community. Upon completion, the student presents the thesis to the same committee. A single final grade is assigned to the thesis.

Language Requirement

Students in both tracks of the master's degree program must demonstrate proficiency in a computer language, typically gained through the courses PSYC 520 and PSYC 521, Computer Statistical Language I and II.
Doctor of Psychology

Clinical Psychology, Psy.D.

The Doctor of Clinical Psychology (PsyD) program builds upon Xavier's strong commitment to the Jesuit tradition of "service within the context of scholarship." The program provides students with the knowledge and range of skills necessary to provide psychological services in today's changing professional climate. The full time, five-year program includes four academic years and one internship year. The practitioner-scientist orientation emphasizes the importance of a scientific foundation in psychology. Although the PsyD program is designed to prepare students for the general practice of clinical psychology, it also addresses the service of specific groups of under-served individuals in today's society- children and adolescents, older adults, and individuals with severe mental disability. Within the curriculum, students have the opportunity to pursue these areas of interest by taking specialized courses, gaining experience in practicum placements, and conducting applied research.

Program of Studies

Students are accepted into the program on a full-time basis and are required to complete a minimum 114 credit hours to graduate. The curriculum of the first four years is divided into two major types of learning experiences: 1) knowledge/academic based, and 2) skills/clinical based. Ninety credit hours consist of courses that are primarily "academic" in nature. These courses are designed to develop content and methodologies in specific areas identified by the American Psychological Association as essential for clinical training--biological, cognitive and affective, social and cultural aspects of behavior, individual differences in behavior, history and systems in psychology, psychological measurement and assessment, human development, psychopathology, professional standards of ethics, research and evaluation, and professional interpersonal conduct. Twenty-four credit hours include courses such as professional development and practicum, clinical practicum, and internship that provide supervised experience and training in a range of clinical areas.

A unique feature of the program is the opportunity for students to develop an "Area of Interest" in clinical child psychology, applied geropsychology, or the psychology of severe mental disability. Prior to applying for internship in the fall of the fourth year, students must successfully complete the Clinical Competency Examination, patterned after the examination given by the American Board of Professional Psychology, and propose their dissertation.

Students who are accepted into the doctoral program who already hold a master's degree in a field akin to clinical psychology may expect a portion of the previous graduate work to be credited toward the fulfillment of the doctoral degree requirements. The allowable number of transferable hours may vary. In all cases a minimum of 75 hours of the required 114 must be completed at Xavier.

Petitions for transfer of credit will be granted with the recommendation of the Department Chair and approval of the Dean of the College of Social Sciences, Health, and Education. Courses will be considered for transfer at a grade of B or higher. Courses taken more than six years prior to entering the doctoral program will normally not be accepted for transfer.

Requirements for the PsyD degree

1. To ensure comprehensiveness in the program, all students must include each of the following courses designed to provide integrative education in the graduate field of psychology. Although the curriculum may change to match advancement of the field of professional psychology, the current curricular requirements are listed below in the present order of completion.
Year One

• PSYC 506 - Advanced Social Psychology
• PSYC 580 - Clinical Psychopathology
• PSYC 511 - Advanced Statistics I
• PSYC 520 - Computer Statistics Language I
• PSYC 585 - Assessment II: Personality
• PSYC 508 - Diversity
• PSYC 512 - Advanced Statistics II
• PSYC 521 - Computer Stats Language II
  ◦ PSYC 584 - Assessment I: Psychometrics and Intelligence Testing
  ◦ PSYC 509 - Cognitive Aspects of Behavior
  ◦ PSYC 549 - Introduction to Clinical Interactions

Summer

• PSYC 502 - History & Philosophical Issues
• PSYC 505 - Prof Problems & Ethics in Psyc

Year Two

• PSYC 621 - Adv Research Design& Analysis
• PSYC 629 - Intervention Tech: Behav Thera
• PSYC 650 - Professional Devl & Pract I
• PSYC 651 - Professional Devl & Pract II
  ◦ PSYC 586 - Assessment III: Cognitive Functioning
  ◦ PSYC 510: Biological and Affective Aspects of Beahvior
  ◦ PSYC 608 - Integrative Life SPan Psychology I
  ◦ PSYC 622 - Advanced Research Design & Analysis II
  ◦ PSYC 609 - Integrative Life Span Psychology II

**Earn M.A. in Psychology

Summer

• PSYC 607 - Advanced Developmental Psych
  ◦ Elective Course
Year Three

- PSYC 730 - Intervention Tech: Consulting
- PSYC 731 - Intervention Tech: Psychodynam
- PSYC 760 - Clinical Practicum III
- PSYC 761 - Clinical Practicum IV
- PSYC 787 - Research I
- PSYC 788 - Research II
  - Elective courses (2)

Note(s):

- Clinical Competency Examination or Dissertation proposal must be successfully completed by the end of the spring semester prior to applying for internship.

Year Four

- Internship applications are completed during the fall semester of the fourth year.
- Clinical Competency Examination and the Dissertation proposal must be successfully completed prior to applying for the internship in the Fall.
- PSYC 789 - Research III
- PSYC 850 - Clinical Practicum V
- PSYC 851 - Clinical Practicum VI
  - Elective courses (5)

Year Five

- PSYC 999 - Internship (one year)

2.

All students are required to take eight elective courses, four of which are specified as the student's "Area of Interest"—clinical child psychology, applied geropsychology, or the psychology of severe mental disabilities. The other four electives are chosen by students in consultation with their advisor. A unique feature of the program is that students may opt to use their additional electives to work toward a "Certificate in Organizational Concepts and Management" or a "Certificate in the Foundations of Health Services Administration." In cooperation with the Williams College of Business and the Health Services Administration Department, doctoral students may elect to take courses which offer a foundation in business or in the health services discipline which provide a basis for understanding the dynamics involved in the delivery of health care services in today's changing professional climate.
The PsyD degree will be awarded upon successful completion of required coursework, Clinical Competency Examination, Doctoral Dissertation and an internship. After the fourth year of enrollment in the doctoral program (or its equivalent for students admitted with advanced standing) the student is expected to be enrolled in either PSYC 999, Internship, or PSYC 790, Continuous Major Research, until the dissertation is defended and deposited in the library or the student has reached the 8-year limit for the PsyD program.

This policy remains in effect after the completion of the internship, until the dissertation is defended and deposited in the library. There is an eight year time limit to complete all program requirements. A minimum of 75 of the 114 hours required coursework for the PsyD Degree must be completed at Xavier.

Grading Policy:

Grades are based on a student's performance meeting the standards established and communicated in writing by the professor of the course. A semester grade point average of 3.000 or higher is required for a student to remain in good standing. Any student whose semester (Fall, Spring, Summer) GPA falls below 3.000 or who earns a grade of "C" (includes C+ or C) or "F" in any 2 credit hour course will be placed on "WARNING" by the Dean of the College of Social Sciences, Health, and Education and remains on WARNING throughout the remainder of the program. Once on warning, any student whose semester (Fall, Spring, Summer) GPA falls below a 3.00 may be dismissed. In addition, once on warning, any student who earns a grade of "C" or "F" in any course is subject to dismissal. A student who earns a grade of C or lower in 4 hours or more of course credit in one semester may be subject to dismissal immediately. The following interpretation of letter grades is used by the department A= excellent, B=good, C=minimal, and F=failure. Faculty may use a +/- system in grading. Students receiving a "C" in a course may be required to retake the course or do additional work to satisfy specific deficiencies. This will be determined by the professor of the course and will be discussed with the student and his/her advisor. The student may be required to register for a one hour tutorial (PSYC 900 ) to complete the necessary remedial work, for which he/she must earn a grade of pass to fulfill the requirements for the additional work. The work must be completed by the student during the following academic semester. Students receiving an "F" in a course are required to retake the course. A cumulative GPA of 3.000 or higher is required for graduation. An A = 4 points, a B = 3 points and a C = 2 points. Pluses and minuses alter the merit points by .3. All students are required to complete the "Yearly Graduate Student Activity Report: for each academic year by May 1.

Admission Requirements for the PsyD degree

To be eligible for admission, applicants should submit materials before the annual deadline date of December 1st.

Go to http://www.xavier.edu/psychology-doctorate/admission.cfm on the Xavier website to reference the full details and the admission process.

Summary List of Admission Requirements

To be eligible for admission, applicants should submit the following items to the Department of Psychology before December 1st:

1. A completed application form.
2. Non-refundable $35 application fee.
3. One official transcript from each college or university attended. A minimum 3.000 overall undergraduate grade point average (on a 4.000 scale), and a minimum 3.000 average in all psychology courses.
4. Three letters of recommendation.
5. A written personal statement of reasons for pursuing a graduate degree in the psychology department at Xavier University, and plans after completion of studies.
6. GRE scores: General Knowledge (verbal, quantitative and analytical) area is required. Psychology Subject Test is required for those without psychology as their undergraduate major or minor.
8. Any other information that might aid in the selection process.

Students must have a minimum of 18 undergraduate hours in psychology, including general psychology, psychology statistics, research methods course with lab, and tests and measurements. Courses in developmental and abnormal psychology are helpful. Courses in biological science and college mathematics are also recommended as a preparation for graduate studies. Students with graduate training in clinical psychology or a related field who are accepted with advanced standing may expect a portion of their previous graduate work (if the student has earned a grade of "B" or higher) to be credited toward the fulfillment of the requirements for the doctoral degree. All decisions regarding acceptance of graduate credit will be made by the Department Chair in conjunction with the student's advisor by the end of the first year.

In all cases, a minimum of 75 of the 114 hours required coursework for the PsyD. degree must be completed at Xavier.

Minors

Psychology Minor

19 total credit hours, as follows:

12 hours of required courses from:

- PSYC 101 - General Psychology
- PSYC 210 - Statistical Techniques
- PSYC 221 - Research Meth & Design I and
- PSYC 223 - Research Meth & Design I Lab
- PSYC 261 - Social Psychology

3 hours from either:

- PSYC 231 - Developmental Psychology
- PSYC 277 - Abnormal Psychology

1 hour from:

- PSYC 212 - Introduction to Computer Statistical Analysis
3 hours of approved electives including, but not limited to:

- PSYC 222 - Research Meth & Design II and
- PSYC 224 - Research Meth & Design II Lab
- PSYC 231 - Developmental Psychology or
- PSYC 277 - Abnormal Psychology
- PSYC 233 - Adolescent Psychology
- PSYC 245 - Psyc of Cultural Differences
- PSYC 301 - History&Systems of Psychology
- PSYC 310 - Marriage and the Family
- PSYC 321 - Industrial-Organizational Psyc
- PSYC 353 - Violence Against Women& Girls
- PSYC 365 - Psychology of Women
- PSYC 366 - Crime & Personality
- PSYC 367 - Psychology of Aging
- PSYC 370 - Human Sexuality
- PSYC 375 - Drugs in Society
- PSYC 379 - Psyc and Achievement Testing
- PSYC 426 - Physiological Psychology
- PSYC 427 - Cognitive Psychology
- PSYC 477 - Sports Psychology

Consult with advisor for guidance.

Note(s):

- A 2.000 cumulative average must be attained in these psychology courses.
- The University core Social Science elective is included in the minor requirements.

Williams College of Business

The mission of the Williams College of Business is to educate students of business enabling them to improve organizations and society, consistent with the Jesuit tradition.

The Williams College of Business is accredited by the Association to Advance Collegiate Schools of Business International (AACSB International).

Degrees, Programs and Block Schedules

The Bachelor of Science in Business Administration (BSBA) is offered with 9 different majors, at the undergraduate level. Offered at the graduate level are a Master of Business Administration (MBA) degree with 7 different concentrations, a full time day Emerging Leaders MBA and an Executive MBA program, as well as a Master of Science in Accountancy and a Master of Science in Customer Analytics.
Also offered at the undergraduate level are an Associate of Business Administration degree, a minor in Business, a minor in Advanced Technology, a minor in Economics, a minor in Entrepreneurship, a minor in Information Technology, a minor in International Business, and a minor in Strategic Human Resource Management.

Both undergraduate and graduate students in the Williams College of Business also have the opportunity to participate in an Internship Program and/or study abroad.

**Bachelor of Science in Business Administration, B.S.B.A.**

Business students in the University Scholars program may also elect to participate in the Business Scholars Program. The program provides advanced coursework in economics, finance, management and business law.

Like the University Scholars program, students take specific classes - designated as "honors" sections-in the business curriculum. The classes fulfill classes required of all business majors. Honors courses are smaller in size and focus more attention on in-depth analysis, critical thinking, discussion and writing. Business scholars follow the same curriculum guidelines as all other University Scholars.

Beyond that, business scholars must take four business courses at honors level. Many of the business honors sections will also serve as Honors Seminars, another requirement in the University Scholars program.

**The BSBA degree program consists of:**

**Undergraduate core curriculum:**

48-63 Credit Hours dependent on courses taken, including

**Mathematics:**

- MATH 150 - Elements of Calculus I or
- MATH 170 - Calculus I

- STAT 210 - Statistics For Business I

**Social sciences:**

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
Business Core Requirements:

42 hours

A 2.000 grade point average must be attained in the business core which includes ECON 200 & ECON 201. And at least half of the 42 total credit hours must be taken at Xavier.

- ACCT 200 - Introductory Financial Acct
- ACCT 201 - Introductory Managerial Acct
- BLAW 300 - Legal Environment
- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
- ECON 300 - Int'l Trade & Bus Environment
- FINC 300 - Business Finance
- INFO 120 - Introduction to Business Tech
- INFO 220 - Mgmnt of Info Tech
- MGMT 300 - Managerial Behavior
- MGMT 301 - Managerial Communications
- MGMT 302 - Quality & Product in Operation
- MKTG 300 - Principles of Marketing
- STAT 211 - Statistics For Business II
- SHRM 200 - Human Resources In a Diverse S (Fulfills Cultural Diversity requirement)

Major Requirements:

18-21 hours are required.

Complete the Business Profession seminars:

- BUAD 101 - The Business Profession I
- BUAD 102 - The Business Profession I
- BUAD 201 - The Business Profession II
- BUAD 202 - The Business Profession II
- BUAD 301 - The Business Profession III
- BUAD 302 - The Business Profession III
- BUAD 401 - The Business Profession IV
- BUAD 402 - The Business Profession IV

Electives:

- 3 hours of business courses. (i.e. 300-499 numbered courses in business, beyond the Business Core and the Major courses).
- 3 hours general electives (except for majors that require 21 hours).

Note(s):
• At least half of the credit hours must be taken at Xavier.
• A minimum 2.000 GPA must be achieved for the courses taken within the major.
• Business course credit received ten or more years ago will not be accepted as transfer credit or readmit credit toward current requirements.

TOTAL Minimum Hours Required for Degree: 120
Semester Hours

The Pre-Business Core

The Pre-Business Core is designed to ensure students have the quantitative skills necessary to be successful in the upper- and major-level courses in business. Undergraduate students are eligible to declare business-undecided or any specific business major at any time. However, students will be coded as “provisional status” until they have completed the Business Pre-Core requirements. Once students have completed the Pre-Business Core, the “provisional status” will be lifted and students may proceed to take major-level courses in their intended field of study.

Regardless of “provisional status”, all business students will have access to faculty advisors in their major; they will be encouraged to follow the block scheduled sequence of classes; they will be invited to club activities and will participate in all career development activities provided by the college.

Pre-Business Core Requirements:

16-17 total credit hours, as follows:

• INFO 120 - Introduction to Business Tech
• ACCT 200 - Introductory Financial Acct
• ECON 200 - Microeconomic Principles

• MATH 150 - Elements of Calculus I or
• MATH 170 - Calculus I

• STAT 210 - Statistics For Business I
• STAT 211 - Statistics For Business II

Note(s):

• Achieve a 2.500 combined grade point average in these courses.
• Earn a minimum of 30 credit hours toward degree requirements.
• Achieve an overall cumulative grade point average of 2.500.
University Scholars and Business Scholars Program

Business students in the University Scholars program may also elect to participate in the Business Scholars Program. The program provides advanced coursework in economics, finance, management and business law.

Like the University Scholars program, students take specific classes - designated as "honors" sections-in the business curriculum. The classes fulfill classes required of all business majors. Honors courses are smaller in size and focus more attention on in-depth analysis, critical thinking, discussion and writing. Business scholars follow the same curriculum guidelines as all other University Scholars.

Beyond that, business scholars must take four business courses at honors level. Many of the business honors sections will also serve as Honors Seminars, another requirement in the University Scholars program.

Requirements for Business Scholars Program

Students must complete all University Scholars requirements, plus:

1. Micro- or Macroeconomic Principles (ECON 200 and/or ECON 201) at honors level.
2. Managerial Behavior (MGMT 300) at honors level (seminar course).
3. Business Finance (FINC 300) at honors level (seminar course).
4. Legal Environment (BLAW 300) at honors level (seminar course and E/RS Focus Elective).

Scheduling Notes:

- Consult the "Undergraduate Core Curriculum" requirements of the Catalog or website.
- * Scholars must take one history course at honors level. Scholars must also take either ECON 200 or ECON 201 at honors level.
  - Beyond THEO 111 and PHIL 100, scholars must also take one course in either area at honors level.
  - Student must take either STAT 210 or second science elective at honors or major level.
- ** Students must demonstrate intermediate foreign/second language proficiency (202 level or above).
- *** BLAW 300 at honors level also fulfills E/RS Focus Elective requirement.
- **** Students must complete a studio or performance course for the fine arts elective.
- \textit{EPU} SHRM 200 fulfills the Cultural Diversity Elective. (Business scholars need not take an additional E Pluribus Unum course).
- \textit{SEM} Possible Seminar Elective. Students must complete a minimum of three seminars.

The Business Profession Program (BPP)

The Business Profession Program is a non-credit program for business students at Xavier. The program provides students with career education and professional training to help them more smoothly transition into their business career. The program is required for all business students and supplements their academic studies.

Business students will attend workshops and events each semester on topics such as career assessment and selection, resume writing, interviewing, time management, professional etiquette, networking and others. Students will also have the opportunity to meet with business executives to discuss their career goals.

Internship Program

The Williams College of Business offers Internship opportunities to qualified students. Cooperative Education is a structured educational program which integrates classroom learning and practical experience. Work experiences relate to students’ majors and allow them to develop their professional as well as academic skills. Internship opportunities are employer paid and involve faculty participation and evaluation. Students registered for any Internship class will be considered full-time status. Interested students should contact the Coordinator of Internship Programs, The Williams College of Business, 1002 Francis Xavier Way, Cincinnati, Ohio 45207-1221, 513 745-4869, for further details or to apply for the program.

Internship eligibility requirements:

- Have 55 or more earned credit hours; junior status.*
- Have a minimum overall GPA of 2.750 with no repeated course in the major below a "C".*
- Have a formally declared business major or minor.
- Have successfully completed MGMT 301, Managerial Communications, with a "C" or better or have attended the WCB Business Professions Program's "Resume Workshop" and "Interviewing Workshop."

* May be waived in certain circumstances, consult the internship director.

Williams College of Business Centers

Center for International Business

The Center for International Business builds international relationships with multi-national corporations and educational institutions that will allow for unique opportunities for WCB students and faculty.

The CIB provides expertise and resources to facilitate the offering of innovative and specialized international business study programs and internship opportunities that enhance our students' academic and professional development.

The programs are designed to equip our students with a global mindset, cultural sensitivity, and real-world problem solving capabilities that would help them become valuable assets to the organizations that they would serve upon graduation.

Cintas Institute for Business Ethics

The Cintas Institute for Business Ethics focuses on helping students and other Xavier stakeholders recognize and deal with ethical and values-related issues in the workplace. To that end, the Institute sponsors ethics-related programs, workshops and fellowships. It facilitates graduate and undergraduate students, and other stakeholders such as the business community, to have increased moral courage to "do the hard right, as opposed to the easy wrong." The Institute also helps faculty members increase their exposure and confidence in the areas of business ethics and social responsibility, and serves as a resource for business and community stakeholders.
The Sedler Family Center for Entrepreneurship and Innovation

The Sedler Center develops entrepreneurial leaders who seek opportunities, act resourcefully, think creatively and lead ethically to make a difference in their organizations in the world.

Xavier Leadership Center (XLC)

The Xavier Leadership Center combines Xavier faculty experts with experienced business professionals - executives, practitioners, teachers, thinkers and researchers, to create a unique team of experts who delivers public and customized development programs to professionals in the workplace.

These programs provide the skills needed to succeed, as well as invaluable consulting and coaching services, to organizations looking to take their business to the next level. In addition to gaining knowledge and skills, XLC offers industry recognized certificates programs and has partnered with the Williams College of Business to offer graduate certificate programs to organizations privately.

Honors Curriculum

University Scholars and Business Scholars Program

Business students in the University Scholars program may also elect to participate in the Business Scholars Program. The program provides advanced coursework in economics, finance, management and business law.

Like the University Scholars program, students take specific classes - designated as "honors" sections-in the business curriculum. The classes fulfill classes required of all business majors. Honors courses are smaller in size and focus more attention on in-depth analysis, critical thinking, discussion and writing. Business scholars follow the same curriculum guidelines as all other University Scholars.

Beyond that, business scholars must take four business courses at honors level. Many of the business honors sections will also serve as Honors Seminars, another requirement in the University Scholars program.

Requirements for Business Scholars Program

Students must complete all University Scholars requirements, plus:

1. Micro- or Macroeconomic Principles (ECON 200 and/or ECON 201) at honors level.
2. Managerial Behavior (MGMT 300) at honors level (seminar course).
3. Business Finance (FINC 300) at honors level (seminar course).
4. Legal Environment (BLAW 300) at honors level (seminar course and E/RS Focus Elective).

Scheduling Notes:

• Consult the "Undergraduate Core Curriculum" requirements of the Catalog or website.
• * Scholars must take one history course at honors level. Scholars must also take either ECON 200 or ECON 201 at honors level.
  ◦ Beyond THEO 111 and PHIL 100, scholars must also take one course in either area at honors level.
  ◦ Student must take either STAT 210 or second science elective at honors or major level.
• ** Students must demonstrate intermediate foreign/second language proficiency (202 level or above).
• *** BLAW 300 at honors level also fulfills E/RS Focus Elective requirement.
• **** Students must complete a studio or performance course for the fine arts elective.
• EPU SHRM 200 fulfills the Cultural Diversity Elective. (Business scholars need not take an additional E Pluribus Unum course).
• SEM Possible Seminar Elective. Students must complete a minimum of three seminars.

| Freshman Year | 31 hours |
| Sophomore Year | 30 hours |
| Junior Year | 33 hours |
| Senior Year | 30 hours |
| Total Hours | 124 credit hours |

Minors

Business Minor

This minor is available to all undergraduate non-business majors as it provides students with an introduction to business. Students gain exposure to a variety of business disciplines and topics.

20-21 total credit hours are required, as follows:
18 hours of specific business courses:

- ACCT 200 - Introductory Financial Acct
- ECON 200 - Microeconomic Principles
- FINC 300 - Business Finance
  - INFO 200 - Managing Information Technology
- MKTG 300 - Principles of Marketing
- MGMT 300 - Managerial Behavior

2-3 hours of a business elective course are also required for the minor:

(All prerequisites for elective courses must be met)

Courses typically chosen as an elective are:

- ACCT 201 - Introductory Managerial Acct
- BLAW 300 - Legal Environment
- ECON 201 - Macroeconomic Principles
- ECON 300 - Intl Trade & Bus Environment
- MGMT 301 - Managerial Communications
- SHRM 200 - Human Resources In a Diverse S

Note(s):

- A 2.000 cumulative average must be attained in these courses.
- At least half of these credit hours must be taken at Xavier.

Accountancy

Bachelor of Science in Business Administration

Accounting, B.S.B.A.

The Department of Accountancy offers the Bachelor of Science in Business Administration (BSBA) degree in Accounting. Also, it offers a Master of Science in Accounting (MS) and two combined undergraduate/graduate degree options leading to either a BSBA and an MS or a BSBA and an MBA. These combined programs are designed to provide the student with an undergraduate and graduate degree while meeting the law in effect in most states that requires 150 semester credit hours of education to become a licensed Certified Public Accountant (CPA). Eligible students are allowed to begin graduate coursework during their senior year.

The BSBA in Accounting is a four-year program that may be a terminal degree for students interested in careers in corporate, governmental and not-for-profit accounting. For CPA candidates the four year program can be combined with additional undergraduate coursework to fulfill the 150-hour requirement. Elective internship experiences are available to undergraduate and graduate students.
Requirements for the BSBA Accounting Major

Undergraduate core curriculum requirements:

48-63 Credit Hours dependent on courses taken, including

Mathematics:

- MATH 150 - Elements of Calculus I
- STAT 210 - Statistics For Business I

Business core requirements:

42 hours
A 2.00 grade point average must be attained in the business core. At least half of the 42 total credit hours must be taken at Xavier.

- ACCT 200 - Introductory Financial Acct
- ACCT 201 - Introductory Managerial Acct
- BLAW 300 - Legal Environment
- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles
- ECON 300 - Int'l Trade & Bus Environment
- FINC 300 - Business Finance
- INFO 120 - Introduction to Business Tech
- INFO 220 - Mgmt of Info Tech
- MGMT 300 - Managerial Behavior
- MGMT 301 - Managerial Communications
- MGMT 302 - Quality & Product in Operation
- MKTG 300 - Principles of Marketing
- STAT 211 - Statistics For Business II
- SHRM 200 - Human Resources In a Diverse S

Major Requirements:

25 hours of specific accounting courses above the business core:

- ACCT 304 - Acct Info Systems
- ACCT 307 - Fin Actg & Reporting I
  - ACCT 308 - Financial Actg & Reporting II
• ACCT 309 - Financial Actg & Reporting III
- ACCT 311 - Introduction to Taxation
- ACCT 490 - Auditing

Choose 2 of the following:

• ACCT 412 - VITA II
• ACCT 415 - Nonprofit and Govt Acct
• ACCT 425 - Cost Accounting
• ACCT 485 - Financial Modeling

Electives:

• 3 hours of business electives.

Note(s):

• The BSBA degree program typically requires 121 total credit hours. A 2.000 grade point average (GPA) must be attained overall, in the business core and the accounting major.
• Ethical issues and professional responsibilities of accountants are integrated throughout these courses.
• Any course taken at another institution to fulfill an accounting major requirement must be from an AACSB accredited business school and approved by the department. Approval should be obtained in advance to insure transfer credit.
• The business elective can be fulfilled by taking ACCT 303 Internship / Accounting Junior, ACCT 312 Volunteer Income Tax Assistance I, or ACCT 403 Internship / Accounting Senior as well as the two accounting electives not chosen above or a non-business core course from another discipline.

B.S.B.A. Accounting

This block serves as a guideline for progress toward a degree. Note that the following schedule should only be followed by a student who does not plan to complete the requirements to be eligible to take the CPA exam. See your academic advisor.

Freshman Year

First Semester

• MATH 140 - Concepts of Calculus (3)
• ENGL 101 - English Composition or ENGL 150 - Rhetoric (3)
• PHIL 100 - Ethics as Intro. to Philosophy (3)
Second Language I (3)
CORE 100 - First year seminar (3)
CORE 101 - First year Co-Curricular (0)
BUAD 101 - The Business Professions I (0)

Total (15)

Total (15)

Junior Year

First Semester

- ACCT 307 - Financial Accounting & Reporting I (3)
- ACCT 311 - Introduction to Taxation (4)
- FINC 300 - Business Finance (3)
- MGMT 300 - Managerial Behavior (3)
- MGMT 301 - Managerial Communications (2)
- BUAD 301 - The Business Profession III (0)

Total (15)

Second Semester

- ACCT 308 - Financial Accounting & Reporting II (3)
- ACCT - Accounting Required Elective or VITA I (3)
- ECON 300 - Int'l. Trade & Business Environment (3)
- ENGL 205 - Literature and Moral Imagination (3)
- MKTG 300 - Principles of Marketing (3)
- BUAD 302 - The Business Profession II (0)

Total (16)

Senior Year

First Semester

- ACCT 309 - Financial Acct. & Reporting III (3)
- ACCT - Accounting Elective or Auditing (3)
- BLAW 300 - Legal Environment (3)
- MGMT 302 - Quality and Productivity in Operations (3)
- Writing Intensive Elective (3)
- BUAD 401 - The Business Profession IV (0)
Second Semester

- Accounting Elective or Auditing (3)
- General Elective or VITA I or VITA II (3)
- Creative Perspectives Elective (3)
- Humanities Elective (3)
- BUAD 402 - The Business Profession IV (0)

Total (12)

Scheduling Notes:

- All students must complete an oral communication, writing-intensive and quantitative reasoning flagged course. Many are included within the business core or major.
- Approved study abroad courses may be substituted for 201-level language
- Take six hours of science - but must include at least 3 hours of Scientific Perspectives Electives and 3 hours of Natural Sciences Electives (such as BIOL, CHEM or PHYS)
- Business students must take ECON 200 as the Social Science Elective
- Humanities elective is fulfilled by any Literature (except 205), CLAS, HIST 200+, THEO 300+, PHIL 300+ (but cannot also double count as ERS).

Master of Science

Accountancy, M.S.

The Master of Science in Accountancy is designed to provide students with the competencies necessary to begin careers as outstanding professional accountants. Graduates of the program will demonstrate competency in the primary functional areas of accountancy: financial accounting, managerial accounting, audit, taxation, and commercial law. Students will complete intensive and challenging coursework to prepare them for careers in assurance, tax, financial accounting, managerial tax accounting, and advisory services. They will have a solid understanding of the impact of complex accounting issues on the organizations they serve as well as the impact to both internal and external stakeholders.

Curriculum

Students must have completed the following: ACCT 300 Intermediate Financial Acct I and ACCT 301 Intermediate Financial Acct II or their equivalent, prior to admission to the program. In addition, students admitted to the program must have completed a course in the areas listed below prior to graduation from the MACC program.

- ACCT 311 Introduction to Taxation (cross-listed as MACC 511)
- ACCT 321 Cost Accounting or ACCT 550 Managerial Accounting
- ACCT 421 Auditing (cross-listed as MACC 542)
- ACCT 495 Analysis of Accounting Systems (cross-listed as MACC 595)
Students may take up to three of the four courses listed above in the free elective component of the MACC curriculum. More curriculum details that depend on the undergraduate degree of the applicant are described below.

Students with an **undergraduate degree in accounting** will be required to complete 30 credit hours from the three primary program components:

- Six required MACC courses (two may be cross-listed).
- One MACC elective course.
- Three other graduate course electives as listed in a later section.

Students with an **undergraduate degree in business (other than accounting)** will be required to complete about 42 credit hours:

- Two courses in Intermediate Financial Accounting (pre-requisite for conditional admission, undergraduate credit)
- Six required MACC courses (two may be cross-listed).
- One MACC elective course.
- Three other graduate course electives as listed in a later section. Students may use up to three of these electives to fulfill the four cross-listed undergraduate accounting course requirements.
- One graduate-only course (ACCT 550) to complete the four cross-listed undergraduate accounting course requirements.
- One additional course to complete the graduate-only seven course requirement.

Students with a **non-business undergraduate degree** will be required to complete about 48 credit hours:

- Two courses in Intermediate Financial Accounting (pre-requisite for conditional admission, undergraduate credit).
- Six required MACC courses (two may be cross-listed).
- One MACC elective course.
- Three other graduate course electives as listed in a later section. Students may use up to three of these electives to fulfill the four cross-listed undergraduate accounting course requirements.
- One additional course to satisfy the four cross-listed undergraduate accounting course requirements.
- Three specific graduate-only business courses:
  - Economics (ECON 550)
  - Finance (FINC 550)
  - Statistics (STAT 500)

**CPA Exam Eligibility Considerations**

Students without a business undergraduate degree may need additional courses to meet the criteria to be eligible to take the CPA exam in Ohio. In general 150 semester credit hours are required to take the CPA exam. For CPA exam candidates with an undergraduate degree only, 30 semester hours of accounting are required in addition to 24 hours of general business courses. Alternatively, CPA exam eligibility can be met by completing 150 semester hours of coursework including a master's degree in accounting. It is important to note that CPA exam eligibility criteria vary on a state by state basis. Eligibility criteria for each state can be found at [www.nasba.org](http://www.nasba.org). Ohio requirements can be found at [http://acc.ohio.gov/CPAExam.aspx](http://acc.ohio.gov/CPAExam.aspx).

**Core Accounting Requirements**

Students are required to complete the six accounting courses listed below. Students who have previously completed an equivalent course may be required to waive the course and replace it with a MACC elective. Students may not take courses marked with an * for credit if they have an undergraduate equivalent.

- MACC 515*- Nonprofit and Governmental Accounting (cross-listed with ACCT 315)
- MACC 531*- Advanced Financial Accounting (cross-listed with ACCT 431)
- MACC 611 - Corporate Income Tax Reporting and Compliance
- BLAW 620 - Commercial Law and Professional Ethics
- MACC 622 - Fraud Examination
- MACC 625 - Current Topics in Accounting Practice
MACC Accounting Electives

Students are required to complete one of the following accounting electives:

- MACC 603 - Accounting Internship (subject to approval)
- MACC 616 - Taxation of Flow-Through Entities
- MACC 632 - Advanced Managerial Accounting
- MACC 690 - Corporate Governance (cross-listed with BUAD 690)
- MACC 696 - Special Topics in Accounting I
- MACC 697 - Special Topics in Accounting II
- MACC 695 - Individual Reading and Research

Free Electives

Students must complete nine hours of free electives from the courses listed below or remaining courses not yet taken in the MACC course electives section above. Students may not take courses marked with an * for credit if they have an undergraduate equivalent.

- MACC 511*- Auditing Concepts and Practices (cross-listed with ACCT 311 and taken for three graduate credit hours)
- MACC 542*- Auditing Concepts and Practices (cross-listed with ACCT 421)
- MACC 595*- Analysis of Accounting Systems (cross-listed with ACCT 495)
- ACCT 550 - Managerial Accounting
- ECON 550 - Managerial Economics
- FINC 550 - Fundamentals of Finance (test waiver option available)
- FINC 600 - Managerial Finance
- FINC 602 - Investment Management
- FINC 607 - Portfolio and Hedge Fund Construction
- FINC 621 - Options and Futures Markets
- FINC 632 - Multinational Financial Management
- FINC 640 - Purchase, Sale and Valuation of Closely-Held Entities
- FINC 645 - Mergers and Acquisitions
- FINC 651 - Money and Capital Markets
- FINC 663 - Fixed Income and Debt Management
- FINC 664 - Bond Fund
- FINC 675 - Real Estate Finance
- FINC 684 - Financial Modeling
- INFO 550 - Business Information Systems
- INFO 626 - Knowledge Management
- INFO 655 - Business Intelligence
- INFO 672 - Computer and Network Security
- INFO 674 - Database Management
- INFO 680 - Introduction to Data Mining for Managers
- STAT 500 - Business Statistics

NOTE: Students who do not have an undergraduate degree in accounting will need to complete courses in introductory taxation, cost accounting, auditing, and accounting information systems. The following courses fulfill these requirements: MACC 511, ACCT 550, MACC 542, and MACC 595.

NOTE: Students who do not have an undergraduate degree in business will need to enroll in ECON 550, FINC 550, and STAT 500 as part of their degree. Additional courses will need to be selected as electives.
Schedule (Accounting Undergraduate Students)

Fall Semester

• MACC 515 Nonprofit and Governmental Accounting
• MACC 622 Fraud Examination
• MACC 625 Current Topics in Accounting Practice
• Free Elective

Spring Semester

• MACC 611 Corporate Income Tax Reporting and Compliance
• MACC 631 Advanced Financial Accounting
• MACC Elective
• Free Elective

Summer Semester

• BLAW 620 Commercial Law and Professional Ethics
• Free Elective

Dual Degree

Accountancy Combined Undergraduate and Graduate Program,
B.S.B.A./M.S. or B.S.B.A/M.B.A.

These are five year programs that allow students to enroll in graduate studies during their senior year of undergraduate coursework. Many students with advanced placement credit or that enroll in summer courses or take 18-hour course loads complete these programs in less than five years. Completion of a combined program enables a student to earn a BSBA in Accounting and either an M.S. in Accountancy (MSA) or an MBA while satisfying the 150-hour requirement to be eligible to take the CPA exam. Students are allowed to seek admission to the MSA or the MBA program when they have one year remaining to complete their BSBA in Accounting. Those accepted may begin taking a limited number of graduate courses while completing their undergraduate degree. (Note: either of these programs will allow students to meet the requirements to sit for the CPA exam in the state of Ohio. Students planning to practice in other states should become familiar with the requirements in that state)

Requirements:

• Same as the requirements for Accounting, B.S.B.A. except that six hours of MS or MBA credit may be taken in the senior year under the undergraduate tuition which covers up to 18 credit hours of classes in an academic term.
• Same as requirements for all MS and MBA students.
• The Nine credit hours of graduate electives required in the MBA program may include one or more courses in Accounting/Taxation, beyond ACCT 550.

B.S.B.A. Accounting and MS or MBA

This block serves as a guideline for progress toward a degree. Through a combination of advanced placement credit, summer work and/or taking 18 hours per semester, many students complete their program in four or four and one-half years. See your academic advisor.

Freshman Year

First Semester

• MATH 140 - Concepts of Calculus (3)

First Semester

• BLAW 550 - Business Ethics and Law (3)
• MGMT 550 - Strategy and Organizations (3)
• ECON 550 - Managerial Economics (3)
• INFO 550 - Business Information Systems (3)
• FINC 550 - Business Finance (3)

Total (15)

Second Semester

• BUAD 550 - International Business or any other international business elective (3)
• Elective (3)
• Elective (3)
• MBA Capstone Requirement (3)
Scheduling Notes:

- Consult the "Undergraduate Core Curriculum " requirements of the Catalog or website.
- *SHRM 200 fulfills the Core Curriculum Diversity Requirement Elective.
- *BLAW 300 fulfills the Ethics, Religion and Society (E/RS) focus.
- *MGMT 301 fulfills the Oral Communication Flag
- *FINC 300 fulfills the Quantitative Flag
- The BSBA degree program typically requires 121 total credit hours. A 2.00 grade point average (GPA) must be attained overall, in the business core and the accounting major.

Business Administration

Economics

Bachelor of Science in Business Administration

Economics, B.S.B.A.

The Department of Economics offers the Bachelor of Science in Business Administration degree in Economics. The Department also offers a Bachelor of Arts in Economics degree through the College of Arts & Sciences.

A degree in Economics provides the student with an understanding of economic issues pertaining to individual firms, industries, the public sector, and the overall economy. The study of economics, supported by the knowledge of Mathematics and Statistics, emphasizes both analytic reasoning and a thorough knowledge of economic institutions. Economics majors analyze such topics as optimal decision-making, market efficiency, profit maximization, cost-benefit analysis, inflation, unemployment, international trade, financial markets, forces of globalization, and governmental economic activity. The program has proven useful to people who have moved into positions in many of the functional areas of business and government. It is also excellent training for graduate study in business, in law, and in economics itself.

Requirements for the Economics Major

Mathematics:

- MATH 150 - Elements of Calculus I or
- MATH 170 - Calculus I
- STAT 210 - Statistics For Business I
Social science:

• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles

Undergraduate core curriculum requirements:

48-63 Credit Hours dependent on courses taken, See Undergraduate Core Curriculum

Business core requirements:

Including:

• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles
• STAT 211 - Statistics For Business II
• ECON 300 - Int'l Trade & Bus Environment

Major Requirements:

18 total credit hours required, as follows:

21 hours of economics courses above the business core:

• ECON 305 - Microeconomic Analysis
• ECON 306 - Macroeconomic Analysis
• ECON 307 - Empirical Analysis In Economic
  ◦ 12 hours of economics electives, at least 6 hours of which must be at the 400-level.

Electives:

• 3 hours of business electives.
• 3 hours of general electives.
Required Capstone Project

All economics majors are required to take Capstone Project. Each student must orally present a paper written in a 400-level economics course to a forum established by the department. Currently, Capstone Project is listed as ECON 491 which carries 0 credit. Starting Fall 2016, Capstone Project (ECON 492 and 493 combined) will be a 3 credit hour course split into ECON 492 and 493.

Note(s):

• A 2.000 cumulative average must be attained in the economics courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

B.S.B.A. Economics

- ECON 307 fulfills the quantitative flag.
Minors

Strategic Human Resource Management Minor

The Department of Management, Entrepreneurship and Strategic Human Resources offers the minor in Strategic Human Resources Management.

This minor is available to any undergraduate student. It is designed to give business and non-business majors skills that will enhance their attractiveness to employers upon graduation. Since all managers are people managers, the Strategic HRM minor benefits all future managers. It also provides an opportunity to pursue a business specialty in HR. Strategic HRM concerns the total activity of an organization, business, or firm as these activities relate to the work force. Such activities include employment law, recruiting and selection, training and development, performance management, compensation and benefits, workplace diversity, and labor relations.

Outside of the classroom, students expand their knowledge by participating in a part-time or full-time internship in human resources. Credit and non-credit opportunities are available.

Requirements for the Strategic Human Resource Management Minor

15 total credit hours are required, as follows:

12 hours specifically required:

- SHRM 200 - Human Resources In a Diverse S
- SHRM 345 - Compensation
- SHRM 360 - Staffing
- SHRM 370 - Training and Development

3 hours from electives:
• SHRM 303 - Human Resources Internship I or SHRM 403 - Human Resources Internship II
• SHRM 302 - Labor Relations
• SHRM 309 - Change Management
• SHRM 325 - International Human Resources
• SHRM 404 - Advanced Topics In SHRM
• SHRM 495 - SHRM Capstone

Note(s):

• No more than three (3) hours may double count between MGMT major and SHRM minor (excluding SHRM 200, which is fulfilled in the business core; this is not considered double counting).
• A 2.000 cumulative average must be attained in the courses of the minor.

Finance

Bachelor of Science in Business Administration

Finance, B.S.B.A.

The Department of Finance offers the Bachelor of Science in Business Administration in Finance.

This degree program develops an appreciation of financial management and financial operation. Everyone majoring in Finance must take courses designed to acquaint him or her with the various financial records of the firm, the character and appraisal of corporate securities, and the financial techniques applicable to the various phases of the discipline. In addition, the student may choose elective subjects.

Requirements for the Finance Major

Undergraduate core curriculum requirements:

See Core Curriculum
Business Core Requirements:

42 hours includes

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Major Requirements:

21 total credit hours required, as follows:

15 hours of required finance courses:

- FINC 350 - Financial Statement Analysis or
- ACCT 306 - Financial Reporting & Analysis II
- FINC 365 - Investments
- FINC 401 - Intermediate Financial Mgmt
- FINC 485 - Financial Modeling
- FINC 488 - Applied Financial Strategy or
- FINC 492 - Portfolio Management II or
- FINC 495 - Cases & Problems in Finance

6 hours from a finance major elective:

- FINC 306-499 (except 403) (refer to Course Descriptions.)

Electives:

- 3 hours of business electives.

Note(s):

- A 2.500 average must be attained in these courses of the major.

• MGMT 302 - Quality & Product in Operation

Total (15)

Scheduling Notes:

DCR*SHRM 200 counts as DCR elective
ERS*BLAW 300 counts as ERS elective (also DCR)
1 Take the First Year Seminar in one of the two semesters and THEO 111 in the other
2 Business students must take ECON 200 as Social Science Elective
3 Take INFO 120 in fall or spring semester
4 Humanities include any Literature (except 205), CLAS, HIST 200+, THEO 300+, PHIL 300+ (but cannot also double count as ERS)
5 Students complete required Financial Planning module
+ May double count with other courses

Minors

Finance Minor

The Minor in Finance is designed to give students exposure to additional finance coursework and allows them to pursue the credential signifying successful completion of this coursework.
15 credit hours are required:

6 hours from:

- ACCT 200 - Introductory Financial Acct
- FINC 300 - Business Finance

3 hours from:

- FINC 365 - Investments
- FINC 401 - Intermediate Financial Mgmt

6 hours of upper division electives from:

- FINC 306 - 499 (except FINC 403)

Notes:

- A minimum cumulative grade point average of 2.50 must be attained in the courses of the minor.
- At least half of these credit hours must be taken at Xavier.

Interdisciplinary Programs

Xavier University offers a number of programs which are interdisciplinary in nature, with curriculums which cross academic departments and colleges.

Sustainability

Xavier offers four interdisciplinary majors specifically focused on the subject of sustainability. These include the Bachelor of Arts in Land, Farming and Community, B.A.; the Bachelor of Arts in Economics, Sustainability and Society, B.A.; the Master of Arts in Urban Sustainability, M.A., all offered through the College of Arts and Sciences and the BSBA in Sustainability: Economics and Management, B.S.B.A. offered through the Williams College of Business.

Both political and religious leaders recognize the importance of promoting sustainability as part of policy, law, business practice, and daily life if we are to protect our planetary home and the welfare of future generations. Students in the Sustainability programs will be prepared to develop sustainable practices and policies in business, non-profits, and government agencies by integrating the study of business and economic principles with ecological and environmental processes. Land students will focus on the science and art of agriculture including food production and distribution within the context of a Jesuit education. All programs involve experiential educational experiences including field trips, practicums, internships, and capstone projects with organizations in the community. The Master of Arts prepares graduates to tackle issues in urban sustainability by bringing together students and faculty from the fields of business, environmental science, public policy, and urban planning and design.
Bachelor of Science in Business Administration

Sustainability: Economics and Management, B.S.B.A.

The Bachelor of Science in Business Administration, Sustainability: Economics and Management will be a 127 credit hour program, with a combination of classroom-based and experiential on-site learning, and key inter-disciplinary components, in the context of a Jesuit education. Sustainability is typically defined as "development that meets the needs of the present without compromising the ability of future generations to meet their own needs," and economic sustainability involves the integration of economic and organizational goals with environmental and social goals. This degree will allow student to holistically investigate the complex sustainability challenges of our era, where the economy and the organizations associated with it are seen as a component of the ecosystem, not vice versa. Students will be encouraged to imagine and assist in creating new ways of thinking about sustainability in our economies and organizations. Values-based and ethical issues will be regularly examined, including social justice questions related to distribution of economic products and resources, both within and across generations.

Requirements for the Sustainability: Economics and Management Major

Core Curriculum

Consult the Undergraduate Core Curriculum requirements of the Catalog.

Major Requirements:

- ECON 305 - Microeconomic Analysis
- ECON 320 - Natural Resource Economics
  - ECON - Environment, Economics and Policy
  - ECOS Capstone: Experiential Integrative Project
- MGMT 300 - Managerial Behavior
- MGMT 301 - Managerial Communications
- MGMT 302 - Quality & Product in Operation
- MGMT 309 - Change Management
  - MGMT 322 - Managing for Sustainability
- MGMT 333 - Global Supply Chain Mgmt
- SHRM 200 - Human Resources In a Diverse S

Recommended Business Elective:

Choose one of the following:

- BIOL 398 - SEM: Environmental Studies
- ECON 306 - Macroeconomic Analysis
• ECON 307 - Empirical Analysis In Economic
• ECON 315 - History of Economic Thought
• ECON 341 - Econ of Developing Countries
• ECON 420 - Urban and Regional Economics
• ECON 440 - Public Economics
• ECON 450 - International Economics
• ECON 460 - Labor Economics
• ECON 495 - Markets, Strategy & Rivalry
  ◦ ECON - Sustainable Economic Development
• ENTR 305 - Creativity & Innovation
• ENTR 311 - New Venture Planning
  ◦ ENTR - Entrepreneurial Cooperatives
• MGMT 314 - Leadership
• MGMT 325 - International Management
  ◦ MGMT 385 - Project Management
  ◦ Internship: Junior/Senior

Management, Entrepreneurship, and Human Resources

Bachelor of Science in Business Administration

Entrepreneurial Studies, B.S.B.A.

The Department of Management and Entrepreneurship offers the Bachelor of Science in Business Administration in Entrepreneurial Studies.

Xavier’s undergraduate major in Entrepreneurial Studies is designed to help prepare students to seek opportunities, act resourcefully, think creatively, and lead ethically to make a difference in their organizations and the world, our majors will learn to:
1. Provide progressive leadership for existing family businesses
2. Start their own businesses, and/or
3. Pursue careers in creating and managing innovation and leading entrepreneurship in non-profits and small to large organizations in this global market economy.

The strength of our free enterprise economy depends heavily on an entrepreneurial mindset in those individuals who identify new product or service opportunities, develop workable plans for capitalizing on those opportunities, and assume personal risk and take the initiative in creating and then managing the new or expanded enterprises which those plans make possible.

Requirements for a Major in Entrepreneurial Studies

Since successful entrepreneurs and those with an entrepreneurial mindset need to have an integrative and interdisciplinary set of skills, the Entrepreneurial Studies major is interdisciplinary in nature, providing advanced course work in all business functions, specialized course work in creativity and innovation, business planning and a field experience, and a required entrepreneurial work internship.

Undergraduate core curriculum requirements:

Undergraduate Core Curriculum

Mathematics:

• MATH 150 - Elements of Calculus I
• STAT 210 - Statistics For Business I

Social science:

• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles

Business Core Requirements:

42 hours includes

• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles
Major Requirements:

21 total credit hours required, as follows:

12 hours specifically required:

• ENTR 305 - Creativity & Innovation
• ENTR 311 - New Venture Planning
• ENTR 303 - Co-Op Education/Entrep St: JR or
  ENTR 403 - Co-Op Education/Entrep St: SR
• MGMT 495 - Strategic Management

3 hours as Marketing elective:

• MKTG 302 - Marketing Research
• MKTG 345 - Integrated Mktg. Comm
• MKTG 361 - Professional Selling

6 hours as a major elective:

• Select from a list of approved courses in FINC, INFO, MGMT, MKTG or SHRM.

Electives:

• 3 hours of business electives.
• 3 hours of general electives.

Note(s):

• All students declaring a major in Entrepreneurial Studies must consult the Director of the Xavier Entrepreneurial Center at the time they declare.
• Please note that double majors (students majoring in another business discipline beside ENTR) should take electives only with the approval of the department since double-counting of courses is not permitted.

International Business, B.S.B.A.

The Dept of Management and Entrepreneurship offers the degree of Bachelor of Science in Business Administration in International Business. The world is a global marketplace creating great opportunities for careers in business, trade, government and non-government organizations (NGOs) for people with good business and technical skills, as well as cross-cultural and foreign language abilities.

- Living and working in the U.S. for a company that sends you abroad for business travel, or
- Working for a company that sends you abroad to work for a number of years at a time.

The International Business major is an interdisciplinary program that provides you with skills and knowledge to pursue a long-term career in international business. Courses and faculty come from a number of disciplines across the Williams College of Business. Because companies often provide foreign assignments to employees who are trained in their domestic operations, we recommend considering a second major such as marketing, finance, information systems, or accounting; if you can't do that, take a few targeted courses in one discipline.

Requirements for the Major in International Business
Undergraduate core curriculum requirements:

Undergraduate Core Curriculum

Mathematics:

• MATH 150 - Elements of Calculus I
• STAT 210 - Statistics For Business I

Social science:

• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles

Foreign/Second Language:

• Through the 202 course level (the Intermediate level).

Business core requirements:

42 hours includes

• ECON 200 - Microeconomic Principles
• ECON 201 - Macroeconomic Principles

Major Requirements:

21 total credit hours required, as follows:

12 hours of Global Business Skills:

• MKTG 320 - International Marketing
• MGMT 325 - International Management
• FINC 476 - International Finance
and one of the following:

- SHRM 325 - International Human Resources
- ECON 450 - International Economics
- ECON 341 - Econ of Developing Countries
- BUAD 303 - Co-op Education/Intl Bus:JR or
- BUAD 403 - Co-op Education/Intl Bus:SR

3 hours of International Business Capstone:

- BUAD 495

6 hours of Global Cultural Knowledge:

- A history course — not used to satisfy university core requirements — that addresses the history of a country or region of the world except the U.S.
- A modern language course at the 300-400 level in the language used to fulfill the modern language skill requirement of the major.
- A course in a modern language that is not being used to fulfill the modern language skill requirement in the major.

Electives:

- 3 hours of business electives.

Note(s):

- A 2.000 cumulative average must be attained in the economics courses.

International Experience

Students engage in a summer-long or semester-long study-abroad or work abroad in a country other than one's native country. (Two additional courses of foreign language generally at the 300-level or above, may be substituted for the international experience. To pursue this option, see the international business advisor; these cannot also be counted toward the International Cultural Elective.)

To help plan your courses, study- or work-abroad experience, and future career, be sure to meet with one of the international business advisors.

Management, B.S.B.A.

The Department of Management and Entrepreneurship offers the Bachelor of Science in Business Administration in Management.

The department offers a complete package of an integrated skill set for future managers and leaders to improve organizations and society. Our curricular objectives include: rapid, continual immersion into business practice; engaging rigorous and applied educational experience; transition into fulfilling careers; and lifelong learning and leadership. Our majors:

1. Learn the language of Management and Entrepreneurship used in the business world.
2. Are given an understanding for the significance of variation in human behavior in organizations.
3. Develop self-awareness, along with capabilities in problem solving, decision making, creativity, and communication.
4. Receive preparation for a variety of roles, including leader, entrepreneur, project or functional manager, and supply chain manager.
5. Are encouraged to approach business problems in an ethical, socially responsible manner.

This degree is designed for individuals who have career aspirations as management trainees, personnel trainees, in business education, who plan to attend law school, or graduate studies in business. Students interested in teaching certification in business should consult with the chair of the Education Department for certification requirements.

Requirements for a Major in Management

Undergraduate core curriculum requirements:

See Undergraduate Core Curriculum

Mathematics:

- MATH 150 - Elements of Calculus I
- STAT 210 - Statistics for Business I
Social science:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Business core requirements:

42 hours includes

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Major Requirements:

21 total credit hours required, as follows:

9 hours in specific management courses:

- MGMT 309 - Change Management
- MGMT 385 - Project Management
- MGMT 495 - Strategic Management

12 hours of major electives:

Select from

- MGMT 310-499 (Refer to Course Descriptions.)
- ENTR 311 - New Venture Planning
- ENTR 341
- MGMT 305 - Creativity & Innovation or
- ENTR 305 - Creativity & Innovation

Electives:
3 hours of business electives, with suggested courses of:

- SHRM 321
- SHRM 495

- MGMT 303 - Co-Op Education/Management: Jr or
- MGMT 403 - Co-Op Education/Management: Sr (Internship)

3 hours of general electives.

Note(s):

- A 2.000 cumulative average must be attained in the courses of the major.

Strategic Human Resource Management, B.S.B.A.

The Department of Management. Entrepreneurship and Strategic Human Resources offers the degree of Bachelor of Science in Business Administration in Strategic Human Resource Management.

In today’s increasingly complex business world, there is a need for Human Resources Practitioners or Functional Specialists with well-rounded professional training to be leaders in the ethical and strategically effective employment of people in organizations. Although the primary goal of the program is to provide the professional training necessary for graduates to obtain human resources jobs, the major should be especially appealing to students with broad interests. Reflecting this broad approach, the field of human resources is studied from a strategic approach encompassing a wide range of business areas as well as legal, economic, and political perspectives. The core program provides students the opportunity to take advanced courses that are both theoretical and practical in nature from the human resources functional areas, including staffing, compensation, training and development, change management, international human
resources, and labor relations; additionally, students take the strategic HRM capstone course that emphasizes the strategic importance of HRM in organizational effectiveness and the internal assessment of HRM systems for alignment with organizational goals.

Outside of the classroom, students may expand their knowledge by participating in a part-time or full-time internship in human resources. Credit and non-credit opportunities are available.

Requirements for the Strategic Human Resource Management Major

Undergraduate core curriculum requirements:

See the Undergraduate Core Curriculum in the catalog.

Mathematics:

- MATH 150 - Elements of Calculus I
- STAT 210 - Statistics For Business I

Social science:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Business Core Requirements:

Minors

Entrepreneurship Minor

The Department of Management and Entrepreneurship offers the minor in Entrepreneurship.

This minor is available to business and non-business undergraduate students.

18 total credit hours are required, as follows:

9 hours of required entrepreneurial studies courses:

• ENTR 305 - Creativity & Innovation
• ENTR 311 - New Venture Planning
• MGMT 495 - Strategic Management

6 hours of required business courses:

• ACCT 200 - Introductory Financial Acct
• MKTG 300 - Principles of Marketing (included in the Business Core for WCB students).

3 hours of business:

• BLAW 300 - Legal Environment
• SHRM 200 - Human Resources In a Diverse S or
• ECON 200 - Microeconomic Principles (included in the Business Core for WCB students).
Note(s):

- A 2.000 cumulative average must be attained in the courses of the minor.
- At least half of these credit hours must be taken at Xavier.

International Business Minor

The Department of Management and Entrepreneurship offers the minor in International Business.

This minor is available to undergraduate business students, since all the prerequisites must be met. This includes the entire Business Core, including ECON 200 and ECON 201

15 total credit hours are required, as follows:

6 hours from two required courses:

- MKTG 320 - International Marketing
- FINC 476 - International Finance

6 additional hours of upper division business courses:

- ECON 341 - Econ of Developing Countries
- ECON 450 - International Economics
- MGMT 325 - International Management
- SHRM 325 - International Human Resources

3 hours of approved electives, including:

- COMM 224 (3)
- FREN 315 - Business French I
- GERM 315 - Business German
- SPAN 306 - Business Spanish
  - Or courses from HIST & POLI.
Management Information Systems

Bachelor of Science in Business Administration

Business Analytics, B.S.B.A.

The BSBA in Business Analytics program educates and develops future data analysts. Graduates will emerge with the necessary skills to immediately contribute to businesses in roles which require training in and an aptitude for data analysis. Through the utilization of real-world data sets, students will gain the skills, confidence and expertise required to succeed in today’s data-driven business world. This program will produce high-quality students who are not only analytically sound but also ethically responsible in their use of data. Ultimately, the outcome of the program will be students who are able to help businesses make better decision through data analysis and statistical modelling.

• Business majors must take ECON 200 as Social Science Elective
• Students can take any six hours of science but must include at least 3 hours of Natural Science, such as BIOL, CHEM or PHYS.

Information Systems, B.S.B.A.

The Department of Management Information Systems offers the Bachelor of Science in Business Administration degree in Information Systems.

The objectives of the Information Systems program are to facilitate good management by:

1. Providing specialized professional training in information systems principles and techniques.
2. Stimulating the application of sound information systems to the wide range of business activities.
3. Aiding in the development of the student’s intellect, communication skills, and analytic ability to prepare for the dynamic field of computer-information systems.

This degree is designed for individuals who aspire to a career as an analyst, or information systems manager or programmer. The major is conducive to a double major or as a minor to another major in the University since technology is critical to any profit or non-profit business.
Requirements for the Information Systems Major

Undergraduate core curriculum requirements:

48-63 Credit Hours dependent on courses taken, including

Mathematics:

- MATH 150 - Elements of Calculus I
- STAT 210 - Statistics For Business I

Social science:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Business Core Requirements:

42 hours includes

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Major Requirements:

18 total credit hours required, as follows:

9 hours of information systems courses:

- INFO 358 - Data Modeling and Management
- INFO 360 - Intro to Application Developmt
- INFO 495 - System Development Project
9 hours of major elective:

Select from:
- INFO 304-499 (excluding INFO 403). Students may also choose ACCT495 or FINC 495 at the discretion of course instructors. (Refer to Course Descriptions.)

Electives:

3 hours of business electives:

Preferably an Internship via:
- ENTR 303 - Co-Op Education/Entrep St: JR or
- ENTR 403 - Co-Op Education/Entrep St: SR

Note(s):
- A 2.000 average must be attained in the information systems courses.

TOTAL Minimum Hours Required for Degree: 120 Semester Hours

- A 2.000 cumulative average must be attained in these courses.
- At least half of these credit hours must be taken at Xavier.

Marketing

Bachelor of Science in Business Administration

Marketing, B.S.B.A.

The Department of Marketing offers the degree of Bachelor of Science in Business Administration in Marketing.

Marketing is the activity, set of institutions and processes for creating, communicating, delivering and exchanging offerings that have value for customers, clients, partners and society at large. This is accomplished through marketing research, product planning and pricing, promotion, and distribution. The Marketing major develops an understanding of the concepts, functions and institutions of marketing, an appreciation of consumer orientation, and the ability to analyze marketing problems and formulate marketing policies.

This program is particularly relevant to the student planning a career in sales, advertising, consumer relations, merchandising, brand management, marketing management, marketing research, retailing, services, purchasing, business logistics, small business operations, executive management, consulting, business education, or work in certain government agencies.
Requirements for the Marketing Major

Undergraduate core curriculum requirements:

48-63 Credit Hours dependent on courses taken, including

Mathematics:

- MATH 150 - Elements of Calculus I
- STAT 210 - Statistics For Business I

Social science:

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Business core requirements

42 hours includes

- ECON 200 - Microeconomic Principles
- ECON 201 - Macroeconomic Principles

Major Requirements:

21 total credit hours required (in addition to MKTG 300), as follows:

9 hours of foundations specifically required:

- MKTG 302 - Marketing Research
- MKTG 370 - Consumer Behavior
- MKTG 495 - Mktg Planning & Analysis
12 hours of electives required:

- Select from MKTG 306-494 (except MKTG 403) (Refer to Course Descriptions.)
- INFO 329 - Data Mining can be used.

Electives:

- 3 hours of business electives (business co-op can be included here via MKTG 303 or MKTG 403).
- 3 hours of general electives.

Note(s):

- A 2.000 cumulative average must be attained in these marketing courses.
- The student must earn a grade of "C" or better in MKTG 300 to advance to upper level marketing courses.
- For MKTG 495, a student must complete 9 hours of Marketing course work (above 300) before taking MKTG 495 and must be taken in their last semester. Also, MKTG 302, ACCT 200 and FINC 300 must be completed. MKTG 495 must be taken in the last semester at Xavier.
- STAT 211 must be completed before MKTG 302

• A minimum total hour for an undergraduate degree is 120 hours.
• Total credit hours needed for the business degree (BSBA) is 121-123 hours—depending on your major.
• If students wish to complete two degrees 150 hours is required. A double major in business may be fewer hours.
• Students must take six hours of science—but must include 3 hours of Scientific Perspective electives and 3 hours of Natural Sciences such as BIOL, CHEM or PHYS
• Humanities include any Literature (except 205), CLAS, HIST 200+, THEO 300+, PHIL 300+ (but cannot also double count as ERS).

Master of Science

Customer Analytics, M.S.

The Master of Science in Customer Analytics trains and develops future problem-solving leaders. Through the utilization of real-world data sets, students will gain the skills, confidence and expertise required to succeed in today's information sensitive environment. Students are sought who are analytically curious. Graduates will harness and communicate the full value of large data sets prevalent in today's "big data" business environment. Graduates will review data sets, identify potential problems, and will have awareness of and can identify the correct analytic techniques. They will then effectively communicate results to others with the goal of improving management decision making.

Prerequisites

• INFO 550: Information Technology Management
• STAT 500: Business Statistics
• TUTORIAL: Excel Tutorial - Pearson Higher Education
• TUTORIAL: R-Programming or SAS Programming 1 - completion by 1st semester
• TUTORIAL: Statistics 1 © SAS Institute Inc - completion by Week #12, 2nd semester
• TUTORIAL: Qlik® or Tableau® Data Visualization Workshop - completion by end of 1st year

Course Sequence

30 credit hours are required

Year One

Fall Semester

• MKTG 550 - Marketing Strategy
• INFO 674 - Database Management
Spring Semester

- MKTG 640 - Consumer-Centric Category Mgmt
- INFO 680 - Intro Data Mining for Managers

Summer Semester

- MKTG 664 - Consumer Behavior Theory

Year Two

Fall Semester

- INFO 689 - Data Visualization
- MKTG 602 - Marketing Research

Spring Semester

- MKTG 605 - Applied Multivariate Analysis
- INFO 665 - Spreadsheets Decision Making

Summer Semester

- BUAD 605 - Analytics Practicum

Notes

- 30 Credit Hours in the CORE are required for the degree. Select classes may be substituted if another Graduate Business Degree is present (i.e., MBA may substitute another Marketing elective for MKTG 550-Marketing Strategy, etc.)
MBA Office

Master of Business Administration

Emerging Leaders MBA

The Emerging Leaders MBA (ELMBA) is designed to be a 1-year, full-time, Master of Business Administration program for undergraduates who have recently completed their undergraduate degrees, as well as those with early career experience. It is a cohort program designed for the academically talented individual with a keen interest in experiencing a rigorous MBA program that blends academic challenge, experiential learning, career development, and a team-based learning environment in the Jesuit tradition.

The 39-credit hour program includes nine 3-credit courses and nine hours of electives, which may be focused in a particular subject area or in the experiential learning realm. The program builds upon the academic talents & foundations of students and offers a myriad of "classroom to conference room" avenues such as: international study, internships, consulting projects, business plan development, company visits, and extensive networking.

Classes will be held during the day. The full-time course load, on average, will be between 4-5 classes. The two MBA foundation courses of ACCT 500: Financial Accounting and STAT 500: Business Statistics must be taken before the start of the program. Consult with a MBA advisor before registering for equivalents.

The ELMBA requires a mandatory professional development program that will run throughout the entire course of the program. Professional development programming will take place on Fridays. Participation in a global immersion experience, an internship, the Executive Mentor program, and other experiential opportunities is highly encouraged.

Fall Semester

- BLAW 550 - Business Law and Ethics
- ECON 550 - Managerial Economics
- FINC 550 - Fundamentals of Finance
- MGMT 550 - Strategy and Organizations
- MKTG 550 - Marketing Strategy

Spring Semester

- MGMT 551 - Operational Analysis
- INFO 550 - Business Information Systems
  - ACCT 550: Managerial Accounting
  - International Business: BUAD
  - Experience based Electives (choose one):
    - International Immersion trip over Spring Break OR
    - ENTR 668: Small Business Consulting OR
    - MGMT 654: Project Management
Summer Semester

- Capstone
- Experience based Electives (choose one):
  
  MBA Internship
  ENTR 668: Small Business Consulting
  Independent Study or Research

Evening MBA

The Master of Business Administration Program at Xavier University is designed to meet the educational needs of potential and practicing executives. Xavier's MBA program offers an applied realistic approach to education, utilizing a balanced presentation of relevant theory combined with practical case study. The Xavier MBA is an experience in participative learning: case analyses, lectures, group projects, consulting experiences, technology inclusive assignments and simulations. Faculty expertise, numerous on-ground learning opportunities, and exemplary methods of instruction enable Xavier MBA students to acquire the disciplines and skills of business. Students develop problem-solving and decision-making abilities and the capacity for continued learning, strategic decision making, comprehensive corporate stewardship, and personal ethics & leadership. The Evening MBA program is offered on the main Xavier campus in Norwood, Ohio.

The MBA program is also offered in a 20 month evening cohort format in West Chester, Ohio.

The Xavier MBA program is accredited by The Association to Advance Collegiate Schools of Business (AACSB.edu), an accreditation held by only one-third of the existing MBA programs globally.

MBA program applicants are asked to take the Graduate Management Admission Test (GMAT) prior to admission. Test information may be obtained on-line at www.mba.com The Graduate Record Exam (GRE) is also accepted for MBA admission consideration. Persons holding a doctoral level degree are waived from taking the GMAT or GRE. Information regarding the MBA program may be obtained from the MBA Office Coordinator at 513 745-4800 or email mbaadmit@xavier.edu. However, an MBA applicant may petition for waiver of the GMAT or GRE based upon undergraduate academics and significant work & management experience. This petition may be submitted during the application process.

It is the responsibility of the graduate student to become informed concerning all required regulations and procedures and to know all courses required for the MBA course of study. In no case will a regulation or course be waived or an exception granted because a student pleads ignorance of the regulation or asserts that information was not given by an advisor or other authority. MBA students must abide by all regulations contained in the MBA Academic Standards form and uphold the standards and expectations of the Ethics Policy.

Xavier MBA participates in a unique partnership with other AACSB accredited Jesuit universities' MBA programs, which are located in major American metropolitan areas. Under the terms of the partnership, each institution works to accept the majority of the coursework completed toward an MBA degree at another participating institution. However, the ultimate decision on course transfer lies with the degree granting institution. Each course transferring must carry a grade of "B" or higher. The MBA is awarded by the institution where more than half of the core degree requirements were completed. From all other AACSB institutions, a maximum of six semester hours of transfer credit for core level and elective courses may be accepted toward the MBA degree. All transferred coursework must be approved by the MBA office and carry a grade of "B" or better. Graduate courses already applied towards a degree may not be used again for credit toward another graduate degree. The grade and quality points for credits transferred from another institution are not included in a student's grade point average.

MBA degree requirements

The Master of Business Administration requires a minimum of 39 credit hours with a GPA of at least 3.000.

Foundation Skills (500-level) courses do not count toward the 39-hour minimum.
Foundation Courses

(5 semester hours)

These courses can be waived or tested out.

- ACCT 500 - Foundations of Financial Acct
- STAT 500 - Business Statistics

Note(s):

- One or both of these courses may be waived depending upon the student's previous academic credentials provided the prior academic coursework is less than five years old and has a grade of "B" or higher. The CLEP waiver exam meeting the minimum score is accepted for ACCT 500. A Xavier-based waiver exam is available for STAT 500. Either exam -may be taken once. If not passed, then the corresponding foundation course must be taken. These courses must be completed before those courses with the pre-requisite.

The MBA Core

(27 semester hours)

These specific topics emphasize the integration of skills applied to complex business decisions.

- ACCT 550 - Managerial Accounting (Pre-req: ACCT 500)
- BLAW 550 - Business Ethics & Law
- BUAD 550 - International Business or any other International Business Elective
- ECON 550 - Managerial Economics
- FINC 550 - Fundamentals of Finance (Pre-req: ACCT 500, STAT 500)
- INFO 550 - Business Information Systems
- MGMT 550 - Strategy and Organizations
- MGMT 551 - Operational Management (Pre-req: STAT 500)
- MKTG 550 - Marketing Strategy

Capstone:

(3 semester hours)

Pre-requisite: complete all the required M.B.A. courses.

Designed to draw on the cumulative knowledge and experience gained during the M.B.A. experience.

Choose one:

- BUAD 690 Corporate Governance or
- BUAD 691 Global Strategic Thinking or
- BUAD 694 Bond Portfolio Management
Elective Areas of Concentration and minimum 9 credit hours required

- Business Administration (9)
- Business Intelligence (9)
- Finance (12)
- Innovation, Change & Entrepreneurship (9)
- International Business (9)
- Marketing (9)
- Pricing Strategy (9)
- Values-Based Leadership (9)

Contact the M.B.A. office for further details and developments. Some concentrations have required courses. Consult with your academic advisor and the Degree Evaluation report that is available on the Xavier Student Hub.

Students may tailor electives in the area(s) of concentration of their choice to provide a broader understanding of the business world or to specialize their degree. All MBA electives, no matter the department, count toward the Business Administration (MBAN) concentration, which is the default concentration for all students. A declaration of concentration must be made to the MBA office. Opportunities for international study trips, independent study tutorials, and experimental courses are often available for students and do count toward the Business Administration (MBAN) concentration. Such opportunities must be discussed with an MBA advisor.

MBA Plus Concentration

A student with an MBA degree earned from any accredited school may participate in the MBA Plus concentration program earning a certificate in any of the above areas of concentration or take graduate level business courses in line with personal interests. The MBA Plus program is a non-degree program.

Executive MBA Program

The Executive MBA Program develops a student's executive presence so that upon graduation the student will be:

A strategic decision maker
Board member ready
A team player
Globally Focused & Ready
An Influential Communicator
A Developed Leader
Entrepreneurial & Innovative

The Xavier EMBA program will be ready to lead in a variety of business models & with an enterprise wide lens. As a result of their experience, students will identify the difference between creating & adding value, all the while successfully navigating a professional network.

This holistic development is created by immersion, foundation, advanced business focus, and a capstone Immersion will require a week long residency in which case study methodology, strategic planning, team building, and personal assessment & leadership are achieved.

Foundation will master executive competencies and focus on value creation and/or value capturing and on leadership within functional area, all the while honing executive competencies that span & engage culturally, ethically, entrepreneurially, innovatively, and organizationally in addition to in-depth exploration of accounting, economics, financial management, talent management, information
systems, CSR, and marketing. These foundations can be applied in any sector and are not inclusive just to business. These include manufacturing, business to business, business to consumer, service, public sector, non-profit, start-up, mid-size, and large corporations.

Advanced business focus will be multi-dimensional, cross-functional, and experiential. It will develop advanced leadership understanding as skills & knowledge are tested via case study and experiential learning. Consulting projects will vary in scope and size.

The Capstone experience is to design and execute a strategic business plan that creates and captures value. In it, all previous studies will be channeled into Local/National/International consultancy projects, Board membership projects, or other integrative projects.

The Executive MBA experience will be fast-paced and have a condensed-learning format, mandatory team projects and collaborative learning. Class size will be limited for maximum exposure & information absorption. There will be special events to promote deeper learning experiences. There will be networking opportunities. A global immersion, 12-14 days, experience is required for the program.

The EMBA is run separately from Xavier's traditional MBA Program and once a year in September and runs for 16 months. Classes are concentrated into a two day a week format (Friday and Saturday) twice a month. Class time is between 8:00 am till 5:00 pm mandatory international trip occurs in the program. Admission is based on significant managerial and corporate leadership and business experience in addition to undergraduate academic records, GMAT scores, essays, letters of recommendation, a personal interview and evidence of strong organizational support.

Information regarding the Executive MBA Program may be obtained from the MBA Admissions Coordinator, at 513-745-4800 or mbaabmit@xavier.edu

**Online MBA**

The On-Line MBA is designed to meet the needs of working professionals who cannot easily attend on-campus classes. Ideally, the program begins once a year in the fall semester. Classes are offered in an 8 week format, making it possible for students to take two classes separately, but sequentially in a semester - thus maintaining part-time student status. Students follow an established curriculum of 13 courses. The program format makes it possible for students to finish their on-line MBA in two years.

All Foundation Skill courses (ACCT 500 and STAT 500) must be completed to be eligible for admission.

On-line MBA students are required to work with a MBA advisor before beginning classes.

**Other Programs**

**Pre-MBA Studies Plan**

This plan satisfies the foundation courses required for the Xavier MBA programs. It is designed for the non-business student or for the returning student who already has completed a bachelor's degree. Upon admission to the MBA program, the pre-MBA will count for the waiver of the 500 level foundation courses provided the courses were completed within the previous five years and a grade of "B" or above was attained in each course.

**Requirements for Pre-MBA Studies Plan:**

Plan is 9 hours.
Required courses include:

- ACCT 200 - Introductory Financial Acct
- STAT 210 - Statistics For Business I
- STAT 211 - Statistics For Business II

Note(s):

- A grade of "B" must be attained in these courses and they must be less than five years old for M.B.A. foundation course waiver.
- At least half of the credit hours must be taken at Xavier.

Course Descriptions

ACCT 200 - Introductory Financial Acct

ACCT 200 - Introductory Financial Acct

3 Credit Hours
A foundation course which provides an introduction to fundamental concepts and to financial statements.

Levels: Undergraduate

Williams College of Business Accountancy

ACCT 201 - Introductory Managerial Acct

ACCT 201 - Introductory Managerial Acct

3 Credit Hours
Identifying, measuring, analyzing, and interpreting accounting data that is used to support managerial decision-making.

Prerequisites: ACCT200

Levels: Undergraduate

Williams College of Business Accountancy
ACCT 303 - Internship / Accounting Junior

ACCT 303 - Internship / Accounting Junior

3 Credit Hours
An elective cooperative experience where students earn academic credit while performing approved accounting-related work experience. Student must have completed 55 credit hours and have a 2.750 GPA. Department approval required

Prerequisites: MGMT301
Levels: Undergraduate

Williams College of Business Accountancy

ACCT 304 - Acct Info Systems

ACCT 304 - Acct Info Systems

3 Credit Hours
The primary focus of this course is illustration of how technology enables key accounting activities. A business process approach is used to illustrate how information flows through an organization and its effect on information system integration risk and internal control. Students learn how to document, evaluate and analyze enterprise based systems.

Prerequisites: Undergraduate level ACCT200 Minimum grade of B-
Levels: Undergraduate

Williams College of Business Accountancy

ACCT 305 - Financial Reporting & Analysis

ACCT 305 - Financial Reporting & Analysis

4 Credit Hours
Study of financial accounting theory and principles applicable to the accumulation, analysis, measurement, reporting, and interpretation of selected economic events. The first of a two course sequence.

Prerequisites: Undergraduate level ACCT200 Minimum grade of B- and Undergraduate level ACCT201 Minimum grade of B-
Levels: Undergraduate

Williams College of Business Accountancy

ACCT 306 - Finan Reporting & Analysis II

ACCT 306 - Finan Reporting & Analysis II

4 Credit Hours
The second of a two course sequence focusing on the study of financial accounting theory and principles.

**Prerequisites:** Undergraduate level ACCT305 Minimum grade of C or Undergraduate level ACCT300 Minimum grade of C

**Levels:** Undergraduate

*Williams College of Business Accountancy*

**ACCT 307 - Fin Actg & Reporting I**

**ACCT 307 - Fin Actg & Reporting I**

3 Credit Hours
Study of financial accounting theory and principles applicable to the accumulation, analysis, measurement, reporting and interpretation of selected economic events. The first of a three course sequence.

**Prerequisites:** Undergraduate level ACCT200 Minimum grade of B- and Undergraduate level ACCT201 Minimum grade of B-

**Levels:** Undergraduate

*Williams College of Business Accountancy*

**ACCT 311 - Introduction to Taxation**

**ACCT 311 - Introduction to Taxation**

4 Credit Hours
An introduction to individual tax law as well as the tax implications of business formation, income and expenses, and distributions for Sole Proprietorships, C-corporations, Partnerships and S-corporations. This course includes compliance, planning, tax research and ethical issues.

**Prerequisites:** Undergraduate level ACCT200 Minimum grade of C

**Levels:** Undergraduate

*Williams College of Business Accountancy*

**ACCT 312 - Volunteer Income Tax Asst I**

**ACCT 312 - Volunteer Income Tax Asst I**

3 Credit Hours
A service learning course that includes additional study of federal and state income tax topics, marketing and administration of tax preparation services, and preparation of federal and state income tax returns for low income and elderly taxpayers.

**Prerequisites:** Undergraduate level ACCT311 Minimum grade of B

**Levels:** Undergraduate

*Williams College of Business Accountancy*
ACCT 313 - Volunteer Income Tax Asst II

3 Credit Hours
A service learning course in which individual income tax returns that are prepared through the VITA program will be reviewed, assembled, and delivered to taxpayers. Marketing and administration of the program are additional course requirements. All phases of the course enable the student to enhance his/her knowledge of taxation, administrative skills, and written and oral communication skills while providing a valuable service to low income taxpayers in the community.

Prerequisites: Undergraduate level ACCT312 Minimum grade of A

Levels: Undergraduate

Williams College of Business Accountancy

ACCT 315 - Nonprofit & Gov't Accounting

ACCT 315 - Nonprofit & Gov't Accounting

3 Credit Hours
This course is designed to introduce students to accounting for nonprofit organizations and state and local governmental (SLG) entities. Students will learn the basics of a nonprofit and SLG business model from a business process prospective and how that applies to financial and managerial accounting principles. Accounting systems and reporting practices used by nonprofit and SLG organizations are also examined. Service learning may also be used in this course and will provide students with an opportunity to work on accounting-related projects that will benefit nonprofit organizations.

Prerequisites: Undergraduate level ACCT201 Minimum grade of C

Levels: Undergraduate

Williams College of Business Accountancy

ACCT 403 - Internship / Accounting Senior

ACCT 403 - Internship / Accounting Senior

3 Credit Hours
An elective cooperative experience where students earn academic credit while performing approved accounting-related work experience. Student must have completed 55 credit hours and have a 2.750 GPA

Prerequisites: Undergraduate level MGMT301 Minimum grade of D

Levels: Undergraduate

Williams College of Business Accountancy
ACCT 412 - VITA II

3 Credit Hours
A service learning course in which individual income tax returns that are prepared through the VITA program will be reviewed, assembled, and delivered to taxpayers. Marketing and administration of the program are additional course requirements. All phases of the course enable the student to enhance his/her knowledge of taxation, administrative skills, and written and oral communication skills while providing a valuable service to low income taxpayers in the community.

Prerequisites: Undergraduate level ACCT312 Minimum grade of A

Levels: Undergraduate

Williams College of Business Accountancy

ACCT 415 - Nonprofit and Govt Acct

ACCT 415 - Nonprofit and Govt Acct

3 Credit Hours
This course is designed to introduce students to financial reporting for nonprofit organizations as well as governmental entities at the municipal, state and federal level.

Prerequisites: Undergraduate level ACCT305 Minimum grade of B or Undergraduate level ACCT300 Minimum grade of B

Levels: Undergraduate

Williams College of Business Accountancy

ACCT 425 - Cost Accounting

ACCT 425 - Cost Accounting

3 Credit Hours
The study of the process of measuring, interpreting, and communicating information that assists managers in achieving organizational goals.

Prerequisites: Undergraduate level ACCT200 Minimum grade of B- and Undergraduate level ACCT201 Minimum grade of B- and FINC300 and STAT211

Levels: Undergraduate

Williams College of Business Accountancy
ACCT 485 - Financial Modeling

3 Credit Hours
The course is designed to develop the students' ability to integrate an electronic spreadsheet into the identification, analysis and solution stages of financial problems. Through this course, students will gain a conceptual as well as a practical understanding of spreadsheets and will be equipped with the spreadsheet skills needed to engage in economic financial modeling.

Prerequisites: (INFO120 or INFO200 or INFO220) and Undergraduate level FINC300 Minimum grade of B-

Levels: Undergraduate

ACCT 490 - Auditing

3 Credit Hours
The study of the integrated audit process from the perspectives of standards, audit planning, internal controls, ethics and the application of sound judgement in the decision making process.

Prerequisites: Undergraduate level ACCT306 Minimum grade of C

Levels: Undergraduate

ACCT 499 - Independent Study

1 - 3 Credit Hours
The independent study in accounting is designed for a student to work with an instructor to develop knowledge and understanding of advanced topics in accounting. Independent studies must be approved by the department chair.

Levels: Undergraduate

ACCT 500 - Foundations of Financial Acct

3 Credit Hours
A foundation course that focuses on the basic concepts, standards, and principles of financial accounting.
Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

Levels: Graduate

Williams College of Business Accountancy

ACCT 503 - Financial Reporting & Analysis

ACCT 503 - Financial Reporting & Analysis

3 Credit Hours
This course provides an introduction to the concepts of the collection, processing, reporting and analysis of accounting data. Students will be able to read, comprehend and use published financial statements in a variety of decision-making contexts. (This course is only offered in the MBA on-site programs.)

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

ARAB 101 - Elementary Arabic I

ARAB 101 - Elementary Arabic I

3 Credit Hours
An introduction to speaking, listening, reading, and writing the Arabic language at the elementary level.
ARAB 102 - Elementary Arabic II

3 Credit Hours
Continuation of Arabic 101, further emphasizing the speaking, listening, reading, and writing of the Arabic language at the elementary level.

Prerequisites: ARAB101

Levels: Undergraduate

ARTS 100 - Seminar: Freshman Art Majors

1 Credit Hours
The role of art in human life and society is examined through the investigation of historical and contemporary artists' writings and work. Students are guided in the process of writing formal visual analyses about art as well as personal reflections. Mentoring students' creative initiative, artistic growth and commitment within the department's tracks and for future careers is emphasized.

Co-requisites: ARTS101

Restrictions: Must be enrolled in one of the following Majors: Art Art Graphic Design

Levels: Undergraduate

ARTS 101 - Two-Dimensional Design

3 Credit Hours
Two-Dimensional Design is an introduction to art and design within a two-dimensional context. It is a hands-on class that develops the fundamental design skills to aid the student in any area of emphasis within the Department of Art. Although this is primarily a studio course, this course combines lectures and presentations, demonstrations, discussions, research, videos, and formal class critiques. Grading focuses on process, creativity, formal and technical understanding, and communication. This studio course offers an introduction to a variety of media and techniques. Students learn to identify successful compositional elements and strategies. Projects are seen as exercises and experiments with limited variables and restraints. In-class critiques enable students to strengthen their ideas and become fluent in verbally articulating how they assess the artist's intent and success of idea. Projects focus on line, rhythm, shape & rotation, value, and color. Arts Majors/minors only

Restrictions: Must be enrolled in one of the following Fields of Study (Major, Minor, or Concentration): Art Art History Graphic Design

Levels: Undergraduate
ARTS 102 - Drawing I

3 Credit Hours
This introductory studio course will focus on the interpretation of form based on observation from life using a variety of traditional material including graphite, charcoal and white colored pencil. This class aims to enable the student to understand how to translate three-dimensional form to two-dimensional form. The class will introduce visual measuring, methods for determining shape proportions and linear perspective and tonal strategies (additive and reductive) for composition, volume and narrative effect.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

ARTS 103 - Painting I

3 Credit Hours
This studio course introduces the materials and approaches to oil painting and the interpretation of form based on observation from life. Students learn how to modulate color using a double primary color wheel system, approximate color they observe and learn to build paintings in a succession of layers. Oil paint materials and their physical properties are explained and demonstrated. Students compose and work from individual still-lifes they compose. Assignments, both in and out of class, will apply 2D design, drawing and color theory to coursework.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

ARTS 104 - Printmaking I

3 Credit Hours
An introduction to print media in one of the following areas: relief (i.e., collagraph, woodcut, linoleum cut), lithography (stone and plate), intaglio (etching), monotype, or screenprinting. Emphasis is on technical mastery alongside content development, edition printing, print suites, shop etiquette, and personal growth.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate
ARTS 105 - Three-Dimensional Design

3 Credit Hours
In this studio course, students will learn about the elements and principles of three dimensional design, which will serve as an introduction to the study of three dimensional art forms. Students will be introduced to the basic design elements of form, space, volume, mass, weight, planes and surfaces, line texture, light and color. The design concepts of proportion, scale, balance, movement, rhythm/repetition, emphasis/dominance will also be included. Students will gain a working knowledge of structural patterns of form, linear and planar analysis of form, analysis of implied form, and of manipulative devices applied to form. For Art majors and minors only.

Restrictions: Must be enrolled in one of the following Fields of Study (Major, Minor, or Concentration): Art Art History Graphic Design

Course Attributes: Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Art

ARTS 106 - Fiber Arts I

3 Credit Hours
This course offers an introduction to a variety of fiber techniques during the fall and spring semesters. The emphasis is on woven structures while stressing design concepts and aesthetic values. Off-loom fiber experiences include, but are not limited to: exploration of natural materials, coiling, Batik, handmade silk paper, fiber collage, feltmaking, painting/designing on textiles, stamping, surface design, stenciling, printing from nature, discharge dyeing and quilting. On-loom fiber experiences include, but are not limited to: pattern weaving, tapestry, double weave techniques, painted warp and weft weaving, dyeing, and woven shibori.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Art

ARTS 107 - Sculpture I

3 Credit Hours
This course will introduce students to the primary sculptural processes and materials, including basic wood and metal fabrication, modeling, mold making, and non-ferrous casting. Introduction to power tools and equipment as well as welding processes will be included.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Art
ARTS 108 - Photography I

3 Credit Hours
Photography I is an introduction to the art of shooting traditional black and white photography and modern SLR digital color photography. This course is also an introduction to the fine art of digital imaging as a practical and artistic enhancement to basic photography. An introduction to digital techniques and digital photographic printing will also be covered in this course. The act of \201Cseeing\201D and photographic composition will be developed in this class.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

ARTS 109 - Ceramics I

3 Credit Hours
Combining both theory and practice, an in-depth investigation of ceramic art, emphasizing the handbuilding techniques of pinch, coil and slab. Clay and glaze mixing, and various kiln-firing procedures are also explored, along with a historical overview.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

ARTS 111 - The Art Experience

3 Credit Hours
An especially designed course to fulfill the university core fine art requirement which gives insight into the visual art experience. For non-Art majors only.

Restrictions: May not be enrolled in one of the following Majors: Art Art

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Art
ARTS 112 - The Aesthetic Experience

3 Credit Hours
An especially designed course to fulfill the university core fine art requirement which gives insight into the aesthetic experience. For non-art majors only.

Restrictions: May not be enrolled in one of the following Majors: Art Art

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Art

ARTS 113 - Art in Rome

3 Credit Hours
This summer study abroad course introduces students to the art and architectural wonders of Rome spanning ancient to modern times. The course involves drawing or writing onsite several days a week at sites such as the Roman Forum, Vatican, St. Peter's, the Borghese, Capitoline, Doria Pamphilj, and Barberini galleries! Students who are not drawing will be writing visual analyses (kept in a journal) at each site visit. Field visits to other Italian cities such as Florence, Siena and Assisi are included, and other visits are often arranged. Outside course work is assigned for completion upon return to the U.S.A turned in at the start of fall semester.

Course Attributes: Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Art

ARTS 116 - Designing on Silk

0 - 3 Credit Hours
This workshop offers artists, educators and interested individuals an opportunity to learn different methods of dyeing silk to create textile designs and art to wear. Surface design techniques will be utilized including, Batik, Low water immersion dyeing, Shibori, painting with dye and inks, stamping, quilting, and color removal. Students will be encouraged to explore individual interests to achieve a personal body of work. May be taken to fulfill Fine Arts requirement.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Art
ARTS 119 - The Potter's Wheel

3 Credit Hours
An in-depth investigation of working on the potter's wheel (throwing), emphasizing form and function. Clay and glaze mixing, as well as kiln firing procedures will be explored. This course is for non-majors, or majors by permission of instructor.

Restrictions: May not be enrolled in one of the following Majors: Art Art

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

ARTS 126 - Creative Vessels

3 Credit Hours
This workshop is for anyone interested in exploring their creative spirit. Through exploration and experimentation with mixed-media sculpture, students will gather natural materials, found objects and use commercially made materials to create three-dimensional vessels. A variety of construction techniques will be taught, including weaving natural materials and reed, coiling, handmade silk paper, and wire. Surface design techniques, including drawing, painting, printing, dyeing, and color removal will be encouraged to further enhance a personal statement. May be taken to fulfill Fine Arts requirement.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

ARTS 142 - Graphic Design I

3 Credit Hours
An introduction to Graphic Design. Students learn the basics of typography, page layout, and branding. Projects include: logo, type I & II, poster, and pattern. The basics of Adobe Illustrator and InDesign are also covered in this course. Students are introduced to the design process and become capable of generating quality research, sketches, rough drafts, and final deliverables. Students begin developing critical thinking skills in order to develop creative solutions to their projects.

Prerequisites: Undergraduate level ARTS101 Minimum grade of C- or Graduate level EDMS999

Course Attributes: Creative Perspectives

Levels: Undergraduate

College of Arts & Sciences Art
ARTS 152 - Illustration I

3 Credit Hours
This studio course offers an introduction to a variety of media and techniques used in illustration. Instructor demonstrates manual techniques and several digital media applications for reference. Students learn how to shoot photo reference, thumbnail, develop ideas and collaborate with graphic design students as well as an overview of major illustrators. Students will complete a number of assignments that are set up as real jobs resulting in a portfolio of works. The portfolio consists of editorial, advertising, institutional work (book and music) as well as a self-promotional piece.

Course Attributes: Creative Perspectives

Levels: Undergraduate

College of Arts & Sciences Art

ARTS 202 - Drawing II

3 Credit Hours
An extensive drawing course that investigates all major bones and superficial muscles to provide a base of anatomical understanding representing the human body. The emphasis is on joint movement, proportions and planar description of form. Areas of the body are divided into 3D mass conceptions, bone, muscle and joint descriptions. Students learn how inner anatomy affects superficial form and apply their understanding in accurately developed drawings from the nude model.

Prerequisites: Undergraduate level ARTS102 Minimum grade of C- or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 203 - Painting II

3 Credit Hours
This course builds on Painting I and introduces how to build wooden stretchers and other supports, how to make grounds and painting mediums base on traditional practices and recipes. Painting II encourages conceptual development and expects the student to begin defining areas of thematic interest utilizing the human form while strengthening technical facility. Material experimentation using egg tempera is also introduced.

Prerequisites: Undergraduate level ARTS103 Minimum grade of C- or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Art
ARTS 204 - Printmaking II

3 Credit Hours
The continuing investigation of an area begun in ARTS 104 with the potential to explore new print media. Students will achieve further technical experience (multi-color printing) while increasing their range of content, scale, and productivity. Student studio maintenance and materials preparation are stressed.

Prerequisites: Undergraduate level ARTS104 Minimum grade of C- or Graduate level EDMS999

Restrictions: Must be enrolled in one of the following Majors: Art

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 205 - Figure Modeling

3 Credit Hours
Modeling in clay from the nude model. Developing observational skills, eye-hand coordination in modeling a complex three dimensional form. Strong life drawing component desirable. Study of the human body and anatomy. Mold making and casting in non-ferrous materials may be done with selected projects.

Prerequisites: Undergraduate level ARTS107 Minimum grade of C- or Graduate level EDMS999

Course Attributes: Creative Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 206 - Fiber Arts II

3 Credit Hours
Students completing one introductory semester may register for this class to further explore fiber techniques. A student who has completed the off-loom semester may register for the on-loom fiber experience. A student who has completed the on-loom semester may register for the off-loom fiber experience.

Prerequisites: Undergraduate level ARTS106 Minimum grade of C- or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Art
ARTS 207 - Sculpture II

3 Credit Hours
This course is comprised of advanced wood and metal fabrication, and casting processes. Power tools and equipment will be used in metal fabrication and construction, additive and subtractive wood processes, and various casting techniques.

Prerequisites: Undergraduate level ARTS107 Minimum grade of C- or Graduate level EDMS999
Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 208 - Photography II

3 Credit Hours
Photography II explores the intermediate techniques of photography. Student projects include a range of photographic categories such as: descriptive, explanatory, interpretive, aesthetic, ethical, and theoretical. Emphasis is placed on aspects of design, composition, perception, and content. Some intermediate alternative digital techniques and beginning aspects of studio lighting will be covered.

Prerequisites: Undergraduate level ARTS108 Minimum grade of C-
Course Attributes: Fine Arts Old/Transition Core
Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 209 - Ceramics II

3 Credit Hours
Offered to students who have completed ARTS 109, beginning handbuilding in the ceramic medium. Students have two choices: they can choose to examine handbuilding on an advanced level, constructing on a larger scale while also exploring content and meaningful subject matter in their work. Or, students can also choose to investigate the potter's wheel, and learn to throw various forms while exploring both form and function. Involvement in all areas of studio operations is required.

Prerequisites: Undergraduate level ARTS109 Minimum grade of C- or Graduate level EDMS999
Levels: Graduate Undergraduate

College of Arts & Sciences Art
ARTS 213 - Incarnating Totem & Taboo

3 Credit Hours
A study which frames ethical questions concerning pragmatic issues in the making, collecting, curating, and viewing of visual art, and fulfilling the E/RS Focus elective.

Prerequisites: (Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D) or Graduate level EDMS999

Course Attributes: ERS Focus Elective, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 214 - Technology For Artists

3 Credit Hours
Students are introduced to the fundamental technological skills and programs. This class is for both designers and artists in general to prepare them with basic technological skills. Some of these skills include digital creation and manipulation using the latest computer applications. Students learn vector-based design as well as pixel-based technologies. Other technical skills focus on making presentations, creating digital artwork, using digital tablets, archiving projects, scanning and creating multiple-page pdfs.

Course Attributes: Creative Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 215 - Web Design

3 Credit Hours
An introduction to researching, planning, and producing websites for a range of clients. Students use Photoshop and Dreamweaver to conceive, develop, layout, design, and implement their website and related media. Students are expected to have a beginning proficiency in Adobe Photoshop. Although these computer applications will be used extensively, emphasis will be on the design and aesthetic aspects of web design. Students will creatively produce a website including considerations of typography, color, branding, and layout. Students also install and modify a blog utilizing skills in HTML and CSS. Topics studied will also include: Page Ranking, Web Advertising, Video, and Domain names and Hosting. This course should interest various disciplines: computer graphics, photography, video, film, the visual arts, and education.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Art
ARTS 221 - Early & Middle Childhood Art

3 Credit Hours
A comprehensive introduction to art education at the elementary school level employing both theory and practice. The creative and mental stages of development are emphasized. Course not open to Freshmen.

Restrictions: May not be enrolled as the following Classifications: Freshman
Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 222 - Art in Early Childhood Educ

3 Credit Hours
Art production techniques, art appreciation, history and aesthetics. Active emphasis on age appropriate (3-8) art activities as well as the student's own artistic development.

Restrictions: May not be enrolled in one of the following Majors: Art Art
Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 223 - Secondary School Art

3 Credit Hours
A thorough investigation of the instructional techniques, resources and philosophies necessary in teaching art at the secondary level.

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 242 - Graphic Design II

3 Credit Hours
The course builds on skills acquired in the ARTS 142 Graphic Design. Students gain an intermediary understanding of typography, layout, and branding. Projects include: symbol mark, CD, historical poster, brochure, and group collaborative project. This course develops students'2019 ability to work and collaborate with real clients at it involves local community partners and clients with every project. Students develop intermediary critical thinking skills in order to develop creative solutions to their projects.
**Prerequisites:** Undergraduate level ARTS142 Minimum grade of C- or Graduate level EDMS999

**Restrictions:** Must be enrolled in one of the following Majors: Art Art

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Art*

**ARTS 252 - Illustration II**

**ARTS 252 - Illustration II**

**3 Credit Hours**
This course focuses on strengthening technical and conceptual skills, with the expectation that the student will identify area of interest and complete more focus in those areas going beyond the work completed in Illustration I. Student proposes, develops and executes bodies of work in consultation with instructor.

**Prerequisites:** Undergraduate level ARTS152 Minimum grade of C

**Restrictions:** Must be enrolled in one of the following Fields of Study (Major, Minor, or Concentration): Art Art History Graphic Design

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Art*

**ARTS 270 - History of Art I**

**ARTS 270 - History of Art I**

**3 Credit Hours**
A survey of art and architecture from its prehistoric beginnings through the Middle Ages.

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Art*

**ARTS 271 - History of Art II**

**ARTS 271 - History of Art II**

**3 Credit Hours**
A survey of western art and architecture from the Renaissance to the present.

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Art*
ARTS 272 - Art of the 20th Century

3 Credit Hours
A study of European and American art and architecture from about 1900 to the present.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 273 - History of American Art

3 Credit Hours
A study of art and architecture in America from the colonial period to the present with emphasis on significant styles originating in the 20th century.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 274 - Women, Art & Society

3 Credit Hours
A historical survey of women artists from pre-history to the twentieth century. Socio-political, psychological, economic issues, and themes affecting women's participation in the visual arts are examined. A multi-cultural and multi-media perspective, giving full attention to the diversity of women's ways of creating art is utilized.

Course Attributes: Creative Perspectives, Diversity Curriculum Require, Fine Arts Old/Transition Core, Gender & Diversity Studies, GDST Women and Gender Conc

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 275 - Sacred Art-Christian Perspect

3 Credit Hours
A specific study of Judeo-Christian imagery in the visual arts ranging from the earliest pre-Christian Roman catacomb art to contemporary Christian art. Special emphasis will be placed upon Christian adaptation of pagan and Jewish symbolism.

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Art*

**ARTS 276 - Art of the Enlightenment**

**ARTS 276 - Art of the Enlightenment**

**3 Credit Hours**
Visual art is one of the ultimate expressions of any culture and the artifacts thereof leave the longest standing record of these diverse expressions in human history. This course is designed to introduce the student to a select study of western art during one of the most dynamic periods of history.

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Art*

**ARTS 280 - Topics in Contemporary Art**

**ARTS 280 - Topics in Contemporary Art**

**3 Credit Hours**
A seminar course investigating the driving forces and trends in the art scene from the seventies to the present in Europe and North America. Special emphasis on criticism and postmodern issues. Counts as an art history requirement for art majors and minors.

**Prerequisites:** Undergraduate level ARTS271 Minimum grade of C

**Restrictions:** Must be enrolled in one of the following Majors: Art Art

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Art*

**ARTS 302 - Drawing III**

**ARTS 302 - Drawing III**

**3 Credit Hours**
An extensive drawing course, which uses the human form as primary subject matter. From formal and technical points, Drawing III covers a variety of color media including pastel, watercolor and gouache as well as other media. Conceptually the course encourages traditional and recent approaches using the figure to raise questions of identity, man's relationship to one another, to nature, to technology and other topics associated with the human condition.

**Prerequisites:** (Undergraduate level ARTS102 Minimum grade of C- and Undergraduate level ARTS202 Minimum grade of C-) or EDMS999
ARTS 303 - Painting III

3 Credit Hours
Advanced studies in the medium of choice from ARTS 103 or ARTS 203. Student is expected to nurture an integrated personal vision at a level qualitatively beyond previous involvement in the field of painting.

Prerequisites: (Undergraduate level ARTS103 Minimum grade of C- and Undergraduate level ARTS203 Minimum grade of C-) or EDMS999

Levels: Graduate Undergraduate

ARTS 304 - Printmaking III

3 Credit Hours
The continuing investigation of previous print media including any area not yet experienced. Students are expected to initiate individual direction for their work with particular emphasis on serially developing their ideas. Students are encouraged to utilize mixed print media as well as other media. Experimentation is stressed.

Prerequisites: (Undergraduate level ARTS104 Minimum grade of C- and Undergraduate level ARTS204 Minimum grade of C-) or EDMS999

Restrictions: Must be enrolled in one of the following Majors: Art Art

Levels: Graduate Undergraduate

ARTS 306 - Fiber Arts III

3 Credit Hours
This course is a continuing exploration of structure and technique including two and three dimensional forms. The primary emphasis is on the development of a personal vision in fibers. Students will build on introductory fiber techniques and experiences, focusing on a particular fiber medium or a mixed-media approach to fibers.

Prerequisites: (Undergraduate level ARTS106 Minimum grade of C- and Undergraduate level ARTS206 Minimum grade of C-) or EDMS999

Levels: Graduate Undergraduate
ARTS 307 - Sculpture III

3 Credit Hours
This course explores the visual and expressive qualities of assemblage, found objects, conceptual and process art. Projects will explore concepts and ideas within these forms. Students may choose diverse materials, mediums, and processes employed in their projects.

Prerequisites: Undergraduate level ARTS207 Minimum grade of C-

Restrictions: Must be enrolled in one of the following Majors: Art

Levels: Graduate Undergraduate

ARTS 308 - Photography III

3 Credit Hours
Photography III explores aspects of photojournalism and commercial photography as a career. The course is split into two parts during the course of the semester. The first half of the semester offers the opportunity for the students to begin developing skills in the area of photojournalism through hands-on experience in completing both spot news and short- and long-term essay assignments. During the second half of the semester students will explore the use of artificial lighting to create photographic illustrations in a controlled environment.

Prerequisites: Undergraduate level ARTS108 Minimum grade of C- and Undergraduate level ARTS208 Minimum grade of C-

Restrictions: Must be enrolled in one of the following Majors: Art

Levels: Undergraduate

ARTS 309 - Ceramics III

3 Credit Hours
An advanced level of study in the ceramic medium, either in handbuilding or with the potter's wheel. After two semesters of exploration and experimentation, students will begin to master advanced methods of clay construction, emphasizing content and good craftsmanship. Students are expected to take charge of all areas of studio management.

Prerequisites: (Undergraduate level ARTS109 Minimum grade of C- and Undergraduate level ARTS209 Minimum grade of C-) or EDMS999

Levels: Graduate Undergraduate
ARTS 342 - Graphic Design III

3 Credit Hours
The course builds on skills acquired in the ARTS 242 Graphic Design course. Students learn how to design for packaging and 3-dimensional structures. Projects include: wordmark, book cover, experimental packaging, eco-friendly packaging, and restaurant branding. This course develops students' craftsmanship and ability to prototype. Students develop advanced critical thinking skills in order to develop creative solutions to their projects.

Prerequisites: (Undergraduate level ARTS142 Minimum grade of C- and Undergraduate level ARTS242 Minimum grade of C-) or EDMS999

Restrictions: Must be enrolled in one of the following Majors: Art

Levels: Graduate Undergraduate

ARTS 402 - Drawing IV

3 Credit Hours
Thematic Series. Primary focus is on developing a body of work which challenges the artist's imagination, sustains a high level of ambition, and sets a new standard of excellence for the creator and others. Pre-requisite: ARTS 102, ARTS 202, and ARTS 302.

Levels: Graduate Undergraduate

ARTS 403 - Painting IV

3 Credit Hours
Advanced studies in the same medium of choice as in ARTS 303 to establish a mastery of said medium. Student is expected to produce a thematic body of work. Pre-requisite: ARTS 103, ARTS 203, and ARTS 303.

Levels: Graduate Undergraduate
ARTS 404 - Printmaking IV

3 Credit Hours
The continuing investigation of previous print media including any area not yet experienced. Advanced skills are emphasized in the student's print media of choice. Understanding and control of procedures of drawing, processing and printing continue to be stressed. Students originate and produce a series (suite) of prints expressive of a certain theme or idea. Pre-requisite: ARTS 104, ARTS 204, and ARTS 304.

Restrictions: Must be enrolled in one of the following Majors: Art Art

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 406 - Fiber Arts IV

3 Credit Hours
This course is an advanced study of fiber art techniques, encouraging the student's investigation and exploration of their personal artistic statement. The emphasis is on individual exploration and growth in fiber art, promoting creative thinking and self-evaluation. Pre-requisite: ARTS 106, ARTS 206, and ARTS 306 or permission of instructor

Prerequisites: Undergraduate level ARTS306 Minimum grade of C-

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 407 - Sculpture IV

3 Credit Hours
This course encourages exploration and research for a personal style and direction in sculpture. Projects will continue to include wood, metal and casting processes, allowing students to develop an individual body of work, expressing their own personalized vision. Pre-requisite: ARTS 107, ARTS 207, and ARTS 307.

Restrictions: Must be enrolled in one of the following Fields of Study (Major, Minor, or Concentration): Art

Levels: Graduate Undergraduate

College of Arts & Sciences Art
ARTS 408 - Photography IV

3 Credit Hours
Photography IV leads students through an exploration of the use of the photographic medium for personal expression. Students devise and produce a photographic project that expands on the techniques and processes mastered in previous courses. Many alternative and mixed media techniques will be covered. Pre-requisite: ARTS 108, ARTS 208, and ARTS 308.

Restrictions: Must be enrolled in one of the following Fields of Study (Major, Minor, or Concentration): Art

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 409 - Ceramics IV

3 Credit Hours
A deeper investigation of either throwing or handbuilding, and a continued exploration of a student-initiated series or body of work. Students will master technical skills, continue to nurture a personal vision, while beginning to develop a thesis. Continued responsibility for all aspects of studio management is required.

Prerequisites: Undergraduate level ARTS109 Minimum grade of C- and Undergraduate level ARTS209 Minimum grade of C- and Undergraduate level ARTS309 Minimum grade of C-

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 441 - Senior Seminar

3 Credit Hours
A study of the practical aspects and concerns of aspiring artists in the contemporary art scene, including its trends, patterns and venues. Provides graduating students with essential skills and knowledge to function as a practicing artist outside of the college environment. Art majors only, usually in senior year.

Restrictions: Must be enrolled in one of the following Majors: Art

Levels: Graduate Undergraduate

College of Arts & Sciences Art
ARTS 442 - Graphic Design IV

3 Credit Hours
The course builds on skills acquired in the ARTS 242 & 342 Graphic Design courses. Students learn and apply advanced typography skills to a variety of applications. Students also learn the basics of Adobe AfterEffects through a motion design project. The course completes the graphic design sequence with a culminating portfolio project. Projects include: magazine, motion design project, information graphics, and final portfolio. Students are introduced to readings that are both technical and conceptual as they begin to formulate their own creative vision.

Prerequisites: Undergraduate level ARTS342 Minimum grade of C-

Restrictions: Must be enrolled in one of the following Majors: Art

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 490 - Senior Concentration

ARTS 490 - Senior Concentration

3 - 6 Credit Hours
An intense in-depth study of selected studio field. Students pursuing the art education or the history of art concentration may submit a written thesis. Specific faculty approval necessary.

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 491 - Independent Study

ARTS 491 - Independent Study

1 - 3 Credit Hours
Problems related to department fields, although not specifically included in the catalog, may be requested by the student and elected with the approval of the instructor and permission of the chair.

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 492 - Tutorial

ARTS 492 - Tutorial

1 - 3 Credit Hours
Special reading and study for advanced students.

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ARTS 493 - Internship

ARTS 493 - Internship

1 - 3 Credit Hours
Practical experiences of art in the real world, for the purpose of developing the ability to function in the professional arena. Student must have completed a minimum two courses in the internship area

Levels: Graduate Undergraduate

College of Arts & Sciences Art

ASLN 101 - Elem American Sign Language I

ASLN 101 - Elem American Sign Language I

3 Credit Hours
An introduction to basic signing through emphasizing the acquisition of high-frequency vocabulary, facial expression, and the development of cultural awareness.

Co-requisites: ASLN210

Course Attributes: Gender & Diversity Studies

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ASLN 102 - Elem American Sign Language II

ASLN 102 - Elem American Sign Language II

3 Credit Hours
The second semester elementary course which is a continuation of ASLN 101.
**Prerequisites:** Undergraduate level ASLN101 Minimum grade of D

**Co-requisites:** ASLN210

**Course Attributes:** Gender & Diversity Studies

**Levels:** Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**ASLN 201 - Interim American Sign Lang I**

**ASLN 201 - Interim American Sign Lang I**

**3 Credit Hours**
The first semester intermediate course which is a continuation of ASLN 102 with a particular emphasis on the development of more creative use of the language.

**Prerequisites:** Undergraduate level ASLN102 Minimum grade of D

**Co-requisites:** ASLN210

**Course Attributes:** Gender & Diversity Studies

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**ASLN 202 - Interim American Sign Lang II**

**ASLN 202 - Interim American Sign Lang II**

**3 Credit Hours**
A communicative-oriented course emphasizing receptive and expressive skills through the study of authentic materials dealing with the Deaf world. This course includes a comprehensive grammar review.

**Prerequisites:** Undergraduate level ASLN201 Minimum grade of D

**Co-requisites:** ASLN210

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**ASLN 210 - Deaf Lab**

**ASLN 210 - Deaf Lab**

**0 Credit Hours**
Students in beginning and intermediate ASLN courses are required to attend the Deaf Lab for a minimum of six hours each course, and both attendance and participation are calculated as part of their overall grade in ASLN 101, 102, 201, and 202.

**Levels:** Undergraduate
ASLN 290 - Deafness Origins & Orientation

3 Credit Hours
This course will introduce students to the evolution of the Deaf culture, in particular to major concepts about and issues facing the Deaf community, and to psychological and social aspects of Deafness. Students will learn about the acquisition of sign language, and behavioral norms, values, and traditions of the Deaf. Students will study the impact of influential Deaf individuals such as Thomas Gallaudet, Marlee Matlin, and Laurent Clerc and their accomplishments in raising awareness of the unique problems that face members of the Deaf community. Secondary areas of study include linguistics, creative arts, and literature as they apply to Deaf culture and the Deaf community. Most lectures and discussions will be presented both orally and through signing, which will supplement students’ 2019 ability in the language.

Prerequisites: ASLN101 and ASLN102

Levels: Graduate Undergraduate

ASLN 291 - Deafness Culture & Community

3 Credit Hours
This course advances the factual knowledge of the evolution of the Deaf culture for students in the Deaf Studies minor. Students will hone their knowledge of sign language acquisition, behavioral norms, values, and traditions of the Deaf. Students will focus on sign language vocabulary geared towards professions such as nursing, occupational therapy, education, psychology, and criminal justice, while mastering daily sign language conversational skills. Students will also learn the importance of the national organizations of the Deaf and of the achievements of Deaf advocacy groups protecting the rights of Deaf people. Linguistics, creative arts, and literature as they apply to Deaf culture and the deaf community will be studied in greater depth.

Prerequisites: ASLN101 and ASLN102 and ASLN290

Levels: Graduate Undergraduate

ASLN 298 - Community Based Learning

1 Credit Hours
Community-Based Learning (CBL) connects students in the Deaf Studies Minor with organizations, agencies, schools and others in the Cincinnati area that serve the needs of or interact regularly with Deaf individuals. The Deaf Studies director brings to campus representatives from area organizations, agencies, and schools that work with or involve deaf individuals; these representatives are matched with students based on their interests and major studies to discuss ways to serve the deaf community. Participation in a CBL Cooperative is designed to serve as a resource that helps students understand the perspectives of deaf individuals and is intended to motivate students to become used to interacting with individuals in the deaf community. CBL will also raise students’ 2019 willingness to engage in complex conversations and raise social and cultural awareness of issues facing the Deaf community.

Prerequisites: ASLN101 and ASLN102
Restrictions: Must be enrolled in one of the following Minors: Deaf Studies

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

ATTR 100 - Foundational Behaviors

ATTR 100 - Foundational Behaviors

1 Credit Hours
This course is designed to introduce athletic training majors to learning strategies and behaviors necessary for academic success.

Levels: Undergraduate

College of Professional Sci Sport Studies

ATTR 143 - Intro to Athletic Training

ATTR 143 - Intro to Athletic Training

3 Credit Hours
Overview course including basic components of a comprehensive athletic training career outlining the prevention, recognition and evaluation of athletic injuries. History, philosophy and career opportunities of the profession; emergency procedures; tissue healing; taping procedures; ethical and legal considerations; and the organization and administration of athletic training programs.

Levels: Undergraduate

College of Professional Sci Sport Studies

ATTR 168 - First Aid Safety and CPR

ATTR 168 - First Aid Safety and CPR

3 Credit Hours
This course certifies students through the American Red Cross in both First Aid and CPR for the professional rescuer. This class stresses the basic steps to follow in an emergency situation including assessment, life-threatening emergencies, injuries, medical emergencies, rescues, healthy lifestyles, and disease transmission.

Levels: Undergraduate

College of Professional Sci Sport Studies
ATTR 200 - Clinical Experience I

ATTR 200 - Clinical Experience I

2 Credit Hours
This course includes a lab and a clinical component. Emphasis is on introductory skills, techniques, and training room management. Includes a focus on screening procedures, environmental concerns, protective equipment, fitness testing, record keeping, and acute care of athletic injuries and illnesses. This course allows the athletic training student the opportunity to gain clinical and administrative skills while practically applying current practices, principles, and techniques in athletic training under appropriate supervision in a real-world setting.

Levels: Undergraduate

College of Professional Sci Sport Studies

ATTR 201 - Clinical Experience II

ATTR 201 - Clinical Experience II

2 Credit Hours
This course includes a lab and a clinical component. Emphasis on the skills of taping, padding, and bracing. This course allows the athletic training student the opportunity to gain clinical and administrative skills while practically applying current practices, principles and techniques in athletic training under appropriate supervision in a real-world setting.

Levels: Undergraduate

College of Professional Sci Sport Studies

ATTR 225 - Medical Terminology

ATTR 225 - Medical Terminology

3 Credit Hours
This course provides an understanding of medical abbreviations and terms. Includes the study of the elements of medical terms, standard medical abbreviations, spelling and an appreciation of the logical method found in medical terminology. Includes operative, diagnostic, therapeutic and symptomatic terminology of all body systems, as well as systemic and surgical terminology.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

ATTR 267 - Physiology of Exercise

ATTR 267 - Physiology of Exercise

3 Credit Hours
Human physiology as it relates to exercise and physical activities. Bioenergetics, muscle physiology, cardiovascular physiology, environmental physiology, ergogenics, special populations, and health fitness.
Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

ATTR 300 - Clinical Experience III

ATTR 300 - Clinical Experience III

2 Credit Hours
This course includes a lab and clinical component. Emphasis is on therapeutic modalities, therapeutic exercise, pharmacological practices and motivational techniques for rehabilitation. This course allows the athletic training student the opportunity to gain clinical and administrative skills while practically applying current practices, principles and techniques in athletic training under appropriate supervision in a real-world setting.

Levels: Undergraduate

College of Professional Sci Sport Studies

ATTR 301 - Clinical Experience IV

ATTR 301 - Clinical Experience IV

2 Credit Hours
This course includes a lab and a clinical component. Emphasis is on equipment and advanced skills of taping, padding, and bracing. This course allows the athletic training student the opportunity to gain clinical and administrative skills while practically applying current practices, principles and techniques in athletic training under appropriate supervision in a real-world setting.

Levels: Undergraduate

College of Professional Sci Sport Studies

ATTR 320 - International Sports Medicine

ATTR 320 - International Sports Medicine

3 Credit Hours
This course is designed to introduce athletic training majors to sports medicine from an international perspective. Students will be introduced to international sport culture and will learn how culture influences sports and sports medicine. Students must have a 2.75 GPA.

Restrictions: Must be enrolled in one of the following Majors: Athletic Training

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies
ATTR 343 - Therapeutic Modalities

3 Credit Hours
A comprehensive study of therapeutic agents for the treatment of athletic injuries. Emphasis on the indications, contraindications, precautions, and physiological effects of muscle stimulation, ultrasound, cryokinetics, and pharmacology. Student must be an Athletic Training Major or Pre-Physical Therapy Minor

Levels: Graduate Undergraduate

ATTR 344 - Therapeutic Exercise

3 Credit Hours
A comprehensive study of the application of manual therapy, neuromuscular re-education, movement and exercise as each relates to the varied and detailed goals of rehabilitation and reconditioning for injured physically active individuals. Emphasis on pathologies and their relationships to therapeutic exercise. Student must be an Athletic Training Major or Pre-Physical Therapy Minor

Prerequisites: Undergraduate level EDAT343 Minimum grade of D or Undergraduate level ATTR343 Minimum grade of D

Levels: Graduate Undergraduate

ATTR 345 - Orthopedic Injuries I

3 Credit Hours
A comprehensive study of the lower extremity including foot, ankle, knee, thigh, hip, and pelvis with attention to prevention, recognition, and rehabilitation of related injuries.

Restrictions: Must be enrolled in one of the following Majors: Athletic Training

Levels: Graduate Undergraduate

ATTR 346 - Orthopedic Injuries II

3 Credit Hours
A comprehensive study of the upper extremity including fingers, hand, wrist, arm and shoulder complex with attention to prevention,
recognition and rehabilitation of related injuries.

Restrictions: Must be enrolled in one of the following Majors: Athletic Training

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

**ATTR 347 - Orthopedic Injuries III**

**ATTR 347 - Orthopedic Injuries III**

3 Credit Hours
A comprehensive study of the head, neck, and spine with special attention to prevention, recognition, recognition, and rehabilitation of related injuries.

Restrictions: Must be enrolled in one of the following Majors: Athletic Training

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

**ATTR 375 - Field Exp in Athletic Training**

**ATTR 375 - Field Exp in Athletic Training**

1 Credit Hours
This course allows the athletic training student the opportunity to practically apply current practices, principles, and techniques in athletic training under appropriate supervision in a real-world setting. May be repeated 6 times for course credit.

Restrictions: Must be enrolled in one of the following Majors: Athletic Training

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

**ATTR 386 - Advanced Kinesiology**

**ATTR 386 - Advanced Kinesiology**

2 Credit Hours
In-depth study designed for Athletic Training majors. Study of human movement including analysis of muscular physiology, biomechanics, principles of physics as applied to joint movement through individual muscular contractions. Emphasis on biomechanical analysis for the prevention and treatment of athletic injuries.

Prerequisites: (Undergraduate level BIOL140 Minimum grade of D and Undergraduate level BIOL143 Minimum grade of D)

Co-requisites: ATTR387

Restrictions: Must be enrolled in one of the following Majors: Athletic Training

Levels: Undergraduate
ATTR 387 - Advanced Kinesiology Lab

1 Credit Hours
Laboratory course complementing the course content of ATTR 386.

Co-requisites: ATTR386
Levels: Undergraduate

ATTR 400 - Clinical Experience V

2 Credit Hours
This course includes a lab and a clinical component. Emphasis on general medical issues, nutrition, and training room management. This course allows the athletic training student the opportunity to gain clinical and administrative skills while practically applying current practices, principles and techniques in athletic training under appropriate supervision in a real-world setting.

Levels: Undergraduate

ATTR 401 - Clinical Experience VI

2 Credit Hours
This course includes a lab and a clinical component. Emphasis on advanced injury assessment techniques, referral, and professional development. This course allows the athletic training student the opportunity to gain clinical and administrative skills while practically applying current practices, principles and techniques in athletic training under appropriate supervision in a real-world setting.

Levels: Undergraduate

ATTR 405 - General Medical Conditions I

3 Credit Hours
A comprehensive study of the internal organs of the body for screening of internal injuries and general medical conditions in athletic participation. Special attention to prevention, recognition, and treatment of general medical conditions and the referral of life-threatening injuries.

**Restrictions:** Must be enrolled in one of the following Majors: Athletic Training

**Levels:** Graduate Undergraduate

*College of Professional Sci Sport Studies*

**ATTR 406 - General Medical Conditions II**

**ATTR 406 - General Medical Conditions II**

3 Credit Hours
Laboratory complementing the course content of ATTR 405.

**Restrictions:** Must be enrolled in one of the following Majors: Athletic Training

**Levels:** Graduate Undergraduate

*College of Professional Sci Sport Studies*

**ATTR 410 - Athletic Training Org & Admin**

**ATTR 410 - Athletic Training Org & Admin**

3 Credit Hours
To emphasize the administrative and managerial duties of the athletic trainer. Emphasis on leadership and supervision, human relations, communication, organizational structure and climate, sport law, budget management and equipment purchasing, pre-participation physical examinations, drug testing, and facility and event management.

**Restrictions:** Must be enrolled in one of the following Majors: Athletic Training

**Levels:** Graduate Undergraduate

*College of Professional Sci Sport Studies*

**ATTR 420 - Research in Athletic Training**

**ATTR 420 - Research in Athletic Training**

3 Credit Hours
A course designed to introduce students to the principles of scientific inquiry and research methods. Evaluation of published research and procedures for developing a research design are also emphasized. In addition, students will gain a basic understanding of statistics.

**Restrictions:** Must be enrolled in one of the following Majors: Athletic Training

**Course Attributes:** Oral Communication Flag, Scientific Perspectives Lab, Scientific Perspectives Lect, Writing Flag Core

**Levels:** Graduate Undergraduate
ATTR 425 - Nutrition

3 Credit Hours
Nutrition and its role in human performance. The classes of nutrients, their physiological functions, and their role in sports and fitness. Nutritional supplements and ergogenic doping will also be addressed.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

ATTR 470 - Independent Study

ATTR 470 - Independent Study

1 - 3 Credit Hours
Investigate an area of interest within the area of sports medicine. Student must have advisor's approval.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

ATTR 480 - Advanced Rehabilitation I

ATTR 480 - Advanced Rehabilitation I

3 Credit Hours
Application of therapeutic modalities and rehabilitation techniques for specific injuries to the lower extremity.

Restrictions: Must be enrolled in one of the following Majors: Athletic Training

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

ATTR 485 - Advanced Rehabilitation II

ATTR 485 - Advanced Rehabilitation II

3 Credit Hours
Application of therapeutic modalities and rehabilitation techniques for specific injuries to the upper extremity.

Restrictions: Must be enrolled in one of the following Majors: Athletic Training
ATTR 492 - Athletic Training: SR Seminar

3 Credit Hours
A culminating experience which presents an extensive overview of the entire professional preparation in Athletic Training. Resume writing, job interviewing skills, and graduate school selection are included.

Restrictions: Must be enrolled in one of the following Majors: Athletic Training

Levels: Graduate Undergraduate

ATTR 495 - AT Certification Preparation

1 Credit Hours
Levels: Undergraduate

ATTR 500 - Care & Prevention

3 Credit Hours
This course is designed to provide knowledge related to the prevention and basic care of pathologies common to active populations. Topics include epidemiology, preparticipation screening, environmental conditions, protective devices and procedures, mechanism of injury, tissue response to injury and basic documentation procedures.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Sport Studies
ATTR 501 - Athletic Training Skills

3 Credit Hours
In this course students will gain foundational clinical athletic training skills. Upon completion of the course, students will be able to apply immobilization devices, taping, bracing and ambulatory aids with patients.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

ATTR 510 - Anatomical Kinesiology

3 Credit Hours
In-depth study of human musculoskeletal anatomy, the principles of body movement, and biomechanics as it relates to orthopedic injury.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

ATTR 521 - Lower Extremity Injuries

3 Credit Hours
A comprehensive study of the lower extremity, with attention to the prevention, assessment, evaluation, and recognition of common lower extremity injuries.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

ATTR 522 - Upper Extremity Injuries

3 Credit Hours
A comprehensive study of the upper extremity, with attention to the prevention, assessment, evaluation, and recognition of common
upper extremity orthopedic injuries.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Sport Studies

ATTR 523 - Head, Spine & Thorax Injuries

ATTR 523 - Head, Spine & Thorax Injuries

3 Credit Hours
A comprehensive study of the head, spine, and thorax, with attention to the prevention, assessment, evaluation, and recognition of common injuries to these areas.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Sport Studies

ATTR 531 - Therapeutic Interventions 1

ATTR 531 - Therapeutic Interventions 1

3 Credit Hours
Principles and the implantation of comprehensive treatment plans for injuries commonly sustained by the physically active is discussed and practiced.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Sport Studies

ATTR 532 - Therapeutic Interventions II

ATTR 532 - Therapeutic Interventions II

3 Credit Hours
A continuation of Therapeutic Intervention 1, additional principles, and the implementation of comprehensive treatment plan for injuries commonly sustained by the physically active is discussed and practiced.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Sport Studies
ATTR 540 - Evidence Based Practice

3 Credit Hours
Develop knowledge and skills to integrate best evidence, clinical experience, and patient-values into athletic training clinical practice. Students will address clinical problems using evidence-based practice.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

ATTR 541 - Research I

1 Credit Hours
Students will apply evidence based practice concepts to help solve clinical problems.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

ATTR 550 - IP Collaboration

1 Credit Hours
This course educates interprofessional teams through an innovative curriculum and shared practices using technology and faculty created case scenarios, case studies and practicum observations.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

ATTR 561 - Clinical Experience I

2 Credit Hours
This course includes a lab and clinical placement. Emphasis is placed on practicing and assessing clinical athletic training foundational skills, with a focus on prevention techniques, pre-participation screening, environmental concerns, protective devices and procedures,
documentation and acute care of pathology in active populations. This course allows the athletic training student the opportunity to apply their clinical athletic training skills with patients while under the supervision of a precepto.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci Sport Studies*

**ATTR 562 - Clinical Experience 2**

2 Credit Hours

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

BIOL 102 - Life: Human Biology

BIOL 102 - Life: Human Biology

2 Credit Hours

Study of the anatomy and physiology of the human body systems, with emphasis on the regulatory mechanisms that maintain homeostasis and health. This course is not for BIOL, NURS, NATS, PSYC, ATTR or HOCS majors.

Co-requisites: BIOL132

Restrictions: May not be enrolled in one of the following Majors: Athletic Training Biology Natural Sciences Nursing Psychology May not be enrolled in one of the following Concentrations: Human Occupation Studies

Course Attributes: Biology Lect Old/Trans Core, Nat Sci Elect Lecture New Core, Scientific Perspectives Lect

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 104 - Life: Biology of Wellness

BIOL 104 - Life: Biology of Wellness

2 Credit Hours

Biological aspects of maintaining human mental and physical wellbeing.

Course Attributes: Biology Lect Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Biology
BIOL 105 - Life: Biology of Disease

2 Credit Hours
The scientific method has resulted in historically unprecedented changes in our world. In this course you will learn how science proceeds, and practice the scientific method yourself in a weekly laboratory experience. You will learn the qualities of a good hypothesis or model, how to assess its validity, the significance of a scientific theory, and the elusiveness of "proof." On completing the course, you will be better able to understand and evaluate scientific or pseudoscientific claims that have direct impacts on your personal and professional life. You will explore the scientific method with the nature of disease as backdrop. You will explore the causes, treatment and prevention of diseases along with their evolution. We will look at infectious, and genetic diseases, as well as those with environmental causes. Some of the specific diseases we will explore include Ebola, AIDS, food poisoning, bubonic plague, cystic fibrosis, ulcers, alcoholism, obesity and cancer. You will also have the opportunity to choose your own diseases to explore.

Co-requisites: BIOL124

Course Attributes: Nat Sci Elect Lecture New Core, Scientific Perspectives Lect

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 106 - Life: Biology of Aging

BIOL 106 - Life: Biology of Aging

2 Credit Hours
This course will discuss and examine the current understanding of the aging process from the biological viewpoint with an emphasis on the anatomy and physiology of human organ systems.

Co-requisites: BIOL107

Course Attributes: Biology Lect Old/Trans Core, Nat Sci Elect Lecture New Core

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 107 - Life: Biology of Aging Lab

BIOL 107 - Life: Biology of Aging Lab

1 Credit Hours
This course will involve the study of the anatomy and physiology of human organ systems to investigate the process of aging. It will utilize prosected cadavers to strengthen the understanding of topics discussed in lecture.

Co-requisites: BIOL106

Course Attributes: Nat Sci Elect Lab New Core

Levels: Undergraduate
BIOL 110 - Life: Human Reproduction Today

2 Credit Hours
Study of the anatomy and physiology of traditional reproduction and the newer technologies that allow the manipulation of human fertility, like in vitro fertilization, and discussions of embryonic stem cells, cloning, and gene therapy.

Prerequisites: Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D

Co-requisites: BIOL133

Course Attributes: Biology Lect Old/Trans Core, ERS Focus Elective, Scientific Perspectives Lect

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 112 - Life: Growing & Evolving

BIOL 112 - Life: Growing & Evolving

2 Credit Hours
Study of the process of organic evolution and how it has resulted in the structural, functional, and genetic diversity of organisms, with focus on recent advances and major events in the history of life.

Course Attributes: Biology Lect Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 114 - Irish Biodiversity

BIOL 114 - Irish Biodiversity

2 Credit Hours
This course will introduce students to the evolutionary development and current distribution of organisms in the modern ecosystems of Ireland. We will travel through rural Ireland and visit a diversity of biological communities including peat bogs, oak forests, freshwater lakes, and rocky coastlines. One of the goals of the course is to introduce students to the classification of a diversity of organisms in the context of their evolutionary history. We also discuss the challenges and benefits of conserving biodiversity.

Co-requisites: BIOL115

Course Attributes: Biology Lect Old/Trans Core, Nat Sci Elect Lecture New Core

Levels: Undergraduate

College of Arts & Sciences Biology
BIOL 115 - Life: Biodiversity Ireland Lab

1 Credit Hours
This course will introduce students to the scientific investigation of biodiversity in Ireland. It is a companion course for BIOL 114. The goals of this course are to have students (1) understand the practical methods scientists use to investigate aspects of biodiversity and conservation of organisms and (2) learn to recognize and categorize organisms encountered in the field.

Co-requisites: BIOL114

Course Attributes: Biology Lab Old/Trans Core, Nat Sci Elect Lab New Core

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 116 - Life: Microbes & Humans

2 Credit Hours
Study of microbes (bacteria, viruses, protozoa) and their impact on human society.

Course Attributes: Biology Lect Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 117 - Life: Current Topics Lab

1 Credit Hours
This course, designed to complement BIOL 119, explores basic biological principles in a laboratory setting. Topics will include using the scientific method to gather and evaluate real-world scientific data, the concept of homeostasis and how its used to understand the functioning of organ systems, principles of inheritance, evolution and investigation of the world of microbes.

Co-requisites: BIOL119

Course Attributes: Nat Sci Elect Lab New Core

Levels: Undergraduate

College of Arts & Sciences Biology
BIOL 118 - Life: The World of Plants

**2 Credit Hours**
Introduction to the study of plants, including basic aspects of the structure and function of higher plants and the value of plants in nature and to people.

**Co-requisites:** BIOL134

**Course Attributes:** Biology Lect Old/Trans Core, Nat Sci Elect Lecture New Core, Scientific Perspectives Lect

**Levels:** Undergraduate

*College of Arts & Sciences Biology*

BIOL 119 - Life: Current Topics

**2 Credit Hours**
New advances and controversial areas of research in the life sciences, as a way of introducing some of the major concepts in biology. Topics may include evolution and creationism, global warming, animals in research, artificial intelligence, and genetic engineering. Online option may be available.

**Co-requisites:** BIOL117

**Course Attributes:** Biology Lect Old/Trans Core

**Levels:** Undergraduate

*College of Arts & Sciences Biology*

BIOL 120 - Life: Ecology & People

**2 Credit Hours**
An exploration of critical environmental issues that affect our world today, through a study of ecological principles and their interaction with human society, especially considering the ethical, political, and economic aspects.

**Prerequisites:** Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D

**Co-requisites:** BIOL136

**Course Attributes:** Biology Lect Old/Trans Core, ERS Focus Elective, Nat Sci Elect Lecture New Core, Peace & Justice Studies Minor

**Levels:** Undergraduate

*College of Arts & Sciences Biology*
BIOL 122 - Tropical Biodiversity

2 Credit Hours
This course introduces students to the scientific study of biodiversity in the Neotropics. We will travel to a diverse range of natural biological communities including primary rainforest, coastal communities, coral reefs, freshwater streams, and cloud forest. We will also examine effects of modern land-use patterns on these systems by visiting agricultural areas including coffee and cacao plantations.

Co-requisites: BIOL123

Course Attributes: Biology Lect Old/Trans Core, Nat Sci Elect Lecture New Core

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 123 - Tropical Biodiversity Lab

1 Credit Hours
Field exercises to accompany BIOL 122, utilizing native species as examples.

Co-requisites: BIOL122

Course Attributes: Biology Lab Old/Trans Core, Nat Sci Elect Lab New Core

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 124 - Life: Biology of Disease Lab

1 Credit Hours
The scientific method has resulted in historically unprecedented changes in our world. In this course you will learn how science proceeds, and practice the scientific method yourself in a weekly laboratory experience. You will learn the qualities of a good hypothesis or model, how to assess its validity, the significance of a scientific theory, and the elusiveness of "proof." On completing the course, you will be better able to understand and evaluate scientific or pseudoscientific claims that have direct impacts on your personal and professional life. You will explore the scientific method with the nature of disease as backdrop. You will explore the causes, treatment and prevention of diseases along with their evolution. We will look at infectious, and genetic diseases, as well as those with environmental causes. Some of the specific diseases we will explore include Ebola, AIDS, food poisoning, bubonic plague, cystic fibrosis, ulcers, alcoholism, obesity and cancer. You will also have the opportunity to choose your own diseases to explore.

Co-requisites: BIOL105

Course Attributes: Nat Sci Elect Lab New Core, Scientific Perspectives Lab

Levels: Undergraduate
BIOL 125 - Life Lab: Investigation I

1 Credit Hours
Inquiry-based experiments to accompany BIOL 102-120 covering plants, our senses and the brain, evolution, plastics, and genetics. Field trip to Krohn’s Conversatory.

Course Attributes: Biology Lab Old/Trans Core, Peace & Justice Studies Minor

Levels: Undergraduate

BIOL 127 - Life Lab: Investigation II

1 Credit Hours
Exercises, experiments, and field trips to accompany BIOL 102-120 examining basic nutrition, water pollution, infectious disease, pregnancy & paternity testing. Field trip to the Cincinnati Zoo.

Course Attributes: Biology Lab Old/Trans Core, Peace & Justice Studies Minor

Levels: Undergraduate

BIOL 130 - Intro to Life Sciences

2 Credit Hours
Cells, heredity, ecology, evolution, plant and animal morphology, and physiology. For Education Majors.

Co-requisites: BIOL131

Restrictions: Must be enrolled in one of the following Programs: BS in Education areas Must be enrolled in one of the following Majors: Early Childhood Education Elementary Education Middle Childhood Education Montessori Education Reading Specialist Secondary Education Special Education

Course Attributes: Biology Lect Old/Trans Core, Nat Sci Elect Lecture New Core, Scientific Perspectives Lect

Levels: Undergraduate

College of Arts & Sciences Biology
BIOL 131 - Intro to Life Sciences Lab

1 Credit Hours
Exercises and field trips to illustrate principles taught in BIOL 130. For Education majors only.

Co-requisites: BIOL130

Restrictions: Must be enrolled in one of the following Majors: Early Childhood Education Elementary Education Middle Childhood Education Montessori Education Secondary Education

Course Attributes: Biology Lab Old/Trans Core, Nat Sci Elect Lab New Core, Scientific Perspectives Lab

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 132 - Life: Human Biology Lab

1 Credit Hours
This course will promote depth of thought through the perspectives of guided (instructor guides students through the inquiry process) and open (students design their own experiments) inquiry to understand the process scientists use to gain new knowledge. The two-credit hour lecture/discussion will have a one-credit hour lab (Biol 132 Human Biology Lab) as a co-requisite in which to carry out the guided and open inquiry. Students will study five human body systems that work together to keep our body within normal limits in spite of the abuse we hand out on a daily basis with our eating, exercise, and sleeping habits. We will specifically look at how maintaining the body within normal limits, called homeostasis, as the basis for life. We will discuss the structure and functions of some of the major systems of the human body including how the digestive system works in detail and affect homeostasis, how the endocrine and nervous system regulate homeostasis with help from the respiratory system, how the immune system protects humans from diseases and illnesses and challenge homeostasis (autoimmune disease and when the hypothalamus resets body temperature during fever), and what happens during a heart attack or stroke and how this affects homeostasis.

Co-requisites: BIOL102

Course Attributes: Nat Sci Elect Lab New Core, Scientific Perspectives Lab

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 136 - Life: Ecology and People Lab

1 Credit Hours
Biology 136 Life: Ecology and people Lab is a non-biology majors course that is designed to explore the science of ecology using inquiry-based science, a process of learning through original experimentation and research. You will learn to think and plan like an ecologist by conducting several ecological studies and experiments.

Co-requisites: BIOL120
BIOL 140 - Human A&P I for Allied Health

3 Credit Hours
The major human systems emphasizing the skeletal, muscular, and nervous systems.

Restrictions: May not be enrolled in one of the following Majors: Biology Natural Sciences

Course Attributes: Biology Lect Old/Trans Core, Nat Sci Elect Lecture New Core
Levels: Undergraduate

BIOL 141 - Hum A&P I Lab Allied Health

1 Credit Hours
Human skeletal material and dissection of a representative mammal. Histology of tissues and organs with physiological exercises and demonstrations, including human cadavers.

Course Attributes: Biology Lab Old/Trans Core, Nat Sci Elect Lab New Core
Levels: Undergraduate

BIOL 142 - Hum A&P II for Allied Health

3 Credit Hours
Continuation of BIOL 140 stressing the circulatory, immune, excretory, digestive, endocrine, reproductive, and respiratory systems.

Prerequisites: Undergraduate level BIOL140 Minimum grade of D and Undergraduate level BIOL141 Minimum grade of D

Restrictions: May not be enrolled in one of the following Majors: Biology Natural Sciences

Course Attributes: Biology Lect Old/Trans Core, Nat Sci Elect Lecture New Core, Scientific Perspectives Lect
Levels: Undergraduate
BIOL 143 - Hum A&P II Lab Allied Health

1 Credit Hours
Continuation of anatomical approach of BIOL 141 with related physiological studies and demonstrations.

Course Attributes: Biology Lab Old/Trans Core, Nat Sci Elect Lab New Core, Scientific Perspectives Lab

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 144 - A&P I for Social Sciences

3 Credit Hours
This course is intended for Psychology majors. The first of a two-semester series, this new course introduces the major concept of homeostasis and a foundation in biochemistry, cell, and molecular principles, and an overview of all Human organ systems.

Co-requisites: BIOL145

Course Attributes: Nat Sci Elect Lecture New Core

Levels: Undergraduate

College of Professional Sci Biology

BIOL 160 - General Biology I

3 Credit Hours
Principles of molecular, cellular, and organismal biology, emphasizing the physiology of vertebrates. Introductory course for APBI, BIOL, LSFB, NATS, TLSC majors. Preparation for most 200 biology level courses.

Course Attributes: Biology Lect Old/Trans Core, Nat Sci Elect Lecture New Core, Scientific Perspectives Lect

Levels: Undergraduate

College of Arts & Sciences Biology

BIOL 161 - General Biology I Lab

1 Credit Hours
Laboratory exercises demonstrating the principles of molecular and cellular biology, genetics, and vertebrate systems.

**Course Attributes:** Biology Lab Old/Trans Core, Nat Sci Elect Lab New Core, Scientific Perspectives Lab

**Levels:** Undergraduate

*College of Arts & Sciences Biology*

**BIOL 162 - General Biology II**

**BIOL 162 - General Biology II**

3 Credit Hours
Topics in taxonomy, evolution, animal behavior, and ecology. Preparation for most 200 Biology level courses.

**Prerequisites:** Undergraduate level BIOL160 Minimum grade of D or Graduate level EDMS999

**Course Attributes:** Biology Lect Old/Trans Core, Nat Sci Elect Lecture New Core

**Levels:** Undergraduate

*College of Arts & Sciences Biology*

**BIOL 163 - General Biology II Lab**

**BIOL 163 - General Biology II Lab**

1 Credit Hours
Laboratory exercises and field trips demonstrating the principles of evolution, animal behavior, ecology, taxonomy/phylogenetics, and an introduction to scientific writing.

**Prerequisites:** Undergraduate level BIOL161 Minimum grade of D

**Course Attributes:** Biology Lab Old/Trans Core, Nat Sci Elect Lab New Core

**Levels:** Undergraduate

*College of Arts & Sciences Biology*

**BIOL 200 - Microbiology**

**BIOL 200 - Microbiology**

3 Credit Hours
Basic study of microbes, their activities, control, role in disease and host immune responses. Intended for Nursing and Pre-Pharmacy students.

**Course Attributes:** Nat Sci Elect Lecture New Core

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Biology*
BIOL 201 - Microbiology Lab

1 Credit Hours
Microscopic examination of the diversity of microbes, including bacteria, fungi and protistans. Students learn their structure and metabolism and how we control their spread.

Course Attributes: Nat Sci Elect Lab New Core
Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 204 - Functional Neuroscience

3 Credit Hours
The structure and function of the nervous system, with investigations of pathological conditions and current topics.

Restrictions: Must be enrolled in one of the following Majors: Occupational Therapy
Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 210 - General Botany

3 Credit Hours
The morphology, physiology, and reproduction of representatives of each plant division are studied with emphasis on the seed plants.

Prerequisites: Undergraduate level BIOL160 Minimum grade of D and Undergraduate level BIOL161 Minimum grade of D and Undergraduate level BIOL162 Minimum grade of D and Undergraduate level BIOL163 Minimum grade of D

Course Attributes: Nat Sci Elect Lecture New Core
Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 211 - General Botany Lab

2 Credit Hours
Observations of living and preserved plants, experimentation, and field trips to illustrate structure and life processes in various plant groups.

Co-requisites: BIOL210

Course Attributes: Nat Sci Elect Lab New Core

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 222 - Immunology

BIOL 222 - Immunology

3 Credit Hours
An introduction to the specific mechanisms by which the human body reacts to foreign biological materials and includes extensive clinical correlation segments.

Prerequisites: Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 227 - Parasitology

BIOL 227 - Parasitology

3 Credit Hours
This course will introduce students to invertebrate and fungal parasites: their complex life cycles, pathogenesis and roles in ecosystems. Human behaviors that affect parasitic epidemiology will be critically examined in a rigorous, evolutionary context. Topics include schistosomiasis biology and irrigation projects, aquaculture parasites, and fishery maintenance, fungal parasites of social insects and pharmacology of anti-malarial drugs.

Prerequisites: BIOL160 and BIOL161 and BIOL162 and BIOL163

Course Attributes: Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 230 - Genetics

BIOL 230 - Genetics

3 Credit Hours
Principles of heredity and molecular genetics.

Prerequisites: Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and
BIOL 231 - Genetics Laboratory

BIOL 231 - Genetics Laboratory

1 Credit Hours
Laboratory exercises to provide students with experience in modern molecular genetics and methods of manipulating and studying nucleic acids.

Prerequisites: Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-

Course Attributes: Nat Sci Elect Lab New Core
Levels: Graduate Undergraduate

BIOL 240 - Evolution

BIOL 240 - Evolution

3 Credit Hours
Evidence for and the mechanisms of evolutionary processes.

Prerequisites: Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-

Levels: Graduate Undergraduate

BIOL 244 - Animal Behavior

BIOL 244 - Animal Behavior

3 Credit Hours
Study of the innate, learned, aggressive, social and sexual behavior of animals as evolutionary products.

Prerequisites: Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-

Levels: Graduate Undergraduate
BIOL 250 - Ecology

3 Credit Hours
The relationships between organisms and their living and non-living environments.

Prerequisites: BIOL120 or BIOL162
Co-requisites: BIOL251

Course Attributes: Nat Sci Elect Lecture New Core, Peace & Justice Studies Minor
Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 251 - Ecology Lab

1 Credit Hours
Laboratory and field exercises to illustrate ecological principles. Local aquatic and terrestrial habitats are investigated.

Prerequisites: BIOL120 or BIOL162
Co-requisites: BIOL250

Course Attributes: Nat Sci Elect Lab New Core, Peace & Justice Studies Minor
Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 255 - Tropical Ecology

3 Credit Hours
This course will introduce students to the scientific study of tropical ecology in the field. We will travel to a diverse range of natural biological communities including primary rainforest, coastal communities, coral reefs, freshwater streams, and cloud forest. We will also examine effects of modern land-use patterns on these systems by visiting agricultural areas including coffee and cacao plantations.

Prerequisites: Undergraduate level BIOL162 Minimum grade of D and Undergraduate level BIOL163 Minimum grade of D
Course Attributes: Biology Lab Old/Trans Core, Biology Lect Old/Trans Core
Levels: Graduate Undergraduate

College of Arts & Sciences Biology
**BIOL 256 - Conservation Biology Ireland**

**3 Credit Hours**
This course will introduce students to the science of conservation biology in the context of modern Ireland. We will travel through rural Ireland and visit a diversity of biological communities including peat bogs, oak forests, freshwater lakes, and rocky coastlines. We will examine the threats to species persistence including those posed by land-use changes, overexploitation, and introduction of invasive species. We will discuss historical changes leading to the population crashes of endangered species such as the Corn Crake, the Irish red deer, and the Barn Owl and examine the habitat management practices being employed to recover populations of these species.

**Prerequisites:** Undergraduate level BIOL162 Minimum grade of D and Undergraduate level BIOL163 Minimum grade of D

**Levels:** Graduate Undergraduate

**College of Arts & Sciences Biology**

**BIOL 260 - Intro to Environmental Science**

**3 Credit Hours**
In this introductory course, students will examine how natural and human activities alter natural ecosystems resulting in environmental problems at both local and global scales. Students will be introduced to concepts of sustainability and solutions for current and future environmental problems that humanity will encounter.

**Prerequisites:** Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-

**Co-requisites:** BIOL261

**Course Attributes:** Nat Sci Elect Lecture New Core, Peace & Justice Studies Minor

**Levels:** Graduate Undergraduate

**College of Arts & Sciences Biology**

**BIOL 261 - Intro to Environ Science Lab**

**1 Credit Hours**
In this course, students will gain hands-on experience in environmental science topics through observation and experimentation in the field and laboratory, data collection and analysis, communication of results and discussions on current environmental issues. Students will also be exposed to various local environmental organizations and issues through guest speakers and field trips.

**Prerequisites:** Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-

**Co-requisites:** BIOL260

**Course Attributes:** Nat Sci Elect Lab New Core
BIOL 270 - Introduction To Entomology

BIOL 270 - Introduction To Entomology

3 Credit Hours
Introduction to the taxonomy, morphology, physiology, behavior, ecology, and evolution of insects and related arthropods.

Prerequisites: BIOL160 and BIOL161 and BIOL162 and BIOL163

Co-requisites: BIOL271

Course Attributes: Nat Sci Elect Lecture New Core

Levels: Graduate Undergraduate

BIOL 271 - Introduction To Entomology Lab

BIOL 271 - Introduction To Entomology Lab

2 Credit Hours
Instruction in techniques to identify, collect, curate, and observe insects and related arthropods. Field trips to practice field techniques and to learn about the ecology of insects.

Prerequisites: BIOL160 and BIOL161 and BIOL162 and BIOL163

Co-requisites: BIOL270

Course Attributes: Nat Sci Elect Lab New Core

Levels: Graduate Undergraduate

BIOL 280 - Topics in Biology

BIOL 280 - Topics in Biology

1 - 3 Credit Hours
Short-term courses designed to explore biological phenomena of current interest.

Prerequisites: Undergraduate level BIOL160 Minimum grade of D and Undergraduate level BIOL161 Minimum grade of D and Undergraduate level BIOL162 Minimum grade of D and Undergraduate level BIOL163 Minimum grade of D

Levels: Graduate Undergraduate
BIOL 290 - Special Problems in Biology

1 - 4 Credit Hours
Independent study in some specialized area of biology. Requires permission of Chair.

Levels: Graduate Undergraduate

BIOL 330 - Medical Genetics: Implications

3 Credit Hours
The principles of human genetics, risks, screening, diagnosis, applications of genetic ethics to problems.

Prerequisites: Undergraduate level BIOL160 Minimum grade of D and Undergraduate level BIOL161 Minimum grade of D and Undergraduate level BIOL162 Minimum grade of D and Undergraduate level BIOL163 Minimum grade of D and Undergraduate level BIOL230 Minimum grade of D

Course Attributes: ERS Focus Elective

Levels: Graduate Undergraduate

BIOL 354 - Human and Comparative Anat

3 Credit Hours
Study of the anatomy and function of selected vertebrates, including humans, emphasizing the evolutionary connections among vertebrates.

Prerequisites: Undergraduate level BIOL160 Minimum grade of D and Undergraduate level BIOL161 Minimum grade of D and Undergraduate level BIOL162 Minimum grade of D and Undergraduate level BIOL163 Minimum grade of D

Co-requisites: BIOL355

Restrictions: May not be enrolled as the following Classifications: Sophomore Freshman

Course Attributes: Nat Sci Elect Lecture New Core

Levels: Graduate Undergraduate

College of Arts & Sciences Biology
BIOL 355 - Human and Comp Anat Lab

2 Credit Hours
Exercises which demonstrate major principles to accompany BIOL 354. Dissection of cat and shark, with human cadaver demonstrations.

Co-requisites: BIOL354

Course Attributes: Nat Sci Elect Lab New Core

Levels: Graduate Undergraduate

BIOL 360 - Cell Biology

BIOL 360 - Cell Biology

3 Credit Hours
This course covers basic cell biology. Topics include metabolism, gene expression, membrane structure and transport, intracellular protein trafficking, extracellular matrix, signal transduction, and cell cycle regulation.

Prerequisites: Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-

Levels: Graduate Undergraduate

BIOL 364 - Virology

BIOL 364 - Virology

3 Credit Hours
This course serves as an introduction to the diversity, genetics, and ecology of viruses, emphasizing impacts on human societies worldwide.

Prerequisites: BIOL160 and BIOL161 and BIOL162 and BIOL163

Course Attributes: Peace & Justice Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Biology
BIOL 370 - Endocrinology

BIOL 370 - Endocrinology

3 Credit Hours
An introduction to the system of chemical messengers (hormones), which modulate growth, energy expenditure, sexual maturation, and neural function. Endocrine hormones act along with the nervous system to integrate all bodily functions.

Prerequisites: Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 380 - Neurobiology

BIOL 380 - Neurobiology

3 Credit Hours
An introduction to the study of the cells of the nervous system and the organization of these cells into functional circuits that process information and mediate behavior. The goal of this course is to give students a broad understanding of the functioning of animal nervous systems at the cellular level. Pre-requisite: BIOL 160 or BIOL 140

Prerequisites: BIOL160 and BIOL161 and BIOL162 and BIOL163

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 398 - SEM: Environmental Studies

BIOL 398 - SEM: Environmental Studies

3 Credit Hours
An environmental issue is selected and explored in depth. The seminar uses a multidisciplinary approach that analyzes the ecological, economic, and ethical consequences of the problem so that students gain an appreciation for both the interconnectedness and the complexity of environmental problems.

Prerequisites: ( BIOL250 and BIOL251)

Course Attributes: Environ Science/Studies Elect

Levels: Graduate Undergraduate

College of Arts & Sciences Biology
BIOL 410 - Human Physiology

3 Credit Hours
Selected topics in human physiology, with particular emphasis on homeostatic mechanisms, communication within the body, and muscle activity.

Prerequisites: Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-

Restrictions: Must be enrolled in one of the following Classifications: Senior Junior

Course Attributes: Nat Sci Elect Lecture New Core

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 411 - Human Physiology Lab

2 Credit Hours
Exercises which demonstrate major principles to accompany BIOL 410. Students will develop increased competency in collecting and analyzing data as well as scientific communication.

Prerequisites: Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-

Co-requisites: BIOL410

Restrictions: May not be enrolled as the following Classifications: Sophomore Freshman

Course Attributes: Nat Sci Elect Lab New Core, Writing Flag Core

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 414 - Adaptive Animal Physiology

3 Credit Hours
This course is aimed at examining how physiological processes are used to enable animals to carry out specific behaviors or live in specialized environment(s). We will use our knowledge of physiology to explore these topics and gain an understanding of physiological processes in different animals.

Prerequisites: Undergraduate level BIOL410 Minimum grade of D

Levels: Graduate Undergraduate
BIOL 420 - General Histology

2 Credit Hours
Structure and function of animal tissues as revealed by light microscopy, electron microscopy, and histochemistry.

Prerequisites: Undergraduate level BIOL160 Minimum grade of D and Undergraduate level BIOL161 Minimum grade of D and Undergraduate level BIOL162 Minimum grade of D and Undergraduate level BIOL163 Minimum grade of D

Co-requisites: BIOL421

Restrictions: May not be enrolled as the following Classifications: Sophomore Freshman

Course Attributes: Nat Sci Elect Lecture New Core

Levels: Graduate Undergraduate

BIOL 421 - General Histology Lab

2 Credit Hours
A microscopic study of fixed materials employing routine and histochemical techniques to demonstrate cell, tissue, and organ morphology.

Co-requisites: BIOL420

Course Attributes: Nat Sci Elect Lab New Core

Levels: Graduate Undergraduate

BIOL 440 - Biochemistry

3 Credit Hours
A lecture course treating the structure, properties, and metabolism of proteins, carbohydrates, lipids, and nucleic acids.

Prerequisites: Undergraduate level CHEM242 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Biology
BIOL 450 - General Microbiology

3 Credit Hours
The morphology, physiology, and ecology of viruses, bacteria, eukaryotic microbes, and fungal microbes, including the impact of these organisms on humans.

Prerequisites: (Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-) or EDMS999

Co-requisites: BIOL451

Restrictions: May not be enrolled as the following Classifications: Sophomore Freshman

Course Attributes: Nat Sci Elect Lecture New Core

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 451 - General Microbiology Lab

BIOL 451 - General Microbiology Lab

2 Credit Hours
The techniques for isolation, identification, culturing, and physiological study of viruses, bacteria and fungi.

Prerequisites: Undergraduate level BIOL160 Minimum grade of C- and Undergraduate level BIOL161 Minimum grade of C- and Undergraduate level BIOL162 Minimum grade of C- and Undergraduate level BIOL163 Minimum grade of C-

Co-requisites: BIOL450

Course Attributes: Nat Sci Elect Lab New Core

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 460 - Developmental Biology

BIOL 460 - Developmental Biology

3 Credit Hours
The major events in development, including gametogenesis, fertilization, cleavage divisions, embryonic polarization, germ layer formation, and morphogenesis, and the underlying cellular, molecular, and genetic mechanisms that control these events.

Prerequisites: Undergraduate level BIOL230 Minimum grade of D and Undergraduate level BIOL231 Minimum grade of D

Co-requisites: BIOL461

Course Attributes: Nat Sci Elect Lecture New Core
BIOL 461 - Developmental Biology Lab

BIOL 461 - Developmental Biology Lab

1 Credit Hours
Exercises that demonstrate gametogenesis, fertilization, cleavage divisions, embryonic polarization, germ layer formation, and morphogenesis.

Co-requisites: BIOL 460

Course Attributes: Nat Sci Elect Lab New Core

Levels: Graduate Undergraduate

BIOL 470 - Human Anatomy I

BIOL 470 - Human Anatomy I

1 Credit Hours
An introductory course in gross human anatomy achieved through the dissection of human cadavers, including dissection technique, integument removal, muscle identification and demonstration of cadavers to other classes. Requires permission of Chair.

Prerequisites: BIOL 354 and BIOL 355

Levels: Graduate Undergraduate

BIOL 472 - Human Anatomy II

BIOL 472 - Human Anatomy II

1 Credit Hours
Continuation of BIOL 470, including cadaver dissection of thoracic, abdominal, and pelvic cavities, cranium, and face.

Prerequisites: Undergraduate level BIOL 354 Minimum grade of D and Undergraduate level BIOL 355 Minimum grade of D and Undergraduate level BIOL 470 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Biology
BIOL 495 - Directed Study

1 - 4 Credit Hours
A variety of independent studies, including an internship program with the Cincinnati Zoo, and undergraduate research during junior and senior years.

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 496 - Senior Capstone Seminar

2 Credit Hours
Directed reading, discussion and literature research work culminating in a written review paper and oral presentation. Includes instruction in scientific writing and oral communication in the biological sciences.

Prerequisites: BIOL160 and BIOL161 and BIOL162 and BIOL163 and MATH156

Restrictions: Must be enrolled in one of the following Classifications: Senior

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 497 - Experimental Biology Lab

2 Credit Hours
Students work in small teams to develop, execute, and present an original research project of biological significance. Possible topics include, but are not limited to, assays of local microbiota or determination of environmental factors that play a role in plant, protist, or bacterial growth, as well as analysis of bioinformatic data or public health statistics. Prior completion of General Statistics recommended but not required. Student work will culminate in a written paper and oral presentation.

Prerequisites: BIOL160 and BIOL161 and BIOL162 and BIOL163 and CHEM160 and CHEM161 and CHEM162 and CHEM163 and MATH156

Restrictions: Must be enrolled in one of the following Classifications: Senior

Levels: Graduate Undergraduate

College of Arts & Sciences Biology
BIOL 498 - Methods of Biol Research I

1 - 2 Credit Hours
Development of a research project emphasizing experimental design, controls, gathering and interpreting experimental data from living organisms. Projects vary depending on faculty advisor. Intended for Seniors.

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BIOL 499 - Methods of Biol Research II

1 - 2 Credit Hours
A continuation of BIOL 498 culminating in the written and oral presentation of scientific reports.

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

BLAW 300 - Legal Environment

3 Credit Hours
Provides a background in the legal environment of business. Topics include: contracts, business torts, product liability, business entities, ethics, and employment discrimination.

Restrictions: Must be enrolled in one of the following Classifications: Senior Junior

Course Attributes: Diversity Curriculum Require, ERS Focus Elective, Gender & Diversity Studies, Social Science Old/Trans Core

Levels: Undergraduate

Williams College of Business Accountancy

BLAW 550 - Business Law and Ethics

3 Credit Hours
The course is structured around an organization's 2019's core values (i.e. leadership, integrity, honesty, etc.) The course explores the relationship between ethics and law by discussing legal concepts (i.e. compliance, governance, discrimination, products, & liability), then analyzing the ethical implications of these same topics. The class format will include lecture, case analysis, discussion using the Socratic method and groups, and student team projects. Students take weekly quizzes and research and write a paper exploring an
approved business legal and ethics topic they select.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*Williams College of Business Business Administration*

**BLAW 620 - Law & Prof Ethics**

3 Credit Hours

**Restrictions:** Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Accountancy

**Levels:** Graduate

*Williams College of Business Business Administration*

**BLAW 695 - Individual Readings**

3 Credit Hours

**Prerequisites:** BLAW550

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*Williams College of Business Business Administration*

**BLAW 750 - View Bus Through Legal Lens**

1.5 Credit Hours

The course will explore the relationship between business and legal/regulatory issues (i.e. affirmative action, insider trading, products liability).

**Restrictions:** Must be enrolled in one of the following Programs: Executive MBA Program Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*Williams College of Business Business Administration*
BLAW 751 - View Bus Through Eth Lens

1.5 Credit Hours
The course will build on the legal case study technique developed in the "Legal Lens" course, and develop critical thinking skills for managers using Harvard Business Cases.

Prerequisites: BLAW750

Restrictions: Must be enrolled in one of the following Programs: Executive MBA Program
Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

BUAD 480 - Doing Business In Asia

BUAD 480 - Doing Business In Asia

3 Credit Hours
This travel course will expose students to the rapidly changing global marketplace and opportunities and challenges for companies working in/with Japan and Korea. Students will draw upon the knowledge learned in their business courses and propose and prepare a viable business venture in Japan or Korea. Selected juniors, seniors and pre-MBA students only.

Co-requisites: ECON300

Levels: Undergraduate

BUAD 481 - Doing Business In Europe

BUAD 481 - Doing Business In Europe

3 Credit Hours
This travel course will expose students to the rapidly changing global marketplace and opportunities and challenges for companies working in London and the EU. Students will draw upon the knowledge learned in their business courses and assess strategies used by businesses to successfully penetrate the European market. Selected juniors, seniors and pre-MBA students only.

Co-requisites: ECON300

Levels: Undergraduate
BUAD 482 - Doing Business In ME: Israel

3 Credit Hours
This course is designed to provide students with an intensive, cultural immersion and exposure to global business and practices in Middle East/Israel. During the course, students will experience, first hand, local culture and markets; explore the business environment and political, social and economic context; better understand the rapidly changing global market conditions; and apply the theoretical framework learned throughout their business courses on a research project and/or business proposal and journal. Foreign travel is required. Business focus will vary based on country or region.

Levels: Undergraduate

BUAD 611 - Workforce Diversity Issues

3 Credit Hours
Workforce Diversity Issues utilizes a multi-disciplinary perspective, so we will draw on economic, sociology, psychology, history, management, and law in our exploration of these issues. This course combines analysis of theoretical and background readings, examination of cases, class discussion and sharing of perspectives, experiential exercises, and application of ideas to real-world situations. Student presentations, based on individual and group research, will assist in achieving course objectives.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Degrees: Master of Business Admin

Levels: Graduate

Williams College of Business Business Administration
BUAD 640 - Business In a Global Economy

3 Credit Hours
An in-depth review of the economies of China, India, and Brazil and their impact on the global marketplace.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

Levels: Graduate

BUAD 680 - Doing Business in Asia

0 - 3 Credit Hours
Assess the elements of quality manufacturing and service used by companies doing business in Japan, Singapore, and other Asian countries. Explore the procedures used to adapt to cultural diversity.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Degrees: Master of Business Admin

Levels: Graduate

BUAD 681 - Doing Business in Europe

3 Credit Hours
Assess the strategies of niche manufacturing and marketing used by business to successfully penetrate the European market, and procedures used to adapt to cultural diversity.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Degrees: Master of Business Admin

Levels: Graduate
BUAD 684 - Doing Business South America

3 Credit Hours
Assess the strategies of niche manufacturing and marketing used by business to successfully penetrate the South American market, and procedures used to adapt to cultural diversity.

Levels: Graduate

Williams College of Business Business Administration

BUAD 688 - Doing Business In Israel

3 Credit Hours
This course will explore why entrepreneurial ventures and business start-ups are so successful in Israel and will view all aspects of a successful international start up. The course will also review how relationships are being established between Israel and Greater Cincinnati for both start up organizations and significant international companies.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

Williams College of Business Business Administration

BUAD 690 - Corporate Governance

3 Credit Hours
This course provides and introduction to corporate governance that applies to publicly held corporations, privately owned corporations and nonprofit organizations. The course emphasizes the development, implementation, monitoring, and evaluation of effective governance strategies.

Prerequisites: ACCT550 and FINC550 and ECON550 and INFO550 and MGMT550 and MKTG550 and BLAW550 and ( MGMT551 or ACCT600) and ACCT601 and FINC600 and ECON600 and INFO600 and MGMT600 and MKTG600 and MGMT601 and BUAD600

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

Williams College of Business Business Administration
BUAD 691 - Global Strategic Thinking

3 Credit Hours
This course creates a common frame of reference for theories, skills and processes to be used for analyzing case situations. Course emphasis will be on presentations of theories, discussions, presentations of current business issues, problem-solving activities, case analyses and guest speaker visits.

Prerequisites: ACCT550 and FINC550 and ECON550 and INFO550 and MGMT550 and MKTG550 and BLAW550 and (MGMT551 or ACCT600) and ACCT601 and FINC600 and ECON600 and INFO600 and MGMT600 and MKTG600 and MGMT601 and BUAD600

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

Williams College of Business Business Administration

BUAD 692 - Service Learning

3 Credit Hours
Student teams serve as consultants to not-for-profit organizations or companies that are committed to serving their community. The course will include lectures and readings, development and execution of a consulting plan, teaming in all aspects of the course, and reflection on experience.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

Williams College of Business Business Administration

BUAD 694 - Bond Portfolio Management

3 Credit Hours
This course is a portfolio management experience for student members of the Xavier Students Bond Investment Fund (XSBIF). Prerequisite of any FINC 600 course or permission of the instructor.

Prerequisites: FINC600 or FINC602 or FINC607 or FINC621 or FINC632 or FINC640 or FINC645 or FINC651 or FINC653 or FINC660 or FINC663 or FINC670 or FINC675 or FINC683 or FINC684 or FINC685 or FINC695

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

Levels: Graduate

Williams College of Business Business Administration
BUAD 695 - Individual Readings & Research

1 - 3 Credit Hours
This course attempts to understand why some firms achieve their objectives, grow, and attract resources while others stagnate, go bankrupt, or succumb to hostile takeovers. This course will attempt to provide the foundations of successful general management by focusing on the role, skills, and functions of the chief executive officer and other senior managers. This perspective requires viewing the corporation as a whole and analyzing its relationship with the environment and other organizations. It involves integrating a knowledge of the different functional areas such as finance, accounting, marketing, and organizational behavior/human resource management. To achieve the WCB mission and goals described above, this course introduces the most advanced and innovative simulation-based learning experiences.

BUAD 751 - Integrative Project Phase 2

BUAD 751 - Integrative Project Phase 2

2.5 Credit Hours
Entrepreneurial behavior is integral to sustaining a company's competitive advantage. As a capstone course to the EMBA program, the Integrative Project is designed to give students senior-management level hands-on experience to research, design, develop and implement a new strategic innovative initiative for a chosen organization. Therefore, the objective of this course is to allow students to apply the concepts that they have learned in previous EMBA courses and use that material to develop, design and lead a new strategic entrepreneurial initiative for enhanced organizational performance. The format of the class will include faculty content delivery and significant hands-on lab work under faculty facilitation. Due to the different topic areas included in this course, it will be taught by the faculty member best qualified to deliver content on each topic, so there will be multiple faculty involved. At times, a guest faculty or outside executive may be invited to a specific class to provide information and/or guidance on an area related to his/her expertise. All faculty involved in teaching the course will be available to facilitate and/or answer questions related to his/her area of expertise, although one faculty member will have overall responsibility for the course and associated hands-on project.

BUAD 755 - International Residency

6 Credit Hours
The International Residency will provide students with an in-depth knowledge of how business is conducted in the emerging markets. The objective of this residency is to provide the students an opportunity to apply the concepts they have learned in their previous EMBA course modules to understanding the opportunities and challenges in doing business in the hottest markets of the 21st century. The international residency is designed to provide a foundation for understanding how the competitive position of a firm is devised based on analyzing the external environment, industry structure, country-based sources of advantage and distinctive competencies of the firm. An integrative approach is used to help students learn to effectively deal with the competitive consequences of constant change in the global marketing environment.

Levels: Graduate

CEAD 680 - Residency I - Professional Dev

3 Credit Hours
This first residency is designed to connect the student to the academic and scholarly work being conducted in the field of coaching education by attending the National Coaching Conference. The National Coaching Conference is an annual professional conference hosted by the United States Coaching Education Coalition (USOC, NCAA, NFHS, SHAPE America, and NSCA). This year the three-day conference is being held at West Virginia University (June 10-12). The 2015 theme is-Physical Literacy: The launching pad for lifetime athletic development and performance. Prior to the conference students will be assigned to specific sessions to attend. Each evening the cohort will meet to discuss the day and what was learned. At the conclusion of the conference students will submit a conference reflection paper. Following the conference students will continue to investigate, research, and present information to cohort members in our online format. The goal is to use the conference theme as a jumping off point for learning and reflecting on the most up to date best practices in coaching education and to become more familiar with the National Standards for Sport Coaches.

*College of Professional Sci Sport Studies*

**CHEM 102 - Chemistry: Environ & Energy**

2 Credit Hours
A course for the non-science major. The relationship between chemistry and contemporary society.

**Co-requisites:** CHEM103

**Course Attributes:** Chem Lect Old/Trans Core

**Levels:** Undergraduate

*College of Arts & Sciences Chemistry*

**CHEM 103 - Chemistry: Environ & Ener Lab**

1 Credit Hours
Chemical experimentation which illustrates the concepts described in CHEM102

**Co-requisites:** CHEM102

**Course Attributes:** Chem Lab Old/Trans Core

**Levels:** Undergraduate

*College of Arts & Sciences Chemistry*

**CHEM 104 - Chemistry: Life and Health**

2 Credit Hours
A course for the non-science major. The impact of basic chemical discoveries and of certain organic and biochemical compounds on society. Fulfills the E/RS Focus elective when taken with CHEM 105.

**Prerequisites:** Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D

**Co-requisites:** CHEM105
CHEM 105 - Chem: Life and Health Lab

1 Credit Hours
Chemical experimentation which illustrates the concepts described in CHEM 104. Fulfills the E/RS Focus elective when taken with CHEM 104.

Prerequisites: Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D

Co-requisites: CHEM104

CHEM 150 - Physiological Chemistry

3 Credit Hours
This is a one semester course covering basic concepts in general chemistry, organic chemistry and biochemistry that includes an understanding of the composition, structure and chemical reactions of substances in living systems. This course is required of undergraduate nursing majors.

Co-requisites: CHEM151

CHEM 151 - Physiological Chemistry Lab

1 Credit Hours
Chemical experimentation which illustrates the concepts described in CHEM 150.

Co-requisites: CHEM150

Course Attributes: Quantitative Reason Flag Pt. 2
CHEM 160 - General Chemistry I

CHEM 160 - General Chemistry I

3 Credit Hours
This course is the first in a two semester sequence of general chemistry. This is a pre-professional course approved by the American Chemical Society for chemistry majors and required of many other science majors. Fundamental principles of chemistry including atomic and molecular structure, states of matter, stoichiometry, energy relationships, periodic table and solution chemistry. The following mathematical concepts are used: scientific notation, logarithms, the quadratic equation and proportionality. Students must have a demonstrated competency in mathematics of MATH105 or above.

Course Attributes: Chem Lect Old/Trans Core, Nat Sci Elect Lecture New Core

Levels: Undergraduate

CHEM 161 - General Chemistry I Lab

CHEM 161 - General Chemistry I Lab

1 Credit Hours
Practice in the basic operations of chemical laboratory work.

Co-requisites: CHEM160

Course Attributes: Chem Lab Old/Trans Core, Nat Sci Elect Lab New Core

Levels: Undergraduate

CHEM 162 - General Chemistry II

CHEM 162 - General Chemistry II

3 Credit Hours
This course is the second in a two semester sequence of general chemistry. This is a preprofessional course approved by the American Chemical Society for chemistry majors and required of many other science majors. Fundamental principles of chemistry including thermodynamics, acids and bases, kinetics, redox processes and transition metal chemistry are covered.

Prerequisites: Undergraduate level CHEM160 Minimum grade of D or Graduate level EDMS999

Course Attributes: Chem Lect Old/Trans Core, Nat Sci Elect Lab New Core

Levels: Undergraduate
CHEM 163 - General Chemistry II Lab

1 Credit Hours
A continuation of CHEM 161. The laboratory work includes qualitative and quantitative inorganic analysis.

Prerequisites: Undergraduate level CHEM161 Minimum grade of D

Co-requisites: CHEM162

Course Attributes: Chem Lab Old/Trans Core, Nat Sci Elect Lab New Core

Levels: Undergraduate

Chemistry

CHEM 220 - Principles of Physical Chem

3 Credit Hours
For students in the life science and BS Chemical Science programs. Aspects of physical chemistry most relevant to living systems.

Prerequisites: Undergraduate level CHEM162 Minimum grade of D or Graduate level EDMS999

Levels: Graduate Undergraduate

CHEM 221 - Analytical Chemistry

1 Credit Hours
Lecture and Laboratory course. Application of wet and instrumental analytical methods to substances of clinical interest.

Prerequisites: Undergraduate level CHEM163 Minimum grade of D or Undergraduate level CHEM165 Minimum grade of D or Graduate level EDMS999

Levels: Graduate Undergraduate

CHEM 221 - Analytical Chemistry
CHEM 226 - Quantitative Analysis

3 Credit Hours
An introductory course in analytical chemistry covering gravimetric and titrimetric methods of analysis. Statistical analysis of data is performed.

Prerequisites: Undergraduate level CHEM162 Minimum grade of D and (Undergraduate level CHEM163 Minimum grade of D or Undergraduate level CHEM165 Minimum grade of D)

Course Attributes: Quantitative Reason Flag Full

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 227 - Quantitative Analysis Lab

1 Credit Hours
Laboratory experiments to demonstrate the concepts discussed in CHEM 226.

Prerequisites: Undergraduate level CHEM163 Minimum grade of D or Undergraduate level CHEM165 Minimum grade of D

Co-requisites: CHEM226

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 240 - Organic Chemistry I

3 Credit Hours
This course is the first in a two semester sequence of organic chemistry. This is a pre-professional course approved by the American Chemical Society for chemistry majors and required of many other science majors. This course examines the basic structure, properties, preparation and reaction mechanisms of organic compounds.

Prerequisites: Undergraduate level CHEM162 Minimum grade of C- or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry
CHEM 241 - Organic Chemistry I Lab

1 Credit Hours
The practice of fundamental operations involved in the synthesis, separation, purification, and identification of organic compounds.

Prerequisites: Undergraduate level CHEM163 Minimum grade of D or Undergraduate level CHEM165 Minimum grade of D or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 242 - Organic Chemistry II

3 Credit Hours
This course is the second in a two semester sequence of organic chemistry. This is a preprofessional course approved by the American Chemical Society for chemistry majors and required of many other science majors. This course continues in the examination of the basic structure, properties, preparation and reaction mechanisms of organic compounds.

Prerequisites: Undergraduate level CHEM240 Minimum grade of D or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 243 - Organic Chemistry II Lab

1 Credit Hours
Continuation of the laboratory work of CHEM 241 with increased emphasis on the reactions and synthesis of organic systems.

Prerequisites: Undergraduate level CHEM241 Minimum grade of D or Graduate level EDMS999

Co-requisites: CHEM242

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry
CHEM 300 - Intro to Chem Research

1 Credit Hours
An introduction to the nature and use of the chemical literature, general research procedures, technical report writing, and computerized literature searches.

Restrictions: Must be enrolled in one of the following Classifications: Junior

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 320 - Physical Chemistry I

3 Credit Hours
An introduction to theoretical chemistry with emphasis on thermodynamics and chemical equilibrium.

Prerequisites: (Undergraduate level CHEM162 Minimum grade of D and Undergraduate level MATH220 Minimum grade of D) or EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 322 - Physical Chemistry II

2 Credit Hours
A continuation of CHEM 320. Chief emphasis on chemical kinetics and kinetic molecular theory.

Prerequisites: Undergraduate level CHEM320 Minimum grade of D or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 325 - Physical Chemistry Laboratory

1 Credit Hours
A laboratory course to demonstrate basic principles of physical chemistry.
Prerequisites: Undergraduate level CHEM320 Minimum grade of D
Co-requisites: CHEM322, CHEM330
Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 330 - Quantum Chemistry

2 Credit Hours
An introduction to quantum chemistry and molecular structure.

Prerequisites: Undergraduate level CHEM162 Minimum grade of D
Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 340 - Instrumental Analysis

3 Credit Hours
Discussion of modern analytical chemistry with emphasis on instrumentation and measurement techniques.

Prerequisites: Undergraduate level CHEM220 Minimum grade of D or Undergraduate level CHEM320 Minimum grade of D
Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 341 - Instrumental Analysis Lab

1 Credit Hours
Practice in the use of chemical instrumentation as available.

Prerequisites: Undergraduate level CHEM340 Minimum grade of D or Graduate level EDMS999
Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry
CHEM 400 - Research/Seminar

1 Credit Hours
Capstone course for the chemistry and chemical science major. Undergraduate research performed under the direction of a faculty member. Students share the results of their research and interact with outside speakers during weekly seminar sessions. A written thesis is the final product of these activities. Pre-requisite: 75% of required chemistry courses for the major with a GPA of 2.00.

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 411 - Organic Synthesis & Analysis

3 Credit Hours
Synthesis and analysis of organic compounds. Emphasis on chromatographic and spectroscopic methods of identification and estimation.

Prerequisites: (Undergraduate level CHEM242 Minimum grade of D and Undergraduate level CHEM243 Minimum grade of D) or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 420 - Inorganic Chemistry

3 Credit Hours
Modern theories of bonding and structure, spectroscopy, redox chemistry, and reaction mechanisms. Coordination compounds, organometallic clusters, and catalysis.

Prerequisites: Undergraduate level CHEM330 Minimum grade of D or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 421 - Inorganic Chemistry Lab

1 Credit Hours
Laboratory techniques and practice in synthetic inorganic chemistry.
Prerequisites: Undergraduate level CHEM420 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 435 - Medicinal Chemistry

CHEM 435 - Medicinal Chemistry

3 Credit Hours
The science and economics of medicinal chemistry. The discovery, structure activity relationships, synthesis and mechanism of action of several classes of drugs are discussed.

Prerequisites: Undergraduate level CHEM242 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 440 - Biochemistry

CHEM 440 - Biochemistry

3 Credit Hours
A lecture course treating the structure, properties, and metabolism of proteins, carbohydrates, lipids, and nucleic acids.

Prerequisites: Undergraduate level CHEM242 Minimum grade of D or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 450 - Topics in Organic Chemistry

CHEM 450 - Topics in Organic Chemistry

3 Credit Hours
An extension of fundamental organic chemistry to include more specialized topics not previously considered or extensively treated.

Prerequisites: Undergraduate level CHEM242 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry
CHEM 460 - Topics in Bioorganic Chemistry

2 Credit Hours
A course devoted to the structure, reactions and synthesis of organic molecules involved in biological processes.

Prerequisites: Undergraduate level CHEM242 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHEM 495 - Directed Study

1 - 3 Credit Hours
Study of a specific topic of interest under the direction of a faculty member.

Levels: Graduate Undergraduate

College of Arts & Sciences Chemistry

CHIN 101 - Elementary Chinese I

3 Credit Hours
Course Attributes: Asian Studies Minor

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

CHIN 102 - Elementary Chinese II

3 Credit Hours

3 Credit Hours
Prerequisites: CHIN201
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CHIN 300 - Advanced Chinese

3 Credit Hours
Prerequisites: CHIN202
Course Attributes: Asian Studies Minor
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CJUS 101 - Intro to Criminal Justice

3 Credit Hours
An overview of the history and legal basis of the criminal justice system, its structures, its functions, and interface with the individual elements.
Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core
Levels: Undergraduate
College of Professional Sci Criminal Justice
CJUS 102 - Intro to Law Enforcement

3 Credit Hours
Overview of policing problems and procedures; legal and philosophical issues in law enforcement; organization and administration of police agencies.

Levels: Undergraduate

College of Professional Sci Criminal Justice

CJUS 103 - Intro to Corrections

3 Credit Hours
Explores both institutional and non-institutional corrections in contemporary society. The operations of prisons and jails and their internal procedures, including safety, security, supervision, classification and programming are explored, along with alternatives to incarceration, probation, and parole. All of these are reviewed in relation to contemporary social and political realities, along with their ethical dimension.

Levels: Undergraduate

College of Professional Sci Criminal Justice

CJUS 167 - Survey of Society Social Work

3 Credit Hours
The course is designed to offer students a basic knowledge and understanding of societal institutions and the core concepts, skills and activities necessary to practice within them. The course also examines the historical roots of the profession; social work interventions in practice, policy, and research; the knowledge, values, ethics and skills underpinning the practice of social work with diverse populations. Students will gain an understanding of the various roles social workers perform and the settings in which they practice.

Course Attributes: Gender & Diversity Studies, Social Science Elect New Core, Social Science Old/Trans Core

Levels: Undergraduate

College of Professional Sci Criminal Justice

CJUS 206 - Criminology

3 Credit Hours
This course explores the cause of crime and deviance from varying theoretical perspectives in the social sciences. As an introductory
survey of the classical and positivist schools of criminology, theories covered include human ecology, social structural approaches, social process (learning) theories, socio-biological theories, developmental theories and control theories.

**Levels:** Graduate Undergraduate

*College of Professional Sci Criminal Justice*

**CJUS 210 - Basic Const Law & Amer Justice**

**CJUS 210 - Basic Const Law & Amer Justice**

3 Credit Hours
Studies the ratification and incorporation of the Bill of Rights. Examines judicial review, the jurisdiction and organization of federal and state court systems, and the Fourth, Fifth, Sixth and Fourteenth Amendment provisions relevant to law enforcement and judicial process.

**Levels:** Graduate Undergraduate

*College of Professional Sci Criminal Justice*

**CJUS 230 - Legal Aspects of Corrections**

**CJUS 230 - Legal Aspects of Corrections**

3 Credit Hours
Explores the structure and function of the Federal and State criminal court systems from institutional and behavioral perspectives, First, Sixth, Eighth and Fourteenth Amendment provisions relevant to law enforcement, judicial process and corrections. Ethical aspects are considered, especially the rights and obligations of correctional staff.

**Levels:** Graduate Undergraduate

*College of Professional Sci Criminal Justice*

**CJUS 239 - Criminalistics I**

**CJUS 239 - Criminalistics I**

3 Credit Hours
Study of legal scientific physical evidence: e.g. fingerprinting, DNA analysis, serology, hair and fiber, and famous crime scene investigations.

**Levels:** Graduate Undergraduate

*College of Professional Sci Criminal Justice*
CJUS 240 - Criminal Law

3 Credit Hours
An overview of law in society, and especially the development, substance and application of the criminal law. This course complements the course in constitutional law and adds a strong legal and ethical component.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 241 - Criminal Law II

3 Credit Hours
An in-depth study of the criminal justice process with focus on the actors, strategies, institutions and processes which constitute law enforcement and relates the events of major cases to academic literature and policies.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 243 - Correctional Counseling & Comm

3 Credit Hours
Deals directly with necessary verbal, nonverbal, and writing skills. It also emphasizes cross-cultural communications and presents practical skills exercises relating to all of the above.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 245 - Private Security

3 Credit Hours
This course provides a rigorous introductory foundation to the field of Private Security, including its development, philosophies, responsibilities and functions, plus its principles, legal authority, and effects on society.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice
CJUS 246 - Risk Management

3 Credit Hours
This course presents a rigorous introduction to the theoretical concepts of Risk Management, through various analytical concepts, survey techniques, insurance requirements, program development and operational activities, from a security practitioner's perspective.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 260 - Current Issues in Crim Justice

3 Credit Hours
A required course which complements CJUS 101 Introduction to Criminal Justice; CJUS 103 Introduction to Corrections; CJUS 321 Juvenile Justice; and relates numerous current political and social issues to adult and juvenile corrections.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 265 - Class and Class Conflict

3 Credit Hours
Class, status, and power in social life. Systems of inequality examined within a cross-cultural perspective.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 266 - Crime & Personality

3 Credit Hours
Root causes of crime in the individual and in the culture. Consideration of personality dynamics and treatment approaches are major elements of this course.

Course Attributes: Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice
CJUS 276 - Psychology of Delinquency

2 Credit Hours
An elective course dealing with types and causes of juvenile delinquency together with brief case history analysis.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 316 - Crime In Film

3 Credit Hours
The course will examine the portrayal of the criminal justice system in either fictional and non-fictional films or documentaries. At the end of the course students will be able to: identify both the accurate and inaccurate ways in which the film media present the justice system and its agents; understand how the images and portrayal of criminal justice professions within film media may impact on the manner in which they are treated in society; and link the depiction of criminal behavior within the film media to empirical criminological perspectives.

Course Attributes: Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 321 - Juvenile Justice

3 Credit Hours
A required course which emphasizes juvenile court philosophy and practices, prevailing case law, applicable federal and state legislation, historical and current trends and development of standards, alternatives to incarceration, and a comparison of the treatment of the juvenile offender in the juvenile justice system as opposed to the adult system.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 335 - Inside-Out Prison Exchange

3 Credit Hours
This course take a pedagogical approach to topics of crime, justice, social action, and the role people inside and outside of correctional institutions play in shaping such matters. By bringing university students and correctional students together behind walls of an
institution, this course is an opportunity for all participants to gain a deeper understanding of the criminal justice system through a marriage of theoretical knowledge and practical experience.

**Course Attributes:** Diversity Curriculum Require, Peace & Justice Studies Minor, Social Science Old/Trans Core

**Levels:** Graduate Undergraduate

*College of Professional Sci Criminal Justice*

**CJUS 336 - Inside Out Prison Exchange II**

**CJUS 336 - Inside Out Prison Exchange II**

3 Credit Hours
This course take a pedagogical approach to topics of crime, justice, social action, and the role people inside and outside of correctional institutions play in shaping such matters. By bringing university students and correctional students together behind walls of an institution, this course is an opportunity for all participants to gain a deeper understanding of the criminal justice system through a marriage of theoretical knowledge and practical experience.

**Levels:** Graduate Undergraduate

*College of Professional Sci Criminal Justice*

**CJUS 350 - Treating Sex Offenders & Victims**

**CJUS 350 - Treating Sex Offenders & Victims**

1 Credit Hours
This workshop will explore treatment issues and approaches for working with sex offenders, victims, and other family members.

**Levels:** Graduate Undergraduate

*College of Professional Sci Criminal Justice*

**CJUS 364 - Overview of Contemp Correction**

**CJUS 364 - Overview of Contemp Correction**

3 Credit Hours
Compares historical and contemporary methodologies, presents and critiques jail and prison programs, applies court decisions to current practices, and generally analyzes institutional and non-institutional corrections in relation to today's social and political realities. Staff and inmate rights and responsibilities are presented within the context of ethical and legal requirements.

**Levels:** Graduate Undergraduate

*College of Professional Sci Criminal Justice*
CJUS 365 - Women in Criminal Justice Syst

3 Credit Hours
This course is designed to explore the perceptions and treatment of women in and by the criminal justice system. Emphasis will be placed on how the image and portrayal of females in American society impact on the manner in which they are treated as perpetrators of crime, victims of crime, and criminal justice professionals. Students will also gain an understanding of the historical treatment of women by the agents of the criminal justice system.

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies, GDST Women and Gender Conc, Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 381 - Methods of Research in CJUS

3 Credit Hours
This course is designed to acquaint students with basic research methodology that is useful in understanding criminological and criminal justice scholarship. By the end of the course the students should: (1) understand the language of research, (2) understand and apply the research process and data gathering strategies, and (3) have a basic understanding of research appearing in professional journals.

Course Attributes: Scientific Perspectives Lab, Scientific Perspectives Lect

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 391 - Practicum / Ethics

3 Credit Hours
This practicum requires a minimum of 150 clock hours. Provides an opportunity for the student to integrate theory and concepts presented in the classroom with day to day reality and actual practice of the profession.

Prerequisites: Undergraduate level CJUS101 Minimum grade of D

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice
CJUS 392 - Criminal Justice Practicum II

1 - 3 Credit Hours
An elective, non-classroom, on-the-job experience which provides the student additional opportunity to integrate the theory and concepts presented in the classroom with day to day reality and actual practice of the profession. This practicum requires 150 clock hours. See CJUS 391 for more information about the types of activities that might be included.

Prerequisites: Undergraduate level CJUS101 Minimum grade of D

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 408 - Women & Societal Violence

1 Credit Hours
A historical perspective on violence against women. Modern day forms of violence against women and intervention will be studied. Prosecution of cases will be presented and treatment strategies for offenders will be explored.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 430 - Intro to Rational Behav Therap

0 - 2 Credit Hours
Rational emotive behavioral therapy is a self-help form of counseling which teaches people how to increase their skill in reasoning so that they will be better able to deal with problems and stresses of daily living. It can enable normal people to improve their lives and disturbed people to regain emotional and mental health.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 435 - Terrorism & Homeland Security

3 Credit Hours
An introduction to terrorism and homeland security. The course is divided into two parts. In the first part (8 weeks), the student will be exposed to definitions, history, typologies, evolutions, causation, ideology, and conduct of terrorism. This provides the student with a solid foundation to digest the materials in the second part, which instructs the student on the U.S. response to the 9/11 attack, i.e.
counter-terrorism legislation and programs.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 439 - Criminalistics II

CJUS 439 - Criminalistics II

3 Credit Hours
Reviews the more intricate areas of anthropology, questioned documents, DNA processes, legalities of homicide scenes, and scientific applications of homicide.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 441 - Rational-Emotive Behav Therp I

CJUS 441 - Rational-Emotive Behav Therp I

1 Credit Hours
The course is designed to assist the graduate and undergraduate student in the intricacies of REBT theory, concepts, comprehension, and application.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 444 - Addictive Behaviors

CJUS 444 - Addictive Behaviors

3 Credit Hours
Examination of addiction theory and process through comparison of variety of substance and process addictions.

Prerequisites: Undergraduate level PSYC101 Minimum grade of D and Undergraduate level SOCI101 Minimum grade of D and Undergraduate level SOCW167 Minimum grade of D

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice
CJUS 449 - Criminalistics III

3 Credit Hours
This course is designed to familiarize the undergraduate and graduate student in specific areas of forensic science. The areas included in this course are forensic psychology, drug analysis, hostage negotiation techniques, legal considerations in crime scene investigations, and reconstruction of accident/crash scenes.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 463 - Counseling Challenging Youth

3 Credit Hours
Workshop participants will learn a number of practical strategies for building and maintaining therapeutic relationships with challenging youth and families. The strategies will be formatted around six guiding principles common to most human services professionals who successfully engage this population. Participants will be challenged to assess their own attitudes, beliefs, and behaviors related to challenging youth via lecture, demonstrations, small group activities, and role plays.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 482 - Planned Change in Crim Justice

3 Credit Hours
The course is designed as a reading, thinking, and discussion course. The emphasis will be on how to participate in CJ issues debate, as analysts, practitioners, or advocates: identifying, framing, analyzing, critiquing, presenting, advocating issues, policies and programs.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 489 - Senior Seminar

3 Credit Hours

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice
CJUS 499 - Special Readings in CJUS

1 - 3 Credit Hours
A selective number of texts, periodicals, research papers, etc., related directly to areas of criminal justice are reviewed and student reports critiqued.

Levels: Graduate Undergraduate

College of Professional Sci Criminal Justice

CJUS 566 - Crime & Personality

CJUS 566 - Crime & Personality

3 Credit Hours
Root causes of crime in the individual and in the culture. Consideration of personality dynamics and treatment approaches are major elements of this course.

College of Professional Sci Criminal Justice

CLAS 101 - Ancient Mediterranean Civ I: Gree

3 Credit Hours
An introduction to the methodologies of ancient historical study and an account of the growth and development of ancient Greek civilization from the prehistoric to the Roman era.

Course Attributes: History Old/Trans Core, Humanities Elective
Levels: Undergraduate
College of Arts & Sciences Classics & Modern Languages
CLAS 102 - Ancient Mediterranean Civ II: Rom

3 Credit Hours
An introduction to the methodologies of ancient historical study and an account of the growth and development of ancient Roman civilization from its archeological and legendary beginnings through the Roman republic into the time of the emperors.

Course Attributes: History Old/Trans Core, Humanities Elective

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 120 - From Homer to Plato

3 Credit Hours
This course provides an understanding of the development of ancient Greek culture and history by examining the values, customs, institutions, and major historical events that shaped the Greek world, in particular Athens and Sparta, through primary and secondary source readings. An important goal is to gain insight into the Greek origins of key social, political, and cultural ideas and concepts that have contributed to the formation of Western civilization.

Course Attributes: Historical Perspectives, History Old/Trans Core, Humanities Elective

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 121 - From Alexander to Cleopatra

3 Credit Hours
This course is designed to continue the investigation of the ancient Greek world, as the Greeks begin to spread across the Levant into the Middle East (momentarily as far as India). Many of the social, political, and cultural ideas and concepts developed by the Greeks that were studied in CLAS120 will continue to be explored for their contribution to the formation of Western civilization.

Prerequisites: Undergraduate level CLAS120 Minimum grade of D

Course Attributes: History Old/Trans Core, Humanities Elective

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages
CLAS 130 - Epic and Adventures of Heroes

3 Credit Hours
An inquiry into the epic genre, the epic hero, and epic values through a careful reading of several ancient and medieval poems.

Course Attributes: Humanities Elective
Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 142 - Classical Tragedy

3 Credit Hours
A study of the tragic form, its poetry, and its use of myth through a careful reading of several plays of Aeschylus, Sophocles, Euripides, and Seneca.

Course Attributes: Humanities Elective, Theatre Minor
Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 146 - Classical Comedy & Satire

3 Credit Hours
A study of ancient classical writings, comedies, which were presented on the stage, and satirical poems.

Course Attributes: Humanities Elective, Theatre Minor
Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 160 - From Romulus to Octavian

3 Credit Hours
This course aims to provide students with an understanding and appreciation of the roots of Western civilization by exploring the culture of the ancient Romans. The purpose of this course is to build an appreciation of early Roman culture and life through a study of its history, government, social changes, and prominent personalities.

Course Attributes: History Old/Trans Core, Humanities Elective
Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 161 - From Augustus to Attila

CLAS 161 - From Augustus to Attila

3 Credit Hours
This course aims to provide students with an understanding and appreciation of the roots of Western civilization by exploring the politics and culture of the Roman Empire. This complex period of history will be examined through a study of its history, government, social changes, and prominent personalities.

Prerequisites: Undergraduate level CLAS160 Minimum grade of D

Course Attributes: History Old/Trans Core, Humanities Elective

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 170 - Ancient Egypt & Nubia

CLAS 170 - Ancient Egypt & Nubia

3 Credit Hours
The purpose of this course is to acquaint the students with the richness and complexity of the history of Egypt, particularly looking at how its relations with its neighbors changed over time as it looked first in one direction and then another for commercial and political links.

Course Attributes: Africana Studies Minor, History Old/Trans Core, Humanities Elective

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 171 - Ancient Iraq & Bible Lands

CLAS 171 - Ancient Iraq & Bible Lands

3 Credit Hours
The purpose of this course, one which should be key for an institution such as Xavier, is to explore the integrated histories of the lands of the Bible. Students will read, hear, speak, and write about the history of the early civilizations which jockeyed for power and control of the two great commercial-military prizes: ports on the Mediterranean and control of the Tigris-Euphrates catchments.

Prerequisites: Undergraduate level CLAS170 Minimum grade of D

Course Attributes: History Old/Trans Core, Humanities Elective, Jewish Studies Minor

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages
CLAS 173 - Intro to Biblical Hebrew

3 Credit Hours
The purpose of this course is to provide basic instruction in the grammar, vocabulary, and syntax of Hebrew. This course is Classical Hebrew for students of the Old Testament who want to read and translate the Hebrew Bible, use a critical edition, and consult dictionaries, grammars, concordances, and commentaries.

Course Attributes: Humanities Elective, Jewish Studies Minor
Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 174 - Readings in Biblical Hebrew

3 Credit Hours
The purpose of this course is to provide basic instruction in the grammar, vocabulary, and syntax of Hebrew. This course is Classical Hebrew for students of the Old Testament who want to read and translate the Hebrew Bible, use a critical edition, and consult dictionaries, grammars, concordances, and commentaries.

Course Attributes: Humanities Elective, Jewish Studies Minor
Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 205 - Classical Lit & Moral Imagina

3 Credit Hours
An examination of ethical and social issues drawn from the Greco-Roman past which illuminate contemporary society.

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 210 - Word Origins & Vocabulary Dev

3 Credit Hours
This is a course on the etymology of English words, especially those of classical (Greek or Latin) origin. It introduces students to some basic principles of word formation, the history of the English language, and the influence of other cultures on their own. Emphasis is placed on medical, legal, and scientific terminology.

Course Attributes: Humanities Elective
CLAS 211 - The Dead Sea Scrolls

3 Credit Hours
This course introduces undergraduates to the Dead Sea Scrolls (DSS), their history, their (mis-) representation in the popular media, the scandal surrounding them, what English translations of them are available, and what is currently being done with them.

Course Attributes: Humanities Elective, Jewish Studies Minor

Levels: Graduate Undergraduate

CLAS 217 - Intro to the Church Fathers

3 Credit Hours
This course examines the first centuries of Christianity as reflected in the patristic writers; the chief Fathers; the evolution of doctrine; the unfolding of revelation; the consciousness of the indwelling spirit.

Course Attributes: Catholicism & Culture Minor, Humanities Elective

Levels: Graduate Undergraduate

CLAS 236 - Gender & Sex/Ancient Gr & Rome

3 Credit Hours
What does it mean to be male, female, masculine, feminine, man, woman, boy, girl? What can be discovered about you from the way(s) you have sex and with whom? How are these things related to life, love, power? These are just some of the things that this course considers with reference to the peoples of ancient Greece and Rome and also (eventually) with reference to ourselves.

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies, Humanities Elective, Social Science Old/Trans Core, Writing Flag Core

Levels: Graduate Undergraduate
CLAS 239 - Ancient Lit, Magic & Occult

3 Credit Hours
This course focuses on the influence myth and magic had on the Greco-Roman cultures. The interrelation between ritual magic, derivative superstition, and women is a major component of this course. Emphasis will be placed on the study of witchcraft, the correlation between magic and religion, the influence of the occult on ritual, and the psychology of magic.

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies, Humanities Elective, Writing Flag Core

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 240 - World Mythology

3 Credit Hours
The western tradition will be examined through in-depth comparative studies of classical mythology with the mythologies of the world (myths from but not limited to Asia, Central, South, and North America, Africa, the Near East, and Polynesia). This course emphasizes understanding mythologies as symbolic cultural systems expressing societal values.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 241 - Classical Mythology: Art

3 Credit Hours
A study of ancient classical myths, primarily through artifacts and works of art, highlighting the meaning and influence of its myths.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 242 - Classical Mythology: Literatur

3 Credit Hours
A study of the ancient classical myths, primarily through its surviving literature, highlighting the meaning and influence of its myths.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 245 - Myth and Film

CLAS 245 - Myth and Film

0 - 3 Credit Hours
An examination of the great influence of Greco-Roman mythology on the modern cinema. The course focuses on how the films we view enhance the mythic stories being presented through artistic manipulation of visual images and sound.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 251 - Near Eastern Mythology: Art

CLAS 251 - Near Eastern Mythology: Art

3 Credit Hours
The major monuments of the ancient Near East are explored as a backdrop to the art, history, and literature of Near Eastern cultures.

Course Attributes: Fine Arts Old/Transition Core, Humanities Elective, Jewish Studies Minor
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 252 - Near Eastern Mythology: Lit

CLAS 252 - Near Eastern Mythology: Lit

3 Credit Hours
The major literary works of the ancient Near East are explored as a backdrop to the art, history, and literature of Near Eastern cultures.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 261 - Greek Archaeology

CLAS 261 - Greek Archaeology

3 Credit Hours
The major monuments of Greek antiquity explored as a backdrop to the art, history, and literature of ancient Greece.
CLAS 262 - Roman Archaeology

3 Credit Hours
The major monuments of Roman antiquity explored as a backdrop to the art, history, and literature of ancient Rome.

Course Attributes: Humanities Elective, Quantitative Reason Flag Full, Social Science Elect New Core, Social Science Old/Trans Core
Levels: Graduate Undergraduate

CLAS 265 - The Glory That Was & Is Greece

3 Credit Hours
The purpose of this class is to introduce students to a range of Greek contributions to modern thought, art and architecture, and literature. We will visit the major sites from Greek antiquity to get an idea of what Greek cities were like in different periods of history and how they were situated from the Minoan and Mycenaean times to the present. Classical sites of interest will include Athens (where we will spend roughly half of our time), Sparta, Mycenae, Epidaurus, Corinth, Pella, Knossos, and Thera. At the same time we will visit sites from Roman, late antiquity, Byzantine, and modern Islam influenced change. In this way students will truly come to appreciate the glory that was and is Greece.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

CLAS 371 - Art/Arch/Econ/Soc-Late Antiqiu

3 Credit Hours
A study of the coexistence of several religious and ethical systems, highlighting symbiosis and cross-fertilization.

Prerequisites: Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D
Course Attributes: ERS Focus Elective, Humanities Elective
Levels: Graduate Undergraduate
CLAS 372 - Women in Antiquity

CLAS 372 - Women in Antiquity

3 Credit Hours
A multi-media study of the lives of Greek and Roman women and minorities organized around topics and issues of contemporary interest.

Prerequisites: Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 397 - Directed Study

CLAS 397 - Directed Study

1 - 3 Credit Hours
Credit and content of course by advance agreement between the professor and student.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 398 - Capstone Preparation

CLAS 398 - Capstone Preparation

3 Credit Hours
This is the first part of the senior thesis/pre-seminar course that fulfills the Capstone Course requirement necessary for the completion of the Honors Bachelor of Arts curriculum. This course has as its goal the preparation of the thesis mandated for the completion of the HAB curriculum. This course will serve two purposes: (1) to prepare the student practically for the thesis in such areas as format, deadlines, selection of director and committee, presentation, organizing content, style, expectation, etc.; and (2) to help the student research and reflect on/discuss areas related to ideas and subject matter previously studied throughout the HAB program.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

CLAS 399 - HAB Capstone Thesis

CLAS 399 - HAB Capstone Thesis

1 - 3 Credit Hours
Senior thesis/pre-seminar course.

**Prerequisites:** CLAS398

**Restrictions:** Must be enrolled in one of the following Classifications: Senior

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**COMM 101 - Oral Communication**

**3 Credit Hours**
Speech fundamentals as applied to public speaking and listening skills. Develops conceptual understanding of basic communication principles and the ability to think theoretically and understand the process of developing theory. Encompasses communication in the context of related areas.

**Course Attributes:** Oral Communication Flag

**Levels:** Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 123 - Intro To Comm and Media**

**COMM 123 - Intro To Comm and Media**

**3 Credit Hours**
Examines the history, structure, and organization of media industries, including print, electronic media, and the World Wide Web. Includes discussion of law and policy, effects, and the media's role in a democratic society.

**Levels:** Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 197 - A Soc & Cult Hist of Amer Movi**

**COMM 197 - A Soc & Cult Hist of Amer Movi**

**2 Credit Hours**
Hollywood has always taken historical themes for some of its most ambitious projects, a trend that has become even more pronounced in the past decade. What has not always been understood is that Hollywood and the development of the American movie industry has been a central element in the social and cultural history of 20th century America. Thus, this workshop has two purposes: to critically examine various film images of American history and equally important, to place Hollywood and its products in the larger context of 20th century American history.

**Levels:** Undergraduate

*College of Arts & Sciences Communication Arts*
COMM 199 - Special Study

1 - 3 Credit Hours
An in-depth study of a specific topic or area in communication. Requires permission of advisor/Chair

Levels: Undergraduate

College of Arts & Sciences Communication Arts

COMM 206 - Writing for the Media

3 Credit Hours
Introductory level course on writing for the media, including public media and controlled media, in print, broadcast or online form. Develops skills in journalistic, news-style writing and feature writing, as well as other styles used in advertising, news and public relations. Workshop/laboratory setting with deadline writing experience.

Prerequisites: Undergraduate level ENGL101 Minimum grade of D or Undergraduate level ENGL115 Minimum grade of D

Course Attributes: Writing Flag Core

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 207 - Interpersonal Communication

3 Credit Hours
Understanding of and classroom practice in effective communication between persons.

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 209 - Group Dynamics

3 Credit Hours
Dynamic and participative strategies in group process skills. Learn by participating and doing.

Levels: Graduate Undergraduate
COMM 211 - Media Literacy

3 Credit Hours
Designed to help students become more intelligent and discriminating consumers of media. Develops the ability to analyze, assess, and critically evaluate media texts, images, sounds and representations. Develops awareness and understanding the media's role in news, entertainment, ideology, and power.

Levels: Graduate Undergraduate

COMM 221 - Introduction to Digital Media

3 Credit Hours
In this course, students will develop the skills of communication in digital media by exploring theories of digital media, locating and assessing arguments in and about digital media, making arguments in digital media, and interrogating the implications of digital media on communication. In this course, students will address several key questions, including: what is digital media? How does digital media affect communication? How do text, speech, and visual and auditory modes of communication work in relationship to each other in digital media?

Levels: Graduate Undergraduate

COMM 230 - Principles of Advertising

3 Credit Hours
A comprehensive examination of the advertising process and the principles involved in its preparation and production. Focus is on the three major components of advertising: the audience, the message, and the channels.

Levels: Graduate Undergraduate
COMM 235 - Digital Design

3 Credit Hours
Students will be given a basic knowledge of and hands-on training in the use of Adobe Photoshop software.

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 237 - Elements of Copy & Design

3 Credit Hours
Provides fundamental knowledge and skill in advertising copywriting, layout and design, Course topics will include interpreting target audiences, creative concept formulation, advertising copywriting, design and layout. The vocabulary and language associated with graphic design/advertising and production processes will be covered. Students will develop a variety of sample advertisements during the course.

Course Attributes: Writing Flag Core

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 247 - Understanding New Media

3 Credit Hours
Explores the concepts and theories pertaining to the Internet and other new media technologies, their role in the communication process, and their consequences for society and culture. Issues addressed: content (news to hate speech to pornography), effects (i.e., Internet addiction), commerce (i.e., online shopping and advertising), and democracy (i.e., the digital divide). This course is intended for anyone interested in making sense of new media. Although the ability to use the Internet is expected, this is not a course on how to design web pages or how to improve your surfing skills.

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 260 - Organizational Communication

3 Credit Hours
Organization theories and key concepts provide the framework for addressing contemporary communication issues and how these issues
affect individual, group, and organization performance and effectiveness.

Levels: Graduate Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 264 - Persuasion**

3 Credit Hours
Teaches consumers of information how to analyze, respond to, and generate persuasive messages. A variety of organizational contexts are examined, including politics, business, religion, and advertising.

Levels: Graduate Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 270 - Principles of Strategic Comm**

3 Credit Hours
An overview of the theories and practices of strategic communications, its function in organizations, its history and development, and its role in society.

Levels: Graduate Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 299 - Special Study**

1 - 3 Credit Hours
An in-depth study of a specific topic or area in communication. Requires permission of advisor/Chair

Levels: Graduate Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 301 - Presentational Speaking**

3 Credit Hours
Preparation and delivery of oral presentations for business and professions. Emphasizes persuasion, evidence, organized sequences, and
uses of multimedia aids.

**Prerequisites:** Undergraduate level COMM101 Minimum grade of D or Graduate level EDMS999

**Course Attributes:** Oral Communication Flag

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 321 - Advanced Digital Media**

**COMM 321 - Advanced Digital Media**

3 Credit Hours

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 323 - Race, Class, Gender & Media**

**COMM 323 - Race, Class, Gender & Media**

3 Credit Hours

Critically examines the role of the media in enabling, facilitating, or challenging the social constructions of race, class, and gender in our society. Students will acquire analytical skills to explore race, class, and gender issues in media organizations and understand diverse audiences' responses to media representations. They will also learn about some different theories and approaches to doing research on race, class, and gender, and the mass media and develop the ability to speak and write honestly and sensitively about race and gender.

**Course Attributes:** Africana Studies Minor, Diversity Curriculum Require, Gender & Diversity Studies

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 324 - Sex and Violence In Media**

**COMM 324 - Sex and Violence In Media**

3 Credit Hours

Explores reasons behind the prevalence of sexual and violent media content and with the impact of this content. Course topics will include psychological reasons why people consume such content, legal and market forces that encourage the creation of sexual and violent content, and the theoretical individual and social effects of consuming this type of content.

**Course Attributes:** Diversity Curriculum Require, ERS Focus Elective, Gender & Diversity Studies, GDST Women and Gender Conc, Peace & Justice Studies Minor

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Communication Arts*
COMM 327 - Interpersonal Conflict Mgmt

3 Credit Hours
An examination of the process and nature of conflict, and an evaluation of various conflict styles. Explores ways of examining and applying conflict management styles in organizational contexts, the principles of negotiation and mediation, and how to apply and evaluate techniques of negotiation and mediation.

Course Attributes: Peace & Justice Studies Minor
Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 329 - Audience Survey & Research

3 Credit Hours
Examination and survey of gathering, analysis and the uses of audience-related information to create effective messages and campaigns. Review of design, sampling, data collection and statistical analysis. This course reviews quantitative and qualitative research methods most commonly used in the field of communication including broadcast ratings and other syndicated research.

Course Attributes: Quantitative Reason Flag Full
Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 332 - Media Strategies in Advertising

3 Credit Hours
A study of the characteristics of the various communication media and the methods employed in measuring their relative efficiencies in delivering the advertising message to the target audiences.

Prerequisites: Undergraduate level COMM329 Minimum grade of D
Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts
COMM 334 - Issues in Advertising

3 Credit Hours
Designed to foster a critical understanding of advertising and promotion as an institution, and its role in communication, society, culture, and our economy. Topics include the continuing dialogue between supporters and critics, confronting issues related to the institution's ethical conduct, regulatory issues, and social responsibility.

Restrictions: Must be enrolled in one of the following Majors: Advertising Communication Studies Electronic Media Organizational Communication Public Relations Must be enrolled in one of the following Classifications: Senior Junior

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 362 - Org Communication Research

COMM 362 - Org Communication Research

3 Credit Hours
Offers a basic understanding of the methods used to test hypotheses and answer research questions in organizational communication research. Study of how to use focus groups, surveys, and communication audits, how to construct a basic research study, how to critically evaluate industry and academic research, and how to select and evaluate appropriate methodology for a variety of research questions.

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 371 - Public Relations Writing

COMM 371 - Public Relations Writing

3 Credit Hours
Develops advanced writing skills for public relations programs; gives particular attention to backgrounds, brochures, handbooks, annual and quarterly reports, and scripts for broadcast, AV and film.

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 372 - Jr Sem:PR Cases and Planning

COMM 372 - Jr Sem:PR Cases and Planning

3 Credit Hours
A comprehensive seminar course about public relations case studies and planning.
**Prerequisites:** Undergraduate level COMM270 Minimum grade of D

**Restrictions:** Must be enrolled in one of the following Classifications: Senior Junior

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 372 - PR Cases and Planning**

**COMM 372 - PR Cases and Planning**

3 Credit Hours
A comprehensive seminar course about public relations case studies and planning.

**Prerequisites:** Undergraduate level COMM270 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 385 - Media, Democracy & the Public**

**COMM 385 - Media, Democracy & the Public**

3 Credit Hours
This course examines the role mass media play in creating and sustaining a democratic and civil society. The major emphasis of the course is to understand the current state of the media and their impact on the citizenry and democratic institutions. The course also reviews the historical turning points that gave birth to major media institutions and scrutinizes the role media played to convert the "public" into "masses."

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Communication Arts*

**COMM 398 - Communication Internship I**

**COMM 398 - Communication Internship I**

1 - 3 Credit Hours
Internship I provides Communication Arts students in any of the department's majors with hands-on experience in a professional setting related to the major. Students must secure approval for the internship from the department chair prior to beginning the internship. Prerequisites: Communication Arts major, junior or senior status, and 15 hours of applicable COMM courses completed before the semester in which the student registers for the internship.

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Communication Arts*
COMM 399 - Special Study

1 - 3 Credit Hours
An in-depth study of a specific topic or idea in communication. Requires permission of advisor/Chair

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 426 - Media Law & Policy

3 Credit Hours
Examines laws, statutes and policies as they apply to mass media. This course is designed to provide the student with an understanding of rationale and origins of laws and the policy making process, the challenges policy makers and court systems face forming, implementing and interpreting laws and statutes. Special emphasis will be paid to First Amendment, copyright, trademark and patent issues as they apply to the media and the workings of FCC and FTC.

Restrictions: Must be enrolled in one of the following Classifications: Senior Junior

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 430 - Creative Strategies Advertising

3 Credit Hours
A study of the theoretical foundations and the process of developing advertising and promotional strategy; methods of utilizing research data for developing and evaluating advertising strategy.

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 433 - Social Media Strategies

3 Credit Hours
This course addresses social media strategy development and execution with a vast experiential learning component.

Levels: Graduate Undergraduate
COMM 439 - Senior Sem-Adv: Campaigns

3 Credit Hours
The capstone advertising course requiring the student to prepare and produce a complete general advertising campaign utilizing concepts learned in previous advertising courses.

Prerequisites: Undergraduate level COMM332 Minimum grade of D

Restrictions: Must be enrolled in one of the following Classifications: Senior

Levels: Graduate Undergraduate

COMM 469 - Sr Sem: Comm Studies

3 Credit Hours
The capstone course of the organizational communication major, this course asks students to use and reflect on the theories and skills they have learned throughout the major to complete a senior project.

Restrictions: Must be enrolled in one of the following Classifications: Senior

College of Arts & Sciences Communication Arts

COMM 498 - Communication Internship II

1 - 3 Credit Hours
Internship II provides Communication Arts students in any of the department's majors with advanced hands-on experience in a professional setting related to the major. Students must secure approval for the internship from the department chair prior to beginning the internship.

Prerequisites: COMM398

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 499 - Special Study

1 - 3 Credit Hours
An in-depth study of a specific topic or area in communication. Requires permission of advisor/Chair

Levels: Graduate Undergraduate

College of Arts & Sciences Communication Arts

COMM 560 - Strategic Organizational Comm

3 Credit Hours
Organizational communication is strategic in two ways. Organizations emerge from strategic choices made that determine how they will function, govern, and carry out their business on a day to day basis. This in turn leads employees to make strategic choices on how they will manage daily life as an employee and more importantly how they will assist the organization in accomplishing its goals. This course is designed to assist students in understanding how organizations make strategic decisions and develop communication skills to respond effectively to organizational needs. Urban sustainability efforts will require considerable public education and persuasion and will also have to be engaged, embraced, and implemented by a wide variety of citizens and organizations. Practitioners of urban sustainability will need to be able to design and communicate organizational strategies which include communicating complex ideas, integrating various perspectives, building coalitions among groups, and keeping the public informed. In this course students can expect to study a wide array of topics such as persuasion, public relations/crisis management, strategic alignment, group communication, and communication in organizational systems.

CORE 499 - Core Capstone

0 Credit Hours
This satisfactory/unsatisfactory requirement is for undergraduate graduating seniors only. It requires an on-line response to a question related to one of the 12 core curriculum goals, requiring approximately 45 minutes. These data are designed to assess what our students are learning through the core. In this assessment, only group data/analysis are reported, not individual responses. Committing to quality education means setting clear goals for student achievement, regularly assessing performance against those goals, reporting evidence of success, and continuously working to improve the educational experience. These assessment results are integrated into the work of the faculty and staff to improve student learning.

COUN 670 - School Counseling Internship

COUN 670 - School Counseling Internship

1 - 4 Credit Hours
This experiential course is designed as an integrative field placement that fulfills the 2001 CACREP requirements for clinical experiences in the School Counseling program standards. Students are expected to engage in on-site counseling activities that allow application of the School Counseling program curriculum content under the direction of an approved site supervisor and Xavier University faculty.

Prerequisites: COUN773 or EDCO773

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate
College of Professional Sci Counseling
COUN 671 - Clinical Counseling Internship

1 - 4 Credit Hours
This experiential course is designed as an integrative field placement. Students are expected to engage in on-site counseling program activities that allow application of the Clinical Mental Health Counseling program curriculum content under the direction of an approved site supervisor and Xavier faculty. The topics covered during the semester reflect those identified for the Clinical Internship CACREP core area.

Prerequisites: COUN669 and COUN773

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Counseling

COUN 760 - Personality & Abnormal Behav

COUN 760 - Personality & Abnormal Behav

3 Credit Hours
Dynamics of the disturbed personality; symptoms, causes, treatment of psychoneuroses, psychoses, deviant personalities. Emphasis is placed on psychopathological conditions related to children, adolescents, young and middle-life adults, and the aged. Restricted to Clinical Mental Health Counseling majors.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Mental Health Coun

Levels: Graduate

College of Professional Sci Counseling

COUN 761 - Application of Personality The

COUN 761 - Application of Personality The

3 Credit Hours
Description, evaluation, and application of specific personality theories in the context of mental health work with children, adolescents, young and middle-life adults, and the aged. Restricted to Clinical Mental Health Counseling majors.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Mental Health Coun

Levels: Graduate

College of Professional Sci Counseling
COUN 762 - Clinical & Person Assessment

3 Credit Hours
Emphasis is placed on methods of administering and interpreting individual and group standardized tests. Evaluation techniques of mental and emotional status, including use of assessment procedures and diagnosis and treatment planning are reviewed. Restricted to Clinical Mental Health Counseling majors.

Restrictions: Must be enrolled in one of the following Levels: Graduate
Must be enrolled in one of the following Majors: Clinical Mental Health Coun

Levels: Graduate
College of Professional Sci Counseling

COUN 763 - Diagnosis of Psychopath

3 Credit Hours
A conceptual overview of the foundations of psychodiagnostics. Exposure to both psychodynamic concepts and theory as well as behavioral, descriptive diagnosis as advocated by the DSM IV-R. This includes the development of a framework for identifying the signs and symptoms of psychosis, personality disorders, and neuroses in children, adolescents, young, and middle-life adults, and the aged. Restricted to Clinical Mental Health Counseling majors.

Restrictions: Must be enrolled in one of the following Levels: Graduate
Must be enrolled in one of the following Majors: Clinical Mental Health Coun

Levels: Graduate
College of Professional Sci Counseling

COUN 764 - Counseling & Psychother

3 Credit Hours
Theoretical and applied understandings of the psychotherapeutic process including the study of the psychological methods of intervention such as person-centered, psychoanalytic, hypnotherapy, and psychotherapy. Also covered are educational intervention methods such as rational-emotive therapy, reality therapy, and psychosocial rehabilitation. Restricted to Clinical Mental Health Counseling majors.

Restrictions: Must be enrolled in one of the following Levels: Graduate
Must be enrolled in one of the following Majors: Clinical Mental Health Coun

Levels: Graduate
College of Professional Sci Counseling
COUN 765 - Crisis Counseling

2 Credit Hours
An examination of issues and skills involved in assisting clients to deal with crisis situations. The progression and symptomatology of crisis functioning are presented with models and techniques for appropriate psychological, educational, and specialized intervention techniques for use with clients. Restricted to Clinical Mental Health Counseling majors.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Mental Health Coun

Levels: Graduate

College of Professional Sci Counseling

COUN 766 - Intervention Skills

3 Credit Hours
Specific interventions and treatment strategies with severely mentally disabled individuals in both individual and group settings including developing and implementing a treatment plan, reporting and assessing progress of treatment, appropriate psychological, educational, and specialized intervention techniques for use with clients. Restricted to Clinical Mental Health Counseling majors.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Mental Health Coun

Levels: Graduate

College of Professional Sci Counseling

COUN 767 - Treating Addictions Advanced

3 Credit Hours
This course will explore advanced concepts in the field of substance abuse and addictions counseling. The primary goals for the course are to deepen students' understanding of substance use disorders and psychopharmacology, to facilitate the development of addiction counseling competencies that are associated with positive treatment outcomes, and to increase the student's level of confidence relative to providing substance abuse evaluation, education and treatment. Emphasis will be placed on developing and practicing substance abuse counseling skills. Students will be introduced to different theoretical models of alcohol and other drug abuse and will explore a variety of treatment approaches. Special populations within the addictions field will be presented including co-occurring substance abuse and mental health disorders, and process addictions. The course addresses aspects of the 2009 CACREP CORE area in Helping Relationships as well as topics included in the Program Area Standards for School and Clinical Mental Health counseling programs.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Counseling
COUN 773 - Counseling Practicum

COUN 773 - Counseling Practicum

3 Credit Hours
This course addresses the Clinical instruction requirements for the 2009 CACREP Standards for the Department of Counseling. This practicum experience involves completing recorded interviews with bona fide clients and producing appropriate client reports and student self-evaluation forms. All students are expected to have COUN 533, COUN 536, COUN631, COUN579, COUN 669 successfully completed prior to enrolling in COUN 773. Students in COUN 773 must carry liability insurance purchased through the University. Students must complete a total of 40 clock hours of counseling sessions with approximately four clients, eight hours of which must be recorded on CD or other device for supervisor review. Students will also be expected to lead a group counseling experience. Progress notes on the other sessions are due on a regular basis.

Prerequisites: ( COUN533 or EDCO533) and ( COUN536 or EDCO536) and ( COUN579 or EDCO579) and ( COUN631 or EDCO631) and ( COUN669 or EDCO669)

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Counseling

CSCI 170 - Computer Science I

CSCI 170 - Computer Science I

3 Credit Hours
This course is an overview of computer science. Topics include problem solving and algorithms, machine architecture, operating systems, assembly language, higher level programming languages, compilers, limits of computation, networking, applications, and social/ethical issues.

Course Attributes: Mathematical Perspectives

Levels: Undergraduate

College of Arts & Sciences Computer Science

CSCI 174 - Programming in "C"

CSCI 174 - Programming in "C"

1 Credit Hours
Introduction to the basic syntax of C through a series of weekly two-hour laboratory exercises and programming projects.

Prerequisites: Undergraduate level CSCI170 Minimum grade of D and Undergraduate level CSCI180 Minimum grade of D

Levels: Undergraduate

College of Arts & Sciences Computer Science
CSCI 175 - C/C ++

CSCI 175 - C/C ++

3 Credit Hours

Levels: Undergraduate

College of Arts & Sciences Computer Science

CSCI 180 - Computer Science II

CSCI 180 - Computer Science II

3 Credit Hours
Program design: advanced syntax of a programming language; dynamic memory; recursion; sorting; searching; stacks; queues; social and ethical issues related to software design and reliability.

Prerequisites: Undergraduate level CSCI170 Minimum grade of D

Levels: Undergraduate

College of Arts & Sciences Computer Science

CSCI 181 - Computer Science Lab

CSCI 181 - Computer Science Lab

1 Credit Hours
Introduction to the syntax of a programming language and to program design techniques.

Co-requisites: CSCI180

Levels: Undergraduate

College of Arts & Sciences Computer Science

CSCI 210 - Machine Org & Assembly Lang

CSCI 210 - Machine Org & Assembly Lang

3 Credit Hours
Machine level representation of data, assembly level machine organization, memory system organization and architecture, number representation and errors, assembly language.

Prerequisites: Undergraduate level CSCI170 Minimum grade of D
CSCI 220 - Data Structures & Algorithms

3 Credit Hours
Trees, hashing, advanced sorts, numerical algorithms, algorithm analysis, algorithm design and problem solving strategies.

Prerequisites: Undergraduate level CSCI180 Minimum grade of D

Levels: Graduate Undergraduate

CSCI 250 - Languages & Automata

3 Credit Hours
Finite-state-automata and regular expressions, context-free grammars, pushdown automata. Turing machines, computability and undecidability, complexity classes.

Prerequisites: (Undergraduate level MATH180 Minimum grade of D or Undergraduate level MATH225 Minimum grade of D) and Undergraduate level CSCI170 Minimum grade of D

Levels: Graduate Undergraduate

CSCI 260 - Software Engineering

3 Credit Hours
Software development process; software requirements and specifications; software design and implementation; verification and validation.

Prerequisites: Undergraduate level CSCI220 Minimum grade of D

Levels: Graduate Undergraduate
CSCI 300 - Programming Languages

3 Credit Hours
History of programming languages; virtual machines; sequence control; data control; scoping; parameter passing; sharing and type checking; run-time storage management; programming language semantics; programming paradigms. Includes a brief introduction to several different languages as examples of paradigms.

Prerequisites: Undergraduate level CSCI220 Minimum grade of D and Undergraduate level CSCI250 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Computer Science

CSCI 310 - Compiler Construction

3 Credit Hours
Study of grammars, syntax, semantics, interpreters, and compilers. Including the construction of a simple language and a compiler/interpreter.

Prerequisites: Undergraduate level CSCI220 Minimum grade of D and Undergraduate level CSCI250 Minimum grade of D and Undergraduate level CSCI260 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Computer Science

CSCI 320 - Operating Systems

3 Credit Hours
Operating system software and hardware design and implementation; tasks and processes; process coordination, synchronization, and scheduling; physical and virtual memory organization; file systems and naming; security and protection.

Prerequisites: Undergraduate level CSCI210 Minimum grade of D and Undergraduate level CSCI220 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Computer Science
CSCI 321 - Numerical Analysis

3 Credit Hours
Accuracy; function evaluation and approximation; systems of linear equations; nonlinear equations; numerical differentiation and integration; solutions to differential equations.

Prerequisites: Undergraduate level CSCI170 Minimum grade of D and Undergraduate level MATH171 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Computer Science

CSCI 335 - Databases

3 Credit Hours
Database systems are the software systems used to manage large volumes of data. The principles of database systems, hardware characteristics, file organization and evaluation, data models, database schemas, etc., are studied from both a theoretical and practical viewpoint. The emphasis will be on solving the problems encountered in designing and using a database system, regardless of the underlying hardware and operating system on which the database system will run.

Prerequisites: Undergraduate level CSCI210 Minimum grade of D and Undergraduate level CSCI220 Minimum grade of D and (Undergraduate level MATH180 Minimum grade of D or Undergraduate level MATH225 Minimum grade of D)

Levels: Graduate Undergraduate

College of Arts & Sciences Computer Science

CSCI 340 - Networking

3 Credit Hours
Principles of abstraction underlying modern networks with an emphasis on the technologies underlying the Internet. Applications, transport protocols, routing protocols, network protocols and link protocols will be covered. Problem solving, including programming, at all layers of the networking model will be emphasized.

Prerequisites: Undergraduate level CSCI220 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Computer Science
CSCI 350 - Advanced Algorithms & Theory

3 Credit Hours
Advanced algorithm design and analysis of algorithms; NP-Completeness, parallel algorithms; heuristic techniques for intractable problems.

Prerequisites: Undergraduate level CSCI220 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Computer Science

CSCI 370 - Artificial Intelligence

3 Credit Hours
Methods of problem solving in artificial intelligence. Heuristics, evaluation functions, search strategies, and a survey of AI projects. Introduction to LISP or other language used for AI programming.

Prerequisites: Undergraduate level CSCI220 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Computer Science

CSCI 380 - Topics in Computer Science

1 - 3 Credit Hours
Advanced computer science topics, specified by instructor.

Levels: Graduate Undergraduate

College of Arts & Sciences Computer Science

CSCI 390 - Senior Seminar & Project

2 - 3 Credit Hours
Design, implementation, documentation, and presentation of a significant computer science project.

Restrictions: Must be enrolled in one of the following Majors: Computer Science Computer Science Must be enrolled in one of the following Classifications: Senior
CSCI 395 - Co-Op Education in Comp Sci

3 Credit Hours
Integrates professional work experience with classroom training by providing students with advanced hands on work experience in a real software engineering environment under the direct supervision of a professional software developer. Student must meet Co-Op program requirements and have the approval of their departmental advisor.

Prerequisites: Undergraduate level CSCI170 Minimum grade of D and Undergraduate level CSCI180 Minimum grade of D and Undergraduate level CSCI181 Minimum grade of D and Undergraduate level CSCI210 Minimum grade of D and Undergraduate level CSCI220 Minimum grade of D and Undergraduate level CSCI260 Minimum grade of D and Undergraduate level COMM207 Minimum grade of D

Levels: Graduate Undergraduate

DANC 153 - Stretch Class

1 Credit Hours
This is a study of exercises and movement to music to promote fitness and body control in preparing for dance development. The class combines elements of stretching and strength building exercises using yoga, Pilates and ballet. Basic anatomy is covered as a foundation for control of the muscles and bone structure of the body.

Levels: Undergraduate
DANC 154 - Dance & Movement Beginner Tap

1 Credit Hours
Technical aspects of dance through medium of theatrical dance movement. Ideas and movement problems explored through rhythmic, stretching and body strengthening activities. Students with no dance exposure can participate to improve body coordination and natural aptitudes for dance.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Musical Theatre Minor
Levels: Undergraduate
College of Arts & Sciences Theatre

DANC 155 - Dance & Movement Beginner Jazz

1 Credit Hours
Technical aspects of dance through medium of theatrical dance movement. Ideas and movement problems explored through rhythmic, stretching and body strengthening activities. Students with no dance exposure can participate to improve body coordination and natural aptitudes for dance.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Musical Theatre Minor
Levels: Undergraduate
College of Arts & Sciences Theatre

DANC 156 - Dance & Movement Advanced Tap

1 Credit Hours
Continuation of MUSC 154/155.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Musical Theatre Minor
Levels: Undergraduate
College of Arts & Sciences Theatre

DANC 157 - Dance & Movement Advanced Jazz

1 Credit Hours
A continuation of MUSC 154/155.
Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Musical Theatre Minor
Levels: Undergraduate

College of Arts & Sciences Theatre

DANC 158 - Ballet I

DANC 158 - Ballet I

1 Credit Hours
Ballet techniques presented and practiced. An introduction to the fundamentals of ballet technique and body mechanics that govern ballet's classical foundation. Designed to establish groundwork for developing proper working patterns, in placement, turnout, breathing and balance.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Musical Theatre Minor
Levels: Undergraduate

College of Arts & Sciences Theatre

DANC 159 - Ballet II

DANC 159 - Ballet II

1 Credit Hours
This course is a continuation of ballet dancing, (Ballet I, MUSC 158). This discipline challenges the body and the mind. The execution of ballet technique provides exercises, improves posture and promotes grace and coordination. Learning the joy of movement and the appreciation of aesthetic beauty will be emphasized.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Musical Theatre Minor
Levels: Undergraduate

College of Arts & Sciences Theatre

DANC 160 - Ballet Intermediate/Advance

DANC 160 - Ballet Intermediate/Advance

1 Credit Hours
This is a systematic and comprehensive study of classical ballet presented as an exploration of ballet technique in the dance studio. The course outlines the traditional ballet class including work at the barre and center, using combinations and choreography which challenges the mind and body. French terminology will be used. This is a continuation of Ballet II with more advanced steps added.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Musical Theatre Minor
Levels: Undergraduate

College of Arts & Sciences Theatre
DANC 162 - Dance Sport

1 Credit Hours
This course is an introduction to the fundamentals of Dance Sport/Ballroom dancing techniques. Students will learn about the history of Couples dancing, as a dance form, emerged in the 15th century Europe as an adaptation of folk dancing and was refined by the dancing masters of the time. The class will study five ballroom dances: Modern Waltz, Tango, Viennese Waltz, Slow Foxtrot, and quickstep, which are danced the world over both socially and in Dance Sport Competitions.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Undergraduate

College of Arts & Sciences Theatre

DANC 163 - World Fusion Dance

1 Credit Hours
This course will explore a variety of world dance styles as a means of expression and culture. This will be accomplished through technique instruction, critique of video performances and improvisational exercises. Students will learn dance styles independent of each other, and later learn how styles of dance can be fused together to form an eclectic genre. Each class will begin with a proper stretching followed by technique instruction. Improvisational exercises will be used to enhance students' creativity, and choreographic sensibilities. As the class progresses, students will learn routines which strengthen choreographic phrasing skills.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Undergraduate

College of Arts & Sciences Theatre

DANC 166 - Modern Dance

1 Credit Hours
The class will explore the genre of modern dance. This will be accomplished through technique instruction, critique of DVD performances and improvisational exercises. Throughout the course various approaches to modern dance will be studied including: Dunham, Graham and Pedestrian styles. The course will culminate with the study of contemporary choreographers influenced by the modern dance movement. Each class will begin with proper stretching, followed by technique instruction. Improvisational exercises will be used to enhance students' creativity, and choreographic sensibilities. As the class progresses, students will learn routines which strengthen choreographic phrasing skills.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Undergraduate

College of Arts & Sciences Theatre
DANC 170 - Beginning Ballroom Dance

1 Credit Hours
The course presents American traditional ballroom dance styles as used for social occasions. Instruction will be for dance styles in which the participants move around the floor in a circular pattern and these will be the Waltz, two versions of the Foxtrot, Rumba and Tango.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Undergraduate

DANC 171 - Beginning Ballroom Dance II

1 Credit Hours
The course presents American traditional ballroom dance styles as used for social occasions. Instruction will be for dances in which the participants dance in a given spot and these will be the Lindy, Jive, Jitterbug, two versions of Swing, plus the Bolero, Mambo, and Cha-cha.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Undergraduate

DANC 172 - Adv Ballroom Dance

1 Credit Hours
This course presents American traditional ballroom dance styles as used for social occasions. Instruction will be for dance styles in which the participants move around the floor in a circular pattern and these will be the Waltz, two versions of the Foxtrot, Rumba and Tango. Students will receive instruction in the social customs associated with ballroom dancing. Short lectures will be presented on the social history and development of each type of dance and also the music to which that dance is performed. Demonstration will be given on the correct dancing stance and hold positions, correctly leading and following the different required steps, and signaling to your partner during the dances, plus the appropriate skills for moving in Line of Dance versus Promenade. Lecture and demonstration will be given on selecting the types of recorded music which have appropriate rhythm for each of those dances. Demonstration will be given as to how the dance steps are coordinated to the music.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Undergraduate
DANC 173 - Adv Ball Dance Rhythm & Latin

1 Credit Hours
This course presents American traditional ballroom dance styles as used for social occasions. Instruction will be for dances in which the participants dance in a given spot and these will be the Lindy, Jive, Jitterbug, Swing, plus the Bolero, Mambo, and Cha-cha.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Theatre

DIFT 104 - Video Production non DIFT

3 Credit Hours
This course introduces the field of television production beginning with its terms, practices, and techniques. Emphasis is placed on field production, studio production, editing, graphics, audio and lighting.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 210 - Art of Film

3 Credit Hours
Film as a modern art form, treating motion, sound, editing, light, acting, director's style, and film analysis.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
DIFT 213 - Non-Fiction Film

3 Credit Hours
Development of the nonfiction film from Flaherty to "cinema of truth." Current documentaries on controversial topics will be stressed.

Course Attributes: ERS Focus Elective

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 214 - Film Criticism

3 Credit Hours
Cultivating criteria for judging film from viewing and analysis. Leading theories will be discussed.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 215 - Aesthetics & Tech of Post Prod

3 Credit Hours
Rules and principles involved in the art of video post-production. Through practice and hands-on instruction, this course explores cinematic grammars and a variety of storytelling strategies and techniques.

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 216 - Photography I

3 Credit Hours
This course is an introduction to the art of shooting traditional black and white photography and modern SLR digital color photography. This course is also an introduction to the fine art of digital imaging as a practical and artistic enhancement to basic photography. Photography will be discussed as both a fine art form and a commercial art medium.
Course Attributes: Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 250 - Screenwriting & Story Craft

**DIFT 250 - Screenwriting & Story Craft**

3 Credit Hours
Screenwriting focuses on the conceptualization, design, organization, communication strategies, and formatting of messages and experiences for television and film. Story craft focuses on the components of storytelling including drama, narrative and scene development, characterization, and literary techniques that apply to scriptwriting.

Prerequisites: COMM206

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 254 - Intro to Video Production

**DIFT 254 - Intro to Video Production**

3 Credit Hours
Revolves around whole-systems thinking, including the design and development of "live," script-to-screen segments and programs. Skills are developed in the areas of scripting, directing, technical directing, camera operation, floor management, lighting, audio, and video recording. Industry roles & responsibilities are treated, including the strategies for gaining entrance.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 280 - Alfred Hitchcock iin Hollywood

**DIFT 280 - Alfred Hitchcock iin Hollywood**

2 - 3 Credit Hours
This course is designed for undergraduates and serves as both an in-depth investigation of a major artist and an exploration of American attitudes and institutions during World War II, the Cold War, and the upheavals of the 1960s and early 70s. Students are required to do a significant amount of reading and writing.

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation
DIFT 297 - America Through the Lens

**2 - 3 Credit Hours**
Films and television programs will be analyzed in order to both identify the cultural and historical messages they contain. The formulas and conventions of Hollywood genres will be examined. This understanding of genre will serve as a primary analytical tool as we deconstruct the films and television programs studied in class.

**Levels:** Graduate Undergraduate

**College of Arts & Sciences School of Arts & Innovation**

DIFT 310 - The Horror Film

**3 Credit Hours**
An analysis and history of the horror film, with attention to the myths behind the subject matter. Gender related issues will be emphasized.

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core

**Levels:** Graduate Undergraduate

**College of Arts & Sciences School of Arts & Innovation**

DIFT 340 - Audio Production

**3 Credit Hours**
Technical and theoretical basis. Digital sound editing, special effects, commercial production and documentary production. Lab

**Levels:** Graduate Undergraduate

**College of Arts & Sciences School of Arts & Innovation**

DIFT 348 - Internship in DIFT I

**3 Credit Hours**

**Levels:** Undergraduate

**College of Arts & Sciences School of Arts & Innovation**
DIFT 354 - Field Prod and Story Telling

3 Credit Hours
Producing video on-location from a script. News, interview, documentary, corporate, and film-style productions are covered, along with the requisite skills in directing, teamwork, camera operation and aesthetics, sound recording, lighting, and non-linear editing. Throughout, the emphasis is on the whole-systems thinking and effective communication.

Prerequisites: DIFT254 or COMM254

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 401 - Politics Reporting Practicum

1 Credit Hours
Collaborative (interdisciplinary) hands-on course, that focuses on the fall national and local election cycle. Advanced Electronic Media students and Mass Media and Politics students, will collaborate to produce high value news packages, focusing on the fall elections. Target audience is Xavier News and the Web. The course is open to Electronic Media majors and PPP majors taking the Mass Media and Politics course with instructor permission.

Restrictions: Must be enrolled in one of the following Majors: Electronic Media Philos, Politics & The Public

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 402 - Brand X Production Practicum

1 Credit Hours
This course is a collaborative hands-on course that will focus on creating completed Brand X programming to be aired on our student channel and the web. Electronic Media students will collaborate to write and produce a high production value music shows. The course is open to Electronic Media majors and other majors who belong to the television association and have experience working in the TV studio. Other students must receive permission from the instructor.

Restrictions: Must be enrolled in one of the following Majors: Electronic Media

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation
DIFT 403 - Brand X Practicum II

1 Credit Hours
This sequential course to DIFT 402 is a collaborative hands-on course that will focus on creating completed Brand X programming to be aired on our student channel and the web. Electronic Media students will collaborate to write and produce high production value music shows. The course is open to Electronic Media majors and other majors who belong to the television association and have experience working in the TV studio. Other students must receive permission from the instructor.

Prerequisites: COMM101

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 451 - Introduction to Video Graphics

3 Credit Hours
Creative elements of conceptualizing, generation, and 2D animation within a high resolution paint system. Integration of paint system with live/video and character generation.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 452 - Aesthetics & Tech of Post Prod

3 Credit Hours
Rules and principles involved in the art of video post-production. Through practice and hands-on instruction, this course explores cinematic grammars and a variety of storytelling strategies and techniques.

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 454 - Advanced Video Editing

3 Credit Hours
Teaches students how to use the AVID, non-linear editing system; also covers aesthetics and editor-client interaction.

Prerequisites: DIFT254 or COMM254
Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 458 - Internship in DIFT II

DIFT 458 - Internship in DIFT II

3 Credit Hours
Levels: Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 459 - Senior Sem in EMED Adv Prod I

DIFT 459 - Senior Sem in EMED Adv Prod I

3 Credit Hours
This capstone course calls into play the full range of theoretical knowledge, creativity, skills, and talents that students developed in the lower-level production courses. Students design and produce professional quality, scripted videos or a whole program.

Restrictions: Must be enrolled in one of the following Classifications: Senior

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

DIFT 460 - Senior Sem in DIFT Adv Prod II

DIFT 460 - Senior Sem in DIFT Adv Prod II

3 Credit Hours
Second semester of capstone experience.

Prerequisites: DIFT459

Restrictions: Must be enrolled in one of the following Classifications: Senior

Levels: Graduate Undergraduate

College of Arts & Sciences School of Arts & Innovation

ECON 200 - Microeconomic Principles

ECON 200 - Microeconomic Principles

3 Credit Hours
Principles governing the efficient allocation of the nation's scarce resources. Economic behavior of consumers, producers, and resource owners.

Restrictions: Must be enrolled in one of the following Levels: Undergraduate
Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core
Levels: Graduate Undergraduate

Williams College of Business Economics

ECON 201 - Macroeconomic Principles

3 Credit Hours
Economic activity of the economy as a whole. The role of public policy in relation to issues of full employment, price stability, economic growth, government finance, and international trade.

Prerequisites: Undergraduate level ECON200 Minimum grade of D

Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core
Levels: Undergraduate

Williams College of Business Economics

ECON 209 - Economics and Public Issues

3 Credit Hours
Analysis of a series of public issues from economic and ethical perspectives. ECON 209 does not count as either an economics elective or a business elective, but does count as an E/RS Focus elective.

Prerequisites: Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D

Course Attributes: ERS Focus Elective, Social Science Old/Trans Core
Levels: Undergraduate

Williams College of Business Economics

ECON 300 - Int'l Trade & Bus Environment

3 Credit Hours
An analysis of International Trade and Finance; the behavior of the multinational enterprise; the impact of the global economy on traditional business strategies.

Prerequisites: Undergraduate level ECON201 Minimum grade of D

Levels: Undergraduate

Williams College of Business Economics
ECON 303 - Internship / Econ

1 - 3 Credit Hours
An elective cooperative experience where students earn academic credit while performing approved economic-related work experience. Student must have 55 credit hours completed, a 2.750 GPA, and departmental approval.

Prerequisites: Undergraduate level MGMT301 Minimum grade of D
Levels: Undergraduate

Williams College of Business Economics

ECON 305 - Microeconomic Analysis

3 Credit Hours
An in-depth study of consumer behavior, production costs, the firm, market structure, factor markets, and general equilibrium analysis.

Prerequisites: ECON200
Levels: Undergraduate

Williams College of Business Economics

ECON 306 - Macroeconomic Analysis

3 Credit Hours
Theoretical foundations of macro models integrating real and monetary sectors in both open and closed economies. Controversies in modern macro theory, with emphasis on business cycle theory.

Prerequisites: Undergraduate level ECON201 Minimum grade of D
Levels: Undergraduate

Williams College of Business Economics

ECON 307 - Empirical Analysis In Economic

3 Credit Hours
The construction and testing of economic models. Emphasis given to linear regression techniques, special problems in estimating economic relationships, and interpretation of results.

Prerequisites: STAT211 and ( ECON305 or ECON306)
ECON 315 - History of Economic Thought

3 Credit Hours
Ideas and theories of major contributors to economic thought, including, Smith, Mill, Marx, and Keynes. Primary sources will be used.

Prerequisites: Undergraduate level ECON201 Minimum grade of D and Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D

Course Attributes: ERS Focus Elective, Peace & Justice Studies Minor, Social Science Old/Trans Core

Levels: Undergraduate

ECON 320 - Natural Resource Economics

3 Credit Hours
Economic analysis of managing the environment and allocating natural resources. Historical roots and ethical consequences of existing problems and policies are explored.

Prerequisites: Undergraduate level ECON200 Minimum grade of D and Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D

Course Attributes: ERS Focus Elective

Levels: Undergraduate

ECON 323 - Intro to Mathematical Econ

3 Credit Hours
Synthesis of mathematical techniques and economic theory. A mathematical review of economic models, static equilibrium, comparative statics, optimization, dynamic analysis, and mathematical programming.

Prerequisites: Undergraduate level ECON201 Minimum grade of D and Undergraduate level MATH150 Minimum grade of D

Levels: Undergraduate
ECON 341 - Econ of Developing Countries

3 Credit Hours
Analysis of the main problems of developing countries, methods of generating growth and development, and consideration of the international distribution of wealth.

Prerequisites: Undergraduate level ECON201 Minimum grade of D

Levels: Undergraduate

ECON 350 - Business Cycles & Forecasting

3 Credit Hours
The study of macroeconomic theories that explain business cycles and use of macroeconomic data and economic indicators that can be used to predict cycles. The development of statistical tools for forecasting economic trends and fluctuations.

Prerequisites: ECON200 and ECON201 and STAT211

Levels: Undergraduate

ECON 360 - Economics and Politics

3 Credit Hours
An introduction to the economic analysis of political decision making in a modern democracy. Present models and examination of policy choices as an outcome of strategic interaction among rational individuals. Other topics include: rational choice theory, models of electoral competition, role of institutions in policy making, general and special interest politics and lobbying and international policy coordination.

Prerequisites: ECON200

Levels: Undergraduate

ECON 390 - Topics in Economics

3 Credit Hours
Selected problems. Examples include: energy, natural resource, environmental and urban economics. May be taken for credit more than once.
**ECON 420 - Urban and Regional Economics**

3 Credit Hours
An analysis of the economic reasons for city formation and spatial density patterns, with a focus on cities in the United States. Within this framework, we explore issues of transportation, housing, local government finance, crime and poverty.

**Prerequisites:** ECON305

**Levels:** Undergraduate

*Williams College of Business Economics*

**ECON 421 - Environment, Econ and Policy**

3 Credit Hours
Analysis of concepts and models concerning economics and the environment, with applications to policy questions. Project work will focus on particular natural resources or ecosystem services.

**Prerequisites:** ECON320 and ECON305

**Course Attributes:** Environ Science/Studies Elect

**Levels:** Undergraduate

*Williams College of Business Economics*

**ECON 440 - Public Economics**

3 Credit Hours
Study of economic efficiency, distribution and role of government in the economy. Topics include: market failure, public and private provision of public goods, an analysis of the principles of government expenditure and taxation.

**Prerequisites:** Undergraduate level ECON305 Minimum grade of D and (Undergraduate level MATH150 Minimum grade of D or Undergraduate level MATH170 Minimum grade of D)

**Levels:** Undergraduate

*Williams College of Business Economics*
ECON 450 - International Economics

3 Credit Hours
Basis for trade between nations. Barriers to trade. Balance of payments. Exchange rate determination. Monetary and fiscal policies in an open economy.

Prerequisites: Undergraduate level ECON305 Minimum grade of D and Undergraduate level ECON306 Minimum grade of D and (Undergraduate level MATH150 Minimum grade of D or Undergraduate level MATH170 Minimum grade of D)

Levels: Undergraduate

Williams College of Business Economics

ECON 460 - Labor Economics

3 Credit Hours
Analysis of labor market behavior. Issues of compensation, human capital investment, unionization, discrimination, and the influence of the labor market on the macro economy.

Prerequisites: Undergraduate level ECON305 Minimum grade of D and (Undergraduate level MATH150 Minimum grade of D or Undergraduate level MATH170 Minimum grade of D)

Levels: Undergraduate

Williams College of Business Economics

ECON 492 - Capstone Experience in ECON I

1 Credit Hours
The primary aim of the course is to use economic theory and data analysis to conduct an original research project. In this course, students will learn how to decide on an appropriate research topic, formulate hypotheses using economic theory, fit the topic into a broader literature, collect and analyze data and write the capstone itself.

Levels: Undergraduate

Williams College of Business Economics

ECON 493 - Capstone Experience in ECON II

2 Credit Hours
The primary aim of the capstone course is to use economic theory and data analysis to complete an original research project. In this course, students will learn about the process of developing, researching, writing and presenting an economics capstone with a greater emphasis on writing and presenting one/2019s work. In class, students will learn how to write the capstone paper itself based on the
results of capstone research conducted and feedback received in Econ 492. At the end of the term, students will present their capstone to the economics faculty throughout the second half of the term. The research paper and the oral presentation of the research will be assessed by the faculty.

Levels: Undergraduate

Williams College of Business Economics

ECON 494 - Economics Capstone

ECON 494 - Economics Capstone

0 Credit Hours
The primary aim of the capstone course is to use economic theory and data analysis to complete an original research project. In this course, students will learn about the process of developing, researching, writing and presenting an economics capstone. In class, students will learn how to decide on an appropriate research topic, formulate hypotheses using economic theory, fit the topic into a broader literature, collect and analyze data and write the capstone paper based on the results from data analysis. At the end of the term, students will present their capstone to the economics faculty throughout the second half of the term. The research paper and the oral presentation of the research will be assessed by the faculty.

Levels: Undergraduate

Williams College of Business Economics

ECON 495 - Markets, Strategy & Rivalry

ECON 495 - Markets, Strategy & Rivalry

3 Credit Hours
Applied microeconomic analysis for decision-making within the business firm. Topics include pricing decisions, internal labor issues, and external market pressures.

Prerequisites: Undergraduate level ECON305 Minimum grade of D and Undergraduate level STAT211 Minimum grade of D and (Undergraduate level MATH150 Minimum grade of D or Undergraduate level MATH170 Minimum grade of D)

Levels: Undergraduate

Williams College of Business Economics

ECON 499 - Tutorial Course

ECON 499 - Tutorial Course

1 - 3 Credit Hours
Special reading and study for advanced students. Approval of department chair and dean required.

Prerequisites: Undergraduate level MATH150 Minimum grade of D or Undergraduate level MATH170 Minimum grade of D

Levels: Undergraduate

Williams College of Business Economics
ECON 550 - Managerial Economics

3 Credit Hours
Managerial economics analyzes consumer and firm behavior in order to provide a strong, theoretical understanding of how consumer and firm behavior in order to provide a strong, theoretical understanding of how consumers make decisions and firms maximize profit. With this foundation, the second part of the course examines how firms are organized and their behavior in a variety of market situations. The course concludes with an analysis of how to make effective decisions regarding hiring, managing, and motivating workers.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

ECON 601 - Global Economic Environment

3 Credit Hours
Description and analysis of macroeconomics policies in a global environment, with emphasis on how international trade and capital flows affect the impact of monetary, fiscal, and supply-side policies on traditional macroeconomic variables.

Prerequisites: ECON550 or ECON600

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

ECON 627 - International Econ & Business

3 Credit Hours
Growth and direction of trade, internationalization of business, role of governments. Mechanics of financing foreign trade and investment.

ECON 632 - Business Forecasting

3 Credit Hours
Development and application of statistical techniques used in short-term forecasting.

Prerequisites: STAT500 and (ECON600 or ECON550)

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Degrees: Master of Business Admin

Levels: Graduate

ECON 640 - Empirical Analysis For Pricing

3 Credit Hours
This is an advanced course in business economics that introduces demand estimation techniques that are essential to business analytics and market studies. Estimating and understanding market demand is central to developing business strategies such as pricing strategy. Students will be exposed to the latest techniques in demand estimation and pricing. Students will also be able to identify market factors that are key to value creation and value capturing. Topics include but are not limited to demand estimation using regression analysis, demand estimation using discrete choice analysis, optimal pricing and business analytics with value creation.

Prerequisites: (ECON600 or ECON550) and STAT500

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

Levels: Graduate

ECON 650 - Managing Pricing Strategy

3 Credit Hours
This is an advanced course in the economics, strategy and implementation of pricing by firms. Pricing expertise requires careful strategic consideration, masterful tactics, financial and competitive analysis, strong communication skills and constant agility. Students will be exposed to the latest analytical and practical techniques in pricing. This course is designed for current and future managers to understand, plan and execute pricing decisions, which is the single most important driver of firm profitability and value.

Prerequisites: (ECON600 or ECON550) and STAT500

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate
ECON 660 - Econ Thm & App for Pub Policy

3 Credit Hours
This is a graduate level course. The purpose of this course is to provide students with a set of conceptual frameworks for analyzing the social, economics and political environment for public policy analysis, policy design, and advocacy. We will rely heavily on foundations of economic principles, skills and concepts. Institutional and political analysis will be heavily used as well. Students will learn to apply rational decision making principles to identify patterns of individual as well as collective behavior and outcomes to better understand public policy making.

Restrictions: Must be enrolled in one of the following Levels: Graduate

EDAD 771 - Internship:Principal I

EDAD 771 - Internship:Principal I

3 Credit Hours
This course is the administrative internship that satisfies one of Ohio’s requirements for the Administrative Licensure. The purpose of this course is to provide the student with an opportunity to work under the direction of a certified administrator/ supervisor in an education setting to see how what is discussed in the classroom courses is practically applied in the field. The internship consists of a minimum of 75-100 hours under the direction of an administrative mentor. The curriculum is based on the standards for preparation of the school administrator adopted by the Professional Associations (i.e. NAESP, NASSP, AASA, ASCD, NCATE.) The length of the internship spans two semesters (Internship: Principal I & Internship: Principal II, for a total of six semester hours.) For this course, Internship: Principal I, the internship will be mutually planned and supervised by the student, the professor, and the mentor. The internship will include at least one significant experience in at least two of the areas listed in the Educational Leadership Constituent Council (ELCC) or the Ohio Principal Standard Framework.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education
EDAD 772 - Internship: Spec-Research I

3 Credit Hours
All internships shall contain the following characteristics and components: The length of the internships will be a full academic year, consisting of two semesters. The internships will equal a total of six semester hours of credit. The internships will be mutually planned and supervised by Xavier University personnel and administrators from allied schools and organizations. School and other outside organizational personnel will also serve as mentors for the graduate students enrolled in the internships. The internships will be further implemented through a social systems approach; meaning that the student must have experiences with agencies and people outside the school structure. Examples would be social service agencies that assist the schools or are directly involved in services to children who are enrolled in schools. However, the internship will not be limited to agencies and people who have natural connections with the schools. Any experiences that will train the future administrator to successfully communicate with the community will be included. The internships will include at least one significant experience in each of the following four leadership areas: organizational leadership; strategic leadership; curriculum, instructional, staff development leadership; community, political leadership.

EDAD 789 - Internship:Superintendency II

EDAD 789 - Internship:Superintendency II

3 Credit Hours
This course is the internship that satisfies one of Ohio\2019s requirements for the superintendent license in Ohio. The internship provides the student with an opportunity to work with a practicing school administrator in a school setting and to apply knowledge and skills learned in the classroom. The rationale and purposes of the internship are listed in the ELCC standards for the preparation of school leaders. Typically the intern will spend from 75-100 hours on activities and involvement in the school during the semester.

Restrictions: Must be enrolled in one of the following Levels: Graduate

EDEC 210 - Early Childhood Development

EDEC 210 - Early Childhood Development

3 Credit Hours
Specific study of children ages three to eight, developmental differences in young children, growth and health, developmentally appropriate practice in educational settings, assessment practices with young children.

Prerequisites: Undergraduate level EDFD110 Minimum grade of C and (Undergraduate level EDFD100 Minimum grade of B or Undergraduate level EDEL100 Minimum grade of B)

Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core, Writing Flag Core

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDEC 230 - Play in Early Childhood Educ

3 Credit Hours
Theory and practice concerning developmental aspects of play, creativity, imagination, and their relationship to music, movement, and creative drama. Teacher's role in preparation of the play environment, including issues of special needs children.

Prerequisites: Undergraduate level EDEC210 Minimum grade of C and (Undergraduate level EDFD100 Minimum grade of B or Undergraduate level EDEL100 Minimum grade of B) and Undergraduate level EDFD110 Minimum grade of C

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEC 300 - Studies in Early Childhood

3 Credit Hours
A three credit hour course experienced in the city of Rome, Italy, will include visits to local schools for young children, Montessori, elementary schools, and the culturally diverse international schools of the city. Focus on environment, methods, and philosophy will include an introduction to American standards and practices for care of young children.

Prerequisites: (Undergraduate level EDFD100 Minimum grade of B or Undergraduate level EDEL100 Minimum grade of B) and Undergraduate level EDEC210 Minimum grade of C

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEC 325 - Methods of Observation/Collabo

3 Credit Hours
Observation techniques, classroom management, assessment, parent and staff communication, and field practice in observation. Consultation/collaboration skills with child service professionals.

Prerequisites: Undergraduate level EDEC210 Minimum grade of C and (Undergraduate level EDFD100 Minimum grade of B or Undergraduate level EDEL100 Minimum grade of B) and Undergraduate level EDFD110 Minimum grade of C

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDEC 330 - Math/Science Block-Early Chld

6 Credit Hours

Prerequisites: (Undergraduate level EDEC325 Minimum grade of C or Undergraduate level EDEC340 Minimum grade of C) and Undergraduate level EDEC210 Minimum grade of C

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEC 331 - Early Childhood Math/Sci Cohrt

4 Credit Hours
This course is designed to prepare students to teach science and mathematics to children at age 3 to grade 3. Learning format consists primarily of hands-on, minds-on activities, demonstrations, peer teaching, class discussions, and field experiences. Attention to National and Ohio standards. Pre-requisite: Cohort admission and progression.

Co-requisites: EDEC336

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEC 335 - Lang Arts/Social St-Early Chd

6 Credit Hours

Prerequisites: (Undergraduate level EDEC325 Minimum grade of C or Undergraduate level EDEC340 Minimum grade of C) and Undergraduate level EDCH324 Minimum grade of C and Undergraduate level EDRE269 Minimum grade of C and Undergraduate level EDRE312 Minimum grade of C and Undergraduate level EDEC210 Minimum grade of C

Course Attributes: Oral Communication Flag

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDEC 336 - Early Childhood LA/Soc St Cohr

4 Credit Hours
This course is designed to prepare students to integrate language arts and social studies using instructional strategies, oral and written language skills, reading and children's literature for the integrated curriculum, formal and informal assessment strategies, adaptations for diverse learners, as well as review the Ohio Model Competency-Based Language Arts and Social Studies Programs for children age 3 to grade 3. Requires Cohort admission and progression.

Co-requisites: EDEC331

Levels: Graduate Undergraduate
College of Professional Sci School of Education

EDEC 340 - Integrated Curr-Early Childhd

3 Credit Hours

Prerequisites: (Undergraduate level EDFD100 Minimum grade of B or Undergraduate level EDEL100 Minimum grade of B) and Undergraduate level EDFD110 Minimum grade of C and Undergraduate level EDEC325 Minimum grade of C and Undergraduate level EDEC210 Minimum grade of C and (Undergraduate level EDEC330 Minimum grade of C or Undergraduate level EDEC335 Minimum grade of C)

Levels: Graduate Undergraduate
College of Professional Sci School of Education

EDEC 350 - Early Years Integrated Art

3 Credit Hours
Three credit hour course required for Early Childhood Education majors taken during the junior year in conjunction with block courses. Focus on the development of young children through the arts, and the skills and concepts essential to successful integration of the arts into the curriculum.

Prerequisites: EDEL100 and EDEC210 and EDEC312 and EDCH324 and ( EDEC330 or EDEC335)

Levels: Graduate Undergraduate
College of Professional Sci School of Education
EDEC 450 - Student Teaching: Early Childho

EDEC 450 - Student Teaching: Early Childho

11 Credit Hours
Fourteen weeks of supervised full day student teaching under a master teacher. Reflective practice and team teaching. Weekly seminar.

Prerequisites: EDEC330 and EDEC335 and EDEL351

Co-requisites: EDEC451

Levels: Undergraduate

College of Professional Sci School of Education

EDEC 451 - Seminar: Current Issues/Early

EDEC 451 - Seminar: Current Issues/Early

1 Credit Hours
This seminar will address pertinent issues to teacher licensure, professional development, and career preparation for the early childhood teacher.

Prerequisites: EDEC330 and EDEC335 and EDEL351

Co-requisites: EDEC450

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEC 454 - EC Cohort Student Teaching

EDEC 454 - EC Cohort Student Teaching

6 Credit Hours
The student teaching experience in the early childhood education program is one semester in duration, spent in one classroom at the preschool through primary level. Placement site is determined by prior field placements at different grade and demographic settings. Range of placements include pre-school classrooms, kindergarten classrooms, first, second, third, or multi-age classrooms. Settings will include public, private, religious, urban, and suburban schools and centers. Students are placed in settings which have signed agreements with Xavier University for such placements as described above. Student teaching is under the daily guidance of a qualified cooperating teacher and regular supervision visits from the assigned University supervisor.

Co-requisites: EDEC455

Levels: Undergraduate

College of Professional Sci School of Education
EDEC 455 - Cohort: Current Issues

**EDEC 455 - Cohort: Current Issues**

1 Credit Hours
This seminar style course addresses pertinent issues related to the day to day student teaching experience, professional conduct, teacher licensure and career preparation. Emphasis on NAEYC standards and Ohio Professional Teaching Standards criteria. Majors Only.

**Co-requisites:** EDEC454

**Levels:** Graduate Undergraduate

*College of Professional Sci School of Education*

EDEC 555 - Early Childhood Care/Practices

**EDEC 555 - Early Childhood Care/Practices**

6 Credit Hours
This course holistically examines aspects of working as an early childhood professional with families and children birth through age 8. Issues on the education and care of these young children with and without disabilities from various cultural and socioeconomic backgrounds will be studied. Issues include, but are not limited to, full day childcare, early intervention, early childhood special education, early childhood education, and best practices in facilitating young children's learning and development. The course content examines current theories, theorists, programs, and practices in early childhood care/education and child development. The course requires 20 hours of field experience.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEL 312 - Teaching Social Studies

EDEL 312 - Teaching Social Studies

2 Credit Hours
Emphasis on social science curriculum, multicultural implications and instructional strategies.

Prerequisites: Undergraduate level EDEL100 Minimum grade of D and Undergraduate level EDEL251 Minimum grade of D and Undergraduate level EDFD140 Minimum grade of D and Undergraduate level EDFD142 Minimum grade of D

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEL 313 - Language Arts Block

EDEL 313 - Language Arts Block

9 Credit Hours
Major course that combines children's literature, reading and language arts methods with field experience in an elementary classroom. Field and clinical experiences required.
Prerequisites: Undergraduate level EDEL100 Minimum grade of D and Undergraduate level EDEL251 Minimum grade of D and Undergraduate level EDFD140 Minimum grade of D and Undergraduate level EDFD142 Minimum grade of D

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEL 314 - Teaching Reading

EDEL 314 - Teaching Reading

3 Credit Hours
Developmental process of reading, reading in the content areas, determining needs of children.

Prerequisites: Undergraduate level EDEL100 Minimum grade of D and Undergraduate level EDEL251 Minimum grade of D and Undergraduate level EDFD141 Minimum grade of D and Undergraduate level EDFD142 Minimum grade of D

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEL 315 - Teaching Mathematics

EDEL 315 - Teaching Mathematics

3 Credit Hours
Mathematics in the elementary school. Materials, methods, and content.

Prerequisites: Undergraduate level EDEL100 Minimum grade of D and Undergraduate level EDEL251 Minimum grade of D and Undergraduate level EDFD140 Minimum grade of D and Undergraduate level EDFD142 Minimum grade of D

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEL 316 - Math and Science Block

EDEL 316 - Math and Science Block

6 Credit Hours
Math and science teaching strategies, skills, and content integrated with field experience in an elementary classroom. Field and clinical experiences required.

Prerequisites: Undergraduate level EDEL100 Minimum grade of D and Undergraduate level EDEL251 Minimum grade of D and Undergraduate level EDFD140 Minimum grade of D and Undergraduate level EDFD142 Minimum grade of D

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDEL 317 - Teaching Language Arts

3 Credit Hours
Curriculum, oral and written language, spelling, mechanics of writing, linguistics.

Prerequisites: Undergraduate level EDEL100 Minimum grade of D and Undergraduate level EDEL251 Minimum grade of D and Undergraduate level EDFD140 Minimum grade of D and Undergraduate level EDFD142 Minimum grade of D

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEL 318 - Social Studies/Multicult Block

5 Credit Hours
Methods for teaching the social sciences with a multicultural perspective. Field work highlights cultural diversity. Field and clinical experiences required.

Prerequisites: Undergraduate level EDEL100 Minimum grade of D and Undergraduate level EDEL251 Minimum grade of D and Undergraduate level EDFD140 Minimum grade of D and Undergraduate level EDFD142 Minimum grade of D

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEL 326 - Children's Literature

3 Credit Hours
Survey of literature available for elementary age children; how to use literature in the classroom.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDEL 327 - Adolescent Literature

3 Credit Hours
Survey of literature available for adolescents; how to use literature in the classroom.

Levels: Graduate Undergraduate
EDEL 351 - Instruct Strat for Engl Lang L

3 Credit Hours
Candidates learn about second language acquisition, cultural transmissions, legal requirements for serving English Language Learners (ELs), explore state content standards for English Language Proficiency, and learn methodology such as Sheltered Instruction Observation Protocol that content teachers may utilize in Instruction with ELLs. A minimum of 10 hours of field work required.

Levels: Graduate Undergraduate

EDEL 370 - Junior Field Experience

2 Credit Hours
Observation, teaching and evaluation; major subject areas: reading, language arts, mathematics, social studies, and science.

Levels: Graduate Undergraduate

EDEL 401 - Non Violent Crisis Intervent

0 - 1 Credit Hours
This course will train students and professionals how to deal effectively with clients who are angry and whose behavior is escalating out of control. This course emphasizes the use of techniques that will prevent physical crisis but will also present non-violent physical intervention technique training as well. A series of research-based protocols will be presented, demonstrated and explained that have proven to be best practice in de-escalating violent behaviors.

Levels: Undergraduate

EDEL 440 - Middle Childhood Trans

1 Credit Hours
Course studies development of the 9-11 year old child within the context of the classroom, with emphasis on developmentally
appropriate teaching strategies and management.

**Prerequisites:** EDEC330 or EDEC335

**Levels:** Undergraduate

*College of Professional Sci School of Education*

**EDEL 441 - Mathematics: Content**

**EDEL 441 - Mathematics: Content**

**2 Credit Hours**
This course prepares classroom teachers with the conceptual knowledge and skills needed to teach 4th and 5th grade mathematics. Ohio Academic Content Standards mathematics content will be examined in context with the National Council of teachers of Mathematics focus on content and pedagogy.

**Prerequisites:** EDEC330

**Levels:** Undergraduate

*College of Professional Sci School of Education*

**EDEL 442 - Science: Content**

**EDEL 442 - Science: Content**

**2 Credit Hours**
This course prepares classroom teachers with early childhood preparation to obtain knowledge and skills necessary for effective science instruction in grades 4 and 5. Course examines the discipline of science as it relates to grades 4 and 5 Ohio Academic Content Standards and the Ohio Science Matrix.

**Prerequisites:** EDEC330 and EDEC335

**Levels:** Undergraduate

*College of Professional Sci School of Education*

**EDEL 443 - Language Arts: Content**

**EDEL 443 - Language Arts: Content**

**2 Credit Hours**
This course provides the early childhood classroom teacher with specific content knowledge for grades 4 and 5 literacy skills in the areas of writing, reading, speaking and listening, as specified by the Ohio Academic Content Standards for English Language Arts.

**Prerequisites:** EDEC330 and EDEC335

**Levels:** Undergraduate

*College of Professional Sci School of Education*
EDEL 444 - Social Studies: Content

2 Credit Hours
This course prepares early childhood classroom teachers with knowledge and skills required for effective social studies instruction of students in grades 4 and 5. Emphasis on Ohio Academic Content Standards Social Studies with six Social Studies Benchmarks focused on Ohio, United States and North America.

Prerequisites: EDEC330 and EDEC335

Levels: Undergraduate

College of Professional Sci School of Education

EDEL 471 - Elem Student Teaching & Semina

9 Credit Hours

Levels: Graduate
EDEL 550 - Mathematics as Second Lang

3 Credit Hours
This course lays the groundwork for the Vermont Mathematics Initiative courses that follow. A major theme is the understanding of algebra and arithmetic through language. The objective is to provide a solid conceptual understanding of the operations of arithmetic, as well as the interrelationships among arithmetic, algebra, and geometry. Topics include arithmetic vs. algebra; solving equations; place value and the history of counting; inverse processes; the geometry of multiplication; the many faces of division; rational vs. irrational numbers; and the one-dimensional geometry of real numbers. In K-12 application of content, teachers will examine the Ohio Mathematics Common Core Standards and Model Curriculum in Number/ Number Sense and demonstrate an understanding of how the concepts associated with this strand of mathematics develop across the grades.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDEL 551 - Algebra and Functions

EDEL 551 - Algebra and Functions

3 Credit Hours
This course builds upon the prior course Mathematics as a Second Language and extends and reinforces the learning from that course. Participants will obtain deep understanding of the concept of a function, utilize functions in problem solving, appreciate the pervasiveness of the function idea in the K-8 mathematics curriculum as well as everyday life, and engage in a variety of problem-solving activities that relate directly to the K-8 mathematics classroom. Topics include functions, graphs, inverse functions, linear functions, the algebra and geometry of straight lines, solving linear equations and inequalities, and an introduction to nonlinear functions. In K-12 application of content, teachers will examine the Ohio Mathematics Common Core Standards and Model Curriculum in Number/ Number Sense and Algebraic Thinking and demonstrate an understanding of how the concepts associated with this strand of mathematics develop across the grades.

Prerequisites: EDEL550

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDEL 552 - Algebra and Geometry II

EDEL 552 - Algebra and Geometry II

3 Credit Hours
This course builds on the arithmetic, algebra, and geometry developed in prior courses. The first part of the course develops the subject of trigonometry from the perspective of the K-8 mathematics classroom. Topics include similar triangles, the trigonometric functions and their graphs, the number pi, and applications to measurement, wave motion, and problem solving. The second part of the course continues the study of algebra from the perspective of K-8 mathematics. Topics include quadratic functions, parabolas, and related problem solving. Teachers will relate their learning to the K-8 classroom by examining the Ohio Mathematics Common Core Standards and Model Curriculum to identify the foundational concepts of Trigonometry. Also, teachers will develop effective content-based
questioning techniques and explore the components of building successful mathematics lessons.

**Prerequisites:** EDEL550 and EDEL551 and EDEL553 and EDEL554 and EDEL557

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci School of Education*

---

**EDEL 553 - Measurement Geometry Prob**

**EDEL 553 - Measurement Geometry Prob**

**3 Credit Hours**
This course builds on prior courses in algebra and geometry. Topics include measurement (length, area and volume), experimental and theoretical probability, and the ways in which these concepts develop across the elementary, middle and high school curricula. Topics are presented in the context of problem solving, and there is an emphasis on reinforcing one's understanding of functions, function notation, and topics from algebra. In K-12 application of content, teachers will examine the Ohio Mathematics Common Core Standards and Model Curriculum in Measurement, Geometry and Probability and demonstrate an understanding of how the concepts associated with this strand of mathematics develop across the grades.

**Prerequisites:** EDEL550 and EDEL551 and EDEL554

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci School of Education*

---

**EDEL 554 - Number Theory**

**EDEL 554 - Number Theory**

**3 Credit Hours**
This course builds upon the prior course Mathematics as a Second Language and Functions and Algebra and extends and reinforces the learning from those courses. This course introduces teachers to the branch of mathematics known as number theory, in which one studies properties of positive integers with respect to the operations of multiplication and division. Emphasis in this course is placed on the mathematical content of number theory and on how number theory is taught in grades K-8, with particular attention to student learning of number theory in these grades. Topics include the division algorithm, properties of prime and composite numbers, the sieve of Eratosthenes as a way of understanding distributions of primes and composites, the infinitude of primes, the fundamental theorem of arithmetic, properties of the greatest common factor and methods of computing the greatest common factor including the Euclidean algorithm, properties of least common multiples, use of base ten and expanded notation, writing numbers and computing in different bases, and arithmetic progressions. In K-12 application of content, teachers will examine the Ohio Mathematics Common Core Standards and Model Curriculum in Number/ Number Sense and Algebraic Thinking and demonstrate an understanding of how the concepts associated with this strand of mathematics develop across the grades.

**Prerequisites:** EDEL550 and EDEL551

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

EDEL 555 - Math Specialist Assess Pract

3 Credit Hours
This course is specifically designed to enable the graduate student and practicing professional the opportunity to work in a clinical math assessment and targeted tutoring setting. It is time for the master teacher, completing his/her Elementary Math Specialist Endorsement to put learned theory into practice.

Prerequisites: EDEL550 and EDEL551 and EDEL552 and EDEL553 and EDEL554 and EDEL556 and EDEL557

Levels: Graduate

College of Professional Sci School of Education

EDEL 556 - Algebra & Geometry For Teacher

3 Credit Hours
This course continues the study of functions, algebra, and geometry from prior CVMI courses. In this course the focus is on exponential processes and inverse processes, with an emphasis on problem solving. Topics include the laws of exponents; the transition from simple to compound interest; calculations with compound interest; exponential functions, including domain, range, graph, and different bases; logarithm functions as the inverse of exponential functions; the natural base e and natural logarithms; applications to growth and decay; applications of logarithms in everyday life; and the history of exponential functions and logarithms. This course, and the ones that precede it, ready the participant for the year-long curriculum project. Participants study current research on mathematics education and analyze the mathematics content and teaching skills necessary to help students develop additive, multiplicative, and proportional reasoning. The year-long curriculum project involves the collection and analysis of student work, the adaptation or creation of lessons designed to build high-level mathematics understanding, learning about and engaging in formative assessment in the mathematics classroom, and examining the continuum of concept development in the elementary and middle grades.

Prerequisites: EDEL550 and EDEL551 and EDEL552 and EDEL553 and EDEL554 and EDEL557

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDEL 557 - Stats, AR, Inq Into Eff Pract

3 Credit Hours
This course provides an introduction to statistics and begins to incorporate research in mathematics education. Topics include graphical and numerical organization and presentation of data, summary statistics for quantitative data, measures of relationship between variables, and inference from sample data to populations. This course forms the foundation for later work in statistics and school-based research, and is followed by the completion of a small-scale classroom inquiry. The inquiry allows participants to bring together the research they read with the statistics they learn to formulate the study, develop an intervention, and analyze the resulting data.

Prerequisites: EDEL550 and EDEL551 and EDEL553 and EDEL554

Levels: Graduate

College of Professional Sci School of Education

EDEL 560 - Cultural Diversity In Educ

EDEL 560 - Cultural Diversity In Educ

3 Credit Hours
This course introduces students to various issues embedded within the concepts of diversity, education and a pluralistic society. Students will gain an understanding of the change in demographics within our society and how they are reflected in the process of schooling.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDEL 600 - Differentiated Math Strategies

EDEL 600 - Differentiated Math Strategies

3 Credit Hours
This course is designed to prepare both special educators and classroom teachers with the knowledge and skills needed to collaborate, co-teach and remediate elementary mathematics. Benchmark Strategies and techniques will be explored to enable all students to meet the standards and improve performance on high stakes assessment. Ohio Academic Mathematics Content Standards will be examined in context with the latest NCTM publication, Curriculum Focal Points for Pre-Kindergarten through Grade 8 mathematics, which prioritizes the focus of mathematics in a more coherent, focus taken from NCTM, Principles and Standards for teaching Mathematics. The general learning format for the course will consist primarily of hands-on, minds-on activities, demonstrations, peer teaching, class discussions and collaboration between classroom teachers and special educators. Participants are required to be active in their own learning and to be reflective about information presented in this course, their own teaching and the learning of elementary math students.

Prerequisites: Graduate level EDSP622

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDEL 601 - Non Violent Crisis Intervent

EDEL 601 - Non Violent Crisis Intervent

0 - 1 Credit Hours
This course will train students and professionals how to deal effectively with clients who are angry and whose behavior is escalating out of control. This course emphasizes the use of techniques that will prevent physical crisis but will also present non-violent physical intervention technique training as well. A series of research-based protocols will be presented, demonstrated and explained that have
proven to be best practice in de-escalating violent behaviors.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci School of Education*

**EDEL 610 - Survey in Education**

**EDEL 610 - Survey in Education**

1 - 3 Credit Hours
Independent study under the supervision of a faculty member.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci School of Education*

**EDEL 620 - Themes & Research in Education**

**EDEL 620 - Themes & Research in Education**

1 - 3 Credit Hours
Through independent study, this course provides an opportunity to pursue a topic or project in education under the direction of a professor. Approval of the department chair is required.

**Levels:** Graduate

*College of Professional Sci School of Education*

**EDEL 640 - Middle Childhood Trans**

**EDEL 640 - Middle Childhood Trans**

1 Credit Hours
Course studies development of the 9-11 year old child within the context of the classroom, with emphasis on developmentally appropriate teaching strategies and management.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci School of Education*
EDEL 641 - Mathematics: Content

2 Credit Hours
This course prepares classroom teachers with the conceptual knowledge and skills needed to teach 4th and 5th grade mathematics. Ohio Academic Content Standards mathematics content will be examined in context with the National Council of teachers of Mathematics focus on content and pedagogy.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDEL 642 - Science: Content

2 Credit Hours
This course prepares classroom teachers with early childhood preparation to obtain knowledge and skills necessary for effective science instruction in grades 4 and 5. Course examines the discipline of science as it relates to grades 4 and 5 Ohio Academic Content Standards and the Ohio Science Matrix.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDEL 643 - Language Arts: Content

2 Credit Hours
This course provides the early childhood classroom teacher with specific content knowledge for grades 4 and 5 literacy skills in the areas of writing, reading, speaking and listening, as specified by the Ohio Academic Content Standards for English Language Arts.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education
EDEL 644 - Social Studies: Content

2 Credit Hours
This course prepares early childhood classroom teachers with knowledge and skills required for effective social studies instruction of students in grades 4 and 5. Emphasis on Ohio Academic Content Standards Social Studies with six Social Studies Benchmarks focused on Ohio, United States and North America.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDEL 650 - Foundations of TESOL

3 Credit Hours
This course is designed to introduce the core foundations of second language acquisition. These foundations include, history of ESL teaching in the United States, legal obligations, content standards for English Language Learners (ELLs) and process of identification and services administered to ELLs. The course will be interactive and include technical supports for students to engage in conversation. Research will be explored and students will be required to critically read research and present upon a journal article. Students will understand the fundamentals of accommodation for ELLs both in the tutoring or sheltered environment and the content areas.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDEL 651 - Instr Strat For Engl Lang Lear

3 Credit Hours
Participants of this course will learn about second language acquisition, cultural transmissions, legal requirements for serving English Language Learners (ELLs), explore state content standards for English Language Proficiency, and learn methodology such as Sheltered Instruction Observation Protocol that content teachers may utilize in instruction with ELLs.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education
EDEL 652 - Culturally Responsive Teaching

3 Credit Hours
Culturally Responsive Teaching for English Language Learners is designed to address cultural competence, teaching strategies and increasing funds of knowledge regarding cultural differences. An in depth study of culturally responsive practice will be explored, including self-examination of culture. ESL teachers encounter students internationally and nationally and need to be able to code switch from various cultures and to understand how culture impacts learning and achievement.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDEL 653 - Effective Assessment Pract

3 Credit Hours
This course will explore different avenues for assessment and bridge the gap regarding cultural bias in assessment. Students will examine strategies to assess reading, writing, listening and speaking and will learn measures of English Language Proficiency. Participants will learn to select appropriate assessments for their students and learn to differentiate between learning and language barriers. Various rubrics and authentic assessments will be investigated and utilized by participants.

Prerequisites: EDEL650 and ( EDRE269 or EDRE569)

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDEL 654 - Aspects of Language and Socio

3 Credit Hours
This course will explore more in-depth second language acquisition including how L1 [native language] affects L2 [second language] and language transfer. The teaching of grammar, syntax and structure will be explored including differences for English Language Learners. Aspects of Intercultural communication will be covered. Participants will develop an appreciation for home culture and native language (L. 1) and how to use it effectively in instruction. Students will understand and apply knowledge of social, political and psychological variables that affect education. Students will explore technical supports and supplemental aides for effective Instruction of ELLS.

Prerequisites: EDEL650 and ( EDRE269 or EDRE569)

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate
EDFD 110 - Human Development & Learning

3 Credit Hours
An introductory course presenting theories on human growth, development, and learning. Students will apply theories in course activities including observations, media presentations, and film reviews. Students will develop and demonstrate observational skills and practices in writing educational reports. Students will develop an understanding of thematic stages of development and their application to life long learning from birth to adolescence. Students will demonstrate an understanding of the physical, cognitive, and social/emotional domains of development and the developmental effects of family, culture, and other environmental factors. Required field experience in diverse settings. 6 field hours.

Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core

Levels: Undergraduate

EDFD 499 - Special Study

1 - 3 Credit Hours
Permission of department chair required.

College of Professional Sci School of Education

EDME 305 - Kindergarten Methods & Matls I

EDME 305 - Kindergarten Methods & Matls I

3 Credit Hours
Research child development and classroom practice. Communicate knowledge of child development to parents. Understand how affective development is enhanced by creative arts, and how the arts enrich the curriculum. Literacy development, and language practices in young children. The history of kindergarten, and issues in practice today.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 350 - Methods of Observation of Chld

EDME 350 - Methods of Observation of Chld

3 Credit Hours
This course supports the candidate's understanding of authentic assessment. Students will learn how to observe child development from ages 2.5-12 and the application of this information in supporting curriculum planning.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 351 - Montessori Ed: Phil Approach

EDME 351 - Montessori Ed: Phil Approach

3 Credit Hours
This course allows students an in-depth study of Dr. Montessori's pedagogical philosophy. Topics covered include: Montessori theory from infancy through adolescence, cosmic education, and spiritual education.

Levels: Graduate Undergraduate
EDME 352 - Mont Curr Des & Tch Strat I:Pr

3 Credit Hours
Within this class setting is an opportunity for reflection on the day-to-day implementation of the Montessori philosophy; review, application, and enrichment of curriculum; feedback on classroom management techniques; design of integrated, sequenced Montessori curriculum, alignment with state and national academic content standards; and record keeping. Includes current educational research and trends in education.

Levels: Graduate Undergraduate

EDME 353 - Mont Math & Geometry Methods

3 Credit Hours
Montessori Math and Geometry materials, methods, and instructional strategies for the 6 to 9 year old child. Course content includes progression from concrete to abstract materials, the four operations, math process, fact based materials, the foundations of Geometry-plane figures, angles, lines, triangles, quadrilaterals, and polygons. Lessons integrated with state and national academic content standards. Supplemental resources, assessments, and lesson plans created.

Levels: Graduate Undergraduate

EDME 354 - Mont Language Arts & Read Meth

3 Credit Hours
Montessori materials, methods, and instructional strategies for the teaching of phonics, word study, creative writing, mechanics, grammar to the 6 to 9 year old child. Literature integrated across the curriculum unit of study developed. Lessons integrated with state and national academic content standards. Supplemental resources, assessments, and lesson plans created.

Levels: Graduate Undergraduate
EDME 355 - Mont Cultural Subjects Method

3 Credit Hours
Montessori materials, methods, and instructional strategies for the Montessori Cultural subjects and cosmic education for the elementary classroom. Course content includes Montessori history, geography, botany, and zoology. Lessons integrated with state and national academic content standards. Supplemental resources, assessments, and lesson plans created.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 356 - Mont Integration of Curr: Prim

3 Credit Hours
Course designed as a seminar for candidates in Montessori elementary classrooms during their second semester of Practicum. During this course, candidates solidify their understanding, application, and enrichment of the integrated Montessori cosmic curriculum. Learning experiences in the areas of differentiated instruction, and understanding and application of state and national education data.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 359 - Community & Advocacy in Educ

3 Credit Hours
Research supported theories and issues concerning developmentally appropriate practices for early childhood centers, birth to eight years of age. Topics include: Day Care Licensing, transitions, administration, use of community resources, children's home experiences, child abuse, program planning, making adaptations for the special needs child, and parent involvement. Students will participate in field experiences in classrooms with children from births to eight years of age.

Course Attributes: Oral Communication Flag

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 362 - Phonics and Orton-Gillingham

3 Credit Hours
This course provides a comprehensive study of the English language and the Orton-Gillingham approach to teaching children to read
and spell. It includes extensive studies of the characteristics of dyslexia, the patterns of the English language, multisensory techniques for teaching the elements of literacy, and the application of skills through practice activities. The skills taught in the course are based on current research on the characteristics and needs of children with difficulties in the area of literacy, including brain research, and best teaching practices. The participants will learn about dyslexia and appropriate approaches for teaching children with learning difficulties. With the complexity of both dyslexia and the English language, the participants develop a deep appreciation for ongoing research and study so that they continue to refine their skills. They complete the course with a respect for the children and a desire to serve as them, as both teachers and advocates.

College of Professional Sci School of Education

EDME 366 - Mont Curr Des&Te Strat I:Ea Ch

EDME 366 - Mont Curr Des&Te Strat I:Ea Ch

3 Credit Hours
This seminar course supports the candidate's knowledge in managing all aspects of the classroom environment. Topics include community leadership, classroom management, instructional strategies for cross curricular planning, adaptations for a diverse population, and the alignment of Montessori curriculum to the state of Ohio content standards.

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDME 367 - Mont Curr Des&Te Strat II:Ea C

3 Credit Hours
This seminar course supports the candidate's knowledge in managing all aspects of the classroom environment. Topics include community leadership, classroom management, instructional strategies for cross curricular planning, adaptations for a diverse population, and the alignment of Montessori curriculum to the state of Ohio content standards.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 370 - Montessori 9-12 Math I & II

4 Credit Hours
Montessori Math methods and materials for the 9 to 12 year old child. Concepts, integrated with the Ohio Academic Content Standards, include multiples and factors, fractions, decimals, percentage, integers, algebra, squaring and cubing, and problem solving strategies. Supplemental resources, assessments, and lesson plans created.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 371 - Montessori 9-12 Geometry Curr

2 Credit Hours
Students will study the Advanced Montessori Geometry methods and materials for the 9-12 year old child. Concepts, integrated with the Ohio Academic Content Standards, include angles, lines, triangles, quadrilaterals, polygons, area, volume, and the Pythagorem Theorem. Supplemental resources, assessments, and lesson plans created.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 372 - Montessori 9-12 Geog & Hist

2 Credit Hours
Students will study the advanced Montessori methods and materials for the 9-12 year old child. Content includes Ohio history, government, and geography; United States and North American history, government, and geography; World/Ancient Civilizations, economic and functional geography. Lessons integrated with state and national academic content standards. Supplemental resources, assessments, and lesson plans created.
Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 373 - Montessori 9-12 Botany & Zoo

EDME 373 - Montessori 9-12 Botany & Zoo

2 Credit Hours
Montessori Biology methods and materials for the 9-12 year old child. Course content includes plant and animal classification, internal functions of vertebrates and invertebrates, types of plants, anatomy and physiology. Lessons integrated with state and national academic content standards. Supplemental resources, assessments, and lesson plans created.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 374 - Montessori 9-12 Physical Sci

EDME 374 - Montessori 9-12 Physical Sci

2 Credit Hours
In this course, students explore and investigate the Montessori methods and materials for the 9 to 12 year old child, and instructional strategies for Chemistry, Physics, Geology, and Meteorology. Lessons integrated with state and national academic content standards. Supplemental resources, assessments, and lesson plans created.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 375 - Montessori 9-12 Language & Lit

EDME 375 - Montessori 9-12 Language & Lit

2 Credit Hours
Montessori methods, materials, and instructional strategies for teaching of the writing process, advanced Grammar studies, recent Children's literature, and poetry. Cross curricular lessons integrated with state and national academic content standards. Supplemental resources, assessments, and lesson plans created.

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDME 376 - Phonics Skills for Early Chldh

3 Credit Hours
This course examines a child's development of language from birth to 9 years of age. Students receive instructional methodology in phonics skills, emergent reading, and the creative writing process in early childhood settings. Students develop skills in planning and aligning with the State of Ohio Content Standards.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 377 - Early Childhood Math & Science

3 Credit Hours
Instructional strategies for teaching math to children from ages three to eight years of age. Students develop skills in planning and aligning with the State of Ohio Content Standards.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 470 - Mont Primary Practicum I

6 Credit Hours
Elementary candidate's first semester student teaching/internship experience. During this 15 week experience, candidates are involved in the presentation and planning of Montessori lessons across all curriculum areas. Candidates work cooperatively with a credentialed Montessori teacher, developing skills of observation and assessment, classroom management, and instructional techniques of presenting individual, small, and large group activities.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDME 471 - Mont Primary Practicum II

6 Credit Hours
The candidate will refine and enhance knowledge and experiences during the second, fifteen week student teaching/internship experience. Candidate will be involved in the presentation and planning of Montessori lessons across all curriculum areas. Candidates work cooperatively with a credentialed Montessori teacher, developing skills of observation and assessment, classroom management, and instructional techniques of presenting individual, small, and large group activities. In supporting the candidate's developing skills as
a classroom teacher, this course provides opportunities for the application of knowledge in classroom planning, management, lesson presentation, and assessment.

**EDME 499 - Montessori Erdkinder**

**EDME 499 - Montessori Erdkinder**

3 Credit Hours
This is a six day course on a working farm in North Carolina. Our stay on the farm will include riding and caring for the horses, working with other farm animals, learning about organic and sustainable farming, and learning typical crafts such as carving and knitting. During this experience participants form a strong community through seminars on stewardship and sustainability, shared work projects and activities that illustrate the cycle of life and death. This course is based on the writings of Dr. Maria Montessori and her belief that through purposeful work with the hand, the mind and spirit of the child develop.

College of Professional Sci School of Education

EDME 512 - Montessori Classrooms

3 Credit Hours
This course is designed to support the mission statement of the Department of Childhood Education & Literacy by following up on the Curriculum Development course taken the previous summer and emphasizing the development of support for school-family communication structures through the development of a handbook and school policies. Through readings and Socratic seminars, the candidates also explore the management of the open classroom designed for a diverse group of adolescents and that leads the adolescent to be responsible and respectful.

Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate

College of Professional Sci School of Education

EDME 513 - Montessori Curr Dev

6 Credit Hours
This course is designed to make future teachers better develop curriculum and coursework for a diverse population of adolescents through readings and experiences. It is expected that the candidate has an expert knowledge of the subject area in which he/she will create curriculum. Through examples of other curricula, candidates will be expected to create work for the adolescents that includes differentiation so all types of learners can be successful. Through excellent readings and the guidance of several teachers in this course, students are expected to create curriculum that inspires the adolescent, creates a curiosity about the subject matter, that connects the subject matter to the real world, and that meets state and local standards.

**EDME 516 - Montessori Ped of Place**

**EDME 516 - Montessori Ped of Place**

**3 Credit Hours**

This course will follow-up on the groundwork laid in the Erdkinder EDME 499 course. Through a variety of readings and hands-on experiences students will learn how to encourage thoughtful yet provocative Socratic discussions. Candidates in this course take part in an urban adaptation to the Erdkinder course, in this case the study of the history and ethnic neighborhoods of Cincinnati, and at the same time create, develop, and write a Pedagogy of Place course that they will implement in their own school settings. As with all courses in this program, this course emphasizes the Erdkinder values of Peace, Community, Hardwork, Respect, and Peace. The courses that students develop are required to be highly rigorous academic field studies that inspire the student by helping them invest in the local community and by allowing them access to experts and community organizers who care deeply about their neighborhoods.

*College of Professional Sci School of Education*

**EDMS 570 - Bring Your Own Device**

**EDMS 570 - Bring Your Own Device**

**3 Credit Hours**
This course will introduce teachers to a Bring Your Own Device initiative. BYOD initiatives are beginning to take place all over the country as a way to engage students with devices they already own and to save districts the cost of purchasing every child a computer. Devices that students bring to school can include laptops, tablets, eReaders, cell phones, smartphones or portable media players (like the iPod Touch). Teachers will gain experience with multiple devices, while creating an integrated unit utilizing the advantages of BYOD in their classrooms. Units will be developed over the course, while being informed by theoretical and empirical readings and group discussions. Teachers will also take a closer look at the challenges of teaching in a classroom with many different devices by implementing their unit and reflecting on and sharing classroom management strategies necessary to make a BYOD initiative effective.

*College of Professional Sci School of Education*
EDMS 572 - Cloud Computing

3 Credit Hours
One challenge in integrating technology in the classroom today is the availability of the tools. In this course, teachers will gain experience with many free, cloud-based tools that can be used on any device, anytime and from anywhere there is Internet access. K-12 students who are proficient using technology tools in powerful ways will benefit both in college and career. The tools used in the class will all be available to students even after they graduate from high school. Teachers will gain experience integrating the tools with instruction. Units will be developed over the course, while being informed by theoretical and empirical readings and group discussions. Teachers will also gain an understanding of the benefits of incorporating technology with cloud-based tools as well as the importance of teaching the powerful use of the tools by implementing their unit and in reflecting on and sharing instructional and classroom management strategies.

Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate

College of Professional Sci School of Education

EDMS 574 - Current Topics in Tech & Educ

3 Credit Hours
In this course, students will explore the impact of technology on society (business, education and the individual). Teachers will gain experience with several tools for incorporating social media in the classroom while teaching good practices in digital citizenship and considerations for a digital footprint. Units will be developed over the course, while being informed by theoretical and empirical readings and group discussions. Teachers will also gain an understanding of the benefits of incorporating social media as well as the importance of teaching positive digital citizenship by implementing their unit and reflecting on and sharing instructional and classroom management strategies.

Restrictions: Must be enrolled in one of the following Levels: Graduate

College of Professional Sci School of Education

EDMS 576 - Gamification in the Classroom

3 Credit Hours
Gamification does not imply creating a game. It means making education more fun and engaging, without undermining its credibility, (Lee and Hammer, 2011). This course will introduce students to gamification in education. Teachers will gain experience with several tools for incorporating games in the classroom (both face-to-face and online classrooms), and elements of good game design. Teachers will benefit from a gaming experience that requires learning and acting in a team. Units will be developed over the course, while being informed by theoretical and empirical readings and group discussions. Teachers will also gain an understanding of the benefits of gamification by implementing their unit and reflecting on and sharing instructional and classroom management
strategies necessary to make a game educationally relevant and powerful.

College of Professional Sci School of Education

EDMS 578 - Instruction & Technology

EDMS 578 - Instruction & Technology

3 Credit Hours
Differentiation requires the teacher to provide "different avenues to acquiring content, to processing or making sense of ideas, and to developing products so that each student can learn effectively." (Tomlinson, 2001). Technology offers many tools to make this possible in every lesson. In this course, teachers will understand differentiation and explore tools that can be used to facilitate differentiated instruction and learning. Students will develop classroom mini-lessons throughout this course that facilitate differentiated learning using multiple technology tools. Teachers will also gain an understanding of the benefits of differentiation by implementing their mini-lessons and reflecting on and sharing instructional and classroom management strategies.

College of Professional Sci School of Education

EDMS 580 - Online and Hybrid Instruction

EDMS 580 - Online and Hybrid Instruction

3 Credit Hours
This course will introduce teachers to the spectrum of online learning models. Teachers will gain experience with several models (online components for face-to-face courses, hybrid and fully online models), while creating an unit utilizing each of these models as well as the flipped classroom approach. Units will be developed over the course, while being informed by theoretical and empirical readings and group discussions. Teachers will also gain an understanding of the challenges of teaching in an online environment by implementing their unit and reflecting on and sharing instructional and classroom management strategies necessary to make an online environment effective.

EDMS 999 - Initial Advising

EDMS 999 - Initial Advising

0 Credit Hours
The rationale for the creation of this 0-semester hour course is that it allows graduate students in the secondary education teacher licensure program to register for undergraduate content courses at Xavier for which they have met prerequisite requirements, but at other colleges or universities.
EDPE 238 - Active Games & Contests

2 Credit Hours
A wide range of elementary physical education games and contests for the gymnasium, playground, field and classroom. Activities are analyzed with regard to age appropriateness and game structure.

Levels: Graduate Undergraduate

EDPE 240 - Elementary Gynastics & Rythmic

2 Credit Hours
A wide range of elementary physical education games and contests for the gymnasium, playground, field and classroom. Activities are analyzed with regard to age appropriateness and game structure.

Levels: Graduate Undergraduate

EDPE 269 - Coaching Golf

2 Credit Hours

Levels: Graduate Undergraduate

EDPE 271 - Intermediate & Adv Gymnastics

2 Credit Hours
A logical system for presenting gymnastics and tumbling skills performed on the apparatus. Physics or mechanics of physical action. A
logical basis for analyzing success or failure of the learner.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 272 - Coaching Football

EDPE 272 - Coaching Football

2 Credit Hours
A study of the theories, skills, strategies and methods related to coaching football.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 273 - Coaching Basketball

EDPE 273 - Coaching Basketball

2 Credit Hours
Develop basic basketball coaching skills for youth, junior and high school levels.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 274 - Coaching Baseball

EDPE 274 - Coaching Baseball

2 Credit Hours
Introduce students to the fundamentals of baseball and coaching. The students will be able to identify these skills and teach them to their players. In addition to the fundamentals of baseball and coaching, the students will also be introduced to strategies employed during the game and in the building of a team and a program.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 275 - Coaching Track & Field

EDPE 275 - Coaching Track & Field

2 Credit Hours
Study history of track and field and examine philosophies and trends in coaching. To develop knowledge of the various events and the
proper organization of track meets.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 277 - Coaching Volleyball

EDPE 277 - Coaching Volleyball

2 Credit Hours
Introduce students to the game of volleyball in terms of both individual knowledge and techniques of the game and coaching skills at a beginning level.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 278 - Coaching Soccer

EDPE 278 - Coaching Soccer

2 Credit Hours
An overview of the game of soccer from a coaching perspective. The course will focus on player development, practice organization, match analysis, team preparation, and soccer organizations.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 279 - Teaching Racquet Sports

EDPE 279 - Teaching Racquet Sports

2 Credit Hours
Introduce students to the fundamentals of racquet sports (tennis, badminton, squash and racquetball).

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 313 - Strength & Conditioning Prog D

EDPE 313 - Strength & Conditioning Prog D

3 Credit Hours
Organization and administration of individual and sport-specific strength and conditioning programs and weight management.
EDPE 342 - Meth in Secondary Phys Ed

3 Credit Hours
Instructional strategies and competencies in teaching secondary physical education. Efficient and effective methods through a variety of class activities.

EDPE 384 - Elem Sch Hlth/PE for Class Tea

3 Credit Hours
Background information, skills, and activities teachers need to implement comprehensive school health and physical education at various grade levels. The basic information to develop and present a variety of lessons and activities in health and physical education.

EDPE 385 - Physical Ed in the Elem School

2 Credit Hours
Background information, skills, and activities teachers need to implement comprehensive school health and physical education at various grade levels. The basic information to develop and present a variety of lessons and activities in health and physical education.

EDPE 386 - Kinesiology

2 Credit Hours
Fundamentals of human motion as it relates to physical education activities and skill performance. Fundamental principles of muscle
action, muscle control, and biomechanics pertaining to movement. Co-requisite: EDPE 387

**Co-requisites:** EDPE387

**Levels:** Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 387 - Kinesiology Lab

EDPE 387 - Kinesiology Lab

1 Credit Hours
Study of fundamentals of human motion as they relate to physical education activities and skill performance. Fundamental principles of muscle action pertaining to movement. Co-requisite: EDPE 386

**Co-requisites:** EDPE386

**Levels:** Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 388 - Biomechanics

EDPE 388 - Biomechanics

3 Credit Hours
An analysis, evaluation and application of mechanical factors influencing a wide range of motor skill movements.

**Levels:** Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 392 - Sensory Integration & Mov Ed

EDPE 392 - Sensory Integration & Mov Ed

3 Credit Hours
The physical education teacher and coach recognizing and identifying sensory, motor development, motor learning, and performance processes. Practical application of skill acquisition, use of feedback, and preparations and strategies for designing practice.

**Levels:** Graduate Undergraduate

College of Professional Sci Sport Studies
EDPE 460 - Curriculum in Physical Ed

2 Credit Hours
Development and understanding of curriculum development. Focus on the social and psychological factors in curriculum development, and on the systematic planning, developing, implementing, evaluating, and improving of curriculum.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 470 - Independent Study

EDPE 470 - Independent Study

1 - 3 Credit Hours
Investigate an area of interest within the area of sport studies. Requires advisor's approval

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 472 - Stu Teach:Phys Ed K-12 & Sem

EDPE 472 - Stu Teach:Phys Ed K-12 & Sem

9 Credit Hours
Daily laboratory experience in pre-K-12 teaching. Weekly on-campus seminar. A semester under a master teacher.

Levels: Graduate Undergraduate

College of Professional Sci Sport Studies

EDPE 542 - Methods in Secondary Phys Ed

EDPE 542 - Methods in Secondary Phys Ed

3 Credit Hours
Instructional strategies and competencies in teaching secondary physical education with efficient and effective methods through a variety of class activities.

EDRE 269 - Phonics & Foundation of Litera

EDRE 269 - Phonics & Foundation of Litera

3 Credit Hours
History of the English language, linguistics, and the use of phonetics as it relates to the reading process. Phonics and phonemic awareness as major strategies in comprehension for emergent readers. Holistic philosophy and teaching. A minimum of 15 hours of field work required. This course is cross-listed with EDRE 569.

Prerequisites: (Undergraduate level EDFD100 Minimum grade of B or Undergraduate level EDEL100 Minimum grade of B) or Undergraduate level EDFD110 Minimum grade of C

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDRE 296 - Adult and Family Literacy

EDRE 296 - Adult and Family Literacy

3 Credit Hours
The literature and key figures working in the area of literacy; the Literacy Volunteers of America certified training in Basic Reading Tutor Training. Research into the problem of illiteracy. Weekly in-service practice in a neighborhood literacy center. EDRE 296 is offered as part of the reading program and as an E/RS Focus elective course. This course cannot be used towards the Reading Endorsement K-12.

Prerequisites: Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D

Course Attributes: ERS Focus Elective

Levels: Graduate Undergraduate
EDRE 312 - Reading Methods for Early Child

3 Credit Hours
Developmental process of reading for emergent readers in early childhood. Holistic philosophy as it relates to phonics, phonemic awareness, vocabulary development, fluency, structural analysis, spelling, comprehension, and children's literature. Integration of speaking, listening, reading, and writing strategies across the curriculum. A minimum of 10 hours of field work required.

Prerequisites: (Undergraduate level EDFD100 Minimum grade of B and Undergraduate level EDFD110 Minimum grade of C and Undergraduate level EDEC210 Minimum grade of C) or (Undergraduate level EDEL100 Minimum grade of B and Undergraduate level EDFD110 Minimum grade of C and Undergraduate level EDEC210 Minimum grade of C) or (Undergraduate level EDRE269 Minimum grade of C)

Levels: Graduate Undergraduate

EDRE 314 - Reading Methods for Middle Child

3 Credit Hours
Developmental process of reading for the middle school child. Holistic philosophy as it relates to content reading material and determining the needs of children in the content classroom. Skills and strategies for higher level thinking, creative and informational writing, study skills and the use of multiple genres of children's literature. A minimum of 10 hours of field work required.

Levels: Graduate Undergraduate

EDRE 376 - Writing Theory & Process

3 Credit Hours
This course will explore current ideas and methods in teaching of writing P-12. Attention to the teacher's own writing and to understand developmental and recursive process. Study of effective writing workshops and conference techniques, strategies for improving writing in all genres, reading/writing connections and writing across the curriculum.

Levels: Graduate Undergraduate
EDRE 471 - Content Area Literacy

EDRE 471 - Content Area Literacy

3 Credit Hours
The teaching of reading across the curriculum. Skill development, diagnostic techniques, prescriptive teaching, readability formulas and strategies, and materials for early childhood through secondary teaching. A minimum of 15 hours of field work required. Prerequisite of (EDRE 269 or EDME 376) and (EDRE 312 or EDRE 314) or Professional Education minor.

Prerequisites: (Undergraduate level EDRE269 Minimum grade of C or Undergraduate level EDME376 Minimum grade of C) and (Undergraduate level EDRE312 Minimum grade of C or Undergraduate level EDRE314 Minimum grade of C)

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDRE 472 - Theories of Reading

EDRE 472 - Theories of Reading

3 Credit Hours
An historic study and comprehensive analysis of the reading process from definition to application. Cyclical changes, current research and classroom application demonstration. Field work required.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDRE 478 - Diagnosis/Correct of Read Disa

EDRE 478 - Diagnosis/Correct of Read Disa

3 Credit Hours
Formal and informal testing for reading related disabilities surveyed. Factors associated with reading problems. Miscue analysis, portfolio assessment emphasized. Assessment portfolio for classroom use developed. Minimum of 25 hours of field work required.

Prerequisites: (Undergraduate level EDRE269 Minimum grade of C or Undergraduate level EDME376 Minimum grade of C) and (Undergraduate level EDRE312 Minimum grade of C or Undergraduate level EDRE314 Minimum grade of C)

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDRE 479 - Practicum in Reading

EDRE 479 - Practicum in Reading

3 Credit Hours
Application of reading strategies and philosophical understandings of the reading process in a clinical setting. Holistic lesson planning and tutoring based upon portfolio assessment in EDRE 478.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

College of Professional Sci School of Education
EDSP 200 - Sp Ed: Identification & Issues

3 Credit Hours
This course provides an overview of national and state policies, the etiology, assessments, classification, and issues of individuals and families with exceptional needs as well as the need for special education services and adaptations to the general education classroom. This course also addresses the process of collaborating to develop and write an individualized education program (IEP) to identify the adaptations and services needed by a student with a disability. Required field experience in diverse settings - 5 field hours.

Course Attributes: Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 201 - Intro to Emotionally Dist Chld

EDSP 201 - Intro to Emotionally Dist Chld

3 Credit Hours
This course provides an overview of maladaptive behavior in school aged children and adolescents which addresses the psychological and medical factors affecting development. Other areas addressed are: social/emotional/family aspects, adaptive behaviors, social imperceptiveness, social competence, social isolation, learned helplessness, juvenile delinquency, medications, and evaluation of etiological factors. 5 field hours.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 203 - Sp Ed: Comm & Collaboration

EDSP 203 - Sp Ed: Comm & Collaboration

3 Credit Hours
Interprofessional care recognizes a culture of respect, concisely clear communication, interdependent care for client-centered outcomes, and integration of services through shared decision making. This course will provide students with an opportunity to practice across disciplines in teams to meet the needs of individuals, families and the community.

Prerequisites: Undergraduate level EDFD110 Minimum grade of B

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDSP 204 - Read Assess & Strat-Lang Proc

3 Credit Hours
This course provides the students with the knowledge and skills for diagnostic assessment of developmental language processing problems related to literacy skills of reading, writing, listening and speaking for students with and without disabilities; reading remediation strategies including technology; speech and language acquisition and learning theories (first and second language); and supervision of reading/language instruction across the curriculum K-12 in diverse cultural school settings. Review Ohio curriculum for foreign instruction and Ohio Model Competency-Based Language Arts. Required field experiences in diverse settings - 10 field hours.

Prerequisites: Undergraduate level EDRE471 Minimum grade of B

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 205 - Foundations in ECSPED

3 Credit Hours
Students in this course address the historical and philosophical foundations of services for young children; impact of sensory impairments, physical and health disabilities for individuals, families, and society. Research supported theories and issues concerning early childhood special education practices and methods; identification of at risk needs awareness, IFSP and IEP procedures and issues, developmentally appropriate practices; biological and environmental learning and developmental factors; medical/health issues, responsibilities, training, and implications for learning and prevention for educational settings. Articulation of personal philosophy of special education. CPR and First Aid Training and certification required. Required field experiences in diverse settings - 10 field hours.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 348 - Physical/Mental/Med Disabil

3 Credit Hours
This course will expose students to the different types and causes of disabilities they are likely to find in their employment; learning about many of the different therapies, both pharmacological and other forms that have been proposed and presented to treat these disabilities; gaining of the knowledge and skills to help individuals and families with disabilities sort out the helpful from the hopeless therapies and treatments.

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDSP 360 - M/M Characteristics & Strategies

3 Credit Hours
This course is designed to provide the students with a basic knowledge of mild to moderate disabilities. The course focuses on definitions and diversity in characteristics (including perceptual, cognitive, linguistic, academic, and social/emotional qualities) for individuals with mild to moderate disabilities as well as the major past and present educational and legal issues relevant to those individuals. Required field experience in diverse settings - 6 field hours.

Prerequisites: Undergraduate level EDSP200 Minimum grade of B and Undergraduate level EDFD110 Minimum grade of B

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 362 - M/M Support Services

3 Credit Hours
Students in this course address service, transitional and resources issues, strategies, techniques used to integrate students with mild/moderate disabilities into diverse educational, social and community settings. Emphasis is on service delivery needs and issues for families; career vocational, health/medical and safety issues, training and intervention/prevention services; working with and guiding paraprofessionals; and support services for at risk students which includes legal aspects and responsibilities. First Aid and CPR training and certification required. Required field experience in diverse settings - 10 field hours.

Prerequisites: Undergraduate level EDSP360 Minimum grade of B

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 363 - Sp Ed: Assessment & Evaluation

3 Credit Hours
The student taking this course will demonstrate the ability to administer non-biased formal assessments. They will be able to make the connection between assessment and instruction, use assessment information in eligibility program and placement decisions for individuals with mild/moderate learning needs, including those from culturally and/or linguistically diverse backgrounds. Students will also demonstrate the ability to select, adapt, and modify assessments to accommodate the unique abilities and needs of individuals with mild/moderate and at-risk disabilities. This is a LAB class that requires administering, scoring, and explaining test results. Students will keep a test log to document the field hours.

Prerequisites: Undergraduate level EDSP360 Minimum grade of B

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDSP 364 - DAP Instructional Materials

3 Credit Hours
University students will demonstrate the ability to select and use specialized instructional strategies for students with mild/moderate learning needs that are age and ability appropriate. This will include multiple theoretical approaches as well as instructional methods to strengthen and compensate for deficits in perception, comprehension, memory, and retrieval. Students use strategies to facilitate maintenance and generalization across environments. Students use methods to teach mathematics appropriate to students with disabilities. This is a lab class, students are expected to create developmentally appropriate educational materials after class and demonstrate their use in class.

Prerequisites: EDSP360 or EDSP392

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 365 - Curr Practices:Mild Disabilities

3 Credit Hours
This course focuses on the role or responsibilities of the intervention specialists as it relates to curriculum adaptations and modifications and research supported instructional strategies and practices related to individual mild learner needs with a variety of disabilities. Students will develop and implement instructional plans for active learner participation which incorporates application of assessment, planning, implementing, and managing procedure for individual learners with mild cognitive and mild to severe affective/social/ emotional behavioral needs across the curriculum. Required field experiences in diverse settings - 30 hours.

Prerequisites: ( EDSP363 and EDSP364 and EDSP374) or ( EDSP363 and EDSP393)

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 367 - Sp Ed: Behav & Soc Skills Mgmt

3 Credit Hours
This course is designed to provide the student with the knowledge to develop and implement instructional and behavioral plans and programs for students with emotional and behavior problems that address social skills; strategies for crises prevention and intervention; self advocacy; procedures to increase self-awareness, self-management, self control; self-reliance, and self-esteem; self-enhancing behavior in response to societal attitudes and actions. Students will be prepared to manage verbal and physical acting out behaviors. Required field experiences in diverse settings - 8 hours.

Prerequisites: Undergraduate level EDSP380 Minimum grade of B

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDSP 370 - M/I Characteristics & Strateg

3 Credit Hours
This course is designed to provide the student with a basic knowledge of moderate to severe disabilities. Topics include definitions, identification procedures, due process rights, cultural and linguistic diversity, and characteristics for individuals with intellectual disabilities, including medical aspects; individuals who display developmental as well as multiple handicaps; and other conditions. The course will also deal with the major past and present educational, social/emotional, and legal issues relevant to those individuals. These issues will be referenced to inclusive practices that focus on the similarities between students with moderate to severe disabilities and their typical peers. Required field experience in diverse settings - 6 hours.

Prerequisites: Undergraduate level EDSP200 Minimum grade of B and Undergraduate level EDFD110 Minimum grade of B

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 372 - Communication Strategies & Tec

3 Credit Hours
This course will focus on understanding and implementation of everyday functional communication methods and techniques through various theories, systems and technologies for individual students with moderate and intensive needs; classroom strategies and techniques in learning environment; selection/implementation of augmentative or alternative communication devices/systems; adaptations/assistive technology; medical care and methods with technology/family support and resources. LAB field experience is required with documentation.

Prerequisites: EDSP370

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 373 - M/I Assessment & Evaluation

3 Credit Hours
University students taking this class will demonstrate the ability to administer nonbiased formal and informal assessments. They will be able to make the connection between assessment and instruction. Students will also demonstrate the ability to select, adapt, and modify assessments to accommodate the unique abilities and needs of individuals with moderate/severe disabilities (including functional assessments, task analysis and alternate assessments). Students will demonstrate the procedures for assessing and reporting both appropriate and problematic social behaviors of individuals with disabilities. Students demonstrate the reliable methods of response of individuals who lack typical communication and performance behaviors. This is a LAB class which requires that students administer, score and explain test results. Students will keep a test log to document field hours.

Prerequisites: Undergraduate level EDSP370 Minimum grade of B

Levels: Graduate Undergraduate
EDSP 374 - Curr Prac: Moderate Disabilities

3 Credit Hours
This course focuses on curriculum theories and practices related to students with moderate disabilities in elementary through secondary education programs. Course content will focus on designing applied curriculum and multi-leveled instruction for active learner participation in inclusive educational environments which incorporate evaluating, planning, implementing, and managing procedures that are appropriate for individual needs. Required field experience in diverse settings - 30 hours.

Prerequisites: (EDSP370 and EDSP373) or (EDSP360 and EDSP364)

Levels: Graduate Undergraduate

EDSP 376 - M/I Support Services

3 Credit Hours
This course focuses on the relationship between local and state support delivery services for individuals with moderate and intensive physical, mental and medical disabilities K-12; networks, organizations, resources, strategies and techniques used to integrate students requiring moderate/intensive services into diverse educational, social, and community settings including assistive technology/devices, residential treatment, rehabilitation, career/vocational, health/medical; use strategies that promote successful transitions for individuals with exceptional learning needs; identify supports needed for integration into various program placements; structure, direct and support the activities of paraeducators, volunteers, and tutors; assist family in planning transitions; and, act ethically in advocating for appropriate service. Required field experiences in diverse settings - 10 hours. CPR and First Aid Training and Certification required.

Prerequisites: EDSP370 or EDSP391

Levels: Graduate Undergraduate

EDSP 380 - Classroom Management

3 Credit Hours
Seminar course for teacher preparation (K - 12) concerning laws, polices, and ethical principles regarding behavior management, planning and implementation; establishing and maintaining positive classroom management; effective teaching/learning conditions and adaptations necessary for a healthy learning environment; useful and practical organizational procedures; problem solving/decision making techniques and strategies; communication skills necessary for classroom management; management practices concerning diverse classroom population and individualized learning. Required field experiences in diverse settings - 10 hours.

Prerequisites: Undergraduate level EDSP200 Minimum grade of B and Undergraduate level EDFD110 Minimum grade of B

Levels: Graduate Undergraduate
EDSP 381 - Play & Its Role in Dev & Learn

3 Credit Hours
Students will focus on demands and management of the learning environment. This includes teacher attitudes and behavior. Course will also address play based skills and techniques; behavior management techniques; social skills planning and implementation; creating, supporting, facilitating interactive safe diverse learning. Required field experience in diverse settings - 8 hours.

Prerequisites: Undergraduate level EDSP205 Minimum grade of B

Levels: Undergraduate

EDSP 389 - Prog Prac:Severe/Intensive Dis

3 Credit Hours
This course focuses on specialized interventions for individuals with physical and health disabilities in educational settings; specialized materials for individuals with disabilities; prevention and intervention strategies for individuals with disabilities; technology for planning and managing the teaching and learning environment; select and plan for integration of related services into the instructional program, create or adapt appropriate learning plans; design and implement curriculum strategies for medical self-management procedures; use appropriate adaptations and assertive technology for all individuals with disabilities. Required field experiences in diverse settings - 30 hours.

Prerequisites: EDSP370 or EDSP373 or EDSP392

Levels: Graduate Undergraduate

EDSP 391 - ECSPED Learning Theories

3 Credit Hours
Students will investigate and observe learning theory models as a foundation for early childhood intervention - understand development of infants and young children along with the ability to identify specific disabilities and describe implications for development and learning; use instructional practices based on knowledge of the child, family, community, and the curriculum; and support and facilitate family and child interactions as primary contexts for learning and development. Required field experiences in diverse settings - 6 hours.

Prerequisites: Undergraduate level EDSP205 Minimum grade of B

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDSP 392 - ECSPED: Observation & Asmt

3 Credit Hours
Students will demonstrate knowledge and skills with Early Childhood/Special Education intervention assessment, evaluation, techniques and report writing. This LAB course includes how to select, adapt, and administer formal and informal performance based assessment for specific sensory/motor, cognitive, and social disabilities; data collection, summarization, information integration and team collaboration in various settings (home, public/private centers, schools, classrooms, community agencies); staff and program assessment and evaluation; consultation service practice. LAB field experience required.

Prerequisites: Undergraduate level EDSP391 Minimum grade of B

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 393 - ECSPED: Curriculum Practices

3 Credit Hours
Students in this course will demonstrate curriculum practices of selection, designing and developing ECSPED intervention classroom methods/materials; implement developmentally appropriate individual family/activities; systematic instruction; assess develop/progress; participation with interdisciplinary, interagency and intra-agency teams; design/plan/implement process and strategies for transitions; demonstrate understanding of foundations of curriculum, research-based practices. Required field experiences in diverse settings - 30 hours.

Prerequisites: EDSP391 and EDSP392

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 395 - Independent Study & Research

1 - 6 Credit Hours
Special topics examined through independent research.

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDSP 400 - M/M Student Teaching

10 Credit Hours
This clinical experience course is taken when the student has finished all of the required coursework, completed the application process. Required 16 week clinical experience. In order to take this course, students must have passed all licensure tests and have permission of the program director.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 401 - Teaching Seminar

2 Credit Hours
Students will demonstrate and articulate professional and personal philosophies of special education, including ethics and standards, objective judgments; research applications and reflective practices concerning teaching/learning. Completion of professional portfolio is required. Students must have completed all licensure tests and have the permission of the program director to enroll in this course.

Co-requisites: EDSP400

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDSP 402 - M/I Student Teaching

10 Credit Hours
This clinical experience course is taken when the student has finished all of the required coursework, and completed the application process, and passed all required tests. Required 16 week clinical experience. To enroll in this course, students must have passed all licensure tests and have the permission of the program director.

Levels: Undergraduate

College of Professional Sci School of Education

EDSP 403 - ECSPED Student Teaching

10 Credit Hours
This clinical experience course is taken when the student has finished all of the required coursework, and completed the application process, and passed all required tests. Required 16 week clinical experience. To enroll in this course, students must have passed all
licensure tests, completed all coursework, and have permission of the program director.

Levels: Undergraduate

College of Professional Sci School of Education

EDSP 448 - Service Providers: Internship

EDSP 448 - Service Providers: Internship

9 Credit Hours
Participation in two (2) separate field placements, each eight (8) weeks in duration. From pre-internship experiences, these placements will be planned, supervised and evaluated through collaboratively developed goals and objectives. Student will assume duties of the placement as a transition specialist.

Levels: Undergraduate

College of Professional Sci School of Education

EDSP 500 - Sp Ed: Identification & Issue

EDSP 500 - Sp Ed: Identification & Issue

3 Credit Hours
This course provides an overview of national and state policies, the etiology, assessments, classification, and issues of individuals and families with exceptional needs as well as the need for special education services and adaptations to the general education classroom. The course also addresses the process of collaborating to develop and write individualized education program (IEP) to identify the adaptations and services needed by a student with a disability. Required field experience in diverse settings - 5 field hours.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDSP 501 - Intro to Emotionally Dist Chil

EDSP 501 - Intro to Emotionally Dist Chil

2 - 3 Credit Hours
This course provides an overview of maladaptive behavior in school aged children and adolescents which address the psychological and medical factors affecting development. Other areas addresses are: social/emotional/family aspects; adaptive behaviors; social imperceptiveness; social competence; social isolation; learned helplessness; juvenile delinquency; medications; and evaluation of etiological factors. 5 field hours.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education
EDSP 503 - Sp Ed: Comm & Collaboration

3 Credit Hours
Interprofessional care recognizes a culture of respect, concisely clear communication, interdependent care for client-centered outcomes, and integration of services through shared decision making. This course will provide students with an opportunity to practice across disciplines in teams to meet the needs of individuals, families and the community.

Levels: Graduate
EDSP 521 - Gifted Mini Course 1

1 Credit Hours
Restrictions: Must be enrolled in one of the following Levels: Graduate

EDSP 522 - Gifted Mini Course 2

1 Credit Hours
This course will focus on theories, strategies and methods to better meet the needs of gifted students within the regular education classroom based on the characteristics of the gifted student. The course will expand the strategies presented in Mini-course #1 to differentiate instruction and also discuss the characteristics of gifted students by examining the theories of mindset and brain’s executive function. Methods of meeting the legal requirements for serving the gifted student will be discussed through examining the RTII process and service options.

Restrictions: Must be enrolled in one of the following Levels: Graduate

EDSP 523 - Gifted Mini Course 3

1 Credit Hours
This course will discuss the gifted identification of students in the areas of creative thinking and the performing arts. It will also encompass the identification and needs of students who are twice exceptional, students who for whom English is a second language and students who are underserved. The characteristics of anxiety and perfectionism in gifted students will be explored. As a conclusion to this mini-course series, the course will examine the many renowned theorists in gifted education and how their work is affecting the delivery of services in our schools today.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate
EDSP 551 - Hist, Theory & Prac Transition

3 Credit Hours
This course focuses on the historical and theoretical models of transition including related legislation in fields of special and vocational education, rehabilitation, labor and civil rights. Implications of student characteristic as it relates to post-school outcomes, services, environments and support needs.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDSP 553 - Asmt&Prog Plan Transition Ed

3 Credit Hours
This course focuses on administering, scoring, and applying formal & informal career and vocational assessment for identification, planning and program implications for post-secondary options and services.

Levels: Graduate

College of Professional Sci School of Education

EDSP 554 - Cog & Soc Skills - Transition

3 Credit Hours
This course focuses on transitional education and service types of programs to include: the methods, techniques, skills, and roles of the specialist in the transition to work areas. In addition to general course activities, the candidate will schedule and complete field experience hours observing and participating in transitional knowledge/skills, and disposition areas outlined in the course objectives. Required field experience hours: 10 hours in transitional educational setting and 10 hours in transitional service setting.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education
EDSP 555 - Com/Coll Partship Trans Ed&Ser

3 Credit Hours
This course focuses on the interpersonal knowledge and skills necessary of a transition to work specialist. Through the development of understanding and awareness of the methods and techniques needed for servicing clients in this area during course time instructions, the candidates under supervision will also practice these transitional skills during 10 hours of field experience in transitional educational setting and 10 hours of field experience in a transitional service setting.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate
College of Professional Sci School of Education

EDSP 556 - Resources in Trans. Ed & Serv

3 Credit Hours
Candidate will spend 15 hours participating in supervised field experience in a transitional educational setting and 15 hours participating in supervised field experience in a transitional service setting that is designed to address the practicing skills of a transition to work specialist. During these field experiences, the candidate will attend the scheduled seminars of the course that address the students, families, community agencies needs and coordination, future directions, leadership to promotion of programs; and, systematic processes.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate
College of Professional Sci School of Education

EDSP 557 - Transitions: Field Practicum

3 Credit Hours
The candidate will design with the guidance of the clinical field placement faculty and their program mentor a field practicum experience addressing both transitional educational settings and transitional service settings. Considering the roles and responsibilities of these settings, the candidate will design a learning field experience based on specific professional development need areas; establish goals that address those areas; and develop the activities and outcomes to those with a defined program process with reflective evaluation. Permission of the program director is required.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate
College of Professional Sci School of Education
EDSP 560 - M/M Characteristics & Strategies

3 Credit Hours
This course is designed to provide the candidates with a basic knowledge of mild to moderate disabilities. The course focuses on definitions and diversity in characteristics (including perceptual, cognitive, linguistic, academic, and social/emotional qualities) for individuals with mild to moderate disabilities as well as the major past and present educational and legal issues relevant to those individuals. Required field experience in diverse settings - 6 hours.

Prerequisites: Graduate level EDSP500 Minimum grade of B and Graduate level EDFD510 Minimum grade of B

**EDSP 582 - Gifted/Talented Chara & Strat**

**3 Credit Hours**
Students in the course will focus on the identification of gifted/talented (P-12), legal policies/procedures; rights and responsibilities of family, students, educators, professionals, and institutions associated with the education of the gifted/talented; theories of intelligence and creativity, comparisons of tools and strategies, characteristics and needs of gifted/talented; placement options, effects of cultural identity, family, economic, physical-linguistic, academic, and social/emotional development; enrichment and acceleration needs of gifted/talented. Required field experience in diverse settings - 6 hours.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci School of Education*

---

**EDSP 583 - Res Mat & Tech: Gift/Talent**

**3 Credit Hours**
Students in this course will have knowledge of and demonstrated skills with special resources materials and technologies for gifted/talented; technology assisted lessons; use technology for planning and managing the teaching and learning environment; independent/research activities; problem solving; critical thinking skills; evaluate learner products and portfolios; create and maintain records; resource materials and technology resources for gifted/talented instructional planning. Lab time required.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci School of Education*

---

**EDSP 584 - G/T Assessment & Instruction**

**3 Credit Hours**
This course will provide and overview of assessment and instructional relationships for gifted/talented. Cultural, family, social and community effects on assessment and instruction will be discussed. Terminology, state/federal/legal provisions, regulations, and guidelines of assessment, referral, placement, and instruction practices will also be discussed. This is a LAB course that requires candidates to administer, score, and explain test results.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate
EDSP 585 - G/T Program Design & Practices

3 Credit Hours
This course focuses on how to select, adapt, and use instructional strategies and materials according to characteristics of individuals with gifts and talents; effective management of teaching and learning for these students; acceleration, enrichment, and counseling within a continuum of service options; grouping practices that support differentiated learning environments; ways to create learning environments that allow individuals to retain and appreciate their own and each others' respective language and cultural heritage; demonstration of use of instructional time; integration of curriculum and instructional strategies. Required field experience in diverse settings - 30 hours.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDSP 586 - G/T Program Design & Pract II

3 Credit Hours
Students will have knowledge of and demonstrate skill with research curriculum design, development, coordination, and implementation based on various teaching program assessment needs, documentation, issues, design, development, demonstrate instructional implementations, sequencing, integration with reflection, involving the individual and family in program planning and implementation; respect and sensitivity to cultural, linguistic and gender differences; and program assessment needs, documentation, issues, design, development, coordination, and implementation. Required field experiences in diverse settings - 30 hours.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDSP 589 - Prog Prac:Severe/Intensive Dis

3 Credit Hours
This course focuses on specialized interventions for individuals with physical and health disabilities in educational settings; specialized materials for individuals with disabilities; prevention and intervention strategies for individuals with disabilities; technology for planning and managing the teaching and learning environment; select and plan for integration of related services into the instructional program; create or adapt appropriate learning plans; design and implement curriculum strategies for medical self-management procedures; use appropriate adaptations and assistive technology for all individuals with disabilities. Required field experiences in diverse settings - 30 hours.
Prerequisites: (EDSP570 and EDSP573) or EDSP592

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDSP 591 - ECSPED Learning Theories

EDSP 591 - ECSPED Learning Theories

3 Credit Hours
Students will investigate and observe learning theory models as a foundation for early childhood intervention - understand development of infants and young children along with the ability to identify specific disabilities and describe implications for development and learning; use instructional practices based on knowledge of the child, family, community, and the curriculum; and support and facilitate family and child interactions as primary contexts for learning and development. Required field experiences in diverse settings - 6 hours.

Prerequisites: Graduate level EDSP505 Minimum grade of B

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Education

EDSP 592 - ECSPED: Observation & Asmt

EDSP 592 - ECSPED: Observation & Asmt

3 Credit Hours
Students will demonstrate knowledge and skills with Early Childhood/Special Education intervention assessment, evaluation, techniques, and report writing. This LAB course includes how to select, adapt, administer formal and informal performance based assessment for specific sensory/motor, cognitive, and social disabilities; data collection, summarization, information integration, and term collaboration in various settings (home, public/private centers, schools, classrooms, community agencies); staff and program assessment and evaluation; consultation service practice. LAB field experience required.

Prerequisites: Graduate level EDSP591 Minimum grade of B

Restrictions: Must be enrolled in one of the following Levels: Graduate

EDSP 607 - GT Endorsement Practicum

3 Credit Hours
This clinical experience is taken at the successful completion of all other coursework required for endorsement. The purpose of this experience is to fully transition the information and skills learned in the previous gifted/talented course work to the skillful teaching of students who are identified as gifted and talented. Seminar sessions will be held to set goals, monitor progress and discuss issues.

Prerequisites: EDSP582 and EDSP583 and EDSP584 and EDSP585 and EDSP586

Levels: Graduate
EDSP 616 - Philosophy & Cultural Diversity

3 Credit Hours
This course explores the impact of the American political and legal systems, and social and cultural identity theory upon special education. As the expectations and requirements for educators working with students on disabilities constantly evolve, educators must understand the fundamental political and legal principles which underlie state, federal and constitutional law in order to advocate for students with disabilities. By examining social and cultural identity theory, the course will provide a framework for students to analyze which claims about educational practices are the most congruent with meeting the needs of learners. Students will also have opportunities to reflect on their own cultural identity and biases; and the culture of the schools and students they serve. The course will survey the sociological problem of the over identification of minorities in special education and suggest strategies to minimize this practice in schools. This course has an online component.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

EDSP 617 - Administrative Partnerships

3 Credit Hours
This course is designed to incorporate administrative theory and practice as it relates to the role of the school administration partnering with special education staff to implement special education mandates. Aligned with standards of the Interstate School Leaders Licensure Consortium (ISLLC) and the Council for Exceptional Children (CEC), this course details strategies to develop a collaborative partnership between special education staff and the school administration to facilitate the implementation of special education services. There is an online component to this course.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

EDSP 618 - Qual & Quant Research

2 Credit Hours
This course is designed to provide an overview of educational research with an emphasis on special education. The examples provided within current research and the assignments required are specifically designed to teach methodology using specific course material from special education pedagogy. The research process is approached from qualitative and quantitative designs. The course includes methodology and appropriate statistics. The research paper, to be completed in conjunction with the course, requires students to implement selected methods from this course and to become familiar with an area (of their interest) of the research literature in the field of special education. There is an online component to this course.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate
EDSP 619 - SPED: Research Paper

1 Credit Hours
The course is designed to provide an overview of educational research with an emphasis on special education. The research process is approached from both qualitative and quantitative design. The course includes methodology and appropriate statistics. The research paper, to be completed in conjunction with the EDSP 618, requires students to implement selected methods from this course and to become familiar with one area (of their interest) of the research literature in the field of special education.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

EDSP 622 - Differentiatd Math Strat SP/EL

3 Credit Hours
This course is designed to prepare both special educators and classroom teachers with the knowledge and skills needed to collaborate, co-teach, and remediate elementary mathematics. Benchmark Strategies and techniques will be explored to enable all students to meet the standards and improve performance on high stakes assessment. Ohio Academic Mathematics Content Standards will be examined in context with the latest NCTM publication, Curriculum Focal Points for Pre-kindergarten through Grade 8 Mathematics, which prioritizes the focus of mathematics in a more coherent, focus taken from NCTM, Principles and Standards for Teaching Mathematics. The general learning format for the course will consist primarily of hands-on, minds-on activities, demonstrations, peer teaching, class discussions, and collaboration between classroom teachers and special educators. Participants are required to be active in their own learning and to be reflective about information presented in this course, their own teaching and the learning of elementary math students.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

EDSP 648 - Physical/Mental/Med Disabil

3 Credit Hours
This course will expose students to the different types and causes of disabilities they are likely to find in their employment; learning about many of the different therapies, both pharmacological and other forms that have been proposed and presented to treat these disabilities; gaining of the knowledge and skills to help individuals and families with disabilities sort out the helpful from the hopeless therapies and treatments.

Levels: Graduate

College of Professional Sci School of Education

EDWS 284 - Alfred Hitchcock in Hollywood

EDWS 284 - Alfred Hitchcock in Hollywood

2 Credit Hours
This course is designed for undergraduates and serves as both an in-depth investigation of a major artist and an exploration of American attitudes and institutions during World War II, the Cold War, and the upheavals of the 1960s and early 70s. Students are required to do a significant amount of reading and writing.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDWS 286 - America Through the Lens

EDWS 286 - America Through the Lens

2 Credit Hours
Films and television programs will be analyzed in order to both identify the cultural and historical messages they contain. The formulas and conventions of Hollywood genres will be examined. This understanding of genre will serve as a primary analytical tool as we de-construct the films and television programs studied in class.

Levels: Graduate Undergraduate

College of Professional Sci School of Education
EDWS 288 - Un-'Happy Days": Fear in 1950'

2 Credit Hours
This course is designed for undergraduates and serves to introduce students to the study of mass media as well as a crucial decade in American history. It also explores the use and misuse of history, calling into question the tendency to serve up history in ten year units (i.e., the opening lecture is "The Fifties: 1935-1992"). Students are required to do a significant amount of reading (two books and a handful of reviews) and writing (five short reaction papers and a longer analytical paper).

Levels: Graduate Undergraduate

2 Credit Hours
Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDWS 310 - Addiction: An Epidemic

1 Credit Hours
Various forms of addiction are becoming the leading social problems of this century. An overview of addiction will be imparted as well as specific manifestations such as sex, gambling, eating disorders, and drugs. The impact of addiction on the individual, family, and society will be discussed.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDWS 319 - Music & Mvmnt for Class Teachr

1 Credit Hours
This workshop is designed to integrate music and movement into the classroom connecting to all subjects through the arts. Multicultural interdisciplinary in structure and interactive. Class members create materials to use in the classroom to extend learning. This workshop is for arts teaching, movement and physical movement for all ages and special interests. A student and performer of the Dalcroze method will present the work of Dalcroze to develop mind and body coordination.

Levels: Graduate Undergraduate
EDWS 336 - The "Sixties": 1945-1975

2 Credit Hours
Taking issue with the ideology that history comes in neat ten-year packages, this course places the period of upheaval often called "the sixties" into a larger historical framework. We will identify and analyze movements and ideologies that preceded, overlapped and followed the 1960's in order to place the events of the decade into a purposeful context. We will examine the cold war state, Vietnam, Watergate, and the cultural and the political polarization exacerbated by the 2004 Presidential election, among other historical benchmarks. The point is to define the historical precedents that provoked the events of the 1960's, and to show how the beliefs and actions of that decade continue to have a transformative effect on contemporary America. In addition to historical documents, we will make extensive use of other cultural artifacts, including literature, music, television programs and, in particular, the American films of the 1960's and 1970's.

Levels: Graduate Undergraduate

EDWS 339 - Sexism & Racism in Society

1 Credit Hours
This course will explore the causes and effects of racial and gender stereotyping, prejudice, and discrimination on the individual, institutional, and cultural level. Emphasis will be on education, the workplace, interpersonal relations, and communication.

Levels: Graduate Undergraduate

EDWS 345 - Zoos are Classrooms

1 Credit Hours
Demonstrate how zoos may be used as an educational facility. Animal behavior, ecology, evolution, conservation, adaptations, classification, and other zoo-related topics will be examined.

Levels: Graduate Undergraduate
EDWS 355 - Make & Take K-8 Wrld Mus Inst

2 Credit Hours
Hands-on workshop building and playing simple musical instruments. No musical or technical skills are required. Designed for the general kindergarten to 8th grade classroom teacher. Along with musical activities creative ways of teaching math, science, history, the visual arts, and multi-cultural awareness will be explored.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDWS 360 - Family and Society

2 Credit Hours
A study of marriage preparation, partner selection, marital adjustment, family structure and functions, and marital dissolution. Current problems facing the family will be explored with an emphasis on macro and micro intervention strategies which may be employed for problem resolution.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDWS 370 - Intervention with Abused Child

1 Credit Hours
This course is designed to acquaint the student with the different types of child abuse, family dynamics, and profiles of victims and offenders. Knowledge of various intervention strategies will be imparted.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDWS 372 - Chaos-Free Classroom Mgmt

2 Credit Hours
This workshop will be offered in a literature based constructivist classroom. Participants will experience how to develop a classroom environment that supports constructivist teaching, establish teaching routines for self-management learning, and create a community of learners without chaos.

Levels: Graduate Undergraduate
**EDWS 386 - Geography Across Curriculum**

2 Credit Hours  
Integrate geography by using a whole language approach through reading, creative writing, research, grammar, and other areas such as art, music, and the sciences. The goal is to teach an appreciation of world cultures.  

Levels: Graduate Undergraduate

---

**EDWS 390 - Plants in the Classroom**

2 Credit Hours  
Lectures, lab activities and field trips to demonstrate how plant material may be used in the classroom.  

Levels: Graduate Undergraduate

---

**EDWS 408 - Women & Societal Violence**

1 Credit Hours  
A historical perspective on violence against women. Modern day forms of violence against women and intervention will be studied. Prosecution of cases will be presented and treatment strategies for offenders will be explored.  

Levels: Graduate Undergraduate

---

**EDWS 414 - Motivating for Achievement**

2 Credit Hours  
Concept of motivation as it applies to achievement will be defined, analyzed and discussed in depth. Internal and external motivation, the role of self, the environment, communication, goal setting and reward systems, concept of empowerment will be explored.  

Levels: Graduate Undergraduate
EDWS 440 - Treating Sex Offenders & Victims

1 Credit Hours
workshop will explore treatment issues and approaches for working with sex offenders, victims, and other family members.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDWS 441 - Phonics Merged with Whole Language

2 Credit Hours
Course will offer a brief theoretical overview, then demonstrate a sequenced language program for children between the ages of 4 and 8. Emphasis will be on developing a systematic phonics program that incorporates the principles of whole language. Students will demonstrate their understanding of the integration by creating language materials that can be used by children in different stages of skill acquisition. The workshop will engage students in activities that demonstrate the integrated curriculum in all areas of language acquisition: reading, writing, spelling, listening, and talking.

Levels: Graduate Undergraduate

College of Professional Sci School of Education

EDWS 501 - Adapt Teach Tech to Learn Style

0 - 2 Credit Hours
Topics will include: learning style elements, construction of content area materials, analyzing participants teaching styles as well as learning styles, multi-sensory memorization, interpretation of student profiles, applications to homework, teaching global students, characteristics of the gifted, approaches for tactile, kinesthetic children, juggling varied learning styles, time management, understanding of nine-view of learning style research, sharing successful programs and implications for critical thinking.

2 Credit Hours
Course will offer a brief theoretical overview, then demonstrate a sequenced language program for children between the ages of 4 and 8. Emphasis will be on developing a systematic phonics program that incorporates the principles of whole language. Students will demonstrate their understanding of the integration by creating language materials that can be used by children in different stages of skill acquisition. The workshop will engage students in activities that demonstrate the integrated curriculum in all areas of language acquisition: reading, writing, spelling, listening, and talking.

Levels: Graduate

College of Professional Sci School of Education

EDWS 650 - Holocaust Studies For Educator

2 Credit Hours
Designed for educators who already possess an undergraduate degree, Holocaust Studies for Educators will teach participants to personalize and humanize the Holocaust, making it relevant for all students in their classrooms. At the workshop, participants will learn about the Holocaust by exposure to the stories of individuals with real names, faces and experience. They will hear first-hand testimony from survivors, refugees and liberators whose homes are in the Cincinnati and Ohio area. Personalizing the Holocaust's survivors, victims, liberators and rescuers is an effective way for teachers to engage and challenge the youth of today.

ENGL 146 - Classical Comedy & Satire

3 Credit Hours
A study of ancient classical writings, comedies which were presented on the stage, and satirical poems.

Prerequisites: Undergraduate level ENGL101 Minimum grade of D or Undergraduate level ENGL115 Minimum grade of D

Restrictions: May not be enrolled in one of the following Majors: English

Course Attributes: Humanities Elective

Levels: Undergraduate

College of Arts & Sciences English

ENGL 205 - Literature & Moral Imagination

3 Credit Hours
Personal and social ethical issues in literature. Honors section required of English majors.

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 221 - Poetry

3 Credit Hours
An intensive critical and historical study of British and American poetry.

Prerequisites: Undergraduate level ENGL101 Minimum grade of D or Undergraduate level ENGL115 Minimum grade of D or Graduate level EDMS999

Course Attributes: Humanities Elective, Oral Communication Flag

Levels: Graduate Undergraduate

College of Arts & Sciences English
ENGL 301 - Expos/Research Writing

3 Credit Hours
This course is designed to aid majors and non-majors in the composition of non-fiction essays, reports and research papers.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 302 - Modern Literary Theory

3 Credit Hours
Study of contemporary literary theory and its application to selected texts.

Prerequisites: Undergraduate level ENGL101 Minimum grade of D or Undergraduate level ENGL115 Minimum grade of D or EDMS999

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 303 - History of Literary Criticism

3 Credit Hours
From Aristotle through the modern period.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 304 - Teaching & Research in Writing

3 Credit Hours
Current theories on the teaching of writing in secondary school. Instruction and practice in expository writing.
ENGL 305 - Professional Writing

3 Credit Hours
This course teaches students the rhetorical principals and writing practices necessary for shaping their professional writing ethnically, for multiple audiences, and a variety of professional situations. It begins with a short introduction to rhetorical theory, examining how the concepts of writer, audience, purpose, and language interact in public and professional rhetorical situations.

Prerequisites: ENGL101 or ENGL115

ENGL 307 - Writing Internship

3 Credit Hours
This course is designed to facilitate independent study between students and faculty. It may also be used to accredit work performed outside the classroom -- usually in a business setting -- by students.

ENGL 308 - Creative Writing

3 Credit Hours
Introduction to creative writing, including practice in poetry, drama, and fiction.
ENGL 309 - Creative Writing: Poetry

0 - 3 Credit Hours
Instruction and intensive practice in writing poetry.

Course Attributes: Creative Perspectives, Humanities Elective, Writing Flag Core

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 310 - Creative Writing: Fiction

3 Credit Hours
Instruction and intensive practice in writing fiction.

Course Attributes: Creative Perspectives, Humanities Elective, Writing Flag Core

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 311 - Popular Writing

3 Credit Hours
Critical study of popular culture forms and instruction in writing them. Our analysis of narrative-based genres such as memoir, travel writing and nature writing will include examination of the various labels that have been applied to such work in recent years ("creative nonfiction," "literary nonfiction," and "literary journalism"). We will also examine popular journalistic forms such as social commentary, reviews, reflection and feature writing. ENGL 311 is a writing-intensive course; students wishing to enroll should be comfortable with sharing their work with others. Given the focus of the course, students will be encouraged to revise their work for publication. To that end, we will spend a class or two examining the market for popular writing and the process of submitting work to publishers.

Prerequisites: Undergraduate level ENGL101 Minimum grade of D or Undergraduate level ENGL115 Minimum grade of D

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English
ENGL 312 - Technical Writing

3 Credit Hours
An introduction to the various modes of technical writing, including manuals, reports and critical analyses.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 314 - Writing Journals & Autobiography

3 Credit Hours
Critical study of these forms and instruction in writing them.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 315 - Composition Tutoring

3 Credit Hours
Training in the theory and practice of composition tutoring.

Course Attributes: Diversity Curriculum Require, Humanities Elective, Writing Flag Core

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 318 - Creative Nonfiction

3 Credit Hours
Instruction and intensive practice in writing essays, articles and other nonfiction genres.

Prerequisites: Undergraduate level ENGL101 Minimum grade of D or Undergraduate level ENGL115 Minimum grade of D
ENGL 320 - Topics in Linguistics

3 Credit Hours
The socio-synchronic study of language theory and practice. Language systems (words, sentence patterns, sounds and their meaning) and language diversity (class, race, gender, ethnicity, region, and institution).

Course Attributes: Gender & Diversity Studies, Humanities Elective
Levels: Graduate Undergraduate

ENGL 321 - Hist of the English Language

3 Credit Hours

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

ENGL 322 - Ethnolinguistics

3 Credit Hours
A socio-anthropological study of language, culture, and communication. Conversational and discourse analysis. No linguistics background necessary.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate
ENGL 323 - Media and Its Discourses

3 Credit Hours
This course is about media and its use of language to convey messages about politics, social organization and personal identity.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

ENGL 328 - Gender, Religion and Violence

3 Credit Hours
This team-taught Humanities elective course looks at violence against women, girl children, and the LGBTQ communities from the perspectives of theology (Professor Enriquez) and language studies (Professor Winkelmann). Our topics include domestic violence, sexual assault, sex trafficking, and sexual violence as a strategy and consequence of war. The theoretical approach of the course is intersectional (that is, with a view toward how gendered violence is altered by race/ethnicities, religion, age, socio-economic factors, sexual orientation, etc.) and our pedagogical approach is experiential (that is, designed to offer engagement and reflection opportunities). The course focuses on the personal and structural changes necessary to adequately address its issues and to explore the internal and external resources necessary to stand in solidarity with the survivors of violence. The aim is to use theological, linguistic/literary, and community knowledge to effect student transformation.

Course Attributes: Gender & Diversity Studies, Humanities Elective

Levels: Graduate Undergraduate

ENGL 330 - Women of the World

3 Credit Hours
Women of the World is an upper-level world literature course in which students explore writing by or about women, set in Africa, Asia, South America, and elsewhere. Works on the syllabus will include poetry, novels, and adolescent (or YA) novels form a variety of historical periods. The goal of the course in to introduce students (especially future teachers) to authors and texts that are especially teachable at the high school and middle school level. Issues considered will include images of women, women's political rights, gender roles, family structure, religion/spirituality, economic rights, as well as literary techniques.

Prerequisites: ENGL101 or ENGL115 or EDMS999

Course Attributes: Humanities Elective, Literature Old/Trans Core

Levels: Graduate Undergraduate

College of Arts & Sciences English
ENGL 331 - World Literature

3 Credit Hours
This course will examine a number of novels by authors from Turkey, Japan, United States, and other countries. Students will begin to develop a global perspective on literature form this course.

Course Attributes: Humanities Elective
Levels: Undergraduate

ENGL 340 - World Drama

3 Credit Hours
This course will direct students through a broad survey of international plays. We will focus our studies on plays on non-American (including non-Western) origin. Course requirements will include an oral presentation and a research paper. Readings will be drawn from some of the following playwrights: Sophocles and Euripides (Greek), Shakespeare and Churchill (English), Ibsen (Norwegian), Brecht (German), Beckett and Friel (Irish), Soyinka (Nigerian), Fugard (South African), Makoto (Japanese), Gambaro (Argentinean), Wertenbaker (Australian), Cesaire (West Indian).

Course Attributes: Humanities Elective, Theatre Minor
Levels: Graduate Undergraduate

ENGL 342 - Literature & Poverty

3 Credit Hours
This course explores literature written about, and by, those who find themselves at the margins of a culture. This course is wide in breadth and depth, covering writers from Gwendolyn Brooks and Euripides to John Steinbeck and writers living in the Over-the-Rhine section of Cincinnati, Ohio.

Prerequisites: Undergraduate level ENGL101 Minimum grade of D or Undergraduate level ENGL115 Minimum grade of D
Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences English
ENGL 344 - Major Black Writers of World

3 Credit Hours
Study of black authors from around the world with emphasis on African, Caribbean, and British Commonwealth writers.

Course Attributes: Africana Studies Minor, GDST Race and Ethnicity Conc, Gender & Diversity Studies, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 350 - Modern Jewish Fiction

0 - 2 Credit Hours
The narrative tradition of European and American Jewish writers from the late nineteenth century to the present.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 351 - Jewish American Literature

3 Credit Hours
This course examines Jewish American literature from the late 19th century to the present, with particular emphasis on prose fiction and poetry. Themes include immigration, assimilation, anti-Semitism, the effect of the Holocaust, gender relations, Jewish religious belief and spirituality, Jewish textual traditions and American/Israeli relations. Frequently studies authors include Reznikoff, Bellow, Roth, Malamud, Oizck, Rothenberg and Grossman.

Prerequisites: Undergraduate level ENGL101 Minimum grade of D or Undergraduate level ENGL115 Minimum grade of D or EDMS999

Course Attributes: Humanities Elective, Jewish Studies Minor

Levels: Undergraduate

College of Arts & Sciences English
ENGL 352 - African Literature

3 Credit Hours
A survey of literature produced by Africans focusing on historical, thematic, and generic connections, while also paying attention to factors which influence African authors as individuals and as part of literary movements.

Prerequisites: ENGL101 or ENGL115 or EDMS999

Course Attributes: GDST Race and Ethnicity Conc, Gender & Diversity Studies, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 358 - Black America Since 1865

3 Credit Hours
Examination of historical and literary texts by black Americans from 1865 through the mid-1960s.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 359 - Gender & Diversity in Film

3 Credit Hours
Critical study of Hollywood and independent film representations of women, people of color, and gays, lesbians and transgendered people with an emphasis on applying contemporary critical theories of film.

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 360 - Women Writers

3 Credit Hours
Study of literature by women and some feminist theoretical approaches to women's literature in selected genres and periods.

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies, GDST Women and Gender Conc, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 362 - Technologies of Gender

ENGL 362 - Technologies of Gender

3 Credit Hours
Examination of the ways in which women's bodies are both constructed and deconstructed in postmodern culture and the ethical, social, and political implications of these processes for the well-being of women. We will focus on technologies of gender, i.e., those sets of cultural practices that make the body gendered.

Prerequisites: Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D

Course Attributes: ERS Focus Elective, Gender& Diversity Studies, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 364 - Jane Austen: Then & Now

ENGL 364 - Jane Austen: Then & Now

3 Credit Hours
This course explores the historical context and enduring popularity of the works of Jane Austen. We will discuss Austen's six novels, five film adaptations, some contemporary criticism, and some other recent adaptations of her work.

Course Attributes: Gender & Diversity Studies, GDST Women and Gender Conc, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 366 - Feminist Theory

ENGL 366 - Feminist Theory

3 Credit Hours
This course considers some of the major tenets of and issues in contemporary feminist theories and their applications to literary texts.

Course Attributes: Gender & Diversity Studies, GDST Women and Gender Conc, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English
ENGL 368 - British Women Writers

3 Credit Hours
This course examines literature written by British women from the Renaissance to the mid-twentieth century. Course includes poetry, fiction, and drama.

Course Attributes: Humanities Elective, Literature Old/Trans Core
Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 370 - Writings by Sexual Minorities

3 Credit Hours
This course focuses on the literature produced by gay and lesbian writers.

Course Attributes: Gender & Diversity Studies, GDST Women and Gender Conc, Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 371 - War & Peace in Wrld Literature

3 Credit Hours
The representation and interpretation of war and peace in literature of the last 100 years from Europe, Asia, Africa, and Latin America. The Middle East receives special attention.

Prerequisites: (Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D) or EDMS999

Course Attributes: ERS Focus Elective, Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences English
ENGL 372 - War & Peace in Lit & Film

3 Credit Hours
This course examines the debates and arguments concerning war and pacifism in a variety of literary texts and popular films.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 374 - Marxism and Literature

3 Credit Hours
This course offers a critical reading of literary texts through the lens of various modes of Marxist critical methodology.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 375 - Literature & Arts in Ireland

3 Credit Hours
Poetry, drama, fiction, music, and art from various Irish artists. Study takes place abroad in Ireland and is supplemented by several field trips, tours, performances, and cultural events.

Prerequisites: Undergraduate level ENGL101 Minimum grade of D or Undergraduate level ENGL115 Minimum grade of D

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 376 - Lit and the Arts In Britain

3 Credit Hours
This course explores the historical contexts of a range of British literary works, each related to a place or theatrical production that
students experience during Xavier's five week summer program in London. Students will acquire basic tools for understanding how literature is written in relation to the times and places for which it is produced.

Prerequisites: Undergraduate level ENGL101 Minimum grade of D or Undergraduate level ENGL115 Minimum grade of D

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 384 - Pop Culture in America

ENGL 384 - Pop Culture in America

3 Credit Hours
This course examines the impact popular culture - especially as film and music - has had on American life and values in general.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 385 - Science Fiction

ENGL 385 - Science Fiction

College of Arts & Sciences English
ENGL 463 - Victorian Poetry and Poetics

3 Credit Hours
This course is a study of Victorian poetry and Victorian theories of Arnold, Dante and Christina Rossetti, Elizabeth Barrett Browning, William Morris, and Gerald Manley Hopkins. Attention is also given to recent scholarship and criticism of Victorian poetry.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 464 - Engl Novel: Dickens to Conrad

3 Credit Hours
A close reading of the major novels of the mid and late nineteenth century. Attention will be given to three long (700-900) page novels as well as two shorter novels. Emphasis will be on the treatment of significant themes such as gender relations, class relations, imperialism, sexuality, social and historical change, and moral conflict and ambiguity.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 465 - 18th C Novel: Behn to Austen

3 Credit Hours
Focus on development of the British novel with attention to the dynamic social and cultural conditions of eighteenth-century England, the fluidity of the term "novel" at the time, and the particular contributions of women writers (Behn, Defoe, Richardson, Fielding, Smollett, Sterne, Lennox, Burney and Austen).

Prerequisites: ENGL101 or ENGL115 or EDMS999
Course Attributes: Gender & Diversity Studies, Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences English
ENGL 466 - Transgressive Texts & Alt Pub

3 Credit Hours
This course will treat texts/books that have been forbidden, altered, and suppressed by political or ecclesiastical authorities. The question raised throughout the course will be what alternative publics does the transgressive text seek to define and create.

Course Attributes: ERS Focus Elective, Humanities Elective
Levels: Graduate Undergraduate
College of Arts & Sciences English

ENGL 470 - Modern British Literature

3 Credit Hours
Twentieth-century British poetry, fiction, and drama. Student should have some background in the analysis of poetry.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate
College of Arts & Sciences English

ENGL 472 - Modern Drama

3 Credit Hours
British, American, and European drama from Ibsen to the present.

Course Attributes: Humanities Elective, Theatre Minor
Levels: Graduate Undergraduate
College of Arts & Sciences English

ENGL 475 - Modern Irish Literature

3 Credit Hours
Poetry, drama, and fiction by a variety of Irish authors, including Yeats, Synge, Joyce, and Friel.

Prerequisites: Undergraduate level ENGL101 Minimum grade of D or Undergraduate level ENGL115 Minimum grade of D or
ENGL 479 - Literature of the America West

3 Credit Hours
Literature of the American West: Examines novels and short stories set in the American West, past and present, by authors such as Stephen Crane, Dorothy Johnson, Cormac McCarthy, Sherman Alexie, E.L. Doctorow, and Annie Proulx.

Prerequisites: ENGL101 or ENGL115 or EDMS999

ENGL 480 - Amer Renaissance: 1830-1865

3 Credit Hours
Textual and cultural study of Transcendentalism, the American romance, and other writing of this period.

ENGL 481 - American Realism: 1865-1915

3 Credit Hours
Textual and cultural study of various genres from the Civil War to the eve of Modernism.
ENGL 482 - Modern American Fiction

3 Credit Hours
Textual and cultural study of American short stories and novels from 1915 to 1945.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 483 - Modern American Poetry

3 Credit Hours
Textual and cultural study of poets such as Pound, Eliot, Williams, and Stevens.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 484 - African-American Literature

3 Credit Hours
Textual and cultural study of Afro-American writing from the 18th century to the present.

Course Attributes: Africana Studies Minor, GDST Race and Ethnicity Conc, Gender & Diversity Studies, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences English

ENGL 485 - American Gothic Literature

3 Credit Hours
Texts of terror and horror in American literature of the 19th and 20th centuries.

Course Attributes: Humanities Elective

ESLG 100 - Pronunciation

0 Credit Hours
Open to students at all levels. Students learn and practice basic articulation of the sounds of English, with additional emphasis on stress, intonation, and rhythm.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ESLG 101 - Individualized Instruction

0 Credit Hours
Independent study/tutorial; English language and business communication skills.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ESLG 105 - Speaking Fundamentals

0 Credit Hours
An introduction to essential speaking skills for non-native speakers. Recommended for beginning and low-intermediate speakers of English.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages
ESLG 110 - Beginning Reading/Writing

0 Credit Hours
Writing objectives for students include development of basic sentence structure, punctuation, and paragraph skills. Focus in reading is on comprehending main ideas; vocabulary study supports both reading and writing.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ESLG 111 - Beginning Grammar

0 Credit Hours
The form, meaning and use of basic English grammar is reviewed.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ESLG 113 - Beginning Listening/Speaking

0 Credit Hours
Covers the basics of listening for content, with emphasis on understanding main ideas. Note-taking is introduced. Speaking practice reinforces simple grammatical structures.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ESLG 115 - Conv English Through Video I

0 Credit Hours
Open to students of all levels; suggested for beginning and intermediate levels. With a story-based video series, students improve listening comprehension and learn and practice American English vocabulary, culture, and speech conventions.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages
ESLG 120 - Intermediate Reading/Writing

0 - 2 Credit Hours
Simple academic-style texts form the major reading component. Students work to improve comprehension of main ideas and supporting details. Writing is done primarily at the paragraph level, with emphasis on organization, development, and improving grammar.

Prerequisites: ESLG110

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ESLG 121 - Intermediate Grammar

0 - 2 Credit Hours
This course covers the form, meaning and use of selected grammatical structures, presented at the intermediate level.

Prerequisites: Undergraduate level ESLG111 Minimum grade of D

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ESLG 122 - Intermediate Listen/Discussion

0 - 1 Credit Hours
Listening to academic lectures for main ideas and supporting details, note-taking and test-taking strategies are covered. Informal listening and speaking includes group discussion, basic presentation skills and role-play.

Prerequisites: Undergraduate level ESLG113 Minimum grade of D

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ESLG 125 - High Intermediate Read/Writing

0 - 2 Credit Hours
Reading skills are practiced and applied to academic texts and fiction. In writing, students learn to self-edit for typical grammar and word-choice errors. Common rhetorical styles are practiced, with more emphasis on essay-length papers.

Prerequisites: Undergraduate level ESLG120 Minimum grade of D
ESLG 127 - High Intermediate Grammar

0 - 2 Credit Hours
The course covers the form, meaning and use of selected grammatical structures, presented at the high-intermediate level.

Prerequisites: Undergraduate level ESLG121 Minimum grade of D

Levels: Undergraduate

ESLG 129 - High Intermediate Listen/Discu

0 - 1 Credit Hours
Course includes listening for advanced-level content, taking notes, and recalling information. Functional speaking tasks, group work, and formal and informal presentation skills are practiced.

Prerequisites: Undergraduate level ESLG122 Minimum grade of D

Levels: Undergraduate

ESLG 130 - Advanced Reading/Writing

0 - 2 Credit Hours
College-level reading skills are practiced and applied to academic textbooks, current news periodicals and journals. (Fiction and literature are not emphasized.) Students work to expand vocabulary and refine editing skills. Longer academic writing tasks are covered, including argumentation, summarizing and paraphrasing, synthesis, and a documented "mini" research paper.

Prerequisites: Undergraduate level ESLG125 Minimum grade of D

Course Attributes: Writing Flag Core

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages
ESLG 131 - Advanced Grammar

ESLG 131 - Advanced Grammar

0 - 2 Credit Hours
This course covers the form, meaning and use of selected grammatical structures, presented at the advanced level.

Prerequisites: Undergraduate level ESLG127 Minimum grade of D

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ESLG 133 - Advanced Listening/Discussion

ESLG 133 - Advanced Listening/Discussion

0 - 1 Credit Hours
Course includes listening for advanced-level content, taking notes, and recalling information. Functional speaking tasks, group work, and formal and informal presentation skills are practiced.

Prerequisites: Undergraduate level ESLG122 Minimum grade of D

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ESLG 138 - Toefl Preparation

ESLG 138 - Toefl Preparation

0 - 1 Credit Hours
Review and practice of the language skills needed for the Test of English as a Foreign Language. Must be at high intermediate or advanced level to enroll. Prerequisite: successful completion of one semester of core courses.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ESLG 139 - Career English

ESLG 139 - Career English

0 Credit Hours
Functional business speaking and writing tasks are practiced, with emphasis on American cultural values in the workplace. Students apply concepts from class in a semester-long project requiring interviews and a presentation. Must be at the high intermediate or advanced level to enroll.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages
ESLG 140 - Oral Fluency

ESLG 140 - Oral Fluency

0 Credit Hours
A course designed to improve students' ability to speak in groups and make presentations. Cultural notions of appropriate participatory style and behavior are emphasized. Must be at high intermediate or advanced level to enroll.

Levels: Undergraduate

An overview of methods to evaluate a firm's financial statements in order to determine the firm's value and ability to meet its financial obligations.

Prerequisites: Undergraduate level ACCT200 Minimum grade of C and Undergraduate level FINC300 Minimum grade of B-

Levels: Undergraduate

FINC 365 - Investments

3 Credit Hours
Evaluation, selection and management of securities and portfolios including a study of theory using analytical approaches.

Prerequisites: Undergraduate level FINC300 Minimum grade of B-

Levels: Undergraduate

FINC 370 - Finan Markets & Institutions

3 Credit Hours
A study of the operations and management of the major financial institutions in the U.S. and the regulatory environment in which they operate.

Prerequisites: Undergraduate level FINC300 Minimum grade of B-

Levels: Undergraduate
FINC 388 - Entrepreneurial Finance

3 Credit Hours
The course examines new business ventures from the development stage through maturity and will cover the basic principles, concepts and analytical tools of financial management for small businesses. The managerial challenges for these firms are different from those of larger, public firms and often require a different approach because of their small scale, lack of liquidity and difficulty attracting and deploying capital. The course will provide a relevant financial analysis base for the entrepreneur in each of the various stages as he or she develops the idea, brings it to market, grows the venture's value and ultimately provides an exit for the venture investors. The course will identify and explain the types and sources of financing available during the various stages and introduce the relevant legal and regulatory environment the entrepreneur must consider when seeking financing.

Prerequisites: Undergraduate level FINC300 Minimum grade of C
Levels: Undergraduate

Williams College of Business Finance

FINC 390 - Firm Valuation

FINC 390 - Firm Valuation

3 Credit Hours
Equity Analysis class. Topics include: financial statement analysis, stock valuation, discounted cash flow approaches, relative valuation and equity derivatives.

Prerequisites: Undergraduate level FINC300 Minimum grade of B-
Levels: Undergraduate

3 Credit Hours
Students will have an opportunity to provide management consulting services to a local firm. The students will work regularly with key personnel from the firm to collect information regarding the company's goals and objectives, industry conditions, competitors, financial strength, etc. Students will present their recommendations to the client along with an action plan for implementation. Participation is limited. Students must have the permission of the instructor to enroll and will be selected by the instructor in consultation with other faculty members in the Department of Finance.

Prerequisites: Undergraduate level FINC401 Minimum grade of B
FINC 490 - Portfolio Management I

3 Credit Hours
This course is the first part of the portfolio management experience for the student members of the D'Artagnan Capital Fund (DCF).

Prerequisites: Undergraduate level FINC340 Minimum grade of B- or Undergraduate level FINC390 Minimum grade of B-

Levels: Undergraduate

FINC 492 - Portfolio Management II

3 Credit Hours
This course is the second part of the portfolio management experience for the student members of the D'Artagnan Capital Fund (DCF).

Prerequisites: Undergraduate level FINC490 Minimum grade of B

Levels: Undergraduate

FINC 495 - Cases & Problems in Finance

3 Credit Hours
Integrates the subjects of the core finance courses. Consists of case studies involving financial analysis, capital budgeting, capital structure, and related areas. Pre-requisite: FINC 350 or ACCT 301, FINC 401 and FINC 365 (one prereq/one coreq) Co-requisite: FINC 401 or FINC 365 (one prereq/one coreq)

Prerequisites: (FINC365 or FINC401) and (FINC350 or ACCT301)

Levels: Undergraduate

Williams College of Business Finance
FINC 497 - Readings in Finance

3 Credit Hours
Advanced reading and research in finance open only to seniors. Projects must have the approval of the department chair and dean.

Levels: Undergraduate

Williams College of Business Finance

FINC 499 - Tutorial in Finance

3 Credit Hours
Independent study in finance. Participating student works individually with an instructor to develop an understanding of advanced topics. Independent studies must be approved by the Department Chair.

Levels: Undergraduate

Williams College of Business Finance

FREN 101 - Elementary French I

3 Credit Hours
An introduction to basic language skills through emphasizing the acquisition of high-frequency vocabulary and the development of cultural awareness.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

FREN 102 - Elementary French II

3 Credit Hours
The second semester elementary course which is a continuation of FREN 101. Pre-requisite: FREN 101 unless waived

Prerequisites: Undergraduate level FREN101 Minimum grade of D or Placement - French 102 or Graduate level EDMS999

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

FREN 103 - Accelerated Elem French

3 Credit Hours
This is an accelerated beginning French course for students who score 235 or below on the Language Placement Test and have had 2+ years of previous French study. Please consult with the instructor if you have questions regarding placement. The principal goals of language study are to practice the four language skills (speaking, listening, reading and writing) in order to learn to communicate in French (talk with others, express ideas in writing, read and understand what others have written) and learn about the francophone world. This course reviews Elementary French vocabulary and grammar, and moves at an accelerated pace through material normally covered in French 102. Upon successful completion of French 103, students will enroll in Intermediate French I (201) to complete the core language requirement.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

FREN 201 - Intermediate French I

3 Credit Hours
The first semester intermediate course which is a continuation of FREN 102 with a particular emphasis on the development of more creative use of the language. Pre-requisite: FREN 102 unless waived

Prerequisites: FREN102 or Placement - French 201 or Graduate level EDMS999 or FREN103
FREN 202 - Intermediate French II

3 Credit Hours
A communicative-oriented course emphasizing reading and writing skills through the study of authentic materials dealing with francophone culture. This course includes a comprehensive grammar review. Pre-requisite: FREN 201 unless waived

Prerequisites: Undergraduate level FREN201 Minimum grade of D or Placement - French 202 or Graduate level EDMS999

Levels: Graduate Undergraduate

FREN 203 - Intro to Business French

3 Credit Hours
Development of four skills in the context of the contemporary francophone business world by means of readings, discussions and written practice. Emphasis on the terminology of commercial French. May be taken as an alternative to FREN 202.

Levels: Graduate Undergraduate

FREN 205 - French Lit & Moral Imagination

3 Credit Hours
This course is designed to contribute to the Ethics, Religion and Society focus of the core curriculum. Students will study the French philosopher Henri Bergson's analysis of what makes human's laugh and, then, see how this analysis is played out in the comedies of the classical French comic genius, Moliere. Several of his "comedies of manners" and "comedies of character" will be studies and discussions will focus on the universal aspect of the societal or personal problem or foible that is being held up to ridicule.

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies

Levels: Graduate Undergraduate
FREN 300 - Advanced French I

FREN 462 - Paris & Parisians in Lit

FREN 462 - Paris & Parisians in Lit

3 Credit Hours
This course is to introduce students to the changing manner in which Paris and its inhabitants were viewed by means of an in-depth study of their reflection in selected texts from the literary canon - one text from each the seventeenth-, eighteenth-, nineteenth- and twentieth-centuries. The readings will expose students to the genres of theatre, political and philosophical writings, and the novel. While enhancing their vocabulary, students will develop their linguistic skills of reading, writing, speaking, listening and their cultural competence. At its conclusion, students should be able to discuss with confidence the changing attitudes toward Paris and Parisians from the seventeenth through the first half of the twentieth century. As well, they will be able to highlight the evolution of the capital itself throughout this time period.

GDST 498 - Capstone

1 Credit Hours
This 1 credit hour capstone course is designed to guide the GDST student through the process of planning their senior thesis. In the Spring of their senior year, all GDST students must submit a research thesis for public defence. Students are expected to independently design and complete a research-based project on a specific diversity studies topic that synthesizes the scholarly literature in at least two of the disciplines that inform diversity studies and presents a clear, arguable thesis supported by evidence drawn from appropriate sources. In the Fall semester (GDST 498), the student designs their project, identifies two faculty readers from two different disciplines and submits a polished proposal by the end of the course to both the capstone director and their second reader. The following semester, they sign up for GDST 499 a 2 CH course designed to facilitate the writing and completion of the student's thesis. Note that all thesis readers must be GDST affiliated faculty and must be approved by the director of the program as well as the chairs of the faculty members' respective home departments. The focus of the thesis is multidisciplinary and addresses issues concerning gender and diversity studies that stem from the student's own elective concentration or interests. For example, projects may include an internship component or be limited to textual analysis depending on the primary methodologies of the disciplines with which they are working.

Restrictions: Must be enrolled in one of the following Majors: Gender & Diversity Studies Must be enrolled in one of the following Classifications: Senior
GDST 499 - Thesis Direction

2 Credit Hours
Prerequisites: GDST 498

Restrictions: Must be enrolled in one of the following Majors: Gender & Diversity Studies Must be enrolled in one of the following Classifications: Senior

Levels: Undergraduate

GERM 101 - Elementary German I

3 Credit Hours
An introduction to basic language skills through the acquisition of high-frequency vocabulary and the development of cultural awareness.

Levels: Undergraduate

GERM 102 - Elementary German II

3 Credit Hours
The second semester elementary course with added emphasis on reading and speaking in the target language. Pre-requisite: GERM 101 (or by placement test)

Prerequisites: Undergraduate level GERM101 Minimum grade of D or Placement -German 102

Levels: Undergraduate

GERM 103 - Accelerated Elem German

3 Credit Hours
This course reviews Elementary German vocabulary and grammar, and moves at an accelerated pace through material normally covered in German 102.
Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 201 - Intermediate German I

**GERM 201 - Intermediate German I**

**3 Credit Hours**
The first semester intermediate course with emphasis on the development of more creative, independent use of the target language. Pre-requisite: GERM 102 (or by placement test)

**Prerequisites:** GERM102 or GERM103 or Placement -German 201

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 202 - Intermediate German II

**GERM 202 - Intermediate German II**

**3 Credit Hours**
A communicative-oriented course emphasizing reading and writing skills through the study of authentic materials dealing with the culture of the German speaking world. Pre-requisite: GERM 201 or placement by test.

**Prerequisites:** Undergraduate level GERM201 Minimum grade of D or Placement -German 202

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 205 - Germ Lit & Moral Imagination

**GERM 205 - Germ Lit & Moral Imagination**

**3 Credit Hours**
This course examines how the portrayal of crime in canonical works of German literature not only reflects its time period, but also how these authors raise questions of morality which are still pertinent to contemporary society.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 205 - Reflections Of Crime

**GERM 205 - Reflections Of Crime**

**3 Credit Hours**
This course examines how the portrayal of crime in canonical works of German literature not only reflects its time period, but also how
these authors raise questions of morality which are still pertinent to contemporary society.

Course Attributes: ERS Focus Elective

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 300 - Advanced German I

GERM 300 - Advanced German I

3 Credit Hours
The course offers advanced grammar study through active reading and discussion of authentic, everyday German texts. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 301 - Advanced German II

GERM 301 - Advanced German II

3 Credit Hours
A communicative-oriented course with particular emphasis on the fine details of "educated German." Authentic texts from "Der Spiegel" and other news-magazines and newspapers and authentic German newscasts are examined in preparation for the international German proficiency exam administered by the Goethe Institute, the "Zertifikat Deutsch." This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 302 - German Conversation

GERM 302 - German Conversation

3 Credit Hours
A course designed for the development of speaking and listening skills through active participation by students. Discussions and activities are based on contemporary issues. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages
GERM 303 - German Composition

3 Credit Hours
The goal of this course is the development of both formal and informal writing skills within a cultural or literary framework. Types of writing include among others journal entries, letters, summaries and analyses of texts and audio materia. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 315 - Business German

3 Credit Hours
German business etiquette and business practice as well as the language of German business are practiced through discussions of texts from German business magazines and authentic business letters as well as recreations of real life business situations. This course is a preparation for the international German Business Exam. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 316 - Advanced Business German

3 Credit Hours
Advanced Business German is a continuation of GERM 315: Business German. The emphasis is on intercultural conduct in business situations, the vocabulary of German business and economics, advanced grammar review, and ultimately the preparation for the international Business German examination "Prufung Wirtschaftsdeutsch" (PWD) which is usually administered in April of each year. The course offers an in-depth exposure to the spoken and written language of the German-speaking business world: formalities and conventions of business correspondence, 'Lebenslauf,' business in the media, conference terms and codes of behavior, abbreviation usage in the corporate world, documents relating to forms of enterprises and their financing, taxes, reports on the economics of German-speaking countries, and simulations of business situations. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D and Undergraduate level GERM315 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages
GERM 320 - Stylistics & Advanced Reading

3 Credit Hours
To sharpen both the grammar and the written/oral communication skills of the participants through reading and discussing diverse German texts from Spiegel, FAZ, Profil is the goal. Particular emphasis will be placed on written analysis. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 330 - Methods Curr Assess In Foreign

3 Credit Hours
This course provides an introduction to curriculum content, teaching methodologies and assessment techniques as they pertain to candidates preparing for initial licensure in the teaching of foreign languages. Field experiences will also be incorporated into the course curriculum. Individual interview with instructor is required prior to registering for course.

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 340 - German History & Civilization

3 Credit Hours
This overview of the history and culture of the German speaking world offers an introduction into the socio-political, economic and philosophical issues from 800A.D. to the present. This content based advanced German course is intended to sharpen the oral and written communication skills of the students as well as deepen their knowledge of Central European history and thought. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 350 - German Culture I

3 Credit Hours
The historical, cultural, socio-economic, political and philosophical background of the German speaking world are explored to help understand events leading up to 1933. German contributions to world culture in literature, art, music, science, and other fields are
analyzed. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

**Prerequisites:** Undergraduate level GERM202 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**GERM 351 - German Culture II**

**GERM 351 - German Culture II**

3 Credit Hours
The tremendous changes that the German speaking countries underwent since 1933 are examined through among others the medium of contemporary political rhetoric (and propaganda), documentaries, editorials, cartoons, cabaret songs. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

**Prerequisites:** Undergraduate level GERM202 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**GERM 410 - The German Fairy Tale**

**GERM 410 - The German Fairy Tale**

3 Credit Hours
An in-depth study of the concerns and impact of Grimm’s Fairy Tales on the contemporary and the present-day reader that also presents modernized versions as well as a comparison to the American versions of the Grimm Tales. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

**Prerequisites:** Undergraduate level GERM202 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**GERM 420 - Intro to German Literature I**

**GERM 420 - Intro to German Literature I**

3 Credit Hours
A chronological survey of Germanic literature from its Medieval beginnings (Hildebrandslied) to the highlights of the Romantic period (Taugenichts). Presentation based on genres and movements. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

**Prerequisites:** Undergraduate level GERM202 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*
GERM 421 - Intro to German Literature II

3 Credit Hours
A chronological study of Germanic literature from the highlights of the Classical period (Goethe, Schiller) to the present. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

GERM 430 - The German Short Story

3 Credit Hours
Social, political, cultural, and economic issues of contemporary Germany are discussed as presented in the postwar short stories of among others Borchert, Boll, Kaschnitz, Langasser, Siegfried Lenz, Bichsel, etc. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

GERM 435 - The Classical Period

3 Credit Hours
An introduction to the "greats" of German literature (Goethe, Schiller, Kleist) and their contemporaries in other Germanic countries with particular emphasis on the socio-political issues reflected in their works. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

GERM 440 - Contemporary German Literature

3 Credit Hours
Various forms of literature from poetry to the radio and television play are used to explore commonalities/differences in the works of Grass, Boll, Johnson, Eich, Walser, Bernhard, Hildesheimer, Seghers, Frisch, etc. This course is taught entirely in German. Pre-
GERM 441 - German Women Writers

3 Credit Hours
A chronological study of representative Germanic women writers from the Middle Ages to the present with special emphasis on the literature of the former GDR women writers vs. those of the former FRG ("The Third Way"). This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 442 - Maennerliteratur-Frauenliterat

3 Credit Hours
The literature of men and women writers is traced through the ages and literary styles and modes are compared. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 444 - Germ Speaking World 1945-1995

3 Credit Hours
The breathtaking events of the years after WWII are explored through historical texts, newspaper and magazine articles as well as contemporary prose, drama, poetry, and radio play. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages
GERM 454 - East German Writers

3 Credit Hours
Novels, stories, poems and songs of "East German Writers" reflecting the "East German" reality are used to examine the clash of "socialist realism" with communist reality and censorship. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 460 - German Literature in Film

3 Credit Hours
Introduces a series of contemporary German films, all of which are based on German literary masterpieces, and seeks to compare and contrast the literary works and their film adaptations. Taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 465 - Culture as Reflected in Drama

3 Credit Hours
On the basis of discussing German dramas, the periods they reflect are discussed. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Course Attributes: Theatre Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 468 - Cultural Reflections in Lit

3 Credit Hours
Poems, novellas, novels, and short stories are examined as genres and how they deal with the socio-political issues of their time. This
course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

**Prerequisites:** Undergraduate level GERM202 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**GERM 470 - The Romantic Period**

**GERM 470 - The Romantic Period**

**3 Credit Hours**
An in-depth study of the cultural, historical, political, and economic background of this period, which was romantic in name only, is provided as a basis for understanding the literature of the only literary period to originate on German soil. This course is taught entirely in German. Pre-requisite: GERM 202 or by placement test.

**Prerequisites:** Undergraduate level GERM202 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**GERM 494 - Selected Reading**

**GERM 494 - Selected Reading**

**3 Credit Hours**
An independent study course created specifically for the special needs of a particular student. Pre-requisite: GERM 202 or by placement test.

**Prerequisites:** Undergraduate level GERM202 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**GERM 495 - Directed Study: Language**

**GERM 495 - Directed Study: Language**

**1 - 3 Credit Hours**
Independent study. Pre-requisite: GERM 202 or by placement test.

**Prerequisites:** Undergraduate level GERM202 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*
GERM 496 - Directed Study: Culture/Civ

1 - 3 Credit Hours
Independent study. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

GERM 497 - Directed Study: Literature

1 - 3 Credit Hours
Independent study. Pre-requisite: GERM 202 or by placement test.

Prerequisites: Undergraduate level GERM202 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

HESA 101 - Intro To American Health Care

3 Credit Hours
This course is an introduction to the structure, operation and financing of the American healthcare system. It examines the major industry participants; how healthcare services are allocated and financed; the factors that influence the cost and quality of care; and opposing positions on the future of healthcare reform.

Levels: Undergraduate

College of Professional Sci Health Services Administration

HESA 110 - Medical Terminology

3 Credit Hours
This course introduces students to the language of medicine while reviewing the major organ systems of the body.
HESA 120 - Health Care Management

3 Credit Hours
This course is about learning how to manage in health care organizations. Students will learn key principles, practices and personalities of management. As an introductory course, the purpose is to expose participants to a wide range of areas and topics relevant to management, including the four major topical divisions: Plan, Organize, Lead, and Control.

Prerequisites: HESA101 and HESA110
Levels: Undergraduate

HESA 201 - Health Policy

3 Credit Hours
This course provides students with a basic framework for health policy analysis and examines major strands of the US health policy. Detailed consideration and discussion are given to the relationship of national policy to the planning, implementation, and funding of health care services, with particular emphasis on low income and minority populations. This course will cover topics such as healthcare policy environment in the U.S., government-funded healthcare through Medicaid and Medicare.

Prerequisites: HESA101 and ECON200 and HESA110
Levels: Undergraduate

HESA 210 - HC Marketing & Strategic Mgmt

3 Credit Hours
Marketing in health care has changed drastically in the last ten years. In the past, most health care professionals scorned the idea and interpreted it solely as advertising. This has changed as the health care environment continues to evolve at a fast pace and it is necessary for all health care professionals to understand the principles and applications of marketing in a new competitive environment.

Prerequisites: HESA101 and HESA110
Levels: Undergraduate
HESA 220 - HC Reimbursement Systems

HESA 220 - HC Reimbursement Systems

3 Credit Hours
In this course, the student will become familiar with common medical billing practices, the health insurance industry, legal and regulatory issues and differences in reimbursement methodologies. The student will learn principles of medical billing related to proper claim form preparation, submission and payment processing. This course is recommended for anyone who is preparing for a career in a medical billing department at a physician's office, clinic or similar positions.

Prerequisites: HESA110 or HESA101

Levels: Undergraduate

College of Professional Sci Health Services Administration

HESA 230 - Health Care Finance

HESA 230 - Health Care Finance

3 Credit Hours
Managerial aspects of financial analysis. Includes analysis of financial statements, costs, capital projects, and working capital; Medicare, Medicaid, changes and rate setting under reimbursement schedules; budgeting, return on investment methodology, forecasting, and strategic planning.

Prerequisites: ACCT200 and HESA101 and HESA110

Levels: Undergraduate

College of Professional Sci Health Services Administration

HESA 341 - Health Informatics

HESA 341 - Health Informatics

3 Credit Hours
Students will learn how informatics expands both provider and patient access to health care, with an emphasis on information and knowledge management. Current applications in informatics are presented, including bibliographic, numeric, and geographic databases.

Prerequisites: HESA101 and HESA110

Levels: Undergraduate

College of Professional Sci Health Services Administration
HESA 351 - Electronic Health Records

3 Credit Hours
This course serves as an introduction to Electronic Health Record (EHR) systems. The course covers the background, history, issues and barriers to system adoption and health information technology. Students will be exposed to various types of EHR systems and understand the strengths and weaknesses of the various EHR systems.

Prerequisites: HESA341 and HESA101 and HESA110

Levels: Undergraduate

College of Professional Sci Health Services Administration

HESA 361 - Health Data Management

3 Credit Hours
The purpose of this course is to provide students with the ability to define operational and strategic objectives for health services management information systems and to guide the design of systems to meet those objectives. Particular emphasis will be placed upon the conceptualization of variables to be included in such systems; the design of systems (including an understanding of the hardware, software and communication links); and the proper interpretation and utilization of processed information for program management purposes. Software for employee management will be addressed; and software for clinical data collection, storage and patient management, including the maintenance of confidentiality, will also be addressed. The exercises will emphasize the application of these concepts to practical examples that one may encounter in the health services industry.

Prerequisites: HESA341 and HESA101 and HESA110

Levels: Undergraduate

College of Professional Sci Health Services Administration

HESA 370 - Internship Preparation

1 Credit Hours
This course focuses on preparing students for a summer internship through conversations with internship preceptors in various areas of health care. These conversations focus on current topics in health care, such as innovations in health care and issues facing providers. Students will also be given instruction in writing cover letters, resumes and interviewing strategies.

Prerequisites: HESA101 and HESA110

Levels: Undergraduate

College of Professional Sci Health Services Administration
**HESA 371 - Internship I**

**3 Credit Hours**
The administrative internship is a 10 to 12 week, full time work experience. It provides students with an opportunity to apply their developing knowledge and skills in the health services field. The internship experience uniquely prepares students by exposing them to other professionals in the field and to the work environment in a way that cannot be duplicated in the classroom. Students gain a better appreciation for the pressures that affect decision making in today's healthcare environment and are able to identify additional skills they will need to better prepare them for a rewarding career in health services. Students must have a 2.0 GPA, cannot be on departmental probation, and have must completed at least 15 hours within their Health Services major in order to register.

**Prerequisites:** HESA370 and HESA101 and HESA110

**Restrictions:** Must be enrolled in one of the following Majors: Health Services Health Services Administration Must be enrolled in one of the following Classifications: Senior Junior

**Levels:** Undergraduate

*College of Professional Sci Health Services Administration*

**HESA 372 - Internship II**

**HESA 372 - Internship II**

**3 Credit Hours**

**HESA 380 - Qual Mgmt & Performance Imp**

**3 Credit Hours**
Understand and manage quality principles and process management systems in the context of contemporary quality systems, their history and commitment to customer focus. This course gives students a broad based understanding of quality principles, management systems, place present day quality systems and initiatives in historical context, and manage and modify quality systems to maintain customer focus.

**Prerequisites:** HESA101 and HESA110

**Restrictions:** Must be enrolled in one of the following Classifications: Senior
Levels: Undergraduate

College of Professional Sci Health Services Administration

HESA 390 - Foundation of HC Law & Ethics

HESA 390 - Foundation of HC Law & Ethics

3 Credit Hours
This interdisciplinary course will explore interconnections among ethics, law and health care by examining classic legal-medical ethics cases, legal rules and ethical principles, controversial issues such as access to health care, beginning of life issues, patients' rights, end-of-life issues, disorders of consciousness, and organ transplantation. Special attention will be given to ethical conflicts, as well as the roles of ethics consultants and ethics committees.

Prerequisites: PHIL100 and HESA101 and HESA110

Levels: Undergraduate

College of Professional Sci Health Services Administration

HESA 410 - Public Health

HESA 410 - Public Health

3 Credit Hours
This course examines the major domains of the public health especially introducing what is public health and how to potentially apply public health to dealing with health issues in the United States of America. A review will be integrated to include the biomedical basis of public health, some historical developments of public health, the role of health ethics especially in research and the future challenges to public health. The course will also present an introduction to the cross-cutting areas of public health including: communication and informatics, diversity and culture, leadership, public health biology, professionalism, program planning, and systems thinking.

Prerequisites: HESA101 and HESA110

Levels: Undergraduate

College of Professional Sci Health Services Administration

HESA 451 - Aging In Society

HESA 451 - Aging In Society

3 Credit Hours
Examines the areas of biology, sociology, and psychology of aging to provide students with a better context for understanding how health-related services are provided to this population.

Prerequisites: HESA101 and HESA110

Levels: Undergraduate

College of Professional Sci Health Services Administration
HESA 455 - Admin Of Agencies Serv Aged

3 Credit Hours
Examines and evaluates the spectrum of community services and health care delivery systems that serve an aging population, the relationships between such entities, and potential future directions for care delivery to this population.

Prerequisites: HESA101 and HESA110 and HESA451

Levels: Undergraduate

College of Professional Sci Health Services Administration

HESA 459 - Admin Of Inst Serving Aged

3 Credit Hours
Examines the role of the administrator in developing and administering policies and programs to meet the needs of chronically ill patients and an aging population.

Prerequisites: HESA101 and HESA110 and HESA451

Levels: Undergraduate

College of Professional Sci Health Services Administration

HESA 498 - Indep Study in Health Admin

1 - 4 Credit Hours
This course prepares the student to design and complete projects that will provide them with advanced skill development in an area of their choosing within health services administration (e.g. finance, process improvement, marketing). Student will apply lessons learned in courses related to their project as they work with faculty in the creation and implementation of their project.

Prerequisites: HESA101 and HESA110

Levels: Undergraduate

College of Professional Sci Health Services Administration

HESA 511 - Managerial Concpts in H.C Org

3 Credit Hours
Discusses behavioral theory and its underlying principles as applied to the development of managerial and team work skills for health services administrators.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci Health Services Administration*

**HESA 515 - Health Care Workforce Strategy**

**HESA 515 - Health Care Workforce Strategy**

2 Credit Hours
Introduces students to fundamental human resource functions: recruitment and selection, performance management, compensation and benefits, training and development, employee labor relations as they are implemented in health care organizations. The course will explore the unique strategic imperatives and challenges of workforce development in a health care organization.

**Prerequisites:** Graduate level HESA511 Minimum grade of C

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci Health Services Administration*

**HESA 519 - Strategic Mgmt & Marketing**

**HESA 519 - Strategic Mgmt & Marketing**

3 Credit Hours
Applies organizational theories to the understanding and management of the processes by which leaders and their top management teams formulate organizational mission, assess external environments and align internal resources in the implementation of organizational strategies designed to maximize strengths and opportunities and to eliminate weaknesses and threats.

**Prerequisites:** Graduate level HESA511 Minimum grade of C or Graduate level PSYC730 Minimum grade of C

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci Health Services Administration*

**HESA 521 - Quant Methods for H.C. Mgmt**

**HESA 521 - Quant Methods for H.C. Mgmt**

3 Credit Hours
Discusses the nature and application of various quantitative methods for analyzing and improving organizational systems and processes within the health care field.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate
HESA 523 - Qual Improve Tech in H.C. Mgmt

3 Credit Hours
Introduces the theoretical application of statistical quality management in health care as well as the practical application of quality improvement methods in health care settings.

Prerequisites: Graduate level HESA511 Minimum grade of C and Graduate level HESA521 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

HESA 529 - Info Systems for Health Servs

2 Credit Hours
This course introduces students to theory, technology, and practical application of information systems. Emphasis is placed on preparing managers to interact with multidisciplinary personnel to design, acquire and maintain information systems for integrated health care delivery.

Prerequisites: Graduate level HESA511 Minimum grade of C and Graduate level HESA561 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

HESA 539 - Informatics for Hlth Industr

2 Credit Hours
Prerequisites: HESA529

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate
HESA 551 - Financial Mgmnt of HC Orgs

3 Credit Hours
Examines basic concepts of the structure and use of information to support managers' decision models. Introduces activity-based techniques for costing sales of health services, delivery activities and alternative organization structures. Covers accounting techniques to support the control of operations. Focuses on the relationship of costs to revenues in competitive, integrated care delivery systems.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 555 - Capital Acquisition in HC Orgs

3 Credit Hours
Examines basic principles and techniques used in the financial management of a health care facility, with special emphasis on the capital acquisition problems within the health care industry and their relationship to external pressures on the industry's structure.

Prerequisites: Graduate level HESA551 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 559 - Project Devt & Mgmnt of HC Org

3 Credit Hours
Examines special financial management topics in the health care industry, such as leasing, refunding debt, risk analysis, outsourcing and merging. Places special focus on the management implications of revenue flows under various payment systems within integrated delivery systems and the effects of regulation.

Prerequisites: (Graduate level HESA551 Minimum grade of C and Graduate level HESA555 Minimum grade of C)

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration
HESA 561 - Clinical Proc for H.C. Adm

2 Credit Hours
Prepares students to become conversant with clinicians by introducing them to basic concepts, terminology, disease processes and clinical issues, and by exposing them to clinical experiences in the classroom and in patient care environments.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 567 - Applied Epi in H. C.

3 Credit Hours
Students are introduced to epidemiologic concepts, skills and data, the application of epidemiology to population health and health services and to the application of epidemiologic literature in health services management through an applied project using a health status analysis. Methods to determine risk factors for health problems are discussed and examined in this project.

Prerequisites: Graduate level HESA521 Minimum grade of C and Graduate level HESA561 Minimum grade of C and Graduate level HESA571 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 571 - Healthcare Services in the U.S

2 Credit Hours
Provides (1) an historical perspective on the development of health care services in the United States, (2) a description of the key factors and issues which influence the development of the current health care delivery systems and (3) a description of the current health care delivery systems.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration
HESA 575 - Health Economics

3 Credit Hours
Examines the application of economic principles to the allocation of scarce resources in health care; the use of economic theory to understand problems of organization, delivery, and financing of health services; and the choices available to society regarding these issues.

Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate

College of Professional Sci Health Services Administration

HESA 579 - Health Policy & Policy Analysis

3 Credit Hours
Provides an overview of health policy in the United States and introduces both qualitative and quantitative methods for analyzing health policy with attention given to the political and economic perspectives on health policy questions.

Prerequisites: Graduate level HESA571 Minimum grade of C and Graduate level HESA575 Minimum grade of C
Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate

College of Professional Sci Health Services Administration

HESA 581 - Health Care Legal Aspects

3 Credit Hours
Describes the legal climate within which the health care institution operates with an emphasis on the legal concepts that influence the activities of health care administrators.

Prerequisites: Graduate level HESA571 Minimum grade of C
Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate

College of Professional Sci Health Services Administration
HESA 583 - Ethical Issues in Health Care

3 Credit Hours
Introduces students to the dominant ethical theories and principles, and the current ethical issues in health care (professional, clinical, social, business, organizational). Provides students with the opportunity to begin to formulate an ethical position related to these issues.

Prerequisites: Graduate level HESA571 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 599 - Integ Sem in Hlth Svcs Admin.

HESA 599 - Integ Sem in Hlth Svcs Admin.

2 Credit Hours
Integrates the specialized disciplines and knowledge learned from previous HESA courses through the use of case analyses. Students are challenged to formulate strategies that address complex problem situations faced by managers of health services organizations. This course will utilize an industry case study to examine issues associated with the strategic change and the alignment of health services organizations within their environment. Member of the faculty and experts from the community will present views on these issues and challenge students to formulate and implement strategies and business plans to address problems faced today in the world of health care delivery.

Prerequisites: Graduate level HESA519 Minimum grade of C and Graduate level HESA523 Minimum grade of C and Graduate level HESA559 Minimum grade of C and Graduate level HESA571 Minimum grade of C and Graduate level HESA575 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 601 - Professional Development I

HESA 601 - Professional Development I

1 Credit Hours
Introduces students to executive basics, including communication skills, presentation skills, business success skills, networking skills, and healthcare administration career opportunities. Executive guest speakers present the class sessions.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration
HESA 602 - Professional Development II

1 Credit Hours
Interprofessional care recognizes a culture of respect, concisely clear communication, interdependent care for client-centered outcomes, and integration of services through shared decision making. This course will provide students with an opportunity to practice across disciplines in teams to meet the needs of individuals, families and the community.

Prerequisites: Graduate level HESA601 Minimum grade of S

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 603 - Professional Development III

1 Credit Hours
Focuses on the administrative residency and beyond, and includes contemporary topics such as facility planning, change management, sustainability, etc. Executive guest speakers present the class sessions.

Prerequisites: HESA601 and HESA602

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 634 - Adv Quality Improvemnt Methods

3 Credit Hours
Applies quality improvement practices including total quality management and quality function deployment to service organizations at an advanced level.

Prerequisites: Graduate level HESA523 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration
HESA 646 - Marketing in Managed Care Env

2 Credit Hours
Examines the use of marketing concepts, functions and policies as well as the role of marketing within the current managed health care environment. Data sources on the Internet and software/databases related to health care marketing are utilized in class experiences and in a project.

Prerequisites: Graduate level HESA571 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 651 - Aging in Our Society

3 Credit Hours
Examines the areas of biology, sociology, and psychology of aging with an emphasis on the application of research methodologies to the field of aging.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 655 - Adm Agencies Serving the Aged

3 Credit Hours
Examines and evaluates the range and relationship of community services, both existing and proposed, for chronically ill patients and an aging population.

Prerequisites: Graduate level HESA651 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration
HESA 659 - Adm of Insts Serving the Aged

3 Credit Hours
Examines the role of the administrator in developing and administering policies and programs to meet the needs of chronically ill patients and an aging population.

Prerequisites: Graduate level HESA651 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 662 - Medical Group Management

HESA 662 - Medical Group Management

2 Credit Hours
Expands and applies knowledge of teamwork, statistical analysis, financial management, organizational theory, strategic management and interpersonal skills to enhance the student's ability to engage physicians in the development, governance and management of medical groups.

Prerequisites: Graduate level HESA571 Minimum grade of C and Graduate level HESA519 Minimum grade of C and Graduate level HESA521 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 672 - Health Ins Systems & Concepts

HESA 672 - Health Ins Systems & Concepts

2 Credit Hours
Covers the fundamental knowledge and skills necessary for interacting with or operating managed care insurance organizations in the current health care environment. Projects will be completed using problems related to managed care insurance and management of health care utilization risk.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration
HESA 682 - Hospitals:Struct/Function/Mgmt

2 Credit Hours
This course describes hospital structures, functions, management, and evolutionary growth.

Prerequisites: Graduate level HESA511 Minimum grade of C and Graduate level HESA561 Minimum grade of C and Graduate level HESA571 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 686 - Corporate Ethical Issues in HC

3 Credit Hours
Develops systematic methods of analyzing the ethical implications of corporate policies, practices and strategic decisions as they relate to internal and external stakeholders as well as to society itself. Pre-requisite: HESA 583.

Prerequisites: Graduate level HESA589 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration

HESA 710 - Ind Stud in Health Admin I

1 - 3 Credit Hours
Permits the student to individually investigate current issues related to the management of healthcare organizations under the guidance of a faculty member.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Health Services Administration
HESA 711 - Ind Study in Health Admin II

1 - 3 Credit Hours
Continuation of HESA 710.

Prerequisites: Graduate level HESA710 Minimum grade of C
Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate
College of Professional Sci Health Services Administration

HESA 720 - Institutn & Community Analysis

2 Credit Hours
Provides the student with firsthand, in-depth skills in analyzing the internal operations of a health care institution, including governance, departmental structure, planning and financial management, and human resources development, as well as the external environments impacting the organization.

Prerequisites: Graduate level HESA599 Minimum grade of C and Graduate level HESA581 Minimum grade of C and Graduate level HESA583 Minimum grade of C and Graduate level HESA579 Minimum grade of C
Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate
College of Professional Sci Health Services Administration

HESA 730 - Practicum in Executive Devel I

2 Credit Hours
Provides students with the opportunity to observe executive role models and to assess and develop their own management philosophies.

Prerequisites: Graduate level HESA720 Minimum grade of C
Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate
College of Professional Sci Health Services Administration
HESA 750 - Master's Project I

3 Credit Hours
This course requires students to conduct individual integrative projects that address topics important both to the student and the preceptor through demonstration of program-defined competencies.

Prerequisites: Graduate level HESA720 Minimum grade of C
Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate
College of Professional Sci Health Services Administration

HIST 101 - American Roots 1400-1700

HIST 101 - American Roots 1400-1700

3 Credit Hours
This course examines the history of North America during the early period of colonization. We will study Native American societies on the eve of contact, the cultural encounter between peoples of the Old and New Worlds; the ecological transformation of the continent; and the creation and development of key European colonies. We will also reflect on how patterns established hundreds of years ago continue to influence life in North America today.

Course Attributes: Historical Perspectives
Levels: Undergraduate
College of Arts & Sciences History
HIST 103 - Immigration to America

3 Credit Hours
This course examines the impact of immigration and ethnicity on American culture. It covers both the immigrant experience as well as the emergence of ethnic identities, communities, and customs. The course also analyzes the politics of immigration, nativist backlash to immigration, and the ways in which ethnicity has transformed notions of class, gender, nationalism, popular culture, and race. We will study the global economics of immigration, the politics of identity, and the impact that multiculturalism has had on American ethnicity.

Course Attributes: Historical Perspectives
Levels: Undergraduate

College of Arts & Sciences History

HIST 104 - Africans in the Americas

3 Credit Hours
From the early 1500s through the 1860s, more than 12 million Africans—almost all of them enslaved—crossed the Atlantic Ocean. In the plantation societies, port cities, and mining centers of the Americas, Africans and their descendants struggled to survive under brutal conditions, negotiated new relationships with one another and with their enslavers, and reconfigured African cultural practices. This course will examine the everyday lives, cultures, and survival strategies of these African and African-descended people, with an emphasis on plantation societies in Latin America and the Caribbean.

Course Attributes: Africana Studies Minor, Historical Perspectives
Levels: Undergraduate

College of Arts & Sciences History

HIST 105 - World Civilizations I

3 Credit Hours
A survey of pre-1500 non-Western world societies, including the Pre-literate Period, Ancient Mesopotamia and Egypt, Ancient India, Early and Imperial China, Islamic Middle East, Pre-Modern Japan, and Africa below the Sahara.

Course Attributes: Historical Perspectives, History Old/Trans Core
Levels: Undergraduate

College of Arts & Sciences History
HIST 106 - World Civilizations II

3 Credit Hours
A survey of non-Western world societies since 1500, with emphasis on the modern historical development of China, Japan, the Middle East, India, and Africa below the Sahara.

Course Attributes: Historical Perspectives, History Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences History

HIST 110 - American Women Win the Vote

3 Credit Hours
This course examines the woman suffrage movement from the demand for enfranchisement in the Seneca Falls Declaration of Sentiments in 1848 to the ratification of the Nineteenth Amendment in 1920. We will study primary and secondary sources focusing on arguments for and against women's enfranchisement, suffragists' political strategies, and the relationship of the women's rights movement to other social and political movements.

Course Attributes: Historical Perspectives

Levels: Undergraduate

College of Arts & Sciences History

HIST 114 - History of Native Am Health

3 Credit Hours
This course will examine the health-related impact of European contact and colonization on Native peoples in North America since 1600. The course will blend elements of history, anthropology, and public health in studying the effects of disease, forced acculturation, and mental and physical health issues (including those linked to poverty and substance abuse), and the effects of resource extraction on Native American communities, as well as those communities' responses to those problems.

Course Attributes: Historical Perspectives

Levels: Undergraduate

College of Arts & Sciences History
HIST 123 - African History I

3 Credit Hours
A survey of African societies from human evolution and hunter-gathering societies to the mighty states of West Africa in the medieval era. Attention is paid as well to historiography and historical sources in early African history.

Course Attributes: Africana Studies Minor, Diversity Curriculum Require, Environ Science/Studies Elect, GDST Race and Ethnicity Conc, Gender & Diversity Studies, Historical Perspectives, History Old/Trans Core, Peace & Justice Studies Minor

Levels: Undergraduate

HIST 124 - African History II

3 Credit Hours
A survey of African societies from 1500 on. Examines both internal political and economic developments as well as the trans-Atlantic slave trade and the era of colonialism that result from European contact.

Prerequisites: Undergraduate level HIST123 Minimum grade of D

Course Attributes: Africana Studies Minor, Diversity Curriculum Require, GDST Race and Ethnicity Conc, Gender & Diversity Studies, Historical Perspectives, History Old/Trans Core, Peace & Justice Studies Minor

Levels: Undergraduate

HIST 125 - Latin America Cortes to Castro

3 Credit Hours
This course will examine the development of Latin American societies over more than five hundred years of history. A primary goal of the course will be to understand continuity and change in a complex range of social, economic, and cultural structures. The course will explore topics such as the impact of religion, colonialism, and movements for social change on the long-term development of Latin American societies, and the rise of cities, from the first urban settlements to the \'201Cmega-cities\'201D of the 21st century.

Course Attributes: Historical Perspectives

Levels: Undergraduate

College of Arts & Sciences History
HIST 133 - European History I

3 Credit Hours
A topical survey of Western Civilization from Greece to the Reformation emphasizing aspects of political, social and cultural history.

Course Attributes: Historical Perspectives, History Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences History

HIST 134 - European History II

3 Credit Hours
A topical survey of European history from the 16th century to the 20th century emphasizing aspects of political, social, and economic and intellectual history.

Course Attributes: Historical Perspectives, History Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences History

HIST 136 - Europe at War 1914-1945

3 Credit Hours
This course examines the history of Europe during and between the twin military conflicts that devastated the continent.

Course Attributes: Historical Perspectives

Levels: Undergraduate

College of Arts & Sciences History

HIST 140 - Britain Sherlock to Britpop

3 Credit Hours
This class will explore the social, political, and cultural history of Britain from the late 19th century to the late 20th century. In particular, we will consider the impact of the British Empire on British society, the rise and (perhaps) fall of the working class, the nature and effect of total war, the rise and (perhaps) fall of the Welfare State, and the nature and significance of youth
culture. Primary source material will largely be drawn from popular culture, including novels, music, films, plays, advertisements, and propaganda.

Course Attributes: Historical Perspectives

Levels: Undergraduate

College of Arts & Sciences History

HIST 143 - U.S. History I

HIST 143 - U.S. History I

3 Credit Hours
Study of the United States from its colonial beginnings through the Civil War, with particular emphasis on the American Revolution, the formative years of the new nation, and the coming of the Civil War.

Course Attributes: History Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences History

HIST 144 - U.S. History II

HIST 144 - U.S. History II

3 Credit Hours
Study of the United States from the aftermath of the Civil War to the present, with particular emphasis on Reconstruction, impact of industrialization and urbanization, foreign policies, and post-World War II American culture. Pre-requisite: HIST 143.

Course Attributes: History Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences History

HIST 151 - Latin American History I

HIST 151 - Latin American History I

3 Credit Hours
This course will survey major developments in Latin American history and civilization from pre-conquest times through the Independence era of the nineteenth century. Our particular emphasis will be on understanding the unique ethnic and cultural interaction that resulted from the diverse encounters among indigenous peoples, Europeans, and Africans in the Americas.

Course Attributes: Diversity Curriculum Require, GDST Race and Ethnicity Conc, Gender & Diversity Studies, Historical Perspectives, History Old/Trans Core, Latin American Studies Minor, Peace & Justice Studies Minor

Levels: Undergraduate

College of Arts & Sciences History
HIST 152 - Latin American History II

3 Credit Hours
This course will survey major developments in Latin American history from approximately 1810 to the present. Through lectures, a variety of readings, in-class discussions, and films, this course will explore the political, economic, and social processes that have shaped modern Latin America.

Prerequisites: Undergraduate level HIST151 Minimum grade of D

Course Attributes: GDST Race and Ethnicity Conc, Gender & Diversity Studies, Historical Perspectives, History Old/Trans Core, Latin American Studies Minor, Peace & Justice Studies Minor

Levels: Undergraduate

College of Arts & Sciences History

HIST 153 - Africa's Past Our Future

3 Credit Hours
This course introduces students to the rich and deep history of the African continent. Ten historical developments and sociocultural institutions (such as ancient climate change, matriliny and the informal economy) that are long-standing provide a survey of African history that can inform our understanding of Western history and institutions as well as the choices that human societies face in creating a sustainable future.

Course Attributes: Gender & Diversity Studies, Historical Perspectives

Levels: Undergraduate

College of Arts & Sciences History

HIST 161 - Asian History I

3 Credit Hours
In our modern-day, interconnected world, events in Asian countries such as Afghanistan, India, Iraq or Indonesia, for example, directly affect our lives in the US. Yet cross-cultural encounters - both friendly and hostile - have taken place for thousands of years. Moreover, modern-day interactions are deeply rooted in past experiences and events, and can only be fully understood with knowledge of this history. We will examine Asian history until 1500 CE, giving special attention to the role of religions in Asian societies, including Islam, Buddhism, and Hinduism. Forms of government, types of economies, and art and culture will also be explored.

Course Attributes: GDST Race and Ethnicity Conc, Gender & Diversity Studies, Historical Perspectives, History Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences History
HIST 162 - Asian History II

3 Credit Hours
In this course we will examine the history of Asia from 1500 CE to the present, looking at how societies developed, changed, and interacted with one another in a pre-modern context. In the current day, there is an ever greater amount and intensity of contact between peoples and cultures from different parts of the world. In our interconnected world, what happens in Afghanistan, India, Iraq or Indonesia, for example, directly affects our lives in the United States. These modern-day interactions are deeply rooted in past experiences and events, and can only be fully understood when we have knowledge of this history. In the course we will pay special attention to the impact of and responses to European colonial expansion in Asia. Pre-requisite: HIST 161.

Course Attributes: GDST Race and Ethnicity Conc, Gender & Diversity Studies, Historical Perspectives, History Old/Trans Core
Levels: Undergraduate

College of Arts & Sciences History

HIST 164 - Middle East 1800 to Today

3 Credit Hours
This course will explore themes and issues in the Middle East since 1800. Topics will include: the fall of the Ottoman Empire; national realignment after W.W. I; Colonialism and Independence; Palestinian-Israeli Conflict; Arab Spring; and the resurgence of Fundamentalism.

Course Attributes: Historical Perspectives
Levels: Undergraduate

College of Arts & Sciences History

HIST 210 - Sophomore Colloquium

3 Credit Hours
This team-taught course introduces history majors to the sources and methods of historical inquiry and thereby prepares them for upper-level electives and seminars. A cross-cultural set of issues or events will serve as the vehicle for the investigation of sources and methods and will also acquaint history majors with the uses of comparative history. The specific issues of events as well as the geographic and chronological focus will vary from year to year.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History
HIST 245 - Cincinnati History & Politics

3 Credit Hours
A political history of Cincinnati with an analysis of contemporary urban politics.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 260 - Jewish Civilization I

3 Credit Hours
This course will cover the history, literature, and thought of the Jews from the Second Temple Period (5th century B.C.E.) through the rise of Rabbinic Judaism. Considerable attention will be given to the various forms of Judaism during the Second Temple Period, the emergence of Christianity, and the transition from a Priestly to Rabbinic Religion.

Course Attributes: Humanities Elective, Jewish Studies Minor

Levels: Undergraduate

College of Arts & Sciences History

HIST 262 - Jewish Civilization II

3 Credit Hours
This course will explore Jewish history and life as it developed in the Middle ages by closely examining the religious, philosophical, mystical, and legal texts produced by Jewish communities throughout Europe, the Middle East, and North Africa.

Course Attributes: Humanities Elective, Jewish Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 263 - Jewish Civilization III

3 Credit Hours
This course will cover the history, literature and thought of the Jews from the Enlightenment to the present. Students will examine Jews
and Judaism, completing the sequence of Jewish Civilization I and II as part of the Jewish Studies minor.

**Course Attributes:** Humanities Elective, Jewish Studies Minor  
**Levels:** Graduate Undergraduate  
College of Arts & Sciences History

**HIST 276 - History of Nicaragua**

**HIST 276 - History of Nicaragua**

**3 Credit Hours**
Taught as a component of the Academic Service Learning Semester in Nicaragua, the goal of this course is to introduce students to the history of Nicaragua from the independence era to the present. Topics of study will include the nation building process of the early nineteenth century, the Walker Affair and the National War, the triumph of liberalism as a guiding force in politics and economics, the struggle to overcome persistent violence, contemporary popular culture, and the turn toward new economic, political and cultural realities in the twenty-first century. Academic Service Learning Program Only.

**Course Attributes:** Humanities Elective  
**Levels:** Graduate Undergraduate  
College of Arts & Sciences History

**HIST 280 - Alfred Hitchcock in Hollywood**

**HIST 280 - Alfred Hitchcock in Hollywood**

**0 - 2 Credit Hours**
This course is designed for undergraduates and serves as both an in-depth investigation of a major artist and an exploration of American attitudes and institutions during World War II, the Cold War, and the upheavals of the 1960s and early 70s. Students are required to do a significant amount of reading and writing.

**Course Attributes:** Humanities Elective  
**Levels:** Graduate Undergraduate  
College of Arts & Sciences History

**0 - 3 Credit Hours**
Hollywood has always taken historical themes for some of its most ambitious projects, a trend that has become even more pronounced in the past decade. What has not always been understood is that Hollywood and the development of the American movie industry has been a central element in the social and cultural history of 20th century America. Thus, this workshop has two purposes: to critically examine various film images of American history and equally important, to place Hollywood and its products in the larger context of 20th century American history.

**Course Attributes:** Humanities Elective, Theatre Minor
Levels: Graduate Undergraduate

*College of Arts & Sciences History*

**HIST 286 - America Through the Lens**

**0 - 3 Credit Hours**
Films and television programs will be analyzed in order to both identify the cultural and historical messages they contain. The formulas and conventions of Hollywood genres will be examined. This understanding of genre will serve as a primary analytical tool as we de-construct the films and television programs studied in class.

**Course Attributes:** Humanities Elective

**Levels:** Graduate Undergraduate

*College of Arts & Sciences History*

**HIST 287 - Baseball & American Culture**

**2 - 3 Credit Hours**
Commentators have long argued that baseball is a key to understanding American culture and the American character. Over the past two decades historians of the sport have unearthed an enormous amount of material that not only verifies this insight but allows us to be more precise about the connection between baseball and the development of American culture.

**Course Attributes:** Humanities Elective

**Levels:** Graduate Undergraduate

*College of Arts & Sciences History*

**HIST 288 - Un-'Happy Days': Fear in 1950**

**2 Credit Hours**
This course is designed for undergraduates and serves to introduce students to the study of mass media as well as a crucial decade in American history. It also explores the use and misuse of history, calling into question the tendency to serve up history in ten year units (i.e. the opening lecture is "The Fifties: 1935-1992"). Students are required to do a significant amount of reading (two books and a handful of reviews) and writing (five short reaction papers and a longer analytical paper).

**Course Attributes:** Humanities Elective

**Levels:** Graduate Undergraduate

*College of Arts & Sciences History*
HIST 289 - Movies & Cities

0 - 3 Credit Hours
The course is designed for undergraduates and serves as an introduction to both American urban history and the history of movies. It also acquaints students with interdisciplinary methods. Students are required to do a significant amount of reading and writing.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 300 - Writing in Public

HIST 300 - Writing in Public

3 Credit Hours
Writing in Public is a tutorial for sophomores in the philosophy, politics, and the public honors program. Designed to promote the development of public intellectuals, the tutorial emphasizes writing on public issues for a general audience. Writing in Public is taught in conjunction with POLI 324 Legislative Politics.

Co-requisites: POLI329

Restrictions: Must be enrolled in one of the following Majors: Philos, Politics & The Public

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 301 - Colonial America

HIST 301 - Colonial America

3 Credit Hours
Examines the establishment and evolution of Anglo-American colonial societies to 1754, emphasizing their social, economic, cultural, and political development.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History
HIST 303 - The New Nation 1785-1825

3 Credit Hours
The U.S. Constitution and the ideas and issues which conceived and influenced the shaping of the new nation.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 304 - The Age of Jackson

3 Credit Hours
Probes the origins of the market revolution in America and its impact upon social, cultural and political institutions.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 306 - Civil War & Reconstruction

3 Credit Hours
Examines the causes and consequences as well as the experience of civil war, focusing on 1848 to 1877.

Course Attributes: GDST Race and Ethnicity Conc, Gender & Diversity Studies, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 309 - Age of Big Business:1885-1920

3 Credit Hours
A survey of the period emphasizing political, social, and economic topics.

Course Attributes: Gender & Diversity Studies, Humanities Elective
HIST 313 - United States Since 1932

3 Credit Hours
Beginning with an analysis of the Great Depression and the federal response in the New Deal, this course traces the development of domestic and foreign policy in terms of New Deal liberalism and its challengers.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

HIST 315 - The Great Depression

3 Credit Hours
This course examines the Great Depression as a cultural event that challenged Americans core assumptions about the economy, the state, and the progress of modernity. We will examine not only origins, politics, and legacies of the Depression, but also how Americans made sense of this event through art, literature, music, film, politics, protests, and new amusements. We will examine the culture of the Depression and its place within American iconography and memory. We will ask what the Depression meant to those who experienced it and what it has meant to us since.

Course Attributes: Gender & Diversity Studies, Humanities Elective
Levels: Graduate Undergraduate

HIST 317 - Religion in American Life

3 Credit Hours
Surveys American religious life from Puritanism to Televangelism, exploring such topics as revivalism as a distinctly American mode of religious expression and the relationship between religion and society.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate
HIST 320 - U.S. Economic History

3 Credit Hours
A brief overview of the historical development of the American economy, examines in depth such topics as industrialization and its discontents, the rise and demise of slave labor, and the economic history of women.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 321 - Native American History

3 Credit Hours
This course provides an overview of Native American history from the peopling of the Americas to the present. It challenges students to consider the ways in which the history of Indian peoples is intertwined with the larger narrative of American history. Topics covered include the development of agriculture in North America, Native American cultural diversity, the encounter with European and African peoples, the ongoing struggle for sovereignty. Emphasis is placed upon the ways Native American peoples coped with the colonization of their continent and continue to perpetuate their cultural identities in the midst of a non-Native American population.

Course Attributes: Gender & Diversity Studies, Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 324 - African-Am Struggle for Equlty

3 Credit Hours
Examines African-American movements for racial equality within a chronological framework. Focusing on African-American writers and activists, it will stress relationships between racial and national identities. The course will examine continuing debates over the meaning of equality. Based on their historical understanding, students will discuss current arguments about Black identity, affirmative action, and multiculturalism.

Course Attributes: Africana Studies Minor, Diversity Curriculum Require, ERS Focus Elective, GDST Race and Ethnicity Conc, Gender & Diversity Studies, Humanities Elective, Peace & Justice Studies Minor

College of Arts & Sciences History
HIST 329 - Urban America

3 Credit Hours
Focused on the period from the Civil War to the end of the New Deal this course examines urban industrialization and its impact on American society, politics, and culture.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 333 - Hist of American Childhood

3 Credit Hours
Modern Americans generally view childhood as a natural stage in the human life cycle distinct from the work and responsibilities of adulthood. Since the pathbreaking work of Philippe Aries (Centuries of Childhood, 1962), historians have challenged this popular assumption, arguing that far from being natural or universal, childhood is socially constructed. From this perspective, individual experiences and cultural expectations have been shaped by historical context, including social and economic conditions, race, ethnicity, religion, class, and gender. Students in this class will examine critically both popular and historical definitions of childhood, adolescence, and youth through reading in primary and secondary sources, class discussion, and formal written exercises. Common readings in Harvey Graff, ed., Growing Up in America (1987), and anthology designed for classroom use will provide a chronological and thematic framework for the course. Each student will also read, discuss, and prepare brief essays on autobiographical accounts, which may include works by Benjamin Franklin, Lucy Larcom, Frederick Douglass, Richard Wright, Sandra Cisneros, or Ann Moody. Each student will also write a review of the secondary literature on a topic in the history of childhood to be chosen in consultation with the instructor.

Course Attributes: Gender & Diversity Studies, Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 335 - The "Sixties" : 1945-2008

0 - 3 Credit Hours
Taking issue with the ideology that history comes in neat ten-year packages, this course places the period of upheaval often called "the sixties" into a larger historical framework. We will identify and analyze movements and ideologies that preceded, overlapped and followed the 1960's.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History
HIST 336 - Sports & Leisure in the US

3 Credit Hours
This course examines the histories of American sport as not only a form of exercise, leisure, competition and entertainment but also as a form of monopolistic business, nationalism, and contesting identities of race, class and gender. We trace the multiple histories of sport (including colonial notions of play, bare-knuckle boxing in the early republic, the Victorian bifurcation of 'Amateur' and 'Professional', the rise of folk heroes, racial inclusion and exclusion, the nationalistic struggles of the Olympics, the industry of sport, gender equality and inequalities, and medical understandings of brain injuries dating back to the 19th century) because sport and sport culture serves as a useful mirror of American society.

Course Attributes: Diversity Curriculum Require, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 340 - History of Mexico

3 Credit Hours
Examines major themes of Mexican social, political, and cultural history from 1810 to the present. The course pays particular attention to the ways that race, class, religion, and gender have intersected over time, and the impact of these intersections on the making of modern Mexico.

Course Attributes: Humanities Elective, Latin American Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 346 - Modern Japan

3 Credit Hours
A survey of Japan since 1600, including the Tokugawa Era, the Collapse of the Shogunate, the Meiji Period, the Rise of Militarism and World War II, and the Postwar Reconstruction and Economic Resurgence.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History
HIST 347 - Modern China

3 Credit Hours
A survey of China since 1600, including the Rise of the Qing Dynasty, the Decline of the Manchus, the Chinese Revolution, the Warlord and Guomindang Periods, the Anti-Japanese War of Resistance, and the Communist Era.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 350 - Globalization

3 Credit Hours
One can hardly open a book or newspaper or turn on the television without hearing something about "globalization." We hear about the promise and the problems of economic globalization, about newly emerging global cultural forms, and we have now fully entered an era of global terrorism. Businesses attempt to strategize about it, students and workers both in the United States and abroad protest it, and scholars attempt to define it and to understand its impacts upon our laws, our economies, our identities and our values. Even a cursory review of the range of treatments leaves one convinced of the importance of the topic; at the same time it leaves one confused about the term's meaning(s), about whether we should feel hopeful or threatened by it, and about what it will mean for our individual, communal and national lives. One thing is certain: "globalization" is and will continue to define critical dimensions of our present and our future. This course will employ interdisciplinary, integrative approach to explore globalization in its economic, political, culture, enviromental and ethical dimensions.

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 351 - Zionism & Modern Israel

3 Credit Hours
This course traces the growth of the Zionist movement at the end of the 19th century, first in Russia and then in Western Europe and the U.S., and its role in the creation of modern Israel coupled with an examination of Israel's history since 1948. There are two major goals in this course: to trace the development of modern Jewish nationalism as a response to 19th century anti-Semitism and understand its relationship to the creation of Israel; and second, to examine how new interpretations of Israel's history published in the past decade challenge the myths and presuppositions underlying the creation and development of the state.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History
HIST 357 - History of Communication Tech

3 Credit Hours
This class explores a series of historical revolutions in the technology of human communication. We will focus in particular on writing, printing, and hypertext technologies, tracing the story from the invention of writing through the medieval book, the printing press and up to the internet and the World Wide Web. Students will complete a wide variety of projects, including research projects culminating in public websites.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 358 - Renaissance Europe

3 Credit Hours
This course traces the growth of the Zionist movement at the end of the 19th century, first in Russia and then in Western Europe and the U.S., and its role in the creation of modern Israel coupled with an examination of Israel's history since 1948. There are two major goals in this course: to trace the development of modern Jewish nationalism as a response to 19th century anti-Semitism and understand its relationship to the creation of Israel; and second, to examine how new interpretations of Israel's history published in the past decade challenge the myths and presuppositions underlying the creation and development of the state.

HIST 359 - Reformation Europe

3 Credit Hours
A study of the interaction between religious, social, and political reforms with an emphasis on the ideas of Luther, Zwinglie, Calvin, and the peasants.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History
HIST 360 - Europe 1648-1815

3 Credit Hours
Social, political, and intellectual developments in the period from absolutism to enlightened monarchy. Emphasis will be placed on the evolution of state institutions and bureaucracies.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 363 - Cathedrals, Crusaders & Coll

HIST 363 - Cathedrals, Crusaders & Coll

3 Credit Hours
This course examines medieval civilization in Europe for the period generally known as the High Middle Ages (1000-1300). We will organize our exploration of this period with three emblematic developments of the High Middle Ages: cathedral-building, the crusading movement, and the rise of universities. We will discuss the foundations of these developments, addressing the nature of the agricultural and commercial revolutions, high medieval religion, and medieval politics and patronage.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 365 - Tudor England

HIST 365 - Tudor England

3 Credit Hours
The course will examine how different cultures, Roman and German, dealt with marriage and sexual activity outside marriage; it will also examine how Christian moralists began to influence marriage customs and morality and how Christian morality was influenced by those customs. Changes brought about by feudalism and the urban revolution of the eleventh century will also be covered.

Course Attributes: Catholicism & Culture Minor, Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences History
**HIST 366 - Movie Knights**

3 Credit Hours
Knights in shining armor, bow-wielding vigilantes in green tights and a cart-pushing cretin admonishing his neighbors to "bring out your dead" - all these well-known images come to us from films, the primary means by which most of us encounter medieval history. The Middle Ages seem to us at once terribly romantic (think of chivalrous knights) and horribly uncivilized (think of "medieval" table manners). This class will explore modern popular imaginings of the Middle Ages through film. We will view several feature-length films and numerous clips, interspersed with readings from and about the Middle Ages. Our aim will be to develop a more critical perspective on historical films and other historical genres, allowing us to evaluate historical films critically without sacrificing our enjoyment of them. Films will range from Monte Python's "Holy Grail" to "The Seventh Seal" and "The Kingdom of Heaven." Themes will include Robin Hood, the Crusades, the Black Death and Joan of Arc. Some reading will need to be completed before the course begins.

**Course Attributes:** Humanities Elective  
**Levels:** Graduate Undergraduate  
**College of Arts & Sciences History**

**HIST 367 - Stuart England**

3 Credit Hours
A survey of the political, intellectual, social and economic history of England from 1608 - 1688.

College of Arts & Sciences History

HIST 373 - England Since 1914

3 Credit Hours
Survey of English history and England's role in world affairs with major emphasis on 1914-1945.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 375 - Modern Ireland

3 Credit Hours
Survey of Irish history with major emphasis on the period after 1840; includes the history of Northern Ireland.

Course Attributes: Humanities Elective
HIST 377 - Modern France

3 Credit Hours
Survey of French history and culture since 1789.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 380 - Post-1945 Europe

3 Credit Hours
This class will explore the recovery of Europe after the devastation of World War II. Topics will include: collective memory of the war, the Cold War, and European unity.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 386 - Russia 1801-1917

3 Credit Hours
A general survey of the late imperial period from the reign of Alexander I to the 1917 Revolution.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History
HIST 387 - Lenin to Putin 20th Cent Russian History

3 Credit Hours
This course covers the history of the Soviet Union from the Russian revolution of 1917 to the end of the Khrushchev era. Rather than developing a straight chronology of events, during the semester we will explore various approaches to the "big" problems of Soviet history, contrasting the views of various historians and incorporating a variety of primary documents. Readings and class discussions will explore the Bolshevik seizure of power, the experimental nature of Soviet society during the 1920s, collectivization and industrialization during the 1930s, interpretations of the purges and terror of the 1930s, the impact of the Second World War, Stalin's last years, and the post-Stalin era, especially concentrating on Khrushchev's rule.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 389 - Women in European History

3 Credit Hours
This course examines the central experiences of European women from the French Revolution to the Present. We will focus on women's involvement in social and political movements (progressive and reactionary), women's work, the changing relationship to the state (suffrage, welfare, legislation), the family, the emergence of modern feminism, women and war, and consumer culture. The course will also explore the evolution of the nature and meanings of masculinity and femininity.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 393 - History of the Jesuits

3 Credit Hours
This course will introduce students to religion in the late Middle Ages and the place of organized religious life in that Society. Students will then read about Ignatius Loyola and the formation of the Society of Jesus and its place in changing religious life because of the criticisms of the Christian Humanists. The students will then read about the work of the Society in education, in Latin and South America, in China and Japan, in exploring the North American continent and in astronomy. The Jesuits ran the only world wide school system from its beginnings in Messina in 1540 until the suppression of the Society in 1784.

Course Attributes: Catholicism & Culture Minor, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History
HIST 395 - History of South Africa

3 Credit Hours
South Africa is one of the wealthiest nations on the African continent and yet for the last three hundred years its riches have been in the hands of the white minority. The history of South Africa cannot be understood only within the context of European/African relations. For Dutch (Afrikaaner) and British settlers often have not shared economic and political interests. Moreover, Africans, such as Khoi, Xhosa, and Zulu have also been in conflict. The history of South Africa then, provides the opportunity to study a racially complex society in which interracial relations, and sometimes intraracial relations, were (and still are) troublesome.

Course Attributes: GDST Race and Ethnicity Conc, Gender & Diversity Studies, Humanities Elective, Peace & Justice Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 397 - A History of Saving the World

3 Credit Hours
This course will examine the various ways that Europeans have tried to "save the world" from the Enlightenment to the present. Topics include human rights, humanitarianism, charity, abolition and environmentalism.

Course Attributes: Humanities Elective, Peace& Justice Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 398 - History of Agriculture

3 Credit Hours
Agriculture is both viewed as essential to civilization and as the critical development in fundamentally altering the human relationship to the environment (its soil, air and water systems). It is the examination of these contrasting realities that is at the heart of this course. Using Mazoyer and Roudart's 2019's History of World Agriculture, this course examines the 10,000 year trajectory of agricultural intensification in multiple places in the world with an emphasis in Africa, Europe and the United States.

Course Attributes: Environ Science/Studies Elect, Humanities Elective, Quantitative Reason Flag Full

HIST 471 - SEM: Black Death

3 Credit Hours
The outbreak of disease and death known as the Black Death killed up to one-half of the European population in the fourteenth century and dramatically affected European society. In this seminar, we will explore the causes, general effects, and specific repercussions of this epidemic. Each student will complete the common course readings (primary and secondary sources), make class presentations on other assigned readings, and write a significant research paper.

Restrictions: Must be assigned one of the following Student Attributes: PPPU & HNAB Honor University Scholar History Major/Minor

Course Attributes: Honors, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences History

HIST 476 - Britain and World War II

3 Credit Hours
This class offers an intensive study of the historiography of the British experience during World War II. For many years, a rather rosy picture of the home front prevailed: ordinary Britons worked together harmoniously to preserve their nation against the Nazis and, in the process, demanded a more equal society after the war. Recent historians have questioned, however, whether the home front was as harmonious as once assumed. We will read scholarship that addresses significant social divisions and tensions within Britain during the war, particularly those related to class, race and gender. As with all 400 level courses in the history department, students will also produce a significant research paper by the end of the semester. The first half of the course will prepare students to select a research topic related to Britain and World War II. The second half of the course will emphasize the careful development and completion of the research paper.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate
HIST 476 - SEM: Britain and World War II

3 Credit Hours
This class offers an intensive study of the historiography of the British experience during World War II. For many years, a rather rosy picture of the home front prevailed: ordinary Britons worked together harmoniously to preserve their nation against the Nazis and, in the process, demanded a more equal society after the war. Recent historians have questioned, however, whether the home front was as harmonious as once assumed. We will read scholarship that addresses significant social divisions and tensions within Britain during the war, particularly those related to class, race and gender. As with all 400 level courses in the history department, students will also produce a significant research paper by the end of the semester. The first half of the course will prepare students to select a research topic related to Britain and World War II. The second half of the course will emphasize the careful development and completion of the research paper.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

HIST 498 - Reading & Research

1 - 3 Credit Hours
Special topics examined through independent research.

Levels: Graduate Undergraduate

HIST 536 - Urban Ecologies & Economics

3 Credit Hours
Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate
HIST 554 - Urban History, Geography & GIS

3 Credit Hours
GIS tools and the skills to use them are a critical part of what is expected of professionals in the various fields related to urban sustainability. This requires an understanding of when and why to display information geographically. Introducing students to geographic mapping skills, this course is designed to develop an understanding of the geography of place at many levels (site, community, city, region, watershed, national, and global). Students will learn how maps are constructed, what information is best presented in geographic form, and how to analyze information in geographic format. As students work through this course they will also gain a better understanding of the geographic relationships between uses and places and how geography and distance shape urban development, urban systems, and their sustainability. The past, present, and future of the city of Cincinnati will provide the foundation for practical applications of GIS.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences History

HIST 588 - Soviet & Post-Soviet Politics

3 Credit Hours
A survey of the Soviet period emphasizing the 1917 Revolution and the Stalin era to better understand contemporary events.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences History

HIST 598 - Directed Readings

3 Credit Hours
Special topics examined through independent research.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences History
HOCS 301 - Human Occupation Across Lifesp

3 Credit Hours
Provides overview of humans as occupational beings. Introduce concepts of doing, being, becoming. Introduction to occupational science and review of occupational performance across developmental trajectory from birth to death. Includes categorical aspects of productive, pleasurable, and restorative occupations at individual and group levels. Introduction to the definition and history of occupational therapy.

Levels: Graduate Undergraduate

College of Professional Sci Occupational Therapy

HOCS 303 - Technology for Life Participation

2 Credit Hours
In-depth instruction in use of multi-media and general technology as teaching-learning and management tools for occupational roles across the lifespan. Students demonstrate competence in basic computer use and software applications for written and oral communication. Includes manipulation of digital pictures and video, database and search engine use, and judging validity of information obtained. Considers impact of technology on society today and ethical ramifications related to use.

Levels: Graduate Undergraduate

College of Professional Sci Occupational Therapy

HOCS 321 - Analysis of Occupational Performance

3 Credit Hours
Analysis of occupational performance from human and non-human perspectives. Includes consideration of individual, contextual/environmental and occupational influences on human performance. Introduction of occupation as means vs. occupation as ends, and meaning of objects.

Prerequisites: Undergraduate level HOCS301 Minimum grade of C and Undergraduate level HOCS303 Minimum grade of C and Undergraduate level HOCS323 Minimum grade of C and Undergraduate level HOCS411 Minimum grade of C and Undergraduate level HOCS401 Minimum grade of C

Levels: Graduate Undergraduate

College of Professional Sci Occupational Therapy
HOCS 323 - Occupational Justice I: Foundations

3 Credit Hours
Overview of occupational participation and barriers at individual, community, and societal levels nationally and internationally. Explores concepts of occupational deprivation, imbalance, adaptation, and occupational justice. Includes discussion of policy related to equalizing rights of people who are occupationally disadvantaged. Includes plan to conduct a service learning project in partial fulfillment of requirements for HOCS 405.

Prerequisites: Undergraduate level HOCS301 Minimum grade of C and Undergraduate level HOCS303 Minimum grade of C

Course Attributes: Diversity Curriculum Require, ERS Focus Elective, Gender & Diversity Studies, Peace & Justice Studies Minor

Levels: Graduate Undergraduate

College of Professional Sci Occupational Therapy

HOCS 401 - Transformative Nature of Occup

HOCS 401 - Transformative Nature of Occup

3 Credit Hours
Course focus is on development of intrapersonal skills to lay the foundation for interpersonal communication skill development. Includes direct application of principles related to group process and group dynamics. Develops individual and group-related skills needed to be an effective change agent.

Prerequisites: Undergraduate level HOCS301 Minimum grade of C and Undergraduate level HOCS303 Minimum grade of C

Levels: Graduate Undergraduate

College of Professional Sci Occupational Therapy

HOCS 403 - Creative & Systematic Inquiry

HOCS 403 - Creative & Systematic Inquiry

3 Credit Hours
Overview of systematic inquiry process and introduction to qualitative research, including data collection, analysis, and reporting of findings. Instruction in creative design process.

Prerequisites: Undergraduate level HOCS301 Minimum grade of C and Undergraduate level HOCS303 Minimum grade of C and Undergraduate level HOCS323 Minimum grade of C and Undergraduate level HOCS401 Minimum grade of C and Undergraduate level HOCS411 Minimum grade of C

Levels: Graduate Undergraduate

College of Professional Sci Occupational Therapy
HOCS 405 - Occupatnl Justice II: Indp Stu

3 Credit Hours
Includes completion of service learning project locally or internationally. Discussion and personal reflection continues to build and understanding of role of culture and occupational patterns in the construction of life meaning. In depth study of occupational justice in local or international communities and relationship to global communities. This course has co-requisites of HOCS 401 and HOCS 403 in the Fall and Spring semesters and a co-requisite of SPAN 258 in the Summer semester.

Prerequisites: Undergraduate level HOCS301 Minimum grade of C and Undergraduate level HOCS303 Minimum grade of C and Undergraduate level HOCS323 Minimum grade of C and Undergraduate level HOCS411 Minimum grade of C and Undergraduate level HOCS401 Minimum grade of C

Course Attributes: Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Professional Sci Occupational Therapy

HOCS 411 - Condns Influencing Participn

HOCS 411 - Condns Influencing Participn

3 Credit Hours
Presentation of conditions across the lifespan common to occupational therapy intervention. Includes background information (e.g. etiology, symptoms, progression, prognosis, medical management) as well as impact of condition on occupational performance.

Prerequisites: Undergraduate level HOCS301 Minimum grade of C and Undergraduate level HOCS303 Minimum grade of C

Levels: Graduate Undergraduate

College of Professional Sci Occupational Therapy

HRDE 650 - Intro Adult Org Learn

HRDE 650 - Intro Adult Org Learn

4 Credit Hours
Provides a general introduction to HRD, adult learning, and organization behavior and analysis. Develops self-awareness which serves as a foundation for working effectively with others in groups and organizations.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

Levels: Graduate

College of Professional Sci Leadership Studies & HRD
HRDE 651 - Org Effectiveness & Change

3 Credit Hours
Presents theoretical and practical perspectives of organization development and consulting. Introduces ethical issues and basic processes of influencing and supporting organizational change initiatives.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

HRDE 652 - Applied Adult & Org Learn

2 Credit Hours
Focuses on applying adult learning theory and group development theory. Emphasizes reflective practice and ethical frameworks for respecting individual and organizational differences and goals.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

HRDE 653 - Career Develop In HRD

2 Credit Hours
Analyzes and evaluates career management as a sub-system in organizations. Provides opportunity for individual career exploration and introduces key organizational career management processes.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

HRDE 654 - Needs Assess & Eval In HRD

3 Credit Hours
Presents processes for identifying current and desired workplace performance, diagnosing causes of the gap, selecting appropriate
solutions, and determining the impact of HRD interventions on organizational goals.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

HRDE 660 - Designing HRD Programs

HRDE 660 - Designing HRD Programs

3 Credit Hours
Applies adult learning design principles and processes to blended HRD programs. Involves creating learning objectives, and selecting content and activities that meet individual and organizational needs.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

HRDE 670 - Technology In HRD

HRDE 670 - Technology In HRD

2 Credit Hours
Explores blended and e-learning principles and the role of technology in designing, delivering, and managing HRD programs in organizations. Provides opportunities for designing and creating e-learning activities.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

HRDE 671 - Applied HRD Research Pt 1

HRDE 671 - Applied HRD Research Pt 1

1 Credit Hours
Emphasizes fundamental research concepts to create confident consumers of HRD research. Includes critiquing, interpreting, and applying research findings to help improve organizational effectiveness.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

Levels: Graduate

College of Professional Sci Leadership Studies & HRD
HRDE 672 - Facilitating Learning In HRD

3 Credit Hours
Develops skills in creating collaborative learning environments, presenting information, directing structured learning experiences, and managing group discussions and processes so that the intended purpose is achieved.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

HRDE 673 - Applied HRD Research Pt 2

2 Credit Hours
Presents a practical approach to plan, evaluate, and use HRD research for improved individual and organizational performance.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

HRDE 674 - Trends & Issues In HRD

2 Credit Hours
Explores current workplace trends and issues and the implications for organizations and HRD professionals.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

HRDE 675 - Strategic Lead & Ethics In HRD

3 Credit Hours
Examines the role of strategic and ethical leadership to promote human resource development in support of organizational goals. Explores HRD management processes and integration with other organizational systems.
Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Human Resource Development

INFO 100 - Business Computer Applications

INFO 100 - Business Computer Applications

1 Credit Hours
A computer-based training course for developing core competencies using productivity tools relevant for business applications.

Levels: Undergraduate

Williams College of Business Management Information Systems

INFO 120 - Introduction to Business Tech

INFO 120 - Introduction to Business Tech

1 Credit Hours
This course will provide students with necessary skills in file management, Web development, using Internet resources for research, and using Microsoft Excel for business applications.

Levels: Undergraduate

Williams College of Business Management Information Systems

INFO 220 - Mgmnt of Info Tech

INFO 220 - Mgmnt of Info Tech

3 Credit Hours
An introduction to the theory and the applications of computer based information systems in organizations with an emphasis on the management of modern information technologies used to support business. This course also includes problem solving with spreadsheets and databases.

Prerequisites: INFO120

Levels: Undergraduate

Williams College of Business Management Information Systems
INFO 303 - Internship / Info Syst Jr

3 Credit Hours
An elective cooperative experience where students earn academic credit while performing approved information systems-related work experience. Student must have 55 credit hours completed, 2.750 GPA, department approval required.

Prerequisites: Undergraduate level MGMT301 Minimum grade of D
Levels: Undergraduate

Williams College of Business Management Information Systems

INFO 328 - Database Management

3 Credit Hours
This is an introductory survey course in database concepts, history, evolving trends, design and implementation. There will be a conceptual portion and a "hands-on" development portion of the course. This course is designed to be a fundamentals course.

Prerequisites: Undergraduate level INFO200 Minimum grade of D
Levels: Undergraduate

Williams College of Business Management Information Systems

INFO 329 - Data Mining

3 Credit Hours
The students will receive an introduction to the basic theory, tools and techniques of data mining, including prediction, associations, clustering, and recommendation systems. The course will be delivered from two points of view: the technological view and the marketing management view. The students will use data mining tools when doing their team projects for customer relationship management.

Prerequisites: INFO200 or INFO220
Levels: Undergraduate

Williams College of Business Management Information Systems
INFO 357 - Telecommunications & Networking

3 Credit Hours
A study of data communications and networking theory and technologies. Students will be exposed to telecommunication configurations, network and web applications, wired and wireless architectures, topologies and protocols, installation and configuration of network and devices such as hubs, router, and bridges.

Prerequisites: INFO200 or INFO220
Levels: Undergraduate

Williams College of Business Management Information Systems

INFO 358 - Data Modeling and Management

3 Credit Hours
The study of the theory of modeling enterprise activities in terms of their data. Databases are implemented emphasizing the relational model.

Prerequisites: Undergraduate level INFO200 Minimum grade of D or Undergraduate level INFO220 Minimum grade of D
Levels: Undergraduate

Williams College of Business Management Information Systems

INFO 359 - Hardware & Software Overview

3 Credit Hours
Analysis of the architecture of micro computers, workstations, and small mid-range computers, with emphasis on comparative operating systems and environments.

Prerequisites: INFO220 or Undergraduate level INFO200 Minimum grade of D
Levels: Undergraduate

Williams College of Business Management Information Systems

INFO 360 - Intro to Application Developmt

3 Credit Hours
An introduction to object oriented programming logic, the concepts of structure, and problem solving concepts in an object oriented environment.

**Prerequisites:** Undergraduate level INFO200 Minimum grade of D or Undergraduate level INFO220 Minimum grade of D

**Levels:** Undergraduate

*Williams College of Business Management Information Systems*

**INFO 362 - Adv Application Development**

**INFO 362 - Adv Application Development**

**3 Credit Hours**
Introduce students who have a basic understanding of computer concepts to programming languages currently being used by the business community. Contact the department for information on specific languages currently covered. Pre-requisite: INFO 360 or equivalent.

**Prerequisites:** Undergraduate level INFO250 Minimum grade of D and Undergraduate level INFO358 Minimum grade of D

**Levels:** Undergraduate

*Williams College of Business Management Information Systems*

**INFO 365 - Business Analytics**

**INFO 365 - Business Analytics**

**3 Credit Hours**
This course extends a students' basic Excel skill base and introduces the use of Excel to manage day-to-day business functions in the areas of finance, marketing, accounting, operations management, sales, and human resources. Through this course, students will develop a practical understanding of problem solving using spreadsheets. Topics covered will include retrieving data through the use of lookups, evaluating the financial impact of data, organization of data for analysis using data tables and Excel scenarios, enhancing decision making using Solver, and troubleshooting techniques that ensure error-free applications. Prerequisites: INFO 200, Previous Excel experience.

**Levels:** Undergraduate

*Williams College of Business Management Information Systems*

**INFO 368 - Intro to Enterprise Systems**

**INFO 368 - Intro to Enterprise Systems**

**3 Credit Hours**
An introduction to the selection, implementation, management, and usage of enterprise-wide business application software. Students will gain hands on exposure to software that supports business processes and learn about the management issues that organizations face when adopting and integrating these systems.

**Prerequisites:** Undergraduate level INFO200 Minimum grade of D or Undergraduate level INFO220 Minimum grade of D

**Levels:** Undergraduate
INFO 374 - Intro to Web Site Development

3 Credit Hours
Tools and techniques for designing and developing quality Web pages with a concentration on the implementation of efficient and effective Web sites for personal use, small businesses, corporate offices, and entrepreneurial ventures.

Prerequisites: Undergraduate level INFO200 Minimum grade of D

Levels: Undergraduate

INFO 378 - E-Business

3 Credit Hours
Electronic commerce is an essential element for most modern businesses. This course will study all aspects of electronic commerce including the structure, organization, and use of the Internet as a means of conducting business. An emphasis will be placed on evaluating, organizing, and developing efficient models of electronic transactions.

Prerequisites: Undergraduate level INFO374 Minimum grade of D

Levels: Undergraduate

INFO 389 - Business Intelligence

3 Credit Hours
Business Intelligence is a key solution needed to successfully compete in the business world. Companies realize that high quality information on their capabilities and those of the competition is essential for decision making to be competitive. BI refers to the use of computers to collect and analyze complex information about an organization and its competitors for use in decision making using applications such as dashboards and scorecards. In this course, students will work with popular industry BI tools, learn the fundamentals of BI and discover how BI applies to business.

Prerequisites: INFO220 or INFO200

Levels: Undergraduate
INFO 403 - Internship / Info Syst Sr

INFO 403 - Internship / Info Syst Sr

3 Credit Hours
An elective cooperative experience where students earn academic credit while performing approved information systems-related work experience. Student must have 55 credit hours completed, 2.750 GPA, departmental approval.

Prerequisites: Undergraduate level MGMT301 Minimum grade of D

Levels: Undergraduate

Williams College of Business Management Information Systems

INFO 450 - Systems Analysis and Design

INFO 450 - Systems Analysis and Design

3 Credit Hours
Structured tools and techniques for the development of computerized information systems with emphasis on the process involved in the analysis and design of the development process. Special emphasis will be placed on team development, on project management, and on quality control for the development of effective and efficient information systems. Pre-requisite: FINC 300, MGMT 300, MKTG 300 or equivalent or permission of instructor

Prerequisites: Undergraduate level FINC300 Minimum grade of D and Undergraduate level MGMT300 Minimum grade of D and Undergraduate level MKTG300 Minimum grade of D

Levels: Undergraduate

Williams College of Business Management Information Systems

INFO 490 - Contemp Issues in Info Systems

INFO 490 - Contemp Issues in Info Systems

3 Credit Hours
Current issues, developments and future trends in the advancement of information systems in business. Pre-requisite: Junior/Senior status or permission of instructor.

Restrictions: Must be enrolled in one of the following Classifications: Senior Junior

Levels: Undergraduate

Williams College of Business Management Information Systems
INFO 495 - System Development Project

3 Credit Hours
This capstone course is a direct follow-up to INFO 450 in which student teams will apply skills and techniques from other INFO and business courses for the purpose of implementing and delivering a computerized business information system.

Prerequisites: Undergraduate level INFO450 Minimum grade of D

Levels: Undergraduate

Williams College of Business Management Information Systems

INFO 499 - Tutorial Course

1 - 3 Credit Hours
Research in scholarly journals on information systems.

Levels: Undergraduate

Williams College of Business Management Information Systems

INFO 550 - Business Information Systems

3 Credit Hours
The study of issues, methods, information, and technology involved in the creation and use of information systems in a corporate environment. The focus is on the manager’s influence on the design, operation, control, and communication ability. Current organizational systems and technology are evaluated. Case studies are used extensively as the content for individual and team activities. The course explores the implications created by technology as we continue to move into an information-based economy.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

Levels: Graduate

Williams College of Business Management Information Systems

INFO 628 - Digital Enterprise

3 Credit Hours
Goals of the course are to understand the impact that E-Business has on business today, the role of IS/IT in creating and changing
organizational structures along with management techniques for E-Business, to develop skills for competitive advantage in this changing environment.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

ITAL 101 - Elementary Italian I

ITAL 101 - Elementary Italian I

3 Credit Hours
An introduction to basic language skills through emphasizing the acquisition of high frequency vocabulary and development of cultural awareness.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ITAL 102 - Elementary Italian II

ITAL 102 - Elementary Italian II

3 Credit Hours
A continuation of ITAL 101.

Prerequisites: Undergraduate level ITAL101 Minimum grade of D or Placement - Italian 102

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

ITAL 201 - Intermediate Italian I

ITAL 201 - Intermediate Italian I

3 Credit Hours
A continuation of ITAL 102 with a particular emphasis on the development of more creative use of the language.

Prerequisites: Undergraduate level ITAL102 Minimum grade of D or Placement - Italian 201

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages
ITAL 202 - Intermediate Italian II

3 Credit Hours
A communicative-oriented course emphasizing reading and writing skills through a study of authentic materials dealing with Italian culture.

Prerequisites: Undergraduate level ITAL201 Minimum grade of D or Placement - Italian 202

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

ITAL 258 - Language & Culture in Italy

3 Credit Hours
This communicative course will provide students participating in the Xavier summer program in Rome with an opportunity to use their language skills in context as well as learn and use other high-frequency structures and vocabulary. Through conversational practice, vocabulary building, and task completion, students will build on their language and skills and cultural knowledge of Italy while being able to communicate more comfortably in everyday situations. The class will also have the opportunity to discuss culturally relevant themes while reinforcing new grammar and vocabulary through the reading of short stories, articles, and essays. This course does not count towards language credits in the undergraduate core curriculum.

Prerequisites: ITAL102

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

ITAL 300 - Advanced Italian I

3 Credit Hours
This course is designed for students who have completed intermediate-level studies of Italian. It will increase vocabulary and communicative ability and fluency through the use of grammar review and usage, in-class conversational activities and presentations, the reading of authentic texts, and writing on a variety of topics. Grammar will be reviewed and practiced in context, focusing on seven communicative functions of language: describing, comparing, recommending and expressing opinions, talking about the past, expressing likes and dislikes, making hypotheses, and talking about the future.

Prerequisites: Undergraduate level ITAL202 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages
ITAL 301 - Advanced Italian II

3 Credit Hours
This upper-level course emphasizes a strengthening of the skills of listening, speaking, reading, and writing in Italian through conversational activities, vocabulary building, and reading of authentic texts. The course will focus on improving conversation skills and will include a review of advanced grammar structures.

Prerequisites: Undergraduate level ITAL300 Minimum grade of D
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

JAPN 101 - Elementary Japanese I

3 Credit Hours
An introduction to basic language skills such as reading and writing hiragana, katakana, and about 30 kanjii. Emphasizes the acquisition of high-frequency vocabulary and practical conversation.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

JAPN 102 - Elementary Japanese II

3 Credit Hours
The second semester elementary course which is a continuation of JAPN 101. Emphasizes listening and situational conversation.

Prerequisites: Undergraduate level JAPN101 Minimum grade of D
Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

JAPN 201 - Intermediate Japanese I

3 Credit Hours
The first semester intermediate course which is a continuation of JAPN 102 with a particular emphasis on the development of more creative use of the language.

Prerequisites: Undergraduate level JAPN102 Minimum grade of D
Levels: Graduate Undergraduate
JAPN 202 - Intermediate Japanese II

3 Credit Hours
A communicative-oriented course integrating the skills of reading, writing, listening, and speaking situational, functional Japanese through the study of authentic materials. The course includes a comprehensive grammar review.

Prerequisites: Undergraduate level JAPN201 Minimum grade of D
Levels: Graduate Undergraduate

JAPN 300 - Advanced Japanese I

3 Credit Hours
An upper-division course that is a continuation of JAPN 202 in that it builds on the basic language skills of listening, speaking, reading, writing and cultural understanding along with an intensive study of grammar.

Prerequisites: Undergraduate level JAPN202 Minimum grade of D
Levels: Graduate Undergraduate

JAPN 301 - Advanced Japanese II

3 Credit Hours
An upper-division course which emphasizes listening, speaking, reading, writing and culture with development of advanced structures. Requires permission of instructor.

Prerequisites: Undergraduate level JAPN202 Minimum grade of D
Levels: Graduate Undergraduate

LART 495 - BLA Capstone

3 Credit Hours
The BLA Capstone course provides an opportunity for students to examine the interrelatedness of humanities, social sciences, and
natural sciences around a topic related to their chosen course of study through the use of a video presentation, the facilitation of discussion questions, and a written paper. Students must have completed the ERS core requirements and at least 20 hours of the required 38 hours of upper division coursework.

**Restrictions:** Must be assigned one of the following Student Attributes: Weekend Degree Program Adult Day/Evening Student

**Levels:** Undergraduate

*College of Arts & Sciences Interdisciplinary Studies*

**LATN 101 - Elementary Latin I**

**LATN 101 - Elementary Latin I**

*3 Credit Hours*
The ancient Latin language. Syntax, vocabulary, and morphology. The skills necessary to read Latin.

**Levels:** Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**LATN 102 - Elementary Latin II**

**LATN 102 - Elementary Latin II**

*3 Credit Hours*
A continuation of LATN 101 with readings from simpler Latin texts.

**Prerequisites:** Undergraduate level LATN101 Minimum grade of D or Placement - Latin 102

**Levels:** Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**LATN 111 - Intensive Elementary Latin I**

**LATN 111 - Intensive Elementary Latin I**

*3 Credit Hours*
An accelerated introduction and review of the ancient Latin language syntax, vocabulary, and morphology. The skills necessary to read Latin.

**Prerequisites:** Placement - Latin 111

**Levels:** Undergraduate

*College of Arts & Sciences Classics & Modern Languages*
LATN 112 - Intensive Elementary Latin II

3 Credit Hours
For students who have had six hours of college level Latin, or its equivalent. Selected, short readings from Vergil with an emphasis on intensive grammar review.

Prerequisites: Undergraduate level LATN111 Minimum grade of D

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 201 - Intermediate Latin I: Prose

LATN 201 - Intermediate Latin I: Prose

3 Credit Hours
For students who have had six hours of college level Latin, or its equivalent. Short readings from various Latin prose authors and genres.

LATN 202 - Intermediate Latin II: Poetry

3 Credit Hours
For students who have had six hours of college level Latin or its equivalent. Selected short readings from Vergil with an emphasis on intensive grammar review.

Prerequisites: Undergraduate level LATN201 Minimum grade of D or Placement - Latin 202

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 211 - Cicero: Orations

LATN 211 - Cicero: Orations

3 Credit Hours
A critical reading of selections from the orations.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPBU & HNAB Honor
LATN 212 - Vergil: Aeneid

LATN 212 - Vergil: Aeneid

3 Credit Hours
A comprehensive, critical, and in depth reading of the Aeneid.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Course Attributes: Humanities Elective, Writing Flag Core
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 231 - Horace: Odes and Epodes

LATN 231 - Horace: Odes and Epodes

3 Credit Hours
Reading and study of the majority of the shorter poems.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 232 - Catullus

LATN 232 - Catullus

3 Credit Hours
Examination and explication of his poems.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages
LATN 241 - Latin Prose Composition

3 Credit Hours
Intensive grammar instruction through composition into Latin from English.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 253 - Livy

LATN 253 - Livy

3 Credit Hours
A critical reading of selections from the Histories, the main source for the history of the Roman Republic.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 263 - Caesar

LATN 263 - Caesar

3 Credit Hours
Readings from the de Bello gallico and de Bello civili.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 273 - Cicero: Letters

LATN 273 - Cicero: Letters

3 Credit Hours
An examination of the society and history revealed through Cicero's private correspondence.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Levels: Graduate Undergraduate
LATN 283 - Cicero: Essays

3 Credit Hours
A critical reading of the importance of Cicero's contribution to the history of philosophy through his essays.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor
Levels: Graduate Undergraduate

LATN 293 - Horace Satires and Epistles

3 Credit Hours
Reading and study of Horace's longer poems, which wittily upbraid contemporary Roman society.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor
Levels: Graduate Undergraduate

LATN 311 - History of Ancient Rome

3 Credit Hours
An intensive introduction to the history of Rome from the early Republican period to the rise of Christianity, relying upon a reading of primary sources.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor
Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

LATN 321 - Roman Comedy

3 Credit Hours
Selections from Plautus and Terence with a view to their influence on Renaissance and modern comedy.
Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Course Attributes: Theatre Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 331 - Lucretius

LATN 331 - Lucretius

3 Credit Hours
Detailed reading of selections from Lucretius' philosophical epic poem.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 341 - Tacitus

LATN 341 - Tacitus

3 Credit Hours
A critical reading of selections from the Annales, the main source for the history of the early Roman Empire.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 351 - Roman Satire

LATN 351 - Roman Satire

3 Credit Hours
Translation and comparison of selections from the satirical works of Varro, Horace, Seneca, Persius, and Juvenal.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Course Attributes: Humanities Elective, Theatre Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages
LATN 361 - History of Latin Literature

3 Credit Hours
A final Latin course meant to be a summation and synthesis of the achievement of Latin literature.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 371 - Medieval Latin

3 Credit Hours
Students will closely read and translate Latin texts from the close of antiquity to around 1400. A review of the basics of Latin grammar empirically, analyzing the language and style of each text and attending to variations in usage and vocabulary in "medieval" Latin.

Restrictions: Must be enrolled in one of the following Degrees: Honors Bachelor of Arts

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 397 - Special Study: Prose

3 Credit Hours
Credit and content by arrangement.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

LATN 398 - Special Study: Poetry

3 Credit Hours
Credit and content by arrangement.

Restrictions: Must be assigned one of the following Student Attributes: University Scholar PPPU & HNAB Honor

Levels: Graduate Undergraduate
LATN 399 - Hab Capstone Thesis

1 - 3 Credit Hours
Credit and content by arrangement.

Levels: Graduate Undergraduate

LEAD 854 - Theory & Pract of High Ed Gov

3 Credit Hours
This course will focus on the theory and practice higher education as it interconnects with the development of Higher Education Professionals. The course will follow the development of Higher Education from a historical perspective through current issues in governance and administration. This course will combine in person and online elements and focus on connecting the presentations and course materials to interactive case based problems.

Restrictions: Must be enrolled in one of the following Majors: Leadership Studies

Levels: Graduate

LEAD 855 - College Student Experience

3 Credit Hours
Using a theoretical foundation, students will gain an understanding of the developmental dynamics relating to be expected to practice the methodologies to demonstrate their understanding of the variety inherent to Higher Education.

Restrictions: Must be enrolled in one of the following Majors: Leadership Studies

Levels: Graduate

LEAD 856 - Finance, Econ & Pol in High Ed

3 Credit Hours
This course will examine the complex financial processes involved in Higher Education, including the impact of political, economic, and societal forces upon budgetary decisions in public and private settings. Through an overview of financial administration in higher
education, with special focus upon theoretical basis upon which these decision are often based, students with analyze the inherent strengths and weaknesses throughout the systems.

**Restrictions:** Must be enrolled in one of the following Majors: Leadership Studies

**Levels:** Graduate

*College of Professional Sci Leadership Studies & HRD*

**LEAD 860 - Org Metaphors & Contexts**

**LEAD 860 - Org Metaphors & Contexts**

**3 Credit Hours**

This course provides an interdisciplinary social sciences perspective on the nature of organizing in modern society and the variety of organizational forms that provide contexts in which leadership matters. Students will consider the structural forms and underlying purposes served by organizations in multiple sectors of society, including corporate, non-profit, health care and educational domains. Differences and similarities among types of organizations will be considered through a variety of metaphorical lens that facilitate our understanding and interpreting the systemic, organismic, cultural and political dynamics that govern the societal contributions and ends serves by different types of organizations. Consideration will be given to both the functional and dysfunctional dynamics that shape and sometimes limit the range of proactive human behavior fostered by alternative forms of organizing. Strategies for improving the health and performance of 21st century organizations experiencing challenges in the face of trends in population, economy, health care, and environmental stewardship.

**Restrictions:** Must be enrolled in one of the following Majors: Leadership Studies

**Levels:** Graduate

*College of Professional Sci Leadership Studies & HRD*

**LEAD 861 - Org Communication Procsses**

**LEAD 861 - Org Communication Procsses**

**3 Credit Hours**

This cognate course provides an overview of challenges and best practices respecting a range of issues pertaining to organizational communication. Normative processes governing the use and abuse of information and power are explored within the structural and normative contexts of different types of organizations. The dynamics of social relations, networking and team work provide a backdrop for understanding specific problems of organizational communication relating to identity, participation, conflict and its resolution. Special problems relating to global and cross-cultural communication are covered as well as the unique challenges of communicating organizational ethics and values. Assigned coursework lays the groundwork for conducting effective analyses of communication processes in a variety of organizational and community contexts.

**Prerequisites:** LEAD860 and LEAD870

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci Leadership Studies & HRD*
LEAD 869 - Capstone Cognate Lead Seminar

3 Credit Hours
Drawing upon the various strands of theory, research and professional expertise introduced in the Leadership Core, as well as the practical knowledge emphasized in the Specialized Application Cognate, this capstone course affords students the opportunity to integrate multiple aspects of theory and practice. Opportunities are provided to apply this integrated knowledge to concrete, enduring and emerging challenges affecting leaders in specific type of organization. Issues related to serving distinct sectors of the community, adapting leadership expertise to targeted organizational contexts, addressing ethical dilemmas unique to each cognate domain, and identifying strategies for sustaining continued professional development and are some of the areas that will be featured. Elating to service the adapting leadership expertise to specialized organizational contexts, professional advancement, The focus will be on building practical knowledge, developing self-insight and constructing individualized schemas pertaining to the practice of leadership in specialized organizations. Emphasis will be placed on trends and best practices as well as self-development and efficacy.

Prerequisites: LEAD880 and LEAD882 and LEAD883

Restrictions: Must be enrolled in one of the following Majors: Leadership Studies

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

LEAD 870 - Fund of Doct Research Design

3 Credit Hours
Providing an introduction to the fundamentals of social and behavioral research, this course provides a conceptual framework for doctoral students in Organizational Learning and Leadership to understand the conceptual foundations underlying effective research design. Students will begin to understand how research methods are predicated upon the theoretical frameworks and research questions or hypotheses derived from a comprehensive review pertinent literature in relevant disciplines. Students will learn how to evaluate existing research using a variety of theoretical and methodological perspectives. As a result of developing a greater understanding of research methods, students will demonstrate the ability to critique the efficacy of research methods used in a various types of published research.

Restrictions: Must be enrolled in one of the following Majors: Leadership Studies

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

LEAD 871 - Doctoral Statistics I

3 Credit Hours
This course is intended for doctoral students who require a working knowledge of statistical methods used in behavioral and social science research. The course covers (1) measurement scales, (2) frequency tables and graphs, (3) measures of central tendency and variability, (4) transformed scores, (5) normal distributions, (6) sampling distributions, (7) hypothesis testing, (8) z test, t test, and ANOVA-F test, (9) chi square and other nonparametric statistics, (10) correlation and regression. Emphasis is on the conceptual understanding of statistics within the context of research and the interpretation of statistical results. Calculators are required.

Prerequisites: LEAD870
Restrictions: Must be enrolled in one of the following Majors: Leadership Studies

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

LEAD 872 - Qual & Quant Res Meth in Lead

LEAD 872 - Qual & Quant Res Meth in Lead

3 Credit Hours
Providing a detailed examination of social science research methods applied to the study of organizational learning and leadership, this course focuses on the conceptual dimensions and pragmatic issues involved in designing and justifying defensible research proposals. Introducing a broad range of quantitative and qualitative research methodologies the course emphasizes decision points and selection criteria to be considered in making effective choices regarding dimensions of investigator control, types of empirical design, means of data collection, population selection, and modes of information extraction during analysis and interpretation of results. Course work is designed to enhance students' mastery of and appreciation for the full range of social and behavioral research paradigms. A combination of active learning and peer facilitation helps prepare students to assume responsibility for becoming independent researchers capable of selecting, defending and implementing solid dissertation proposals.

Prerequisites: LEAD870

Restrictions: Must be enrolled in one of the following Majors: Leadership Studies

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

LEAD 873 - Doctoral Statistics II

LEAD 873 - Doctoral Statistics II

3 Credit Hours
This course is intended for doctoral students who require a working knowledge of advanced statistical methods used in behavioral and social science research. The course covers (1) multivariate analysis of variance, (2) multiple regression, (3) exploratory and confirmatory factor analysis, (4) structural equation modeling, (5) path analysis, (6) cluster analysis, and (7) metaanalysis. Strategies for computing power and estimating sample sizes will be covered. Emphasis is on the mastering the operation intricacies of data transformation, computation and interpretation of results. required onceptual understanding of statistics within the context of research and the interpretation of statistical results. Calculators are required.

Prerequisites: LEAD870 and LEAD871

Restrictions: Must be enrolled in one of the following Majors: Leadership Studies

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

LEAD 874 - Develop Eff Res Prop in Lead

LEAD 874 - Develop Eff Res Prop in Lead

3 Credit Hours
This course covers the social, technical, institutional and ethical dimensions of developing and defending doctoral-level research proposals. Guidance is provided for selecting and working with a committee chair, stating researchable problems and hypotheses,
organizing and presenting scholarly arguments, developing a theoretical framework, selecting instrumentation, sampling and gaining access to populations, anticipating and addressing ethical concerns, and obtaining IRB approval. Understanding the structural elements of proposal writing will be emphasized, as well as considerations pertaining to the organization and presentation of ideas, issues relating to motivation and writing, organizing literature reviews, and developing a theoretical framework. The importance of articulating explicit plans for conducting data analysis, protecting human subjects, preserving data integrity, and preparing for an oral defense of design decisions will be stressed. In addition, students will create a plan for dealing effectively with the personal challenges of completing the dissertation phase of their program, including issues of time management, balancing competing priorities, overcoming writing blocks, developing discipline, and maintaining commitment to a goal. Doctoral candidates often face competing demands, negative environmental cues, social or institutional detractors, and internalized messages that foster a fear of success, the threat of failure, and the unknown consequences of achieving a life intensity. This course provides practical strategies for navigating these common impediments to translating academic aspirations into reality.

Prerequisites: LEAD870 and LEAD872

Restrictions: Must be enrolled in one of the following Majors: Leadership Studies

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

LEAD 880 - Comparative Leadership Theory

3 Credit Hours
This doctoral seminar provides a context for the scholarly and practical analysis, critique and synthesis of foundational theories of leadership, including classical, neo-classical, contemporary and emergent perspectives. Guided by an understanding of the principles of theory construction, the fundamental tenets of each theory are considered in relation to stated propositions, accrued evidence, organizational utility and unanswered questions. Throughout the course, comparative analysis and critique of leadership theory is fostered with respect to the perennial questions informing research, scholarship and practice in the field of leadership studies. The outcomes of the course are focused on promoting an understanding of the multifaceted nature of leadership; the limitations of adopting a single theoretical perspective, an appreciation for the roles and functions framing leadership: individuals, groups, processes, contexts & relationships; the synergistic framework shaping leadership emergence & practice; the fallacy of leader-centric perspectives, and the importance of developing theoretical fluidity as scholars and practitioners.

Prerequisites: LEAD870

Restrictions: Must be enrolled in one of the following Majors: Leadership Studies

Levels: Graduate

College of Professional Sci Leadership Studies & HRD

LEAD 881 - Leading Org Culture & Change

3 Credit Hours
This course focuses on the role of leaders in understanding and managing the reciprocal processes of organizational culture and change. Normative and ethnographic approaches to analyzing organizational culture are introduced as core competencies for affecting change. Classical content and process theories of change are explored with respect to individual, social and anthropological implications. Cultural dynamics and processes of acculturation in organizations are examined in the context of evolutionary, teleological, life cycle, political and social cognitive perspectives on leading change. A model of organizational change in cultural context is introduced, along with research tools and strategies for assessing the extent to which leaders influence cultural dynamics and change processes in organizations.

Prerequisites: LEAD870 and LEAD880
Restrictions: Must be enrolled in one of the following Majors: Leadership Studies
Levels: Graduate
College of Professional Sci Leadership Studies & HRD

LEAD 882 - Psychosocial Dimen of Ldrshp

3 Credit Hours
This doctoral course introduces and explores significant psychological and social constructs that mediate or moderate leadership behavior and effectiveness. Theories of motivation, personality, identity, self-concept, cognition, emotion, psychosocial development, and the dimensions of values, character and spirituality are explored, as they relate to the complex mechanisms that underlie leader and follower behavior. Interdisciplinary research illustrating the pervasive role and function of psychosocial dimensions in the construction and understanding of leadership dynamics in organizations and communities provides a context for developing more nuanced approaches to advancing leadership theory and practice.

Prerequisites: LEAD870 and LEAD880
Restrictions: Must be enrolled in one of the following Majors: Leadership Studies
Levels: Graduate
College of Professional Sci Leadership Studies & HRD

LEAD 883 - Eth, Spirit & Char Dimen of Ld

3 Credit Hours
This integrative leadership seminar explores ethical, spiritual and character-based theories of leadership. Traditional justifications underlying leader's deviation from ethical norms of behavior are interpreted through multiple philosophical lenses rooted in the moral psychology of leadership. Individual character strengths and virtues are explicated, as well as character flaws and the processes of self-deception that lead to leadership failure and leader derailment. Practical strategies are assessing and developing character strengths and overcoming character flaws rooted in unconscious dynamics of self-deception provide a framework for overcoming habitual patterns of destructive leader behavior and building leadership capacity in individuals, organizations and communities. Theoretical perspectives on spiritual leadership are examined though the lens of multiple religious traditions, stewardship, self-sacrifice and socially responsibility. Jesuit values and spiritual exercises are explored with respect to their alignment (or misalignment) with various leadership theories. Consideration is given to the extent to which leadership practice itself represents set of disciplines that promote higher forms of consciousness and stewardship in organizations and societies.

Prerequisites: LEAD870 and LEAD880
Restrictions: Must be enrolled in one of the following Majors: Leadership Studies
Levels: Graduate
College of Professional Sci Leadership Studies & HRD

LEAD 884 - Dev Lead Capac in Ind Org Comm

3 Credit Hours
This capstone course in the doctoral Leadership Core integrates knowledge of leadership theory and practice through a systematic exploration of techniques for assessing and developing leadership capacity in individuals, groups, organizations and communities. Students will master state-of-the-art strategies for developing integrated leadership development programs targeting identified populations based on diagnostic assessment and interpretation of existing leadership capacities. Theories of adult development and comparative models of leadership development provide a foundation for introducing an array of effective strategies proven to enhance leadership potential. Research on the efficacy of alternative intervention strategies guides the selection and application of leadership theories for purposes of assessment, interpretation and construction of targeted developmental plans.

**Prerequisites:** LEAD870 and LEAD880 and LEAD882 and LEAD883

**Levels:** Graduate

*College of Professional Sci Leadership Studies & HRD*

**LEAD 885 - Independent Study**

**LEAD 885 - Independent Study**

**1 - 3 Credit Hours**

This 1-3 credit independent study will be focused on topics and specialized study related to the field of leadership.

**Restrictions:** Must be enrolled in one of the following Majors: Leadership Studies

**Levels:** Graduate

*College of Professional Sci Leadership Studies & HRD*

**LEAD 890 - Dissertation Advisement**

**LEAD 890 - Dissertation Advisement**

**1 - 15 Credit Hours**

This 1-15 credit hour course is the culminating scholarly activity required for completion of the doctoral degree in Leadership Studies. Work on the dissertation commences with the selection of a faculty advisor to supervise the development and completion of an approved doctoral research project. All dissertation advisement credits are completed under the supervision of this faculty advisor who serves as co-investigator on the dissertation. Dissertation advisement includes guidance in the development of a viable research question, a comprehensive review of relevant literature, an effective plan of inquiry and data analysis, thorough articulation of findings and appropriate presentation and interpretation of results. Preparation and oral defense before a dissertation committee chaired by the faculty advisor are required for both the dissertation proposal and the final dissertation. Committee approval is required before the proposed research can be conducted. A successful defense of the final dissertation is required for graduation. Fifteen total hours of dissertation advisement are required but may be spaced out over multiple semesters. Continuous enrollment in Dissertation Advisement is required until graduation to maintain degree eligibility, until the nine-year statute of limitation expires.

MACS 101 - Intro To Actuarial Science

MACS 101 - Intro To Actuarial Science

3 Credit Hours
This course is an introduction to Actuarial Science. The course consists of presentations introducing various topics dealt with by actuaries, weekly lab activities to provide in-depth work with these ideas, and presentations from actuaries regarding their work. Specific topics include mortality tables, interest theory, probability, principles of insurance and reserves.

Prerequisites: MATH150 or Placement - Math 150

Levels: Undergraduate

College of Arts & Sciences Mathematics

MAKE 101 - Introduction to Making

MAKE 101 - Introduction to Making

3 Credit Hours
This course is an introduction to physical and digital creation. The course includes an introduction to human-centered design, programming, agile/scrum development, and digital fabrication. Students complete multiple projects including a community-engaged project involving design and creation of a digital or physical artifact.

Levels: Undergraduate

College of Arts & Sciences School of Arts & Innovation

MAKE 102 - Making the User Experience

MAKE 102 - Making the User Experience

3 Credit Hours
This course introduces processes to improve creation of artifacts for better user satisfaction. Topics include an introduction to UX, interface building, testing, verification, requirement gathering and analysis, and fault gathering analysis and debugging.

Levels: Undergraduate

College of Arts & Sciences School of Arts & Innovation

MAKE 201 - Objects of Digital Fabrication

MAKE 201 - Objects of Digital Fabrication

3 Credit Hours
Students learn the details behind the machines of digital fabrication. Topics include gcode, the structure and mechanics of 3D printers, laser etchers, and CNC mills, and microprocessors. Students assemble fabrication devices and learn to program microcontrollers to negotiate digital interactions with the physical world.

Prerequisites: MAKE101
MAKE 202 - Modeling Digital Objects

3 Credit Hours
Continued study of modeling complex objects digitally. Topics include design patterns and CAD techniques, advanced design tools, programming for embedded devices, unit and regression testing, cycles of prototyping, and incremental improvement.

Prerequisites: MAKE102

Levels: Graduate Undergraduate

MATH 105 - Fundamentals of Math

3 Credit Hours
Integers, rational numbers, exponents, order of operations. Functions in context, and their algebraic and graphical representation. Linear and quadratic equations. Introduction to the graphing calculator. This course does not count toward the core requirement in mathematics.

Levels: Undergraduate

MATH 113 - Mathematics of Finance

3 Credit Hours
Simple and compound interest, discounting, annuities, amortization and sinking funds, stocks, bonds, insurance.

Levels: Undergraduate

MATH 115 - Topics in Applied Mathematics

3 Credit Hours
Topics in the application of elementary mathematics to real world problems: management science, voting schemes, theory of games,
population growth, other models.

Levels: Undergraduate

College of Arts & Sciences Mathematics

MATH 116 - Elementary Statistics

MATH 116 - Elementary Statistics

3 Credit Hours
An introduction to statistical thinking and its applications to a wide variety of areas. Topics include: statistical and visual methods for summarizing data, basic principles of probability, regression, and fundamentals of hypothesis testing and confidence intervals. Critical examination of the results of a statistical analysis is emphasized.

Course Attributes: Mathematical Perspectives
Levels: Undergraduate

College of Arts & Sciences Mathematics

MATH 120 - Elementary Functions

MATH 120 - Elementary Functions

3 Credit Hours
Graphs and properties of functions, including polynomial functions, exponential functions, logarithmic functions, inverse functions and composition of functions. Applications to real world situations using algebraic, numerical, and graphical methods.

Course Attributes: Mathematical Perspectives, Quantitative Reason Flag Full
Levels: Undergraduate

College of Arts & Sciences Mathematics

MATH 125 - Explorations in Mathematics

MATH 125 - Explorations in Mathematics

3 Credit Hours
Exploration of easily accessible, engaging, and thematically connected mathematical ideas as a vehicle to lead students to experiences that are characteristic of the mathematical enterprise.

Course Attributes: Gender & Diversity Studies, Mathematical Perspectives
Levels: Undergraduate

College of Arts & Sciences Mathematics
MATH 140 - Concepts of Calculus

3 Credit Hours
Concepts of Calculus is an informal introduction to a study of quantities that change relative to each other and the fundamental concepts of the calculus which measure this change: the derivative and the integral.

Course Attributes: Mathematical Perspectives
Levels: Undergraduate

College of Arts & Sciences Mathematics

MATH 147 - Calculus From Historical Persp

MATH 147 - Calculus From Historical Persp

3 Credit Hours
An overview of concepts from differential and integral calculus through excerpted readings in English translation of original texts which emphasizes connections with developments in science and philosophy.

Levels: Undergraduate

College of Arts & Sciences Mathematics

MATH 150 - Elements of Calculus I

MATH 150 - Elements of Calculus I

3 Credit Hours
Modeling data with polynomial functions, exponential functions, and logistic functions. Rates of change and the derivative. Application of the derivative including optimization and inflection points. Result of cumulative change and the definite integral.

Levels: Undergraduate

College of Arts & Sciences Mathematics

MATH 151 - Elements of Calculus II

MATH 151 - Elements of Calculus II

3 Credit Hours
Modeling with trigonometric functions, functions of several variables, contour maps, partial derivatives, and optimization with and without constraints.

Prerequisites: Undergraduate level MATH150 Minimum grade of D
MATH 154 - Milestones in Mathematics

3 Credit Hours
Charts milestones in various branches of mathematics through the reading of original sources: number theory, infinity, Euclidean and non-Euclidean geometry, and algebra are all possible threads of development.

Prerequisites: Placement Math Score MTH1: 20 or Undergraduate level MATH120 Minimum grade of D

Levels: Undergraduate

MATH 156 - General Statistics

3 Credit Hours
An introduction to the major concepts and tools used for collecting, analyzing, and making inferences from data. Topics include: graphical displays, correlation, regression, design of experiments, probability, simulation, random sampling, confidence intervals and hypothesis testing.

Restrictions: May not be enrolled in one of the following Colleges: Williams College of Business

Course Attributes: Mathematical Perspectives

Levels: Undergraduate

MATH 158 - General Statistics II

3 Credit Hours
A second course in statistics covering various methods of data analysis. Topics include: t-tests, analysis of categorical data, estimation and inference of multiple regression models, Analysis of Variance, and multiple comparisons. The ability to communicate and correctly interpret the results of a statistical data analysis is emphasized.

Prerequisites: MATH156 or Undergraduate level MATH116 Minimum grade of B

Course Attributes: Quantitative Reason Flag Full

Levels: Undergraduate
MATH 169 - Precalculus

3 Credit Hours
This is a study of linear, polynomial, rational, exponential, logarithmic, and trigonometric functions from symbolic, graphical, and numerical perspectives. Topics include algebraic and analytic properties of functions; sums, differences, products, quotients, and composites of functions; inverse functions; and functions as models.

Levels: Undergraduate

College of Arts & Sciences Mathematics

MATH 170 - Calculus I

4 Credit Hours
Limits and continuity. Transcendental functions. The derivative, techniques of differentiation, and applications of the derivative. Parametric equations. The definite integral, numerical integration, antiderivatives, and method of substitution.

Course Attributes: Mathematical Perspectives

Levels: Undergraduate

College of Arts & Sciences Mathematics

MATH 171 - Calculus II

4 Credit Hours

Prerequisites: MATH170

Course Attributes: Mathematical Perspectives

Levels: Undergraduate

College of Arts & Sciences Mathematics

MATH 201 - Foundations of Arith. -ECED

3 Credit Hours
Concepts necessary for understanding the structure of arithmetic and its algorithms (with whole numbers, integers, fractions and decimals), number patterns, and introductory probability and statistics.

**Restrictions:** Must be enrolled in one of the following Programs: Master of Education BS in Education areas

**Course Attributes:** Mathematical Perspectives

**Levels:** Graduate Undergraduate

**MATH 202 - Geometry & Measurement -ECED**

**MATH 202 - Geometry & Measurement -ECED**

3 Credit Hours
Concepts necessary for an understanding of basic geometry: shapes in one, two, and three dimensions, scientific measurement and dimensional analysis, congruence and similarity of figures, compass and straightedge constructions, transformations, and coordinate geometry. Use of computer software to explore geometric concepts.

**Restrictions:** Must be enrolled in one of the following Programs: Master of Education BS in Education areas Must be enrolled in one of the following Majors: Early Childhood Education Elementary Education Montessori Education Special Education

**Course Attributes:** Mathematical Perspectives

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Mathematics*

**MATH 211 - Foundations of Arith. - MCED**

**MATH 211 - Foundations of Arith. - MCED**

3 Credit Hours
Concepts necessary for understanding the structure of arithmetic, its algorithms and properties (with whole numbers, integers, rational and irrational numbers), basic set theory and introductory number theory.

**Restrictions:** Must be enrolled in one of the following Programs: Master of Education BS in Education areas

**Course Attributes:** Mathematical Perspectives

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Mathematics*

**MATH 212 - Geom & Measurement MCED**

**MATH 212 - Geom & Measurement MCED**

3 Credit Hours
Concepts necessary for an understanding of basic geometry: shapes in one, two, and three dimensions, scientific measurement and dimensional analysis, congruence and similarity of figures, compass and straightedge constructions, transformations, coordinate
geometry, conjecture and proof, perspective drawing and introductory trigonometry. Use of computer software to explore geometric concepts.

Restrictions: Must be enrolled in one of the following Programs: Master of Education BS in Education areas

Course Attributes: Mathematical Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 213 - Algebra Concepts -MCED

MATH 213 - Algebra Concepts -MCED

3 Credit Hours
Development of algebraic problem solving, polynomials, linear, quadratic and exponential equations and functions, pattern representation, sequences and series. Use of technology and manipulative materials in the teaching of algebra.

Restrictions: Must be enrolled in one of the following Programs: Master of Education BS in Education areas

Course Attributes: Mathematical Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 214 - Math Problem Solving -MCED

MATH 214 - Math Problem Solving -MCED

3 Credit Hours
Problem solving, drawing from a wide range of school mathematics topics, logic, combinatorics, and basic probability theory. Prerequisite: MATH 211, MATH 212, MATH 213.

Course Attributes: Mathematical Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 220 - Calculus III

MATH 220 - Calculus III

4 Credit Hours
Vectors, lines and planes. Functions of several variables, partial derivatives and applications, gradient and directional derivative. Multiple integrals, line integrals, Green's Theorem.

Prerequisites: MATH171

Course Attributes: Mathematical Perspectives
MATH 225 - Foundations Of Higher Math

3 Credit Hours
Propositional and predicate logic; methods of proof, including direct approaches, contradiction, contraposition, mathematical induction; sequences, recursion, recurrence relations; set theory; functions and relations. Primary emphasis on proof-writing.

Course Attributes: Mathematical Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 230 - Intro to Ordinary Diff Equat

3 Credit Hours
Modeling with ordinary differential equations. Analytical, qualitative, and numerical techniques for first-order equations, first-order nonlinear systems, and linear systems. MATH 240 is recommended as a prerequisite to this course.

Prerequisites: Undergraduate level MATH171 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 240 - Linear Algebra

3 Credit Hours
Systems of linear equations, Gaussian elimination, echelon forms, algebraic structure of solutions; vector and matrix arithmetic, invertibility; linear transformations and their matrices; vector spaces and subspaces, bases, coordinates, dimension, rank; change of basis; determinants, Cramers Rule; eigenvectors and eigenvalues; diagonalization; inner products, the Gram-Schmidt process. MATH 220 is a recommended prerequisite for this course.

Prerequisites: MATH225 or EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics
MATH 256 - Intro to Probability & Stats

3 Credit Hours
Calculus-based introduction to probability and descriptive and inferential statistics. Topics include: numerical and graphical summaries of data, conditional probability, Bernoulli trials, normal distribution, the central limit theorem, estimation, t-tests, chi-square tests, type I and II errors, regression and correlation.

Prerequisites: MATH171

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 257 - Data Modeling

3 Credit Hours
Exploratory data analysis and visualization, logistic regression, estimation and inference of multiple regression models, model selection, Analysis of Variance, multiple comparisons, and experimental design.

Prerequisites: MATH256

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 280 - Combinatorics

3 Credit Hours
An introduction to counting techniques of discrete objects. The enumeration of sets, permutations and combinations, the binomial and multinomial theorem will serve as an appetizer; counting methods including the inclusion-exclusion principle; the pigeonhole principle, generating functions, and recurrence relations will be the main course. Applications of combinatorial techniques and problem solving will be emphasized. [Optional: finite geometries, permutation groups, latin squares, designs, and codes.]

Prerequisites: MATH225

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics
MATH 300 - History of Mathematics

3 Credit Hours
Some of the highlights in the historical development of mathematics with special attention given to the invention of non-Euclidean geometry and its importance for mathematics and Western thought.

Prerequisites: (Undergraduate level MATH220 Minimum grade of D and Undergraduate level MATH240 Minimum grade of D) or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 301 - Geometry

3 Credit Hours
Axiom systems, models and finite geometries, convexity, transformations, Euclidean constructions, and the geometry of triangles and circles. Introduction to projective and non-Euclidean geometries.

Prerequisites: Undergraduate level MATH180 Minimum grade of D or Undergraduate level MATH225 Minimum grade of D or EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 302 - Number Theory

3 Credit Hours
Divisibility and primes, linear congruences, quadratic residues and reciprocity. Diophantine equations, multiplicative functions, distribution of primes.

Prerequisites: Undergraduate level MATH240 Minimum grade of D or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics
MATH 303 - Mathematical Logic

3 Credit Hours
Axiomatic development of propositional calculus, functional complete sets of operators, axiomatic development of the first order function calculus, the existential operator, the algebra of logic.

Prerequisites: Undergraduate level MATH225 Minimum grade of D
Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 311 - Probability Theory

3 Credit Hours
Sample spaces, basic axioms of probability, Bayes'2019 theorem, expectation, common discrete and continuous distributions, moment generating functions, central limit theorem, inequalities, convergence of random variables, and transformations of random variables.

Prerequisites: MATH171 or Graduate level EDMS999
Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 312 - Statistical Inference

3 Credit Hours
Maximum likelihood principle, Bayesian estimation, properties of estimators, sufficiency, likelihood ratio tests, chi-square distribution, t distribution, F distribution, power, nonparametrics, bootstrap, and Markov Chain Monte Carlo.

Prerequisites: MATH256 or MATH311
Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 316 - Cryptology

3 Credit Hours
The making and breaking of secret ciphers and codes. Classical ciphers: shift, affine, Vigenère, substitution, Hill, one-time pads,

**Prerequisites:** Undergraduate level MATH225 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Mathematics*

**MATH 321 - Numerical Analysis**

**3 Credit Hours**
Accurate, function evaluation and approximation, systems of linear equations, nonlinear equations, numerical differentiation and integration, and solutions to differential equations.

**Prerequisites:** CSCI170 and MATH171

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Mathematics*

**MATH 325 - Mathematical Modeling**

**3 Credit Hours**
The synthesis, formulation and solution of various problems in applied mathematics and related fields.

**Prerequisites:** Undergraduate level MATH230 Minimum grade of D or Graduate level EDMS999

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Mathematics*

**MATH 330 - Graph Theory**

**3 Credit Hours**
Graphs, subgraphs, trees, isomorphism, Eulerian and Hamiltonian paths, planarity, digraphs, connectivity, and chromatic number. Other topics may be included.

**Prerequisites:** Undergraduate level MATH225 Minimum grade of D or Graduate level EDMS999 or Undergraduate level MATH180 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Mathematics*
MATH 340 - Abstract Algebra I

3 Credit Hours
Groups, isomorphism, homomorphism, normal subgroups, rings, ideals, fields.

Prerequisites: (Undergraduate level MATH225 Minimum grade of D or Undergraduate level MATH180 Minimum grade of D) and Undergraduate level MATH240 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 341 - Abstract Algebra II

3 Credit Hours
A continuation of MATH 340. Topics may include Boolean algebra, lattice theory, combinational group theory, coding theory, Galois theory, commutative rings.

Prerequisites: Undergraduate level MATH340 Minimum grade of D or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 360 - Elementary Topology

3 Credit Hours
Metric spaces, topological spaces, continuity, convergence, compactness, connectedness, and separation axioms.

Prerequisites: Undergraduate level MATH240 Minimum grade of D or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 370 - Real Analysis

3 Credit Hours
Rigorous development of calculus of functions of a single variable. The real number system, topology of the real line, continuity, uniform continuity, the derivative, the Riemann integral, sequences and series of real numbers, and uniform convergence.
Prerequisites: (Undergraduate level MATH225 Minimum grade of D or Undergraduate level MATH180 Minimum grade of D) and Undergraduate level MATH220 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 372 - Applied Analysis

3 Credit Hours

Prerequisites: Undergraduate level MATH230 Minimum grade of D or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 380 - Intro to Complex Variables

3 Credit Hours
Complex numbers, analytic functions, complex integration, series representation of analytic functions, the calculus of residues.

Prerequisites: ( MATH225 or MATH180) and MATH220

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 385 - Sec Math From Adv Perspective

3 Credit Hours
A capstone course for prospective high school teachers focusing on connections between secondary and undergraduate mathematics. Emphasis on analysis and algebra. The real numbers, sequences and series, countability, concepts of infinity. Functions, logarithms, solving equations, the Fundamental Theorem of Algebra and its consequences. Complex numbers and functions.

Prerequisites: MATH340

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics
MATH 391 - Mathematics Seminar I

1 Credit Hours
Juniors (MATH 391) and seniors (MATH 393) meet together in the spring semester: students will read selections from the mathematical literature, explore how to write mathematics effectively, learn how to use technical word processing tools, practices how to communicate mathematical ideas and give oral presentations.

Restrictions: Must be enrolled in one of the following Majors: Mathematics

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 392 - Mathematics Seminar 2

1 Credit Hours
Each senior will meet with a faculty advisor to work on an individual research project.

Restrictions: Must be enrolled in one of the following Majors: Mathematics

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 393 - Mathematics Seminar 3

1 Credit Hours
The student will write a paper and give a formal presentation describing the project developed during MATH 392.

Prerequisites: MATH392

Restrictions: Must be enrolled in one of the following Majors: Mathematics

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MATH 397 - Special Study

MATH 397 - Special Study

0 - 6 Credit Hours
Credit by special arrangement. Area to be specified.

Prerequisites: MATH225

Levels: Graduate Undergraduate

College of Arts & Sciences Mathematics

MDLN 101 - Elementary Twi I

MDLN 101 - Elementary Twi I

3 Credit Hours
An introduction to basic language skills through emphasizing the acquisition of high-frequency vocabulary and the development of cultural awareness. This course is offered ONLY to participants in the Service Learning Program in Ghana and will be offered only in Ghana.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

MDLN 102 - Elementary Twi II

MDLN 102 - Elementary Twi II

3 Credit Hours
Continuing basic language skills through emphasizing the acquisition of high-frequency vocabulary and the development of cultural awareness. This course is offered ONLY to participants in the Academic Service Learning Program in Ghana and will be offered only in Ghana.

Prerequisites: Undergraduate level MDLN101 Minimum grade of D

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

MEDT 100 - Med Tech Clin Prog Summer

MEDT 100 - Med Tech Clin Prog Summer

12 Credit Hours
Clinical program consisting of lectures, laboratory experience and patient contact in a hospital laboratory. Students spend a total of twelve months gaining experience as student medical technologists studying the various clinical laboratory sciences.

Levels: Undergraduate

College of Arts & Sciences Biology
MEDT 300 - Med Tech Clin Prog Spring

MEDT 300 - Med Tech Clin Prog Spring

12 Credit Hours
Clinical program consisting of lectures, laboratory experience and patient contact in a hospital laboratory. Students spend a total of twelve months gaining experience as student medical technologists studying the various clinical laboratory sciences.

Levels: Graduate Undergraduate

College of Arts & Sciences Biology

MGMT 300 - Managerial Behavior

MGMT 300 - Managerial Behavior

3 Credit Hours
Lectures, cases, and experiential exercises are used to introduce the management functions of planning, organizing, staffing, leading, improving and controlling.

Restrictions: May not be enrolled as the following Classifications: Freshman

Course Attributes: Social Science Old/Trans Core

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship& HR

MGMT 301 - Managerial Communications

MGMT 301 - Managerial Communications

2 Credit Hours
Essentials of effective written and oral business communication with a focus on career communication skills.

Course Attributes: Oral Communication Flag

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship& HR

MGMT 302 - Quality & Product in Operation

MGMT 302 - Quality & Product in Operation

3 Credit Hours
An introduction to quality and operations topics and management science techniques. Topics include goals of service and production operations, optimization, project scheduling, simple quality tools, inventory models, simulation, supply chain management, and waiting line models. Continual improvement of operations is stressed.

Prerequisites: (INFO200 or INFO220 or INFO301) and (MATH156 or STAT210)
Levels: Undergraduate

*Williams College of Business Mgmt, Entrepreneurship & HR*

**MGMT 303 - Co-Op Education/Management: Jr**

**3 Credit Hours**

An elective cooperative experience where students earn academic credit while performing approved management-related work experience. Student must have 55 credit hours completed, 2.75 GPA, departmental approval required.

**Prerequisites:** Undergraduate level MGMT301 Minimum grade of D

Levels: Undergraduate

*Williams College of Business Mgmt, Entrepreneurship & HR*

**MGMT 305 - Creativity & Innovation**

**3 Credit Hours**

This course covers techniques and process of innovation and creativity that leads to new business development as an independent new venture or in existing organizations. Lectures, experiential learning, discussions and guest speakers.

**Prerequisites:** Undergraduate level MGMT300 Minimum grade of D

Levels: Undergraduate

*Williams College of Business Mgmt, Entrepreneurship & HR*

**MGMT 309 - Change Management**

**3 Credit Hours**

Theory and design of organizational systems, organizational performance, culture, training and development and change processes; course also includes a focus on performance appraisal.

**Prerequisites:** Undergraduate level MGMT300 Minimum grade of D

Levels: Undergraduate

*Williams College of Business Mgmt, Entrepreneurship & HR*
**MGMT 310 - Teamwork & Team Building**

*3 Credit Hours*
Analysis of forces controlling group formulation and development in business and organizational work situations. Techniques for analyzing and productively managing informal groups.

**Prerequisites:** Undergraduate level MGMT300 Minimum grade of D

**Levels:** Undergraduate

*Williams College of Business Mgmt, Entrepreneurship & HR*

**MGMT 314 - Leadership**

*3 Credit Hours*
An analysis of various theories and approaches to leadership emphasizing team building and situational leadership. The course includes skill development, experiential activities, theoretical constructs, and guest speakers who are leaders in a variety of settings.

**Prerequisites:** Undergraduate level MGMT300 Minimum grade of D

**Levels:** Undergraduate

*Williams College of Business Mgmt, Entrepreneurship & HR*

**MGMT 321 - Industrial-Organization Psyc**

*3 Credit Hours*
Psychological bases for organizational decisions from employment to the maintenance of motivation and job satisfaction of people. Research, measurement, and practical application are emphasized.

**Prerequisites:** Undergraduate level MGMT300 Minimum grade of D

**Levels:** Undergraduate

*Williams College of Business Mgmt, Entrepreneurship & HR*

**MGMT 322 - Managing For Sustainability**

*3 Credit Hours*
This course provides an overview of the issues faced by business managers related to the topic of Triple Bottom Line Sustainability: economic vitality, environmental stewardship and corporate social responsibility. The course emphasizes experiential learning and practical application of concepts.
Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship& HR

MGMT 325 - International Management

3 Credit Hours
The purpose of this course is to create a framework for understanding competitive positioning of organizations, human resource and cultural issues related to international management. Lectures and country projects, discussion group projects, and guest speaker visits.

Prerequisites: Undergraduate level MGMT300 Minimum grade of D and Undergraduate level ECON300 Minimum grade of D

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship& HR

MGMT 333 - Global Supply Chain Mgmt

3 Credit Hours
This course provides undergraduate business students with a thorough introduction to the field of Supply Chain Management with an emphasis on current practice and emerging trends. Course topics will include supply chain design and strategies in a global business environment; selection and management of supply chain partners; inventory, warehousing, and materials management; logistics and transport systems; information flows and technology; and measurement of supply chain performance with regard to quality, responsiveness, cost, and sustainability.

Prerequisites: MGMT302

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship& HR

MGMT 385 - Project Management

3 Credit Hours
The purpose of this course is to prepare students to plan, organize, lead, participate in, control, and improve projects, via lectures, cases, and participation in experiential projects.

Prerequisites: Undergraduate level MGMT302 Minimum grade of D and Undergraduate level MGMT300 Minimum grade of D

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship& HR
MGMT 403 - Co-Op Education/Management: Sr

3 Credit Hours
An elective cooperative experience where students earn academic credit while performing approved management-related work experience. Students must have 55 credit hours completed, 2.750 GPA, departmental approval required.

Prerequisites: Undergraduate level MGMT301 Minimum grade of D

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship& HR

MGMT 410 - Quality Planning & Improvement

3 Credit Hours
A comparison of modern approaches to quality. In quality planning, product and process are developed to satisfy customers. In quality improvement, both organization-wide and process improvements are studied. Quality function deployment and management planning tools are used.

Prerequisites: Undergraduate level STAT200 Minimum grade of D and Undergraduate level MGMT302 Minimum grade of D

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship& HR

MGMT 495 - Strategic Management

3 Credit Hours
This course creates a process which enables students to develop the ability to integrate business function courses, such as marketing, finance, accounting, economics, and management. Via lectures, case studies, group projects and individual assignments, students learn and design strategies for sustainable competitive advantage for all types of organizations in various stages of growth in domestic and foreign markets.

Prerequisites: (Undergraduate level ACCT200 Minimum grade of D and Undergraduate level MKTG300 Minimum grade of D and Undergraduate level MGMT300 Minimum grade of D) and (Undergraduate level ENTR305 Minimum grade of D and Undergraduate level ENTR311 Minimum grade of D) or (Undergraduate level MGMT309 Minimum grade of D and Undergraduate level MGMT385 Minimum grade of D)

Restrictions: Must be enrolled in one of the following Majors: Entrepreneurial Studies Human Resources Management Must be enrolled in one of the following Classifications: Senior

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship& HR
MGMT 499 - Tutorial Course: Senior Level

3 Credit Hours
Research in scholarly journals on a management topic of current import. Open to students only with consent of instructor.

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship& HR

MGMT 550 - Strategy and Organizations

3 Credit Hours
This is a survey course introducing students to the principles of managerial behavior (managing people and leading organizations), strategic management (setting and implementing strategic direction for the company), and strategic human resource management (employee recruitment, selection, and performance evaluation). Students will learn about relevant management theories, concepts, and frameworks as well as how to apply them to actual business situations.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

Williams College of Business Mgmt, Entrepreneurship & HR

MGMT 551 - Operational Analysis

3 Credit Hours
The purpose of this introductory course is to provide MBA students with a thorough introduction to the concepts and analytical skills of operations management needed to understand and improve the business of various organizations. The course aims to expand their managerial (soft) skills as well as hands-on analytical (hard) skills so that they understand how to deliver superior organizational performance in practical business settings. In particular, focus will be on developing student strategic thinking and critical thinking capabilities, in terms of how and when to implement tools of operations analysis, ensuring that enterprise resources are used as efficiently and effectively as possible.

Prerequisites: STAT500 or Statistics 500

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

Williams College of Business Mgmt, Entrepreneurship & HR
MGMT 605 - Strategic Innovation

3 Credit Hours
This course examines the critical elements that drive an innovative culture and processes in organizations, and focuses on tools, including design thinking, to develop innovative alternatives for addressing strategic business problems. Coursework relies on practical, experiential learning pedagogy.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

Levels: Graduate

WIlliams College of Business Mgmt, Entrepreneurship & HR

MGMT 613 - Strengths Based Leadership

3 Credit Hours
The purpose of this course is to help students improve their leadership ability by understanding and developing their unique strengths.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

Levels: Graduate

WIlliams College of Business Mgmt, Entrepreneurship & HR

MGMT 614 - Principles of Leadership

3 Credit Hours
An overview and analysis of a variety of theories and approaches to leadership emphasizing team building and leadership lecturers. Skill building and the development of a personal theory of leadership will be emphasized.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Degrees: Master of Business Admin

Levels: Graduate

WIlliams College of Business Mgmt, Entrepreneurship & HR

MGMT 615 - Values Based Leadership Pract

2 Credit Hours
Develops: knowledge of basic concepts related to business management, an ethical perspective of American business environment, an
ability to define leadership values within an ethical perspective, and professional leadership values that can withstand workplace challenges.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

**Levels:** Graduate

*Williams College of Business Management*

**MGMT 616 - Ethics and Leadership**

**MGMT 616 - Ethics and Leadership**

**3 Credit Hours**

Our objective in this course is to embark on a journey in self-growth and development so that we emerge as strong ethical leaders. In today’s global workplace, leaders are faced with the challenges of developing a vision for their organizations, formulating and communicating objectives to key stakeholder groups, mobilizing resources around opportunities, combating threats without compromising on ethical practices or principles, and creating a culture to deliver on the opportunities. Via a simple model that will serve as the foundation for ethical leadership, and application exercises surrounding the key variables, our journey will culminate with a better understanding of the challenges listed above and an understanding of the needs of the multiple stakeholder groups such as shareholders/owners, customers, employees, suppliers, and special interest groups that influence the actions of any organization. We will be drawing on theories of ethics and social responsibility, social and human capital, and social justice in this course.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*Williams College of Business Mgmt, Entrepreneurship & HR*

**MGMT 621 - Strategies For Sustainability**

**MGMT 621 - Strategies For Sustainability**

MGMT 633 - Global Supply Chain Mgmt

This is a graduate level management course offered to provide students with a practical, stimulating learning experience on strategic insights and tactical skills for designing and improving global supply chains, with an emphasis on problem-solving skills and international perspectives.

Prerequisites: MGMT551 or MGMT601

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

Levels: Graduate

Williams College of Business Mgmt, Entrepreneurship & HR

MGMT 635 - Strategic Sourcing

Firms are trying their best to find ways to improve their performance in today's increasingly competitive and globalized world. Sourcing and purchasing plays a key role in a firm's ability to be more efficient, more profitable, and more competitive. It has great impact on a firm's performance and overall competitiveness. It impacts all functional activities of a firm, including marketing and sales, customer service, manufacturing planning and control, inventory management, quality management, product design, human resource management, technology management, financial planning, and e-commerce activities. During this course, through a combination of case analyses, projects, and article reviews, we will examine the major sourcing and purchasing concepts and issues, including purchasing process and strategy, supply management integration, supplier evaluation, selection and development, worldwide sourcing, cost management, contract management, risk management, negotiation, sourcing proposals analysis, and sourcing/purchasing information systems. Additionally, we will also explore the legal and ethical issues surrounding the sourcing/purchasing decisions.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

Levels: Graduate

Williams College of Business Mgmt, Entrepreneurship & HR

MGMT 641 - Managing New & Growing Venture

Develops understanding as to why some ventures (new and/or existing) achieve their goals, grow, and attract resources while others stagnate or go bankrupt. Business simulations, interactive multimedia programs, guest speakers, and field trips will be used to accomplish course objectives.

Prerequisites: ( MGMT550 or MGMT600) and ( MGMT551 or MGMT601) and ( FINC550 or FINC600) and ( MKTG550 or MKTG600) and ( ACCT550 or ACCT600 or ACCT601)

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Degrees: Master of Business Admin
MGMT 644 - Motivation & Behavior in Organ

3 Credit Hours
Role of motivation in performance within organizations, various concepts of motivation, leadership, and group interaction are studied, with emphasis on research findings.

Prerequisites: (MGMT550 or MGMT600) and (MGMT551 or MGMT601)

Restrictions: Must be enrolled in one of the following Levels: Graduate
Must be enrolled in one of the following Colleges: Williams College of Business

Levels: Graduate

MGMT 646 - Change Management I

3 Credit Hours
As part of a two-course sequence in Change Management, this course examines theory and methods for setting goals, establishing control systems, assessing achievement against goals, and determining causes of variance in achievement from goals. Topics include the impact of purpose of assessment, formal and informal methods of data collection and measurement, creation of standards of performance, judgmental processes, rater goals and motivation, and measures of error and accuracy in assessment. Includes individual, group/team organizational levels of analysis, fit of measurement systems to organizational culture and societal context in which the organization operates and perceptions of fairness and ethical/moral issues.

Restrictions: Must be enrolled in one of the following Levels: Graduate
Must be enrolled in one of the following Degrees: Master of Business Admin

Levels: Graduate
MGMT 647 - Change Management

3 Credit Hours
This course examines when to change, what to change, and how to change. We will study the theory and methodologies of change management, including small-scale incremental changes to large-scale transformations. Included will be examination of reasons for change, such as external environmental shifts, loss of competitiveness, and opportunities to do new things. These would involve improving what an organization already does, renewing a dying organization, or taking advantage of innovations or creativity. We will examine how internal and external assessment processes can indicate a need to change, how to use theory to determine what change intervention(s) to use to achieve a desired result, and how to determine insure that intended change has been successful and is permanent.

Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate

MGMT 647 - Change Management II

3 Credit Hours
This course builds on MGMT 646 and examines when to change, what to change, and how to change. Topics include the theory and methodologies of change management, including small-scale incremental changes to large-scale transformations. Included will be examination of reasons for change, such as external environmental shifts, loss of competitiveness, and opportunities to do new things. These would involve improving what an organization already does, renewing a dying organization, or taking advantage of innovations or creativity. We will examine how internal and external assessment processes can indicate a need to change, how to use theory to determine what change intervention(s) to use to achieve a desired result, and how to determine insure that intended change has been successful and is permanent.

Levels: Graduate

Williams College of Business Mgmt, Entrepreneurship & HR

MGMT 750 - Leading Organizations Micro

MGMT 750 - Leading Organizations Micro

2 Credit Hours
This course is designed to introduce students to the key Management responsibilities and capabilities that are expected of a senior executive in today's business environment. As such, it covers a broad array of topics, including practices related to managing individuals, teams and the organization as a whole. Since the management role of a senior executive is substantially different from that of a senior-level manager, the topics in this course will be presented with this transition in mind. So that students gain a well-informed perspective on the nature of a senior executive's role in the organization, there will be numerous guest speakers invited to the course who are already in these types of roles.

Restrictions: Must be enrolled in one of the following Programs: Executive MBA Program Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

MKTG 751 - Marketing Strategy

2 Credit Hours
Good marketing strategy is performance-based and the primary goal of marketing is to generate profits through products and services that satisfy customer needs. Performance-based marketing strategy is intuitively easy but deceptively difficult. While it is easy to describe in some detail the marketing strategies of companies, the analysis that is needed for sound marketing strategies is much more difficult. This Phase 3 course provides a senior management level analysis of the major issues in the marketing management function. Class discussions are used to provide an understanding how companies deliver superior customer value and profitability. Students will have an opportunity to develop strategy analysis and planning skills by applying concepts and methods in case analysis of a variety of U.S. and multinational companies.

Prerequisites: MKTG750

Restrictions: Must be enrolled in one of the following Programs: Executive MBA Program

**MOCT 502 - Creative & Systematic Inquiry**

**MOCT 502 - Creative & Systematic Inquiry**

1 Credit Hours
Graduate seminar designed to produce documents for initial stages of graduate research project in MOCT 501 (i.e. completion of research project prospectus, proposal, and IRB protocol) in collaboration with faculty tutor. Effective group functioning and documentation of research process is also promoted.

Co-requisites: MOCT501, MOCT503, MOCT505, MOCT507, MOCT609

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Occupational Therapy

Levels: Graduate

*College of Professional Sci Occupational Therapy*

**MOCT 503 - Tech for Life Participation II**

**MOCT 503 - Tech for Life Participation II**

2 Credit Hours
Examines the influence of environmental and contextual factors on occupational performance. Describes impact of legislation and public policy on architectural, physical and attitudinal barriers to participation. Reviews service delivery models in occupational therapy including assessment and modification of the environment and application of accommodations to enhance work, home and community participation. Applies principles of universal design, accessible design, and ergonomics. Includes introduction to vocational and industrial rehabilitation.
MOCT 505 - Techniques & Tools for OCTH Pr

3 Credit Hours
Introduction to professional and technical knowledge and skills for practice. Overview of occupational therapy process and therapeutic tools for practice: therapeutic use of self; teaching-learning process; measurement tools. Includes review of documentation and ethical ramifications and pertinent evidence in literature.

MOCT 507 - Professional Issues I

2 Credit Hours
Overview of state, national, and international professional organizations and regulatory authorities; select AOTA official documents; and principles of professional behavior. Emphasis on intraprofessional codes of ethics. Includes development of ethical reasoning.

MOCT 601 - Graduate Research Project I

2 Credit Hours
Implementation of approved research proposal with data gathering according to professional and ethical standards. Continuation of reflective process. Includes initial writing of the final paper.
**Prerequisites:** Graduate level MOCT501 Minimum grade of C and Graduate level MOCT502 Minimum grade of C and Graduate level MOCT503 Minimum grade of C and Graduate level MOCT505 Minimum grade of C and Graduate level MOCT507 Minimum grade of C and Graduate level MOCT609 Minimum grade of C

MOCT 779 - Applied Interprofessional Coll

MOCT 779 - Applied Interprofessional Coll

1 Credit Hours
Interprofessional care recognizes a culture of respect, concisely clear communication, interdependent care for client-centered outcomes, and integration of services through shared decision making. This course will provide students with an opportunity to practice across disciplines in teams to meet the needs of individuals, families and the community.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Occupational Therapy

MUSC 100 - Basic Music Theory

MUSC 100 - Basic Music Theory

3 Credit Hours
Introduction to the rudiments of music theory for non-music majors including basic theoretical aspects of music such as notation of pitch, rhythm, scales, etc. Also emphasizes relationship between theoretical concepts and musical context. Credits may not be applied toward a music major.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Musical Theatre Minor

Levels: Undergraduate
MUSC 101 - Basic Jazz Preparation

2 Credit Hours
The preliminary study of basic jazz theory and practices as well as the analysis, study and exercise of scales, chords, and harmonic usage.

Course Attributes: Africana Studies Minor, Fine Arts Old/Transition Core

Levels: Undergraduate

MUSC 106 - Music In Film

3 Credit Hours
This course traces the history of music in film from silent films to contemporary cinema. Students will learn key vocabulary for describing the use of sound in film and how genres and styles in music relate to corresponding scenes on the silver screen. A recurring theme will be the ways in which songs are used to enhance, comment on, negate, or distract from meaning in cinematic narratives.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

MUSC 108 - Music Love and Death

3 Credit Hours
This course studies American and European music with additional material taken from around the world and mostly of a current nature. The focus is upon the intersection of the human experience of love and death as recorded in music. The student studies popular music from many countries, classical music, contemporary art music, and ancient music, the texts of the music, the social structure that that music was created in, and finally the morals that sit behind the music are all investigated and critiqued. This course fulfills the undergraduate fine arts core requirement and the fourth E/RS course requirement of the core curriculum.

Course Attributes: Creative Perspectives, ERS Focus Elective, Fine Arts Old/Transition Core

Levels: Undergraduate
MUSC 109 - Music, War and Peace

3 Credit Hours
A study of select historical moments from primarily European and American culture as viewed through the lens of music about war and peace. A limited number of international musical excerpts and readings are also included. Musical selections range from antiquity to the present and include serious art music and popular art music of an era. Students critically evaluate the historical record, philosophical attitudes and values embedded in the society about war and peace as presented by the musical works. This course is managed as a seminar that meets the fine arts core requirement.

Course Attributes: Creative Perspectives, ERS Focus Elective, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Music

MUSC 110 - World Music

3 Credit Hours
This course explores music as it exists in many cultures, including Africa, India and Latin America. Emphasis is on traditional and popular music.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Gender & Diversity Studies

Levels: Undergraduate

College of Arts & Sciences Music

MUSC 111 - Music: The Art of Listening

3 Credit Hours
This course helps the student listen to music more perceptively through an understanding of its various elements. Beginning with the basic elements of music (rhythm, melody, harmony, instruments, texture, and form), it examines their use in various musical styles from the Middle Ages to the present day. The course focuses primarily on classical music but may include discussion of popular styles such as Blues, Jazz, Broadway, and Rock, and of music from non-Western cultures.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Music
MUSC 112 - Music: Now!

3 Credit Hours
This course surveys the wide variety of American vernacular music as experienced in contemporary popular culture. This includes the rich heritage of music from the past as well as music from the contemporary music scene (1840 to the present).

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Undergraduate

MUSC 113 - American Popular Music

3 Credit Hours
This course surveys American popular music from the nineteenth century to the present day. Beginning with the minstrel show and the songs of Stephen Foster, it traces the development of dance music, Tin Pan Alley song, Ragtime, Blues, Jazz, Country, and R&B during the first half of the twentieth century, then covers the rise of Rock and Roll in the 1950s and a selection of later styles, such as Folk, British Invasion, Soul, Funk, Disco, Punk, Hip-Hop, and Latin music.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Undergraduate

MUSC 114 - Jazz: American Creative Music

3 Credit Hours
Study of the trends and styles, innovators and influential pioneers, and the evolution of the Jazz idiom in the 20th century.

Course Attributes: Africana Studies Minor, Fine Arts Old/Transition Core
Levels: Undergraduate

MUSC 115 - African-American Music

3 Credit Hours
Survey of Black music styles from the 17th to 20th century; emphasis on African roots of this tradition and historical and socio-cultural contexts that give birth to a Black music tradition.

Course Attributes: Africana Studies Minor, Fine Arts Old/Transition Core, Gender & Diversity Studies

Levels: Undergraduate

College of Arts & Sciences Music

MUSC 116 - Women in Music

MUSC 116 - Women in Music

3 Credit Hours
Historical survey of music by or involving women from medieval period to the present. Emphasis on women composers, but includes women as performers, teachers, patrons, and in the jazz and pop fields.

Course Attributes: Creative Perspectives, Diversity Curriculum Require, Fine Arts Old/Transition Core, Gender & Diversity Studies, GDST Women and Gender Conc

Levels: Undergraduate

College of Arts & Sciences Music

MUSC 117 - History of Rock

MUSC 117 - History of Rock

3 Credit Hours
Defining Rock broadly as a family of styles, the course presents an overview of rock/pop styles from the 1950s to the present. Beginning with Blues, R&B, and Rock & Roll, we will survey (among others) Motown, Soul, British Invasion, Folk Rock, Psychedelic Rock, Progressive Rock, Punk, Metal, Funk, Disco, Reggae, Hip-Hop, Grunge, and Alternative. While the focus will be on the musical styles themselves (i.e., what makes up their '201Csound'201D), we will situate the styles within their historical, social, and cultural context by addressing issues such as race, class conflict, gender roles, and artistry vs. commerce.

Course Attributes: Creative Perspectives, Diversity Curriculum Require, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Music

MUSC 118 - Heavy Metal: Music and Culture

MUSC 118 - Heavy Metal: Music and Culture

3 Credit Hours
Now over 40 years old, Heavy Metal continues to reflect the hopes and fears of its audience - especially its fears - and has sparked more controversy and heated debate than any other genre. We will examine the music itself along with its cultural context; issues such as the impact of music on its listeners, censorship and freedom of expression, the role of women (as fans, artists, and objects of misogyny), sexual liberation, fear of nuclear holocaust, and witchcraft/Satanism will figure prominently. We will examine Metal's emergence around 1970 in bands such as Black Sabbath, Led Zeppelin and Deep Purple, then study styles and issues from the 70's to the present. Bands covered include Judas Priest, Scorpions, Kiss, Iron Maiden, Venom, Motley Crue, Anthrax, Cannibal Corpse and Cradle of Filth.
Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Music

MUSC 121 - Intro To Music Literature I

MUSC 121 - Intro To Music Literature I

.5 Credit Hours
This course surveys the history of Western classical music at an introductory level. For each class meeting students do assigned reading and class time is spent listening to and discussing music with the aid of recordings and scores. This course is limited to freshman music majors.

Restrictions: Must be enrolled in one of the following Majors: Music Must be enrolled in one of the following Classifications: Freshman

MUSC 206 - Techniques of Jazz Improvisation

MUSC 206 - Techniques of Jazz Improvisation

2 Credit Hours
The presentation, examination, practice and exercise of techniques and methods utilized and applied in the execution and performance of improvisational jazz. Includes a summary of theory, form and styles.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music
MUSC 210 - Music History I

3 Credit Hours
This course traces the path of Western classical music from antiquity to the end of the Baroque era around 1750, situating the music in its historical and cultural context. The main objectives of the survey include acquiring the basic facts of music history, understanding its terminology, and identifying the stylistic traits that characterize the various eras, genres, nations, and composers.

Prerequisites: MUSC200

Restrictions: Must be enrolled in one of the following Fields of Study (Major, Minor, or Concentration): Music Music Education

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 211 - Music History II

3 Credit Hours
A continuation of Music History I, this course traces the path of Western Classical music from the early Classical period to the present, situating the music in its historical and cultural context. The main objectives of the survey include acquiring the basic facts of music history, understanding its terminology, and identifying the stylistic traits that characterize the various eras, genres, nations and composers.

Prerequisites: MUSC210

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 221 - Elementary Methods

3 Credit Hours
For music majors or with permission of instructor.

Restrictions: Must be enrolled in one of the following Majors: Music Education

Levels: Graduate Undergraduate

College of Arts & Sciences Music
MUSC 223 - IPA / Lyric Diction

2 Credit Hours
This course is constructed to provide the student with a basic understanding of the vocal apparatus, a basic understanding of phonetics as it applies to singing, a basic understanding of the IPA-both reading and transcribing. This course will help the student develop the critical listening skills necessary for accurate diction. Cultivating proficiency in lyric diction will help the student sing accurately, idiomatically and expressively in English, Italian, German and French, and provide the fundamental tools for approaching repertoire in other languages.

Levels: Undergraduate

College of Arts & Sciences Music

MUSC 252 - Advanced Class Guitar

1 Credit Hours
Group instruction in guitar techniques for the more experienced guitar student.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 259 - XU Men's Chorus

1 Credit Hours
The Xavier University Men's Chorus is designed to be a rewarding challenge for both music majors and non-music majors. The class will consist of weekly rehearsals where everyone's attendance is not just mandatory, but necessary for the success of the ensemble. Most importantly, this class is designed to be a fun musical outlet, which will also expose participants to the fundamentals of choral singing and will open doors to new artistic endeavors.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Undergraduate

College of Arts & Sciences Music
**MUSC 260 - Concert Choir**

1 Credit Hours
The Concert Choir performs four on-campus concerts per year. In addition, the ensemble tours annually and regularly appears in concert with Cincinnati Pops Orchestra, Cincinnati Baroque Orchestra and in combination with local high schools for a bi-annual high school choral festival. By audition only.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music

**MUSC 261 - XU Women's Chorus**

1 Credit Hours
The Xavier University Women's chorus is designed to be a rewarding challenge for both music majors and non-music majors. Levels: Graduate Undergraduate

College of Arts & Sciences Music

**MUSC 263 - Edgecliff Vocal Ensemble**

1 Credit Hours
By audition only-must be in Concert Choir to participate.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music
MUSC 265 - Symphonic Wind Ensemble

1 Credit Hours
The select ensemble performs a wide array of traditional and contemporary literature including the music of Eric Whitacre, Jack Stamp, Krzysztof Penderecki, Aulos Sallinen, David Maslanka, and Ivan Tcherepnin. Past tours have taken the students to such cities as Boston, Chicago, New York, Toronto, and Washington, D.C.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 266 - Chamber Winds

1 Credit Hours
A select ensemble consisting of wind, brass, and percussion. Through the study and performance of original works from the 15th to the late 20th century, students will learn ensemble and chamber music skills.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 267 - Percussion Ensemble

1 Credit Hours
Performs modern literature as well as arrangements of classical repertoire. The group is open to all students by permission of the instructor.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 268 - Guitar Ensemble

1 Credit Hours
Study and performance of music for guitar ensemble from all style periods. Participation with consent of director.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 269 - String Quartet

1 Credit Hours
Small ensembles of various instrumental combinations ranging from two to five players. Performance of standard chamber music literature. Participation with consent of instructor.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 270 - Chamber Orchestra

1 Credit Hours
The orchestra performs works from the Baroque to the 20th century for strings and other instruments. The orchestra presents concerts each semester, frequently in conjunction with the concert choir.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 271 - Jazz Orchestra

1 Credit Hours
Performing all the jazz, funk, rock, and fusion that's fit to play and fun to hear, the jazz ensemble is an elite and contemporary studio jazz band whose repertoire includes custom arrangements and originals from all periods of the jazz spectrum. Appearing at jazz festivals, jazz clubs and other choice venues throughout the Midwest, the jazz ensemble plays authentic jazz for inspired and spirited audiences wherever they perform.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music
MUSC 272 - Pep Band

1 Credit Hours
The student will learn to rehearse, and perform in a 'professional' manner by taking individual responsibility to properly learn his or her part. Students are required to preform at all assigned games.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 273 - Brass Ensemble

1 Credit Hours
The ensemble performs music from the Renaissance period through the Twentieth Century on several programs each semester. It is open to all students by audition.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 275 - Handbell Ensemble

.5 Credit Hours
Participants will learn basic handbell ringing techniques as well as strengthen their sightreading and musicianship skills through independent part reading. The ensemble aims to participate in concerts and worship services sponsored by the University throughout the semester. Ability to read music preferred, but not required. Open to all Xavier students, faculty and staff.

Course Attributes: Creative Perspectives
Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 277 - Piano Ensemble

1 Credit Hours
Piano Ensemble is an academic course of study designed to advance technical and interpretive skills and to artistically perform ensemble compositions of all styles and periods. Public performance is required.

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Music*

**MUSC 278 - Private Lesson: Composition**

**.5 - 1 Credit Hours**

Students begin by studying and creating simple musical works in styles that they have some degree of familiarity with. Works for one or two performers and standard instrumentation and voice categories are studied and applied to the new development of the "creative voice within the individual" and encourages the student to continually develop skills in harmony, melody, rhythm and timbre that will enable that voice to be realized in a written composition and live performance. More advanced students will write for more performers and in varied styles and more varied instrumentation and voices. All students are encouraged to experiment and venture into new areas. It is the creation and recreation (musical score or performance) that is emphasized, not just the discovery of new ideas. Students that wish to pursue traditional avenues of musical composition are expected to develop a high degree of craft. The course is open to music majors, music minors, and talented students of music. Majors or Minors only.

**Restrictions:** Must be enrolled in one of the following Majors: Music Education Music

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Music*

**MUSC 279 - Independent Study**

**1 Credit Hours**

All applied music instruction is offered both Fall and Spring semesters and meets the Fine Arts requirements with three semesters of 1 credit each. All students enrolled in Applied Music will be charged an additional fee per semester for private lessons. Students who wish to take a half hour lesson per week (.5 credit) should register for the 01 section of the applied lesson. Students who wish to take a full hour lesson per week should register for the 02 section.

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Music*

**MUSC 280 - Private Lesson: Piano**

**MUSC 280 - Private Lesson: Piano**

**.5 - 1 Credit Hours**
All applied music instruction is offered both Fall and Spring semesters and meets the Fine Arts requirements with three semesters of 1 credit each. All students enrolled in Applied Music will be charged an additional fee per semester for private lessons. Students who wish to take a half hour lesson per week (.5 credit, $300 for the semester) should register for the 01 section of the applied lesson. Students who wish to take a full hour lesson per week (1 credit, $600 for the semester) should register for the 02 section.

MUSC 282 - Private Lesson: Voice

MUSC 282 - Private Lesson: Voice

.5 - 1 Credit Hours
All applied music instruction is offered both Fall and Spring semesters and meets the Fine Arts requirements with three semesters of 1 credit each. All students enrolled in Applied Music will be charged an additional fee per semester for private lessons. Students who wish to take a half hour lesson per week (.5 credit, $300 for the semester) should register for the 01 section of the applied lesson. Students who wish to take a full hour lesson per week (1 credit, $600 for the semester) should register for the 02 section.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Musical Theatre Minor
Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 283 - Private Lesson: Guitar

MUSC 283 - Private Lesson: Guitar

.5 - 1 Credit Hours
All applied music instruction is offered both Fall and Spring semesters and meets the Fine Arts requirements with three semesters of 1 credit each. All students enrolled in Applied Music will be charged an additional fee per semester for private lessons. Students who wish to take a half hour lesson per week (.5 credit, $300 for the semester) should register for the 01 section of the applied lesson. Students who wish to take a full hour lesson per week (1 credit, $600 for the semester) should register for the 02 section.
MUSC 284 - Private Lesson: Violin

.5 - 1 Credit Hours
All applied music instruction is offered both Fall and Spring semesters and meets the Fine Arts requirements with three semesters of 1 credit each. All students enrolled in Applied Music will be charged an additional fee per semester for private lessons. Students who wish to take a half hour lesson per week (.5 credit, $300 for the semester) should register for the 01 section of the applied lesson. Students who wish to take a full hour lesson per week (1 credit, $600 for the semester) should register for the 02 section.

MUSC 285 - Private Lesson: Viola

.5 - 1 Credit Hours
All applied music instruction is offered both Fall and Spring semesters and meets the Fine Arts requirements with three semesters of 1 credit each. All students enrolled in Applied Music will be charged an additional fee per semester for private lessons. Students who wish to take a half hour lesson per week (.5 credit, $300 for the semester) should register for the 01 section of the applied lesson. Students who wish to take a full hour lesson per week (1 credit, $600 for the semester) should register for the 02 section.

MUSC 286 - Private Lesson: Cello

.5 - 1 Credit Hours
All applied music instruction is offered both Fall and Spring semesters and meets the Fine Arts requirements with three semesters of 1 credit each. All students enrolled in Applied Music will be charged an additional fee per semester for private lessons. Students who wish to take a half hour lesson per week (.5 credit, $300 for the semester) should register for the 01 section of the applied lesson. Students who wish to take a full hour lesson per week (1 credit, $600 for the semester) should register for the 02 section.
MUSC 287 - Private Lesson: Double Bass

.5 - 1 Credit Hours
All applied music instruction is offered both Fall and Spring semesters and meets the Fine Arts requirements with three semesters of 1 credit each. All students enrolled in Applied Music will be charged an additional fee per semester for private lessons. Students who wish to take a half hour lesson per week (.5 credit, $300 for the semester) should register for the 01 section of the applied lesson. Students who wish to take a full hour lesson per week (1 credit, $600 for the semester) should register for the 02 section.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate

MUSC 288 - Private Lesson: Flute

.5 - 1 Credit Hours
All applied music instruction is offered both Fall and Spring semesters and meets the Fine Arts requirements with three semesters of 1 credit each. All students enrolled in Applied Music will be charged an additional fee per semester for private lessons. Students who wish to take a half hour lesson per week (.5 credit, $300 for the semester) should register for the 01 section of the applied lesson. Students who wish to take a full hour lesson per week (1 credit, $600 for the semester) should register for the 02 section.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate

MUSC 289 - Private Lesson: Oboe

.5 - 1 Credit Hours
All applied music instruction is offered both Fall and Spring semesters and meets the Fine Arts requirements with three semesters of 1 credit each. All students enrolled in Applied Music will be charged an additional fee per semester for private lessons. Students who wish to take a half hour lesson per week (.5 credit, $300 for the semester) should register for the 01 section of the applied lesson. Students who wish to take a full hour lesson per week (1 credit, $600 for the semester) should register for the 02 section.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate
MUSC 290 - Private Lesson: Clarinet

.5 - 1 Credit Hours
All applied music instruction is offered both Fall and Spring semesters and meets the Fine Arts requirements with three semesters of 1 credit each. All students enrolled in Applied Music will be charged an additional fee per semester for private lessons. Students who wish to take a half hour lesson per week (.5 credit, $300 for the semester) should register for the 01 section of the applied lesson. Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate
College of Arts & Sciences Music

MUSC 300 - Music Theory III

MUSC 300 - Music Theory III

3 Credit Hours
Continuation of MUSC 202 with special emphasis on harmonic developments during the Romantic period (chromaticism, altered chords).

Prerequisites: Undergraduate level MUSC202 Minimum grade of D
Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate
College of Arts & Sciences Music

MUSC 301 - Aural Skills III

MUSC 301 - Aural Skills III

1 Credit Hours
Advanced sightsinging and ear-training material including sightsinging examples from the standard literature, four part harmonic dictation, and more complex examples of melodic and rhythmic dictation.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate
College of Arts & Sciences Music
MUSC 302 - Music Theory IV

3 Credit Hours
Continuation of MUSC 300. Basic compositional techniques and analysis; twentieth-century harmonic vocabulary.

Prerequisites: Undergraduate level MUSC300 Minimum grade of D

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 303 - Aural Skills IV

1 Credit Hours
Continuation of MUSC 301.

Prerequisites: Undergraduate level MUSC301 Minimum grade of D

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 304 - Producing Electronic Music I

3 Credit Hours
Introduction to hardware and software related to electronic music production, with a focus on music sequencing, digital recording and printing.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core

Levels: Graduate Undergraduate

College of Arts & Sciences Music & Theater

MUSC 305 - Producing Electronic Music II

3 Credit Hours
Continuation of MUSC 304. Advanced studies in computer based composition, orchestration and synchronization of studio hardware/software for commercial music applications. Additional skills will be developed in computer music engraving, digital mixing and editing and master recording production.

**Prerequisites:** Undergraduate level MUSC304 Minimum grade of D

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core

**Levels:** Graduate Undergraduate

_MUSC 306 - Tech Jazz Writing & Arranging_

2 Credit Hours
The presentation, examination, practice and exercise of techniques and methods applied in the organization and creation of jazz writing and arranging.

**Prerequisites:** Undergraduate level MUSC101 Minimum grade of D

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core

**Levels:** Graduate Undergraduate

_MUSC 307 - Jazz Improvisation Workshop_

2 Credit Hours
An in-depth application of jazz improvisation styles to the live performance situation with an emphasis on accumulated repertoire.

**Prerequisites:** Undergraduate level MUSC101 Minimum grade of D or Undergraduate level MUSC206 Minimum grade of D

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core

**Levels:** Graduate Undergraduate

_MUSC 310 - Music History III: Seminar_

3 Credit Hours
An extension of the 2 semester survey (MUSC 210, 211), this course aims to deepen the study of music history by using a series of mostly 20th century operas as a lens through which to address topics that have become central to the study of music during the past few decades, such as high vs. low art, gender and sexuality, emotion, and the canon. The seminar format emphasizes student contributions in the form of discussion of prepared readings, presentations and written work.
**Prerequisites:** MUSC211

**Restrictions:** Must be enrolled in one of the following Majors: Music Education Music

**Course Attributes:** Creative Perspectives, Fine Arts Old/Transition Core, Oral Communication Flag, Writing Flag Core

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Music*

**MUSC 312 - Conducting I**

**MUSC 312 - Conducting I**

3 Credit Hours
Levels: Graduate Undergraduate

*College of Arts & Sciences Music*

**MUSC 319 - Music & Movement for Classrm Tea**

**MUSC 319 - Music & Movement for Classrm Tea**

1 Credit Hours
This workshop is designed to integrate music and movement into the classroom connecting to all subjects through the arts. Multicultural interdisciplinary in structure and interactive. Class members create materials to use in the classroom to extend learning. This workshop is for arts teaching, movement and physical movement for all ages and special interests. A student and performer of the Dalcroze method will present the work of Dalcroze to develop mind and body coordination.

Levels: Graduate Undergraduate

*College of Arts & Sciences Music*

**MUSC 320 - Instrumental Methods**

**MUSC 320 - Instrumental Methods**

3 Credit Hours
Overview of role, and responsibility of music teacher. Vocal, instrumental, and general music education. (For music education majors only)

**Restrictions:** Must be enrolled in one of the following Majors: Music Education Music

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Music*
MUSC 321 - Choral Methods

3 Credit Hours
Emphasis on instrumental and choral methods and materials. Practical guide for the music educator.

Restrictions: Must be enrolled in one of the following Majors: Music Education

Course Attributes: Creative Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 340 - Opera Workshop

1 Credit Hours
An introduction to operatic performance including body movement, vocal and dramatic projection, audition procedures, and the musical and dramatic preparation and performance of operatic repertoire. Permission of instructor required.

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Musical Theatre Minor, Theatre Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 341 - Opera Workshop II

1 - 3 Credit Hours
Continuation of MUSC 340.

Prerequisites: Undergraduate level MUSC340 Minimum grade of D

Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core, Theatre Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Music
MUSC 350 - Functional Piano

2 Credit Hours
Development of basic skills needed for playing accompaniments and harmonizations at the keyboard. Designed for students who wish to teach school music. Permission of instructor required.

Course Attributes: Creative Perspectives
Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 351 - String Techniques

1 Credit Hours
Provides an understanding of techniques and teaching strategies of string instruments. Designed for those interested in teaching music, it will lead toward basic performance competence and pedagogy.

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 352 - Woodwind Techniques

1 Credit Hours
Provides an understanding of techniques and teaching strategies of woodwind instruments. Designed for those interested in teaching music, it will lead toward basic performance competence and pedagogy.

Course Attributes: Creative Perspectives
Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 353 - Brass Techniques

1 Credit Hours
Provides an understanding of techniques and teaching strategies of brass instruments. Designed for those interested in teaching music, it will lead toward basic performance competence and pedagogy.
MUSC 354 - Percussion Techniques

1 Credit Hours
Provides an understanding of techniques and teaching strategies of percussion instruments. Designed for those interested in teaching music, it will lead toward basic performance competence and pedagogy.

Levels: Graduate Undergraduate
College of Arts & Sciences Music

MUSC 380 - Make & Take K-8 Wrld Mus Instr

0 - 2 Credit Hours
Hands-on workshop building and playing simple musical instruments. No musical or technical skills are required. Designed for the general kindergarten to 8th grade classroom teacher. Along with musical activities creative ways of teaching math, science, history, the visual arts, and multi-cultural awareness will be explored.

Levels: Graduate Undergraduate
College of Arts & Sciences Music

MUSC 399 - Independent Study

1 - 3 Credit Hours
Areas of study related to the music field, although not specifically included in the catalog, may be requested by the student and elected with the approval of the instructor and permission of the chair.

Levels: Graduate Undergraduate
College of Arts & Sciences Music

MUSC 400 - Form and Analysis

3 Credit Hours
Areas of study related to the music field, although not specifically included in the catalog, may be requested by the student and elected
MUSC 401 - Orchestration Arranging

3 Credit Hours
The technique of scoring for orchestra, band, and diverse instrumental ensembles.

Prerequisites: Undergraduate level MUSC302 Minimum grade of D
Levels: Graduate Undergraduate

MUSC 402 - Composition

3 Credit Hours
Introduction to creative writing in simple musical forms.

Prerequisites: Undergraduate level MUSC400 Minimum grade of D
Levels: Graduate Undergraduate

MUSC 424 - Private Lesson: Conducting

.5 - 1 Credit Hours
More advanced and in depth study of conducting techniques, score analysis and performance skills.

Prerequisites: MUSC312
Course Attributes: Creative Perspectives, Fine Arts Old/Transition Core
Levels: Graduate Undergraduate
MUSC 426 - Foundations of Music Education

3 Credit Hours
A comprehensive study of Music Education: history, philosophy, theory, and practical application.

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 427 - Contemp Approaches in Music Ed

3 Credit Hours
Introduction to Orff and Kodaly methodology; curricular innovations for all levels of school music, Pre-K - 12.

Levels: Graduate Undergraduate

College of Arts & Sciences Music

MUSC 479 - Independent Study

1 - 3 Credit Hours
Areas of study related to music field, although not specifically included in the catalog, may be requested by the students and elected with the approval of the instructor and permission of chair.

Levels: Graduate Undergraduate

College of Arts & Sciences Music

NEPL 101 - Elementary Nepali I

3 Credit Hours
An introduction to basic language skills through emphasizing the acquisition of high-frequency vocabulary and the development of cultural awareness. This course is ONLY OFFERED to participants in the Service Learning Program in Nepal and will only be offered in Nepal.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages
NEPL 102 - Elementary Nepali II

NEPL 102 - Elementary Nepali II

3 Credit Hours
The second semester elementary course with added emphasis on reading and speaking in the target language. This course is ONLY OFFERED to participants in the Service Learning Program in Nepal and will only be offered in Nepal.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

NURS 130 - Ways of Knowing

NURS 130 - Ways of Knowing

3 Credit Hours
Introduces the student to nursing as a profession. Content includes discussion of the roles of the professional nurse, the scope of practice, nursing history with emphasis on the holism philosophy that emanated directly from Florence Nightingale, professional organizations, ethical/legal rights and responsibilities, and the discipline of holistic nursing practice. Curricular concepts introduced include transition, critical thinking, communication, and nurse as an instrument of healing.

Restrictions: Must be enrolled in one of the following Majors: Nursing Nursing

Course Attributes: Oral Communication Flag

Levels: Undergraduate

College of Professional Sci School of Nursing

NURS 132 - Health and Culture I

NURS 132 - Health and Culture I

3 Credit Hours
Focus on culture and cultural diversity and care as it relates to the universal properties of transition and its relationship to health. The impact of culture on health and magico-religious traditions are explored related to health-wellness-disease-illness and the psychophysiology of body, mind, spiritual healing.

Course Attributes: Africana Studies Minor, Diversity Curriculum Require, EPU, Gender & Diversity Studies

Levels: Undergraduate

College of Professional Sci School of Nursing
NURS 224 - Nurs Therapeutics I: Asmt

4 Credit Hours
Introduction of theoretical frameworks for the holistic assessment of clients experiencing developmental transitions. Major components for holistic assessment including physical, psychological, and spiritual development across the life span are discussed. Lifestyle patterns and habits that maintain healthy living are explored. Components of the therapeutic relationship as they relate to the holistic assessment process are introduced. Emphasis on the client as an active partner in the healing process and attentiveness to one's spirit is examined as critical components of the healing interaction. The role of transpersonal human caring and healing is emphasized with therapeutic relationships. The use of complementary/alternative therapies is introduced. Student must have minimum 2.7 cumulative GPA.

Prerequisites: Undergraduate level BIOL140 Minimum grade of C and Undergraduate level BIOL141 Minimum grade of C and Undergraduate level BIOL142 Minimum grade of C and Undergraduate level BIOL143 Minimum grade of C and (Undergraduate level SOCI101 Minimum grade of C or Undergraduate level SOCI180 Minimum grade of C or Undergraduate level SOCW167 Minimum grade of C) and Undergraduate level NURS130 Minimum grade of C and Undergraduate level NURS132 Minimum grade of C

Co-requisites: CHEM150, CHEM151, NURS225

Restrictions: Must be enrolled in one of the following Majors: Nursing

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 225 - Nurs Therapeutics I:Practicum

2 Credit Hours
Introduction of methods of holistic health assessment for clients across the life span. Emphasis is on health assessment, therapeutic communication skills, relationships, the nursing process and self assessment. Laboratory and beginning field experiences will be provided. Student must have minimum 2.7 cumulative GPA.

Prerequisites: Undergraduate level NURS132 Minimum grade of C

Co-requisites: NURS224

Restrictions: Must be enrolled in one of the following Majors: Nursing

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 230 - Nurs Theapeutics II

4 Credit Hours
An analysis of holistic nursing therapeutics used with individuals experiencing transitions. Promotive, preventive, and interventive strategies including pharmacology, nutrition and integrative therapies are discussed. The research and theoretical bases for the selection
of holistic therapeutics is emphasized. The importance of empowered decision making in selecting appropriate therapeutics to achieve and manage outcomes is discussed. Student must have minimum 2.7 cumulative GPA.

**Prerequisites:** Undergraduate level NURS224 Minimum grade of C and Undergraduate level NURS225 Minimum grade of C and Undergraduate level CHEM150 Minimum grade of C and Undergraduate level CHEM151 Minimum grade of C

**Co-requisites:** BIOL200, BIOL201, NURS231, NURS364

**Levels:** Graduate Undergraduate

*College of Professional Sci School of Nursing*

**NURS 231 - Nurs Therapeutics II Practicum**

2 Credit Hours
Application of holistic promotive, preventive, and interventive nursing therapeutics to be used with individuals experiencing transitions in primary, secondary, and tertiary health care settings. Emphasis is on the development of critical thinking through the use of the nursing process, self assessment, and therapeutic communication. Student must have minimum 2.7 cumulative GPA.

**Prerequisites:** Undergraduate level NURS224 Minimum grade of C and Undergraduate level NURS225 Minimum grade of C

**Co-requisites:** NURS230, NURS364

**Levels:** Graduate Undergraduate

*College of Professional Sci School of Nursing*

**NURS 310 - Independent Study in Nursing**

1 - 3 Credit Hours
Opportunity to pursue a topic or project of individual interest. Student must have minimum 2.7 cumulative GPA.

**Levels:** Graduate Undergraduate

*College of Professional Sci School of Nursing*

**NURS 320 - Professional Development I**

3 Credit Hours
The study of professional nursing and its education and practice as related to the individual nurse. Student must have minimum 2.7 cumulative GPA.

**Levels:** Graduate Undergraduate

*College of Professional Sci School of Nursing*
NURS 325 - Health & Culture II

3 Credit Hours
Focuses on identified cultural groups and how culture influences the values, attitudes, and practices of an individual, family, and group as related to health and caring. Student must have minimum 2.7 cumulative GPA.

Course Attributes: EPU, Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 333 - Health Assessment

2 Credit Hours
Health assessment skills are presented and practiced. Variations for age and culture are included. Family and mental health status assessment tools are used. Six contact hours. Course is open to non-matriculated students. Student must have minimum 2.7 cumulative GPA.

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 360 - Adults in Transitions

4 Credit Hours
Focus on facilitating health outcomes in adults experiencing health-illness transitions in primary, secondary, and tertiary health care settings. Focus on fostering skill in planning, implementing, and evaluating holistic nursing therapeutics used to facilitate health outcomes for adults. The role of the nurse in providing health counseling and education to guide clients in making informed choices for health care is discussed.

Prerequisites: Undergraduate level NURS230 Minimum grade of C and Undergraduate level NURS231 Minimum grade of C and Undergraduate level NURS364 Minimum grade of C

Co-requisites: NURS361

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing
NURS 361 - Adult in Transitions Practicum

4 Credit Hours
Application of promotive, preventive, and interventive holistic nursing therapeutics in adults experiencing health-illness transitions in primary, secondary, and tertiary health care settings. Focus on fostering skill in planning, implementing, and evaluating holistic nursing therapeutics used to facilitate healthy outcomes for adults. Therapeutic presence is emphasized as an essential component of every nursing action. Interventions will assist clients in exploring self-awareness, spirituality, and personal transformation in healing.

Co-requisites: NURS360

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 364 - Pathophysiology

3 Credit Hours
The relationship of normal body functioning to physiological changes associated with dysfunction of an organ or organ system is discussed. General concepts of disease processes are addressed in order to provide rationale for diagnosis and health-illness transitions. Student must have minimum 2.7 cumulative GPA.

Prerequisites: Undergraduate level BIOL140 Minimum grade of C and Undergraduate level BIOL141 Minimum grade of C and Undergraduate level BIOL142 Minimum grade of C and Undergraduate level BIOL143 Minimum grade of C and Undergraduate level CHEM150 Minimum grade of C and Undergraduate level CHEM151 Minimum grade of C

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 370 - Intro to Nursing Research

3 Credit Hours
Focus on the analysis and utilization of nursing research literature to facilitate holistic nursing care of individuals, families, and communities. The use of the principles and methods of research as a means for developing critical reasoning vital to professional judgment is emphasized. Research is examined for evidence based practices that addresses research findings, the nurse's expertise and patient/family preferences. Discussion entails the importance of dissemination of research findings. Student must have minimum 2.7 cumulative GPA.

Prerequisites: Undergraduate level NURS230 Minimum grade of C and Undergraduate level NURS231 Minimum grade of C and (Undergraduate level MATH116 Minimum grade of C or Undergraduate level MATH156 Minimum grade of C)

Course Attributes: Writing Flag Core

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing
NURS 372 - Families in Transitions

4 Credit Hours
Focus on facilitating holistic health outcomes for families experiencing transitions. Family transitions, developmental and situational, through the life-cycle are explored. Issues surrounding health-illness transitions in the family are also discussed. Diversity of family life related to ethnicity/culture is emphasized. The role of the holistic nurse as an educator, consultant, facilitator and partner with the client/s is emphasized. Twelve hours of clinical practicum weekly. Student must have minimum 2.7 cumulative GPA.

Prerequisites: Undergraduate level NURS230 Minimum grade of C and Undergraduate level NURS231 Minimum grade of C and Undergraduate level NURS364 Minimum grade of C

Co-requisites: NURS373

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 373 - Families Transitions Practicum

NURS 373 - Families Transitions Practicum

4 Credit Hours
Application of promotive, preventive, and interventive holistic nursing therapeutics to be used with families experiencing transitions. Experiences provided with families in various stages of development. Skills in assessing, planning, implementing, and evaluating holistic nursing therapeutics for individuals and families are emphasized. Twelve hours of clinical practicum weekly. Student must have minimum 2.7 cumulative GPA.

Prerequisites: Undergraduate level NURS230 Minimum grade of C and Undergraduate level NURS231 Minimum grade of C and Undergraduate level NURS364 Minimum grade of C

Co-requisites: NURS372

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 380 - Reclaim Your Joy: Holistic Hea

NURS 380 - Reclaim Your Joy: Holistic Hea

0 - 1 Credit Hours
This workshop guides participants to reclaim their joy by experiencing their own creativity. Participants examine ways to deal with life in a more effective, inventive, and fulfilling manner. Exploration of the four directions of the medicine wheel, guided meditation, shamanic journeying, nature mandalas, and other areas are covered. Student must have minimum 2.7 cumulative GPA.

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing
NURS 385 - Optimize Your Health & Vitality

0 - 1 Credit Hours
This workshop guides participants in ways to take charge of their health. This course combines eastern and western healing practices and principles to assist participants in maintaining their highest level of wellness. They learn to integrate mind, body, and spirit healing modalities of energy therapy, transformational breath work, guided imagery, shamanic journeying, and herbal and nutritional supplementation to balance and energize their life. Student must have minimum 2.7 cumulative GPA.

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 390 - Leadership & Managing Care

3 Credit Hours
Relates the concepts of management to the management of nursing care. Leadership roles of the nurse in health care delivery system are explored. Student must have minimum 2.7 cumulative GPA.

Prerequisites: Undergraduate level NURS320 Minimum grade of C and Undergraduate level NURS325 Minimum grade of C and Undergraduate level NURS334 Minimum grade of C

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 409 - Student Nurse Internship I

1 Credit Hours
The student nurse internship program is a collaborative agreement between Xavier University and cooperating hospitals. The program is designed to provide students with additional socialization into nursing opportunities and clinical practice in either medical-surgical, critical care, obstetrics, emergency care, perioperative care or pediatrics. Following an orientation period, the student will work along with a preceptor for a 36 - 40 hour week commitment for ten weeks. The student works the preceptor's schedule. Student must have minimum 2.7 cumulative GPA.

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing
NURS 442 - The Community as Partner

3 Credit Hours
This course is designed to introduce students to the skills necessary to assess and critically analyze communities. By utilizing an epidemiologic approach to public health, students will relate cultural influences of communities to current health practices and outcomes. They will explore the contributions of cultural imposition, ethnocentrism, and human rights violations to adverse health outcomes in the U.S. and the world. By examining human beings as inseparable and integral with their environment and their world, students will develop an understanding of holistic nursing principles. From this perspective, students will develop skills to prioritize, and plan culturally sensitive care with an emphasis on health promotion, illness prevention, and social justice. The major concepts to be explored are the nurse leaders' 2019 responsibility in: the assessment of health practices of the community; healthcare resource accessibility; health policy making; and the care and protection of vulnerable populations. This course fulfills the cultural diversity elective requirement. This course is not open to pre-licensure nursing majors. Student must have minimum 2.7 cumulative GPA.

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 443 - NSG Practice & Application II

2 Credit Hours
Health care management and various nursing roles within communities of increasing complexities. Nursing strategies aimed at disease prevention, promotion and restoration of health will be applied to the management of identified community health problems. Six hours of practicum weekly. Student must have minimum 2.7 cumulative GPA.

Co-requisites: NURS442

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 450 - Mental Health Nursing

1 Credit Hours
This course will focus on facilitating holistic healthy outcomes in adults experiencing mental health-illness transitions. Information regarding pharmacological, nutritional, behavioral, and psychiatric interventions which may be prescribed to assist individuals in achieving optimum mental health outcomes is discussed. Student must have minimum 2.7 cumulative GPA.

Prerequisites: Undergraduate level NURS360 Minimum grade of C and Undergraduate level NURS361 Minimum grade of C and Undergraduate level NURS370 Minimum grade of C and Undergraduate level NURS372 Minimum grade of C and Undergraduate level NURS373 Minimum grade of C

Co-requisites: NURS451

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing
NURS 451 - Mental Health Nursing Pract

1 Credit Hours
Application of promotive, preventive, and interventive holistic nursing therapeutics in adults experiencing mental health illness transitions in primary, secondary, and tertiary health care settings. The course focuses on fostering skill in planning, implementing, and evaluating holistic nursing therapeutics used to facilitate optimum mental health outcomes for adults. Student must have minimum 2.7 cumulative GPA.

Co-requisites: NURS450
Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 460 - Women's Health Issues

2 - 3 Credit Hours
A discussion of the health issues affecting women as individuals and as a group. The influence of the existing health care and social structures on women's treatment and perception of illness will be examined. (Open to non-nursing students.) Elective course. Student must have minimum 2.7 cumulative GPA.

Course Attributes: Gender & Diversity Studies
Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 462 - Success Over Stress

3 Credit Hours
This course explores current understandings of the etiologies and triggers, risk factors, manifestations and consequences of acute and chronic stress. Specific content includes current theoretical models of stress and coping, the fight or flight response, immuno-biological manifestations, psychosocial and occupational complications of stress and current evidence based stress management and stress reduction methods. The students will design an individualized stress management plan per the Jesuit philosophy Curas Personalis, by integrating the concepts of mind, body and spirit with the learning done throughout the course and self reflection through journaling activities.

Prerequisites: NURS360 and NURS361 and NURS364 and NURS370 and NURS372 and NURS373
Levels: Graduate Undergraduate

College of Professional Sci School of Nursing
NURS 465 - Care of the Older Adult

2 - 3 Credit Hours
Emphasis placed on the normal aging process and the continuing development of care of the older adult. Health promotion, prevention, diagnosis and treatment, maintenance, and restoration of individuals in their later years. (Open to non-nursing students.) Elective course. Student must have minimum 2.7 cumulative GPA.

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 466 - Expressions of Hope

2 - 3 Credit Hours
Examines expressions of hope and suffering through art, music, history, and the religious values, beliefs and mysteries that surround the needs of the human spirit. Examination of the relevance of issues of faith, hope and the ethical aspects of personal responsibility in sharing in the needs of others. (Open to non-nursing students.) Elective course. Student must have minimum 2.7 cumulative GPA.

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 468 - From Acupuncture-Zinc: Pain Mg

3 Credit Hours
Explores traditional methods of pain management and comfort measures as well as complementary modalities that can be applied to bring about a sense of wellness and calm. (Open to non-nursing students.) Elective course. Student must have minimum 2.7 cumulative GPA.

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 469 - Death: The Universal Experienc

3 Credit Hours
Examine current and past issues related to death and dying. Explore pertinent theories on death and dying, and bereavement care provided to clients and families. Applicable, historical and current perceptions and rituals will be discussed, as well as ethical and spiritual issues. (Open to non-nursing majors.) Elective course. Student must have minimum 2.7 cumulative GPA.
NURS 470 - Community Health Nursing

3 Credit Hours
Focus on communities experiencing common transitions. Community as a client is emphasized. Assessment, planning, intervention, and evaluation of holistic nursing therapeutics appropriate to community outcomes are discussed. The nature of ethical problems, care of the environment and the role of holistic nursing in health care reform is discussed. Student must have minimum 2.7 cumulative GPA.

Prerequisites: Undergraduate level NURS360 Minimum grade of C and Undergraduate level NURS361 Minimum grade of C and Undergraduate level NURS370 Minimum grade of C and Undergraduate level NURS372 Minimum grade of C and Undergraduate level NURS373 Minimum grade of C

Co-requisites: NURS471

Levels: Graduate Undergraduate

NURS 471 - Community Health Nursing Pract

3 Credit Hours
Application of promotive, preventive, and interventive holistic nursing therapeutics to be used with communities experiencing transitions. Practicum experience within community based organization is provided. Community assessment skills, accessing community resources and evaluation of policy are emphasized. The partnership role of the community as the client/teacher with the holistic nurse is emphasized. Student must have minimum 2.7 cumulative GPA.

Prerequisites: Undergraduate level NURS360 Minimum grade of C and Undergraduate level NURS361 Minimum grade of C and Undergraduate level NURS370 Minimum grade of C and Undergraduate level NURS372 Minimum grade of C and Undergraduate level NURS373 Minimum grade of C

Co-requisites: NURS470

Levels: Graduate Undergraduate

NURS 472 - Care of the Complex Client

4 Credit Hours
This course prepares the student to integrate knowledge from all previous courses in emphasizing the interrelatedness of the mind, body, and spirit in order to assess, plan, implement, and evaluate care of the complex client. The various roles of the nurse as a participant within the health care system will be examined. Introduction to health care delivery systems, resource management, and quality improvement will be explored. Student must have minimum 2.7 cumulative GPA.
Prerequisites: Undergraduate level NURS360 Minimum grade of C and Undergraduate level NURS361 Minimum grade of C and Undergraduate level NURS370 Minimum grade of C and Undergraduate level NURS372 Minimum grade of C and Undergraduate level NURS373 Minimum grade of C and NURS450 and NURS451 and NURS470 and NURS471

Co-requisites: NURS473

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 473 - Care of Complex Client Practic

NURS 473 - Care of Complex Client Practic

4 Credit Hours
This course provides experiences enabling the student to participate in the care of the complex client. Management and coordination of care in various health care settings is emphasized. Holistic assessment, intervention, and evaluation are emphasized. The opportunity to practice as a holistic nurse by honoring a client's journey through truly knowing, partnering, and being present with that client. Student must have minimum 2.7 cumulative GPA.

Prerequisites: Undergraduate level NURS360 Minimum grade of C and Undergraduate level NURS361 Minimum grade of C and Undergraduate level NURS370 Minimum grade of C and Undergraduate level NURS373 Minimum grade of C

Co-requisites: NURS472

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 484 - Hispanic Focus Elective

NURS 484 - Hispanic Focus Elective

3 Credit Hours
This course provides an in-depth look into the Hispanic culture and heritage through didactic and field experiences. The student will gain experience in using Spanish language, transcultural nursing skills and holistic care through interactions with Hispanic individuals and communities. Classroom and experiential assignments are designed as upper level nursing courses to promote competence in caring for Hispanic individuals and communities.

Course Attributes: Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Professional Sci School of Nursing

NURS 490 - Analysis of Healthcare Info

NURS 490 - Analysis of Healthcare Info

3 Credit Hours
This course is intended to provide students in healthcare disciplines with a basic knowledge of biostatistical methods utilized in health
The content of this course will assist the student to utilize these biostatistical methods to analyze and interpret pertinent health care research. The healthcare biostatistical methods that will be explored include scales of measurement, presentation of data, measures of central tendency, measures of variability, probability, and descriptive and inferential biostatistical methods. Testing of pertinent healthcare hypothesis and strength of relationships will be explored. Analysis of pertinent healthcare research studies will be conducted. Student must have minimum 2.7 cumulative GPA.

**Levels:** Graduate Undergraduate

*College of Professional Sci School of Nursing*

**NURS 496 - Professnl Developmt Grad Stud**

**NURS 496 - Professnl Developmt Grad Stud**

3 Credit Hours
Using the attributes of a profession as a framework, the current state of nursing as a profession is reviewed in relation to the historical evolution of nursing and associated social and political factors. The attributes of knowledge development and standards for professional behavior (values, ethics, laws, education and practice) and the role of the professional organizations are examined. Professional responsibilities of the holistic nurse are reviewed. Concepts emphasized relate to the nurse as an instrument of healing engaged in a transpersonal human caring process, self care, care of the environment and the global community. Career development as a professional nurse in a changing society is discussed in relation to the state of the profession. Strategies for contributing to the continued development of the profession are discussed. Nursing scholarship is stressed. Student must have minimum 2.7 cumulative GPA.

**Levels:** Graduate Undergraduate

*College of Professional Sci School of Nursing*

**NURS 498 - Senior Seminar**

**NURS 498 - Senior Seminar**

3 Credit Hours
Taken in the final semester, this course focuses on the student’s 2019 transition to entry-level practice. An inspection of personal transitions within the practice of nursing is examined. This capstone course allows the student to explore the educational transition of the program and to anticipate the professional transition into practice. Professional responsibilities of the holistic nurse are reviewed. Concepts emphasized relate to the nurse as an instrument of healing engaged in a transpersonal human caring process, self care, care of the environment and the global community. Students will write a scholarly paper. A seminar course to be taken in the last semester. Student must have minimum 2.7 cumulative GPA.

**Prerequisites:** Undergraduate level NURS360 Minimum grade of C and Undergraduate level NURS361 Minimum grade of C and Undergraduate level NURS370 Minimum grade of C and Undergraduate level NURS372 Minimum grade of C and Undergraduate level NURS373 Minimum grade of C

**Levels:** Graduate Undergraduate

*College of Professional Sci School of Nursing*

**NURS 500 - Health Care Ethcs-Nurse Leadrs**

**NURS 500 - Health Care Ethcs-Nurse Leadrs**

3 Credit Hours
This course examines ethical frameworks, such as theories of justice, rights-based ethics and virtue ethics and their significance to the delivery of health care. Analysis of ethical dilemmas focuses on differentiating what are called traditional and modern ethical frameworks for decision-making. Application will be made within the parameters of nursing's metaparadigm (person, nursing, caring, healing, health, environment) using personal and professional processes of valuing, unconditional acceptance and deciding in the preservation of wholeness and dignity.

2 Credit Hours
This course focuses on methods for doing research of the laws and regulations asserting control over the business and profession of medicine and other healthcare providers. The use of informatics in the research of legal principles derived from controversies involving the medical scientific world, the medical professions, pharmaceutical companies, the health care industry and those who use it is addressed. Summarizing facts gathered from a variety of sources including medical records, diagnostic studies and procedures and expert witnesses into written reports for legal interpretation is reviewed. Includes practice in the location, collection, and presentation of data for legal interpretation.

Restrictions: Must be enrolled in one of the following Levels: Graduate

College of Professional Sci School of Nursing

NURS 630 - Org Behavior for Nursing Leade

NURS 630 - Org Behavior for Nursing Leade

3 Credit Hours
Administrative theory from a macro perspective including organizational structure, culture, leadership, management functions, and power. Theories and research from nursing and related disciplines will be studied.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 632 - Mgmt Processes - Nursing Leade

NURS 632 - Mgmt Processes - Nursing Leade

3 Credit Hours
Position of the nurse administrator within the complex organizational structure of health care systems (a micro perspective) The role of the nurse administrator in planning, decision making, and change is explored.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing
NURS 634 - Nurs Admin In Complex Health

3 Credit Hours
Building on content from prior courses, the focus of this course is on the holistic nurse administrator as a leader within complex health care systems at the mesosystem level. The role of the nurse administrator is explored with an emphasis on organizational theory, culture and structure, systems, leadership, strategic visioning, change, influencing behaviors, succession planning, mentoring, resource management and influences of the external and internal environment. Organizational theory and research findings from nursing and related fields are used to promote research based administrative practice. With an interdisciplinary focus and application of leadership concepts, legal and ethical concepts, project management, outcomes, safety, quality management, and stakeholder satisfaction will be examined. External regulations and reporting requirements will be discussed.

Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate

College of Professional Sci School of Nursing

NURS 636 - Financial Mgmt for Nursing Adm

2 Credit Hours
Fiscal accountability: cost accounting, budgeting and cost benefit and effectiveness analysis.

Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate

College of Professional Sci School of Nursing

NURS 640 - Foray into Forensic Nursing

2 Credit Hours
An exploration into a new specialty area of practice for registered nurses. Forensic role behaviors in several settings will be identified, and the role of the forensic nurse specialist will be introduced. This course will explore practice issues within the subspecialties of sexual assault nurse examiner, child abuse specialist, elder abuse specialist, battered woman specialist, psychiatric forensic examiner, and legal nurse consultant.

Restrictions: Must be enrolled in one of the following Levels: Graduate
Levels: Graduate

College of Professional Sci School of Nursing
NURS 642 - Psycho/Social/Legal Forensics

2 Credit Hours
A comprehensive examination of the behavior, emotional responses, and cognitive decision-making of both victims and perpetrators of crime. Elements of victimology as well as the psychosocial ramifications of the criminal act on the person, the family, and the community will be explored. The expanded role of the psychiatric forensic nurse will be explored.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 646 - Violence as a Healthcare Issue

3 Credit Hours
This course examines the ethical and legal responsibilities of healthcare providers and agencies working with populations at risk for interpersonal violence. Emphasis will be placed on the forensic role behaviors of the nurse specialist dealing with child abuse, elder abuse, and domestic violence.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 648 - Found of Forensic Nursing

4 Credit Hours
This course provides an evidenced-based practice (EBP) framework for nursing care of forensic population, their families as well as communities impacted by acts of violence and/or traumatic events. The EBP framework incorporates empirical and theoretical aspects from a multidisciplinary perspective in the planning and delivering nursing care. This course is intended to prepare nursing graduate students for further studies in various clinical roles such as Sexual Assault Nurse Examiner, Forensic Psychiatric Nurse, Legal Nurse Consultant, Forensic Nursing Death Investigator and/or Nurse Coroner.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing
NURS 650 - Art & Sci of Adv Nursing

6 Credit Hours
This course prepares the student to integrate knowledge from all previous courses emphasizing the interrelatedness of the mind, body, and spirit. Emphasis is placed on advanced nursing assessment of the whole person including physiologic, psychologic, cultural, social/family, spiritual and quality of life impact due to illness. Chronic illness models of care are studied along with end of life care with symptom management. Emphasis is on preservation of physiologic integrity and human dignity of person and families. Evidence-based practice models are used to identify the best practice in the care of the complex client and family.

Prerequisites: Graduate level NURS564 Minimum grade of C

Co-requisites: NURS651

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Nurse Leader Forensics Healthcare Law Nursing Administration Nursing Education Nursing School Health Nurse

Levels: Graduate

College of Professional Sci School of Nursing

NURS 651 - Art & Sci Adv Nurs Practicum

3 Credit Hours
This course provides students intense opportunities to collect a comprehensive health history and perform health assessment for individuals from diverse heritages across the lifespan and experience in recording and communicating a comprehensive health history. Students participate in the care of complex clients and manage and coordinate culturally competent client/family care in various healthcare settings. Holistic assessment, intervention, and evaluation are emphasized. There is opportunity to practice as a holistic nurse by honoring a client’s journey through truly knowing, partnering, and being present with that client. Utilizes evidence-based practice to select the best practice.

Prerequisites: Graduate level NURS565 Minimum grade of C

Co-requisites: NURS650

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Nurse Leader Forensics Healthcare Law Nursing Administration Nursing Education Nursing School Health Nurse

Levels: Graduate

College of Professional Sci School of Nursing

NURS 652 - Art & Sci of Psych Nursing

2 Credit Hours
This course focuses on the holistic assessment, planning and treatment of clients with acute mental illnesses in hospital settings and chronic mental illnesses in community settings. Knowledge, skills and abilities to provide high quality services and high-performance
transformational leadership in public mental health that lead to consistency of services across settings for diverse populations is emphasized. Best mental health practice based on rigorous scientific evidence, formal consensus by a group of experts and quantitative and qualitative research evidence are examined.

**Prerequisites:** Graduate level NURS562 Minimum grade of C

**Co-requisites:** NURS653

**Restrictions:** Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Nurse Leader Forensics Healthcare Law Nursing Administration Nursing Education Nursing School Health Nurse

**Levels:** Graduate

*College of Professional Sci School of Nursing*

**NURS 653 - Art & Sci of Psych Nurs Pract**

**1 Credit Hours**
Assess holistic mental health care in a variety of settings providing mental health care in the public sector to determine consistency of care, access to and availability of care. Assess clients/families mental health to plan and provide culturally competent care. Evidence-Based Practices salient to persons recovering from mental illness will be stressed during the students' 2019 practicum experiences. Students spend 18 hours of practicum weekly for 4 weeks.

**Prerequisites:** Graduate level NURS563 Minimum grade of C

**Co-requisites:** NURS652

**Restrictions:** Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Nurse Leader Forensics Healthcare Law Nursing Administration Nursing Education Nursing School Health Nurse

**NURS 654 - Advanced Pharmacology**

**2 Credit Hours**
This course assumes knowledge of basic pharmacology and focuses on advanced pharmacology and the role of the advanced practice nurse in pharmacotherapeutics. Advanced clinical application of drug therapy and concepts relating to the mechanisms of drug actions, interactions, and adverse reactions, including immunologic-idiopathic and allergic drug responses. Emphasis is on pharmacotherapeutics and cultural/ethnic considerations. This course uses an evidence-based framework to example pharmacotherapeutics and professional nursing practice.

**Prerequisites:** Graduate level NURS560 Minimum grade of C

**Restrictions:** Must be enrolled in one of the following Levels: Graduate Must be assigned one of the following Student Attributes: MIDAS Nursing Program

**Levels:** Graduate

*College of Professional Sci School of Nursing*
NURS 656 - Advanced Pathophysiology

2 Credit Hours
Emphasis is on pathophysiology as it relates to adverse effects and illnesses in persons having acute, chronic and long-term health care problems. Knowledge of pathophysiology is used to predict illness progression and response to therapy which is used to guide and teach patients and families regarding care with respect of the uniqueness of the person.

Prerequisites: Graduate level NURS554 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be assigned one of the following Student Attributes: MIDAS Nursing Program

Levels: Graduate

College of Professional Sci School of Nursing

NURS 658 - Advanced Clinical Pharmacology

3 Credit Hours
This course assumes basic knowledge of pharmacology and focuses on advanced pharmacology and the role of the clinical nurse leader on pharmacotherapeutics. Advanced clinical application of drug therapy and concepts relating to the mechanisms of drug actions, interactions, and adverse reactions, including immunologic-idiiosyncratic-allergic drug responses will be explored. Emphasis is on pharmacotherapeutics and cultural/ethnic considerations. Current pharmacologic research is also incorporated in the course.

Prerequisites: NURS680

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 660 - Adult Learner in Healthcare Or

3 Credit Hours
Emphasis is on Advanced Pathophysiology clinical problem-solving as it relates to adverse effects and illnesses in persons having acute, chronic and long-term health care problems. Knowledge of pathophysiology is used to predict illness progression and response to therapy, which is used to guide and teach patients and families regarding care.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing
NURS 662 - Adv Technology & Simulation

2 Credit Hours
This course is designed for the educator who will be incorporating human patient simulation into educational programs. The course investigates the use of simulation training in health care, capabilities of human patient simulators and programming skills and techniques. The course will lead participants to understand how to implement simulation training into current and new educational opportunities.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 664 - Teaching Strategies

2 Credit Hours
This course provides the student with information concerning the selection and utilization of pertinent teaching strategies that can be used with adult learners pursuing knowledge within the healthcare environment. The student will obtain knowledge concerning how these teaching strategies can be used in this endeavor as well as the advantages and disadvantages of each. Selection of appropriate teaching strategies will be explored in relationship to learning styles and information to be presented. Evaluation means to ascertain the effectiveness of each strategy will also be presented.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 670 - Roles of the Nurse Educator

3 Credit Hours
This course provides the student with necessary information needed to pursue the holistic nurse educator role. After completion of this course the student will be able to function as either nursing faculty or corporate/staff educators. Major areas of responsibility for both the nursing faculty member as well as the corporate/staff educator will be explored. These include the need to pursue service, teaching in both clinical and didactic and scholarship. Other areas of responsibility that will be covered include curriculum development, mentoring, advisement, methods to evaluate students, development of institutional policies and procedures, preparation of a budget for pertinent educational endeavors, marketing of offerings, application for continuing education and maintenance of necessary records. The planning, development, and evaluation of educational offerings will also be presented.

2 Credit Hours
This course is designed for application of theory and principles from all previous courses, with particular emphasis in the area of concentration (administration, forensics, informatics, education, school nursing etc.). Individually modified course objectives, supervised experiences, periodic seminar discussions, and written practicum logs are methods used to facilitate the learning experience.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 707 - School Nurse Practicum

3 Credit Hours
This course is designed as the third practicum course for students in the school nurse licensure program. It is expected that knowledge, principles and values gained from NURS 520, NURS 703, and NURS 705 will continue to be applied in NURS 707; additional skills and knowledge are added through continued synthesis and application of theory and principles from previous practicum courses and didactic courses required for school nurse licensure. Students will apply research principles taught in NURS 502 Nursing Research, to the appraisal of school health needs, and utilize content taught in EDAD 660 Curriculum Design & Teaching Strategies to design and implement health care programs. And, through communication and collaboration with others, students will establish and maintain comprehensive school health programs.

Prerequisites: NURS502 and NURS520 and NURS703 and NURS705 and EDSP500 and EDAD660

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing
NURS 709 - Graduate Nursing Practicum III

2 - 4 Credit Hours
This course is designed for synthesis and application of theory and principles from all previous courses, with particular emphasis in the area of concentration (administration, forensics, informatics, education, school nursing, etc.) Students will develop objectives specific for their concentration and their clinical agency experience.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 750 - Nursing Perspectives III

3 Credit Hours
This course focuses on theories, concepts, and strategies vital to the successful practice of the professional nurse and clinical nurse leader (CNL) in caring for diverse populations in complex healthcare systems. Strategies to enhance interprofessional communication, holistic collaborative practice, and career and professional development are addressed.

Prerequisites: Graduate level NURS650 Minimum grade of B

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 752 - Com Nurs/Pub Hlth Policy

4 Credit Hours
Provides students with exploration of the four key nursing modes in the community: community-oriented nursing practice, public health nursing, community health nursing practice and, community-based nursing practice. Promotion of health, prevention of disease in the context of a culturally diverse population is studied. Equally emphasized are the effects of changing governmental roles and structures on healthcare and the nurse’s role in the political process with the goal of nurses shaping nursing practice. The nature of ethical problems, care of the environment and the role of holistic nursing in health care reform is discussed. Use of the nursing process to assess aggregates and communities, and to intervene through health education, advocacy, and with epidemiologic methods is emphasized.

Co-requisites: NURS753

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing
NURS 753 - Com/Pub Hlth Nurs Practicum

2 Credit Hours
Provides opportunities to assess and analyze the needs and strengths of communities and populations using various community/assessment Frameworks/Models. The nursing process is used as one example of an organizing framework applied to community-oriented nursing, i.e. showing the connection between population health and individual care -2013 as is often the need with minority populations, the growing Hispanic and African populations in the Greater Cincinnati area. The partnership role of the community as the client/teacher with the holistic nurse is emphasized. The focus is on primary prevention and culturally competent health care management using evidence -2013based practices to achieve desired goals and politics and public health policy as advocacy tools.

Co-requisites: NURS752

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 754 - Ldrshp/Management Concepts

3 Credit Hours
This course focuses on leadership and management concepts that are essential for holistic nurse leaders at various levels throughout the healthcare organization. The focus is to prepare holistic nurse leaders for collaborative practice in complex healthcare organizations through examination and application of effective leader behaviors.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 756 - Advanced Health Assess RN

3 Credit Hours
This course prepares nurses to conduct and communicate accurately comprehensive holistic, health assessments for clients and families across the lifespan. The students will learn how to perform, organize, analyze and document complete physical, psycho-social assessments. As part of health assessment the student will identify pertinent health and potential health issues including the cultural, occupational, and environmental factors integral to those issues. The student will define appropriate health preventive and maintenance strategies to address common and complex health care concerns within an evidence-based practice framework. In addition to didactic and online discussions, students will practice advanced physical assessment skills in simulation laboratories and clinical setting under the guidance of preceptors.

Prerequisites: NURS680

Restrictions: Must be enrolled in one of the following Levels: Graduate
**NURS 764 - Administrative Informatics**

3 Credit Hours
The focus of this course is to prepare holistic nurse leaders to analyze current and emerging technologies within a microsystem and mesosystem that support safe practice environments, optimize patient safety, reduce risk and promote desired clinical outcomes. Integrate administrative decision making within an informatics systems lifecycle model. Technology policies and procedures that incorporate ethical, administrative and complexity principles for regulatory, accreditation and payer requirements will be critiqued.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

**College of Professional Sci School of Nursing**

**NURS 770 - Primary Care Fam Pract Role**

3 Credit Hours
This course is foundational to the Family Nurse Practitioner curriculum. Within this course the student will utilize family and holistic theories needed to provide family-centered nursing care to families across the life span. This course will prepare the student to assist the family in improving or maintaining health for all members in diverse populations. Other key principles to be examined are the impact of acute/chronic or common illnesses on the family and methodologies used to promote self-care within families, particularly with family members with disabilities. Students will be prepared to provide holistic care to families experiencing transition across the lifespan. The impact of professional organizations, key leadership and management principles will be examined in relation to the care provided within a complex global healthcare area. Students must be admitted to the FNP track in order to enroll in this course.

**Prerequisites:** NURS501 and NURS502

**Co-requisites:** NURS775, NURS776

**Restrictions:** Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: FNP PC Indiv/Fam/Life Span FNP PC Indiv/Fam/Life Span

**Levels:** Graduate

**College of Professional Sci School of Nursing**

**NURS 771 - Childbearing Family Care Pract**

3 Credit Hours
The purpose of this course is to provide the Family Nurse Practitioner student the opportunity to apply concepts of holistic family-centered, community-based care to families including a focus on the specific periods of transition during the childbearing years.
Students will engage in comprehensive assessment, development of differential diagnosis, and management of common health variations including appropriate prescription medications. Students will employ current evidenced-based practice strategies to provide safe, holistic, patient-centered care. Students will work collaboratively with other inter-professional healthcare providers to provide family-centered primary, secondary, and tertiary prevention to childbearing families across the lifespan. Students will apply the components of artistic nursing practice to childbearing families within an Ignatian and holistic worldview.

**Prerequisites:** NURS680 and NURS756 and NURS658 and NURS770

**Co-requisites:** NURS772

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

**Levels:** Graduate

*College of Professional Sci School of Nursing*

**NURS 772 - Childbearing Family Care**

**NURS 772 - Childbearing Family Care**

**3 Credit Hours**

The purpose of this course is to prepare the Family Nurse Practitioner student to provide holistic family-centered, community-based care to families including a focus on the specific periods of transition during the childbearing years. Key psychosocial influences will be examined related to care provided for women and men in the context of reproductive health, a complex healthcare system, and the wider global community. Focused areas of study will include relevant reproductive physiology, advanced physical assessment, the range of concerns specific to women's health including the pharmacodynamics and pharmacokinetics that can affect pregnant, lactating women and their infants. Students will engage in comprehensive assessment, development of differential diagnosis and management of common health variations including appropriate prescription medications. The course will prepare the student to work collaboratively with other interprofessional healthcare providers to provide family-centered primary, secondary and tertiary prevention to childbearing families across the lifespan. Students will explore the components of an artistic nursing practice to the family throughout their childbearing years while considering an Ignatian and holistic worldview.

**NURS 773 - Ped & Adol Health Care Pract**

**NURS 773 - Ped & Adol Health Care Pract**

**1 Credit Hours**

The purpose of this course is to prepare the Family Nurse Practitioner student to apply concepts of holistic family-centered, community-based care to families with infants, children, and adolescents. Students will engage in comprehensive assessment, development of differential diagnosis, and management of common health variations including the prescription of appropriate medications. Students will work collaboratively with other inter-professional healthcare providers to provide family-centered primary, secondary, and tertiary prevention to infants, children, adolescents, and their families. Focused areas of study will include relevant pediatric pathophysiology, advanced physical assessment, the range of health concerns specific to newborns, infants, children, and adolescents including pharmacodynamics and pharmacokinetics. Students will apply the components of an artistic nursing practice to infants, children, adolescents and their families within an Ignatian and holistic worldview.

**Prerequisites:** NURS680 and NURS756 and NURS658 and NURS770
NURS 775 - Adult & Geriatric Fam Care Pra

1 Credit Hours
The purpose of this course is to prepare the Family Nurse Practitioner student to provide holistic family-centered, community-based care experiencing acute and chronic health problems common to adult and geriatric patients. Students will engage in comprehensive assessment, development of differential diagnosis, and management of common health variations including appropriate prescription medications. Students will employ current evidence based practice strategies to provide safe, holistic, and cost effective care to the adult and geriatric patient in a variety of healthcare settings. Students will work inter-professionally to provide family-centered care including primary, secondary and tertiary prevention. Students will apply the components of artistic nursing practice to adult and geriatric clients and their families within an Ignatian and holistic worldview.

Prerequisites: NURS770

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

NURS 776 - Adult & Geriatric Family Care

3 Credit Hours
This course is designed to prepare the Family Nurse Practitioner with a theoretical and practice foundation of acute and chronic health care problems common to adult and geriatric patients. Emphasis is placed on health promotion, prevention, assessment, diagnosis, and interprofessional management strategies. Students use evidence-based care and clinical guidelines to provide safe, holistic and cost effective care to the adult and geriatric patient in variety of healthcare settings.

Prerequisites: NURS658 and NURS680 and NURS756

Co-requisites: NURS770, NURS775

Levels: Graduate
NURS 777 - FNP In Practice

2 Credit Hours
The purpose of this course is to provide a culminating immersion experience for the Family Nurse Practitioner student. Students will provide holistic patient/family-centered, community-based care across the lifespan in a selected primary care setting. Students will integrate advanced interprofessional skills and knowledge through collaboration with non-nursing health professionals in performing advanced physical assessment, diagnosis, and care management for individuals and families.

Prerequisites: NURS658 and NURS680 and NURS756 and NURS770 and NURS771 and NURS772 and NURS773 and NURS774 and NURS775 and NURS776

Co-requisites: NURS778

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 778 - FNP Integration Seminar

1 Credit Hours
The purpose of this course is to provide Family Nurse Practitioner (FNP) students with an opportunity to integrate all aspects of advanced nursing practice in preparation for independent FNP practice. Within this course students will explore leadership and management concepts related to the FNP role; discuss current political, legislative, economic and financial issues influencing health care and advanced nursing practice; analyze safe, effective and efficient health care delivery models, and develop strategies to advocate for high quality, ethical patient/family centered health care delivery across the lifespan. This final course will prepare FNP students to take a national FNP certification examination.

Prerequisites: NURS658 and NURS680 and NURS756 and NURS770 and NURS771 and NURS772 and NURS773 and NURS774 and NURS775 and NURS776

NURS 855 - CNL Leadership Scholarly Proj

NURS 855 - CNL Leadership Scholarly Proj

2 Credit Hours
This course requires the student to demonstrate mastery of the knowledge and behaviors expected of a clinical nurse leader. This course is the implementation and evaluation of an outcomes study that addresses a quality and safety patient care delivery issue proposed in a previous course. The outcome of this course is the scholarly project presented by the student as a demonstration of their scholarly progression through their course of study. Project management skills are demonstrated as the CNL provides leadership for ensuring interprofessional and holistic care for individual and community clients. As a capstone course, demonstration of synthesis of previous course work is expected.

Co-requisites: NURS853

Levels: Graduate

College of Professional Sci School of Nursing

NURS 864 - Epidemiologic Methods

NURS 864 - Epidemiologic Methods

3 Credit Hours
Principles and biostatistical methods used in the study of the distribution and determinants of injury and disease through the interaction of environment and genetics in human populations (HP2020) are presented for use in the holistic development, implementation, and evaluation of primary, secondary and tertiary preventive and acute health care services in a variety of settings. Resources for epidemiological investigations within organizations and communities are introduced. Opportunities are provided to use the epidemiological and biostatistical methods of reasoning for determining causal inferences about the distribution and determinants of injury and disease (HP2020). Evidence-based innovative and evaluative health care delivery plans for clinical prevention and population health are developed using epidemiological and biostatistical data.

Prerequisites: NURS502

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci School of Nursing

NURS 900 - DNP Foundations

NURS 900 - DNP Foundations

3 Credit Hours
This course is foundational to the Doctor of Nursing Practice (DNP) curriculum and facilitates the dynamic interplay that will occur throughout the curriculum between faculty and students as they progress on their journey of discovery. The goal of this course is
to build a comprehensive perspective for students regarding the DNP role and its function within the complexities of present and future health care and the wider global community. The scientific and philosophical underpinnings of the discipline will be examined along with traditional and contemporary conceptual models. Students will explore the components of an ethical and artistic nursing practice while considering an Ignatian and holistic worldview.

Restrictions: Must be enrolled in one of the following Programs: Doctor of Nursing Practice

Levels: Graduate

*College of Professional Sci School of Nursing*

**NURS 902 - Adv Evidence Based Practice**

**3 Credit Hours**

As a course that supports an essential element of advanced nursing practice within the Doctor of Nursing Practice curriculum, the goal of the course is to provide an opportunity to explore frameworks within which to examine translation of evidence into nursing practice. Critical appraisal of scholarly literature for support of best practices will be a focus of the course. Synthesis of knowledge using theories, models, and strategies for translating evidence into practice within a holistic, ethical, and artful nursing practice will continue the focus of the course within which translational science is explored. Students will integrate systems thinking with innovations that support positive patient care outcomes. Exploring the transformation of a culture that will accept proposed changes in practice is also component of the course.

Prerequisites: NURS900

Restrictions: Must be enrolled in one of the following Programs: Doctor of Nursing Practice

Levels: Graduate

*College of Professional Sci School of Nursing*

**NURS 903 - Leadership in Complex Systems**

**4 Credit Hours**

This course is designed to enhance leadership skills to strengthen practice and health care delivery to individuals and populations. Care delivery models in complex healthcare systems will be explored from a framework of contemporary nursing science that is consistent with ethical, holistic nursing and healthcare goals to eliminate health disparities and lead changes that will promote safety and quality outcomes. The course will encompass in-depth analysis of select concepts or topics using an analytic framework, including advanced communication and collaboration skills, innovation and quality.

Prerequisites: NURS900 and NURS902

Restrictions: Must be enrolled in one of the following Programs: Doctor of Nursing Practice

Levels: Graduate

*College of Professional Sci School of Nursing*
NURS 904 - Application Adv Research

3 Credit Hours
This course prepares the doctor of nursing practice student with the knowledge and skills of advanced research design and statistical methods for the translations of research to practice. A holistic approach to nursing care within an evidence based practice framework serves as the context to understand advanced qualitative and quantitative research design and appropriate analysis of healthcare data. The ethics of clinical research will be considered from a Jesuit tradition perspective.

Prerequisites: NURS900 and NURS902

Restrictions: Must be enrolled in one of the following Programs: Doctor of Nursing Practice

Levels: Graduate

College of Professional Sci School of Nursing

PHIL 100 - Ethics as Intro to Philosophy

PHIL 100 - Ethics as Intro to Philosophy

3 Credit Hours
An introduction to philosophical thought by way of Plato's Republic and other readings in moral philosophy. Special emphasis on justice.

Levels: Undergraduate

College of Arts & Sciences Philosophy

PHIL 200 - Philosophical Perspectives

PHIL 200 - Philosophical Perspectives

3 Credit Hours
An investigation of fundamental human questions by way of classic works of philosophy.

Prerequisites: PHIL100 or CORE105

Course Attributes: Philosophy Perspectives

Levels: Undergraduate

College of Arts & Sciences Philosophy
PHIL 290 - Theory of Knowledge

3 Credit Hours
An introduction to philosophical questions regarding knowledge, truth, and science by way of Descartes's Discourse on Method and other texts.

Prerequisites: Undergraduate level PHIL100 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 300 - Origins of Philosophy

3 Credit Hours
A study of the revolution in thought which created philosophy and science in ancient Greece. Pre-socratic philosophers and Sophists.

Prerequisites: PHIL100 and ( PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 301 - Ancient Philosophy

3 Credit Hours
A survey of Ancient Greek Philosophy, with emphasis on Plato and Aristotle.

Prerequisites: PHIL100 and ( PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 302 - Medieval Christian Philosophy

3 Credit Hours
A survey of the central medieval Christian philosophers from Augustine to Ockham.

Prerequisites: PHIL.100 and (PHIL.290 or PHIL.200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 303 - Hellenistic Philosophy

3 Credit Hours
A survey of the major Hellenistic Schools in their historical context, including Epicureanism, Stoicism, Skepticism, and Neo-Platonism.

Prerequisites: PHIL.100 and (PHIL.290 or PHIL.200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 304 - Early Modern Philosophy

3 Credit Hours
Seventeenth and eighteenth century philosophers; conflict of ancients and moderns; response of moderns to each other on system, nature, knowledge, method, morals.

Prerequisites: PHIL.100 and (PHIL.290 or PHIL.200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 305 - Contemporary Philosophy

3 Credit Hours
A treatment of philosophical movements and issues in the new millennium.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 306 - 20th Cent Continental Phil

3 Credit Hours
One or more of the important continental philosophical movements in the twentieth century, such as phenomenology, existentialism, Marxism, post-structuralism.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 307 - 20th Century Analytic Phil

3 Credit Hours
An examination of the movements in analytic philosophy of the past century, including the rise of logical and linguistic analysis and logical positivism.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 308 - Late Modern Philosophy

PHIL 308 - Late Modern Philosophy

3 Credit Hours
Nineteenth century philosophers. A study of the primary sources from Hegel to Nietzsche, with emphasis on continental philosophy and the consequences of Kant's thought.

Prerequisites: PHIL100 and ( PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 309 - Medieval Islamic Phil & Influe

PHIL 309 - Medieval Islamic Phil & Influe

3 Credit Hours
The course treats the main figures in the '201Cgolden age'201D of Islamic philosophy, namely, Al-Farabi, Ibn Sina (Avicenna), Al-Ghazali, and Ibn Rush'd (Averroes). It also examines how their philosophies influenced and were developed by medieval Jewish and Christian thought.

Prerequisites: PHIL100 and ( PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 310 - Existentialism

PHIL 310 - Existentialism

3 Credit Hours
A study of authors such as Kierkegaard, Dostoyevsky, Nietzsche, Unamuno, Jaspers, Heidegger, Sartre, Marcel, and Camus who have investigated what it means to be an existing individual.

Prerequisites: PHIL100 and ( PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 311 - Logic

3 Credit Hours
An introduction to formal logic (the study of necessary or deductive reasoning) in historical context. Both classical syllogistic logic and modern symbolic logic will be examined in connection with broader philosophical questions about the nature of thought, language, and reality.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 315 - Philosophy of Religion

3 Credit Hours
Study of classic philosophical texts on religion, addressing topics such as philosophical criticisms of religious belief, attempts to prove God's existence, the problem of evil, the problem of divine foreknowledge and human freedom, and religious language.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 317 - Philosophy of Human Nature

3 Credit Hours
The principal philosophical topics relating to the nature of the human being, such as life, intellection, freedom, personhood, and community.

Prerequisites: PHIL100 and THEO111 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 318 - Philosophy of Sex

PHIL 318 - Philosophy of Sex

3 Credit Hours
The course will focus on whether there is a natural purpose or teleology to human sexuality, and, if so, what it is. Is there a natural hierarchy of goods to be gained from human sexuality, or are all pleasures from human sexuality equal? The course will be divided into two parts: a naturally teleological view of sexuality in Plato, Aristotle and Aquinas; a non-teleological view of human sexuality in Freud, Firestone and Foucault; the non-teleological view will be introduced by passages from Descartes that were read in the PHIL 200 course.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 319 - Reason and Desire

PHIL 319 - Reason and Desire

3 Credit Hours
A consideration of different conceptions of human desire in Classical and Modern philosophers. Among the questions to be addressed are the general relation between reason and desire, whether we can act from reason instead of from desire, and whether we can, or should, control what desires we have.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 320 - Philosophy of Science

PHIL 320 - Philosophy of Science

3 Credit Hours
A study of philosophical problems arising out of the presuppositions, methods and results of the natural sciences, focusing particularly on the effectiveness of science as a means for obtaining knowledge.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 321 - Business Ethics

3 Credit Hours
Case studies of several critical issues in business, analyzed according to the contemporary context and ethical principles.

Prerequisites: PHIL100 and THEO111 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 323 - Markets & Morals

3 Credit Hours
This course will explore the philosophical, especially the ethical, foundations of modern commerce and economics, raising questions about the limits, advantages and disadvantages of "market" forces in social life. We explore how thinkers such as Mandeville, Hume, Smith, Ricardo, and Malthus apply the concept of a market to topics such as manners, currency, trade, scientific invention, education, land use, population, national defense and religion.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 328 - Existentialist Phenomenology

3 Credit Hours
This course examines the origins of the rigorous description of existential phenomena - including perception, knowledge, passivity, the body, finitude, death, and intersubjectivity - in the early 20th century phenomenological tradition of its founder Edmund Husserl and his student Martin Heidegger. Then the mid-20th century French existentialist appropriation of these phenomenological themes will be critically studied in some of the shorter works of, among others, Jean-Paul Sartre and Maurice Merleau-Ponty.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 329 - Bioethics

3 Credit Hours
Moral issues arising in health care delivery, including social policy as well as clinical problems.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 331 - Philosophy and Literature

3 Credit Hours
This course explores the relation between philosophy and literature, and the way they shape our worldview. It includes the study of philosophical interpretations of various literary genres.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 333 - Phil Art-Beauty (Aesthetics)

3 Credit Hours
Principal theories of beauty and contemplation, of art and creative intuition, of truth and symbolism of works of art.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 338 - Enlightenment & Revolution

3 Credit Hours
Evaluates the nature of political revolutions by examining the political thought preceding the French Revolution. Specific attention is paid to the meaning of revolution as a means of political change and the role of justification of violence.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 339 - Revolution & Its Aftermath

3 Credit Hours
This course explores the theoretical articulation and response to the American and French Revolutions, paying attention to how modern political thought emerges as a dialogue about the meaning of these revolutions.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 340 - Metaphysics

3 Credit Hours
Metaphysics is the science that investigates what it means to be or exist. This course will examine the nature of metaphysics, and the role it has played in the history of philosophy. Majors and minors only.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 341 - Philosophy of Time

PHIL 341 - Philosophy of Time

3 Credit Hours
What is time? How is it related to change, space, and the human mind? Authors read may include Aristotle, Augustine, Kant, and Heidegger.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 342 - German Idealism

PHIL 342 - German Idealism

3 Credit Hours
Study of major late eighteenth and early nineteenth century German philosophers, such as Fichte, Schelling, and Hegel. Kant may be presented as background to these thinkers. Major topics may include nature, freedom, and history.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 343 - History of Ethics

PHIL 343 - History of Ethics

3 Credit Hours
Survey of the ethical theories of the ancient philosophers, of the Christian appropriation, rejection and/or development of these theories, and the relation of these theories to the distinctively modern types of ethics.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 344 - Chinese Philosophy

3 Credit Hours
Focus on some early works of three main philosophical schools in Chinese philosophy: Confucianism, Taoism, and Zen (Ch'an) Buddhism. Other schools will be compared to these three main schools and some later developments will also be mentioned.

Prerequisites: PHIL100 and ( PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 346 - The Scottish Enlightenment

3 Credit Hours
Explores the work of several 18th-century Scottish thinkers, with particular focus on the moral, political, and economic aspects of this distinct tradition of thought. Philosophers covered will include Hutcheson, Hume, Smith, and Reid.

Prerequisites: PHIL100 and ( PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 348 - God & Nature in Amer Phil

3 Credit Hours
A study of the concepts of God, religious experience, and the relation between the divine and the natural in American philosophy, with emphasis on thinkers such as Edwards, Emerson, Thoreau, James, Royce, and Dewey.

Prerequisites: PHIL100 and ( PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 351 - Italian Philosophy

3 Credit Hours
The main conceptual currents in the history of Italian philosophy through representative texts. Topics may include the epistemological role of the imagination as well as theories of history and politics, in such thinkers as Machiavelli, Vico, and Croce.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 354 - Classical American Philosophy

3 Credit Hours
A study of distinctive American philosophical movements of the nineteenth and twentieth centuries.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 355 - Foundations of Critical Theory

3 Credit Hours
An examination of the philosophical foundations of critical theory through the writings of its theoretical forerunners and representatives. Topics for consideration include philosophical conceptions of society, nature, power, oppression, justice, freedom, and art.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 357 - Natural Law & Int'l Relations

3 Credit Hours
This course takes a historical approach to the philosophical foundations of international law. Focused on the 17th and 18th centuries, readings include Grotius, Hobbes, Pufendorf, Vattel, and Kant.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 359 - Philosophy & Slavery

3 Credit Hours
A philosophical exploration of the nature of enslavement and its moral and political dimensions. Readings may include texts by Aristotle, Locke, Hegel, Douglass, and Nietzsche.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Diversity Curriculum Require, ERS Focus Elective, Gender & Diversity Studies, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 360 - Social Contract Theory

3 Credit Hours
This course explores the history of social contract theory as a framework for political philosophy. Readings will involve the most prominent classical formulations (Hobbes, Locke, Rousseau), critical commentary (Astell, Hume), and the influence of the contractarian tradition on later political theorizing (Kant, Rawls).

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 362 - Ancient Political Philosophy

3 Credit Hours
A study of ancient political philosophy with emphasis on classic texts of Plato and Aristotle.

Prerequisites: PHIL.100 and ( PHIL.290 or PHIL.200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 363 - Medieval Political Philosophy

3 Credit Hours
An examination of four of the principal political philosophers of the Middle Ages (Augustine, Thomas Aquinas, William of Ockham and Marsilius of Padua) focusing on two central issues: the relation of church and state within the single entity "Christendom" and the problem of the relation of law and natural right.

Prerequisites: PHIL.100 and ( PHIL.290 or PHIL.200)

Course Attributes: Catholicism & Culture Minor, ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 364 - Modern Political Philosophy

3 Credit Hours
A study of the principal problems and texts of modern political philosophy starting from Machiavelli.

Prerequisites: PHIL.100 and ( PHIL.290 or PHIL.200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 366 - Aristotle

3 Credit Hours
Study of the main philosophical works.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 367 - Plato

3 Credit Hours
Study of selected dialogues.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 368 - Thomas Aquinas

3 Credit Hours
A study of Aquinas’ principal philosophical texts, especially concerning the existence and nature of God, creation, the nature of the human being, and the purpose of human life.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Catholicism & Culture Minor, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 369 - St. Augustine

3 Credit Hours
An introduction to the thought of St. Augustine of Hippo, one of the greatest leaders of the early Catholic Church and one of the most important figures in medieval philosophy.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 371 - C. S. Peirce

3 Credit Hours
An investigation of some of Peirce's most important works in metaphysics, phenomenology, philosophy of science and theory of signs.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 372 - John Locke

3 Credit Hours
A study of the philosophy of John Locke. The course will consider a range of topics, such as epistemology, psychology, education, politics, and the relations among Locke's work in these different fields.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 373 - William James

3 Credit Hours
A survey of William James' major writings including selections from his landmark work in psychology, philosophy of religion, and voluntarism. The course will conclude with an examination of his later Pragmatism and Radical Empiricism, as well as a discussion of his influence upon subsequent thought in America and Europe.

Prerequisites: PHIL.100 and (PHIL.290 or PHIL.200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 374 - Hobbes

3 Credit Hours
A study of major philosophical works of Thomas Hobbes.

Prerequisites: PHIL.100 and (PHIL.290 or PHIL.200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 375 - Kant

3 Credit Hours
A study of major philosophical works of Immanuel Kant.

Prerequisites: PHIL.100 and (PHIL.290 or PHIL.200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 376 - Hegel

3 Credit Hours
Introduction to the philosophical system of Hegel.

Prerequisites: PHIL 100 and (PHIL 290 or PHIL 200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 377 - Schopenhauer

3 Credit Hours
An examination of the philosophical pessimism of Arthur Schopenhauer including his central work, "The World As Will and Representation".

Prerequisites: PHIL 100 and (PHIL 290 or PHIL 200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 378 - Vico

3 Credit Hours
Examination of several key texts in the development of Giambattista Vico's thought, culminating in the Scienza Nuova. Themes include Vico's method, his critique of Cartesianism, his theory of history, and his rethinking of natural law.

Prerequisites: PHIL 100 and (PHIL 290 or PHIL 200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 379 - Nietzsche

3 Credit Hours
An in-depth reading of several of Nietzsche's works.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 380 - Husserl

3 Credit Hours
A study of major works by Edmund Husserl, the father of phenomenology, such as Logical Investigations and Ideas I.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 382 - John Stuart Mill

3 Credit Hours
A study of the philosophy of John Stuart Mill, the 19th century proponent of utilitarian ethics and liberal political theory.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 383 - Spinoza

3 Credit Hours
An introduction to the philosophy of Baruch Spinoza by a close reading of his most important texts, including the Ethics, the Theological Political Treatise, and the Political Treatise. The course will also attempt to understand the main themes of Spinoza's work by placing his thought in context and comparing it to the work of other philosophers, including Hobbes, Descartes, and Leibniz.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 384 - Topics In Ancient Philosophy

PHIL 384 - Topics In Ancient Philosophy

3 Credit Hours
Study of selected issues and texts in ancient thought. Focus varies. This course may be taken more than once for credit if it has a different focus each time.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 385 - Topics In Medieval Philosophy

PHIL 385 - Topics In Medieval Philosophy

3 Credit Hours
Study of selected issues and texts in medieval thought. Focus varies. This course may be taken more than once for credit if it has a different focus each time.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 386 - Topics In Modern Philosophy

3 Credit Hours
Study of selected issues and texts in modern philosophy (17th-19th centuries). Focus varies. This course may be taken more than once for credit if it has a different focus each time.

Prerequisites: PHIL100 and (PHIL200 or PHIL290)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 387 - Topics In Contemporary Phil

PHIL 387 - Topics In Contemporary Phil

3 Credit Hours
Study of selected issues and texts in contemporary philosophy (20th-21st centuries). Focus varies. This course may be taken more than once for credit if it has a different focus each time.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 388 - Freud and Philosophy

PHIL 388 - Freud and Philosophy

3 Credit Hours
Examines the thought of Sigmund Freud as a coherent philosophical worldview. Building on Freud's reconstruction of human nature, we shall examine and evaluate his views on culture, society, religion, and aggression. What is more, we shall analyze and evaluate his claim to have founded a new science. Readings will cover a selection of work from Freud's career.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 389 - Topics In Ethics

3 Credit Hours
Study of selected issues and texts in moral theory or applied ethics. Focus varies. This course may be taken more than once for credit if it has a different focus each time.

Prerequisites: PHIL.100 and ( PHIL.290 or PHIL.200)

Course Attributes: ERS Focus Elective, Humanities Elective, Oral Communication Flag

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 390 - Topics In Political Philosophy

3 Credit Hours
Study of selected issues and texts in political theory. Focus varies. This course may be taken more than once for credit if it has a different focus each time.

Prerequisites: PHIL.100 and ( PHIL.290 or PHIL.200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 391 - Topics In Metaphysics

3 Credit Hours
Study of selected issues and texts in metaphysics. Focus varies. This course may be taken more than once for credit if it has a different focus each time.

Prerequisites: PHIL.100 and ( PHIL.290 or PHIL.200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 395 - Directed Study

1 - 3 Credit Hours
Independent study related to the field of philosophy.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 396 - Topics In Theory of Knowledge

3 Credit Hours
Study of selected issues and texts in epistemology. Focus varies. This course may be taken more than once for credit if it has a different focus each time.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 397 - Paris Seminar Political Theory

3 Credit Hours
This program brings together faculty and students from a French university with students from Xavier to discuss relations between the United States and Europe. Topics include economic policy, environmental issues, church-state relations, federalism, international relations and international law.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Course Attributes: ERS Focus Elective, Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 398 - Thesis Review I

1 Credit Hours
Preparation for writing the Senior Thesis.

Prerequisites: PHIL100 and (PHIL290 or PHIL200)

Restrictions: Must be enrolled in one of the following Majors: Philosophy Philos, Politics & The Public

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 399 - Thesis Review II

2 Credit Hours

Prerequisites: PHIL100 and (PHIL290 or PHIL200) and PHIL398

Restrictions: Must be enrolled in one of the following Majors: Philosophy Philos, Politics & The Public

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHIL 404 - Topics in Contemporary Philos

3 Credit Hours
Study of selected issues and texts in contemporary philosophy (20th-21st centuries). Focus varies. This course may be taken more than once for credit if it has a different focus each time.

Prerequisites: PHIL100 and PHIL290

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy
PHIL 408 - Topics in Theory of Knowledge

3 Credit Hours
Study of selected issues and texts in epistemology. Focus varies. This course may be taken more than once for credit if it has a different focus each time.

Prerequisites: PHIL100 and PHIL290

Levels: Graduate Undergraduate

College of Arts & Sciences Philosophy

PHYS 108 - Our Universe: Environmental Phy

2 Credit Hours
This course will examine natural and human-induced causes affecting the environment from a physics/engineering perspective. Students will first address the way science interfaces with the climate change, energy policy and sustainability, urban infrastructure, environmental health and the impact of developing economies, and the role of technology and scientific innovation in addressing the environmental problems.

Co-requisites: PHYS109

Course Attributes: Physics Lect Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 109 - Our Universe: Environ Phy Lab

1 Credit Hours
Laboratory required to accompany PHYS 108.

Co-requisites: PHYS108

Course Attributes: Physics Lab Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Physics
PHYS 110 - Our Universe: Forensic Studies

2 Credit Hours
This course will explain the intriguing work of crime scene investigators from a physics standpoint. Included are techniques to find out how a crime happened, e.g. ballistics, blood pattern analysis and skid marks, and techniques to investigate traces that lead to an identification of the perpetrator like bite marks, fingerprints and body fluids.

Co-requisites: PHYS111

Course Attributes: Physics Lect Old/Trans Core, Quantitative Reason Flag Pt. 1, Scientific Perspectives Lect

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 111 - Our Universe: Forensic Lab

1 Credit Hours
Hands-on experiences will support the material presented in the lecture.

Co-requisites: PHYS110

Course Attributes: Physics Lab Old/Trans Core, Quantitative Reason Flag Pt. 2, Scientific Perspectives Lab

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 112 - Our Universe: Color & Images

2 Credit Hours
Fascinating introductory course on light color, mirrors, lenses, photographic film, lasers, and holograms.

Co-requisites: PHYS113

Course Attributes: Physics Lect Old/Trans Core, Nat Sci Elect Lecture New Core, Quantitative Reason Flag Pt. 1

Levels: Undergraduate

College of Arts & Sciences Physics
PHYS 113 - Our Universe: Color & Images Lab

1 Credit Hours
Laboratory required to accompany PHYS 112.

Co-requisites: PHYS112

Course Attributes: Physics Lab Old/Trans Core, Nat Sci Elect Lab New Core, Quantitative Reason Flag Pt. 2

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 114 - Our Universe: Physical Science

2 Credit Hours
An investigation of the physical properties of matter, mechanics, electricity, and magnetism. Inquiry is the primary method of instruction in a combined lecture and laboratory. Intended for Early and Middle Childhood Education, and Montessori Education Majors with an emphasis placed on the Ohio Academic content Standards. Satisfies science core requirement.

Co-requisites: PHYS115

Restrictions: Must be enrolled in one of the following Majors: Early Childhood Education Elementary Education Middle Childhood Education Montessori Education Secondary Education Special Education

Course Attributes: Physics Lect Old/Trans Core, Quantitative Reason Flag Pt. 1, Scientific Perspectives Lect

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 115 - Our Universe: Physical Sci Lab

1 Credit Hours
Laboratory required to accompany PHYS 114.

Co-requisites: PHYS114

Restrictions: Must be enrolled in one of the following Majors: Early Childhood Education Elementary Education Middle Childhood Education Montessori Education Secondary Education Special Education

Course Attributes: Physics Lab Old/Trans Core, Quantitative Reason Flag Pt. 2, Scientific Perspectives Lab

Levels: Undergraduate

College of Arts & Sciences Physics
PHYS 116 - Our Universe: The Earth

2 Credit Hours
An introductory course on earth, energy, and environmental science from a physics perspective.

Co-requisites: PHYS117

Course Attributes: ERS Focus Elective, Physics Lect Old/Trans Core, Nat Sci Elect Lecture New Core

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 117 - Our Universe: The Earth Lab

1 Credit Hours
Laboratory required to accompany PHYS 116.

Co-requisites: PHYS116

Course Attributes: ERS Focus Elective, Physics Lab Old/Trans Core, Nat Sci Elect Lab New Core

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 118 - Our Universe: The Sky

2 Credit Hours
Introductory course in astronomy, focusing on basic astronomical phenomena, light, and the life cycle of stars including supernovae and black holes.

Co-requisites: PHYS119

Course Attributes: Physics Lect Old/Trans Core, Nat Sci Elect Lecture New Core, Quantitative Reason Flag Pt. 1

Levels: Undergraduate

College of Arts & Sciences Physics
PHYS 119 - Our Universe: The Sky Lab

1 Credit Hours
Laboratory required to accompany PHYS 118.

Co-requisites: PHYS 118

Course Attributes: Physics Lab Old/Trans Core, Nat Sci Elect Lab New Core, Quantitative Reason Flag Pt. 2

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 120 - Our Universe: The Planets

2 Credit Hours
The Planets (2) Introductory course in astronomy, focusing on cycles of the sky, and description, formation, and life-cycle of our Solar System and extra-solar planetary systems. Fundamentals of astronomy are included, and this course may be taken in any sequence with PHYS 118 Our Universe: The Sky, if desired.

Co-requisites: PHYS 121

Course Attributes: Physics Lect Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 121 - Our Universe: The Planets Lab

1 Credit Hours
The Planets Laboratory required to accompany PHYS 120.

Co-requisites: PHYS 120

Course Attributes: Physics Lab Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Physics
PHYS 122 - Our Universe: Energy Source/Use

2 Credit Hours
An introductory course that surveys various forms of energy and studies practical economical applications.

Co-requisites: PHYS123

Course Attributes: Physics Lect Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 123 - Our Universe: Energy Lab

1 Credit Hours
Laboratory to accompany PHYS 122.

Co-requisites: PHYS122

Course Attributes: Physics Lab Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 124 - Our Universe: In the Beginning

2 Credit Hours
This course explores the historical progression of our beliefs regarding the origin and structure of the universe. Specifically, the course will present and critique cosmological models put forth by Greek philosophers, medieval theologians, and modern scientists (but with the greatest emphasis placed on modern Big Bang cosmology). One of the overall goals of the course will be to show how astronomical observations were used by each of these groups to build up their view of cosmology.

Co-requisites: PHYS125

Course Attributes: Physics Lect Old/Trans Core, Nat Sci Elect Lecture New Core, Quantitative Reason Flag Pt. 1, Scientific Perspectives Lect

Levels: Undergraduate

College of Arts & Sciences Physics
PHYS 125 - Our Universe: In the Beg. Lab

1 Credit Hours
Laboratory required to accompany PHYS 124 and designed to support concepts being explored in the lecture such as motion, spectra, astronomical distances and cosmological time.

Co-requisites: PHYS124

Course Attributes: Physics Lab Old/Trans Core, Nat Sci Elect Lab New Core, Quantitative Reason Flag Pt. 2, Scientific Perspectives Lab

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 140 - Technical Physics

2 Credit Hours
For occupational therapy and radiologic technology students. Kinematics, force laws, momentum, energy, work, power, heat, temperature, waves.

Course Attributes: Physics Lect Old/Trans Core, Scientific Perspectives Lect

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 141 - Radiologic Physics

2 Credit Hours
For radiologic technology students. Energy, the structure of matter, electricity, magnetism, optics, radioactivity, and the nature and production of X-Rays.

Prerequisites: Placement - Math 105 or Placement - Math 110 or Placement - Math 120 or Undergraduate level MATH105 Minimum grade of C- or Undergraduate level MATH110 Minimum grade of C- or Undergraduate level MATH120 Minimum grade of C-

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Course Attributes: Physics Lect Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Physics
PHYS 142 - Technical Physics Lab

1 Credit Hours
This lab accompanies PHYS 140 lectures. Primarily for occupational therapy students.

Co-requisites: PHYS140

Restrictions: Must be enrolled in one of the following Departments: Occupational Therapy

Course Attributes: Physics Lab Old/Trans Core, Scientific Perspectives Lab

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 160 - College Physics I

3 Credit Hours
This algebra and trig-based course explores fundamental concepts in mechanics, including: i) kinematics; ii) force analysis; iii) conservation of energy; and iv) conservation of momentum. Strong emphasis is placed on the application of these concepts toward problem solving. Students taking this course are expected to be proficient in basic trigonometry and algebra.

Course Attributes: Physics Lect Old/Trans Core, Nat Sci Elect Lecture New Core

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 161 - Introductory Physics Lab I

1 Credit Hours
This lab course reinforces concepts from PHYS 160 through a direct, hands on exploration of forces and motion. Emphasis is placed on conceptual understanding of lecture material, data acquisition & analysis, experimental design, and effective presentation of results.

Course Attributes: Physics Lab Old/Trans Core, Nat Sci Elect Lab New Core

Levels: Undergraduate

College of Arts & Sciences Physics
PHYS 162 - College Physics II

3 Credit Hours
This algebra and trig-based course utilizes fundamental concepts explored in PHYS 160 toward the study of topics including: i) waves; ii) electric and magnetic phenomena; and iii) optics. Strong emphasis is placed on the application of basic principles toward problem solving and the calculation of field structures.

Prerequisites: Undergraduate level PHYS160 Minimum grade of D

Course Attributes: Physics Lect Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 163 - Introductory Physics Lab II

1 Credit Hours
This lab course reinforces concepts from PHYS 162 through a direct, hands-on exploration of wave and electromagnetic phenomena. Emphasis is placed on conceptual understanding of lecture material, data acquisition & analysis, experimental design, and effective presentation of results.

Prerequisites: Undergraduate level PHYS161 Minimum grade of D or Graduate level EDMS999

Course Attributes: Physics Lab Old/Trans Core, Scientific Perspectives Lab

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 170 - University Physics I

3 Credit Hours
This calculus-based course explores fundamental concepts in mechanics, including: i) kinematics; ii) force analysis; iii) conservation of energy; and iv) conservation of momentum. Strong emphasis is placed on the application of these concepts toward problem solving. Students taking this course are expected to be proficient in basic trigonometry and algebra.

Course Attributes: Physics Lect Old/Trans Core, Nat Sci Elect Lecture New Core

Levels: Undergraduate

College of Arts & Sciences Physics
PHYS 171 - Explorations in Physics I

PHYS 171 - Explorations in Physics I

1 Credit Hours
This lab course reinforces concepts from PHYS 170 through a direct, hands on exploration of forces and motion. Emphasis is placed on data acquisition and analysis, experimental design, proper notebook techniques, and effective presentation of results. A non-credit bearing component is designed to facilitate a successful student transition into the major.

Co-requisites: PHYS170

Course Attributes: Physics Lab Old/Trans Core, Nat Sci Elect Lab New Core

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 172 - University Physics II

PHYS 172 - University Physics II

3 Credit Hours
This calculus-based course utilizes fundamental concepts explored in PHYS 170 toward the study of topics including: i) simple harmonic motion; ii) waves; iii) ray and wave optics; and iv) electric and magnetic phenomena. Strong emphasis is placed on the application of basic principles toward problem solving and the calculation of field structures. The pre-requisites of PHYS 163 or PHYS 173 and MATH 170 or MATH 171 may also be taken as co-requisites. PHYS 173 should be taken by students considering a major in physics, applied physics, biophysics, or engineering physics.

Prerequisites: PHYS170 and ( MATH170 or MATH171)

Course Attributes: Physics Lect Old/Trans Core, Scientific Perspectives Lect

Levels: Undergraduate

College of Arts & Sciences Physics

PHYS 173 - Explorations in Physics II

PHYS 173 - Explorations in Physics II

1 Credit Hours
This lab course reinforces concepts from PHYS 172 through a direct, hands on exploration of wave and electromagnetic phenomena. Emphasis is placed on data acquisition and analysis, proper notebook techniques, experimental design, and effective presentation of results. In addition, students design, construct and test a current/voltage/ohm meter.

Co-requisites: PHYS172

Course Attributes: Physics Lab Old/Trans Core, Scientific Perspectives Lab

Levels: Undergraduate

College of Arts & Sciences Physics
PHYS 206 - Adv Study Basic Physics I

3 Credit Hours
The broad implications of the fundamental principles of general physics.

Prerequisites: Undergraduate level PHYS160 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 207 - Adv Study Basic Physics II

3 Credit Hours
The broad implications of the fundamental principles of general physics.

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 242 - Circuit Analysis

3 Credit Hours
This course significantly extends the basic principles of A. C. and D.C. circuits explored in PHYS 172 toward a more rigorous and comprehensive analysis of circuits constructed from resistors, capacitors, inductors, diodes, transistors, op. amps, and logic gates. Standard methods of analysis such as: i) Kirchhoff's rules; ii) node voltages; iii) equivalent resistance, capacitance, and inductance; iv) Thevenin's and Norton's theorems; and v) Karnaugh maps are introduced. Strong emphasis is placed on the application of these methods toward the analysis of both analog and digital circuits.

Prerequisites: PHYS172 or Graduate level EDMS999

Co-requisites: PHYS243

Course Attributes: Quantitative Reason Flag Pt. 1

Levels: Graduate Undergraduate

College of Arts & Sciences Physics
PHYS 243 - Circuit Analysis Lab

1 Credit Hours
This lab course reinforces concepts from PHYS 242 through the construction and analysis of analog and digital circuits. Students are expected to become proficient with the use of meters, function generators, and oscilloscopes, and are required to design and construct an electronic device that operates from a single-board microcontroller.

Co-requisites: PHYS242

Course Attributes: Quantitative Reason Flag Pt. 2

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 330 - Modern Physics I

3 Credit Hours
This course explores how the experiments of the late 19th and early 20th century revolutionized our understanding of nature, and presents the basic principles of the two theories that emerged as a result: special relativity and quantum physics. The application of quantum theory toward an understanding of hydrogen-like atoms is presented. Emphasis is placed on the conceptual understanding of the course material and on the quantitative analysis of the physical systems explored in the course. The pre-requisite of MATH 171 or MATH 220 may also be taken as a co-requisite.

Prerequisites: PHYS172 and (MATH171 or MATH220)

Course Attributes: Scientific Perspectives Lect

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 331 - Modern Physics I Lab

2 Credit Hours
The lab course reinforces concepts from PHYS 330 through the performance of several classic experiments of the late 19th and early 20th century such as the photoelectric effect, e/m for electrons, and the muon experiment. Students also learn techniques for obtaining atomic and X-ray spectra. The course builds on the basic experimental techniques developed in Explorations II, with emphasis on data and error analysis using computer software, proper notebook techniques, and effective presentation of results.

Prerequisites: PHYS173

Co-requisites: PHYS330

Course Attributes: Oral Communication Flag, Scientific Perspectives Lab
Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 340 - Modern Physics II

PHYS 340 - Modern Physics II

3 Credit Hours
This course uses the principles of quantum theory developed in PHYS 330 toward the analysis of multi-electron atoms, molecular structure, and solid-state crystal structure. The course also covers natural and artificial radioactivity, nuclear reactions, high-energy physics, and fundamental particles. Emphasis is placed on the conceptual understanding of the course material and on the quantitative analysis of the physical systems explored in the course. The pre-requisites of MATH 220 or MATH 230 may be taken as co-requisites.

Prerequisites: PHYS330 and ( MATH220 or MATH230)
Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 341 - Modern Physics II Lab

PHYS 341 - Modern Physics II Lab

1 Credit Hours
This lab course reinforces concepts introduced in PHYS 340 through direct, hands on exploration of alpha and beta decays of activated sources, gamma decay of radioactive sources, and gamma-ray attenuation. Students also learn basic principles of Geiger counters, Nal and Ge detectors, and counting statistics. The course builds on the basic experimental techniques developed in PHYS 331, with emphasis on data and error analysis, experimental design, proper notebook techniques, and effective presentation of results.

Prerequisites: PHYS331
Co-requisites: PHYS340
Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 350 - Theoretical Mechanics I

PHYS 350 - Theoretical Mechanics I

3 Credit Hours
This course reinforces concepts from PHYS170 through the study of classical mechanics via the application of advanced mathematics. The course covers linear and 3D motion; oscillations (simple, damped and driven); gravitational forces; within the Newtonian and Lagrangian frameworks. Emphasis is placed on examples that use mathematical treatment of fundamental concepts.

Prerequisites: PHYS170 and MATH230
Levels: Graduate Undergraduate

College of Arts & Sciences Physics
PHYS 351 - Theoretical Mechanics II

3 Credit Hours
Dynamics, kinematics of particles and rigid bodies, conservation of energy and momentum, inertial matrices.

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 355 - Advanced Physics Lab

2 Credit Hours
The lab experiences will complement material covered in lecture courses and/or introduce students to research grade equipment as it is used by faculty in the department. Experimental design, advanced calculus based error analysis, graphical representation of data, and effective presentation of results will be emphasized.

Prerequisites: PHYS341

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 360 - Electromagnetism I

3 Credit Hours
This course puts the emphasis on conceptual thinking in terms of i) electric and magnetic fields; ii) electric and magnetic potentials; iii) currents and magnetic fields; iv) induction and v) Maxwell's equations in vacuum. Rigorous, higher level mathematical methods like Gauss's law, Stokes law, path integrals, polar and spherical coordinate systems will be used.

Prerequisites: PHYS172 and MATH220

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 361 - Electromagnetism II

3 Credit Hours
Continuation of PHYS 360.
Prerequisites: Undergraduate level PHYS360 Minimum grade of D

Co-requisites: PHYS360

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 364 - Physical Optics

PHYS 364 - Physical Optics

3 Credit Hours
This course builds on the principles of the electromagnetic theory to develop a fundamental understanding of light waves and how they interact with matter and objects: Topics covered include: i) mathematics of wave motion; ii) the origin of the refractive index; iii) waves at interfaces; iv) wave packets; and v) diffraction. Emphasis is placed on the application of mathematical techniques such as Fourier integrals toward the solution of problems.

Prerequisites: PHYS360

Co-requisites: PHYS365

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 365 - Physical Optics Lab

PHYS 365 - Physical Optics Lab

1 Credit Hours
The lab course reinforces concepts from PHYS 364 through the performance of several experiments in Physical Optics such as the optics of the eye, diffraction, Michelson's interferometer, spatial filtering as the fundamental imaging process, polarization, fiber optics, and photography or holography. Students are expected to draw from prior lab experiences so as to work in a fairly independent manner. Emphasis is placed on experimental design, teamwork, analysis of results (including calculus based error analysis), and effective presentation of results.

Co-requisites: PHYS364

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 376 - Quantum Mechanics I

PHYS 376 - Quantum Mechanics I

3 Credit Hours
This course explores the foundations of Quantum Mechanics through a rigorous, mathematically based formalism. Solutions to Schrodinger's equation for several potential wells are presented, including the infinite and finite square well potentials, the harmonic-oscillator potential, and the Dirac delta-function potential. A matrix formalism is used to develop the theory of particle spin and its coupling to angular momentum. Emphasis is placed on mastering the mathematical techniques required for the course, and the
application of those techniques toward obtaining solutions to Schrodinger's equation for various potential functions.

**Prerequisites:** PHYS350 and MATH230

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Physics*

**PHYS 377 - Quantum Mechanics II**

**PHYS 377 - Quantum Mechanics II**

**3 Credit Hours**
This course applies the formalism developed in PHYS 376 to central potential systems, reflection and transmission, and scattering. Several techniques are introduced for obtaining approximate solutions to Schrodinger's equations for the systems being explored. Emphasis is placed on mastering the mathematical techniques required for the course, and the application of those techniques toward obtaining approximate solutions to Schrodinger's equation for various physical systems.

**Prerequisites:** PHYS376

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Physics*

**PHYS 382 - Thermodynamics**

**PHYS 382 - Thermodynamics**

**3 Credit Hours**
Starting from the ideal gas law, this course introduces the statistical interpretation of thermodynamics. Topics covered include: i) thermal energy and heat capacity, ii) entropy and irreversibility, iii) heat engines and refrigerators, and iv) Boltzmann Statistics.

**Prerequisites:** PHYS340

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Physics*

**PHYS 387 - Biophysics**

**PHYS 387 - Biophysics**

**3 Credit Hours**
This is an upper division physics course introducing physical techniques used to address the complexity of biological systems.

**Prerequisites:** PHYS340

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Physics*
PHYS 388 - Astrophysics

3 Credit Hours
This course serves as a capstone course for the physics major. Emphasis is placed on applying concepts and principles of classical and modern physics developed throughout the major toward an analysis of astronomical phenomena. Topics include orbital motion, star formation and evolution, compact objects, galaxy structure and formation, and cosmology.

Prerequisites: PHYS340

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 389 - Solid State Physics

3 Credit Hours
This course serves as a capstone course for the physics major. Emphasis is placed on applying concepts and principles of classical and modern physics developed throughout the major toward an analysis of structural, thermal, electrical, and magnetic properties of matter in solid state. Topics include crystallography, specific heat, phonons, band theory, Fermi surfaces, and superconductivity.

Prerequisites: PHYS340

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 390 - Special Studies

3 Credit Hours
Area to be specified.

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 395 - Physics Research

1 - 3 Credit Hours
The senior capstone experience provides students with an opportunity to undertake an independent and creative exploration of a topic in physics that is of interest to them under the guidance of a faculty mentor. This exploration can be a new endeavor, or the continuation of
an ongoing project in which the student has been involved.

Restrictions: Must be enrolled in one of the following Majors: Applied Physics Biophysics Physics Must be enrolled in one of the following Classifications: Senior

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 397 - Special Readings

PHYS 397 - Special Readings

1 - 3 Credit Hours
Area to be specified.

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

PHYS 398 - Physics Thesis

PHYS 398 - Physics Thesis

1 Credit Hours
This senior capstone experience provides students with an opportunity to present the results of their senior research project to the Xavier community. Specifically, students are required to present a talk to members of the Physics department, present a poster at Xavier's Celebration of Student Research and Creative Activities, and write a senior thesis.

Prerequisites: PHYS395

Course Attributes: Oral Communication Flag

Levels: Graduate Undergraduate

College of Arts & Sciences Physics

POLI 120 - Comparative Govt and Politics

POLI 120 - Comparative Govt and Politics

3 Credit Hours
Introduction to and comparison of political systems in several national settings.

Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Political Science
POLI 140 - American Government and Politics

3 Credit Hours
Introduction to the theory and practice of the American political system.

Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Political Science

POLI 211 - Cincinnati History & Politics

3 Credit Hours
A political history of Cincinnati with an analysis of contemporary urban politics.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 212 - Urban Admin & Public Policies

3 Credit Hours
Overview of the administration issues involved in governing and managing cities, particularly as they pertain to the policy making process.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 215 - French Politics

3 Credit Hours
Examination of government, political processes and issues in contemporary France, including relations with the U.S.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science
POLI 219 - Irish Government and Politics

3 Credit Hours
Examination of Irish politics, North and South, with emphasis on changes due to socioeconomic and cultural change.

Course Attributes: Gender & Diversity Studies
Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 220 - Gov't & Politics of S E Asia

3 Credit Hours
A political and geographic survey of the varied and colorful countries of East Asia, in which the technological revolution is proceeding at a fast pace.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 224 - Middle East Politics

3 Credit Hours
Examination of recent history, government, political processes and issues in the contemporary Middle East, including relations with the U.S.

Course Attributes: Gender & Diversity Studies, Peace & Justice Studies Minor, Social Science Old/Trans Core
Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 229 - Politics of Cent Amer: Nicaragua

3 Credit Hours
Overview of contemporary history and politics of Central America focusing on theories of revolution, development, dependency, and democracy.

Prerequisites: Undergraduate level THEO111 Minimum grade of D and Undergraduate level PHIL100 Minimum grade of D
Course Attributes: ERS Focus Elective, Latin American Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 232 - Politics of Japan

POLI 232 - Politics of Japan

3 Credit Hours
Examination of recent history, government, political processes and issues in contemporary Japan, including relations with the U.S.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 234 - Chinese Politics

POLI 234 - Chinese Politics

3 Credit Hours
Examination of recent history, government, political processes and issues in contemporary China, including relations with the U.S.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 240 - State & Local Government

POLI 240 - State & Local Government

3 Credit Hours
The structure, organization, and activities of state and local government.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 241 - Governing Cincinnati

POLI 241 - Governing Cincinnati

3 Credit Hours
Examination of the politics and government of Cincinnati, including local campaign politics, policy decision-making, and the influences of local media.
POLI 242 - Urban America

3 Credit Hours
Historical development and demographic patterns of the city and its environs. Socio-cultural and ecological perspectives used to examine urban, suburban, and rural areas.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 246 - Mass Media and Politics

3 Credit Hours
Examination of the ways in which the mass media interact with and influence political processes, including campaign politics and policy-making.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 275 - Politics of War and Peace

3 Credit Hours
Review of major approaches to the study of war and peace.

Course Attributes: ERS Focus Elective, Peace & Justice Studies Minor, Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 277 - International Relations

3 Credit Hours
The theory of international relations, nationalism, imperialism, disarmament and arms control, diplomacy, collective security.

**Course Attributes:** Peace & Justice Studies Minor, Social Science Old/Trans Core

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Political Science*

**POLI 280 - Irish Political Culture**

**3 Credit Hours**
This course will explore various aspects of Irish political culture as it has evolved from the late 19th century. The course will survey themes such as the role of myth in the creation of Irish identity, the debated nature of Celtic identity in Ireland, the postcolonial nature of Irish society after independence, and the contemporary changes to Irish life especially secularization amidst the continuing sectarian differences that exist primarily in Northern Ireland. Films will be used to explore images and the reality of Irish life in the twentieth century as well as exploration of drama, literature, poetry, television, and other artistic means to debate and challenge inherited meanings and identities.

**Course Attributes:** Diversity Curriculum Require, Gender & Diversity Studies

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Political Science*

**POLI 301 - Political Philosophy**

**3 Credit Hours**
Detailed examination of basic problems in political philosophy. Emphasis is on the significance and critique of classic modernity.

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Political Science*

**POLI 302 - Liberalism and Its Critics**

**3 Credit Hours**
Detailed examination of the theory, practice, and critiques of liberalism.

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Political Science*
POLI 307 - Pol of Commerce & Character

3 Credit Hours
Detailed reading of major works on the subject of politics, commerce and character, including Locke, Montesquieu, Smith and Tocqueville. Discussion of the philosophic, moral, and political issues raised in the readings.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 308 - Rousseau's Human Poli Vision

3 Credit Hours
Detailed reading of major works by Rousseau. Emphasis is on student discussion of the philosophic, moral and political issues raised by the books.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 316 - Globalization

3 Credit Hours
Over the last decade globalization has been the cause of much hope and promise; at the same time it has been the cause of the student, worker, and environmentalist protests all over the world. The course will be an interdisciplinary examination of the political, cultural, economic, theological, and ethical dimensions of globalization. It will be team-taught by faculty from economics, political science, theology, and the E/RS program. There will also be a number of invited experts from the US and abroad who will meet with the class.

Course Attributes: Environ Science/Studies Elect, ERS Focus Elective, Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 320 - Global Islamic Politics

3 Credit Hours
Introduction to the issues of global Islamic politics. Topics include the complex relationships between Islam, Muslim communities, political Islam, the modernity-tradition dichotomy, the international relations of the Muslim world, Muslim minorities, political participation, culture, economy, violence and conflict dynamics.
Course Attributes: Gender & Diversity Studies, Peace & Justice Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 321 - Conflict, Dev & Justice

POLI 321 - Conflict, Dev & Justice

3 Credit Hours
Examination of the links between political conflict and economic and political development. Challenges to a status quo and efforts to address problems in developing areas often framed in terms of "justice." Theoretical material for the course will be drawn primarily from the literature on the international political economy of development. References will be made to case studies from the Middle East, South Asia and other contemporary and historical cases.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 329 - Public Policy Practice

POLI 329 - Public Policy Practice

3 Credit Hours
The object of this course is to provide students with the analytical and practical skills to effectively influence the public policy process. It is about understanding what public policy is, who the players are, what power they have and how they use it. Students will attack these questions using research, analysis and practical engagement with legislators, administrators, interest groups, think tanks and the media.

Prerequisites: POLI246 and HIST408

Co-requisites: HIST300

Restrictions: Must be enrolled in one of the following Majors: Philos, Politics & The Public

Levels: Undergraduate

College of Arts & Sciences Political Science

POLI 330 - Politics of Cent/East Europe

POLI 330 - Politics of Cent/East Europe

3 Credit Hours
This course will concentrate on post, present, and future political developments in those eight East European countries where communist parties once ruled. Our goal is to understand the region's diversity and analyze common and diverging points of the communist and post-communist experiences.

Levels: Graduate Undergraduate
POLI 340 - The Presidency

3 Credit Hours
The nature and function of executive power in the American political system.

Levels: Graduate Undergraduate

POLI 344 - The Challenge of Peace

3 Credit Hours
In-depth exploration of the personal, political, practical, and spiritual aspects of peace.

Course Attributes: ERS Focus Elective, Peace & Justice Studies Minor

Levels: Graduate Undergraduate

POLI 345 - Pressure Groups & Congress

3 Credit Hours
A study of pressure groups and group theory as it applies to the United States. Special emphasis on the structure and operation of Congress.

Levels: Graduate Undergraduate

POLI 347 - Supreme Ct on Civil Liberties

3 Credit Hours
Detailed reading of American constitutional law cases in civil liberties & civil rights. Emphasis is on class discussion of the legal, political, social, and moral issues raised in the published opinions of Supreme Court justices.
POLI 350 - Political Theory & Amer Regime

3 Credit Hours
Detailed reading of texts in political philosophy and in American political thought with a view to understanding the United States as regime.

Prerequisites: Undergraduate level THEO111 Minimum grade of D and Undergraduate level PHIL100 Minimum grade of D

Course Attributes: ERS Focus Elective

Levels: Graduate Undergraduate

POLI 352 - Principles of Research

3 Credit Hours
In-depth study of the basic steps and processes in scientific inquiry.

Levels: Graduate Undergraduate

POLI 359 - Campaigns, Elections & Parties

3 Credit Hours
Examination of electoral politics, political parties, and campaign processes and issues in the U.S.

Levels: Graduate Undergraduate

POLI 363 - Lincoln & Conditions of Freedo

3 Credit Hours
Detailed study of the writings of Abraham Lincoln, particularly as they pertain to the conditions of human freedom under modern democracy.

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Political Science*

**POLI 367 - Gender & Politics**

**POLI 367 - Gender & Politics**

**3 Credit Hours**
This writing intensive course examines the role of gender in politics, with particular attention to the causes and consequences of the underrepresentation of women in political institutions. The class considers the impact of cultural, institutional, situational and economic factors on the descriptive and substantive representation of men and women. Course content is drawn (primarily) from scholarly research in the subfield of gender and politics. The intersection of gender, race, and class are also featured prominently in course readings and class discussions. The relevance of political participation from diverse segments of society to the workings of democracy and the representation of interests in political and social institutions is central to the course.

**Course Attributes:** Gender & Diversity Studies

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Political Science*

**POLI 368 - Politics in Dictatorships**

**POLI 368 - Politics in Dictatorships**

**3 Credit Hours**
This course explores different types of authoritarian systems. It surveys the economic and political developments of major authoritarian countries since the end of the Cold War.

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Political Science*

**POLI 372 - International Political Econom**

**POLI 372 - International Political Econom**

**3 Credit Hours**
International political economy examines the interactions of markets and political forces. It focuses on areas for which the study of economics alone is insufficient, such as the effect of global economic activity on national interests, the durability and success of international regimes, and the international distribution of wealth and economic activities. It includes attention to the formal and informal institutions that direct development, well-being, conflict, cooperation, and rivalry.

**Course Attributes:** Peace & Justice Studies Minor

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Political Science*
POLI 374 - U.S. Foreign Policy

3 Credit Hours
A survey of American foreign policy since World War II with special emphasis on contemporary issues.

Course Attributes: Peace & Justice Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 379 - Revolution and Change

3 Credit Hours
A survey of the major theoretical approaches to the processes of political and social change especially in developing countries.

Course Attributes: Latin American Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 381 - Politics of Western Europe

3 Credit Hours
This course will explore the political history, institutions, actors, processes, policies, and political culture of Western Europe, with particular emphasis on Germany, France, and Great Britain. Investigation of the major issue of European integration, with focus on the changing definition, role, and significance of the European Union. Examining of current debates over the limits of a united Europe, a single European currency, and a wider EU membership. The course will also consider the political implications for Europe of the end of Communist systems in the East and the formation of new political alignments in Central and Eastern Europe, as well as Russia. Finally, we will study Europe's developing role in a new world of complex interdependence.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 387 - Soviet & Post-Soviet Politics

3 Credit Hours
A survey of the Soviet period emphasizing the 1917 Revolution and the Stalin era to better understand contemporary events.
POLI 388 - Community and Political Power

3 Credit Hours
Levels: Graduate Undergraduate

Course Attributes: Peace & Justice Studies Minor

Levels: Graduate Undergraduate

POLI 390 - Sem: International Relations

3 Credit Hours
Senior comprehensive paper based on research methods and survey of the scholarly literature in the field.

Course Attributes: Peace & Justice Studies Minor

Levels: Graduate Undergraduate

POLI 391 - Sem: American Government

3 Credit Hours
Senior comprehensive paper dealing with problems of American government and politics.

Levels: Graduate Undergraduate

POLI 392 - Internship: Policy Analysis

6 Credit Hours
Examination of the methods of policy analysis through hands-on experience in a relevant organization.

Levels: Graduate Undergraduate
POLI 393 - Advanced Political Analysis

Advanced Political Analysis provides students with the knowledge and skills needed to complete a political science research project that is worthy of submission to a journal and/or conference. In this course, students learn the basics of political analysis, with an emphasis on research design, data collection and quantitative methods. Advanced Political Analysis complements our department's senior seminar courses by providing students with an understanding of quantitative research methods and a familiarity with analytical tools that they can use to test their own hypotheses. The course would also be of interest to non-majors who are interested in gaining practical experience collecting and analyzing data.

Prerequisites: MATH116 or MATH156

Course Attributes: Quantitative Reason Flag Full, Social Science Elect New Core

Levels: Graduate Undergraduate

POLI 394 - Advanced Reading & Research

Advanced Reading & Research

In-depth analysis of a topic or project of individual interest. Open to exceptional students upon faculty recommendation and with approval of department chairperson.

Levels: Graduate Undergraduate

POLI 396 - International Studies Internship

International Studies Internship

Examination of processes and issues in the field of international affairs through hands-on experience in a relevant organization.

Levels: Graduate Undergraduate
POLI 397 - Political Internship

3 Credit Hours
This is a guided internship course to be taken in conjunction with a 12-14 week internship. Students are required to work between 12 and 20 hours per week during the course of the internship (12-15 hours is recommended in the Fall and Spring semesters, 16-20 hours is recommended in the summer). Course readings, assignments, and discussions are designed to prepare students to succeed in their internship and to help them use their experiences as an intern to gain a broader understanding of politics, campaigns, and political institutions.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 398 - Internship: City Government

3 Credit Hours
Examination of the processes and issues in local government through hands-on experience in a political office or related organization.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 399 - Political Comm Internship

3 Credit Hours
This course offers students an opportunity to investigate and participate in public policy from the vantage of politicians, campaign managers, public administrators and community-based activists. Students will analyze, compare, contrast and critique the sources, methods and motivations of elected officials, campaign strategist, voters, the media, public administrators, community council organizations, and neighborhood-based non-profits. The primary resource for the course is the on-going political process, including participating in electoral campaigns, engagement in contemporary public policy issue-examined from various perspectives in and out of government-and active involvement in neighborhood organizations and issues. The goal of the course is to teach students the theory and skills necessary to be effective public policy advocates through campaign politics, legislative politics and community-based activism.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 401 - Washington DC Internship

3 - 9 Credit Hours
See department for application materials.

Co-requisites: POLI402

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 402 - Washington DC Intern Course

POLI 402 - Washington DC Intern Course

3 Credit Hours
An elective course taken through the Washington Center for Internships and Academic seminars.

Co-requisites: POLI401

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 410 - War & Peace in Lit & Film

POLI 410 - War & Peace in Lit & Film

3 Credit Hours
Overview of political issues related to war and peace illustrated with examples from literature and film. Treatment of war and peace in the media from Civil War to Vietnam War.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

POLI 415 - Paris Seminar Political Theory

POLI 415 - Paris Seminar Political Theory

3 Credit Hours
This program brings together faculty and students from a French university with students from xavier to discuss realtions between the United States and Europe. Topics include economic policy, environmental issues, church-state relations, federalism, international relations and international law.

Prerequisites: PHIL100 and PHIL290

Course Attributes: ERS Focus Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science
POLI 490 - Directed Study

1 - 4 Credit Hours
Opportunity to pursue a topic or project of individual interest. Subject to approval of department chairperson.

Levels: Graduate Undergraduate

College of Arts & Sciences Political Science

PPUB 554 - Advanced Policy Analysis

3 Credit Hours
This graduate course explores the relationships among public policy development and implementation, urban sustainability, and private for-profit and not-for-profit interests. We will explore different elements of urban sustainability and how private and public interest collide and/or collude in advancing and/or impeding policies that drive sustainable practices. We will pay particular attention to government administrative entities and how policies are realized through those bureaucracies. We will then explore case studies where public investment spurred private investment successfully. And finally we will explore current public policies and private interests in the greater Cincinnati region.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Interdisciplinary Studies

PPUB 600 - Private Interests & Public I

3 Credit Hours
This course is an introduction to the historical origins of both private interests and public goods within the contexts of 19th- and 20th-century US economic and political history. Students will trace the overlapping histories of economic capitalism, political liberalism, and cultural modernity. We will examine how notions of private interests and public goods reflected the larger historical contexts of their age, how these concepts have changed over time, and how these concepts either conflicted or connected to create moments of reform.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate Undergraduate

College of Arts & Sciences Interdisciplinary Studies
PSYC 100 - Efficient Reading & Study Skills

1 Credit Hours
Critical reading comprehension, study skills, writing skills with emphasis on the integration of reading and writing, understanding what is read, and developing good study habits. Improve ability to interpret, analyze, and evaluate general reading material and specific course contents.

Levels: Undergraduate

College of Professional Sci Psychology

PSYC 101 - General Psychology

3 Credit Hours
Basic psychological processes such as sensation, perception, motivation, learning, abnormal, social, and personality development.

Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core

Levels: Undergraduate

College of Professional Sci Psychology

PSYC 121 - Gen Exp Psych

2 Credit Hours
Introduction to the scientific method used in psychology, covering topics such as sensation, perception, learning, emotion, motivation. Fulfills science requirement for non-psychology majors.

Co-requisites: PSYC122

Restrictions: May not be enrolled in one of the following Majors: Psychology May not be enrolled in one of the following Minors: Psychology

Course Attributes: Psychology Lect Old/Trans Core, Scientific Perspectives Lect

Levels: Undergraduate

College of Professional Sci Psychology
PSYC 123 - Gen Experimental Psych II

2 Credit Hours
Introduction to the structure and function of the nervous system, which serves as the basis for the study of human behavior and psychopathology. Fulfills science requirement for non-psychology majors.

Prerequisites: PSYC121 and PSYC122

Co-requisites: PSYC124

Course Attributes: Psychology Lect Old/Trans Core

Levels: Undergraduate

PSYC 124 - Gen Experimental Psych II Lab

1 Credit Hours
Experiments demonstrating principles described in the lectures.

Co-requisites: PSYC123

Course Attributes: Psychology Lab Old/Trans Core

1 Credit Hours
Co-requisites: PSYC130

Course Attributes: Scientific Perspectives Lab

Levels: Undergraduate

College of Professional Sci Psychology

PSYC 200 - Orientation to the Major

1 Credit Hours
The objective of the course is to prepare psychology majors for a career in psychology. You will receive exposure to various careers in psychology and reflect on the psychology major as the right choice for you. For example, you will complete some self reflection assignments regarding psychology as a choice for major and examine what is best choice of career paths for your abilities, strengths, values and experiences? You will also learn about some career-related skills such as securing employment: resume writing, researching areas of interest, networking, job shadowing, skills obtained as a psychology major (research design, critical and scientific thinking, oral presentation skill), and accessing XU resources (e.g., Center for Career and Leadership Development).

Prerequisites: PSYC101

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 210 - Statistical Techniques

3 Credit Hours
Basic statistics in psychology. Measures of central tendency and variability, correlational techniques, and experimental test of differences among groups. For Psychology majors and minors only.

Co-requisites: PSYC212

Restrictions: Must be enrolled in one of the following Fields of Study (Major, Minor, or Concentration): Psychology

Course Attributes: Quantitative Reason Flag Full

Levels: Graduate Undergraduate

College of Professional Sci Psychology
PSYC 212 - Computer Statistical Analysis

1 Credit Hours
Basic statistical analyses using SPSS. Data entry, variable computation, descriptive and inferential statistical analyses, and appropriate reporting and interpretation of results.

Co-requisites: PSYC210
Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 221 - Research Meth & Design I

PSYC 221 - Research Meth & Design I

2 Credit Hours
Basic exploration of the scientific method as applied to psychology. Includes research design and appropriate statistical analyses. Required for psychology majors, minors, and Honor's students.

Co-requisites: PSYC223
Restrictions: Must be enrolled in one of the following Fields of Study (Major, Minor, or Concentration): Psychology
Course Attributes: Scientific Perspectives Lect, Writing Flag Core
Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 222 - Research Meth & Design II

PSYC 222 - Research Meth & Design II

2 Credit Hours
Advanced exploration of the scientific method as applied to psychology. Includes research design and appropriate statistical analyses. Required for psychology majors.

Prerequisites: PSYC221
Co-requisites: PSYC224
Course Attributes: Oral Communication Flag
Levels: Graduate Undergraduate

College of Professional Sci Psychology
PSYC 223 - Research Meth & Design I Lab

1 Credit Hours
Development of hypotheses, design and carry out psychological research, analyze data and interpret results. Required for psychology majors, minors and honors students.

Co-requisites: PSYC221

Restrictions: Must be enrolled in one of the following Fields of Study (Major, Minor, or Concentration): Psychology

Course Attributes: Scientific Perspectives Lab, Writing Flag Core

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 224 - Research Meth & Design II Lab

1 Credit Hours
Development of hypotheses, design, and carry out psychological research, analyze data and interpret results. Required for psychology majors.

Co-requisites: PSYC222

Restrictions: Must be enrolled in one of the following Majors: Psychology

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 231 - Developmental Psychology

PSYC 231 - Developmental Psychology

3 Credit Hours
Factors influencing a person's life span. Application to stages of physiological maturation, developmental tasks, social learning, personality integration.

Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci Psychology
PSYC 233 - Adolescent Psychology

3 Credit Hours
Interrelated physical, social, and moral development associated with youth and adolescence.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 245 - Psyc of Cultural Differences

3 Credit Hours
A study of the way in which cultural differences influence psychological functioning and social behavior at individual, interpersonal, and systematic levels.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 261 - Social Psychology

3 Credit Hours
The individual's personality, attitudes, behavior in multi-individual situations.

Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 267 - Treating Sex Offenders & Vict

1 Credit Hours
This workshop explores treatment issues and approaches for working with sex offenders, victims, and other family members.

Levels: Graduate Undergraduate

College of Professional Sci Psychology
PSYC 271 - Intro to Emotionally Dist Chld

3 Credit Hours

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 276 - Psychology of Delinquency

2 Credit Hours
Types and causes of juvenile delinquency together with brief case histories.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 277 - Abnormal Psychology

3 Credit Hours
Dynamics of the disturbed personality; symptoms, causes, treatment of psychoneuroses, psychoses, deviant personalities.

Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 285 - Psychology of Religion

3 Credit Hours
Examines religiousness and the religious personality from a psychological perspective.

Levels: Graduate Undergraduate

College of Professional Sci Psychology
PSYC 301 - History & Systems of Psychology

3 Credit Hours
Modern scientific psychology including its various schools and their backgrounds. Required of Psychology majors. Senior Level.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 310 - Marriage and the Family

3 Credit Hours
An interdisciplinary course taught simultaneously by a psychologist, sociologist, and theologian, each looking at marriage and family from his/her perspective. In addition, married couple specialists from law and medicine present as guest speakers.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 321 - Industrial-Organizational Psyc

3 Credit Hours
Psychological bases for organizational decisions from employment to the maintenance of motivation and job satisfaction of people. Research, measurement and practical application are emphasized.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 330 - Intro to African/Black Psych

3 Credit Hours
This course will provide an introduction to the field of African-centered and Black psychology, one of the social sciences. It will utilize an African-centered framework to examine salient themes in the psychology of the people of African descent. It is my hope, that through this examination, the learner will become more knowledgeable about the psychological experiences of people of African descent and the role of history and culture in human development.

Course Attributes: Africana Studies Minor, Diversity Curriculum Require, Gender & Diversity Studies

Levels: Graduate Undergraduate
PSYC 332 - Child Psychology

3 Credit Hours
The study of growth and development; heredity and environmental factors; early and later childhood to puberty.

Prerequisites: PSYC101 and PSYC221 and PSYC223

Levels: Graduate Undergraduate

PSYC 340 - Sexism & Racism in Society

1 Credit Hours
This workshop explores the causes and effects of racial and gender stereotyping, prejudice, and discrimination on the individual, institutional, and cultural level. Emphasis is on education, the workplace, interpersonal relations, and communication.

Course Attributes: Africana Studies Minor

Levels: Graduate Undergraduate

PSYC 350 - Psychology and the Law

3 Credit Hours
This course explores the bridge between psychology and the law. The student is introduced to each discipline's basic methodologies and assumptions, the roles of forensic psychologists in the legal system and how psychology can contribute to various areas of the law.

Prerequisites: PSYC101

Levels: Graduate Undergraduate
PSYC 353 - Violence Against Women & Girls

3 Credit Hours
This course is on violence against women and girls, but also makes comparisons regarding violence against men and boys. Course lectures and reading materials address the issue of violence against women and girls in terms of how gender inequality is related to the violence against them. The feminist approach incorporates the intersection of sexism with other forms of oppression, such as racism, classism, and heterosexism. The topics covered focus on sexual abuse (physical and non-physical) and intimate partner abuse, including sexual harassment and stalking. Psychological aftereffects of sexual victimization, including Post Traumatic Stress Disorder and Complex Post Traumatic Stress Disorder are covered.

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies, GDST Women and Gender Conc, Peace& Justice Studies Minor

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 365 - Psychology of Women

PSYC 365 - Psychology of Women

3 Credit Hours
Study of the biological, psychological, and social needs and issues of women.

Course Attributes: Gender & Diversity Studies, GDST Women and Gender Conc

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 366 - Crime & Personality

PSYC 366 - Crime & Personality

3 Credit Hours
Root causes of crime in the individual and in the culture. Consideration of personality dynamics and treatment approaches.

Course Attributes: Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci Psychology
PSYC 367 - Psychology of Aging

3 Credit Hours
The interrelationship between biological-cognitive personality and social changes associated with aging.

Course Attributes: Diversity Curriculum Require, ERS Focus Elective

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 368 - Health Psychology

3 Credit Hours
A survey of the field of health psychology. Examines a number of health issues by considering the interaction of biological, psychological, and social factors.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 370 - Human Sexuality

3 Credit Hours
A survey of the psychology of humans as sexual beings. Examines biological, cultural, psychological and developmental aspects.

Course Attributes: Diversity Curriculum Require

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 375 - Drugs in Society

3 Credit Hours
Material covered in this course includes historical and current perspectives on drug addiction. Basic pharmacology and neuroanatomy are reviewed. Current empirical understanding of the nature and effects of cocaine, nicotine, caffeine, alcohol, depressants, opiates, marijuana, hallucinogens and psychiatric drugs are covered. Additionally, students are exposed to current controversies regarding drugs, drug regulation and drug prevention.
Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 379 - Psyc and Achievement Testing

PSYC 379 - Psyc and Achievement Testing

3 Credit Hours
This course reviews basic statistical principles underlying psychological testing, especially norms, reliability and validity. Various types of psychological tests are introduced, along with an introduction to ethical issues in testing.

Levels: Undergraduate

College of Professional Sci Psychology

PSYC 380 - Counseling Challenging Youth

PSYC 380 - Counseling Challenging Youth

1 Credit Hours
Workshop participants learn a number of practical strategies for building and maintaining therapeutic relationships with challenging youth and families. The strategies are formatted around six guiding principles common to most human services professionals who successfully engage this population. Participants are challenged to assess their own attitudes, beliefs, and behaviors related to challenging youth via lecture, demonstrations, small group activities, and role plays.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 385 - Proc of Intergroup Dialogue

PSYC 385 - Proc of Intergroup Dialogue

3 Credit Hours
This course is designed to give students a foundation to effectively facilitate group interactions and specifically structured multicultural inter-group dialogues. The topics of this course include social identity, group development, prejudice, and stereotyping and their effects on groups; difference and dominance and the nature of social oppression; culture, cultural cues, and judgments; basic group facilitation skills and their application in multicultural settings. Subsequently, the class will view films, participate in class exercises or role plays, practice facilitation and reflect on the readings, processes, and assignments in class discussions.

Course Attributes: Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Professional Sci Psychology
PSYC 407 - Addiction: An Epidemic

1 Credit Hours
This workshop examines the various forms of addiction that are becoming the leading social problems of this century. An overview of addiction is imparted as well as manifestations such as sex, gambling, eating disorders, and drugs. The impact of addiction on the individual, family, and society are discussed.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 408 - Women & Societal Violence

1 Credit Hours
A workshop that takes a historical perspective on violence against women. Violence against women and intervention are studied. Prosecution of cases is presented and treatment strategies for offenders are explored.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 409 - Group Dynamics

3 Credit Hours
In-depth consideration of basic dynamics and processes operating in groups and the various strategies used in the group approach as they relate to educational, business, social and personal interactions and problems.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 426 - Physiological Psychology

3 Credit Hours
This upper-division course provides an overview of the structure and function of the human nervous system as it is involved in human behaviors such as memory, emotion, learning, and psychological disorders. This course assumes that the student has successfully completed A&P (or its equivalent).

Prerequisites: PSYC101 and BIOL140 and BIOL141
Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 427 - Cognitive Psychology

PSYC 427 - Cognitive Psychology

3 Credit Hours
Examines the human information processing system. Topics include attention, perception, sensory memory, short-term memory, long-term memory, reasoning, problem solving and decision making.

Prerequisites: PSYC221 and PSYC223

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 429 - Psyc of Sensation & Perception

PSYC 429 - Psyc of Sensation & Perception

3 Credit Hours
Examines how the senses gather information from the outside world and how that information is transformed and interpreted by the nervous system. Topics include visual and auditory processing, perceptual organization, illusions, movement and time perception, and perceptual development.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 452 - Intro to Clinical Psychology

PSYC 452 - Intro to Clinical Psychology

3 Credit Hours
Provides an understanding of the different types of activities typically engaged in by clinical psychologists.

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 460 - Learning and Behavior

PSYC 460 - Learning and Behavior

3 Credit Hours
Presents a review of the basic principles of conditioning and learning, and their application to everyday behavior.

**Prerequisites:** PSYC101 and PSYC221 and PSYC223

**Levels:** Graduate Undergraduate

*College of Professional Sci Psychology*

**PSYC 464 - Theories of Personality**

**PSYC 464 - Theories of Personality**

3 Credit Hours
Description and evaluation of current personality theories.

**Levels:** Graduate Undergraduate

*College of Professional Sci Psychology*

**PSYC 470 - Consumer Behavior**

**PSYC 470 - Consumer Behavior**

3 Credit Hours
Marketing strategy implications of consumer behavior. Provides a basic understanding of the major concepts and theories in consumer decision making and behavior. Considers psychology and other social sciences as they contribute to the understanding of these notions.

**Levels:** Graduate Undergraduate

*College of Professional Sci Psychology*

**PSYC 477 - Sports Psychology**

**PSYC 477 - Sports Psychology**

3 Credit Hours
The course deals with behavior and sports emphasizing the areas of personality and sports, anxiety and arousal in sports motivation, aggression, group dynamics, socialization and exercise.

**Levels:** Graduate Undergraduate

*College of Professional Sci Psychology*
PSYC 481 - Readings in Psychology

1 - 3 Credit Hours
Library research project assisted and supervised by staff member. Required research paper. Psychology majors only. Approval of Dept. Chair required.

Prerequisites: Undergraduate level THEO111 Minimum grade of D and Undergraduate level PHIL100 Minimum grade of D

Restrictions: Must be enrolled in one of the following Majors: Psychology

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 490 - Practicum in Psychology

1 - 3 Credit Hours
In this course students work as paraprofessionals in the community providing service under supervision.

Restrictions: Must be enrolled in one of the following Majors: Psychology

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 499 - Senior Comprehensive Review

3 Credit Hours
Capstone course required of all majors. Review of fundamental areas of psychology and integration of psychology within a liberal arts education.

Restrictions: Must be enrolled in one of the following Classifications: Senior

Levels: Graduate Undergraduate

College of Professional Sci Psychology

PSYC 502 - History & Philosophical Issues

3 Credit Hours
Review conceptual foundations of modern psychology. This review traces the roots of modern psychology, highlights the major figures of psychology, including the contributions of women and ethnic minorities.

PSYC 508 - Diversity

3 Credit Hours
This is an applied course on cultural diversity. Study of various ethnic and cultural norms are evaluated for their impact on clinical presentation. Appreciation and respect for differences are balanced with the importance of recognizing clinical needs within a variety of settings.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

PSYC 511 - Advanced Statistics I

2 Credit Hours
Statistical analyses emphasizing partial and semi-partial correlations, multiple regression, ANOVA, MANOVA, ANCOVA, logistic regression, discriminant analysis, and factor analysis.

Prerequisites: Undergraduate level PSYC210 Minimum grade of D

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

PSYC 512 - Advanced Statistics II

2 Credit Hours
Continuation of PSYC 511.

Prerequisites: Graduate level PSYC511 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 520 - Computer Statistics Language I

1 Credit Hours
Application and interpretation of statistical packages for use in psychological research.

Prerequisites: Graduate level PSYC511 Minimum grade of C

Co-requisites: PSYC511

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

PSYC 521 - Computer Stats Language II

PSYC 521 - Computer Stats Language II

1 Credit Hours
Continuation of PSYC 520.

Prerequisites: Graduate level PSYC520 Minimum grade of C

Co-requisites: PSYC512

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

PSYC 522 - Personnel Psychology

PSYC 522 - Personnel Psychology

3 Credit Hours
Psychological dimensions of human resource functions in organizations, primarily focusing on personnel selection, employee orientation and placement, employment legislation and related topics with a strong emphasis upon current research and literature.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 530 - Learning & Motivation

3 Credit Hours
Theories of learning and motivation mainly within the context of education. Three families of learning theory: mental discipline, stimulus-response conditioning, cognitive psychology. Particular emphasis upon the place of intrinsic motivation.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 553 - Marketing Research

3 Credit Hours
Methods and techniques of marketing research; its use as a tool of management; cases in marketing research.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 579 - ProSem: Applied I/O Psychology

3 Credit Hours
An overview of topic areas in personality, social, and cognitive psychology, and their application to Industrial-Organizational Psychology.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 580 - Clinical Psychopathology

3 Credit Hours
Study of descriptive and dynamic psychopathology via DSM-IV and psychodynamic theory. Clinical interviewing and diagnostic criteria.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 582 - Assessment I: Intelligence

3 Credit Hours
Students learn to correctly administer and score individual tests of intelligence (Wechsler scales) and cognitive functioning (WMS). There is also an introduction to test score interpretation and report writing, ethical issues in testing are also emphasized throughout the course.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 585 - Assessment II: Personality

3 Credit Hours
The fundamental principles involved in the administration, scoring, analysis, and evaluation of the MMPI-2, MMPI-A, MCMI-3, and several other tests are covered in this course.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 590 - Internship: Gen Exper Psycholo

3 Credit Hours
Supervised experience in the student's area of interest/concentration.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 593 - Internship in I-O Psychology

3 Credit Hours
A 120-hour field experience within the general area of I-O psychology. In some instances, students design and carry out projects in the service of organizations. In other situations, students participate in on-going activities in ways to help serve organizational needs.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 607 - Advanced Developmental Psych

3 Credit Hours
Introduction to core issues in developmental psychology - developmental perspective on psychological theory and research; subdiscipline in psychology with its own history, perspective, methodologies, and traditions of measurement and analysis; appreciation of a developmental perspective in clinical work; importance of culture and diversity in developing a clinical perspective.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 609 - Learning & Cognition

3 Credit Hours
Analysis of the experimental literature and theories of learning and cognition, including classical and operant conditioning, memory, attention, problem solving, and decision making.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 610 - Biological Bases of Behavior

3 Credit Hours
This course surveys the biological underpinning of human behavior with an emphasis on structure and function of the human nervous system particularly as it pertains to processes such as learning, memory, emotions, and psychological disorders.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 615 - Gestalt Therapy

1 Credit Hours
This workshop is an introduction to theoretical foundations and therapeutic techniques of Gestalt therapy with particular emphasis on experiential learning.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 621 - Adv Research Design & Analysis

PSYC 621 - Adv Research Design & Analysis

3 Credit Hours
Intensive survey of research principles in behavioral science and advanced issues in research design procedures and analysis; introduction to individual laboratory research with special focus on methodological issues.

Prerequisites: PSYC511 and PSYC520 and PSYC512 and PSYC521

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate
College of Professional Sci Psychology

PSYC 623 - Issues in Applied Psychology

PSYC 623 - Issues in Applied Psychology

3 Credit Hours
This course serves to provide students with exposure to topics related to conducting research in applied settings, including performing program evaluations and communicating with Institutional Review Boards (IRB) regarding studies involving human subjects. Typically, students are required to apply principles from previous courses in statistics and research design. Information about the PsyD dissertation requirement is also typically provided.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate
College of Professional Sci Psychology

PSYC 627 - Marital & Family Therapy

PSYC 627 - Marital & Family Therapy

2 Credit Hours
A workshop designed to educate students in the systems perspective in dealing with a range of psychological disorders. Diagnostic and treatment strategies presented along with practical training in marital and family interventions. Advances in marital and family research are presented.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate
College of Professional Sci Psychology
PSYC 629 - Intervention Tech: Behav Thera

3 Credit Hours
Theoretical and empirical bases of behavior therapy coupled with applied aspects of the therapeutic process. Projects using behavioral therapeutic techniques in a variety of settings with various clinical problems required.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate
College of Professional Sci Psychology

PSYC 641 - Assess Tech in Indust-Org Psyc

4 Credit Hours
The role of assessment in I-O psychology. Skill development in conducting job analyses and writing job descriptions; constructions, evaluating and using employment tests; developing and carrying out surveys; coverage of all phases of performance evaluation; and meeting other assessment needs within the field of I-O psychology.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate
College of Professional Sci Psychology

PSYC 642 - Prof Dev Issues: I-O Psych

3 Credit Hours
Provide an extensive analysis of the process of organizational development consulting with an emphasis on developing students to be successful professionals. Topics include organizational development theory, organizational consulting theory, practical issues in consulting and the identification of ethical boundaries around professional behavior.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate
College of Professional Sci Psychology
PSYC 643 - Sem: Industrial - Org Psyc

3 Credit Hours
Thorough review of current topics in I-O psychology as well as the area of leadership, with an emphasis on both research and popular literature. Students are expected to be largely responsible for the presentation of information.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 644 - Organizational Psychology

3 Credit Hours
Concepts attempting to explain the motivation and behavior of employees in organizations. Topics include job satisfaction, work motivation, absenteeism, turnover, organizational commitment, organizational citizenship behaviors, and job design with a strong emphasis on current research and literature.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 645 - Train & Devel in Organizations

3 Credit Hours
This course presents an overview of the important issues in training and development. Students apply the concepts and knowledge learned to real world situations.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 649 - Intro to Clinical Interactions

3 Credit Hours
This course is designed to introduce graduate students to the knowledge, attitudes and skills which are basic to clinical practice especially interviewing and therapy. It includes a survey of research related to the aspects of therapy common across theoretical orientations and the process variables which have been found to lead to positive outcomes. The course includes a lecture and discussion period for the whole group and a lab with a group of four students and an advanced graduate student TA.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 650 - Professional Devl & Pract I

PSYC 650 - Professional Devl & Pract I

3 Credit Hours
This is a didactic and experiential class designed to socialize the students in a variety of applied areas within the area of clinical psychology. Students become acquainted with information about practical aspects of psychological service provision, current professional and ethical issues relevant to that experience and the role of psychological organizations in one's development. Professional development addresses four general areas: clinical knowledge, clinical skills, self-knowledge, and research thinking.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 651 - Professional Devl & Pract II

PSYC 651 - Professional Devl & Pract II

3 Credit Hours
Continuation of PSYC 650.

Prerequisites: Graduate level PSYC650 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 660 - Performance Appraisal

3 Credit Hours
This course presents an overview of important issues in performance appraisal, as well as practical experience. Expectations include applying the concepts and knowledge learned in this class to real world situations.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 685 - Assessment III: Personality

3 Credit Hours
This course furthers training in the assessment of personality functioning by presenting the administration, scoring and interpretation of the Rorschach Test, based upon Exner's Comprehensive System.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 689 - Research in Psychology

3 Credit Hours
Research project supervised by a faculty member.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 699 - Master's Thesis

PSYC 699 - Master's Thesis

3 - 6 Credit Hours
Culminating scholarly activity requiring literature review, collection and analysis of data and discussion of results. A formal proposal and oral defense of the written thesis are required.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 703 - Psychopharmacology

PSYC 703 - Psychopharmacology

3 Credit Hours
This course is intended to provide students having a general interest in pharmacology and related studies with a background of current information, and to provide the student with effective methods for updating and keeping current with developments in psychopharmacology, especially with an area of concentration being child and adolescent, geriatric and serious mental disabilities.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 704 - Health Issues Geropsychology

PSYC 704 - Health Issues Geropsychology

3 Credit Hours
This course focuses on the relationship between physical disease and psychological functioning. Theoretical issues and applied psychological interventions related to health promotion and wellness are presented. Offers a multi-disciplinary perspective through critique and analysis of current research literature and exposure to other allied health professionals.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 705 - Clinical Neuropsychology

3 Credit Hours
Study of brain-behavior relationships. This course reviews classic neuropsychological presentations of frequently encountered neurological disorders.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 706 - Alcohol & Substance Abuse

3 Credit Hours
This course examines the concept of addiction as it is understood by psychologists. It is designed to provide exposure to leading theories of drug initiation, abuse and dependence. Information about the physical and psychoactive effects of the major categories of abuse and dependence producing drugs are covered. Assessment strategies and treatment modalities are discussed.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 710 - Intervent Tech: Group Therapy

3 Credit Hours
This course is designed to teach the significant theoretical aspects of group therapy. Students will become familiar with the stages of development of groups, the goals of each stage, the characteristic behavior of members within each stage as well as the appropriate leader interventions. Knowledge of factors that make groups effective, ethical guidelines and qualities/behaviors that make effective group leaders, and cultural issues that impact groups will be addressed.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 712 - Forensic Psychology

3 Credit Hours
This course examines the bridge between psychology and the law, emphasizing the forensic psychologist's role in the legal system. Attention is given to developing a foundation in forensic knowledge, skills, and attitude for professional psychologists. Forensic issues including assessment and intervention strategies, consultation, interdisciplinary forensic problem-solving, courtroom testimony, and ethics are emphasized.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 714 - Child & Adolescent Chronic Ill

PSYC 714 - Child & Adolescent Chronic Ill

1 Credit Hours
This intensive workshop examines the child and adolescent with chronic illness and discusses treatment approaches from a multi-disciplinary or bio-psycho-social intervention model. The instructor draws upon extensive experience and observations from working in clinics, hospitals or in the field with children who have been diagnosed with such disorders as: cancer, hemophilia, AIDS, diabetes, sickle cell anemia, endocrine/growth problems, cleft palate, genetic anomalies, mental health DSM-IV disorders, as well as children with multiple handicaps and disabilities. Emphasis is given to practical ways counselors and other mental health professionals and teachers can build and maintain therapeutic relations with children who have been dealt this difficult challenge of handling a chronic or life threatening illness. Additionally, this course gives special attention to identifying needs, assessing, and treating families and siblings of children who have a chronic illness.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 715 - Early Cognitive Development

PSYC 715 - Early Cognitive Development

3 Credit Hours
Review of theories of the nature and development of the human cognitive system and how it relates to developmental processes. Special attention is paid to Piaget's theory of cognitive development.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 716 - Working w/Difficult/Tough Chld

0 - 1 Credit Hours
Workshop that examines identification, assessment and treatment procedures used therapeutically with a range of psychological disorders experienced by children and adolescents.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 718 - Assessment of Child & Adolesce

PSYC 718 - Assessment of Child & Adolesce

3 Credit Hours
This course is designed to teach a variety of clinical assessment strategies to assist in diagnosis and clinical decision-making. The complexities of developing youth and their social systems are examined as they relate to as interpreting assessment data with sensitivity to cultural and ethnic differences.

Prerequisites: Graduate level PSYC720 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 720 - Child & Adolesc Psychopathology

PSYC 720 - Child & Adolesc Psychopathology

3 Credit Hours
Risk factors for and characteristics of psychopathology evidenced by persons under 18, with attention to the influence of genetics, biology, family, peers, diverse social contexts, and society as a child develops.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 721 - Psychopath/Ther - Older Adult

3 Credit Hours
Focus of the course is twofold: assessment and treatment. When assessing and treating older adults, psychologists must consider the relevant bio-psycho-social factors. Students will express their conceptualization of cases according to a biopsychosocial framework, DSM-IV diagnostic criteria, and the major models of psychotherapy; describe and defend their treatment plan for many common disorders in later life, incorporating empirically proven effective interventions; and identify the ethical principles operative in cases and describe how they will resolve ethical dilemmas according to APA ethical guidelines and principles.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 730 - Intervention Tech: Consulting

3 Credit Hours
Consultation is studied within a process service delivery role, especially applied to the clinical psychologist. Both consulting as an individual and as part of a team are studied as applied to a number of different areas: health care agencies; forensic agencies; academic agencies; athletics and corporations. The emphasis on specific areas may change from time to time. Basics of grant writing, aspects of program evaluation, diversity issues, consulting vs. counseling and therapy, ethical issues related to consulting are explored. Students are expected to become familiar with consulting research and theory as well as fundamentals of consulting practice.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 731 - Intervention Tech: Psychodynam

3 Credit Hours
This course is presented to teach both a theoretical and applied understanding of the psychotherapeutic process, emphasizing psychoanalytic theory and technique. Respect for differences is emphasized.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 732 - Intervent Tech: Child & Adol

3 Credit Hours
Theoretical framework regarding the psychological treatment of children and adolescents, current research data, and treatment methods presented in dealing with a range of childhood and adolescent disorders. Special emphasis is placed on empirically validated treatment interventions.

Prerequisites: PSYC720 and PSYC718

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 735 - Intervention: DBT

3 Credit Hours
Students will become familiar with Dialectical Behavior Therapy (DBT) as it can be applied to a variety of clients including suicidal adolescents and adults with Borderline Personality Disorder (BPD). Students will study four components of DBT: individual therapy, skills training, phone coaching, therapist consultation teams. Students will also learn how to teach the DBT skills of mindfulness, interpersonal effectiveness, emotion regulation, and distress tolerance. The course will also survey the theory and research behind DBT.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 740 - Assessment of Older Adults

3 Credit Hours
Students become familiar with the theory, research, and practice of various assessment methods used with older adults. This course exposes students to common clinical assessment issues with this population (e.g., what factors need to be ruled out, and how to go about an assessment to answer specific referral questions). Students write several assessment reports based upon case vignettes, in which they integrate bio-psycho-social assessment evidence.

Prerequisites: PSYC651

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate
PSYC 747 - Interv Tech: Marital & Fam The

3 Credit Hours
Designed to educate students in the systems perspective in dealing with a range of psychological disorders. Diagnostic and treatment strategies presented along with practical training in marital and family interventions.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

PSYC 760 - Clinical Practicum III

3 Credit Hours
Supervised experience in a clinical setting.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

PSYC 761 - Clinical Practicum IV

3 Credit Hours
Continuation of PSYC 760.

Prerequisites: Graduate level PSYC760 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 787 - Research I

3 Credit Hours
A culminating scholarly activity requiring a review of relevant literature, collection and analysis of data, and discussion of results under the supervision of a faculty member. A formal proposal meeting and oral defense of the written dissertation are required.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 788 - Research II

3 Credit Hours
Continuation of PSYC 787.

Prerequisites: PSYC787

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 789 - Research III

3 Credit Hours
Continuation of PSYC 788.

Prerequisites: PSYC788

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology
PSYC 790 - Continuous Major Research

3 - 12 Credit Hours
Continuation of PSYC 699 & 789.

Prerequisites: PSYC699 or PSYC789

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 810 - Clinical Health Psychology

3 Credit Hours
Restrictions: Must be enrolled in one of the following Programs: Doctor of Psychology May not be enrolled in one of the following Majors: Clinical Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 820 - Psychology In Primary Care

3 Credit Hours
Co-requisites: PSYC821

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Psychology

PSYC 821 - Interprofessional Education

1 Credit Hours
Interprofessional care recognizes a culture of respect, concisely clear communication, interdependent care for client-centered outcomes, and integration of services through shared decision making. This course will provide students with an opportunity to practice across
disciplines in teams to meet the needs of individuals, families and the community.

Co-requisites: PSYC820

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Psychology

PSYC 830 - Pediatric Psychology

PSYC 830 - Pediatric Psychology

3 Credit Hours
This course addresses psychological issues in and interventions for pediatric chronic medical conditions and common issues in developmental pediatrics.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Professional Sci Psychology

PSYC 850 - Clinical Practicum V

PSYC 850 - Clinical Practicum V

3 Credit Hours
Supervised experience in a clinical setting.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 851 - Clinical Practicum VI

PSYC 851 - Clinical Practicum VI

3 Credit Hours
Continuation of PSYC 850.

Prerequisites: Graduate level PSYC850 Minimum grade of C

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology

Levels: Graduate
PSYC 852 - Extended Practicum

1 - 3 Credit Hours
This course is designed to allow advanced level (5th year) doctoral students to continue field experiences beyond those required. The focus of the course is acquiring further experience in applying clinical skills in "real-world" settings.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

PSYC 896 - Research & Clinical Issue: SMD

3 Credit Hours
A knowledge-based introduction to the research and clinical issues involved in working with severely mentally ill persons and their families. Takes a broad-based approach to the overview of the field and addresses theory and practice methods in this area. Students are acquainted with the social, political and professional context in which mental health practice and research take place.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

PSYC 897 - Intervent Tech: SMD Population

3 Credit Hours
This course is designed to teach assessment and intervention techniques for working with severely mentally ill persons and their families. Uses psychological and psychosocial development theory and research as a basis for case and treatment conceptualization. Further acquaints students with the social, political, and professional context in which mental health practice and research take place.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate
PSYC 900 - Tutorial in Psychology

1 - 3 Credit Hours
Content to be determined according to the needs of the student in regards to a particular skill/knowledge area.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 998 - Internship Planning

PSYC 998 - Internship Planning

1 Credit Hours
Continuation of doctoral student preparation for internship experience.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

PSYC 999 - Internship

PSYC 999 - Internship

1 - 2 Credit Hours
Intensive, full-time supervised experience in a clinical setting approved by the director of clinical training.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Majors: Clinical Psychology Psychology

Levels: Graduate

College of Professional Sci Psychology

RADT 150 - Medical Terminology

RADT 150 - Medical Terminology

1 Credit Hours
Medical word roots, stems, prefixes and suffixes. Common medical abbreviations.
Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate

College of Professional Sci Radiologic Technology

RADT 152 - Patient Care in Radiography

RADT 152 - Patient Care in Radiography

1 Credit Hours
Basic patient care, communication skills, professional ethics, emergency procedures and isolation techniques.

Co-requisites: RADT160, RADT161, RADT170

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate

College of Professional Sci Radiologic Technology

RADT 154 - Ethics & Law in Radiography

RADT 154 - Ethics & Law in Radiography

1 Credit Hours
This course will provide students with a fundamental background in ethics as well as elements of ethical and professional behavior. Students will be introduced to legal terminology, principles, and professional organizations.

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate

College of Professional Sci Radiologic Technology

RADT 160 - Radiographic Procedures I

RADT 160 - Radiographic Procedures I

2 Credit Hours
Didactic and laboratory instruction in routine radiographic positioning of the chest, abdomen, upper extremities, bony thorax, esophagus, stomach, large intestines, biliary and urinary systems.

Co-requisites: RADT152, RADT161, RADT170

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate

College of Professional Sci Radiologic Technology
RADT 161 - Radiographic Practicum I

1 Credit Hours
Radiographic clinical competency training and evaluation, Tuesdays and Thursdays during the fall semester at an affiliate hospital (16 hours/week).

Co-requisites: RADT152, RADT160, RADT170

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate

RADT 162 - Radiographic Procedures II

2 Credit Hours
Didactic and laboratory instruction in routine radiographic positioning of the lower extremities, pelvis, cervical, thoracic, and lumbar spine, skull and facial bones.

Prerequisites: Undergraduate level RADT160 Minimum grade of C and Undergraduate level RADT161 Minimum grade of C

Co-requisites: RADT163

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate

RADT 163 - Radiographic Practicum II

1 Credit Hours
Radiographic clinical competency training and evaluation, Tuesdays and Thursdays during the spring semester at an affiliate hospital (16 hours/week).

Prerequisites: Undergraduate level RADT150 Minimum grade of C- and Undergraduate level RADT152 Minimum grade of C- and Undergraduate level RADT160 Minimum grade of C- and Undergraduate level RADT161 Minimum grade of C- and Undergraduate level RADT170 Minimum grade of C-

Co-requisites: RADT162

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate
RADT 165 - Radiographic Practicum III

3 Credit Hours
Radiographic clinical competency training and evaluation during the summer months. First summer session, Monday and Wednesday at an affiliate hospital (16 hours/week). Second summer session, Monday through Friday at an affiliate hospital (40 hours/week).

Prerequisites: Undergraduate level RADT162 Minimum grade of C- and Undergraduate level RADT163 Minimum grade of C- and Undergraduate level RADT172 Minimum grade of C- and Undergraduate level RADT180 Minimum grade of C-

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate

RADT 170 - Prin of Radiographic Expos I

2 Credit Hours
Basic concepts of radiation protection, the process of radiographic image production, and the specific equipment accessories used to produce high quality images.

Co-requisites: RADT152, RADT160, RADT161

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate

RADT 172 - Prin of Radiographic Expos II

2 Credit Hours
Controlling and influencing factors of radiographic image quality.

Prerequisites: Undergraduate level RADT150 Minimum grade of C- and Undergraduate level RADT152 Minimum grade of C- and Undergraduate level RADT160 Minimum grade of C- and Undergraduate level RADT161 Minimum grade of C- and Undergraduate level RADT170 Minimum grade of C-

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate
RADT 180 - Radiation Protection and Biology

2 Credit Hours
How to use ionizing radiation in a safe and prudent manner, maximum permissible doses, effects of ionizing radiation on living tissue.

Prerequisites: Undergraduate level RADT150 Minimum grade of C- and Undergraduate level RADT152 Minimum grade of C- and Undergraduate level RADT160 Minimum grade of C- and Undergraduate level RADT161 Minimum grade of C- and Undergraduate level RADT170 Minimum grade of C-

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate

College of Professional Sci Radiologic Technology

RADT 200 - Digital Imaging

1 Credit Hours
To advance students' knowledge of how computers are used in radiology to form images. Students are introduced to the components and operations of digital imaging equipment. Student must have completed all first year Radiologic Technology courses prior to taking this course.

Levels: Undergraduate

College of Professional Sci Radiologic Technology

RADT 250 - General Radiography

2 Credit Hours
Specialized radiographic positioning procedures including radiographic anatomy.

Prerequisites: Undergraduate level RADT165 Minimum grade of C-

Co-requisites: RADT260, RADT261, RADT270

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Graduate Undergraduate

College of Professional Sci Radiologic Technology
RADT 260 - Special Procedures

2 Credit Hours
Special radiographic procedures including myelography, tomography, arthrology and vascular studies. Contrast media.

Prerequisites: Undergraduate level RADT165 Minimum grade of C-
Co-requisites: RADT250, RADT261, RADT270
Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology
Levels: Graduate Undergraduate

College of Professional Sci Radiologic Technology

RADT 261 - Radiographic Practicum IV

2 Credit Hours
Advance radiographic clinical competency training and evaluation, fall semester on Mondays, Wednesdays and Fridays at an affiliate hospital (24 hours/week).

Prerequisites: Undergraduate level RADT165 Minimum grade of C-
Co-requisites: RADT250, RADT260, RADT270
Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology
Levels: Graduate Undergraduate

College of Professional Sci Radiologic Technology

RADT 262 - Pharmacology & Drug Admin

1 Credit Hours
Content is designed to provide basic concepts of pharmacology and drug administration. The administration of diagnostic contrast agents and/or intravenous medications is emphasized.

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology
Levels: Undergraduate

College of Professional Sci Radiologic Technology
RADT 263 - Radiographic Practicum V

2 Credit Hours
Advance radiographic clinical competency training and evaluation, spring semester on Mondays, Wednesdays and Fridays at an affiliate hospital (24 hours/week).

Prerequisites: Undergraduate level RADT115 Minimum grade of C- and Undergraduate level RADT250 Minimum grade of C- and Undergraduate level RADT260 Minimum grade of C- and Undergraduate level RADT261 Minimum grade of C- and Undergraduate level RADT270 Minimum grade of C-

Co-requisites: RADT280, RADT292, RADT294

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Graduate Undergraduate

College of Professional Sci Radiologic Technology

RADT 265 - Radiographic Practicum VI

1 - 3 Credit Hours
Continuation of RADT 263, summer semester, Monday through Friday (2 months 40 hours/week).

Prerequisites: Undergraduate level RADT263 Minimum grade of C- and Undergraduate level RADT280 Minimum grade of C- and Undergraduate level RADT292 Minimum grade of C- and Undergraduate level RADT294 Minimum grade of C-

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Graduate Undergraduate

College of Professional Sci Radiologic Technology

RADT 270 - Prin of Radiographic Expos III

2 Credit Hours
Radiographic technique charts and designs. Exposure conversion problems. Anodecooling and tube rating.

Prerequisites: Undergraduate level RADT165 Minimum grade of C-

Co-requisites: RADT250, RADT260, RADT261

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Graduate Undergraduate

College of Professional Sci Radiologic Technology
RADT 272 - Principles Computed Tomography

1 Credit Hours
Content is designed to impart basic principles and instrumentation related to computed tomography (CT imaging). Computed tomography systems and operations will be explored with attention given to radiation safety.

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate

College of Professional Sci Radiologic Technology

RADT 280 - Pathology

2 Credit Hours
Study of diseases and the radiographic evaluation of the disease processes.

Prerequisites: Undergraduate level RADT115 Minimum grade of C- and Undergraduate level RADT250 Minimum grade of C- and Undergraduate level RADT260 Minimum grade of C- and Undergraduate level RADT261 Minimum grade of C- and Undergraduate level RADT270 Minimum grade of C-

Co-requisites: RADT263, RADT292, RADT294

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Graduate Undergraduate

College of Professional Sci Radiologic Technology

RADT 292 - Imaging Equipment & Film Proce

2 Credit Hours
Defines the design, maintenance, and quality assurance of radiologic equipment and film processing equipment.

Prerequisites: Undergraduate level RADT115 Minimum grade of C- and Undergraduate level RADT250 Minimum grade of C- and Undergraduate level RADT260 Minimum grade of C- and Undergraduate level RADT261 Minimum grade of C- and Undergraduate level RADT270 Minimum grade of C-

Co-requisites: RADT263, RADT280

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Graduate Undergraduate

College of Professional Sci Radiologic Technology
RADT 294 - Radiographic Sectional Anatomy

RADT 294 - Radiographic Sectional Anatomy

2 Credit Hours
Gross sectional anatomy of the head, neck, thorax, abdomen, pelvis and vertebral column as they appear on diagrams, computed tomography and magnetic resonance scans.

Prerequisites: Undergraduate level RADT115 Minimum grade of C- and Undergraduate level RADT250 Minimum grade of C- and Undergraduate level RADT260 Minimum grade of C- and Undergraduate level RADT261 Minimum grade of C- and Undergraduate level RADT270 Minimum grade of C-

Co-requisites: RADT263, RADT280, RADT292

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Graduate Undergraduate

College of Professional Sci Radiologic Technology

RADT 300 - Introduction to MRI

RADT 300 - Introduction to MRI

1 Credit Hours
This course will provide the student with an overview of magnetic imaging including the evolution of MR Imaging. This introduction course will provide basic knowledge of terminology, imaging equipment, safety, patient preparation and monitoring the patient in MRI. The information will enable the student to better communicate with the MRI staff and to ensure the safety of the patient and co-workers while in the MRI area. Student must have ARRT certification and permission of RT Program Director to enroll.

Levels: Undergraduate

College of Professional Sci Radiologic Technology

RADT 310 - MRI Imaging Procedures

RADT 310 - MRI Imaging Procedures

2 Credit Hours
This course will provide the students with imaging techniques and standard protocols related to the CNS, neck, thorax, musculoskeletal system, abdomen and pelvis. Positioning criteria will be covered with the proper application of coils and their use in scanning will be covered. Emphasis on patient safety issues will be stressed throughout the course. Student must have ARRT certification and permission of RT Program Director to enroll.

Levels: Undergraduate

College of Professional Sci Radiologic Technology
RADT 311 - MRI Practicum I

2 Credit Hours
The clinical practice experiences are designed to sequentially develop the student from entry level skills to advance imaging skills. In this course, the student will gain experience in providing a safe working environment for the patient and others around the magnetic area, and entry level scanning protocols.

Prerequisites: RADT300
Levels: Undergraduate

College of Professional Sci Radiologic Technology

RADT 313 - MRI Practicum II

2 Credit Hours
The clinical practice experiences are designed to sequentially develop the student from entry level skills to advance imaging skills. In this course, the student will build on the objectives from RADT 311 and will recognize the need for altering the stand protocol to produce quality diagnostic images. Students will gain experience in altering the protocol to meet the needs of the patients.

Prerequisites: RADT300 and RADT310 and RADT311 and RADT320 and RADT330
Levels: Undergraduate

College of Professional Sci Radiologic Technology

RADT 320 - Physical Principles of MRI I

2 Credit Hours
The course will introduce the student to the fundamentals of MR image acquisition. the information is useful to enable the student to maximize MR image acquisition by understanding image weighing and contrast, encoding and image formation, pulse-sequencing, setting parameters and trade-offs. Student must have ARRT certification and permission of RT Program Director to enroll.

Prerequisites: RADT300
Levels: Undergraduate

College of Professional Sci Radiologic Technology
RADT 321 - Physical Principles of MRI II

2 Credit Hours
The course is designed to provide the student with a comprehensive overview of MRI imaging. Building upon the knowledge the students learned in Physical Principles of MRI Part I, the new topics include nuclear MR signal production, tissue characteristics, imaging parameters/options, image formation, flow phenomena, artifacts and their compensation, vascular and cardiac imaging, instrumentation and equipment, MRI safety, and contrast media agents used in MRI.

Prerequisites: RADT320

Levels: Undergraduate

College of Professional Sci Radiologic Technology

RADT 325 - Radiography Capstone

2 Credit Hours
This course is designed to prepare the radiologic technology students for the American Registry for Radiologic Technologists (ARRT) examination. The course topics will focus on the five sections of the ARRT national examination which are patient care and education, radiation protection and biology, equipment operation and quality control and imaging procedures. Students will present a topic to reflect their understanding of a particular radiographic procedure, disease process, patient tissues, radiation protection or biology or imaging equipment.

Prerequisites: RADT250 and RADT260 and RADT262 and RADT270

Co-requisites: RADT263, RADT280, RADT292

Restrictions: Must be enrolled in one of the following Majors: Radiologic Technology

Levels: Undergraduate

College of Professional Sci Radiologic Technology

RADT 330 - Advance Sectional Anatomy

2 Credit Hours
This course is a study of human anatomy as seen in axial, sagittal and coronal planes. Correlation to MR images is practiced in this course. Sectional anatomy of the head, neck, thorax, abdomen, pelvis, vertebral column and extremities as they appear on magnetic resonance scans. Student must have ARRT certification and permission of RT Program Director to enroll.

Levels: Undergraduate

College of Professional Sci Radiologic Technology
RADT 340 - MRI Pathology

2 Credit Hours
This course familiarizes the student with the common pathologies found in magnetic resonance imaging and the appearance of these pathologies in various imaging protocols. The course content is inclusive of all commonly-imaged body systems and areas. Student must have permission of RT Program Director to enroll.

Prerequisites: RADT330

Levels: Undergraduate
College of Professional Sci Radiologic Technology

RADT 350 - Management of a MRI Center

2 Credit Hours
This course provides an overview of the mechanics involved in operating an MRI center including considerations that must be addressed before placing an MRI system. the course will focus on the various management styles, staffing matrix, policy development and current issues facing MRI centers. Student must have ARRT certification and permission of RT Program Director to enroll.

Levels: Graduate Undergraduate
College of Professional Sci Radiologic Technology

SHRM 200 - Human Resources In a Diverse S

3 Credit Hours
A survey of the theory, policies, and practices that guide the management of human resources within organizations. Topics addressed include: strategic HR, employment law, HR planning and job analysis, staffing, training and development, performance management, compensation and benefits, diversity management, labor relations, and international human resource management.

Course Attributes: Diversity Curriculum Require, EPU, Gender & Diversity Studies

Levels: Undergraduate
Williams College of Business Mgmt, Entrepreneurship& HR

SHRM 302 - Labor Relations

3 Credit Hours
An examination of the field of labor relations including the evolution and current state of the labor movement, key labor legislation, and the collective bargaining process.
Prerequisites: SHRM200
Levels: Undergraduate
Williams College of Business Mgmt, Entrepreneurship & HR

SHRM 303 - Human Resources Internship I

3 Credit Hours
An elective cooperative experience where students earn academic credit while performing approved human resources related work experience. Student must have 55 credit hours completed, 2.75 GPA, department approval required.

Prerequisites: MGMT301 and SHRM200
Levels: Undergraduate
Williams College of Business Mgmt, Entrepreneurship & HR

SHRM 309 - Change Management

3 Credit Hours
Theory and design of organizational systems, organizational performance, culture, training and development and change processes; course also includes a focus on performance appraisal.

Prerequisites: Undergraduate level MGMT300
Levels: Undergraduate
Williams College of Business Mgmt, Entrepreneurship & HR

SHRM 325 - International Human Resources

3 Credit Hours
Compare and contrast labor markets in Asia, Europe and the US. Compare and contrast human resource decisions and practices in different countries (Canada, Great Britain, Germany, France, Sweden, Japan, China and Mexico), Analyze human resource issues and practices that today's multinational firms are facing. Topics include: international recruitment and selection, repatriation, training and development, performance management, compensation and labor relations.

Prerequisites: SHRM200
Levels: Undergraduate
Williams College of Business Mgmt, Entrepreneurship & HR
SHRM 345 - Compensation

3 Credit Hours
An examination of the use of compensation and benefits systems to attract, retain, motivate, and reward employees. Topics include: job analysis, compensation system design, strategies to ensure a system that is internally consistent and externally competitive, challenges in compensating special employee groups, employee benefits, and the legal context.

Prerequisites: (STAT210 or MATH156) and SHRM200

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship & HR

SHRM 360 - Staffing

3 Credit Hours
An examination of the field of staffing within the human resource function, including job analysis, legal issues, and internal and external recruitment and selection.

Prerequisites: (MATH156 or STAT210) and SHRM200

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship & HR

SHRM 370 - Training and Development

3 Credit Hours
A study of training and development of human resources in organizations. Topics include the design, implementation and evaluation of training and development programs as well as career management and organizational development activities.

Prerequisites: SHRM200

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship & HR

SHRM 403 - Human Resources Internship II

3 Credit Hours
An elective cooperative experience where students earn academic credit while performing approved human resources related work experience. Student must have 55 credit hours completed, 2.75 GPA, departmental approval required.
Prerequisites: MGMT301 and SHRM200

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship & HR

SHRM 404 - Advanced Topics In SHRM

SHRM 404 - Advanced Topics In SHRM

3 Credit Hours
Analysis of current human resources issues facing organizations. Topics will vary to keep course current.

Prerequisites: SHRM200

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship & HR

SHRM 490 - Integ Capstone In Strat HR Mgt

SHRM 490 - Integ Capstone In Strat HR Mgt

3 Credit Hours
Integration and application of human resource knowledge for a real company or simulation; analysis of current human resource issues facing organizations. Required capstone course for SHRM majors. Prerequisite: SHRM 301 and 6 hours of SHRM 300-400 level courses.

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship & HR

SHRM 495 - SHRM Capstone

SHRM 495 - SHRM Capstone

3 Credit Hours
This course emphasizes the strategic importance of HRM in organizational effectiveness and the internal assessment of HRM systems for alignment with organizational goals. Key topics include metrics and measurement of HR, trends and forecasting in HR, outsourcing, downsizing, sustainability/corporate social responsibility, ethics, and internal consulting.

Prerequisites: SHRM200

Restrictions: Must be enrolled in one of the following Classifications: Senior

Levels: Undergraduate

Williams College of Business Mgmt, Entrepreneurship & HR
SHRM 600 - Introduction To Human Resource

3 Credit Hours
Key processes of human resource management including selection, employee development, performance management, reward systems, and employee relations.

Restrictions: Must be enrolled in one of the following Levels: Graduate Must be enrolled in one of the following Colleges: Williams College of Business

Levels: Graduate

Williams College of Business Mgmt, Entrepreneurship & HR

SOCI 101 - Introduction to Sociology

SOCI 101 - Introduction to Sociology

3 Credit Hours
Social behavior within the context of group structure, society, and culture. Basic sociological terminology and methodology.

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies, Social Science Old/Trans Core

Levels: Undergraduate

College of Arts & Sciences Sociology

SOCI 167 - Survey of Society Social Work

SOCI 167 - Survey of Society Social Work

3 Credit Hours
The social welfare institution and social work. The three major purposes of social work: (1) enhancement of problem solving; (2) knowledge of systems that provide people with resources and services; and (3) the successful linkage of people with these systems.

Course Attributes: Gender & Diversity Studies

Levels: Undergraduate

College of Arts & Sciences Sociology

SOCI 180 - Culture & Society

SOCI 180 - Culture & Society

3 Credit Hours
Cross cultural study of human values, norms, and behavior. Contemporary American as well as remote and prehistoric cultures will be
SOC 200 - Foundational Social Thought

3 Credit Hours
An introduction to classical sociological theory through the mid-twentieth century including an examination of basic concepts and theoretical projects and application to contemporary social contexts.

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies
Levels: Graduate Undergraduate

SOCI 216 - Sociology of Religion

3 Credit Hours
Examination of the major components of religion, the interdependence between religion and other societal institutions, and religion's role in social conflict and change.

Course Attributes: ERS Focus Elective
Levels: Graduate Undergraduate

SOCI 232 - Sociology of Sport

3 Credit Hours
Organized sport as an important institutional component of American culture and society.

Levels: Graduate Undergraduate

**SOCI 240 - Population & Globalization**

3 Credit Hours
Introduction to the basic methods and theories of demography.

**Course Attributes:** Diversity Curriculum Require, Environ Science/Studies Elect, Gender & Diversity Studies

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Sociology*

**SOCI 245 - Appalachian in Urban Life**

3 Credit Hours
Subcultural contact with the urban community. Social and economic adjustment problems of this group.

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Sociology*

**SOCI 250 - Racial Ethnic Minorities**

3 Credit Hours
Minority groups in contemporary United States. Social processes involved in dominant minority relations.

**Course Attributes:** Diversity Curriculum Require, GDST Race and Ethnicity Conc, Gender & Diversity Studies, Social Science Old/Trans Core

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Sociology*

**SOCI 262 - Gender and Society**

3 Credit Hours
Women in social, economic, and structural (bureaucratic) settings. An examination of changing roles and status.

**Course Attributes:** Diversity Curriculum Require, Gender & Diversity Studies, GDST Women and Gender Conc

**Levels:** Graduate Undergraduate
SOCI 264 - Social Change

3 Credit Hours
Studying alterations in cultural patterns, social structure, and social behavior.

Levels: Graduate Undergraduate

SOCI 265 - Collective Behavior

3 Credit Hours
Overview of theory and research on various forms of collective behavior, including fads, fashions, urban legends, crowds, riots, and social movements.

Levels: Graduate Undergraduate

SOCI 269 - Popular Culture

3 Credit Hours
Critical perspectives on the production, interpretation, and effects of popular culture.

Levels: Graduate Undergraduate

SOCI 270 - Irish Historical Sociology

3 Credit Hours
This course entails readings, lectures, and travel to the most important sites in Ireland that explain the evolution of Irish identity based on different migrations.

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies, Social Science Elect New Core, Social Science Old/Trans Core
Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 271 - Social Movements

3 Credit Hours
This course explores sociological perspectives on a variety of social movements including the civil rights movement, the feminist movement, environmental movements and global movements for social change.

Course Attributes: Peace & Justice Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 285 - Magic & Witchcraft

3 Credit Hours
Mysticism and the supernatural in social context. The meanings and functions of magic and witchcraft within various cultural contexts.

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 287 - Amer Music & the Roots of Cool

3 Credit Hours
This course addresses the influence of music in everyday living - the impact of music in society as well as social problems expressed through music. With emphasis on the American experience, special attention is paid to popular cultural and mass cultural forms of music - especially soul, jazz, rhythm and blues and country - as well as how people use music to claim a social identity and to establish social boundaries between themselves and others.

Course Attributes: Africana Studies Minor, Diversity Curriculum Require

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology
SOCI 289 - Movies and Cities

2 Credit Hours
The course is designed for undergraduates and serves as an introduction to both American urban history and the history of movies. It also acquaints students with interdisciplinary methods. Students are required to do a significant amount of reading and writing.

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 290 - Criminology and Penology

3 Credit Hours

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 292 - Juvenile Delinquency

3 Credit Hours
Multiple factors involved in delinquent behavior. Definition, extent, causation, and treatment.

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 310 - Family In the 21st Century

3 Credit Hours
Sociological insights concerning marriage and family systems. Dating, love, sex roles, and parenting.

Course Attributes: Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology
SOCI 316 - Complex Organizations

3 Credit Hours
A critical survey of formal organizations and the social processes and behaviors associated with them. Authority, control, motivation, socialization, and alienation are among the areas to be discussed.

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 352 - Investigating Social Life I

3 Credit Hours
In-depth study of the basic steps and processes in scientific inquiry.

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 353 - Investigating Social Life II

3 Credit Hours
Ethnographic research methods. Senior comprehensive research paper.

Prerequisites: Undergraduate level SOCI352 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 358 - Urban America

3 Credit Hours
Historical development and demographic patterns of the city and its environs. Socio-cultural and ecological perspectives used to examine urban, suburban, and rural areas.

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology
SOCI 360 - Urban Anthropology

3 Credit Hours
Introduction to the field of urban anthropology and to "the city" as an object of study. Explores urban life, culture and institutions by examining essays, ethnographies and films that reflect the research of observers of urban culture.

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 362 - Technologies of Gender

3 Credit Hours
Examination of the ways in which women's bodies are both constructed and deconstructed in post modern culture and the ethical, social, and political implications of these processes for the well-being of women. We will focus on technologies of gender, i.e., those sets of cultural practices that make the body gendered.

Prerequisites: Undergraduate level THEO111 Minimum grade of D and Undergraduate level PHIL100 Minimum grade of D

Course Attributes: ERS Focus Elective, Gender& Diversity Studies

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 365 - Contemporary Social Theory

3 Credit Hours
Class, status, and power in social life. Systems of social inequality examined within a cross-cultural perspective.

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 366 - Utopian Communities

3 Credit Hours
Course examines, in historical and contemporary settings, Utopian writings and actual attempts at establishing Utopian situations.
**SOCI 375 - Sociology of Health**

3 Credit Hours
Critical perspective on issues in the health status of populations and distribution of medical services in society.

Course Attributes: Gender & Diversity Studies

Levels: Graduate Undergraduate

**SOCI 382 - Social Systems in the Life Cyc**

3 Credit Hours
The importance of organizations, communities, society, and global influences in assessing human behavior in the social environment.

Levels: Graduate Undergraduate

**SOCI 398 - Internship: Social Service**

3 Credit Hours
Examination of the processes and issues involved in social service programs through hands-on experience in a social service agency or organization.

Levels: Graduate Undergraduate

**SOCI 412 - Dynamics of Older Adults**

3 Credit Hours
The process and experience of aging in social, political, and economic context.
Course Attributes: Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 495 - Directed Study

1 - 3 Credit Hours
Opportunity to pursue a topic or project of individual interest.

Levels: Graduate Undergraduate

College of Arts & Sciences Sociology

SOCI 552 - Quantitative Analysis

3 Credit Hours
This course provides students with the analytical skills they need to understand and use the myriad of data, from many different sources with many different intended outcomes, which are central to understanding the issues of urban sustainability. Students will learn how to use statistical methods, gain experience interpreting and analyzing different data sets (demographic, social-economic, environmental-scientific, financial, geographic, etc.), and develop a critical understanding of how data is used in decision-making. Students will be able to make inferences from one type of data to another in order to provide high-level analysis on topics that require an understanding of data from multiple sources and disciplines. For example, student might be asked to connect air quality data to the incidence of children's asthma rates in poor inner city neighborhoods, and further to look at land use and building condition maps of those same neighborhoods to understand the additional risk presented by poor building conditions and the incidence of mold and lead paint clustered in particular parts of the community.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Sociology

SOCI 554 - Intro to Urban Systems

3 Credit Hours
This course will provide an overview of the natural and built systems that make up contemporary urban places. It also examines the ecological, social, economic and political forces that mold that urban environments and shape the people who live in them. The course is designed to give students a framework to understand the complexity of urban systems and provide a foundation for the interdisciplinary work in the program. This course will rely heavily on the Cincinnati metropolitan area to explore the intersection of natural, built, economic, political, and social systems. It will also provide examples and case studies nationally and globally as context. Examples of topics covered in this class would include the treatment of the Mill Creek over the history of the development of Cincinnati; the food distribution system and the evolution from small neighborhood stores to the '2011big box'201D system, and from family farms to agri-business.
Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Sociology

SOCI 555 - Urban Development & Space

SOCI 555 - Urban Development & Space

3 Credit Hours
This course is a careful investigation of urban development patterns and the organization of urban space. We will cover the history of human development patterns from a design perspective. This will include the move of populations from rural environments to cities, the Greek city, the Roman city, the Industrial revolution, suburban development and the megalopolis, again each focused on the physical aspects of these development periods. This course will promote an understanding of organic urban forms, concentric ring development, sector development, and multi-centric development patterns. The social and economic implications of these various development patterns will be explored. The course will include a detailed look at land use, transportation, and density as critical elements of urban form. This section of the class will cover land use regulatory structures (zoning and environmental law) and the various funding and taxing mechanisms that impact decision making. It will also include a review of metropolitan areas and how they include rural hinterlands, exurbs, suburbs and urban centers and issues of urban sprawl. This course will also examine urban design, good design principals, place making, and what makes places walkable, enjoyable urban environments. The course will also present the principals of sustainable design, and provide students with an understanding of how development and design choices impact sustainability outcomes.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Sociology

SOCW 101 - Intro to Criminal Justice

SOCW 101 - Intro to Criminal Justice

3 Credit Hours
An overview of the history and legal basis of the criminal justice system, its structures, its functions and interface with the individual elements.

Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core

Levels: Undergraduate

College of Professional Sci Social Work

SOCW 167 - Survey of Society Social Work

SOCW 167 - Survey of Society Social Work

3 Credit Hours
This course offers a beginning knowledge and historical understanding of the profession of social work, as well as the social institution of social welfare and health. Basic social welfare concepts and social and behavioral theories are studied analyzing current events through a social justice lens using critical thinking skills. In addition to engaging diversity, students are introduced to a bio-psycho-
social-spiritual model, policy analysis, generalist social work practice, resolving ethical dilemmas, and the variety of roles social
workers perform along with the settings in which they practice.

**Course Attributes:** Diversity Curriculum Require, Gender & Diversity Studies, Social Science Elect New Core, Social Science
Old/Trans Core

**Levels:** Undergraduate

*College of Professional Sci Social Work*

**SOCW 204 - Contemporary Social Problems**

**3 Credit Hours**
This course provides a systematic study of major social problems confronting the U.S. today. How social concerns develop into social
problems and their effects on individuals, groups, institutions, and society will be examined. Proposals for resolution and existing
programs to ameliorate social problems will be explored.

**Course Attributes:** Gender & Diversity Studies, Peace & Justice Studies Minor, Social Science Old/Trans Core

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*

**SOCW 206 - Intro to Gender & Diversity St**

**3 Credit Hours**
This course is designed to help students develop a critical framework for analyzing and exploring the nature of social diversity,
including privilege and oppression, with respect to race, ethnicity, gender, sexual orientation, socioeconomic class, age, religion, and
mental/physical abilities. It provides tools for ethical analysis of questions relating to the individual and collective experience of
disenfranchisement as well as resiliency in society. Students will be introduced to interdisciplinary scholarship that examines oppression
and privilege through the lens of society’s social institutions.

**Course Attributes:** Diversity Curriculum Require, ERS Focus Elective, Gender & Diversity Studies, Peace & Justice Studies Minor,
Social Science Elect New Core

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*

**SOCW 208 - Economics of Society**

**3 Credit Hours**
This course investigates the issues of poverty and inequality by examining these issues in the U.S. along with international comparisons.
Past and present efforts to define poverty and to address related social problems will be explored. Underlying theories and beliefs about
the causes of poverty and income inequality will be assessed using critical thinking skills.
SOCW 221 - Juvenile Justice

3 Credit Hours
Emphasizes juvenile court philosophy and practices, prevailing case law, applicable federal and state legislation, historical and current trends and development of standards, alternatives to incarceration, and a comparison of the treatment of the juvenile offender in the juvenile justice system as opposed to the adult system.

Levels: Graduate Undergraduate

SOCW 260 - Current Issues in Crim Justice

3 Credit Hours
Complements CJUS 101 Introduction to Criminal Justice; CJUS 103 Introduction to Corrections; CJUS 321 Juvenile Justice; and relates numerous current political and social issues to adult and juvenile corrections.

Levels: Graduate Undergraduate

SOCW 261 - Social Psychology

3 Credit Hours
The individual's personality, attitudes, and behavior in multi-individual situations.

Course Attributes: Social Science Elect New Core, Social Science Old/Trans Core

Levels: Graduate Undergraduate
SOCW 264 - Social Change

3 Credit Hours
Studying alterations in cultural patterns, social structure, and social behavior.

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 265 - Overview of Contemp Correction

3 Credit Hours
Compares historical and contemporary methodologies, presents and critiques jail and prison programs, applies court decisions to current practices, and generally analyzed institutional and non-institutional corrections in relation to today's social and political realities. Staff and inmate rights and responsibilities are presented within the context of ethical and legal requirements.

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 270 - Families in Poverty

3 Credit Hours
Analyzes the causes and consequences of poverty for families in America. Antipoverty policy responses are also considered.

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 299 - Child Welfare and Development

3 Credit Hours
This course provides the student knowledge of human development in the social environment from conception through fetal development, birth, infancy, early childhood, and middle childhood. An overview of both healthy and non-healthy development through the lens of diversity and within the context of social institutions, most notably the child welfare system and the family is presented. Students will learn about developmental niche, family pluralism with specific focus on grandparents parenting grandchildren, disproportional representation and disparity of outcomes for children of color in the child welfare system, and racial and gender identify development in childhood. Foundational theories and concepts are presented to prepare the student with knowledge for viewing development and human transitions through social interactions. Students will learn about child maltreatment, the child welfare system and services. This course is appropriate for many disciplines, especially in health related disciplines.
SOCW 300 - Adolescence - Older Adulthood

3 Credit Hours
This course provides the student knowledge of human development in the social environment from adolescence through older adulthood and end of life, stressing both healthy and non-healthy aspects of development and behavior. A core of theories, concepts, and skills is presented so that the student can effectively apply this content to practice with client systems. This course will ground the student in the person-in-environment perspective by considering biological, psychological, social, spiritual and environmental aspects of development, making the course appropriate for many disciplines.

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 310 - Family and Society

SOCW 310 - Family and Society

0 - 2 Credit Hours
A study of marriage preparation, partner selection, marital adjustment, family structure and functions, and marital dissolution. Current problems facing the family will be explored with an emphasis on macro and micro intervention strategies which may be employed for problem resolution.

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 313 - Lifestyles in Changing Society

SOCW 313 - Lifestyles in Changing Society

2 - 3 Credit Hours
An in-depth study of American culture and the effects it has upon the relationship of the individual to the social order; a look at societal child-rearing practices, autonomy, and self-actualization.

Levels: Graduate Undergraduate

College of Professional Sci Social Work
SOCW 315 - Values, Poverty and Society

3 Credit Hours
This course is designed to offer students basic knowledge and understanding of the overall concept of social welfare as it relates to the collective well-being of all in our society through an ethical and underlying values analysis of the historically religious roots of the concept of social welfare to the present implementation. The social institution of social welfare, and how its services and systems are implemented in various nations, is examined and analyzed in relationship to the five other social institutions considered to be pillars of any society: the political, economic, education, religious, and family institutions. Theories of power, privilege, and poverty are examined as they relate to the evolution of social welfare policies and programs.

Course Attributes: Diversity Curriculum Require, ERS Focus Elective, Gender & Diversity Studies, Peace & Justice Studies Minor, Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 316 - Soc Policy & Contemporary Issue

3 Credit Hours
This course is designed to provide students with an understanding of American social welfare policy analysis. This course will review the historical, current and emerging social problems and critique policies created or proposed to respond to these problems. Students will learn how to understand and critically analyze social policy, while taking into account the basic principles of economic and social justice. Specific focus will be given to the intersection of diversity with the formation and implementation of social welfare policies.

Course Attributes: Gender & Diversity Studies, Peace & Justice Studies Minor, Writing Flag Core

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 318 - Trends in Modern Soc: Race Rel

3 Credit Hours
This course provides a solid knowledge base regarding the role of race in professional and personal lives. The goal is to deepen students' 2019 perspective of what race/ethnicity means. Students will learn various theoretical frameworks used to promote diversity and as such race relations. The course will encourage self-reflection and examination of beliefs about the intrinsic value of all human beings. Students will explore barriers which historically have hindered greater positive growth for racial and ethnic minority groups.

Course Attributes: Africana Studies Minor, Diversity Curriculum Require, EPU, ERS Focus Elective, GDST Race and Ethnicity Conc, Gender & Diversity Studies, Peace & Justice Studies Minor, Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci Social Work
SOCW 320 - Communication Skills Seminar

1 Credit Hours
This course provides the student an opportunity to develop and demonstrate a comprehensive array of oral and written communication skills for generalist social work practice. The student will have the opportunity to practice and analyze communication skills with clients. Also, the student will develop and analyze professional interviewing skills by going on field interviews. Lastly, the student will develop an understanding of the need to adapt communication to meet the developmental needs of the client.

Co-requisites: SOCW392

Restrictions: Must be enrolled in one of the following Fields of Study (Major, Minor, or Concentration): Social Work

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 325 - Women/Men: Myth & Reality

3 Credit Hours
This course studies the changing roles of women and men in American & World cultures. Emphasis will be on sex roles, sex stereotyping, socialization of the sexes, gender based violence, media and employment. Social conditions and attitudes which affect the role and status of women and men in the social institutions of government, economics, education, religion, and family are explored. This course will also explore the intersectionality of women/men with ethnicity, age and sexual orientation.

Course Attributes: Diversity Curriculum Require, EPU, Gender & Diversity Studies, GDST Women and Gender Conc, Peace & Justice Studies Minor, Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 330 - Community Organizing

3 Credit Hours
A study of the theories, principles, and techniques of community organization with an emphasis on practical research.

Levels: Graduate Undergraduate

College of Professional Sci Social Work
SOCW 337 - Adolescent Crisis

3 Credit Hours
A study of the issues and problems of the adolescent.

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 338 - Lesbian Gay BTQ Studies

3 Credit Hours
This course is designed to provide students with a foundation for understanding sexual identity in contemporary U.S. society and to introduce students to the field of lesbian, gay, bisexual and transgender (LGBT) studies. The course is organized around three general themes: identity development and the politics of identity; the historical legacy of LGBT movements; and contemporary political, legal, and social issues facing LGBTQ communities. Students will address key concepts and debates about sexuality through the lens of various disciplines, including sociology, history, literature, psychology, economics, and cultural studies.

Course Attributes: Gender & Diversity Studies, GDST Women and Gender Conc, Social Science Old/Trans Core

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 340 - Sexism and Racism in Society

0 - 1 Credit Hours
This course will explore the causes and effects of racial and gender stereotyping, prejudice, and discrimination on the individual, institutional, and cultural level. Emphasis will be on education, the workplace, interpersonal relations, and communication.

Course Attributes: Africana Studies Minor, EPU

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 348 - Intervention with Abused Child

0 - 1 Credit Hours
This course is designed to acquaint the student with the different types of child abuse, family dynamics, and profiles of victims and
offenders. Knowledge of various intervention strategies will be imparted.

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 350 - Treating Sex Offenders & Victi

SOCW 350 - Treating Sex Offenders & Victi

0 - 1 Credit Hours
This workshop will explore treatment issues and approaches for working with sex offenders, victims, and other family members.

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 352 - Research Methodology

SOCW 352 - Research Methodology

3 Credit Hours
Social workers use research findings to improve practice, inform policy, and provide effective social service delivery. This course will provide an in-depth study of the processes of scientific inquiry (research). We will explore the research method, approaches to building knowledge (quantitative vs. qualitative), and the application of research to social work practice (evidence based practice).

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 382 - Social Systems in the Life Cyc

SOCW 382 - Social Systems in the Life Cyc

2 Credit Hours
The importance of organizations, communities, society, and global influences in assessing human behavior in the social environment.

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 392 - Practice I: Individuals

SOCW 392 - Practice I: Individuals

3 Credit Hours
This course provides an introduction to the basic theories, concepts, values, and skills associated with generalist social work practice at
the micro level including: roles and functions of social workers; theoretical frameworks for practice; communication and helping skills; and application of a planned change process.

**Prerequisites:** Undergraduate level SOCW167 Minimum grade of C and Undergraduate level SOCW299 Minimum grade of C

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*

**SOCW 393 - Practice II: Groups & Families**

**SOCW 393 - Practice II: Groups & Families**

**3 Credit Hours**
Students are introduced to theories, methods, and skills of generalist social work practice with groups and families. This includes the stages of group development as well as the dynamics of working with multiple clients at one time to accomplish mezzo level interventions.

**Prerequisites:** Undergraduate level SOCW392 Minimum grade of C

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*

**SOCW 394 - Practice III: Comm & Org**

**SOCW 394 - Practice III: Comm & Org**

**3 Credit Hours**
This course is designed to offer the student knowledge and application of the fundamentals of social work practice, the problem-solving process, and effective use of self as an agent of change with an emphasis on macro level social work practice in organizations, communities, and society.

**Prerequisites:** SOCW393

**Co-requisites:** SOCW417, SOCW419

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*

**SOCW 395 - Directed Study**

**SOCW 395 - Directed Study**

**1 - 3 Credit Hours**
Individualized study in an area of faculty expertise.

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*
SOCW 402 - Child Abuse & Family Violence

3 Credit Hours
This course introduces students to the topics of child maltreatment, human trafficking, intimate partner violence, and elder abuse. Students will have an opportunity to explore all of these topics in-depth beginning with a basic understanding of history, terminology, scope, and severity. They will learn about the laws and governing bodies for those who have been abused or exploited, and of those who have committed such atrocities. Students will become aware of signs, symptoms and short/long term effects of various abuses. This course exposes students to an often hidden dynamic within many families, communities, and schools. Students will look at current events as they relate to the areas of focus, as well as participate in off-site shadowing opportunities as they are available.

Course Attributes: Peace & Justice Studies Minor

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 404 - Rel/Ethics & Profession Pract

3 Credit Hours
This course will enable students to recognize and appropriately respond to religious, spiritual, and ethical issues that arise in the context of practice in professional fields such as social work, criminal justice, nursing, psychology and occupational therapy. The main goal is to be able to understand and use a justified reasoning process for ethical decision making that recognizes the role of spirituality for clients and professionals. The following components will be included: critical analysis of the similarities and differences between religion and spirituality; elements of professional ethics such as values, principles, and professional codes; one’s own personal ethical and religious/spiritual perspective; comparison of similarities and differences between and among professional code of ethics across disciplines, steps involved in ethical decision making models; inclusive diversity terminology and how power and privilege influence ethical decision making; and the collaborative application of ethical decision-making to clinical cases in order to learn from one another’s ethical and religious/spiritual wisdom.

Prerequisites: Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D
SOCW 407 - Addiction: An Epidemic

0 - 1 Credit Hours
Various forms of addiction are becoming the leading social problems of this century. An overview of addiction will be imparted as well as specific manifestations such as sex, gambling, eating disorders, and drugs. The impact of addiction on the individual, family, and society will be discussed.

Levels: Graduate Undergraduate

SOCW 408 - Women & Societal Violence

0 - 1 Credit Hours
A historical perspective on violence against women. Modern day forms of violence against women and intervention will be studied. Prosecution of cases will be presented and treatment strategies for offenders will be explored.

Levels: Graduate Undergraduate

SOCW 409 - Group Dynamics

3 Credit Hours
In depth consideration of basic dynamics and processes operating in groups and various strategies used in the group approach as they relate to educational, business, social and personal interactions and problems.

Levels: Graduate Undergraduate
SOCW 414 - Child & Adolescent Chronic Ill

1 Credit Hours
This intensive course will examine the child and adolescent with chronic illness and discuss treatment approaches from a multi-disciplinary or bio-psycho-social intervention model. The instructor will draw upon extensive experience and observations from working in clinics, hospitals or in the field with children who have been diagnosed with such disorders as: cancer, hemophilia, AIDS, diabetes, sickle cell anemia, endocrine/growth problems, cleft palette, genetic anomalies, mental health DSM-IV disorders, as well as children with multiple handicaps and disabilities. Emphasis will be given to practical ways counselors and other mental health professionals and teachers can build and maintain therapeutic relations with children who have been dealt this difficult challenge of handling a chronic or life threatening illness. Additionally, this course will give special attention to identifying needs, assessing, and treating families and siblings of children who have a chronic illness.

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 417 - Social Work Field Instruction

4 Credit Hours
This course provides the student an opportunity to work directly with client systems in an approved social service agency under the supervision of a professional social worker. Students will have an opportunity to integrate the knowledge, values and skills acquired in the classroom with real life practice experiences, and thus prepare themselves as generalist practitioners. This course will focus on the processes of intake, engagement, and assessment with individuals, families, groups, organizations and communities utilizing a generalist practice approach. The course will increase the student's awareness and understanding of both their personal and professional selves within their role as a social work student and soon to be professional through the use of reflection and discernment.

Prerequisites: Undergraduate level SOCW394 Minimum grade of C and Undergraduate level SOCW419 Minimum grade of C

Co-requisites: SOCW394, SOCW419

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 418 - Social Work Field Instruction

4 Credit Hours
This course provides the student an opportunity to work directly with client systems in an approved social service agency under the supervision of a professional social worker. Students will have an opportunity to integrate the knowledge, values and skills acquired in the classroom with real life practice experiences, and thus prepare themselves as generalist practitioners. This course will focus on the processes of planning, intervention and evaluation with individuals, families, groups, organizations and communities utilizing a generalist practice approach. The course will increase the student's awareness and understanding of both their personal and professional selves within their role as a social work student and soon to be professional social worker through the use of reflection and discernment.

Prerequisites: Undergraduate level SOCW417 Minimum grade of C and Undergraduate level SOCW419 Minimum grade of C
SOCW 419 - Social Work Seminar

SOCW 419 - Social Work Seminar

2 Credit Hours
This seminar course provides the student an opportunity to discuss and analyze the knowledge, values and skills acquired in the classroom with the real life practice experiences gained in field. Students will conduct an analysis of their field agency, present findings in class and learn about a wide variety of social work settings. Student will also have an opportunity to explore and resolve an ethical dilemma in their practice and present the outcome of the situation. The course will increase the student's awareness and understanding of both their personal and professional selves within their role as a social work student and soon to be professional social worker through the use of reflection and discernment.

Prerequisites: Undergraduate level SOCW417 Minimum grade of C and Undergraduate level SOCW394 Minimum grade of C

Co-requisites: SOCW394, SOCW417

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 420 - Social Work Seminar

SOCW 420 - Social Work Seminar

2 Credit Hours
This seminar course provides the student an opportunity to discuss and analyze the knowledge, values and skills acquired in the classroom with the real life practice experiences gained in field. Students will conduct an analysis of his or her professional development of self-utilizing a spiritually sensitive perspective. The student will also have an opportunity to conduct a case analysis integrating understanding of generalist practice with an emphasis on the planned change process. The course will increase the student's awareness and understanding of both their personal and professional selves within their role as a social work student and soon to be professional social worker through the use of reflection and discernment.

Prerequisites: Undergraduate level SOCW417 Minimum grade of C and Undergraduate level SOCW419 Minimum grade of C

Co-requisites: SOCW418

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SOCW 423 - Research Methodology

SOCW 423 - Research Methodology

3 Credit Hours
Social workers use research findings to improve practice, inform policy, and provide effective social service delivery. This course will provide an in-depth study of the processes of scientific inquiry (research). We will explore the research method, approaches to building knowledge (quantitative vs. qualitative), and the application of research to social work practice (evidence based practice).

**Levels:** Undergraduate

*College of Professional Sci Social Work*

**SOCW 424 - Research Paper**

1 Credit Hours
Students will conduct a piece of original research at their field placement or other agreed upon setting. Students will present their research project to the class in the form of a professional poster.

**Prerequisites:** Undergraduate level SOCW352 Minimum grade of C or Undergraduate level SOCW423 Minimum grade of C

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*

**SOCW 430 - Intro to CBT and REBT**

0 - 2 Credit Hours
Levels: Undergraduate

*College of Professional Sci Social Work*

**SOCW 432 - Res. & Cl Issues: SMD Populati**

3 Credit Hours
A survey of the chronic patients with severe emotional problems, etiology, diagnosis, and treatment issues.

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*

**SOCW 444 - Addictive Behaviors**

3 Credit Hours
This course will examine the common processes through which individuals develop addictions such as chronic alcohol abuse, abuse of other chemicals, eating disorders, addictive relationships, and compulsive gambling. This course will also explore the differences among the addiction processes that contribute to some experts declaring it impossible to develop a common definition of addiction. Historical development of psychosocial and behavioral theories of addiction; relationships between addiction, families, and society; and race, class, and gender analysis will be included.

**Prerequisites:** Undergraduate level PSYC101 Minimum grade of D or Undergraduate level SOCI101 Minimum grade of D or Undergraduate level SOCW167 Minimum grade of D

**Course Attributes:** Gender & Diversity Studies

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*

**SOCW 463 - Counseling Challenging Youth**

1 Credit Hours
Workshop participants will learn a number of practical strategies for building and maintaining therapeutic relationships with challenging youth and families. The strategies will be formatted around six guiding principles common to most human services professionals who successfully engage this population. Participants will be challenged to assess their own attitudes, beliefs, and behaviors related to challenging youth via lecture, demonstrations, small group activities, and role plays.

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*

**SOCW 472 - Marital & Family Therapy**

2 Credit Hours
Provides an overall introduction into marital and family therapy in teaching a range of psychological disorders. Acquaints the student with the latest advances in assessment and therapeutic intervention procedures from a marital and family therapeutic perspective.

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*

**SOCW 483 - Working w/Difficult Tough Chld**

1 Credit Hours
Identification, assessment and treatment procedures useful in working therapeutically with a range of psychological disorders experienced by children and adolescents.

**Levels:** Graduate Undergraduate

*College of Professional Sci Social Work*
SOCW 484 - Gestalt Therapy

1 Credit Hours
Introduction to theoretical foundations and therapeutic techniques of Gestalt therapy with particular emphasis on experimental learning.

Levels: Graduate Undergraduate

College of Professional Sci Social Work

SPAN 101 - Elementary Spanish I

SPAN 101 - Elementary Spanish I

3 Credit Hours
An introduction to basic language skills emphasizing the acquisition of high-frequency vocabulary and the development of cultural awareness.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 102 - Elementary Spanish II

SPAN 102 - Elementary Spanish II

3 Credit Hours
The second semester elementary course which is a continuation of SPAN 101. Pre-requisite: SPAN 101 (unless waived).

Prerequisites: SPAN101 or Placement - Spanish 102 or Graduate level EDMS999

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 103 - Accelerated Intro Spanish

SPAN 103 - Accelerated Intro Spanish

3 Credit Hours
This is an accelerated beginning SPanish course for students who have had some prior study of the language, have placed into the course by examination, or who have chosen this course after having placed in SPAN 102. Students will practice the three modes of communication (Interpersonal, Interactive and Presentational) as they work towards developing language proficiency, both in speaking and writing. Instruction and coursework is entirely in Spanish in order to emphasize the development of proficiency. Upon successful completion of Spanish 103, students will enroll in SPAN 201: Intermediate Spanish I to complete the core language requirement.

Levels: Undergraduate

College of Arts & Sciences Classics & Modern Languages
SPAN 201 - Intermediate Spanish I

3 Credit Hours
The first semester intermediate course which is a continuation of SPAN 102 with a particular emphasis on the development of more creative use of the language. Prerequisite: SPAN 102 (unless waived)

Prerequisites: SPAN102 or Placement - Spanish 201 or SPAN103

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 202 - Intermediate Spanish II

3 Credit Hours
The second semester intermediate course emphasizing reading and writing skills through the study of authentic materials dealing with the Hispanic world. Pre-requisite: SPAN 201 (unless waived)

Prerequisites: Undergraduate level SPAN201 Minimum grade of D or Placement - Spanish 202 or Graduate level EDMS999

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 205 - Hispanic Lit & Moral Imagin

3 Credit Hours
An examination of ethical and moral issues from the literature of the Spanish-speaking world that illuminate contemporary society. Course given in translation does not fulfill requirements for Spanish major or minor. Fulfills E/RS focus Lit and the Moral Imagination requirement.

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 258 - Language & Culture in Guatemala

3 Credit Hours
This course will provide an introduction to the Spanish language and the culture and context of Guatemala for the occupational therapy students traveling to Guatemala as part of the HOCS 405 Occupational Justice II course. Each day will be divided into language and culture segments. The language part will introduce and practice basic language skills as well as specific vocabulary used in the field of occupational therapy. The culture part will introduce students to the history and culture of Guatemala to prepare them to understand and interpret what they see and experience.
**SPAN 300 - Advanced Spanish I**

**3 Credit Hours**
A language development course which emphasizes equally listening, speaking, reading, writing, and cultural aspects with an extensive grammar review. Pre-requisite: SPAN 202 or its equivalent.

**Course Attributes:** Latin American Studies Minor
**Levels:** Graduate Undergraduate

**SPAN 301 - Advanced Spanish II**

**3 Credit Hours**
This course offers advanced and comprehensive structure of the Spanish language, emphasizing listening, writing, reading, and cultural aspects. Pre-requisite: SPAN 202 or equivalent

**Prerequisites:** Undergraduate level SPAN202 Minimum grade of D or Placement - Spanish 300 or EDMS999

**Course Attributes:** Humanities Elective, Latin American Studies Minor
**Levels:** Graduate Undergraduate

**SPAN 302 - Spanish Conversation**

**3 Credit Hours**
Designed for the development of speaking and listening skills through active participation by students. Discussions and activities are based on contemporary issues. Pre-requisite: SPAN 300 or SPAN 301 or equivalent.

**Prerequisites:** Undergraduate level SPAN300 Minimum grade of D or Undergraduate level SPAN301 Minimum grade of D or Graduate level EDMS999

**Course Attributes:** Latin American Studies Minor
**Levels:** Graduate Undergraduate
SPAN 303 - Spanish Composition

3 Credit Hours
Designed for the development of both formal and informal writing skills. Types of writing include journal, letter, summary, and analytical. Pre-requisite: SPAN 300, SPAN 301 or its equivalent.

Prerequisites: Undergraduate level SPAN300 Minimum grade of D or Undergraduate level SPAN301 Minimum grade of D or Graduate level EDMS999

Course Attributes: Latin American Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 304 - Spanish Vocabulary in Context

3 Credit Hours
Study of technical and functional vocabulary in selected situations not found in traditional textbooks. Pre-requisite: SPAN 300, SPAN 301 or its equivalent

Prerequisites: Undergraduate level SPAN300 Minimum grade of D or Undergraduate level SPAN301 Minimum grade of D or Graduate level EDMS999

Course Attributes: Latin American Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 305 - Readings in Spanish

3 Credit Hours
Readings from literary and nonliterary sources chosen to improve reading skills, with continued practice of listening, speaking and writing skills. Pre-requisite: SPAN 300, SPAN 301 or equivalent.

Prerequisites: Undergraduate level SPAN300 Minimum grade of D or Undergraduate level SPAN301 Minimum grade of D or Graduate level EDMS999

Course Attributes: Latin American Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages
SPAN 306 - Business Spanish

3 Credit Hours
Development of the four skills in the context of the contemporary Hispanic business world by readings, discussions, and written practice. Emphasis on the terminology of commercial Spanish. Pre-requisite: SPAN 300, SPAN 301 or its equivalent.

Prerequisites: Undergraduate level SPAN300 Minimum grade of D or Undergraduate level SPAN301 Minimum grade of D or Graduate level EDMS999

Course Attributes: Latin American Studies Minor
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 325 - History of the Spanish Language

3 Credit Hours
Study of the evolution and development of the Spanish language from Latin to present day Spanish. Students MUST take at least two of the following before enrolling in this course: SPAN 300, 301, 302, 303, 304, 305, and 306.

Course Attributes: Latin American Studies Minor
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 326 - Spanish: Applied Linguistics

3 Credit Hours
Study of the Spanish language designed to increase knowledge and competence through discussion and practice of language usage. Students MUST take at least two of the following before enrolling in this course: SPAN 300, 301, 302, 303, 304, 305, and 306.

Course Attributes: Latin American Studies Minor
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 328 - Phonetics and Dialectology

3 Credit Hours
Study of the phonetic system of the Spanish language, including transcription and identification of dialectical features. Students MUST
take at least two of the following before enrolling in this course: SPAN 300, 301, 302, 303, 304, 305, and 306.

**Course Attributes:** Latin American Studies Minor

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**SPAN 329 - Spanish for Elem Teachers**

**SPAN 329 - Spanish for Elem Teachers**

3 Credit Hours

Emphasis placed on continued development of oral proficiency and a strong vocabulary base essential of thematic units. Program models, theories of first and second language acquisition, appropriate activities, and the principles of thematic planning will be investigated. Field experiences involving on-campus teaching of unit designs are an integral part of the course. Students MUST take at least two of the following before enrolling in this course: SPAN 300, 301, 302, 303, 304, 305 and 306.

**Prerequisites:** Undergraduate level SPAN300 Minimum grade of D or Undergraduate level SPAN301 Minimum grade of D

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**SPAN 330 - Methods Curr Assess For Lang**

**SPAN 330 - Methods Curr Assess For Lang**

3 Credit Hours

This course provides an introduction to curriculum content, teaching methodologies and assessment techniques as they pertain to candidates preparing for initial licensure in the teaching of foreign languages. Field experiences will also be incorporated into the course curriculum. Individual interview with instructor is required prior to registering for course.

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*

**SPAN 350 - Spanish Civilization**

**SPAN 350 - Spanish Civilization**

3 Credit Hours

Representative culture and history of Spain. Students MUST take at least two of the following before enrolling in this course: SPAN 300, 301, 302, 303, 304, 305, and 306.

**Levels:** Graduate Undergraduate

*College of Arts & Sciences Classics & Modern Languages*
SPAN 351 - Latin-American Civilization I

3 Credit Hours
Representative culture and history of Latin America from its beginnings to the independence. Students MUST take at least two of the following before enrolling in this course: SPAN 300, 301, 302, 303, 304, 305, and 306.

Prerequisites: Undergraduate level SPAN300 Minimum grade of D or Undergraduate level SPAN301 Minimum grade of D

Course Attributes: Diversity Curriculum Require, GDST Race and Ethnicity Conc, Gender & Diversity Studies, Latin American Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 352 - Latin Amer Trad & Pop Cult

3 Credit Hours
Representative culture and history of Latin America from independence to the present. Students MUST take at least two of the following before enrolling in this course: SPAN 300, 301, 302, 303, 304, 305, and 306.

Prerequisites: Undergraduate level SPAN300 Minimum grade of D or Undergraduate level SPAN301 Minimum grade of D

Course Attributes: GDST Race and Ethnicity Conc, Gender & Diversity Studies

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 353 - Intro Latin American Studies

3 Credit Hours
An introduction to Latin American Studies concentrating on historical, sociopolitical and cultural issues. Taught in English. Does not count towards major, minor, or language certification in Spanish. Fulfills the E/RS Focus elective. Pre-requisite: or Co-requisites: PHIL 100 and THEO 111.

Prerequisites: (Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D) or Graduate level EDMS999

Course Attributes: ERS Focus Elective, Gender & Diversity Studies, Latin American Studies Minor, Peace & Justice Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages
SPAN 358 - Central Amer Society & Culture

3 Credit Hours
This course is designed for students on the Nicaragua Service Learning Semester (there will also be courses in Spanish language, literature, theolgy, and service learning). Starting from the belief that culture and society are better understood in relation to the historical, sociopolitical, economic, and religious context, this course will provide an introduction to these major topics as well as to the art, music, and literature of the Central American region (focusing primarily on Nicaragua and El Salvador). It is also designed to help students integrate all aspects of their experience during the semester. Two major foci within this will be to examine the role of the Church (in conjunction with your theology class) and the United States’ influence and actions in the area. This will be done from the perspective of different groups in the U.S. and Central America. We will discuss both positive and negative aspects of the U.S. relationship with Central American and the issues involved (political, economic, ethical, and moral). We will also discuss what we as individuals might do to ensure that, in this new century, the attitudes, policies, and actions of our country might be more coherent and responsible. This course would count for the Latin American Studies minor, and an E/R&S or Peace Studies elective. Only if the majority of the reading and all the written work is done in Spanish with an extra discussion section in Spanish would it count for a Spanish major or minor (Section 02).

Prerequisites: Undergraduate level THEO111 Minimum grade of D and Undergraduate level PHIL100 Minimum grade of D and Undergraduate level HIST151 Minimum grade of D and Undergraduate level SPAN102 Minimum grade of D and Undergraduate level UNST200 Minimum grade of D

Co-requisites: UNST300
Course Attributes: ERS Focus Elective, Latin American Studies Minor, Peace & Justice Studies Minor
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 370 - Intro Lit Analysis & Criticism

SPAN 370 - Intro Lit Analysis & Criticism

3 Credit Hours
SPAN 370 is an advanced course for students who have taken SPAN 300 and/or SPAN 301 and are preparing to take a 400-level literature course. In the class, we will read selections of different canonical and non-canonical works by Spanish and Latin American authors and learn how to apply a series of distinct literary analytical tools that stem from--but are not limited to--a variety of theoretical perspectives (including postcolonial, feminist, neoliberal, and marxist points of reference, for example). The unique characteristics of each individual literary genre (poetry, the novel, the short story, the essay, and theatre) will also be studied, as well as the history of literary criticism in Spain and Latin America.

Prerequisites: Undergraduate level SPAN303 Minimum grade of D or Undergraduate level SPAN300 Minimum grade of D or Undergraduate level SPAN301 Minimum grade of D

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 415 - Hispanic Lit in the Classroom

SPAN 415 - Hispanic Lit in the Classroom

3 Credit Hours
Study of strategies for integrating literature with language and culture in the secondary Spanish classroom. Students MUST take at least
two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 421 - Spanish Literature & Civ I

SPAN 421 - Spanish Literature & Civ I

3 Credit Hours
A chronological study of Spanish literature and civilization from medieval period through the 17th century. Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 422 - Spanish Literature & Civ II

SPAN 422 - Spanish Literature & Civ II

3 Credit Hours
A continuation of SPAN 421 covering the 18th and 19th centuries. Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 423 - Spanish Literature & Civ III

SPAN 423 - Spanish Literature & Civ III

3 Credit Hours
A continuation of SPAN 422 covering the 20th century. Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective
Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages
SPAN 427 - Spanish-American Lit & Civ I

3 Credit Hours
A chronological study of Spanish-American literature and civilization from the colonial period through the 18th century. Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective, Latin American Studies Minor
Levels: Graduate Undergraduate
College of Arts & Sciences Classics & Modern Languages

SPAN 428 - Spanish-American Lit & Civ II

3 Credit Hours
A continuation of SPAN 427 covering the 19th and early 20th centuries. Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective, Latin American Studies Minor
Levels: Graduate Undergraduate
College of Arts & Sciences Classics & Modern Languages

SPAN 429 - Spanish-American Lit & Civ III

3 Credit Hours
A continuation of SPAN 428 covering the latter part of the 20th century. Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective, Latin American Studies Minor
Levels: Graduate Undergraduate
College of Arts & Sciences Classics & Modern Languages

SPAN 433 - Spanish Literature of Golden A

3 Credit Hours
Representative author(s) and genre(s) of the 16th and 17th centuries. Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective
SPAN 436 - 19th Century Spanish Literature

3 Credit Hours
Representative authors and works of romanticism, realism, and naturalism. Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

SPAN 439 - 20th Century Spanish Literature

3 Credit Hours
Representative authors and genres from the Generation of 1898 to the present day. Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

SPAN 440 - Hispanic Poetry

3 Credit Hours
Representative Spanish and Spanish-American poets. Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective, Latin American Studies Minor

Levels: Graduate Undergraduate
SPAN 444 - 19th Century Spanish-Amer Lit

3 Credit Hours
Representative author(s) and genre(s). Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective, Latin American Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 445 - 20th Century Spanish-Amer Lit

3 Credit Hours
Representative author(s) and genre(s). Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective, Latin American Studies Minor

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 450 - Hispanic Literature

3 Credit Hours
Analysis of excerpts from representative authors. Students MUST take at least two courses above SPAN 306 before enrolling in this course.

Course Attributes: Humanities Elective

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 495 - Directed Study: Language

0 - 6 Credit Hours
Independent study. Students have successfully completed SPAN 202 before enrolling in this course.

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages
SPAN 496 - Directed Study: Culture/Civ

0 - 6 Credit Hours
Independent study. Students MUST take at least two of the following before enrolling in this course: SPAN 300, 301, 302, 303, 304, 305, and 306.

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 497 - Directed Study: Literature

0 - 6 Credit Hours
Independent study. Students MUST have successfully completed two courses above SPAN 306.

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 499 - Senior Research Project

1 Credit Hours
Research for senior project is required for all majors in Spanish. Most of the required upper-division coursework for the major must be completed before enrolling in this course.

Levels: Graduate Undergraduate

College of Arts & Sciences Classics & Modern Languages

SPAN 615 - Hispanic Lit in the Classroom

3 Credit Hours
Study of strategies for integrating literature with language and culture in the secondary Spanish classroom.

Restrictions: Must be enrolled in one of the following Levels: Graduate

**SUST 391 - LAND Practicum**

**1 Credit Hours**
This is a fieldwork placement to accompany the LAND curriculum in years one, two and three. The type of work involved will vary depending on the student's interests and previous practicum experience. It will be oriented toward agricultural or an affiliated kind of work. All work will be accomplished under the supervision of an employee of the organization.

**Levels:** Undergraduate

*College of Arts & Sciences Interdisciplinary Studies*
SUST 393 - LAND Practicum

3 Credit Hours
This is a fieldwork placement of 90 hours to accompany the LAND curriculum in year three. The type of work involved will vary depending on the student's interests and previous practicum experience. It will be oriented toward agricultural or an affiliated kind of work. The time commitment is 90 hours/semester, typically 9 hours over 10 weeks.

Levels: Undergraduate

College of Arts & Sciences Interdisciplinary Studies

SUST 401 - Sustainable Development

3 Credit Hours
Drawing on fields such as development studies, anthropology, geography, corporate social responsibility, and management studies, this course will aim to provide students with an understanding of the histories of negotiations, complex governance structures, and politics surrounding global pursuits for sustainable futures.

Levels: Graduate Undergraduate

College of Arts & Sciences Interdisciplinary Studies

SUST 495 - Capstone Exp: Sustainability

1 - 3 Credit Hours
This course is designed to help students prepare their capstone paper and presentation in sustainability, fulfilling a (3 credit hour) requirement of both the BA in Economics, Sustainability & Society (ECOS) and the BSBA in Sustainability: Economics & Management (SUST) majors. The capstone paper/presentation will be based on a topic for which the student has had direct experience. Through classroom and one-on-one faculty discussions, guidance will be provided that enables the student to complete a scholarly research paper to include a concise thesis statement, data collection and analysis, and exposition. Students will present their work to colleagues and relevant business/government/community contacts. The capstone course will provide students an opportunity to have in-depth discussions in their area of interest and develop oral and written communication skills.

Restrictions: Must be enrolled in one of the following Classifications: Senior Junior

Levels: Undergraduate

College of Arts & Sciences Interdisciplinary Studies

SUST 554 - Advanced Policy Analysis

3 Credit Hours
This graduate course explores the relationships among public policy development and implementation, urban sustainability, and private
for-profit and not-for-profit interests. We will explore different elements of urban sustainability and how private and public interest collide and/or collude in advancing and/or impeding policies that drive sustainable practices. We will pay particular attention to government administrative entities and how policies are realized through those bureaucracies. We will then explore case studies where public investment spurred private investment successfully. And finally we will explore current public policies and private interests in the greater Cincinnati region.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Interdisciplinary Studies

THEO 111 - Theological Foundations

THEO 111 - Theological Foundations

3 Credit Hours
A basic study of human and religious faith, especially the Christian faith, the connection between faith and religion, the personal and social value of religion, the diversity of world religions, and the issues connected with religious diversity and global responsibility; a basic understanding of Theology and how it relates to faith, along with different ways of reading scripture and tradition and how those readings affect issues of gender, class, race, violence, evil, and sin. Required course for E/RS.

Levels: Undergraduate

College of Arts & Sciences Theology

THEO 203 - The Eastern Orthodox Church

THEO 203 - The Eastern Orthodox Church

3 Credit Hours
This course is designed as a detailed survey meant to familiarize the students with the history of the Orthodox Church over the course of its existence from the day of Pentecost to the present. The first half of the course (culminating in a Mid-term Exam) will deal primarily with the history of the Orthodox Church. The second half of the course (culminating in a Final Exam) will concentrate on the theology of the Orthodox Church comprehensively understood - doctrine, spiritual life, liturgy, iconography, moral/ethical issues, etc.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 205 - Christian Mysticism

THEO 205 - Christian Mysticism

3 Credit Hours
This course enables the students to explore the mystical traditions and their implications for theology and spirituality.

Prerequisites: THEO111 or CORE105
Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 206 - Christian Worship

3 Credit Hours

Prerequisites: THEO111 or CORE105

College of Arts & Sciences Theology

THEO 207 - Jesus and Power

3 Credit Hours
This course examines Jesus in light of the power dynamics within first century biblical and modern social worlds.

Prerequisites: THEO111 or CORE105

Course Attributes: Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 209 - Exploring the Christian Past I

3 Credit Hours
Examines major theological themes of the Christian Tradition from its beginnings until the 15th Century. Blends theological analysis with intellectual and social history.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate
THEO 209 - The Christian Tradition I

3 Credit Hours
Examines major theological themes of the Christian Tradition from its beginnings until the 15th Century. Blends theological analysis with intellectual and social history.

Prerequisites: THEO111

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

THEO 210 - Exploring Christian Past II

3 Credit Hours
A study of key theological themes from the end of the Middle Ages to the twenty-first century. Blends theological analysis with intellectual and social history.

Prerequisites: THEO111 or CORE105

Course Attributes: Catholicism & Culture Minor, Theology Perspectives

Levels: Graduate Undergraduate

THEO 210 - The Christian Tradition II

3 Credit Hours
A study of key theological themes from the end of the Middle Ages to the twenty-first century. Blends theological analysis with intellectual and social history.

Prerequisites: THEO111

Course Attributes: Catholicism & Culture Minor, Theology Perspectives

Levels: Graduate Undergraduate
THEO 211 - The Dead Sea Scrolls

3 Credit Hours
An introduction to the Dead Sea Scrolls, their history, and their impact on biblical criticism.

Prerequisites: THEO111 or CORE105

Course Attributes: Jewish Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 217 - Intro to the Church Fathers

3 Credit Hours
The Fathers of the first five centuries. The Church's defense against pagans and heretics. Confrontation with the Empire. Development of doctrine.

Prerequisites: THEO111 or CORE105

Course Attributes: Catholicism & Culture Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 223 - Sacraments Today

3 Credit Hours
Meaning of sacraments in general and Catholic sacraments in particular. Historical and theological development of the seven ecclesiasical sacraments and their place in contemporary liturgical, pastoral, and spiritual renewal.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 230 - Church After Vatican II

3 Credit Hours
A study of the key documents of Vatican II, highlighting the key ideas which deeply affected the Catholic Church over the following decades. An overview of the developments which grew out of the Council in such areas as Catholic identity, leadership, ministry, liturgy, social awareness and relationship with other faiths.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 231 - Religious Thought of MLK

3 Credit Hours
This course will use the life and work of Martin Luther King Jr. as a vehicle for examining issues of faith and justice in American life. Dr. King's role as a religious leader and agent of social change will be examined with specific attention given to the major themes of Justice, Love, Nonviolence and Civil Disobedience that characterized his public life.

Course Attributes: GDST Race and Ethnicity Conc, Gender & Diversity Studies, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 238 - US Catholicism: Past & Present

3 Credit Hours
Explores the role of the Catholic Family, the response of Catholics to slavery and racism, the development of Catholic schools, the encounter of Catholicism with the larger culture, the tradition of Catholic social justice, and the growth of the local Ohio church.

Prerequisites: THEO111 or CORE105

Course Attributes: Catholicism & Culture Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 241 - Biblical Greek

3 Credit Hours

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 257 - Franciscan Spirituality

3 Credit Hours
This course provides an understanding of the life and message of Francis and Claire and their spiritual legacy for today. Taught on the site of Assisi, Italy, students gain an appreciation of the theological, spiritual and ethical challenges brought about by medieval urbanization and the increasing institutionalization of the church. The Franciscan response of voluntary poverty, solidarity with the suffering Christ, and apostolic preaching by word and example comes alive in the context in which Francis and Claire faced such challenges. Students will also explore the implications of Fraciscan insights and values to today's world.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 261 - Writings of St. Paul

3 Credit Hours
A close reading of the Pauline letters within their social and historical situation; the contribution of Paul towards the formation of revolutionary consciousness.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 264 - Synoptic Gospels

3 Credit Hours
Comparison of the basic theology of Mark, Matthew, and Luke with an analysis of the milieu out of which the gospel message arose and was transmitted.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 265 - Gospel of Mark

3 Credit Hours
Analysis of the Gospel of Mark in light of its historical, literary, and theological context.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 266 - Gospel of Matthew

3 Credit Hours

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 269 - Consumption as Problem

3 Credit Hours
This course engages students in a historically informed, theo-ethical construction of the problem of consumption with respect to how we understand and maintain relationships with the self, other, and creation.

Prerequisites: THEO111 or CORE105
Course Attributes: Theology Perspectives
Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 273 - Intro to Biblical Hebrew

3 Credit Hours
The goal of the course is to provide the student with a working knowledge of biblical Hebrew. At the end of the semester, the student will have acquired the skills needed to read independently passages directly from the Hebrew Bible, with the aid of a good grammar and lexicon. The initial teaching method is deductive; focusing on rules of grammar and syntax, forms of expression, vocabulary, and meaning. After that, the student will work from selections out of the book of Genesis, preparing annotated translations.

Prerequisites: THEO111 or CORE105
Course Attributes: Jewish Studies Minor, Theology Perspectives
Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 280 - Readings in Biblical Hebrew

3 Credit Hours
This course will incorporate an inductive approach to Biblical Hebrew at the undergraduate level. Students will read together in class actual texts from the Hebrew Bible; from Ruth, Jonah, and Deuteronomy (among others). Grammatical forms will be discussed and analyzed as they arise in the reading. Participants will gain knowledge in Hebrew vocabulary and idioms. Students will do this reading and analysis with the aid of a good grammar and lexicon.

Prerequisites: Undergraduate level THEO273 Minimum grade of D and (Undergraduate level THEO111 Minimum grade of D or CORE105)
Course Attributes: Theology Perspectives
Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 282 - Sem: Jesus Seminar

3 Credit Hours
An investigation into the historical authenticity of the Jesus traditions through intensive group work and debate.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 285 - The Historical Jesus

3 Credit Hours
A critical investigation to determine the authentic voice and profile of Jesus from sources of the first three centuries and a consideration of the consequences of such a search.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 289 - Death of Jesus

3 Credit Hours
The greatest detective story ever told? This course deals critically with the who, what, when, why and how of the death of Jesus of Nazareth.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 290 - Christian Doctrine Today

3 Credit Hours
A study of contemporary systematic issues or figures. (For majors and other qualified students.)

Prerequisites: THEO111 or CORE105

Restrictions: Must be enrolled in one of the following Majors: Theology

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 293 - Theology and Animals

3 Credit Hours
Using violence as a focus this course will analyze the ethical and religious implications of the way animals are treated in contemporary society. Also, it will examine how this treatment redounds upon human beings in spiritual, psychological, and physical ways. The Judeo-Christian scriptures and tradition will form the context for this exploration.

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 295 - Senior Seminar: Ideas & Method

3 Credit Hours
Examination of the public role and significance of theology in society and church, with special attention to different methodologies. Aims to help the student synthetically articulate and critically defend their own vision of a theology and spirituality responsive to the signs of the times of the new century.

Prerequisites: THEO111 or CORE105

Course Attributes: Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 301 - Church After Vatican II

3 Credit Hours
A study of the key documents of Vatican II, highlighting the key ideas which deeply affected the Catholic Church over the following decades. An overview of the developments which grew out of the Council in such areas as Catholic identity, leadership, ministry, liturgy, social awareness and relationship with other faiths.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 303 - Christian Ethics: Methods & Q

3 Credit Hours
Introduction to the methods and central questions of Christian ethics. (Limited to majors and other interested and qualified students.)

Prerequisites: THEO111 or CORE105

Course Attributes: ERS Focus Elective, Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 305 - Sociology of Religion

3 Credit Hours
Examination of the major components of religion, the interdependence between religion and other societal institutions, and religion's role in social conflict and change.

Prerequisites: THEO111 or CORE105

Course Attributes: ERS Focus Elective, Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 306 - Liberation Issues & Theology

3 Credit Hours
Origins and developments of the theology of the liberation movements of women, Latin Americans, blacks, and other marginalized groups.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Latin American Studies Minor, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 307 - Women of Catholicism

3 Credit Hours
The course studies the writings of women such as Julian of Norwich, Hildegard of Bingen, Dorothy Day, Flannery O'Connor, Annie Dillard, Helen Prejean, and Denise Levertov as an entree into discussion of Catholic theology, ethics and spirituality.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 309 - West African Religions

3 Credit Hours
This course investigates various manifestations of religion present in West Africa from traditional religions to Islam, Christianity in various forms, and these religions’ relation to social justice, the role of women, and politics. Offered for the service learning semester in Ghana.

Prerequisites: THEO111 or CORE105

Course Attributes: Gender & Diversity Studies, Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 310 - Marriage and the Family

3 Credit Hours
A closer look at human personhood and intimate relationships through the lens of traditional and contemporary teachings in an interdisciplinary approach that integrates theology, philosophy, social sciences, and human experience.

Course Attributes: ERS Focus Elective, Humanities Elective, Theology Perspectives
Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 311 - Faith and Justice

3 Credit Hours
Relationship between Christian faith and social justice viewed in Christian tradition and recent thought and documents of the Church.

Prerequisites: (THEO111 and PHIL100) or CORE105
Course Attributes: ERS Focus Elective, Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives
Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 312 - Christian Health Care Ethics

3 Credit Hours
Reflection on moral methodology and attention to health care policy, human ways of dying and other questions.

Prerequisites: THEO111 or CORE105
Course Attributes: ERS Focus Elective, Humanities Elective, Theology Perspectives
Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 313 - Christian Sexual Ethics

3 Credit Hours
Ethical criteria Christians use in judging human sexuality from its origins throughout its development. Sex role socialization and common options in sexual behavior. Fulfills the E/RS Focus elective.

Prerequisites: (Undergraduate level THEO111 Minimum grade of D and Undergraduate level PHIL100 Minimum grade of D) or CORE105

Course Attributes: ERS Focus Elective, Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 314 - Music, Art & Theology

3 Credit Hours
This course explores the power of music and art as vehicles of communion with the sacred, and forces for spiritual and social transformation in history. Students will approach the topic through many lenses: through case studies in rock, classical, and protest music; urban mural art and sacred iconography; texts from scripture, science, and the field of theological aesthetics; and through the lens of our own spiritual journeys.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 315 - Contemporary Ethical Issues

3 Credit Hours
Current issues in light of Christian faith. Contact instructor for specific issues to be studies in a particular semester. Fulfills E/RS Focus Elective.

Prerequisites: (Undergraduate level THEO111 Minimum grade of D and Undergraduate level PHIL100 Minimum grade of D) or CORE105

Course Attributes: ERS Focus Elective, Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 318 - Women and Early Christianity

3 Credit Hours
An investigation of women, sex and gender in early Christianity in light of the historical, social and religious context.

Prerequisites: THEO111 or CORE105

Course Attributes: Diversity Curriculum Require, GDST Women and Gender Conc, Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 319 - Anti-Semitism: The Great Hatred

3 Credit Hours
Traces the history and suggested causes of anti-Semitism within various cultural, political, religious and economic settings. Examines the forces which either reinforced or counteracted anti-Semitic attitudes and behavior. Also looks at contemporary manifestations of this ancient hatred.

Prerequisites: THEO111 or CORE105

Course Attributes: GDST Race and Ethnicity Conc, Gender & Diversity Studies, Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 322 - Black Theology

3 Credit Hours
An interior view into the Black theological experience. Need to look at theology from a black perspective. Roots of the Black Church as its response to bigotry in white churches and society.

Course Attributes: Africana Studies Minor, ERS Focus Elective, GDST Race and Ethnicity Conc, Gender & Diversity Studies, Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 323 - African Spirituality

3 Credit Hours
The aim of this course is to disclose and articulate the basic world views that mold African Traditional Spiritual unfolding and the consequent foundational and formative element in the ongoing disclosure and emergence of an African's humanity (spirituality).

Prerequisites: THEO111 or CORE105

Course Attributes: Africana Studies Minor, Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 328 - Intro to Christian Scriptures

3 Credit Hours
An introduction to the literature of the New Testament, its interpretation, and theological import. The student will acquire tools for the critical analysis of Scripture as well as explore the Christian Bible's historical, sociological, and cultural contexts.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 332 - Sacred Ground & New Story

3 Credit Hours
To better understand the environment and the harm being done to it. To better integrate Christian beliefs with environmental concerns.

Prerequisites: THEO111 or CORE105

Course Attributes: Environ Science/Studies Elect, ERS Focus Elective, Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 338 - Religious Ed & Youth Ministry

3 Credit Hours
An examination of the key dimensions of religious education and contemporary methods of teaching religious education.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 339 - SEM: Merton: Witness to Peace

3 Credit Hours
This seminar engages the life and writings of Thomas Merton, prophetic witness for peace and interfaith understanding and one of the most beloved spiritual writers of the twentieth century.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 342 - World Religions

3 Credit Hours
This course is an introduction to five of the world's major religious traditions: Islam, Hinduism, Buddhism, Confucianism and Taoism. Using a combination of lectures, video documentaries and discussions, we will approach these religions through their socio-historical developments, major doctrinal and philosophical patterns, moral-ethical teachings, devotional practices, and their place in today's world. Students are highly encouraged to ask questions and engage freely in discussion.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 343 - Dialogue Among World Religions

3 Credit Hours
The foundations for a greater ecumenism among all religions; how Christians can come to a more positive attitude towards other religions.

Prerequisites: THEO111 or CORE105

Course Attributes: ERS Focus Elective, Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 345 - The Challenge of Peace

3 Credit Hours
In-depth exploration of the personal, political, practical, and spiritual aspects of peace. Capstone course for the Peace Studies Minor.

Prerequisites: THEO111 or CORE105

Course Attributes: ERS Focus Elective, Humanities Elective, Latin American Studies Minor, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 346 - Hellenism Judaism Christianity

3 Credit Hours
The objective of the first part of this course will be to examine the major 'moments' in the intellectual encounter between Hellenism and Judaism in the period from Alexander through the end of the first century CE. In the second part of the course, we shall turn to Greco-Roman responses to Christianity, and the attempt by Christians to seek an identity for themselves as the 'third race', coming to claim for themselves the dual heritage of Hellenism and Judaism. The course is particularly suited to majors in Classics and Ancient History and majors in Theology and Philosophy whose interests lie in the Greco-Roman period.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Jewish Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 351 - Intro to Hebrew Scriptures

3 Credit Hours
An introduction to the literature of the Hebrew Bible, its interpretation, and theological import. The student will acquire tools for the critical analysis of Scripture as well as explore the Hebrew Bible's historical, sociological, and cultural contexts.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Jewish Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 352 - Judaism: Customs, Prac & Belie

3 Credit Hours
A basic understanding of Judaism and its component parts. Brief overview of Jewish history and study of holidays and life-cycle experiences.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 353 - The Holocaust

3 Credit Hours
The Holocaust in Europe during the Hitler period. Analysis of the causes and background of the destruction of European Jewry.

Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Jewish Studies Minor, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 355 - Introduction To Islam

3 Credit Hours
An historical and topical survey of the origins and development of Islam. Special emphasis on the emergence of Sunnism, Shiism, and Sufism as three distinct yet interrelated schools of thought and practice in Islam.

Prerequisites: THEO111 or CORE105

Course Attributes: GDST Race and Ethnicity Conc, Gender & Diversity Studies, Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 358 - Immigration Theology & Ethics

3 Credit Hours
This course will reflect on the histories and the contemporary phenomena of migration. It will seek to understand migration theologically, biblically, historically, and ethically in the broader framework of divine hospitality toward strangers and those often seen as "others." It will explore theologically and morally grounded ways to respond to the local and global realities of migration with faith, charity, and justice.

Prerequisites: THEO111 or CORE105

Course Attributes: Diversity Curriculum Require, GDST Race and Ethnicity Conc, Gender & Diversity Studies, Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 362 - Jesuit Theo & Spirituality

3 Credit Hours
An exploration of St. Ignatius's vision of "finding God in all things" through the lives and thought of twentieth century Jesuits who have had a profound impact on the global church of the twenty-first century. Special attention will be given to the vital relationship in Jesuit theology and spirituality between the mystical experience of God in all things and the commitment to justice, dialogue, and peace.

Prerequisites: THEO111 or CORE105

Course Attributes: Catholicism & Culture Minor, ERS Focus Elective, Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology
THEO 364 - Religion in an Age of Science

3 Credit Hours
Study of the recent findings of contemporary science concerning creation and human nature and the implications of these findings for Christian theology. Fulfils the E/RS Focus elective.

Prerequisites: THEO111 or CORE105

Course Attributes: ERS Focus Elective, Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 366 - Early Christianity in Rome

3 Credit Hours
Rome is a uniquely rich environment to study the art, architecture, literature and burial practices of the early Church in Rome. These elements then help us to appreciate the developing theology and community practices of these early Christians. This theology class begins with a discussion about the place of Rome in the imagination of the early Church, drawing on primary texts that relate the city to the experience of the early Church and its founders. Martyrdom in the early Church provides a focal point, and we consider the integral role of martyrdom in the construction of identity, authority and memory among the early Christians. The discussion of martyrdom becomes the basis for examining the catacombs in Rome. The art of the catacombs is one of our best visual witnesses for the developing identity and theology of the early Church. This art demonstrates the prominent place the Hebrew Bible and identity as "Israel" had in those constructions, even as new forms and images specific to Christianity witness theological development. Moreover, the catacombs also became important early on in the church's history as sites of memory and power associated with martyrs. Students explore the acts of imagination that go into the construction of memory and sacred space associated with these martyrs. In addition, since the catacombs also provide some of our best visuals of women in the early Church as they engaged in worship and communal life, we take advantage of this and devote some class time to consider women's activities in terms of early Christian primary documents, while also engaging our knowledge about women's public and private roles in the early Empire.

Prerequisites: THEO111 or CORE105

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies, Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 367 - African American Biblical Inte

THEO 367 - African American Biblical Inte

3 Credit Hours
This course will explore African-American biblical interpretation, both from historical and contemporary perspectives (from 1790 to the present). Students will examine a variety of approaches of perspectives among African-American interpreters; including interpretations from the context of slavery, distinctive interpretations from traditional African-American preaching (post-slavery), and interpretations from modern African-American biblical scholars.
THEO 368 - Buddhism

3 Credit Hours
A study of the historical developments, doctrinal and ethical themes, spiritual practices, and contemporary trends of Buddhism.

Prerequisites: THEO111 or CORE105

Course Attributes: Diversity Curriculum Require, Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

THEO 370 - New Testament and Politics

3 Credit Hours
This course will address questions of politics and power with regard to the New Testament. In this course, students will explore the political setting of the early Christian writings. We will devote significant attention to the role of the Roman Empire in the development of Christian theology, identity and practice, even as we consider the place of democratic discourse in early Christian communities. The course will also consider the relationship of politics and the New Testament in the modern era. As part of our work together, we will investigate the role of power and politics within modern Biblical interpretation, and the ongoing place of scripture in wider public, political discourse.

Prerequisites: THEO111 or CORE105

Course Attributes: Gender & Diversity Studies, Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

THEO 371 - Book of Revelation

3 Credit Hours
Comparison with other apocalyptic and political thinking of its time. Subsequent use in history of Church and culture (especially U.S.).
Prerequisites: THEO111 or CORE105

Course Attributes: Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 372 - Disability, Ethics & Theology

THEO 372 - Disability, Ethics & Theology

3 Credit Hours
In the tradition of contextual approaches to theology, like Feminist Theology and Black Theology, this course will reinterpret religious tradition and scriptures from the perspective of disability. There will be a particular focus on an ethical reinterpretation of scriptures and tradition, as it impacts disabled persons. Participants in the course will also reassess some religious practices in light of disability ethics.

Prerequisites: THEO111 or CORE105

Course Attributes: Diversity Curriculum Require, ERS Focus Elective, Gender & Diversity Studies, Humanities Elective, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 374 - Buddhist Christian Exploration

THEO 374 - Buddhist Christian Exploration

3 Credit Hours
The course will explore the fundamental doctrines of each tradition and look at some of the ways that each tradition gives expression in daily life, and how such action is related to the doctrinal and ritual expressions within the two traditions. In the second half, the course will explore the following these: the potential relevance of Buddhist and Christian contemplative practices for everyday life, and the moral demands of religion on the individual and society as well as Buddhist-Christian ways of learning from each other.

Prerequisites: THEO111 or CORE105

Course Attributes: Diversity Curriculum Require, Gender & Diversity Studies, Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives

Levels: Graduate Undergraduate

College of Arts & Sciences Theology

THEO 377 - Theo Themes in the Holy Land

THEO 377 - Theo Themes in the Holy Land

3 Credit Hours
This course will explore the religious landscape of modern Israel, focusing in particular on the three dominant faiths: Judaism, Christianity, and Islam. Students will learn about multicultural and political influences on the religions of Israel.
THEO 381 - Rel Dialog in the Holy Land

3 Credit Hours
During this study trip, students will explore the complex religious, political, and socio-cultural situation of first-century Palestine and its role in forming both early Christianity and early Judaism. This course will also encourage students to consider the trajectory of both modern Christianity and Judaism out of first century events.

Prerequisites: THEO111 or CORE105
Course Attributes: ERS Focus Elective, Humanities Elective, Theology Perspectives
Levels: Graduate Undergraduate

THEO 387 - Theology and Animals

3 Credit Hours
Using violence as a focus this course will analyze the ethical and religious implications of the way animals are treated in contemporary society. Also, it will examine how this treatment redounds upon human beings in spiritual, psychological, and physical ways. The Judeo-Christian scriptures and tradition will form the context for this exploration.

Prerequisites: THEO111 or CORE105
Course Attributes: Humanities Elective, Peace & Justice Studies Minor, Theology Perspectives
Levels: Graduate Undergraduate

THEO 388 - Theology & Ecology

3 Credit Hours
Exploration of the philosophical and theological issues underlying a sane approach to the protection of all life-forms within a finite world in which hard choices frequently have to be made.

Prerequisites: THEO111
THEO 388 - Wilderness & Rel Imagination

3 Credit Hours
Exploration of the philosophical and theological issues underlying a sane approach to the protection of all life-forms within a finite world in which hard choices frequently have to be made.

Prerequisites: THEO111 or CORE105

THEO 389 - Theologies of Food and Farm

3 Credit Hours
At a time when journalist Michael Pollan describes the United States as a culture with a ‘national eating disorder,’ what wisdom can we gain from theological sources to shape a renewed ethics and spirituality of food and farming? This course probes this question with special attention to Christian, Jewish, and native American traditions. The course fulfills a Sustainability Major requirement as well as a theology elective.

Prerequisites: THEO111 or CORE105

THEO 391 - Dialogue & Global Responsibilities

3 Credit Hours
This course explores how the state of the world, its needs and crises, is calling all religions to learn from and to cooperate with each other in creating a world of greater social and ecological justice and well-being.

Prerequisites: THEO111 or CORE105
THEO 404 - Rel/Ethics & Prof. Practice

3 Credit Hours
This course will enable students to recognize and appropriately respond to religious, spiritual, and ethical issues that arise in the context of professional practice in the fields of social work, criminal justice, nursing, psychology, occupational therapy, and ministry.

Prerequisites: (Undergraduate level PHIL100 Minimum grade of D and Undergraduate level THEO111 Minimum grade of D) or CORE105

THEO 430 - Ignatian Spirituality

3 Credit Hours

Prerequisites: THEO111 or CORE105

THEO 495 - Directed Study

1 - 3 Credit Hours
An undergraduate course of study done on an individual basis with a professor.

Prerequisites: THEO111 or CORE105

Levels: Graduate Undergraduate
THEO 501 - Intro to the Study of Theology

3 Credit Hours
This course is designed to provide a foundation for those who need a graduate-level background in theology. The course will introduce students to systematics, historical theology, biblical criticism, and ethics along with research skills appropriate to each area.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

THEO 502 - Christ Trad & Task of Understa

3 Credit Hours
Enables the student to confront fundamental elements of the Christian tradition and to become aware of the need for a critical methodology.

This course explores the theological/pastoral issues inherent in the understanding and practice of Christian worship: Word and Eucharist, initiation, reconciliation, among others.
Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Theology

THEO 530 - Contemporary Christologies

THEO 530 - Contemporary Christologies

3 Credit Hours
A study of various systematic approaches to the mystery of Christ and specific Christological models.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Theology

THEO 531 - God: Problem & Mystery

THEO 531 - God: Problem & Mystery

3 Credit Hours
Basic themes of the theological treatise on God (existence of God, atheism, creation, the Trinity) discussed within the context of fundamental questions of life (anxiety, death, evil, hope, and fulfillment).

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Theology

THEO 532 - Approaches to God

THEO 532 - Approaches to God

3 Credit Hours
After briefly reviewing the historical development of the classic formulation of the Christian doctrine of God, this course will explore a variety of contemporary approaches for understanding God. Approaches to be considered may include neo-orthodox, postliberal, liberationist, and feminist approaches. Topics to be considered include the reality of God; images of God; experience, scripture, hermeneutics and the God question; God and inter-religious dialogue.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Theology
THEO 533 - The Uniqueness of Christ

3 Credit Hours
The course will explore how Christians can affirm the uniqueness of Jesus in a world of newly experienced religious pluralism.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Theology

THEO 534 - Protestant Theology

3 Credit Hours
An exploration of important themes and issues in Protestant theology, including both classical and contemporary authors. The course may also include a comparison of the distinctiveness of Protestant theology in relation to Catholic theology.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Theology

THEO 537 - Franciscan Spirituality

0 - 3 Credit Hours
This course will foster a deep understanding of Franciscan spirituality through onsite exploration of the socio-historical milieu of Francis and Clare, readings of their works, readings of hagiographical accounts and secondary studies, and discussion of the theological and spiritual legacy of these two key Christian mystics. Immersion into the culture of Assisi will allow and experiential dimension to inform our appreciation of the Franciscan charism.

Restrictions: Must be enrolled in one of the following Levels: Graduate

Levels: Graduate

College of Arts & Sciences Theology

THEO 538 - Religious Ed & Youth Ministry

3 Credit Hours
Religious education and youth ministry are tasks that primarily belong to lay Christian leaders. This course will explore the challenges of education and mentoring adolescent faith and spirituality. This course will include theoretical and theological foundations as well as practical means to address these educational and spiritual challenges. This class will provide opportunities to discuss the field observation sessions that class participants will do in religion classes (Catholic High Schools) and/or youth ministry of various kinds.

THEO 650 - Holocaust Studies for Educator

2 Credit Hours
Designed for educators who already possess an undergraduate degree, Holocaust Studies for Educators participants will learn to personalize and humanize the Holocaust, making it relevant for students in their classrooms. At the workshop, participants will learn about the Holocaust by exposure to the stories of individuals with real names, faces, and experiences. They will hear first-hand testimony from survivors, refugees, and liberators whose homes are in the Cincinnati and Ohio area. Personalizing the Holocaust's survivors, victims, liberators and rescuers is an effective way for teachers to engage and challenge the youth of today. This workshop is offered in collaboration with the Center for Holocaust and Humanity Education.

**THEO 676 - American Catholic History**

**THEO 676 - American Catholic History**

**3 Credit Hours**
This course was inspired in part by Joseph Bernadin, who when Archbishop of Cincinnati stated in 1975: "Our past and our present, like the past and present of any nation, present a canvas of contrasting light and shadow, virtue juxtaposed with vice. We should not gloss over our failings, but neither should we fail to celebrate our achievements." Recognizing both weaknesses and strengths within the American Catholic Church, this course explores from an historical perspective the question, "What does it mean to be Catholic in the United States?" Both the power of reason and imagination will be engaged when addressing this question.

**Restrictions:** Must be enrolled in one of the following Levels: Graduate

BS, MA, PhD (Louisiana State University)
Associate Professor in School of Psychology
Program Director, Industrial-Organizational Psychology Program

ESMERALDA L. NASTASE (2007)
BA, BS, MS, PhD (Emory University)
Associate Professor of Mathematics

MATTHEW NEATROUR (2010)
BA, MS, PhD (Virginia Tech University)
Teaching Professor of Biology

W. MICHAEL NELSON, III (1978)
BS, MS, ABPP, PhD (Virginia Commonwealth University)
Professor in School of Psychology

LISA NIEHAUS (2007)
BSN, MSN (Xavier University)
Teaching Professor in School of Nursing

RHONDA NORMAN (2003)
BA, MA, MEd, EdD (University of Cincinnati)
Associate Professor of Counseling

JULIA C. O'HARA (2002)
BS, MA, PhD (Indiana University)
Associate Professor of History

STEPHEN PAUL O'HARA (2004)
BA, MA, PhD (Indiana University)
Associate Professor of History
Director, Private Interests & Public Good Program

PETER OHMANN (2017)
BA, MS, PhD (University of Wisconsin)
Assistant Professor of Computer Science

ADEKUNLE OKUNOYE (2003)
BS, MSc, PhD (University of Turku, Finland)
Associate Professor of Management Information Systems

DOUGLAS OLBERDING (1999)
BA, MA, EdD (University of Kentucky)
Associate Professor of Sport Studies
Chair, Department of Sport Studies

NIAMH J. O'LEARY (2010)
BA, MA, PhD (The Pennsylvania State University)
Associate Professor of English

BERTIN ONDJA'A (2016)
BA, MA, PhD (University of Cincinnati)
Visiting Faculty in Classics & Modern Languages

LAURA OPFER (2012)
BA, MEd (Xavier University)
Teaching Professor in Montessori Lab School

DANIEL E. OTERO (1989)
BA, MA, PhD (Pennsylvania State University)
Associate Professor of Mathematics

LISA ANN OTTUM (2011)
BA, MA, PhD (Indiana University)
Associate Professor of English

HEE-KYU HEIDI PARK (2015)
BA, MDiv, PhD (Claremont School of Theology)
Assistant Professor of Theology

ROGER PARKER (2007)
BS, PhD (The Ohio State University)
Teaching Professor in Chemistry

RANDALL PATNODE (1999)
BS, MA, PhD (University of North Carolina, Chapel Hill)
Associate Professor of Communication Arts

WALTKE R. PAULDING (2001)
BS, PhD (University of Florida)
Associate Professor of Biology

JAMES E. PAWLUKIEWICZ (1989)
BA, MS, PhD (University of Kentucky)
Professor of Finance

KELLY E. PHELPS (2003)
BFA, MFA (University of Kentucky)
Professor of Art
Chair, Department of Art

RICHARD F. H. POLT (1992)
BA, MA, PhD (University of Chicago)
Professor of Philosophy

LAURA POWELL (2017)
BA, JD (University of Dayton)
Teaching Professor in Accountancy

LESLEY ANN PROSAK-BERES (1988)
AB, MEd, PhD (University of Toledo)
Associate Professor in School of Education

DONALD M. PRUES (2003)
BA, MA (Xavier University)
Teaching Professor in English

ROSEMARY QUARANTA (2013)
BA, MEd (Cleveland State University)
Teaching Professor in Montessori Lab School

RONALD W. QUINN (1991)
BS, MEd, EdD (Temple University)
Associate Professor of Sport Studies
Director, Coaching Education & Athlete Development
TIMOTHY S. QUINN (1987)  
BA, MA, PhD (Catholic University)  
Professor of Philosophy  
Chair, Department of Philosophy

HAIDER RAAD (2015)  
BS, MS, MS, PhD (University of Arkansas)  
Assistant Professor of Physics

STACEY RAJ (2017)  
BS, MA, PhD (Miami University)  
Assistant Professor in School of Psychology

ANNE RANDOLPH (2015)  
BS, MACC (Miami University)  
Teaching Professor in Accountancy

DAVID RANDOLPH (2008)  
BS, MBA, PhD (Indiana University)  
Associate Professor of Accountancy

CAROL H. RANKIN (1984)  
BA, MA, PhD (University of Houston)  
Associate Professor of Economics

LESLIE RASMUSSEN (2014)  
BA, MA, PhD (University of Southern Mississippi)  
Assistant Professor of Communication Arts

ANN MARIE RAY (2010)  
BA, MS, PhD (University of Illinois, Urbana-Champaign)  
Associate Professor of Biology

JOHN RAY (1989)  
BA, MA, PhD (University of Chicago)  
Associate Professor of Political Science  
Director, International Studies

DAVID F. REID (2002)  
BA, MA, PhD (University of South Carolina)  
Teaching Professor in English

KIMBERLY RENNERS (2013)  
BS, MBA (Xavier University)  
Teaching Professor in Finance  
Director, Fifth Third Training Center

KRISTEN RENZI (2013)  
BA, MA, PhD (Indiana University)  
Assistant Professor of English

MARIE REYNOLDS (2008)  
RN, BSN, CNL, MS, MSN (California State University)  
Teaching Professor in School of Nursing

BRENT G. RICHARDSON (1997)  
BA, MEd, EdS, EdD (The College of William and Mary)  
Professor of Counseling  
Chair, Department of Counseling

VANESSA M. RIGAUD (2016)  
BA, MS, EdD (St. John Fisher College)  
Assistant Professor of Education

MIA RIVOLTA (2015)  
BS, MS, PhD (University of Tennessee)
Assistant Professor of Finance

JENNIFER R. ROBBINS (2007)
BS, PhD (Stanford University)
Professor of Biology

SARA ROSENTHAL (2017)
BS, MSN, PhD (John Hopkins University)
Assistant Professor in School of Nursing

BERND E. ROSSA (1994)
MS, PhD (Vanderbilt University)
Associate Professor of Mathematics

LESLEY ROTH (2017)
BS, MED (Xavier University)
Teaching Professor in School of Education
Director, Montessori Education & Montessori Institute

RITA ROZZI (2013)
BA, JD (University of Cincinnati)
Teaching Professor in Intensive English Program

ALISON RUSSELL (1992)
BA, MA, PhD (University of Cincinnati)
Associate Professor of English

ZACHARY RUSSELL (2015)
BA, MBA, PhD (Florida State University)
Assistant Professor of Management, Entrepreneurship & HR

THOMAS RUTHEMEYER (2004)
BBA, MBA (Xavier University)
Teaching Professor in Health Services Administration

NICHOLAS L. SALSMAN (2007)
BA, MA, PhD (University of Louisville)
Associate Professor of Psychology
Director, Psychological Service Center

JAYLENE KRIEG SCHAEFER (2012)
BA, MSW, PhD (Indiana University)
Assistant Professor of Social Work

CAROL SCHEERER (1995)
BS, MEd, PhD (University of Cincinnati)
Associate Professor of Occupational Therapy
Chair, Department of Occupational Therapy

CLINTON B. SCHERTZER (1974)
BSBA, MBA, PhD (University of Cincinnati)
Associate Professor of Marketing

SUSAN M.B. SCHERTZER (2016)
BSBA, MBA, PhD (University of Cincinnati)
Associate Professor of Marketing

SUSAN M. SCHMIDT (1980)
BSN, COHN-S, CNS, MSN, CNL, PhD (University of Cincinnati)
Professor in School of Nursing
Director, School of Nursing

HEIDRUN SCHMITZER (2002)
BS, PhD (University of Regensburg)
Professor of Physics
LINDA SCHOENSTEDT (2010)
BA, MA, MST, EdD (Montana State University)
Associate Professor of Sport Studies

ALEX SCRIMPShIRE (2017)
BS, MBA, PhD (Oklahoma State University)
Assistant Professor of Management, Entrepreneurship & HR

AMIT SEN (2002)
BA, ME, PhD (North Carolina State University)
Professor of Economics

MARK SENA (2000)
BBA, MBA, PhD (University of Kentucky)
Professor of Management Information Systems

JOSHUA SHANKLIN (2013)
BA, MEd (Xavier University)
Teaching Professor in Montessori Lab School

MARTHA SIMMONS (2006)
BS, MBA (Winona State University)
Teaching Professor in Classics & Modern Languages

STEPHANIE SISAK (2006)
BS, MBA (Xavier University)
Teaching Professor of Finance

KALEEL C. SKEIRIK (1983)
BM, MM, PhD (University of Cincinnati)
Professor of Music

STEPHEN SKILES (2012)
BA, MFA (Ohio University)
Associate Professor of Theater
Director, Theatre Programs

GREGORY SMITH (2006)
BS, MA, PhD (Virginia Tech)
Associate Professor of Management Information Systems
Chair, Management Information Systems Department

KATHLEEN R. SMYTHE (1997)
BA, MA, PhD (University of Wisconsin)
Professor of History
Director, Land, Farming, and Community Sustainability Program

JOHN H. SNIEGOCKI (2001)
BA, MA, PhD (University of Notre Dame)
Associate Professor of Theology

JAMES T. SNODGRASS III (1989)
AB, MS, PhD (Vanderbilt University)
Professor of Mathematics

GRIGORY SOLOLOV (2017)
BS, MS, PhD (University of Southern California)
Assistant Professor of Mathematics

TAMMY SONNENTAG (2014)
BS, MS, Ph.D. (Kansas State University)
Assistant Professor in School of Psychology

ROBIN C. SOTELO (1998)
BA (University of Cincinnati)
Teaching Professor in Classics & Modern Languages
KARIM M. TIRO (1999)
BA, MA, PhD (University of Pennsylvania)
Professor of History
Chair, Department of History
Faculty Director of Study Abroad

DAVID TOBERGTE (2007)
BA, MEd, EdD (University of Cincinnati)
Teaching Professor in School of Education

REBECCA TODD (1997)
BA, MA (University of Louisville)
Teaching Professor in English
Director, Writing Center

DAWN TOLOMEN (2015)
BBA, MBA (Xavier University)
Teaching Professor in Management, Entrepreneurship & HR
Director, Sedler Center Experiential Learning in Business

KIMBERLY TOOLE (2011)
BSN, MSN, CNP, APRN, DNP (University of Cincinnati)
Assistant Professor in School of Nursing

NORMAN TOWNSEL (2013)
PhD (University of Louisville)
Teaching Professor in Counseling

BETH TRACY-KALISKI (2015)
BS, MEd (Xavier University)
Teaching Professor in Montessori LabSchool

ELENI TSALLA (2006)
BA, MA, PhD (University of South Florida)
Associate Professor of Philosophy

JOAN TUNNINGLEY (2006)
BS, MS (Xavier University)
Teaching Professor in Occupational Therapy

MARY KATHERINE UETZ (2002)
MFA (University of Cincinnati)
Teaching Professor in Art Department

Associate of Arts (Misericordia)
Teaching Professor in Classics & Modern Languages

DEBRA VAN KUIKEN (2010)
BS, BSN, PhD (University of Cincinnati)
Associate Professor of Nursing
Associate Director, Graduate Programs Nursing
Chair, Faculty Committee

WINSTON E. VAUGHAN (1999)
BS, MEd, PhD (Miami University)
Associate Professor of Education

MARY LISA VERTUCA (1976)
BS, MEd (Xavier University)
Senior Teaching Professor in School of Education
Program Director, Early Childhood and Middle School Programs

MARITA von WEISSENBERG (2015)
BA, MA, MPhil PhD (Yale University)
Assistant Professor of History
THOMAS RICHARD WAGNER (2004)
BS, MA, PhD (Kent State University)
Associate Professor of Communication Arts

JANICE B. WALKER (1980)
BS, MS, PhD (University of Michigan)
Associate Professor of Mathematics
Chief Diversity and Inclusion Officer

FRANCE WEAVER (2017)
BS, MS, PhD (University North Carolina)
Assistant Professor of Health Services Administration

SHELLEY E. WEBB (1992)
BA, PhD (University of Kentucky)
Professor of Finance

ANDREA B. WEICKGENANNT (2009)
BBA, CPA, MBA (University of Maryland)
Assistant Professor of Accountancy

MICHAEL E. WEISSBUCH (1974)
BA, MA, PhD (Loyola University-Chicago)
Associate Professor of Sociology

CHRIS WELTER (2014)
BS, PhD (The Ohio State University)
Assistant Professor of Management, Entrepreneurship & HR

LAURA WESSELS (2015)
BA, MS, PhD (North Carolina State University, Raleigh)
Assistant Professor of Physics

AMY WHIPPLE (2006)
BA, MA, PhD (Northwestern University)
Associate Professor of History
Director, Jewish Studies Program

GWENDOLYN WHITE (2015)
BA, MA, MCP, MBA (Morehead State University)
Teaching Professor in Management Information Systems

TIMOTHY WHITE (1990)
BA, MA, PhD (University of Michigan)
Professor of Political Science

BRENDA WILES, (2013)
BSN, MSN, MEd, DNP (Case Western Reserve University)
Assistant Professor of Nursing
Associate Director, Undergraduate Programs, Nursing

TYRONE WILLIAMS (1983)
BA, MA, PhD (University of Michigan)
Professor of English

CAROL L. WINKELMANN (1991)
BA, MA, PhD (University of Michigan)
Professor of English

KATHLEEN WINTERMAN (2005)
BS, MEd, PhD (University of Cincinnati)
Associate Professor of Education
Program Director, Special Education
KAM C. WONG (2006)
BA, JD, MA, PhD (State University of New York, Albany)
Associate Professor of Criminal Justice

JAMES WOOD (2011)
BA, PhD (Boston University)
Associate Professor of Philosophy

LIFANG WU (2004)
MBA, PhD (University of Iowa)
Professor of Management, Entrepreneurship & HR

JODI L. WYETT (2000)
BA, MA, PhD (Wayne State University)
Professor of English

STEPHEN A. YANDELL (2003)
BA, MA, PhD (Indiana University)
Associate Professor of English
Director, University Scholars

DAVID YI (2005)
BA, MS, PhD (University of Illinois)
Associate Professor of Economics
Chair, Department of Economics
Co-Director, Center for Pricing Excellence

XIAOYAN LAURA CHEN YOUDEERIAN (2012)
BA, PhD (Kansas State University)
Assistant Professor of Economics

TERESA L. YOUNG (2008)
BS, MEd, EdD (University of Cincinnati)
Associate Professor of Education
Director, School of Education

BIN YU (2010)
BE, BA, MA, PhD (University of Colorado)
Associate Professor of Political Science

KAN YUE (2017)
BS, MA, PhD (Purdue University)
Assistant Professor of Economics

VICTORIA ZASCABAGE (2006)
BA, MA, PhD (Texas Woman's University)
Associate Professor of Education

DAVID ZOOKAH (2016)
BA, MBA, MLHR, PhD (The Ohio State University)
Associate Professor of Management, Entrepreneurship & HR

RENEE ZUCCHERO (2002)
BS, MA, PhD (Ball State University)
Associate Professor of Psychology

***The date in parenthesis is the date of first appointment at Xavier.

ROGER A. FORTIN 1966-2016
Professor of History

KARL P. WESTERSDORF 1956-1987
Professor of English
JAMAL ABU-RASHED 1989-2011  
Professor of Economics

*Professor of Nursing*

PAUL F. KNITTER 1975-2002  
*Professor of Theology*

TIMOTHY J. KLOPPENBORG 1990-2013  
*Professor of Management*

ALEXANDRA S. KORROS 1986-2017  
*Professor of History*

LON S. KRINER 1978-2011  
*Associate Professor of Education*

EARL J. KRONENBERGER 1962-1993  
*Professor of Psychology*

HILRETH LANIG 1989-2011  
*Assistant Professor of Nursing*

WILLIAM J. LARKIN III 1956-2003  
*Professor of Mathematics*

MARY ANN McCONNELL-FODOR 1981-2002  
*Associate Professor of Education*

MARTHA A. McDERMOTT 1967-1992  
*Assistant Professor of Education*

*Associate Professor of Education*

DANIEL J. McLOUGHLIN 1982-2013  
*Associate Professor of Chemistry*

SARAH MELCHER 1999-2016  
*Associate Professor of Theology*

BONNIE J. MILLER 1981-2002  
*Associate Professor of Nursing*

RAYMOND E. MILLER 1965-2002  
*Professor of Physics*

JON D. MOULTON 1967-2007  
*Associate Professor of Political Science*

ROBERT J. MURRAY 1960-1997  
*Professor of Classics*

SUSAN K. NAMEI 1989-2010  
*Assistant Professor of Nursing*

RAY O. NULSEN JR 1989-2003  
*Associate Professor of Marketing*

PRISCILLA M. O’CLOCK 1992-2015  
*Professor of Accountancy*
KENNETH R. OVERBERG SJ 1978-2015
Professor of Theology

DAEWOO PARK 1992-2015
Professor of Management, Entrepreneurship & HR

MILTON A. PARTRIDGE 1966-1991
Professor of Education

CHARLOTTE PROFFITT 1989-2002
Associate Professor of Nursing

CLAROY (SALLY) W. PRUDEN 1975-1993
Professor of Education

RICHARD J. PULSKAMP 1977-2015
Professor of Mathematics

GERALD QUATMAN 1962-2002
Professor of Psychology

JACK REAMY 1991-2006
Associate Professor of Health Services Administration

JO ANN M. RECKER SND 1988-2014
Professor of Classics & Modern Languages

JOHN RETTIG 1968-1996
Professor of Classics

JOHN G. RICHARDSON 1973-2006
Associate Professor of Criminal Justice

LINDA S. RIEG 1992-2008
Associate Professor of Nursing

HELMUT J. ROEHRRIG 1981-2002
Professor of Music

JOHN C. ROTHWELL 1964-1992
Professor of Finance

IDA CRITELLI SCHICK 1992-2013
Professor of Graduate Program in Health Services Administration

THOMAS A. SCHICK 1990-2006
Assistant Professor of Communication Arts

LINDA SCHMID 1990-2016
Assistant Professor of Nursing

BERNARD SCHMIDT 1980-1999
Professor of Art

HANS SCHMIDT 1967-1992
Professor of Psychology

JANET R. SCHULTZ 1997-2017
Professor of Psychology

ARTHUR SHRIBERG 1983-2014
Professor of Management

CAMILLE P. SCHUSTER 1988-2003
Professor of Marketing
ROBERT A. SCHUTZMAN 1961-1994
Professor of Accounting

ROMAN J. SCHWEIKERT 1964-1987
Professor of Education

PAUL L. SIMON 1963-2002
Professor of History

DAVID L. SMITH 1981-2007
Associate Professor of Communication Arts

JAMES M. SOMERVILLE 1971-1982
Professor of Philosophy

JOSEPH M. SULLIVAN 1967-1993
Professor of Education

JOHN F. TAFURI 1951-1990
Professor of Biology

DEBORAH TESCH 1999-2017
Associate Professor of Management Information Systems

STANLEY C. TILLMAN SJ 1969-1987
Professor of Philosophy

TERRENCE P. TOEPKER 1966-2007
Professor of Physics

ANN MARIE TRACEY 2003-2017
Associate Professor of Legal Studies

GEORGE G. TREBBI JR 1973-2004
Professor of Marketing

JAMES TURNER 2006-2017
Associate Professor of Management, Entrepreneurship & HR

EDWARD J. VANDERBECK 1976-2007
Professor of Accountancy

JOHN E. VANKIRK 1971-1995
Professor of Marketing

MATIAS G. VEGA 1954-1994
Professor of Modern Languages

MARY WALKER 1990-2016
Professor of Marketing

PETER B. WEBB 1968-1995
Associate Professor of Information Systems

JOSEPH WESSLING 1966-2000
Professor of English

EDWARD WILZ 1986-1995
Professor of Accounting

ROBERT E. WUBBOLDING 1969-2001
Professor of Education

ROBERT ZIMMERMAN 1970-2003
Professor of Economics & Human Resources
*** Dates represent years of service to Xavier.

ANNE DAVIES (1999)
BA, MSLS (University of Kentucky)
Head Resource Management and Sharing

BA, MLIS (Drexel University)
Digital Initiatives Librarian

VICTORIA L. YOUNG (1985)
BA, MEd, MLS (University of Michigan)
Head, Reference and Instruction Services

Alma Mater
Alma Mater Xavier

Xavier is our family tree,
Rooted in one history.
Nurtured by our legacy,
Xavier's humble pedigree
Branches out to touch the same
God we call by many names,
And aglow in love aflame,
Bear the fruit of Xavier's fame.

Fame that no one can impeach
Growing to extend our reach,
Planting fertile seeds in each
Soul and mind we serve and teach.
One community we stand,
Building dreams and hopes with hands
Stretching out across the land
For each woman, child and man.

Composed by Dr. Thomas Merrill and Dr. Tyrone Williams
in celebration of Xavier University’s 175th anniversary.
